The New Pain-Relieving, Alkalizing, Effervescent Tablet Watch it bubble up, then drink it! You will be amazed at the almost instant relief.

It is called Alka-Seltzer because it makes a sparkling alkaline drink, and as it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of everyday ailments and then by restoring the alkaline balance corrects the cause when due to excess acid.

After trying many brands of medicines—so-called relief for gas, and all of them a failure, I gave up hopes. By chance I tried Alka-Seltzer—I am more than satisfied. Geo. Bennett, New York, N. Y.

### Successful Dress Contest for 4-H Club Girls Conducted in Crowell Saturday

One hundred and seventy people witnessed the girls' 4-H Club dress contest held in the district court room on Saturday afternoon, June 15. There were 41 dresses entered by club girls in two different classes, 15 who had made dresses before and 26 who had never made a dress before.

The dresses entered were made of cotton material, all the work on them being done by the girls themselves. The judging was done by Miss Louie Simpson, Cottle County Home Demonstration Agent.

Those winning places in class one, those who had not made dresses before, were Dorothy Ree Bell of Margaret, Vera Jo Ford, Gambleville, and Faye McCurley, Margaret, in the order named. Honorable mention in this class was given to Anita Traweck, Foard City; Annie Mae and Mable Hall, Black; Wanda V. Gamble, Gambleville; Ethel Marie Myers, Vivian; and Winnifred Connell, Foard City.

In class two Mary Frances Tamplin, Ayersville; Dorothy Nell Beggs, Vivian; and Bessie Short, Ayersville, won the three places in the order named. Honorable mention in this class went to Berdell Nelson, Vivian; Pauline Stinebaugh, Good Creek; Louise Hembree, Ayersville; Ada Groomer,

Those winning first, second and third places in each class were given crocheted purses made by some of the members of women's clubs and to those receiving honorable mention went two handkerchiefs each.

### Orchard Specialist to Be in Foard Tuesday

J. F. Rosborough, garden and orchard specialist of the extension service, College Station, will be in the county on Tuesday, June 25. He will give a demonstration on new phases of sub-irrigation, storage of vegetables, and any other phases of garden work the group is interested in. So come along and bring your questions with you. The demonstration will be held in the afternoon following visits to some of the demonstrators in the morning. Information as to the place for the demonstration may be secured from the office of the home demonstration agent. Anyone interested in garden work is invited to attend.

### Farm Food Expert Is Visitor in Foard

Green beans, if they are to take the place of leafy vegetables in the diet, must be canned while they are very young, very crisp and tender, and very green, according to Miss Grace Neely, assistant nutrition specialist from College Station. Miss Grace Neely visited six of the farm food supply demonstrations in the county on Monday and gave the demonstrators some helpful suggestions for improving the quality of their products.

Beans to be canned should be gathered before the beans have formed in the pod if one is to get the maximum vitamin content, continued Miss Neely. She also stated that beans canned in a

### COUNTY COUNCIL TO MEET HERE SATURDAY

There will be a meeting of the County H. D. Council on Saturday, June 22, to discuss sending a delegate to Short Course. All council members are urged to be present. The meeting will be at 2:30 in the agent's office.

### WEST SIDE H. D. CLUB

The West Side H. D. Club met with Mrs. J. T. King June 12. A demonstration on dishes prepared from "other" vegetables was conducted by Miss Holman.

Yellow vegetables are richer in vitamin A than the same white vegetable, stated Miss Holman. She emphasized the fact that temperature and time have a lot to do with the taste and appearance of foods. Green vegetables, cooked in hard water keep their color better and soften more quickly than the same vegetable cooked in soft water.

Vegetables should be seasoned

thoroughly. In planning avoid serving vegetables together when colors do not harmonize. Do not use white sauce on more than one vegetable each meal. Do not have a repetition of food. Serve a light dessert with a heavy meal and heavy dessert with a light meal. Keep the menu simple. Make the food appetizing by contrasting color contrast, flavor contrast and texture contrast.

Mrs. Len Johnston from Sallis, Okla., and Mrs. E. C. King were visitors. The next meeting, June 26, will be with Mrs. Donald Morris.

STYLE DEPARTMENT

Stylish Suit for Summer

A new and modish box-jacket in booler style is here shown (Editor's note: Regret that we can't reprint the illustration.) As a part of this suit, the bolero hangs straight and plain, but the smart effect is given by the sleeve and front finishing. The puffed sleeve is headed with a Cavalier cuff and deep frills of lace at the elbow, the neck, sharp-pointed cuffs and girde being outlined in a contrasting shade of velvet. The blouse should be of lace or of fine lawn, as the sleeves are in evidence below the lace frills. The skirt is a nine-gored flare, with an inverted plait at the back. This model makes a beautiful spring suit when developed in canvas, broadcloth, serge, sicilian, taffeta or the linens and pique for late wear.

Claude McLaughlin came in from the harvest fields yesterday and will rest a few days.

See display of ladies undermuslins in Quinn's show window.

George Allison is here from Fort Worth and will work here during the harvest season.

For a More Abundant Life
"WE HAVE IT" ... for homes, for farms, for towns and cities, for industries.
ELECTRIC POWER!
West Texas is abundantly supplied with power resources. The West Texas Utilities Company's 2,600 miles of transmission lines are linked with modern, strategically located generating stations, bringing power to you wherever it is needed.
"Let's Have Cheap Power!" We Have That, Too.
Power is a commodity which grows cheaper the more it is used. The power from this company's lines, available every hour in the day or night for a variety of uses, can be purchased cheaper than it can be manufactured by the individual city, or the individual industry, farm or homes.
"Let's Have Abundant Power, for a More Abundant Life." We Have That in West Texas, Too.

You may recall, many years ago, when some neighbor was able to boast of his electric lights through cords hanging from the ceiling. Light was expensive then, only the well-to-do could buy this service. Today, everybody uses electric service, for the electric dollar buys now an abundant amount, about three times as much electric service as it did before the World War. Electric service is delivered to you now so cheap that its daily cost can be counted in pennies.

The area served by the West Texas Utilities Company has ample power facilities to meet the demands of this growing and progressive "Land of Opportunity." West Texas.

FOARD'S HONOR

A newspaper is commonly regarded as the mirror or mouth-piece of the community it represents.

In awarding The Foard County News the title as the best all-around weekly in Texas for 1935, we believe that the judges down at Galveston last week indirectly named Foard as the best all-around county in Texas, for this is the county served by this newspaper.

Within its borders may be found business men who regularly use substantial ads in showing their appreciation of a medium that reaches their potential customers who invite this paper to come into their homes year after year.

With such a loyal group of subscribers and business men, why shouldn't we be able to win the State's best weekly contest? While we deeply appreciate the many compliments we have received from local people since announcement of this award, we want Foard County people to know that this is not just our honor, but an honor for the county as a whole.

Although a newspaper may be privately owned, yet it takes a place along with the church and the school as a community institution.

As a community institution the newspaper depends upon community co-operation for its success. And whatever success we have had, we attribute it in a large measure to the remarkable co-operation given us throughout the years.

As a community institution the newspaper depends upon community co-operation for its success. And whatever success we have had, we attribute it in a large measure to the remarkable co-operation given us throughout the years.

Included in this "co-operation" to which we refer is not only the financial aid of advertisers and subscribers, but a matter that is equally important in newspaper success—the assistance from the standpoint of news gathering and reporting.

Any compliment for us is also a compliment for all others who have in any way contributed to whatever success we have attained.

BACK AT WORK

The publisher of this paper and his family returned Sunday night from a ten-day vacation trip and "delayed honeymoon" (13 years) which took them to the principal cities of the State, where many historical and interesting places were visited.

Thursday afternoon, June 8, was spent in Galveston attending the annual convention of the Texas Press Association. This city left nothing undone for the entertainment of the 300 to 400 newspaper people of the state who were in attendance.

Saturday afternoon, June 8, was spent in Austin. In that city we were met by B. C. Newton of Marietta, Okla., brother of Mrs. Klepper, and were shown over the State University grounds and State Capitol by Ritchey Newton of Marietta, and Dan Hines Clark of Crowell, students for the summer in the University.

To us, San Antonio is the most interesting city of the state, and we believe all visitors to that city will attest to that fact. Places of most interest to be visited in San Antonio are the Old Missions, and to Texans, of course, the Alamo comes first; Brackenridge Park, Fort Sam Houston, Randolph Field, the West Point of the Air, and the Kelly and Duncan airports.

Only a short time was spent in Houston where the publisher attended the Rotary luncheon Thursday of last week which was the last stop made before going to Galveston, the convention city. Naturally "the thrill of a lifetime" came to The News family when announcement was made that The Foard County News had been awarded the A. H. Belo Cup.

Leaving Galveston Saturday afternoon and again making a short stay in Huntsville, and the trip home by way of Dallas and Fort Worth, was completed Sunday night. We were fortunate in not being stopped by high water caused by the heavy rains in that section.

LOCAL THEFTS

Why are local people negligent in reporting cases in which items are stolen from them? Local officers would like to know.

"Although we will do our best to solve every crime brought to our attention, we can't expect to solve them all, however, our success would be considerably better if the public would co-operate in promptly informing us about robberies and thefts," a local officer stated this week.

He added that in numerous instances recently material had been found in possession of others, especially negroes, which probably had been stolen locally, and which could have been returned to their rightful owners had their loss been reported.

Too often those who criticize law enforcement the most are the very ones who offer the least co-operation in making it possible.

FINE EDITION

One of the neatest and best examples of a carefully edited and compiled newspaper that has reached The News in many months came to this office last week in the form of The Benjamin Post's 16-page "new court house" and "pioneer" edition.

To the Bisbee brothers and all others who shared in the work of putting out this unusually attractive and interesting edition, we offer sincerest congratulations.

Amarillo Man Is New Childress Publisher

The Childress Daily Index was published under new management and ownership Tuesday. Morris Higley of Amarillo having succeeded R. S. Brashears as publisher.

Interested in the paper with Mr. Higley is Wilbur C. Hawk, Gene A. Howe and Russell Middleton of Amarillo. They secured the Index from J. Lindsay Nunn of Amarillo and Mr. Brashears, owners for the past three years.

Neil Van Zandt, former editor and manager of the South Plains Farmer, published at Lubbock, is associated with Mr. Higley as advertising manager.

CROWELL WINS 6TH STRAIGHT BASEBALL TILT

The Crowell baseball team won its sixth consecutive victory Sunday by defeating Quanah 16 to 5 in a Cotton Belt League game on the local diamond.

Led by Sloan and Rasberry, Crowell collected 19 hits and won the game easily. Faircloth of Quanah was driven from the mound in the third inning after Crowell had scored 14 times. Mitchell followed him and lasted until the end of 7th, when he was relieved by Lefty Young.

Rasberry registered his sixth consecutive victory as pitcher and aided his team's cause by two triples and one double. Lewis Sloan continued his terrific hitting and led both clubs by hitting safely four times in six times up. Hack Norman hit the only home run of the game. Grady Graves performed the outstanding fielding play of the day when he leaped high to rob an opponent of probably a 2-base hit which would have driven in two runs.

Home run—Norman. Three-base hits—Larue, Rasberry 2, Evans, Mitchell, Mason. Two-base hits—Ashford, Mason, Rasberry.

EXTREMES IN NATURE

An interesting list of the extremes in natural substances was recently compiled by Professor Hopkins of the University of Illinois, in which the following were named:

Radium is the most expensive, being worth about 100,000 times its weight in gold.

Platinum is the heaviest of well-known metals, being 21 times as heavy as water, but the rare metals osmium and iridium are slightly heavier.

Hydrogen gas is the lightest ordinary substance, having only about one-fourteenth the weight of air, but a temporary gas produced in certain vacuum tubes is somewhat lighter.

Diamonds are the hardest substance known, but carborundum is

DENTON TEACHERS COLLEGE NEW DINING HALL AND STUDENT UNION

Dr. R. L. MARQUIS LATE PRESIDENT

Denton, Texas, June 13.—Despite the numerous spring rains, work on Marquis Hall, the new P. W. A. dormitory at North Texas State Teachers College, is progressing rapidly and the building will be completed according to schedule.

The building, which will cost \$210,000 exclusive of fixtures, will be completed in January and will be opened in February at the opening of the spring semester.

This is the first building to be added to the Denton Teachers College campus since Dr. W. J. McConnell assumed the presidency May, 1934, upon the death of President Marquis, who served the institution as president from 1923 to 1934.

When completed, the building will accommodate 115 girls. The lower floor of the building will be given over to a large lounge, cafeteria, including a sandwich shop, and a dining room and tea room under the supervision of a graduate dietitian.

Investigate Before Buying Stocks and Other Securities

Who is he? Can I depend upon his word? Is he registered and licensed?

These are the questions that you should have answered to your complete satisfaction before buying stocks, bonds, oil leases, royalty or any other form of investment securities from a salesman—particularly when the salesman is a stranger. That's the advice of Secretary of State Gerald C. Mann, administrator and chief enforcement officer of Texas' new Securities Act.

Designed to curb the fraudulent and crooked seller of securities, the new law required every security dealer, agent and salesman to be registered with the State. Any citizen may determine for himself if the salesman is registered by writing to the Secretary of State. The records are open to the public.

The State does not propose to guarantee or endorse any stock, bond or other security. However, salesmen may be held strictly accountable for representations made in the sale of securities.

The important thing, according to Secretary Mann, is to "Be sure the salesman is registered!"

Electric furnaces produce the greatest heat known on earth, running up to nearly 7,000 degrees Fahrenheit, while the extreme in cold is solid helium and other gases which solidify at about 458 degrees below zero. These extremes of heat and cold are not natural, however, but are produced by artificial means.

Nearly all of the mineral wealth now enjoyed by the United States of America came into the country directly due to the Texas revolution, as most of it lies within the states carved from the Mexican acquisition following America's War with Mexico over the annexation of Texas.

AUTOS AND DESKS

In connection with the crowded condition of schoolrooms throughout the country, the California Teachers' Association has made an interesting comparison of automobile and school desk capacity.

A bulletin on the subject discloses that while California has automobiles enough to seat 5,200,000 persons, it has school seats for only 1,200,000 pupils. There are enough automobiles in that state to carry every child of school age, with a separate car for each child, and still have more than 100,000 cars left over.

The people of California spent in a recent year for gasoline a sum estimated at \$145,553,483, while they spent for all schools, including the state university, \$130,737,912, or nearly \$15,000,000 more for gasoline than for education.

It is probable that a like survey would reveal a similar condition in most of the other states. Without criticizing people for enjoying their automobiles, it does seem that they should be willing to spend as much for the education of their children as they spend for gasoline.

The South Llano River which forms in Edwards County is water flowing from 700 springs to be found on the side of a hill.

High Batting Average for Local Ball Team

Crowell's Cotton Belt League baseball club has the remarkable team batting average of .345, with the highest individual average of .514 and the lowest of only .297, which is a record to boast of in any league.

Table showing individual batting averages for players: Player, AB, H, Per. Sloan (.514), LaRue (.394), W. Bell (.363), Norman (.344), Rasberry (.333), Russell (.333), Graves (.309), Mason (.307), Ashford (.304), Drabek (.300), Rushing (.297).

Table showing league standing: Team, G, W, L, Per. Crowell (7-5-2-.714), Elmer (8-5-3-.625), Medicine Mound (9-5-4-.555), Truscott (9-5-4-.555), Quanah (9-4-5-.444), Eldorado (8-1-7-.125).

Results Last Sunday: Crowell 16, Quanah 5. Truscott 16, Eldorado 3. Elmer 3, Medicine Mound 1.

Games Next Sunday: Truscott at Crowell. Medicine Mound at Eldorado. Elmer at Quanah (2 games).

During the past year 100,000,000 trees have been distributed throughout the country; one-half to state forests, one-quarter to farm lands, and one-quarter to land other than farms.

Despite the fact that there are many coal deposits in Texas and that many of them have been mined profitably, natural gas in the state has practically ended the coal mine business. Texas is noted throughout the land as a state with clean cities, due to the use of natural gas.

Hand-operated levers, instead of gears, are pulled to propel a lifeboat recently demonstrated in New York.

Dr. H. S. Booth of Cleveland has discovered two new gases, both are poisonous but will be useful in war. Dr. Booth has covered 13 of the previously known 200 gases.

Keys Quadruplets to Present Program to Crowell Mon. Night

The Keys Quadruplets, Mona, Leota and Roberta, of Tulsa, Okla., will appear in a program at the High School auditorium Monday night at 8:15 o'clock under the auspices of the Methodist Missionary Society.

The quadruplets are 20 years old and have become famous as individuals—but as quadruplets. The American Magazine of February carried an intensely interesting article concerning them. They have just finished their Sophomore year at Baylor University at Waco. One of them was quoted as saying that the world expects them to be quadruplets and that it is a social responsibility that they remain, one for four and four for one.

Their program is composed of singing, playing, reading and serious other forms of entertainment. The young ladies are planned to leave on July 1 for a tour of the state of North Carolina.

Moses Austin was a Spanish subject before he ever had his title of colonizing Texas. He was an American citizen when he moved from Virginia to Missouri to go into the mine business. What later came the Louisiana Purchase at that time under Spanish control due to a treaty existing between Spain and France, later ceded the territory back to France and the latter turned it to the United States.

### AN OUTWORN SYSTEM

Several years ago the late Chief Justice Taft declared that American criminal procedure was a disgrace to the nation. A recent utterance on the same subject by Judge Walter B. Jones of Alabama is to the same effect, and is worthy of being widely published. He said, in substance:

In the interest of justice and in the name of common sense a change is needed in the ideas we have about criminal trials. Instead of a procedure in which one side works entirely with the object of finding a defendant guilty and the other side with the object of finding him entirely innocent, both

sides disregarding or distorting the acts to suit their opposing purposes, he suggests that everything should be subordinate to the truth, and then let the chips fall where they may.

He pleads for doing away with the absurdities of the average criminal trial, for sweeping away all sham and pretense, and the squelching of technicalities which serve only to defeat the ends of justice. In conclusion Judge Jones declared:

"We are living in an age of the airplane-machine gun killer and robber, and yet we are apparently content to hunt him in an ox-cart with slingshot."

### ORIGIN OF ICE CREAM

Attempts to trace the origin of ice cream have been generally inconclusive, the invention or discovery of this popular dish being attributed to various nations and periods. But ice cream, or something closely akin to it, has been traced as far back as the middle of the sixteenth century, when it was introduced into France, from Italy.

By 1630, it is said, an enterprising Sicilian had established the Cafe procope in Paris, where ice cream was the special delicacy. It became known in England and Germany much later, and was probably not introduced into America until about the time of the Revolution.

The first advertisement of ice cream appeared in New York on June 8, 1780, but it was not served in Washington until nearly a half century later, when Mrs. Alexander Hamilton used it as a dessert at a dinner given for President Jackson. The wholesale ice cream business was originated by Jacob Fussell of Baltimore in 1851, and met immediate success.

In recent years the use of ice cream has been increasing with amazing rapidity, until its production has almost reached the proportions of a major industry, being nearly 350 million gallons annually.

The increased consumption of ice cream is entirely desirable, as it is not only an aid to the dairy industry, but also is in the interest of better nutrition and consequently of good health.

### PRACTICAL EDUCATION

An intelligent contribution to the current discussion regarding what is desirable in the way of present-day education was made by Dr. John J. Tigert, president of the University of Florida, who declared that the true purpose of education is to fit the citizen to serve as well as to live.

He draws attention to two schools of current thought, one of which would stress cultural education, while the other would place chief emphasis upon vocational training. He admits the validity of both, but he would not go to the extremes sought by the advocates of either. He favors a balanced program of education, with sufficient flexibility to meet the needs of each individual.

While not minimizing the value of cultural studies and their absolute necessity for those who would enter the learned professions, Dr. Tigert points out that "one can not live by culture alone; this is especially true of the great mass of our citizens who must engage in pursuits which involve the use of their hands."

Practical education should be planned in accordance with the needs of the individual in preparation for his life's work. At present too much time is given to preparing for college entrance examinations which only a small percentage of public school pupils will ever have the opportunity to take. The needs of those who

must quit school at the end of grammar or high school courses should have more consideration.

Christian Science Service
"Is the Universe, Including Man, Evolved by Atomic Force?" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, June 23.

The Golden Text is: "Thou art worthy, O Lord, to receive glory and honour and power: for thou hast created all things, and for thy pleasure they are and were created" (Revelation 4:11.)
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "In the beginning was the Word, and the Word was with God, and the Word was God" . . . All things were made by him; and without him was not any thing made that was made" (John 1:1-3.)
The Lesson-Sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Infinite Mind creates and governs all, from the mental molecule to infinity. This divine Principle of all expresses Science and art throughout His creation and the immortality of man and the universe" (page 507.)

Dist. Legion Meet At Wichita Falls June 22 and 23

Wichita Falls, June 19.—Plans for the 13th district convention to be held in Wichita Falls, June 22nd and 23rd have been completed by the Pat Carrigan Post No. 120, American Legion, according to an announcement by Wayne Somerville, Post Commander.

The convention will be held in the Junior College auditorium on Sunday. The guest speaker for the joint memorial service of the American Legion and the auxiliary will be Rev. Dr. Pat Moreland, well-known Texas poet and secretary of state under Governor Allred. Sunday afternoon will be devoted to the regular routine of the convention, while Sunday morning prior to the memorial service the auxiliary women will have a breakfast, featuring a round-table discussion of matters of interest to the various units of the 13th district.

Registration booths will be opened Saturday afternoon at the Texan hotel and the Holt Hotel, and a third one opened at the college Sunday morning.

Saturday evening the visiting legionnaires and auxiliary women will be honored with a dance at the Avalon club.

State and district officers expected to attend the convention are: Miller Aimesworth, state commander; Fred Young state adjutant; Mrs. Marion Danforth, department president of the auxiliary; Mrs. R. L. Williams, department publicity chairman, American Legion auxiliary; Mrs. R. J. Claypool, department chairman; Mrs. Ruby Weller, district committeewoman; Mrs. C. F. Johnson, district committee chairman; E. S. Coates, deputy district committeeman; and H. R. Hayes, executive committeeman.

Many Prizes to Be Given at Cowboy's Reunion of Texas

Stamford, Texas, June 13.—Prizes totaling \$2,500 will be awarded in the rodeo events and various other contests to be held in connection with the gathering of cowboys here July 2, 3 and 4 for the sixth annual Texas Cowboy Reunion.

The winner in the oldtime calf-ropers' contest, open only to cowboys over 55 years of age, will also receive a saddle. Prettiest of all is the saddle to be awarded to the winner of the cowgirl sponsors' contest. Joe De Andre of Dallas is offering a pair of shopped boots to the champion roper in the rodeo.

Prizes will also be given the most typical cowboys attending the reunion, one for a cowboy over 55 years of age and one under 55.

The younger cowboy will receive a gold watch donated by Linz Brothers of Dallas, and the older cowboy a Stetson hat given by L. Schwarz & Company of Stamford.

Chevrolet Turret Temperature Test Conducted in Fla.

Chevrolts that are cooler summer and warmer in the winter as compared with previous models are promised by the findings of official observers of the A. A. C. which Master de Luxe cars with solid steel turret tops were subjected to temperature tests.

The test consisted of simultaneous temperature readings of interiors of turret-top under a blazing sun. All windows and ventilators were closed during the tests.

According to the findings of testers, a Chevrolet automobile says, the steel top cars are to warm up when standing in sun with all windows and ventilators closed, and are quicker off after the ventilators are opened.

Black Spider Cases Reported in Texas

Austin, Texas, June 11.—Several cases of spider poisoning the bite of the so-called widow spider have been reported in Texas this year and people living in rural districts must take precautions against them.

This spider builds its dimly lighted place, generally old toilets, garages, and other buildings. Its rough, circular web is found under eaves, in corners, between rafters especially under the floor of sheds, barns, etc.

## Mrs. John Roberts Honored at Party

Mrs. Arthur McMillan complimented Mrs. John Roberts, who has recently moved to Crowell from Gladewater, with a delightful party at her home last Saturday afternoon. Six tables of guests enjoyed games of 42.

The house was attractively decorated with pink roses and, upon entering, each guest was presented a corsage of sweetpeas and baby's breath. The honor guest was given a larger corsage.

After several hours of the game high score favor was won by Mrs. L. T. Graves and a guest prize was presented to Mrs. Roberts. Both were attractive boxes of dusting powder.

A color scheme of pink and green was carried out in all appointments of the party.

A pretty and delicious refreshment plate was served. It held molded salad, wafers, punch, ice cream in rose mold and cake laced with pink. The hostess was assisted in serving by Misses Juanita Hough and Mary Catherine McMillan.

The guest list included Mesdames John Roberts, T. V. Rascoe, O. R. Boman, W. C. McKown, T. P. Reeder, Jeff Bruce, Paul Shir-

ley, N. J. Roberts, A. Y. Beverly, W. B. Johnson, J. A. Johnson, M. S. Henry, Geo. Self, I. T. Graves, Hubert Brown, Merl Kincaid, Gus Hooks, H. K. Edwards, Hartley Easley, H. E. Ferguson, Jno Rasor, H. Schindler, Fred Rennels and Miss Frankie Kirkpatrick.

## Miss Violet Atcheson and Rochester Man Married Here Sunday

Miss Violet Atcheson, daughter of Mr. and Mrs. J. E. Atcheson of this city, became the wife of Mr. Orville Hamilton of Rochester in a wedding Sunday afternoon at 3 o'clock in the Atcheson home with only a few relatives and friends present. Mr. J. D. Rothwell, Church of Christ minister at Thalia, conducted the ceremony.

Mrs. Hamilton is a native of Foard County and graduated from Crowell High School in 1930. In June, 1934, she received her B. S. degree in home economics from Abilene Christian College, where she was popular in various college activities. In her senior year she was one of six girls to be honored with a page in the yearbook, "Prickly Pear," as a result of popular vote by students for personality favorites.

Mr. Hamilton is the son of Mrs.

D. W. Hamilton of Rochester, where he has lived throughout his life. He graduated from Abilene Christian College in 1931 and has taught in the Rochester public school system for the past two years. Both Mr. and Mrs. Hamilton will teach at Rochester during the 1935-36 term. Mrs. Hamilton will teach in the primary department and Mr. Hamilton in the intermediate department.

Following a wedding trip of a few days which will take them to San Angelo and other points, they will return to Rochester to make their home.

## Miss Litha Crews Married Sunday to W. L. Crews of Gulf

The marriage of Miss Litha Crews to Mr. W. L. Crews of Gulf, Texas, was solemnized in a quiet wedding last Sunday morning at 10:30 at the home of the bride's parents, Mr. and Mrs. S. T. Crews, Rev. Geo. E. Turrentine, pastor of the Methodist Church, performed the impressive ceremony in the presence of the bride's family and a few relatives and friends.

Preceding the ceremony, Miss Mary Sam Crews, sister of the bride, played Traumerli. To the strains of Mendelssohn's Wedding March, also played by Miss Crews, the bride and groom entered the living-room and stood beneath the crystal light where the ceremony was performed.

Mrs. Crews wore a white crepe coat dress with a green chiffon blouse and carried an arm bouquet of roses and ferns. The groom was also attired in white.

Mrs. Crews is a graduate of Crowell High School and also of the University of Texas from which institution she holds an A. B. and an M. A. degree. She taught school in the High School of Alexandria, La., for three years, also in Quannah and Crowell and for the past two years has taught in Danbury, Texas.

Mr. Crews is the son of Mrs. C. Crews of East Columbia, Texas. He received a high school education at that place and later graduated from Texas A. & M. He has been in the employ of the Gulf Sulphur Company at Gulf for the past several years.

The guests were assembled in the dining room. The rooms were attractively decorated with bouquets of gladioli. The guests were, besides the members of the immediate family, Mr. and Mrs. Jess Whitfield, Mr. and Mrs. Rob Cooper, Mr. and Mrs. Frank Crews, Mr. and Mrs. T. S. Haney, Mr. and Mrs. Allen Sanders, Mr. and Mrs. Marion Hughston, Mrs. Fannie Thacker, Dr. and Mrs. J. M. Hill, Mr. and Mrs. R. J. Thomas, Mr. and Mrs. Dow Miller, Mr. and Mrs. N. J. Roberts, Misses Frances Hill, Peggy Cooper, Florence Miller, Mary Elizabeth Hughston and Jack Roberts, Jr., and Tom Ray Roberts.

Mr. and Mrs. Crews left immediately after the marriage for Gulf, where they will make their home. For travelling, Mrs. Crews wore a brown ensemble with harmonizing accessories.

## ANNOUNCEMENT PARTY

Miss Pansy Atcheson was hostess at her home last Wednesday evening at a delightful dinner party to announce the engagement and approaching marriage of her sister, Miss Violet Atcheson.

Place cards at the attractive table were telegrams which announced the date for the wedding. Small bride's bouquets were used as mint holders.

The following were guests on this occasion: Misses Violet Atcheson, Blanche Hayes, Nancy Cogdell, Bonnie Cogdell, Mozelle Lilly and the hostess.

## TEST OF NEW BALL

Alex Ednie, pro at Shelter Rock Country club, Long Island, recently drove a spun latex ball through a phone book almost an inch thick, containing more than 500 pages. Standing the book on end without support 4 feet in front of the tee, Ednie sent the ball through with such force that it carried and rolled 100 yards beyond. Traveling at the rate of approximately 114 miles an hour, the ball was averaging 167 feet a second when it hit the book. The drive, declared impossible by golfer and non-golfer alike, was made to test the new spun latex golf ball, a United States rubber product. Made of materials never before used in golf ball construction, the new ball is notable for its power and distance. These qualities are acquired primarily from a high-power winding of thread spun directly from liquid latex, the natural milk of the rubber tree.

## SHOWER FOR BRIDE

Mesdames N. J. Roberts, M. L. Hughston and Dow Miller were hostesses last Friday afternoon at a tea and shower to honor Miss Litha Crews whose marriage to Mr. W. L. Crews of Gulf, Texas, took place Sunday.

Mrs. Miller met the guests at the door and presented them to a receiving line with Mrs. Roberts, Miss Crews and Mrs. Sam Crews and Miss Mary Sam Crews, mother and sister of the bride-elect.

Miss Frances Hill presided at the bride's book, from which place the guests were directed to the gift room where numerous beautiful and useful gifts attested to the friendship and esteem felt for the honoree.

A color scheme of white and yellow was used in the dining room. Lighted white tapers and a centerpiece of yellow flowers adorned the dining table from which yellow punch, cookies and yellow and white mints were served by Misses Mary Elizabeth Hughston and Florence Miller.

Mrs. Hughston directed the guests from the dining room to the living room where they were seated for the program. Mrs. Roberts clearly gave a sketch of the life of Miss Crews from the standpoint of a very close neighbor. A skit "The Newly Weds," was given by Misses Florence Miller and Peggy Cooper. Six young ladies told, in jolly verse, reasons they had not married. They were Misses Peggy Thompson, Frances Hill, Lottie Russell, Mary Elizabeth Hughston, Frankie Kirkpatrick and Ruth Ferguson. Miss Camille Graves gave a reading "To a New Bride."

Guests called at two hours, from 4 to 5 and from 5 to 6. Out-of-town guests were Misses Rose Coker and Faye Ingram and Mrs. Jess Alexander of Quannah.

## BRIDE-ELECT HONORED

Miss Violet Atcheson, bride-elect of Mr. Orville Hamilton of Rochester, was honored with a miscellaneous shower last Saturday afternoon at the home of Mr. and Mrs. A. W. Lilly, with Misses Mozelle Lilly and Bonnie Cogdell as hostesses.

Joyzelle Tysinger, little daughter of Mr. and Mrs. W. B. Tysinger, opened the program with a clever reading, "Yesterday." A toast to the bride was given by Miss Evelyn Fiesher, one to the mother by Miss Jo Roark and one to the girls left behind by Miss Bonnie Cogdell.

Punch was served in the dining room by Miss Lilly. Little Miss Jeannette Roark appeared with a telegram for the honor guest which directed her to the bedroom airport where she found many beautiful gifts awaiting her in an improvised airplane. About thirty-five friends were guests on this occasion.

## T. E. L. CLASS

The T. E. L. Class of the Baptist Church met in regular business and social meeting on last Thursday in the home of Mrs. A. E. McLaughlin, with Mrs. I. T. Graves joint hostess with Mrs. McLaughlin.

The class was invited by the hostesses to bring a covered dish and spend the day and each one was glad to accept the invitation.

In the afternoon Rev. W. B. Fitzgerald led a splendid devotional in which he stated that he was depending upon the women of the church to help carry out the program he has planned for the church. A business session was conducted by the class president, Mrs. W. R. Womack. The remainder of the day was spent in a social good time and handwork. Twelve class members were present and the following guests, Rev. and Mrs. W. B. Fitzgerald and son, Gene, Mrs. Ida Cheek, Mrs. T. S. Haney, Mrs. Lee Ribble, Mrs. B. W. Self, Miss Mae Andrews, Marjorie Spencer, Thelma Lois Moore, Theda Lavener Wright, Camille Graves, Sharon Sue Haney and Jim Claude Cates.

## JAMES DAVID FOX HONORED AT BIRTHDAY PARTY JUNE 11

Mrs. Herman Fox entertained Tuesday evening of last week with a party at her home in honor of her little son, James David. The occasion celebrated his second birthday. After an hour of play, the hostess, assisted by Mrs. Bill Bell and Miss Mildred Johnson, served ice cream and angel cakes to the little guests.

Those who attended, accompanied by their mothers, were Hagan Ward Whatley, Jolene Lanier, Billy Bell, Genna Lee Murphy, Paula Plunket, Jimmy Tom Cates, Gordon Wood Bell and Ronald Murphy. David was the recipient of many pretty and useful gifts.

## NANCY COGDELL HONORED

Miss Nancy Cogdell, who has been at home on a vacation from Dallas where she is a student nurse at Baylor Hospital, was honored with a picnic last Thursday afternoon. On account of the rain, the picnic was held in the left of the barn at the J. T. Atcheson home.

A picnic menu consisting of sandwiches, pickles, potato flakes, cookies and lemonade was served to Misses Nancy Cogdell, Blanche Hayes, Bonnie Cogdell, Mildred Cogdell, Marie Wells, Sue Gorrell, Mattie Bell Greening, Margaret Cates, Violet Atcheson, Pansy Atcheson, Mozelle Lilly, Ethlyn Brown and Nancy Cogdell. The honor guest left Friday for Dallas to resume her studies.

## Graham to Entertain Northwest Texans at Jubilee July 4-5-6

Graham, Texas, June 18.—Northwest Texas will converge on Graham July 4, 5 and 6 for the three-day Jubilee and Historical Exposition on which committee work and rehearsals were started this week.

While the historical exposition plans awaited arrival of Parke N. Burtcher of the Rogers Production Company Monday, arrangements for the three-day racing card, pioneers' and oil men's reunions, rodeos, parades and beauty contest have been under way for more than a month.

Sharing honors in the jubilee program will be the exposition to be given each night at the Fair Park with a caste of approximately five hundred and the races each afternoon.

The rise of civilization in Northwest Texas from the dawn of Creation to the present generation will be depicted in the colorful exposition. Thrilling scenes portraying the famous Salt Creek Massacre, Butterfield Trail days, Fort Belknap and the evolution of Texas peace officers are only a few of the features of the progress to be staged with Texas talent and the production company's elaborate settings and costumes.

## S. S. CLASS ENTERTAINED

Mr. and Mrs. M. S. Henry were hosts to Mrs. Henry's Sunday School class at their home last Thursday evening. Mr. and Mrs. Geo. Self assisted them in entertaining.

Six hundred and various other games were played throughout the evening.

A color scheme of pink and green was used throughout, including the refreshment plate. Chicken salad, wafers, olives, punch, angel cake and ice cream were served to the following guests: Misses Dorothy McKown, Mary Byrl Bell, Mary Elizabeth Hughston, Florence Miller, Peggy Cooper, Julia Bell Erwin, Ruth Ferguson, Juanita Hough, Frances Welch and Messrs. Jack Spotts, F. L. Rennels, John Clark Roberts, Eugene Majors, Raymond Gibson and Archie Campbell.

## Texas Farmers Turn Deaf Ear to Rumors About AAA Program

College Station.—Farmers of Texas are carrying on adjustment programs regardless of all wild rumors that the recent Supreme Court decision endangers AAA and more than 70,000 new contract signers have shown up this year in the various commodities, according to George E. Adams, assistant state agent of the Texas Extension Service.

When Sam Houston first took charge of the Texas forces as their Commander-in-Chief he sent orders to Col. Wm. B. Travis to dynamite the Alamo, which he termed a "death-trap" and told Col. Travis to retreat. Both these orders were disobeyed.

## "Alabama Pitts"

ALBANY, N. Y. . . . Above is Edwin C. (Alabama) Pitts, recent Sing Sing Prison baseball star whose signing by Albany, upon his release, caused a ruling that he could not play professional baseball "for the good of the game."

A later ruling this week from Judge Landis, organized baseball's highest authority, permits Pitts to play league baseball.

## KIRKPATRICK SPEAKS AT ROTARY LUNCH; NEGROES HAVE PART ON PROGRAM

Roy Barker was in charge of an interesting program at the luncheon of the Rotary Club Wednesday which included a talk by W. F. Kirkpatrick and numbers by local colored people in commemoration of the "19th of June," outstanding holiday of the year for colored people.

Mr. Kirkpatrick compared actions of rulers in thousands of years past, compared with reigns following the advent of Christ. He brought out the fact that according to Christian principals, the object of rulers was to serve, instead of being served through enslaving of people. Rotary's ideals of service were also discussed.

Ben Byrd, prominent citizen of the colored section of Crowell, briefly discussed the negro holiday and expressed appreciation for the spirit of co-operation shown by the white people. "The Southern white man is the only thing we can see that is going to work for the betterment of the Southern colored people," he stated.

A vocal solo by Marjorie Smith and negro spirituals by Marie Bowden, Marlene Gates and Marjorie Smith, colored, completed the program.

L. A. Wilson of Vernon and A. T. Chaney of Quannah, Rotarians, and Jim Boswell of Plainview were visitors at the luncheon.

Eli Smith announced plans for the picnic that will be held next Thursday evening for Rotarians and their families.

THANKS

The public response following the opening of our ice cream department was far greater than we had anticipated and for this fine patronage, we express our sincerest thanks.

In order to serve you better, we have secured a dispensing cabinet twice the size of the one installed several weeks ago when this department was opened.

Alex Ednie, pro at Shelter Rock Country club, Long Island, recently drove a spun latex ball through a phone book almost an inch thick, containing more than 500 pages. Standing the book on end without support 4 feet in front of the tee, Ednie sent the ball through with such force that it carried and rolled 100 yards beyond. Traveling at the rate of approximately 114 miles an hour, the ball was averaging 167 feet a second when it hit the book. The drive, declared impossible by golfer and non-golfer alike, was made to test the new spun latex golf ball, a United States rubber product. Made of materials never before used in golf ball construction, the new ball is notable for its power and distance. These qualities are acquired primarily from a high-power winding of thread spun directly from liquid latex, the natural milk of the rubber tree.
