Four Die at Bridgeport When Big Settling Basin Caves in

Here is the scene of the eave-in at Bridgeport, Texas, where four men lost their lives. The big hole was a settling basin for the Bridgeport filter plant, under construction. After being buried alive, four workmen were drowned as water came up while their fellow workers were endeavoring to dig them out. The dead are Bud Shawn, 26; Claude Mader, 29; Nolan Gober, 21 and C. H. Furr, 54. In the picture workers are shown vanily seeking to rescue the four doomed men. (Texas News Photos.)

Don't Get Up Nights

IF YOU ARE OVER 40. Get Juniper oil, Buchu leaves, etc., in green tablets. Ask for BUKETS, the bladder laxative. Take 12 of them in four days; if not pleased BUKETS work on the bladder similar to castor oil on the bowels.

Flushes out excess acids and other impurities which cause getting up nights, frequent desire, scanty flow, burning, backache or leg pains. You are bound to feel bet-ter after this flushing and you get your regular sleep. Guaranteed by Reeder's Drug Store.

You Need Refrigeration Every Day of the Year

There are only a few days each year that the temperature is low enough for the proper refrigeration of foods. Although foods may not spoil during cold Fall weather, the temperature is not low enough to prevent the growth of bacteria, the real danger of poor refrigeration.

The electrical refrigerator's economy and dependability of operation has been proven. The saving on foods alone makes the investment of your money amply repay you.

To protect your family's health, proper refrigeration is a necessity every day of the year. The cost is no greater than obsolete methods of refrigeration.

Low incentive rates make it possible for you to secure the maximum of benefit at the minimum of expense. Buy safe-buy dependable electrical refrigeration.
