

Thursday to Thursday IT'S A GOOD START...

By CHARLES DIDWAY

POST STAMPEDE RODEO headquarters were opened here Tuesday for the umpteenth time since way back when...

SOME OF POST'S outstanding rodeo performers competed over the weekend in the three-day Rice Springs Roundup at Haskell.

SCIENTISTS HAVE been quoted as saying that the nation is in the grips of its worst drought in 600 years.

THE "BIG SHOTS" of the Little League are gratified over the interest being shown by adults in the program.

YOU LIVE AND LEARN. We'd often wondered about the value of those cards of thanks people pay \$1 to have printed after leaving the hospital.

THIS IS THE last week of the 1955-56 school year, with commencement activities taking the spotlight.

WE'VE GOT to check this week with postmaster Harold Voss on two items—the results of the questionnaires on city mail delivery and Mail Box Fix-Up Week.

SOME OF THE city's waitresses were cotton corsages furnished by the Chamber of Commerce in connection with National Cotton Week.

PASSING UNNOTICED here, however, was Chamber of Commerce Week.

Roger W. Babson Writes This Week:

Transcontinental Rails With Securities, Land Will Prove To Be Sound Investment

BABSON PARK, Mass.—Railroads are still considered as a rather undesirable stepchild in this country.

Rails Still Necessary

Despite the heavy taxation of the rails to finance highways for competing truck and bus lines; despite the failure time and again to increase fares and freight rates...

But two world wars showed the necessity for a strong rail network. In World War I, the Government found it necessary to take over the job of placing the rail system in a sound condition.

Cost-Cutting Progress

Young blood is currently lacking in most rail managements. In several cases, however, virile managements have succeeded in cutting costs, through mechanization and automatic controls.

Little League baseball will close a big gap in the youth recreation program here this summer, but it won't fill the bill 100 per cent.

Little League baseball is for boys from eight through 12 years old, which leaves the teen-agers on the sidelines.

This is meant as no criticism of the Jaycees and other groups who have set the Little League in motion. It took a great deal of time and effort to get the baseball program rolling for the younger boys.

In the meantime, however, the wholehearted support of the public should be given the Little League. Enough youngsters are signed up to make the program a successful one from that standpoint.

It'll also help for those of us who find it possible to attend the games. Nothing will boost the enthusiasm of the boys more than seeing big crowds turn out to see them play.

One of our primary editorial policies will be to create an interest in local government. This purpose is founded on the fundamental belief that a true and working democratic federal government is based on strong small units of democratic self-government.

No longer will government employees be dismissed because of tales told behind their backs by anonymous informers who cannot be faced and cross-examined.

subject in a nearby city: "A Chamber of Commerce is an organization of individuals banded together to provide business and community progress that one person or firm cannot accomplish alone."

HE ALSO SAID: "Successful businessmen across the nation are strong believers in the importance of the Chamber of Commerce and the valuable service it renders to business and the community as a whole."

Getting Out On The Limb

By EDDIE the editor

SUDDEN THOUGHT: Opportunity knocks but it has never been known to turn the knob and walk in.

Living on a small income would not be so hard to do if it wasn't for the effort it takes to keep it a secret.

UPWARDS OF 130 students will graduate here in exercises Thursday and Friday nights—fifty of them from high school and more than eighty from junior high school.

These graduates will go on to bigger things armed with the best wishes of friends and relatives and with the advice of baccalaureate and commencement speakers. Nothing I could write here would improve on the "pep talks" the graduates already have or will receive.

Through the years you seniors have spent in school, The Post Dispatch has carried your names on numerous occasions in connection with school activities. We sincerely hope that when you graduate our news columns do not lose track of you.

We've also carried news from week to week on you eighth graders, who next year will be high school freshmen, and we're eagerly looking forward to seeing your names in print in these news columns throughout your four years of high school.

A good friend has been described as one that still thinks you are a good egg after you are busted.

RIGHT NOW nobody seems to know for sure just what, if anything, we'll be voting on besides candidates in the July primary. Texas Citizens Councils want a referendum at that time on school integration and mixed marriages.

While on the subject of costs, it might be interesting, since this is an election year, to know the amount of the filing fee charged candidates for some of the top state offices.

THE AMERICAN WAY

It Can Happen Here - And Does!

"We're going for interposition, too," said Ross Carlton, head of the pro-segregation organization, "but we think more direct action is needed."

You can't stumble over something good sitting down.

RUFUS HIGGS of the Stephenville Empire-Tribune, in his "I'll Tell The World" column, says if you think local advertising is costly, take a look at these page rates for magazines:

Life, \$32,740; Reader's Digest, \$31,000; Saturday Evening Post, \$27,050; Ladies' Home Journal, \$21,500; Look, \$22,640; Better Homes and Gardens, \$19,340; Collier's, \$18,390; and McCall's, \$19,780.

Those filing for the governor's job pay a fee of \$1,250; for attorney general, \$1,000; land commissioner, railroad commissioner, comptroller, treasurer, \$875; agriculture commissioner, \$750—and the same for judges of the Supreme Court and the Court of Criminal Appeals.

Nor did the firemen buy the equipment just because they wanted it and thought it would be nice to have around. They bought it for the public and with public funds, and it belongs to the community, they point out.

## SWPS Employees Are Shooting At New Safety Mark

Southwestern Public Service Company employees throughout the company's service area have now worked more than 2,000,000 man-hours without a lost-time accident, according to Ted R. Hibbs, manager of the office here.

This safety accomplishment, second longest achievement in the company's history, was recorded Saturday, a check of employees' time records revealed.

A. R. Watson, executive vice president and general manager, said: "We have two immediate objectives as far as safety is concerned. First, we want to tie our old record of 3,019,000 man-hours without a lost-time accident, and then we want to go on to the four-million mark. Our people are determined to do it, and determination is what has brought them new safety achievements."

The company's 3,019,000 man-hour mark was reached in late 1954, only the second time in the utility industry that an entire company had reached this goal.

SWPS employees have gone without a lost-time accident since November of last year. It takes them about three months to work one million man-hours. So far, all of 1956 has been free of a lost-time injury.

Take your pick of America's best-selling station wagons... each offering performance that has made Ford the world's largest-selling V-8

When you choose a Ford Station Wagon, you get the best station wagon value. And sales prove it! In 1955, for the fifth straight year, Ford sold more wagons than the other two low-price makers combined!

Here's a sample of why folks choose Ford:

"I like the way I can change my step-passenger Ford wagon from a 'hater' to a 'caller' in just three seconds flat—and that's no exaggeration!"

"What I appreciate is the room in my eight-passenger Country Sedan. With nearly nine feet of space, I can tote a half-ton of cargo or half a pack of cub scouts!"

"My Ford Custom Ranch Wagon does something I never thought any wagon could do: gives me as comfortable a ride as I get in our family sedan! And I appreciate its scuff-resistant upholstery, too."

"I chose a 225-h.p. engine for my Ford wagon. And what a performer! It whisks me from 'whoa' to GO in less time than I can tell it."

Why not Test Drive your pick of Ford's six double-duty dandies? Whether you choose 2 doors or 4, seats for six or eight, you'll go first when you go Ford!

**"ACROSS the TRACKS"**  
By Hans Hudman  
**To The Seniors 1956**

It has been my habit for several years now to sit down and write a congratulatory piece to the current graduating class. As of this date, I have no evidence that any senior has ever read it. There has, in fact, been considerable nation-wide controversy recently as to whether today's graduating seniors are even able to read.

They can write. That fact is substantiated by the stack of graduation invitations atop my living-room bookcase; and inasmuch as some of these kids must have discovered my name in the phone book, I assume that they can also read.

Let me say here and now, however, that I consider this a very legitimate racket, and I'm proud of every invitation I've received. It will be a very sad spring, indeed, when I go to the post office and find that the senior class has forgotten me. I passed out a few of these things myself way back in—good gosh!—'37, at which time I was a P. H. S. graduate.

I would like to note, for the record, that the class prophecy singled me out as the individual most likely to wind up working in a filling station.

Last year, I recall, I wrote a very nostalgic little message that contained a little of everything except common sense. I deplored the fact that today's graduates are reluctant to pass up the lure of well paying jobs with big companies and hang out their shingles as independent merchants and professionals. In view of present day working conditions, this attitude, I suppose, puts too high a price on independence. Considering the trend toward shorter work weeks, bigger pay checks, push-button operations, and the guaranteed annual wage, the wage earner never had it so good.

Moreover, the day of the independent merchant and shopkeepers—and even the small farmer—is passing. It is passing because the little man simply will not be able to compete. I expect that your generation will see most smaller operations integrated into huge corporate structures, and the working man will become an automaton in a world of automation; reacting dutifully at the behest of his employers and his union—with the government riding herd on the whole enterprise. And all this, I'm afraid, presages the coming of the welfare state, but maybe by the time it gets here, we won't recognize it as such.

But there are many things to recommend this new age which you kids shall presently inherit. In the short space of time . . . that you youngsters have been alive, the advances in every scientific field have been miraculous. To most of you, longevity is just a word in the dictionary. Nature's inevitable chemistry of physical deterioration and ultimate death hasn't settled upon your young frames as yet, but when it does, the miracle of modern medicine and surgery will probably keep you alive and kicking for a good many more years than you could formerly expect.

In addition to being made longer, your lives will be made much richer by the advances in every technical field. It truly promises to be a great world to live in.

But back to the business at hand. This is your commencement week, and we are all proud of you. My heartiest congratulations to each and every one of you, and may the future hold for you everything you could expect of it. If I could offer one word of advice, seniors, it would be this: make whatever sacrifice necessary to give yourselves the benefit of a college education; because the future (and I stole this quote "on somebody" belongs to use who prepare for it.

## Editorial Comment . . .

#### Friends Both Places

Some persons remind us of a story we heard recently: During an evangelistic service, the preacher asked all who wanted to go to heaven to raise their hands. All hands went up except that of a man sitting near the front. So the preacher asked, "All who want to go to hell, raise your hand."

The lone man again made no response. Somewhat puzzled, the minister asked the man why he didn't respond to either question. "It's this way," explained the man, "I have friends in both places and I just don't want to offend either group."—"Town Topics" in The Tullia Herald.

#### Funny Southern Accent

Of course those people who have a deep southern accent can't help it, but sometimes such an accent does bring up funny incidents. The county democratic conventions this week recalled an instance of many years ago up in Oklahoma. The party in that state was as badly split that year as was the party in Texas this year. At a county convention an elderly woman arose to make an impassioned plea for party unity and, inasmuch as she never pronounced the R in any word, she kept saying "We must have hominy, we must have hominy. And if all of us will wuk together we can have hominy."—"Twilight Zone" in The Hamilton Herald-News.

#### A Little Trick

If anyone chooses to complain that the Democratic precinct convention held in Ralls Saturday was "railroaded," let us hasten to assure him that he is entirely correct. It is a little trick Democrats learned at Mineral Wells two years ago from Allan Shivers, who has no peer in rigging and railroadng a convention to suit his own needs.—"It Sez Here" in The Ralls Banner.

#### Tee-heeing in Our Tea

Almost every night this past week we have been going home way past midnight, and gleefully tee-heeing in our tea pot and simply laughing ourselves to sleep. And it's simply because almost every night this week we have seen private citizens blowing their staid stacks about conditions existing in government bodies here in Andrews.

In the past, we have punched holes in our typewriter preaching, pleading and ranting about the various wrongs and ills in this community. A few agreed

with us, but no one bothered to lift a hairy cat's paw to do one cotton-picking thing about it—neither on the streets or at the polls.

Now we're actually witnessing a group of citizens, fed up with things in general, in action. So it would seem that having plenty of money is no excuse anymore—we have a few citizens who actually don't want to see it wasted.

The city is slowly naving its collective dress removed and a group of interested men are prying and peering beneath. The same thing is true over at the hospital—"Drifting Sands" in The Andrews County News.

#### Suitable Name

A Hamlin man was showing a visitor from Stamford his new home in Hamlin the other day. It was really a comfortable dwelling, and the Stamford fellow was duly admiring its qualities.

"Yes," he said, "you've certainly got hold of a nice house. But I see you haven't named it yet. What are you going to call it?" "Littledown."

"Littledown? What on earth for? That's hardly suitable for a house in a town like yours."

"Oh, yes, it is. Little Down—and balance by installments."—"Popvaive" in The Hamlin Herald.

#### No Time For Business

A lot of the folks who have been working so hard to get an industrial and vegetable marketing program underway here have been pretty careful not to let their business interfere with their civic work lately. Homer Garrison thinks maybe he's been carrying it a bit too far and says he's going to try to do more of his civic work from his office.

Seems that a young man called the other day and asked if he would be in his office about 20 minutes, that he wanted to buy a car. Homer said he would and the man did. The fellow said he'd been trying to catch Homer for two or three days.—"Nearly News"

### Brownfield To Stage Roping Sunday

Two of the top ropers of the rodeo world will meet in Brownfield Sunday, May 27, at 2 p. m. to compete for some \$2,000 in prize money. They are Jim Bob Altizer of Del Rio and Glenn Franklin of House, N. M.

Altizer is considered the cream of the calf ropers today and Franklin could be considered the challenger for the title. Altizer has beaten such top ropers as Toots Mansfield, Troy Fort, Tuffy Cooper, John D. Holleman and many others. Franklin was high school champion just two years ago and yet today he has won some \$7,000 this year in approved RCA rodeos and is well toward the top for the championship.

They will rope 12 calves each for best average. In addition there will be a two calf average open jackpot which will draw some top ropers.

The roping is being sponsored by the Terry County Sheriff Posse Assn.

in The Littlefield County Wide News.

#### We Agree

Your home town newspaper is here to serve you and you alone. It is the duty of the hometown newspaper to first serve the needs of the local people, then wherever they please to serve. The home newspaper is the voice of the community. The people are invited to write to the home paper expressing their ideas about town life and this helps to create support for progressive movements. The home newspaper reflects the ideas of the community, and through it the community gets the chance to express its ideas to the outside world. The best newspaper man in the world can not put out a newspaper that will be read day in and day out without the support of the community, the community makes the newspaper.—"Omnibus" in The Peco Enterprise.

#### Texas "Wises Up"

It took the people of Texas 22 years to do it, but finally they have "wised up" to Allan Shivers. That 22 years represents the length of time the Governor has been in public office. "The wising up" took place last Satur-

day when Shivers really took a shellacking at the Democratic Precinct Conventions. It was the first defeat for said Shivers, and as was to be expected he took it very ungraciously. If you are opposed to the governor you are either a labor racketeer, belong to the radical element, or you are a member or sympathizer with the National Association for the Advancement of Colored People. There's no middle ground, implies the Shivers. You can't possibly be a decent, law-abiding citizen and be opposed to the Governor. Anyway, we know now just what we are because the governor said so.—"Trends" in The Crosbyton Review.

#### Falling JP's

Eal Treadwell, erstwhile justice of the peace took a mighty tumble in the rain Monday night a week ago. He said his grandchildren had been throwing sticks and things on the steps so when a young couple came by and wanted to be married he turned down the porch lights and started down the steps, he got down alright, in a hurry. "Those two sure had a hard time getting married. The first place they went, the old JP fell dead and this old JP fell down." But they made it—"Out on a Limb" in The Haskell Free Press.

The meaningful emblem of Body by Fisher

When you see "sterling" on silver you know what it means—solid silver, all the way through.

And when you see the medallion "Body by Fisher" on an automobile it means much the same thing—quality all the way through, in things unseen as well as on the visible, gleaming surface.

The significance of this emblem cannot be tested on the showroom floor. Its meaning was not built up in a day but only after

long years in which owners learned that "Body by Fisher" was a veritable symbol of solid, enduring satisfaction.

Only one who has owned a Chevrolet for several years can fully know the deep sense of satisfaction this emblem pledges. It is the warranty of an inner soundness that your eye or your touch cannot test. And only Chevrolet in the low-price field is entitled to wear the small, proud plaque that proclaims "Body by Fisher."

## THE CALL TO THE LIVING

A cross—a hundred crosses—marking the graves of men who died in the service of their country. But why a cross?

Is this the symbol of our gratitude for the sacrifice they made for us? It is not!

Is this the emblem of democracy and freedom in whose cause they laid down their lives? It is not!

But this is the symbol of a crucified and risen Christ. The One who unfolded for mankind the truth of God's love, the truth out of which democracy, freedom, and sacrifice have come.

The cross on a soldier's grave is a call to us—a call to the living to fill our churches. It is a call to serve with eager and sacrificial devotion the Lord whose Truth men have died to preserve.

### THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake (2) For his children's sake (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

### Beneficial Rains Received By Parts Of County, Too Dry To Plant In Some

Beneficial rains came to some  
 parts of the County Wednesday  
 afternoon, enough to assure cotton  
 planting in some places, but still  
 dry-land cotton farmers in most  
 sections need moisture before they  
 can seed their land.

County Agent Lewis Herron said  
 this morning that before yesterday  
 afternoon's fall, at least 95 per  
 cent of the farmers who depend  
 solely on dry land farming, had  
 not planted and that it was doubt-

### Deepening Project To Test Glorieta

Alamo Corp. of Lubbock this  
 week was resetting packer and  
 preparing to install pump at its  
 No. 3 W. A. Cash, old well deep-  
 ening project in northwestern Gar-  
 za County.

With hole bottomed at 3,960 feet  
 in Glorieta, a six-foot section be-  
 tween 3,928-34 feet was packed off  
 and acidized with 1,600 gallons.  
 Three-hour swab recovered six  
 barrels of oil and eight barrels of  
 water.

The project was originally com-  
 pleted as a San Andres producer  
 in the Garza field and re-entered  
 by current operator to attempt  
 wildcat Glorieta completion. It is  
 three-quarters of a mile southeast  
 of the Huntley-Glorieta area.

The site is 3,046 feet from south  
 and 1,264 feet from east lines of  
 Section 1216 in the TTRR survey.  
 It is four miles northwest of Post  
 on a 320-acre lease.

told by the Rev. W. L. Porterfield, First Methodist Church pastor, Sunday night in his baccalaureate sermon to Post High School's graduating class.

"You, too, in a sense of the word, are rich and rulers," said the Rev. Mr. Porterfield, "not necessarily in material things, but in enthusiasm, ambition and God's love."

He told the seniors that the time of youth is the time of decision and of acquisition. "Not only the acquisition of material things, but of habit, character and other traits," he said.

"The time of youth is also the time of building," he continued, "the time of building of personality, character, and other foundations of adult life."

"You are rulers in the sense that each of you has some influence over some other person that no one else has. And each of you excels in one way or another. There is something you, yourself, can do better than anyone else."

The Rev. Mr. Porterfield closed his sermon by telling the seniors that if they surrender all they have to Christ, it will be a blessing to them and to the world.

"By so doing," he said, "you will be blessed and enriched, rather than going away sorrowful as did the rich, young ruler."

The baccalaureate service included a solo by Miss Elwanda Davies, "My God and I"; two songs by the junior class, "He", and "Whispering Hope"; invocation by the Rev. Roy Shahan, pastor of the First Baptist Church; benediction by the Rev. Clinton Edwards, pastor of the First Presbyterian Church, and scripture reading by the Rev. Shelby D. Bishop, Calvary Baptist Church pastor.

Mrs. Ray N. Smith played the professional and recessional. The service was held in the high school auditorium.

Chaplain, Bob Ford. Following Sunday School, there will be time for Dads and sons to shoot on the mosquito range and to go swimming. Following lunch then on Sunday, each Cub-Dad camp will break up.

The South Plains Council's twenty-county area now has a registered Cub membership of 3,200 Cub Scouts and the opportunity to attend the five Cub-Dad Camps will only be offered to about 625 Cub Scouts, so Packs that plan to attend have to get their reservation rather far in advance.

ONE INDICTMENT FOUND BY GRAND JURY

**Vandalism, Destruction Of Personal Property Included In Jury's Final Report**

An editorial which appeared in the April 26 issue of the Post Dispatch, pointing out the need for more police protection and the seriousness of wide-spread vandalism which is sweeping the city, evidently weighed heavy on the minds of some of the men and women who comprised the Garza County Grand Jury which convened here Friday, and brought about a thorough investigation of the situations.

The investigating body, after spending considerable time checking complaints of vandalism and destruction of personal property, submitted to District Judge Louis B. Reed the following report and recommendations:

"That the City and County be urged to coordinate their efforts and facilities in order to provide more complete police protection against such acts of vandalism and destruction of personal property.

"That the Commissioners' Court and City Council should cooperate in providing adequate facilities and personnel for the operation of a radio communication system to be operated by the sheriff's department.

"That all law enforcement agencies be urged to cooperate with the above agencies in order that they may have more complete and continuous police protection.

"All citizens are urged to cooperate and report all law violations to the proper authorities in order that more effectual enforcement may be obtained.

"That all law enforcement offi-

cial keep constant vigil on all juvenile violations and report said matters promptly to the proper juvenile authorities."

Before making its final report and being adjourned for the current term of district court, the Grand Jury returned one indictment against R. D. Moore, colored, and father of two children, charging desertion.

**Army Openings For Band Musicians**

Here is a chance to toot your own horn in the U. S. Army.

The Army has openings for qualified musicians in many of its 102 professional caliber bands. In some cases it is possible to enlist for eventual assignment to a specific band of the enlistee's choice.

To secure a specific band assignment, the musician must audition for the bandmaster, and be given a letter of acceptance. Then the musician enlists in the Regular Army at his local recruiting station for a 3-year tour. Upon completion of basic combat training, the enlistee is then assigned to the band for which he enlisted.

Critical shortages are developing for clarinetists, French horn players, oboists, bassoonists, flutists, baritone saxophonists, and tenor saxophonists.

There is the additional possibility of training at the U. S. School of Music in Washington, D. C.

Opportunities for advancement are great in the Army bands. Of the 42-pieces authorized for a division-type band, for example, 37 of the spots are authorized men of the upper four pay grades.

Further information on enlistment for direct assignment to a U. S. Army band may be obtained from the Army recruiter M-Sgt. W. A. (Sam) Bass at Room 204, Post Office Bldg., Lubbock, or at the post office here the second Friday in each month.

Mr. and Mrs. C. R. Thaxton observed their wedding anniversary Friday by going to Lubbock for dinner and a show.

## Fishing Is Improved By Removal Of Shad

AUSTIN, May 22—Removing an estimated one hundred tons of shad from the Panhandle's Buffalo Lake has done the job—made the game fish hungry—according to reports to the Chief Aquatic Biologist for the Game and Fish Commission.

A record 1800 pounds of the chemical rotenone was used to exterminate shad. Carp will be attacked later when they concentrate for spawning in the shallows.

R. H. Johnson, lake concessionaire, told Aquatic Biologist Leo Lewis of Wichita Falls that the first calm weather after the gigantic selective kill produced limited catches of crappie and some big bass.

## AN EIGHT POINT PROGRAM OF LAW ENFORCEMENT

**Elect ODEAN CUMMINGS Sheriff**

1. Establish And Administer A Juvenile Policy Of Fairness of Firmness. (Discussed Last Week.)
2. I Believe That Twenty-Four Hour A Day Police Protection Is A MUST For The Efficient Operation Of The Sheriff's Office.
3. a. b. c. d. e.
- 4.
- 5.
- 6.
- 7.
- 8.

**2. I believe that twenty-four a day police protection is a must for the efficient operation of the sheriff's office.**

If I am elected your sheriff, my first goal will be to establish round-the-clock police protection for Garza County. This can be accomplished with the present personnel if properly organized and furnished the necessary communications equipment.

The taxpayers of Garza County, Texas now employ four full time law enforcement officers and one office deputy at an annual cost in excess of \$20,000.00. Garza County does not have the necessary radio equipment to contact adjoining counties or equipment for local people to contact our officers once the officers are away from their telephone. The Federal Civil Defense Program, in 1955, afforded Garza County a complete set of radio equipment including mobile units, base station and transmitter complete with tower. The only string attached to this offer is that it be installed and used for the purpose for which it was designed (disaster and law enforcement work.) This equipment to Garza County with the Federal Government paying one half of the cost and a State agency providing reimbursement for the other half.

If elected your sheriff, I will request the Commissioners' Court to accept the offer of equipment and when it is installed (which can be within sixty days), I shall put into effect a twenty-four hour per day patrol system which can place an officer at the place of need just as quickly as a car can travel.

It is my belief that peace officers should work regular hours like other people except in emergency matter, and should give their employers a full measure of work. This can be accomplished with proper equipment, proper scheduling of hours and work shifts.

During the small hours of morning when most crimes are committed an officer should be on duty and available to prevent the commission of crimes.

The primary purpose of law enforcement personnel is to prevent crime and nothing prevents crime like the presence of an officer that people know will do his duty in a fast and efficient manner. If elected your sheriff, I shall have that type of officer available twenty-four hours per day.

**Elect Odean Cummings Sheriff Of Garza County, Texas**  
**A Man With A Positive Program For Law Enforcement.**

Point three of the above program will be discussed in next week's paper.

### Grass Testing And Breeding Program May Find Answer

COLLEGE STATION, May 23 — Texas range livestock producers have long sought a drought resistant grass that would set a good seed crop, produce a lot of leaves and quickly establish itself and also one which could be reseeded at a low cost.

Finding these characteristics in a single grass may be a remote possibility, but A. H. Walker, extension range specialist, says progress is being made. Several grass varieties selected by research workers of the Texas Agricultural Experiment Station in the states of the southwest and Mexico are showing a lot of promise and small trial or test plantings are now being made in 66 counties.

A total of 255 varieties or selections are included in the county plantings. Cooperating with interested local groups, county agents have located the test plantings on land easily available to those watching the progress of the plants. Among the prize performers, according to Walker, are a sideoats grama which has runners like buffalograss, also a blue and hairy grama with the same characteristic. Another sideoat has shown marked ability for producing a heavy seed crop and holding it on the stalk until ready for combining. There are other species which produce a lot of leaves and few stems and still another which produces plenty of green forage in March and April. More than 200 varieties of sideoats grama are under test.

"These are not miracle grasses," points out Walker, "but they do hold a lot of promise for re-vegetating old fields and denuded rangelands of Texas." It is Walker's belief that no single grass capable of filling the bill will be found but that a combination will come from the breeding and testing program which can mean a new day for the State's livestock producers who depend upon range forage as a major source of feed.

The 32nd annual commencement exercises of McMurry College, Abilene, will be held Monday, May 28. The college will award 75 master's and bachelor's degrees in the graduation exercises, according to Jerome Vannoy, registrar.

The River Nile is approximately 4,000 miles long.

**Wheat Acreage Allotment Set**

Texas' wheat acreage allotment for the 1957 crop has been set at 4,149,071 acres, according to an announcement by the Agriculture Department.

State allotments are based on wheat acreages for the last 10 years, with adjustments for planting trends, weather, and other factors. The 1957 allotments do not vary greatly from those established last year.

State stabilization and conservation committee offices in the 36 commercial wheat states will determine county allotments on the same basis as the state allotments. The county allotments will be broken down to individual farms by county committees.

Each farm producer will be informed of the acreage allotment for his farm before the wheat marketing quota referendum on July 20.
