## Graveside Rites Held Here Sunday for Charlie F. Gibson

Graveside services for Charlie F. Gibson, 83, of Aspermont, a former Crowell resident and uncle of Curtis Ribble of Crowell, were conducted at the Crowell Cemetery Sunday about 4:30 p. m. by Rev. He married Miss Alma Wright of Quitaque. She and their infant son died and were buried in the Crowell Cemetery.

### 1962 Foard Cotton Production to Be Over 5,000 Bales

### T.E.C. and Anderson-Clayton Man Give Different Estimates

Foard County will produce 5,170 bales of cotton in 1962, according to an estimate that will be reported by Marvin Worsham, manager of the Texas Employment Commission office in Vernon, to the state TEC cotton control office in Austin.

Sid Wright, representative for Anderson-Clayton in this area, is more optimistic, however. He predicts that Foard County will produce 6,000 bales.

The forecasters recognize that many unforeseen possibilities could radically reduce their estimates. An early frost, for instance, would cut production materially, since an abnormal acreage is young cotton and will mature late.

According to investigating officers, the motorcycle was going east at the time of the accident. They reported the drive chain broke, became entangled in the transmission and threw the motorcycle into a skid.

## County Receives Rain Sunday

Heavy clouds which hung over this area Sunday brought some badly-needed moisture to this area. The rain in Crowell amounted to .57 inch and most of the county received as much or more than here. About two inches was reported from the Margaret area,

while about three inches were reported in and around Truscott.

The moisture accompanied a cool front which helped relieve the area from the hot, dry 100-degrees-plus weather of the past month.

Mrs. W. O. Fish reported Monday that 1.2 inches fell in the Vivian community.

This was the first measurable amount of moisture to fall here since August 2, when .95 was recorded; however, a very light shower—not enough to measure—fell here Friday afternoon.

**Norther Tuesday**

A norther moved into this area Tuesday afternoon, bringing scattered showers over the area and dropped the temperature from a high of 95 Tuesday to 65 degrees Wednesday morning. Skies were overcast Wednesday and a light mist was falling.

High and low temperatures recorded during the past week follow:

Thursday: high 102, low 74.  
Friday: high 100, low 76.  
Saturday: high 93, low 72.  
Sunday: high 82, low 74.  
Monday: high 96, low 75.  
Tuesday: high 95, low 67.  
Wednesday: low 65.

The band and football groups started practice two weeks before school started. They should be ready to perform at Iowa Park tomorrow (Friday) night when the opening football game for both schools is played.

## To the man who may have stopped looking ahead (without really meaning to)

You're not the sort of man who deliberately closes his eyes to the future. Not at all. In fact, you started buying U.S. Savings Bonds because you knew they could mean a better life for you and your family in the years ahead.

But then something happened. For one reason or another, you lost the Savings Bond habit.

And yet today there is more reason than ever to invest in Bonds. And millions of Americans know it. The amount of money they own in Bonds is at an all-time high—over 42½ billion dollars.

Americans know regular saving is the surest road to a secure future. And there's no better, safer, easier way to save than with U.S. Savings Bonds.

Think it over. Isn't it time you got back into the Savings Bond habit—and started looking ahead again?

"Naturally," Campbell cautioned, "the amount of the expenditure must be ordinary and necessary. If the sum is sizeable, be sure to keep a copy of the bill. It's necessary for us to know whether the entertainment was paid by out-of-pocket cash, credit card, check, or charged to the employer."

### What Kind of Smoke Do You Like?

The USDA is now inviting the public to express its views on the use of smoke flavorings in meat, reports Ed Uvacek, livestock marketing specialist, Texas A&M College.

Present regulations require that smoke in meats must result from exposure to smoke from burning hardwood or hardwood sawdust but the USDA is considering to permit the use of additional source of smoke flavor in processing federally inspected meat products, the specialist adds.

The proposal would also permit the use of smoke flavorings in certain specified meat products with the appropriate marking and labeling of the finished product, says Uvacek. The proposal states that all smoke flavorings would have to be approved for safety by the Meat Inspection Division before they could be used in Federal inspected meat processing plants, he explains.

The deadline for submitting of views on the flavorings is September 6 after which the USDA will decide whether to amend the Federal Meat Inspection regulations to include use of the flavoring materials. Comments on the proposals should be submitted to the Director of the Meat Inspection Service, U. S. Department of Agriculture, Washington, 25, D. C.

### IRS Taking Long Look at Tax Abuses

Uncle Sam's tax collection agency, the Internal Revenue Service, is taking a long critical look at tax abuses in the areas of "entertainment expenses," "business travel," and "expense accounts."

Canceled checks alone are no longer being accepted as adequate substantiation for claimed expenses. Consequently, before Mr. Hard Working Businessman gets too far off on the wrong foot with the IRS in 1962, Ellis Campbell Jr., Dallas IRS district director, comes up with some helpful suggestions.

"Accurate record keeping is the best way to save Federal tax money that I can think of," Campbell said.

"The following pointers can be as useful to area self-employed folks as to corporation executives claiming deductions on personal tax returns for business expenses, whether reimbursed or not."

Campbell revealed that entertainment expense records should provide relation of the expenditure to the taxpayer's business, and the ordinary and necessary business purpose of the expense.

Records should show the name of the person or persons entertained and the companies they represent, as well as the date and

### Assumed Name Renewals Due

Notices reminding business owners to renew their assumed name certificates are currently being mailed out by County Clerk Cornelia McDaniel's office. Mrs. McDaniel said that all assumed names filed before Aug. 29, 1961, must be renewed before December 31 of this year or they will be invalid. The county clerk also noted that some businesses may receive more than one notice. She explained that a notice is being sent for each filing and that the same assumed name may have been filed by a business more than once because of changes in ownership over the years. The filing fee will be one dollar. The renewals will be good for a 10-year period, Mrs. McDaniel said.

The bride is the daughter of Mr. and Mrs. J. C. Prosser and the granddaughter of Mr. and Mrs. Henry Ross of Crowell. The bridegroom is the son of Mrs. L. R. Werley of Crowell and the late Mr. Werley.

Rev. John M. Fitzgerald, pastor, was officiant for the 7 o'clock nuptials before the candlelighted chancel setting. Tall white baskets of white gladioli and decorated cathedral candelabra, holding white tapers, flanked the white altar. The chancel railing was decorated with emerald and lighted white tapers. The pews were marked with white satin bows.

Mrs. Paul Shirley, organist, provided traditional wedding selections and accompanied Mr. and Mrs. Ken Shaw of Hawkins, cousins of the bride, as they sang "Because" and "The Lord's Prayer."

Given in marriage by her father, the bride was attired in a floor-length gown of white satin. The princess style bodice, coming to points in front and back, was shirred on each side, featured a bateau neckline of Alencon lace trimmed with seed pearls, and three-quarter length sleeves. A tiara of pearl pendant drops and seed pearls held her finger tip veil of French illusion. She carried a cascade bouquet of stephanotis centered with white roses with white bridal satin streamers tied in love knots.

Mrs. L. S. Smith served as matron of honor for her niece, and Mrs. Lee Whetstone, sister of the bridegroom, served as bridesmaid. Bridesmaid was Miss Linda Williams of San Antonio, cousin of the bride. The attendants' dresses were tropic blue pais-d-air cotton satin. They wore matching nose tip circular veils and varied colonial nosegays of mums.

## Son of Former Residents Wed in Vernon Saturday

The bridegroom is the son of Mr. and Mrs. Henry Teague of McAdoo, former Crowell residents. Rev. Neal T. Jones, pastor of the church, officiated at the 8 o'clock ceremony in the sanctuary of the church. The bride, given in marriage by her father, wore a bridal gown of chantilly lace and imported silk illusion over taffeta. The fitted bodice was fastened down the back with tiny lace covered buttons and featured long pointed sleeves and a portrait neckline with natural scallops of which were re-embroidered with seed pearls and sequins. The chantilly lace was repeated by an overskirt which fell in points in the front and back of the bouffant skirt which was worn over a hoop.

Following the ceremony, a reception was held in the church parlor. The all white theme was repeated in decorations and floral appointments.

The bride's table was covered with a cloth of white satin and illusion with each corner enhanced with satin appliques filled with lilies of the valley and ribbons falling in shower effect to the floor. A three branched silver candelabra holding tall white tapers was encircled with the bridesmaids' bouquets on the table. Focal point was the three tiered wedding cake iced in white with tiny rosebuds and doves and topped with a miniature bride and bridegroom. Other appointments were silver and crystal.

It refers to any good citizen who has become much confused by all the tax controversy going on... and sincerely but fearfully hopes it won't finally end up costing him more and benefiting him less.—East Lansing, Mich., Farmer.

## Building Owners Allow Shelters

**SHELTER AGREEMENT** is signed by Mayor Warren Whitson of Denton, Texas—an act being duplicated in communities across the nation as fallout shelter space in existing buildings is made available by property owners for emergency public use.

Others in picture are W. C. Orr, Jr. (left), who signed as president of the First State Bank of Denton—owner of the building containing the basement shelter space—and Bill Cox, representing Region 5 of the Office of Civil Defense, Department of Defense. The agreement provides that the bank will allow emergency use of the 350-person shelter area, the Defense Department will furnish survival supplies for the shelter and the City of Denton will place them in the shelter.

## 'EYES' FOR FALLOUT SHELTERS

Radiological detection instruments will be a vital component of supplies for community fallout shelters stocked under the Federal shelter program of the Department of Defense.

A nuclear attack might threaten large areas of the nation with radioactive fallout. Some areas could receive a heavy fallout deposit requiring stays in a shelter of two weeks or more, while shelter occupants in lightly-affected areas might begin coming out in a few days or less.

Radiological instruments are needed by occupants of community fallout shelters to tell them when they might emerge safely.

Radiation cannot be detected by the senses. Grouped around the shipping case in the picture of the radiation monitoring kit are:

- (1) A geiger counter with earphones, batteries and accessories for use in measuring low-range radiation such as might be dangerous in food and water;
- (2) Three pocket-size dosimeters and a dosimeter (knobs)—(square box with two black dials, indicating total radiation absorbed, while the charged returns dosimeters to zero settings for re-use);
- and (3) A survey meter for measuring high-level radiation such as might occur outside a fallout shelter.

**Gas Taxes Being Refunded**

Want to add a nice chunk of cash to this year's farm income? Farmers who do are reminded that they may now submit claims for federal gas tax refunds, according to Joe Burkett, County Agent.

The refund may be received for all gasoline used for agricultural purposes on a farm or ranch, Burkett says. Claims should include fuel used by the operator himself or by custom operators working for him, he added. However, fuel used in vehicles on roads and highways is not eligible for refund.

The claim for federal refunds must be made from July 1 to September 30 on gasoline used between July 1 of 1961 and June 30 of 1962. The procedure is simple and all farmers who filed claims last year will receive Form 2240 in the mail this year. Farmers who did not file last year may obtain the forms from Burkett, or from the Internal Revenue Service. Burkett also suggests that a copy of Publication 308 of the Internal Revenue Service may be of help to the applicant.

The federal gas tax refund should not be confused with the state refund which is for a shorter period of only six months, explains Burkett. This refund involves a more complicated process and additional information should be obtained from the State Department of Revenue in Austin.

Also, Burkett reminds that any points that are uncertain should be checked on before the claim is filed and that farmers should keep their records to verify claims submitted.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin, Tex.—Very few cars and trucks in Texas are taxed through the ad valorem tax program.
Some counties, cities and school districts tax them, but close to 80 per cent of the vehicles go untaxed. So the Texas Commission on State and Local Tax Policy proposes that something be done about it.
An Amendment to the constitution is their recommendation. They suggest an amendment exempting motor vehicles from the property tax, but allowing the Legislature to tax them.
Plan is to have the Legislature set up a procedure by which a state board would determine the value of all makes and models of motor vehicles. Then the county tax assessor-collector would collect a tax at the rate of \$1.50 per \$100 of market value when license tags are purchased.
Under this "suggestion," 40 per cent of the \$52,000,000 annual take would be divided among the school districts of the counties. Balance would go to the cities in accordance with their populations. County's share would be that portion represented by population outside cities.
Counties and cities would be required to spend the money only on road and street work.
Before the commission decides whether to recommend this procedure to the Legislature, a public hearing will be held sometime this fall.
SOCIALIZED INDUSTRY — A study committee on the Cost of Government is exploring the possibility of using convict labor to produce more of the products used by the prison system.
State spends about \$3,000,000 a year for merchandise such as soap, paint, tobacco, tires, mattresses and furniture for the prisons.
In the past, organized labor and business groups have been able to keep the state from using convict labor in competition with paid labor. But the farmers have not been so successful. Prison farm produces much cotton and other products.

Kenneth Payne Head of Regional School Study

Kenneth W. Payne, superintendent of the Ponder Independent School District, has been named chairman of Region 5 of the Texas Small School Project.
Supt. Payne is a son of Mrs. Coy Payne of Marzette.
Representatives of participating schools selected Payne during an organizational meeting Friday served as head of the regional group last year and was active in the project when it started years ago.
The project is designed to meet the needs of better instruction in small schools where the enrollment is limited. It stresses use of multiple classes, aides, correspondence and flexible schedules and several methods of increasing instruction.
Four general meetings planned for the school year schools—Krum, Ponder, Pecos, Alvord, Detroit and Argyle—up Region 5.
Payne was accompanied for many of the meetings by his wife, Mrs. Edna Payne. She is attending Burg State College (this fall) in Pittsburg, Kansas, on a scholarship.
Mr. and Mrs. Fred Young attended a pioneer reunion in Bedford Saturday, August 25. It is the second reunion of the organization and about 350 attended.
Mr. and Mrs. Bryan Johnson of Anton visited this week with his brother and family, Mr. and Mrs. Henry Johnson, and her sisters, Mrs. Grady May, Misses Sybil, Marian and Marilyn Hays, and with her mother, H. F. Hays in the Taylor valet-ent Home in Vernon.
Predictions are contingent on Democratic nominee Preston Smith winning the lieutenant governorship over his Republican opponent on the 9th, Bill Hayes.
FLU SHOTS URGED—Health Department has issued a warning to pregnant women and persons over 45 that it's Asian flu time.
Department is urging adults over 45 (particularly senior citizens over 65), pregnant women and persons of any age with heart trouble, lung, kidney or metabolic diseases to make immediate arrangements for flu shots.
Widespread outbreaks of Asian influenza are predicted for the coming winter.
A-strain flu occurs every two to three years.
Two doses of influenza vaccine, two months apart, are urged for people not previously immunized. Both should be administered prior to December, starting point of the cyclical onset.

This was the last Sunday Miss Moody was accompanist for the class as she will be leaving for college. Dick Todd announced that Miss Lanette Lemons will be the new pianist for the class beginning next Sunday.
Mr. and Mrs. Carvel Thompson, Jill, Mickey and Lisa, spent last week here visiting her sister, Mrs. John L. Hunter, and his mother, Mrs. E. L. Thompson, and other relatives. They spent Thursday in Lubbock with her mother, Mrs. J. W. Owens and spent Friday and Saturday on Lake Kemp with Mr. and Mrs. Vernon Garrett. Then they attended the Johnson reunion at Lake Pauline Sunday and returned to their home in Geuda Springs, Kansas, Sunday night. Their daughter, Jill, finished Arkansas City High School in May of this year where she was on the high honor roll, took an active part on the school paper, and
