## CONTROLLING INTEREST IN BANK BOUGHT

### R. WALDROP AGAIN WITH FIRST STATE BANK AFTER ABSENCE OF ELEVEN YEARS

R. Waldrop, former Crowell resident and until recently president of the First National Bank at Clifton, Texas, has bought the controlling interest in the First State Bank of this city and took charge of that institution Wednesday. S. S. Bell, the former president of the bank, has resigned part of his stock and will remain with the bank as vice-president and director, but will retire as an executive official.

Many residents of Crowell and Foard County will remember Mr. Waldrop as he served the First State Bank as cashier and president for a period of eleven years, leaving here March 1, 1919. He is not a stranger to this section and has confidence in the future of Foard County. He states that he is glad to be back in Foard County and is anxious to again meet all of his old friends and the people who have moved here since he left Crowell.

Mrs. Waldrop will soon move to Clifton from her home in Clifton, Texas, and Mrs. Waldrop's two sons, Fred and Chester, will remain in Clifton.

## Senate Candidates Spoke in Crowell

Ruben Loftin of Henrietta and Ben O Neal of Wichita Falls, candidates in the run-off for state senator have spoken in Crowell since The News went to press. Mr. Loftin spoke at the west side of the square Saturday afternoon.

W. B. Chauncy of Odell spoke here Tuesday afternoon in the interest of O Neal's candidacy. He was followed by a talk from Mr. O Neal. Candidates became rather "hot" following talk by Jesse Owens, local attorney, who took the platform in the interest of Mr. Loftin's candidacy.

The speaking for the afternoon ended when Dr. R. L. Kincaid, state representative from this district, made a short talk in which he stated that he was for O Neal.

## Sterling Denounced by Foard City Man in Letter to News

In the Citizenship of Foard County and Texas:

We are about to enter into one of the greatest political elections that has ever taken place in the entire history of our great state. There perhaps never was, nor ever will be, so much pressure brought to bear on the voters as will take place in the coming event; therefore we should think very carefully how we cast our ballots. The casting of our ballots in this election determines a future course whether we shall elect our governmental heads or whether we buy them.

It is whether we shall be free men or whether we shall be slaves. It is the money Gods, the big corporations and money trusts that now have a strangle hold on all the poor and are now seeking to get the strangle hold on the middle classes. They with their huge amounts of gold hidden from circulation, bringing to bear on those that labor on and under the earth and from whence all our wealth is stored away for the use and happiness of all man and woman kind. These Golden Gods neither weave nor do they spin and form gigantic trusts and corner everything on or under the earth, in the air and would if possible corner the heavens for their own self aggrandizement; there is absolutely nothing that can appease their morbid appetites for power and for gold and they are now placing before the people of Texas a man by birth and training steeped in the art of deception; a past grand master in dealing bonds, wherever there is bonds to depress and make poor those that have labored and made our Texas what it is today, there you will find this same bond dealing God of gold also.

These gents of wealth and leisure that have never done an honest day's labor and never intend to in the balance of their dirty lives, now ask you Mr. and Mrs. Voter to come and vote to put a man that deals in bonds, streams in bonds and his every day acts are for bonds and the only plank in his platform that he is running on is for bonds. He is bonds from the tip of his toes to the top of his head.

## Miss Thelma Shaw Is Married at Eustace

Miss Thelma Shaw, for the past three years a teacher in the Crowell schools, became the wife of Troy Atkins in a wedding at Eustace, the home of the bride, Sunday, August 17th. Mr. Atkins' home is in McAdoo, Texas.

Mr. and Mrs. Atkins stopped in Crowell for a short time Thursday while on their way to McAdoo. They will make their home in Post, where Mr. Atkins is an instructor of mathematics at Post High School.

## Catherine Clark Is Married Sunday to Wichita Falls Man

Miss Catherine Jeanette Clark, daughter of Dr. and Mrs. Hines Clark of this city, became the wife of J. C. Cumly of Wichita Falls in a marriage ceremony at Vernon Sunday afternoon at 3:30 o'clock. The marriage took place at the Presbyterian manse with Dr. E. L. Moore, pastor of the First Presbyterian Church, officiating with the pretty ring ceremony. Only members of the immediate family were present for the quiet affair.

The bride was attractively attired in a beige crepe suit with accessories to harmonize. There were no attendants. The wedding culminated a college romance, which began while both were attending Texas University. Both Mr. and Mrs. Cumly will receive their degrees from the university this summer term.

Mrs. Cumly is a native of Crowell and is a graduate of the Class of 1926 of Crowell High School. Since that time she has attended Texas University.

The couple will make their home in Wichita Falls where Mr. Cumly is connected with his father in the oil business.

Dr. and Mrs. Clark and sons, Dan Hines and Charles Stewart, attended the ceremony.

## Local Boys Attend Palacios Encampment

The following Crowell and Foard County boys have returned from Palacios where they attended the National Guard Encampment which ended Friday, after lasting two weeks: Roscoe Brown, Homer Johnson, Howard Carroll, Weldon Cogdell, Ralph Gribble, George Meason, Ernest Cox, Jim Hinds Carter, Homer Stewart, John Edwards and Lewis Rader.

The local boys were in the Wichita Falls unit. Gribble, Mason, and Cox acted as cooks for Company L, the Wichita Falls company, at the encampment.

There were ten thousand National Guardsmen at Palacios this year and the company in which the local boys were represented won the honor of being the best company at the encampment.

## Football Prospects Will Hold Initial Work-Out Sept. 1st

Candidates for the high school football team are to hold their initial work-out September 1st, Monday, according to a communication that The News has received from Grady Graves, coach, who is now attending Texas A. and M. College.

All prospective candidates for the team are urged to be at the school building at that time. The opening game is to be played against Quanah on September 12th and this will give the boys only ten days to work out before the game.

## WILL RECEIVE DEGREE

Henry Black of this city is one of the twenty-eight seniors who are to take degrees at the graduation ceremonies, August 23, at Sul Ross State Teachers College at Alpine. This is the largest graduating class in the history of the college. Mr. Black has attended Denton State Teachers College and has taught for the past three years in Crowell High School. He will teach again this year.

## Importance of Wheat Pasture Being Stressed

The necessity of having sufficient land in the county prepared for wheat for the purpose of supplying winter pasture, is urged by County Agent Fred Rennels. It has been the case in the past that long droughts have been followed by abundant rainfall, and in case history along this line is repeated early in the fall and winter wheat pasture would do much to solve the feed problem for the farmers and ranchmen.

It is urged by the leading farmers of the county that land be prepared now so that wheat could be sowed at the earliest opportunity.

J. W. Bell states that wheat pasture furnishes the only remedy and last resort on the feed situation in this county.

## Former Resident of Crowell Died Aug. 20

Troy Erwin received a message Thursday stating that his brother-in-law, Henry Felps of Hot Springs, New Mexico, died Wednesday night in a hospital at El Paso. High blood pressure was given as the cause of the death.

Mr. Felps lived in Crowell in 1918 and 1919. He married Miss Verona Erwin here in 1921.

Mr. Erwin and family left here Thursday afternoon for Hot Springs. No funeral arrangements had been made when they left here. Mr. Felps is survived by his wife and 3 children.

## INFORMATION MEETINGS WILL BE HELD ON COTTON CO-OPERATIVE ASSOCIATION IN FOARD COUNTY

### Meeting to Be Held Next Week in Rayland, Crowell, Margaret, Foard City and Vivian; Association Plan Explained at Thalia Thursday

J. D. Summerour of Vernon, district chairman of Texas Cotton Co-operative Association, has appointed M. S. Henry of this city as Foard County chairman in charge of the membership campaign in this county.

A meeting for the purpose of explaining the complete operation of the co-operative association, the terms of the contract, method of marketing and various other matters, will be held in Crowell Wednesday night at eight o'clock in the district court room. All of the farmers of the county are urged to attend the meeting. Any questions concerning the association will be answered by district officials of the association.

Roy Antle of Vernon, manager of the association for this district, Mr. Summerour, the chairman, and Grady Shipp, the secretary of the Vernon Chamber of Commerce, will be here to thoroughly explain the plans of the association. The Vernon Chamber of Commerce underwrote a guarantee of \$7,500 for headquarters for the district association, which includes Foard, Hardeman, Wilbarger and Wichita Counties. The district office at Vernon was the first one to be established in the United States.

A meeting similar to the Crowell meeting will be held in Rayland Tuesday, August 26, at 8 p. m. and another meeting is to be held at Thalia, Thursday, August 21, at 4 p. m.

Meetings will be held at Margaret Thursday, August 28, at 4 p. m.; at Foard City, Thursday night, August 28, at 8 p. m. and at Vivian on Friday night, August 29, at 8 p. m.

Grady Shipp, secretary of the Vernon Chamber of Commerce, and Roy Antle, manager of the district association, were in Crowell Wednesday for the purpose of making arrangements for the membership campaign in Foard County.

A series of information meetings has just been completed in Wilbarger County and the membership campaign is well underway there now. Information meetings will also be held in Wichita and Hardeman Counties next week.

While the headquarters for the district office will be located in Vernon, Mr. Shipp explained that a receiving agent will be placed in Crowell to maintain an office throughout the cotton season. A false opinion has existed with a number of people in the county that the cotton would have to be carried to Vernon for delivery.

The receiving agent will take samples of the association cotton here and immediately send them to Vernon for grading and staple, after which a check will be delivered to the purchaser. All officials and employees of the association are under bond for the safe handling of all money. Not more than two days will be required for a member to secure the money on his cotton.

Hiram Gray has been named chairman of the Thalia district, C. W. Ross, Margaret, John Remy, Rayland; J. H. McDaniel, Foard City, and C. J. Benham, Vivian.

## Wilbarger-Foard Baptists Meet at Thalia Next Week

The annual meeting of the Wilbarger-Foard Association will open in Thalia Monday and will end Wednesday. Dinner will be served both Tuesday and Wednesday.

The Women's Auxiliary of the association is to meet Monday morning at 9:30 o'clock. The official opening of the annual meeting will come at 8 o'clock Monday evening.

Rev. Woodie W. Smith of this city is to preach the missionary sermon and Rev. J. D. Vaughn of Odell is to preach the associational sermon. Rev. Vaughn is to preach Monday evening and Rev. Smith is to preach Tuesday evening. Dr. E. F. Lyon of Vernon is the moderator for the association and Rev. Frank McNair of Lockett is the clerk.

A complete and interesting program has been arranged for the meeting and a good attendance is expected from all over Foard and Wilbarger Counties.

Rev. Smith has recently been appointed as budget director throughout the association.

## FIRST GINNINGS

A. B. Wisdom of the Thalia community had the first bale of cotton ginned at the Thalia Gin Company last Friday. This week he had the first bale ginned at the Farmers Co-operative Gin at Thalia. Alvin Shoppa had the first bale ginned at the Rayland Gin last Friday.

## To Secure Degree from Columbia University

Miss Lozelle Kincaid returned Sunday from New York City where she has attended the summer session of Columbia University. She completed the work for her Master of Arts degree which will be presented to her in October. She majored in mathematics.

Columbia is one of the largest universities in the world and there were over fifteen thousand students in attendance there this summer. Texas ranked third among the states of the nation for furnishing the greatest number of students this summer at Columbia, according to Miss Kincaid.

## P. E. RANDOLPH ILL

P. E. Randolph, who lives three miles east of Crowell, is seriously ill. He has been in bed for some time but became worse this week. A. D. Randolph of Vernon, a son, was here this week for a visit with his father and mother.

## BARGAIN SHOW

Hot Gibson in "The Concentrating Kid" will be shown at the Rialto Friday and Saturday. Two adults will be admitted for thirty-five cents and children will be admitted for ten cents for this all-talking production.

About 30 young ladies of the Glee Club and Orchestra of the Odd Fellows Home of Corsicana arrived in Crowell by bus Thursday afternoon for the purpose of putting on a program at the High School Thursday evening.

## W. H. Sheridan Died After Short Illness Here Tues. Morning

W. H. Sheridan, for the past four years a resident of Crowell, died after a short illness Tuesday at 2 a. m. in the Crowell Hospital. He was about sixty-five years of age and had resided at Loyd's Hotel during his life in Crowell. He took ill last Wednesday and was removed to the hospital Sunday.

An attempt was made to get in touch with relatives of Mr. Sheridan following his death, however, no word was heard from any relatives and the remains were buried by the county in the Crowell cemetery. Short services were held at the cemetery with C. V. Allen officiating.

Chas. Loyd, who no doubt knew Mr. Sheridan better than anyone else here and who looked after him for many years, has furnished The News with a few matters regarding his life. He was born in Ireland and came to the United States when about seventeen years of age and as near as can be learned, settled in Grayson County, where he spent most of his life before coming to Crowell. It is understood that he is survived by a wife and about ten children.

Due to numerous injuries received during his life he has been unable to do but little work in many years. He spent considerable time writing poetry and short stories and submitting such work to numerous magazines, but had little success in having his work published.

A letter was received by Mr. Loyd Wednesday from a daughter of Mr. Sheridan who had not yet learned of his death, stating that the family was not financially able to assist his father and suggested that the matter be placed in the hands of the county. The daughter lived in Denison.

Mr. Sheridan was a man of very quiet nature and had a record of honesty that was to be admired. He leaves many friends here who mourn his death.

## Plans to Secure Relief Made at Quanah Meeting

County agents and representatives from five neighboring counties met at Quanah last Friday for the purpose of discussing plans for securing federal relief for the farmers of this section at the earliest possible moment. Counties represented at the meeting were Childress, Hardeman, Foard, Cottle and Motley.

John R. Edmonds, district agent, met with the agents. A statement of facts concerning conditions in this section was drawn up and forwarded to United States Senators Tom Connally and Morris Sheppard; Congressman Marvin Jones; George B. Terrell, state commissioner agriculture, and D. A. Bantzen, manager of the West Texas Chamber of Commerce.

Each of these officials was urged to use his influence in securing early relief for drought-stricken farmers in this section.

Jerry W. Debenport and Will Jones of Childress were appointed to confer with Governor Dan Moody on the matter. This conference was held in Dallas Tuesday and action has already been taken by the governor on the matter.

## Benjamin Man Spoke for Ma Ferguson on Streets Here Sat.

N. S. Kilgore of Benjamin spoke on the west side of the square in Crowell Saturday afternoon in the interest of Ma Ferguson's candidacy for governor.

Mr. Kilgore devoted a large part of his talk to the record of Governor Moody and stated that the election of Sterling would be a vote of endorsement for the Moody administration.

He also dwelt at length on Sterling's wealth and asked if anyone had ever heard of a rich man doing anything for a poor man. He strongly criticized the state-wide bond issue and the removal of the state penitentiary.

Ma and Jim were defended in several instances, especially their pardon record. In conclusion Mr. Kilgore urged the people to vote for Ma Ferguson if they were interested in better government in Texas.

## SIXTY-NINE ABSENTEES

Foard County's absentees voting strength for the election Saturday is especially heavy with sixty-nine ballots filed for absentees in the office of the county clerk. The time for absentee voting closed Wednesday.

Thirty-three absentee ballots were cast in the first primary.

## HELD IN JAIL

John Lindsey of Santa Anna is being held in the local jail, charged with robbery, in connection with the robbery of the Shultz Drug Store at Thalia, some time ago. He has so far failed to make a one thousand dollar bond and will be held in jail awaiting trial in district court. Sheriff Que Miller went to Matador last week and returned with Lindsey and his brother, who was released from jail when charges were dropped.

## STERLING IS PRAISED BY 3 SPEAKERS

DR. R. L. KINCAID AND WICHITA FALLS MEN SPOKE FOR STERLING HERE SATURDAY NIGHT

Foard County has not, so far, had an opportunity to hear either of the candidates for governor. However, a Sterling rally occurring at the court house on last Saturday night was rather well attended, considering the fact that rain had been falling intermittently during the late afternoon and evening.

It had been planned to have the speakers speak from the west portico of the courthouse but owing to the inclement weather the affair was held in the district court room.

The first speech of the evening was made by Dr. R. L. Kincaid, State Representative from the 114th District. Dr. Kincaid made a coherent argument for the election of Mr. Sterling, pointing out his many favorable attributes, dwelling especially upon his ability as a business man.

According to Dr. Kincaid, the State no longer confines its activities to the regulation of personal conduct which might become detrimental to society at large, but on the contrary has diversified its functions until it has assumed the character of a large business organization—it has saddled upon itself, with the enlarging of governmental responsibilities, the business of administering the affairs of the public education system, of handling the business of constructing and maintaining a great system of highways and other arteries of transportation, of directing the activities of its thousands of convicts, of administering the affairs of its hundreds of unfortunates who are subsisting upon the charity of the State, and many other duties which did not until recent years devolve upon governmental authority. It has become the greatest employer of labor within the bounds of the State and hereby holds within its keeping the safety and happiness of thousands who depend upon their earnings from the State to maintain their homes and families. It attempts to regulate the affairs of railroads and other transportation systems, and in summation, has spread its activities over such a large sphere of endeavor that it requires a man of great business ability and of sound judgment and clear sighted forethought to properly handle its enormously divergent affairs.

Kincaid then proceeded to argue that if an individual was the owner of any such enormous business as this that he would attempt to hire for its directing head the most business like and efficient man he could secure for the position. He explained that he did not believe more than one out of the eleven who originally were candidates for Governor would apply for any such position were it necessary for him to address his application directly to a single individual, since it was apparent that Mr. Sterling alone among the applicants had demonstrated his ability to organize and direct a large enterprise. Further, he alleged that James E. Ferguson had failed at every business undertaking he had ever faced while Ross Sterling had succeeded without exception in every business with which he was actively associated. As evidence of this Dr. Kincaid cited the origin and development of the Humble Oil and Refining Company, under the direction of Mr. Sterling, the carrying forward to success of the Houston Ship Channel project, of which Mr. Sterling was the directing head. "In a word," said Dr. Kincaid, "The difference between the two men, James E. Ferguson and Ross Sterling, is the difference between failure and success."

Dr. Kincaid concluded upon this note and was resoundingly applauded by the audience, which was liberally sprinkled with women.

Kincaid then introduced Joe P. Hatchitt, of Wichita Falls, who was elected to the State Legislature in the last election.

Mr. Hatchitt commented at some length upon the pardon record of Mrs. Ferguson during her tenure of the office during 1925 and 1926. He cited the fact that numerous felons guilty of heinous crimes against society.

Accident Prevention Work of W. T. U. Co. Shows Improvement

Abilene, Texas, August 21.—That accident-prevention work is showing a splendid improvement throughout the properties served by the West Texas Utilities Company is evidenced by a recent report released from the company's safety department. The West Texas Utilities Company established a record of 2.30 lost time accidents per 100 employees during the first six months of 1930, as against 3.00 lost time accidents for the same period last year. From January 1st through June 30, 1930, the company records show a total of 37 lost-time accidents with 408 days lost-time, compared with 58 lost-time accidents and 639 days lost-time in 1929. A good feature of the improved ratio is the lack of fatal accidents. During 1929 two fatal accidents had been reported during the first six months, while this year to date there has been no employe fatalities. The employes are using every care to maintain that record. The West Texas Utilities Company maintains a regular safety department, the purpose of which is to educate employes in accident-prevention measures and to train workers in first aid treatment. In addition to this work, inspection of the properties is carried on as regular routine work. In this manner, it is possible to eliminate all foreseeable haz-

ards. The company anticipates a continued improvement in accident-prevention records.

To the People of Texas:

In the recent election, to have carried as a candidate for Railroad Commissioner over my three opponents, I am proud to have received nearly two hundred thousand votes more than my nearest opponent, are honors for which I wish to express, through the public press, to the people of the state my sincerest thanks. For this vote of confidence I shall count myself at all times debtor to the people of Texas, in the coin of sincere appreciation.

Notwithstanding the large vote received, a run-off is necessary, for the reason that I lacked as a whole of having a majority vote over the combined support of the other three candidates.

Thanking my friends for the interest they manifested in my behalf,

Announcing a new production record

2,000,000 Chevrolet Sixes now on the road

Since January, 1929, Chevrolet has produced and sold over 2,000,000 six-cylinder automobiles—nearly five times as many as any other manufacturer has ever built in an equal length of time.

These 2,000,000 buyers have chosen Chevrolet because it offers many desirable qualities not obtainable in any other car so low in price—

—the smoothness, silence and flexibility of a modern six-cylinder engine—the comfort and roadability of a modern, full-length chassis—and the style, safety and distinction of bodies by Fisher.

Yet, despite these fine car advantages, the Chevrolet Six is unusually economical. Its gas, oil, tire and upkeep economy is unsurpassed. And

**Pardon Record of Ma Ferguson Is Unusually Large**

Austin, Texas, Aug. 21. (UP).— "Ma" Ferguson's pardon record has been equaled by no other governor. During her term of office she issued a total of 3,595 clemencies—more than she promises to release in case of her re-election.

Of these clemencies, 1,318 were full pardons and 829 conditional pardons revocable in case of further delinquencies. Paroles were granted to 206 convicts, furloughs to 682 and 73 fines and jail sentences remitted.

Eleven death sentences were commuted to life imprisonment; eight life terms commuted to shorter periods. The other acts of clemency included remission of 54 bond forfeitures and restoration of hunting privileges to 7.

Great publicity attended her pardon record. Part of this was due to the accumulation of pardon proclamations at the close of her term. The governor's office force then put in busy days writing up the proclamations.

During the last twenty-nine days of her term, a compilation made by Secretary of State Jane Y. McCallum says, Mrs. Ferguson granted full pardons to 124 robbers, 127 liquor law violators, 133 murderers and 39 men convicted of criminal assault.

During Ma's last three days in office, Mrs. McCallum says the record shows the filing of 160 clemencies—more than 50 a day. These included 35 full pardons for liquor law violators, for 40 robbers, for 22 murderers and 10 convicted at criminal assault.

The most criticized of Gov. Miriam Ferguson's clemencies have been those extended to Marshall Ratliff and William H. Langhorn Jr. Ratliff later was identified as the Santa Clause bandit who attempted to rob a Cisco bank on Dec. 23, 1927. Two peace officers were killed in a battle with the robbers. Ratliff was hung by a mob at Eastland after he killed a jailer in an attempted escape while awaiting a sanity hearing.

Langhorn confessed to killing Valera Zapalac and attacking her sister near LaGrange. He was given the death penalty on a charge of murder, which was commuted to life imprisonment.

He pleaded guilty to an attack on the other girl and with consent of the district attorney was given life on that also. James E. Ferguson appeared as one of the attorneys for Langhorn at the second trial.

"I had no connection with the Langhorn boy's second case until my wife had been out of office five months," said Ferguson in a recent issue of the Forum.

Mrs. Ferguson recently replied to pardon criticism by comparing her record with that of other Texas governors. When Campbell was governor with a prison population half that when Mrs. Ferguson was governor, she says, he issued 1224 pardon proclamations; Gov. Colquitt, 2058; James E. Ferguson, 2440; Hobby, 2354; and Neff, 997; despite an anti-pardon program.

Gov. Dan Moody has issued few full pardons, it is estimated not more than 30. Instead he issues furloughs. These differ from pardons in being for a limited time. At expiration of a furlough, if the convict is doing well, the time is extended. His extensions of clemency have not been without adverse comment. Bob Silver, commuted from a death sentence, escaped and was recaptured after forcing a man and girl to drive him to Houston. A man hunted in connection with Fort Worth's recent "torch slaying" had been extended clemency by Gov. Moody.

**COMPARISON OF FACTS**

An advertising trade publication sent a trained writer to a city of 24,000 inhabitants to analyze the leading department store's management and in the first article on the subject he sets out the cost of doing business was 24 percent, which was "6 to 10 percent less" than similar costs in large city department stores.

Here is a merchandising fact that few small town people take into consideration when they are lured away from their home merchants by what they believe to be better prices of the large city stores.

Every merchant has to make a profit; if he didn't he would soon have to close his doors. The profit is added to the cost of the goods and the cost of doing business.

The large city store may buy merchandise to some advantages because of the demand for larger quantities, but his other costs are far in excess of the small merchant's.

He has to pay rent, clerk hire, insurance, heat, light and the many other items that figure in the operation of a modern store, and it is all more than similar costs in smaller communities.

In addition to all the advantages that accrue from patronizing home merchants, this matter of cost is one that figures most in the question of trading at home.

Though the price and the goods may look well, they won't stand up under cold logic, because the big city store can't under-sell the small town store, quality and style being equal.

There are at least 500,000 feeble-minded persons in the United States today.

**COAL BY-PRODUCTS**

From 80 to 95 per cent of the energy stored in coal is lost when it is burned in furnaces or stoves. It is only the gas in the coal that is burned, and much of the heat is lost, as well as all of the valuable by-products, when coal is burned raw.

By modern gas-making methods each ton will produce approximately 11,000 cubic feet of gas, 1,400 pounds of coke which contains as much heat as an equal amount of coal, five pounds of ammonia, four one and one-half gallons of benzol, ten gallons of tar, and a considerable amount of sulphur and naphthalene.

The gas can be burned with an efficiency of 80 per cent; the coke can be used as fuel or turned into additional gas by the carburetted water-gas process; the sulphur, ammonia liquor and naphthalene can be converted into chemicals and fertilizer, and from the tar can be obtained dyes, perfumes and drugs.

VOTE!

In the past few weeks we have often heard remarks made by a number of people that they are going to scratch both candidates for governor. We hope these people will change their minds, for one of the two persons in this run-off is bound to be the next governor of Texas and even if a person is against both, he or she should weigh their qualifications, their past records and then vote for the one whom he or she considers best fitted in looking after Texas interests in the future. The scratching of both names can serve no useful purpose whatsoever, other than giving the one doing it the personal satisfaction derived from such action.

The responsibility of good government, whether city, county, state or nation rests with the voters and if you are one of those planning to scratch both candidates in the governor's race, or any other race for that matter, won't you please investigate further and make your decision, and then if after such investigation you are still against the two candidates, then in your estimation at least vote for the lesser of two evils.

THE PREFERENTIAL BALLOT

Several of Texas' cities have consistently used the preferential ballot through a number of years. Significantly enough, they have found that the will of the people is effectively expressed and the expense incident to run-off elections is saved to the people.

If the preferential ballot works satisfactorily in municipal elections, there is little reason to believe it would not operate as well in the state elections.

In one Texas county, some thirty-odd defeated candidates who have no further interest in the election, are contributing to the enormous expense of the run-off primary. It is not an equitable arrangement, and undoubtedly good men hesitate to announce for office when they compute the money-hazard involved.

There seems to be no good reason why the preferential ballot should not be used in state elections where three or more candidates announce for an office. Many Texas newspa-

pers are advocating its use, and the electorate, in all probability, would not object to relief from the burden of a second primary.

Sterling Denounced

(Continued from Page 1)

He is bonds through and through. All he represents is bonds run wild. My answer to the deserving people of Foard County and of Texas is to come out in full force on election day and sweat this Hydra-headed God of millions like you would a rattle snake lying in coil to fasten his poisonous fangs in you only child. Do not fail nor falter, let every red-blooded Texan go forth on August 23rd and say by their ballots that no mammon of Gold shall ever be bought and placed in the governor's chair of Texas. We owe this much to our children and to the future generations that are yet to come. To you brother farmer or laborer, just take a survey of the future of your farms and the laborers take a look at your well being. Just oil an your thinker go to the bottom of all this talk of dishonesty these hi-jackers are putting out and ask yourself the solemn question, who are these fellows talking and the echo will come back to you, Dan Moody, the political daddy of Ross Sterling, the gent in question and William pious Petus Political Hobby, the gentlemen that dishes out the drouth fund for the drouth sufferers of West Texas that the good people of all Texas gave you that you never got. These are the Christian gentlemen that are talking now. You will hear more of another drouth fund from the same sources in a short time. People don't listen at anything more these fellows say. They make more promises and pledges and do less than has ever been done by anybody that has ever come down the pike in the history of Texas.

We farmers and working people are up against a real problem but our redeemer still lives and after August 23rd we will have another governor of, for and by the people.

We the people of Foard County have had a hard time of it. Farming in dust to make our tax money to run a state government without a governor. If the people will use their brains and vote for the 2 best governors the world has ever produced, and both for the price of one, whose ideas do not burst like a bubble of soap and water as does with the one we now have in office.

Oh when the mother of Texas takes her seat in the governor's chair, there will be rejoicing and happy hearts once more. Glory to the name of

Little Indication of Way Tide Will Turn in Gov. Race

BY GORDON K. SHEARER  
United Press Staff Correspondent

Austin, Texas, Aug. 21 (UP)—Texas voters are in revolt. Political leaders admit they do not know how their erstwhile followers will ballot on August 23.

They revolted against the ruling of the State Supreme Court that the state could bar James E. Ferguson forever from holding office and not be able to take back the sentence. Nearly 243,000 of them followed Jim's suggestion and voted for "Ma" when he was kept off the ticket by that decision.

They revolted alike against the leaders who would have held them in line for Al Smith in the 1928 election and those who led a Texas majority into the Hoover camp. Only 87,000 out of 833,000 voters remained under the banner of Tom Love, who had led them to the Hoover victory. Only 78,000 voted for James Young, who was the rival leader of "regulars" in the battle of 1928 to keep Texas Democratic. West Texas cast many a vote against Clint Small, the hailed West Texas candidate. Mayfield's former supporters, who heretofore had always made him leader in the initial primary, left him except for 55,000. Miller ran but slightly ahead of Mayfield, though a little over a year ago he seemed to have an easy road ahead from lieutenant governor to governor.

The forces that swept Dan Moody into the governor's chair almost without necessity of a run-off, piled up only a little over 170,000 for Ross Sterling. "Ma" Ferguson, leading the ticket, had little more than half of the 414,000 that first elected her governor. She received 2,599 less votes than L. J. Wardlaw received in the 1928 Democratic primary.

As a result of these conditions, prospects of an election so close on Aug. 23 that a contest may be filed with the state democratic executive committee are being discussed at Austin.

Either candidate for governor, or any candidate for any state office in the run-off primary, may file notice of a contest with the state executive committee, provided the irregularities complained of have affected enough votes to change the result. Mere irregularities that could not change the result are not sufficient for such a contest.

Notice of a contest must be given within five days after the result is canvassed. The committee then must hold a hearing within thirty days. Either party dissatisfied with the committee decision may appeal to district court.

There has never been a contest in a statewide primary that local politicians remember. Republican Congressman Harry M. Wurzbach won the biggest election contest in recent years, ousting Augustus McCloskey, who had been seated as congressman from the 14th district. The contest by which Gordon Griffin, Independent, of McAllen claimed the 93rd district judgeship in Hidalgo County was filed directly with the court and dismissed finally by the court on the ground that Griffin should have filed notice of contest with the county commission.

The canvass of the August 23rd Democratic primary election is to be made by the state executive committee at Galveston on Sept. 8.

The run-off campaign nears the close with both former Gov. Miriam A. Ferguson and State Highway Commissioner Ross Sterling claiming victory in sight. Practically the weather may decide the issue. A rainy election day with precipitation enough to make country roads boggy will be an aid to Sterling. Continued dry weather will be an aid to

"Ma." A prominent Sterling adherent from West Texas, Adrian Pool, said a good rain would be worth 30,000 votes for the Houstonian. He and others believe that the dissatisfaction being felt in the state is causing the people to look for a change and that rains with restored farming activity would end that feeling.

On June 6, the United Press said there were only four things then apparent in the then approaching governorship race: that Gov. Dan Moody would not be a candidate; that Ross Sterling would not resign as highway commissioner; that the administration Sterling would be thrown behind Sterling and be come true of the four; that Sterling would endeavor to keep his \$350,000,000 road bond proposal out of the campaign.

The only thing sure about the run-off is that it is an acrimonious one. The uncertain things that apparently will share with the weather conditions in deciding who is to be Democratic nominee are:

Effect of Gov. Moody's stump speaking for Sterling.

Effect of circulars sent out by the Sterling headquarters dealing with the commutation of sentence of William H. Langhorn Jr., after conviction of an attack upon a girl and slaying her sister.

Effect of a woman's organization against a woman candidate.

Effect of the hostility to Gov. Moody's administration as voiced by the 245,508 votes cast for Wardlaw two years ago.

Effect of the apparent public rejection of the Sterling state-wide road bond plan.

Effect of circulars being distributed against Sterling in South Texas in which there is reproduced the front-page call of a Houston paper, now supporting him, made upon Sterling and Klan leaders to put a stop to mob floggings in Harris County.

Possible reaction from unchivalrous comment and cartooning of Mrs. Ferguson.

city were indiscriminately freed by Mrs. Ferguson during her term of office, including large numbers of men convicted for rape, seduction, assaults with intent to rob, robbery, burglary and other crimes of horrible character.

Mr. Hatchitt was followed on the platform by Judge Moore, of Wichita Falls, formerly well known to Foard County citizens while he was a practicing attorney at Benjamin, Texas, some years ago.

Judge Moore traced the rise of Mr. Sterling from a boyhood of poverty to a position where he is regarded by his neighbors and fellow citizens as a foremost citizen, comparing the record, step by step, with that of Jim Ferguson. He then launched into a detailed account of the activities of the Fergusons during the times when they have held office in Texas, citing particularly the instance where pardon was issued to a man and woman who were accused and convicted in a West Texas city of mercilessly shooting down their own son-in-law, a crime which turned entire north west Texas against the perpetrators of the crime. The man was given a

sentence of 3 years in the penitentiary and was pardoned soon after he reached Huntsville. The woman was given a sentence of ten years and was pardoned before serving a single day of the sentence.  
The speaker also pointed out other instances of what he termed "the most disgraceful administration Texas ever had." He also spoke of the amnesty bill, passed during Mrs. Ferguson's former administration, which he termed the "Amnesty Bill." After the passage of the bill Ferguson attempted to have his name placed upon the Democratic ballot as a candidate for governor and was refused a place on the ticket by the higher courts, whereupon Mrs. Ferguson announced that she would be the candidate. Thomas B. Love, whose place on the ticket was disputed because of his Hooverer attitude in 1928, then went into the courts and forced the Democratic Executive Committee to certify his name for position upon the ballot. Thus, according to Judge Moore, a judicial decision has handed down the decree that "Jim Ferguson is nastier than Tom Love. This sally evoked laughter all over the large audience, and Judge Moore ended his speech amid favorable applause.  
Foard County is to be congratulated that the rally was not attended by any heckling or disorderly conduct, as sometimes occur at such gatherings, and on the whole the meeting produced a very favorable impression upon the audience.

ANOTHER FAMOUS 14 POINTS  
DEVELOPED FROM MORE THAN 10 THOUSAND OBSERVATIONS DURING THE PIKE'S PEAK TEST, NOW BECOME YOUR GUIDE WHEN BUYING MOTOR OIL  
Between September 6 and October 5, 1929, three popular nationally known brands of motor oil were tested side by side with CONOCO Germ-Processed Oil on Pike's Peak under the supervision of the American Automobile Association Contest Board.  
The Board's findings have been expressed briefly in the "fourteen points" below.  
1 That the test procedure was followed accurately and that no deviation therefrom occurred which might seriously affect the soundness of any conclusions based upon the data;  
2 That a reduction in the rate of wear occurring during the use of CONOCO Germ-Processed Motor Oil over that occurring with the other oils used to the extent of 76.4 per cent was shown during these tests;  
3 That greater stability of the subject oil during these tests was shown by records of examination of drained oils being nearer the viscosity of the original or fresh oil and by chemical tests of drained oils with the fresh oils;  
4 That frictional temperatures occurring during the use of the subject oil were lower than temperatures occurring during the use of the other oils;  
5 That higher compression pressures were obtained with the use of the subject oil. It would be directly inferred that this was caused by better ring seal;  
6 That using the subject oil and during each test, greater gasoline mileage for economy was obtained than during the use of the comparable;  
7 That less oil consumption as shown by the records of these tests occurred with the use of the subject oil;  
8 That carbon deposits collected from the combustion chambers and cylinder heads and weighed by the official chemist were shown by the records of the test to be less after the use of the subject oil than after the use of the comparables;  
9 That the subject oil showed a reduction in the case of crank-case dilution during these tests;  
10 That during these tests the subject oil showed improved compression pressure, decreased rate of crank-case dilution and decreased gasoline consumption, indicating an improved ring seal;  
11 That a reduction in the rate of operating fuel and oil costs occurring during these tests with the use of the subject oil is substantiated by the records;  
12 That with the use of the subject oil there occurred less deviation from cycle to cycle in compression pressure at starting speeds (as shown by the records) would indicate that improved compression at higher speeds might have occurred during these tests;  
13 That the reduction in the rate of wear occurring during these tests with the use of the subject oil as shown by the records would indicate a longer motor life;  
14 That while there is no reason to suppose that results similar to those of this test would not show under other conditions, it is important that references to these findings be accompanied by the statement that, in so far as the report is concerned, they cannot, as conclusions, be extended generally. However, inference that they might be so is reasonable and rational, although not conclusive.

## Cotton Co-Op Plan Is Explained at Luncheon

Herbert Edwards was in charge of the program at the Rotary Luncheon Wednesday which was presented by the vocational committee. Grady Shipp, secretary of the Vernon Chamber of Commerce, was the principal speaker and gave a detailed account of the Texas Cotton Co-operative Association.

He traced it from its creation by the Federal Farm Board Act to its present status. The association in this district has headquarters in Vernon and is to start a membership campaign in Foard County immediately. Roy Antle, manager of the association for this district, was also present at the luncheon.

J. R. Beverly gave an interesting talk on banking, having drawn that subject to talk on the previous week. Mr. Edwards gave a talk on business methods and conducted a questionnaire on that matter.

G. V. Walden, local Santa Fe agent, came into the club as a new member at the luncheon, following his election last week. Ross Magee, Ed Stine and George Hughes, Rotarians of Quanah, and R. R. Waldrop, a former citizen who has returned to Crowell, were visitors.

## OUR DAILY VITAMINES

Have you had your daily portion of vitamins today?

That's a fair question. It's one that the family physician will be asking you, if he is consulted, before long, because greater importance is being placed on essential food factors in relation to health, than ever before.

The United States bureau of chemistry, in a summary of present knowledge of vitamins, says that vitamins should be sought in the garden or in the market, and not in the drug store.

It is now known that there are at least five vitamins, designated as A, B, C, D and E, and it is probable that others will be discovered. The absence of any one of the five from the diet will develop certain characteristic effects.

The function of vitamins has been compared to that of a spark plug in an engine. They are accessory food factors, in that they contribute neither energy nor tissue building material, but are essential to growth and life.

People and animals are not able to provide vitamins within their bodies, and for this reason, if they

### Alfred Won First Fame as Prosecutor of Frank Collier

Dallas, Texas, Aug. 21. (UP)—James V. Alfred of Wichita Falls, candidate for attorney general, was the youngest district attorney Texas ever had and prosecuted one of the state's most famous murder cases of all times.

Alfred isn't making an issue of the famous Collier murder cases of 1925, the fight he made in them is his chief claim to fame. The murder trials and "Jimmie" Alfred got nationwide attention during the duration of the trials.

Alfred was serving out an unexpected term as district attorney in Wichita Falls, under appointment from former Gov. Pat M. Neff, when Frank Collier shot and killed Buster Robertson, his youthful son-in-law, on a Wichita Falls street. Collier was mayor of Wichita Falls at the time and a prominent citizen of West Texas generally.

For nearly two weeks the trial of the former mayor attracted nationwide attention. It possessed a love interest, for Collier objected to the romance and marriage of his daughter and the son-in-law from the back of the yards district, whom he shot to death. Mrs. Collier also objected to it.

The jury convicted Collier of manslaughter, accepting the circumstances as extenuating, and assessed his punishment at three years in prison. Mrs. Collier was used as a witness by the defense in an effort to show that the homicide was not premeditated.

A stripping of a lawyer confronted with veteran barristers of many years' experience, Alfred prosecuted the case without employed or special assistance, and came out the moral victor in the eyes of the people.

He didn't stop when Collier was convicted. Alfred contended that Mrs. Collier by her own testimony incriminated herself, took her case before the grand jury and had her indicted for murder. She was subsequently tried and given 10 years, denounced by the youthful prosecutor for allegedly inspiring the homicide. As a youth, Alfred was a bootblack in a barber shop, a newsboy on the streets of Wichita Falls, and sold "chicken and bread" at the trains to work his way through the common schools.

Our next meeting will be September 2 at the home of Mrs. W. M. Horn.—Reporter.

### Building Permits in Texas During July Lower Than in Years

Austin, Texas, Aug. 21.—Building permits issued in 35 Texas cities during July totaled only \$5,922,000, according to figures compiled in the Bureau of Business Research at the University of Texas. Not only were the total building permits in the 35 cities reporting to the Bureau considerably below those of July last year, but construction undertaken in Texas was under that in either last June or in July, 1929. The volume of building permits reported for July is the smallest by far for that month in the five years for which the Bureau has records.

This figure, \$5,922,000, is an increase over the amount reported for June, but is a decline of 25 per cent from the volume in July last year. June figures were \$5,254,000, while those for July last year were \$7,870,000. It is only the substantial increases in Amarillo, Brownsville, Corsicana, Dallas, Denison, Houston and Port Arthur that make the July figure as high as it is, for all the rest of the cities show material losses from last year. Construction undertaken in Texas in July was valued at \$14,004,000, as compared with \$28,692,000 in the preceding month and \$27,460,000 in July last year.

### Granting of Charters Shows Decline in July

Austin, Texas, Aug. 21.—Both in the number issued and in the total capitalization, charters granted by Secretary of State to firms to operate in Texas show a sharp decline from last year, it is pointed out in the monthly survey of the situation made in the Bureau of Business Research at the University of Texas for publication in the Texas Business Review.

There were but 179 new corporations organized in July, with a total capitalization of \$5,709,000. This is the smallest number of charters granted in any July since 1925, whereas capitalization is the lowest since July, 1929. Last year in July, 235 companies having a total capitalization of \$10,898,000 were chartered.

Declines were registered in all of the classifications except the general list. New oil companies fell from nineteen in June to ten in July, and new manufacturing companies dropped from 21 to sixteen. Only three financial institutions were chartered, as compared with seven in June. Real estate and building companies declined from eighteen to sixteen, and there was only one public service corporation organized in each month.

While the number of permits granted to outside corporations declined from 37 in June to 34 in July, there is a tendency for more outside firms to seek permits to operate in Texas this year than was the case in 1929.

### Price Reductions Are Announced by Chev.

Detroit, Mich., Aug. 14.—Price reductions of \$40 on all sport models in the Chevrolet Six passenger car line were announced here today by H. J. Klingler, vice president and general sales manager of the Chevrolet Motor Company.

The models affected are the sport roadster, which is now priced at \$515; the sport coupe, reduced to \$615; the club sedan, now \$625, and the special sedan, \$685. All models formerly were priced \$40 higher.

This latest move of the company brings the price range of the Chevrolet Six to less than the range of the four cylinder Chevrolet at the time of the changeover at the close of 1928. At that time the four was priced from \$495 to \$715, while the nine different passenger models in the six cylinder line today range from \$495 to only \$685, following this latest reduction.

The move of the company comes directly after the announcement that wire wheels may now be had as optional equipment without extra cost on any Chevrolet Six passenger car.

Out to stay out—selling like hot cakes in Great Britain and now in America—the pleasant, easy way to get rid of corns—a joyous, refreshing, invigorating foot bath for 3 or 4 nights and then lift out the corn—roots and all.

They call this miracle worker Radox and since it has been working wonders with the bad feet of the tight little Isles—plasters and acids, cutting and skin destroying liquid belong to the dark ages.

It's the modern way—the sensible way to take out corns—to abolish callouses—to dissolve the hard skin from heels and toes and to put your feet in good vigorous condition so that you can walk and run and jump and dance with ease and pleasure.

Just ask for a box of Radox at Ferguson Bros. or any modern drug-store—you'll be delighted.

### Another Wichita Man Testifies

Wife Gains on Argotane, Wouldn't Be Without It, He Says

Still another well-known Wichita Falls man comes forward with his unqualified endorsement for Argotane. This time it is J. R. Terry, who resides at 1020 Bond Street, that city.

"My wife actually improved so much since she started taking Argotane that it is almost unbelievable," said Mr. Terry in an interview, "and has been benefitted so much in every way that I am glad to make this statement which I hope will be the cause of others who may be suffering as she did before getting relief."

"She had been in such run down condition for the past fifteen years that she felt like she should have been in bed most of the time. She was subject to frequent attacks of dizziness and sick headaches. She also suffered intense pain from the gas on her stomach, and she was habitually constipated. She had a tired aching feeling, all the time, which left her so weak she could hardly stand up."

"She had been wonderfully benefitted by Argotane, in fact, I consider it remarkable the way she has been built up, for she has been relieved entirely of stomach trouble, headaches, and the aching feeling. I am delighted more than I can tell with what Argotane has done for her and we would not be without it for anything. It is by far the best medicine she has ever taken."

Genuine Argotane may be obtained in Crowell at the Reeder Drug Co.

### GOOD AS GOLD

Every day of your life you exchange real money for certain goods or services that you believe are "as good as gold."

You must have confidence in their merit or your exchange is a gamble; a blind horse trade that may mean loss.

The products you know best—the articles that represent the greatest value—are usually those products you have seen advertised.

Only honest products can thrive in the light of publicity. The honest dealer advertises his faith in his products to the world.

That is the reason you can place dependence in advertised goods. You may know that honest products will stand the constant scrutinizing of the buying public that advertising brings to them.

Read the advertisements and buy advertised goods. There is no way to get more "good for your gold."

### BELIEF IN SIGNS

People who do not believe in signs, particularly in road signs, in this day and age are as a rule of few days on earth.

Road signs are put up for a purpose—a wholly commendable purpose—to save people's lives. When their warning is disregarded, it is ignorance of the rankest sort.

A sign reading "Danger, Bad Curve," means just what it says. If there were no danger at the curve, motor clubs and highway commissions would not have erected one there.

A warning sign signifies that there have been accidents at that point—probably fatal accidents—and for one to disregard a friendly effort to save lives and property is unpardonable.

There may be occasions when warning signs seem superfluous, after they have been obeyed, but if the motorist who has such an idea will go back and travel over the same path at normal speed, he will find ample excuse for the sign, if he escapes unscathed.

Road signs require too much time, energy and money for their not to be taken literally and seriously. They are on the road to protect you and others who are driving. Use them.

### Carolina Woman LOST 47 LBS. In 3 Months and Feels Years Younger

"I have been taking Kruschen Salts for nearly 3 months. I have continued taking one teaspoonful in warm water every morning. I then weighed 217 pounds, was always bothered with pains in my back and lower part of abdomen and sides."

"Now I am glad to say I am a well woman, feel much stronger, years younger and my weight is 170 pounds. I do not only feel better but I look better, so all my friends say."

"I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that is in it." Mrs. S. A. Solomon, New Bern, N. C., Jan. 1929.

"P. S. You may think I am exaggerating by writing such a long letter but truly I fell so indebted to you for putting out such wonderful salts that I cannot say enough."

A bottle of Kruschen Salts that lasts 4 weeks costs but 85 cents at Ferguson Bros. and druggists the world over. Take one half teaspoon in a glass of hot water every morning before breakfast—walk a little each day. Do not overeat.

### Vote for RUBEN LOFTIN of Henrietta

### FOR STATE SENATE, AUGUST 23

A vote for him is a vote for the masses and not for the classes.

Opposed to increased taxation or bonded indebtedness. A man who for six years in the legislature voted and worked for all legislation favoring the farmers; the cattle-men; the ex-service men; and the independent oil operators.

Mr. Loftin was born in this district on a Young County farm; and has lived either on a farm or in a small town in this District all of his life. He knows our needs and problems, and can be of great help to this County and District in the Senate.

Let's give him a promotion which he rightly deserves.

Konjola Ends Neuritis And Stomach Pains

Grateful Man Eager to Endorse Famed Medicine That Did So Much for Him

"Konjola is the best medicine ever made," said Mr. W. T. Bryant, 1009 Morrell street, Oak Cliff, near Dallas. "Neuritis became so severe in my legs that I could scarcely walk. There was a constant aching in my back and shoulders. I could never get a perfect night's rest. My

bowels were irregular and I was constantly taking cathartics. I always had a sour stomach. Frequent accumulations of gas and severe headaches. My vitality was at a low ebb, and I felt miserable. "After giving Konjola a trial I am like a different man. Konjola restored my organs to normal condition and they now function perfectly. I am no longer bothered with indigestion or constipation. The neuritis pains have completely left me and my entire system is in good condition. Konjola deserves all the praise it gets—and more." When taken for six to eight weeks, Konjola the new and different medicine, will work wonders that will astonish those who suffer from the

is the choice of Texas for RAILROAD COMMISSIONER

HE carried over 3 opponents, 234 out of 253 counties in Texas. He received at the July primary nearly 200,000 more votes than his nearest opponent. He studied public problems 4 years as Governor of Texas. He served two years as a member of the United States Railroad Board of Mediation. He has been for the past ten months Chairman of the Railroad Commission. The Railroad Commission now has under its jurisdiction the supervision of our railroads, the operation of busses and trucks, the conservation of our oil fields, the preservation of our natural gas wells, the enforcement of our pipeline law, the pro-rating of the oil output, and the marketing of our gas, all of which make the the Railroad Commission the most important and constructive department of our Texas Government. The only benefit the people get from electing a Railroad Commissioner is the service he renders. (Political Advertisement)

TO THE PEOPLE OF FOARD CO.

I sincerely and truly appreciate the large vote given in the first primary and also want you to know that I am in the run-off for tax assessor. It will be impossible for me to again see all the voters, but will make every effort to do so. This is a much better job than I have had and will feel honored if elected to the tax assessor's office.

I am sure that I am qualified to fill the office which I seek and if elected I pledge myself to do everything possible in giving you a fair and efficient administration.

I was born and reared in Foard County and knowing this section of the country as I do I feel that I know the values of real and personal property. I am a high school graduate, had one year in college and completed a course in business administration which I believe thoroughly qualifies me to handle the book work of the office in a most efficient manner.

Thanking you in advance for any support given me on August 23rd, and again thanking you for your support on July 26th, I am,

Most sincerely yours, PETE BELL.

### Henry Black Gives Account of Trip to Chihuahua, Mexico

Three Crowell students attending Sul Ross State Teachers College at Alpine were included in a trip to Chihuahua, Mexico, which was made by sixty-seven students of that institution. Misses Florence Black and Irene Patton and Henry Black made the trip.

An article appears in this week's issue of the Sul Ross Skyline, the school's newspaper, in which an account of the talk made in chapel by Henry Black is given. The main events of the Chihuahua trip are related by Black as follows:

"We all may aspire to be a Thomas A. Edison or a Charles Lindbergh but few of us who went to Chihuahua, expected to realize our dream so soon. To be met by a welcoming party 20 miles from Chihuahua and to roll into the railroad station where hundreds of people were awaiting our arrival and to hear our national anthem being played by a Mexican Military band, made all of us feel that we were distinguished persons.

When we departed for Ojinaga many Mexican officials and two bands were there to bid us farewell. Not only were the people of Mexico gracious hosts but also the Mexican Consul at Presidio, who was largely responsible for our reception and who furnished us with a military escort

to and from Chihuahua. I would not be fair to the Mexican people if I did not tell you about their hospitality. The instinct of hospitality seems to be born in the Mexican and he contrives to put you at your ease. His formalities are never aggressive. His kindness seems to come from his heart and I believe that it would be hard for one to outstay his welcome. He cannot do enough for you. Mexican hospitality is not limited to those who can dispense it. On the contrary, the very poor people are delighted to do something for a stranger. If you ask him how to get to a certain place, he does not merely tell you, but he goes. We Americans can learn much with you.

From the Mexicans. Hospitality is not their only admirable trait. They have developed to high degree the finer arts such as painting, music, and dancing. The trip was very educational and recreational. There was nothing to mar its success.

#### THE STATE OF TEXAS

To the Sheriff or any Constable of Foard County—Greeting: You are hereby commanded to summon J. W. Shaw by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Foard County, to be holden at the court house thereof, in Crowell, Texas, on the fourth Monday in September, A. D. 1930, the same being the 22nd day of September, A. D. 1930, then and there to answer a petition filed in said Court on the 19th day of August, A. D. 1930, in a suit, numbered on the docket of said Court No. 2242, wherein Mrs. J. W. Shaw is plaintiff and J. W. Shaw is defendant, and a brief statement of plaintiff's cause of action, being as follows:

That plaintiff has been for a period of twelve months prior to the filing of this petition, a bona fide resident of this state and has resided in Foard County for at least six months next preceding the filing of this suit; that plaintiff and defendant were lawfully married to each other on the 26th day of September, A. D. 1927, and lived together as husband and wife until about June 15th, 1930, when by reason of cruel, harsh and tyrannical treatment and improper conduct of the defendant toward plaintiff, she was compelled to permanently abandon him, that they have not since lived together as husband and wife; that defendant's action and conduct toward generally is of such a nature as to render their further living together insupportable. That there has been born to this union one child, a girl two years of age, named Mary Ruth Shaw.

Wherefore plaintiff prays that defendant be cited to appear and answer this petition, that she have judgment dissolving said marriage relations, and also that she have custody of said minor child, and for costs of suit and such other and further relief she may be entitled to either in law or equity.

Herein fail not but have before said Court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Crowell, Texas, on this 19th day of August, A. D. 1930.

### Correll Writes About Sterling's Denial of Calling on Ferguson

To Foard Count Voters: Ross Sterling, candidate for governor, repeatedly states he never called on Governor Jim Ferguson when he was in his office when Ferguson was governor.

Jim Ferguson says he came in his office and stated he, Sterling, was in serious trouble with the Banking Department, which was under the late Jno. Patterson as commissioner, and he, Ferguson, pleaded with Patterson to give his friend, Ross Sterling, a chance, and Sterling kept crying until Jim told him to wash his face and dry his tears and come to the Banking Commission Department with him.

A recent ad in the Washington Square News, published at Houston, had the following to say:

"John O. Douglas, prominent attorney of Houston, speaking tonight stated he was connected with Banking Department under the late John Patterson and he had been instructed by Patterson to go to Houston and take charge of Humble and Dayton banks belonging to Ross Sterling and that you as governor went over Patterson's head and caused a cancellation of the Jno. Patterson order, and you came into Patterson's office with your arms around Ross Sterling's shoulder. He stated that he would make affidavit on your arrival here Monday. Same was made in the presence of three hundred Harris County Ferguson Committeemen and Committeewomen."

Trusting that the above information may bring some light on this much-discussed situation, I am Sincerely yours, W. T. Gorrell, Crowell, Texas.

Pastor's Study  
The Sunday School was normal last Sunday. Rev. Foster Russell preached at the 11 o'clock hour and Judge Stokes of Vernon spoke at the evening hour to an appreciative audience. Our people enjoyed having those visitors with them.

The pastor closed a good meeting at Margaret last Tuesday evening. Very large crowds attended these services, a good revival on the part of the church and there were some ten conversions. There were seven who came out and made public profession.

Good prayer services here last night. The attendance was not what it ought to have been. We discussed our coming revival meeting. Bro. F. G. Rodgers of Spur, Texas, has been secured to do the preaching. We begin the fifth Sunday in September.

We expect a great revival. We covet the cooperation of the people who love the Lord.  
Our Wilbarger-Foard Baptist Association meets next week at Thalia, beginning Monday. A large attendance is expected. Crowell pastor is to preach the Missionary sermon.

Next Sunday, Sunday School at 9:45, preaching at 11 and 8. B. Y. P. U. at 7. Come and welcome.  
WOODIE W. SMITH, Pastor.

### CHRISTIAN SCIENCE CHURCHES

"Soul" was the subject of the lesson-sermon in all Churches of Christ, Scientist, Sunday, August 17.

The golden text was from Psalms 63:5. "My soul shall be satisfied as with marrow and fatness; and my mouth shall praise thee with joyful lips."

Included in the citations comprising the lesson-sermon was the following passage from the Bible: "And great multitudes came unto him, having with them those that were lame, blind, dumb, maimed, and many others, and cast them down at Jesus' feet; and he healed them" (Matthew 15:30).

The service also embraced the following citation from "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Knowing that Soul and its attributes were forever manifested through man, the Master healed the sick, gave sight to the blind, hearing to the deaf, feet to the lame, thus bringing to light the scientific action of the divine Mind on human minds and bodies and giving a better understanding of Soul and salvation" (page 210).

# Of Course

WHEN you want to get down-town in a hurry, you don't sprint ten or twenty blocks in order to be there on time. You take an automobile.

When you want to ask a question of a friend who lives a mile or so away you don't walk to his house to find out what you want to know. You call him on the telephone, of course.

And so it goes—in all the affairs of your daily life. You take the easy, intelligent means of accomplishment every time.

When you want to buy a refrigerator or a car or a piano, you don't need to look all over town to discover the kind you want. You read the advertisements in your newspaper. They bring you all the facts necessary to decide just which refrigerator or car or piano will give you the most satisfaction, how to pay, where to buy it.

You buy through the advertisements because they save time and effort. Because they enable you to command certain values. Because they assure you of getting reliable and economical products every time.
