## Trustees authorize bids for fire-damaged school

### Wanted ready for next fall term

Post school trustees Monday night authorized the Lubbock architectural-engineering firm of Whitaker and Hall to prepare specifications and request bids for the repair of the fire-damaged Post elementary school in time to have it ready for fall classes in late August.

seven per cent in November, 1972, that due to current inflation in the building industry "all your school buildings are now under-insured." He asked the board's permission to put a 15 per cent increase binder on school property until a valuation engineer could determine the current replacement value of present school property.

He said the insurance company had agreed to make a 100 per cent settlement of damages in the fire since it has been the intent of the school district to keep its coverage abreast of current replacement costs. A. C. Cash, president of the school trustees, said it was the board feelings that it wanted to

"improve the building" in making the repairs "not just put it back like it was." Architect Duane McQueen and Jerry Roseberry, engineer, represented Whitaker and Hall at the trustees' session. Principal improvement planned for the building during the summer (See School Board, page 8)

### ALL EQUIPMENT RECEIVED, INSTALLED

## Dispatch will convert to offset on May 31

The Post Dispatch will convert to offset (photo-composition) publication with its issue of Thursday, May 31, Publisher Jim Cornish announced today.

All equipment ordered for the conversion has already been received and installed. Cornish said the conversion will bring several important changes to the weekly Dispatch, most important of which is that it will for the first time be distributed regularly on all city and rural mail routes in the county each Thursday morning.

"This will be a big gain both to our subscribers and advertisers," Cornish said. "The subscribers will get Thursday morning delivery to home or office or postoffice box, without having to wait for Friday delivery or purchase their paper at a local store on Thursday because they don't want to wait an extra day for mail delivery. Advertisers will know that the paper is being delivered to all local subscribers on Thursday, which will give their weekend ads more effectiveness."

"The Dispatch will also change quite drastically in appearance," Cornish said. "Due to the offset photographic process pictures will print much clearer. That will be the most striking difference. Then the paper will be longer and narrower and in editions of up to no more than 12 pages printed in a single section."

Cornish explains the actual printing of the Dispatch will be done on the big offset press of the Snyder Daily News each Wednesday night with all the pages being

prepared for publication in The Dispatch's own backshop.

Another advantage to advertisers of offset publication will be that advertising mats no longer will be needed for illustrations in ads as are now required in the current letterpress, or "hot type," printing method. A black and white picture can be clipped and easily reproduced in an ad.

The Dispatch with today's issue is launching a subscription campaign to get local readers who have been buying their Dispatches at newsstands on Thursdays to subscribe and receive Thursday mail delivery at a considerable savings in cost. In the new offset method, all stories and headlines will be set (See Offset, page 8)

### THOUGH COMMUNITY ACTION

## Summer youth program to get \$800 in funds

Eight hundred dollars in federal funding has been budgeted for a summer youth program to be operated by the Garza County Community Action Committee, Howard Maddera of Levelland told its board of directors Tuesday night at the Lorenzo Alexander Community Center.

Maddera also reported that the federal outlook for the community action program has now stabilized again and that the South Plains Community Action Association, Inc. of which he is the executive director, is now being funded through its present fiscal year which ends Feb. 28, 1974.

A committee to draw up a summer youth program was named by Jim Cornish, president of the board, consisting of Molly Conoly, Dana Feaster, Mozella Mitchell, and Sue Shytles, director of the community center.

Maddera told directors that the seven-county South Plains Community Action Association's board is being reorganized July 2 and that County Judge Giles W. Dalby will be asked to appoint a "public representative" to that board. Maddera said Garza could also have a representative of the beneficiaries of the program on the board if it requested one.

Due to the distances to be traveled to the board meetings, directors voted not to ask for a second representative on the association's new board.

Directors heard reports on the operations of Mrs. Shytles' office

for March and April, the Post special school for children, the infant nutrition program now serving 25 different families, the well baby clinic at which 10 youngsters were seen in March and 22 in April, and the family planning program which has now expanded to include a class of 101.

A report on the meals on wheels for senior citizens, presented by Pee Wee Pierce for Ann Tubbs, director of the program, said 20 senior citizens, 17 non-paying and 3 paying, are now being delivered hot lunches in their homes five days a week by local volunteers with Betty's Grub Stake Cafe preparing the food.

A "big need" still exists for volunteers to deliver the hot lunches on the two 10-person routes twice monthly, Mrs. Pierce indicated.

A waiting list is now being (See Action Group, page 8)

## FFA talent team wins at Midland

The Post Future Farmers of America chapter's talent team of musicians won the area talent contest at Midland last Friday and their next stop will be the state convention in Fort Worth in July.

Members of the Post FFA talent team that will be going after state honors at Fort Worth are Wesley Redman, Tol Thomas and Danny Guthrie.

Also at the Midland convention, John Johnson was elected Area 11 nominee to the state convention, and Jay Pollard was elected area reporter and chosen to serve on the courtesy corps at the state convention.

Bill Aten and Joe Craig had their Lone Star Farmer degree applications approved. Aten and Craig, along with Ricky Cross, attended the area convention as voting delegates.

## Lions broom sale is re-set for Saturday

Post Lions got "mixed up" on their dates in announcing last Saturday as the date of their annual broom and mop sale. It is to be this Saturday instead.

The club will be selling brooms, mops and other household cleaning equipment from a downtown location on West Main Street and will also canvass service stations and the residential districts.

### BANQUET GUESTS, CLASS PRESIDENTS

and Mrs. Dave Gottshall (center) of West Texas Boys Ranch near San Angelo were special guests at the annual Senior banquet, with Gottshall as guest speaker. At

the left is Jill Cash, junior class president and mistress of ceremonies. Roger Pace, senior class president, is at the right.

## Boys Ranch official is heard at class banquet

There's nothing wrong with being a teenager," Dave Gottshall, administrator at West Texas Boys Ranch near San Angelo, told Post High School Juniors and Seniors at their annual banquet Tuesday evening in the Community Center.

The allotted lifespan gives you just 60 years in which to be adult, and the worst thing the Legislature can do to you is to make you adults at the age of 18," Gottshall told the students.

of those subscriptions coming in if you want to start getting your paper delivered by mail Thursday morning, beginning in two weeks, May 31.

Why we're announcing Dispatch's big conversion two weeks in advance, to give you time to get those subscriptions into us before we start concentrating all our efforts on trying to get out the offset edition.

Next week's paper is going to be the widest paper in the West. When we go offset, we'll get it printed at the Snyder Daily News. It will be just as long and wide as the Lubbock A-J, or as wide as the rest of them.

The reason we aren't printing it is because we don't have a \$75,000 laying around with which to buy one of those fancy offset presses. You'll find that people with such a press print better papers just to help themselves.

We've been planning the switch since mid-March when we had our pressman, Amanda Jones, Jr., was resigning when (See Postings, page 8)

## Adult group to be organized

An adult chapter of the Fellowship of Christian Athletes is to be organized at a breakfast meeting at 7 o'clock Thursday morning, May 24, at Betty's Grub Stake Cafe. Coach Bobby Davis announced the plan.

Coach Davis said Texas Tech athletic coach Richard Bell, president of the Lubbock adult chapter of the FCA, will be here to assist in the organization, along with Egan, a past president of the Lubbock organization, and Curtis Jones, also of Lubbock. The Post coach and athletic director said local fans interested in organizing an adult FCA chapter here are invited to attend the breakfast. The high school athletic department organized an adult group two years ago, consisting of sophomores through senior citizens. Some of them will be at the breakfast, Davis said.

### GREETER AND GUEST

Sophomore Dana Pool, one of the "greeters" at the banquet, encircles guest Lester Josey's neck with a lei as he enters the Community Center for the annual junior-senior affair.

### AT WHITE RIVER LAKE

## Filtration plant to get addition

White River Municipal Water District directors by resolution last Thursday night voted to spend up to \$30,000 to build and furnish an addition to the filtration plant that will include a directors' meeting room, a new office for Al O'Brien, water district manager, and additional restrooms.

The addition would be of 35 by 35 foot size with the directors' room measuring 35 by 20 feet. Added heating and air-conditioning is included.

O'Brien, who had plans for the Mary Alice Mitchell, 82, dies early today

Mrs. Mary Alice Mitchell, 82, mother of James Mitchell and a resident of Childress for 75 years before coming here to live a few months ago, died early today in Garza Memorial Hospital after suffering a stroke last night at the Twin Cedar Nursing Home.

Funeral services will be conducted at 2 p. m. Saturday in the Newberry Funeral Home chapel in Childress with burial in the Childress cemetery.

addition drawn for directors at their May meeting, said actual construction would probably cost about \$21,000 with furnishings bringing the total to nearly \$25,000. He said a supplemental budget will be prepared for the water district to include the construction.

In another action, Johnny Holbrook, former Odessa police officer, was approved by directors to be the new peace officer for the lake.

Revenue for April showed \$27,999 from water sales, \$8,860 in recreational revenue and \$1,761.01 in lot leasing.

## Youngsters' rodeo entries over 200

Over 200 entries have been received for the Little Britches Rodeo here May 25-26 and they're still coming in, according to Fred Myers.

The event, sponsored by the Garza County Junior Livestock Association, will be Post's first Little Britches Rodeo. It is to be held at the Post Stampede arena, with two age divisions — peewee, 12, 13 and 14.

Doc Edwards of Girard is to furnish the stock for the rodeo.

## Lucas named Post Pontiac dealer

Harold Lucas, Post's one automobile dealer, announced this week he is now this area's new Pontiac dealer as well as Chevrolet and Oldsmobile dealer.

Lucas already has some new Pontiacs in stock, as you will note in his announcement ad on page 9, and has more on order.

With the addition of the Pontiacs, Lucas has changed the name of his auto agency to Harold Lucas Motors. It has been known as Harold Lucas Chevrolet-Oldsmobile.

## Transportation, acid corporation new firm here

Earl Chapman and Jim Strawn have formed the corporation of Strawn-Chapman Transportation & Acid, and have purchased the oil field trucking equipment from D. C. (Billy) Hill of Hill & Hill, Inc.

The new firm will operate out of the Rocker A Well Service yard and office on the Clairemont highway with Strawn in charge of operations.

Strawn has been an employee of the Dowell Company for the last 20 years in this and other West Texas oil areas.

The new firm will offer transport, acid and vacuum services to the area's oil industry. Hill is retiring from 25 years in the oil service business with the sale of the equipment which became effective May 1. Hill went into the oil field hauling business here in 1948 before the oil business really picked up in the Post area in 1953.

He was in the cattle trucking business before entering oil field transport and returned to cattle hauling two years ago. He has retained his cattle trucks and plans to continue operations in this line in the future as well as devote time to ranching and farming interests.

## Baptist pastor to move to Carthage

The Rev. Robert Griffin, pastor of the First Baptist Church here for the last two years, has accepted a call to pastor the Central Baptist Church of Carthage, Tex., where he and his family will move early in June.

The Rev. Mr. Griffin, who came to Post from Atoka, Okla., will fill the pulpit here for the last time on Sunday, June 3, which is the day the church is scheduled to move back into its new sanctuary for the Sunday service. For the last several weeks, services have been held in the Community Center.

Bob Stice, minister of music and education and also the church's youth director, said a pulpit committee will be elected this Sunday night to begin looking for a new pastor.

## Post Lions elect Zivec president

Bob Zivec of Postex Plant here has been elected as new president of the Post Lions Club, succeeding Charles Adams, also of Postex.

Other officers elected or re-elected were: Bobby Waters, first vice president; Eddie Gonzales, second vice president; Weaver Moreman, secretary-treasurer; Preston Poole, Lion-tamer, and Bud Davis and Travis Thomas, one-year directors. Bill Crane and Walter Didway are hold-over directors.

The new Lions officers will be

MRS. RUBY LOBBAN

## Veteran teacher is retiring this year

Mrs. Ruby Lobban, who is retiring as a mathematics teacher here, was honored Monday night in the bank community room by the Garza County unit of the Texas State Teachers Association.

Supt. Bill Shiver praised Mrs. Lobban for her successful teaching career, and the organization presented her with an engraved silver vegetable dish. She has taught school 32 years, 19 of them in Post.

Supt. Shiver also presented service pins to the following: Mrs. Jean Gandy, 22 years, all in Post; Mrs. Lucille McBride, 25 years, 16

in Post; Billy Hahn, 26 years, 15 in Post; Jimmy Pollard, 25 years, 18 in Post, and E. A. Howard, 24 years, eight in Post.

After a short business meeting presided over by the President Jean Gandy, new officers were installed by Beth Walker, vice president. They are: Herb Germer, president-elect; Suzanne Hudman, second vice president; Kathy Brown, secretary, and Carolyn Sawyers, treasurer.

Refreshments were served from a table decorated with flowers and candles.

## The Bicentennial Celebration

We've read quite a bit about it and have heard it mentioned a few times here, including a couple of times at City Council meetings, but like most everyone else in Post, we're "in the dark" as to what this town and other towns and cities in this part of Texas will do—if anything—about the Bicentennial Celebration in 1975.

The year will mark the 200th anniversary of our nation's independence, and many places back east, where it all started, are already under way with plans for Bicentennial events. Also in the Midwest, Southwest and other parts of the country, some of the larger cities already have plans under way for the

celebration.

Most West Texas towns like Post didn't come along until more than a hundred years after the Declaration of Independence was signed. And while it's true that we have the same stake in our nation and its independence as towns and cities that already existed when the blow for independence was struck, it's doubtful if the Bicentennial celebrations in this part of the country will equal those in the eastern and southern states that formed the original 13 colonies.

Anyway, it's something to think about, and it's gratifying to know that it is already being thought about here.—CD

## Mr. Palmer is a thoughtful man

Lloyd F. Palmer, general manager of Texas Safety Association, Inc., is a man after our own heart, and we'll bet most other newspaper owners feel the same way about him.

The Dispatch recently received this letter from Mr. Palmer:

Dear Editor:  
Last week we sent you a news release with a mat and, through an inexcusable oversight, we failed to put sufficient postage on the envelope.

Please accept my apology and the enclosed dime for this classic goof. I appreciate the great support the newspapers of Texas are giving to the cause of safety, and I hope that you will continue to fight for me-

sures that will eventually make our state a safer place in which to live.

The Dispatch doesn't get much mail with insufficient postage on it, but it does have to dig down into its own pockets and come up with a dime every now and then to pay the post office for a "Change of Address" notification just on account of a subscriber not letting us know he has changed his mailing address.

In these inflationary times, a dime isn't much money, but with postage rates on mailing newspapers already higher than they've ever been, those dimes we pay out for changes of address help increase the burden.

So, thanks Mr. Palmer for the dime. All our change-of-address subscribers should be as thoughtful.

## What our contemporaries are saying

Americans continue as the most wasteful people on earth. Proof of this is wasteful use of electricity, burning unnecessary lights, leaving fixtures not in use plugged in, running fixtures at high speed when low would do the work. Of air conditioners, to save electricity, electric companies advise to keep windows and doors closed and set the thermostat no lower than 78 degrees, since each degree below that uses about 5 per cent more electricity. The electric companies try to teach appreciation of abundance and at the same time to conserve a vital resource.—Newton (Miss.) Record.

Not every trash basket catches all the stuff that should be thrown into it.—The Spencerville (Ohio) Journal News.

Many citizens do not take the time to think through the processes involved in government handouts, rebates, revenue sharing and the like. There is the inclination to regard these monies as a government gift to the people, or the local government. Actually, that is far from true.—Fort Mill (S. C.) Times.

Confidence in another is that quality which requires no attention, its presence is a benediction.—Motador Tribune.

THE WIFE and I thoroughly enjoyed the Junior-Senior banquet Saturday night, and I'm sure all the other guests and the juniors and seniors did, too. It was almost like a trip to Hawaii, with a "Hawaiian Dream" theme, hula skirts, a make-believe volcano, leis, etc.

I missed last year's junior-senior banquet because it fell on the same night I was helping wind up the first primary election results, but this one made up for it.

THE MAN UP the street says research is one of the best careers people can choose. They get paid for looking whether they find anything or not.

Roger Miller wrote a song a few years ago that included the lines, "You can't roller skate in a buffalo herd," but I doubt if it's much harder than taking a picture of a buffalo in a trailer. When Riley Miller brought his buffalo, "John Connelly," up to Jackson Bros. Food Locker a few days ago, he had to keep him in the trailer for safety's sake. So, with the help of Riley and Bo Jackson, I clambered around taking different-angled shots of the buffalo in the trailer. The last two shots I made from the back of a pickup truck, and then had to be helped out of the pickup when I got one foot hung while climbing out with the big Speed Graphic camera we plan to "junk" one of these days.

ONE OF THE buffalo pictures turned out surprisingly good, though, as you no doubt noticed on the sports page of last Thursday's Dispatch.

This is National Nursing Home Week and a good way to observe it would be to pay a visit to some of the residents at Twin Cedar Nursing Home, who, along with the staff, are always happy to have visitors.

THE NATIONAL Nursing Home Week is being sponsored by the Texas Nursing Home Association and American Nursing Home Association and will be observed throughout the nation.

"This week is a time when the dedicated men and women who own and staff these facilities will be demonstrating to all of us what they do all year round for the elderly, the chronically ill and the disabled." is the word from out at Twin Cedar Nursing Home.

AND NEXT WEEK, May 21-26, is Mailbox Improvement Week, designated by the Postal Service each May when customers on rural routes are encouraged to examine and improve, where necessary, the appearance of their mailboxes. All you customers on rural routes cooperate and maybe the Postal Service will see fit to designate a Mail Service Improvement Week before the year is out.

One of my readers asked me if the "Singing Hemphills" who appeared on Saturday evening's "Gospel Jubilee" telecast are some of my Hemphill relatives I've written about in this column. They were introduced on the program as being from Louisiana, but many of the Hemphills to whom I'm related lived around Mena and DeQueen, Ark., and since these places aren't far from the Louisiana state line, some of the Arkansas Hemphills might have hot-footed it on down into Louisiana and turned into celebrities.

QUESTIONABLE HISTORY: On Jan. 7, 1952, Bill Bailey calls and says he won't be home.

These grandmothers straightened out a lot of things for their grandchildren—and that's good. This week, Mrs. George Tracy called to tell me that I incorrectly identified her grandson Mike Shepherd as her grandson Ricky Shepherd in the caption on the FFA Sweetheart jacket picture in last Thursday's Dispatch. The picture showed Mike, president of the FFA Greenhand chapter, helping chapter sweetheart Patricia Bilberry on with her FFA jacket. But I goofed by identifying Mike as Ricky, his older brother, who is a high school junior. Mrs. Tracy is proud of both her grandsons, of course, but she said it seems that Ricky gets credit in the paper for everything Mike does. Well, from now on, Mrs. Tracy, I'll be careful to see it doesn't happen again in The Dispatch.

OVER AT Crosbyton, Hudman Hardware and Furniture, marked its 18th anniversary with a big store-wide sale. The store is owned by Charles and Sue Hudman, and reading about their anniversary and sale reminded me that a couple of weeks ago I clipped something about Sue out of the Crosbyton Review. I hope she forgives me for reprinting it here just as it appeared in the Crosbyton paper.

## Mishaps on Garza rural roads in April kill one

The Texas Highway Patrol investigated eight accidents on rural highways in Garza County during the month of April, according to Sgt. H. E. Pirtle, Highway Patrol supervisor of this area.

These crashes resulted in one person killed and six injured.

The rural traffic accident summary for this county during the first four months of 1973 shows a total of 26 accidents resulting in one killed and 13 injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety, Region 5, for April, 1973 shows a total of 544 accidents resulting in 24 persons killed and 283 persons injured as compared to April, 1972 with 445 accidents resulting in 44 persons killed and 232 persons injured. This was 99 more accidents, 20 less fatalities and 51 more injuries in 1973 at the same period of time.

The 24 traffic deaths for the month of April, 1973 occurred in the following counties: Crosby, Hockley, Lubbock, Lynn and Sherman, two each, and Clay, Floyd, Garza, Gray, Hartley, Oldham, Palo Pinto, Parker, Potter, Randall, Terry, Wichita, Wise and Wheeler, one each.

## Texas ranks high in sale of fishing, hunting licenses

AUSTIN — In 1972 Texas ranked second among the 50 states in the total number of fishing license holders according to U. S. Fish and Wildlife Service statistics.

Texas sold 1,542,693 licenses, behind California with 2,261,766 and ahead of Minnesota with 1,486,871. Texas also ranked third in the total number of hunting license holders.

Texas had 783,103 hunting license holders, behind Pennsylvania with 1,122,399, and Michigan with 783,752.

The U. S. Fish and Wildlife Service defines a "license holder" as one individual regardless of the number of licenses he may purchase.

Nationwide, the sale of hunting licenses decreased in 1972 from the year before. But sale of fishing licenses increased.

Expenditures for hunting licenses decreased in 1972 from the year before. But sale of fishing licenses increased.

Expenditures for hunting licenses were \$108,000,000 in 1971 and \$107,310,803 in 1972. Fishing license sales increased by \$7 million.

## Card of Thanks

We wish to extend our grateful appreciation for all the flowers, food and kindness given us on the loss of our loved one. Our special thank you to Rev. Bob Ford, Rev. J. B. Fowler Jr., and the ladies who prepared and served our noon meal on Monday. Words cannot sufficiently express our gratefulness for friends in a time such as this. May our Lord remember you well.

The family of John W. Rogers Sr.

We want to thank each one for the food, flowers and for the friends that visited us during our time of sorrow. Also we want to thank Dr. Wilson and the nurses for taking such good care of Albert during his stay in the hospital. We especially want to thank Bro. Leon Smith and the women that helped with the meal. May God bless each and everyone of you.

## Police, sheriff merger consultant plans heard

The Garza County Commissioner's Court and a representation from the city council heard a presentation Monday by William Carr of the William B. Carr and Associates consulting engineering firm on the proposed \$9,500 consultant study on consolidation of the city police and county sheriff's department.

The study is required by the state criminal justice council as the next step in the consolidation procedure and all cost of the study will be borne by federal funding. The consulting firm would make its recommendations on all law enforcement procedures.

The county court decided not to take any action until May 25 when it will be in all-day session for the annual tax equalization hearing.

Mayor Giles C. McCrary, Councilmen Donald Windham, E. R. Moreland and Ed Sawyers, and Supt. of Public Works Pete Maddox, sat in with the court to hear the presentation.

In other actions, the court signed the contract with Pharr Construction Co. of Lubbock for renovation of the exterior of the courthouse at a cost of \$6,914 with work to begin immediately; and authorized purchase of an air-conditioning unit for the office of the new probation department which is on the first floor next to that of the county school superintendent.

## You are invited . . . to good times, good food

. . . in your own backyard with an outdoor gas grill and gas light. You can cook up a party at a moment's notice, because a gas grill is ready to cook in minutes. And it's so easy to cook on because you can control the heat. With a gas grill there's no charcoal mess, and you still get that delicious, outdoor char-broiled flavor that comes from the smoke of meat juices dripping on permanent ceramic briquets.

Besides the good times you'll have cooking out, you enjoy the convenience of having a gas grill. You'll probably find yourself cooking on it just because you wanted to get out of the kitchen or didn't want to mess up the broiler of your kitchen range.

# Cotton planting rate decision is important

LUBBOCK — Cotton producers are now faced with numerous decisions about planting, and not the least among them is the question of planting rates, says an area cotton specialist here.

According to Dr. Robert B. Metzger of the Texas Agricultural Extension Service at Lubbock, seeding rates will vary according to row width, seed quality, and whether production is under irrigation or dryland.

"Due to low quality seed this year," says Metzger, "planting rates in many instances will have to be increased by 25 per cent or more, depending on the level of germination."

Explains the agronomist, "The optimum plant population for the conventional 40-inch row width is 16 to 20 thousand plants per acre. This population is equivalent to three or four seedlings per foot of row. Assuming 70 to 75 per cent emergence, this would require five or six seeds planted per foot of row or approximately 20 to 25 pounds of seed per acre. It should be emphasized that to get 75 per cent field emergence, a laboratory germination of 80 per cent or higher is required."

For those considering narrow row cotton production, he explains, an average of three plants per foot of row is still a good rule of thumb. For 20-inch single rows or double rows on 40-inch beds, 75 to 80 thousand plants per acre is an ideal plant population.

"To obtain this population will require 32 to 35 pounds of seed at least 80 per cent germination) per acre," he advises.

"Increasing plant population such as above 80 thousand puts too many plants within the drill row or the double row pattern. Likely results will be taller, barren plants, reduced boll size and delayed maturity.

"On the other hand, varieties adapted for narrow row cotton production that tend to be early maturing and compact will not have the ability to fill out skippy stands if the population is too low. Therefore, proper plant population is more critical if these compact varieties are used in narrow row. In fact, this type of planting offers an opportunity to avoid crowding plants within the row. To accommodate a plant population in the 10 to 140 thousand range will require a more narrow row pattern. For example, this can be accomplished in a 10-inch row width using a planting rate of 50 pounds per acre."

Due to the adequate supply of underground moisture, many producers are considering narrow row cotton on dryland, Metzger reports. He emphasizes that successful dryland narrow row production will depend not only on proper planting rates but also on good seed placement for proper plant distribution within the row.

"This can be accomplished only

with proper planting equipment," he advises. "The planting rate should be reduced from that used in irrigated narrow row production. For a 20-inch single or double row on a 40-inch bed, a planting rate of 25 to 30 pounds of seed per acre is sufficient while 35 pounds per acre would be adequate for 10-inch row width. Producers should increase the above planting rate if the seed germinates below 80 per cent."

The agronomist concludes that in addition to planting rates, producers must consider other important practices such as variety selection, weed control, irrigation, and soil fertility for profitable cotton production.

## Rabies on increase in Texas last year

AUSTIN — The first human deaths attributed to rabies since 1962, well as a slight increase in rabies cases among animals, occurred during 1972, the Texas State Department of Health says.

There were 343 animal rabies cases reported last year, up per cent from 322 in 1971.

Wildlife accounted for the largest number of cases—281—skunks leading all other animals with 189 cases.

Students attending were: Connie Abshire, Maria Shelton, Sue Bevers, Joe Bevers, Jerry Winterrowd, Gregg Lester, and Steve Buxkemper. Adults present were: Supt. and Mrs. Simmons, Coach and Mrs. Donny Windham, Mrs. Betty Hall, and Mr. and Mrs. Ferrel Wheeler.

## Parents' Night

About 20 adults attended Parents' Night at the school gym last Thursday night. Refreshments were served, and games were played.

Parents' Night will be continued during the summer on alternate Thursdays at 8:30 p.m. in the school gym.

## Baseball Games

The final high school boys baseball games were played at Post Friday, May 4, with Nazareth. Southland won one game and lost one game. School was dismissed early in order that all students could attend the games.

## Babe Ruth Team Organized

A Babe Ruth Baseball team, for boys 13 to 15, has been organized. Sponsors of the team are: Supreme Feed Mills, Southland Delinting, Big State Garage, Close City Gin, and Hackberry Co-op Gin.

Practice sessions are being held during school hours at present.

## Car Wash

A car wash, sponsored by the seniors, was held at the school last Saturday.

The seniors will leave on their senior trip at 8 a.m. May 25.

## Drivers' Education Begins

Drivers' Education classes at Southland High School started last Thursday. Coach Jay Wilson from Post High School is the instructor. The 15 students will meet each Thursday from 2:30 - 5:30 p.m. Driving is scheduled to begin about June 1. Coats of the course is \$24.

Mrs. Cartmill is the daughter of Mr. and Mrs. M. E. Sales of Route 2, Post. A 1959 graduate of Southland High School, she is a candidate for a bachelor of science in elementary education, minor in English.

Alma Christine Morris is the daughter of Mr. and Mrs. Wilburn Morris of Olton Route, Plainview,

## Coyote numbers not declining

WASHINGTON—Instead of heading for extinction as an endangered species coyotes probably are more abundant than at any time in the history of the west, a Senate subcommittee was told.

Spokesmen for livestock ranchers and farmers blamed what they called a rapid rise in coyote numbers on a federal ban on poison in predator control use last year.

They told a commerce environment subcommittee that the ban should be repealed at least until effective controls are found through an accelerated research program.

and will receive a bachelor of arts in speech, minor in history. She is a 1969 graduate of Post High School.

Speaker for the commencement, which is to be held in Herral Memorial Auditorium, will be Dr. Jess Moody, pastor of First Baptist Church, West Palm Beach, Fla.

### Three injured in highway smashup

Patti Allison, 18, of Post, and Eireann Isaacs, 19, of Route 3, Snyder, formerly of Post, were seriously injured in a collision Wednesday afternoon of last week a mile and a half west of Snyder just east of the intersection of U.S. Hwy. 180 and FM 11611. Billy Wayne Stokes of Route 1, Snyder, also was injured in the smashup.

Miss Allison was scheduled to undergo surgery in a Snyder hospital Wednesday for a knee injury. Miss Isaacs has been dismissed after five days in Lubbock Methodist Hospital with a broken right arm. The Stokes youth is also in the Lubbock hospital for arm surgery.

Investigating highway patrolmen said Stokes was traveling east on U. S. Hwy. 80 in a 1967 model automobile and the two girls were going west in a 1970 model pickup driven by Miss Allison. Both vehicles were demolished.

maintained because further expansion of the program is deemed inadvisable because of the shortage of volunteers.

To date a total of \$499.66 has been spent for food and containers, and \$98.33 received in contributions besides the \$3,000 in federal funds to finance the project for a year.

Jack Alexander reported two classes in furniture renovation and typing are now in operation in another new educational program launched at the request of the community action committee here through a state educational program. He reported attendance at the free tuition classes in the high 90 per cent with 20 enrolled in furniture renovation and 25 in typing.

repair work will be to improve the lighting, trustees agreed. Trustees also asked the Lubbock firm to let a separate contract to provide for a second exit out of the band room in the south end of the damaged building. This is a fire safety measure which came to the board's attention after the March 28 fire.

McQueen said his firm hoped to be able to get bids on the repair work by June 15, and at the request of the board will ask for separate bids for "put it back like it was" repairs and "repairs plus improvements wanted".

Trustees took no action on Williams' request for a 15 per cent increase in insurance coverage, or on the offered insurance settlement for the fire damage. School Supt. Bill Shiver had already authorized the 15 per cent hike requested by Williams until a survey could determine current replacement value.

Trustees, who voted unanimously not to employ Pat N. Walker for 1973 to collect delinquent school taxes at their last meeting, reversed themselves for the third time, going back to their March stand, and decided unanimously to hire him for 1973.

In other actions, trustees: Approved Supt. Shiver's recommendations to extend 1973-74 contracts to the following teachers at the local pay scale: Miss Sara Holder, reassigned to junior high school; Mrs. Rebecca Lott, high school; Mrs. Shari Pool, Title I; Mrs. Willa Didway, Title I; Mrs. Paula Miller, and Mrs. Bob Stice.

Accepted the resignation as a teacher at the end of this school year of Mrs. Ruby Lobban, who is retiring.

Decided to wind up the school year on Monday, May 28, which is the Memorial Day holiday, instead of requiring youngsters to come back for the final day on Tuesday after a long holiday weekend.

Adopted the school calendar for the 1973-74 school year.

Shiver reported to trustees that he spent last Thursday and Friday running all the school bus routes with state representatives and he hopes to secure state approval next year for the dividing of the controversial north routes.

Rather than train a new hand on an old press with cut newsprint supplies becoming harder and harder to get and farther and farther a way (Canada now our only source), we decided to convert to offset and get rid of a few headaches at the same time.

We've been hard-pressed to find backshop space for new photo-composition equipment, but have squeezed most of it in, had Ben Owen build us a dark room, and some new makeup tables, and are — we hope — ready to make the change.

The photo paper is then run through a processor in a new ground floor darkroom in The Dispatch's back shop and developed. Ads are set the same way and "waxed" together.

"Most smaller papers already have converted to offset," Cornish said, "because of earlier labor or equipment problems. By waiting until now to convert, we have been able to purchase the most improved type of equipment while offset equipment on many papers even in this area is now outmoded."

Cornish said small papers usually are printed on regionally-located presses because the high cost

### Plantings begin after wet weekend

Some Garza farmers began planting the 1973 cotton crop yesterday following three days of light weekend rains which brought an official .99 of an inch of additional moisture in Post.

"We need about that much more," County Agent Syd Conner said, pointing out that some areas of the county did not receive enough moisture to "plant on."

The .47 of an inch Saturday and .26 of an inch both Sunday and Monday brought the 1973 total here to 9.90 inches.

# Indians, Cubs win in BR league lidlifters

The 1973 Babe Ruth League season was opened here Tuesday night with the Indians beating the White Sox, 10 to 7, in the first game, and the Cubs defeating league newcomer Southland, 13 to 7, in the nightcap.

## Minor League is to open season Monday, May 28

Post's four-team Minor League will open its new season Monday night, May 28, with a game between the Colts and Mets, league president Lonnie Gene Peel announced today.

A total of 18 games will be played through June 26, with one game a night, starting at 6 o'clock. The games will be played on the Jaycees softball diamond at David Nichols Park, which is being put in shape for the league opener.

The four league teams are the Colts, sponsored by Harold Lucas Motors; Rangers, sponsored by Don's Home Improvements; Mets, sponsored by United Super Market, and Astros, sponsored by Taylor Tractor & Equipment Co.

The team managers are: Colts, Johnny Smith; Rangers, Dan Rankin; Mets, Kenneth Williams; Astros, Les Brown.

The schedule and team rosters will appear in next Thursday's Dispatch.

Ray Martinez was the winning pitcher in the Cub-Southland game, giving up just three hits in the four-inning contest. Curt Wheeler, Kendon Wheeler and Frankie Little got the Southland hits. Starter Billy Alexander was the losing pitcher, getting relief from Mark Bevers.

Mike Waldrip and Ralph Howell got two hits apiece of the nine safeties collected by the Cubs. Also hitting safely were Billy Smith, Randy Baker, Joe Clary, Daniel Martinez and Caine Abraham.

The White Sox scored five runs in the bottom of the first frame to take an early 5-2 lead over the Indians, but couldn't hold on and finished on the short end of the 10-7 score.

Shorty Hester held the Sox to six hits to pick up the win. Jay Strawn, the White Sox starter, was the losing pitcher, going four innings before being relieved by Mike Hair.

The Indians rapped out eight hits,

with Ricky Sanchez and Danny Saldivar getting two each. The other Indian hits were scattered among Roger Mullenix, Hester, Kyle Duren and David Cisneros.

Third baseman Kenny Gilbreath got two of the losers' six hits, with Evans Heaton, Mike Hair, Ronnie Bratcher and David McBride picking up the other four.

new clubhouse here**

By MRS. C. H. HARTEL

The Federated Club Women of Post have dreamed of building a clubhouse for years.

In 1959, Mrs. Bob Collier, president of the Amity Study Club, sponsored the project of establishing a Federated Women's clubhouse fund. This fund was put into a savings account and through the years has been added to.

In 1966, the Woman's Culture Club began its clubhouse fund by purchasing U. S. Savings Bonds. The two clubs have sponsored tasting bees, bazaars, Christmas greeting sales, flea markets, Thanksgiving dinners, parade floats and various other fund raising projects to increase these clubhouse accounts.

In May of 1972, Mrs. Lou Marks gave the Federated Club Women of Post a house to be used as a clubhouse. The structure was located about five miles from Post. When the club women began looking for lots for their clubhouse, George R. Brown, et al, of Harris County gave the club women the east half of Lot 7 and all of Lot 8 in Block 15 in Post, at 717 West 14th St., as a place to which we could move our club home. The deed was signed in September of 1972. These two generous gifts have made it possible for Post's Federated Women's clubs to establish

Post's first clubhouse.

Mrs. Russell Wilks Jr., president of the Amity Study Club, and Mrs. Jack Burress, president of the Woman's Culture Club, requested the clubs to elect a clubhouse board. The two clubs named the following persons to serve on the clubhouse board and to begin making the necessary arrangements to move the house: Mrs. C. H. Hartel, chairman; Mrs. George Miller, secretary; Mrs. Willard Kirkpatrick, treasurer; Mrs. Russell Wilks Jr., historian, and Mrs. Jack Burress and Mrs. D. C. Williams, who will be chairmen of committees.

The house was moved to the lots in Post on April 9 of this year. After water, electricity and gas connections have been made and the foundation is completed, the club women will make plans for redecorating the house and landscaping the grounds, and also will begin planning projects to finance this work. When the home is completed, we hope to make it available to other women's clubs in the county.

Dennis Altman, son of Peggy and Deamos Altman, and Larry Hoff of Abilene left by plane Saturday for an extended vacation in Europe. They are both graduates of Texas Tech University.

**Lasso® hates  
Carelessweed!**

Lasso, the preemergence herbicide from Monsanto controls Carelessweed as well as other broadleaf weeds and almost a dozen annual grasses that compete with cotton. What's more, Lasso doesn't carryover to harm rotational crops. So even if your cotton gets hailed out, you can come right back in with soybeans or corn. You don't have to incorporate Lasso, either. Apply it preemergence at planting and you're through.

This year, use Lasso.  
And get the  
Carelessweed before it  
gets your cotton.

### THE SENIOR CITIZENS FOOD GUIDE

As a person grows older, his nutritional needs change; however, the senior citizen requires nutrients and food energy just like a younger person—but in different amounts.

Since May is Senior Citizens Month, I want to give special attention in this article to the Senior Citizen's diet. When selecting foods not only during May, but throughout the year, the Daily Food Guide is beneficial. Choose foods from each of its four basic food groups—milk, fruits and vegetables, meat, and bread and cereal—for a balanced diet.

Senior citizens need two or more cups of milk daily—either as fluid milk or a combination of milk group foods—all kinds of milk, cheese and ice cream.

An older person needs fewer calories in his diet. Knowing this, many could utilize skim, lowfat and buttermilk—which provide calcium to keep bones strong, yet are low in calories.

Other calorie-wise choices include cottage cheese—lower in calories than either cheddar or cream cheeses—and ice milk, which has fewer calories but more calcium than ice cream.

The fruit and vegetable group offers considerable variety for diets. Of four servings daily, utilize one which provides vitamin C and another which supplies vitamin A. The recommended serving is 1/2 cup or a usual portion.

Cantaloupe, grapefruit, oranges, strawberries, watermelon, asparagus tips, broccoli, greens, potatoes cooked in their jackets and tomatoes are good sources of vitamin C.

Vitamin A-rich foods include dark green or deep yellow fruits and vegetables—apricots, broccoli, cantaloupe, carrots, pumpkin, greens

and sweet potatoes.

Persons having difficulty chewing should cook, chop or mash foods that cause problems.

As for meat group foods, senior citizens need two or more servings each day to provide protein for body repair. Meat, poultry, fish, eggs, dry peas or beans, nuts and peanut butter fill this requirement.

One serving consists of two or three ounces of lean cooked meat, fish or poultry. Or, two eggs, one cup cooked dry beans or four tablespoons peanut butter.

Less expensive meat cuts are just as nutritious as expensive ones; either have such meats ground or cooked in liquid to make them tender.

The final group consists of bread and cereals. Bread-cereal foods include all whole grain, enriched or restored breads, cooked and ready-to-eat cereal, cornmeal, grits, macaronies, noodles and rice.

Count one slice of bread, one ounce ready-to-eat cereal, or one-half to three-fourths cup other cereal as one serving.

For a low cost, nutritious, one-dish meal, combine a small amount of meat with cereal or pasta, plus vegetables.

Overall, food adds to the joy of living, while working to promote good health and normal weight. A feeling of well-being helps a person meet each day's challenges. But above all, don't skip meals for all the new convenient "junk" foods simply because they are easier to prepare or require no preparation.

If you would like further information on this subject, call my office and I will send you a bulletin called "Food Guide for Older Folks."

Have reasons for your actions and you'll need few excuses.

## Who's Programing Your Computer?

By Oscar Newdiger

We of the United States have entered into the computer age. Without the computer it would have been impossible to land a man on the moon. Every day we see more and more people and jobs being replaced by this wonderful machine, some as small as pocket radios, and others large enough to fill two or three rooms. Even though it is a complex of electronic circuits, a computer is basically a machine that is able to store in its memory bank information at a given time to perform a given task.

We have heard of computer errors that are almost unbelievable; but you must remember that it is not the fault of the machine. It was just programmed wrong.

When God made man and placed him in the

Garden of Eden, he gave him the power of decision. It is this great power that makes such a difference between the mind and man-made computers. We can accept or reject the information that is fed to us. We may say I think for myself, but in reality, we do what we have been influenced to do. The devil is working in many ways to hinder the child of God. And if he can control your mind he can control you. We must have a clear mind to serve God. Therefore we must let the Spirit of God feed us the right kind of information, and then we draw on the vast storehouse of God's wisdom and grace. Philippians 2:5, "Let this mind be in you, which was also in Christ Jesus." So think like Jesus, and the next time you have to make a decision, check to see who has programmed your computer.
