The Adelphian Club met Wednesday in the home of Mrs. George Self with Miss Inez Sloan leading. This meeting was the first of a series of educational teas to be given at intervals during the remainder of the club year. The purpose of these teas is to study international relations. The history, customs and fine arts of one or more countries will be studied at each tea.

Holland was the country studied Wednesday. The history, music and art of the Netherlands were discussed by appointed members, after which there was a general discussion of interesting facts concerning the country. ## To the 5000 who daily become owners of the new Ford car

THE service obligation of the Ford Motor Company and its dealer organization is now growing at the rate of 5000 cars a day. It is to these new car owners that this message is addressed.

The new Ford is a remarkably fine car for one that costs so little. It is simple in design, constructed of the finest materials, and built to unusually close measurements.

These are the reasons it performs so wonderfully. These are also the reasons its service requirements are so few and the up-keep cost

When you receive your new car, the dealer will explain the simple little things that should be attended to at regular intervals to insure the best performance. He will also tell you something of his own facilities for doing this work promptly and at small cost.

With the purchase of your car, you are entitled to Free Inspection Service by your dealer at 500, 1000 and 1500 miles. This service is due you and we urge you to take full advantage of it. Proper care during this breaking-in period means a great deal to the life of your car.

Included in the Free Inspection Service is a checkup of the battery, the generator charging rate, the distributor, the carburetor adjustment, lights, brakes, shock absorbers, tire inflation and steering gear. The engine oil is also changed and chassis lubricated.

No charge whatever is made for labor or materials incidental to this inspection service, except where repairs are necessary because of accident, neglect, or mis-

## A Suit Must Fit to Fit Correctly

The style and snap that mark a man as a good dresser can be obtained only by having a perfect fitting suit, and perfect fit can be had only by buying tailor made clothes-clothes that are cut and tailored to your individual measurements and personality and not the kind that is cut from the same pattern as is everyone else's suit.

> TRY IT ONCE AND LET US PROVE IT TO YOU

When you first put on a tailor made suit you can readily tell the difference, and after you have worn it a season you can then determine how much better it retains the original snap and how much better it wears.
