

# Criado sentenced to 20 years by jury in Manuel Mindieta slaying

## Murder trial is first by jury here since 1951

There was no question in anybody's mind here this week during Post's first murder trial by jury in 16 years as to exactly who shot whom.

All the witnesses to the fatal shooting of Manuel Mindieta here about 1 a. m. on June 11, 1966, after Victor Vargas' birthday party, agreed — including the quiet, small defendant himself — that Julio Criado emptied up to nine shots out of a borrowed .22-caliber pistol at the slain man.

Law officers testified one of the bullets pierced Mindieta's heart and he fell dead near the parking lot north of Teen Town where the shooting occurred.

It did not matter that apparently seven of the other eight bullets missed their mark in the darkness.

What did matter was whether the 19-year-old Mindieta had called the 27-year-old defendant a "dirty name" and "took a couple of steps" toward Criado before Criado started shooting.

Testimony conflicted on these points, upon which the defense based its plea of self defense under Texas law, which holds a man has the right to defend himself if in fear of his life.

The jury — which included nine men and three women — yesterday morning found Criado guilty of murder with malice as charged and fixed his penalty at 20 years in prison.

The state did not ask for the death penalty.

The verdict came at 11:30 a. m. Wednesday after four and one-half of deliberations in the first trial here under the changed Texas penal code which provides that the jury first must return its verdict.

The defendant then has the choice of having the jury or judge determine the penalty. In this case, Criado chose the jury to determine his sentence.

After two more hours of deliberation, the jury returned again to the courtroom at 3:10 p. m. and rendered the verdict of 20 years prison sentence.

District Judge Truett Smith had instructed the jury that it could impose a sentence of anywhere from a minimum of two years to a maximum of life imprisonment.

The murder case went to the jury at 7:45 p. m. Tuesday after two long days — total of 22 hours of jury selection, testimony, court instructions, and final pleas by state and defense attorneys — after a trial which included some interesting courtroom histrionics that held a crowd of up to 50 persons.

Eight hundred persons received chest x-rays here Tuesday during the visit of the mobile x-ray unit of the West Texas Tuberculosis Association.

The total included 225 students and teachers while the unit was at the school, 225 adults while it was at its downtown location, and 350 mill employees while the unit was in operation at Postex Mills.

Ansil O'Neal, president of the Post Rotary Club, which sponsored the mobile unit's visit, said a total of \$311.69 was contributed by those having x-rays made at the schools and downtown. Contributions of \$1 had been asked of adults having x-rays made and 50 cents of students. O'Neal said the Rotary Club will make up the difference.

Contributions for x-rays made at Postex Mills is being paid by the mill, the Rotary president said.

Rotarians provided clerical help for the unit during its one-day stop here, and the Southwestern Public Service Co., made the necessary electrical operation hook-ups.

Patricia Gilbert received a two-year probation sentence on each of two charges of check altering, to which she had entered pleas of guilty.

Court is continuing in session today, but the jury was not called for today's proceedings.

in their courtroom seats right to the finish.

District Attorney George Hansard of Lamesa in his final summation of the state's case Tuesday night grabbed the death weapon off the jury box rail and waved it around in his portrayal of the shooting.

On Tuesday when state witnesses testified to the distance between Criado and Mindieta when Criado began shooting, George Glikerson of Lubbock, who headed Criado's legal defense, produced a tape measure and measured the

estimated distance alleged between the two men.

Witnesses' testimony on the distance varied from 10½ to 26 feet — by Glikerson's tape measure.

Later in the day, Hansard borrowed the defense's tape measure to measure off the distance as described by a defense witness.

The state and defense paraded 17 witnesses to the stands Monday and Tuesday to give testimony — 10 for the state and seven for the defense. Included were two local high school girls and a junior high boy, all eyewitnesses to the kill-

ing.

Gist of the testimony concerning the shooting and events leading up to it was that both Mindieta and Criado attended the birthday party and that there were no incidents between the two men during the party. The party broke up about 1 a. m. and the shooting occurred a few minutes later in the parking lot as the 20 to 25 persons attending the party were getting into their cars.

Criado, who testified he had walked to the party, was going home with San Antonio Fuentez in

a pickup truck Fuentez was driving.

According to everybody's version, eight persons, including Mindieta, loaded into Mindieta's car, which was parked near Fuentez's pickup. Starting to leave Mindieta discovered he had a flat tire and got out to look at it.

He was looking at the tire while Fuentez was unlocking the cab of the pickup with Criado standing next to Fuentez with the bed of the pickup between Criado and Mindieta's carload of young people. (See Murder Trial, page 8)

## THEY GRADUATE, TOO

The names of Harold Barner and Jimmy Bartlett failed to appear in the list of Post High School graduates for graduation in last Thursday's Dispatch due to the line containing their names failing to cast and to the omission "getting by." The Dispatch proofreader, Harold and Jimmy will graduate right along with the rest of them Friday night, and The Dispatch apologizes for last week's error.

## \$30,000 damage at B&B

Liquor store swept by expensive blaze

Post's costliest blaze in several months occurred last Friday afternoon when fire caused damage estimated at nearly \$30,000 at the B&B Liquor Store at 114 South Ave. E.

The fire destroyed several thousand dollars worth of liquor and other alcoholic beverages in a steel-trailer store room affixed to the back of the building, two walk-in refrigerators between the store room and the front of the building, and considerable smoke damage to fixtures and stock in the front of the store.

G. R. Cathey, owner of the store, said the cause of the fire has not been determined, but that it might have been caused by defective wiring in the store room.

The fire was discovered between 3 and 4 o'clock after an employee of Pinkie's Liquor Store, just northeast of the B&B saw smoke pouring from the store room at the latter place.

Cathey said he started squirting water into the store room from a water hose, but immediately saw that it was much too big a fire for (See Store Fire, page 8)

Serving on the murder trial jury this week certainly was no "get rich quick" proposition. The jurors put in a 13-hour work day Tuesday after a nine-hour day Monday. On the basis of being paid \$5 per day, the jurors were paid at the rate of only 45 cents an hour for those two long days. It was better yesterday though — \$1.11 per hour for their final four and one-half hours of deliberations.

Seems to us public spirited citizens who serve on juries at least deserve the legal U. S. minimum wage. But then, we suppose Texas juries don't come under the umbrella of interstate commerce.

Seventeen patients in the hospital here Monday morning was a hospital patient high for a good, long time, which is encouraging from the county's financial point of view if not from the outlook of Garza's health.

Nothing much new to report on the area's uranium prospects since breaking the story two weeks ago. We have it on good authority that the national mining firm which is trying to put together a 25,000 acre lease block for exploration in the Southland - Gordon area is leasing exclusively in Lynn County to the west.

There is interest being shown on the Bill Long estate, eight miles north of Post on the Rails highway, but no lease has been signed to date although an offer or two has been made — also for exploration.

The Long site was one of the three in Garza County leased 10 years ago which were just getting into production when the government got enough uranium and drastically curtailed its buying. Private industry now is interested in uranium which is the reason for the current development, which we understand also is going on in other parts of Texas as well.

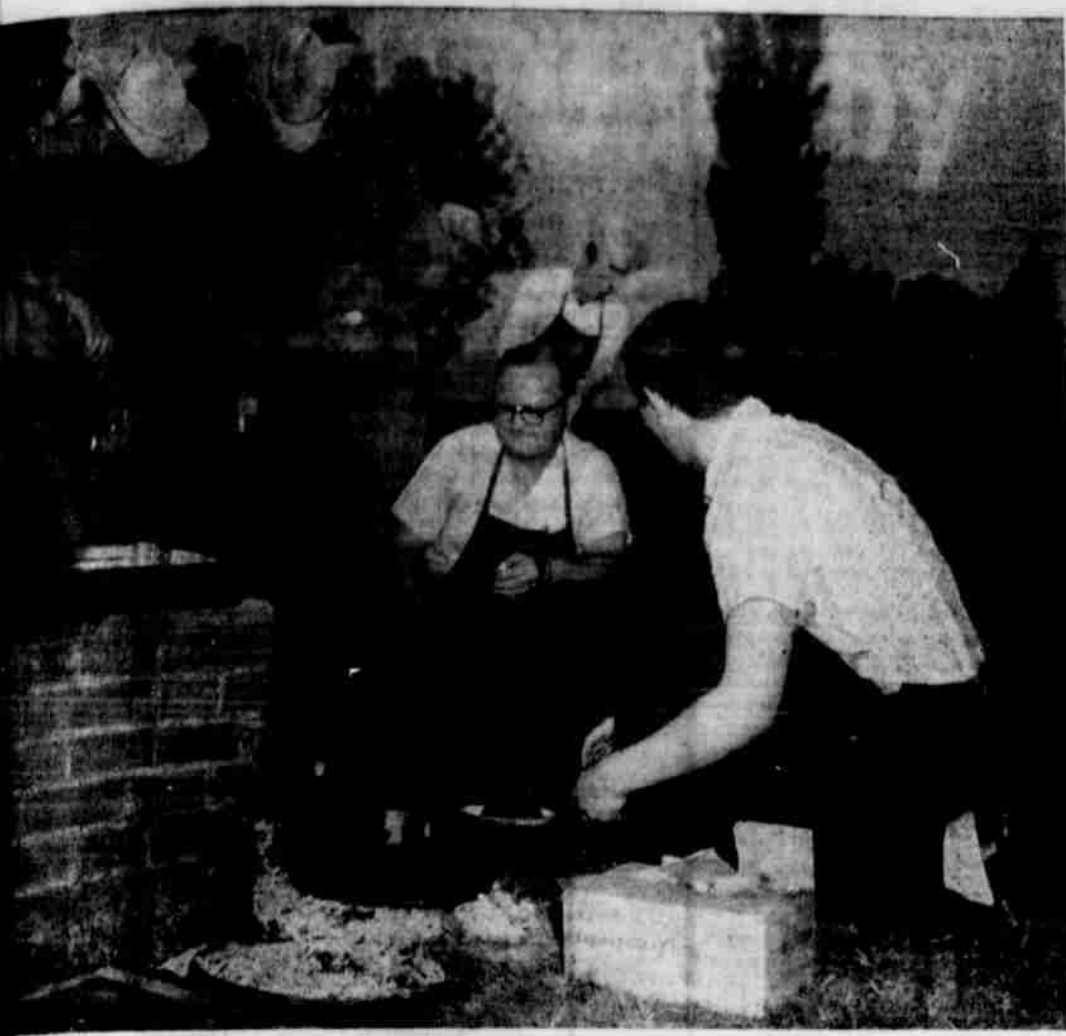

We were curious as to what became of C. L. (Brownie) Brownlow, the former Phillips Petroleum lab man who quit his job with that corporation in Bartlesville to pioneer Garza uranium development in 1957. We checked by phone with the Phillips personnel office at Bartlesville, Okla., yesterday, but they have no record of his whereabouts. Has anybody around here?

## Swimming pool to open Monday

Post's city-county swimming pool will open for the summer season at 1:30 p. m. Monday, May 25, under the management of Waco Reynolds of the high school coaching staff.

Reynolds said the pool will be open from 1:30 p. m. until 8:30 p. m. daily, except Sundays, when it will be open from 1:30 p. m. until 5:30 p. m.

Pool admission prices are the same as last season — 35 cents for students through 17 and 50 cents for adults.

## Buddy poppies will be sold in Post Saturday

Buddy poppies, the symbol of aid for needy veterans, will be sold Saturday, May 27, with the annual sale under the auspices of the Veterans of Foreign Wars and its women's auxiliary.

L. Jones is Buddy poppy chairman of the VFW post, and Mrs. Ann Chaffin for the auxiliary.

"In all the 50 states, people will be buying these little crimson flowers which are made by our disabled veterans for the benefit of all veterans of all our wars," said Bill Case, VFW post commander.

"The VFW feels that in no more fitting way could it honor the memory of the comrades who fell in defense of our country than by bringing aid to those in need who also served faithfully," the VFW commander said.

More than half the money contributed during the Buddy poppy sale remains in the community from which it is given. In making generous contributions, the communities are actually making an investment in their own future as well as that of the nation in general. Case pointed out.

Ramon Medrano, 20, of Snyder, who lost a 45-mile auto race with Post city patrolmen and highway patrolmen Saturday night, found the chase a costly one.

Medrano paid fines totaling approximately \$120 here Monday after having paid \$152 in fines at Gail, county seat of Borden County.

The chase began at the Main Street railroad crossing here when Police Sgt. Otis G. Shepherd Jr. and Night Patrolman R. C. Stark spotted Medrano after they had been called to check on a man who

The officers were unable to catch up with Medrano until after he abandoned his 1962 model automobile 15 miles the other side of Gail when the vehicle's fan belt came off. Medrano himself wasn't apprehended, however, until Sunday morning when he was arrested by Highway Patrolman Henry Harden and the Borden County sheriff.

Sgt. Shepherd said the man told officers when brought here Sunday that he went to sleep in a field for today's proceedings.

Rotarians enthusiastically accompanied the group on the "Buddy Poppy" tour, which was led by Betty Poer, Linda Jusber, Barbara Bibber, Barbara Lush, and Karen Lee.

## Don't take up with the wrong crowd

It seems only yesterday that we received "invitations" to last year's graduation exercises, but time flies, and another crop of fine Post High School graduates are to be handed their well-earned diplomas Friday night.

Generally speaking, it's still a good world these young graduates will be stepping out into, but how it has changed! Anyone whose memory goes back as far as even 30 years ago can look around and see the difference.

People live differently today. The products and goods in daily use either did not exist 30 years ago or have undergone changes that make them nearly unrecognizable. Autos, television, home appliances, even the synthetic fabrics of our clothing adds up to a new kind of world that is visible to every eye.

There are other changes not so visible but just as revolutionary. The fast pace of progress powered by rapid technological advances has altered the structure of man's social, economic and political life in all of the more advanced Western nations in the span of a single lifetime. Nowhere has this change been more rapid than in the United States. Whole industries of yesterday have either disappeared or changed to accommodate new ideas and meet new demands.

This rate of change, the accumulation of knowledge, technological advances and innovation are faster paced now and accelerating every day at a rate that would have been unimaginable a few years ago.

To take the picture in fewer and plainer words, a freight train is no longer just a string of boxcars and flatcars.

Fortunately, today's high school graduates have been pretty well-gear'd for all these changes, which even a decade ago would have caught them flat-footed.

For today's graduates, the changing world offers a challenge—a challenge that we predict the majority of them will face up to and meet head-on. In our opinion, the educators of our nation's youth have geared their instruction to the demands of the changing world, and the only misfits our high schools will turn out will be those who also would have been misfits 50 years ago.

We hope all of Post High School's 60 graduates who wish to further their education by attending college will be able to do so. It takes a college education in most cases, to cope with this changing world.

At the same time, we hope that none of these young graduates become enthralled by the idealism that either disregards or is ignorant of the horrors of 20th Century totalitarianism.

Don't take up with the wrong crowd, graduates. Ask yourself if you go along with those who burn the American flag, and what it stands for. Ask yourself if you want a Viet Cong victory in Vietnam, and if you wish the United States and other Western countries involved to stand aside as totalitarian aggression sweeps over the small nations of the world.

You have reached a significant goal in your life. When you look back upon it, whether tomorrow or 30 years from now, do so with the clear-eyed vision of one who believes in his country and what it stands for. Don't take up with the wrong crowd.—CD

## Take time out this Memorial Day

Again this year, thanks to the local Veterans of Foreign Wars and American Legion posts, we here in Post and Garza County will once again pause to honor the memories of our war dead, and at the same time do honor to our fighting men around the globe.

With the war being fought in the jungles of Vietnam stepping up in intensity, Memorial Day, which is Tuesday, May 30, takes on added significance this year. We owe it to those who have made the supreme sacrifice and to those fighting our battles today to take time out and attend the Memorial Day service Tuesday morning at Terrace Cemetery.

Compared to what these brave men have given and are being called on to give, thirty minutes or an hour of our time next Tuesday to attend the Memorial Day services certainly shouldn't be too much for us here at home to give.

No one knows what the course of the struggle in Vietnam will be, but it has grown into a full-scale war and shows no signs of letting up. The war is being fought far from home, but it is very, very close to every family that has a loved one over there.

And, in no other conflict in our nation's history have we had so many disgraceful demonstrations on the home front by the "and" fringe. Widespread attendance at Memorial Day services throughout the nation will be an effective means of counteracting these demonstrations that, like the war itself, show no signs of letting up.

Take a little time off Tuesday morning... go out to Terrace Cemetery and join our two service organizations in honoring those men who have given, and are giving, so much.—CD

**THE UNUSUAL** spring weather we've been having this year can be blamed on the jet streams, says the Weather Bureau. Well, I'm glad I found out. Up until now, I'd been blaming it on the Weather Bureau.

Anyway, it won't be long until this dry, nippy May shuffles out and June comes in. In fact, the very next issue of The Dispatch will be dated June 1. June just can't be a freakish weather month—or can it? Anyhow, you wouldn't think so, since it's the month for all those lovely June brides, and also the month that brings the first day of summer.

**THE MAN UP** the street says how long is a minute depends on which side of the bathroom door you are on.

Our "Murder Ahoy!" puzzle of two weeks ago proved so popular that this week I am running another one in a similar vein, this one entitled, "Expressly For You".

Jackville and Gresham City are exactly 424 railroad miles apart. On an August afternoon, at precisely 2:14 p. m. Central Daylight Time, the non-stop Cannonball Express, traveling at an average speed of 72.3 miles per hour, left Jackville for Gresham City. Meanwhile, on the same afternoon, at precisely 2:16 p. m. Eastern Daylight Time, the non-stop Blue Dart Express, traveling at an average speed of 68.4 miles per hour, left Gresham City for Jackville. Now, read very carefully through the problem again, and then answer the question: At what point between Jackville and Gresham City did the two crack express trains meet?

**ANSWER:** According to survivors, just about two miles east of Cranberry Junction.

**NINE TIMES OUT** of ten, when someone steps smilingly into the front door of The Dispatch office with a box of cigars under his arm, he's just become a proud papa. That was the case last Thursday morning when Jerry Hays came in with a box of Lovers—"the Big State's great cigar." Jerry found time while passing around the cigars to announce, "It's a boy."

E. A. Howard Jr., vocational agriculture teacher, brought us a copy of the May issue of "Texas Future Farmer" magazine, in which the Post chapter is well represented by a series of pictures. One of the pictures, which also appeared in The Dispatch, shows Bo and Jim Jackson of Jackson Bros. Food Locker presenting FFA chapter president Dwayne Gannon with a check to cover the cost of materials used in the construction of the chapter's all-metal camper. Another picture shows an instruction Gerald Wilke explaining to Danny Bostick how to apply moisture seal to tile blocks. A third picture shows Harold Barner making a sale at Bull's Farm and Ranch Store during his training time in Cooperative Agriculture class, and the fourth photo shows Murphy Lee giving Coop student Mike Kruger instructions in setting up a tandem disc during his training time at Cash Implement Co.

**INCIDENTALLY,** Mr. Howard, Mr. Wilke and their ag boys were hosts Saturday morning at an enjoyable "come and go" breakfast at the City-County Park. Most of those who came found it hard to go, however, after getting started on the hot biscuits, scrambled eggs, bacon, sausage and coffee prepared by the ag teachers and their students. Mr. Howard told me while I was finishing my final cup of coffee that the breakfast was so successful, he thought the chapter might make it an annual affair.

Before television came along, no one had the faintest idea what a headache looked like.

**I'VE JUST** received a copy of the Rodeo Reference Book, compiled by the Rodeo Information Foundation of RCA, Inc., and look forward to reading it leisurely, for it has a wealth of information on reigning champions and top contenders, statistical data and all sorts of research material. So far, I've had time only to thumb through it, but in doing so found write-ups on Jim and Tim Prather of Post in the section on Current Leading Cowboys. The Prather brothers are among the nation's top calf and steer ropers, and Tim also enters steer wrestling. The information on the Prathers lists Jim's biggest 1966 win at \$1,050 in calf roping at Cheyenne, Wyo., and Tim's biggest at \$1,418, also in calf roping, at Pendleton, Ore.

# It's My Turn

— By MRS. C.

When near the end of State Hwy 36 Mr. C and I took in a game at the Astrodome last Friday night between the Astros and the San Francisco Giants.

One has to visit the Astrodome more than once to really enjoy a baseball game. The first time one is there is spent gawking at all the activities and the action on the scoreboard and animated cartoon advertisements. Mr. C didn't let the distractions distract him, but not being much of a baseball fan I people watch and let the distractions lead me where they may.

I almost missed the big "rhubarb" between the third base umpire and Herman Franks, Giant manager. That was worth the price of admission because I'd never seen two grown men bump bellies while their doubled fists hung by their sides.

I was amused by my seat companion on the left. He was on old-time baseball fan and was there complete with sun (?) visor, beer and peanuts. As he was by himself he had no one to talk to so he mumbled out loud about players and batting averages and "bums" throughout the game. Then there was the girl sitting a couple of rows down with such thick and heavy false eyelashes on I couldn't concentrate on the game for fear I'd miss seeing one of them fall off in her beer.

I picked up a few more interesting tidbits about Hwy. 36 but Mr. C says "write tight" this week, which means we're running out of space.

While he's not looking I'll toss one in. In Gatesville there is a yard completely filled with red tricycles, red scooters, and red bicycles which leads one to believe they must be in the "wheel" business or have an awful lot of children and red paint. I'm puzzled though, because in the middle of all the "wheels" is a big white sign. It reads: "Rabbits For Sale."

Mrs. O. H. Hoover didn't let any grass grow under her feet in getting us a Grassland correspondent. Mary Lee Laws is our new writer and I know we're going to enjoy her writings. I got off on

**LISTENING POST**

By ROSEMARY CHAPMAN

Ben Owen installed three greatly needed sections of shelving this week. The lovely new addition was provided by the Friends of a Public Library.

Three large boxes of goodies arrived from book wholesalers, Campbell and Hall, Inc. There are 52 "easy" books, the C. S. Lewis fairy tales, the bulk of the "Mainstream of America" series, and various odds and ends that have been requested by patrons such as "The Conquest of Everest" by Sir John Hunt, "Rush to Judgment" by Mark Lane, "The Death of a President" by William Manchester, "To Live Again" by Katherine Marshall, and "A Gift of Prophecy" by Ruth Montgomery. These books will be processed as quickly as possible and should be ready to check out by Saturday.

Nine fourth and fifth grade classrooms visited with Patty Kirkpatrick and me at the library this week. Teachers who accompanied the boys and girls were Mr. Ran-

Bessie Pettigrew Hale, daughter of Mr. and Mrs. E. C. Pettigrew of Justiceburg, will receive her Bachelor of Science degree at East Texas State University, Commerce, on Saturday, May 27.

Mrs. Hale is a graduate of Post High School and attended the University of Colorado before enrolling at East Texas State University. She is married to Kenneth W. Hale. They have two children, Kenneth Wayne, a high school senior at Commerce, and Karen Louise, a fifth grade student.

Mrs. Hale plans to teach in the Greenville, Tex., public school system. The Hales reside at 1806 Culver, Commerce.

kin, Mrs. Hudman, Mrs. Hutchins, Mrs. Cornell, Mrs. McMeans, Mr. Nixon, Mrs. Pierce, Mrs. Rusk and Mrs. McMurray.

The youngsters gave us many worthwhile suggestions on the proper care of library books, and this seems an excellent opportunity to pass a few along: "Don't read in the bathtub!", "Don't let your dog, brother or sister chew on a library book!", "Don't leave old greasy fingerprints on a library book!", "Don't dog-ear the pages of a library book!", "Don't sneeze in a library book!", and "Don't forget to return your library book!" Adults, beware. A watch-bird may be watching you.

Six classes of freshman English students, under the direction of Mrs. Pool and Mr. Martinez, also toured the library. Many thanks to High School Librarian Marge Lee for assistance in this program.

Mother sent the following item: "According to the Modern Library, publishers of the largest list of traditionally 'classic' books, a 'classic' is a book which has achieved 'both widespread literary acceptance in the scholarly community and continuing general reader interest and sales.'"

"The publisher reports that from among its list of approximately 500 titles, the 'classic classics' the ten all-time best-selling classic books in the United States during the last 50 years are: 1. Maugham's 'Of Human Bondage,' 2. Dostoevskis 'Crime and Punishment,' 3. Faulkner's 'The Sound and the Fury,' 4. Joyce's 'Ulysses,' 5. Tolstoy's 'War and Peace,' Dostoevskis 'The Brothers Karamazov,' 8. Fielding's 'Tom Jones,' and 9 and 10 I won't tell because we don't have them.

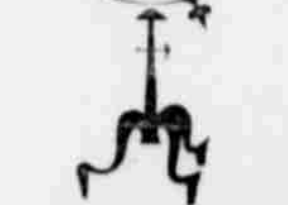

Mother also included an article entitled "Ten Ways to Improve Newspaper Writing." It was not appreciated.

A natural off-shoot of the ever-popular "Games People Play" is popular "Games People Play" is reverent guide to religion without tears, by Judi Culbertson and Patti Bard. As I was telling George Miller the other day, the most valuable chapter in this book is "What to Do When You Know More Than the Minister". However, beginners will find "Helping Others to be Spiritual" and "Holding the Fort Against Heresy" to be of value also.

Tuesday was quite proud of itself for setting a record of 70 books checked out in one day; then along came Wednesday with 87, and Thursday with 105. That's life.

Book donors are George Edgerton, Mrs. O. H. Hoover, and Mrs. Ben Jones of Chapel Hill, N. C.

**WE ALL HAVE OUR LIMITATIONS**

There's a great lesson in blowing bubbles. We're so sure we can blow the biggest bubble ever blown. And, for a second, we're sure we have.

Then the bubble is gone . . . with it our unreasoning self-confidence. So we content ourselves with blowing smaller bubbles — the biggest smaller bubbles we can . . . the kind of bubbles that last awhile!

The best time for your child to begin religious training is before he becomes conscious of his limitations. When he starts gradually to recognize the boundaries of his ability, he'll need real guidance and encouragement in devoting himself to goals which last awhile.

The rich, full, happy, useful life is not wasted on shallow dreams that are but for the moment. *It is dedicated to doing one's best.*

And, for centuries, it has been our Faith, taught and nurtured in our churches, which has inspired in men their best.

# Honor students touch on school highlights in autobiographies

**Editor's Note:** For some 20 years The Dispatch has been publishing brief autobiographies of the honor students of the Post High School graduating class. Those of the year's six honor students (average of 90 or above) appear below.

**JOE HUDMAN**  
I was born Nov. 14, 1948, that I, Joe Hudman, was born. My parents, Mr. and Mrs. Victor Hudman, and my brothers, Curtis and Sonny, were thrilled by my addition to the family.

I suppose my life really started in the fall of 1955, when I started school at the age of six. Mrs. Cannon and Mrs. Callis started off in the first two years of schooling.

As I entered junior high, I started playing sports. During the six-grade I played football and basketball. The only other time I accepted playing basketball was in eighth grade.

The eighth grade graduation was a high point in my life because now we would be entering high school.

During high school I participated in football and my junior and senior years I lettered in football. I received scholastic sweaters during these years.

As I look back for my history, I feel that one of the highest points was when my fellow classmates elected me president of the Senior class of 1967.

The long road toward graduation from high school could not have been made by me if I had not received help from people. I want to express my appreciation to such people as Mr. Shiver, Mr. Gee, Mrs. Callis, Mr. and Mrs. Alexander, Mr. Martinez and Coach Gregg for their help and guidance through these years. We have much respect for these people.

**RONNIE PIERCE**  
Nov. 11 means more to me than just Veteran's Day for it was on this date 18 years ago that I was born. Soon after birth, I was given the name Ronnie Lee Pierce and then home by my proud parents, Mr. and Mrs. Bobby Pierce. My first home was in the Colonial apartments where I enjoyed many mischievous days.

I had a normal childhood in which I learned from experience, such as the time a friend and I added a goldfish pond and put

the little creatures in our pockets where they would be safe.

At the age of six, I started, (with some misgivings) school. This was a new experience but I enjoyed it because I met a lot of new friends. Many of my grade school friends will also be graduating this year after our 12-year struggle.

I have been very fortunate during my school years by being able to participate in sports, to serve as Student Council president during my Senior year and being able to participate in the many activities that accompany the school years. I've had many outstanding teachers who have helped me a lot but the one I remember most is my first one, Mrs. Bryan J. Williams.

I am a member of the Church of Christ and have one brother, Robert, who is now a freshman.

Now that my high school career is nearly over, I can look back and realize that I have many people to be thankful for such as my parents, teachers, friends and fellow classmates. Because of them, I feel that I have enjoyed a very successful life.

**SHERRY WOODS**

As everything has to have a beginning, mine came on Aug. 4, 1949, in Tahoka, Tex. Although I was born in Tahoka, I have lived in Post and gone to school in Post all my life.

The first exciting event in my life came in 1955 when I finally got to go to school. I had attended kindergarten the year before, so I wasn't as scared about starting school as some of the rest of my classmates.

The next big event in my life was in the seventh grade when I made the basketball team. That year was also highlighted by the fact that our team won district.

I will long remember my eighth grade year because I, along with 92 other students, reached an important milestone. We had finished eight years of our schooling.

Upon entering high school, I discovered that you did have to spend a little more time studying. I also found out that school could be loads of fun. Until I reached high school I had never dreamed there were so many clubs people could join. At one time or another during my high school years, I have been a member of the following organizations: Spanish Club, Future Teachers of America, Future

Homemakers of America, Library Club, Band, Pep Squad, Science and Math Club and Student Council.

The group I most enjoyed being a member of was the Post Does because basketball was one of the main reasons school was bearable. Basketball probably took up more of my time than anything else. It seemed like I was always in a game, at practice, or when I wasn't playing a game or practicing, I was watching someone else who was participating.

Although high school has been fun, at times it has been hard work and now that I am graduating, I'm glad I did work at least a little bit. Another milestone has been reached with the aid and guidance of my teachers, and now my next goal is to complete four years of college and become a teacher.

**MARCIA NEWBY**

To the best of my recollection, I was born in Hobbs, N. M., on June 26, 1949, into a family of my mother and father and my two older sisters, Melinda and Meredith. My parents swear to this day that they were really glad I was a girl, but if they hadn't been blessed with a son two years later, they probably wouldn't have been quite as happy about my type kid.

I lived on a small farm outside of Hobbs the first six years of my life. It was a perfect place to grow up and I loved every minute of it. But all good things must come to an end, and they did when we moved into Hobbs and I started school. My favorite subjects were lunch and recess. So, I wasn't what you'd call a model student. However, I did manage to muddle through the first grade and even half of the second when in December of my second year, we moved to big Post, Texas.

Mrs. Martin's second grade class didn't quite know what to think of me with my funny, frizzy pigtails and my even funnier Yankee accent. I did eventually get rid of the pigtails but according to some there's still traces of the accent.

The rest of my school days in the Post School system passed, at first too slowly, then toward the end, much too fast. Next fall, after graduation, I'm going to Bradford Junior College (where?)

**DONNY WINDHAM**

I was born in Lubbock on Oct. 18, 1948, the much awaited son of Mr. and Mrs. Donald Windham of Post. My first years were somewhat uneventful except that I ran away from home at the age of two with my dog, Frosty, who was one. It was our way of protesting the way President Truman was running the Korean War, but I fell in a hole and Frosty went for my mother and when she found me my protesting days ended.

At the age of three I was hospitalized by a Pandora's box of tyranis. This came in the form of two crawling, biting, crying little monsters who finally came up with the names of Elizabeth Karan and Mary Sharon.

I started to school in the fall of 1955 which was just fine as far as my mother was concerned, that is until she started mending my Levis every day. Our battles at school cost at least two or three shirts a day and a few bloody noses.

School went on and on until finally we graduated from junior high. It was a happy time because we were in high school but it was sad to leave Mr. Davis and his snakes and Mr. Stone and his bats.

Well, our first year in high school, we were truly on the run, but then darn seniors still caught us once in a while! Unlike today's freshmen, we didn't have wise (?) parents who gave us cars to kill ourselves in or get into trouble. We had to do all that on foot.

I have been lucky to have served my class as an officer for each of our four high school years. I have received four scholastic awards, three football letters and two basketball letters. I have also been fortunate in that I have received a maximum scholarship at the University of Texas. Although A&M, Rice, West Texas State and ACC offered me scholarships and Texas Tech and TCU talked to me, I chose Texas because it has always been my dream to play for them.

I have been fortunate indeed to have been associated with this class and with people like Mr.

Shiver, Coach Gregg, Mr. Alexander, Mr. Martinez, Mr. Gee, Coach Bigott and Mr. and Mrs. Lee, all of whom I leave with my greatest respect and admiration.

**DUKE ALTMAN**

On Nov. 16, 1948, one of the most important things in my whole life happened, I, Duke Altman, was born into a family known as Altmans. This very important event took place in that well-known town called Slaton. It wasn't too long afterward when I discovered I wasn't the one and only because I had an older sister, Cindy, and a younger brother, Don.

My home was on a farm near the thriving community of Southland where I kept my parents on edge most of the time trying to keep me in line. After I had eaten beans off of a mesquite tree, swallowed a plum seed, and got high on a bottle of bleach my dad and mother decided it was time I learned something. When I reached age six, they sent me to Southland Grade School where the great burden was placed upon the teachers there. There I met 15 fellow geniuses who didn't think school was such a hot place, and I made it known to them that I felt the same way. Well, as things turned out we all had at least some success as we all made it to Junior High. There I began my sports career and had some luck at it too, because while I was in the eighth grade I was on a basketball team that was able to top the Post Antelopes in a controversial double-overtime victory.

In graduating from Junior High I was salutatorian of my class which was an honor for me. My first two high school years were spent at Southland, but as my Junior year rolled around I found myself at Post High School. It is here that I bettered my education and had the opportunity to play on district-winning basketball and football teams. Now as graduation nears I turn from the past to look to the future.

In addition to passengers, American Airlines carried some 176 million items of passenger luggage last year.

### The Junior's Tribute to P. H. S.

**By a Junior**  
The halls of PHS that we all shall remember,  
Have a most promising class, of which I am a member.  
We are Juniors and we're mighty proud of you,  
And hope someday you'll be proud of us, too!  
We're carefree and happy, at any rate.  
Behold! We're the Seniors of '68.

We will be fine examples to the community and town,  
And never once will we let you down.  
We'll remain No. 1 through thick and through thin,  
We will never lose, but always win.  
You'll be so proud — it is my fate,  
Behold! We're the Seniors of '68.

When we were "Fish," our hearts filled with fear  
At the nasty Seniors, who would laugh and would jeer.  
Our Soph year was better — we felt home at home.  
And no more down those big, scary halls would we roam.  
Alas! We are Juniors of mighty PHS,  
And ready to face up to a ny test.  
We know we're great, at any rate.  
Behold! The Seniors of '68.

Edward Gibbon's "History of the Decline and Fall of the Roman Empire" was published in six volumes between 1776 and 1788.

### High School Happenings . . .

**By Marcia Newby**  
Today the students of PHS were liberated and turned loose on the town for the whole summer. That's really a pretty scary thought. In case you'd already noticed a rise of vandalism and juvenile delinquency in the last week, that's due to the fact that the Seniors were released for the summer last Tuesday and got a two-day head start on the others.

Last Friday after our guidance program, the Seniors had a class meeting in which we were interviewed by that famous D. J. Dennis Inglen. He asked tricky questions like what were our future plans and what were the highlights of our Senior year. That last one really stumped us! The tape will be played on KPOS tomorrow afternoon, so listen and learn about the stars.

Baccalaureate last Sunday went smoothly, to the surprise of all the Seniors, with none of the girls tripping and falling down and only a few boys standing up at the wrong time. We enjoyed Rev. McGuire's address, but wished his assistant had stayed a little longer and said a few words. Now if we can only make it through graduation, all will be fine.

Some of the Senior mothers gave the Seniors a really good supper last Tuesday night in the high school gym. They prepared the whole meal themselves, showing their true dedication to the graduates. And we somehow managed to eat the whole meal, showing OUR dedication to our mothers. Not really, it was honestly delicious and very much appreciated.

# Murder trial —

(Continued From Front Page)

The death gun belonged to Fuentez. Both Fuentez and the defendant testified that Criado borrowed it at the door as they were leaving the party without Criado telling Fuentez why he wanted the weapon.

Testimony was that Criado kept the gun in his hand while waiting to get into the pickup.

Both Criado and Fuentez said Mindieta called Criado a "dirty name" after looking at the flat tire on his car and "started toward Criado."

State witnesses in the car said they did not hear Mindieta call Criado anything and that he only raised up with arms widespread when Criado started firing at Mindieta across the bed of the pickup.

No one was sure how many shots were fired in the melee, but when the gun later was recovered from the junior high school yard where Eddie Criado, brother of the defendant, testified he threw it, all chambers were empty. Fuentez testified all nine chambers were full when he gave Criado the gun.

When Criado started firing, Mindieta began running. State witnesses said he "ran north" out of the parking lot and fell dead. The defense contended he ran northeast leading Criado to believe Mindieta was circling around the truck to get to him.

Criado testified that during the party Mindieta kept "looking" at the defendant and "patting his pants pocket" which Criado said indicated to him Mindieta had a weapon in his pocket which he intended to use against the defendant.

There was testimony, too, by defense witnesses that four months prior to the shooting Mindieta had gotten into a fight with Eddie Gonzales and that Mindieta had picked up a sledge hammer and struck Gonzales with it. Also that Criado had taken the sledge hammer away from Mindieta.

Criado testified he later heard that Mindieta had been making threats against him.

After the shooting in the parking lot, Criado drove off in the pickup with Fuentez. Criado testified they went to a bootlegger, bought some beer, and drove to Lubbock to see his brother-in-law. He said they called his mother from Lubbock and she asked her son to give himself up to officers, so he returned to Post and surrendered to officers.

According to testimony, Criado threw or dropped the gun under the pickup after the shooting and his brother recovered it after the pickup was driven away. The brother helped take Mindieta to Garza Memorial Hospital where Mindieta was pronounced dead. On the way, the brother testified he threw the death gun onto the school yard.

The defense put County Judge J. E. Parker on the stand concerning a conversation Parker had had with the slain youth's father, George Mindieta, concerning the slain youth being admitted to the state mental hospital at Big Spring in August of 1963.

Parker was dismissed from the stand by District Judge Truett Smith, who presided over the trial, after the state contended that Parker had no actual knowledge of Mindieta's admission to the hospital and no records of such in his office.

The defense then called the father himself to the stand and

questioned him concerning his son's visit to the Big Spring hospital. Mindieta said the youth had gone to the hospital but had come "back in a few days."

Gilkerson questioned Mindieta with some papers in his hands which brought an objection from the state because whatever report Gilkerson was using in his questioning had not been admitted into evidence.

The father said "No" when asked if he knew about his son having "possible suicidal tendencies." As the father was leaving the stand, Gilkerson asked him if it wasn't true the father had employed George Nelson, Lubbock attorney, to aid Hansard with the state's case against Criado. The father said yes, he had employed Nelson.

In his summation for the defense, Gilkerson hit at the lack of any pictures of the slain man or any expert medical testimony from the state.

Gilkerson's point here was that Sheriff L. E. (Fay) Claborn and Chief of Police Bill Gordon, sheriff's deputy at the time of the shooting, testified that the fatal shot went "straight through" Mindieta's body, which would lead the jury to believe the slain man was standing straight up when the fatal shot hit him. Gilkerson contended that if the path of the bullet actually angled through the youth's body it was indicated Mindieta was crouched "and coming at" Criado. He said it was up to the state to furnish such expert testimony and the lawmen weren't medical experts.

Hansard in his summation emphasized to the jury that the defense did just what we told you they would do — try everybody in this case including the slain man and the law officers.

He pointed out the defense failed to produce a witness who heard Mindieta make any threats about Criado prior to the fatal shooting.

"All that you have heard has been hearsay, what somebody heard somebody else say Mindieta said," Hansard declared.

Testifying for the state during the trial were Lester Moore, Diana Valdez, Isabel Valdez, Rosie Valdez, John Ruston, Police Chief Gordon, Sheriff Claborn, Deputy Bob Atkinson, and Eddie Criado.

Defense witnesses were Eddie Gonzales, David Perez, Jose Criado, San Antonio Fuentez, Judge Parker, and George Mindieta.

The jury was composed of Charlie Brown, Mrs. M. H. Campbell, Mrs. Maxine Cummings, Mrs. Jack Dale, Floyd Duncan, Howard Freeman, Walter Jones, Lester Keeton, Keith Kemp, V. C. Lauderdale, Troy Nelson and Glenn Norman.

E. L. Merriman, Lubbock attorney, assisted Gilkerson in the defense.

## HELP FOR THE DISABLED

### Vocational rehabilitation program to be set up at Lubbock meeting

LUBBOCK — More than 150 representatives from each county attending Saturday's organizational meeting here will return home to survey local needs, existing resources and resources not available. They then will report back to the regional committee and help formulate the plan, Mrs. Kastman said.

Chairmen from each of the 20 counties, including School Supt. William F. Sawyer of Post, will participate in six task force discussions of the opportunities available for helping the disabled.

Dr. Gerald H. Fisher, supervisor of vocational training at the Hot Spring, Ark., Rehabilitation Center, will speak at a noon luncheon in the Texas Tech Student Union.

Mrs. Jack Kastman, chairman of the regional coordinating committee, said the Texas Education Agency has divided the state into 20 areas for the community-oriented studies. Written reports from each region, due by Feb. 1, then will be assimilated into one statewide plan for meeting handicapped person's needs for possible employment and self-sufficiency.

Dr. J. W. Edgar, Texas Education commissioner, said in setting up the citizens' advisory board that the goal is to make vocational rehabilitation services available to all handicapped individuals in Texas by July 1, 1975.

# Awards made in Friday assembly

The annual Post High School departmental awards were made at an assembly Friday afternoon in the high school gymnasium.

First of all, perfect attendance awards were handed out. Those receiving them were as follows:

## Cotton fabric coverings brighten potted plants

To give potted plants a bright new look, cover containers with flower-splashed cotton fabrics. The National Cotton Council suggests you might also decorate an empty flower pot with a pretty floral cotton; then use the cotton pot to display matching cut flowers.

For instance, put fresh cut daisies in a small water-filled container, and set it in a flower pot covered with a daisy-printed cotton.

# Cubs drop White Sox from Babe Ruth League top spot

The Cubs knocked the White Sox out of the Babe Ruth League lead, 14-4, Friday night in a game cut to five innings because of the 10-run lead rule.

The loss, their first of the season, dropped the White Sox behind the Indians, who had edged the Braves, 7-6, Friday night.

No games are scheduled for this week because of the last week of school, but play will be resumed Tuesday night, May 30, with the league - leading Indians going against the second place White Sox. The night's first game will be between the Braves and the Pirates, who are tied for the cellar position in the five - team league.

The White Sox' only hit off Cub starter Larry Hair was a third inning double by Eddie Jennings. Jerry Bratcher, who relieved Hair after three innings, held the Sox hitless in the two innings he worked. Jimmy Dooley was the starter and loser for the White Sox, with Bobby Ammons and Camillo Cerda coming in relief.

The Cubs got eight hits off the

three Sox pitchers, with Bratcher and Jimmy McKamie getting two apiece.

In Friday night's first game, the Braves drubbed the Pirates, 15 to 1, with John Buzost the winning pitcher and James Stone the loser.

Thursday night, the Pirates won their first game of the season by downing the Cubs, 12-10, with Danny Vargas going all the way for the winners and Jimmy Poer for the losers.

The Pirates got off to a fast start by scoring three runs in each of the first two innings, but the Cubs had pulled to within one run, 6-5, at the end of the third. A five-run fourth shot the Pirates further ahead, and they choked off a four-run sixth inning rally by the Cubs to preserve the victory.

Jay Bird's fourth inning single drove in two runs to give the Indians their 7-6 win over the Braves last Thursday night. Jerry Salvador, who had relieved starter Larry Scrivner, was the winning pitcher, and Kyle Josey was charged with the loss. Besides his game - winning single, Bird also had a triple to his credit.

In fact, Mrs. Hardin reports, there is so much building going on that Mr. and Mrs. Williams saw a mother skunk move her kittens from one of the new building sites to a new home 'that we feel sure she hoped no one would be building near.'

When production plans were made to film the story of the "riots" on Sunset Strip, the producers vowed to do it authentically. They aimed to accurately portray the lives and motivating forces behind the activity making headlines around the world, depicted so vividly in "Riot on Sunset Strip," now showing through Saturday at the Tower Theatre.  
This they did, through infiltration of the ranks of the "juvies" by a film aide, who will remain unnamed.  
"Riot on Sunset Strip" stars Aldo Ray, Mimsy Farmer, Michael Evans, Laurie Mock and Tim Rooney.

# Southland graduates go on class journey

**MRS. EDMUND WILKE** school is out and the seniors left their trip last Saturday morning. The graduation exercises went very well on Friday night. All speeches were well presented in the auditorium which was filled with relatives and friends. Gave us a chance to see some of the folks we don't see very often. Mrs. Max Chaffin's third grade presented a play for the school last night. It was entitled "Cinderella" and from what I hear, it was very good. Delbert Ashbire was called to Arkansas last week to be a brother who had suffered heart attack. May God grant a speedy recovery. Visitors in the home of Mr. and Mrs. Jack Myers last week were sister, Mrs. Alex Fry of Spur and brother, Ples Hart of Aspermont. Billy Myers and B. S. of Marshall. Sounds like a lot of activity has been going on. So sorry to hear that Hub had been in Methodist Hospital. I think Hub was scheduled to be dismissed Monday. May God give him a fast and complete recovery. Mrs. Fred Myers and Mrs. Ned Myers spent weekend in Garden City visiting Mr. and Mrs. Curtis Palmer.

They entered a steer roping event at Coahoma as a team. Mrs. Palmer is now here to spend several days with the Ned Myers. Kelly Jo Myers flew to Albuquerque, N. M. Thursday to visit Mr. and Mrs. Bell Chamberlis. Friday, they flew to Las Vegas where they were joined by the Chamberlis' son, who was participating in a rodeo there. Kelly Jo planned on returning to Lubbock Monday. Say, Southland is on the boom again! Ned Myers has purchased the Truelock place and plans to build a new house in the near future. Isn't that wonderful? Mrs. Seth Truelock and daughter, Mrs. Oma Jane Watson, spent the weekend in the home of Mrs. Nellie Mathis.

**ROY BELK, son of the Elmer Belks,** celebrated his 10th birthday Sunday and his grandparents, Mr. and Mrs. E. L. Belk of Levelland, were here to help him eat birthday cake. Here's wishing you a belated Happy Birthday, Roy.

The 5th and 6th grades enjoyed an all-day picnic at Mackenzie State Park Saturday. Wow! I bet they got a mite cool after the wind hit.

Mr. and Mrs. Marcus Wilke are spending a few days at LBJ Lake. Mr. and Mrs. V. O. Bowden of Lovington, N. M. were here last week visited their son-in-law and family, Coach and Mrs. Bob Dyess.

**"IN" COTTON**—You can tell it's "mod" by the giant black and white paisley print, the high boy button-down collar, and three-button cuffs. The all-cotton style also comes in assorted granny prints. By Puritan Sportswear.

**By MRS. D. F. McWHIRT**  
Well, Saturday was quite a day for the folks at the "Burg". There was considerable damage from hail, wind and rain. Nearly everyone had broken windows. Members of the sophomore class went to Lubbock on May 12 for their annual class party, with approximately 35 attending.

The sophomores wish to thank the sponsors, Mr. Martinez, Mr. McMurry and Mrs. Wilkins.

Theresa Sims and Jeay Lee were elected sophomore class favorites of 1966-67 at a homeroom meeting.
