Some Benefits to Be Derived from Paved Roads

The proposition of paving Lee Highway across Texas is well under way. The road will traverse Wilbarger, Foard, Cottle, Mbley, Floyd, Hale, Lamb, Bailey and Farmer counties. Bond elections have been carried in Wilbarger, Cottle and Mbley counties. The election is to be had in Foard County April 27, and elections will be held in Hale and Floyd about June 1st, it is said, and the other western counties are to follow soon. The paving of Lee Highway would mean that Foard County would be on a paved road which would connect it with all the principal marketing centers of Texas and the Nation. We must pave our portion of the highway to be in line and share the benefits of the entire road.

It would give us access to markets by trucks with perishable products such as milk, cream, vegetables, hogs, chickens, eggs, etc., and would therefore stimulate the production of these diversified lines of farm activities.

It would give access to local markets by a large portion of the farmers of this county during all kinds of weather. It would mean prompt marketing, thus saving considerable losses to the farmers.

It would promote tourist travel through this section and increase it several hundred per cent and ultimately bring hundreds of settlers to the county to help in its development and growth. Connected with that would be its advertising value that could not be estimated.

Finally, it would mean a big thing to the home people in the saving of time and hundreds of dollars annually in the wear and tear of their automobiles and trucks, to say nothing of the comfort and satisfaction of traveling over good roads in all kinds of weather.

Another reason why we should pave is because we have no assurance that federal aid is going to be available long, and the probability is that it will be withdrawn within a few years. Then we should be forced to pay entire cost of construction, while now we expect to receive two-thirds from the State and Federal Governments.

Still another reason why we should pave now is that movements are being set in motion to build new roads north and south of us. Should they beat us and get hard-surfaced roads we shall be left in the mud but will continue to pay taxes to help them and others to build. There is certain to be a heavy demand on the State Highway Commission for aid and the sooner we get in the better chance we shall have to be favored.

The bonds will be in the hands of the county commissioners who will make their own trade with the State Highway Commission in securing State and Federal aid. They will handle the bonds and sell them. In case there is a delay in securing State and Federal aid, the commissioners court can hold the bonds and not sell them and thus avoid the levying of a tax until they are sold. In other words, it will not be necessary to levy a tax until they are assured that aid is forthcoming. So we are in reality voting for bonds upon the condition that aid is to be extended.

These are only a few of the reasons we think Foard County ought to vote for the bonds. Let no one think for a moment that we are telling him what he ought to do. We are merely giving our reasons for favoring the proposition. If we have done what we could to call attention to the benefits the highway will be to the county and then it is defeated, we shall feel that the responsibility is not with us.

We feel that this is an opportunity that Foard County cannot afford to reject, and we believe that when every one has thought about it seriously he will see the wisdom of voting for bonds.

Attend Meeting at Vernon Friday Night

J. F. Long, M. S. Henry, H. E. Ferguson and Mack Boswell attended the annual banquet of the Vernon Chamber of Commerce at the invitation of that organization Friday night. This was held at the Wilbarger Hotel and was attended by about 200 persons.

Bell Ships Two Cars Cattle to Ft. Worth

J. W. Bell shipped two cars of cattle to the Fort Worth market last week, and while he was away went on down to his ranch at Valentine and received 175 cows which he had contracted for some time ago. These he is putting on his ranch and is going to restock it. For a year Mr. Bell has had his Southwest Texas ranch leased but recently decided to restock.

He says the range is fine in that country and the cattle business is looking up.

Week's Revival at Methodist Church Closed

The week's revival which had been in progress at the Methodist church since Sunday, April 10, closed Sunday night.

The visible results of the meeting is that there were 25 conversions and fifteen additions to the Methodist church. Also that the spirituality of Christians who attended these meetings was greatly strengthened.

Rev. W. J. Mayhew, pastor of the church, did mighty good preaching all the way through and the person who thinks seriously about matters of religion could not go from a service without being influenced to a higher standard of Christian living.

It was a very fine series of services and it is great to know that there was the heartiest co-operation on the part of many of every persuasion in the city. Especially was this true with the other ministers here.

Make Pictures of Tournament for Pathe News

Mack Boswell, secretary of the Chamber of Commerce, is in receipt of a letter from Fred Bockleken, Chairman of the Texas Film Company at Dallas, stating that the company will have two cameramen here on one day of the tournament at the Minnick ranch to take pictures for the Pathe News.

These will be sent all over the United States and will be run on the screen of thousands of picture shows, giving Crowell valuable publicity.

This letter was in response to a communication sent out by Mr. Boswell telling of the coming event and extending the invitation. He also invited the Fox News and has been advised that they may possibly be here.

He also invited the Educational Film Co., but has received no reply from them.

BEEF CANNING DEMONSTRATIONS ARE POPULAR

Beef canning is becoming more popular in the county as the operation of the modern canning equipment is learned. Last week Mrs. J. B. Rasberry canned a beef at her home in the Vivian community. Despite the fact that the roads were very muddy there was an attendance of about twenty people. Beef canning demonstrations as they have been held, are very enjoyable occasions as well as instructive and profitable. It has been the style to have a barbecue lunch at noon with pickles, pie, cake and the various trimmings that make barbecue worthwhile.

F. C. Borchardt also canned a beef last week at his farm in the Beaver community. Mr. Borchardt has the canning equipment and it might also be mentioned that he practices a "live at home" program throughout the year.

This canning equipment not only makes it possible to have canned beef, but it makes it possible to keep corn, tomatoes, beans, peas, pumpkins, and the various kinds of vegetables that are difficult to preserve by the old canning methods. These vegetables with plenty of milk and butter, chickens and eggs and a meat hog or two would be a long ways toward living at home. We have good years and bad years as our vegetables and fruits are concerned, and if we are properly equipped to preserve the surplus during the good years, the bad ones will not be such a source of worry.

The First State Bank to Install Modern Fixtures

The First State Bank is going forward with its plans to install modern fixtures about the first of May.

The management feels that for the convenience of their customers and the working force they should make the changes they have had in mind for some time. The old fixtures have been in for several years and are really not entirely in keeping with the modern idea, so it is desired that the bank keep step with present progress.

While the principal changes will be in the fixtures, there will be some changes made in the arrangement of things that will add to the appearance and convenience of the bank.

In short the management says when they shall have made the addition of fixtures and the changes there will be no bank in West Texas that will be more modern in every particular than the First State Bank of Crowell.

County Wide Meeting of C. of C. Friday

A good program will be rendered at the Methodist church Friday night, featuring musical numbers both local and from the visiting communities of the county. Mrs. J. U. Fields, president of the Texas Federation of Women's Clubs, will give the principal address of the evening. There will also be several musical numbers by singers from various communities and selections will be rendered by the local orchestra and a few short addresses will be delivered by local speakers.

The meeting will be one of a get-together nature and to acquaint the county with the plan and work of the Chamber of Commerce for the year. The Thalia band and the popular Ukelele girls there will be on the program. Foard City and Rayland will be represented by musical and reading numbers. The meeting is open to everybody.

Plans for the part that Foard County will take in the West Texas C. of C. convention at Wichita Falls, May 16 and 17, will be discussed. A plan is being worked up now to have an auto caravan leave Crowell early Monday morning of May 16, with re-inforcements from Vivian and Foard City and then proceeding to Margaret to join the delegation there and from there to Thalia. The invasion of Wichita Falls will be started after the delegation is completed at Rayland. Bert Self, chairman of the convention committee, is working up a number of novel features and stunts to go with the caravan. Several merchants have already indicated that they will close on this day and are anxious for the town as a whole to declare a holiday and join hands for the biggest time of the year.

M. S. Henry to Be Our Spokesman at Childress Meeting

At the district convention of the West Texas Chamber of Commerce to be held at Childress on May 5, M. S. Henry will be the speaker from Crowell and will select his own subject. Mr. Henry is the unanimous choice for this honor.

A number of Crowell representatives are expected to attend this meeting.

Secretary of the Chamber of Commerce Mack Boswell made a trip to Childress Saturday on business in connection with the Wichita Falls meeting of the West Texas Chamber of Commerce soon to be held.

L. G. Andrews, who has been confined to his bed since March 4th on account of an infected leg is improving some at this time, but still unable to be up.

Mrs. B. F. Ringgold returned last week from Fort Worth where she was called on account of the death of the 8-months old baby of her son, Archie, which occurred April 9.

Stolen Car Is Recovered and the Thieves Imprisoned

Sheriff Campbell succeeded in running down the parties who stole Thomas Hughston's Ford touring car parked in front of the Methodist church Tuesday night of last week and finding the car stripped in Dickens County.

The thieves are boys of about 18 years of age. The name of one is Jake Robinson and the other is Ewel Harris. Robinson was captured in Foard County and Harris in King County. Both confess to having taken the car and are now in jail here.

They had driven to the Plains country and were trying to make their way south to McCamey when they ran out of gas and left the car sitting by the side of the road.

Robinson claims to have stolen four cars before this one.

Since the parties are crossing themselves in their story and telling all kinds of tales, the sheriff is trying to run down evidences from the outside that will convict them.

Says Storm Path Shows Great Ruin at Rock Springs

When the message came last week that Walford Thompson was hurt in the tornado at Rock Springs, his father and mother, Mr. and Mrs. J. C. Thompson, and their son-in-law and daughter, Mr. and Mrs. Raymond Bell, and baby left for Rock Springs, but when they arrived they found that Walford had not been injured. Walford lived out of town and had been gone from Rock Springs about an hour when the storm struck and they could easily see it from their place.

Mr. Thompson says one can hardly conceive of the destruction caused. Only a few of the business houses stand and even practically all of those were injured to some extent. Many homes were destroyed. The final count of the dead had reached 75, 40 of whom were white people and 35 Mexicans. Rock Springs was a town of something like 1800, about 1200 being white people and the remainder Mexicans. The property loss is roughly placed at one million dollars, said Mr. Thompson, and very little tornado insurance was carried.

He said neighboring towns and cities were doing all they could to relieve the present distress, among them being San Angelo, San Antonio and others.

Thousands of people had visited the stricken town from all over the country, some having come from as far away as Kansas City, and one day the crowd was estimated at ten thousand.

Mr. Thompson does not know what plans, whether any, have been made to rebuild the town. Many of them are apparently in a dazed condition over the situation.

Vivian Community Has All Day Service

A large crowd assembled at the Vivian school house last Sunday and had an all-day service. Sunday school and an Easter program constituted the morning services, and at noon a bountiful dinner was served to a large crowd, many visitors from Crowell and other communities of the county being present. In the afternoon at 3 o'clock Brother Ament of Crowell preached.

High Line Coming Out of Munday at Mile-a-Day Rate

The West Texas Utilities Company are now building their high line out of Munday at the rate of a mile a day. The line will come to Truscott and then on to Crowell. Here the company is building their sub-station where the voltage will be reduced for use in Crowell and the line will be extended to Quanah where they will sell the Central Light and Power Company juice, and also a line will be extended to Paducah where another sub-station is being constructed for the handling of the high power for surrounding towns.

Mr. Speeler of Abilene is now here putting in the foundation work for the concrete and the Meyers Construction Company are handling the building of the high line out of Munday.

All the material, including five carloads of poles, is here now for the continuation of the line from Crowell to Quanah.

The West Texas Utilities Company are doing a great work in the development of West Texas. The company is an asset to this country.

THALIA CLUB BOYS HAVE OUTING AT TODD FARM

Last Friday night the members of the Boys' Agriculture Club of Thalia enjoyed an outing as the guests of Walker Todd who entertained the boys at his father's farm two miles east of Crowell. Fishing was the principal sport. The boys brought their bedding and their food. Supper and breakfast were prepared in camp and every one had a very enjoyable time.

The boys in the club are growing poultry, milo maize, pigs and cotton. Efforts will be made by the Thalia boys and girls clubs to send one representative or more to the Short Course which will be held at A. & M. College in July.

Pump Station at Truscott Running

The West Texas Utilities Co. completed a small line to Truscott last week and now have it in use pumping for the Magnolia and Gulf Pipe Line companies.

Committee Gives Information As To Road Bonds

Letters are being sent out to all tax payers in Foard County this week by the committee of six men appointed to compile information and facts relative to the good roads proposition. These men are H. E. Ferguson, C. P. Sandifer, M. S. Henry, J. W. Bell, Sam Crews and T. F. Lambert.

The letters are arranged in the form of questions with the answers, but for lack of space the News is here giving only the answers. Following is the information contained in those answers:

The bond issue to be voted on April 27, is \$400,000.

The purpose of the issue is to construct a hard surfaced road on highway No. 28, known as Lee Highway, from the Wilbarger County line on the east to the Cottle County line on the west, on highway No. 51 from Foard City to Crowell and on the highway from Margaret to Crowell, the entire mileage being approximately 54 miles.

About 22 miles of the road on Lee Highway is to be concrete and the balance to be gravel with a macadamized or asphalt surface. The total cost will be approximately \$1,200,000.00. There is to be spent on Lee Highway \$340,000.00; on No. 51 to Foard City, \$27,000.00; on the road to Margaret \$33,000.00.

The bonds will not be issued unless we get State and Federal aid. The commissioners court of Foard County passed on order April 12, 1927, that the bonds would not be issued unless aid in amount of two for one is received. That is, two dollars for every one that we put up for construction on Lee Highway, on which \$340,000.00 of the issue will be spent, if the bonds carry. State and Federal aid are also available for Highway No. 51, but none is available on the Margaret road and the county alone must bear the cost of this.

The voters have the assurance that the money will be apportioned as above stated because of an order passed by the commissioners to that effect on April 12, 1927.

The taxable values of Foard County are now \$5,012,104.00, real estate and personal property. The tax necessary to pay the interest and principal for the first year will be 70 cents on the \$100 valuation. This is on the county valuations and not on city or school valuations.

The tax will decrease during the life of the bonds, proposed to be serial, bearing 5 per cent over a period not to exceed 30 years. Under this plan a portion of the bonds mature annually and the interest and principal are reduced yearly. The valuations of the county will increase annually as the county develops.

The present indebtedness of Foard County is \$253,000.00. If the bonds carry, it will be \$653,000.00.

The State will maintain the highways.

The bonds will be in the custody of the commissioners court of Foard County. They will transact business with the State Highway commission in the securing of aid and the project will be approved by the Federal Government through the Good Roads Bureau of the Department of Agriculture and the money will be spent under the supervision of an engineer selected by the State Highway commission and acceptable to the commissioners court of Foard County and the Federal Government.

Lee Highway paved through Foard County will meet Lee Highway paved through Wilbarger at the county line on the east and will meet Lee Highway paved through Cottle county at the county line on the west.

Money in Rabbit Farm

Lady Rachel Byrd four years ago gave up her millinery shop in London's west end to establish the first rabbit farm in the British Isles, and has found her business so profitable that she has been obliged to transfer it bodily clear across England to larger quarters. Accordingly a special train was chartered and her 400 Angora rabbits, which she breeds for their fur, shearing them as sheep are sheared, were loaded on board and sent to Winkfield, near Windsor.

Superb Altar Cloth

The cathedral of St. John the Divine, in New York, is soon to have an altar cloth of priceless value, comprising more than 100 pieces of rare old lace, formerly heirlooms in the homes of as many women of social prominence, communicants in the Episcopal diocese of New York, who, under the leadership of Mrs. William H. Sage, Mrs. Henry W. Monroe, Mrs. Haley Fiske and Mrs. Lewis B. Cawtry, gave the lace pieces, the intrinsic value of which alone is placed at more than \$100,000.

THE GOLDEN WEST

(By Clara Mayfield)

After a very tiresome but enjoyable journey I reached the city of Silver City, New Mexico, at eight o'clock Sunday evening the 6th of March. I was thrilled with the stage drive from Deming to Silver City. The beautiful mountains, some of which were snow-capped, and the pure air at an altitude of 6,000 feet made me glad that I was alive.

Silver City has a population of 5,000. It lies in the center of Grant county, New Mexico, and nestles among the foot-hills of the Mogollon Mountains. Perpetual sunshine means little rainfall. Since I have been here it has snowed once, but about noon the sun came peeping from the clouds and this is the only day it has not shown its smiling face at six-thirty in the morning. Due to its location near the mountains, Silver City is the only town in this region that is free from the spring sand and dust storms.

Over half of the population of New Mexico consists of Mexicans and Spanish-Americans. However, most every nationality is represented. The white people are from every state in the union, but the greater part of them are from Oklahoma and Texas. The schools are composed of all nationalities. How would you like to sit beside a Negro girl or boy? I can hear the Mexican children chatter in Spanish as they pass on their way to and from school. Most

of the homes are of adobe.

Three miles south of Silver City is the Cottage Sanatorium, which is a little village of its own. There are two-room adobe cottages for the patients. There is also a large sanatorium, operating room, private homes for the doctors, large dining hall, grocery store, postoffice and dairy.

About one-half mile northwest of town is the New Mexico State Teachers College, which consists of the Administration Building, Training School Building, Normal Training Building, Fine Arts Building, Ritch Hall for girls and Barnard Hall for boys. The college is situated on the highest hill in town and from which one can get a magnificent view of the surrounding town and mountains.—Baptist Herald.

THE STATE OF TEXAS, County of Foard.

On the 28th day of March, A. THE STATE OF TEXAS, County of Foard. I, the undersigned clerk of the County Court and Ex-Officio Clerk of the Commissioners' Court of Foard County, Texas, hereby certify that the foregoing is a true and correct copy of an order passed by the Commissioners' Court of said Foard County, Texas, on the 28th day of March, 1927, as the same appears of record in Volume 4, at page 453, et seq. of the Minutes of said Court. MRS. IDA REAVIS, Clerk of the County Court and Ex-Officio Clerk of the Commissioners' Court of Foard County, Texas. A man who won't cooperate has no business trying to go through a revolving door. Anyway, recent events disclose that a Ford is no respecter of persons.

The joy of experiencing spring fever never comes to the lazy man. After the bandits steal everything that's loose, of course, banditry will be on the decline. Living in the future is to be commended, except when it comes to your income. A public office holder never loses his seat until after he has lost his standing. There is no injustice in the fact that if you spend your days killing time, time will kill you. It may be that people who are continually blowing their own horn live in a perpetual fog. Do not mistake flattery for courtesy. Sometimes courtesy from a friend means a good jolt that is helpful. Every time a public improvement is proposed, everybody seems to be for it except those who have to pay the bill. We can't really call ourselves civilized until we stop killing people with automobiles. A Chicago sign painter fell seven stories and was slightly sprained, but with most of us under such circumstances the strain would be terrible. It takes all kind of people to make a world, including those who see no good in anything proposed for the improvement of the community. Heroes are born, not made, it is said, but when a man walks the floor all night with his young hopeful, he is inclined to doubt it. Airplanes may some day be as common as automobiles but it is doubtful because of the difficulty of keeping them up. "It's better to be safe than sorry," said the automobile driver as he slowed up for the railroad crossing.

ABOUT MONKEYS

NOW, perhaps I shouldn't say it, as I suppose it is slangy and not the best word of all to choose and yet it is the only word which describes how I feel," said Larry, the monkey. "You haven't used the word as yet," said another monkey whose name was Snookums. "I will tell you," said Larry. "The word I want to use is 'peevish.'" "It is the word which describes just how I feel." "I don't believe I know what peevish means," said Snookums. "You know when a person is angry and a bit mad at some one and just feels like a cat when he has his back up." But Snookums interrupted Larry. "How do I know what a cat feels like when he has his back up? I'm not a cat. I haven't a cat's feelings." "Oh, well," said Larry, "you know what I mean." "Yes," said Snookums, "I understand." "Now that you know what the word means and now that you understand

"Isn't it a descriptive word, now, Snookums? Doesn't it just describe certain people and certain moods and the way almost everyone, once in a great while at any rate, feels? Why you take right hold of it yourself." "That's so," agreed Snookums. "But if it is a good dictionary word and it works so well why do you say it is slangy and that perhaps you shouldn't use it?" "Well," said Larry, "of course I use slang when I'm playing, but when I'm trying to tell a story I try to use my best words and slang words are second best words, or play words. I don't use slang very often because very little of it expresses what I feel." "Most of it is somewhat stupid, but the word peevish always sounds nice and slangy. It sounds like a slang word with some sense, perhaps because it isn't a slang word after all." "And I haven't yet heard why you were peevish," said Snookums, "or why you are peevish." "Our master," said Larry, "is what is known as a scientist. He is also known as a naturalist. That means that he knows all about natural history and animals and plants and science and in short that he is a very wise man. "He has studied monkeys until he has become an authority on monkeys which means that he knows all about us. People who are interested in us are fascinated to hear him talk. People grow to know us well through him. "Well, the other night he went to a dinner—it was a dinner of some of his old-time school friends. Many of them he hadn't seen for years. And his feelings were dreadfully hurt and he was angry and he felt insulted. "It seems that all the men began to talk about what they were doing. Some were bankers, some were railway men, some were snismen, some were in wholesale houses. "And when they asked our master what he did and he said he was in the monkey business they all burst out laughing. "The monkey business," they tittered. "Now, wasn't that ignorance? They looked down upon our master, and what had they done with their lives? Why, there's no science to selling a pair of pants or in handing a person money in return for a check through the paying teller's window of a bank but to know about monkeys—well, that is something like." "Something like," agreed Snookums. "and I don't wonder you're peevish that such a thing should have happened and that there should be such ignorance."

"Isn't it a Descriptive Word, Now, Snookums?" "Yes," said Snookums, "I understand." "Now that you know what the word means and now that you understand

Don't be fooled on house paint!

"Cheap" paint isn't cheap at all!

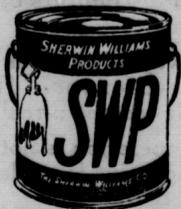

When you are tempted by wonderful claims, elaborate guaranties and a very low price to buy "cheap" paint, remember this:

"Cheap" paint sells at a low price because it is low in quality—poor stuff. That's the only reason a manufacturer can afford to sell at a low price.

By the gallon it costs you less. But don't let that fool you. It will cost you many times more than good old SWP on the wall—by the job and by the year—because it covers only about half the area per gallon—and lasts only about half as long.

Come in and let us tell you the truth about the high cost of "cheap" paint—why SWP House Paint is the least expensive.

Only in cars much higher in price will you find such smartness of line, such beauty of design and such elegance of appointment as in the new Chevrolet. Compare its appearance with that of any car at any where near Chevrolet's low prices—and then you will know why it has everywhere been acclaimed as the Most Beautiful in Chevrolet history!

The performance of the new Chevrolet is literally amazing. Incredible smoothness at every speed—flashing acceleration that is a delight—effortless shifting of gears—finger-tip steering—remarkable ease of parking. One ride at the wheel, and you will understand why the new Chevrolet has been the greatest sensation of America's greatest industry!

Comparison of delivered prices reveals Chevrolet's value supremacy. Delivered prices are f.o.b. prices plus charges for handling financing, etc. The financing charges of General Motors Acceptance Corporation are the lowest available. Handling charges are in proportion. Thus, Chevrolet delivered prices are even more amazing than the f.o.b. prices.

WHAT'S DOING IN WEST TEXAS

(By West Texas Cham. of Com.)

Memphis—Work on installation of 10,000 feet of sewer for the north-west part of Memphis is under way here. The additional sewerage will cost something near \$6,000 and will be paid for by warrants on a ten year basis.

Clovis, N. M.—Clovis boasts one of the most complete tourists camps to be found in this state. It is situated within 12 blocks of the business section of the city and is modernly equipped in every respect. There is a community house with a dining hall and recreation room and public kitchen. Hot and cold shower bath facilities are also provided.

Panhandle—Construction of a double track from this point to Pampa, a distance of 30 miles, is under project by the Santa Fe railway. The improvements are of an approximate cost of \$1,000,000. The forty-five miles of second main track under way between Canyon and Panhandle and this new section of thirty miles gives the Santa Fe about 75 miles of first class double track in this territory.

Childress—Plans for the next district convention of the West Texas Chamber of Commerce to be held here May 5 are being detailed. The convention will call together member towns of the Green Belt and Lower Panhandle region.

Wichita Falls—Twenty-six cities are already completing preparation to represent as many foreign nationalities in the huge Congress of Nations planned for the ninth annual convention of the West Texas Chamber of Commerce which convenes here May 16 and 17. Arabia, Egypt, Portugal, Spain, Italy, Turkey, England, American Indians, Holland, and many other picturesque alien races will be represented at the meeting.

Girard—Shoes and socks serve as money depositories in this section, or citizens carry their exchequers about their person. The reason for this condition is that Girard is in need of a bank. The town is located in a prosperous agricultural region and offers a good location for interested capital.

Levelland—Citizens of this progressive West Texas town and of the county voted bond issue of \$150,000 for construction of a Hockley County court house here on April 5th. Levelland is only three years old, but already has more than 20 modern brick business houses, and is making strides toward a real West Texas city.

Crosbyton—W. A. Wilson of Lamesa was chosen president of the South Plains Secretaries Association formed here at the close of the district convention of that section held April 7. S. W. Cooper, secretary of the local chamber of commerce, was made secretary of the association. The South Plains District Convention of the West Texas Chamber of Com-

merce which met here April 7 was another record breaker for the regional organization, with 1500 in attendance, and with over 500 registered delegates. The 1928 convention of the South Plains section went to Lamesa after a close contest with Tahoka for the honor.

Barstow—Franchise for power rights for installation of a power and ice plant and system for this town has been granted and developments are under way in this project.

Baird—The Humble Oil and Refining Company is completing erection of an oil station and ware house just west of the Texas Company's station on the T. & P. Railroad tracks here. The Magnolia Petroleum Com-

pany has bought grounds and will start construction of an oil station and ware house immediately.

Kress—Contract has been let for three brick business houses and work has been started on the buildings.

Hedley—Construction is under way to shorten the road from McLean and Hedley to points south. It is aimed to have the roadway taken over by the State Highway System at an early date.

An Ordinance requiring Motor Vehicles approaching certain intersections of streets within the corporate limits of the city of Crowell, to come to a stand-still, providing a penalty, and declaring an emergency.

Be it ordained by the City Council of the City of Crowell, Texas, section No. 1, that all persons operating and driving an automobile, or motor vehicle, upon approaching the intersection of Main Street and Commerce Street from the east, shall bring said automobile or motor vehicle to a standstill before attempting to enter the intersection of said Main Street; all persons operating and driving an automobile, or motor vehicle upon Main Street coming from the north shall cause said automobile or motor vehicle to stop at the intersections of Main Street and Commerce Street; all persons operating and driving an automobile on Main Street coming from the south shall cause said automobile or motor vehicle to stop at the intersections of Main Street and California Street.

Section 2. Any person violating any of the provisions of this ordinance, shall be deemed guilty of a misdemeanor, and upon conviction shall be fined in any sum of not less than one nor more than one hundred

Adelphian Club

Mrs. Joe Couch was hostess to the Adelphian Club, Wednesday afternoon, April 13.

Mrs. John Myers led the lesson on the second lecture, "Queens Gardens" of John Ruskin's Sesame and Lilies. This lecture deals in general with woman's sphere in the general scheme of living, but more in particular with the type of education and training she should receive to prepare her for taking her place.

He holds to speak of the "superiority" of one of the sexes foolish, since they can not be compared in similar things. Each has what the other has not; one completes the other.

Mrs. Anderson was guest for the afternoon.

The hostess served an ice course at the close of the lesson.

The P. T. A. met April 19th at the school building with good attendance. Miss Cryer's room entertained us with an interesting musical program. The P. T. All those interested in the school and its progress are invited. The teachers will have their pupils carry invitations to their parents. We will meet again in two weeks and would like to have all the parents and those interested in our school to come.—Reporter.
