A Booster for Goods Roads in Foard

I am going to break a lifelong

There may be some who will think and say that having waited this long I should not break into print now, but I believe that when a man sees the error of his way he should come clear and confess his sins.

I think that anyone who has been over the roads from Crowell to this place in the last thirty days would vote for the bonds; and my recollection is that the roads in Foard been such as would cause most any one to vote for good ones, and hard surfaced ones at that.

Now the reason I was against the bond issue is that I had never driven a car on a good road and did not as at any other time. The dirt roads the actual transportation cost of the years past stood in the way of a ho-Kennedy, a distance of 28 miles, it most disagreeable time I think I ever spent. The time has come in which work should begin on the music memory contest. It is not necessary that the purpose of this school activity be extensively explained, since this will be the third annual contest held in Foard County and the community at large is familiar with it. However it may be stated, as has been done in connection with the former contests, that the sole purpose of the contest is to furnish a means by which the school children of Foard County may become familiar with the best music and musical com-

posers, that it may become a part of their everyday life. Mirabean B. Lamar, a noted character in the annals of the history of this state has said that "cultivated mind is the guardian genius of democracy. . . . It is the only dictator that freemen acknowledge and the only security that freemen desire." That the appreciation of music is one great factor in the production of "cultivated mind" is an accepted fact. This is the principle which underlies the purpose of the music memory contest.

If special courses in music appreciation or in Public School Music could be given in the schools of this county, then the music memory contest would be unnecessary. At present no school has this advantage and the contest offers the only means by which a form of music appreciation work may be carried on.

It is hoped that every school in

the county will engage in this work this spring.

The final contest will be held in

connection with the county inter-scholastic league meet, which is us-ually held early in April.

Each school participating in the contest will be represented by a team of four pupils from the pri-mary department (the first mary department (the first four grades) and a team of four pupils from the intermediate department. If the work is conducted in only one department in a school, then one department in a school, then that school will be represented by the team from that department. While the number of final contestants from each school is only a very small per cent of the whole enrollment of the schools, it does not follow that those pupils are the only ones who will profit or be benefitted by the work. If it is conducted properly, every child will be ducted properly, every child will be the richer in an important element which must be present in "cultivated mind" before it can become such.

Those schools which already have talking machines or phonographs will have to purchase only the rec-The schools which do not have these machines can secure one at a moderate cost and the results of the investment will be well worth the money used. The list of selec-tions to be used is composed of twen-ty numbers. The first fifteen numbers as listed below comprise the list

and the nationality of the composer of the twenty numbers. This will be given in writing. Further rules will Let Your Letters Be Written On

Benjamin Franklin, an apostle of thrift, once said that the use of money was the only advantage of having it.

Franklin's philosophy is as applicable today as it was in his time. Everyone has uses for money—the big problem is "having money.

There is only one way to have money and that is to save it. And the only way to save it is to follow a regular, systematic plan by which you law away a fixed amount at stated intervals.

Oregon has spent \$99,001,922 on state highways, in ten years' administration of the state highway last Saturday in their car for Aus-

department. Important items of expense are 550 miles bituminous paving, 178 miles concrete paving, 2, 137 miles crushed rock or gravel surfacing, and 2,491 miles of grading; besides 575 bridges of more than 20-foot span.

Oregon would not go back to the roads of a decade ago, for twice the cost of the system; the state couldn't afford to do it. But the report of the highway commission contains the wholesome suggestion that now is not the time to go deeply into yet other new roads. Washington, with state highway mileage only 75 per cent as great, has 50 per cent more automobiles using the road system; and California, with only 46 per cent more state highways, has seven times as many automobiles as Oregon.

The decirity will meet in the home of Mrs. George Self in a study of the last chapter of the book now being taken in the study course. All are urged to come.

We had no meeting of the society Monday. We wish again to

times as many automobiles as Oregon.

The advice of the highway commission is good. Oregon has one of the best laid out and best built state highway systems in the United States. The next move is to put a suitable waterproof wearing surface on the existing county roads which lead into the state highways. Marion County has led the way in such a program, and is one of the best paved counties in the country. It simply covers its existing well packed gravel and macadam road base with three inches of asphaltic concrete. Some of these roads have now been down over 10 years with little or no maintenance expense.

—plus an Amazing Reduction in Prices!

America has always expected great things from its greatest industry. But the announcement of the Most Beautiful Chevrolet has been the automotive sensation of all time!

Here is a car which in beauty, luxury, quality and modern design challenges the cotsliest creations of the day.

Here, in a price class where average standards have been the rule, is now offered a car so far beyond all expectations that comparisons cease

Seven superb models styled as low priced cars were never styled before and offering such marks of fine car distinction as: full crown one-piece fenders, bullet type lamps and "fish tail" rear deck modeling! New and supremely beautiful bodies by Fisher! And, above all, infinitely finer quality-the result of a host of additional improvements such as AC oil filter, AC air cleaner, coincidental steering and ignition lock, large 17-inch steering wheel, gasoline guage and many, many others!

All this is combined to a supreme degree in the long famous leader of the Chevrolet line-the Coach. It would be a brilliant achievement for any manufacturer merely to design such a splendid car to sell at any reasonable low price. But to sell it at the amazing price of \$595 is a feat of history making proportions. This one price reduction alone would suffice to center worldwide attention on Chevrolet. But due to economies of tremendous production plus the vast resources of General Motors, Chevrolet also announces striking reductions on other models.

For years Chevrolet has led the world in providing Quality at Low Cost. But now with a new and more beautiful car-with a car infinitely finer in quality and greatly lower in price, Chevrolet stands supreme and unchallenged in dollar-for-dollar value!

No matter in what price class you intend to buy or whether you plan to spend more or less than the price of a Chevrolet, come in today and see the most beautiful low priced Coach ever designed. Admire its marvelous style and grace! Mark its many new fine-car features! Learn for yourself by personal inspection why, at its new low price, it is the greatest sensation of America's greatest industry!

"I have found Black-Draught to be the finest kind of a remedy for this. I take Black-Draught and make a ten out of it, and take it, along in small coses for several days. I have rever found anything that served me so well.

"Since I have known about Black-Draught, Phave not suffered nearly so much with headache, caused from indigestion. If I find my tongue is coated, and I wake up with a bad taste in my mouth, I know I have been eating indiscreetly, and I immediately resort to Black-Draught to straighten me, out."

ART CONTEST NOTES

Now that most of the children are school for the full term, let's begin the art work in real earnest. There is very little expense attached to this and as all teachers do more less picture appreciation work, this is merely a step toward systematic picture study over the county. Nothing new whatever. I earnestly trust that each school in the county will enter. 'Please let's have every one represented in at least one department if not all three. You will be surprised how interested both pupils and patrons will become. There is yet ample time for all as he contest will not close until Feb.

It is suggested that the entire community be interested in the work. Local art programs and exhibits are interesting. Make much of the local your parent-teachers club to offer individual prizes to all standard of excellence," 95 cent average. I find most clubs

anxious to co-operate in this way.

The local contests may be held at any time between now and Feb. 18 in any manner decided upon by local teacher. However of course observing the following rules: The first four grades answer orally, first and second giving only name of picture and name of artist. Third and fourth grades will be required to give name of picture, name and The primary grades will count off 3 1-3 points each for failure to give correctly either name of picture, name of artist or nationaltiy. In-termediate and high school will count off 2 1-4 points each for failure to give correctly either name of picture, name of artist or nationality of artist; 1-2 of 1 point for any misspelled word. Every child on the present roll who has been present as much as 10 days of the 20 days preceding the local contest is to be included in making room and department averages. Each depart-ment in each school scoring an average of 95 per cent or better will

be given a prize.

Please, all schools, send reports not later than Feb. 22 to Mrs. R. E. Sparks, Foard City, Texas, County Art Contest Chairman.
