Revival at the Methodist Church Starts Off Well

The Flowers party arrived in Crowell as scheduled to begin the revival at the Methodist church Sunday morning. A. J. Flowers, brother of the evangelist, who had been here last week advertising the meeting, spoke at the morning service and outlined somewhat the program of the religious campaign. He said they were introducing some changes of methods in conducting religious campaigns because of changing conditions in all other lines of work. He urged the Christian people to think about the meeting, pray for its success and expect a real revival. He pointed out the fact that a revival is not brought to a town in grips, but that they come as a result of the efforts on the part of the membership of the churches.

Mrs. Flowers preached Sunday night to a well filled house, delivering a powerful message, which no doubt made people think as they had not thought before, as to what Jesus means to those who have accepted him in their lives and what his teachings have meant in raising the standard of morals and right living in Christian lands. The attentiveness of the audience was perfect and at the close of the service a call was made, one young lady coming and giving her life to Christ.

Rev. Flowers has been giving much attention to a discussion of the Sunday School and its importance and has arranged meetings with the teachers and leaders in the Sunday School for discussions of matters aimed to help strengthen and make more effective the work of this great religious institution.

For four days, Tuesday, Wednesday, Thursday and Friday of this week, morning meetings have been held at 10 o'clock, but it has been announced that after this week these morning services will not be held. This is merely the carrying out of the plan of the evangelists, as it was announced at the beginning.

While the series of meetings being conducted are under the auspices of the Methodist church, they are for everybody who will go and co-operate. And so everybody is invited to attend and consider the meeting his or hers, for a general religious revival is the big purpose of the meeting.

The services will be very helpful to any one who will come and hear the messages of these consecrated Christian evangelists.

JUNIOR-SENIOR BANQUET

On Thursday evening, April the 25th, at 7:45, a gaily dressed group of juniors, seniors and high school faculty members could be seen in the lower hall of the new high school building. Promptly at 8 o'clock this group proceeded by couples to the dining room which was beautifully decorated in the high school colors, pink and green, and gorgeously tinted balloons. In this room was set two long tables resplendent with silver and cut glass. Cards marked the places of each person present. Mr. T. T. Graves expressed thanks for the banquet and all were seated.

Haskell Norman, toastmaster for the evening, then introduced "Wild Bill" (Bill Bell) who bade the seniors welcome to the "old roosters" that Ewen Lankford had captured as he practiced for the mile run. Tom Reeder, president of the senior class, responded in a dignified manner becoming the occasion.

Haskell Norman then introduced the "Welch" lassie, Elizabeth Kincaid, who gave a fitting toast to the seniors, and Allison Self, the oratorical senior genius, fittingly responded.

Mr. I. T. Graves gave the after dinner speech, expressing appreciation for the spirit that had been shown between the juniors and seniors all year. Eva Todd gave an appropriate toast to the faculty. Miss Anthony concluded the evening by giving a clever toast to the seniors of '29.

Nut cups in pink and green were served for the evening. This banquet showed much effort on the part of the sophomore girls who served. Frances Allison who furnished Victrola music, Mrs. Eaton who supervised the serving, Coach Graves, senior sponsor, Henry Black and Miss Hawkins who made the banquet possible.

Building of Hotel Appears Probability

There have been a number of disappointments as to the building of a hotel for Crowell. If one would have been inclined to give up at the first or second failure, we would have quit a long time ago. But that is not the spirit that wins and Crowell is going to have a modern hotel some of these times.

As is well known option on the southeast corner of the block south of the court house was secured by a committee as a site for a \$65,000 hotel to be built by C. I. Kugler. Mr. Kugler was making arrangements to start the work when he took sick and died. This interrupted plans, but individuals here have continued to push the matter. J. W. Beverly remembered that F. Witherspoon of Kansas City had been interested in that kind of property and so he wrote him a letter regarding the matter. Mr. Witherspoon replied favorably and the matter is still being pushed with some hope that Mr. Witherspoon will continue the proposition where Mr. Kugler was forced to leave it.

A letter from Mr. Witherspoon to the secretary of the chamber of commerce conveys the information that Mr. Witherspoon is having plans and specifications prepared and when this is completed and a contractor has made his figures he will be ready to say definitely what he is willing to do in the matter.

Mr. Witherspoon is a nephew of the late J. G. Witherspoon, one of the pioneers of Foard County.

Realizes Splendid Profits from Hens

From the products of about 220 hens and four cows S. E. Tate realized through the month that has just closed a nice profit of \$74.85.

A bunch of the hens are setting and he has about 190 now laying. He says it is an eye-opener to see the fine quantity of eggs gathered up every day, something like 140. He has been selling eggs and baby chicks. Mr. Tate now has a 400-egg incubator setting. He has both the White Leghorn and the Rhode Island Reds.

He is a believer in good stock. Mr. Tate started three years ago with an investment of \$8.00 in his chickens and now has nearly \$400 worth of poultry. He has been buying high-priced stock, believing that it is easier and quicker to buy the producing stock than to buy good stock and breed up his stuff. And he now has some of the best in the two breeds mentioned that can be found in this part of the State.

Mr. Tate is planning to enlarge his poultry ranch until he can afford to give it his full time and attention. He has made trips to Wichita Falls to see Mr. Johnson's ranch and get ideas from him on the poultry business. He is going again and plans to make added improvements from time to time.

With the proper attention it is found that good hens pay the owner a revenue all the time, whether crop conditions are favorable or not and a good bunch of thoroughbred hens are a mighty good thing to have right now.

Car Runs Into Ditch As Driver Loses Control

Thursday night of last week the car in which F. D. Frances and H. A. McElroy were riding plunged into the ditch at the turn of the road north towards Quanah near Hamp Carter's place.

Frances was driving the car, a Chevrolet coach, when by some means he lost control of it. The car belonged to the brother of H. A. McElroy, who operates the City Cafe. It was badly damaged but neither of the occupants were injured.

5th Sunday Meeting Coming to Crowell

C. V. Allen, A. T. Schooley and Roy Johnson and their families and John Long attended the Fifth Sunday meeting of the Christian church held at Childress last Sunday. They held a most enjoyable meeting. The next Fifth Sunday meeting will be held at Crowell on the 29th of July. These meetings are an all-day affair, representatives from the churches of the country attending.

In considering the country's undeveloped resources, it might be well not to overlook its people.

States Takes Over Highway North of Town

It is a matter of interest to many that the State has taken over the highway between Crowell and Quanah. Judge Atcheson received from the State Highway Department notice to that effect Monday of this week. So that road is now a State highway and will be maintained hereafter by the State. Heretofore the county has had to keep the road up to Pease River. It is even more gratifying to the people of this county to know that not only is the road to be kept up, but responsibility for the maintenance of the bridge across Pease River is now a matter to be looked after by the State. This has been looked at as something that would likely entail heavy expenses to Foard and Hardeman in the years to come, for once in a while there comes a flood of such proportions as to threaten the structure, and its destruction would mean a heavy loss to the two counties.

It is said that the State has promised aid for the paving of this highway and it is understood that Hardeman will look forward to the future with the intention of paving as soon as the east and west highway through Hardeman has been hard-surfaced. That matter for Foard County, of course, is too remote to think about now. We have Lee Highway on our hands and that will be the first road in the county to be made an all-year open highway. In all probability some day the road between Crowell and Quanah will be hard-surfaced. It will be a fine connecting link between the Colorado-to-Gulf and the Lee Highways and will serve as a good feeder for both.

Young Cogdell Is Ordered to Go to Annapolis

Allen Cogdell, 17, son of Mr. and Mrs. W. A. Cogdell of this city, received notice Monday morning of this week to report at the Naval Academy in Annapolis on June 15.

Young Cogdell was given the appointment by Hon. Marvin Jones, Congressman from this district, and has already passed a preliminary examination and it is said there is no doubt but that he will be accepted in the service.

His enlistment is for a period of 8 years, four of which will include special training in the Naval Academy and four of service after he has completed the training course.

Congressman Jones has the appointment of three young men in his congressional district to this position.

Crowell High Wins Ball Game at Quanah

Crowell High School baseball team added another victory to its string of wins when it gave Quanah a drubbing over there last Friday to the tune of 8 to 3. That makes eight games played for Crowell this year with her coming out on top in seven of them. Floyd Borchardt did some excellent pitching for Crowell, allowing only seven hits, while Raymond Burrow and Moco Cogdell contributed the heavy stick work. Lefty Hopkins was the main show for Quanah, getting two hits and pitching an exceptional game with the exception of the seventh inning when the Crowell boys chased six runs across the platter. The same two teams will play here next Friday and a good game is expected.

UNDERGOES OPERATION

Little Dorris Oswald, daughter of Mr. and Mrs. R. D. Oswald, underwent an operation at the Quanah sanitarium last Thursday. The child had suffered from an attack of flu which effected her head and an operation was necessary to relieve her of her suffering. Her condition has been considered serious but it is reported that she is improving.

LITTLE CHILD DIES

Little Dorothy Louise, the two-year old child of Mr. and Mrs. Paul Logan, died Wednesday afternoon of pneumonia.

Funeral services were held at the Baptist church Thursday afternoon, Rev. W. R. McCarter conducting them. The body of the child was placed in its final resting place in the Crowell cemetery.

Scholastics In County Show Gain Over Last Year

The scholastics of the entire county have been taken and all returns made except from one precinct, that is Four Corners. Estimating that there has been neither a decrease nor an increase in the scholastics of that precinct, we have made a net gain in the county of 181 over the numbers enrolled a year ago. The total number of children of school age in the county a year ago, including the Crowell Independent school district, was 1727. The enumeration for 1928 just completed shows the county to have 1908 children of school age. In a few of the precincts there has been a loss, but in most of them there has been a gain. Taken by precincts the figures are shown:

	1927	1928
Crowell	595	641
Four Corners	14	14
Thalia	305	292
Gambleville	51	84
Fish	36	41
Margaret	166	195
Black	36	60
Vivian	86	104
Ayersville	67	75
West Rayland	93	152
Foard City	147	144
Clayton	49	36
Beaver	39	24
Good Creek	52	46

This shows a percentage gain of a little more than ten per cent in the county.

It is to be noted that the gain has been greater in the rural districts than in the towns, which is a healthy condition, for it means that the rural communities are settling more rapidly than the towns. This is as it should be to be an agricultural country.

Items we have published from time to time relative to school work in the rural communities indicates that the country is keeping abreast of the times in educational matters. Good school buildings are the order, more efficient teachers are employed and greater interest in all lines of school work is in evidence, so that the nearly 2000 school children of the county are not suffering for the lack of educational advantages in keeping with the demands.

Death Reducing War Pensioners

Washington, April 28 (AP).—The mounting death rate among Civil War veterans reduced the number in March to only 79,300 pensioners. A total of 1,283 died last month, the Pension Bureau announced Saturday.

Once, in 1898, these pensioners totaled 745,822, which was the peak, but it remained for increases in appropriations to bring the highest in the amount of pensions in 1923, when \$141,277,515 was disbursed. Every Civil War pensioner is now more than 80 years old, but it was estimated at the bureau that a few will live twenty-five more years. This estimate is based on the fact that five Mexican War pensioners are still on the roll, although it has been eighty years since that war.

The last survivor of the Revolutionary War, Daniel F. Bakerman, died April 5, 1869, at the age of 109 years, and ninety years after the War of 1812 Hiram Cronk, the last survivor of that war, died.

Wins Watch Charm in Nation-Wide Contest

If you see M. A. Spence studiously taking out his watch every few minutes it's not because he forgets the time so quickly but because he wants you to see that unique watch charm he has dangling on his chain. He has just won it in the nation-wide Vanilla Sales Contest being conducted by the J. R. Watkins Company among its dealers. The gold charm is in the form of a vanilla bottle and has engraved on it the words "Prize Winner."

No Services at the Presbyterian Church

Rev. L. H. Smith of Chillicothe, pastor of the Presbyterian church here, phoned the News yesterday morning asking it to make the announcement that he could not fill the pulpit here Sunday, May 6, on account of the fact that he is in the midst of a revival at Chillicothe.

County Federation Meeting Saturday

The County Federation of Clubs will meet in the court house Saturday afternoon at 3 o'clock to transact important business and the call is made for a good representation of members.

Also it is urged that every woman in the county attend the meeting and give her membership to the organization.

The aim of this federation is for civic and educational improvements, not merely for the towns, or a single town, but for the entire county. The organization has barely started to function, owing to its infancy, but there are wonderful possibilities before it. Such organization has in view the general good of the country in points of education and civic improvements, and it aims to concentrate and unite the efforts of all forces with a like purpose.

Every woman in the county can well afford to join this federation and become an active member. The membership dues are small and the possible results to the various communities and the county at large are great.

Pipe Laying Crew Moves to Truscott

The crew laying pipe for the Stamford and Northwestern Gas Company across Foard County finished their work to the Wichita River southwest of Thalia last week and moved their camp and machinery to Truscott Saturday.

The crew will be stationed at Truscott for a short while before moving to Stamford, from which place they will work south and leave the work at Truscott for another crew.

Scagg Bros. of Breckenridge have the contract to dig the ditches and lay the pipe. It is estimated that by August 1st the work will have been completed to Roby. The entire mileage of the line being laid, including extensions to the property lines of the company's customers, will approximate 400 miles.

MARRIED AT QUANAH

A wedding of interest to Crowell people took place last Saturday afternoon at Quanah, when Mr. Lewis Sloan of this city and Miss Eva Hoeker of Gainesville were quietly married. Mr. Sloan is well known here in Gainesville and has been teaching school this term in Rotan. She was educated in the Gainesville schools and is also a graduate of T. C. U. After spending a few hours here with Mr. Sloan's parents, they left for Brigham, Utah, where Mr. Sloan has employment with a mining company. The very best wishes of the people of Crowell go with them.

River Valley Association Held at Vernon Friday

The last meeting of the Upper Red-Pease River Valley Association was held in Vernon Friday with representatives from various parts of the district present. The meeting opened at noon when a luncheon was given the visitors by the Vernon Lions Club.

A special on the Ft. Worth & Denver from this district to the West Texas Chamber of Commerce convention at Fort Worth, June 18th, 19th and 20th, was approved of at the meeting. Since a number of people from various towns in the district will attend the convention it was pointed out that a special train for the entire district could very easily be chartered and considerable expense saved to those who attend from this section. If a sufficient number are secured for the train, the round trip can be made for two-thirds of a one-way fare. Jerry Debenport of Childress is to look after details in this matter and those interested in making the trip by special train are requested to apply to their local chamber of commerce for a reservation.

The principal part of the meeting was taken up with the discussion of plans for co-operatively exhibiting at the State Fair of Texas this fall. Every county in this organization will exhibit at the Dallas Fair next fall and officials of that fair have promised the best location in their Agricultural Building for the nine counties of this organization who will group their exhibits and work out plans accordingly. Carl Guin of Quanah is chairman of the committee to look after the exhibit program. Score cards for county exhibits at the Dallas Fair were distributed at the meeting by Mack Boswell, secretary of the county exhibitors association of the State Fair of Texas. These score cards and rules and regulations were prepared in advance of the State Fair Catalog which will not be distributed until some time in the summer, as a number of exhibitors wish to have pedigreed seed planted and need a score card to go by, and also to know what products to gather that will ripen before the official catalog is issued.

Carl Guin, secretary of the Quanah Chamber of Commerce, who is one of the veteran exhibitors of the State, spent considerable time in offering valuable suggestions and best methods of gathering an exhibit. Before coming to Quanah Mr. Guin resided at Dalhart where he gained the reputation as being one of the greatest exhibitors in the State. He was just recently superintendent of the Agricultural Show of the Fort Worth Fat Stock Exposition.

Que Miller and Mack Boswell attended the meeting from Crowell. Mack Boswell, president of the organization, presided at the meeting.

The invitation from F. L. Winn and C. C. Stinson for the next meeting of the association to be held in Wellington was accepted. Counties in the organization are: Wilbarger, Foard, Hardeman, Cottle, Motley, Childress, Hall, Donley and Collingsworth.

Don't Neglect Your Kidneys!

You Can't Be Well When Kidneys Act Sluggishly.

Do you find yourself running down—always tired, nervous and depressed? Are you still and aching, subject to nagging backache, drowsy headaches and dizzy spells? Are kidney excretions scanty, too frequent or burning in passage? Too often this indicates sluggish kidneys and should not be neglected.

Doan's Pills, a stimulant diuretic, increase the secretion of the kidneys and thus aid in the elimination of waste impurities. Doan's are endorsed everywhere. Ask your neighbor.

Trapped by Her Past!

RECENTLY an actress, who a few years ago was popular on Broadway, submitted to True Story Magazine a most startling story. It told why she had left the stage at the height of her career never to be seen upon the boards again.

It was a tale of dread and terror as each night she swayed her thousands to smiles or tears, her eyes, masking the agony in her soul, were seeking, always seeking among the audience, the one man in the world who had the power to drag her down from the pinnacle of success to the ignominy of defeat. Deep in her heart she knew that some day he would come, and that when he did her career would end.

And so when one night she received a note from a man in the audience who was awaiting her reply, she realized the time had come to settle her account with fate.

Her story entitled "Trapped by My Past," appears in True Story for June. With nothing hidden, nothing omitted she has put into it all the fire that perhaps once held you spellbound across the footlights. Maybe as you read it you will recognize her. If so you will then know the answer to a question you have probably asked yourself many times.

HIGHWAYS AS DUMPING GROUNDS

Using the roadsides in Foard County as a dumping grounds for rubbish, trash and waste matter of all kind, is a poor practice, and an effort to curb this promiscuous dumping should and is being made.

In many instances the dumping of trash along the roadside is done by the city people who take their cans and trash out in their machines and then toss them along the highway.

Cleaner roadsides not only add to the general appearance of the highways, but likewise make it easier later in the season to mow weeds and grass off the shoulders, a necessary part of maintenance.

While more or less difficulty is always experienced from trash dump-

ed along roads, it seems that more people are resorting to this method of disposal this spring than usual, in the opinion of a maintenance superintendent, who asks cooperation of the public to help keep the roads from becoming unsightly through such practices.

BUICK leads the fashion parade

Fashionable throngs... sparkling motor cars... and standing out like a flock from Paris—today's Buick!

Fleet, low lines, suggesting rocket-like getaway and unrivaled power... glistening colors, vivid and varied as the harmonies of Spring... and soft, rich upholsteries, delightful to the sight and touch.

Luxury like this ordinarily costs a thousand dollars more.

But Buick leads any other three cars in its field in dollar for dollar sales; and this tremendous volume makes possible unequaled value. You may as well have a fine car, when you can buy it at Buick's price. Smart—youthful—colorful—Buick leads the fashion parade.

THE REVIVAL GOING WELL

Those who have not availed themselves of the opportunity to hear Evangelist R. L. Flowers at the Methodist church have missed something. He has been delivering messages of profound truth that are helpful to any one.

The sermon Tuesday night was especially good, dealing with the present day crime wave in the United States. He submitted statistics, showing that crime is costing the American people more than 8 cents out of every dollar. Contributing causes were pointed out, such as laxity of law enforcement, influences in operation to set aside the authority of the Bible and the church, Sabbath desecration, the wide publicity and prominence given in flaming headlines across the front pages of the big dailies, the filthy and demoralizing articles appearing in some of the magazines found on sale at some news stands, the picture screen and even by inactive and disinterested members of churches.

Rev. Flowers is fair in his discussions. He handles his subjects in such way as to appeal to the higher thoughts and emotions and one who may disagree with him need not be offended. He supports his argument with facts and causes people to think seriously upon the great and vital problems of the day.

Of course, the antidote he gives as a cure for crime is the religion of Christ. He appeals to the forces of the Christian religion to organize against the forces of sin without compromise.

The evangelist is a great believer in the Sunday School and hopes that next Sunday will witness a big increase in attendance not only at the Methodist church, but at every church in town. He sees and points out the great opportunity Sunday School workers have in properly instructing the boys and girls in religion, and he hopes to see an awakening at this point.

The News wishes it might publish in full some of these great messages of truth, but that is not possible, but it can insist on people coming to hear them. Your time will be well spent.

The public utilities companies of the United States are reported to have spent \$28,000,000 last year for advertising. Some people would say that so much money thus spent is a waste. Surely the big companies have too much sense to throw money away in such manner. The advertiser is the man who works to a definite, positive program. He creates business, while the non-advertiser lives off the business others make.

To the Voters of Foard County:

I desire to take this opportunity to announce myself as a candidate for a second term as District Attorney of this Judicial District. A little over a year ago I submitted myself to the qualified voters of the district and was duly elected to the office I now hold, having had at that time practically no experience in the trial or prosecution of cases. At this time I feel that with the experience I have gained in the office, I am much better qualified to discharge the duties of the office than when first elected. It has been, I understand, the custom, at least, of Democrats to elect an incumbent for at least a second term where the record of such incumbent justifies, and with this in mind I desire to call the attention of the voters of this district to my record as district attorney during the time I have been in office. Space will not, at this time, permit me to take up and discuss the numerous cases which I have been called upon to prosecute, but I have a complete record of my official acts, and without unduly boasting, I believe this record will disclose the fact that I have been unusually successful in the prosecution of offenders of our laws. It has been my effort to give all violations of the law the same serious consideration and to prosecute each violation of the law with the same degree of diligence, and if elected to a second term, this will be my policy in the future. I believe in an earnest and diligent prosecution where the facts establish a violation of the law, and not in the persecution of anyone upon prejudices and suspicions, and upon reviewing the cases which I have been called upon to prosecute I find that where the facts warranted convictions, in almost every instance, have been obtained.

Owing to the fact that it will be necessary and proper for me to go ahead with my official duties, it will be impossible for me to make a close personal campaign over the district, and I respectfully ask the voters for a fair consideration of my candidacy and will appreciate your influence and votes.

O. O. FRANKLIN.

ANY ICE TODAY LADY?
NO--

I have plenty of ice to last until tomorrow. I just bought a new NORTHLAND refrigerator and the way it keeps the ice is something marvelous. I keep it full of milk, vegetables, and leftovers from one meal to the other, yet, I use one-third less ice than I did in my old refrigerator. You would not be surprised at this if you had been down to M. S. Henry & Co.'s and let them show you how the box was constructed and insulated.

I looked all over town before I bought my refrigerator, for I wanted to be sure and get one that would give me many years of service, but I never found a one that suited me as well as the NORTHLAND. Why, they have perfect cold air circulation, heavy rustless shelves, and drain pipe and entire inside of the box is so easy to keep clean and sanitary.

I know you must be going but I was so proud of my Northland that I wanted to tell you about it.

Yes, you may bring me some ice tomorrow.

The Adelphian Club met at the home of Mrs. M. S. Henry Wednesday, April 25th. During the business session, Mrs. W. B. Johnson was elected delegate to the biennial meeting of the general Federation of Women's Clubs which meets at San Antonio May 29th.

Mrs. George Self led an interesting

lesson on the opera, using "Carmen" by Bizet, as the central feature of the lesson. Talks were made on "What is opera?" "The History of opera," and various items of interest concerning opera and opera stars were given by different club members. Miss Inez Sloan gave as a piano solo selections from the Overture to Carmen and a number of se-

Farm Poultry Raising Is Profitable

(By F. W. Kazmeier, Bryan, Texas)

How many farmers remember what happened to the cattle business several years ago, also the hog business? What about cotton raising? Actual records prove more farmers have lost money growing cotton than they have made any money. The last cold spell killed most of the cotton planted; cotton seed is scarce and bringing a premium, does that keep the average farmers from growing cotton?

Farm Poultry Flock
I do not believe there is anything on the farm that is as highly profitable as a good flock of chickens. I believe the average farmers get more money for the time devoted to the care of the chickens than anything else he can do on the farm.

Answer to "No Money in Chickens"
Talk

Hens in the flocks of 543 farmers who last year kept cost records earned more for their owners in 1926 than in any year since such records have been kept. Does that look like "no money in chickens?"

This report shows that the average hen in these 543 flocks paid its owner \$3.23 for labor. In Leghorn flocks that produced less than 100 eggs per hen made a labor income of 37 cents per bird, while Leghorn flocks producing 180 eggs or more per bird made a labor income of \$4.23 per bird. In other words, 250 such hens would give you over \$1,000.00 a year profit for taking care of them. Of course your mongrel flocks will do anything near as well, but is only a short route to replacing the mongrels with purebred and bred-to-day stock.

Study These Figures

Year	Hens per Farm	Total Income	Net Income
1922	189	\$170.00	\$112.00
1923	181	\$170.00	\$104.00
1924	194	\$189.00	\$ 97.00
1925	207	\$228.00	\$109.00
1926	207	\$211.00	\$112.00
1927	212	\$210.00	\$110.00

By net income is meant income per farm above feed cost for the four winter months. These figures clearly show the money making possibilities of farm poultry flocks. Good stock and proper care will make any farm flock profitable. Why not convert some of your home grown feed and even some products, that would otherwise go to waste, into marketable eggs and chickens.

We sincerely believe farm poultry keeping is a profitable side line. However, it requires good stock, some preparation and work. Here is what we mean by preparation. The other day a man took off a hatch of 195, perfect chicks, healthy, strong and vigorous. He tried to keep them warm in a dry goods box and two lanterns. Today he has no chicks. The next time he will make necessary preparations.

THE STATE OF TEXAS

To the sheriff or any constable of Foard County, Texas, Greeting:

You are hereby commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Foard County, a copy of the following notice:

THE STATE OF TEXAS
To all persons interested in the welfare of Una Lee Hays, Blanche Loma Hays, Weldon Edgar Hays, Gerald Raymond Hays, Henry Glendon Hays, Marian Hays and Marilyn Hays, Henrietta Hays was by the county court of Foard County, Texas, on the 23rd day of April, A. D. 1928, duly appointed temporary guardian of the person and estate of said minors, which appointment will be made permanent unless the same shall be successfully contested at the next term of said court, commencing on the first Monday in June, A. D. 1928, the same being the fourth day of June, A. D. 1928, at the court house thereof, in Crowell, at which time all persons interested in the welfare of said minors may appear and contest such appointment if they so desire.

Herein fail not, but have you before said court, on the said first day of the next term thereof, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Crowell, this 23rd day of April, A. D. 1928.

IDA REAVIS, Clerk, County Court, Foard Co., Texas.

THE STATE OF TEXAS

To the sheriff or any constable of Foard County, Texas, Greeting:

J. W. McCaskill, administrator of the estate of J. Bart Fox, deceased, having filed in our county court the final account of the condition of the estate of the said J. Bart Fox, deceased, numbered 217, on the probate docket of Foard County, together with an application to be discharged as administrator of said estate.

You are hereby commanded, that by publication of this writ for twenty days in a newspaper printed in Foard County, Texas, you give due notice to all persons interested in the account of final settlement of said estate, to appear and contest the same if they see proper so to do, on or before the June term 1928, of said county court, commencing and to be holden at the court house of said county, in the City of Crowell, on the first Monday in June, A. D. 1928, the same being the 4th day of June, A. D. 1928, when said account and application will be acted upon by said court.

Given under my hand and seal of office, this 24th day of April, A. D. 1928.

IDA REAVIS, Clerk, of the County Court, Foard Co., Tex.

B. A. G. Magee, Deputy.

ARE NEWSPAPERS NEEDED

The merchant who says that everyone knows his place of business, and that he doesn't have to advertise, can be found in Crowell, and in every other community in this country.

This merchant also says that customers come to him when in need of goods, so why should he waste his money in advertising? An answer to that question has been made by a newspaper whose advertising man no doubt stumbled into places of business where the owner possessed that frame of mind.

This newspaper answered the question "Why Should I Advertise?" as follows:

"Of course, the newspaper man might say in rebuttal, 'Everyone in this community knows all that happens here, so what's the use of reporting the news; what's the use of printing a newspaper?'"

"If the community can get along without a newspaper, it can get along without a number of other things. The adults are educated and can teach the children, thus doing away with the need of schools. The parents, being religious, can train the younger ones in the creeds, thus doing away with ministers and churches. People can loan their money to one another and thereby eliminate banks. They can swap their old clothes or learn how to make home-spuns, thereby greatly reducing expenses and actually putting the clothing merchants out of business."

"All trade is based upon a desire for goods. Necessity is, mostly, but an augmented desire. Advertising has the function of reminding people of their requirements, but its greatest function—a prime factor in all progress and prosperity—is the creating of new desires; thereby stimulating trade and production and making for the greatest possible degree of employment."

A TRADE WAR IS IN SIGHT

A motion picture war between American and European film industries, has been intimated by several of the well known producers, with reports from Europe that they are taking steps to curb the showing of American-made films in their theatres.

With this announcement, the producers in America are making an extra effort to launch an aggressive campaign for the development of foreign markets. It is declared by one of the well known producers, that the saturation point has been almost reached in the United States, because of the number of motion picture theatres.

Producers of motion pictures are faced with the necessity of expanding through greater sales in foreign countries, or with becoming stagnant, according to a report made by the head of one of the concern's foreign department, and America must look to other countries for expansion.

A film theater now exists in the United States for every 5,500 residents.

Great Britain has only half as many theaters on a basis of population, it was revealed by the report, with one theater for every 11,000 residents.

France and Italy have one for every 14,000 residents. Argentina one for every 12,000; Brazil one for every 30,000.

The field in China and India, however, remains practically untouched, the report showed, with only one theater for every 800,000 persons in India and one for every 3,000,000 in China.

Judging from the tabulations, there is plenty room for expansion in most of the foreign countries.

POISONOUS GAS IN OUR AIR

Carbon Monoxide, the gas fumes thrown off from the exhaust of an automobile, kills hundreds of people each year, when they start their machines in closed garages, and forget to open the doors.

The question now arises, do such fumes pollute the air of our cities? The government is making a survey of the air conditions, but nothing has been found that would tend to cause any alarm. The danger exists in small garages, where the exhaust into a roofed enclosure should be regarded as a hazardous act.

Fourteen of the largest cities in the country were visited, having a combined population of over 19,000,000, and 250 samples of air were obtained for carbon monoxide analysis. These samples were analyzed by the iodine pentoxide method, using a liquid air cooling tube which was shown to be necessary in order to eliminate gasoline vapor, a substance which tends to vitiate the results of the analysis. The street samples were taken in such a manner as to approach the most congested conditions that may exist at a busy traffic intersection. Hence it is felt that these results indicate the maximum hazard that may exist today in the metropolitan thoroughfares from automobile exhaust gas. The average of 141 tests made in city streets at peak hours of traffic showed a contamination of 0.8 part of carbon monoxide per 10,000 parts of air. Only 24 percent of all the street samples had more than one part of carbon monoxide in 10,000 of air and in only one location, a covered passageway, were there as much as 2 parts per 10,000.

Samples taken inside of auto busses yielded even lower concentrations of carbon monoxide gas. The figures for street air, when viewed in the light of present day standards of exposure of carbon monoxide, do not reveal the existence of a health hazard from this source in our city streets. The only individual who may possibly be exposed to a health hazard from inhaling street air containing automobile exhaust gas is the traffic officer. This potential hazard may be minimized by diminishing the duration of exposure at the most congested traffic stations.

No matter how poor a person's credit may be, he can always borrow trouble.

SHERIFF'S NOTICE OF BOND ELECTION

THE STATE OF TEXAS,
County of Foard.

Notice is hereby given that an election will be held on the 12th day of May, A. D., 1928, at the Margaret school house in the Margaret common school district No. 6, Foard County, Texas, as established by order of the commissioners' court, Foard County, Texas, of date of June 5th, A. D. 1909, which is recorded in book 3, pages 113 and 114 of the minutes of the commissioners' court, in the county clerk's office, Foard County, Texas, and book one, page 17, school records, in Foard County, Texas, in the county clerk's office, to determine whether a majority of the legally qualified property tax-paying voters of said district desire the issuance of bonds numbering consecutively from one (1) to twenty (20), both inclusive of the denomination of \$250.00 each, aggregating \$5,000.00, to bear interest at the rate of five (5) per cent per annum, payable semi-annually of each year, said bonds to be due and payable thirty years after their date, maturing serially, on the faith and credit of said Margaret Common School District No. 6, Foard County, Texas, to provide funds to build two additional school rooms of brick to the present brick school house, and equip same, in the Margaret school district No. 6, and to determine whether the commissioners' court of this county shall be authorized to levy, assess and collect annually while said bonds or any of them are outstanding, a tax upon all taxable property within said district sufficient to pay the current interest on said bonds and to provide a sinking fund sufficient to pay the principal at maturity.

All persons who are legally qualified voters of this state, and of this county, and who are resident property taxpaying voters in said district shall be entitled to vote at said election.

This election was ordered by the County Judge of this county by an order made on the 11th day of April, A. D., 1928.

Dated this 12th day of April, A. D., 1928.
L. D. CAMPBELL,
46 Sheriff, Foard County, Texas.

J. B. R. Fox's 79th Birthday Celebrated

Thursday, May 3, J. B. R. Fox was 79 years of age. His birthday was celebrated Sunday. In 1849, May 3, J. B. R. Fox was born in White County, Tenn. The town of Sparty being the county seat. He made Tennessee his home while a lad and up until 18 years of age. He came to Texas in 1864 and settled in Grayson County where he married Miss Sarah Elizabeth Howard. They made their home in Grayson County for 16 years and Montague County 11 years. To them 7 children were born. All are living to bring joy to his life but one son, Willie, who died and was buried in Montague County. He moved his family in 1892 to Wilbarger County, south of Vernon, where they lived for 8 years, then moving in 1900 to Foard County, 1 mile south of Thalia for 6 years, where his wife died in the year 1903. His last move was to his place east of Margaret. After living there for a while he was united in marriage to Mrs. Lizzie Truesell September 13, 1910. They have made their home together at the place they now reside for the past 18 years, Mr. Fox having lived at the same place for 22 years. They are both in very good health for their ages with the exception of Mrs. Fox, who has lost her eyesight. She is now 77 years of age. She was born in Taiborne, Tenn.

All of Mr. Fox's children were there Sunday to visit with them, except one son, Claude, who is at Post, Texas, and one daughter, Mrs. Tarver, of Thalia.

Those attending were, C. J. Fox and family, Mrs. E. V. Cato and family, Mrs. Eric Wheeler and family of Thalia, Mrs. R. M. Cato and family of Vernon. Quite a few of the grandchildren were unable to attend on account of illness in the homes. Those attending were Mrs. Walter Murphy, Mrs. Dave Shultz, Mrs. Claude Roberts, Guyman Cato and the families of the above mentioned. All enjoyed the gathering and the good dinner that was spread.—Contributed.

SPLINTERS

VOL. 1 May 4, 1928 No. 9

Published in the interest of the people of Crowell and vicinity by the Cicero Smith Lumber Co.

R. J. ROBERTS,
Manager.

Well the fishing season is on and a big percent of Crowell's population it seems, are fishermen.

Sure are selling lots of screen doors and screen wire. If you have not gotten your wire and doors yet, better come in and let us fix you up.

A lot of customers tell us they appreciate the kind of service we give. That makes us feel like giving more.

She: "Gosh! It's 1 o'clock and Mother has me locked out."

He: "How in the world will you get in?"

She: "There's nothing to do but wait here on the porch until she comes home."

One of the smallest items in the cost of building is the hardware, but it is one of the most important. Cheap looking hardware spoils the attractiveness of an expensive house.

Our efficient yardman, Clyde King, happened to a painful accident Monday, dropping a keg of nails on his foot.

Don't buy paint by the gallon! 'S funny statement for us to make when we sell paint, but we might add, don't buy it by the quart either, nor by the pint or barrel. Buy it by the square foot. If you do that you will buy BPS Paint because it covers the most square feet per dollar.

"You say his wife drove him to drink?"
"Yes, from the back seat."

A lot of radios are of the "railroad type." They whistle at every station.

Mr. Mack Gamble's new home will soon be ready to move into.

All signs for rain have failed so far. It even looks like the moon has gone back on us this time.

The sign for catching fish is right today, May the 4th.

Come in and visit with us. We are always pleased to have you call.

Some men never get over being in love with the woman they think they are in love with.

We absolutely believe in our ability to please you. And that isn't egotism. It's self confidence.

THREE MEALS A DAY—
SEVEN DAYS A WEEK

NO EASY ORDER THAT. If any man thinks it is, let him plan just SEVEN consecutive dinners without repeating a single item on any one menu, for there must be that much variety.

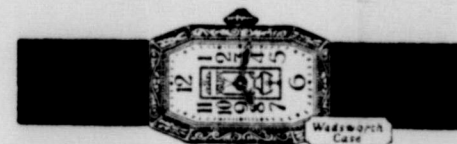

A woman must have considerable ingenuity to plan, and considerable executive ability to prepare twenty-one meals a week.

It is a task at the best but the task is lightened by the splendid grocery store facilities that we offer to the women of Crowell.

Good meals are more easily prepared with good food-stuffs, the best of which are always obtainable here.

The problem of variety is not nearly so great when the wide variety of our stock furnishes new ideas on every visit here.

JUST A CHICKEN EGG

C. Wawson brings us a hen egg that measured 8½ by 6¼ inches, the largest hen egg he says he ever saw, and it is more than the ordinary size, but not quite so large as some that have been brought to us. Asked what kind of hen was the producer of the fruit Mr. Dawson said it was a "dominicker." So far Mr. Dawson's holds the record for that breed of chickens.

It has been suggested that one way to test liquor is to place a ten penny nail in the jar and leave it for a day. If the nail comes out rusty, the liquor is fit to drink. If it becomes bent in the middle, you had better leave it alone.
