"THE GATEWAY TO THE PLAINS"

NUMBER 37

Notes From County Agent's Office

By Wallace Kimbrough
County Agent of Texas A. & M.
Extension Service

FARM LABOR

Some farmers are releasing their hired hands who have a IIC or IIC classification because they have caught up with their farm work. The Selective Service regulations require that a registrant of IIC or IIC before leaving his agricultural occupation or agricultural endeavor must first request and obtain from his local board a determination that it is in the best interest of the war effort that he leave his agricultural occupation for work other than agriculture. If he fails to do this he must immediately be reclassified in IA. These farm workers were placed in the IIC or IIC classification because they were doing farm work and when they leave the farm they lose this classification. When the farmer releases one of these men there will be little or no chance of getting this man back on the farm when he is needed.

The farmers with the men with IIC or IIC classification should try to keep these men on their farms, help them get some work nearby, then when they are needed on the farm again in a few weeks the help will be available. Otherwise it will be more difficult to locate a hired hand this fall than it was last spring when it was hard enough.

There is a set-up which can be of some help to both the farmer and the laborer if used properly by both. The County Agent has application blanks for both to fill out and file with the County Agent if they are needing labor or looking for farm work. Labor for this county can be gotten from other counties if this county needs it and labor can be sent to other counties from this county if need be. This system will be used this fall in placing migratory labor for cotton-picking. The farmers and the laborers are requested to apply to the County Agent's office as he is trying to help place the labor where it is needed.

Repair School Buses Now Is Advice of ODT

School authorities and school bus operators have been warned by ODT against delaying the rebuilding of school buses. Last minute efforts to obtain necessary repairs may result in buses being laid up when schools open this fall. The shortage of skilled mechanics and the scarcity of repair parts may result in unexpected delays, and a check-up may reveal that some buses cannot be repaired and must be replaced. The ODT suggests that school authorities or school bus operators contact local ODT District Maintenance Advisory Committees to help solve problems that may arise.

RATIONING CALENDAR

Point Rationing

Aug. 15—Red "W" stamps in War Ration Book No. 2 (for meats, canned fish, cheese, canned milk) become valid. Good through Sept. 31, as are red "T," "U" and "V" stamps.

Sept. 20—Expiration date for stamps "R," "S" and "T" in War Ration Book No. 2 (for canned and processed foods).

Sugar

Stamp No. 14 valid Aug. 16-Oct. 15, five pounds.

Shoes

Oct. 31—Expiration date for stamp No. 18 in War Ration Book No. 1, valid for purchase of one pair of shoes.

Mileage

Aug. 31—Most "C" gasoline rationing, some "B" rations, expire. They may be renewed by application to the ration board. Next official expiration for "C" book holders is September 15. Stamp No. 21—Six "A" gasoline stamps expire.

Brown Stamps In Ration Book 3 Effective Soon

The brown ration stamps in war ration book 3 will come into use Sept. 12 for the purchase of meats, fats, oils, butter and cheese, the OPA announced Monday.

The brown stamps will replace the red ones in war ration book 2 as the latter are used up. They will have the same point value.

Henceforth, OPA announced also, the meats-fats ration stamps always will expire on the Saturday nearest the end of the month, with the new sets becoming valid on successive Sundays.

OPA fixed the validity for the last red stamps in ration book 2—stamps X, Y and Z. These will expire Oct. 2, and will become valid as follows: Stamp X, Aug. 22; stamp Y, Aug. 29, and stamp Z, Sept. 5.

Brown stamps A and B, becoming valid on Sept. 12 and 19 respectively, both will expire on Oct. 2. The next four brown stamps, all expiring on Oct. 30, will become valid on the following dates: Stamp C, Sept. 26; stamp D, Oct. 3; stamp E, Oct. 10; and stamp F, Oct. 17.

Between Sept. 12, when the first series of brown stamps becomes valid, and Oct. 2, when the final sets of red stamps expire, both red and brown stamps will be usable. After Oct. 2 only the brown stamps will be used.

Not until November will it be necessary to bring into use stamps replacing the blue stamps used for canned, frozen and dried foods.

OPA announced that blue stamps U, V and W would become valid Sept. 1 and would be good until Oct. 20.

OPA announced also that the point value of frozen fruits sold in containers of more than 10 pounds will be raised to 12 points a pound instead of six points, effective at midnight Monday.

This action is intended to limit the general use of frozen fruits for industrial purposes so that adequate supplies will be available to increase the output of jams, jellies and preserves.

OPA also announced that essential dealers will be prohibited after Sept. 1 from accepting city-type B and C gasoline ration collection books. Car owners still holding the old-style books should exchange them for new sheets of coupons between Aug. 23 and Sept. 1, it was stated.

The exchange will be made on a coupon-for-coupon basis. Its benefits, from OPA's standpoint, will be to render useless any stolen, illegally held or counterfeited coupons of the old books.

Motorists can readily tell whether they are holding the new or old type coupons. The old ones were printed with the words "essentials delivery of one unit of gasoline." The new ones carry only the words "gasoline ration" plus a large letter "B" or "C."

Funeral Rites Held Wednesday For Train Wreck Victim

Funeral services were held at 10 o'clock Wednesday morning at the 110 North Third street residence in Slaton for Earl Mangum, 44, who was killed early Tuesday when a Santa Fe wrecked overturned between Roundup switch and Shallowater.

He was an engineer who had been with the railroad since 1922. Burial was made in Terrace cemetery here, under arrangements of Williams Funeral home.

Injured was L. R. Tibbs, cat foreman, of 845 South Tenth street in Slaton, who was admitted to West Texas hospital at Lubbock for treatment.

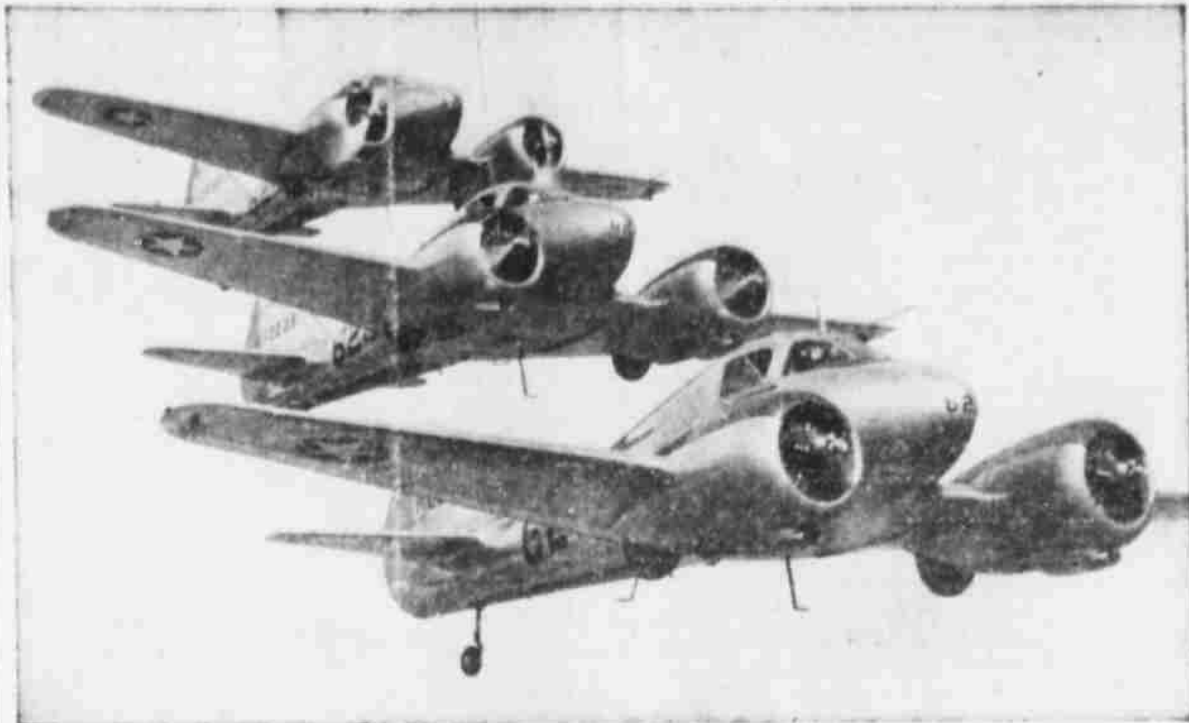

The wrecker overturned while lifting a concrete slab on a bridge. It was necessary to call a wrecker from Slaton to extract the body of the engineer.

Mangum was born in Gorman, Dec. 18, 1898. His parents, Mr. and Mrs. J. A. Mangum, live north of Post.

Tibbs suffered multiple abrasions and bruises. He required conscientious and was considered satisfactory in condition Tuesday afternoon. Examination revealed no fractures in internal injuries.

Mangum's widow survives. Mrs. Nora Stearns spent Monday in Lubbock transporting Tibbs.

Prize Winning Picture Of Lubbock Twin-Engine Trainer Formation

Rehearsing for a joint of Flying Fortresses, Liberators, Mitchell or Marauder bombers to hit Berlin, splash Rome, or knock out Tokyo is this formation of advanced Aviation Cadets in advanced twin-engine trainers over the big Lubbock Army Air Field, 10 miles west of Texas Tech. One of three

such shots taken by Sgt. Herbert R. McCoy from East Rockaway, Long Island, N. Y., former photo chief for Newsday, the above view won third prize for Lubbock Army Air Field's photo section in a contest judged by the New York Press Association from pictures of aviation training activities

throughout the U. S. Army Air Forces Training Command.

Aviation Cadets destined to become bomber pilots receive advanced training after a few months in pre-flight, primary and basic, in twin-engine planes like these at Lubbock Army Air Field.

Heat Wave Broken Here Tuesday

Post's stretch of 100-degree temperatures was apparently at an end Tuesday as a cooling northeast wind lowered the mercury to 65 degrees at 9 a. m., a departure of about 40 degrees from Monday's high mark.

Tuesday's cool weather was the first relief from a heat wave which has enveloped this area for the past 20 days. Most of this time, the mercury has been hovering near the 100-degree mark and above.

Garza farmers saw some relief for their heat-withered crops and scalded mucky sides for the much-needed moisture which will assure another bumper crop should it fall within the next few days.

Mrs. S. L. Cox, Mother Of Sam Cox, Buried At Tahoka Recently

Mrs. S. L. Cox, 81, mother of Sam Cox of Post, was buried in Tahoka last Tuesday. The deceased died at Abilene at about 5:30 o'clock Monday afternoon.

The body was taken to Tahoka where she had lived until recently since 1922. Funeral services were conducted by Rev. D. W. Reed of Garfield, a former neighbor, at the Church of Christ at 3:30 o'clock Tuesday afternoon. Burial followed in Tahoka cemetery.

Mrs. Cox had been confined to her bed most of the time for several months but she had been essentially ill only about a week preceding her death.

She leaves surviving her two sons and three daughters. The sons are Jonathan Cox of Houston and Sam Cox who lives west of Post. The daughters are Mrs. Florence Nichols of Sweetwater, Mrs. Bess Cheshire of Burbank, Calif., and Mrs. Jim Wetzel of Cross Plains.

Five children preceded her in death.

Mrs. Cox was born in the border state of Missouri soon after the outbreak of the Civil War and was brought to Texas by her parents while she was an infant though she could remember many of the stirring events that attended the period of Reconstruction and the freeing of her father's negroes in Collin county, she was not old enough to remember much of the conflict.

She was a devout Christian, a wonderful mother and a kind and loving neighbor and was always ready to render aid to her family and friends.

She and her husband who died in 1939 lived on a farm in Grassland before moving to Tahoka.

Mrs. S. H. Denton and son, Captain Louis Denton, his wife and daughter, and Mrs. Leroy Pitts, a daughter of Mrs. Denton, were visitors for a short time in Post Monday.

Farmers Urged To Have Cattle Bangs Tested

There are two ways the farmers can use in getting their cattle tested for Bangs disease; they are the Brand and Slaughter Method and the testing by private veterinary. With the Brand and Slaughter method the farmer must fill out an application form, which can be obtained from the County Agent, making application to the Texas Livestock Sanitary commission. This commission will send a veterinary to check your cattle free of charge. In this application you agree to certain rules and regulations set up by the commission which are to your benefit and to the benefit of others. Those who are interested in this method should contact the County Agent who will be glad to supply them with the application form and discuss this method with them.

The private veterinary method is: you pay the veterinary to come out and test your cattle and pay him for his services. There are a number of farmers who have stated they would like to get a group of farmers to hire a veterinary to check their cattle. If you care to have your cattle tested using this method, please leave your name, address and the number of cattle with the County Agent so he can notify you when the work is to be done.

Cotton Ginners To Meet At Lubbock Monday

A meeting of all cotton seed crushers, ginners, compressors, dealers and warehouse men has been called in Lubbock, Texas, at the Lubbock Hotel, at 1:30 p. m. Monday, August 23rd. This meeting has been called for the express purpose of discussing the future conservation methods to be used in handling the harvest of the 1943 cotton crop and the selection of two industry committees—one from the cotton seed industry and one from the cotton industry, to assist the Lubbock District ODT office in this program. Since the situation regarding our motor transport transportation system is so serious the ODT urges that all interested parties attend this meeting and come prepared to take an active part in it.

Gifts To The U. S. A.

Thousands of Americans, in addition to paying taxes and investing in war bonds, have given several million dollars in cash and many other gifts to the government. The Treasury to date has completed more than 20,000 transactions in connection with contributions ranging, in cash, from one cent to several thousand dollars, and in gifts, from toilet to Belle Reve. Cash donations total about \$4,423,000.

Congress Cuts AAA Expenses

AAA expense appropriations made by Congress have been drastically reduced, but this does not affect producer's payments for complying with the 1943 AAA program.

Approximately 15% of the farm operators have not made a final report of their 1943 planted acres of cotton and war crops. Until all operators have made this report, it will be impossible for the local AAA office to prepare applications for payment, with limited amount of clerical assistance available.

Producers are urged to go to the AAA office when notified without delay in order that the office will not be so congested.

Two Former Post Girls Involved In Car Accident

Two former Post girls, Mrs. Bernice Crap Grading, and Miss Melba Adamson, who are employed in Tahoka, were involved in an automobile accident in Tahoka recently. The young women met a car on Ada street that made a "dive," so to speak, at that car striking the rear and causing considerable damage. The driver of the car was a colored man who also ran into another car occupied by two soldiers.

Mrs. Grading, daughter of Mr. and Mrs. H. N. Crap, sustained a painful injury to the left forearm which she carried in a sling for several days. Miss Adamson, daughter of Mr. and Mrs. D. B. Adamson, was not hurt with the exception of the shock and fright which the collision occasioned.

Mrs. Grading's car was badly damaged, the repairs costing several hundred dollars. One fender of the soldier's car was smashed and the tail light was knocked off. The colored man's car was pretty badly damaged but he was only slightly hurt.

Several empty beer bottles were found in the negro's car, it was understood. He was taken before the county court where a complaint for drunk driving was filed against him to which he entered a plea of guilty.

New FSA Man Arrives For Garza County Office

William B. LeVeque succeeds Jack M. Welch as FSA supervisor for Garza and Lynn counties. He arrived in Tahoka where he will make his home early last week. Jack Welch moved to Schleicher county after serving here for several years.

Mr. LeVeque has been serving as county FSA supervisor for Floyd county for several months. He was accompanied to Tahoka by his wife.

Post To Be Connecting Point On Sunshine Airline Route

Cotton Ginners Of Area Get Price Increase

To offset higher labor and operating costs and prevent shutting of some plants, cotton ginners have been granted a 5 per cent increase in maximum prices they charge for ginning services, district OPA officials announced Saturday. This news was good news to the ginners of this section.

The increase, including an upward adjustment of charges permitted for bagging and Gens, is equivalent to an average of 35 cents a bale, OPA officials said. The new maximum rate is 110 per cent of the price charged during the base period of Aug. 1-Oct. 31, 1941.

For ginners who can not determine their charges on this basis, the OPA offered two alternative methods. Under these, the ginner may charge 26 1/2 cents per hundred-weight of seed cotton for ginning picked cotton and 28 7-8 cents per hundred-weight of seed cotton for ginning bales or snapped cotton, or 68 1/2 cents per hundred-weight of lint cotton for ginning picked cotton and 75 cents per hundred-weight of lint cotton for ginning bales and snapped cotton.

Southland School To Open Monday, August 23rd

Supt. J. P. Hewlett urges all pupils of the Southland school to enroll August 22, or as soon after as possible, even though they may have to miss the first few weeks of school. The faculty at present is the Superintendent, High school principal J. J. Duff, Miss Mary Perdus, Mrs. I. J. Duff, Mrs. Harvey Stoffa, Miss Perdus is an experienced teacher who lives near Wilson and is a graduate of West Texas State Teachers College at Canyon.

The lunch room will probably open the latter part of next week. Mr. Hewlett requests that the pupils be informed by their parents as to whether they will patronize the lunch room, so they may secure the number Monday. Lunches will be the usual, however in place later if possible.

Food Administrator Gives Crop Reports For Month of July

The following comment on the August crop report was made recently by Marvin Jones, War Food Administrator. "The July crop report made it clear that farmers in the face of many difficulties had substantially met, and in some cases exceeded, the crop average goals. During July growing conditions were favorable and current indications are that yields per acre in 1943 will be the second largest on record. The progress of the year's production so far is gratifying. The hard work and the determination of farmers have placed us in a position to meet the essential food needs, given average weather from now on."

War Ballots For Army

Blank forms are available to all officers and enlisted men of the Army to enable them to apply for war ballots for clothing to be held this year. The War Department reports. Public Law 74 requires these forms to be available in years when officers of the National Government are elected. The forms will also enable eligible qualified soldiers voters to participate in state elections.

Eight Separate Routes Proposed By Company

Post was named on one of the eight proposed routes of the Sunshine Airlines last week when announcement was made in regard to the proposed air route, according to Chamber of Commerce President B. J. Edwards, who was furnished information in regard to the Sunshine Airlines Company.

The network of airline feeder lines covering West Texas, Oklahoma and New Mexico for post-war operation has been proposed to the Civil Aeronautics Board by the company. The company is comprised by several West Texas newspaper and radio men with J. Lindsay Nunn of Amarillo as president. Associated with Nunn are Houston Harte of San Angelo, Bernard Hawks of Abilene and Capt. Gilmore Nunn, son of Lindsay Nunn, who is now in foreign service with the Army Air Forces.

Eight separate routes, which would connect at various points, are planned by the company under the application filed with the board. Nunn said that the lines, which would serve several score cities and towns in the three-state area, would either be operated with helicopters or fixed winged planes, dependent upon availability of the two types of planes after the war.

Three of the eight routes would originate at Amarillo. The first would operate between Amarillo and Dallas, with stops at Clarendon, Memphis, Childers, Quanah, Vernon, Electra, Wichita Falls, Henrietta, Bowie, Gainsville, Denton and Fort Worth. The second would be between Amarillo and Pecos, with stops at Canyon, Tulla, Plainview, Lubbock, Brownfield, Seagraves, Seminole, Hobbs, N. M. Wink and Monahan. The third would connect Amarillo with San Angelo with stops at Plainview, Lubbock, Tahoka, Lamesa, Childers, Midland and Big Spring.

The capitals of new Mexico and Texas would be connected by another line, operating between Santa Fe and Austin via Albuquerque, Santa Rosa, Fort Sumner, Clovis, Milesboro, Littlefield, Lubbock, Post, Snyder, Colorado, Sweetwater, Merick, Adilene, Cleburn, Brownwood, Goldthwaite, San Saba, Lampasas and Georgetown.

Amarillo and Bartlesville, Okla., would be connected by a route. Wichita, Kan., would be connected with San Antonio, Texas. San Angelo and End, Okla., would be connected with another line. Another line would run from Dallas to Carlisle, N. M.

Primary purpose of the lines, which would carry passengers, mail and freight, would be to connect the smaller cities and towns with regular operating transcontinental air lines. The application was filed.

The Post Chamber of Commerce has indicated that all out support will be given to the project if it is approved by the Aeronautical board.

SOME SCHOOLS TO USE NYA EQUIPMENT

Vocational schools which were using National Youth Administration equipment or buildings on June 30 have been advised by Paul V. McNutt, Chairman, War Manpower Commission, to file applications before October 12 with the regional offices of the Procurement Division, Treasury Department, if they wish to continue using these buildings, tools, and machines for training students during the war.

Bobbie Collier Transferred To Mississippi

Technical Corporal Robert (Bobbie) Collier, son of Mr. and Mrs. R. H. Collier, was transferred last week from Missouri to Mississippi after graduating from a three months course of basic training in medical work. He is assigned to a research laboratory in the Post-graduate hospital in Jackson, Miss. His sister, Miss Lucille Collier, recently returned from a visit with him in Missouri.

Brother of Verbena Man Killed On Guadalcanal Dec. 21

Lester E. Davis, technician fifth grade, in the Army Engineers, has been posthumously decorated with the Legion of Merit. The soldier who was killed while clearing a minefield on Guadalcanal last December 21 was the brother of R. M. Davis of Verbena community. A bridge was named in his honor on Guadalcanal.

The decoration will be presented to his parents, Mr. and Mrs. J. S. Davis of route 2, Cleburne, at a ceremony to be held in Cleburne in August 18.

Seaboard Boys In Service

Allen McArthur completed his training at Phoenix, Arizona and arrived home Friday, awaiting further orders.

Last week Dickie Martin was transferred from Albuquerque, N. M. to San Antonio, Texas.

Billy Becker was being transferred from New York to San Francisco, via Amarillo and was allowed to stop off to visit his parents, the A. J. Beckers. He was radio man recently on an unarmored freighter which sailed from San Francisco with a load of rice which it exchanged for sugar in Cuba and sailed for New York where the boat was dry-docked while guns were installed. Our coast defense and Panama Canal Zone must have solved the submarine problem as their ship never sighted a periscope.

Juana Ischelberger's husband who is somewhere in England writes that the crossing from the United States to England was just like "a bad dream." This is a beautiful country here, he continued. Ischelberger sailed several weeks ago.

Tech-Sgt. and Mrs. Alex Webb went home Wednesday to visit with his parents Mr. and Mrs. Jake Webb for fifteen days. Alex is stationed at Las Vegas, Nev.

James Hurt Now In England

Mrs. F. B. Hurt has received the following V-mail letter from her son James who is somewhere in England. This is one of three letters Mrs. Hurt has received. She also has 1-1 a cablegram. Dear Folks:

How are you all? I am well, happy, and my morale is 100%. I get sixteen letters and your night letter today. How about getting in touch with Doyce and give her my APO number? I don't know much to say only this is a wonderful country. I got letters from Roland, Doyce, Lois, Billie Swafford, Mike and one from Stehenville and North Carolina and three or four more. And got one Post Dispatch. I am sorry I couldn't telegram back when I got your night letter but there's no way at the present. How is Rose? Mom, you will have to write me 2 or 3 times before you get a letter because it takes an awful long time. I think. Answer soon. Lots of love, James

His new address is Sgt. James F. Hurt, 9th Antisub Sq., APO 532, c/o Postmaster, New York, N. Y.

Henry Bartlett Transferred To Pensacola Air Base

Henry W. Bartlett, 21, son of Mr. and Mrs. A. W. Bartlett of Post, was recently appointed a Naval Aviation Cadet and was transferred to the Naval Air Training Center, Pensacola, Fla., for intermediate flight training.

Upon completion of the intensive course at the "Annapolis of the Air" Cadet Bartlett will receive his Navy "Wings of Gold" with the designation of Naval Aviator, and will be commissioned an Ensign in the Naval Reserve or a Second Lieutenant in the Marine Corps Reserve.

Stationed At Camp Peary, Va.

Albert Woodrow Hill is now in the Seabee Division of the Navy station at Camp Peary, Williamsburg, Virginia. He writes home that he likes the Seabees and seems to be enjoying the boot training period. He said he had been on K. P. duty twice and hoped it never happened again. He is the son of Mrs. Ozella Hill who now resides in McKinney, Texas.

Repair Your TRACTOR NOW For Next Year

We appreciate the fact that you have favored us with enough Repair Work to keep our Skilled Mechanics busy. They are still busy but we want to call your attention to the fact that we will be unable to get many New Tractors for the 1944 season. So it will be necessary to keep your old machine in good repair.

It would be to your interest as well as ours to continue to keep our mechanics busy. We have an up-to-date shop and the largest stock of parts we have ever had on hand. So let us begin to get ready for the 1944 crop.

Captain Glenn Kahler Teaching in Air Evacuation School

In a letter from Mrs. Glenn Kahler (Agnes Pickett) this week she said that her husband, Captain Glenn Kahler, is teaching in the Air Evacuation school at Louisville, Ky. "Louisville is fine, but I long for Texas and I believe the Post Dispatch will help me keep up with my friends." Captain Kahler, who served for many months with the medical corps in Australia, was sent back to the United States for specialized training as Flight Surgeon. He is now attached to the Air Evacuation Ambulance Corps and will be in Louisville for a time. Mrs. Kahler and little daughter made their home here while he was serving overseas.

Lt. Kenneth Wright Visits Overnight With Parents

Lt. Kenneth Wright, son of Mr. and Mrs. Will Wright, was an overnight visitor here Tuesday. He had been escorting troops from Salt Lake City, Utah, to Poyote Field, Texas and spent a few hours here. Enroute to Texas the group went to California where a part of the soldiers will be stationed.

Murrie Crowley Writes Dispatch Editor

Murrie Crowley, CMIC, writes last week to the Dispatch. He is attached to the 14th Unit of the Seabees and has been somewhere in the Pacific for many months. "I can't tell you anything about our particular job I think most of our accomplishments are still unannounced. I firmly believe, tho, that the 14th has done its job well here. ... I still have a steady job yet staying in the shop repairing and maintaining firearms and watches. We beef a lot about this place though really I guess we are not so bad off. We have good mess halls and equipment, our tents are floored, framed and screened. Have 2 to 4 movies each week and can listen to radio programs from the States practically every night. Have a good library and sports and athletic department. Haven't had field rations in a long time. Have electricity in all our shops and general buildings and plenty of good roads. The Seabees can take care of most any situation as nearly all of us are seasoned men in our profession and we came out with big loads of equipment for this special job. Lots of times we have had to make peculiar substitutes and sometimes ingenuity alone takes care of the job at hand. The hard jobs are done instantly, the impossible ones may take a little time but we are proud of our part in this war and are proud of the fact that we have won the confidence and respect of the other members of our armed forces. We are all in here to retain our "American Way" and are anxious to see the Victory Day.

"The Dispatch has been coming thru for the last six months. I sure enjoy them. E. S. Hill, ex-signal man of the Santa Fe, is stationed here. I'm sure there are other men from Post or nearby that are here but unless you know their unit it is impossible to locate them."

Murrie is the son of Mr. and Mrs. O. B. Crowley and volunteered into service more than a year ago. He was employed with Lanette's Furniture store.

I. W. (Ike) Harper Visits Here

Ike Harper arrived here last Thursday and spent several days visiting his sister, Mrs. J. R. Sullivan and family and other relatives. He has just returned from New Guinea, where he has been stationed since last October. When he landed in San Francisco about Aug. 1 he received new orders stationing him at Yorktown, Va. Ike tells of his crew rescuing Bickenbaker and his men while offshot in their rubber rafts. He also speaks of seeing and combating service. He was stationed at Pearl Harbor during the attack. The left here August 9 enroute to Walnut Springs, Texas. In visit with his mother Mrs. I. B. Mosher. After which he will leave for his new post.

M. C. Edwards of Tulare, Calif., was in Post a short time this week visiting relatives and friends before going on to Fort Worth to visit his brother, Ivan Edwards who is on a 30-day furlough. Ivan has been in active service in the theatres of war for many months.

Mr. and Mrs. Joe Callis received word last week of the sudden death of a cousin, W. O. Grubbs of Fort Davis. Mrs. Grubbs was manager of the U up and down ranch near Fort Davis, was in Temple visiting his wife who was in the hospital when he died.

Southland Church Of Christ To Begin Revival Friday

On Friday night of this week the Church of Christ at Southland begins their series of meetings to continue over the fourth and fifth Sundays.

Bro. S. D. Lofton will do the preaching and all the people of Southland are invited to hear him for his sermons are instructive, educative and entertaining.

Bro. Lofton has many friends in the Southland community who are members of other churches. To know him is to love him and to hear him is to appreciate him.

Services each evening at twilight. Welcome all.
Church of Christ
Southland

Cars To Keep Running

America's 30,000,000 motorists have been assured by WPB that sufficient new and reconditioned parts will be made available to keep the nation's essential cars rolling through 1944. Even the country's 5,000,000 vehicles, ten years old or more, will be kept on the road by necessary replacement parts.

Gloria Tuffing who is employed at the Air Base in Pecos, Texas, returned to her job there Sunday. She was accompanied there by her mother, Mrs. Winnie Tuffing.

Southland News

Mrs. Marvin Truelock, Correspondent

The Baptist revival closed Sunday afternoon with the baptizing of 16 in the church at Slaton. There were three conversions. Everyone enjoyed the inspirational sermons of Rev. Thomas Cobb of Somerville. The collection for him and the pianist, Miss Oneta Faye Richards of Sundown, was about \$147.00.

Misses Dorothy Sue Smallwood and Eulalia Davies, who are employed at Midland, accompanied by Mrs. Neil Smallwood, spent the week end here with their parents. Little Smallwood and Mrs. Neil Smallwood spent Sunday in Lubbock.

Charles R. Thompson, who died of injuries received when he was caught between a brake lever and a cylinder at the Santa Fe yards at Slaton Wednesday, was standing about three feet from former Southland resident, Dave Draper.

Interment was made in the local cemetery Saturday afternoon of Mr. Meeks, who is the father-in-law of Mrs. James Baker's sister. The funeral was held at New Lynn.

Rev. M. O. Row, pastor at Pleasant Valley and Hackberry, was to begin a revival at the former community Friday evening, but brother Row could not get there from another revival before Saturday. Luther Rudd, who held a singing school at Slaton last year, has charge of the singing.

Mrs. Herman Irwin of Lubbock came Wednesday night to visit her husband's parents, the John Irwins, and Rev. and Mrs. O. E. McGaw. Thursday, she accompanied Mr. and Mrs. Irwin and daughter, Hattie, to Brownfield. Mrs. John Irwin remained until Sunday because of the illness of her brother-in-law.

Miss Maggie Tate was the week end guest of Mrs. O. J. Harmonson. Her Sunday dinner guests were the parents of Miss Richards, Miss Ara Perkel and Mr. Carter, all of Sundown.

Mr. and Mrs. R. O. Rankin and daughter, Mrs. Fred Cockrell and husband of Pleasant Valley, attended a family reunion in Eastland county last week.

Donald Wayne, the 9 1-2 pound son of Mr. and Mrs. Payton Crawford of Hackberry and his mother came from Slaton Hospital Wednesday to the home of her parents, the J. F. Moores.

Friday Mrs. Moore's brother, J. F. Slater and daughters, Doris and Mrs. Joe Weatherred and family of Hunt county came to spend the week end. Sunday Cleon Moore, who has a two-week's vacation from her job in Lubbock and Belle Kuykendall returned home with them. Miss Kuykendall plans to visit her grandparents in Oklahoma.

Mr. and Mrs. Bill Gregory and sons of Crane visited her parents, the J. I. Bartletts of Hackberry last week.

Floyd Meers, who is farming near Seymour, made a business trip back here last week.

Mrs. Noble Winn is in Ruidosa, New Mexico, for a rest.

Friday Ben Eitta Mining received orders to report for six weeks employment as an operator in Woodward, Oklahoma before being assigned elsewhere as Western Union manager.

Mrs. Mickey Charrol and daughter of Cisco came Thursday to visit her cousin, Mrs. Leonard Angle and her mother, Mrs. Ed Lieske. Other visitors that day were Mr. and Mrs. Lee Lieske of Lubbock.

Misses Pauline and Katherine Baker of Post came last Friday to visit their sister, Mrs. Clarence Basinger.

Tuesday night, Mr. and Mrs. Vern Johnson of Owens, near Rolls carried their pneumonia stricken, 15-months-old baby to the doctor. Several days later, the child's grandparents, the J. L. Whites, reported it was out of danger.

Mrs. Avon Bedford and children of Ft. Worth came Wednesday to visit friends here and relatives at Littlefield.

Rose Marie and Evelyn Gindorf of Wilson remained here to visit their grandparents, the A. Wilkes, until Wednesday.

The Baptist Workers' Conference of the Lubbock Association which met here Tuesday included these speakers: Rev. Grayson Tension of Calvary church, Post; Rev. L. A. Richardson of Lubbock; Rev. Cone Merritt of Idalou; Rev. R. C. Tension, Post; Mrs. Fred Montero, Lubbock; Rev. M. O. Row of Hackberry; and Rev. J. Lowell Ponder of Plainview.

Misses Helen Becker of Seagraves and Dorothy Becker of Lubbock, spent the week end here with their parents.

Rev. Faye Truelock of Lubbock spent from Thursday to Sunday here with her parents.

Per Carlson of Amarillo spent the weekend with his mother, Mrs. Elmer Long, and Mr. Long. Mrs. Long returned to Amarillo with him for a few days visit.

CITATION BY PUBLICATION

THE STATE OF TEXAS

To: James C. Shirley

GREETING: You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 27th day of September, A. D. 1943, at or before 10 o'clock A. M. before the Honorable District Court of Garza County, at the Court House in Post, Texas.

Said plaintiff's petition was filed on the 16th day of August, 1943. The file number of said suit being No. 752.

The names of the parties in said suit are: Othine Shirley as Plaintiff, and James C. Shirley as Defendant.

The nature of said suit being substantially as follows, to wit: **SUIT FOR DIVORCE.**

Alleging that plaintiff is an actual Bona Fide inhabitant of the State of Texas for more than 12 months, and has resided in Garza County for six months prior to the exhibiting this petition, alleging as grounds for divorce, non-support and mental cruelty, and for care and custody of their minor son.

Issued this the 16th day of August, 1943.

Given under my hand and seal of said Court, at office in Post, Texas, this the 16th day of August A. D. 1943.

Ray N. Smith
Clerk, District Court, Garza County, Texas.

U. S. MARINES ACCEPTING 17 YEAR OLDS

From the year 1773 the Marine Corps has been fighting down through the years to maintain our rights and freedom throughout the world. You 17 year olds have a heritage, that of a true American. Your country needs you now. To you young Texans not yet in uniform we say: "If you are 17 years old and have the stuff in you that your forefathers had at the Alamo... We will make you a Marine."

The recruiting office of the U. S. Marine Corps, Post Office Building, Lubbock, Texas, is now open to accept 17 year old young men during the month of August. Come in or write for information. By enlisting in the Marines you will get training that will serve you well the rest of your days. Enlist now while you are 17 and have the opportunity of making your own choice of the services. If you should see a Marine home on furlough ask him what he thinks of the Marines.

Women from 20 to 36 years of age are still being accepted for the U. S. Marine Corps Womens Reserve. Apply in Person or write the recruiting station at Lubbock, Texas.

WAR SHORTAGES HIT MODERN CLASSROOMS

Some of the tricks of the Little Red School House era may be employed by the school children today if certain shortages continue to occur. Mixing flour and water paste may be part of the day's lesson as tapioca and cornstarch bases become less available. Some teachers in our schools are already using the old methods in preparing pastes.

Youngsters will also get out the old pocket knife to use on their pencils as pencil sharpeners are almost out of the production picture. Pocket sharpeners are peace-time relics.

There will still be rulers but without the metal edges, and all pencil, paint and eraser boxes will be made from cardboard.

No metal ring note books and no zipper closings will be manufactured, says the OPA. There will be plenty of paper if it isn't wasted but teachers are to be advised to plan work whereby every bit of the paper is used instead of having a child turn in a page with only a few lines written on it.

Many other conservative measures will be instituted in the school routine to take care of the shortages that have hit the nation's vital and rhythmic institutions of today.

REAL CONSERVATION

Americans are learning the meaning of conservation. They are learning from an exacting teacher—war. War has in a matter of months switched this country from a nation of abundance to a nation of scarcity, as far as civilians are concerned. And where there is scarcity, there must be conservation. Automobile owners cannot burn up their cars with speed as they were wont to do a few years ago. Housewives cannot carelessly demolish household appliances, or toss out surplus food.

The new effort to conserve must reach farther than slow driving and eating the last crust of bread. It must reach into one of the most important existing fields of conservation—fire prevention. Several hundred millions of dollars worth of property is destroyed each year by fire. The bulk of that loss is sheer criminal waste, brought about by indifference and carelessness on the part of individuals. This carelessness can be eradicated by education, by teaching that preventing a property-destroying fire is as great a step toward conservation as driving your auto slowly to save tires. Fire prevention authorities have emphasized that "The development of a safety awareness that will control the daily ac-

IN ADDITION TO OTHER THINGS, HE'S ON THE BOND BUYING—IF YOU GO ON BOND BUYING YOU'LL BOTH THRIVE AND SURVIVE!

I've Got a Home, too Mister! Every extra BOND you buy through the Payroll Savings Plan will help me get back to it. Figure it out Yourself.

U. S. Treasury Department

SPENDING SPREE ENDANGERS VICTORY

During the first quarter of this year Americans went on a spending spree. Total consumer expenditures were 21 billion dollars or at the seasonally adjusted rate of 20 billion dollars. It will not profit to clamor like untidy children for goods of which there is an ever diminishing supply. Unless we take heroic steps—and that means stepping up our War Bond buying through the Payroll Savings Plan to our very limit—our income will be taken from us by price inflation.

President Roosevelt tells us that the Payroll Savings Plan is our most powerful single weapon in the war against inflation. Inflation lays a heavier and more inequitable burden than any form of visible or invisible taxation. Inflation literally picks our pockets while putting us on the back. The least we can do is to make sure that the Treasury's goal of 18 billion dollars in additional bond purchases by individuals is reached.

tions of the individual is necessary if preventable fires and conflagrations are to be reduced to a minimum.

Until our individual conservation efforts are effectively directed toward curbing fire hazards in the home, in the factory, on the farm and every place else where life and property are involved, we have not learned the lesson of conservation.

Views of Neighboring Editors:

The Lubbock Avalanche—A new vegetable is being grown that is a cross between a beet and a carrot and guess what it's called? A wobbler! It has characteristics of both vegetables and is said to contain about four times the content of Vitamin C.

Conversation Corner Column of The Colorado Record—What do you do when you feel full of feelings? Used to have a friend who always washed the curtains—whether they needed it or not. Some women paint the kitchen cabinet when their hearts are fit to break. Some dig in the flower beds. Some buy a new outfit, get a permanent, change lipsticks, try on crazy hats.

Some, of course, go to bed and cry. But not our kind of women. Our kind waxes the dining room floor or is apt to move all the furniture around when she has an inner ache of the spirit. What do you do?

Scurry County Times—Your guess is as good as anybody's on the eventual length of the war, but you can observe a more cautious note on the part of the War Department officials lately—lest they give the public too much of an optimistic outlook on the conflict. Conservative military opinion still leans to the school of thought the war in Europe will draw to a bloody close in late 1944, and that the Japanese will be whipped by late 1946—or 1947. Lucky breaks can hasten the end of the war, and bad luck can obviously prolong the all-out conflict. The navy, for example, plans to fight until 1949, and government procurement officials are taking steps to see we have strategic materials—just in case.

Caps and Lower Case—Now that the war seems to be getting under better control, nothing will do a lot of people but that they must picture a black and desolate postwar period. For some reason, many people think it is a mark of intelligence to be pessimistic about everything.

Certainly, America is going to have to send a lot of food and other supplies abroad, to all parts of the world, and surely taxes will take up a big part of one's earnings, but these same countries will be sending back sugar and spice and everything nice in every ship bottom that returns. God, in His infinite wisdom, scattered the bounty of the earth all over the globe so that people would be forced to trade with each other for the good things of life. Wisdom too, He spread around so that no one people, or no one group, would have a monopoly in all of it. As the pattern unfolds, it becomes increasingly clear that no one nation, no one group, no one individual, is going to rule the world.

Answers to Questions About Your Electric Service

"Is It Rationed?"

NO! Because the Business Management of your Electric Company planned adequate capacity to serve you years in advance of need!

TODAY, as YESTERDAY, there is plenty of electricity here to serve your homes, schools, stores and industries.

TOMORROW every effort will be made to meet essential needs of all. But, remember, please—electricity is vitally necessary to our war production. It is the "lifeblood" of industry. As demand it is the "lifeblood" of industry, each, your use of electricity should be prudent. Don't waste it... just because it is not rationed!

"Has the Quality Changed?"

NO! Day or night... whenever you have need for the many services of Electricity... this service is always "standing by" ready to help in time and labor-saving electric appliances you at your finger tip! The dependable is your electric service and never questions its ready response. That is taken for granted.

"Has the Price Gone Up?"

NO! Your cost for a kilowatt hour of electricity is the lowest in history! Your 1943 dollar here almost twice as much electricity as that of your 1939 dollar.

To appreciate this lower cost, think of the money added when you now make use of electricity in your home. In 1939 it was a light bill. Today the bill covers many more electric services... at only a slight higher cost for all!

Costs of producing and distributing electricity have steadily increased, but sound Business Management makes it possible to still give you more electricity at less cost to you!

Pique Print

Hot news for hot weather days is this blue and white butterfly pique print worn by Universal's Deanna Durbin. The matching blue vest front simulates the popular two-piece look. White felt butterflies, handpainted with blue tipped wings, are poised on one shoulder. The dress was designed by Marjorie Montgomery.

High Score Winners For The Thrifty Housewife

Nipples for nursing bottles are listed among wartime's precious possessions. They must have meticulous care. Milk fat softens the rubber; consequently nipples must be washed immediately after each use. When they are being sterilized they must not come into contact with the bottom of the pan. Place them on a rack. Boil for five minutes, then remove from the heat. Cool the nipples as quickly as possible without removing the cover from the pan. Store the sterilized nipples in a sterilized jar.

Glassware must be handled carefully in order to prevent nicks and marks. It should be washed in clean, lukewarm, softened water. Rinse thoroughly with hot water and wipe dry, using a soft lintless cloth. Sparkling beauty will be your reward.

Silver flatware for your dining table comes in for its special attention in this matter of extending the life of what you possess. Choose the silver cleaning cream or silver cleaning cloth thoughtfully; you'll have by investing in the best you are in a position to obtain. After you have applied the cream with a soft, clean cloth—white outing flannel is preferable—rub the article lengthwise. Do not rub it crosswise nor with a circular motion. After rinsing with clean water, wash, rinse, and dry with a soft towel.

When you pay the extra price charged for china, you are purchasing a tableware which almost never crazes. It is more resistant to chipping than other dinnerware and does not break easily. Because it is non-absorbent it will not become unsanitary by absorbing liquids. China has greater resistance to changes in temperature and to the wear of daily use than more porous dinnerware. Finally, the beauty of true china has never been matched in less expensive ware.

If you are buying a new stair carpet, it will pay you to add an extra nine inches to the required length. When the carpet is laid, fold the excess under the top. As the carpet on the edge of each step begins to break, shift the entire covering down two inches. The worn place will fall at the riser and will not show. You can make three shifts before the entire body is worn, so in the long run you save yourself money by spending that extra nine-inches' worth.

James Family Holds Annual Reunion

On Wednesday evening, August 11, at the home of "Mother" James, the beloved eighty-one-year-old Garza county citizen of Crossroads community, the James family and in-laws held an annual birthday get-together honoring Mrs. James.

Those enjoying the occasion were Mr. and Mrs. Jody James and daughter of Jasper, Texas; Mr. and Mrs. Carson James of Lubbock; Mrs. Eugene Martin and two children of Levelland; Jasper James, Mr. and Mrs. Roy James and four children, Mr. and Mrs. Barney Martin and son, Mr. and Mrs. Hugh Martin and two children, Mrs. Minnie Wylie and son, Mrs. Andy King and two daughters, and Miss Eunice James, all of this county.

A bountiful supper including ice cream and cake were enjoyed by all.

Army Needs Doctors

To continue the standard of the U. S. Army as the healthiest Army in the world, 7,500 additional physicians and surgeons will be needed during the coming three months, and an additional 2,500 by January 1, 1944. Major General Norman T. Kirk, Surgeon General, says: "The casualty rate in the Army to date has been very low, and one of the main reasons has been the availability of trained surgeons on the battlefields and in hospitals behind the lines to give our wounded men quick, efficient and expert care."

Clothing Ceiling

Retail and wholesale ceiling prices for women's, girl's children's and toddlers' fall and winter dresses, suits, coats, blouses, and other outer clothing has been provided by OPA at levels equal to or lower than those of last fall, in Amendment No. 1 to Maximum Price Regulation 330.

Dr. and Mrs. H. E. Young and son Gene, L. B. Baker and Mr. and Mrs. F. I. Bailey were visitors in Snyder Friday evening of last week.

GLASS JARS FOR VICTORY CANNING

Photo Courtesy Ball Box Co.

Plan to can every extra vegetable from your Victory garden and don't worry if your dealer hasn't jars with the kinds of caps you have been accustomed to using. Gladys Kimbrough, Home Service Director of Ball Brothers Company, tells us that very few of the all-time favorite zinc caps are left on the home front because zinc is needed on the battle front, but all Mason jars (any brand) with smooth, even top edges can be sealed with glass top seal or two-piece metal vacuum seal closures.

Glass top seals consist of glass lid, rubber ring, and metal screw bands. The rubber is placed around the projection on the bottom of the lid, then lid with rubber is placed so that the rubber rests on top of the jar. The bands are screwed down tight, then loosened slightly before the jars are put into a canner for processing and screwed tight immediately after the jars are removed from the canner. After the jars have stood twelve or fifteen hours, the bands are removed and used to seal more jars with glass lids and rubbers, thus making a little metal go a long way. That's one reason Government officials smile upon home canners who use glass top seals.

Another good top seal for Mason jars is the two-piece metal cap, called vacuum seal. The lid is slightly dome shaped, lined with white enamel and has a rubber sealing compound around the outer edge to take the place of a regular jar ring—don't let anybody fool you—all sealing compounds contain rubber. If one is using old-fashioned open kettle (never use this method for canning vegetables), the lids are boiled a few minutes to sterilize, but need only to be dropped into boiling water and kept hot if the jars of food are to be placed in a canner for processing. After the lid is placed on the jar, the metal band is screwed tight once for all. Retightening the band after the jars are taken out of the canner is likely to prevent sealing. The bands are removed from the jars twelve or fifteen hours after the canning is done and used to seal more lids on other jars. Jars sealed with two-piece metal caps are suitable for all types of canning except oven—a tightly

sealed jar is likely to break when subjected to the dry heat of an oven.

Bands for glass top seal and vacuum seal caps are not interchangeable because a deeper band is needed for the glass lids, but the two have one thing in common. Neither is rust-proof. That's because of the zinc shortage, but a quick wiping after each use with a cloth moistened with paraffin will prevent serious rusting. It will save time and trouble too, if a cloth is prepared ahead of time and kept in one of those glass jars that can't be used for home-canning. Then when the cloth is needed, set the jar in a pan of warm water until the paraffin softens.

The "lightning" jar (so called because it is quickest to seal) requires very little metal and not too much rubber for sealing. Several manufacturers make this type jar. It seals with a glass lid and rubber held in place with wire balls. The wires used on one nationally known brand are of heat-treated, high-tension, stretch-proof, spring steel. This is the ideal jar for home canning any year because it is so easy to seal. The rubber is placed on the sealing surface or shoulder, the lid comes next, then the upper ball wire is pushed up until it rests in the groove in the top of the lid. Pay no attention to the lower wire, it takes care of itself until after the jars are removed from the canner—then it is pushed down against the side of the jar and that's all there is to sealing it.

When buying jars, choose pints for peas, corn, and shell beans—and quarts for all other vegetables. Half-pint sizes aren't being made, and half-gallons are unsuitable for canning vegetables because it takes too long for heat to reach the center of the jar.

Barrington Family Holds Reunion At Two Draw Lake

The J. E. Barrington annual reunion was held at Two Draw lake Friday, Saturday and Sunday of last week. The three days was an enjoyable affair for the Barrington family. The number attending was not so large this year as it had been in the past years on account of gas rationing. Last year one hundred and twenty attended the reunion. Those attending this year were Mrs. J. E. Reynolds of Lubbock, Mr. and Mrs. W. J. Barrington, Mr. and Mrs. Lynley McKimney and children, Charles and Judy Carroll of Roby, Mr. and Mrs. L. H. Aldredge and children, Ruth and Robert Louis, of Alford, Mrs. Lula Homes and children, Wendell and Weldon, of Center Point, Mr. and Mrs. W. W. Barrington and daughter, Christine, of Crosbyton, J. E. Barrington, Jr. of Sherman, Mrs. Cecil Tate and Mrs. Bert Mathis of Muleshoe, Mr. and Mrs. Freeman Barrington and son, Carol Dwayne, of Ralls and Oran Chry of Post.

Those absent were A. L. Barrington of Brownwood and Mrs. J. G. Neal of Lamesa.

They wish to express their thanks to the authorities in charge of Two Draw lake for the privilege of holding their reunion at that place.

MORE SUGAR ALLOWED FOR JAMS, JELLIES

The Office of Price Administration boosted by 40 percent the allotment of sugar for jam and jelly manufacturers last week—because the War Food Administration wants people to eat more bread.

OPA and the action would be followed by an order releasing more frozen fruits for jams, jellies and preserves. That will give people something besides ration-precious butter to spread on their bread.

The agency also hiked industrial sugar allotments for cereal and bakery products and for medicines.

VICTORY CLUB

Ladies, our club did not meet Aug. 10, but we want to be sure to be at the teacherage at Grass-burr Aug. 24, in the afternoon to quilt. All members are urged to be present because of some important business. Visitors are invited. —Reporter

Henry Wheatleys Entertain With Party Last Friday

Mr. and Mrs. Henry Wheatley entertained a number of their friends with a party last Friday evening. Numerous games were played including "42" which formed the highlight of the party. Wade Terry won high score and Mrs. Floy Richardson low score. Delicious refreshments were served to twelve guests.

Mrs. Jessie Voss returned to Post Monday morning from a three months visit in Ellis county. She will only be here for a few days business trip.

Pvt. Smith, Miss Jones Marry Aug. 4

Announcement is being made by Mr. and Mrs. W. M. J. Smith of the marriage of their son, William D. Smith and Miss Oleta Jones, daughter of Mr. and Mrs. Pink Jones of Greenfield, Texas. The marriage took place in Frederick, Oklahoma, on Wednesday, August 4, at 5:20 o'clock in the afternoon.

Pvt. Smith is an instructor of the Cadets Maintenance Crew of the 69th Squadron at the Frederick base.

The couple are making their home in the Barraw Apartments in Frederick.

A. A. Suits And Frank Nease Exchange Routes

An exchange of mail routes was made last week between Frank Nease of Post and A. A. Suits of Plainview. The business of the exchange has been in progress for several weeks but was not completed until last week.

Nease has been carrier of rural route No. 3 for four years and had made a host of friends over the county. He and his family played an active part in the affairs of the city and they will be missed.

Mr. and Mrs. Suits moved into the Nease home. They have lived in Plainview eight years where they too have been active citizens in their community. They have one son who is in the army.

Route 3 is one of the longest rural routes servicing people of this county. It is a daily run of 66 miles and comprises 175 boxes.

Receives Letter From Husband

Mrs. Jack C. Bishop received a letter from her husband telling her he had landed in Iceland. He said he liked his new location fine. So far, Pvt. Bishop has been in the armed service since Feb. 18. He was never granted a furlough. Mrs. Bishop is the former Audrey Mae Howard.

PICK HUNDRED CITIES

CHICAGO — Three Methodist bishops go into a huddle over a U. S. map to select 100 key cities for 100 January mass meetings in their coming Crusade for a New World Order. They have just been appointed by the Council of Bishops meeting here to lead a drive for a flow of personal letters to legislators expressing faith in a post-war world to be organized on principles of international collaboration. Without this the bishops fear a return to isolationism and power politics. The officers of the Crusade shown are (right) Bishop G. Bromley Oxnam, Boston, chairman; (left) Bishop Paul B. Kern, Nashville, (vice chairman); (standing) Bishop Raymond J. Wade, Detroit, secretary.

Lefty Davies Transferred To Port Hueneue

Third Class Petty Officer Lefty Davies was transferred last week to Port Hueneue at Oxnard, Calif. He was in Post on a furlough recently and was transferred after he returned to San Diego where he had completed boot camp. He will be in the carpenter's shop at the new camp and wrote his wife that he liked the work and the camp much better there than that at San Diego.

News of the Boren Boys

Cpl. Jack Boren has been in North Africa for a year and a half and writes home that he has gone through all the battles without a "scratch." He is now in the hospital with infected hands.

Cpl. Lloyd T. (Joe) Boren is in Hamilton Field, Calif. He has been in the army for nearly two years.

The boys are brothers of Mrs. Dan L. Carpenter and Mrs. H. F. Wheatley.

A bomber uses 30,000 pounds of aluminum.

"Bataan" Showing At Garza Theatre Sunday - Monday

"Bataan" brings thrills, drama and stark realism in the most compelling story of the last stand battle of American heroes in a Philippine jungle to the screen of the Garza Theatre on Saturday night 11:30, Sunday and Monday.

With a cast headed by Robert Taylor, the story deals with thirteen men whose nationalities make them a literal cross-section of American life. They are detailed to blow up a bridge and fight a delaying action against the Japanese to cover the evacuation of Bataan Peninsula. The mission means certain death for all.

Among them a plot develops. Taylor, as the sergeant, recognizes a fugitive criminal, Lloyd Nolan. The human relationships of the doomed thirteen are enacted against the thunder of shell fire and the criminal lays down his life a hero. Spectacular is the blowing up of a bridge the Japs are trying to repair. Taylor is the last to give his all, firing his tommy gun from his own grave.

Players include George Murphy as an army flyer staying with the patrol until he repairs his plane. Thomas Mitchell in the character role of Corp. Jake Feingold, Leo Bowman, Robert Walker, a newcomer in pictures who has just been signed to a new M-G-M long term contract as a result of his outstanding work here, Barry Nelson, Desi Arnaz, Tom Dugan, Kenneth Spencer as a Negro soldier, Roque Espirita, Alex Havier and Donald Curtis.

The locale is a fever-infested, steaming tropical jungle. The blowing up of the bridge, mopping up operations with hand grenades and other thrilling battle action keeps the picture constantly at high speed.

Productivity Of Human Life Can Be Measured Now

What is the value of a human life lost in a traffic accident?

That value cannot be measured. State Police Director Homer Garrison said today, but the potential productivity can be measured.

In one year's time, the 539 persons who were killed in Texas accidents in the first six months of this year could have assembled 471 torpedoes.

They could have produced more than five times as much of the life-saving sulfa drugs as all the armed forces of the United Nations need.

They could have prepared 116,425,794 cans of Army ration.

They could have cared for a flock of 754,950 hens, which in a year would produce 13,000,000 dozen eggs.

LAMESA'S FIRST SALE IS RECEIVED MONDAY

Lamesa's first sale of 1943 cotton reached the gin at 11 a. m. Monday and will be auctioned on Friday morning on the courthouse square in the Dawson county capital. The Lamesa Chamber of Commerce reported Monday afternoon.

H. C. Brooks, farm owner residing 15 miles southeast of Lamesa, grew the cotton and the ginned bale weighed 625 pounds. McDonald Gin company did the ginning.

Mrs. Bryan Williams and Mrs. Belle Fairbanks left Monday for an extended visit with Mrs. Giles Connell in Evergreen, Colorado.

Fremm and William McCrary and their families of Fort Worth and Dallas spent the weekend with their parents, Mr. and Mrs. S. W. McCrary.

Hicks Funeral Rites Held August 8th

(Too late for last week)

William Roe Hicks, son of Mr. and Mrs. David V. Hicks, former residents of Post, died at Abilene, Texas, August 7, 1943. Age 42 years, 2 months, 13 days. He was brought to Post for burial Sunday, August 8. He had been afflicted most of his life and had been in an institution for years. Undertakers from Abilene assisted by Victor Hudman of Post, had charge of the funeral arrangements. Many old-time friends of the family were in attendance. Rev. D. W. Reed spoke words of consolation and hope.

CARD OF THANKS

We wish to thank all our friends for their kindness during the illness of our little daughter, Wanda Ann. Mr. and Mrs. R. L. Cummings, Jr.

Crisis Claimed Past In Rubber Situation

The United States—and that goes for the United Nations, too—has passed the crisis in rubber for necessary military and civilian use. P. W. Litchfield, chairman of the Goodyear Tire & Rubber Co., said Monday in an interview shortly after his return from a trip to England.

"By October we will be producing synthetic rubber in quantities equal to natural rubber used in the United States before the war," said Litchfield, "and by January we should be producing the equivalent of all used in the United Nations prior to the war."

"By the late spring of 1944, we should be in a position to release tires for pleasure driving, or at least much broader civilian use than now."

Mrs. H. M. Henderson spent a few days last week visiting friends in Spur.

Mr. and Mrs. K. Sticker returned from a few days visit Abilene with relatives.

W. R. Graeber left Wednesday for Carbondale, Ill., where he will join his wife who is visiting the home of her sister who has been quite ill.
