RADCLIFF CHAUTAUQUA

The Radcliff Chautauqua closed a three days engagement here Wednesday night. The Chautauqua was especially good and we are glad to learn that it will return again next year.

383 REGISTRANTS AT BAIRD

Two hundred and eleven men registered at Baird yesterday. The names of 172 more were sent to the Registration Board by men absent from the county, but this list includes men from other parts of the county as well as Baird. If the war lasts two years longer Callahan county will have at least 1500 soldiers in Europe.

Mr. and Mrs. Jesse James left Thursday for Austin to spend a few days with France James and wife.

JIM TERRY GASSED

M. M. Terry received a letter from his son, Jim Terry, who is with the Rainbow Division on the battle front in France, saying that he had been gassed on August 1st, and was then in hospital in Southern France. Jim enlisted in Truck Company in the Rainbow Division, which was among the first American troops to go over. Later he had been driving an auto for officers on the front, but later was a messenger and he probably ran into a gas field while on-duty. No particulars were given. As Jim was able to write his father it leads us to believe that he will come out all right. At least we hope so.

Tom Windham and son, Sam, returned today from Midland, where they shipped several hundred head of cattle to pasture

First Big American Offensive On.

Thursday morning the American army assisted by some French divisions under the command of Gen. Pershing attacked the St. Mihiel salient held by the Germans south of Verdun since 1914. The report yesterday was that half of the salient had been captured and 20,000

prisoners taken by the Americans and French. The Americans are driving everything before them. The main object believed to be is to abolish this awkward wedge, that has been a menace to the French for four years.

BAIRD PASTOR ENLISTS IN Y. M. C. A. WORK

Rev. W. Y. Switzer, Pastor of the M. E. Church, South, Baird, left for San Antonio Sunday night, where he was to begin training for the Y. M. C. A. work in Europe. The Board of Stewards of the Church granted Bro. Switzer leave of absence on full pay to the end of the Conference year. If Bro. Switzer is sent to Europe it is expected that the Annual Conference will send another preacher to Baird in November. Mrs. Switzer and little daughter, Edith, will remain in Baird for the present.

METHODIST CHURCH NOTES.

Sunday School promptly at 10 o'clock. Rev. O. F. Sensabaugh, of Abilene, will preach at 11 o'clock and again at the evening hour at the Baptist Church. The evening service will be a Union service and begin promptly at 8:15.

All members of the Woman's Missionary Society are urged to be present at the meeting Monday afternoon, Sept. 16th, at 4 o'clock at the home of Mrs. B. L. Boydston. This will be a business and social meeting at which time the box for the little girl at the Orphanage will be packed. Plans for winter work will be discussed.

Roll call responses will be "Women of the Bible."

All members of the Prayer Circles are asked during the next week to pray especially for our soldiers in the hospitals and prisons.

Supt. of Pub.

DISTRICT COURT

District Court convenes Monday, September 16th.

Mr. and Mrs. Simpson, of Admiral, were in Baird, Thursday.

BAIRD BOY ON TORPEDOED TRANSPORT.

The Mount Vernon, an American troop ship, one of the interned German ships taken over by the government when war was declared against Germany, was torpedoed 150 miles off the French coast on a return trip, a few days ago. Thirty-five seamen were killed and a number wounded. Tommy White, son of Thos. J. White is a seaman on this ship. Nothing has been heard from him since the attack on the ship, but his father says he feels sure he is safe, otherwise the government would have notified him. The ship did not sink, but was able to return to a French port. Senafor Lewis, of Illinois, was on this ship, returning from a trip to the battle front in France.

DAIRY NOTICE.

I have taken over H. M. Baileys dairy and the price of milk hereafter will be: Sweet milk, 50c per gallon, 15c per quart and 7 1/2c per pint. Butter milk, 20c per gallon. Butter 50c per pound.

Halsted Dairy,

36-1f. Ben Halsted, Mgr.

APPOINTED COUNTY ATTORNEY

R. L. Surles, County Attorney, has resigned and Rupert Jackson, Democratic nominee for that office, has been appointed by the Commissioners' Court to fill the unexpired term.

PUBLIC SCHOOL OPENS

The Baird Public School opened Monday with a "full house". Quite a number of students from other parts of the county are attending school here.

OIL NEWS.

Monday afternoon the Hart well, eight miles north-east of here, struck a fifteen foot vein of coal at a depth of six hundred feet. Looks like we are going to be in the midst of a big coalfield as well as the center of the oil pool.

The drilling tools, boiler, engine, cables and all machinery for the Dawkins well on Cordwell land arrived Thursday and has been hauled to the rig in Spring Gap Mountains.

The Dallas News under date of Sept. 10th carried the following item:

Perhaps Callahan County is getting the most thorough test of any of the wild cat counties in the oil belt. Lying immediately to the west of Eastland County and touched by five counties now producing oil, this county is looked upon with much favor by the big companies, and at this time two wells are drilling, three other rigs up and some four or five additional locations have been made.

The R. O. Harvey well at Putnam on section 9 is now in the black lime at 3,400 feet. This well showed oil at 1,700 and on the top of the black lime at about 3,200.

Richmond Levering of New York is drilling at about 600 feet on the Hart tract, survey No. 6, eight miles north-east of Baird.

W. S. McCray and J. O. Hamilton have their rig up on the Seale ranch, seven miles south of Baird, center of south line of the L. Johnson survey.

The Dawkins rig is up on the Cordwell ranch, 15 miles southeast of Baird, on Section 12.

The test on the Odom farm, six miles west of Cross Plains, will begin spudding soon. This rig is on

the Cummings survey.

A location has been made by the Pen-Tex Oil Company on the Waid Albin farm, three miles south of Cross Plains, center of block forty-two, Comal County school land.

It is understood New York parties are blocking up a large acreage 7 miles north of Cross Plains in the vicinity of the Henry Childs farm. Practically all the county is under lease, the Prairie, Ohio Cities, Roxana, Humble, Coaden, Texas Company, Empire all having large blocks and the Sun Company has thousands of acres. John R. Dawkins of Boston has several large blocks of acreage which he expects to develop soon

CHOICE MILK COWS FOR SALE.

I have sold my Dairy to Mr. Ben Halsted, but reserved 25 of my choice milk cows which I wish to sell or trade.

37-1f. adv. H. M. Bailey, Baird.

MUSIC CLASS.

I shall open my studio Sept. 16th at Mrs. Short's residence near the school building and your patronage will be appreciated. Those desiring an earlier start see me or telephone 107. Wren Foy. 39-2t.

HARRY BERRY

ENEMY MAKES STAND ON HINDENBURG LINE

BRITISH AND FRENCH BOTH CONTINUE PLAYING FOR IMPORTANT POSITIONS.

RUSS USING FRESH TROOPS

Germans Are Showing New Strength on Front Between Alsace and Ardennes—Americans Advance.

London.—The British in an advance over a four-mile front between the Havrincourt wood and Pezere, 2 miles north of St. Quentin, have captured all the German positions on the high ground between these two points and won their 1917 trench positions overlooking Gouzeaucourt, according to the official communication from Field Marshal Haig Monday. The Gouzeaucourt wood also in British hands.

English and New Zealand troops performed the task and during fighting repulsed heavy German counterattacks.

On the remainder of the British front there was fighting on certain sectors. Hostile attacks against positions recently established west of L. Jasse were repulsed.

The war map shows that the allies have now redeemed all of the largely salient except a strip approximately 2 1/2 miles long and averaging three miles wide. The French are five miles from St. Quentin, the deepest place left in the salient.

The battle on the western front is entering a new phase. The enemy at last is making a serious stand at short of the series of positions commonly called the Hindenburg line.

The Germans are doubling their barbed wire and seeking by counterattacks to slow up, if they can no longer outright, the encroaching tide of the allies. The French made such progress across the Crozat canal that the enemy can no longer hope to hold it.

General Humbert's center is at the gates of La Fere and General Manneville's left is beginning to creep around the St. Gobain forest by the west.

General Ludendorff is working for the respite which he must have to be able to sort out his disorganized divisions and try to whip up some sort of a strategic reserve.

With the American Army on the Meuse Front.—In the face of the still most machine gun fire since the Americans crossed the Vesle in force American infantry Monday advanced to certain points on a curved line extending from Glennes to Viol Arcy.

The French and American troops have evidently reached a line (north east of Soissons) beyond which the enemy considers they can not be allowed to advance with safety to their defenses, and he has thrown himself against this new line with an energy which discloses the arrival of fresh troops.

They are also beginning to reveal an abundance of artillery of all calibers, which has been concentrated on his chief danger spot in this line—the outer defenses of the St. Gobain massif.

Issuance of Gold Bullion Limited

Washington.—To conserve gold for essential monetary purposes, the government has forbidden issuance of gold bullion from the mints at Philadelphia, Denver and San Francisco and from the New York assay office without license from the war industries board, federal reserve board or the secretary of the treasury.

Railroad Official Moves to Dallas

Dallas.—D. R. Swain, embargo zone chairman for the Texas district of the United States Railroad administration, has moved his office from Galveston to Dallas and is now located in room 602 of the Katy building, which is headquarters for the railroad administration officials in this district. Among the duties of the embargo zone chairman is the distribution to the railroads in this district of embargo orders as received from railroads in various parts of the country.

Rules Outlined for Draft Exemption

Washington.—The new priorities classification of industries announced Monday by the war industries board will not bind district draft boards in determining deferred classification on occupational grounds of men between the ages of 18 and 45 years who register Thursday. The boards may determine that other industries are necessary, but in granting deferred classification, they must satisfy themselves that the industry is necessary and that the individual registrant is essential to the industry.

A Sale Tax on Cotton Opposed

Washington.—In a long address to the house of representatives Monday by the Pennsylvania delegate, the proposal he will offer to the new revenue bill to lay a tax of \$3 a bale on raw cotton. In the debate, Representative Garner of Texas, member of the ways and means committee, challenged the correctness of Moore's position, and let it be known that the members from the cotton producing states would resist it.

Texas News

Wild ducks are beginning to arrive at the South Texas feeding grounds.

Cotton pickers are reaping a rich harvest in wages in the Texas cotton fields.

The rice farmers of Jefferson county are harvesting their Early Prohibit rice crop.

Mrs. Hortense Ward of Houston has been appointed secretary of the state industrial accident board.

Lelling's young women are picking cotton and turning their proceeds over to the Red Cross.

Produce shipments from the Mission irrigated district of Texas this season were valued at \$1,250,000.

Two cold storage and packing plants have been completed at Laredo to aid the farmers in taking care of their fall and winter vegetation.

While a shortage of farm labor exists in many parts of the State, cotton growers are marketing their cotton at a rapid rate nevertheless.

Captain Walter Woodul, assistant adjutant general of Texas, has resigned and departed for Camp Wadsworth, South Carolina, where he has been assigned as camp adjutant.

The pecan crop in Bastrop county this year will be very light. The long continued drought has been the cause of many of the finest trees dying, there being no rain in the county since the early part of May.

Heavy rains have come to the relief of many towns in the Llano country whose water supply has been seriously affected by the drought. The Llano river is running for the first time in several weeks.

Maclinery is being set in motion for prosecution of the campaign to combat the social evil in Texas military camps and cities. The State law enacted by the last special session of the legislature relating to venereal disease control will be rigidly enforced, according to plans now being worked out.

During this month one of the largest crops of diversified vegetation ever planted in the Laredo section of the State will be put in, the farmers having decided to divert their attention from the one crop (Bermuda onion) plan and give attention to diversified vegetation, at the same time planting a good acreage in onions.

So many students have applied for admission to the Agricultural and Mechanical college for the next term, which opens September 18, that the president has been compelled to apply to Adjutant General Harley at Austin for 600 tents to be used in providing accommodations for the surplus which can not be cared for in the regular dormitories.

A big wolf hunt was made by citizens of Eagle Lake in one of the large cattle pastures near that place, which resulted in the bagging of two large wolves. The hunters state that more than twenty wolves were chased during the hunt, some of the bunches having as many as seven wolves in them. Wolves are very numerous in the stock pastures in that section this season and the stockmen, as a consequence, have had many young calves killed by them.

A restraining order has been issued by the courts of Travis county at the instance of the attorney general preventing certain Temple persons from dismantling the Temple Northwestern railroad, which has four or five miles of track laid between Temple and Gatesville. The road was projected some eight years ago and was to have been built from Temple to Comanche. The Cotton Belt occupied the territory with a line of its own, and since that time the line has been in several law suits.

The indicated yield of cotton in Texas this season, based on the government's condition report of 43 per cent of a normal for this State, is 2,544,000 equivalent 500-pound bales, according to F. N. Gray, the government cotton specialist for Texas. Based on a planted acreage of 11,910,000, the indicated crop for Texas is the smallest known. The coastal belt will have a better crop than other parts of the State this year, and the southeastern section, of which Houston is the center, has the best crops of the entire State, owing to the fact that that section has received more rain.

The rains that fell in West Texas last week were the first of consequence in almost four months and greatly relieved drought conditions in approximately 15 counties between the Pecos river on the west and Abilene and south of the Texas and Pacific railroad to Mason, Menard and Kimble counties on the east. Winter grass and water for live stock has been assured, while a fair season has been placed in the ground for the planting of fall crops. The rains fell slowly and did not run off to swell the streams.

What is a Branch House?

The Branch House is the place in the packing organization where what the packing plant does for you is put where you can use it.

Both are the natural result of growth and development in the living thing they belong to.

Swift & Company Branch Houses are located in distributing centers all over the country. They are fitted out with refrigerating equipment to keep meat cool, sweet and fresh.

Each one is in personal charge of a man who believes in what Swift & Company is doing for people and wants to help do it.

They are directed by men who have spent years learning how to get better meat cheaper to the places where it is needed.

Meat is shipped to the branch houses direct from the packing plants in Swift & Company's refrigerated cars, in such quantities that it can be disposed of while fresh and sweet.

Your meat dealer comes here to buy your meat for you—unless someone else can treat him better than we can.

So you need the branch house in order to live well; and the branch house and the packing plant need each other, in order to be useful to you.

W. D. BOYDSTUN

MANAGER

COTTONWOOD LOCALS.

Sept. 3rd.—Uncle Jimmie to the bat again with scarcely anything to chronicle.

Well, just think of it, we have had some rain, and we have sowed turnip seed, and we have planted some one-eyed peas.

Saturday's mail brought a letter from our boy in France, and from any other source it would have been stale, but it sure was news to us and we have read and reread it, but you know how it is Uncle Billie, you have a boy there yourself.

Mr. W. A. Everett has moved from Cottonwood to Baird and he and family are now citizens of our Capital City. Mr. Everett has accepted a position with the First National Bank and will help count the finances for awhile.

Mr. Warren Everett and family now occupy the residence vacated by W. A. Everett.

Miss Nettie Kenady has a position as Rural Carrier on Rt. 1 from Cross Plains, and she and her mother are now citizens of that place. We wish them success and happiness in their new home. Miss Nettie receives a handsome salary for her services.

Miss Hazel Reespe, daughter of Uncle Jimmie, is now Postmaster at Cottonwood, and will move the office to the building that was occupied by the Bank of Cottonwood as soon as she gets permission from the department.

The school at Cottonwood opened with a good attendance and all the teachers present. Quite an improvement has been made in the building, and we fail to see why teachers and pupils should not be pleasantly located during school hours.

Again we are called upon to register what we presume to be the last call for men in the field as we think with this call the Allies will be amply able to completely surround the entire "Hun" army, and then perhaps our boys will be permitted to come home, God grant that they will with not a scar on them.

Now if all minds are clear we will not bore the minds of the readers and longer but "keno" at once.

Yours Beautifully,
"Uncle Jimmie."

Commissioner's Court was in session the first of the week.

T. E. Powell returned a few days ago from a business trip to Memphis, Tenn.

Capt. and Mrs. J. W. Jones, Miss Beulah and Alex McWhorter, Mr. and Mrs. L. A. Blakley from the Bayou, attended the Chautauque here Wednesday night.

BARNUM & BAILEY CIRCUS COMING

Greatest Show on Earth Will Soon Exhibit in this Vicinity.

Once again the glad tidings are being spread broadcast telling of the coming of Barnum & Bailey's circus. The greatest show on Earth, it is announced, will positively be exhibited within easy traveling distance this season and, as usual, a large percentage of the population will declare a holiday to visit the show.

The big circus will exhibit in Abilene, Saturday, Sept. 28th.

It is promised that nothing to compare with the present Barnum & Bailey performance has ever before been seen under canvas. New and novel features have been imported from abroad and a program of events thrilling, educational and screamingly funny, will occupy every instance in the three rings, four stages, the riggings above and the hippodrome surrounding for more than three hours.

There is a new and gorgeous pageant entitled, "Aladdin and His Wonderful Lamp," in which nearly 1,400 persons and one thousand animals appear in magnificent costumes rivaling the dress of the people of the famous "Arabian Nights" story. This will be followed by a host of acts in all parts of the great enclosure. There will be sixty clowns, a greatly increased menagerie of wild and untamed animals, four great herds of elephants, several caravans of camels and many recently born baby animals.

The free street parade, which will start from the circus lot at 10 o'clock on the morning of circus day, is entirely different from anything of the kind ever shown before. It will be three miles in length and there will be bands on foot, on horseback, and riding on top of wagons of red and gold. There will be six bands in all and they will be assisted by 3 steam calliopes and an electric piano.

With the largest tent in the history of all circuses, the Barnum and Bailey circus promises this season to make good again its boast that it is the Greatest Show On Earth. Five railroad trains comprising 50 railroad cars, will be required to transport its paraphernalia, and more than 750 horses will be used to transfer its wagons from the railroad yards to the show lot.

Rev. A. W. Waddill, former pastor of the Methodist church at Baird was in town, the first of the week.

A. G. Webb, of Abilene, was town the first of the week. Mrs. Webb has recently returned from Manitowish, Wisconsin, where they spent the summer.
