School year closes today for pupils; graduation is Friday

Except for high school commencement exercises and the picking up of report cards, the 1963-64 school year ends today for students in the Post Public Schools.

Fifty-four members of this year's Senior class will receive their high school diplomas in graduation exercises at 8 p. m. Friday in Antelope Stadium.

The 79 members of the 8th grade class were to be promoted into high school at exercises at 3 p. m.

today in the Junior High School assembly room.

Report cards are to be handed out to elementary school students today. High school and junior high school students may pick up their report cards Monday. Those not picked up will be mailed to the students later, school officials said.

High school commencement began Sunday for the 54 Seniors with the baccalaureate program in Antelope Stadium. Bernard S. Ramsey, minister of the First Christian Church, delivered the baccalaureate address.

The program for Friday night's high school graduation exercises will be as follows:

Processional, high school band, directed by Bruce Evans; invocation, Ernest McCoy, minister of the Post Church of Christ; salutatory, Linda Pennell; valedictory, Curtis Hudman; "Halls of Ivy," special group; "Graduation Day,"

special group; class history, Susie Jo Schmidt;

Presentation of awards, Principal T. C. Clark and Supt. Barry B. Thompson; "Moments to Remember," Senior sextet; presentation of class to school board, Supt. Thompson; presentation of diplomas, E. R. Moreland, president of school board; "Climb Every Mountain," Senior class and special group; school song, Senior

City 'Comprehensive Plan' committee to be appointed

A City Citizens Committee will be named Monday night at the city council's June meeting to make recommendations on the recently completed "comprehensive plan for the City of Post".

The plan includes proposed zoning ordinances, subdivision regulations, a long-range capital improvements program with a suggested method of financing, and urban redevelopment and maintenance.

Mayor Harold Lucas said the final lineup for the citizens committee will be completed at that meeting. The committee has been in the discussion stage at the council table for the last several months.

The final report on the city planning study, a bulky 88-page book, was delivered here Tuesday by T. E. Lundy, project engineer in charge of the study for Fowler & Grafe.

Lundy spoke before Post Rotarians at their Tuesday luncheon in city hall and handed out a number of the final reports for a quick check by Rotarians.

"If the comprehensive plan for Post is to be realized," Lundy told Rotarians, "it must receive the full understanding and support of citizens and public officials."

The city planning project, to provide guide lines for Post's future development, has been jointly financed by the city and the federal government.

Most of the details of the comprehensive plan have been included in extensive news reports carried in The Dispatch over the last three years, as each segment of the study was finished.

The comprehensive plan is the eighth and final report in the series.

It is understood, the council will

ask the yet-to-be-formed citizens committee to make a thorough study of the plan and to make its recommendations as to what should be implemented at this time.

Included with the final report—of which some 75 copies were delivered—are a number of maps, which Lundy proposed being placed in a number of downtown store windows so citizens could study the proposed zoning and traffic network for the city.

Probably the most controversial recommendation of the plan is a city storm drainage system, which Lundy admitted "will be expensive."

The report contains a wealth of important data on Post and Garza County, the most probably ever compiled about this community.

Mayor Lucas said interested citizens could "check out" copies of the Comprehensive Plan from city hall, but the council would like to have them returned for future use.

Business establishments are being asked to close from 10 until 11 a. m. so employees can attend the service.

Barry B. Thompson, superintendent of the Post schools, will make the principal address. The program will also include an opening and closing prayer, roll call of deceased veterans, firing squad salute and taps, and decorations of veterans' graves at the cemetery.

Also in connection with this year's Memorial Day observance, the VFW post and auxiliary held their annual Buddy Poppy sale last Saturday. A complete report of proceeds from the sale of the poppies is not yet available, chairmen said, but the sale was described as "successful."

Other departments had not been effected by the cutback.

Burkes also announced that the Post Cotton Mill will observe the week of June 29 through July 5 as vacation week.

The mill will close down at the end of operations June 27th at 11 p. m. and will resume operations at 11 p. m. July 5th, he said.

Burkes said all eligible employees are to receive vacation pay based on length of service.

CONDITION SERIOUS

The condition of Lucy J. Richardson of 103 South Ave. S was reported as "still serious" yesterday afternoon in Garza Memorial Hospital. Mr. Richardson, a longtime resident of Post, was admitted to the hospital Saturday night after suddenly becoming ill at his home.

WEEK IN HAWAII

Mr and Mrs. Dan Cockrum left by plane today from Lubbock for Hawaii where they will be guests for a week of Underwood-Olivetti at the Hilton Hawaiian Village Hotel.

Most dryland cotton unplanted, but—

Two showers in 36 hours brighten crop outlook

Showers Tuesday night and early this morning brought over an inch of welcome and much-needed moisture to the Post area, but little if any moisture was reported east and northeast of Post in dryland cotton areas.

Early morning moisture today varied over town from .7 to 1.1 inches, according to various rain gauges.

The official gauge at the courthouse recorded .8 of an inch where as the one at the highway warehouse had a 1.1 inch reading.

The thunderstorm struck shortly before 2 a. m. with a hard 30 minute deluge mixed with light hail. Plenty of lightning and thunder sounded the advance alarm for the closing of windows.

The hail was not believed damaging and first reports from rural areas indicated the hard rain did no damage to young cotton on the plains.

Homer McCrary, night police dispatcher, reported that two tornado funnels were sighted west of Snyder, but apparently did not touch ground.

Intermittent showers Tuesday night brought moisture varying from .5 to .8 inches.

Laundry heavily damaged by fire

A fire, which apparently caught from an air-conditioner, caused damage estimated at several hundred dollars about 1:30 p. m. Sunday at the City Laundry, 404 South Broadway.

W. C. Sullivan, owner, said the interior of the building was extensively damaged and several bundles of laundry destroyed. "The fire also destroyed our books and other records," Sullivan said.

The owner said he was at the laundry until about 11:30 a. m. and had left the air-conditioner on when he went home for lunch.

Repairs are under way this week at the laundry, but there has not been a complete shutdown and laundry is being accepted, Sullivan said yesterday afternoon.

Less than 30 minutes after answering the alarm turned in on the laundry fire, firemen were called to the Snak Shak, where Stanley Martin's automobile had caught fire. Only minor damage was reported and the fire had been put out when firemen arrived.

Total cost pared down to \$300,153

Contract signing okayed for public housing units

The Post Housing Authority at a special meeting late Tuesday afternoon authorized Luther Harper, its executive director, to sign a contract in Fort Worth, probably today, with the Barker Construction Co. of Quanaah for construction of a 28-unit public housing project here.

The Barker Construction Company was the low bidder here April 29 among five bidders for the job.

Barker's bid was for \$316,700, but through the elimination of a number of planned items in the original contract the bid has been reduced by \$16,547 to \$300,153, Harper told Post Housing Authority Directors.

The Public Housing Authority regional office at Fort Worth and the architectural firm at Fort Worth have been working the last three weeks to get the low bid more in line with funds allocated for the project.

Harper was authorized to sign the contract by a unanimous vote (See Contract, Page 8)

Last rites held here Tuesday for Bill Cates, 14

Funeral services for William Joseph (Bill) Cates Jr., 14, son of Mr. and Mrs. William J. Cates Sr., who died Sunday morning at his home here after an illness of over a year, were conducted at 3 p. m. Tuesday at the First Methodist Church.

The Post schools were dismissed at noon Tuesday so that students and faculty members could attend Bill's funeral. He was an eighth grade student in Post Junior High School and a member of the class that is to graduate into high school in exercises this afternoon.

Bill died of a brain tumor after having undergone three operations in a Houston hospital. He was returned to his home here from the Houston hospital for the last time on March 15.

Bill started to school in Post after having moved here with his parents from Atoka, Okla., where he was born Feb. 9, 1950. He was popular with all his classmates and teachers and took a part in all school activities, including athletics. He played Little League baseball for the Dodgers and later Babe Ruth League baseball for the White Sox, of which team he was a member at the time of his death.

Bill also took a part in youth activities in detail.

The county agent said about 15 anchors attended the livestock meeting sponsored here last Thursday night by the livestock subcommittee of the Garza County Program Development organization.

Speakers at the meeting were Dixon Hubbard, area livestock specialist, and P. T. Marion, superintendent of the Spur Experiment Station.

Chamber to draw up work program

Post Chamber of Commerce directors were scheduled to meet at 2 p. m. today in the city council room to draw up a program of work for the current club year.

The program of work recommendations of a special committee will be presented at that time for action.

The program of work was taken from suggestions presented at the recent Community Workshop.

Frank Blanton, Chamber president, said not all suggestions could be incorporated into the first year's program, but as many as possible will be included.

Funeral held for W. F. Owings, 96

Funeral services for W. F. Owings, who at 96 was one of Garza County's oldest residents, were conducted at 2 p. m. Saturday in the First Baptist Church.

Mr. Owings, who lived on South Avenue F, died last Friday in Garza Memorial Hospital following a lengthy illness.

A native of Lincoln County, Missouri, Mr. Owings had lived in Post and vicinity since about 1920. He was a retired farmer and a member of the First Baptist Church.

The Rev. Lee Jones, pastor of the Calvary Baptist Church, officiated at the funeral, assisted by the Rev. Joe Vernon, First Baptist pastor. Lex Roby, the church's minister of music and education, sang "When They Ring Those Golden Bells" and "Amazing Grace," a number the family had especially requested.

Burial was in Terrace Cemetery under the direction of Mason Funeral Home. Pallbearers were Kenneth Bullard, Corky Bullard, Marvin Williams, Bandy Cash, Roy Gary and Junior Hubble.

Young Farmers to attend meeting

Garza County Young Farmer chapter will meet jointly with the group at the cotton production meeting at 8 p. m. Tuesday, June 2, in the district courtroom. County Agent Syd Conner said today.

Since the first Tuesday is the Young Farmer chapter's regular meeting night, they decided to attend the cotton production meeting scheduled for the same night.

Speakers at the meeting will be Don Rummel, who will discuss the cotton insect situation and control measures, Bill Gunter, who will discuss the latest cotton week recommendations, and Robert Berry, who will discuss cotton diseases in detail.

Follow-through big need now

Now is the time for action on the recently submitted report by the Post Chamber of Commerce's civic improvement committee on the proposed community building.

The plan of action is mapped. It needs implementation. It needs—and in the worst way—prompt follow-through.

The committee's plan was simple. It went to the people, asked for everyone's opinion and then recommended a plan in which each step was solidly favored by a large majority of the people interviewed via questionnaire as to our thoughts on this need.

It calls for joint city-county financing of a community center to be built in the city-county park. It says it can be financed without any additional taxes. It shows pretty clearly that this is the No. 1 project in people's minds.

The committee has done a thorough and painstaking job. If there are unanswered questions then let us ask them in a joint session of the city

council and the county commissioners court with Chamber representatives presenting the report.

The recently completed Community Workshop showed clearly enough that the community center rates No. 1 today as our No. 1 civic need in the minds of our thinking citizenry.

The next step is clear enough—presentation to a joint meeting of city and county fathers. Let's set the date. Let's move.

Planning and research is the proper way to first tackle any problem. That has been done by the committee as thoroughly and completely as it could possibly be done.

The next step is consideration and action. That should come in the next two weeks.

If Post is to progress, we must not only have the planning and research, but also the follow-through. So let's set the date and make a decision.

Again it's time for a yes or no, not a maybe. —JC

Never so much for so little

We would ask our school patrons to look back a single school year and note the tremendous amount of progress which has been made in "quality education."

A year ago, your new administration found in Post a virtually new physical plant, at least in terms of educational years—and a faculty to teach in those classrooms.

The shortcomings they found were basically two—the lack of teaching aids and equipment for those teachers and those classrooms and the lack of real teacher incentives to make a real all-out push for the best education possible for our youngsters.

The administration tackled these two problems with a vim and vigor never seen here before. Into a "hold the line" budget went every possible dollar for teaching equipment. But that wasn't all. An inquiring and alert administration jumped at every chance for state grants for such equipment through experimental educational programs—programs in which the administration strongly believed. They made a good start on solving the equipment need.

In the next school year, more needed equipment is earmarked for purchase through local district funds and through state grants. Not as much will be bought from local funds next year, because the initial year saw the all-out effort to bridge the gap and not as much is now needed.

But the additions will be substantial—and beneficial.

This is a giant stride toward "quality education."

called the school advisory committee, in seven months spent hundreds of man-hours and woman-hours studying school needs and school problems.

They came up with recommendations—a whole flock of them. But they, too, were economically-minded.

One of them was to provide teacher incentives—to add to incentives already given so well by administration leadership and organization. The incentives were two—to give \$100 incentive pay to each teacher who goes to summer school to improve himself or herself for future years in local classrooms, and to match the state increment of \$225 for master degree teachers.

This "incentive package" will cost the district \$5,750 next year.

It can be afforded without the threat of any return to deficit financing.

The citizens group thinks, unanimously, this is truly a price which can be afforded for proper teacher incentive. They think, too, this is a proper place to put added salary benefits.

Across-the-board salary increases, which benefit all teachers the same, would give no real incentive to the teacher.

In return for the small amount of tax dollars in the proposed "incentive package" the district receives added benefits in more teacher training for their classroom work.

A hundred dollars for a term of summer school doesn't pay but a fraction of the cost for such training to the teacher. But it IS incentive. It encourages them to take such work. The proposal to match the state increment for master degree teachers is an incentive for teachers to push on summer after summer to obtain such degrees, and to stay on our local faculty once they have been obtained.

These are important incentives, real morale builders to a faculty now enthused at the opportunity to build a quality education in a smaller school system.

The most important consideration here, too, is the timing involved. Now is the time to provide them. It involves no hard-to-make decision for increased taxes. The district can afford it. It isn't a big expenditure. Dollar for dollar it would bring by far the biggest return than for any other item in the entire school district budget.

Before the 1964-65 school district budget is voted final approval by late summer the choice needs to be made.

The Dispatch hopes it will be made by your school trustees at their June meeting Monday night—with the full and enthusiastic backing of school patrons throughout the district.

Never can we buy so much for local education again—at such a very small price.—JC

Memorial Day Saturday, May 30

Memorial Day, which is Saturday, May 30, is squarely in the American tradition. More than that, it is a reflection of the American character.

We are a sentimental people. And that, most certainly, is nothing to be ashamed of. It is a source of kindness, of consideration for others, of the compassion that distinguishes us from the lower animals.

And Memorial Day represents a special and wholly admirable form of sentiment. When we place our flowers on graves, in sadness and in pride, there is an uplifting of the spirit. We are expressing love. And we are paying tribute to the virtues and dearness of those who passed on before us. And, even if we do not visit a cemetery, we remember, and in that way the dead take on a new form of life.

Primarily, of course, Memorial Day is for honoring the war dead, but it is also for remem-

bering all our other loved ones who have gone on before. The only planned observance in Post will be the 10 a. m. annual Memorial Day service of the Veterans of Foreign Wars and American Legion posts. Everyone who can is urged to attend this special service at Terrace Cemetery. And business places are being asked to close from 10 until 11 a. m. so that owners and employees can attend the Memorial Day service.

Since Memorial Day this year falls on a weekend, highway travel will be heavier. For that reason, everyone is urged to make this holiday a safe, sane and sensible one for himself and his family. Help keep Memorial Day a day of respectability instead of a day of infamy on the highways. This holiday, which we observe at the beginning of our summer vacation, should be filled with only pleasant memories.—CD

What our contemporaries are saying

There's something "rotten in Denmark" about that Bobby Baker case. Unfortunately, politicians try to make these things a partisan political issue. Until and unless the scandal is cleared up, the taint will remain on the escutcheon of the President, members of the Senate, and many other government officials. No man can legally become wealthy in such a short time working as a hired hand of any agency of the government. Party affiliation should have nothing to do with it.—Frank Hill in The Lynn County News.

There is nothing like a dish towel for wiping that contented look off a husband's face.—James Roberts in The Andrews County News.

When the government left crop control to the buzz and grasshoppers, we didn't have a crop control problem.—The Haskell Free Press.

The size of a man's heart is in no wise measured by his girth, but rather by the freedom and frequency of his hand in his pocket.—Douglas Meador in Matador Tribune.

THAT MAN UP the Street says even your best friends won't tell you some of your faults—but television commercials will.

Our cat Blackie, as shown above, tried to pull a fast one by taking a Sunday outing in a Press car. But Blackie soon learned that even the power of the press is of no avail in a traffic jam.

THE DISPATCH was delayed, but only briefly, last Thursday morning by the tragic highway accident that took six lives southeast of Post. We sacrificed a couple of hours' time in order to bring the story of the accident to our readers even before the wreckage had been removed from the scene.

When The Dispatch staff arrived at the office a few minutes before 8 o'clock last Thursday morning, the front page, which had been "dummed up" the afternoon before, was practically ready to go, with the story of the previous Friday's storm and welcome rainfall the No. 1 story. But things changed in a hurry.

BOTH THE PUBLISHER and the editor were in the front office when City Supt. Eddie Warren, former owner of The Dispatch, came in with a tip on the wreck. We immediately halted make-up work on the front page in the back shop, sent back a new "dummy" with the yet-to-come wreck story replacing the storm story, which was a given a prominent place farther down on the page.

THAT DONE, WE set about getting all the available information on the wreck, which wasn't easy, since it occurred more than 20 miles away and the investigating officer, Highway Patrolman Henry Harden, was still at the scene. Some fast footwork and telephoning enabled us to get enough facts to send back a story and get the press rolling until we could get additional information.

The first story did not identify the victims, since that information is never released by officers until the next-of-kin is notified. While the press was rolling with the first story on the wreck, the editor and one of the back shop employees made a fast trip to the scene of the wreck, only to learn that Highway Patrolman Harden had gone into Snyder, another 20 miles away, where five of the victims had been taken.

GAMBLING ON THE chance that identification of the victims had been called in to The Dispatch office by then, the editor and printer returned to Post. Sure enough, the publisher had "stayed on top" of the story, and the press was now rolling with a "new" story that identified the wreck victims.

Everybody got their Dispatch just about on time and were able to read all the facts on a wreck that had occurred only a few hours before. Incidentally, during such a frantic time, a newspaperman is rarely able to devote full time to the task at hand. In addition to rounding up the information we needed for The Dispatch, we had to answer the telephone to "fill in" other newspapers and the Associated Press on what facts we were able to give them at the time they called.

ON SUCH OCCASIONS, the newspaper gets lots of help from every-body concerned, including the investigating officers. Private citizens, too, go out of their way to help make it easier for us to get the story. Mrs. Sid Cross, who with her husband operates the Texaco Station at Justiceburg, helped keep us informed on the movements of Henry Harden and other officers investigating the wreck, which was about seven miles down U. S. Hwy. 84 from Justiceburg.

All of which makes for a lot of work, but to any newspaperman, it's well worth it.

ONE OF OUR grouchy readers points out that it may be possible to by-pass all of America when the Federal Interstate Highway System is completed.

Someone else asks, why is a sheet of paper like a lazy dog? He answers, alas: A sheet of paper is an ink-lined plane. An inclined plane is a slope up. A slow pup is a lazy dog.

FARM EXPORTS UP In the first eight months of this fiscal year, U. S. agricultural exports totaled more than \$4 billion; exports for the year are expected to reach \$6 billion. Strong gains have been registered by wheat, cotton and feedgrains. Poor harvests abroad last year were a major cause for the upswing.

The Casualty Count by Jerry Marcus

42,700 persons died in highway accidents in 1963.

Five years ago Mrs. Bob Williams, 24, dies in Lubbock hospital; funeral services held for Mrs. C. A. Batchelor; pelting rains damage cotton; 2,000 fans help get rodeo off to big start; Supt. R. K. Green and Mrs. Green honored with surprise party by school faculty; R. T. Smith hired to take over school superintendent's duties July 1; Joyce Short, bride-elect of Mike Vardeman, is honored with shower; Kathy Jones, Linda Driver and Joyce Josey are winners in "Cotton Carnival Style Show"; Girl Scouts enjoying a cook-out were Susan Cornish, Meredith Newby, Elisabeth Tubbs, Deborah McCambell, Sherry McAfee, Frances Hazen, Judy Poole, Paula Smith, Janice White, Barbara Britton Vicki Wilks, Carolyn Carlisle and Marcella Glenn.

Twenty years ago Dr. B. E. Young moves into new dental clinic from old office in the Double U building; restriction on farm slaughter of livestock is removed; "Victory Gardens" still being used; F. J. Robinson, son of Mrs. Ida Robinson, promoted to captain; Luther Bilberry completes naval training at Norman, Okla.; Hansford Hudman reports back to duty after a 18-day visit here with his wife and small son; magazine section, complete with pictures and stories, added to regular issue of Post Dispatch and is to be monthly feature; Frank Stokes shows grand champion steer at 4-H Club Livestock Show; John Herd is leader for fifth war loan drive, assisted by T. R. Greenfield.

Q. As a peacetime — or "cold war" — veteran, am I entitled to treatment in a Veterans Administration outpatient clinic or by a private doctor and have the VA pay for it?

A. You are entitled to outpatient treatment, or treatment by an approved private physician as well as medicine and bandages ONLY if you are a veteran (either peacetime or wartime service) with a disability incurred or aggravated in service.

Q. I understand that if someone else assumes my GI home loan mortgage I am still personally liable for repayment of the debt. Can that be?

A. The sale or transfer of property subject to or by the assumption of a GI loan generally means that the purchaser does NOT become personally liable for the repayment of the debt. The original veteran borrower still remains liable for the debt. However, in certain cases the lender, with prior approval of the VA may consent to the release of the veteran's personal liability. Consult your lender.

Q. Is a veteran who was drafted and served only a two-year hitch and saw no actual wartime service eligible to be buried in Arlington or any other National Cemetery?

A. Yes, any veteran who has a discharge other than dishonorable is eligible for burial in a National Cemetery. Application should go to the superintendent of the National

Recruit training ends for Marine

SAN DIEGO, Calif. (PH) Marine Pvt. Gerald R. Gere of Mr. and Mrs. Amos G. of Route 2, Post, Tex., on recruit training recently at Marine Corps Recruit Depot, Diego, Calif.

Marine recruits undergo more than 100 hours of physical training, spend more than three weeks to drill, and learn how to rifle and marksmanship in their 11 training program.

Several hours are devoted to spiritual and character courses. Production of good Marines and responsible citizens are the two primary objectives of the program.

In the physical fitness test the recruits run, lift logs, ropes, conquer three different obstacle courses, progress the variety of body-building exercises, swim and participate in organized games. To measure progress they take four measuring tests.

Esprit de corps, teamwork, discipline are products of instruction.

Following graduation, he port to Camp Pendleton, Calif. advanced infantry training.

Third largest meteor crash the U. S. is ten miles south of Odessa, Texas.

Cemetery in which burial is made. Any VA office will provide assistance. Application should be made at time of death for sites are not reserved.

Scout Summer camps will open on June 7

Camp will open at both Camp Post and Camp Tres Ritos on June 7, according to Howard ... chairman. Both camps ... for a period of six weeks ... Explorer Scouts and Explorers of South Plains Council. Some 93 ... are presently signed up to attend summer camp, and many others are in the process of completing arrangements for going to ...

type feeding, a beautiful swimming pool, lake for boating and canoeing, archery, riflery, and all of the various outdoor skills of Scouting. Camp Tres Ritos offers a rugged mountain type camping experience, where the units cook their own meals outdoors, and have plenty of opportunity for pioneering, conservation, nature, fishing, and archery, plus the many varied outdoor skills of Scouting.

THIS SUMMER promises to be one of the best summer camping programs in the history of the South Plains Council. Units check into Camp on Sunday afternoon, after 2 p. m. and then check out of camp on the following Saturday after the breakfast meal. Boys may earn merit badges while in camp and also plenty of the outdoor skills of the Scouting program. There is ample opportunity for citizenship training and character building, and physical fitness

A Moment With God

THE SPIRIT OF POWER

You shall receive power when the Holy Spirit has come upon you. Acts 1:8 RV

The Greek word here translated "power" is dynamis, from which our English word "dynamite" is derived. The Holy Spirit is indeed. He change men, transforms their institutions, and revolutionizes their ways of life. He is no feeble and sentimental spirit.

The power of the Holy Spirit is limitless; but our capacity to receive Him is not. Our Lord, being God, was baptized by the Holy Spirit "not by measure," but we who are only human and are restricted in our ability to receive spiritual power. Nevertheless each of us, because the Holy Spirit works within and becomes strong in Him. On his own, St. Peter was afraid even to go into Caiaphas' courtyard; after the Spirit came upon him, he was afraid of nothing. The reason why the witness of the church is so feeble in our time is that Christians have not received the inexhaustible power of the Spirit of God. Some indeed become heroes of the faith, standing up courageously to persecutions and their persecutions. As we contemplate the possibility of ourselves being put to such a severe test of faith, we become fearful. Left to ourselves, we should undoubtedly succumb. But the Spirit who lived in the martyrs is able to make us strong too.

Strengthen our souls, O Spirit of power, that we manfully witness for Christ, our Lord. Amen.

CHEAPER EATING HERE
Americans spend only 19 per cent of their take-home dollar on food. Compare this to 30 per cent by the British, 50 per cent in some under-developed countries. Research on more efficient production and marketing, and better ways to control insects and diseases have helped keep food costs down.

RED MEAT IMPORTS
U. S. imports of all red meats in January - February 1964 totaled 186.7 million pounds, 13 per cent less than the same period in 1963. Beef imports were 11 per cent lower; pork imports were about the same; lamb imports were down 22 per cent and goat meat imports were down 51 per cent, according to the USDA.

Mustang leads the stampede the big Ford started. This has been the hottest sales year in Ford Division history. We have a winner in the Super Torque Ford, a car so well built, so predictably tough, that competition-modified Fords took eleven of the last twelve NASCAR 500-mile races. Ford sales are up 17% this year. We have a luxury car that's taken off like a skyrocket: Thunderbird, with sales up 68%. Falcon is selling almost as many cars as Valiant and Chevy II combined. Fairlane continues to be a favorite in its own field. Now comes Mustang ... turning the trend to Ford into a downright stampede. Mustang, by any measure of sales or excitement, is the most successful new car ever introduced in America—ever. When you see a stampede, it makes sense to find out what started it. That's something only your Ford Dealer can tell you about.

Post Lions try out skeet range

Members of the Post Lions tried out their new skeet following Tuesday night's regular weekly dinner meeting.

The new range, which is being nearing completion, is located at the Post Stampede grounds. "A fine range will be in operation there," is the report from the club.

Reports were heard at the meeting on Saturday's broom which was described as "a successful sale."

"The Lions Club and the Post of Texas at Pilot Point thank everyone who purchased these products here Saturday made this worthwhile project a success," a Lions Club spokesman said today.

STATELY MANSIONS

Recognize this building? Whether you live in Yuma or Butte — or Concord or Dallas you know that this is the dome of the Capitol in Washington. And what is more, you would be able to identify the Eiffel Tower or the Taj Mahal without a second glance. All of us are attracted to and enticed by faraway places. And yet we tend to ignore and take for granted things and places of interest and beauty at our very "back door."

Our lives, too, have lofty domes and towers that we may be unaware of. We develop our physical bodies, our personalities, our talents, and we think we've done everything necessary for happy living. Yet it is a fact that unless the higher, spiritual life of man is developed also, lasting happiness is impossible. And when we live entirely on the materialistic level, we are only half alive.

Open your eyes and look to the Light. Discover your full potential by joining and supporting the church of your choice.

Mahon will be speaker at SU commencement on June 1

GEORGE H. MAHON

will be awarded — to Shuchi Matsumura, Japanese Baptist leader, and Douglas Carver, pastor of the First Baptist Church of Pampa. Rep. Mahon had his sights set on a seat in the U. S. Congress when he enrolled in Hardin-Simmons after graduation from Lorraine High School in 1918. Encouraged by Dr. J. D. Sandefer, then president of H-SU, he worked his way to a Bachelor of Arts degree and then entered the University of Texas to earn his law degree, just one year later. He was elected county attorney at Colorado City in 1926, and the next year became district attorney. When the 19th Congressional District was created in West Texas in 1934, Mahon ran for the office and was elected. He has held the post ever since, becoming one of the most respected as well as powerful members of Congress.

Seaman Beard's ship ends training cruise

USS ESSEX (FHTNC) — Bobby L. Beard, seaman, USN, son of Mrs. Lee Beard of 312 North Ave. 1, Post, Tex., is serving aboard the anti-submarine aircraft carrier USS Essex which recently completed refresher training at Guantanamo Bay, Cuba. Refresher training is conducted periodically to increase the combat readiness of a ship. Exercises, under simulated battle conditions, were conducted in damage control, air defense, anti-submarine warfare and flight operations. Essex normally operates as the hub of an anti-submarine "Hunter-Killer" group composed of surface, sub-surface and air units designed to find and destroy enemy submarines. Essex normally operates out of Quonset Point, R. I.

A COOK'S TALE

The first cooking utensils were hollowed-out shells and stones. They gave way to ceramic-ware centuries later. The ancient Egyptians stored water and food in huge pottery jars, and cooked in pottery bowls over open fires or in clay ovens.

Heavy iron pots were common by the 17th Century. Heavy cast iron kettles, frying pans and stewing pots were found in every home. Our colonial housewives cooked the evening meal in iron pots suspended over a blazing log fire in a huge kitchen fireplace.

Today's homemaker does not yearn for the "good old days." With her modern range and light-weight, even-heating aluminum cookware, she not only cooks better than her forebears but is spared the drudgery and discomfort.

Pvt. Howell ends recruit training

SAN DIEGO, Calif. (FHTNC) — Marine Private Gary G. Howell son of Mr. and Mrs. Arthur C. Howell of Route 2, Post, Tex., completed recruit training May 6 at the Marine Corps Recruit Depot, San Diego, Calif. Marine recruits undergo more than 100 hours of physical conditioning, spend more than 80 hours learning how to drill, and devote three weeks to rifle and pistol marksmanship in their 11-week training program. Several hours are devoted to spiritual and character - building courses. Production of good basic Marines and responsible patriotic citizens are the two primary objectives of the program. In the physical fitness training, the recruits run, lift logs, climb ropes, conquer three different obstacle courses, progress through a variety of body - building exercises, swim and participate in organized games. To measure their progress they take four strength-measuring tests. Esprit de corps, teamwork and discipline are products of drill instruction. Following graduation, he will report to Camp Pendleton, Calif., for advanced infantry training.

NOTEWORTHY PRODUCTION
AgTex Dec Pabst Fayne, a five-year-old registered Holstein cow, owned by Texas A&M University, has produced 18,500 pounds of milk and 574 pounds of butterfat in 305 days. The Holstein - Friesian Association of America made the announcement and listed the production as noteworthy. They said AgTex's production compares with an annual output of 7,500 pounds of milk and 275 pounds of butterfat for the average U. S. dairy cow.

FOR FARMERS ONLY!

ARE YOU A FLFWTMMM?

* Farmer looking for ways to make more money.

2100% return on investment sounds phenomenal, but that is the sort of return cotton farmers in this area can receive this season.

The investment is one boll of cotton every 7 feet down the row. The kind of results to be expected is an extra boll of cotton on every stalk.

These statements come from 9 of the nations leading soil scientists who have devoted most of their lives to soil fertility in the southwest and especially in the plains.

Such authorities as Dr. Alex Pope, Dr. Bill Trogon, and Dr. Gaylord Hanes have been instrumental in the manufacturing of a completely new product at the new Plains Division Plant located at Plainview. This new product for plains soils has been named "Am-Sul-Phos".

Am-Sul-Phos contains almost three times as much nitrogen as phosphorus. The nitrogen is in a form highly resistant to leaching and losses to the air. The phosphorus is highly water soluble. The remainder of the pellet is soluble sulfate ion which reacts with excess calcium in the soil, thus giving maximum uptake by the crop of phosphorus and nitrogen as well as minor elements such as iron, zinc, boron, and manganese.

The product was used in experiments last year. Yields were increased as much as one bale of cotton per acre over standard fertilizer practices in many field scale experiments.

A 100% increase in grain sorghum yield, with high protein grain and 400% or more profit on your fertilizer investment?

Sound far fetched? ? Not at all!

Best's staff of experienced Agronomists has developed an entirely new product which contains the correct ratio and sources of nitrogen and phosphorus which combined with the sulfate ion (SO4) will result in greater efficiency of nitrogen and phosphorus uptake and in a more balanced nutrition for grain sorghum.

What is this product? - "Am-Sul-Phos".

If you have not fertilized your sorghum this year, "Am-Sul-Phos", applied as a sidedress before the sorghum is 10 inches high can double your yield and increase the protein content of your grain.

If you have applied part of your fertilizer at or before planting, apply the rest as a "Am-Sul-Phos" sidedress.

To combat illiteracy, group recommends

Adult education urged in both reading, writing

(EDITOR'S NOTE: This is the third in a series of articles on the recommendations of the Lay Advisory Committee, which recently completed a seven months study of Post school needs.)

A writing and reading educational program for adults has been recommended by the School Advisory Committee for Post.

The committee noted that there "are some 690,000 illiterates in Texas." Such a program would be aimed at educating those Latin Americans who cannot read and write in English.

The committee also recommended in its school-community division that a thorough going orientation (explanation of school policies) be held for all students at the start of each school year.

The committee, also in the school-community field, recommended that the "image of the school" can be improved through more open houses of schools and providing special projects for parents so patrons can "come and see what your tax dollar is being spent for."

The advisory committee also urged all parents be provided with information on parental responsibility in connection with Texas compulsory school laws.

The committee suggested that worthy students can be recognized for outstanding achievement by the community and school through presentation of jackets and plaques and "such recognition could come through local civic and service clubs."

The committee reported it felt there is room for improvement in the overall school program and that the relationship between home and school needs more attention.

"We believe many varied types of citizens within the community have a contribution to make to the schools' extra-curricular studies," the committee report also declared. "There are also many capable

citizens who would be glad to share some of the burden of counseling to students."

The committee recommended the upgrading of the teaching staff "as a continual endeavor."

It urged the in-service training program for teachers be stimulated and that it be determined if certain organizations or firms within the community would like to offer teacher-scholarships to encourage local teachers to continue summer studies.

Postings—

(Continued from Page 1) by the Public Housing Authority at least is about to move into the "action stage."

The Chamber directors had to wait 60 days to draft their program of work for the year in order to schedule the Community Workshop, but the wait they believe has been well worth the results and enthusiasm obtained.

That Comprehensive City Plan is loaded with interesting statistics which we will present in this column from time to time for readers to mull over. Here are just a couple.

The movement of folks from farm to city has brought about a tremendous population change right here in Garza County. In 1930, 70.1 per cent of the county's population lived in rural areas, 29.9 per cent in Post. In just 30 years those percentages have been exactly reversed. Today, including over a 20 per cent growth in county population, 70.5 of Garza folks now live in Post, only 29.5 per cent in rural areas outside Post.

The other "statistics" we think will interest you is that while unemployment in the United States in 1960 was six per cent of the total work force, unemployment in Garza County was only 3 of one per cent. In 1950 the percentage was 3.9 for the U. S. as a whole and 3.6 per cent for Garza County. "Out-migration of unemployed workers keeps the percentage of unemployed in Garza County, particularly the City of Post, far below state and national levels," the final report declared.

The Flower Shop will be moving this weekend to a new location at 411 North Broadway, as you will note in the shop's announcement ad on page 3 of today's Dispatch. The floral firm will remain in business at its present location through Saturday and open for business Monday in the new location, 11a Fae Mathis announces.

Our apologies on being a week late with this paragraph on a new business firm on Post's Main Street. Allen and Tena Johnson have moved to Post and opened Johnson's Used Clothing at 129 East Main, as the reader will note on page 4. The Johnsons buy, sell and trade used clothing. They have been in this business off and on for 17 years, operating used clothing stores at both Snyder and Odessa before moving to Post 10 days ago. The Johnsons have one daughter, Sharon Lee, 16, and are living in the back of their store.

Oliver McMahon does NOT plan to retire in June as assistant postmaster here, he said this week. In last Thursday's Dispatch story on Oliver retiring after 25 years as treasurer of the Abilene District, Church of the Nazarene, it was stated that he would resign at the post office here next month. While those were Oliver's plans at one time, he has since changed them, he informs us.

The largest portion of the public housing units will be built for Latin American and Negro families on the former Lincoln school site purchased from district school trustees several months ago. The other units for white families will be built on property purchased last year on South Avenue F.

SIX DIE IN CAR CRASH

This is the automobile that carried the six members of the Gregorio Rangel family to their deaths when it plunged from the highway into a ravine on U. S. Hwy. 84 last Thursday morning. (Story on page 1.)—Photo by Highway Patrolman Henry Harden.

Cates Rites—

(Continued from Page 1) activities at the First Methodist Church, of which he was a member, and belonged to the Methodist Youth Fellowship. Members of the MYF attended the funeral in a body. Also attending the services in a group were members of the eighth grade class, the Boy Scout troop to which Bill belonged, and the baseball teams for which he had played.

The Rev. Eugene Matthews, former pastor of the First Methodist Church, delivered the funeral sermon. The scripture reading and prayer was by the Rev. Oscar Bruce, present pastor. The procession was played by Mrs. Patty Kirkpatrick, and Vernon Scott sang "My God and I," accompanied by Georgie M. Willson at the organ.

Besides his parents, Bill is survived by three sisters, Cathy, Cindy and Beth; two brothers, Perry and Bobby, and his grandparents, Mr. and Mrs. R. G. Cates Sr. of Atoka and Mr. and Mrs. Robert A. McCary of Dallas.

The grandparents and a number of other out-of-town relatives and friends of the family attended the funeral. Also attending were a number of company officials of Brown Bros., Et Al, by whom Bill's father is employed. These included Mr. and Mrs. J. E. Teddlie and Mr. and Mrs. Frank Finnegan, all of Houston, Mr. and Mrs. H. C. Watson of Norman, Okla., Mr. and Mrs. C. T. Robinson of Odessa and Mr. and Mrs. Dewitt Ellison of Aspermont.

Interment was in Terrace Cemetery under the direction of Hudson Funeral Home. Pallbearers were E. R. Moreland, Glenn Whitteberg, Bobby Pierce, Donald Windham, Claud Collier Jr., and Bob Collier.

Mr. Owings' wife preceded him in death Nov. 22, 1959.

Sermon topics are announced

The sermons at the First Christian Church on Sunday, May 31, will be "Judge Me Not" at the 11 a. m. worship and "Except Your Righteousness Exceed" at the 7 p. m. worship, Bernard S. Ramsey, minister, announced.

The Lord's Supper will also be observed at the morning worship. Sunday, June 7, the annual congregational meeting will be held for the purpose of electing a new church officers for the church year beginning July 1. Each year one-third of the official board is elected, and all members are urged to be present, Mr. Ramsey said.

The public is invited to all services. A nursery is maintained for small children.

Graduation—

(Continued from Page 1) class and special group; benediction, the Rev. Oscar Bruce, pastor of the First Methodist Church; recreational high school band.

Ushers will be Barbara Britton, Dennis Odom, Bobbie Nell Compton and Daniel Johnson. Today's 8th grade promotion program will include a short address by the Rev. Mr. Ramsey. Awards will be presented by Bill Shiver, a assistant superintendent of schools.

VISIT HERE TUESDAY

Mr. and Mrs. W. T. Mayfield of Houston visited here Tuesday night with Mr. and Mrs. Charlie Didway. They were en route to Magdalena, N. M., to visit their daughter and family. Mrs. Mayfield is Mrs. Didway's niece.

KINGSLAND TRIP

Mr. and Mrs. Leonard Baker will leave Friday to spend four or five days at Kingsland located on the Llano River. They will be guests of her brother-in-law and sister, Mr. and Mrs. W. C. Russell, who have a summer home there.

CALIFORNIA GUESTS

Mr. and Mrs. F. L. Nicoll of Anaheim, Calif., are in Post visiting her parents, Mr. and Mrs. B. W. (Doc) Kennedy.

Ellenburger oil strike indicated near Southland

An Ellenburger oil discovery has been indicated in northwest Garza County, 19 miles north of the nearest Ellenburger production.

The prospect is Humble Oil & Refining Co. No 1 Mid Seale, wildcat, five miles east of Southland.

A test of the Ellenburger from 8,773-807 feet, open 90 minutes, recovered 3,390 feet of 35.6 gravity free oil. Gas surfaced in 45 minutes at the rate of 1,450 cubic feet per day.

Initial shut-in bottomhole pressure in one hour was 3,810 pounds per square inch. Flowing pressure ranged from 299-891 pounds, and a 90-minute final shut-in bottomhole pressure was 3,364 pounds.

The drillsite is located 660 feet from north and 1,980 feet from east lines of Section 1302, Jasper Hays Survey, and is two miles northeast of the Buenos (Sand Arroyo) field. There have been no nearby Ellenburger tests in the past, and the northernmost established Ellenburger production is in the North Teas field.

Wreck victims—

(Continued from Page 1) ren was found under that of the father.

It took almost two hours to extricate the bodies from the demolished 1959-model automobile and to remove the wreckage from the scene.

The bodies of the father, mother and three daughters were taken to a funeral home at Snyder. The boy's body was taken to Mason Funeral Home here.

Rangel is survived by his parents, six brothers and three sisters. Mrs. Rangel's survivors include her parents.

Showers—

(Continued from Page 1) ing from .30 to .40 of an inch in Post.

"Roughly, the county got .25 of an inch," Lewis C. Herron, agricultural advisor at the First National Bank commented on the Tuesday night rain.

The Tuesday night rain was lighter east of Post than it was in town. The Justiceburg area, however, got a half inch, which is considerably more than was reported from the May 15 rain.

The two rains this week brought Post's 1964 total to nearly the four inch mark.

No rain was reported at Verbena or Grassburg in the early morning thunderstorm today.

South Lake, badly in need of filling, caught quite a bit of runoff from today's rain.

Mayor Harold Lucas reported to today's rain "took care" of the city water troubles at least for two more weeks.

Before the Tuesday night rain, heavy water users here had been asked to cut down on usage.

Up until Tuesday night, the city was pumping every available well and losing ground steadily to consumption.

County Agent Syd Conner this morning estimated about 15,000 of the county's 40,000 cotton acreage has been planted to date. Most of this, between 12,000 and 14,000 acres, was irrigated cotton on the plains.

Few dryland fields have been planted.

The area east and northeast of Post is still without planting moisture, but there is still plenty of time for a normal planting if moisture keeps coming.

If the cotton is in by June 10 there will be time enough for a crop in a normal-length growing season.

There were no reports here that the White River lake has "caught" any new moisture, although Plainview got two inches of rain Tuesday night. Any runoff from that hasn't had time to reach the lake as yet.

White Sox edge past Cubs, 1-0, to remain undefeated

The White Sox, who narrowly edged the Cubs, 1 to 0, Saturday night to maintain their perfect record, are well out in front of the Babe Ruth League going into the final month of play. There are no games this week because of school closing exercises. The regular season will be resumed Tuesday, June 2, with the second

place Indians attempting to stop the White Sox onrush in the first of two games. The second game will be between the Cubs and the Braves, with the latter still looking for their first win. Larry Johnson's double scored Mike Levens in the fifth inning to give the White Sox their 1-0 win over the Cubs. Levens had doubled with one out and Johnson's two-bagger came after Paul Walker had fanned.

The game was a pitching duel between the White Sox' Ronnie Pierce and the Cubs' Lewis Hise. Pierce allowed only three hits and fanned 14 in seven innings, while Hise gave up six hits and struck out 10 in six innings. The Pirates racked up 13 hits, including a home run by Alton Steel, in crushing the Braves, 19 to 3, Saturday night. Rabbit Jackson was the winning pitcher and Ronnie Nichols the loser.

New athletic program for Jr. High outlined

The new Post Junior High School athletic program to be inaugurated at the beginning of the 1964-65 school year has been explained by Director Harold Teal in a letter to the parents of boys eligible to participate.

male teachers within the school system. **WORKOUTS WILL BE** conducted immediately after school each day. Workout time will never exceed an hour and a half. (Every boy should arrive home by 5:30 p. m.) Proper conditioning of the individual participants will be directed during the regular physical education period.

Each team will play a double round-robin schedule. The team champion will be decided by the number of games won. At the end of the round-robin play, the teams will be separated into a seventh grade team and an eighth grade team. Each team will play a game against Tahoka to finish the football season.

UNDER THE OLD operational player participation was essentially limited to the 25 or 35 boys in each grade who possessed the greatest athletic ability. The principal purpose of the new plan is to provide an opportunity for maximum participation in athletics with the character building qualities that are to be derived from athletics.

Dates and times of football games and schedule of basketball games will be announced later. **ANY BOY WILL BE** allowed to compete who fulfills the following eligibility requirements: A. No player shall be allowed to compete who has failed three or more courses during the spring semester. B. No player shall be allowed to compete who is 15 years of age or older before Sept. 1.

The Pirates scored their first run in the third when Hill, who had walked, scored on Cash' double. They picked up another run in the sixth without the benefit of a hit, the score coming on Indian errors. The White Sox defeated the Braves, 16 to 8, in a free-scoring affair last Thursday night. Dennis Altman was the winning pitcher and Morales the loser. Roger North and Roger Kirby each got three hits for the losers, while Donnie Windham, with a home run and a triple, paced the White Sox batters.

Post golfer third in Gaines tourney

Timmy Hundlev won third place Saturday in the 27-hole medal play tournament at the Gaines Park between Seagraves and Seminole.

Each team will have a coach. Coaches are to be selected from the seventh and eighth grade boys who qualify for participation will be divided into four teams. Team selection will be based on size, age and athletic ability. Number of boys on each team will probably not exceed 25. The limited number of boys on each team will provide an opportunity for each boy to play, regardless of size or ability.

Dodgers keep rolling in Little League race

The Dodgers, behind the four-hit pitching of Kyle Josey, padded their wide Little League lead last Thursday night by defeating the Cardinals, 7 to 2. The six Little League teams are resting this week because of school graduation programs, but will resume action Saturday night with the Cardinals and Red Sox playing the first game and the Dodgers and Yankees the second.

The Red Sox outthrew the Corvairs, 7 to 5, but the five-run outburst in the fifth proved the Sox' undoing. In addition to Moreau's home run, Noble tripled. Those were the only Corvair hits that inning, but errors, a base on balls and a fielder's choice helped the Corvairs plate their five tallies.

Certificate of Merit for Civil War essay

Post High School student Judy Ballentine, one of 337 contestants in the Civil War Centennial essay contest, has received a Certificate of Merit from the Texas Historical Survey Committee.

The certificate was presented Judy last Friday in the annual high school awards assembly in the gymnasium. The presentation was made by County Judge J. E. Parker, a member of the Garza County Historical Survey Committee, on behalf of the state committee.

Also present at the awards program were Mrs. A. C. Surman, chairman of the county historical survey committee and members Frank Runkles, Walter Duckworth, J. B. Potts, Harold Lucas, Barry B. Thompson and George Samson.

Mrs. Surman read a letter from the state committee complimenting Judy on her essay, which was entitled "Lives of Civil War Veterans Buried in Garza County." The letter also said the essay is being placed in the state archives because of its historical interest.

Mr. Duckworth named Civil War veterans buried in the county. Mr. Potts presented Judy with a \$15 check from the county historical survey committee for her outstanding essay.

Judy is the daughter of Mr. and Mrs. J. L. Ballentine of 310 South Ave. F.

PRE-NATAL CARE

AUSTIN — One of the first persons an expectant mother should tell her good news to should be her physician. Every woman who suspects that she may be pregnant should visit a doctor promptly to obtain the benefits of modern medical guidance. The need for medical care throughout pregnancy and following birth cannot be overemphasized for healthy babies, and mother's health and peace of mind.

In what ways does a doctor help the expectant mother during pregnancy? The doctor gives an expectant mother a careful physical examination to determine her general condition. He answers questions she may have about pregnancy and birth.

The mother-to-be is given instructions on diet, exercise, rest, bathing and clothing. Usually there need be little-if-any change at this time in her customary daily activities. Any fears she may have can be talked over and explained.

During the first six months she visits the doctor about once a month. This enables him to keep check on her general condition, blood pressure, pulse and weight, as well as to make appropriate laboratory tests.

THE DOCTOR ALSO treats possible discomforts such as constipation or morning sickness. He tells her what to watch for and answers any questions that may be puzzling her. The doctor is trained and willing to talk over any emotional problems or worries that may arise.

About halfway through pregnancy, the doctor is able to hear the unborn baby's heartbeat and follow his growth and progress. In

the final month the doctor visits the expectant mother about a week.

He tells her how to prepare for the baby's birth and her own hospital. A preview visit to the hospital is a good idea when the time comes she will know where to go and what to do. The doctor makes hospital arrangements everything will be ready when she arrives.

With early and continuous medical care and advice, the baby should be as rewarding as expected for mother, father and child. (A weekly feature from the Texas State Department of Health)

Cotton farmers busy in Grassland area

By MRS. O. H. HOOVER
The cotton farmers in our community are sure busy. Nearly all of them have some cotton up and as near as I can find out everyone is about two-thirds done planting and quite a number have finished planting.

Mr. and Mrs. C. A. Walker went to Littlefield Sunday to get Mrs. Lucian Walker who will stay with them until she is better and can move into her own home in Grassland.

Mr. and Mrs. C. M. Greer and Mrs. N. O. Townsend spent part of last week at their cabin on Colorado City Lake. They caught enough fish to eat and had a nice outing.

Mrs. C. C. Jones' sister-in-law, Mrs. C. B. Hardin, of Coleman is visiting here for several days. They drove to Lovington, N. M. Sunday to see the "Son" Jones family. He is not any better and will go to Mayo Hospital the last of this week for surgery.

Dennis Odum spent the weekend with Bobby Dean.

Mr. and Mrs. L. S. Turner visited Sunday with Mr. and Mrs. H. B. Crosby of Wilson.

Mrs. O. H. Hoover visited Mrs. Walls Monday afternoon.

Mrs. James Murray and children and Mr. and Mrs. J. F. Moore and Arlie have gone to Rock Island, Ill., to get Lavonia Moore who has been studying music there since January. They plan to stop in Harrison, Ark., for a visit.

Mrs. Sue Melton and children of Slide visited her parents, the Jim Pattersons, Sunday.

Mrs. Vic Bullard and children visited Dean and Mary Lou Laws Sunday.

Mary Lou Laws' parents spent the first part of the week with them. They are the Robert Weatherbys of Hobbs, N. M.

Mr. and Mrs. Leon Walls of Lubbock spent Sunday afternoon with his mother, Mrs. Carrie Walls.

M. and Mrs. Leroy Davis have returned home from San Augustine, Tex. Mrs. Davis' mother is some improved.

MRS. W. A. Oden spent Thursday morning in the W. C. W. Morris home. Mrs. Ed Ray of Sudan, Mrs. Morris' sister, had come to visit and had brought a quilt top to quilt. Mrs. Oden stayed to help on the quilt.

The Thursday Club met in the

home of Mrs. Will Wright May 21. Mrs. Gilley was a guest. Mrs. Wright served congealed salad, cake and punch to Iris McMahon, Sue Maxey, Ada Oden, Bernice Propst and the guests. The next meeting will be with Sue Maxey June 4.

Mrs. A. Z. Sewell is visiting her son, the Rev. John Sewell, and family in Morgan City, La. Her grandson, Johnny, will receive his college degree in June.

J. H. Huddleston had a small fire in his grocery store in Grassland last Thursday afternoon about 3:30. He gives a big thanks to his neighbors and patrons for their good help in keeping it from being a big fire.

Mrs. C. A. Walker spent Friday and Saturday in Lamesa helping with her niece who is ill.

Houston Hoover visited his mother, Mrs. O. H. Hoover, Thursday afternoon. He and his wife, Lura, were on the first leg of their vacation journey. They will stop in Chattanooga, Tenn., and Kingsport, Tenn., to visit with their sons, Joe and Pat Hoover, and their families. From there they will go to the World's Fair in New York City for a week. They will attend the Rotary convention in Ontario, Canada and visit in Toronto.

MRS. W. L. Luttrell was one of 11 Draw ladies that attended the survey of a large warehouse in Lubbock. The ladies are home demonstration members and went in a chartered bus sponsored by Red Kidwell of Piggly Wiggly in Tahoka. Thirty-one ladies took the trip and were all taken out to dinner by Mr. Kidwell.

Dr. and Mrs. D. G. Porterfield and children spent Sunday with his parents and other relatives. The Mr. and Mrs. Gus Sherrill visited Burl Moore in St. Mary's Hospital in Lubbock Sunday afternoon. Burl has had a good case of old fashioned flu.

Last Wednesday, Miss Freda Gerner met her nephew, Jerry Gerner, at the bus station in Los Angeles and visited with him for a while. She took him to the airport to catch a plane home. He arrived in Lubbock at 12:30 a. m. Thursday and called his parents to meet him in Post at 1:30. The whole family was there to meet him. He sure looks good after four months of that rough Marine training. Jerry took Laura to school Thursday and visited the Turners and other old friends in Post. Jerry got right back in the groove and is helping his dad get the cotton planted. He's driving a tractor or whatever.

Visitors in the Amos Gerner home over the weekend were Jerry Hill of Temple, Louise Gerner of Dallas, Darrel Young of Lubbock and Troy Dean Baker of Post.

MRS. MATTIE JACKSON visited in Lubbock last week with her sister, Mrs. Mary Kirkland, and her daughter, Mrs. Fay Bolin.

Mr. and Mrs. Lewis McKay visited Mrs. Lula Busby at Dallas and

Are you ready for a drought? Soil Conservation Service

DOUGLAS CUNNINGHAM
Soil Conservation Service
The occurrence of drought in Garza County history, we can be ready for it because we know it is coming.

Stockmen a favorable time to make up for the loss of past, less favorable, seasons by expanding livestock numbers will not change the operator who has expanded his herd in expectation of a favorable year doesn't like to see his animals on a declining trend until the threat of drought is a certainty, then it is likely to be too late.

Experience over the years in some practical means of minimizing the effects of

the next drought. Basic management practices include conservation stocking, adequate supplemental feed supplies, seasonal use of the range and inclusion of both steers and cows in the commercial herd.

Recommended adjustment during drought years include close cutting of dry cows and undesirable animals and caution in restocking the range before good vigor has returned to the range-land.

Try not to be caught unprepared for drought... we all know we are due for a dry spell.

CIRCUS ATTRACTION

The famous Besalou Performing Elephants will be among the many outstanding acts at the Municipal Coliseum in Lubbock Saturday and Sunday, June 13-14, when the South Plains Shrine Association presents Polack Brothers Circus.

The Sheriff's Job

How this sheriff's job is a curious one, like housewife's work, it's never done. It falls come by night, and come by day. It may be near, or miles away. "Berry right out," says the voice of the caller, "You're badly needed in Possum Holler. It's on the rampage, he's got a gun, been lookin' for Ma since half-past one."

As we jump in our flivver and hit the trail and drive like a streamliner carryin' mail. Our only hope and all we can figure, is to be on hand 'fore Pa pulls the trigger. We finally arrive and amid the confusion, we learn the affair was simple delusion. Pa with the gun was just hunting squirrels. We'd gone to school with the two oldest girls.

Today we hunt evidence and dig up the facts. Tomorrow we struggle with the delinquent tax. Next day we're hunting a mottled faced cow. Then stay up all night at some nice family row. Next day we have court and the lawyers rave. The defendant sits there in need of a shave. "Where were you," they bellow, "on the first of November?" The defendant replies, "I don't remember."

They argue around 'til half past three, then the jury goes out and fails to agree. The judge sends them back 'til their duty is done, but eight hours later, they are 11 to 1. Now that's just a sample of what we do, and endless variety, old and new. It may be a prowler, a burglar, a drunk, he may steal your billfold, your watch, or your trunk.

We set out to catch him and do our best, we catch a percentage, and lose the rest. We can't catch them all, for some leave no clue, they don't leave their cards like you and I do. Sometimes they plead guilty and judge will scold, then half the county will want them paroled. They blame the depression, the new deal, the tariff, and a few put the blame on the poor old sheriff.

Sometimes there's fireworks, and an officer gets shot. While doing his duty, he's put on the spot! Just lately a sheriff I knew was killed by a couple of punks, with some girls to be thrilled. You can't get excited when out on a call, 'cause you might do the thing you shouldn't do at all. You mustn't get nervous or lose your head for if someone gets shot, he's a long time dead.

So it's quite a game, if you stay right in, you'll get a pat on the back and a sock on the chin. But I like it all, and I'm sheddin' no tears. It'd like being your sheriff another four years.

Many changes at Eddie's Drive In

In their four months of operations of Eddie's Drive In, at 117 North Broadway, Eddie and Lillian Boggs have made plenty of business improvements—and there are more to come.

A little over a month ago, Eddie cleared off the big back lot behind his stand and solved his parking problem.

Then he went a step further—a big step too. He purchased and installed electronic speakers in his parking lot on convenient stands so

PLENTY OF PARKING—PLENTY OF SERVICE

Shown above is the seven-member service staff of Eddie's Drive-In, grouped at the back of the big new rear parking lot with the electronic ordering speakers. Left to right are Diane Pruitt, Brenda Holly, Loy Bustoz, Paula Chance, Anita Pruitt, Mrs. Lillian Boggs and Edde Boggs. —(Staff Photo)

customers could call their orders in without having to wait for a carhop.

Then he put up "anti-bug lights" to light the parking area at night.

STILL TO COME—and on order—is a big red and white striped canopy to keep the sun off the parking area and put his day-time customers in the shade.

Eddie says the canopy will be installed soon—just as soon as the manufacturer completes the order. There is only one problem left—

and it is being gradually solved. That is getting local customers accustomed to all these changes.

The Boggs live in the house just north of the stand. Which means that the driveway next to the house is available for conversion to business use—which they have done.

It's one-way driving into the big back parking lot. You go in on the north side of the stand, drive on around the lot no matter where you park, and exit on the south side of the stand.

But Eddie thinks many people don't use the entrance to the lot because they think it is a private driveway for the house next door. It was once, but since Eddie lives there it's just part of the business traffic flow now.

ANOTHER LITTLE problem has to do with the speakers. The orders can't be taken inside the stand un-

serve customers out on that new lot. He has purchased a new ice cream freezer, added two more refrigerators and a deep freeze, and has an ice machine which makes 800 pounds of ice daily.

By the way, Eddie sells ice by the sack for 25 cents—just in case you need ice.

Eddie and his wife, Lillian purchased the drive-in last January 22 and have been busy ever since making improvement.

He is from Fort Worth where he has had experience in the hotel restaurant business. Mrs. Boggs formerly lived in Post before moving back with the opening of the drive-in.

EDDIE HAS ADDED only one major menu change. He has introduced to Post the Eddie Burger. An Eddie Burger is a triple-decker using a special poppy seed bun. It contains two hamburger patties, cheese, lettuce, tomatoes and a special sauce. It is served with French fries, a hot pepper, and catsup for 60 cents.

"It's a real meal for most people," Eddie says.

Enough customers agree that Eddie Burgers are becoming more and more popular.

THE DRIVE-IN business has changed drastically in the last few years, Eddie points out.

At the start, drive-ins served only cold drinks and ice cream and were run only during the summer months. Then they added hamburgers and became year-round operations because today's America literally lives on wheels.

(See Eddie's Drive-In, Page 15)

less the button in the center of the speaker is punched to alert the help inside.

Some customers can't find the button, since it has been painted red like the rest of the mike. But Eddie corrected this over the weekend. He painted the buttons a different color, so they would be more noticeable.

Eddie says use of the back parking lot and use of the electronic ordering system is picking up steadily.

All told, Eddie figures he can handle 25 carloads of customers at once. Besides the 20 parking spaces now open behind the drive in, he has two parking spaces with an electronic speaker on the north side of the stand under a good shade tree. He also can accommodate about six more cars out front.

The parking lot out back and the electronic speaker system, which "was really something" to get all hand-drawn, are not the only improvements at the drive-in.

EDDIE HAS REMODELED the stand itself, sitting in a serving window on the back to quicker

Justiceburg residents now at nursing home

Mrs. Bud Schlehuber and Luther Reed are new residents of the Golden Age Nursing Home in Post following their removal from Mercy Hospital in Justiceburg.

Debbie Bevers was guest of honor at a birthday dinner Sunday at the home of her son-in-law and daughter, Mr. and Mrs. Marvin Snyder. Other guests were the Albertson children, and the Albertson family. Mrs. Bevers returned Monday afternoon after the weekend in Snyder.

Clare Cline is reported to be along fine after recent surgery on his leg and foot. The cast will be removed in about two weeks.

Douglas McWhirt visited his mother, Mrs. Thomas in Lubbock recently.

Mr. and Mrs. Wayne Tate and Kenneth and Don Smith were weekend guests of the J. A. Tates in Snyder.

Mr. and Mrs. Rafael Rios and children left Monday for San Antonio where they were called by the death of her grandfather, Gerardo Gonzales. We send our sympathy to the Rios and Gonzales families.

Funeral services for Leon Jewell, who passed away at Garza Memorial Hospital May 15 were held the following Wednesday at 10 a. m. in Hudman's Funeral chapel.

Mr. and Mrs. Don Robison were Sunday visitors in Midland.

Joe Trout of Plains visited Mr. and Mrs. Cecil Smith and Pearl Nance Wednesday.

ENJOYING A COOK-OUT in the Weldon Reed home Wednesday evening were members of the "Texas Swingmen", a western band.

Those present were Jim Gage of Tahoka, Verna Faye Jack of Lamesa, Mr. and Mrs. Franklin Carter and Julie, Carol and Karon, Joe Gage and Sandra Jones.

Rafael Rios Jr. returned to school Thursday after attending funeral services for his grandfather.

Mrs. Mason Justice and Mrs. Cecil Smith were medical visitors in Tahoka Thursday afternoon.

Mrs. Bud Schlehuber and Mrs. Fernie Reed transacted business in Slaton and Lubbock Thursday morning. They visited Mrs. Babe Norris in Slaton.

Mrs. Eloise Gordon, school nurse, was a visitor at the school Thursday.

Jennifer Miller visited school Thursday afternoon.

Donna Robison of Lubbock arrived Thursday for a weekend visit with her parents, Mr. and Mrs. Don Robison.

Mr. and Mrs. Cecil Smith were in Big Spring Friday where Cecil underwent a check-up at the Veterans Hospital. Mrs. Bud Schlehuber worked in the post office.

Bobby Bevers visited his grandmother, Mrs. Debbie Bevers, last Tuesday.

Mrs. Harry Wood was a patient at Mercy Hospital in Slaton last week and was brought home Saturday morning.

The Wayne Tate family were overnight guests of their parents in Snyder Wednesday. Kenneth remained for a longer visit with his grandparents.

The Tommy Forrest family were supper guests of the Billy Blacklocks Thursday evening.

Ronald Forter of Happy was a dinner guest of Mr. and Mrs. E. C. Franklin Friday. Ronald, who at-

Eddie's Drive-In—

(Continued from Page 14)

Eddie says today the drive-in business is approximately half food and half drinks as far as volume is concerned. Customers are not only teen-agers, but adults of all ages as well.

"Drive-ins are taking over the restaurant business, or a large part of it," Eddie declares.

A lot of Eddie's food business comes from folks who call their orders in by phone, drive down a few minutes later, pick up their orders hot, and go on home to eat.

That's why Eddie advertises that phone number of his—2349—in all of his advertising.

Ice cream is still a big part of a drive-in's business, but the drive-ins these days all make their own — a soft ice cream, easily handled and served.

SOFT DRINKS, LIKE the modern automobiles, come in all sizes, due to public demand. For example, Eddie's soft drinks come in four paper cup sizes—5 cents, 10 cents, 15 cents, and 25 cents. The quarter size are quart cups for the youngsters who want to ride around and not have to come back too often for refills.

Eddie's most unusual customer? Eddie says it is Jim Hundley's dog Junior, who comes by with his master for an ice cream cone quite regularly.

Eddie's carhops are all girls. He has a corps of five. They are Anita and Diane Pruitt, Loy Bostoz, Brenda Holly and Paula Chance.

The next change coming up for Eddie, even before the new canopy out back, will be the drive-in's change to summer hours which will become effective Monday.

The drive-in then will open at 9 a. m. daily. It will close at midnight six days a week and on Saturdays will remain open to 1 a. m. That's a lot of operating hours

TO ATTEND GRADUATION

Mr. and Mrs. Bill Edwards and daughters, Lynn, Ginny and Julie, will leave Saturday for Dallas where they will attend commencement exercises Monday, June 1, for their daughter and sister, Miss Sharon Jobe, who will be awarded a Bachelor of Arts Degree from Southern Methodist University.

Prometryne sprays control weeds in growing cotton

New Prometryne® 80W herbicide not only controls most annual broadleaf weeds and grasses when applied as a preemergence spray, it does the same job when applied after weeds and cotton are up.

Postemergence applications
Put Prometryne to work any time after cotton is six inches in height . . . and before weeds are about two inches high. Direct the spray at the base of the cotton plant so that weeds are thoroughly sprayed . . . while at the same time minimizing contact of the spray with cotton foliage. At the low rates used in postemergence applications before layby, Prometryne kills on direct contact with the weeds.

Layby spray works all season
Keep Prometryne working for your crop all summer with a spray at layby. In this application, the rates of Prometryne go up . . . to extend weed control right on through the growing season. At these higher rates, Prometryne kills existing weeds and remains to pick off later germinating ones as well. Carried down to the weed root zone by rainfall or overhead irrigation, Prometryne is absorbed by the roots of germinating weeds. Soon after the weeds break ground, they yellow and die.

Controls weeds and grasses
Three years of research by State and Federal experiment stations proved the effectiveness of Prometryne in controlling most annual broadleaf weeds and grasses. Among the problem species

handled by Prometryne are: pigweed or carelessweed, annual morning glory, crabgrass and goosegrass.

Safe to use
Prometryne is safe to cotton when used according to label directions. It leaves no residue in cotton seed. It can be applied safely and is non-irritating to humans and animals. Do not, however, plant a fall seeded crop the year you use Prometryne.

Fits your conditions
Prometryne works with you . . . whatever your cultural practices and weed conditions may be. Use it as a post-emergence spray after both weeds and cotton are up. Use it at layby to give protection through the season. Use it both ways if the weed situation so dictates.

Plan to use Prometryne for post-emergence and/or layby weed control on at least a portion of your cotton acreage this year. See for yourself what outstanding, economical weed control it can provide.

Small towns can grow, Connally tells audience

SEGUIN — Texas' small communities can grow if they work hard for new industry and tourism, Gov. John Connally said here last Thursday.

In a speech for delivery to the annual banquet of the Seguin and Guadalupe County Chamber of Commerce, Connally said, "One good industry can provide continuing growth for a community, and a well-developed tourist trade can mean even more than an industrial plant."

"A community which can stop just 12 carloads of tourists daily, year-round, has the equivalent of a \$103,000 industrial payroll—without attendant costs of plant investment," Connally said.

"Texas is rapidly becoming an urban state and the economic position of rural counties has changed significantly," he said. "But this does not necessarily mean that small towns must dwindle, fade and finally vanish."

"Local initiative is still the real key to success. Almost every area has certain attractions, but they produce no results if there is no effort to make them known."
