SCHOOL HOUSE BURNED.

Wednesday afternoon about 5 o'clock an hour after school had been dismissed, the school building at Quanah was destroyed by fire. The school building was a two-story building, and the fire started in the kitchen. The fire spread rapidly and in a few minutes it was impossible to do anything to save the building—the fire had gained too great headway. A good many books were gotten out of some of the rooms and most of the seats and desks were saved out of one room on the ground floor. The fire advanced so rapidly that it was impossible to do more.

The building was a wooden structure of two stories, having three large rooms on each story. The fire started in the kitchen and spread rapidly, and being fanned by a strong breeze from the north ran through the building very rapidly.

## ADVERTISING.

Every advertiser ought to make a point of saying something to interest somebody. The greater interest for the general public that can be injected into an advertisement, of course, the greater advantage that advertising will be as a business getter. After all, the real point an advertiser aims for when he starts to place his money in publicity, is the customer. There are two ways to make this interest, one being to get people interested in price and the other to have them anxious for quality. People who want things because they are good make the store a lively place. If enough people can be made to understand that the store is doing all it can to make good things possible to the economical investor, then that store will have some friends who will go early to get to a choice, or to try hard to show the appreciation they have of the excellent things, and count themselves fortunate in being able to spend money for these goods. The desire is created by the store keeper, the interest is maintained by the store keeper, the sale is possible because the store keeper has both created and maintained the interest. If more store keepers watched the reputation of the store and kept the advertising going in a way that would insure the store's reputation constantly growing better there would be an accumulation of benefits which would develop and from which the merchant would realize handsomely.—Coffeyville, Kansas News.

## FORING TO THE FRONT.

Texas is rapidly coming to the front as one of the greatest states in the Union. When we think of the vast and varied resources it almost staggers the imagination to try to comprehend what the future has in store for those who till the soil and follow the various other occupations that naturally follow in the wake of development and enterprise. The people who come to West Texas with a determination to adapt themselves to the changed conditions, to study the climate, soil and the proper diversified crops, just what to plant and how to best cultivate and care for the different farm products, will very often succeed far beyond his most sanguine expectations. There is no place where large families can make a living easier than in the Panhandle of Texas. There are some drawbacks, as there are in all countries, but taking it all together the poor man with a large family can buy a home and pay for it as easily in the Panhandle of Texas as any place in the United States. Besides, the climate is most delightful, and it is as healthy as can be found anywhere. Chills are absolutely unknown, fevers are rare, and in many instances people in the first stages of consumption or bronchitis troubles get well in a short time. This portion of the great state is gradually drifting from a stock-grazing to a farming country. Wheat, corn, oats, kaffir corn, milo maize, sorghum, peanuts, cotton, grapes and nearly all the small fruits are successfully grown, and in some localities apples and peaches do well. It is the finest melon country to be found anywhere. The cantaloupes shipped from Harbottle and adjoining counties to northern markets, have possibilities over all competitors. There is always a good market for everything the farmer has for sale. Land sells at from \$2.50 to \$15, according to location and state of cultivation, purchasers usually paying about one-fourth down and the balance on long time. We want more settlers with big families.—Quanah Observer.

## ROOVELT'S FOUR PLAKS.

Boston, Mass., Feb. 13.—A private letter from Washington today says that President Roosevelt intends to make the issues on which he will run in the coming campaign, and has already named them. At Crowell, Texas, on the 14th day of February 1904, little Virginia Hughes, daughter of Charles and Martha Hughes, aged 1 year, 11 months and four days. Little Virginia's death brings sorrow and sadness to the home, where her life had given sunshine and cheer. Her life, though short, had intervened itself into the affections of loving parents, and while she sleeps the sleep of death, her memory still lives. May heavens bless with the sorrows of the grief stricken parents.

Bay City (Mich.) Tribune—What would happen if suddenly and without warning all the newspapers in the world stopped for a year. Man today is the record of the past—what he may be in eternity will be the record of his past, present and future. Just as surely as habitual drunkenness, immorality or other evils will leave their record upon appearance and character, so surely will the sin you or I may try to hide, even so successfully that the generation in which we live may not suspect it, manifest itself in due season to our sorrow. The judgment will be but the uncovering of the long hidden records under the searchlight of infinite love and justice.—Ex.

COL. HILL DEAD, SAN JACINTO VETERAN

Austin, Tex., Feb. 14.—Colonel J. M. Hill, aged 86 years, veteran of the battle of San Jacinto, died tonight after an illness which lasted for the past ten days. A wife and seven children survive him and they were all gathered around his bedside when the final summons came. During the days of his vigorous manhood Colonel Hill was a prominent planter in Fayette county where he raised his children. His surviving wife is 80 years of age and last September their sixtieth wedding anniversary. The funeral will take place at 4 p. m. tomorrow. The death of Colonel Hill leaves only one surviving veteran of the great fight at San Jacinto, and that is F. F. Sparks of Rockport.—Fort Worth Record.

SENATOR HANNA EULOGIZED.

HIS REPORTS ON BEHALF OF LABOR THE SUBJECT.

Chicago, Ill., Feb. 16.—Senator Hanna has been eulogized for his efforts in behalf of labor by Rev. F. W. Gunsalus at the banquet of the Chicago Confederated Congregational Club at the Auditorium.

Dr. Gonsalus spoke on "The Later Eloquence of Puritanism." "There lies dead on his shield in Washington tonight a man who since every effort was for his equal right with capital," said the speaker. "If ever labor had a true lover and an honest friend it was this man—a man attacked by the slanderous papers of a wretched journalism, by the venomous lying pen, a man whose hands always were working for the best interests of both labor and capital.—Marcus A. Hanna.

Mr. A. F. Barkley announces this week as a candidate for reelection to the office of Tax Assessor of Board county subject to the democratic convention, if any. Albert is well known to the people of Board county and is recognized by them as a worthy man and officer and if elected will doubtless continue to serve the people in a pleasant and efficient manner.

We are authorized to announce W. F. Thomson as a candidate for the office of Sheriff and Tax Collector of Board county at next November election. Mr. Thomson has lived in Board county since the days of his youth and shared the hardships and privations incident to the development of a frontier county and has at all times filled the measure of good citizenship. Having proved himself in the private walks of life he now asks the people to trust him in a public capacity and if he is elected they will doubtless have honest, efficient and courteous service.

We are authorized to announce G. L. Burk as a candidate for reelection to office of county Judge of Board county at next November election. Judge Burk has served the people of Board county as county Judge a little more than three years and has proven himself a safe and conservative officer. Under his administration the finances of the county have been kept in good condition and the county is now upon a cash basis. He is an unassuming man, courteous and kind in his treatment of others and if elected will continue to serve the people courageously and honestly as he has done in the past.

We are authorized to announce J. G. Witherspoon, of Quanah, as a candidate for Representative to the 29th Legislature of Texas from the 103th district, subject to the action of the democratic convention, if any. After a long and intimate acquaintance with Mr. Witherspoon it affords us peculiar gratification to present his name to the voters of the district as a candidate for such an office. No pure man or one that would do more for the advancement of his community, has ever lived in Board county. He is a man full of energy and public spirit, thoroughly familiar with the conditions and needs of the district and if elected will serve the people faithfully and efficiently.

Mr. B. F. Allison announces this week as a candidate for the office of county district clerk of Board county at next November election. Mr. Allison has been engaged in the drug business in Crowell for several years and is known to most of the people. He served two terms as tax assessor of Erath county and retired from office of his own will, refusing to run again. He is a man of fine business education and experienced in county affairs and in every way well qualified for the office he asks, and if elected will doubtless discharge the duties of the office in an orderly and business like manner that will be gratifying to the people and creditable to himself.

Important Notice.

We must close our book accounts, so if you are indebted to us come in at once and settle or make arrangements. All accounts will be in the hands of a special collector after March 1st.
