New Regulations for Registrants 28 Years Old Announced

Under recently amended regulations no distinction is made in the classifying registrants over twenty-eight years of age and registrants under twenty-eight years of age. General J. Watt Pace, State Selective Service Director, said today.

Prior to the declaration of war, men over twenty-eight had been placed in Class I-H by reason of age and were not subject to induction. Under new regulations, this classification no longer exists and all local boards have been instructed to reopen immediately all cases of I-H registrants and to place each registrant in the class found by the board to be proper under current regulations, without regard to age.

Likewise, registrants now in Class IV-E-H, who are conscientious objectors to combatant and noncombatant service, but were deferred by reason of age, will now be eligible for immediate orders to report for work of national importance, provided they otherwise qualify under current regulations.

All such registrants, General Page said, will receive written notice of reclassification. "I want to take this opportunity again to caution all registrants, regardless of his classification, to keep in touch with their local boards and to notify them immediately of any change of address," General Page said. "A registrant becomes liable to severe penalties provided by the Selective Service Act for delinquents if he fails to notify his local board promptly of any change of address."

General Page also emphasized that registrants who are expecting to be called into a branch of the armed forces to which they have made application should notify their local boards and report all developments in connection therewith. This, he said, will enable the local board to co-operate with the registrant in his particular ambition to serve his country.

Mr. and Mrs. Clyde Cobb and their daughter, Wanda B., accompanied by Walter Nichols, made a trip to Grand Prairie, on the 3rd of January, to take Wayne Cobb, who lives with his aunt, Mrs. Geo. Watson, in Grand Prairie and goes to NTAC at Arlington. They also visited Mrs. Cobb's brother, Otis Teague and wife at Fort Worth.

An estimate of the number of bales of cotton which have been ginned in Foard County up to the present time, discloses the fact that just about 14,000 bales have been ginned by the five gins in the county. There are, approximately, 750 bales yet to be gathered and ginned, according to information secured from the gins.

This will bring the county's crop to around 15,000 bales and this is considered to be a bumper crop. Gathering the remainder of the yield continues at a rapid rate during the present good weather and will, probably, be completed within a few weeks.

The county has benefited more from the present crop than for many years, due to the fact that the price has been good and this has enabled the farmers to pay a high price for the gathering, thus providing profitable employment for many people.

National Defense School Has Been Secured Here

All arrangements have been approved by the Government for a National Defense School to be held in Crowell soon, according to announcement made this week by Marvin L. Myers, vocational agriculture teacher in the Crowell High School. The course will be taught by Joe Ward in his garage.

The first course to be taught will be on auto mechanics, stressing farm mechanics, especially tractors, trucks and some welding. Both acetylene and electric welding will probably be included. This course is designed for boys who are not attending a public school and for farmers and other adults.

These National Defense courses are well scattered over Texas and other states, being placed in towns where Vocational Agriculture is taught. All expenses of the course are paid by the Federal Government. The equipment to be purchased for the defense school is paid for by the Government and is to be left with the school to be used by the Vocational Agriculture classes after the course is completed.

The expenditure of this money is justified by two reasons: 1. To help prevent a shortage of men trained in this line of work which is being brought about by a mechanized war. 2. And since the farmer will be forced to run his equipment longer, due to the fact that new equipment will be harder to get, he needs a good knowledge of mechanics to make his equipment perform the most efficiently.

This defense course will be free and will start in the near future. It will consist of 150 hours of instruction and will last ten weeks. It will be taught at night, probably three hours per night for five nights per week.

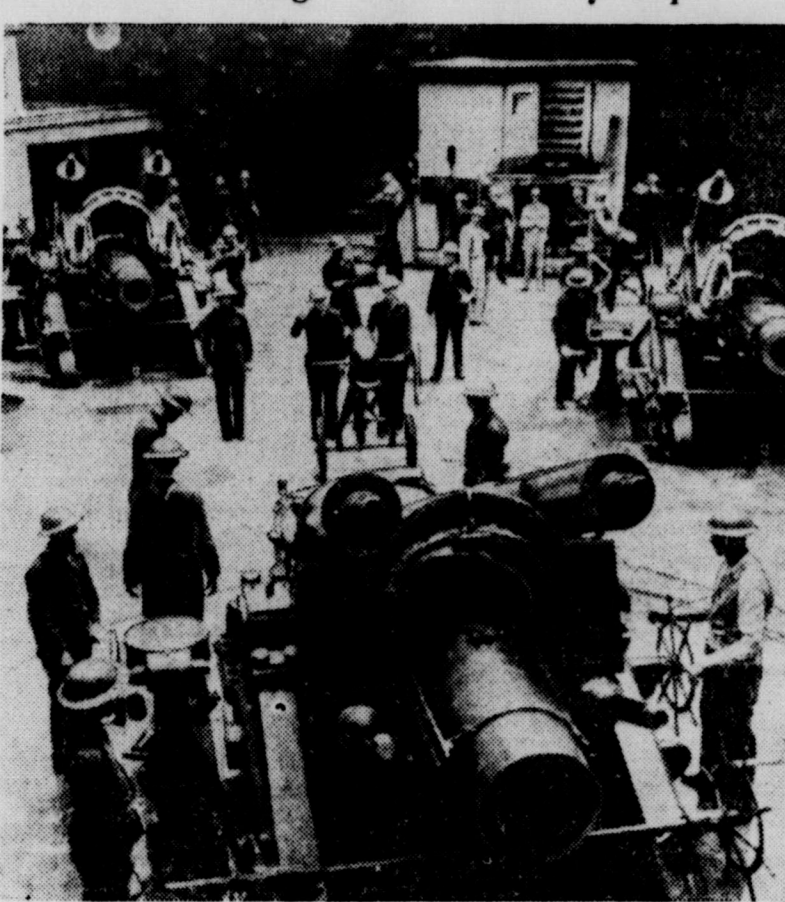

Anyone interested in signing up for this course should see the Vocational Agriculture teacher at the High School.

Paid Full Price for Sneak Attack

Pacific fleet gunners aboard ships in Pearl Harbor on the morning of December 7 shot down more than 20 Japanese aircraft during the Jap sneak attack which launched America into the war. Here seamen are shown examining the wreckage of Japanese torpedo plane that was shot down in Pearl Harbor.

Huge 12-inch mortar guns manned by United States coast artillery gunners at Fort Corregidor, in Manila bay, Philippine Islands, which was bombed by Japs. In one attack, in which 21 enemy planes participated, four bombers were shot down by anti-aircraft fire from the heavily guarded fortress.

Judge Coombe of Stamford Speaks at Masonic Meeting

Judge Chas. E. Coombe of Stamford delivered a very forceful and touching address at the regular meeting of the Crowell Masonic Lodge Monday night to a large crowd of Masons, many of whom were visitors. Judge Coombe is a pioneer attorney of this section and an outstanding speaker. He was accompanied by Crowell by E. B. Britton, and W. E. Whittington.

Other visitors at the meeting were Conrad Hatchett, district deputy Grand Master, E. D. Fiero, Claude Triplitt and C. R. Cherwood, of Quanah; E. G. Grimsley, Chas. B. Wisdom, Joe Johnson, Morgan Price, J. M. Jackson, Rev. T. J. DuBose, Luther Templen, W. G. Chapman, C. C. Wisdom, A. B. Wisdom, Jno. W. Wright, Jim Moore and Mack Edens, of Thalia.

Grocery Stores to Make 3 Regular Deliveries Daily

Haney-Razor, Lanier Grocery, Coltharp Food Store and J. T. Brooks Food Market inaugurated the plan of making three grocery deliveries daily on Monday, Jan. 12, and no purchase under \$1.00 will be delivered.

These grocerymen stated that they were taking this step in order to make their equipment last longer and at the same time take care of the delivery needs of their customers. It is a well known fact that new tires or delivery cars can not be bought at the present time.

Deliveries from these stores will be made at 8:30 a. m., 11 a. m. and 4 p. m.

Local People Hear Returned Missionary

Rev. Sam Hilburn, a returned missionary from Japan, spoke Monday at the Methodist Church at Quanah at the District Missionary Conference which convened there on that day. Rev. Hilburn came to the homeland last April. His wife and children returned six months prior to that, on account of shortage of food in Japan. His lecture was informative and instructive, telling of conditions just as they are.

The following local people attended the meeting: Rev. and Mrs. H. A. Longino, Mrs. Ida Simkins, Mrs. M. J. Girsch, Mrs. Frank Flesher, Mrs. R. R. Magee, Mrs. A. Y. Beverly and Mrs. J. W. Bruce. Lunch was served in the basement of the church at the noon hour.

Wildcats Break Even in Two Practice Basketball Games with Altus by Winning Game Tuesday Night, 24-22

The Crowell Wildcats broke even in their two practice basketball games the past week with the Altus Bulldogs. The Oklahoma five won at Altus on Thursday night of last week by a 13 to 7 count. The Wildcats evened the series with a 24 to 22 score at Crowell on Tuesday night of this week.

The game at Altus was a defensive battle all the way with Crowell scoring only two field goals. The other points came from gratis tries. The game at Crowell was well played by both clubs and close all the way. The score was six and six at the end of the first quarter; eleven and eleven at the half and 19 to 16 in Altus' favor at the end of the third quarter. Altus made another free toss early in the fourth quarter to take a four point lead. Nelson rung a long shot and Roark made a crisp tie to tie the count.

Curtis of Altus made another field goal to make the score 22 to 20. Nelson came back with another long shot to tie the count and Roark placed the local team in the lead a minute later with a field goal. As the Crowell boys started to play for time in the last minute the Altus Captain called "time out" just as one of his teammates intercepted a pass. The game ended before the Bulldogs could get another try at the basket.

Mann's defensive work stood out for Altus in both games. Roark's (Continued on Page Five.)

Crowell Basketball Team Will Start Conference Play Next Week; Quanah Indians Come to Crowell Tonight

The Quanah Indians come to Crowell tonight, (Thursday), for the Wildcats' last practice game before conference play begins. The Crowell boys journey to Archer City Monday night for their first District 9-A game, and Iowa Park comes to Crowell on Tuesday night for the Wildcats' second conference encounter.

Both of these clubs have broken even in conference play. Archer City won over Iowa Park by one point and lost by a lop-sided score to Holliday. Iowa Park has a victory over Chillicothe, but lost the one-point game to Archer City. The game Tuesday night will begin at 7:30 o'clock.

A girls' volleyball game will be played in connection with this game.

BOYS SCOUTS ARE STRESSING FIRST AID TRAINING

In line with their policy of helping the nation in any way that they can and of being prepared to help others in time of emergency, the Boy Scouts are stressing first aid training. The patrols in each troop will begin practice for a first aid contest to be held in this District (12) some time before February 15. The two best patrols will enter the contest of the Western Division, which is composed of Foard, Hardeman, Childress, Cottle and King Counties, along with Truscott in Knox County.

Scouting took a boost this week with the showing of two Scouting pictures, "The Trail to Citizenship and Camp Boulder," at the High School to boys of Scouting age. Troop 53 has a new place to store waste paper and intends to pick up more and at a faster rate in the near future, according to Scoutmaster Ernest Patton.

The Troop Committee of Troop 49, composed of J. A. Stovall, T. B. Klepper, J. W. Bruce, Leslie Thomas, Dr. H. Clark and Claude Callaway are definitely in search of a suitable man for Scoutmaster, since they have learned that Granville Lanier will not return from California. Mr. Stovall has called a meeting of the committee for 5 o'clock Thursday afternoon in his office to consider this matter. C. P. Sandifer reports that the Cubs are coming along well with

Medical Unit to Meet Tuesday Night, Jan. 20th

Twelve hundred and eighty-one persons registered at the various registration booths in the county for the Home Guard units last Saturday which pointedly demonstrated that the people of the county are highly desirous of going forward with the complete inauguration of all such units in the county.

Work is now under way indexing and classifying all registrants and it is believed that by Friday of this week the committee can meet again and make final preparations necessary for ultimate operation.

The response, as evidenced by the registration, has been very heartening to the committee and it has asked The News to express its appreciation to all those who assisted in any manner with such registration.

Those in charge of the registration booths in the county were as follows: Crowell—Clyde Graham and Leslie Thomas.

Thalia—E. G. Grimsley, Margaret—H. L. Ayers, Foard City—A. W. Barker, Vivian—Hartley Easley, Texaco Company—Frank Allison, Rayland—J. H. Robertson.

The above persons in charge secured others to assist in the local registration in the communities, but the names of all who assisted have not as yet been received and will be published at some later date.

The head of the Medical Unit, Dr. Hines Clark, has announced that all who registered in such unit, and who are interested in receiving training therein, will meet in the district court room Tuesday night at 7 o'clock, as it is thought especially fitting that this unit be organized as quickly as possible in order that the needed training and instructions may be given.

Anyone who desires to register and has failed to do so, can get a card at the county judge's office for this purpose.

Foard's Allotment Bonds and Stamps Is \$258,200.00

The Foard County Defense Committee for the sale of bonds and stamps reports that this county's allotment is \$258,200.00 for the coming year, according to information released by Merl Kincaid, chairman of the committee. This amount represents about 10 per cent of the gross income of each individual.

So far the citizens of the county have purchased approximately \$50,000.00 worth of defense bonds. The committee feels that this is a good beginning, but it realizes that every man, woman and child will have to buy to the limit of their ability to raise Foard County's allotment.

NEW COOK BOOKS PRINTED AND ON SALE

The job printing department of The Foard County News has recently completed the printing of five hundred 43-page cook books for the Home Demonstration Clubs of Foard County and they are now on sale at 50c each. It is reported that those who are in charge of the sales are meeting with much success.

BUYS TUTTLE FARM

Mr. Howard is connected with a trucking company in California which he established but recently sold. He still owns stock in the company. Mr. and Mrs. Howard returned to their home in California following their visit here.

DR. MOLES TO BOWIE

Dr. Robert G. Moles and his mother moved their household furniture to Bowie last week where they will make their home. Dr. Moles, practicing physician in Crowell for more than a year with offices in the Corner Drug Store, will be connected with the Bowie Clinic as a surgeon.

Plane Props In The Making

Passed by Censor THE manufacture of plane propellers from laminated wood requires the services of a keen eye and a steady pair of hands. Both blades must be identical in pitch to the merest fraction of an inch and the care exercised in measuring the pitch is indicated in the illustration. Laminated wood propellers have several advantages over those made of metal. They are lighter; they cost less and when struck by bullets or shell fragments, they split instead of twisting. One of the largest propeller plants in Canada is located in Winnipeg. Before the war it produced propeller-driven snowmobiles which are used extensively for winter trucking in those sections of the north beyond the reach of highways or railroads.

WORKING CONDITIONS CERTAINLY HAVE IMPROVED AROUND OUR PLACE SINCE THE BOSS STARTED THAT MODERNIZATION PROGRAM

Efficient, modern principles of ranching and farming not only make working conditions better but they increase production, reduce time and labor costs, and increase profits. They also make farms and ranches more enjoyable places to live.

Farms and ranches should be as efficient as any factory. Cameron's new Ranch and Farm Building Service provides this efficiency. This is one of the many Cameron services by specialists for which you pay not one extra penny. Investigate its value today.

CAMERON'S New Plan Book

Here is a practical, new "Plan Book" which offers you new plans of farm and ranch buildings which are:

1. The most economical to build for their specific purposes.
2. Designed to increase your income and profits.
3. Constructed to last—reduce upkeep—increase the value of your investment—save you time, needless steps and work.

CAMERON'S New Survey Service

For lower operating costs, carefully plan your buildings; their location, construction, interior layout, and the use of correct materials. Cameron's new "Ranch and Farm Survey Service" is exactly what you need. Special survey forms enable you, with the help of a trained Cameron Man, to plan your improvements and profits for years to come.

EXTRA DOLLARS FOR FARMERS AND RANCHMEN

To plan for extra dollars and increase profits on ranches and farms, Cameron's "Survey Service" includes these things: (1) Making a survey of your present buildings and layout. (2) Working out findings of this survey on the Cameron "Survey Form," furnishing you a written record of the layout, design, condition, and efficiency of your present buildings and equipment. (3) On the basis of this information, determine scientifically what must be done to permit your ranch or farm to operate at lower cost for higher profits. (4) A definite program of improvements is laid out.

This need not be completed in one year necessarily, but through the years it will reduce your operating costs and increase your profits. As you proceed with the plan, it is designed to begin paying for itself.

Behind this new service is the 74 years experience of Wm. Cameron & Co. in meeting the needs of Southwestern Farmers and Ranchmen. This survey and plan service will assist you in improving your income, the value of your investment, and your permanent security. Don't fail to take advantage of this new Cameron service... IT'S FREE!

Homer R. Zeibig Is Candidate for Com. Precinct 2

Announcement as candidate for Commissioner of Precinct No. 2 was given to The News this week by Homer R. Zeibig, subject to action of the Democratic primary in July.

Mr. Zeibig is a native of Foard County, having been born and reared in Precinct No. 2, and therefore is well known to the people of this precinct. He respectfully solicits the favorable consideration of the voters in his campaign for this important office.

In releasing his announcement Mr. Zeibig had the following to say: "I am again announcing as a candidate for Commissioner of Precinct No. 2. Most of you know I made this race in 1932 and again in 1936, receiving a very encouraging vote on both occasions."

"I wish to express my appreciation to those who voted for me in the past, and to those who did not vote for me, I am hoping you may be free to do so in the coming election."

"I have lived in Foard County 46 years, having been born in this county. I feel I am qualified to handle this position in a business-like manner, as it should be, and will put forth every effort necessary to do so."

"I will endeavor to see each of you between now and election day. If I should fail, please consider this as a personal solicitation."

Mrs. Ralph McKown Announces for Co. and District Clerk

Mrs. Ralph McKown authorized The News this week to announce her candidacy for County and District Clerk of Foard County, subject to action of the Democratic primary in July.

Mrs. McKown came to Foard County with her parents, Mr. and Mrs. C. L. Nicholson, in 1908 and lived at Thalia five years before moving to Crowell. She was Miss Fern Nicholson before her marriage. This is the first time she has ever asked the people of the county for a public office, and she earnestly solicits the favorable consideration of the voters of the county in this campaign.

In making her announcement Mrs. McKown released the following statement: "During the time I have lived in Foard County I graduated from Crowell High School and had two years of college work at the North Texas State Teachers' College at Denton, following which I taught school six years in the county, at Good Creek, Beaver and Vivian. I also worked one year in the County Judge's office during the administration of Judge Atcheson, and I sincerely believe that I am qualified to fill the duties of this office if the people see fit to honor me with this position."

"I will put forth every effort to see each voter in the county before election, but if I fail to see anyone, please consider this announcement a personal solicitation for your vote."

Participants in the contest were chosen from freshman speech classes, each class selecting a single representative. Purpose of the oral contest, of course, is to encourage interest in public speaking.

Nine finalists will compete for the prize—to be awarded by a local bookstore—including A. Y. Olds, arts and sciences student from Crowell. Olds is a member of the student staff of the University Radio House.

DEATH-TEST PROVED IT!

Death-Test?... It was this way: ... One strict 5-quant fill of some one big-brand oil of quality went into each of six duplicate cars. The referee snapped the locks—no oil could be added. All cars sped till oils and engines quit dead. One brand—Conoco Nth—out-mileaged the runner-up by 74% and lasted for more than twice the mileage averaged by all its Death-Tested rivals. They were mere smoky smears—engines ruined—when the fill of Conoco Nth oil was still up above half! That's the fill of Conoco Nth oil was still up above half! That's economy. The Lord is good unto them that wait for him... the soul that seeketh him.—Lamentations 3:25.

We sincerely hope that the lessons this country learned at the World War peace table will not be forgotten when the time to talk peace comes.

Typical American reaction to the call for men to avenge the attack by Japan was the ten-year-old boy who applied at the Navy recruiting station to enlist.

Jeannette Rankin, Representative of Montana, cast the only dissenting vote in Congress on the matter of war against Japan.

Labor of America is in danger of enslavement from racketeers and its profiteering leadership.

We are predicting that American manufacturers are going to bring out a substitute for silk hose that will put silk itself out of the running.

Its a long ways ahead to think about it, but the democracies have not only got to win the war but the peace also.

You can judge a man by the company he keeps, and you can judge a nation by the company it keeps.

John W. Lewis' union has \$5,000,000 in the bank. How about saying a few words about those defense bonds to John.

The troubles that the average man talks most about are not his real troubles.

The devil must look upon some folks as suckers—they are so easy to get.

It's Your Life!

(By George Clarke, Director Texas Safety Association.)

Are your feet killing you? Maybe they aren't yet—but one out of every four persons killed in traffic accidents this year have walked to their deaths.

Among the objectives of the December Traffic Safety Emergency Campaign is the prevention of 52 pedestrian deaths which are expected under the present accident trend.

Thirty-one of the pedestrian fatalities are expected to occur on city streets. Twenty-one are due along the rural highways.

The main reason for these deaths will be that the pedestrian forgot to be careful. Unless in extreme cases such as drunken driving, the machine isn't going to seek out the pedestrian.

At night when the majority of rural pedestrian fatalities occur, the victim might have avoided the accident had he worn something white that would reflect the beams of the approaching headlights.

A good rule to follow for any highway walker is to use the left side of the highway, facing traffic.

The best rule for the city pedestrian is to "watch while you walk." Never depend on the driver. Play it safe.

And then, maybe, your feet won't kill you!

What We Think (By Frank Dixon)

Now that we are actually in the war the next thing to be concerned about will be the means to pay the bill. Those who have this as a responsibility are looking about for sources of revenue.

There isn't any doubt that the cost is going to be enormous, and that the burden is going to fall upon every one, and be felt by everyone.

In addition to being proposed as a means of raising money to prosecute the war, it is also claimed by those in favor of this means of raising the necessary money that it will tend to curb inflation by giving employees less money to spend.

As proposed I am opposed to this means of raising the money needed. I do not believe it will be equitable.

In those sections of the country where organized labor is in control, if a 5, 10, or 15 per cent tax is put on the pay envelope, labor leaders will, if they follow past practices, immediately seek wage increases sufficient to compensate the tax.

The result will be that these workers will continue to have the same amount of money to spend with which to promote inflation, and there will be added to the manufactured articles an added cost equal to twice the tax.

In those sections of the country where labor organizations are not in control, and which have no defense industries to give employment, the increase to make up for the tax cannot in many instances be met by the employer.

The tax is not equitable for the reason that it levies the same tax upon a single man with no responsibilities that it does upon the head of a family with five or six small children.

A survey of wages as shown by the last census will show that there are many thousands of wage earners, heads of families, who do not earn to exceed twenty dollars a week, or \$1,000 a year.

To take \$100 or \$150 or even \$50 a year from such a head of a family would be to take the same amount from a single person earning a like amount. In one instance it would merely call for the curtailment of a few luxuries. In the other instance it would dip into the necessities.

My contention is that if one class is going to have to curtail necessities to pay for the cost of the war all classes should. The man with the large demands upon his pay check should not be called upon to pay the same tax that the man with few demands will pay.

I think as a whole the plan is a good one but it should be provided with exemption safeguards the same as is the income tax law.

Virgil Johnson Seeks Election as Commissioner

Among the candidates to announce for office this week is Virgil Johnson, who is seeking election as Commissioner of Precinct No. 3, subject to action of the Democratic primaries.

In his announcement Mr. Johnson has the following to say:

"I take this means of announcing my candidacy for the office of County Commissioner, Precinct No. 3. I have never asked for a public office before. I realize this is a very responsible office, but of you see fit to elect me, I promise to do my best to make you a good commissioner.

"I have lived in this precinct all of my life and know most of you. I will try to see all of you before the primary. If I fail to do so, please consider this my earnest solicitation for your vote and influence."

SERVICE in a pinch

MAYBE you've got a boy helping to do the job "over there." He's a fine lad... a brave one, too. It's a big job he's got.

And you're certain—and we're certain—that when all real Americans concentrate their efforts on production of supplies and actual fighting equipment, and insist upon discontinuing the enormous non-defense spending spree by non-productive political agencies, then this fine, brave soldier boy will get the job done.

That means there remains a truly big job to be done here at home. Everybody left behind must help.

Our own special job—this company's—it twofold: First—we must provide the light and power needed by army camps, air training schools, and defense industries in this West Texas country. Second—we must continue serving your home and business, doing all this in an economical manner so that we may also continue contributing all possible tax support direct for defense purposes.

We must conserve copper, rubber and automobiles. Our cars and trucks were reduced from 334 in 1931 to 235 in 1941. With further reduction

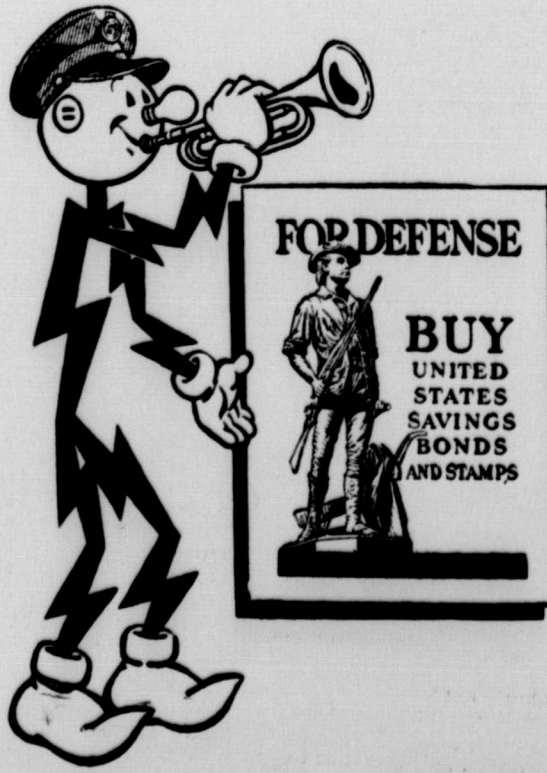

now, many will do double duty in order to take care of the public's electric service requirements over a 45,000-square-mile area.

These vehicles, in 1941, traveled a total of 3,506,872 miles, or 140 times around the globe! Many of them have been rebuilt, and now will be rebuilt several times.

With a shortage of tires, cars and trucks, the job of maintaining the same type of good service in 1942 will be an increasingly hard task. It will require more maintenance and rebuilding throughout. This, we will continue to do, making replacement parts in our own repair shop, if necessary, to maintain the continuity of service to you.

We do not expect to be late in rendering any of the services you have come to expect of us. But, if there is delay, remember, please, that speed is being sacrificed at home so that the boys "over there" may have more and better fighting equipment.

Oscar Boman in Precinct No. 4 Race for Commissioner

Oscar Boman entered the race for Commissioner of Precinct No. 4 this week and authorized The News to make the announcement, which will be subject to action of the Democratic primary in July.

Mr. Boman is well known in Foard County and especially in Precinct No. 4 where he has lived most of his life with the exception of two years spent in the Army during World War No. 1. He feels that he is competent to discharge the duties of the office and has the following to say regarding his announcement:

"To the Citizens of Foard County—I take this method of announcing my candidacy for the office of County Commissioner, Precinct No. 4. As most of you know, I have lived most of my life in Foard County and have never asked for a public office before. I promise you that if elected, you will always find me on the job, doing all I can for the interest of our county. I will extend

my every effort to make you a good commissioner. "I will see all of you between now and election."

ACCIDENT WEEK IN THALIA

The past week has been an ill-fated time for a number of Thalia folks, according to the Thalia News correspondent.

Mrs. Gordon Self sustained a broken shoulder while cranking a car. Avis Wisdom has a dislocated shoulder caused from a fall from a truck. Harlie Capps was thrown from a horse and received injuries, but is better and able to be about.

Howard Bursey received injuries to his back while helping to brand cattle. Loyd Fox, an ex-procureman of Thalia, who is known as the "cowboy farmer" was injured by a small calf on the Walter Ramsey place and has an injured shoulder.

The Greater and Lesser Antilles are two groups of islands in the West Indies lying between Florida and South America.

The Nolin River, in Hardin County, Ky., travels 20 miles in advancing a total distance of six miles.

Will Move Shop to New Location on Highway Next Week

Q. V. Winningham will move his blacksmith shop next week from the east side of the square to the new building that has been under construction the last few weeks on Highway 70, one block east of the square.

The building is 48 feet wide by 100 feet long and the floors will be concrete.

After moving to his new location Mr. Winningham will employ a mechanic to repair automobiles and tractors.

Foard County Citizens Return from California

Mr. and Mrs. T. W. Cooper of the Vivian community returned to their home on Jan. 7, from a six weeks' trip to points in California, and make a report of the latter part of their trip to The News. They visited Mrs. Cooper's niece and her husband, Mr. and Mrs. Harry Johnstone in Eureka, Calif., and other relatives in various places of the western state.

On Dec. 19, Mr. and Mrs. Johnstone and Mr. and Mrs. Cooper drove from Eureka to Tudor, Calif., over a beautiful, scenic highway through the famous redwoods. Mrs. Cooper states that many towns along the road were dressed for Christmas, some having Christmas trees in the middle of the streets.

At Tudor, they visited Mrs. Cooper's brother, E. G. Taylor. On to Yuba City, Marysville, Auburn and New Castle. They visited two brothers at Loomis and had Christmas dinner with the family of P. L. Taylor at Loomis. From Loomis, they went to Sacramento, Lodi, Stockton and Acampo. New Year's day was spent at Tudor. They then visited relatives at Loomis and Marysville and on Jan. 4, they boarded the train for home. There was lots of ice and snow in California, when they left and they encountered snow and severe cold all the way to "dear old Foard County," it being 20 degrees below zero in some places, Mrs. Cooper states.

While they report a most enjoyable trip, Mr. and Mrs. Cooper expressed themselves as being glad to be back home.

Red Cross Call to Service

The dramatic poster by James Montgomery Flagg is the first war poster of the new World War. It is an appeal for a \$50,000,000 American war relief fund to feed, shelter, clothe and give medical aid to American men, women and children bombed by the enemy. It is an appeal for funds to provide comforts for our American Army and Navy, and for welfare work for our troops at home and abroad, and their families on the home front. President Roosevelt asks you to give. Your dollars will serve humanity. Give through your local Red Cross Chapter.

Leaders Discuss Vital Labor Questions

John McCormack, majority leader of the house; Rep. E. E. Cox of Georgia; speaker of the house Sam Rayburn of Texas, and Rep. Joseph Martin Jr., house minority leader.

Checking Damage to Jap Cherry Trees

Four Japanese cherry trees, symbols of bygone friendship between the United States and Japan, were cut down by zealous patriots near the inlet bridge of the Tidal Basin early today. The trees were four of the largest that surround the basin. Photo shows a park policeman inspecting the damage done during a temporary blackout.

West Texas Chamber of Commerce Contends That Rationing Quotas Should Be Set According to Growth

Rationing quotas as a step in the all-out war effort are desirable and necessary; but, as to West Texas, quota setting should take into account the region's tremendous population and business growth in the past year.

So contends the West Texas Chamber of Commerce in a comprehensive brief prepared for submission to rationing and quota authorities of the federal and state governments—and now on the way—as the statistically proven picture of West Texas growth and development in the period between November 1940 and 1941. It is understood that this is the period base selected by rationing authorities on which to allot food and other quotas in 1942.

The WTCC brief closes with the assertion, "It is our concluding and definite opinion that, in order to fairly quota and ration West Texas, at least 20 per cent should be added to the 1940 figures for the entire territory, and that even a greater percentage should be added in many of our defense project centers."

Support of the WTCC's position on the part of its affiliates is asked in a news letter signed by J. Thos. Davis, president, and D. A. Bandoen, manager of the regional chamber. Copies of the brief have been sent to Gov. Coke Stevenson and to the entire West Texas delegation in the U. S. Congress, who were asked to send a committee to see Donald Nelson, chief of the priorities allocation division of the Office of Production Management, in support of the West Texas plea.

Supporting activity by WTCC affiliates was listed for competition in the organization's inter-community Defense and Preservation contest, in which 103 West Texas towns have made entry. This year-long competition will close next November, at the WTCC's Waco convention, with award of \$500 in cash prizes.

The West Texas brief is the summation of a survey conducted by D. A. Bandoen. Among the sources used were the WTCC's own progressively maintained files; U. S. Bureau of Census re-

ports; the Bureau of Business Research of the University of Texas; and reports from principal West Texas cities procured in a telegraphic campaign. As set forth in the brief, the following increases were revealed between November, 1940, and November, 1941, for (1) Texas as a whole, and (2) for West Texas:

	Percentage Increase	West Texas
Employment	6	19
Payroll	32	32
Postal receipts	6.6	18
Building permits	4.6	300
Defense Bonds purchases	47	280
Retail sales, indep. stores	7	16
Oil production	14	26
Agricultural income	30	42

The brief also asserted that, in utility meter installations, West Texas increased 4 1/2 to 11 per cent against the long time, all-state normal increase of 2.5 per cent. As to cotton production, it was asserted that the government ginning report for December 13 showed West Texas as having produced 57 per cent of the entire Texas crop, exceeding 1940 production on the same date while the balance of Texas lost in production.

As to population, the West Texas 50-year increase was shown at 48.5 per cent against 21.0 per cent for the balance of the state and 14.4 per cent for the United States. The brief asserts that to the permanent and normal population increases should be added the new influx resulting from locations in West Texas of 15 defense projects and camps with personnel of 125,000 to 150,000 persons—not counting wives and children. It is argued that this added population greatly increases restaurant and all retail business in the area, and should be taken in consideration in quota fixing.

Urgent Appeal Made to Public for Steel and Scrap Iron

Collection and sale of scrap iron and steel is only one of the many ways Foard County farmers can help lick the Japs, the Nazis and the Fascists, according to Grady Halbert, chairman of the Foard County USDA defense board.

Growing needs of a nation at war serve to intensify demand for steel and scrap iron to feed the hungry mouths of arms factories, the defense board chairman said.

Urgent appeal is also made to the public to gather up steel and scrap and carry it to nearest dealers for use in charging the nation's steel furnaces. A list of dealers for the county are on file in the local AAA office and may be consulted any time, he said.

"We're not asking that you give your scrap to your country. We are asking that you sell it at prevailing prices for immediate defense use," Mr. Halbert said in explaining that financial returns cannot be expected to be large but results will be of untold value to farmers in their whole victory effort.

Mr. Halbert explained that prices for scrap vary in different sections since dealers deduct costs of transporting scrap from shipping point to mill, as well as preparation charges.

"It's just another way of saying that we're at our posts on the farm front," the chairman said. "We're in this war to win, and each of us will have to do his part to get the job done."

Training for Child Care to Be Provided in Civilian Defense

Austin. — Training programs for certified child care volunteers will be made available to local defense co-ordinators shortly, according to Doctor Geo. W. Cox, State Co-ordinator and State Health Officer.

The program as provided under the Office of Civilian Defense is intended to provide a nucleus of trained voluntary workers in local communities to aid in the care of well children as distinguished from volunteer nursing aides trained through Red Cross assistance. The program is an extension of the present program of child growth and development of the State Health Department.

With mothers needed for defense work or being drawn into industrial activities, this training program will provide a volunteer group capable through a background of information regarding the normal development and every-day care of the child to care for groups of children adequately.

The courses as now under consideration will be made available to anyone with time, ability, willingness to work, and a sincere interest in making a contribution to the growth, development, and welfare of the child.

Doctor Cox indicated that final details of subject matter would be referred to the Texas Inter-professional Commission on Child Growth and Development which is made up of outstanding physicians, dentists, nurses, educators, welfare workers, and others in order to assure that the best resources of the state can be brought to bear on planning.

"We recognize," said Doctor Cox, "that the Health Department is but a part in the whole picture of growth and development, and we will need aid and guidance from the general groups

Mrs. Oma Catherine Jones
MILLIONS suffer less from Headache, Acid Indigestion, Distress of Colds "Morning After" and Muscular Fatigue because they have heard—and believed—Alka-Seltzer radio announcements. To these millions, the relief obtained by the use of Alka-Seltzer is worth far more than the genuine enjoyment they get from the broadcasts.
The most important parts of our radio program, both to you and to us, are the commercial announcements. Once you have tried Alka-Seltzer we believe you will agree with us.
But try Alka-Seltzer because it is an unusually effective medicine not because you enjoy the radio programs.
WHY ALKA-SELTZER IS SO EFFECTIVE
The pain-relieving analgesic in Alka-Seltzer is in complete solution, ready to ease the distress as soon as you swallow it. The pain-relieving action is made more effective by alkaline buffers. The alkalinizing elements in Alka-Seltzer reduce excess stomach acidity.

THIS WEEK IN WAR

The President, in a message to Congress, said he had directed Federal agencies to arrange a new schedule of war production calling for 60,000 planes in 1942, including 45,000 combat craft, and 15,000 in 1943, including 100,000 combat units; 45,000 tanks in 1942 and 75,000 in 1943; 20,000 anti-aircraft guns in 1942 and 35,000 in 1943; 8,000,000 adweight tons of merchant ships in 1942 and 10,000,000 in 1943.

The President proposed total expenditures in the fiscal year 1943 of \$77,000,000,000. Of this \$6,000,000,000 would be for the war. He said total war expenditures are now at the rate of approximately \$2,000,000,000 a month and may surpass \$5,000,000,000 a month during fiscal 1943.

Production Progress The Office for Emergency Management reported increased pooling of aircraft production facilities within the industry and with the auto industry, and concentration on superior types of planes.

The War Department reported at least one plant of each of the 13 types required for the munitions program was completed in 1941, making a total of 28 now in operation. The announcement said

DIFFERENT! FORD TRACTOR with Ferguson System No other farm equipment in the world is like the Ford tractor with Ferguson System!

28 more will begin production soon. OPM Director Knudsen announced the auto industry must double its scheduled war output to handle \$5,000,000,000 additional war contracts.

Employment Labor Secretary Perkins reported 15,000,000 workers will be engaged in war production by the end of 1942—three times as many as were employed in the fourth quarter of 1941.

Conservation of Materials OPM announced industrial conservation programs will be set up in more than 30 industrial centers to wreck old machinery and equipment to salvage needed materials;

OPM granted permission to auto manufacturers to make 204,848 cars in January in order to use up parts already made before the plants are converted to war production. Congress passed a law permitting the President to order daylight saving time to save electric power.

Civilian Defense The President appointed James M. Landis, Dean of the Harvard Law School, as Executive of the Office of Civilian Defense to direct the civilian defense program under the general supervision of Director LaGuardia.

Agriculture The Oklahoma Agriculture Defense Board established an experimental "machinery bank" to provide a reservoir of spare parts for farm equipment.

Christian Science Services "Life" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, January 18, 1942.

The Golden Text is: "How excellent is thy loving kindness, O God!... For with thee is the fountain of life" (Psalms 36:7, 9).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "And this is life eternal, that they might know thee the only true God, and Jesus Christ, whom thou hast sent" (John 17:3).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "This is life eternal; says Jesus,—is, not shall be; and then he defines everlasting life as a present knowledge of his Father and of himself,—the knowledge of Love, Truth and Life" (page 410).

Lieutenant Robert Milton Magee Weds Miss Fauncine Streetman in Church Ceremony Saturday Afternoon

Lieutenant Robert Milton Magee and Miss Fauncine Streetman of Rock Crossing were united in marriage Saturday evening at twilight at the First Baptist Church in Vernon, Dr. E. S. James performing the impressive ring ceremony in the presence of the members of the immediate families and a few close friends.

The church was artistically decorated for the occasion with the altar banked with fern, interspersed with tall white baskets of white gladioli, chrysanthemums and carnations forming a pretty background for the wedding party. Tall white cathedral candles burned in white altar candelabra and white carnations in a centerpiece completed the effective arrangement.

Preceding the ceremony, Miss Edna Smith played "Traumerel" and also accompanied Mrs. J. A. Huber, who sang "I Love You Truly." Strauss's "Liebestraum" were played softly by Miss Smith during the ceremony. The traditional wedding marches of Mendelssohn and Lohengrin were played as the processional and the recessional.

The bride was lovely in a dress of turquoise blue crepe, fashion-

ed along simple lines with a torso waist and a high neckline. Her corsage was of orchids. For the traditional "something old," she wore a ring belonging to Mrs. J. T. Williams.

Miss Peggy Greene served the bride as maid-of-honor and wore a navy blue crepe dress. She wore a corsage of gardenias. The groom's brother, Joe Mark Magee, a student at Texas A. & M. College, was best man. Both the groom and the best man, were in military uniform.

Mrs. Magee is the charming daughter of Mr. and Mrs. E. B. Streetman of Rock Crossing and was reared at that place. She graduated from Oklahoma High School and attended Texas State College for Women at Denton and Texas State University at Austin. She was a member of the Alpha Xi Delta sorority at the University.

Lieut. Magee is the son of Mr. and Mrs. R. R. Magee and was reared in Crowell. He is a grandson of the late Mrs. Belle Allee. He is a graduate of the local High School and received a BS degree in Agricultural Engineering at Texas A. & M. College last June. He was a member of the Agricultural Engineering Society at A. & M. and served as its president last year. Lieut. Magee is now stationed at Fort Sill, Okla., and he and his bride will make their home there. They left, soon after the marriage ceremony, for a short trip to Oklahoma City.

For going-away, Mrs. Magee wore a beige wool suit with brown accessories.

CALL NO. 2 TO YOUNG PEOPLE

Fifteen young people responded to the call made last week for singers and met at the Methodist Church on Sunday afternoon. The leaders are urging others to come and hope that there may be at least thirty next Sunday afternoon at 2 o'clock. Their aim is to have a chorus of one hundred voices or more, in order to have a grand Easter cantata.

Singing is a step toward victory. There have always been times when the morale of a group of people meant the difference between hope and despair, and it is not strange that singing has often saved the day. When a great liner was struck by a storm, while far out at sea, a sweet voice, singing "Nearer, My God, to Thee" quieted the panic stricken passengers until help came. It was a singing shepherd who slew the giant, Goliath, while Saul's mighty arm trembled in fear. It was a singing America that sent the singing Yanks to turn the tide in World War No. 1.

Young people in this community can do a great deal to maintain and build up morale by singing along the way. The leaders urge the young people to rally next Sunday afternoon and meet them at the Methodist Church in great numbers.

COUNTY FEDERATION

At the meeting of the Foard County Federation of Women's Clubs held at the Adelpian Clubhouse on Tuesday, Jan. 13, Mrs. H. Schindler, president, transacted the business of the day at the beginning of the meeting. Mrs. A. Y. Beverly was program leader for the day. Mrs. Sam Crews played accompaniment for the singing of "Faith of Our Fathers."

Mrs. T. L. Hughston led the devotional on the subject "Withered Hands." Mrs. W. D. Howell led in prayer. Mrs. Hines Clark talked on "Canada's Mounted Police" and Mrs. Clint White had for her subject, "Mr. Wood Goes to Washington." Mrs. T. W. Cooper gave a talk on "The Black-outs in California," as experienced by her and her husband during their recent visit there.

After a covered-dish lunch at noon, the program was resumed, with Mrs. M. S. Henry giving "Early American Old Spice" as the first number. Miss Joelle Vannoy discussed "Diamonds and Cutters." Mrs. H. A. Longino gave a report of a lecture on "Japan and Present Conditions There" given at a Missionary Conference held in Quanah Monday. The lecture was by Rev. Sam Hilburn, a returned missionary from Japan.

SHOWER FOR BRIDE-ELECT

Mrs. R. R. Magee went to Rock Crossing last Friday afternoon to be present at a pretty miscellaneous shower given to honor Miss Fauncine Streetman, then the bride-elect of her son, Lieut. Milton Magee. The couple was married at Vernon on Saturday afternoon.

Hostesses for the shower, which was held at Phillips Camp Hall at Rock Crossing, were Mesdames E. G. Bailey, S. R. Watson, J. H. Massey, C. M. Fox and A. J. Maloney.

A pleasing program was given and refreshments of cake and coffee were served to the guests. The honoree was the recipient of many useful and beautiful gifts and was presented the bride's book in which the guests had registered.

WESLEYAN SERVICE GUILD

The Wesleyan Service Guild met in the home of Mrs. M. S. Henry Wednesday evening, Jan. 7. Fifteen members and two visitors from the Women's Society of Christian Service were present.

Mrs. H. A. Longino, accompanied by Miss Ruby Lee Bevil, at the piano, sang "Love Never Fails." Mrs. Henry led the devotional, and Mrs. Claude Brooks installed the new officers. Mrs. Longino discussed numerous worthwhile ways which the money that the members pledged, would be used.

The following committees were appointed: Missionary Cultivation—Florence Black, Genevieve Ferguson and Thelma White; Finance—Mayme Lee Collins, Mrs. Irving Fish and Mrs. Sewell Roy; Social and Recreational Activities—Hazel Culbert, Wilma Jo Lovelady and Mrs. Ruth Marts; Pianist—Mary Elizabeth Hughston.

The meetings will be held regularly at 7 p. m. on the second and fourth Thursdays of each month, and the next one will be in the home of Mrs. M. S. Henry, Jan. 22.

TRAINING UNION

The Wilbarger-Foard Training Union Conference will be held in the First Baptist Church in Crowell on next Tuesday, Jan. 20, beginning at 2 p. m. and closing at 9:30 p. m., according to information from G. C. Foster, local training union director.

Team No. 12, which includes Allen Graves of Nashville, Tenn., conference leader; J. M. Riddle, Wichita Falls; Miss Frances Whitworth, Nashville, Tenn.; Mrs. H. G. Cox, Vernon, and Mrs. A. B. Barnes, Wichita Falls, will be with the Crowell church at this time.

The meeting will take the place of the regular Workers' Conference which was to have met with the Crowell church in February. All members are urged to be present and Mrs. Frank Moore, WMC president, asks that all bring a basket lunch which will be served in the basement at 5:30 o'clock.

Vermont, the first state to join the original 13 colonies, was admitted to the Union March 4, 1791.

Miss Florence Griffith to Wed James Anthony in Calif., on Jan. 23

To announce the engagement and approaching marriage of her daughter, Miss Florence Griffith to James H. Anthony of Houston and El Paso, Mrs. W. W. Griffith of Lamesa, formerly of Crowell, entertained with a lovely dinner party at her home at the Plaza Hotel, in Lamesa, Saturday evening, Jan. 10, at seven o'clock.

The chosen color scheme of yellow and green was used in the dining room appointments. The table had a long centerpiece of pale yellow marigolds and fern, to which satin streamers, leading to crystal candelabra holding yellow candles, were attached.

Placecards, in the form of miniature brides, still further carried out the color scheme and marked places for twenty guests. The names of the betrothed couple and the wedding date were written on small scrolls and tied with yellow and green satin ribbon. A tiny silver bell was attached to each scroll.

Immediately after the serving of the dinner, a good wish from each guest was recorded and the record was presented to the honoree.

The wedding will take place in the First Presbyterian Church in San Diego, Calif., at 9 a. m. on Jan. 23. Miss Griffith, accompanied by her mother, will leave for California on Jan. 18.

Miss Griffith is a graduate of Texas Tech at Lubbock and has been employed as Home Economics instructor in Lamesa High School and Seagraves High School for the past four years. She lived with her parents, Mr. and Mrs. W. W. Griffith, in Crowell a number of years. Mr. Anthony is the son of Mr. and Mrs. J. W. Anthony, of El Paso and is a graduate of Texas A. & M. College. He is now engaged in Defense Production at Consolidated Corporation in San Diego.

Guests attending the announcement party were: Mrs. Joe Hudson, Mrs. Harry Douthitt, Miss Juanita Haynes and Miss Allyne Hayes, all of Seagraves; Miss Edie Mae Oliphant of San Angelo; Mrs. C. D. Hall, Mrs. Duyle Vannoy, Lubbock; Misses Marguerite Flanniken, Jerry Smart, Bess Shanks, Nell Frances Simpson, Connie Zell Barnes, Willie Vaughn, Lovie Baebers and Mrs. A. G. Barnard, Mrs. Hollis Campbell, and Mrs. Jack McLaughlin of Lamesa. Mrs. M. P. Oswalt of Lamesa, grandmother of the honoree, and Miss Jo Hall, her sister, were also guests. Mrs. Griffith was assisted in entertaining by her daughter, Miss Hall.

ADELPHIAN CLUB

The Adelpian Club met on Wednesday, Jan. 7, at the club house for a program on sculpture and etching. Mrs. John Rasor was program chairman and opened the program with an interesting talk on Gutzon Borglum, the sculptor. She also showed pictures of some of his productions.

Mrs. Verne Walden, in an interesting way, told of the different noted pieces of sculpture in Texas, giving their location, and showing pictures of these works of art.

Mrs. Q. V. Winningham told the club that it was impossible to appreciate the art of etching unless one knew just how it was done. She said that two persons might go through a museum and one look bored and the other awed as they gazed at the etchings displayed there. The latter would be the one who understood how the etching was made. So she described the exact way in which an etching was made so that those present might be better able to appreciate this art.

The club voted to make twenty-four mending kits, which are called the "housewife" for the Red Cross. These are to be distributed among the soldiers.

Mrs. M. J. Girsch was hostess and served delicious refreshments to 19 club members.

WEST TEXANS WED

Miss Bonnie Burt Miller of Olton and Howard Buchanan of Tulla were married by Rev. W. B. Fitzgerald at his home on Dec. 22.

The bride is a close friend of the Fitzgerald family. She was reared in Olton and finished High School there. She has recently been an instructor of music in Lubbock.

Mr. and Mrs. Buchanan are making their home in Tulla, where he is engaged in government work.

HOME-MAKERS' CLASS MEET

Members of the Homemakers' Class of the First Baptist Church met on Thursday, Jan. 8, at the home of Mrs. Frank Moore.

The program opened with the song, "What a Friend We Have in Jesus" and Mrs. Coy Ward led in prayer. Scripture verses were quoted and individual devotional thoughts were given.

Mrs. Roy Burgess, the class president, took charge of the business session.

A social hour was enjoyed and a lovely refreshment plate was served to those present.

MARRIED ON JAN. 3

Miss Mildred Owens of Riverside and Hubert Smith of Margaret were united in marriage on Jan. 3, at the home of Rev. and Mrs. W. B. Fitzgerald. Rev. Fitzgerald performed the ceremony. The bride is the daughter of Mr. and Mrs. Leonard Owens of Riverside and Mr. Smith is the son of Mr. and Mrs. W. L. Smith of Margaret.

Government Service Ahead for Texas University Students

Austin.—Government service is ahead for nearly 70 University of Texas students, but it will wait until after graduation sometime before June, 1943.

That number of students have enlisted in the Navy's class V-7, which allows men to complete their college training, calling them for actual service only during the summer. Upon graduation, they are eligible for commissions as ensigns and active service.

Donald D. Chapman, law student from Thalia, is among those having completed his enlistment. The V-7 classification is in keeping with the government policy of seeking qualified men for officers' jobs as well as with the University's aim of education for both war and post-war service.

of milk in ten months. One cow should freshen in the spring and one in the fall," said Miss Joelle Vannoy, home demonstration agent, to the Foard City Home Demonstration Club Tuesday, Jan. 6.

Dairy cows left to shiver and shake in cold and wet of the open field during winter have little reserve left with which to make milk. An open shed facing south will keep cows dry and warm, and anything that adds to the cow's comfort adds milk to the bucket, Miss Vannoy also stated.

The next meeting of the club will be Tuesday, Jan. 20.

Men Who Milk Cows Should Hear Dairy Programs of A. & M.

Men who milk cows should be ready for the dairy radio programs sponsored by the Extension Service of A. & M. College on a. m., as America needs more milk.

Dates for these programs are low:

Jan. 26.—Arming the dairy for milk production through proper feeds.

Jan. 27.—Above topic continued.

Jan. 28.—Clearing the decks for our dairy herds for action.

Jan. 29.—Care of dry and fresh cows.

Jan. 30.—Supplying minerals and vitamins.

Jan. 31.—Looking ahead for your dairy herd.

It is suggested that each person have paper and pencil handy for writing down points that they need.

SAFETY SLOGANS
