

Extension of Western Texas College into Post now being sought

School trustees Monday authorized Supt. Bill Shiver to take the necessary steps to secure an extension of Western Texas College into Post Snyder's junior college.

Post secure such an extension, regular junior courses could be offered to graduates here with studies leading to a junior college certificate.

Approval of the state coordinating board for colleges and universities will be required to secure such an extension. Haskell County and Colorado City have extensions of Western Texas College.

Supt. Bill Shiver sees such college extension courses here as opening up college education to many Post and Garza young people who otherwise could not afford them.

The school administrator told Post trustees the local school district would only have to make classroom facilities and equipment available for the college courses. There are no tax requirements, he added.

Shiver told The Dispatch that with the present GED program for adults to obtain the equivalent of a high school diploma, and free business courses about to be offered here for adults needing further training, the extension of the Snyder school would give the school district taxpayers excellent usage of their educational investment in the local school system.

In a number of other actions at the February meeting, school trustees Monday night:

Called the school district election for Saturday, April 5, to fill position 6 on the board now occupied by Silas Short and position 7 now occupied by John Boren. The last day to file an application as a candidate for either position will be March 7 with absentee voting beginning March 17 and running through April 1.

Mrs. Boy Hart was named election judge and Mrs. Ann Lowe in Supt. Shiver's office as absentee ballot judge.

Extended the contracts of Billy C. Hahn, high school principal, Jack Alexander, primary and elementary school principal and Athletic Director Bobby A. Davis through the 1976-77 school year.

Junior High Principal Lee Davis's contract will come before the board this summer as originally agreed when he was recently promoted into the principalship.

Trustees are awaiting the outcome of the teachers' salary increase bill before the Texas Legislature at its current session before definitely setting the salaries of these administrators, other than to vote them a salary "one step above" their current ones.

Adopted the school calendar (See School board, Page 12)

SWEETHEART — Dana Pool, center, is shown following her selection Monday night on the primary auditorium stage as the 1975 FHA Sweetheart. Lesa Haley, first runnerup, and right is Nancy Reno, second runnerup. Pictured is Randy Josey, FHA president and beau.

The Post Dispatch

Forty-Seventh Year Post, Garza County, Texas Thursday, Feb. 13, 1975 Number 37

City, county both support major airport improvements

City and county both gave tentative approval Monday night to a plan for major repairs and the up-lighting of the city-county airport which cost an estimated \$200,000.

Actual cost to city and county however, would be only \$12,500 each or six and one-fourth per cent of the total. The bulk of the funds would come from federal FAA funds with the Texas Aeronautics Commission matching the city-county participation.

Julian Smith, a member of the joint city-county airport board, appeared before both the Garza County Commissioners Court Monday morning and the city council that night to outline the need and scope of the airport project.

Smith said the eight-year-old airport originally cost about \$100,000, but if it were to be built today the bill would come to more like \$350,000.

He pointed out no major runway repairs have been made in those eight years to runways and taxiways so that "we're now in trouble" with them.

Smith, in the absence of Earl Chapman, chairman of the airport board, explained that the federal aviation agency is now attempting to move light aircraft servicing away from major airports like Lubbock because of their crowded conditions, so smaller airports near Lubbock have greatly increased chances for additional air business.

Smith also said due to the fuel situation today, many oil firms and others are flying their representatives now.

He said the airport at last has gotten water out to it "and we've gotten an airport manager living out there now." He said the airport would have considerable more traffic if the runways weren't in such poor condition.

Smith said the airport board (See Airport, Page 12)

City rejects phone rate boost request

Post's city dads Monday night by a unanimous vote turned down the request of General Telephone of the Southwest for rather stiff phone rate increases here.

Before taking the action, the city commission gave Bob Sanders of Brownfield, General Telephone's representative at the meeting, a second opportunity to be heard.

The city's position has been from the beginning that a state law, as old as Post itself — it was passed in 1907 — forbids

NAMED CHAIRMAN — Jim Prather, who has developed the OS Ranch Steer Roping and Art Exhibit into the No. 1 fund raising project for West Texas Boys Ranch, has been named as 1975 Roundup Chairman for the ranch.

City dads into hassle over insurance bidding

City council in a long Monday night got into a tussle over where to place all insurance for the city's buildings and equipment, de-advise for bids for a 10-year depository contract to get an engineer and how the old hotel could be "cut in" and set the city's spring for April 5 to elect a

general rule cities from establishing utility rates which would bring a company return of over eight per cent.

General Telephone, by the figures it presented in justifying the need for such an increase, said its rate of return on its Post investment is approximately 7.92 per cent.

Sanders told the council it also is required by law to set utility rates which would enable the company to realize a "fair return," and unless rate increases were granted the return here would not be a fair one in time of such high interest rates.

He asked at the end for the city to put the new phone rates in by ordinance with the requirement that General Telephone hold the increased amounts under bond until the legality of the increases could be determined.

It was at this point that Mayor Giles McCrary told Sanders that General Telephone's 35-year telephone franchise in Post will expire in June of 1976 and that a new franchise needs to be a part of this discussion of rate increases and telephone service.

Sanders had denied General Telephone already has begun to reduce phone service here in efforts to force a rate boost.

Councilman William Wilson cited several complaints which have come to him from local citizens about reduced phone services, including those of two Post police officers who had their phones disconnected and were told it would cost them \$150 in turn-on fees and deposits to get phone service resumed.

"It's not up to us to break the law by authorizing increases over eight per cent," Dr. Wilson said in making the motion to refuse the increases.

Mayor McCrary told Sanders (See City rejects, Page 12)

Jim Prather to head roundup

SAN ANGELO — Jim Prather of Post, noted steer roper and organizer of the OS Ranch Steer Roping and Art Exhibit, has been named the 1975 General Roundup Chairman for West Texas Boys Ranch.

Prather's first task will be to pick and mobilize the Wagon Bosses for the over 60 primary counties served by the ranch, with a roundup kick-off meeting to be held in conjunction with the San Angelo Fat Stock Show and Rodeo the first week of March.

Gene Newman, president of the ranch's board of directors, expressed the board's gratitude to Jim for accepting the position by saying:

"Jim has already done so much for West Texas Boys Ranch through the OS Steer Roping and Art Exhibit that I hesitated to mention the chairmanship of the roundup.

"But Jim had expressed an interest in meeting the challenge of being chairman and wanted a chance to think seriously about doing it. Now that he has accepted the job, and that's what it is — a job — we are looking forward to a great roundup effort in behalf of the boys at the ranch in 1975.

"In view of the economic crisis faced by most ranchmen (See Jim Prather, Page 12)

Jury out in murder trial

The Garza district court jury was still deliberating at press-time Wednesday afternoon on the fate of Victor Soto, 34, charged with murder in the fatal shooting of Antonio (Tony) Valdez in the Valdez Lounge here the night of Feb. 9, 1974.

Jury selection began Tuesday morning and all testimony in the case was completed Tuesday afternoon. Final arguments and District Judge George Hansard's instruction were given to the jury Wednesday morning with it beginning deliberations about mid-morning.

The defendant did not take the stand in his own defense.

District Attorney Joe Smith of Seminole prosecuted the case and Bryan Chappell of Lubbock was the defense attorney.

REPRESENTS STATE DEPT. — F. M. Robinson, state assistant adjutant of the VFW, poses with Gene Gandy, Post VFW commander, at the VFW district convention here Sunday at the VFW clubhouse. — (Staff Photo)

100 delegates here for VFW, auxiliary conclave

Some one hundred delegates attended the District Seven convention of the Veterans of Foreign Wars and Auxiliary here last weekend.

The John Miller Post No. 6797 and its auxiliary were hosts to the convention.

The convention began with a social hour and dance Saturday night at the VFW clubhouse here.

On Sunday a memorial service was conducted at 10 a. m. followed by attendance of the church of one's choice. A convention luncheon was served at noon followed by the district's business session at 2 p. m. to conclude the convention.

V. A. Schertz is the district VFW commander and Lorene Peach the district president of the ladies auxiliary.

F. M. Robinson, the state assistant adjutant, was the state VFW department's representative.

Delegates came from Lubbock, Levelland, Lamesa, Slaton, Brownfield, Spur and Seminole for the convention.

Adult classes begin Feb. 24

Registration for adult classes in vocational training for the economic disadvantaged is set for Feb. 19, Western Texas College which will offer the free courses here under federal grant, has announced.

Registration forms and additional information may be obtained from the Post High School counselor's office, phone 495-2770.

Classes in beginning typing, clerical office practice and basic mathematics will be offered at night, beginning Feb. 24.

Applicants for these classes must have a high school diploma, a GED certificate or must have completed adult basic education preparatory classes.

Persons applying for training in clerical office practice must have prior basic training in typing.

All classes are free of charge (See Adult Classes, Page 12)

Attorney-general opinion sought in county dispute

The Garza County Commissioners Court has instructed County Attorney Preston Poole to seek state attorney-general's opinion as to the legality of the county judge serving as a director of a bank which is the depository of county funds.

This action came Monday at the first February meeting of the court as a result of a letter written by Pat N. Walker, local attorney, to the four county commissioners citing an attorney-general's opinion in 1941 that such would be contrary to public policy making the depository contract void.

County Judge Giles W. Dalby is a small stockholder and an advisory director of the First National Bank here.

An attorney-general's opinion probably would take three weeks to three months to obtain. In the meantime the court probably will decide to seek an extension of the present depository contract with the local bank until the matter is resolved. A new two-year bank depository contract had been on the courts February agenda.

County Attorney Poole gave the court his opinion that an enactment by the Texas legislature effective May 12, 1967, controls. It provides that a bank shall not be disqualified from becoming the depository for a political subdivision of the state by having one or more officers, directors or stockholders who is serving on the board of the subdivision providing he does not individually or collectively own more than 10 per cent of the bank's stock.

County Judge Dalby has far (See County Court, Page 12)

Two elected bank directors

Mrs. Frances Camp was elected a director of the First National Bank Tuesday afternoon at the bank directors' February meeting. Earl Chapman was named an advisory director.

Mrs. Camp will replace her late husband on the board. She also has taken over her husband's business as Texaco consignee.

Chapman is president of Rucker A Well Service and co-owner of the Handy Hardware and Oil Field Supplies and has other oil business interests here.

Adult classes begin Feb. 24

Registration for adult classes in vocational training for the economic disadvantaged is set for Feb. 19, Western Texas College which will offer the free courses here under federal grant, has announced.

Registration forms and additional information may be obtained from the Post High School counselor's office, phone 495-2770.

Classes in beginning typing, clerical office practice and basic mathematics will be offered at night, beginning Feb. 24.

Applicants for these classes must have a high school diploma, a GED certificate or must have completed adult basic education preparatory classes.

Persons applying for training in clerical office practice must have prior basic training in typing.

All classes are free of charge (See Adult Classes, Page 12)

Resusci-Anne' arrives for Garza training

TRAINING MANIKIN — Garza county's own "Resusci-Anne" has arrived here and is being demonstrated by Mrs. Zoe Kirkpatrick who has devoted a lot of her time to talking to clubs and demonstrating the Garza heart chapter's CPR training program.

Burglars hit highway shop

Approximately \$25 in petty cash and tools valued at about \$100 were stolen over the weekend from the maintenance building in the state highway department complex on South Broadway.

Entrance was gained through an unlocked window in the warehouse. The cash was taken from the petty cash box in Joe Williams' office.

The burglary was reported to local police at 8 a. m. Monday.

Ticket sale on for banquet

Directors of the Post Chamber of Commerce have launched the ticket sale for the annual chamber of commerce banquet which will be held in the junior high gym here at 7:30 p. m. Saturday Feb. 22.

Tickets are priced at \$5 each with Jackson's Catering Service to provide the meal.

George R. Jordan, manager of the Cleburne, Tex., Chamber of Commerce, will be the banquet speaker. Jordan served as director of tourist and industrial development for the West Texas Chamber of Commerce before accepting his present position.

He is a "get things done" type of Chamber executive with a long record of accomplishments.

Plaques also will be presented (See Ticket Sale, Page 12)

Citizens oppose city's bounty offer on dogs, killing method

About a dozen concerned citizens met Monday night in the Reddy Room to discuss formation of a Post chapter of the Humane Society of the United States.

Interest was sparked by the announcement last week that the city again is offering a bounty paid to people who bring stray dogs to the city facility. The possibility that dogs could be brought from other cities or that pets could be caught and given up for bounty caused the greatest concern.

All in attendance agreed strongly that a group working together with city officials could bring about many improvements.

Shirley Hays reported that she spoke by phone with Carl Looney, president of the Lubbock Chapter of the Humane Society. He told her that the

CITY DOG POUND — This is the present city dog pound as photographed by a member of a citizens group seeking improved facilities and more humane treatment for dogs here.

New way in home insurance

Carrying deductible insurance on your home as well as your car is coming fast, and for many is already here.

With construction costs climbing so rapidly — up about 70 per cent in the last eight years — the homeowner who doesn't increase his major coverage to meet rising replacement costs is in "big trouble" in case of a major fire.

F. Darby Hammond, president of Southwestern Insurance Information Service in Austin, explains that a home that cost \$20,000 in 1967 now sells for \$34,000.

Hammond says the insurance industry is proposing a solution to the problem which will not cost homeowners much increase in premiums if any, by raising the deductible on their insurance policies.

For example, he says, many homeowners carry \$50 or \$100 deductible on their homeowner insurance. In other words, the homeowner agrees to pay the first \$50 or \$100 of a loss. This makes sense because insurance is meant to protect against large losses which would wreck a budget. A \$50 or \$100 repair bill is not likely to do this.

Hammond points out that almost one-third of all homeowner losses are under \$100. Insurance companies must spend the same amount of money investigating, appraising and doing paper work to pay small claims as they do to pay large ones.

Hammond says this works to the homeowner's advantage this way. If the homeowner pays for small losses and lets the insurance companies cover large ones, it cuts down on company expenses of handling small claims, thus saving the homeowner money.

Increasing the homeowner's deductible from \$100 to \$250 for example saves the homeowner about 10 per cent on premiums. If he raises the deductible from \$100 to \$500 he would save up to 20 per cent.

This saving then could finance a larger policy to cover current high replacement costs.

Certainly, this point of view makes sense. Most people have given up a long time ago wanting full coverage on their cars. It's too expensive. Here's a way to be able to afford full home insurance coverage. — JC

Remember When

10 Years Ago

Dee Ann Walker crowned FHA Valentine Sweetheart with runners up Cheryl Martin and Beverly Duncan; Frank Blanton to head Jaycees; Ranch marker at old Llano Ranch to be dedicated; Hospital Administrator resigns, board reorganizes; E. City commission prepares ordinance permitting regulated drilling in Post, 23,529 bales of cotton ginned here this year; Local police to crack down in school zone; Post defeats Jayton at Spur in District Game; Mrs. Robert Cato honored with a layette shower in the home of Mrs. Clinton Williams; Mr. and Mrs. A. C. Cash honored at surprise wedding shower; food price index jumps six cents to new year high; Eleven new cars are registered, 301 new '50 tags sold; Star Oil Co., plugged and abandoned their well east of town this week, marking another failure for a deep test in Garza county; Trailer courts open on highway with space for 21.

CONTEST WINNERS — These are the five winners in the homemade instrument contest in the third grade music classes here. Top row, left to right, Dinah Stice and Damita Morton, who tied for first, and Cindee Jackson and Rhonda Storie, who tied for second. Kneeling is Barry Davis, who took third.

Two girls tie for first in making instruments

Dinah Stice with a banjo and Damita Morton with castanets tied for first place in the contest for the best homemade instruments in Mrs. Marita Jackson's third grade music classes. Judging was completed Tuesday.

Rhonda Storie with castanets and Cindee Jackson with a washtub bass tied for second and Barry Davis with a gourd shaker finished third.

The instruments were rated for creativity, tone quality and attractiveness.

Judges were Mrs. Patty Kirkpatrick, Scott Houston and Georgie Willson.

Honorable mention awards went to Leigh McCook, harp; Mike Wilcox, banjo; Renea Melton, guitar; Dana Jackson, tamborine; Carol Holleman, monochord; Jennie Benton, banjo; Vickie Ammons, castanets; Trudy Adams, chimes; Jeff Lamb, panpipe; Todd Wilson, conجو drums; David Henzler, bull roar; and Jennie Mock, harp.

Cindy Courtney wins conservation contest

The Garza Soil and Water Conservation District Conservation Poster contest was judged by representatives of the Post Woman's Culture Club, Feb. 10, according to Bob Arhelger, District Conservationist.

The top three places in the contest were won by Cindy Courtney, first; Andrew Wheeler, second; and Mary DeLaRosa, third; all of Southland. These winners will receive cash prizes of \$15, \$10 and \$5 at the annual Garza SWCD Awards Banquet, Monday, Feb. 17.

Winners were also selected within each grade, with ribbons being awarded to the winners. Post winners were Kindergarten, entire class; second Tyra Alexander; first grade, first place winner was James Mock; fifth grade, Abel Reyna; sixth grade, first, Tina Duntlap; second, Jan Cathey and third, Judy Morris.

Southland winners were Kindergarten, first, Heath McGehee; second, Darrell Becker, third, Billy Hambrick; first grade, first place, Rhea Lynn Kiesel; second, Gloria Valdez; third, Tonya Basinger; second grade, first Greg Haire; second, Steve Ellis; third, Monetta Ann Johnston; third grade, first, Mary Lou DeLaRosa; second, Diane Flores; third, Larry Valdez; fourth grade, first, Andrew Wheeler; second, Lynn Courtney; third, Ronald Johnston; fifth grade, first Pam Hill; second, Mary Hill; third, Melody Shankles; sixth grade, first, Cindy Courtney; second, Cynthia Wheeler; and third place Stacy Calloway.

Gasoline at a price

At last, congressional hearings in Washington have disclosed how the proposed national gasoline rationing probably would work.

Every driver would be entitled to nine gallons a week at the regular price. But it doesn't stop there. You can buy more for \$1.75 a gallon and presumably the government gets the difference.

How about that? President Ford's administration says this will be much more expensive than Ford's proposed tax of up to \$3 a barrel tax on foreign oil.

There doesn't seem to be any way to cut down on America's gasoline usage except by blasting holes in the pocketbooks of those who

insist on driving over 125 miles a week.

Of course, there is a better way, but we've already rejected that — voluntary reduction in gasoline usage.

Obviously, either of the major choices now is going to disrupt our disturbed economy even more and fuel our present record peacetime inflation.

With the 1976 presidential election very likely to hinge on the general public's reaction to the energy conservation program adopted — Republican (tax) or Democratic (ration) — you'd think each party would be maneuvering to get the other's proposal adopted so they could take full credit for it.

Or are we being too cynical? — JC

Campaign financing by taxes

The 1976 presidential election will be first to be partially financed by \$1 income tax allocations by individual taxpayers, unless congress refuses to authorize the implementing of this new financial arrangement.

Remember when making out your income tax return this year, as last year, you can allocate \$1 of your income tax to be used to help finance the presidential campaign if you so desire.

Already millions of dollars have accrued in this political campaign fund.

It will be interesting to see how this means of campaign financing actually works in practice.

Most of us aren't fully familiar with how plan works. We understand the government fund will match the candidate's private fund raising for the various primaries, for example.

Private campaign financing is thus only part-way out of the picture, but maybe far enough that a losing candidate doesn't have to go into hock for the next 10 years of his life to make a White House bid as some of them have.

Will it be fair? Where will the abuses come? Can it be manipulated? Is it a good new political philosophy?

We shall soon see. Just around the corner is 1976. In the meantime get your dollar in the pot by putting that x on line 8. — JC

Inflation Hits Home

Do you know what it would cost to replace your house today?

Even if you made an estimate as recently as a year ago, your figures probably are out of date.

U.S. Department of Labor statistics show that \$100 worth of construction in 1967 would have cost \$168 in July, 1974, an increase of nearly 70 per cent.

A surprising number of homeowners fail to realize that their insurance protection is inadequate. An analysis of fire losses on homes in one state, for example, reveals that only one homeowner in three carried enough insurance to cover even one-half the replacement value of his house.

Harold Lucas Motors Gives Cash Rebates

Lucas Motors is giving cash rebates on selected models in stock starting Feb. 13 through Feb. 28. A \$200 rebate will be made on 1975 Vegas, Novas, and Astre models, both notchback and hatchback.

In addition, Lucas Motors offers a higher appraisal on used cars than ever before. The used car market is strong and good used cars are in demand with a limited supply in stock.

Lucas Motors can now offer longer term financing of your car. For example, a buyer may take 42 months to pay for a new car where before it was only 36 months. On late model used cars, a buyer can take 36 months to pay, as compared with 30 months previously. Also, interest rates are lower.

With the large inventory of new cars and trucks, high trade-in values and cash rebates, there is no better time to buy a new car than now. Visit Lucas Motors, look over the buys. They are great!

PAY BILLS To Enjoy Continued CREDIT

The credit bureau's message to the consumer is simple: Pay promptly. Spelling it out clearly — never let an account go past due without payment or immediate contact with the creditor. Never allow an account to become an item charged off to profit and loss. This means that the merchant has given up hopes of collecting and has changed your account from an asset to an expense item. The item is automatically recorded in the files of the credit bureau. There it cannot be changed or altered unless subsequent dealings with the same firm results in a better record. Never allow an account to be listed in the collection department of the credit bureau. Payments in full will result in better credit reports, but the item must remain on file for many years to come — perhaps for the rest of your life. Your credit record is a picture of your character and has been found to be an extremely accurate guide to your future actions, particularly pertaining to whether you will pay future contracts and debts. Keep your picture bright and shining and enjoy all the conveniences of the machine age. You can cut off the advantages of credit buying by disregarding or ignoring warnings of your merchant friends. Retail Merchants Credit Bureau OF POST

Legal Notice

NOTICE OF INTENT TO ENGAGE IN WEATHER MODIFICATION ACTIVITIES

Notice is hereby given that Colorado River Municipal Water District, 1318 E. 4th, Big Spring, Texas 79720, who holds License Number 73-5 of the State of Texas, intends to engage in an operation to change or attempt to change by artificial methods the natural development of atmospheric cloud forms for and on behalf of the Colorado River Municipal Water District located at P. O. Box 869, Big Spring, Texas, 79720, and will conduct the program of weather modification designed to increase precipitation by means of the aerial application of silver iodide or other artificial nuclei as follows:

1. The area over, or within which, equipment may be operated shall include the counties of Lynn, Garza, Kent, Dawson, Borden, Scurry, Fisher, Martin, Howard, Mitchell, Nolan, Glasscock, Sterling and Coke.

2. The target area, within which the precipitation is intended to be enhanced, can be described as follows:

The boundary may be described by a line beginning at a point of origin at Big Spring, Texas, and running along Highway 87 in a northwesterly direction to Lamesa, thence north-northeast on Highway 87 to the north border of Dawson County, thence east along the north border of Dawson, Borden and Scurry Counties to Highway 84; thence southeast along Highway 84 to Roscoe, in Nolan County, thence south-southeast to Maryneal; thence southwest to Silver in Coke County; thence south-southwest to Highway 87 at a point approximately 13 miles northwest of Sterling City; thence northwesterly along Highway 87 to the point of origin at Big Spring, Texas.

3. The materials, equipment and methods to be used in conducting the operation within this area of approximately 3500 square miles include a 3 cm radar system, cloud seeding aircraft, and the application of silver iodide ice nuclei, hygroscopic nuclei or other nuclei considered appropriate to the artificial nucleation of clouds or weather systems.

4. The person in charge of this program shall be Owen H. Ivie, Colorado River Municipal Water District, Big Spring, Texas.

5. The program will be operational during the period from April 15, 1975 to October 15, 1975.

6. Any persons who feel they may be affected in some adverse way by this program may file a complaint to the Texas Water Development Board, P. O. Box 13087, Capitol Station, Austin, Texas, 78711.

Signed: Owen H. Ivie
 Colorado River Municipal Water District. 3tc 2-6

NOTICE

Notice is hereby given that on the 3rd day of March, 1975, the City Council of the City of Post will receive bids and applications for the City Depository, such applications and bids may be submitted to the City Secretary at the City Hall in Post, Texas, at least three days prior to the meeting of said City Council.

Wanda Wilkerson
 City Secretary
 2tc 2-13

NOTICE

The City of Post will accept bids up to and including Monday, March 3, 1975, for the sale of approximately 15,000 feet of 8 inch cast iron pipe. Bids should be submitted to City Secretary at the City Hall, Post, Texas. Specifications may be secured at City Hall. Bids will be opened and read by the City Council on March 3, 1975, 6:30 p. m.

Giles C. McCrary
 Mayor
 2tc 2-13

LEGAL NOTICE

The date of initiation of negotiations established for U. S. Highway 386 from 11.3 miles East of Post to Kent County Line is February 7, 1975. Any landowner or tenant may be eligible for certain relocation assistance such as moving cost and replacement housing payments. Any occupant contemplating moving should, to insure eligibility for moving and replacement housing payments, notify the State before moving. All owner-occupants in order to be eligible for relocation benefits must sell to the State. A brochure describing the relocation assistance program can be obtained from the Texas

Farm Topics

SYD CONNER
 Garza Extension Agent

Each year, millions of boll weevils wander waywardly through cotton fields, looking for a home. They feed on cotton squares and cotton bolls, causing untold losses in yields of the fluffy white gold.

Heavily sprayed with chemical insecticides for the last 11 years, these snouted, gray beetles are kept below economically damaging numbers just off the edge of the Caprock where they hibernate among mesquite and shinnery oak. It is from this juncture of the High and Rolling Plains that weevil populations being their most vicious onslaught onto the 25-county cotton producing area of the South Plains. And here an area-wide boll weevil suppression program, begun in 1964, continues in a systematic effort to prevent the westward movement of the cotton pest.

Since the weevil population along the Caprock's edge has been exposed to heavy insecticidal pressure for several years, entomologists are concerned that the insects might develop resistance to currently used chemicals.

Dr. Don Rummel, research scientist with the Texas Agricultural Experiment Station in Lubbock, heads a boll weevil monitoring program that annually measures resistance levels of weevils gathered from across the state.

"Resistance appears fastest in insect populations which are exposed to large amounts of insecticide for an extended period," says Rummel. "As insecticidal use increases, most of the susceptible insects are killed, leaving those individuals which have the natural ability to tolerate the chemicals. Given enough time and continued insecticide use, the population will be composed of enough resistant individuals to render the insecticide ineffective."

In the suppression program, insecticides are applied near the end of the growing season to destroy potential overwintering weevils before they leave cotton for hibernation sites.

Rummel says that tests have not shown evidence of resistance in the weevil population in the High Plains area. But, he adds, this does not rule out the possibility of resistance developing in the future.

"We suspect," he explains, "that the inflow of fresh weevils each fall from outside the central control zone is replenishing the susceptible gene pool. This tends to dilute resistance factors."

The entomologist says that some have speculated that boll weevils might not have the genetic capacity to develop resistance to organophosphorus insecticides (a class of chemicals currently used in cotton insect control). However, weevils from a heavy insecticidal use area in Mexico were recently found to have a low level of resistance to methyl parathion, one of the more

commonly used chemicals. He adds that 1974 statewide tests reveal no evidence of resistance, but that there are indications that weevils from South Texas may be able to tolerate slightly higher rates of malathion than those in the High Plains area.

Still another bit of evidence supporting the resistance theory comes from historical fact. In the 1950's, Rummel reports, weevils became resistant to chlorinated hydrocarbon insecticides commonly used at that time. Producers escaped the crises by switching to the class of chemicals used today, the organophosphates.

"The best way to avoid the development of resistance in an insect population," he says, "is by using integrated control methods, thus avoiding total dependence on insecticides."

He lists cultural practices such as delayed planting, early harvest and stalk destruction before frost as control measures to use with careful insecticidal applications. He adds that progress has been made toward developing other ways to stop the boll weevil.

Rummel believes that with the monitoring program at the Texas A&M University Agricultural Research and Extension Center at Lubbock, significant resistance buildup can be detected in time to change to alternate control methods and test new insecticides before heavy losses are incurred.

FIRST PLACE AT FORT WORTH — Junior Gray, former Post man now a trainer at Graham, Tex., is shown in the saddle of the champion Appaloosa cutting horse "Keechi Commanche", which took first place in recent Southwestern Exposition and Fat Stock Show in Fort Worth. The horse owned by Mr. and Mrs. Wilmer Lyon of Graford and was trained and ridden by Gray.

Fast '75 start for library

January is always one of the best reading months of the year for patrons of the Post Public Library, and this past January was no exception.

Librarian Pee Wee Pierce reports 1,101 books checked out during the last month in her January library report.

Of the 1,101 books checked out, 892 of them were by adults and 209 to juveniles. Of the adult books 298 were non-fiction, 320 fiction, 140 mysteries, 85 westerns, 11 science fiction.

A total of 92 new books and seven puzzles (that's a new checkout department) were added to library shelves. Eighteen books were lost

during the month. Miscellaneous income totaled \$33.60 with \$19.65 in overdue book fines, \$8.65 in book sales, and \$5.30 in miscellaneous income.

Graham folks spend busy week visiting around

By MRS. GLENN DAVIS
Jimmy Parrish visited last Friday with his parents, Mr. and Mrs. Ambers Parrish and brother, Ronnie.

Mr. and Mrs. Ray McClellan kept their grandchildren last week a few days while their parents, Mr. and Mrs. Mason McClellan and Mr. and Mrs. Dickey Wallace went fishing down at the McClellan home at the LBJ Lake. They had good fishing luck this time.

Saturday visitors of Mr. and Mrs. Elmo Bush were Mr. and Mrs. Delwin Fluit and family, Mr. and Mrs. Carl Fluit, Mr. and Mrs. Johnnie Fluit, Mr. and Mrs. Marion Mathews, and Mr. and Mrs. Rickey Bush and daughter.

Guy Troy Nelson visited his parents, Mr. and Mrs. Troy Nelson and his sister and brother over the weekend and attended Sunday services at the Church of Christ.

Mr. and Mrs. Homer Jones were Sunday luncheon guests of Mr. and Mrs. E. E. Peel.

Mr. and Mrs. James Stone, Mr. and Mrs. Delmer Cowdrey were Sunday luncheon guests of the Bobby Cowdrey family. Sue Cowdrey was home from LCC.

Library Bookshelf

Nine new books recently added to the "Texas Collection" shelf in the Post Public Library were purchased with a gift check from a library friend who lives in another state. Librarian Pee Wee Pierce reports. She adds: "We are grateful for friends."

The nine are "Off the Beaten Trail" by Edward Syers, "The Story of the Texas Rangers" by Walter Prescott Webb, "Heroes of Texas", "Capitol Cookbook" by Sue Creighton, "Phantoms of the Prairies" by Tanner Lane, "Talk of Texas" by Jack Maquire, "Howdy" by Jeanne Lively, "The Rock Art of Texas Indians" by N. W. Newcomb, Jr., and "Groundhog Up a Tree" by Glen Shelton.

The non-fiction books recently placed on library shelves, according to Librarian Pee Wee Pierce, are "The Bermuda Triangle" by Charles Berlitz, "Birds of America," original paintings in watercolor by John James Audubon, "Let'er Buck - the Daring World of Rodeo" by Douglas Kent Hall, "Starting Out" by Lili Krakowski, "The Memoir Book" by Harry Lorayne, and "The Best" by Peter Russell.

Among new fiction books on library shelves are "False Idols" by Betty Fern, "The Glory of the Hummingbird" by Peter DeVries, "Our John Willie" by Catherine Cookson, "Return Journey" by R. F. Deiderfield, and "Glory and the Lightning" by Taylor Caldwell.

Church seeks funds for boys home

The Graham Church of Christ received word this week that the Westview Boys' Home of Hollis, Okla., which they support and have supported for several years, will be adding another cottage to their facilities. They have four cottages in operation now, with this new one making it possible to house 15 more boys.

This addition is made possible by the support of Churches of Christ and interested individuals through their contributions, with these contributions recently being matched with \$40,000 from the J. E. and L. E. Mabee Foundation, Inc., of Tulsa, Okla., making the new housing available.

GOSPEL SINGERS COMING
The Rev. S. J. Bruton, pastor of the Assembly of God Church, has announced that the Haynes Family Gospel Singers will appear in Post Sunday, Feb. 16 at the 11 a. m. and 7 p. m. services.

Carol Davis had Sunday lunch with Mr. and Mrs. Curtis Williams and Andy. Mr. and Mrs. J. W. Rogers and family of Post visited Sunday evening with the Williams family.

Mr. and Mrs. Allen Johnson, Shane and Misty of Lubbock visited Saturday evening with their grandmother, Mrs. Ada Oden.

Mr. and Mrs. Noel White and family, Mr. and Mrs. Ronnie Graves, and family were Sunday luncheon guests of Mr. and Mrs. Quana Maxey.

Friday supper guests of Mr. and Mrs. Carl Fluit were the Delwin Fluit family and Nelma Gandy.

Mr. and Mrs. Jason Justice of Petersburg visited last Thursday with her parents, Mr. and Mrs. Fred Gossett. Mrs. Pearl Wallace visited Friday with the Gossetts.

Stephanie Davis and some of the young people of Texas Tech Church of Christ Bible Chair attended the FHA Sweetheart

contest in Post. Patricia went home with Stephanie and spent Saturday night and Sunday.

Mr. and Mrs. Quana Maxey were Sunday supper guests of Mr. and Mrs. Lewis Mason and family.

Mmes. Rene Fluit, Willie Mason, and Ruth McClellan visited one afternoon last week with Mrs. Ida Stewart in Post.

Mr. and Mrs. E. A. Dunlap and granddaughter of Dallas spent last Friday night in Post with his mother, Mrs. Mattie Dunlap and Saturday night with her parents, Mr. and Mrs. Fred Gossett.

Mrs. Willie Mason had Sunday lunch with Mr. and Mrs. Ray McClellan.

Mrs. Ada Oden visited late Monday afternoon with Mrs. Viva Davis.

Mr. and Mrs. Carl Fluit visited in Tahoka Thursday afternoon with her mother, Mrs. L. W. Gandy. They visited Wednesday evening in Post with Mr. and Mrs. Pat Martin.

Mr. and Mrs. J. L. Coleman of Fort Worth visited over the weekend with her brother and sister-in-law, Mr. and Mrs. L. H. Peel. Other relatives visiting were the Punk Peels and Roy Sappingtons and Lonnie Gene Peels of Post, Mr. and Mrs. Delmo Gossett of Lubbock, Mr. and Mrs. Elvius Davis, Mr. and Mrs. Elmer Cowdrey. Some visited Saturday and Sunday. A number of friends visited, too many to send in the names.

Memorials given to student loan fund

Memorials to Russell James Moses of Plainview father of Mrs. Arnold Parrish, have been given to the Post Student Loan Fund, Mrs. Ruth Young, secretary-treasurer of the fund, has announced.

Mrs. Young said the fund would accept any memorials to

Father of Mrs. Parrish dies

Services for Russell James Moses, 75, of Route 3, Plainview, father of Mrs. Arnold Parrish of Post, were held Monday, Feb. 10, in the First Baptist Church in Kress with the Rev. Ronald G. Mooney, pastor officiating.

Burial was in Plainview Memorial Park under direction of Wood-Dunning Funeral Home.

A native of Hope, Ark., he moved to Sudan in 1940 from Maysville, Okla.

He later moved to near the Finney community north of Plainview in 1962. He was a farmer. He was married to the former George Wilburn, Sept. 24, 1922, in Maysville, Okla.

Besides Mrs. Parrish, he is survived by his wife, a son, Randell Dwayne of Audubon Park, N. J.; a sister, Mrs. A. W. Howerton of Plainview; two brothers, Clarence of Watonga, Okla., and R. H. of San Angelo; and four grandchildren.

Southland school teams win over 'outsiders'

By MRS. ROBERT MOCK

The Outsider teams consisting of men and women in the community challenged the high school teams in basketball last Saturday night.

It turned out to be some really fast moving basketball with both teams playing their best. Members of the ladies team were Libby McGehee, Jackie Lester, Trine Woods, Maria Shelton, Sue Bevers, Norma Rinne, Marian Eckert, Barbie Bevers, Linda Klesel, Jettie Manner and Jeanie Adamac. The high schoolers won with a 28 point spread with the girls being much more accurate in shooting.

The men came from behind in the last few minutes of play to close the gap in scoring to 62 to 68 with the high school boys coming out on top. There were a lot of slips and trips and fun. The outsider men fielded three complete teams with the high schoolers only using two teams. The men participating were Bill Bevers, Farrel Wheeler, Tony Martin, Dennis McGehee, Sam Wilson, David Wood, Joe E. Basinger, Gary Lester, David Mock, Joe Bevers, Johnnie Haire, Dan Eckert, Curtis Abshire, Robert Lee Mock, Don Windham, and Glenn Klesel. The games were sponsored by the Southland Booster Club.

There was a large crowd at the Treflan dinner meeting Feb. 4. Approximately 120 persons enjoyed a good meal and the program by Treflan representative Stan Grasel of Amarillo. Hackberry Coop sponsored the event.

There will be a "Cotton Module" meeting at Hackberry Coop at 9 a. m. on the 21 of Feb. All interested persons are urged to attend.

Mrs. Sheila Savell is the new bookkeeper employed at Hackberry Coop. She and her husband David live and farm between Slaton and Wilson.

Talking about basketball, the 9, 10, 11 and 12 year old girls have organized and will play their first games on Feb. 14 and Feb. 21. They will also play on Feb. 28 times will be posted. Come out and support these youngsters. They are coached by Libby McGehee and Linda Klesel.

An outsiders basketball tourney is planned for Feb. 27, 28 and 29. Make plans to attend and anyone around that wants to get in on the action can contact some of the players that are listed.

Haskell Holly dies at age 53

The Dispatch has received word this week of the death of Haskell (Jiggs) Holly, 53, of Louisville, Kentucky who passed away Jan. 9 in Louisville.

Holly, a former Garza County resident, attended schools in Verbena and Post.

He retired from the Army in 1962 after joining during World War II.

Survivors include his wife, Jerri; five sons, two daughters and a sister, Ann Shelton of Wacousta, Wash.

TEXAS TALK

By FRED MYERS

COTTON PLANTING

Temperatures, even when considerably above freezing, severely limit the growth of cotton. This is especially true for planting time. It is generally agreed that cotton emerges faster and grows better when the seeds are not planted until the soil temperature 8 inches below the surface stays above 60 degrees Fahrenheit for at least ten days. Depending on who is running the figures, average planting time for cotton on the Plains of Texas is either May 3rd or 4th.

MAJOR GROUPS — Formal designation of the three major cotton groups is described by authorities as: Asiatic Diploid, American Diploid and American Amphidiploid. Polynesian hybrids are generally grouped with the American Amphidiploid. Diploid refers to the composition of the cotton cell. Hybrids are developed to improve staple qualities, shorten growing season and enhance drought resistance.

City council to advertise for bids on new depository contract

(Continued From Page One) says McCrary would have to own over 10 per cent of the bank stock to have such a conflict of interest. Brazil said since McCrary has legally divided his community property

with his wife, Louise, and given her all the bank stock over a slightly less than 10 per cent holding, over which he has no control, McCrary in his view of the law has no conflict of interest, a point raised some

months ago by Pat N. Walker, former city attorney. J. B. Potts, bank president, then offered the city a new bank depository agreement. After some discussion, the council decided to advertise for

bids for a new two-year bank depository contract and to open the bids at its March meeting. Then, waiving the second reading and taking emergency action, the council voted to extend the existing depository agreement with the local bank until the March meeting.

In making the motion to advertise for bids, Dr. William C. Wilson declared he "hoped this will bring a screeching halt to harrassment on this subject to which the council has had to give so much of its time."

Jim Hundley met with the council to discuss new actions for the saving of the front portion of the old Algerita Hotel. He reported efforts are continuing to secure private contributions with several benefit projects in the mill and that the Garza Jaycees have volunteered to donate labor for site clearance.

Councilman Wilson made the motion that the city employ an engineer to give an evaluation on the hotel as to (1) total demolition, and (2) cutting the building in two, as Hundley proposes.

Jim Jackson is the city's representative on a committee of four from the local taxing agencies. The committee will work with the new private committee seeking to restore a portion of the hotel.

Mayor McCrary told Jackson the committee should first determine what can and should be done with the old hotel and then each member should report back to his own taxing unit to see what action that taxing unit will take in the overall project.

Harvey Morton, attorney for the city, volunteered to perform the necessary legal work to form a non-profit private corporation for the hotel restoration so all donations given would be tax deductible.

Justice of the Peace Racy Robinson appeared before the council to ask the city pay for 20 hours of additional clerical help for his office. The city approved the request effective March 1.

Rex Allison told the council he had the city a buyer for some 15,000 feet of 40-year-old cast iron 8-inch water pipe laid to the Close City water field, if the city wanted to sell it.

The council expressed interest and finally decided to advertise for bids on sale of the pipe with the bidder to pick up the pipe from its in ground position and then refill the open ditch left by the removal of the pipe at his own additional

expense. In setting the election date, the council noted that besides the mayor's position, the council seats now held by Bill Pool, Ed Sawyers, and Jim Jackson will be up for voter decisions.

The insurance hassle produced one of the most unusual motions probably in city hall annals. The insurance on the city's vehicles and equipment expired Jan. 5 and the council had decided to ask the four local

insurance agencies for bids for this policy. Only one bid was received— from the Tom Power Agency. Power's bid was for \$3,000 less modified credit of probably nine per cent, which would make the bid \$2,811.90 or maybe a modified credit of six per cent which would make the bid \$2,904.00.

Power explained in a letter that the city of Post would have to authorize the state board of insurance "to give the modifier."

In the discussion about the single bid, it came out that possibly the other three agencies had not been notified that the city wanted the bids, and especially was this true of Bryan Williams and Son, holder of the policy which expired Jan. 5 and which the council hoped had been continued in force by Williams.

Councilman Bill Pool made the motion that the bid be accepted after pointing out that Councilman Ed Sawyers had brought up the insurance

insurance agencies for bids for this policy. Only one bid was received— from the Tom Power Agency. Power's bid was for \$3,000 less modified credit of probably nine per cent, which would make the bid \$2,811.90 or maybe a modified credit of six per cent which would make the bid \$2,904.00.

Power explained in a letter that the city of Post would have to authorize the state board of insurance "to give the modifier."

In the discussion about the single bid, it came out that possibly the other three agencies had not been notified that the city wanted the bids, and especially was this true of Bryan Williams and Son, holder of the policy which expired Jan. 5 and which the council hoped had been continued in force by Williams.

Councilman Bill Pool made the motion that the bid be accepted after pointing out that Councilman Ed Sawyers had brought up the insurance

bidding on four different occasions and now the council was faced with another possible delay because of failure to notify one or more agencies.

Pool changed his motion at the request of Councilman Wilson to read that the bid of the Power agency be accepted if proved to be lower after the cost of the short term cancellation of the present continued policy is added to the bid in comparison with the cost of continuing the policy with Williams & Son. Wilson insisted it was only fair the city pay for the cancellation.

In the voting on first reading, Pool, Sawyers and Wilson voted yes and councilmen Jim Jackson and Jim Wells abstained from voting, making the final vote 3 yes, none opposed.

That motion may take a Solomon to figure out because the city would have to authorize the modifier to the state board of insurance to find out what the Tom Power bid actually was. After this vote, the council

discussed but put off until next meeting on a motion to send a request letter to each of the regional insurance agencies advising them that if they are interested in obtaining insurance from the city to submit bids days prior to expiration of all city policies now in force.

The schedule of the city's insurance could either be sent with letter or could be sent with the insurance agents' existing current policies at city.

After some discussion, which immediate action deemed essential, the council asks any property owner interested in street paving year to immediately contact City Manager Pete Madala at City Hall.

In two other actions, the council voted to pay the U Company \$150 an acre 10-acre addition to the dump ground, and the second reading passed a way of easement to the R. Brown oil interests.

The trip to El Paso last week by several young showmen proved a little disheartening. It seems Post just did not have what the judges there were looking for in the animals shown in this years show.

Glenn Polk in 'Odd Couple'

SNYDER — Casting for Western Texas College's second annual dinner theatre has been completed, Charles Holland, director, has announced.

"The Odd Couple" will be presented Feb. 21-22 and Feb. 28-March 1 in the WTC Student Center.

Playing the title roles will be Glenn Polk as Oscar and Mike Thornton as Felix. Polk will be remembered as the fumbling Barney Cashman in "The Last of the Red Hot Lovers," WTC's sell-out season opener.

Polk was the recipient of an Excellence in Accomplishment Award from the American College Theatre Festival for that role. WTC entered the Festival for the first time last fall.

Polk is a graduate of Texas Tech University. He is presently employed as a radio announcer for KSNV and is known as "The Wild Man of the North Land." He formerly lived in Post.

Tex Watson talks about

Natural Gas for the Future

I'm pleased to report to our customers that Pioneer purchased more gas during 1974 than we used. This new gas will be available for future use, of course.

As you know, Pioneer is having to pay more for new gas than we've ever paid before. The competition for the gas produced in our area has never been so fierce. But the higher prices are resulting in lots of new exploration and production. I know of numerous wells which could not have been drilled at prices prevailing three years ago.

The increase in field prices means that our customers will have to pay more for the energy they use in their homes — gas and electricity — but, more important, it means he'll have the gas he needs.

All energy will cost more in the future but gas will remain your best energy buy.

PIONEER NATURAL GAS COMPANY 

What's in a Name?

By Gene Prevo

Have you ever looked up your name in a dictionary to see what it means? I did. And I was pleasantly surprised to find out that my given name is of Greek origin and it means "noble; well-born." My surname is of French origin.

A name denotes personality. Your name is very personal to you. And that personal relationship always enhances the value. The American Indians gave their children names which had special meaning. Sometimes a child was not given a name until it had distinguished itself, as for example, by displaying courage or some other characteristic.

A name denotes nationality, or national origin. The late Editor Charles Didway did a great deal of research into the origin and meaning of names. And he always traced the names to their national origins. In his column on names for Feb. 21, 1974, he chose the name "Dean." He traced its national origin to England, Scotland and Ireland. Each nation has its distinguishing characteristics in the names which are chosen. The guttural sounds indicate German, or perhaps Greek, origins. The labial sounds in names indicate origins from the romantic languages of French, Latin or Spanish. The Scandinavian countries have their own distinguishing characteristics, and the same is true for other nations.

A name denotes character. There are men in the Bible who bear the same name who are quite dissimilar. One reminded of the name Enoch, and the man who was given that name. Enoch "walked with God and was not, for God took him." One can fill in the details with his imagination. Enoch and God were walking together. One day God said to Enoch, "We are closer to my house than we are to yours. Why not come on home with me?" And so Enoch went home to be with God. The Bible says he was translated. His name means "Dedicated" or "devoted." But there was another Enoch whose name meant the same thing. He was of the line of Cain. And his character was altogether different from that of the first Enoch mentioned in this article. Perhaps this should remind us that we can sometimes trace the handiwork of God in the contrasting biographies of men.

But the Name which has charmed my heart is the Name Jesus. The name Jesus means "Savior." And God gave it to Him. "She will bear a son, and you will call his name Jesus, for he will save his people from their sins." (Matthew 1:21). His is the only saving Name. (Acts 4:12)

What's in a name? Personality. And your name distinguishes you from others in your family. What's in a name? Nationality. And character. If you bear the name "Christian," then you should be like Christ. Are you?

Denver City knocks Lopes out of second half lead

Cooper, Post may meet in title playoff, Feb. 21

Denver City's Mustangs, hitting half their shots over the Post Antelope zone, whipped Coach John Alexander's team here Tuesday night and knocked the locals out of the second half district 5AA lead.

Their score was 62 to 50. Cooper with only one defeat in the second half now moves a game in front of the Lopes with only two to play. The Lopes are 3-2, and 18-4 for the season.

The Pirates will play Tahoka at home Friday night and Frenship at Frenship next Tuesday night. If they win both games, they will be the second half champs.

That would bring a district playoff with the Antelopes probably on Friday night, Feb. 21, at a site to be selected by the two schools.

The Antelopes have just one left to play — Slaton at Slaton next Tuesday night.

If they win that one and Cooper loses either of its last two games, the two teams would end in a tie for the second half title which would automatically give the Antelopes the district crown.

This is due to a district rule which says if the winner of one half of play ties for the other half title, it becomes the district champion without a playoff.

Of Tuesday night's loss to Denver City, Coach Alexander told The Dispatch Wednesday: "We just got beat. They outplayed us."

Tahoka's Bulldogs also took their second loss by a single point to Frenship Tuesday night knocking them virtually out of the second half title chase with their second defeat.

The Lopes will have an open date this Friday night preparatory to their windup at 8 p. m. Tuesday at Slaton. The JV boys of the two schools will play a preliminary in that one, beginning at 6:30 p. m.

Coach Alexander said if a district playoff is necessary with Cooper the site for the game would have to be determined by coaches for the

JV boys rally in big third

Coach Jackie Brown's Post JV boys bounced back with a big third period in the Friday night preliminary here to rout the Frenship JV's 53 to 37.

The locals went into the dressing room at the half trailing 19 to 17 after being behind 13 to 6 at the end of the first period.

They came out shooting, scoring 25 points in the third quarter to only nine for Frenship and taking a 42 to 33 lead.

Randell Wyatt and Kyle Duren tied for high point honors for Post with 13 each while W. Brooks had 17 for Frenship.

Duke Bell and Ray Martinez each had six, and Rodney Teaf and George Hester five each.

Seventh grade boys defeat Roosevelt

Coach Don Black's seventh grade boys basketball team defeated the Roosevelt team 29 to 22 Monday night in Post.

Scott Walker led the scorers with 12 points and Chuck Black scored 10.

Coach Black commented that his boys played a good game and noted that they were the only other team besides Frenship to defeat Roosevelt this year.

They will play Cooper here next Monday night.

two schools. The game could be played on a neutral court, or the two coaches could agree on a home floor arrangement with a coin flip deciding which home floor.

Denver City and Frenship went for the home arrangement last year with Frenship winning the toss and eventually the title.

Denver City jumped out in front in the first period here Tuesday night and led the Lopes the rest of the way.

The Mustang zone press bothered the Lopes, but otherwise Coach Alexander was pleased with the Antelopes' play.

Denver City led 18 to 13 at the quarter, 31 to 25 at the half, and 48 to 36 at the end of the third period.

Bryan Davis led the Post attack with 19 points but was the only player in double figures.

Mike Shepherd had nine, Kent Kirkpatrick eight, Tony Conner six, Mike Waldrip five, and Edward Price three.

Thorne paced the visitors' attack with 19.

Post managed only 10 of 22 free throws.

Denver City won the JV preliminary too, but it was much closer, a 66 to 64 decision.

In that one Post jumped into a 17 to 4 first quarter lead, but Denver City came back in the second to outscore Post 29 to 17 and narrow the gap to 34 to 33 for Post at the intermission.

Denver City then took a narrow lead in the third.

Randell Wyatt led the Post attack with 21 points and Jimmy Dorland had 13.

Old-timers cage meet planned by FCA

The Post High School Fellowship of Christian Athletes buddies will sponsor an old-timers basketball tournament March 13-15 to raise funds to send delegates to FCA summer camp.

Members of the chapter are organizing into different teams.

8th grade girls are runnersup

Coach Chili Black's eighth grade girls took runnerup honors in the Jayton tournament over the weekend, losing 25 to 22 in overtime to Jayton's host girls in the finals.

The locals defeated Lorraine 18 to 7 in the first round and Roby 28 to 17 in the semi-finals.

In the finals the two teams were knotted at 20 all at the end of regular play with Jayton getting five points in the overtime to a single basket by Kerri Pool, who led the locals in scoring with 10 points.

Dana Bird had six points and Karla Duren five. Bird led the Post shooters in the opener with 10 and in the Roby game with 20.

Dana Bird scores 31 in victory

Coach Chili Black's eighth grade girls team took a big first half lead before cooling off in the last two periods to defeat Roosevelt at Roosevelt, 38 to 33 Monday night.

Dana Bird scored 31 of Post's 38 points with Karla Duren tallying four and Kerri Pool three.

Post led 27 to 18 at the half but managed only 11 in the last two periods while Roosevelt was scoring 15.

Page 10 The Post (Tex.) Dispatch Thursday, Feb. 13, 1975

Post cagers honor Ann Mitchell, Tony Conner

Before a full house here Friday night, Feb. 7, the 1975 Basketball Sweetheart and Beau were crowned during halftime of the Antelope-Frenship game. The Antelopes selected as their Sweetheart, Ann Mitchell. The Does selected as their Beau, Tony Conner.

Ann, the daughter of Mr. and Mrs. Malachi Mitchell is president of the Senior Class, a member of the National Honor Society, and an all around active student in PHS. She is also president of the pep squad, secretary of the Student Council, and secretary of the Science and Math Club.

Frenship knocks Does out of second half race

The Frenship High girls team knocked the Post Does out of the second half district 5AA race here last Friday night by breaking a 52 all tie in the final 38 seconds of play to score a 55 to 52 triumph.

The visitors made up a 32 to

28 halftime deficit in the third period by outscoring the Does 16 to 10 and went on to victory in the closing seconds.

Post jumped out in front 17 to 10 in the first period, but Frenship outscored the Does in each quarter the rest of the way.

Mel King led the Post shooters with 23 points, followed by Jenda Gilmore with 16, Karen Williams with seven and Joni Hays with six.

Annual archers meeting reset

The annual meeting of the Post Archery Club has been rescheduled for Saturday, March 1, at 2 p. m. in the community room. The Bow-hunter of the Year Award and the Most Valuable Club Member Award will be presented at this time.

Members are urged to attend the archery tournaments on February 16 and 23.

The club emblem patches are in and may be purchased by contacting a club officer.

The schedule for tournaments for 1975 has been drawn up and will be the third and fourth Sunday of every month, with each tournament to begin at 2 p. m. except for the Johnny Lowe Memorial Invitational to begin at 9 a. m.

Sports banquet planning begun

The Antelope Booster club met for their regular meeting Feb. 6 in the film room of Jr. High and plans were set in motion to have an all sports banquet for athletes of Post

Roosevelt beats 7th grade girls

Coach Chili Black's seventh grade girls team was defeated 24 to 13 at Roosevelt Monday night. The home team put it away in the first period by blanking Post and scoring six fielders for a 12 to 0 lead.

Carolyn Pringler led the locals with six points.

First track meet March 1

Coach Lane Tannehill's Post Antelope track squad, the defending district 4AA champions, will open their spring season with a meet in Brownfield March 1.

The Lope squad is expected to be strong again this year.

Some candidates already are working out, but regular track workouts will begin as soon as the cage season ends here next week.

The remainder of the Post high track schedule includes a meet at Lorenzo March 8, the West Texas Relays at Odessa March 14-15, a meet at Denver City March 22, one at Monahans March 28, the San Angelo Relays, April 4-5, the district 4AA meet at Denver City April 11, regional qualifiers meet, April 18, the Region I meet at Odessa April 24-25, the Lubbock qualifiers meet May 3, and the state meet at Austin May 9-10.

Frosh gals bow to Roosevelt

Post's freshman girls, weakened by the injury loss of one of their best forwards, dropped a 41-24 decision to the Roosevelt freshman girls at Roosevelt Monday night.

Debbie Wyatt turned her ankle in a workout Monday morning and will be lost to the team probably for the remainder of the season.

Nancy Clary led the Post attack with 13 followed by Connie Pearce with four and Nancy McCowen with three.

The girls are competing in the Spur freshman tournament this weekend and are scheduled to play Floydada in the first round at 1:30 p. m. today.

The tourney will close out the season for Coach John Morrow's team.

8th grade boys lose 3 on road

Coach Danny Chisum's eighth grade boys team had a bad weekend as far as victories were concerned.

They dropped two straight in the Jayton tournament and then lost at Roosevelt Monday night in district play, 28 to 18.

At Jayton, the locals dropped a 26 to 24 decision in the first round to Lorraine with Cliff Kirkpatrick scoring 12. Against Roby in the consolation, the eighth graders lost another close one 31 to 27 with Tim Morris topping the local scorers with 11.

Does close season in 67-58 loss at Slaton

Coach John Morrow's Post Does battled the defending state Class AA champions, the Slaton Tigerettes, on even terms at Slaton Tuesday night for three periods before losing, 67 to 58 on Slaton's fourth period surge.

Slaton had won the first meeting between the two schools here for the first half title by a single point in coming from behind with four seconds to play.

The Does were almost out of the second half race, however, when they took the court against Slaton after having been beaten by Frenship here Friday night.

Frenship's girls are still undefeated in second half play with a game left with the Tigerettes to decide the second half crown.

In the Tuesday loss at Slaton, the two teams were tied 47 all entering the fourth period, but the Tigerettes outscored the Does 20 to 11 down the stretch to pull away to the win.

Post jumped out in front in the first period 20 to 11, but Slaton rallied in the second to outshoot the Does 22 to 13 and knot the score at 33 all at intermission.

The two teams each scored 14 points in the third to leave the score tied.

Mel King led the Post scorers with 26 points, scoring 16 of them on free throws out of 19 attempts.

Jenda Gilmore scored 16 points and Karen Williams 14, with Genetta Kennedy getting the other two.

Rosemary Scott, the all-state forward, led Slaton with 29 points.

In the all-important final period only seven field goals were scored by the two teams, Slaton getting five. The other 21 points came on free throws, Slaton winning there too 12 to 7.

The loss was the final game of the season for the Does, who closed out with a 21-9 won and lost record.

For the season, King scored 767 points for a 26.44 points per game average. Gilmore, 458

points for a 15.79 average. Williams 319 points for an 11 game average, and Joni Hays 277 points for a 9.55 average.

In the preliminary at Slaton Tuesday night, the Slaton JV girls took an easy 34 to 16

decision, taking a 15 halftime lead. Brooks led the Post attack with the team's 16 points.

The Post JV girls took a 12-7 record in season.

Lopes pull away late thump Frenship, 54 to

Coach John Alexander's Post Antelopes pulled away in the final five minutes of play here Friday night to whip the Frenship Tigers 54 to 45 and stay on the track in the District 5AA second half cage race.

Frenship rallied in the third period to tie up the game, but the Antelopes turned a close game into an easy triumph with a scoring surge midway through the final period.

The locals led 10 to 7 at the end of the first quarter and 25

to 19 at the half, but closed it up to narrow the lead to 34 to 31 at the end of the third.

Bryan Davis led the Antelope scoring with 14. Kent Kirkpatrick led Frenship with 10. Tony seven, Mike Shepherd seven, Grayling Johnson, Blacklock and Bob Cr each.

Both teams had converting free throw scoring only eight times attempts.

A ding-a-ling orders Gas air conditioning now.

A telephone call to Pioneer Natural Gas brings an air conditioning specialist to your home for a free survey and cost estimate at no obligation to you. He'll answer all your questions, and tell you what it will take to install GAS air conditioning in your home. It's the first easy step toward having your dependable GAS air conditioning installed before the first hot, windy days are here.

A GAS air conditioning system is ruggedly built to cool quietly and efficiently. There are fewer moving parts, and no compressor to break down or wear out. Heat from the steady blue flame circulates a refrigerant through the system to cool the air. It's this simple principle that gives GAS air conditioning its long life with no loss of cooling capacity and easy maintenance.

Install GAS air conditioning now. You'll avoid the rush, and be enjoying the quiet, cooling comfort of GAS air conditioning while everyone else is waiting. Give us a ring . . . a-ling.

Citizens —

(Continued From Page One)
bounty system was definitely illegal. She said Looney invited a group from Post to attend a meeting of their Cruelty Committee Tuesday night in Lubbock.

Brenda Bass reported information she received from City Manager Pete Maddox about the carbon monoxide gassing of the animals that are collected. She said she was told that it took approximately five to 15 minutes, depending on which vehicle's exhaust is used, to kill the animals in Post's current facility. According to the Humane Society, any type of extermination which takes longer than two minutes should be termed "slaughter." It was also reported that many children who deliver dogs for bounty are unaware that death awaits those they bring in.

It was agreed that the group would be willing to take over the responsibility of the current pens if city officials were willing. The group would clean the pens, feed and water the dogs, and try to acquire sodium pentothal for use in fatal dosages. City money now offered as bounty could be used to improve existing pens, and to purchase necessary drugs and food. With voluntary help, the dogs could be maintained for three to eight days, allowing for citizens to locate lost or stolen pets.

A meeting with the city council is planned by the group in an effort to secure changes in the current city system for the picking up and disposal of stray dogs.

Long range plans of the citizens group include the eventual construction of a city or county humane shelter, open throughout the year, with boarding kennels available to the public. Charlie Seals stated that a boarding facility would be a strong source of income for such a shelter. Also, city money would be saved if the shelter was staffed by voluntary personnel.

There was much discussion about bringing a resident vet to Post. Dick Kennedy was mentioned as a vet who might be encouraged to practice in Garza county. Kay Hays, E. A. Howard, and Johnny Kemp were elected to work on bringing Mr. Kennedy here. Everyone agreed that if spaying and neutering services were available to pet owners in Post, the dog population would be trimmed.

Before organizing into a chapter of the Humane Society, the group thought it best to wait until Shirley Hays, Brenda Bass, and Torgie Sweeten had met with the Society in Lubbock. The improvements sought might be met through an independent organization.

Therefore, affiliation with a national group may prove unnecessary. Any interested citizens are welcome to call Brenda Bass (3384) or Shirley Hays (3126) after 5 p.m. There will be a

Rites held for Mrs. Mullings

Funeral services for Ovia Adaline Mullings, 82, of Post were held Saturday, Feb. 8, in the Hudman Funeral Home Chapel with the Rev. Leon Smith, pastor of Calvary Baptist Church, officiating, assisted by the Rev. Johnny Redman of Post.

Burial was in the Terrace Cemetery.

Mrs. Mullings died at 11 p. m. last Wednesday in Mercy Hospital in Slaton following a brief illness.

Born in Tennessee, Mrs. Mullings had been a Garza County resident since 1923. The former Ovia Adaline Smith, she married Lewes E. Mullings in Arkansas. She was a member of the Baptist Church.

Survivors include four daughters, Mrs. Rudy Blair of Modesto, Calif., Mrs. Gladys Wright, Post, Mrs. Iva Keys of Andrews and Mrs. Jean Blair of Post; three sons, Frank of Post, Oscar Ray of Quincy, Wash., and Marion of Ephrata, Wash., and a sister, Mrs. Ada Mullings of Bakersfield, Calif., 27 grandchildren and 29 great-grandchildren.

Resusci-Anne —

(Continued From Page One)
equipment for the instructors. CPR is mouth to mouth breathing combined with external chest compression — which often spells life.

The eventual goal of the Garza Chapter of the AHA is that wherever there is sudden heart arrest, someone trained in CPR can save hearts that are too good to die.

Those helping make it possible to have our own Post "Resusci-Anne" are Elfreda Carpenter, Selma Kennedy, Dan Cockrum, Mrs. Boone Evans, Mrs. Sadie Storie, The Needlecraft Club, Womens Chamber of Commerce, United Fund and Burlington Mill, the First National Bank and those that contributed to the Post memorials to the AHA.

Ticket sale —

(Continued From Page One)
ed at the banquet for the man and woman and farm family of the year.

Chamber directors met last Thursday with incoming directors at Gene's Coffee Shop to have their pictures made for the banquet program, which will be another eight-page tabloid section of The Post Dispatch which will review the community's 1974 accomplishments.

The tab will appear in next week's Dispatch as well as serving as the official banquet program.

called meeting shortly before the group is to meet with the city council to discuss proposed improvements.

Garza's Easter Seal drive begins Feb. 24

The 1975 Easter Seal Appeal will officially open in Garza County on Monday, Feb. 24 according to Mrs. Martha Compton, who serves as Easter Seal Representative for the county. Easter Seal Appeal letters will arrive at homes in the county between Feb. 15 and March 15.

The Easter Seal Representative is the person to contact to request services from the Easter Seal Society for Crippled Children and Adults of Texas. These services include physical and occupational therapy, speech and hearing programs and special information services to help solve the many problems faced by the families of handicapped children and adults.

Last year 20,152 handicapped people received help from the Texas Easter Seal Society. With the costs of providing expert professional care rising, more money than ever will be needed

School Board —

(Continued From Page One)
pl school board extension 8-48 for the 1975-76 school year which has classes beginning Aug. 25 and dismissing on May 28 with the Christmas vacation beginning with the end of classes Dec. 19 and extending to Jan. 5 when classes would resume.

Two-day Thanksgiving and Easter holidays are also included, with a note that any bad weather days "will extend the school year." All parents of school students will receive copies of the school calendar soon.

Gilberto R. Garza was employed as a junior high mathematics teacher for the remainder of the school year at a salary of \$5,000 with his employment dating from the start of the second semester. He is not a certified teacher, but has six years of college teaching experience. He lives in Lubbock with his wife who is a teacher in the Lubbock system.

Authorized budget changes of \$18,458.07. Named K. W. Kirkpatrick as the school's representative on a committee of local taxing units representatives to work out the future of the former Algerita Hotel building.

Authorized Supt. Shiver with the advice of an architect to spend up to \$15,000 to put the high school building into top shape as far as all necessary repairs are concerned. Shiver said most of the maintenance items recommended by engineers would cost under \$1,000 and thus would not have to be let via bidding. Engineers reported the building in good condition considering its 15 years of use.

Trustees decided on Shiver's recommendation to transfer \$10,000 budgeted for a new bus to the renovation amount and take \$5,000 from the school district surplus to complete the job.

City Rejects —

(Continued From Page One)
that "we have no alternative, but if your company feels you're being discriminated against, you can take your case to court."

Harvey Morton, attorney for the city, drew verification from Sanders that the information submitted to the city showed that General Telephone's common stockholders were getting a 15 per cent return.

Post's one-party business phones would have gone from \$12 to \$14.65 monthly if the increase had been accepted and one-party residence phones would have been boosted \$1.05 a month to \$6.95.

Sanders submitted a rate comparison of Post with 29 other small cities in its system in West Texas which showed Post's business phone rate the lowest of the 30 and its one-party residence phone rates as next to the bottom.

When it was over, Sanders shook hands with each of the councilmen. He remained unruffled and smiling through the entire discussion.

Airport —

(Continued From Page One)
had brought in an airport engineer and worked up a six-part repair and expansion program for the airport which would cost a total of \$325,780 of which FAA would pay 75 per cent and the Texas Commission 12 1/2 per cent.

The six-part plan includes \$118,812 for repair of the long runway and its resurfacing, \$72,779 to repair the shorter cross runway, \$36,096 for leveling and resurfacing taxiways, \$35,012 for installing medium intensity night lighting on the long runway, and \$47,252 for additional lighting.

The airport board to reduce this cost cut the project total to about \$200,000 by deciding not to repair the cross-runway and to use only about \$10,000 out of the \$47,252 for additional lighting.

This \$10,000 would be used for a night lighting unit to help pilots hold their correct glide paths on landing approaches.

Smith told both city and county if they both approve the project for \$12,500 each the airport board will have the engineer draw up detailed plans for submission to the FAA and TAC for approval and funding.

The city approved its portion on first reading and will take final action at its next meeting. The county's approval Monday was final.

Mayor Giles McCrary told the council it would be "false economy" not to maintain the fine small airport the city and county now have, especially at such a small cost.

Adult classes —

(Continued From Page One)
with all supplies, materials and equipment furnished.

Classes in typing and clerical office practice will meet two nights per week for 10 weeks. The basic mathematics class will meet one night weekly for 14 weeks. Class sessions will be from 7 to 10 p. m. for all three classes.

The classes are open to anyone who seeks to improve his or her job skills, it was emphasized here this week.

The Post schools will furnish classrooms and equipment used for the courses in cooperation with Western Texas College.

New deep well plus dry hole

Garza County has one new producer and has had a wildcat test plugged and abandoned as a dry hole.

The new well is Sun Oil Co.'s No. 12-B S. M. Swenson & Sons in the Swenson-Garza (Ellenburger) field, 19 miles north-east of Post. It is producing 109 barrels of oil daily plus 382 barrels of water through perforations 7,755 to 7,770 feet, the latter being the total depth of the well.

The wildcat failure was Kerr-McGee Corp.'s No. 1 Beggs, 15 miles northeast of Post and not too far from the Swenson-Garza field. It was drilled through the Ellenburger at 7,931 feet before being plugged and abandoned.

Jim Prather —

(Continued From Page One)
this year, it's going to take men of Jim Prather's caliber to make this very important event a success for the 72 boys at West Texas Boys Ranch," Newman concluded.

Prather became a Wagon Boss in the 1970 roundup, was elected to the board of directors of the ranch in 1972, and elected a vice president in 1974 continuing to serve as Garza's Wagon Boss each year.

Jim's philosophy of helping others is summed up in an expression that he uses often: "Folk's kind of owe it to themselves and God to share what the Good Lord has given them, be it money or talent, with those less fortunate than they are. We can all do a little something to be of help to our fellow man, and boys."

Awards dinner to be Monday

The Garza Soil and Water Conservation District Board has announced its Annual Conservation Awards Banquet will be held Monday night, Feb. 17, at Jackson's Cafeteria. During the banquet, the District will recognize individuals and groups who have assisted in furthering the soil and water conservation programs in

Garza County. Sam Ellis, chairman of District Board, will be master of ceremonies and present plaques and certificates of recognition to several recipients.

The guest speaker will be E. Fisher, Professor in the Texas A&M University search and Extension Center at Lubbock. Mr. Fisher, who will speak on brush control range improvement.

Mr. Ellis says the top recipients will be entered in Texas Conservation Award Program at Fort Worth District. The Outstanding Conservation Farmer and Rancher will also be entered in National Goodyear Award Program.

In other actions, the court: Agreed to pay \$12,500 as its share of a project to make major landing strip repairs and update the lighting at the city-county airport after hearing Julian Smith, representing the airport board, outline the project.

Authorized the lease-purchase of a radar unit for Highway Patrolman Jerry Morris's car at a cost of \$80.16 monthly for 36 months and also authorized the officer to purchase a radio for his vehicle.

Accepted the city's compromise offer of charging \$175 for each rural fire call made by the Post Fire Department. The city originally asked \$200 and the county offered \$150.

Having advertised for but received no bids for purchase of gasoline by the county in 1975, the court decided to purchase its gasoline at the best price available from local distributors.

Voted to pay the county's pro-rata share for insurance on the old Algerita Hotel.

County Court —

(Continued From Page One)
less than this.

The court adjourned its Monday session until it could confer with County Attorney Poole about the matter before taking bank depository action. Poole was in district court on a murder trial Tuesday.

In other actions, the court: Agreed to pay \$12,500 as its share of a project to make major landing strip repairs and update the lighting at the city-county airport after hearing Julian Smith, representing the airport board, outline the project.

Authorized the lease-purchase of a radar unit for Highway Patrolman Jerry Morris's car at a cost of \$80.16 monthly for 36 months and also authorized the officer to purchase a radio for his vehicle.

Accepted the city's compromise offer of charging \$175 for each rural fire call made by the Post Fire Department. The city originally asked \$200 and the county offered \$150.

Having advertised for but received no bids for purchase of gasoline by the county in 1975, the court decided to purchase its gasoline at the best price available from local distributors.

Voted to pay the county's pro-rata share for insurance on the old Algerita Hotel.

Heart drive opens Sunday

As part of the national observance of American Heart Month, the Garza County Association will kick off a local fund drive with a

speech, on Feb. 16, Sunday afternoon, according to Mrs. Kathi Rankin, Heart campaign chairman.

The kickoff will be held Post Community Room at 2 p. m. Guest speaker will be Dr. Charles Tubbs.

The goal of the 1975 Fund campaign is \$100,000. Rankin said, "Although progress is being made on heart and blood vessel disease, much more must be done to safeguard every child and from the dangers of American leading killer and disease."

The Heart Fund campaign Post will run through February, designated American Heart Month.

CHEVROLET'S DOLLARS & SENSE SALE

\$500 REBATE ON ANY NEW 1975 MONZA.

\$200 REBATE ON ANY NEW 1975 NOVA.

\$200 REBATE ON ANY NEW 1975 VEGA.

NOVA. Real value in compact cars.

Pick the base Nova, Nova Custom, or luxurious new Nova LN. You get a roomy, solidly built, easy-to-drive, easy-to-park compact car. And the '75 Nova is engineered to cost about \$300 less in scheduled maintenance than the '74 (in 50,000 miles of driving).

MONZA 2+2. Motor Trend's 1975 Car of the Year.

The Monza's styling is completely new. The look is European. Yet the inside of this right-sized car is packed with American engineering. And the kind of comfort Americans are used to.

VEGA. Best overall EPA gas mileage of any 4-cylinder American-built car.

With its available 140-2 engine Vega achieved 29 miles per gallon in the highway test and 22 miles per gallon in the city test. Based on 1975 Manufacturers' Suggested Retail Prices, the Vega Hatchback is already priced \$85 below its nearest competitor. Other Vega models include America's lowest priced wagon, Vega Notchback, Notchback LX and Vega Estate Wagon.

Now that makes sense

CHEVROLET MAKES SENSE FOR AMERICA.

It's a great time to make your best deal on a new Chevrolet, during Chevrolet's "Dollars and Sense" Sale. "Dollars" as in "rebate" and "sense" as in "Chevrolet Makes Sense for America".

Here's how it works: Make your best deal on any new 1975 Nova, Vega or Monza. Buy or lease* from your Chevrolet dealer and take delivery anytime from now through February 28, 1975 and you'll receive a \$200-\$500 cash rebate from Chevrolet, depending on the Chevrolet you choose.

Don't make any deal on any car until you see your Chevy dealer. We've given him and his salesmen special incentives to make it possible for you to get a great deal right now.

*Consult your Chevrolet dealer for full lease details.
