**"Konjola Worked Wonders in My Stubborn Case"**

Fort Worth Man Relieved of Severe Attack of Rheumatism, Eagerly Praises New Medicine

"For over a year I suffered with muscular rheumatism," said Mrs. Joe B. Connelly, 504 Bolknap Street, Ft. Worth. "My entire body was a mass of aches and pains. Finally I was forced to give up my work and was confined to bed. The pains were so severe that I had to be moved very carefully and was helpless and bed-

MR. JOE CONNELLY

ridden for three months. My nerves were completely gone and I felt at times that I could not bear my suffering another day.

"I sent away for my first treatment of Konjola and was amazed at the results. Within three weeks I was able to get up and around without assistance. Gradually the pain and soreness left me and I began to feel my old self again. My nerves settled, constipation was completely banished, and I do not remember when I have felt as well as I do now. Konjola certainly worked wonders in my case."

Though Konjola works quickly, and many sufferers are greatly benefited in a week, a complete treatment of from six to eight bottles is recommended for thorough results.

Konjola is sold in Crowell, Texas, at Ferguson Bros. Drug Store, and by all the best druggists in all towns throughout this entire section.

**Santone Men Claim Static Eliminator**

San Antonio, Texas, June 26. (UP).—A device, which it is claimed will eliminate radio static has been invented by two San Antonio men, Searcy Rhodes and J. H. Mahoney.

The static eliminator is in the form of an attachment that can be hooked in front of any radio, Rhodes said. It was perfected after four years of work, and followed one that had been invented by the two men that worked successfully on the old type battery radios, according to Rhodes.

**GASOLINE MAY AID**

A writer in a metropolitan newspaper takes the position that gasoline has forever settled the prohibition amendment, including the Volstead act.

His logic is good, in the light of the facts. There are more than 20,000,000 registered automobiles and

motor trucks in the United States, one for every seven persons.

Is there any sensible person who will admit that any of these 20,000,000 drivers should be permitted to drink? We scarcely think so.

The locomotive engineers, who under railroad rules and discipline of the Brotherhood of Locomotive Engineers, is not allowed to drink intoxicating liquor, was never under any greater strain than the man who is driving an automobile in city traffic or on crowded country highways.

He needs a cool head, a clear eye and a steady hand to protect not alone his own life but the lives of those who ride with him.

The power of the influence of public opinion is beginning to have its effect because at least half of the people ride in automobiles and they are demanding that drivers of machines shall abstain from strong drink.

The influence for sobriety will grow with the development of the automobile and it is already expressing itself in more stringent laws to punish drunken drivers. More and more judges are sending to jail men who are caught driving automobiles while intoxicated.

Gasoline may do much in the future to settle the prohibition question.

Washable maps for tourists are on the market, but no matter how hard you wash it, the detours will remain.

**TEXAS FARM TOPICS**

**Hogs Paid \$1.70 for Corn**

Seminole—Corn marketed through hogs has brought \$1.70 per bushel to O. L. Berry, Gaines county farmer, who has just finished a feeding demonstration in cooperation with the county agent. Each pound of gain cost Mr. Berry 6.35 cents on a ration consisting of corn, skim milk and a protein supplement mixture. It required 3.11 pounds of corn, .41 gallons of skim milk and .291 pounds of the protein supplement to make a pound of pork.

Another demonstrator, Jim Brown, recently finished 12 hogs with corn and protein supplement and reports \$1.95 per bushel from corn, and the production of a pound of gain for 5.9 cents. Besides running on pasture the hogs had the corn supplemented with a mixture made of equal parts of tankage, cottonseed meal and shorts. The feeding was done in self feeders which were kept full and easy of access at all times.

**Cattle Feeding Brings Profit**

Colorado—That good beef calves properly fed will make farmers a good market for feed has been demonstrated again by W. R. Justice, Mitchell county farmer, who has completed a demonstration in cooperation with the county agent and reports a return of \$4 per ton for ground maize that was worth only \$30 to \$34 on the local market. Figuring another way, the eight high-grade Hereford calves fed four months paid full market prices for their feed and returned a net profit of \$45.40, in spite of the fact that they were bought on a 11.4 cent market and sold on a 12 cent market.

The eight calves cost \$360, consumed \$203 worth of feed and sold for \$608.40. Their weight at the beginning was estimated at 385 lbs. and gaining at the rate of two pounds daily they weighed out 635 pounds at the end of the demonstration. The feed consumption was 1 1/2 tons of ground corn, 1 1/2 tons ground maize, 300 grain sorghum bundles, and 2 1/2 tons of cottonseed hulls. Mr. Justice plans to feed a carload or more of calves next season.

**Good Living Rooms for \$46**

San Angelo—A big step toward more attractive farm life has been recently taken in Tom Green county where 76 farm home living rooms have been made more cheerful and comfortable as a result of demonstrations developed by Miss Gladys Martin, home demonstration agent. Six demonstrators spent \$280 in beautifying their rooms while 10 operators made a host of improvements the cost of which totaled \$3191 or about \$46 apiece. Most of the women earned the money with which the improvements were made, doing so by sale of poultry and dairy products, by taking boarders, sewing, and raising pigs. Only 10 hired any help in making the improvements.

The improvements most commonly made were re-finished walls, floors and woodwork, screening windows and doors, re-finish and re-arranging furniture, adding curtains and draperies, introducing new pictures and re-hanging old ones, removing undesirable furniture, cutting new windows, and placing rugs on the floors.

Edna—Besides furnishing plenty of vegetables for the table, the garden of Mrs. W. M. Manly of Souders community, Jackson county, has given cows and hogs 2 1/2 bushels of carrots and beets daily and yielded a cash sales revenue of \$38.75. Mrs. Manly is a special demonstrator in her local home demonstration club.

Center—A row of turnips 160 feet long has netted \$2.11 to Hazel Buckner, 4-H home demonstration club girl of Neville Community, Shelby county. Breaking and planting the ground in February, Hazel was serving her family in fresh turnip salad in March, and since then she has canned \$2 worth and sold \$2.10 at home. Her expense was \$1.99.

**Woman Desires Portable Pantry**

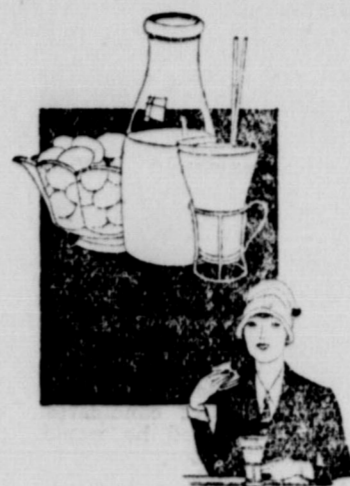

Gainesville—A portable pantry is the achievement of Mrs. F. E. Wallis who lives in Cooke county, and who wants to take her pantry with her when they move from the rented farm they occupy. Besides this she says that a pantry on rollers is handy in the winter because it can be moved into the kitchen where it is warm. Mrs. Wallis is a 4-H pantry demonstrator in her home demonstration club. She grows and cans enough fruit and vegetables for winter according to a definite budget, and so stocks and arranges her pantry to save steps and time in preparing the family meals which are planned in accordance with good health rules.

**Beef Cattle Return Profits**

Stratford—A net profit of \$13.60 per calf on 49 head has been made by Walter Lasley, Sherman county farmer who has recently completed a feeding demonstration with the aid of the county agent. The calves, sold in April on the Kansas City market, brought \$83.60 each after a 95-day feeding period in which the feed consumption per calf amounted to \$16. The ration consisted of 12 pounds of ground maize heads and two pounds cottonseed meal for the first 70 days, and during the last 25 days 8 pounds maize heads, 8 pounds barley and 1 pound cottonseed meal. The calves weighed 400 pounds at the beginning and 760 when sold.

The Foard County News

T. B. KLEPPER, Editor and Owner  
MACK BOSWELL, Asst. Editor

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, June 27, 1930

WE'RE 39 YEARS OLD

The Foard County News, the oldest member of the family of business firms in Crowell, enters its fortieth year with this issue. Shortly after the organization of Crowell and Foard County in April, 1891, The Foard County News was established and while its ownership has changed several times, it has continued under its original name. In 1910 the News consolidated with the Crowell Index.

During these many years it has always been the policy of this paper to make every effort to secure all the news of the week and to present all news in as fair and impartial manner as possible. We do our very best to give the people as good a newspaper as possible and with the beginning of a new year we are inspired to strengthen our efforts to a greater degree in this respect.

Even though our newspaper plant is not public property, yet we try to bear in mind at all times that we are servants of the public and that the news columns in our publication are as much the property of the public as ours.

The existence of the News through the years has been made possible through the faithful advertisers of Crowell. Without selling a considerable amount of advertising space, no worthwhile newspaper could exist. The faithfulness of the people in cooperating with us from a news standpoint has aided greatly in making this paper what it is and has been.

A newspaper is not an individual enterprise and if it is a good paper, the cooperation of the community it serves is as much responsible for that condition as the efforts of the editor and his staff. It is a common remark that a community can be judged by its newspaper and for that reason we realize that we have a difficult task before us every week to put out a publication that does credit to Foard County and its people.

LYNCH DAVIDSON

To many Texas editors Lynch Davidson's decision not to make the race for governor proved a bitter and unexpected disappointment.

Despite the fact that he had not announced for the position, a recent newspaper poll nominated him the

gubernatorial choice of a substantial majority of Texas newspaper editors. Since he had evidenced no disinclination to be governor in former years, his apparent reluctance to be this year's list was generally supposed to be political strategy.

Mr. Davidson has succeeded in fooling nearly everybody. If he cherishes any secret ambition to occupy the highest office within the gift of the people, he may find that he has set up for himself a barrier which is extremely difficult to scale. Few people enjoy jokes of which they are made the butt, and Mr. Davidson's actions take that color. Even more pronounced, however, is the popular dislike for the curt refusal to proffered offers, and Mr. Davidson's actions smack of that flavor, too.

In refusing to make the race, it is not improbable that Davidson also fooled a bunch of candidates. His statement indicated he would view the success of Love, Ferguson or Mayfield in much the same light as an epidemic of leprosy. At the same time he trained his heaviest artillery against the so-called "Sterling" plan for highway financing, thereby creating the impression that Sterling would be almost, if not quite, as unacceptable as any of the first named trio. Moreover, he neglected to say whether Small or Young should be given support.

It is generally believed that Lynch Davidson mistreated the electorate. A lot of voters had sailed out on the political seas to join his command, and when the storm broke he not only refused their support, but curtly denied them convey to safe harbor. That, too, is deeply resented.

Beyond question, Mr. Davidson fooled the people and the gubernatorial candidates; but if ever he has occasion to ask favors of the electorate, there are many who believe he will discover he has also fooled himself.—Editorials of the Month.

RETURN TO BLACK LAND

Rockwall—Beef cattle left the black land years ago but they are returning. The county agent of Rockwall county reports that Mr. Walter, local cotton farmer, has decided to produce beef cattle as a side line and has bought 89 head of Herefords which he has turned into two small leased pastures totalling 149 acres. Records kept since February 1st when 36 small, poor heifers were placed in one of these pastures and fed for six weeks show that the cattle gained 5400 pounds in that time. The lease on the pasture for the entire year, and the cost of the feed amounted to only \$176.60. At present all the cattle are in good pasture and fattening rapidly.

In this day it is a serious mistake for any girl to get married before her father can afford it.

Twenty-five Years Ago in The News

June 23, 1905.  
We extend congratulations to Knox City and her hustling citizens. Verily now she is IT. By a clever bit of financial management they have closed a contract with the K. C. M. & O. whereby they are to have located their roundhouse, the machinery shops, depot, oil mills, elevators, etc. They will give a big three day barbecue the last of July at which Mr. Stillwell will be present in person. Let the good work go on. Let the Orient come and come quickly. We are more than ready to enjoy the benefits of this trunk line.

C. B. Garlinghouse returned last week to Davidson, where he is running a blacksmith shop.

Misses Pearl Thompson, Gussie Sanders and Bessie Sanders left Sunday morning for Clarendon where they will attend the Normal this summer.

**Attend Conference**  
Last Tuesday Mesdames Beverly Wright, Thacker and Ferguson, delegates from the W. H. M. S.; Misses Lizzie Wells and Bettie Allee, delegates from the Epworth League, Rev. J. A. Travis, delegate from the Sunday School, left for Vernon to attend the district conference of the W. H. M. S., Epworth League and Sunday School.

**Visit News Office**  
Two of Crowell's most popular and charming young ladies, Misses May Self and Jessie Hutchison, were visitors at the News office last Friday and gave us their assistance by preparing the city mail, putting up the "single wraps," etc. We hope they will come again.

**Principal Chosen**  
Last Saturday evening the Board of Trustees met and elected C. S. Highsmith as principle of the Crowell High School. He comes to us very highly recommended. He taught several years in the Vernon schools and for the past year has been principal of the Harrold school.

Claude McLaughlin came in yesterday from the harvest fields and will rest a few days.

John Hunter's thresher made its annual commencement at Steve Bell's last Friday. He made a run of 1,375 bushels last Saturday.

Frank Long and James Long were transacting business in our city Thursday.

George Allison is here from Ft. Worth and will work here during the harvest season.

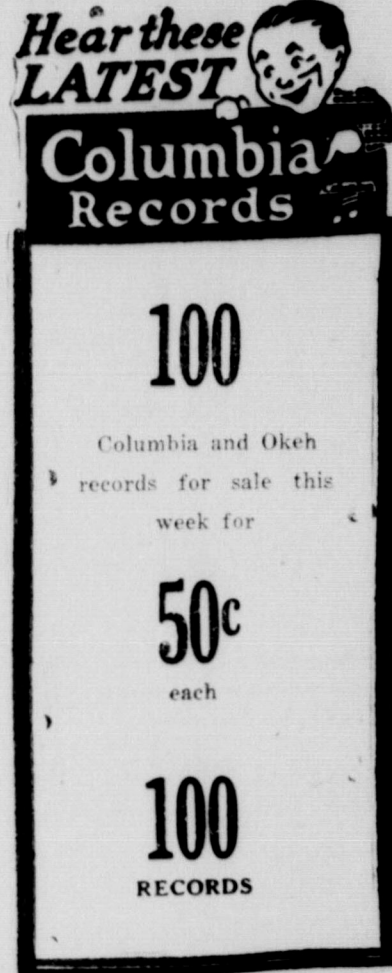

L. D. Campbell returned last Thursday from Oklaunon where he has been working with the thresher.

Mrs. J. L. Klepper and children are visiting Mrs. Klepper's parents, Mr. and Mrs. Westbrook, of Truscott.

See those stylish summer lap robes at J. W. Cheek's, styles and prices to meet the demands of the trade. Young man, your girl will be delighted to ride with you if you get one of these nice, new, up-to-date robes.

**Wichita Rancher's Wife Talks About New Argotane**

"I Suffered from Acute Indigestion but Since Taking Argotane I Am Entirely Relieved." She Says

"It's the truth before I had taken one bottle of Argotane I began to notice a big change in my condition and was feeling much better," said Mrs. W. M. Coleman of 3009 Tenth Street, Wichita Falls, Texas, wife of a well-known ranch owner. "I suffered from acute indigestion for about five years, and just couldn't get hold of a medicine that would relieve me of this trouble. I had gas that formed on my stomach after every meal and I was very bilious and had severe nervous spells, and at times couldn't rest well at nights. I got so I just didn't feel like eating anything for I knew that I would suffer afterwards and I did to be very careful of what I did manage to force advertised so highly and so I decided to give it a trial. I haven't had a spell of indigestion since I began taking it and I eat anything now I want and am not bothered in the least. I'm not bilious or do not have the gaseous condition and feeling better in every way. Argotane has certainly done me a world of good and I am glad to give this statement." Genuine Argotane may be obtained in Crowell at the Reeder Drug Co. (Adv.)

**Farmers Short Course at A. and M. Features Cooperative Marketing**

College Station, Texas, June 25—Cooperative marketing, land utilization and reduction of production costs will feature the main daily programs of the Farmers' Short Course to be held July 28-Aug. 1 at the A. and M. College of Texas. F. W. Schillings, of Minnesota, member of the Federal Farm Board, will take a leading role in the marketing discussions and other speakers announced by H. H. Williamson, vice-director and state agent of the Extension Service, include Dr. Gus Dyer, of Vanderbilt University and editor of Southern Agriculturist, and Mrs. E. E. Davis, of Arlington, former head of home demonstration work in Texas. Attendance this year is expected to be around 5,000. Programs of the various group sessions of women, girls, men and boys are well on the way toward completion. Officials have pointed out that discussions will deal with most phases of live-

stock and field crop farming and with home making subjects.

Directors of farm cooperatives in Texas are to be extended special invitations to meet with Mr. Schillings on Monday and Tuesday afternoon during the short course in open discussion of marketing problems and the work of the Federal Farm Board. Mr. Schillings will deliver two addresses Tuesday, in the morning and at night.

The main programs will deal with the three-fold idea of solving the most pressing farm problems through more efficient marketing, eliminating price depressing surpluses by

converting sub-marginal land into forests and pastures, and reducing production costs through more efficient methods. Limitations and possibilities of each of these avenues of solution are to be pointed out and the progress along each in Texas briefly reviewed.

### Surprise Party Given for T. N. Bell Friday

Mrs. T. N. Bell gave a surprise party last Friday night for her husband at which members of the Rotary club were present. Mr. Bell is just completing a year as president of the club.

The party came as a complete surprise to Mr. Bell, who found the members at his home when he arrived there that evening.

A delicious chicken dinner was served after which various forms of amusement were enjoyed, including a vacation contest, songs and jokes. Vocal numbers were given by a trio consisting of John Raser, Eli Smith and Que Miller, and solos by H. E. Ferguson, Rev. Woodie W. Smith and Mrs. Bell.

The party was an exceptionally enjoyable one.

### FOARD CITY CLUB

The club met June 17th, at the home of Mrs. W. R. Ferguson. After a short business session Miss Hale took charge of the program assisted by Mesdames Marts and Farrar. They made interesting talks on "Food Habits."

## TEXAS THOUGHTS

By WAYE

(Editor's Note: Opinions expressed in this column do not necessarily constitute the editor's opinion. The column is reproduced as an impartial analysis of the political situation as seen from Austin.)

Publicity is the thing candidates now are looking for as the last four weeks of the campaign period draws near. The war period of 1917 and 1918 emphatically demonstrated that the public could be made to believe anything if the story were told often enough. Office seekers learned that lesson then and now are attempting to profit by it.

R. S. Sterling of Houston, doubtless, will be a name seen often in the headlines from now until election time. He was a late entrant into the gubernatorial list, but has the solid backing of the Houston Chronicle and the Houston Post-Dispatch. Both are devoting column upon column of their space to the advocacy of his candidacy, and other candidates scarcely can get their names in those papers.

On the other hand, the Ft. Worth Star-Telegram is giving the leading contenders a more even break. Last week Byron Utecht, capitol correspondent for the Fort Worth paper, followed Clint Small over a portion of Texas. This week Utecht will accompany Mayfield through East Texas. Next week, perhaps, he will watch the candidacy of still another leading contender.

As was the case with war-time publicity, voters should take campaign propaganda with the proverbial grain of salt. Practically every large paper has a favored candidate and will give that candidate the leading position in its columns. The advice of this writer is—read all you can about the political possibilities, but don't blindly place your faith in any one publication.

Texas is a big state and you may get an idea of just how big it is from the fact that the West Texas Press Association is the largest regional association of its kind in the world. The West Texas group of publishers will gather in annual meeting in Abilene on July 11 and 12 and on the program will appear such well known celebrities in the press world as "Memo" Foster of the Houston Press of Houston, Amon G. Carter of Fort Worth, Erasmus Tack of Amarillo, Joe Taylor of Dallas and Dorrance Roderick of El Paso. And the whole "works" is to be broadcasted over WBAP with Hough, "the Hired Hand" at the microphone. The meeting will be held at the new million dollar Hotel Wooten in Abilene.

George "Jimmy" Smith, wide-awake secretary-treasurer of the press association, called attention to this item and asked the correspondent to "get off politics" long enough to mention this gala press event. Well, the duty is done, and now back to "politics."

Roads and road building were the themes of the opening speech of Ross Sterling at Huntsville last Friday. He recalled that for the past two years he had advocated the issuance of state bonds for the purpose of completing the highway system of the state and intimated that he was still of the opinion that such was the more practical procedure. Earle Mayfield steadfastly has been opposed to the idea of issuance of state bonds and has frowned upon the huge powers exercised by the highway department. Other gubernatorial candidates likewise have done so, and some have gone to the extent of personal attacks upon Sterling. Jim Young, particularly, has been violent in his opposition to Sterling.

Who are the leading candidates in the field? Well, listen to a few of their own remarks: Earle B. Mayfield, speaking in Sulphur Springs Wednesday, "Unbiased reports from over the state show conclusively that my candidacy for governor is by far the most favored by the people. This is because I am the only candidate who has a well defined, clear-cut, constructive platform and because I discuss issues and not personalities."

Tom Love: "I believe in freedom of conscience and there are 300,000 democrats in Texas who have the same belief. Surely that makes me a leader."

Lee Satterwhite, Small campaign manager, speaking for his candidate: "The Small candidacy is gaining by leaps and bounds. Clint is sure to make the run-off."

Barry Miller, upon his return from the Valley territory: "Every indication is that I shall be the leading candidate in the first race."

So there you are! At least six are claiming for a certainty that they will be the leaders after July 26. What does the public say about the matter? That's a big question, but this correspondent has interviewed a hundred or more persons from all sections of the state in an attempt to get some kind of an answer, and here's what he gathers:

The three leaders are Mayfield, Ferguson and Love, with Small and Sterling making a strong bid to oust one of the favored ones.

Interest is being created in the attorney general's race at the present time. For a long while the present incumbent, Robert Lee Bobbitt, apparently was under the impression that he had nothing to worry over. But Jimmie Allred has been a busy campaigner and at last Bobbitt has awakened to the fact that he has strong opposition. He is now engaged in a last-minute, whirlwind campaign over the state. George H. Sheppard, present incumbent of the comptroller's department, also is bestirring himself, as also is Pat M. Neff, who seeks to be returned to the railroad commission.

## Texas Cowboy Reunion at Stamford This Week

Stamford, June 26—With arrangements completed for a group of 50 Comanche Indians from the government reservation to put on a two hour show each evening during the Texas Cowboy Reunion in this city, June 26, 27, 28, a well-balanced program has been provided for the thousands who will attend the affair.

During each afternoon, a western cowboy rodeo in which approximately 100 actual working ranch hands will compete for liberal cash prizes, will be staged, and after the Indian show in the evening, an old-fashioned ranch dance with real old pioneer music will be held in the open air pavilion on the reunion grounds.

Special efforts are being made to have all men who were engaged in working cattle on the ranges prior to 1895 attend the reunion. However, everybody whether an old-timer or a newcomer to this area, is invited, and will find many things of interest and much to entertain and amuse during the three days.

The opening feature of the celebration will be a monster street parade at 10 a. m. on the morning of June 26. In the aggregation will be the 50 Indians, the cowboy rodeo contestants, the pioneer canteen and many other interesting divisions, along with about a dozen ranch chuck wagons. These wagons will be on display on the reunion grounds all during the affair and the ranch cooks will be with them. The Indian show each evening will be highly interesting. Tribal war dances with the redskins in full native regalia and the big booming drums that require four men to handle them, will be among the thrilling items on the program each night.
