NUMBER 28

## Emergency Farm Equipment Available

Hard-to-get farm supplies farmers need for food and feed production available at once the Texas War Boards has announced an emergency program ready to go into effect. War Production Board manufacturers and distributors get into retail channels to get adequate quantities of approximately 66 items needed by farmers. The program to meet long-needed items will replace the emergency program and 78 items will be available, making a total of 144 high priority ratings. Included in the emergency program are auger bits, batteries, chains and gasoline cans, various types of chains, grain scoops, knives, well casing, pliers, rakes and shovels. Other items in the long-range program include axes, bit blowers and forges, bolts, hacksaw blades and packs for farm tractors, shoes, horseshoe nails, pump couplings.

## Workers On What Write To Men Foreign Service

Office of War Information has pointed to soldiers, sailors, airmen—based on suggestions in a survey among sergeants and overseas, in addition with the Special Services of the Army Service. The family is doing possible to help in the family's future. Well and busy the family details. The family is getting specially. The family's doing in the companies about girls (single) a group of friends, who's a group, exploits of the and other sports events down, effects of the the home town. Reminiscence about past events and the boy used to visit. Encouragements from the home.

## Corps Now Open For Old Men

Officers at Lubbock are that the U. S. Marine Corps is now open to 17 year old men. Those making applications do so either by writing to the Lubbock Recruiting Station in person. This is to join the greatest force of any service in the world for a limited period.

## Army Seeking Mechanically Skilled Men

The Corps of Engineers is seeking men, 18 to 50, experienced in mechanical construction and allied trades, for immediate service, according to Lieut. Col. Marvin B. Durrette, commanding, West Texas Recruiting & Induction District. Craftsmen desired cover practically every type of skilled worker, eligible for military service, including blasmen or powdermen, carpenter construction, construction foremen, typographical draftsmen, electricians, operating engineers, machine shop foremen, utility repairmen, Printer-general, Painter-sign, light truck drivers, balloon gas handlers, motor transportation, highway construction machinery operation, structural steel workers, woodworking machine operators, power shovel and crane operators, bridge builders and blacksmiths, Col Durrette said.

Those in the 18 to 37 age group, inclusive, may present themselves at the Engineer office at any Army Airfield, camp or post for interview. In this area, Engineer offices may be contacted at the Amarillo Army Technical School, Amarillo; Biggs Field, Fort Bliss; Big Spring Army Air Field, Big Spring; Childress Bombardier School, Childress; Dalhart Army Air Base, Dalhart; El Paso Army Air Base, El Paso; Herford Ind. Camp, Herford; Lubbock Army Flying Field, Lubbock; Marfa Army Flying School, Marfa; Midland Army Flying School, Midland; Pecos Flying School, Pecos; Fort D. A. Russell, Marfa; Pyote Flying School, Pyote; and the South Plains Army Flying School, Lubbock. Men found qualified will be furnished with a letter to Selective Service Boards authorizing induction.

## Worker's Meeting To Be Held Tuesday At Wolfforth, Texas

Program plans for the Worker's meeting of the Lubbock Baptist Association are complete and are being introduced over the district by pastors of churches. The meeting will be held in the Wolfforth Baptist church next Tuesday, June 22.

The theme of the meeting will be "O' Lord Revive Thy Work in the Midst of the Years." Song and praise service will be under the direction of R. S. Hanson of Wolfforth.

Rev. A. C. Hardin, Dwyer pastor here, will deliver the sermon at the eleven o'clock hour. Others on the program will be Rev. Lee Vaughn of Slide, Rev. W. F. Nix of Abernathy, Rev. O. E. McGaw of Southland and Rev. Howell Verner of Lorena. Following a board meeting and business session, for the WMU an inspirational address will be given by Rev. C. J. McCarty of Lubbock.

## Shoe Business Here Continued To Boom Through Deadline

Shoe departments in all Post stores continued to do a rushing business as the deadline approached for use of War Ration Stamp No. 17, merchants declared as they reported on sales Wednesday morning after the big rush. Stamps expired at mid-night Tuesday night. Stamp 18 became effective Wednesday and will remain valid through Oct. 31 for purchase of one pair of shoes. The validity period is 11 days longer than that of the first shoe ration stamp. Shoe stamps will remain transferable among members of a family who live in the same household. Spending several days in the home of her grandparents last week was Ann Wharton, daughter of Mr. and Mrs. Winston Wharton of Tahoka. Her parents spent several days visiting in Sweetwater.

## Accurate Rain Reports Given Over County

Some of the reports of last week's rain were incorrect and others incomplete. It was reported that the rain gauge at Earl Lancaster's near Southland registered only .45 of an inch from the rain on Sunday evening, June 6. The gauge actually registered 3.75 inches on that day. The rain on Friday evening, June 4, had registered .45 of an inch.

C. P. Witt at Calgary reported the following readings for his rain gauge: Friday, June 4, 9:00 p. m., 1.72; Sunday, June 6, 7:00 p. m., .90; and Monday, June 7, 12:00 p. m., .78 inch.

## Victory Gardeners Cashing In On Home Grown Products

Food at the Henderson home this week consisted of green beans, new potatoes, radishes, squash, onions. All this food was planted and cultivated by Mr. Henderson who has gone in for gardening in a big way. "I'm raising food for victory. We will have plenty for our daily needs and my wife plans to can all the surplus," he said. Henderson has put one-fourth of a block into cultivation. They are selling vegetables already and have given numerous neighbors beans and peas and potatoes.

Another fine garden is that of John Baker. The Bakers have been eating English peas since May 1 and have canned beets. Mrs. Baker plans to can all the surplus garden stuff in accordance with the urgent appeal made by the government.

"Care is being in our garden" said Ashley Lawson, the Piggly Wiggly manager. "It is almost ready to eat, and we have already had beans." The Lawsons plowed up a large portion of their back yard and converted it into garden space. Tomato plants are growing in a fine manner and before too long they expect to be eating this favorite. "We have had plenty of onions for several weeks."

The Doby Cartwrights have one of the finest gardens we have ever seen, said George Samson, the garden expert. They have numerous tomato plants that will provide ample fruit for canning later in the summer. Potatoes, onions, radishes, beets, squash, peas and beans. There is hardly a vegetable that will grow in this soil that this family have not planted. Cantaloupes and watermelon vines are doing fine too and the Cartwrights are all smiles over their fine garden.

John Herd is cashing in on his victory garden. This is his first attempt at raising many vegetables and he is a real garden enthusiast. New potatoes are being harvested now and other seasonal vegetables are being grown and eaten.

A garden which covers a fourth of a block and looks like an advertisement of a seed house catalog is that being grown by the E. W. Williams. Mrs. Williams plans to can all the surplus and hopes to go well over the quota of 42.5 quarts per person of home canned foods on the pantry shelves. This is the quota set by the government for America.

## Urgent Appeals Being Made By Bond Leaders

Announcement of the merger of the Victory Fund committee and the War Savings Staff into a single organization to be known as the War Finance Committee was made this week in a telegram to John T. Herd, Victory Fund Chairman for this county. The committee will operate under state chairmen and on a state basis, Henry Morgenthau stated.

"It is my earnest hope that the active members of both the merged groups will accept an active part in the new State War Finance Committee. I am now helping put this new arrangement in effect in several states and on the basis of this experience we expect to perfect reorganization in the remaining states. I can tell you now that we believe the functions of the new War Finance Committee fall normally into three divisions. First, working with the customers of banking and other financial institutions, second, payroll savings, third, general community promotions. Of the three, the first will produce a great part of the money and its success will continue to depend upon cooperative efforts of the group which previously made up the Victory Fund Committee. In the new organization we shall need the assistance of all the loyal and devoted workers who have been responsible for the unprecedented results of the Second War Loan Drive. It is my sincere hope that all committee members will continue to play an active part in this work which they are so ably fitted to do and which is essential to winning the war. I want to express my deepest thanks for what you have done and say that I am counting on your continued help."

Henry Morgenthau, Marshall Mason, chairman of the Garza County War Savings Staff was urged by State Administrator to make an all out effort to increase our War Bond sales and close the fiscal year at the end of the month with an aggregate of twelve million dollars for the nation.

"For us Texans to do our part, I am asking you, your committee-men, and the good citizens of your county to oversubscribe your June quota by 10% or better with series E Bonds and to attain Series E and G War Bond sales in an amount equivalent to at least 15% of your Series E June quota. To accomplish this, you should contact your larger purchasers, the city and county officials, etc. and urge them to invest special funds in E and G Bonds as the limit of \$100,000.00 can be purchased with each separate bond," Scofield said.

"This is a big order," he continued, "and to do the job will require hard work on the part of everyone. I have assured the Secretary of the Treasury that Texas will do her share toward achieving this National objective for June and I am depending upon you."

The bond quota for Garza county for the month of June was set for \$22,300.00. Every citizen in this county is urged to do their part in meeting the quota, Mason stated.

## Soil And Water Plans Made On Several Farms

Soil and water conservation plans have recently been made on a group of farms near Grassland, according to L. W. Dalby, District Supervisor of the Duck Creek Soil Conservation District. Those farms on which plans were made are those of O. H. Hoover, Gus Porterfield, Henry Aten, W. C. Bush, and H. Turner.

Mr. Dalby also stated that now is the time to make plans for terracing this fall and winter. Applications for assistance from the Duck Creek Soil Conservation District may be made at the County Agent's Office or the local office of the Soil Conservation Service.

Mrs. Foy Winn and little son left Saturday for Edmondton, Canada, to join Mr. Winn who is employed with a construction company there. They will make their home there for two or three months.

## Farmers May Renew 'A' Books By Mail Says OPA

West Texas farmers and others living at a distance from their local War Price and Rationing Boards may renew their "A" gasoline coupon books by mail, the District OPA office pointed out today, in an effort to save gasoline and prevent loss of hours from work. This plan will go into effect on June 22 and after that time, both motorists and bicyclists should begin picking up their application forms.

Due to the fact that "A" rations expire on July 21, applications should start coming in immediately after June 22 in order that the boards will have time to process them and mail them back before the expiration date. This mail renewal plan also includes renewal of the basic "D" motorcycle rations and eliminates the school-house registration that was necessary when basic rations were issued, the OPA said.

Steps pointed out in the procedure to follow include (1) on June 22 pick up application forms from service stations; (2) fill out forms according to instructions and mail them back immediately to the boards. Accompanying these forms should be (a) the back cover of the present "A" or "D" book (properly filled out) and (b) the current tire inspection record showing that proper inspections have been made. New applications should show serial numbers of tires now on a car and if there has been any change since the last tire inspection, a note of explanation and evidence of purchase should accompany the application form.

## Texas Almanac For 1943-44 Now On Sale

Great economic and social changes are revealed in data presented by the 1943-1944 edition of the Texas Almanac, which has just been published by The Dallas Morning News. Approximately 400,000 rural Texans have shifted to urban residence and vocations since the census of 1940. For the first time in the history of the state, the majority of population is now urban, according to information in the new volume. More remarkable, relatively, has been the industrial expansion due to the founding of munitions, rubber, shipbuilding, aviation and other war industries. Texas manufacturing output has expanded as much during the last three years as in all preceding history.

Mineral production has also been greatly stimulated. Last official figure on value of all minerals produced was \$94,211,150 in 1941, placing Texas far ahead of any other state. On basis of partial reports, the Texas Almanac estimates total value of minerals produced in 1942 was more than one billion dollars. While petroleum, natural gas and natural gasoline counted for most of the production, Texas would rank high among the states without the oil group. During the last two years, there has been rapid increase in the number of minerals produced in Texas, and in 1942 there was commercial output of more than sixty different kinds.

Next to the greatly increased manufacturing and mining production, military activity has had the most notable effect on recent Texas developments. While reasons of military secrecy prevent release of some information, the new Texas Almanac lists twenty-two major Army camps, in addition to which there are more than fifty Army aviation fields. At San Antonio and Corpus Christi, the Army and Navy have, respectively, their greatest air training centers.

While the chapters on military activities and industrial expansion are the principal items of current interest, the new Texas Almanac is essentially the all-round reference book that it has been, ranging through the whole field of Texas' historical, civic and economic data. The date of the battle of the Alamo, the cotton production of Jones County, the name of the State Comptroller, the number of deer killed in Texas in 1942 and thousands of other classes of information in as widely diversified fields can be found on its pages.

## Ration Books More Valuable Than Money

"Ration books can be more valuable to the individual than money," the District OPA office said today in issuing a warning against the careless handling of their books by many consumers. Advising that local War Price and Rationing Boards will have to become more severe in re-issuing books, the OPA pointed out that persons should keep their books in a safe but accessible place.

When the consumer appears before a ration board and reports that his ration book has been lost, he must wait ten days or longer before he can obtain another. A few days going without coffee, sugar and other food often tends to sharpen the memory and individuals in many cases appear before the Board and explain that their books have been found. Carelessness and disregard for the importance of their ration coupons were found to be two of the chief causes for losing books.

## Funeral Rites For Henry Bilberry Held Wednesday

Funeral rites for Henry Bilberry were held yesterday afternoon at four o'clock at the First Baptist church with Rev. R. C. Tension, pastor in charge. He was assisted by Rev. A. C. Hardin of Tahoka.

Bilberry died in the Lubbock General hospital Tuesday afternoon at 2:45 o'clock as a result of injuries received in an automobile accident early Tuesday morning. The car in which he and S. "Blackie" Caprito were riding hit the back end of a stalled truck on the highway about one-half mile south of the cemetery curve on the Lubbock highway. Caprito and Bilberry were enroute to Lubbock. The accident occurred about 9:45 o'clock in the morning.

Injured also was S. Caprito, 59, oil operator, who was driving the car. He still is in Lubbock General hospital, suffering from a fractured right kneecap, lacerations on the chest and an inside fracture, but his condition was considered satisfactory.

According to accounts given to the highway patrol, Andrew Olson, 28, of Lubbock had been driving the truck toward Lubbock when motor trouble developed.

Two misdemeanor charges were filed against Olson, alleging he stopped or left his machine standing on the paved portion of the road without having 15 feet of pavement clear for traffic, and that he operated a commercial vehicle without a commercial operator's license.

Complaints were filed in the court of J. T. Benson, justice of the peace, and Highway Patrolmen T. C. Laws swore to the complaint. Olson had not been arraigned Tuesday night, Benson said.

Hospital authorities said Mr. Bilberry never regained consciousness after the accident. His family were with him at the time of his death.

The accident victim had lived in Post a number of years and was employed as a mechanic for the Caprito Refinery. He was born on November 15, 1902 in Dickens County, Texas. He is survived by his widow and seven children: Gretta, Luther, Lawrence, Wanda, Jean, John Jerrill, Linda Lou, and Glenna Joyce.

Four sisters and one brother also survive: Mrs. Lila DeWitt of Roby, Mrs. Letha Houston of Venus, Leona and Bonnie Fay Bilberry of Memphis, and L. E. Bilberry of Lubbock and his parents, Mr. and Mrs. L. S. Bilberry of Dickens.

## New Address System Will Speed Mail

The postoffice department has lost 30,000 employees to the armed forces and due to the influence which the war bears upon the quantity of mail the volume has more than doubled.

Due to this condition the post office department was forced to establish a system under which untrained employees could rapidly distribute mail. Under this system a city which has branch post offices and stations established at strategic places throughout its confines, establishes a district for each branch post office or sub-station. This district is given a number, such as 1, 3, 5, 10, 30, etc.

Mail addressed to large cities in addition to the usual street address and number also contains the district number. An example of the new type of address is:

JOHN C. SMITH  
223 Mattapan Ave.  
Boston 8  
Massachusetts

The number after the name of the city indicates the branch office or district in which delivery is made.

Beginning at once, your relatives and friends as well as business firms will be asking you to place the number of the postal district on your letter as part of the address. This is very important and patrons of the mail service are urged not to be careless about it.

If a letter addressed to a large city does not have the unit number as part of the address it will be delivered about as quickly as at present, however, if the district number is used it will be delivered much sooner.

Some of the cities in Texas which have the district system in force are: Waco, Austin, San Antonio, Houston, Dallas, Ft. Worth, Corpus in other states of the size of these cities in Texas also have the unit system.

Patrons writing to their friends, etc., in larger cities should ask them to furnish the writer with the postal district number so that your mail will be delivered at the very earliest hour possible.

Competition is requested to the fullest extent because the situation will probably grow worse until peace comes.

## Two Deaths Within Week By Lightning In Lynn County

Two deaths within a week by lightning were reported in Lynn county. The first victim was Paul Lawson, prominent Grassland farmer, who was well known here, and the second victim was Mrs. T. G. Dulin. Lawson's death occurred on Sunday, June 6, and Mrs. Dulin was killed on Saturday, June 12.

Mr. Dulin being his wife about 1:30 o'clock when he returned to the house located ten miles north of the Tahoka highway near the junction of the Wilson road with U. S. Highway 87. The victim had been a resident of the Tahoka area for 24 years.

Reports from Tahoka said not a drop of rain fell there but that about 10:00 lightning could be seen north of town.

## RATIONING CALENDAR

Gasoline— "A" book coupons No. 6, good for four gallons each, outside of the Eastern gasoline shortage area.  
Sugar— Stamp No. 13 good for 5 lbs. through August 15. Coupons No. 15 and 16 are good through October 31 for 5 lbs. each for home canning purposes. Housewives may apply to their local ration boards if necessary.  
Coffee— Stamp No. 24 (1 lb.) good through June 30.  
Shoes— Stamp No. 18 (1 pair) can be used valid June 16.  
Meats, etc.— Food Stamps J, K, L, M good through June 30. N becomes valid June 20.  
Preserved Foods— Blue Stamps K, L, M, continue good through July 7.

Guests Sunday in the home of Mrs. Irene Rodgers were Mr. and Mrs. Dean Gordon and daughter, Betty Alice of Lubbock. Mr. Gordon is Dean of Arts and Sciences at Texas Tech college.

Mrs. James Miner has accepted a position with KFYO radio station in Lubbock. She has been in Lubbock for about three weeks and is in the advertising department.

**Stationed At Camp Barkley**

Vonnie Lee Peel, son of H. E. Peel of the Graham community, was inducted into service on June 2 at Lubbock. After spending his 1-day furlough here, he left on June 9 for Fort Sill, Oklahoma. News was received here the last of the week stating that he was sent from Fort Sill to Camp Barkley, near Abilene, Texas. He was assigned to the Medical corps and said he would take 12 weeks basic training then he would go to school for awhile.

His address is: Pvt. Vonnie L. Peel, Co. D 55th Med. Tng. Bn., Camp Barkley, Texas.

**Receives Call**

L. D. Stevens, Jr., received his notice to appear for service in the United States Marine Corps on Monday, L. D. will leave Post on July 1 for Denver, Colorado. He volunteered into the Marines last January. He will receive his preliminary training at the University of Colorado. Until last week he was a student in Texas Technological college in Lubbock.

**Graduates From Course**

Sheppard Field—Ralph C. Cockrell, son of Mrs. Vera Cockrell of Route 1, Post, has graduated from an intensive course in airplane mechanics and now is prepared to blast the Axis as one of America's "commandos in coveralls". Sheppard Field, near Wichita Falls, Texas, is one of the many schools of the Army Air Forces Technical Training Command which trains the specialist technicians to maintain our mighty air armada. He is now qualified to play a vital role in the Army Air Forces groundcrew teams that "Keep 'Em Flying."

The man who says he can't is always right.

**With The Men In Service**

**Wins Commendation**

San Angelo, Texas—Staff Sgt. Harold Davis, son of Mr. and Mrs. Harrison Davis, Route 2, Post, won commendation from Colonel Geo. M. Palmer, commanding officer of the San Angelo Army Air Field, yesterday for "outstanding performance of his job" as a member of the bombardier school's 813th Bombardier Training Squadron.

Twin-engine bombers which the squadron was charged with maintaining flew a total of more than 1360 hours during May, the final month of the squadron's operation, to set a new record for the field. The organization was disbanded the first of this month and its members were absorbed by other air force units.

"Work of the squadron in keeping its planes in such A-1 condition that they could be flown more than 1360 hours during the month," Colonel Palmer said, "is an outstanding example of the splendid job being done by mechanics, clerks and other ground crew members throughout the air forces."

**Receives Notice To Report**

Bill J. Davis, son of Mr. and Mrs. W. L. Davis, will report on August 2 to Columbia University to begin training in the U. S. Naval Reserve. Bill received his notice on June 14. He has been a member of the Naval Reserve Class V-7 for several months. He completed his college work and received the Bachelor of Business Administration degree from Baylor University in Waco the last week in May. He will leave Post about July 30 for New York.

**Visiting Parents Here**

David (Buddie) Williams, son of Dr. and Mrs. D. C. Williams, arrived in Post several days ago for a short visit. Buddie is an aviation cadet and is in the Meteorology school of the Air Corps. He is stationed at Grand Rapids, Mich. He took his preliminary training at Boca Raton, Florida, after volunteering into service while he was a student at Texas Tech.

**Promoted Private First Class**

Pvt. Shirley T. Elliott, son of Mr. and Mrs. Frank T. Elliott, of Close City has been promoted to the grade of Private First Class upon assignment to the Technical school, Army Air Forces Technical Training Command, Stout, Falls, S. D., training as a radio operator-mechanic. Before entering the service he was employed with Sears Roebuck Company. He graduated from Post High school in 1941 and attended NTAC in Arlington. He was inducted on Feb. 20, 1943.

**Receives Promotion**

Headquarters of the Medical Regiment Training Center at Camp Barkley, Texas, announced this week the promotion of James M. Bays, 11th Medical Training Regiment to sergeant. He resides at Post.

Pfc. Pervin G. Drake of Garden City, Kansas, has been transferred recently to Randolph Field in San Antonio, Texas, where he will take a course in cooking and baking at the school there. He is the son of Mr. and Mrs. C. D. Drake of this county.

Merrell Harper who is with the air corps has been moved to Santa Maria, California from Santa Anna. He has completed his basic training.

Price Manly of Sheppard Field is visiting his parents, Mr. and Mrs. J. P. Manly this week.

**Measures To Use For Athlete's Foot**

Effective measures for the dreaded summer disease, "athlete's foot," were disclosed by a prominent medical authority and will be helpful to those persons who suffer each summer from the common disease.

Effective measures suggested for preventing and avoiding recurrent attacks of "athlete's foot" are:

1. Dry carefully and thoroughly the spaces between the toes.
2. Use a mild alcoholic solution on these areas after drying.
3. Liberally apply a plain, unperfumed talcum to those areas and sprinkle it freely in socks, stockings, and shoes.
4. Wear socks that are absorbent but not too coarse. Shoes should be well fitting but not too tight; sufficiently roomy but not large enough to chafe and rub.

To have athlete's foot, the infection must be gotten either directly or indirectly from someone else. The most common places to contract the infection are around shower rooms, and other public places where persons go barefoot. It is estimated that at least one-third of all adults suffer from the infection at some time.

Mt. Thorvald Nilson in the Antarctic is higher than any peak in the United States. The United States is the foremost producer of oil and petroleum products.

**VARIETY**

Means a lot in a meal. That's why so many people enjoy eating regularly at The American Cafe. There is always a variety of delicious foods to choose from. And our prices are always low. Have dinner here today.

**ANNOUNCED FOR Scurry County RODEO**  
 Dates for Scurry county's monthly annual rodeo have been set at July 15-18, it was announced today. Bill Lyon stock are being used exclusively.  
 The annual roundup carries a prize of \$2,000 in war bonds stamps, according to J. C. ... president of the rodeo association. Downward said that additional bleacher seats are being ordered to handle the unusually large crowd that is expected.  
 Ray Irvin of Dallas is staying in the home of Mrs. Tom Anderson this week. She will be home the last of the month.

**Inspection Requirements Changed**  
 Tire inspections for commercial motor vehicles may now be made every 5,000 miles or every six months, whichever occurs first, ODT has announced. Previously, commercial vehicles had to have tire inspections every 5,000 miles or every 60 days, whichever occurred first.  
 Mrs. S. I. Marchbanks of Mottville spent last week as the guest of her brother, Ira Greenfield, and sister, Mrs. Dan Altman. She will be remembered as Arma Lee Greenfield. She and Mrs. Altman are spending this week in Peterburg and Canyon. Her husband is a petty officer in the U. S. Navy and is somewhere in the Pacific theatre of war.

**Pressure Cooker Care Is Most Important**  
 Information on the care of pressure cookers was provided by one of our readers in the Grassland community. Tips on the care of this precious piece of equipment were announced by Catherine Sands, Home Demonstration Agent of Lynn county.  
**Care of Pressure Cooker**  
 Anyone fortunate enough to have the use of a pressure cooker should take the very best care of it. Not only from the standpoint of safety, but to make it last as long as possible.  
 Keep the safety valve of the cooker clean. If it is the ball and socket type, wash it after each using. Soak these parts in vinegar or kerosene to remove food deposits and corrosion. A toothpick may be used to keep the opening of the gauge clean. Never let water stand in cooker. Keep it clean and free from odors at all times. To remove odors and stains use the juice of a lemon, 2 tablespoons vinegar, or a handful of Irish potato peelings with two quarts of water and process at 5 pounds pressure for 5 minutes. Always store the cooker where there is no danger of jarring or breaking the gauge. Crumpled paper stored in the cooker helps to absorb excess moisture.  
 Tin and enamel coatings scratch easily. This causes the steel base to rust, and the rust weakens the walls of the cooker. Avoid sharp blows, over-heating, boiling dry, or cleaning with harsh abrasive powders. Heating grease or fat at high temperatures in a tin plated cooker may cause the tin to melt; therefore the cooker should not be used for rendering lard or searing meat.  
 The edges of the lid should be kept free from rust, food, dents, and chipped spots to prevent the lid from leaking steam. Always be sure to have enough water to prevent cooker from boiling dry. If the lid sticks or the cooker leaks steam, rub the edges with cooking oil before replacing the lid on the cooker if the cooker lid is the type that does not have a rubber gasket.  
 Gauges on cookers should be tested with a maximum thermometer at least once a year, to see if the temperature corresponds to the pressure required.

**URGES PUBLIC TO DO OWN TRAVEL RATIONING**  
 Self-rationing of wartime travel by the American public and "stay-at-home" vacations were urged by Joseph B. Eastman, head of the Office of Defense Transportation, when he recently appeared on the public service radio program, "Washington Reports on Rationing." The program, which features prominent Washington personalities as guest speakers, is presented every Sunday afternoon by the Council on Candy as Food in the War Effort, an organization sponsored by the National Confectioners' Association.

**News Items From Barnum Springs**  
 Mrs. Arville Ferguson, Community Correspondent

Mr. and Mrs. Bill Long and children are back home from Crowell. Mr. Long has been assisting his father with the harvesting of their wheat.  
 LaVonne and Jimmy Ferguson left Friday morning for several weeks visit with their aunt and uncle, Mr. and Mrs. Carl Cederholm, in Amarillo.  
 Mrs. Arda Long has as her guest her sister, Mrs. Dorothy Duggar and children of Georgia. Mr. Duggar has been assigned to overseas duty.  
 Mr. and Mrs. Jim Ferguson and Mattie Myrl attended church in Post Sunday morning.  
 Mr. and Mrs. W. O. Cowan and son of Berger spent the weekend visiting in the R. E. Lewis home.  
 Miss Mattie Myrl Ferguson spent last week in Post visiting in the home of Mrs. John Cearley and called on other friends.  
 Visitors of the J. P. Howard family Sunday were Mr. and Mrs. Howard and daughter all of Post. Mr. and Mrs. Donald Pennell and children of Southland, Mr. and Mrs. Arville Ferguson, Albert Howard enlisted in the Air Corps and reported for duty at Lubbock Monday.

**'Reap the Wild Wind' DeMille Sea Epic, Coming To Garza**  
 Long and eagerly awaited by multitudes of film fans, Cecil B. DeMille's Paramount Technicolor epic of the sea, "Reap the Wild Wind," shows at the Garza Wednesday and Thursday, June 23-24.  
 It is the master showman's sixty-sixth production and marks the anniversary of thirty hit-crowded years. "Reap the Wild Wind" is one of the most discussed pictures ever to come out of Hollywood.  
 Inevitably it would concentrate in it the fruits of those years of experience, those years of gauging accurately public taste and being able to satisfy it. Few producer-directors have even dared to think on as grand and as spectacular a scale as this master of the filmmaking art.  
 Advance reports reaching this desk are that "Reap the Wild Wind" is DeMille's triumph! The great screen strategist has selected a really mighty cast for this powerful tale of men and women who fought to keep our seas free in 1840. In the chief starring roles are Ray Milland, Paulette Goddard and John Wayne. The main featured roles are occupied by Raymond Massey, Lynne Overman, Robert Preston, Susan Hayward, Charles Bickford and Walter Hampden.  
 The story, sweeping in its scope and thrilling in its elements, has a pace that carries it from the polished floors of the pre-Civil War ballrooms to the heaving decks of sailing ships breaking up on treacherous Florida reefs, and to the floor of the ocean where divers battle a giant squid.

**Wheat May Have To Be Piled On Ground In Area This Year**  
 J. M. Mahoney, Santa Fe railroad general superintendent of transportation, said much of the 1943 wheat, now beginning to move, probably will have to be piled on the ground.  
 Equipment formerly made available for the wheat harvest is being used by the military forces, he said, and a near shortage of cars exists now, two weeks before the deluge of harvest grain. Authorities say the 1943 wheat must remain in local storage until its movement becomes a war time necessity.  
 Mahoney said the motive power shortage is just as acute as the car shortage, pending delivery of 100 locomotives the Santa Fe has had ordered for a long time. About 7,000 cars are being repaired and carliners are being installed for handling grain. The crop has been estimated this year by railroad officials as better than an average yield, although it is believed to be 25 to 30 per cent below last year.  
 About 70 per cent of the wheat crop in Texas and Oklahoma is adjacent to the Santa Fe. A movement of 40,000 cars is anticipated, from Texas, Colorado, western Kansas and Oklahoma. Mahoney said 40,000 cars handled last year's harvest rush and since then the total of all has reached 100,000. Present storage is 55 percent filled with last year's grain, the survey reveals, which means there is space for 122,720,000 bushels of new wheat, and about 500,000,000 bushels to be taken care of.  
 Hale county last Wednesday reported the first load of 1943 wheat brought to an elevator. The grower estimated he would combine about 25 bushels an acre from his crop. The yield is under last year.  
 Mrs. J. A. Taylor and daughter, Marie, left Tuesday for Carlisle, N. M. where they will join Mr. Taylor to make their home.  
 Mrs. Dick Allen spent last week-end in Fort Sill, Oklahoma, with her husband, Dick Allen who was inducted into the army last week.

**War Work of a Santa Fe Wheat Car**

**Santa Fe**

*This statement explains why many Santa Fe box cars, built to move wheat during harvest season, are many miles away doing other war jobs.*

★ This year an estimated 75,000,000 bushels of wheat must be moved by the Santa Fe from the wheat states it serves.  
 It will take about 50,000 carloads to handle Santa Fe's big share of this vital job!  
 To move wheat and other grains, Santa Fe has specially built weatherproof box cars—but today, many of these cars are far from the wheat belt. Where are they? What are they doing? The map above will give you an idea—it shows the movement of a wheat car for the past four months.  
**A Wheat Car Gets Around**  
 Starting at Hutchinson, Kansas, with a load of flour for Boston, this wheat car has been kept rolling with vital war cargoes, including Army shoes, Army clothing, aluminum, lumber, machinery, and has just delivered a warload at San Francisco . . . far from the wheat belt where it is needed now!  
 In four months this car has covered 1,459 miles on Santa Fe rails, and 9,749 miles on the other railroads. No rest for a war worker these days, but a fellow sure gets around!  
**Every Car in Action**  
 Every Santa Fe box car, as well as box cars of all other railroads, is in action today. Some of these cars are too far away to be able to return to the wheat belt in time for use.  
 But guided by the wise direction of the Association of American Railroads, the Office of Defense Transportation, and the Interstate Commerce Commission's Bureau of Service, plus the friendly cooperation of the Army and Navy and war freight shippers, Santa Fe is making every effort to secure as many cars as can be spared from war movements to handle this year's wheat harvest.

### WORKING IN SILENCE

No headlines herald the progress of the medical profession in its efforts to distribute adequate medical care to every section of the country. As usual it serves in silence.

The American Medical Journal points out that there are two objectives which the doctors seek: First, the best distribution of available resources of medical personnel and the health protection of the largest number of people; second, the doing of this in such a way as to preserve the rights and advantages that inhere in local self government.

Moves are afoot to ease the medical licensing restrictions between states. This has been a stumbling block in the way of physicians moving from state to state in accordance with the needs of areas critically short of doctors. Another important step was the recent formulation of plans whereby the United States Public Health Service could help meet the need for medical services in critical areas. The doctors are striking, irrespective of thinning ranks, to maintain one physician to 1,500 people. In some cases the average may be less, but even so Americans will still be the best cared for people in the world.

Germany doctors are practically non-existent for civilians. Russia is no better. This fact should be noted carefully. Both the Russian and German systems were prepared for war under "planned" dietatorial economies, yet the test of global war found them both wanting as compared to the progressive American system, built on the foundation of initiative, service and sacrifice of our independent medical profession.

Buy a War Bond today!

### PLANNED HOUSE OF CARDS

The "planned economy" this nation is living under has promoted high production costs while demanding low prices for consumers. The formula reads well, but it doesn't work. You can't arbitrarily boost the cost of production and hold down the cost of living.

This being illustrated once more in the falling off of new oil discoveries. Wildcat drilling cannot be carried on with hot air. It takes money—more money than it did before the "war boom." OPA suggests a "government subsidy" (money from every taxpayer's pocket), in lieu of a necessary crude oil price increase, to encourage the search for new oil reserves which will soon be desperately needed by this nation.

Petroleum Administrator Ickes has recommended an average increase of 35 cents a barrel, instead of a subsidy. Oil men do not want subsidies—which mean taxpayer-financing of wildcatting. Many producers feel that the subsidy proposal is an attempt to put the government into the oil business.

A subsidy dodges the basic issue of allowing prices that will cover fair production costs. The people pay either way, but there will be less waste and less inflation in production financed with taxation.

### IDLENESS

Secretary of Labor Frances Perkins says that in 1942 the man-days of idleness, caused by strikes or lockouts, amounted to less than five-tenths of one percent of the time worked in American industry.

Hawaii's climate is so uniform that the native language has no word for "weather."

# FOOD GOES TO WAR

ABOUT 25% OF OUR FARM OUTPUT WILL GO TO OUR ARMED FORCES AND ALLIES

OUR ARMED FORCES & ALLIES WILL GET...

- 1/4 OF THE MEAT
- 1/3 OF THE EGGS & LARD
- 1/2 OF THE CANNED VEGETABLES

MEET YOUR Farm GOALS

Food sent to our allies will help win the war quickly & save American lives

Civilians will have less of many foods, but will get plenty for a healthful & balanced diet

### Views of Neighboring Editors:

The Lynn County News—Some of our boys who have been to the Southwest Pacific since the outbreak of this war tell us that the natives of many of the islands are looking eagerly to the time when they may become American citizens.

America is their ideal. Do you wonder why?

Well, wherever the Stars and Stripes have floated for any considerable length of time over any of the islands of that region, the people have advanced as if by magic from the ways of savagery to the ways of civilization. To them, Uncle Sam has been a philanthropic old uncle.

Scurry County Times— Tire panel personnel of Scurry County's War Price and Ration Board deserves this week a vote of thanks

### THE FIDDLER'S BILL

Anti-inflation palliatives are doomed to failure unless quickly followed by effective measures to control the cause of inflation. The cause of inflation is directly traceable in a large measure to Federal financing policies. As long as tax favoritism and wage favoritism toward great masses of voters prevail, and as long as those so favored fail to invest a large share of their record wages in war bonds, no power on earth can stop inflation.

from the people of Scurry County for the grand job done several days ago in obtaining a special tire allotment for the county, at a time when it looked as though dozens of necessary automobiles would have to be taken from the road.

Scurry County's War Price and Ration Board, through its various panels, is doing a mighty good job during these crucial times of rationing, and deserves the whole-hearted backing of Scurry County citizens. United with the people, the ration board can keep 'em rolling for victory and freedom, but without the unified support of all citizens will be handicapped in obtaining every tire and tube, every pound of sugar and coffee Scurry County is really due to get.

The Rolls Banner— If we don't look out pretty sharply we are going to wake up some fine day and find practically all our food and most of our livestock feed rationed. The present situation finds wheat being sold at sub-market prices for stock feed, while the embargo on wheat has been lifted and wheat for milling is being shipped into the United States from Canada. Also all penalties were remitted on surplus wheat. Yet with an impending shortage of wheat the precious bread grain is being fed to cattle. We do remember in the other war that member were urged—maybe required—to observe wheatless days. Yet if that should be done now, it would hardly be patriotic to take the corn right out of the mouths of the boys. So we aim to save every grain of wheat we can and see if there is not soon a great need for it.

The Liberty Vindicator— Here is an important excerpt from a coast guardman's letter. It has a message for post-war planners: "Now and then a civilian gives me a lift, buys me a drink. When I thank them, they usually reply, 'Well, it's the least we can do for you fellows in the service.'"

"I don't care about the lifts, about the drinks. Not much, certainly. What I do care about is that these civilians try to plan a world that discourages war, that they rid themselves of prejudices of an anti-social character."

"It's little comfort to fight for a drink, a lift, a glad hand. What I want is that the future is free of war."

"I don't want anyone to feel indignant toward a young lad because he may be killed..."

## Mrs. Will Teaff Hostess To Merry Makers Tuesday

On Tuesday, June 8, twenty-one members of the Merry Makers club met with Mrs. Will Teaff in an all-day quilting. There were eight visitors: Mrs. O. R. Cook, Roy Maddox, Irene Cockrell, and Muriel Popham and Misses Fieta Maddox, Eloise McNabb, Jimmie and Georgia Teaff.

A very enjoyable day was spent in quilting out two lovely quilts. Each lady brought a covered dish and at noon a nice lunch was served.

Mrs. Ruth Kiker heard from her club pal. Plans for the party for the club members and husbands were discussed.

Each member answered the roll call by relating their girlhood dream, not very much of which happened to come true, but nevertheless proved to be very interesting, judging by the laughs that resulted.

The next meeting will be with Mrs. Lonnie Curry on Tuesday, June 22, in the afternoon. Every club member is urged to be present as a very important matter is to be discussed then. —Reporter

## Graham Homemaker Club To Sew For Red Cross On June 24th

The Graham Homemakers club met on Thursday afternoon, June 10, with Mrs. Letha Porterfield as hostess. We had 12 members and 7 visitors present. We also had two new members, Mrs. Mollie Morris and Mrs. Naomi Morris. The afternoon was spent in quilting the hostess' club quilt.

Our next meeting will be on June 24 at the school house in an all day meeting. We will have about 5 quilts up at this meeting to quilt for the Red Cross. Every lady in the community is urged to be present at this meeting and help quilt. Bring a covered dish, your thimble and a needle and be there by 10 o'clock a. m. —Rep.

## Busy Bee Club Met In Arville Ferguson Home June 10th

The Busy Bee club members met in the home of Mrs. Arville Ferguson last Thursday. Eleven members were present and enjoyed the afternoon visiting and quilting. Mrs. J. P. Howard and Mrs. J. A. Dickson were visitors.

Mrs. Arda Long was able to be present and take up her duties as president. The members were called to order at 3 o'clock for the business meeting. Mrs. Ray Hodges joined the club.

Refreshments of orangeade and doughnuts were served.

The next meeting will be an all day affair in the home of Mrs. Arthur Dickson on June 24. —Reporter

## Eastern Stars Install Officers At Southland

Officers of the Order of the Eastern Star were installed in a public installation service Thursday night at the Masonic hall with fifty persons attending.

Mrs. Walter Kellum was installed as Worthy Matron; Walter Kellum as Worthy Patron; Agnes Collinsworth, Associate Matron; L. Collinsworth, Associate Patron; Beulah Wheeler, Conductress; Doll Haire, Secretary; Annie Landers, Treasurer; Allyne Dunn, Marshal; Alice Martin, Chaplain; Maggie Denton, Ruth; Emily Dean, Esther; Bell Wood, Martha; Maxine Wood, Electra; Tinnie Smallwood, Warder; George Collins, Sentinel; Gloss Davies, Associate Conductress and Amanda Cook, Adm. were unable to attend and be installed.

Red, white and blue tapers furnished light in the flower decked hall. Installing officers were: Mr. and Mrs. Carl Stewart and Ruby Stewart of Lubbock and Mrs. Mabel Greer and Mrs. Prosser of Slaton. Misses Wilma Wheeler and Pauline Stotts presented a friendship boat to the Worthy Matron which bore flowers and best wishes from the five points of the emblematic star.

## Victory Club To Sew Tuesday at Grassburr

Listen! Victory ladies, we are to meet at the teacherage at Grassburr on June 22 to put in two quilts and quilt. Every lady of the community is urged to be present and bring your needles, scissors and thimbles. —Reporter

Mrs. Paul Moore and daughter Caroline returned Monday from Desdamonia where they visited her grandmother, Mrs. C. H. Gengway. Her mother, Mrs. Luther Harper of Belton, joined her there for a short visit.

## Virginia Elliott-Pfc. Louis Williams Married On June 9

A simple but very impressive military wedding was performed for Miss Virginia Elliott and Pfc. Louis Williams on June 9 at nine o'clock in Colorado Springs, Colorado. The ceremony was read in the chapel of the post with only close friends of Mr. Williams attending. Chaplain McDonald officiated.

Attending the couple was Sgt. Sothoff who served as best man. Corporal Planter gave the bride away.

Miss Elliott, whose home is in Spur, has taught school here for a number of years. This year she was principal of the Verbena school and recently was re-elected to that position. She has taught in Justiceburg, Post, and Grassburr and has a wide following of friends who wish her much happiness.

Pvt. Williams before entering the army was engaged in farming in Lynn county.

## Former Post Teacher Now Gunnery Instructor

Miss Quannah Lewis of Lubbock, and former English instructor in Post High school, recently received third class T rating as an instructor in gunnery at the Naval Training Station at Pensacola, Florida.

Miss Lewis enlisted in the WAVES last February and after taking indoctrinational training and a course in gunnery, was transferred to Pensacola about six weeks ago.

Friends of Miss Lewis in Post may be interested to learn that her address is: Miss Quannah Lewis, T3c, Naval Training Station, Bldg. 650, Pensacola, Florida.

Bonnie McMahon and Mrs. Avon Dunlap left Wednesday for San Diego, Calif. They will visit Miss Moben's niece, Mrs. Jason Justice. Mr. Dunlap is in the navy.

## Rev. Jim Moudy To Enter U. S. Army In Two Weeks

Rev. Jim Moudy received notice of his endorsement as a Chaplain in the United States Army and will report to Harvard University in about two weeks, he informed members of the First Christian church here Monday. Sunday will be his last time to preach here.

The popular young man has served the church as pastor for two years. Previously he was pastor of the church at Eddy, Texas, and was assistant pastor at McKinney, Texas. He graduated from TCU with honors the first week in June and plans to return to school for graduate work after the war. He received several honors during his four years of college. Among those listed are: election to the Alpha Chi honorary national scholarship society; and Pi Gamma Mu, honor national social science fraternity; gold medal winner of annual Gough oratorical contest.

Moudy is the son of Mrs. Helen S. Moudy and the late Alvin Curtis Moudy of Greenville, Texas. His mother has just returned to Washington, D. C., after three weeks visit in Fort Worth where she attended his graduation and ordination. She is an employee of the Navy department in Washington, D. C.

Before entering TCU to study for the ministry he was an employee of the Civil Service department in Washington. He is a graduate of the McKinley Technical High school of that city.

Plans are underway by church members to hold a farewell dinner in Rev. Moudy's honor.

## CANNING SUGAR

Sugar for home-canning of 1943 fruit crops will be available to housewives on approximately the same basis as last season, the Office of Price Administration has announced. No deduction of blue point stamps will be made from War Ration Book Two for sugar obtained for this purpose.

In the 1942 season, housewives applied to their local War Price and Rationing Boards for allotments of sugar on the basis of one pound for each four quarts of fruit that it was planned to can and in addition, for one pound for each member of the family. Roughly the same pattern will be used to give home-canning sugar allotments this year although there will be some refinements in procedure. Under present regulations, local boards have authority to set the time and place for registration.

## First Baptist Church

R. C. Tennison, pastor  
Bible school 10 a. m.; Training Union 7:45 p. m.; Preaching 11 a. m. and 8:45 p. m. Morning subject, "Show Thyself a Man." Evening message, "Mamma The Leper."

Sunday is a Father's Day—Let us honor him by being present this Sunday. We are expecting a large number of fathers in Sunday school and church Sunday. Come and bring your family. We need men. Men need to set an example. Do as you would have your son to do. Find your place in services Sunday.

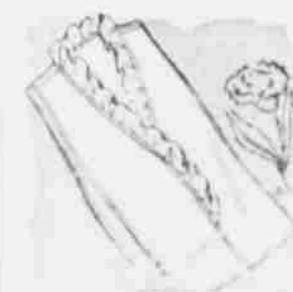

Mr. and Mrs. Bert Dugger and daughters, Janet and Carolyn, of Tampa, Florida, arrived Friday and will spend a few weeks with her parents, Mr. and Mrs. B. W. Pennell.

## VICTORY HINTS

To tightly fasten corks in bottles, boil the corks for five minutes to soften them and then, while hot press them into the bottles. When cool the seal will be perfect. Sealing tomato juice in bottles this year will be to an advantage as jars may then be used for additional vegetables.

The constant use and washing of silver gives it the "butler" finish you find on restaurant silver.

One of the secrets of good chowders and thick soups is to let the vegetables do the thickening. Potatoes and other vegetables will cook down so that they will thicken the soup themselves, without the addition of flour and fat. If flour is added to thicken a soup, it will use too much and be sure to cook it enough to give it a distinctive flavor. Unless flour is used carefully, the cream soups come out tasteless.

Do not throw away used paraffin from jelly glasses. Wash in cold water and dry them and place in an empty tin can. When the can is filled, they should be melted together to form a cake and covered. Thus, they will be kept fresh and as good as ever for next season's glasses.

Write To Men In Iceland

"American soldiers in Iceland are not getting nearly enough mail from home," said Chaplain Peter E. Cullom, who recently returned to the U. S. after two years of duty with Icelandic garrisons.

Mrs. B. W. Pennell had an operation at the Plains Clinic Tuesday morning. She was accompanied to Lubbock by her husband and her daughter, Mrs. Bert Dugger who is visiting here from Tampa, Florida.

Ruth and Francis McNeely are visiting in the home of their grandparents, Mr. and Mrs. O. R. Cearley, and other relatives for a few days.

"The Hard Way" Coming To Garza Sunday - Monday

"The Hard Way", starring Ida Lupino, Dennis Morgan and Joan Leslie will show at the Garza Saturday night 11:30, Sunday and Monday.

This is the story of a deeply ambitious and luxury loving woman whose fanatical love for her only sister leads her to such lengths that she ruthlessly exploits all those who stand in her way.

Ida Lupino portrays the role of Helen Chernen, with Joan Leslie playing the innocent and talented young sister Katherine.

Pitted against them are Dennis Morgan and Jack Carson, cast as the vaudeville team of Runkel and Collins, whose lives are intimately linked with those of the sisters.

The dull and sordid mining town of Greenhill, Pa., has left its mark on Helen Chernen, and she is determined that her young sister shall not suffer the same fate.

Albert Runkel, simple, lovable partner of the small-time troupe of Runkel and Collins, plays into her hands when he expresses keen admiration for Katherine. Through skillful, calculating strategy, Helen maneuvers the marriage of Katherine and Albert, so that they can all leave the next day with the troupe on a cross-country tour.

Helen's next move is to get Katherine into the act, and this she does by calmly and methodically formulating a quarrel between Runkel and Collins, the two partners.

With indescribable energy and driving force Helen succeeds in securing a key spot for Katherine in a Broadway revue.

Katherine's fresh, unspoiled charm, coupled with real talent, lead her from one success to another, and when she becomes the top musical comedy sensation, Helen, ever avid for more, angles for the leading role in a dramatic play.

Katherine's gradual realization that she is merely an automaton in the hands of her ambitious sister fill her with intense hatred for this way of life, and she is determined to change it.

Miss Hazel Evans has been the house guest of Miss Arbeth Clark for several days. She is living in Carlsbad, New Mexico, and is employed with the Classification section of the Army Air Forces Bombardier School. Miss Evans is a former resident of Post and was employed for a number of years with the First National Bank. She makes her home in Carlsbad with Mr. and Mrs. Guy Speck, other former Postites.

Luis and Gene Rogers spent last week in Post with their grandparents. Mr. and Mrs. Lee Dodson.

Have You Met John Doe?

You should know John Doe. He's a very fine fellow who lives right in your neighborhood. He probably goes to your church, his children go to school with your children. Mrs. Doe is active in the P.T.A. and other civic groups, little Johnnie is a Boy Scout and sister Sue is "twice as cute as Shirley Temple."

All in all the Doe family is typically American—nice folks to know. And the Does are typical, too, of hundreds whose efforts combine to render the public services offered by the Southwestern Public Service Company.

John is a composite linesman, engineer, electrician, trouble-shooter, executive or lighting expert. But whatever his particular job he has only one main purpose—that is to give you the finest, most dependable electrical service money can buy at the lowest possible cost. His hours are not long, but he is ready to serve you 24 hours a day if necessary, so that even in emergencies you may take for granted the miracle of convenience that is electricity.

Southwestern PUBLIC SERVICE Company
