City Marshal Is Employed

O. G. Shepherd Jr. was employed as city marshal Monday night by the city council and is to begin his new duties Sunday at a monthly salary of \$250. Shepherd will be on duty from 10 p. m. to 6 a. m., affording the city the first full-time night police protection it has had in several years.

The city has been without a marshal since the resignation of Marion Reep several weeks ago. Shepherd was employed for the job after the councilmen had screened several applications.

In other action at Monday night's meeting, the council set the date for the annual Christmas bonus to city employees and considered a request for making North Avenue 1 from 10th Street to Main a one-way street.

The city's Christmas dinner is to be held at 7:30 p. m. Thursday, Dec. 13, at the City Hall. Invited as special guests will be Post members of the White River Municipal Water Authority Committee and their wives.

The Christmas bonus to be paid employees will amount to \$50 for each worker who has been employed by the city for more than a year. Those who have been employed for less than a year will be paid a proportionate amount, according to Mayor James Minor.

The council considered, but took no action, on the request of Homer McCrary that North Avenue 1 from 10th Street to Main be made a one-way street. The street is the one which runs in front of the post office.

County's Cotton Acreage Allotment Is Slightly More Than In '56, Says ASC

Although the 1957 allotment is lower than the final figure for 1956, Garza County actually is receiving a slightly higher cotton acreage allotment than it did last year, it was announced Tuesday at the county office of the Agricultural Stabilization and Conservation Service.

This year's allotment is 41,498 acres as compared with last year's final allotment figure of 41,819. It was explained at the ASC office that "hardship" cases last year raised the county's allotted acreage by approximately 1,800 acres. Such hardship cases are not provided for this year,

which leaves the county's 1957 allotment lower than last year's, but slightly higher than 1956's original allotment, it was explained.

It was also pointed out by ASC officials that Garza County's cropland factor for this year's allotments is 38.25 per cent, much

higher than many of the counties in this area.

ASC officials also said Garza and two other area counties, Borden and Cochran, received less acreage because allotments are figured on a history basis and back in 1952 these counties, because of a drought, had a greatly reduced cotton acreage planted. This, taken into consideration in figuring 1957 allotments, caused the reduction.

Actually the reduction would have been more except for the fact the state ASC committee tried to see that all counties who planted upwards of 90 per cent of their 1956 allotments received not less than 99 per cent of that allotment for 1957.

As a whole, cotton farmers in the 25-county Panhandle-South Plains cotton producing area are to get an additional 72,941 acres—above 1956 cotton allotments—in the 1957 allotments, which were released statewide Sunday.

The 25 counties have a total allotment of 2,355,905 acres for 1957 against an allotment of only 2,283,864 acres in 1956.

The three Texas counties with the highest allotments are on the South Plains, according to Dale Carter of Plainview, ASC district field representative. Aside from first place Lubbock County, Dawson County is second and Lamb County is third.

Lamb County received the most increase for any Panhandle-South Plains county—some 13,306 acres. Cochran County suffered the largest loss, 752 acres.

Referendum To Be Held On Tuesday

Garza County cotton acreage allotment notices for 1957 were mailed from the Agricultural Stabilization and Conservation Committee office here Monday—well in advance of next Tuesday's cotton marketing referendum.

A total of 525 acreage allotment notices were mailed from the local office, according to Emmarhe I. Hartel, office manager.

All operators, landlords, tenants, sharecroppers and their wives are eligible to vote in Tuesday's referendum.

Polling places in Garza County will be open from 8 a. m. until 7 p. m. at the Graham Co-op Gin office, Southland Hardware store, and county ASC office.

If marketing quotas are approved for 1957, operators who plant within their allotments will be eligible for loan price support between 50 per cent and 90 per cent of parity, and a penalty will be assessed on over-planted acreage.

If marketing quotas are not approved, there will be no penalty on over-planted cotton, but acreage allotments will still be in effect and operators who plant within their allotted acreage will be eligible for loan price support at 50 per cent of parity.

The marketing quota program will operate next year if two-thirds of the voting cotton growers favor the program.

GENERAL PROGRAMS COMMENDED BY INVESTIGATING GROUP

Inadequate Plant Prevents Affiliation Of Post School

Post High School has been denied admission into the Southern Association of Colleges and Secondary Schools because of the inadequacy of the high school physical plant, it was announced this week by R. K. Green, superintendent of schools.

An investigating committee composed of three area school superintendents voted unanimously to commend the administrative staff for "a well organized and harmonious school program . . .

being carried out under the handicap of an inadequate physical plant."

The committee, composed of Supts. Nat Williams of Lubbock, J. P. Hewlett of Wilson and C. W. Tarter of Lamesa, visited the high school Oct. 12. The committee's report follows:

"The committee was extended courteous cooperation by Supt. R. K. Green, high school principal Glenn Whittenberg, members of the high school faculty and student body.

"The application of Post High School was carefully checked and the committee voted unanimously to commend the administrative staff for a well organized and harmonious school program. The qualifications of all teachers were checked and voted to be satisfactory . . .

"The instructional program seemed to be very satisfactory, the teaching load not too large, and the classes equalized with adequate time for each class. Item 1, page 4, of the application was changed to conform to the number of minutes devoted weekly to each subject. The committee felt that this was satisfactory.

The visiting committee did visit with the various classes and made a satisfactory report on each.

"The committee felt that the physical plant for the high school, which was in a fair state of repair, was inadequate for the student body of 263 students and recommended that the application be denied because of the inadequate classrooms from the standpoint of size and number for this student body. The homemaking

department, science department and physical education facilities were not adequate. The joint use of the library and study hall is not considered advisable. The rest-room facilities are not adequate for a student body of 263 students.

"It was the feeling of this committee that Post High School should be highly complimented on the school program being carried out under the handicap of an inadequate physical plant, and denial for admission was based entirely upon this inadequacy."

25 Turkeys Listed For Firemen Event

The Post Volunteer Fire Department's biggest Christmas program in several years is in prospect for Dec. 22, with 25 merchants cooperating in the turkey awards.

At last year's program, 18 turkeys were awarded. The program, which is to be held at 2:30 p. m. on Main Street, will also include a pre-Christmas visit by Santa Claus and candy for the children.

Business firms cooperating with the firemen in this year's program are the following:

Tower Theater, Post Dispatch, Mason & Co., Southwestern Public Service Co., Greenfield Hardware Co., Pioneer Natural Gas Co., Herring's Department Store, Bob Collier Drug, Caprock Chevrolet, Inc., Piggy Wiggly, Shydes Implement Co., Kirkpatrick. See 25 TURKEYS, Page 8

OFFICERS WOUNDS DRIVER WHEN CAR FAILS TO HALT

Bootleg Suspects Nabbed After Hair-Raising Chase

Two Lubbock Negroes, Luther Lee Jackson, 25, and Albert White Jr., 22, made bonds of \$1,000 each Tuesday after being charged in county court with liquor law violations following their arrest Saturday by Deputy Sheriff J. W. (Red) Floyd after a wild and reckless 50-mile chase.

White was charged with illegal transportation of liquor and Jackson with possession.

One of the Negroes was wounded when the deputy fired at their speeding car as it tried to run over him when he attempted to flag it to a halt in the Close City community, northwest of Post.

The chase started after Floyd had received a tip that the bootleg suspects were driving over oil field roads near Post. The deputy spotted the car at about 9:30 a. m., immediately recognizing it as being the 1955 Oldsmobile seized by Inspector Tom Head, an Abilene Liquor Control Board officer, on Nov. 11.

"I stopped my car in the middle of the highway and turned on my red lights when I saw the Olds coming," the deputy related. "When I got out of the car they tried to run over me, so I whirled around and fired twice."

Floyd said he jumped back into his car, a six-cylinder Plymouth, and took in after the pair. The chase soon hit 80 to 90 miles an hour as the heavily loaded Oldsmobile tried to outdistance the slower Plymouth.

"I couldn't get closer than a mile to them, but their dust made them easy to follow."

The deputy's car had no police

radio, so, being unable to call other officers for assistance, he had to go it alone.

The break Floyd had been hoping for on the wild chase came as the Oldsmobile rounded a corner at a fast clip. A front wheel sheared from the lug bolts holding it to the hub and the car crashed into a barrow ditch.

The deputy arrived within seconds, in time to see the two Negroes fleeing across an open field on foot, and took after them in his car.

"I yelled at them and they came back," Floyd said. He brought the wounded driver to a physician here where it was determined that the bullet from the deputy's gun had merely creased his shoulder. The capture was made on a dirt road near the Union community, east of Slaton.

Confiscated from the car were 21 cases of beer, six cases of whiskey, three cases of wine and two cases of gin. A police radio receiver was also found in the car.

City's Paving Project Grows Bigger; County Is Helping Keep Cost Down

The City of Post's street paving project continued to grow this week after already having progressed much farther than had been anticipated when it was begun a few months ago.

Curbing and gutters were being run Wednesday on two blocks on West 11th Street between Avenues Q and S, bringing to 18 blocks the number on which improvements have already been made.

City Supt. R. H. Tate said Wednesday that nine more blocks are expected to be signed up before the current program ends. Mrs. Irene Rodgers, representing both the city and the contractors, C. & C. Asphalt Paving Company of Colorado City, is calling on property owners in regard to bringing the additional nine blocks within the project.

Tate said these nine blocks

probably will include five blocks from Garza Memorial Hospital to South Broadway on 6th Street, one on South K Avenue, just east of the grade school building, and three on West 14th Street.

Helping make the paving job a success, Tate aid, has been

Juniors To Present Class Play Friday

"If Mother Only Knew", a three-act play, will be presented by the junior class of Post High School at 7:30 p. m. Friday in the grade school auditorium.

Tickets are now on sale and reserved seat tickets may be purchased from Frances Dietrich, business manager.

Members of the cast are: Marilyn Steel, Linda Bilberry, Linda Livingston, Barbara Hargan, Lucy Trammell, Charlene Baker, Ronnie Polk, Butch Wilson, Bob Smith, Tommy Young and Noel Don Norman.

Class sponsors are Mrs. Betty Scott and Frank Kruh.

Chapter Is Asked For \$158 For Hungarians

The American Red Cross has asked the Garza County chapter for \$158 for aid to the Hungarians, chapter chairman Guy Floyd said Tuesday.

The chapter chairman was to meet with board members at 4 o'clock Wednesday afternoon to decide if the county Red Cross organization will respond to the call.

False Alarm Answered By 23 Of 25 Firemen

Post's volunteer firemen turned out almost 100 per cent Monday night to answer an alarm—a false one.

Fire Chief Robert Cato said 23 of the 25 firemen showed up to answer the alarm, which sent them to the rear of the Wilson Bros. Service Station on South Broadway. No signs of a fire were found.

The fire chief said he was well pleased with the turn-out of firemen, but wishes to warn turners-in of false fire alarms of the severe penalties which can result from such pranks.

Deadline Set For Lighting Entries

Dec. 26 has been set as the deadline for entries in the Post Chamber of Commerce's annual Christmas decorations contest, it was announced Tuesday afternoon following a meeting of the board of directors.

Those wishing to enter either residential or business decorations in the contest are asked to file their entry with Mrs. Fritz Greenfield, secretary, at the Chamber of Commerce office.

The Chamber of Commerce is offering a total of \$115 in three contests—residential, busi-

ness and school. A first place prize of \$25 and a second place prize of \$15 will be awarded for the best-decorated residence. A first prize of \$25 will go to the best-decorated business window, and first, second and third place prizes of \$25, \$15 and \$10 will be paid for the three top class decorations at Post High School.

The contest entries will be judged in time for announcement of winners to be made on Christmas Eve, the Chamber of Commerce secretary said.

Christmas Lights Are Turned On Wednesday

Post's Christmas lights were turned on Wednesday night after being strung the first of the week by City of Post and Southwestern Public Service Company employees.

The lighting project is sponsored by the Chamber of Commerce. The lights are strung the length of Main Street and for several blocks on Broadway.

It was necessary this year to build two new strings of the lights and replace 300 bulbs, according to City Supt. R. H. Tate.

ALONG ABOUT THIS time the key numbers are 15 and 25. The 15 represents the number of days left in which to do your Christmas shopping...

LEAP YEAR FAST is passing into history, and there's only a little more than three weeks left in which to spring the trap. We're counting Sundays and holidays, because Cupid's not on a five-day week, like Christmas shopping.

IT IS ENCOURAGING to report that Leap Year already has paid dividends for several girls, having brought even us a son-in-law. Then, too, Grace Kelly "altared" her future to include Prince Rainier of Monaco...

THE STATISTICS DON'T tell who proposed to whom. But the facts from legal records indicate that all told this has been a more prosperous Leap Year around the country than was 1952.

JUDGING FROM THE time it takes the lights to go up, the Christmas spirit doesn't seem to be catching on any too fast here.

OUT AT THE SCHOOLS, they've got the round-ball sport under way for another season. Last year, more than a dozen teams represented the local schools, and indications are that there'll be at least that many this year.

THE DECLARATION OF INDEPENDENCE says that all men are created equal, but many people never see it in black and white.

THE MINISTERIAL ALLIANCE'S Bible display in the Herring building on East Main Street is well worth looking over. It will remain up through next Monday.

CHANGING TIMES, The Kiplinger Magazine, offers the following suggestions on how to help your youngsters learn:

Whether your young child is exceptionally bright or not, here are some ways to help him learn! Let him talk as much as he likes. And listen. Speak correctly to him.

Read to him. When he grows restless, though, let him go. Stick to good books.

Encourage him to reason, to plan ahead, to follow instructions. But don't press him to learn. And don't teach him to read—that's a specialist's job.

Have faith in him. If he's like other kids, fine. If he's different, that's fine, too. Let him know that he's yours and he's okay.

Roger W. Babson Writes This Week:

Egypt-Russia Vs. England-France Seen As Opposing Forces If Real Trouble Occurs

BABSON PARK, Mass.—Israel will withdraw from the Middle East situation. She has been warned that if there is a real war, she will probably be wiped out. If there is real trouble, it will be between Egypt, supported by Russia, and England, supported by France.

How President Eisenhower Feels Mr. Eisenhower knows the situation probably better than anyone else; he has spent a year in North Africa with the Arabs. We must count on a possible two-or three-year struggle, which probably means inflation. The United States will supply arms at least to England and possibly to Egypt.

Mr. Eisenhower is very much disappointed in both England and France. Not only did they not ask his advice, but they went ahead very contrary to his wishes. Mr. Eisenhower has also been disappointed in the way the Western Powers have failed in connection with NATO.

Price Of Gasoline Will Rise The oil interests have notified Washington that, on the basis solely of supply and demand, fuel oil and, indirectly, gasoline will move up 1/2 a cent until oil is again coming from the Middle East.

I think that the present uncertainty will drag on until the next Congressional elections. If it does, Eisenhower may think he can win Congress by just going to the people and telling them it is a choice between paying for a gallon more for

MINIMUM OF EFFORT . . .

With another Christmas season at hand, the average individual is again saddled with the usual reminders of mail early, shop early, do this early, do that early, watch out for Christmas tree fires, etc.

Whatever else may be said for the preparations for getting us into the proper Yuletide mood, it must be admitted that no local group is putting out more than a minimum of effort in seeing to it that the town is properly bedecked for Christmas.

Meanwhile, we read in the papers and learn from other sources that a number of our neighboring towns and cities already have elaborate Christmas displays up or going up. Again this year, it's too late for us to do anything more about it than to string the same old lights, and chances are that nothing more will be thought about it after they are taken down—at least not until it is too late again next year.

Helping some, of course, is the Chamber of Commerce's home and store window decorations contest, and we understand that the high school exterior will be decorated again this year by the respective classes. We still need, however, concerted action on the part of one or more of our civic organizations to provide variety in the overall lighting scheme and to make it more impressive than it has been for the last few years.

James Thomson, who wrote, "Britannia rules the waves!" would be amazed if he could return to the earth and learn she's having a great deal of trouble trying to rule the ripples on a canal.

Russia's loss of face to all the other little countries is something gained from Hungary's suffering. And stripped bare for all the world to see is the fact that the "new look" on the face of the Soviets since Stalin's passing is only a veneer for the same ruthless tyranny that has always marked the bolshevik regime.

It takes difference of opinion, difference of policy and political theory to make good government. The best government is obtainable when the division between major schools of thought is nearly equal.

we blame it, either.

OUR ATTENTION HAS been called to a "slight" mistake in last week's story on the 4-H Achievement Day program. The story said approximately 400 members received awards, whereas it should have read "approximately 60 members."

JUST TO SHOW you how easy it is to make such mistakes, we first wrote it "approximately 40 members," then changed it on the proof to "approximately 60 members." How it managed to come out "approximately 400 members," we'll probably never know.

YOU CAN'T FOOL all the people all the time—some of them are fooling you.

Getting Out On The Limb

By EDDIE the editor

THE WOMEN, bless em! Forgetting your wife's birthday isn't nearly as bad as remembering her age.

You've reached middle age when you've learned how to take care of yourself and intend to begin almost any day now.

HAVING HAD a Thanksgiving Day bout with the ribbon-reversing mechanism on a new portable typewriter I'd bought the Inquiring Reporter who writes our "Up and Down Main Street" column, I was amused at the following article by David Savage in the Wall Street Journal:

"I think a person's typing reveals almost as much as their handwriting. For example, I have an excitable young niece in college who always splashes capitals and punctuation about, like this: 'Dear Uncle—Thank you SO MUCH for the five dollars; it will be so USEFUL . . . You have NO IDEA how SOON money SIMPLY GOES!!!"

"On the other hand, I have a radical friend who believes that capitals smack of capitalism and that punctuation is a waste of time. Consequently, he types notes like this: 'well just like i told you the worlds in a sorry mess isn't it what with suez it might be the united states next no telling where you are a fathead could do better than our world leaders.'

"Then I have the busy uncle in Chicago who believes that busy men should write in highly abbreviated form. His notes are as tough to read as tea leaves. Take his last note for example: 'Arr. Penn Stn. 11.157 pm EST ex Chi. Rsvr ngl w bth htl. Get tkts M F Ldy same nt but unpay 2 Hl. Ragsd.'

"Myself, I think people reading a typewritten communication are more kindly disposed to a man like me—I write simply and clearly and without effectation, scoring efferephant punctuation or other exentricities, and of course all the while watching my spelling."

One politician told me that the handshaking he did this year would have milked all the cows in Texas.

SUDDEN THOUGHT: Sometimes when a person thinks his mind is getting broader, it is just his conscience stretching.

TOO MUCH cannot be said on the value of clear writing. Too often we are all inclined to confuse our readers or smother our meaning by not writing simply enough.

Robert Gunning recently gave members of the Society of Associated Industrial Editors meeting in Dallas the following ten suggestions for clearer writing:

- 1. Keep sentences short. 2. Prefer the familiar to the unfamiliar. 3. Prefer simple to the complex. 4. Avoid unnecessary words. 5. Put action in your verbs. 6. Write like you talk. 7. Use terms your readers can picture. 8. Tie in with your readers' experience. 9. Make full use of variety. 10. Write to express not impress.

You can't fool all the people all the time—some of them are fooling you.

The Disturbing Element

Despite the fact that a large majority of Swisher farmers have the intelligence to recognize the seriousness of the present plight of the farmer, there are a few who say, "I am getting along all right."

We rejoice with those farmers who are getting along well today. But the disturbing element is their lack of vision and foresight.—"Town Topics" in The Tulsa Herald.

No More Tranquilizers

Historic Valley Forge Site Is Being Prepared For Jamboree

Officials report the site is being prepared for the National Jamboree at Valley Forge, Pa., July 12 to 18. The tent city will house 50,000 Boy Scouts, and leaders from all over the nation and some foreign countries. It will have its own electric and telephone systems, post offices, and other facilities for the largest gathering in the western hemisphere.

Over one million paper plates there won't be a dishwashing problem.

The jamboree camp inhabitant will have plenty of time to pick up camping techniques through intercamp visits, displays, campfires and demonstrations. There will be excursions to historic shrines in and near Philadelphia.

Sunday, July 14, will bring one of the most impressive thrills to the jamboree. In several religious services, each conducted in designated areas simultaneously, the more than 50,000 boys and leaders will worship according to their own faiths, all united in the freedom of their right to worship God.

The sprawling tent city will be governed by the Scout Oath and Law and administered by teams of national, sectional, and troop Scouting leaders. Scoutmasters and their assistants are being carefully selected locally for the responsibility and honor of jamboree troop leadership.

For many of the 50,000 participants it will be a "once in a lifetime" experience seeing America and camping with others from all parts of the nation.

Products, meat, fruit and vegetables to commissary refrigerators. It will be high-quality food, bought by the carload, to fit well-balanced menus.

Troops will get their food and cooking supplies before each meal at sectional commissary tents. Jamboree campers will cook their own meals and share the daily camp chores. Each patrol or crew member will share such tasks as fire builder, cook, and "cleaner-upper." Thanks to the use of

Already completed is a stage 300 feet wide and 100 feet deep in front of a natural amphitheatre that will hold about 55,000 jamboree campers and guests. Spectacular programs are planned for the opening evening, July 12, and the farewell program on the evening of July 18. Outstanding Americans will participate in both programs.

There will be other Scout shows in sectional arenas. Campfires and daytime demonstrations will give each Scout a chance to show his stuff or be entertained and instructed by the other fellow's skills.

Christmas Mailing Tips Told Patrons

Postmaster Harold Voss said today that while the post office still has a tremendous job ahead of it, efforts are being redoubled to deliver all mail on time and in good condition by Christmas Eve. He points out that by taking a little extra care with your Christmas mailings now, you'll avoid disappointing friends and loved ones at Christmas time.

He asks for your special cooperation to be sure that your return address and the recipient's address are plainly typed or written on all labels and Christmas cards. Use zone numbers, and it's a good idea to include an extra label inside your packages. Parcel post size and weight limitations vary according to destination. Ask about them when you go to the post office to buy stamps.

Speaking about stamps, the postmaster said, "Use three cent postage on all your Christmas cards. This way they will be delivered

Lockney Longhorns Lose To Muleshoe

The Lockney Longhorns of District 2-AA lost to the Muleshoe Mules, 46 to 39, Friday night on the Lockney court. The visiting Muleshoe cagers made it a clean sweep by taking the girls' game, 49-33, and the boys' "B" team game, 46-43.

David Frazell, with 14 points, led the Lockney scoring in the varsity contest. Nelda Widner hit for 16 points to pace the Lockney girls in their game.

The Lockney teams come here Jan. 4 for opening conference games, and the Post cagers play at Lockney on Jan. 29.

FIVE-YEAR LOAN PERIOD IS COVERED

Farmers Home Administration Reports Family-Farm Progress

Annual gross cash income grew from \$4,880 to \$8,021 in five years for a group of Texas farm families who obtained Farmers Home Administration farm ownership loans in 1950 to buy, enlarge, or improve their farms, the agency's state director Walter T. McKay reported today.

The average net worth for these Texas farm families advanced from \$7,301 before they received their farm ownership loans to approximately \$10,900 at the end of their fifth year of operation under that loan program.

Before the loans were made, the average family in the group was operating 189 acres, but was operating 224 acres in 1955. The combined value of equipment and

productive livestock owned by the average family in the group was \$4,398 before the loan was made, and was approximately \$6,686 in 1955.

Figures showing these advances, together with five-year progress along other lines, come from a survey of 1955 borrowers who obtained loans in 1950. A similar survey is made each year. The 1956 figures will be available in 1957, showing five-year progress made by those who got their loans in 1951.

Farm ownership loans are made to buy family-type farms, enlarge underused farms, develop farms and refinance debts. Funds come from private lenders under the insured loan program or from

annually appropriated funds, and are amortized for periods up to 40 years. On an average, the loans are repaid in nine years. Insured loans are limited to 90 per cent of the fair and reasonable value of the farm. A loan not be made if the fair and reasonable value of the farm is more than the average value of efficient family-type farms in the county.

TREE SEEN AS BIGGEST FIRE HAZARD

23 Persons Killed By Fires On Eve Of 1955 Christmas Holiday

"Fires across the nation have killed 23 persons, most of them children, on the eve of the Christmas holiday celebration.

"All but 10 of the fire victims were children eagerly awaiting the excitement and gifts of Christmas."

That was last year. Will it happen again this year?
And the saddest thing is that

such tragedies often occur around the Christmas holiday—sometimes even around the Christmas tree itself—at the happiest time of the year.

The reason the tree burns so fiercely and so rapidly is because it's filled with pitch and resin—among the most combustible substances known.

What can you do about the tree?

First of all, the National Board of Fire Underwriters suggests that you select a small one. There will be 30,000,000 on the market. Some 4,000,000 Christmas trees reach retail outlets in New York State alone.

It's best to keep the tree outdoors until a few days before setting it up. During that time occasionally throw water over it. This will keep it moist, fresh.

When you bring the tree inside, cut the butt slantwise to open the pores, then stand it in a tub of water. Be wary of chemicals or other substances sold for "fire-proofing" trees. In some cases this process is ineffective.

In placing the tree, the National Board advises that you avoid "hot spots" such as those near the fireplace, stove, television set, radiator, or electric bulbs.

Never, warns the National Board, use untreated paper ornaments or untreated cotton batting or gauze for decoration. Cotton and gauze can be made flame-resistant by dipping in a gallon of water mixed with nine ounces of borax and four ounces of boric acid.

Also, use only electric lights, never candles. Be sure, too, that wires are in good condition and bear the UL tag denoting Underwriters' Laboratories, Inc., which shows they have been tested for safety. Frayed electric cords, the National Board points out, are a fire hazard.

Drownings are second only to motor vehicles as a cause of accidental death.

Seminole Rolls Over Abernathy, 79 To 33

The Abernathy Antelopes of District 2-AA were soundly thumped by the Seminole Indians, 79 to 33, Saturday night in a basketball game at Seminole.

Abernathy was behind 18-7 at the end of the first quarter, 32-15 at halftime and 56-21 at the end of the third period.

Billy Guinn, center, had nine points to pace the Abernathy scorers.

It was the Antelopes' second loss against one victory. They lost their season opener to the Tom S. Lubbock Westerners and then defeated Frenship, 46 to 38.

Abernathy plays host to the Post Antelopes on Jan. 15, then comes here for a game on Feb. 8.

Giles McCrary transacted business in Dallas Monday and visited his daughter, Mary Louise, and Miss Linda Lott, students at Hockaday.

LONE STAR AGRICULTURE

Good Health Depends On 'What You Eat' And Not 'How Much'

By JOHN C. WHITE
Commissioner of Agriculture

Three "hearty meals a day" is no guarantee of good health. It is "what you eat" and not "how much" that counts.

Strangely enough, in the richest agricultural nation on earth, an alarming percentage of the population is deficient in consumption of vital nutrients such as calcium and vitamin C. Even over-weight people who eat high-calorie foods rarely get a real balanced diet.

The current popularity of high-calorie foods only tends to make some people fat, according to recent diet studies. A danger point is approached when these rich but unbalanced eating habits prevent a person from getting enough protective foods necessary for good health.

It is generally accepted that people should maintain in later years the weight that was ideal for their height and bone structure at age 25. Yet, regional studies show that a large number of older people are seriously overweight. The problem today is to encourage people with low energy requirements to plan diets that eliminate surplus calories but do not curtail essential nutrients.

For example, the National Research Council recommends a daily intake of .8 grams of calcium as necessary for good health. Yet, only about one person in six takes that much calcium daily—and calcium is abundant in eggs, milk and cheese.

It is well established that vitamin C is important in maintaining health teeth and gums. Most people are 19 per cent below normal in vitamin C intake except in areas where citrus fruits are plentiful.

Texas is a big producer of citrus fruits. The diet study seems to suggest that foods rich in vitamin C should be promoted and made more attractive to adults, and that frozen and dried citrus concentrates and other dependable year-round sources deserve more attention.

Greater calcium consumption should be encouraged through increased public education on the value of milk and milk products.

Slaton Tigers Lose To Meadow Cagers

The District 2-AA Slaton Tigers lost to the Meadow Bronchos, 56-43, Friday night on the Meadow court. The Tigerettes also lost, 50-37.

In the boys' game, White was high scorer for Slaton with 13 points, followed by Hogue with 11. Beverly Bland paced the Slaton girls with 19 points.

District contests between Slaton and Post are scheduled for Jan. 18 and Feb. 12, with the first game to be on the Tiger court.

Completion Test Is 123 Barrels A Day

Completion of its No. 3 Clarence Basinger well, southwest of Southland in the Sunland-San Andres field of northeastern Lynn County, has been announced by the Hancock Oil Company.

On pump, the well tested 123 gallons of 35-gravity oil per day. Pay was topped at 3,750 feet, with perforations from 3,935 to 3,943 feet.

Exact location is 1,278 feet from north and 330 feet from west lines of Section 1274, Block 8, EL&RR Survey.

"A GOOD DEAL DEPENDS ON YOUR DEALER"

FOR ALL WE HOLD SACRED.... ATTEND CHURCH!

THE NEXT STEP

The speed of modern life tempts us to think of our goals and to forget the importance of a single step. But the men who scale the highest peaks concentrate on one step at a time.

There seem to be plenty of folks with noble aspirations who rarely go to Church. Some of them may reach their goals; but legion are the others whose "one false step" starts an avalanche of broken hopes.

The steady, sincere, every-Sunday church-goer usually has noble aspirations and a far better chance of achieving them! He has learned to study each step by faith and prayer... to test the ground on which he treads... to climb with others in a common quest of the summits of life.

Destiny depends on the next step!

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

CAREFUL PLANNING, MANAGEMENT NECESSARY

Efficiently Operated Dairy Farms Not Result Of Chance, Says Expert

through the careful planning and management of all phases of the operation.

Efficiently operated dairy farms are not the result of chance. On the contrary, says R. E. Burleson, extension dairy husbandman, efficient dairy farming is developed through the careful planning and management of all phases of the operation.

Location Spotted For New Wildcat

J. Paul Karcher of Midland has spotted location for his No. 1 S. C. Storie, proposed 4,400-foot wildcat one and one-half miles northwest of Close City.

Drill hole will be made 990 feet from south and east lines of northeast quarter of Section 1303, Block 1, ELARR Survey.

Continental Oil Co. No. 1 Blake, six miles northwest of Post, has been plugged back to 3,425 feet and is being prepared to put on pump.

Neville G. Penrose et al No. 1-GX Miller, three miles southeast of Justiceburg, is drilling at 3,200 feet in lime.

Paul C. Teas No. 1-A J. B. Slaughter Estate, six miles south of Post, is drilling at 6,479 feet in lime, shale and chert.

Busy Crossing May Get Traffic Signal

Favorable action in installing a stop-and-go traffic signal at the intersection of South Broadway and the Tahoka Highway has been indicated by the State Highway Department, it is reported by the Chamber of Commerce.

The highway department recently conducted a traffic check at the intersection after being requested to do so by the City of Post.

It is felt that a signal at the intersection will slow much of the traffic that races through the Main and Broadway intersection.

SLATON TIGERS LOSE

The District 2-AA Slaton Tigers lost to Monterey High School of Lubbock, 70 to 40, Tuesday night on the Plainsmen's court. Dal Stanley collected 12 points and Larry White hit nine to lead the Tiger team. In a preliminary contest, the Slaton "B" team lost to the Monterey Lancers, 65 to 37.

TAHOKA TEAMS WIN

The Tahoka Bulldogs of District 2-AA won their second game of the season Tuesday night by defeating Denver City, 51 to 46, on the Tahoka court. Jerry Brown scored 12 and Marion Hawthorne 11 for the Bulldogs. Tahoka's "B" team won over the Denver City reserves, 42 to 25, in a preliminary game.

Homemade Food Items Make Good Christmas Gifts

Homemade fruit cakes, cookies, candies and other food items make Christmas gifts with a "built-in" personal touch that's always appreciated, says Miss Jessie Pearce Garza County home demonstration agent.

"Start now to check your Christmas list and make plans to include some gifts from your kitchen," suggests Miss Pearce. "Here are some suggestions from extension foods and nutrition specialists":

One-pound fruit cakes and larger decorated cakes with candied fruit and nuts—wrapped in cellophane.

A box of homemade jams, preserves or jellies put in uniform jars and wrapped in holiday attire.

Special yeast breads—tea rings, Jule Kaza and loaves of bread, attractively wrapped.

Cookies or candy packed in decorative tins or gaily wrapped boxes.

Bottles of homemade salad dressing.

Gala popcorn balls, wrapped in bright cellophane and tied with ribbon for children.

Plum puddings.

Wooden bowls with Texas pecans and a nut cracker.

A Mexican basket filled with colorful fruits.

Canned chicken or other meats from your pantry shelf—homemade sandwich spreads in little pottery jars.

Range Meeting Slated For Abilene Saturday

ABILENE (Spl.)—The Texas Section of the American Society of Range Management will meet in Abilene Friday and Saturday, with Abilene Christian College as host.

Principal speaker for a banquet Friday night will be B. W. Allred of the Soil Conservation Service in Washington.

The program Saturday will include a panel discussion of the value of range lands as watersheds.

MINISTERS TO MEET

The December meeting of the Post Ministerial Alliance is scheduled for 1 o'clock Friday afternoon at the Church of God of Prophecy. The Rev. Cecil Stowe, president, will preside.

Adults in families with small children usually have more colds than other adults.

Tulia Girl Is Named 25 Turkeys— Farm Bureau Queen

WACO (Spl.)—Joann Vaughn, a lovely, hazel-eyed brunette from Tulia in the Texas Panhandle, is looking forward to the most exciting trip of her life next week. She and her mother, Mrs. Murshall Vaughn, will attend the 38th annual convention of the American Farm Bureau Federation Dec. 9-13 in Miami Beach, Fla.

The 17-year-old high school senior received \$500 to make the trip when she was selected 1934 Texas Farm Bureau Queen Nov. 12 at the organization's annual meeting in Houston. The status-quo West Texas beauty competed against 12 other Farm Bureau district winners. Runnerup was pretty Donna Black of Dumas.

In high school Joann is a member of the Thespians and Future Teachers of America. She is a majorette and also plays clarinet with the Tulia High School band. After graduation she plans to major in elementary education at West Texas State College at Canyon.

All contestants in the state finals received expense-paid trips for themselves and their matron escorts to the TFB convention in Houston. The state farm organization also presented each contestant with a beautiful wrist watch. In addition, the 12 runners-

1 cup broken walnuts
1 1/4 cups cut-up candied fruit, bulk or canned, ready-mixed

Line with waxed paper bottom and sides of a loaf or tube pan holding about 6 to 9 cups. Put into a bowl the milk, marshmallows and orange juice. Let stand until needed. Roll graham crackers into fine crumbs. Put crumbs into a large bowl with the cinnamon, nutmeg, cloves, raisins, dates and walnuts. Add candied fruit and the milk mixture. Mix with a spoon, then with hands until crumbs are moistened. Press firmly into pan. Top with fruit and nuts. Cover tightly. Chill 2 days before slicing. Keep in cool place. Makes 3 1/2 lbs.

* 24 large marshmallows, finely cut, can replace midget marshmallows. Alcoholic flavoring can replace the orange juice if desired.

Abernathy Cagers In Plainview Tournament

One District 2-AA team, the Abernathy Antelopes, is entered in the third annual Plainview Invitational Basketball Tournament scheduled for Friday and Saturday.

Other quintets rounding out the eight-team entry list are Plainview, Vernon, Levelland, Dumas, Tulia, Brownwood and Sweetwater. Levelland is the tournament's defending champion.

Abernathy's first round game is against Brownwood at 7:30 p. m. Friday. The Antelopes have lost to Tom S. Lubbock and Seminols and won from Frenship in their opening games.

Pony Loop Charter Plans Being Made

Plans are being made for the application of a charter for the Post-Tahoka Pony League, officers have announced.

Schedules for the 1957 season are to be worked out soon. Each town will have two teams in the league. Post sponsors are Levi's Ranch Cafe and Bob Collier Drug. Sponsors of the Tahoka teams are Goodpasture, Grain & Elevator Co. and Lynn County Co-operatives.

James Minor of Post has been elected president of the league. Other officers are A. M. Bray of Tahoka, vice president; Leo M. Acker of Post, secretary; and L. A. Forsythe of Tahoka, treasurer. Other league board members are Phil S. Bouchier and Pat N. Walker of Post and J. E. Nance and Herman Heck of Tahoka.

7th grade boys won, 21 to 19, but the 8th grade boys and girls lost, the boys by 25 to 22 and the girls by 32 to 22.

In the 7th grade team's victory, Leslie Acker was top scorer for Post with 12 points. Tommy Bouchier contributed seven points.

Gary Howell, with 10 points, led the Post scorers in the 8th graders' three-point loss. Others scoring for the losers were Jerry Ligon, 6; Jimmy Minor, 3, and Kenneth Williams, 3.

Peggy Ramsey and Ann Morris each scored 8 points in the Post girls' defeat, while Raynora Young had 7 points.

Both 7th and 8th grade boys' teams won their openers at Lorenzo on Nov. 22, the 7th graders by a score of 19 to 7, and the 8th graders, 31 to 28.

Tommy Bouchier scored 12 points in the 7th grade team's victory, while Donnie Hays, with 12, and Wayne Hair, with 8, led the 8th graders to their victory.

Post Loses To Colorado City; Play Jayton There Thursday

The Post Antelope basketball team, which has broken even in its first two starts, plays at Jayton tonight and at Ralls next Tuesday night, Coach Burl McCoy has announced. The next home game will be Monday, Dec. 17, against Rotan.

In a tight defensive game here Tuesday night, the Antelopes were defeated by the Colorado City Wolves, 30-25, in their first home game.

Howard Jones' field goal got the Antelopes off to an early lead,

COACH BURL MCCOY

but tight zone defenses most of the rest of the way kept down the scoring on both sides. The Wolves had pulled up to a 4-4 tie at the end of the first quarter and the teams were still deadlocked, 10-10, when they left the court at half-time.

The Antelopes had forged into an 18-15 lead at the end of the third period, but the Wolves came back with a fourth quarter rally which netted 15 points while holding the locals to seven. Don Smith's field goal with four and a half minutes to go put the visitors ahead, 22-21, and they held on for the victory.

Post's cause was hurt when center Damon Ethridge fouled out with three minutes to go.

In preliminary games, the "B" team downed Colorado City, 51 to 38, and the Post girls lost to Ralls, 34 to 26.

Following is the box score of the varsity game.

'B' Team Wins Over Wolves, 51 To 38

The high-scoring Post Antelope "B" team downed the Colorado City reserves, 51 to 38, Tuesday night in the high school gymnasium.

The 51 points scored against Colorado City ran the "B" team's two-game output to 124 points. They defeated Rotan, 73 to 19, in their season opener.

Paced by Jimmy Short's 16 points, Coach Burl McCoy's well-balanced "B" team led 18-6 at the end of the first quarter against Colorado City, 28-18 at halftime and 42-26 at the end of the third period.

Post Sextet Loses After Slow Start

The Post girls' basketball team was unable to start hitting the basket until the second half here Tuesday night and by that time it was too late for them to overhaul the Ralls girls, who won by a score of 34 to 28.

The Post guards held the Ralls forwards to 12 points in the second half, while the Post shooters were hitting the nets for 19.

The visiting team took a commanding 12-5 first quarter lead, and had stretched their margin to 22-9 at the halftime buzzer. Post had narrowed the gap to 30-21 at the end of the third period.

Marie Howard and Janet Stephens, with 10 points apiece, shared Post scoring honors. Kay Martin and Glenda Whittenberg scored three points each, and Louise Gerner, two points.

Sharon Sessom had 15 points to pace the winners.

Cotton Classing Improvement Changes Supported By PCG

Irby G. Metcalf Jr. and L. G. Thuet Jr., Garza County directors of the Plains Cotton Growers, Inc., announced this week that the PCG was backing the eight changes recently recommended for improving cotton classing for South Plains farmers.

The directors explained the eight recommendations were made unanimously at a meeting held in Lubbock Nov. 29 attended by representatives of the PCG, the South Plains Farmer-Ginner Committee, South Plains Ginner's Association, Farm Bureau, Farmer Union and businesses.

The eight specific recommendations the group listed as favoring the improvement of cotton classing were:

1. Establishment of uniform humidity equipment in all classing offices in this area, whether it be the Lubbock office or other newly-established offices, and that cotton be allowed to condition 12 to 24 hours before classing is done.
2. Multiple classing offices be considered for this area. W. O. Fortenberry, president of PCG, appointed a committee to study this program and report later. This committee is Curtice Boyd, Lubbock, chairman; John I. Bol-

ing, Hale Center, and Kenneth Purtehl, Brownfield, members.

3. Samples of bales taken at both gins and compresses were discussed and the group voted for more uniform samples regardless of where taken and also recommended that the ultimate goal be the taking of automatic samples from the gins.

4. Recommended the return to use of the class or "pink" sheet by the classing office and that each classer be given a code number and it be placed on the pink sheet.

5. Establishment of a classing review board composed of one qualified classer each to represent the farmer, the cotton trade and the government, and the grade given by this board be a final grade.

6. The date entered on the green card be the date the sample was received at the cotton classing office instead of the date the cotton was actually graded.

7. The Commodity Credit Corporation recognize and set a value for light spotted cotton in the government loan.

8. This group as a body opposes any proposed change of the average grade and staple from $\frac{7}{8}$

inch to 1 inch in the government cotton program.

The cotton also discussed a meeting next spring or summer in Lubbock to which USDA classing officials from Washington would be invited to discuss rules and regulations which will govern classing of cotton for the next season.

The cotton representatives also went on record as endorsing the Smith-Doxey program and pointed out that the recommendations made were done so only with an eye towards improving the program and not as a criticism.

George Pfeiffenberger, executive vice president of the PCG, served as secretary at the meeting. He announced the recommendations would be presented to USDA classing officials in Washington.

JANUARY DRAFT CALL

Texas' draft quota for January is 861 men, 16 less than in December. State Selective Service has announced. Col. Morris Schwartz, director, said the national call for January is 17,000 men.

He said about half the Texas boards will call 1,977 men to take pre-induction examinations for future calls.

VA Questions And Answers

Q. May a veteran change his Korean GI Bill program of training if his progress in his present course has not been satisfactory?

A. He may, providing he shows VA that the lack of progress was not due to his own misconduct, neglect or lack of application, and if he has not changed his program prior to that time.

Q. Are there any restrictions on GI insurance that would make the policy invalid if the veteran holds a hazardous occupation?

A. There are no such restrictions on GI insurance. The veteran may engage in any occupation, no matter how hazardous, without altering the terms of his policy or the amount of his premium.

Q. Is it possible for a young man or woman to take a regular high school education under the War Orphans Schooling program?

A. No. The law prohibits regular high school studies under the program. Below-college-level courses may be taken only if they offer specialized vocational training that equips students for a vocational goal.

Q. I lost my discharge from the Armed Forces. Can VA provide me with another?

5,535 Acres Covered In Reserve Pacts Signed For 1936

Fifty-five operators signed 1936 conservation reserve contracts on 5,535 acres, it was announced Tuesday by Emmarhe I. Hartel, office manager for the Garza County office of the Agricultural Stabilization and Conservation Committee.

Friday was the deadline for signing the 1936 contracts. Signing of conservation reserve contracts for 1937 began Monday and will continue through March 15, 1937.

Measuring and staking off of the acreage covered in the contracts signed here is under way this week, Mrs. Hartel said.

The ASC office reminds those signing conservation reserve contracts that the following provisions should be noted:

1. The contract is binding and legal.
2. The contract cannot be cancelled by the producer.
3. The contract cannot be cancelled by the government except for violation of the contract.
4. Under the Soil Bank Act, a producer who knowingly and willfully grazes or harvests any crop from any acreage in violation of the contract is subject to a civil penalty.
5. That the acreage designated as conservation reserve and the acreage of Soil Bank base crops will be measured.
6. That the required practices must be carried out and maintained for the duration of the contract.
7. That the breaking out of land on the farm not classified as cropland at the time of the execution of the contract shall be a violation of the contract unless the county committee approves the breaking of such land and an equal amount of acreage is restored to permanent vegetative cover.

GETS CONTROLLED HEAT

"I've cooked electrically for years, so naturally when I bought a new double oven range, it was electric. When I am working with expensive fruit cake ingredients, my baking temperature must be exact. I have found that an electric oven gives me exactly the controlled heat I want."

RANGE DOES PERFECT JOB

"The double oven model is excellent, not only in my fruit cake baking, but comes in handy for family dinners and entertaining friends. Handy, too, for quick snacks are the surface units ... they're so fast. I find my new range does a perfect job whether it's a quick snack or the fully loaded ovens."

LIKES ELECTRICITY

Mrs. Henry describes her home as an electric one and she says, "We are all proud of our electric appliances which make living more enjoyable."

Christmas is coming and Mrs. Henry has turned her love for baking fruit cakes into a profitable business during the holiday season. Last year she baked over 500 pounds of fruit cake in two weeks ... a tribute to the exactness and accuracy which electric baking gives.

At Christmas Time, Cook Better Electrically with a New Electric Range!

'H-Day' Program Is Set For Thursday

The Hospitality Day program will be resumed this afternoon not having been held last Thursday because of the Thanksgiving holiday.

To date, participating merchants have issued merchandise certificates in the amount of \$1,200—five \$20 certificates at each drawing. After being honored by the merchants, the certificates are redeemed at the Cham-

ber of Commerce office, which is the sponsoring organization.

The Hospitality Day Christmas jackpot drawing, in which five \$100 merchandise certificates will be awarded, is to be held Thursday, Dec. 20.

The drawings are held between 4:15 and 4:30 p. m. each Thursday in front of the Chamber of Commerce office.

Mahon Is Working For Loan Basis On Light Spot Cotton

Rep. George Mahon has wired Secretary Benson, urging him to immediately set in motion plans which will guarantee a loan basis on light spot cotton for the 1957 crop year.

This action followed a meeting in Lubbock of representative farmers from approximately 30 West Texas counties on Nov. 28. At the meeting a resolution was unanimously approved calling upon the Department of Agriculture to include a specific loan on light spot cotton in the government loan program.

Attending the meeting were re-

presentatives of the Plains Cotton Growers Association, Farm Bureau, and Farmers Union. Other industry and producer groups were also represented.

In his message to Secretary Benson, Mahon pointed out that the nation's cotton growers were losing millions of dollars annually by reason of the refusal of the Department to grant a special loan on light spot cotton.

Mahon pointed out that over a period of years he had joined with other West Texans in seeking a special loan on light spot

cotton. This year such a loan was endorsed by the House Committee on Agriculture in a report made to Congress, and a Congressional hearing was held in Greenville, Texas, in October at which time the Department of Agriculture was condemned for its failure to provide for a special loan on light spot cotton for the 1956 crop.

Mahon expressed belief that the united front which has now been presented by all farm groups should mean a great deal in the campaign for a government loan basis on light spot cotton for 1957.

FRANCIS DIETRICH TO TRY FOR ALL-STATE BAND

Post Band Director To Attend Area Clinic In Lubbock This Weekend

Bob Meisch, director of the Post Antelope band, will be among the more than 50 area directors attending Texas Tech's 13th annual Region I Band Clinic on Friday and Saturday.

The band director said Monday that Frances Dietrich, drum major and alto saxophonist, will try out for the area's 15 positions in the All-State High School Band, which meets Feb. 15-17 in Dallas.

The band directors will gather Friday in the Music Building to study music to be used in the University Interscholastic League Concert Band contest next spring.

The tryouts for the All-State Band are to be held on Saturday. Performances of UIL contest music will make up a major part of the Friday program. Contest music for Classes A, B and C will be demonstrated by a select

BACK THE ATTACK ON TRAFFIC ACCIDENTS

Safety Group Warns Against Hurricane Speed On Highway

Are you a hurricane driver? You are if you drive 75 miles an hour or more, the National Safety Council said today.

For at that pace, warned the Council, you can destroy yourself and anything in your path as quickly as a hurricane. "The U. S. Weather Bureau considers winds of 75 miles and over of hurricane proportion," said Ned H. Dearborn, president of the Council, "and motorists should remember that a car driven at the same speed is propelled with the same destructive force."

Because of the emergency traffic situation, with its rising toll, Dearborn said a year-round "Back the Attack on Traffic Accidents" campaign being launched this December will continue through 1937. The purpose of the campaign is to encourage public officials to step up the attack and to stimulate citizens to back the attack on traffic accidents.

During December, campaign emphasis will be on speed, drinking drivers and pedestrians, night driving and pedestrian hazards. Speed was a large factor last year in the 609 Christmas traffic deaths, the Council said. Driving too fast for conditions or in excess of the speed limit was a factor in 85 per cent of the fatal accidents, compared with an annual average of 35 per cent. At high speeds the human body becomes increasingly vulnerable,

the Council said. If an accident occurs at 60 miles an hour or more, the victim is eight times more likely to die than if he had been injured in an accident at 20 miles an hour.

"Speed not only increases your chances of having an accident—it decreases your chances of coming out alive if you do have one," Dearborn said.

To determine a safe speed, the Council said, drivers must take into consideration:

1. Weather and visibility. Fog, rain, snow, blowing dust, bright sunlight, or darkness are caution signs that should be heeded.
2. Mechanical factors. Engine power, ability to hold the road and efficiency of all mechanical parts have a definite bearing on selection of a safe speed.
3. Physical factors. Whether a road is rough, smooth, hilly, flat, curving or straight are considerations that should influence speed.
4. Personal factors. The driver's physical and mental condition and the speed at which he can safely control his car are important factors.
5. Traffic conditions. Drivers should adapt their speed to the traffic they meet. A safe speed on a country road can be unsafe on a city street.

Mrs. Frances Dodson and Cherry of Lubbock visited during the weekend with friends and relatives.

Yearly Loss High From Cattle Grubs, Says Garza Agent

Texas livestock producers can increase their income by several millions of dollars each year by controlling heel flies and their larva, the cattle grub. The real profit grabber is the larva which is now appearing as a lump under the hide in the backs of dairy and beef cattle.

The yearly loss, says County Agent Lewis C. Herron, comes from damaged hides, lowered meat quality and reduced milk production. The grubs are readily killed in the fall when they are emerging from the backs of cattle, and the recommended insecticide is rotenone.

The county agent recommends 7 1/2 pounds of derris or cube powder containing 5 per cent rotenone in 100 gallons of water for sprayer use. A spray machine capable of producing a 200-pound pressure should be used.

For a dip, add 10 pounds of wettable sulphur to the above formula. As the cattle go through the dipping vat, scrubbing their backs with a stiff, long-handled brush will insure a better kill of the grubs by knocking off scabs and permitting the insecticide to penetrate into the animal's skin.

A dust can be compounded from one pound of derris or cube powder containing five per cent rotenone and two pounds of a heavy non-alkaline dust such as talc, tripolite earth or prophyllite. Ready prepared dusts should contain at least 1.67 per cent rotenone. Work about three ounces of the dust into the back of each animal.

The treatment, whether in the form of dust, spray or dip, should continue at 30 day intervals as long as the grubs continue to appear in the animal's back. Incidentally, says Herron, rotenone is also effective against lice and these troublesome parasites may also be controlled especially if application is made by spraying or dipping. Make the first application as soon as grubs begin to appear in numbers, says Herron.

Mrs. Tol Thomas had as her guests Thanksgiving Day Mr. and Mrs. Jimmy Thomas and children of Hereford, Mr. and Mrs. Wayne Thomas and children of Lubbock, Mr. and Mrs. Wagoner Johnson and son, Mr. and Mrs. Red Floyd, A. C. Thomas and Vickie of Eunice, N. M., and Mr. and Mrs. J. A. Johnson.

NEA Estimates Texas Needs 4,000 Teachers

The National Education Association estimated Monday in Washington that 72,275 teachers work in Texas public elementary and secondary schools, but 4,000 more are needed to reduce oversized classes.

The estimated average salary of classroom teachers in the Texas schools was \$3,925.

Saturday afternoon guests in the home of Mr. and Mrs. T. R. Hibbs were "The Serenaders", of Lubbock.

Mr. and Mrs. Robert Cain and family spent Sunday in Lubbock, where they attended the open house for the Children's Home.

The NEA estimated need for teachers was set at 47,760 in addition to the 1,258,136 presently employed.

This Christmas give her a MAJOR APPLIANCE and make it GAS!

Here's the gift she'll use hundreds of times daily... every day of the year.

An automatic GAS water heater is the perfect answer to today's — and tomorrow's — designs for living. It has beauty... beauty she'll be proud to have showing. It has matchless speed... for it's a fact that GAS heats water faster than other fuels. It has safety... vents to the outside — as any water heater should, according to safety engineers. Yes, here's the practical gift that will pay dividends to the whole family!

Education, Modern Wonder Drugs Eradication Venereal Diseases

We are gradually enlightening the control of a subject which, once and not discarded, mass education of treatment of these infections with modern medicine are now in a eradication and of these infections spread of these in Texas, the Department, through these Control Divisions primarily of investigation of venereal disease the state are 24 and experienced lecturers, as well nurses, who in-and, in turn, contacts, treatment methods, formerly treated now cared for by sicians, generally, reluctant to make patients available

for contact investigation. Today, however, more and more private physicians, realizing that these investigations are strictly confidential and conducted by highly trained public health personnel, are making their patients available for the necessary contact investigations.

Upon request, the state Division of Venereal Disease Control offers medical, nursing, interviewing, investigating and other consultant services to the local level. During the past two years, these services have been in constant demand throughout the state.

This past summer, the Division of Laboratories and the Division of Venereal Disease Control in the State Health Department cooperated with the United States Public Health Service, Washington, D. C., in performing a "pilot study" of the blood serologies of Mexican braceros entering the El Paso facility.

This study included over 50,000 blood tests, and of these over seven per cent showed positive reactions. An endeavor was made to treat all of the positive reactors remaining in Texas.

Venereal disease control, like other programs of the State Health Department, belongs to the people, and eradication will become a reality when all Texans cooperate fully in making it so.
