CROWELL VOTES FOR TELEPHONE IMPROVEMENTS

HASKELL TELEPHONE COMPANY WILL INSTALL FLASH-LIGHT SYSTEM HERE

Over 84 Per Cent of Telephone Users in This City Vote for Proposition Made By Telephone Officials

Crowell is now assured of having a modern telephone system as can be seen from the result of the vote on the proposition submitted by the Haskell Telephone Company. Local men distributed cards on Wednesday upon which telephone users of Crowell cast their vote and by Wednesday afternoon there had been enough favorable votes received to insure the installation of the flash-light system had been promised if the people of this city were willing to permit an increase in their telephone rates. The final vote on the proposition was: For—220; Against—16; No vote—19; and nine telephone users had not been seen due to absence from the city or other reasons. The users voting for the improvement and at the same time agreeing to pay the increased rate, represented over 84 per cent of the telephone users of Crowell. The Haskell Telephone Company agreed to make the change if only eighty per cent of the users favored the change.

Plans Started

G. H. Williams of Seymour, superintendent of the Haskell system, left Dallas Wednesday afternoon after it had been discovered that the proposition had carried by a safe margin. He took the cards, upon which all votes had been made, with him and will immediately make preliminary plans for the new improvements. He stated that he had never seen such action on such a proposition of highly complimented local men in their work in putting the proposition over in such a smooth manner. Mr. Self was chairman of a committee composed of L. A. Andrews, J. H. Hill, C. C. McLaughlin and F. Kirkpatrick that canvassed the town in taking the votes. These men are to be highly commended for their efficient work.

Before leaving Mr. Williams stated that he was making the trip to Dallas in order to receive bids and place orders for the new equipment that will be necessary in installing the system. He explained that all telephone switchboards have to be made special order so that they can fit individual needs of a city. In making bids on the switchboard, he stated that he was going to ask submission by January 1st. Usual three or three months are required for a board can be supplied.

Much Work Yet

Mr. Williams stated that there is much work yet to be done on the new system as new cable had to be installed to every part of the town. Repairs required and any number of improvements were yet to be made. It will be several months before this work can be completed. Two toll lines are being added here to Quanah which will be

of great aid in long distance service to the main points of the state.

Mass Meeting

Following the announcement in last week's issue of the News, a mass meeting was held Friday night in the district court room in which sixty-one telephones were represented. George Self was elected chairman of the meeting and had charge of the meeting in which the proposition was discussed from various angles. Telephone rates in other cities were given for comparison, the flash-light system was explained and various other discussion took place until Mr. Self asked for a vote on how the people present felt on the matter.

Every person present with the exception of one voted in favor of the change. The Haskell system had agreed that if a representative sentiment could be secured from the people favoring the proposition, their company would then have a vote taken on the matter.

Mr. Self appointed a committee composed of H. K. Edwards, W. F. Kirkpatrick, J. R. Beverly and N. J. Roberts to confer further with telephone officials to see if the proposed rates could be lowered.

John W. Pace, general manager of the Haskell system, met with this committee and other citizens here Monday morning and explained that the rates were as low as his company could possibly afford to make on the proposition. He again explained that the telephone company would prefer to go ahead as it had planned but if the people actually showed that they were willing to pay the difference for a better system, his company would install it.

While here cards for voting were ordered printed by the Haskell officials, who permitted local men to take them to the telephone users to secure their votes.

The Haskell Telephone Company remained practically neutral in the matter and never once tried to sell the proposition to Crowell. At the request in a letter from Mack Boswell, Mr. Pace and Mr. Williams came to Crowell last week and in a conference with George Self and Mr. Boswell, made the proposition on which that company would install the flash-light, or common battery, system in Crowell.

The telephone system here is undergoing a complete change, with cable replacing wires to every part of the city, a new building for the system practically completed, and work to begin soon on wiring every place where there is a telephone. New telephones will also be put in place of the old ones when the flash-light system is installed here. When this extensive improvement program is completed, Crowell should have one of the finest telephone systems to be found anywhere.

Francine Mae Curtis Entertains Rotarians

Miss Francine Mae Curtis, new expression teacher in the Crowell schools, was principal entertainer at the Rotary luncheon Wednesday. Following her numbers it was voted by the members to elect a club sweetheart and Miss Curtis was nominated for this position and was elected by acclamation.

The program outlined for the next five meetings was read as follows: October 2nd, Fire Prevention program; Leo Spencer in charge; October 9th, Boys' Work; Eli Smith; October 16th, Rural Urban, John Ray; October 23rd, Under Privileged Children; B. W. Self; and October 30th, Educational, M. S. Henry.

Other visitors present at the luncheon Wednesday were Judge Robert Cole and John Myers of Vernon and C. B. Morris of Thalia. Eli Smith told of the boys scout situation and Mack Boswell read a letter in regard to recent matters on the Pease River Irrigation Association.

Cotton Ginnings Are Gaining Headway

Up to Thursday afternoon 550 bales of cotton had been ginned by the two Crowell gins and 585 bales had been weighed at the cotton yard by A. T. Schooley, public weigher. Margaret had ginned 136 bales to Thursday afternoon; Thalia, about 270; and Rayland, 240; bringing the total number of ginnings in Foard County to approximately 1,200.

According to a report handed to the News by W. B. Griffin from the Census Bureau of Foard County had ginned 266 bales to September 16th compared with 104 bales for the same period the year before.

night in which all of the towns of this district were represented.

GOOD SCHOOL OPERATING IN THALIA DIST.

School Officials Set as Goal "To Become Affiliated in Every Subject Taught"

"To become affiliated with Texas University in every subject taught" is the goal set by Thalia High School this year, according to W. C. Jones, superintendent. Thalia High School is already affiliated in seven and one-half of the eighteen subjects taught in the school.

There are 225 students enrolled in the Thalia school at the present and a maximum enrollment of over 250 is expected before Christmas. The school at Thalia opened on September 2nd and is now running in mid-season form with various activities taking place.

The people of Thalia and that community have a school that any section should be proud to own. A new \$40,000 brick building was erected in 1924 and the enrollment has already outgrown that building and two grades are now housed in the frame structure near the brick school that is commonly known as the "Dixie Building." It was completely renovated and painted before the beginning of this term of school.

The school cafeteria, which is operated by the Parent-Teachers Association with Mrs. C. C. Lindsey in charge, is operated in the Dixie building also.

Seniors Organize

The Senior class this year has an enrollment of eleven this year and has already organized. Kathleen McEllroy has been elected president and the other officers that have been chosen are: Norman Gray, vice president; Lorene Shultz, secretary; Leiland Stovall, treasurer; and Vera Cates, reporter. The other members of the Senior class besides the officers are: Katherine Wheeler, Marie Cates, Merle Banister, Raymond Phillips, Albert Wisdom and Earl Phillips.

The faculty is made up of the following: Mrs. W. C. Jones, primary; Miss Tommie French, 2nd and 3rd; Miss Viola Taylor, 5th; Miss May King, 4th and 6th; high school teachers—Mrs. Bob Abston, mathematics; Miss Mattie Russell, English and Spanish; H. R. Hartman, history and athletic director; and W. C. Jones, science and superintendent. Mrs. C. D. Haney is teaching piano and expression.

(Continued on Page 4)

Cato Chevrolet Co. Opens First Auto Firm at Thalia

Thalia is showing the mark of progress with the opening of its first auto firm by E. V. Cato and son, Royce, to be known as the Cato Chevrolet Company, associate Chevrolet dealers. A carload of automobiles has already been received and one truck has already been delivered to a buyer.

Royce Cato, who has been book-keeper of the Chevrolet Company at Stamford, is acting as manager of the new firm. C. C. Wheeler is employed as salesman.

Building Improved

The front of the building, formerly used for the Cato Garage and Filling Station, has been completely remodeled and now presents an attractive appearance as any building in Thalia. The 40-foot front has been covered entirely with cream stucco, and large plate glass fronts have been placed on each side of the main door making it possible to display the Chevrolets attractively in the show room.

Considerable improvement is yet to take place on in the inside according to Royce Cato, who stated that it is their plans to have it just as attractive as the front of the building. Complete repair service for Chevrolets and other automobiles is soon to be provided and a large line of parts will be carried at all times.

The drive-in filling station of the old building has been eliminated and a concrete runway along the front of the building has been provided and a gasoline pump has been installed.

HOSPITAL NOTES

Leslie Moore, who became seriously ill following an appendicitis operation last week, is getting along nicely.

An operation was performed on Dwight Barry's hand Tuesday.

Mack Rheinhardt of Margaret will soon be recovering from the hospital. He is recovering from an appendicitis operation.

K. G. Davis of Chillicothe, one of the men injured in a car accident last week, is getting along nicely.

Miss Novella Weathered of Good Creek is in the hospital for treatment at the present time.

ADAM DONGES WILL INSTALL NEW HATCHERY

One of Crowell's Greatest Needs Will Be Supplied By Vernon Man

Crowell will soon have one of its greatest needs fulfilled by the establishment of a chicken hatchery here by Adam Donges of Vernon. Mr. Donges has previously made several trips to Crowell to investigate the possibility of establishing a hatchery here and has conferred with local men in this respect.

In a letter to the News Wednesday he announced definitely that he was going to establish a chicken hatchery here and has already ordered a new electric incubator with a capacity of fifteen thousand eggs. Mr. Donges did not announce where he was going to locate the new enterprise.

In his letter he said: "I have everything completed for the incubator for Crowell. I will install a 15,000 egg machine and as the poultry business grows, we shall grow with it."

Help Poultry Business

"I am going to make a special effort to double the poultry business in Foard County this next season. With this machine in Crowell the farmers of Foard County will receive from ten to fifteen cents above the regular market price for their eggs. This applies to those with standard flocks."

Mr. Donges is the owner of the Vernon Hatchery and Poultry Farm and has been in the baby chick business for a number of years in Vernon. He is well known to many Foard County farmers and he has done considerable business with them. He has seen the opportunity for growth in the poultry business in Foard County and is planning to take a great part in this growth.

Highly Recommended

Mr. Donges comes to Crowell with the highest of recommendations from bankers, business men and the chamber of commerce of Vernon. He is establishing a plant that will no doubt prove of tremendous value to Foard County and Crowell and should receive the hearty co-operation of the people of this section. The poultry industry is about the surest of all money-makers and nothing is of greater aid in helping the poultry industry to grow than a good hatchery and Mr. Donges' reputation bears out the fact that he will give this county nothing but the best.

Lively Schedule for Crowell's Football Team This Season

With the greater part of the games on its schedule to be played at home this season the Crowell High School football team is promising Crowell fans one of the most interesting seasons in many years.

The opening game of the season was played here with a victory over Quanah and the game last Friday was played at Matador with another victory.

This Friday Crowell will no doubt meet its strongest opponent, Chillicothe in that city. Chillicothe already has won from Quanah and Vernon and is looked upon as having one of the strongest teams in this section of Texas.

Crowell is badly crippled for the game with Captain Lanier, Cotton Ganns, and Charlie Ashford, all back-field men, on the injured list. It is reported that two of Chillicothe's leading players were also injured in the game with Quanah last week and may not be in the game Friday.

On the next Friday, October 4th, Crowell is at home again with a game against Knox City. October 11th is open and it is not known at the present time just who Crowell will play then.

Munday is played in that city on October 18th and on October 25th the local boys will journey to Knox City for a return game. Matador comes to Crowell on November 1st and on November 11th one of the best games of the year should be played with Chillicothe coming here on that holiday. Munday is played here on November 22nd and at the present time Thanksgiving day game is open, however, it is planned to have a strong team here for that game.

Mr. and Mrs. W. B. Carter and children came down Saturday from Altus, Okla., to visit Mrs. Carter's mother, Mrs. G. A. Mitchell, who is ill. Mr. Carter and the children returned home Sunday accompanied by Miss Carrie Maurice Alle, while Mrs. Carter is spending the week here.

J. R. Gamble left Wednesday for an overland trip to his boyhood home at Pinebluff, Ark. He was accompanied by his son, Jim.

Miss Allison Self left Sunday for Lubbock where she will enter Texas Tech. She was accompanied by her parents, Mr and Mrs. B. W. Self, and Miss Martha Schlagal.

PRELIMINARY WORK IS STARTED BY CONTRACTORS ON FOARD CO. PAVING

Actual Paving Work to Begin Near Thalia Latter Part of Next Week; \$150,000 Worth of Equipment Now on Ground

The plot of ground just across the railroad track from Crowell's grain elevator district is now one of the busiest spots in this city. The McClung Construction Company, Foard County paving contractors, completed their work in Taylor County Saturday and seventeen carloads of their material arrived in Crowell Tuesday afternoon. The equipment that is now on the ground here is valued at \$150,000.00.

The contractors are now clearing off the plot of ground just west of the elevators which they will use to erect about three structures and for space to keep all of their equipment and supplies. A space along the tracks about 150 yards long by 75 yards wide is being cleared for the company's plant here. A large tractor and grader is now smoothing the plot down and the erection of the structures has begun.

One of the structures will be used for housing cement, another for a shop and one for an office. These are portable structures. Bert Self's elevator has also been rented for storing feed and other items. A number of Mexican laborers of the company have established a tent colony southeast of the main headquarters.

Pave Next Week

S. D. Riza, construction superintendent, is in charge of the work in establishing the plant here and later will have charge of the actual paving work. He stated that actual paving would likely start the latter part of next week.

Besides the work that is taking place at the company's headquarters, a pipeline is being laid from Mrs. Steve Bell's tank, about six and one-half miles southeast of here to a

point about one mile west of Thalia where paving will start and proceed in the direction of Crowell.

Trucks Needed

Mr. Riza stated that about forty-five trucks for hauling gravel would be needed and that many of these were yet to be secured. He also stated that a number of new men would be needed for other work in connection with the paving.

There are around seventy-five men here now that are regular employees of the company. With the paving work going at capacity, about 150 men will be used on the work, according to Mr. Riza. Trucks are now busy hauling pipe for the water line.

There are about ten or twelve different types of motor equipment that have already been unloaded, including mixers, rollers, tractors, power cranes, pumps, graders and various other items. When the work is really started on paving, about twenty carloads of material, including cement, sand and gravel should arrive here daily and with favorable conditions the crew should average about four miles of paving weekly.

Plant Near Thalia

Another plant, about two miles east of Thalia on the A. T. Miller place, will be established in about three weeks when some of the work in Wilbarger County is completed. This will be done so as to tie up the Wilbarger and Foard paving as quickly as possible. The plant to be established on the Miller place will be about the size of the one here.

The company also has forty-seven miles that it will use in connection with its work. Deals have been made with local men for their feed.

Jno. F. Reavis Dies In Phillipine Islands

Mrs. Ida Reavis received a letter this week from a mining company in the Phillipine Islands telling her that John F. Reavis, her brother-in-law, had died there in a hospital on August 19th. Mr. Reavis had been in ill health for about two years.

Mr. Reavis, who was more familiarly known as Fred Reavis in Crowell, had lived in the Phillipine Islands for over 31 years, going there in 1898 during the Spanish-American War. He became interested in the mining business at that time and spent practically all of his life in the Phillipines since that time.

He returned to the United States in 1918 at which time he married the daughter of Joaquin Miller, one of the most famous men in the history of American literature. Following the marriage in San Francisco he visited his brother, the late D. L. Reavis, in Crowell and shortly afterward returned to his mining work in the Phillipines.

Mr. Reavis is survived by a brother, F. A. Reavis, of Enterprise, Oregon, and a nephew in Los Angeles. He was about 65 years of age at the time of death.

J. R. Beverly Named Foreman Grand Jury

Grand jury met Monday and adjourned Wednesday afternoon after completing all work coming before it. It will meet again on October 3rd in its final session, at which time J. R. Beverly was elected foreman.

The men on the grand jury are: C. V. Allen, J. H. Ayers, A. T. Beazley, G. J. Benham, I. W. Middlebrook, T. R. Cates, W. A. Chatfield, A. H. Fish, C. E. Gafford, W. F. Wood, A. G. Bell, C. W. Thompson, J. H. Whatley, G. C. Phillips and H. W. Gray.

The first case to be tried in district court took place Thursday morning with the suit of Bessie Gribble of Vernon against Henry Gribble for the possession of a farm. The case was still in the hands of the jury Thursday afternoon.

Farmers Start 2nd Gin Here Thurs.

The Farmers Cooperative Society of Crowell started the operation of a second gin Thursday morning. The new gin is one of the most modern to be found anywhere and is housed in a fireproof building. There is not a stick of lumber in the construction of it.

Murray gin machinery has been installed in the plant. The gin is the same size of the old one, consisting of five stands with 80 saws to the stand. A Hardwiche-Etter cleaner and boll extractor has also been installed in the new gin along with one in the old plant.

The gin is powered by a natural gas engine of Bruck-McBeth make and is the first natural gas engine that has been used in this section.

Crowell Wins Over Matador by Score of 19 to 0 Friday

Crowell High School won the second game that it has played this season by defeating Matador 19 to 0 in a football game at Matador last Friday. The local boys scored fifteen first downs to three for Matador.

This was the first game that Matador has played this season and they failed to execute their plays in the proper manner and tackled too high, but played fairly good ball for an opening game. Matador comes to Crowell on November 1st. They have a heavier team than Crowell and are due for much improvement until then.

Crowell's first touchdown came in the first quarter after receiving the ball on the 38 yard line and then continuing a steady march down the field on line plunges until the goal line was crossed by Guy Todd, quarterback. Crowell scored again in the second quarter after Leo Horn had intercepted a Matador pass on the 30-yard line and the touchdown followed on off-tackle plays.

The final touchdown of the game came in the last quarter when Guy Todd broke through the line and ran 35 yards for the marker. A pass, Spears to Burrow, came just before Todd's run.

The Crowell team made a number of sensational plays during the game. Ashford got away for a 25-yard run at one point of the game. Cotton Ganns made a 30-yard return of a punt in the last quarter at which time he received an injury to his collar-bone and had to be taken from the game. Charlie Ashford received an injury to his knee in the third quarter that caused him to leave the game. R. D. Oswait and Ralph Burrow substituted for Ashford and Ganns in the backfield.

The Crowell team is high in its praise of the treatment received at Matador. The local boys state that Matador showed real sportsmanship throughout the game and afterward gave them a watermelon feast and theatre party.

Crowell's line-up in the game was: Crews Cooper, left end; Ernest Patton, left tackle; Leo Horn, left guard; R. D. Oswait, center; J. D. Todd, right guard; Recie Womack, right tackle; Arthur Bell, right end; Guy Todd, quarterback; Ernest Spears, left half; Charlie Ashford, fullback; and Cotton Ganns, right half.

Substitutions: Burrow for Horn; Burrow for Oswait; Roberts for Burrow; Cogdell for Burrow; Burrow for Ganns.

Crowell plays Chillicothe in that city Friday, September 27th. Chillicothe has already beaten Vernon and Quanah this season, defeating both teams last week.

After the game with Chillicothe, Crowell will play Knox City here on October 4th.

Mrs. Claude Brooks returned Sunday from a visit with her husband at Artesia, N. M. Mr. Brooks is a salesman for W. C. McKown and is now working in the Artesia territory.

RAYLAND
(By Special Correspondent)

Miss Katherine Davis of Iowa Park is here visiting her sister, Mrs. DeWitt Edwards.
The Methodist meeting closed Sunday night. It has been in progress for the past week with Rev. Ames doing the preaching.
Mrs. Lizzie Clark has been critically ill the past week.
Mrs. Walter Funk has been very ill for several days at the home of

Mr. and Mrs. Bill Funk at Thalia.
Mrs. K. B. Pool left Wednesday for Bartlett to be at the bedside of her father who is critically ill.
Mrs. A. C. Crisp and sons, Harold and Pete, and Jesse Gregg returned Tuesday from a weeks visit a Bay City. They were accompanied home by Mrs. Leonard Pool and baby.
Mrs. Frank Ward and Mrs. V. L. Courtney of West Rayland spent Monday night at the bedside of Mrs. Lizzie Clark.
Jake Roberts moved to Rayland Monday.

Mr. and Mrs. D. L. Murphy of Wichita Falls moved to Rayland Tuesday. Mr. Murphy is employed at the T. E. Lawson Service Station.
J. F. Pruett moved his stock of groceries Monday into the building formerly occupied by W. J. Ayers Grocery.
Mr. and Mrs. A. C. Crisp went to Bay City Wednesday to visit among relatives. They returned Monday.
H. F. Faughn moved his filling station supplies to Lockett Saturday. T. E. Lawson will occupy the station where Mr. Faughn has been.
Mrs. Oda Pool and Bonnie Crisp visited K. B. Pool and family of Talmadge Tuesday.
R. A. Rutledge went to Vernon Tuesday to have some Dental work done.

Mr. and Mrs. Ercell W. Brooks of Vernon visited Ira Younger and wife Wednesday morning.
Arlin Turner of Canyon visited Mr. and Mrs. Ira V. Younger Wednesday. He left Thursday for Austin accompanied by Quincy Lee Rutledge and Carrol Guggisburg where they will attend State University.
Mr. and Mrs. H. L. Williams spent the week-end visiting relatives at Rule.

Mr. and Mrs. B. F. Attaway of Vernon spent Sunday with N. T. Simmons and family.
There has been 185 bales of cotton ginned at the Farmers Cooperative Gin up until Tuesday at noon.
Miss Lorraine Attaway of Vernon visited Hazel Rutledge Sunday.

Jim Jordan and family of San Marcus came Saturday night to be at the bedside of her mother, Mrs. Bud Clark, who is very ill.
Frank Ward and family of West Rayland spent Sunday with Mr. and Mrs. L. D. Mansel.

John Clark of Crockett came Monday to visit his parents, Mr. and Mrs. Bud Clark.

Mr. and Mrs. Jessie Moore, Louis Schoopie and B. D. Webb spent Sunday and Monday at Lake Kemp.

Ralph, Jess and Eula Mae Gregg of West Rayland, Buster, Grayce and Bonnie Crisp, Mr. and Mrs. R. A. Rutledge and daughter, Hazel, Mr. and Mrs. Ira V. Younger, Mr. and Mrs. H. L. Taylor, Misses Gussie and Zelma Russell were dinner guests of H. W. Young and wife Sunday.

Mr. and Mrs. A. C. Crisp visited Mrs. Walter Funk, who was ill, at Thalia Monday night.

THALIA

(By Special Correspondent)

C. H. Wood and family, E. G. Grimsley and family, M. C. Adkins and family, T. H. Matthews and family and Sim Gamble and family attended services at the Methodist Church in Rayland Sunday night.

Frank Wood and Freeman Durham made a business trip to Littlefield Wednesday.

Granville Bratcher and family have moved here from Lake Dallas. They are living in the house recently vacated by W. C. Gardner and family and will help to gather Mr. Gardner's cotton crop.

W. F. Wood, Miss Minnie Wood and Mrs. B. F. Henry visited Truett Neill and family in Rayland Thursday afternoon.

John Hugh Banister went to Quanah Sunday where he had his tonsils removed. He is doing nicely.

Miss Louise Alger of Vernon spent Friday and Saturday with her sister, Mrs. J. A. Stovall.

Mr. and Mrs. E. H. Roberts returned home Sunday from a visit with relatives in Mexico. Their son, Charlie, who had been there for about two months returned home with them.

J. L. Shultz and wife, Mr. and Mrs. B. F. Hogan and Mrs. Eudale Oliver, and Mr. and Mrs. G. C. Phillips were Vernon visitors Tuesday.

Miss Louise Stovall spent last week end with Miss Louise Alger in Vernon.

Fred Brown and family visited relatives in Seymour Sunday. They were accompanied by Carl Huddleston and family of Vernon.

Mack Boswell of Crowell was a business visitor here Tuesday.
Oscar Mints came home Sunday from Estelline, where he is attending school. He is suffering with an injured shoulder.

Mrs. C. D. Haney started an expression and music class here Tuesday.

Tom Sykes, Frank Wood, Mrs. Lee Sims and Mrs. John Sims were Vernon visitors Monday.

T. D. Roberts of Crowell was a business visitor here Tuesday.
Otto Matthes and O. E. Hodges were business visitors to Vernon Tuesday.

Mr. and Mrs. M. E. Hall who have been visiting W. B. Durham and family here for several days returned to their home in Seminole, Oklahoma, Monday. They were accompanied by Quannah by Mr. and Mrs. Freeman Durham.

M. M. Hunter and family of Vernon, Granville Bratcher and family of Lake Dallas, Truett Neill and family of Rayland, Tom Sykes and family of Seminole, Okla., and Charlie Wood and family were visitors in the home of Will Wood Sunday.
C. B. Morris and sister, Miss Marguerite Morris, were business visitors in Crowell Saturday.

The Home Demonstration Club met with Mrs. C. W. Roberts Friday afternoon.
W. F. Wood, Otto Matthes, T. H. Matthews and family and J. F. Matthews and family were Vernon visitors Saturday.

Ted Solomon and family of Sonora visited George Doty and family here last week-end.

Mr. and Mrs. Herman Fox and Mr. and Mrs. Roy Fox of Crowell were business visitors here Friday evening.
Miss Shirley Short visited her sister, Mrs. L. A. Roberts, in Vernon last week.

C. H. Wood and family visited relatives in Wichita Falls a few days last week.

Mr. and Mrs. B. D. Webb and C. L. Moore were Vernon visitors Tuesday.

Frank and Minnie Wood and C. C. Wheeler were Rayland visitors Tuesday.

The ladies of the Margaret Methodist Missionary Society met with the

The program which was put on by the Community Club Friday was enjoyed by every one. The meeting will be in October.

AIR MAIL SYSTEM IS PLANNED BY CHINA
Shanghai, China.—The Chinese government is planning a comprehensive air mail system to link all parts of the country, according to the Chinese Economic bulletin.
A national aviation corporation capitalized at \$10,000,000 has been organized by the government to carry on air mail service and to promote civil aeronautics.
Most people long for long without old age.

A Half-Century of Experience Is Back of These Grain Drills

MCCORMICK-DEERING GRAIN DRILLS

THE man who plants his crop with a worn-out or inadequate seeding machine sows the seeds of anxiety and worry. By adding slow, inaccurate planting to the many hazards beyond his control he reduces his chances of getting a successful stand.

The farmer who plants with a McCormick-Deering Grain Drill enjoys the security that has linked the name McCormick-Deering with reliability the country over. His chances for a good stand of grain are greatly increased because a crop planted with McCormick-Deering Equipment is a crop planted right.

McCormick-Deering Grain Drills have won a good reputation in all sections of the country and under all soil and weather conditions. Over fifty years of practical drill experience and field observation is built into these fast, dependable machines.

The next time you are in town stop in at our store. We will show you the size and type of tractor or horse drill best suited to your crops and soil conditions.

Survey of Chevrolet Co. Tells Method of Gaining Gas Mileage

Detroit, Michigan.—Millions of dollars could be saved annually by the automobile owning public by a more strict observance of the factors that control the average of the factors offered by the average automobile, it was revealed in a survey on fuel economy completed by the Chevrolet Motor Company.

A gain of from two to five miles on the gallon of gas could be effected, on the average, it was shown, if the motorist paid strict attention to the elements that govern fuel consumption.

The matter of economy has always been a factor of the uppermost importance with Chevrolet in the designing of its cars. Having brought the mileage to the highest point ever offered in a six cylinder car, Chevrolet sought to corral in this survey, the many seemingly unimportant details, which through carelessness or indifference on the part of the driver, cut down the mileage that might be obtained through more intelligent handling of the car.

Manufacturers have been doing their utmost to make gains in the direction of greater mileage and now it is felt that with greater cooperation from the driver, motorists may ride millions of miles a year at no extra fuel cost if the matter of watchfulness can make a sufficiently strong appeal.

Just how this attention to fuel economy brings its reward is illustrated in records of performances coming to the company's offices, which show that although the Chevrolet six is expected to run approximately 20 miles to the gallon, motorists in various sections of the country are getting 23, 24, and 25 miles through just a little added attention to the matter.

The majority of items to be watched are rather obvious to the average automobile owner, but through an inadequate appreciation of their importance, are commonly overlooked. The survey sets down a number of factors, which, if observed, should increase your mileage two to five miles to the gallon. They are:

- 1. When standing or waiting for the light to change, don't race your motor.
2. When you are to make a stop of more than a minute, turn off your motor.
3. Don't drive at excessive speeds unless the occasion demands. High speed travelling burns more gas.
4. Remember that the faster you drive the more gas you consume. So when you find you are about out of gas and are heading for a gas station, take it slowly and your chances for negotiating the distance will be greater.
5. When starting watch the choke. Don't drive with the choke out a moment more than necessary.
6. Be sure that your brakes are not dragging. This cuts down your mileage.

mileage. Get your brakes inspected regularly.
7. Have your valves ground when they need it.
8. See that the idling adjustment on your carburetor is set at the proper point so that the mixture is not too rich. If it is not at the proper point it gives you inefficient idling performance and wastes gas.

9. Don't fill your gas tank full to the cap, some will escape through the vent in the cap.
10. Don't ride the clutch.

11. Watch the gas line for leaks at joints. Check it periodically to see that fittings are tight.
12. Be sure that the spark is in fully advanced position.

13. Avoid excessive use of brakes in traffic.
Observance of these suggestions, the survey points out, will save money for the motorist and, add considerable mileage to your driving and reduce the number of necessary stops at the gasoline station.

KNOW TEXAS

Texas has 491 ice plants with a daily capacity of 21,129 tons.

Texas eliminated 25 grade crossings in 1928, standing fourth among the States in this important safety work.

The one vote against Texas' annexation to the United States was that of Robert Bache of Houston, kinsman of Benjamin Franklin.

Dismantling of several plants in California and building of several in Texas during 1928 put Texas first in number of oil refineries in the United States.

In Randolph Field, San Antonio, Texas, is to have the largest and most modern airport and flying school in the world. Plans have been accepted by the War Department for its construction.

TEXAS GAS HELPS SAVE AUTOISTS BILLION AND A HALF A YEAR

Carbon black, of which Texas with its enormous gas supply is one of the largest producers, is credited with saving automobilists of the world a billion and a half dollars each year. Carbon black is responsible for the fact that the automobile tire of today goes 15,000 miles as compared with less than 5,000 miles before the World War.

The other major use for carbon black is in printing inks.

The auto may get dirty terribly easy, but after all, the hardest thing to keep clean is a reputation.

Many people get away from the old grind by buying false teeth, according to reports of dentists.

It must be terribly exhausting to try to find something to do while the servants are doing the work.

Round shouldered people as a rule, didn't get that way from carrying other people's burdens.

Many rich people believe that thrift is the act of raking up grass for somebody else to scatter.

If everybody had to work for a living, there would be nobody left to watch those who do work.

KLENZO The Last Word in Oral Hygiene

Throughout the country, men, women and children, who pride themselves on gleaming white teeth, healthy mouths, sweet breath, firm gums, are habitual users of the Klenzo mouth treatment. Klenzo Liquid, a recognized antiseptic mouth wash, Klenzo Dental Creme and Klenzo Tooth Brushes, compose this famous line. Klenzo is an exclusive Rex-all Store trade name.

FIRE PREVENTION WEEK

From October 6 to 12 is Fire Prevention Week. Citizens of every community should co-operate to the fullest extent in a movement that aims to lessen the destruction of life and property by fire. Fire is a terrible destroyer of life and property and is surpassed only by the automobile in the destruction of life. The remedy for prevention of fires of all kinds is education—education of every man, woman and child in the hazards of matches, cigarettes, gasoline, gas electricity and other things of everyday use.

Every community should have a permanent fire prevention committee composed of influential citizens and should be organized through the chamber of commerce or civic clubs. Since and including 1922 the records show that one thousand eight hundred and thirty-one men, women and children in Texas have met their death from fire. The property loss from fire in the United States in 1926 was \$160,929,805 compared with \$472,224,568 in 1928.

The dollar loss by fire in Texas for the past five years has been approximately \$20,000,000 each year. In the face of these figures it seems that every citizen would feel the responsibility to put forth every effort to prevent fires, not only during fire prevention week, but at all times.

H. B. Pool Comments On Volunteer Wheat

The volunteer wheat situation has caused considerable comment here this season. Fred Kennels, county agent, gave considerable information about the problem in his article last week and considerable discussion has taken place since that time.

In discussing the matter, H. B. Pool gave an account of an experience that he saw take place with volunteer wheat. In commenting on the matter he said: "It is very risky to depend upon volunteer wheat to make a crop. The late J. S. Long had a fine volunteer crop 14 years ago, had to keep stock on it early in the fall to keep it down. It gave good pasture all winter but died down in April the following year, so I would

be afraid to depend upon any volunteer wheat for a crop."

Z. S. Smith and family went to Memphis Saturday afternoon where they were met by Marshall Smith, son of Mr. and Mrs. Smith, and his wife of Borger. The family spent the night at a park near Memphis where they were joined Sunday morning by Mr. and Mrs. Virgil Smith and a family reunion was enjoyed.

H. E. Ferguson returned Tuesday from Wilmore, Kentucky, after accompanying his son, Charles, to that city. Charles has enrolled at Asberry College there. While on his trip Mr. Ferguson visited his old home in Cornersville, Tennessee.

C. R. Ferguson and wife returned last Wednesday from Gainesville where they visited Mr. Ferguson's sister, Mrs. H. C. Kilgore, who is ill.

MARGARET SENIORS ORGANIZE

The Margaret Seniors of '30 met Wednesday, September 18, with 19 present. The class organized, electing the following officers: Billy Jake Middlebrook, president; Walter Hysinger, vice-president; Betty Jo Dunn, secretary-treasurer; Ethel Kempf, reporter; and Ola Carter, sponsor.

Special committees were appointed by the president to bring a list of mottoes, class colors, class songs and flowers to the next meeting to select from.

The Senior class is proud of its 19 members. The roll of the class is as follows: Neff Middlebrook, Lowell Tamplin, Betty Jo Dunn, William Bradford, Hubert Smith, Cecil Ray Moore, Mary Richmayer, Ethel Kempf, Billy-Jake Middlebrook, Walter Hysinger, Ross Malone, John Herman Taylor, J. T. Tamplin, Eva Carter, Pauline Blevins, Jack Spotts, Fay Shaw, May Shaw, and Gilbert Choate.

The class met in a call meeting Friday, September 19, and selected a very attractive class ring which they will be wearing in a few weeks.—Reporter.

CROWELL POLO TEAM PLAYED WELL AT RENO

Everette Bell Makes One of World's Longest Drives in Game Against San Angelo

Although the Crowell polo team failed to win a game in the tournament held at Fort Reno, Oklahoma, last week, yet it made a splendid showing and gave the champion team of the tourney, San Angelo, the closest game that it played. Crowell also had the newest team in the tourney.

Crowell was rather unfortunate in the fact that it happened to draw about two of the very strongest teams to be found anywhere for two of its games. Crowell's first game came on Sunday, September 15th, with the strong team from San Angelo. This game was lost by the score of 14 to 18.

San Angelo's team has two players of international fame. Fred Roe, who has played with the best teams of England and Long Island, New York, was one of their players and Tom Mathers the other. Roe received a serious injury a few years ago while trying out for the team that was to represent the United States in the international tournament. He had a handicap of seven points at that time and it was reduced to 2 points following the accident, however, Roe has now about reached his old form and has practically recovered from his skull injury.

Everette Bell of Crowell featured this game with a drive of over 120 yards which players of international fame declared to have been the longest drive they had ever seen made.

Second Game
Crowell's second game came with the University of Oklahoma on the following Tuesday at which time the closest game of the tournament took place with two extra chukkers being played before the tie was broken. In the 8th chukker the score stood 8 and 8 and Crowell practically had the game won when at about the end of the period Everette Bell was knocked from his horse just as Crowell was about to score. He hurt his hand in the fall and Roy Barry took his place.

Two extra chukkers were played before Oklahoma University finally won the game with the score standing 9 to 8.

Final Game
Crowell's final game came on the past Friday with the crack army team of Fort Reno which has one of the most famous players of the nation as one of its members. Captain C. D. Wilkinson, the Reno captain, is rated as the best player in the nation outside of the team that represents the United States in the international tournaments. He has a seven-point handicap. He was one of the horse buyers that recently came here by airplane.

Fort Reno won this game by the score of 15 to 8. Roy Barry made the longest goal of the tournament in this contest with a drive of 75 yards. This goal was particularly remarkable in the fact that it was made at an angle.

The following teams took part in the tournament: Tulsa, San Angelo, Crowell, Fort Reno, Dallas, Fort Sill, Oklahoma University and the Wichita Falls Freebooters. San Angelo won the tournament with Wichita Falls second.

All of the Crowell players rode with the best of the players of the tournament and with more practice and coaching from an expert, leading polo officials predicted that the local team would make one of the best in the Southwest.

Those playing on the local team were Paul Shirley, Bill Barry, Glen Offield, Everette Bell and Roy Barry. Crowell had 27 ponies shipped to Fort Reno for this occasion and a number of these were sold. The Crowell ponies showed up as fine as any there.

Will Rogers Present
Will Rogers, internationally famous writer and comedian, was present the last Sunday of the tournament. His old pal, Jim Minnick, was also there and played with the Dallas team. Foard County people generally regard Mr. Minnick as its own citizen and regret the fact that he was not playing with Crowell.

Paul Shirley stated that after the tournament Will Rogers tried to get Mr. Minnick to go their ranch, which

Supplies For Cotton Picking

they own jointly near Cimmaron, N. M., by airplane but that Jim said he preferred the land, so Rogers went on by air and Jim by automobile.

Mr. Shirley stated that the Crowell team was planning to play in a tournament in Augusta, Georgia, in January.

BURN TRASH IN MORNING

There is a city ordinance that requires business men to burn paper, paper boxes and other trash before 10 o'clock in the morning. Some have a habit of sweeping this trash out the back door at night and leaving it to blow all over town. This notice is to warn offenders to refrain from this practice and burn this trash before 10 o'clock in the morning as the city ordinance directs. No trash should be burned in the afternoon because of the danger of fire during the night, and loose paper must not be left at the back door of any business house.

R. J. THOMAS, Fire Marshal.

Thalia School—

(Continued from Page 1)

The subjects taught in the high school are: Three years science including general science, biology and physics; two years of Spanish; four years of mathematics; and four years of social science, including history, commercial law, economics and civics. The school now has a half unit of affiliation in American history; 2 units in Algebra, first and second year English; two units of affiliation in Spanish and a unit in biology. The school has an excellent laboratory for its science courses.

Fine Building
The main building of the school is up-to-date in every respect and an auditorium with a seating capacity of 450 is one of its outstanding features. Each Wednesday an assembly period is held in the auditorium at which time programs are given, announcements made, etc. Each grade in the school gives a program during the year at these periods.

The building is steam-heated at the present time and about three hundred dollars is being expended for repair work on it. In the past year practically all of the double desks have been eliminated and at present there is only one room with double desks. Various other improvements including playground equipment, rebuilding of toilets and other things have been done to meet all state requirements for a class A school.

Library Improvement
Considerable improvement has also been made in the library. Two new sets of books, Compton's Encyclopedia and The World Book, have been added with \$150.00 worth of high school source books and \$25.00 worth of books as reading matter for the elementary grades. The library is rapidly being pushed to the highest standard.

The school begins at 8:45 each morning and tuns out at 4 p. m., although regular school work ends at 3:45 and from that time to 4, supervised recreation takes place and this time also serves as a detention period and also gives time to complete various other school work of the day. At four the buses pick up the school children and carry them to their homes in various directions, ranging from one mile to six.

Athletics
Regular basketball games are al-

ready taking place and three boys teams and two girls teams have already been organized. Miss King is in charge of girl athletics and Mr. Hampton is coaching the boys. Kathleen McElroy is captain of the girls' team and the three boys' teams are headed by Larnon Oliver, Joe Kessece and Earl Phillips.

The boys basketball team of Thalia has a very promising outlook and is determined to win the Foard County championship that it held for six straight years until last year when Crowell won that honor. Earl Capeheart and Earl Phillips are the letter men back from last year's team. A number of other experienced men are also playing on the three teams that play regularly scheduled games. A regular scoreboard of the games and their schedule is kept in the Shultz Drug Store.

Business men of Thalia and people of that community donated money for the purchase of equipment for the girls basketball team.

A gymnasium has also been built through public subscription on the east side of the school grounds. While it has no roof, walls are provided that keep out winds, making conditions more pleasant for both spectators and players.

Miss Mattie Russell is introducing a number of novel ideas into the

English work of the school this year. Mimeographed copies of contracts have been made between her and pupils of the 11th grade in which number of agreements were made. Included in the contract is that student agrees to write and send some magazine, approved by the teacher, an article for the purpose of being published. Miss Russell is so planning to have her pupils publish a special newspaper on literature, English and American.

The Parent-Teachers Association of Thalia maintains an active organization and has been of great benefit to the school system there. Responsible for the school cafeteria and also co-operates with the faculty in conducting a home study period consequently aiding the school work of the students. Mrs. C. E. Moore is president of this organization. Mrs. Nancy Lindsey is secretary.

The board of trustees that is conducting the work of the school composed of the following: P. Matthews, president; J. A. Stovall, secretary; C. C. Wheeler, Gus N. G. E. Davis, E. M. Cates and T. Cates.

W. C. Jones, superintendent, is commended upon the efficient operation of the Thalia school system and much improvement has been placed in every way since he became head of the system last year.

EVERY DAY
You Can Depend On Us
We do not believe in temporary low prices, but make it our sincere effort to see that you secure the best groceries and service at the lowest prices, every day in the week and every week of the year.

CHURCHES

Christian Science

Sunday, 11 A. M. Subject for Sunday, September 29, "Reality." Sunday School at 9:30. Wednesday evening service at 8:00. The public is cordially invited.

Methodist Church

We had a good day last Sunday at the Methodist Church, all services being fairly well attended. Two additions to the church were made.

We are looking forward to next Sunday with high expectations for a great day, and we are making preparations with this in view.

Sunday school at 9:45. Capable superintendents, well equipped teachers, and an interesting student body with a mind to learn, offer fine inducements to those who wish to spend an hour of the Holy Sabbath helpfully. Our school facilities are placed at the disposal of those who desire such service.

Worship at 11 a. m. and 7:30 p. m. Junior church at 11 o'clock. High League at 6:15 and Senior League at 7 o'clock.

Woman's Missionary Society meets Monday afternoon at 3 o'clock.

W. R. McCARTER.

Christian Church

We had a splendid day at the Christian Church Sunday. Both services being well attended. At the beginning of the Bible School hour, Mrs. Kincaid began to teach a Bible Drill. It lasts for only five minutes, but it is very effective.

Sunday afternoon the Gospel Team went to Claytonville. Six families from the church here accompanied the team. We feel that if the work of the Gospel Team is urged that it will be very helpful to outlying points, as well as being a very useful work for the laymen of the church to engage in.

Bible readings last week were fine, there being an increase in the number of chapters read over that of the week before. The pastor is very glad that the members of the church are such devoted Bible readers. The man who reads the Bible daily feels a greater responsibility to live a Christian life, and has a better knowledge of how to do so.

Bible School begins promptly at 9:45. Morning worship at 11 o'clock. Christian Endeavor at 6:30 promptly. Night worship at 7:30.

A welcome is extended to all.

JOHN G. CLARK.

Senior B. Y. P. U.

Subject—Missionary Meeting. Missionary Meeting—Missions in the Mind of Jesus. Leader—Mrs. Miller. Home Missions in the Mind of Jesus—Mary Ennis Carter.

Men's Class Meets

The Men's class of the First Christian Church was entertained last Tuesday night in the home of their teacher, C. V. Allen.

Games, stunts and jokes were enjoyed by all, after which a short business meeting was held when J. N. Cook was elected president; John Rasor, vice president; John E. Long, secretary and Glynn Shults, treasurer. The class chose "Everyman's Class" for its name.

Delicious refreshments were served to the following members: Messrs. J. N. Cook, John Rasor, John Long, Glynn Shults, E. W. Burrow, John McAnear, Roy Johnson, F. A. Davis, C. D. Mullins, J. A. Ward, Grady Walker, John G. Clark, Edgar Womack, and F. H. Crews.

Margaret W. M. U. Program

Each member is expected to bring with them a mother to the social meeting which is to be held at the Baptist Church, Monday, September 30th, at 2:30 p. m.

Devotional—Mrs. Mattie Bradford. Words of Welcome—by President. Response—Mrs. Studie Bradford. Special Music.

Reading, "To my Mother"—Little Majorie.

Repeating of Watchword for 1929, Phil. 2:16, by all members.

Prayer.

Message to Mothers—Mrs. I. W. Middlebrook.

Remarks—Chain of Prayer.

Roll Call—Answer by naming some one thing which mother has said that helped you most.

Benediction.

Refreshments will be served at the close of the meeting.

Epworth League Program

Subject—Great Personalities Who Have Been Raised Out of Adverse Conditions by Christ.

Leader—Edward Huffman.

Scripture—Mark 1:45; Galatians 1:20-24.

"John Caperton"—Mildred Johnson and Frances Allison.

"Harry L. Hughes"—Elbert Griffith and Clinton Ball.

The Value of the Hughes-Caperton Memorial Fund and How We Can Help.—By a Senior Leaguer.

Christian Endeavor

A very interesting meeting of the Christian Endeavor was held last Sunday with a number of original parts being presented on the program. Vera Patton had the affirmative side in a debate on the question, "Resolved That the World is Growing Better," with Teddy Burrow on the negative. Interesting talks were also made by others.

The program that has been outlined for this Sunday follows:

Leader—Teddy Burrow.

Talk—How Can C. E. Help the Church?

1. Participation in Church Service.—Mrs. Grady Walker.

2. Other Activities—Jewel Mullins.

Quartet—Ema King, Lottie Woods, Grady Walker and Rev. Clark.

Talks—What the Church Expects of Young People—C. V. Allen and W. F. Kirkpatrick.

Officers for a new quarter will also be elected at this meeting which begins at 6:30 p. m. at the Presbyterian Church. You are cordially urged to attend.

AUCTION AND SALE BILLS

Let us help you prepare your sale bill copy. Since we handle so much of this work we are well equipped to give you exactly what you want, when you want it. Bills printed as we print them get attention and increase results.

FOARD CITY CLUB

The Foard City Demonstration club met at the home of Mrs. W. B. Jones, September 17, with fifteen members and six visitors present.

After a business session Miss Freeman and Mrs. McDaniel gave us some good recipes for making school lunches, which we were all very much interested in knowing as every one needs to know how to prepare good lunches at this time of the year.

Mesdames Jones and Borching had closed. Our next meeting will be on October 1, at the home of Mrs. A. Weir.—Reporter.

Sixty Ton Whale at Dallas Fair

Dallas, Texas.—A sixty ton whale, killed in July on the Pacific Coast will be one of the many attractions to be shown at the State Fair of Texas.

This is the first whale that has ever been brought on a tour inland. Many whale skeletons have been exhibited but never before has a whale been embalmed and carried on tour.

TEXON TALES

I met a guy the other day who seemed familiar. The more I talked to him the more familiar he got. I says, "seems like I seen you some place. He says, "maybe you have, was you ever in jail very much?"

There is six million farm families in the United States but there are lots of other poor folks.

We are going to have talkies here in a few days. The manager says he didn't aim to put them in but he was all tired of hearing people chew their wax so much he nearly had to.

A girl was standing on the corner here last week nearly having fits. She yelled at an officer to stop that man, he tried to kiss me. The officer told her to just be quite and another man would come along in a minute.

The day Jesse Davis opened school down here he asked the kids what is a mountain range and one boy said he believed it was the big stove they used in the cafe. Another kid said the reason the days were longer in summer and shorter in winter was because heat expands and cold contracts.

About all the girls know how to do nowadays is to paint and powder th' face and neck.

TEXON TATTLER.

Man Now Out Facts

R. A. Begley, Well Known Employee of Sims Oil Co., Says His Wife is Now Like Different Woman Since Taking Orgatone

Among the many well-known Lubbock people who have given their endorsement for Orgatone is R. A. Begley, employed by the Sims Oil Company and residing at 1720 Nineteenth St. Mr. Begley came in Bowen's for his wife and in telling of the benefits she has derived from its use said:

"My wife has taken Orgatone five weeks now, but I can see a big change in her every way and several of her friends have told her she looks better than she has in months. She has been in a general run-down condition, weak and nervous for three years or more and was gradually getting worse all the time. She suffered from stomach trouble and indigestion and had fearful gas pains at times, which would often cause attacks of acute indigestion. She would have these attacks of gas so bad at times she would become unconscious and when we called the doctors they said this was caused from acute indigestion. She would get up in the mornings all tired out and couldn't get through with her work without stopping to rest. Her cheeks were getting hollow and I could see she was losing ground all the time.

"I became uneasy and worried about her condition, because we had never been able to get anything to check her troubles. So when a friend of ours claimed to get so much benefit from the use of Orgatone I decided to see what it would do for my wife. Well I'm glad to be able to say she already looks like a new woman and seems better in every way and she has little or no trouble after eating now and the gas pains have disappeared entirely. Her nervousness is about all gone. She sleeps well at night and doesn't complain of feeling tired and worn out like she did. Orgatone seems to be exactly what she needed and is giving her back her health and strength as fast as we could expect. I am glad to recommend Orgatone for it is the only medicine that has ever done my wife any real good and I can't say too much for it."

Genuine Orgatone may be bought in Crowell at the Reeder Drug Store. (Adv.)

SOCIETY

Teachers Guests at P.T.A. Party

The Parents-Teachers Association of Crowell acted as a delightful host to the teachers of the Crowell schools and other guests Tuesday night at the home of Mrs. R. L. Kincaid.

Ten tables were set for games of "600" which followed a unique "conversation event." Punch was served during the games of "600" after which an advertising slogan contest was held with Miss Lottie Woods and Merle Kincaid winning.

Refreshments of chicken salad, potato chips, pickles, ice tea and cakes were served. Snapdragons decorated the center of each table and favors of pink and white roses were given to each guest.

The P. T. A. committees responsible for the party were: Invitation, Mrs. E. L. Kincaid and Mrs. Hines Clark; entertainment, Madams T. P. Reeder, L. A. Andrews and John McAnair; refreshment, Madams Clyde McKown, W. O. Clary and R. R. Magee; and Mrs. L. A. Beverly, president. All were present with the exception of Mrs. Clark who was unable to attend.

Others present for the enjoyable occasion were: Mr. and Mrs. I. T. Frank McAnair of Lockett in charge, Mr. and Mrs. Earnest King, Mr. and Mrs. Howard Bursey, Mr. and Mrs. Grady Graves, Mr. and Mrs. Jimmie Self, Mr. and Mrs. Esch Brown, Rev. and Mrs. John Clark, Mrs. P. A. Davis, Mrs. George Summers of Detroit, Michigan, Misses Lottie Woods, Thelma Shaw, Ruth Patterson, Thelma White, Frances Hill, Martha Schlaegal, Lucille Ellis, Florence Black, Mae Curtis, Margaret Stephens and Messrs. Teddy Burrow, Doyle Kenner, Floyd Thomas, Edward Huffman, Mack Boswell, Larry Sikes, Granville Lanier, Merle Kincaid, and Mark Allen Huffman of South America.

First Meeting of PTA Held Friday, Sept. 20

The Parent-Teacher Association of Crowell met for its first regular session on Friday afternoon, September 20th, at 4 o'clock with the members of the Executive Board as hostesses.

Four Trustees and about fourteen teachers with the mothers brought a total of forty-two or more present.

The officers for the coming year were installed by Mrs. B. W. Self, past-president, with a very effective ceremony bringing out the purpose of the P. T. A. and the duties of each officer ending with the P. T. A. tribute song "Mother of Mine," and the Lord's Prayer. The officers installed were Mrs. L. A. Beverly, president; Mrs. R. R. Magee, vice-president; Mrs. John McAnair, secretary; Mrs. L. A. Andrews, reporter.

The president made a short and pleasing address, pledging herself and a fair share of her time in carrying out the purpose of the P. T. A.

Mr. Graves gave an earnest and thoughtful discussion on "Contact Between School and Home," using the quotation, "The Love of Children is the Common Tie which should unite us in the Holiest Purpose."

Mrs. T. B. Klepper and Mrs. Charles Thompson sang "A Little Child Shall Lead Them" which is the officially adopted song of the state association.

During the business session the date of the regular meetings were changed from the third Friday in each month to the third Tuesday, as this arrangement was better for teachers.

In our membership drive which was carried out by the school children about eighty members were added to the roll. Mrs. Howard Bursey's room and that of Miss Florence Black tied for the prize, each room reporting 56 points, 2 points for each paid membership.

Two of the trustees, Mr. Spencer and Mr. Rennels, spoke words of greeting and encouragement to the officers and members after which refreshments were served.—Reporter.

COLUMBIAN CLUB

The Columbian Club was entertained on September 18th, by Mrs. C. C. McLaughlin at the home of her mother, Mrs. J. H. Self. After the business session, which was presided over by Mrs. M. H. Hart, vice-president, Mack Boswell made a talk to the club, explaining the proposed flashlight telephone proposition after which the club, by vote, declared themselves to be in favor of the change and to draft resolutions declaring same.

Mrs. N. J. Roberts was leader of the lesson which dealt with local conditions. Mrs. A. Brian discussed the benefits of Highways 28 and 51. Mrs. J. R. Self talked on the question, "Do We Have Adequate School Equipment?"

There was a general discussion of a public playground. Mrs. Roberts talked on "How We Can Improve Our City's Attractiveness," and Mrs. T. P. Reeder on "Our Social Problems."

After this interesting study, the hostess, assisted by Mrs. J. H. Self and Miss Winnie Self, served a delicious salad course to club members and Mesdames Glynn Shults, Eli Smith, A. E. McLaughlin, J. C. Roberts and W. R. Womack.

MOTHERS SELF-CULTURE CLUB

On Friday afternoon, September 13, the Mothers Self-Culture Club held its opening meeting at the home of Mrs. T. B. Klepper.

After a short business period the new president, Mrs. George Burress, gave her address on Fine Arts and how they may be applied in the lives of small children.

We were then entertained by a chorus composed of the children directed by Mrs. Paul Shirley, assist-

ed by Mrs. Thomas Hughston. After the singing each child recited a nursery rhyme or gave a short reading. This was followed by a story telling period for the children. Mrs. A. Y. Beverly told a story of some present and it was remarked by all present how attentively the children listened which is unquestionable proof of Mrs. Beverly's ability for telling stories well.

We are anticipating a profitable year of study in Child Culture.

Nineteen members were present and the club was happy to have Mrs. C. W. Thompson as a guest.

The hostess served delicious brick ice cream and angel food cake.

The club meets Friday, September 27, with Mrs. George Allison.—Reporter.

ADELPIAN CLUB

The Adelpian Club met at the home of Mrs. J. A. Johnson, Wednesday, September 18, with Mrs. T. S. Haney leading the first of a series of "Adventures in Reading," which has been chosen as a part of the club study for the ensuing year. Ralph Waldo Emerson, a poet and philosopher, and a friend of those "who lived in the spirit," portrays self reliance and individual freedom in his writings. His "Essay on Nature" was ably discussed by Mrs. A. Y. Beverly.

Nathaniel Hawthorne is noted as a short story writer and novelist. His style is smooth, his stories ethical, but his characters are not realistic. Miss Emily Purcell gave a very interesting review and criticism of Hawthorne's "Scarlet Letter." The latter has been chosen the most representative American novel.

Mack Boswell met with the club to present the flashlight telephone proposition. The club voted to adopt resolutions favoring the proposed proposition.

Miss Frances Hill was welcomed as a new member. A lovely salad course was served by the hostess.—Reporter.

WIMODAUISIS

The club met with Mrs. Pete Bell, September 18. The program was led by Mrs. Roy Steele, who introduced the lesson by a discussion of the food needs of the body.

Since the subject was school lunches the relation of proper food to mental and physical progress was emphasized.

Suggestions for lunches were given in answer to roll call. These suggestions were enlarged upon by Mrs. Hubert Brown, who also gave the requirements of a balanced lunch and how the packing of the lunch should be done.

The importance of the hot lunch was brought out by Mrs. Kell Erwin who also explained how the hot lunch may be provided for. Any school with little equipment and small expense can provide one hot dish for the school child. Why not the Home Demonstration Clubs sponsor such a movement in our rural schools?

At the close of the meeting the hostess served refreshments to members and Mrs. Joe Johnson of Thalia and Mrs. Meil Gover.—Reporter.

THALIA SENIORS ORGANIZE

The Seniors of the Thalia High School met and elected the following officers: Kathleen McElroy, president; Norman Gray, vice president; Island Stovall, treasurer; Lorene Shultz, secretary; Katherine Wheeler, reporter; and Vera Cates, Earl Phillips and Merle Banister, social committee. We are expecting to have a big year.—Reporter.

Mammoth Circus To Be At Vernon October 2

The Robbins Bros. big 4-ring circus, the largest in the world giving a street parade will appear at Vernon, Texas on Wednesday, October 2. The big circus this year is crowded with features and will present the greatest performance of its history.

Notable among the features offered is the Human Fly—the big importation from Europe. This act, consisting of men and women who act as human flies or ceiling walkers have astounded all Europe during the past winter. Imagine to yourself these flies walking on the ceiling of the tent up side down—defying all the laws of gravitation. No one has ever seen so startling, death defying performance in the history of sensational acts.

Two mammoth pageants, requiring three hundred people in its cast of characters; three herds of elephants; a mammoth hippopotamus just imported from Africa; marvelous herd of performing animals; Ponca Bill's Wild West shows; fifty Sioux Indians from off the reservation; fifty cowboys; Count Cimmerjotta's dancing horses; acrobatic acts; Japanese families recently brought over from Japan; Arabian Tumblers from Teheran, Arabia; forty clowns with the highest salaried clown in the world as producer; trained dogs and ponies; parade of nations which for oriental splendor excels anything produced up to the present time; 200 wild animals; 40 horses; 600 men to man the show; wonders galore; feats without a parallel.

The circus is one of the most successful in the country, having a half a century played principally in the east and is now making its second western tour enlarged to such an extent that it stands in the front rank. It is worth while in every way. (Adv.)

Through service from Vernon to Plainview. Direct connection for Lubbock at Floydada. Connection at Plainview for Roswell and Los Angeles.

CICERO SMITH LUMBER CO.
"THE HOME OF SPLINTERS"

R. J. ROBERTS, Local Manager

Dear Friends:

It's a certainty that winter is coming. It's also another certainty that when it does come you'll need coal. Better have your fire filled before the first cold spell.

It takes lots of energy and a lot of extra feed to keep an animal warm without proper shelter. A good barn pays for itself in less food and more work from the horses and more milk from the cows.

Two ladies were discussing a mutual acquaintance. "She has a very magnetic personality," said one. "She ought to have," replied the other, "everything she has is charged."

BEAUTIFUL FLOORS—Character, dignity and charm are inherent in oak. Scars do not mar. The grain figure is distinctive and oak—strong, tough, hard in fibre—affords permanent beauty and service in floors. It may be obtained in various widths and grades of white or red oak.

"Ya say Joe fell off that new house of his?"
"Ya say Joe fell offa that new house of his? Did it kill him?"
"Nope! He had on a LIGHT FALL overcoat!"

Yours truly,
SPLINTERS.

S. J. MATTHEW CHAS. M. CHRISTIE

MONEY TO LOAN

Our experience in handling farm loans for the past number of years enables us to give you the service you desire.

Reasonable rate, prompt service, splendid preparation privileges.

MATTHEW & CHRISTIE
