Eight Teams Open Play Here Tonight In Rotary Tourney

Play in the Post Rotary Club's 3rd Annual Independent Basketball Tournament will get under way at 6:30 p. m. Thursday, with eight teams competing for three cash prizes totaling \$75.

LEWIS HERRON ELECTED CHAIRMAN

August Dates Set For Junior Rodeo

Aug. 11, 12, 13 and 14 were set as the dates of the 1954 Post Junior Rodeo at a meeting Monday night of stockholders and directors, held in the district

courtroom. Sixty-eight persons were present to break all previous records for attendance at a meeting of the organization.

Lewis Herron elected chairman

The championship team will receive \$40, the runner-up, \$25, and the consolation winner, \$10.

Three new directors for the 1954-55 club year were elected at Tuesday's luncheon of the Post Rotary Club. They are R. J. Jennings, R. H. Tate and E. R. Moreland.

Rotarians Pick New Directors Here Tuesday

Outgoing directors are O. L. Weakley, Tom Bouchier and J. A. Stallings. Weakley and Bouchier were filling out the unexpired terms of Monta J. Moore and O. G. Murphy, respectively.

At next Tuesday's luncheon, new officers are to be elected for the ensuing club year.

The Post High School choir was heard at this week's luncheon, substituting for the grade school choir, which was unable to appear because of the illness of its director, Miss Wanda Rogers. John Christopher is director of the high school choir.

Five Holidays Are Set For Closing

The same five holidays as last year—New Year's, Memorial Day, Independence Day, Thanksgiving and Christmas—were approved as city-wide closing dates by members of the Post Chamber of Commerce at Friday night's banquet.

None of the specified holidays fall on Saturday this year, which is expected to result in more nearly 100 per cent closing than was the case in 1953 when both Memorial Day and Independence Day fell on Saturdays.

Concert Group Meeting Is Set Here Tonight

Conclusion of this year's concert season will be discussed and preliminary plans made for next year's at a meeting of officers and directors of Garza Town Hall and Concert Association at 7:30 o'clock tonight in the home of Mrs. Carl Webb, president.

The final concert in this season's series of four will be presented Monday night, March 8, when Joseph Callaway, actor, director and lecturer, appears at the Post Grade School auditorium.

Buffalo Barbecue Set For Friday

The spirit of the Old West will be revived here Friday afternoon at a buffalo barbecue being served at the rodeo grounds by members of John Miller Post 6797 of the Veterans of Foreign Wars.

Races Develop For Six County Offices

Garza County's field of political candidates was increased to 21 this week when two more announced for office.

Sanction Closing Of Firms For Revival

Acting upon a request of the Post Ministerial Alliance, directors of the Chamber of Commerce have voted to sanction one-hour closing each day of business firms during simultaneous revivals to be held in churches of the city during Holy Week, beginning April 11.

Swim Pool To Be Of Standard Size

The swimming pool now under construction at the northwest corner of the city park site will be of standard size, city officials said today in spiking rumors that the pool will be smaller than the average.

C. OF C. OFFICERS AND DIRECTORS—Shown here are nine of the officers and directors of the Post Chamber of Commerce, which held its annual membership banquet Friday night. Front row, left to right are: E. R. (Buster) Moreland, Powell Shytles, George (Scotty) Samson, new vice president, and Mrs. Ira Greenfield, secretary; back row, 1 to 9: Bryan J. Williams, Jr., Tom Power, R. J. (Rube) Jennings, W. S. Duckworth, re-elected president, and Ira Greenfield. Other directors are Victor Hudman and Ralph Kirkpatrick.—(Staff Photo).

PIONEER MERCHANT IS PRINCIPAL SPEAKER 85 Attend C. Of C. Banquet

A down-to-earth talk on the value of a Chamber of Commerce to its community was heard by members of the Post C. of C. at the annual membership banquet Friday night at the City Hall.

'Get Hold Of Great Idea,' Speaker Tells Boy Scouts

"It was an 'ornery' group of Americans that started the Revolutionary War, but they succeeded in founding a new nation because they let a great idea get hold of them," the Rev. W. H. Vanderpool, Littlefield First Methodist Church pastor, said Monday night at a Boy Scout father-son banquet at the school cafeteria.

New Meeting Time Set By Jaycees

Members of the Post Junior Chamber of Commerce voted Monday to change the time and place of their regular weekly meetings.

500 QUOTA IS ASSIGNED

County USO Drive Slated

Garza County will stage its 1954 campaign for the USO between now and March 1, County Chairman James Minor said Monday.

The speaker listed "four institutions which make a good town—the home, the church, the school system and the chamber of commerce."

Greenfield's talk followed a banquet meal and reports from numerous individuals—introduced by Tom Power, master of ceremonies—regarding various phases of the organization's activities during 1953.

Each Boy Scout introduced himself and his father. Others introduced included Marshal Mason, pioneer Post business man, who started the first Scout troop in Post, and who has been a member of the South Plains Council staff for more than 20 years.

Guilty Pleas Bring Heavy Fines, Costs

Fines and costs totaling more than \$2,150 were assessed three Negroes in Garza County court Monday following guilty pleas on eight charges of liquor law violations.

Upon completion of this cycle he will graduate at a formal parade and retreat ceremony, and then be eligible for assignment in a permanent antiaircraft artillery unit.

Abernathy Takes Three From Post

All three Post High School basketball teams were defeated Friday night at Abernathy in their final road games of the season.

The varsity boys lost, 71-43; the girls, 45-31, and the "B" boys, 41-19.

Donnie Beard and Jack McGuire paced the Abernathy attack with 21 points each in the "A" boys game, while Moody Graham led Post with nine points.

In the girls game, the score was tied, 21-21, at halftime, but the Antelope sextet surged far ahead in the third quarter. Joy Martin was Post's high scorer, with 11 points.

Slaton Tigers Trim Floydada Whirlwind

The Slaton Tigers defeated Floydada's Whirlwinds, 55-51, at Slaton Friday night to send the two teams into a tie for the District 5-AA lead.

The teams were tied, 13-13, at the first quarter, with Floydada holding a 31-28 lead at the half and a 44-43 lead at the end of three quarters.

Proposed Farm Program Effects On Major Commodities Told

(EDITOR'S NOTE: Following is another in a series of questions and answers which gives information on the chief provisions of the new farm program recommendations covered in a special message to the Congress from President Eisenhower.)

Q. Why should CCC's borrowing authority be increased?

A. Because its financial obligations are now pressing hard against the \$6.75 billion limitation on its borrowing authority. An additional authorization to \$8.5 billion is necessary to cover price support commitments for 1954 crops alone.

Q. How would the new program affect major farm commodities?

A. WHEAT—The provisions of the Agricultural Acts of 1948 and 1949 would apply, with the price support level to depend upon supply. The computation of parity for wheat would be modernized beginning Jan. 1, 1956.

The authority for acreage allotments and marketing quotas would be continued, but lower price support levels would take away some of the incentive to grow wheat on land better suited for pasture or other crops. It would also open new market outlets. There would be less need to restrict production as the nation moved away from fixed supports at 90 per cent of the old parity.

It is recommended that a sizeable portion of the wheat surplus be "frozen." This reserve would not be considered as part of the total supply used in determining price support levels and acreage allotments.

COTTON—Price supports between 75 and 90 per cent of parity, dependent upon supply, would go into effect as set forth in the Agricultural Acts of 1948 and 1949. Modernized parity would become effective as scheduled on Jan. 1, 1956, the difference involved being less than 4 per cent.

Under the proposed program, Congress would repeal the provisions which require that production controls be fully applied before there can be any reduction of the price support level.

A part of the cotton carryover now in prospect would be "frozen" effective Jan. 1, 1955. The new program could then become operative without the burden of the present excess reserves.

CORN—Support would range from 75 to 90 per cent of parity, according to the relationship of total supply to normal supply. Under the 1948-49 law the level of price support would drop one per cent for each per cent increase in supply.

Under the proposed program Congress would take several steps to amend existing legislation. One would prevent a decline of more than 5 per cent in the support price on corn in any single year as a result of the transition from the old to the new parity formula. Another would provide that the Agricultural Act of 1949 become effective as scheduled for the corn

crop of 1955 and subsequent crops. A third would provide a decrease of one per cent in support price for each one per cent increase in supply, instead of one per cent for each two per cent increase in supply.

This change would give greater flexibility to corn support prices and help prevent the building up of surpluses. A fourth legislative change would raise the normal carryover allowance for corn from the present level of 10 per cent to 15 per cent of domestic disappearance plus exports. A fifth would make the modernized parity formula effective Jan. 1, 1956. And a sixth would suspend requirements for marketing quotas on corn because they cannot be effectively enforced.

Corn stocks would not be frozen. Since there is little hope for a substantial export market for corn, our large stocks can be used as feed for livestock and poultry and our growing population.

OTHER FEED GRAINS—The

present program would be continued for oats, barley, and grain sorghum. The Agricultural Act of 1949 authorizes price support for these non-basic crops at not to exceed 90 per cent of parity. The amounts, terms, and conditions of price support operations and the extent of such operations is determined by the Secretary of Agriculture.

Ford's New Ball-Joint Suspension gives you the Newest Ride on the Road!

This revolutionary new Ford front suspension soaks up road shock before it reaches you! Makes all riding and handling easier!

Seals out dirt. You can forget road splash because dirt and water can't get into the ball joints in Ford's new front suspension. Each of the four joints is effectively sealed by a unique rubber-and-metal shield. This means that contact surfaces of each ball and socket remain clean—wear is kept to a minimum.

Keeps that new-car feel. You'll enjoy Ford's new-car feel much longer because ball joints are spring-loaded to compensate automatically for any wear. Front wheels hold alignment far longer than with conventional systems. Ball joints can't stick or bind. Steering remains consistently easy.

The "old" roads won't seem the same with Ford's new Ball-Joint Suspension "paving" the way for you. You'll enjoy a softer, more level ride because Ford's new system allows greater shock absorbing movement of the front wheels. Handling is far better, too. That's because conventional kingpins have been replaced by simple, sealed ball joints that won't stick or bind. No other car in Ford's field can equal Ford's ride—because no other has Ball-Joint Suspension.

Agile new performance, too, is yours in a '54 Ford... whether you choose Ford's new 130-h.p. Y-block V-8 or 115-h.p. I-block Six. And no matter which of Ford's 28 new models you choose you enjoy recognized style leadership—with clean, modern lines... sparkling new colors... and harmonizing upholstery fabrics and trim.

Eliminates 12 wear points. Ford's Ball-Joint Front Suspension eliminates 12 of 16 points of wear found in conventional systems. Rubber-bushed supports at inner ends of suspension control arms reduce the number of wear points and insulate chassis from road noises.

We cordially invite you to Test Drive a

School Money Must Be Substituted For Land, Now That Frontier's Gone

AUSTIN (Spl.)—The frontier endowed Texas' public school system with public lands, but now that the frontier is gone money must be substituted for land, Dr. Walter Prescott Webb said. By giving public lands, some 19th Century Texans saw the opportunity to endow the state's educational system without resorting to taxes, the famed historian of the frontier said. He explained the "check" was made good with other lands and a total check for \$17,180. In considering the frontier's contributions to public education in Texas, Dr. Webb asserted, "In my opinion we would have some form of public education without the frontier, but the system in the nation and in the state would not have been established as early, and it would not be nearly as well developed as generally accepted or as well endowed as it is."

Insect Control Guide Is Available Here

COLLEGE STATION (Spl.) — Insect pests frequently attack ornamental plants around the home and in many instances insecticides are the only means of control.

The 1954 Guide for Controlling Insects on Ornamental Plants in Texas, a handy guide for home owners on insecticides and their uses, is just off the press and is now available from County Agent Lewis Herron.

Compiled by Neal M. Randolph and F. M. Fuller, Jr., extension entomologists, the new 1954 guide lists control methods and insecticide doses for more than 50 common insect pests.

In addition to containing instructions on mailing insect specimens to Texas A. & M. College for identification, the bulletin tells how to store and handle household and bulk insecticides.

It also gives a brief outline of the three type poisons—stomach, contact and fumigant—and how each works.

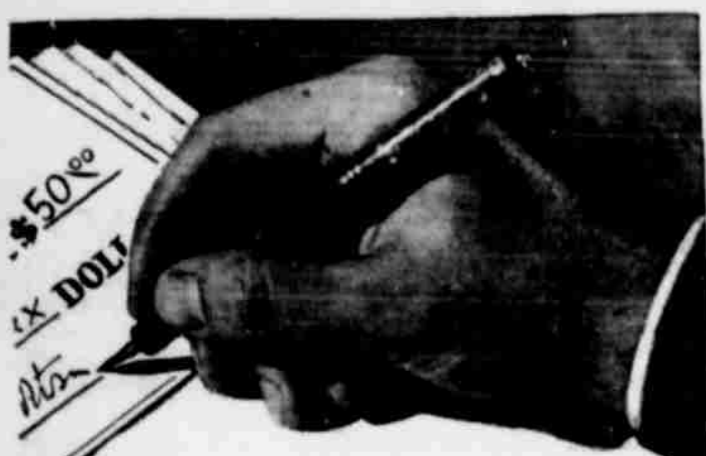

Additionally, the bulletin contains a useful dilution chart for mixing sprays at home. For example, two teaspoons of 50 percent wettable DDT added to one gallon of water makes a handy spray. This is only one of 25 such dilutions listed in the guide.

Copies of the bulletin, C-341, Guide for Controlling Insects on Ornamental Plants in Texas, 1954, are available from any county agent or from the Agricultural Information Office, College Station, Texas.

Plan Improvements At Tower Theater

H. J. Griffith and Louis Higdon of Dallas, owners of Frontier Theaters, Inc., of which the Tower Theater here is a unit, were in Post last week to discuss with John N. Hopkins, Tower manager, proposed improvements at the local movie house.

The improvement plans here, Hopkins said, include bringing screen and other facilities up to date in order to give movie-goers of the Post area the best in motion picture developments.

No definite announcement was made as to when the improvement program is to get under way, but it is planned for the near future, the Post theater manager said.

In Statement To Precinct Voters

L. E. Claborn, Sr., who announced several days ago for re-election as Precinct 1 constable, subject to the Democratic primary in July, this week issued the following statement to the voters:

"To the voters of Constable Precinct 1:

"I wish to announce my candidacy for re-election as your constable, and earnestly solicit your vote and influence in the coming elections.

"I have served in the office to the best of my ability and will continue to do so if re-elected.

"It is my intention to see each of you personally between now and the election. In the meantime, I solicit your vote and influence."

Baseball Drills Get Under Way

Candidates for this season's Post High School baseball team began working out Wednesday under the supervision of Coach Vernon Ray, whose high school basketball team completed its season Tuesday night.

Coach "Bing" Bingham is still coaching 8th and 9th grade basketball, with their season continuing until after two tournaments scheduled for March. He will then begin track and field practice and assist Ray with baseball workouts.

District 5-AA teams will compete in baseball this season, and a complete district schedule has been arranged.

Grade Cagers Nose Ralls Team, 28-27

Sidney Hart calmly sank two free throws in the final seconds to give the Post Grade School basketball team a 28-27 victory over Ralls in the high school gym here last Thursday evening.

The game was a nip-and-tuck affair throughout, with the two charity tosses being all that pulled the game out of the fire for Coach Herman F. Raphael's team.

The grade school five is competing this week in a tournament at Southland, and will play in another tournament at Graham Feb. 25-27.

PLAYED TO DEADLOCK—Trophies were awarded both teams when the Post Blacks and Golds battled to a 35-35 tie in the championship game of the first annual Post Junior

High School Basketball Tournament. Receiving the trophy for the Blacks were Charles Kilpatrick (No. 30) and Kenneth Martin (No. 36), and for the Golds, James Williams (No. 27) and Noel White (No. 24). —(Staff Photo).

ALL-TOURNAMENT TEAM—These five players comprised the 9th grade all-tournament team selected at the conclusion of the first annual Post Junior High School Basketball Tournament. They are, left to right: Damon Etheridge, Post; Louis McNeely, Ralls; Noel White, Post; Vernon Dollar, Idalou, and George Graham, Post.—(Staff Photo).

About 120,000 horses were pulled in the United States in 1884. About 50,000 people are employed in the Swiss watch industry.

Boudreau Claims Best Outfield in Game

In the two months which have elapsed since the Red Sox obtained Jack Jensen from Washington, Manager Lou Boudreau has come out with three different plans for deploying Jensen and Jimmy Piersall in his outfield.

According to a story in the current issue of The Sporting News, originally, Boudreau declared he would wait to see how things go in spring training. His second setup was to play Piersall in the vast right field at Fenway Park and center field on the road. Jensen, of course, would patrol center field at home and right field in the seven other American League cities.

Recently when Lou was in Boston he announced his third program. "Piersall is going to be my center fielder," said Lou, "and Jensen my right fielder. That's where they'll play in the spring exhibitions and when the season opens in April." Always cautious, Boudreau adds, "unless I find that Jensen can't play right field in Boston."

Third man in the Sox outfield, of course, is Ted Williams. "This outfield," claimed Lou, "is by far the best in baseball, not only offensively, but defensively. Everyone knows about the fielding and throwing and running of Piersall and Jensen. The case of Williams is different."

"Because Ted is known as a hitter, his fielding has been overlooked. He's also a top defensive outfielder, but the fans and writers only look to him as a hitter."

Players' Pay Among Small Cost Items

Major league player payrolls are the highest in history, but they are far from being the most important items of a club's expense. The Sporting News reports Walter F. O'Malley, president of the Brooklyn Dodgers, as saying, apparently unmindful of the fact rival owners are crying "poor mouth" while trying to get their athletes to sign contracts for 1954.

"Our biggest payroll is to Uncle Sam," O'Malley said. "We pay the government two dollars in taxes for every one dollar we pay to players."

"Furthermore, it costs more to operate Ebbets Field, with ground crews and such things, than it does to pay players. Or if you want to consider another big expense, which makes the player payroll seem a small part of the over-all cost of operating, consider the farm system. Or for that matter consider how much it costs to transport and house a team from the start of spring training to the end of the World Series."

Walt Framer, a TV-radio agent, offered Joe DiMaggio and Marilyn Monroe a million dollar deal to appear in a husband-wife TV show, reports The Sporting News. Incidentally, Joe could be had for a TV guest shot at \$350 before he married Marilyn. The price is now 5,000 bucks. Seems that a lot of folks who are not baseball fans want to see the outfielder now.

Preacher Roe of the Dodgers has fattened up for the kill, says The Sporting News. He reports he's added 20 pounds to 190 from a winter of hunting and fishing. Preach has skinny, spindly legs, and there was a time one of the dugout jockeys jibed, "Hey, Preach, do your legs swell up that way every year?"

Water pressure of about 65 pounds to the square inch is near the limit of human endurance.

Post Girls Win Final Tilt from Slaton; Boys Lose

The Post High School basketball teams wound up their season here Tuesday night against Slaton—the girls winning, 40-39, the "A" boys losing, 55-39, the "B" boys dropping a 7-point contest.

The games were played before the largest crowd of the season, many Slaton fans accompanying the Tiger teams here for the contest.

An upset victory for the Post city boys would have given Floydada Whirlwinds a clear lead to the district crown, since they vanquished Tahoka, 40-32. It is Slaton and Floydada tied for the title and a playoff will be necessary to determine which team represents 5th in the bi-district playoffs.

The added attraction to Tuesday night's three-game card was just before the "A" boys game when Charles Chandler crowned "sweetheart" of the girls team.

In the varsity boys game, Slaton behind the smooth shooting Jerry Reynolds, jumped off to a 15-6 first quarter lead, but was held to only six points in the second quarter. Meanwhile, Post offense was coming to life with James Dye doing most of the point making, and Coach Vernon Ray's Antelopes pulled up a 17-15 count at one stage. The quarter ended, however, with visitors out in front, 21-16.

The Tigers found their shooting eye again in the third quarter, score 18 points while holding the Antelopes to seven, and the score was 39-23 at the end of the period.

Reynolds was high point man, with 15, while Dye finished with 13 for the Antelopes.

Except for the opening seconds of play—Slaton scoring the first bucket—the Post girls were ahead all the way in their game. They led 14-8 at the end of the first quarter, 21-16 at halftime, and 27-19 at the third quarter mark.

De Elva Lofton took scoring honors with 23 points, while Joy Martin added 13, Martha Allred, with 19, and Ova Sue Wilson, with nine, paced the Slaton offense.

The visitors had an easy time of it in the "B" boys game. Bob Martin scored 18 points for the winners, while Ted Tatum had 10 and Gene Young nine for the losers.

Junior High Teams Split With Ralls

Post Junior High School cagers split with Ralls here Friday night, the 9th graders winning, 32-23, and the 8th grade team losing, 34-23.

The 9th graders, coached by V. F. "Bing" Bingham, will play in a tournament at New Home March 8-13. Both 9th and 8th grade teams will compete in one at Crosbyton March 18-20.

The 9th grade teams are co-champions of the first annual Post Junior High School tournament held here recently, while the Antelopes went to the consolation finals before being eliminated.

College Students Face Draft Tests

AUSTIN (Spl.)—Texas college students of draft age were reminded Friday that applications for a selective service test this spring must be made by March 8.

Brig. Gen. Paul L. Wakefield, state draft director, said the college selective service test will be given April 22, and applications must be postmarked by midnight March 8.

He pointed out that to be eligible for the test, a student must intend to request deferment as a student, be making satisfactory progress in a full-time course, and must not previously have taken the test.

Weekend guests of Mr. and Mrs. Willard Kirkpatrick and Kay were Jack Kirkpatrick and Miss Zoe Merriman of Texas Tech.

Additional Support Of Heart Fund Campaign Urged By State Chairman

Additional support of the 1954 Texas Heart Fund campaign has been urged by Dr. W. R. White, Baylor University president and state chairman of the current month-long drive to raise funds in Texas to combat heart diseases.

"Early campaign reports indicate Texans are contributing generously to the Heart Fund," Dr. White reported as the February drive passed the halfway point. "but additional contributions are needed if the state's citizens are to uphold their reputations as strong supporters of worthwhile causes."

Appearance of the traditional heart-shaped plastic receptacles in communities throughout the state served to remind Texans of the need for funds to support medical research programs to discover the causes and cures of heart diseases, the campaign chairman reported.

American Legion posts and auxiliaries throughout the state "have thrown their wholehearted support behind the Heart Fund efforts, and early reports indicate that additional funds were received as a result of the observance of Heart Sunday last Sunday in several Texas communities," Dr. White said.

"The sole purpose of the February campaign to raise funds for heart disease research and educational programs is summed up in this year's campaign slogan—'Help Your Heart Fund—Help Your Heart.'" Dr. White pointed out. "More contributions to the fight against the nation's number one killer—heart and

blood vessel diseases—means more research, and more research means quicker discoveries of the causes of these dread diseases.

Contributions to the 1954 Heart Fund campaign in Texas may be made to local Heart Associations or mailed to "Heart", care of the postmaster, Dr. White reminding

Brenham Cotton Mill, Inc., operated in the tests, which are expected to help improve marketing of Texas cottons. A booklet giving results of the tests may be obtained from the Cotton Merchandising Research Division on request.

County Men Hear Explanation Of Increased Cotton Acreage

South Plains county committeemen and office managers of the Agricultural Stabilization and Conservation Service last Thursday were instructed at a meeting in Lubbock on procedures and methods to be used in handling increased acreage allotments for cotton.

Attending from Garza County were Mike E. Custer, ASC office manager; J. C. Fumagalli, county committee chairman; Claude Spence, vice chairman, and Will Wright, member.

Approximately 75 persons attended, most of which during the morning session were farm-

ers. The morning program was presented by Edwin L. Rollins, state ASC representative from College Station, in explaining general provisions of the new increase amendment. The afternoon program was filled with explanations of detailed and specific matters to be used in carrying out the state office directives.

Two Completions And Six Locations Highlight Oil Activity In County

Two completions and six locations highlighted recent oil activity in Garza County.

One of the completions, previously reported, is Head Drilling Company et al No. 1 Huntley, in northwest Garza County, which was completed as a flowing discovery from the upper and lower San Andres.

The other completion, in the Tobe-Strawn Field, is Tobe Foster No. 4 Justice, 990 feet from south and east lines of Section 19, Block 6, H&GN Survey, which flowed 420.5 barrels of 42-gravity oil and no water daily through 16/64-inch choke. Gas-oil ratio was 400-1. Perforations from 7,498-7,500 feet were not treated.

In the northwestern portion of the county, Joseph I. O'Neill, Jr., No. 1 A. E. Floyd is projected to a depth of 3,600 feet, to be drilled with rotary tools. Operations are scheduled to commence at once.

Exact location is 380 feet from south and 330 feet from east lines of Section 1298, D&WTT Survey, SR-1442 & 1442½, four and one-half miles northwest of Post on a lease of 296.4 acres.

In the south-central sector of the county, R. S. Anderson of Midland has staked location on which to drill a shallow exploratory well.

His No. 1 Connell Estate is projected to a depth of 3,250 feet. It will be dug with combination tools and operations will commence at once.

Exact location is 330 feet from south and east lines of Section 9, Block 5, GH&HRR Survey, five miles northwest of Justiceburg.

Other recent locations follow:

Garza—Brown Brothers et al 2 W. R. Young, 1,263 from north and 330 from west lines of the southeast quarter of Section 1237, I&GN Survey, 1½ miles north of Post, rotary to 3,200 feet, at once.

Garza—Brown Brothers et al 3 W. R. Young, 330 from north and west lines of the southeast quarter of Section 1237, I&GN Survey, 1½ miles north of Post, rotary to 3,200 feet, at once.

P. H. D.—LaGorce Oil Co. 1. O. B. Franklin, 467 from north and 1,650 from east lines of the southeast quarter of Section 1246, AB&M Survey, 11 miles northwest of Post, rotary to 3,600 feet, at once.

P. H. D.—LaGorce Oil Co. 2. C. B. Johnston, 330 feet from south and 990 from east lines of the northeast quarter of Section 1246,

AM&M Survey, 11 miles northwest of Post, rotary to 3,600 feet, at once.

Chalmer R. Fowler In Judge's Race

Chalmer R. Fowler, accountant-auditor and a resident of Post for the past 25 years, this week authorized the Post Dispatch to announce his candidacy for the office of Garza County judge, subject to the Democratic primaries in July.

Fowler's statement to the voters follows:

"To the voters of Garza County:

"After due consideration I have decided to become a candidate for the office of county judge of Garza County, which office is now being filled by appointment, to fill out the unexpired term of the late Judge H. M. Snowden.

"I finished high school at Whitt, Tex., and college at Weatherford, Tex. Since that time I have had about 30 years experience in clerical work, and the last 10 years I have been engaged in auditing-bookkeeping and income tax service here in Post. If elected to this important office, I promise to exercise my duties in a business-like, competent and efficient manner.

"I am running on my own merits and not the demerits of anyone, and I want to impress upon your minds in the most lasting, substantial manner possible that in the event you favor me with this important office I will make you one of the best hired hands you ever employed.

"I earnestly solicit your vote and influence in the coming July primary."

Yours sincerely,
Chalmer R. Fowler

Tennessee Governor To Speak At Snyder

SNYDER (Sp.)—Frank Clements, 32, governor of Tennessee and one of the 10 outstanding young men of the nation last year, according to the U. S. Junior Chamber of Commerce, will be principal speaker at the annual banquet Feb. 26 of the Snyder Chamber of Commerce.

He will be introduced by Boyce House of Fort Worth.

Clements, World War II veteran and former FBI agent, is a graduate of Vanderbilt Law School. He is married and the father of three sons.

Phil Regan, nationally known Irish tenor who entertained banquet guests here last year, is returning for the annual event this year at his own request.

Rollins' discussion dealt with how the Congress set up the increased acreage provisions; how much increase Texas received; how Texas' increase was determined; how it is to be distributed to the counties, and to individual farms.

Rollins said Texas received 8,719,178 acres of the national allotment of 21,379,357, this being an increase of 1,342,320 acres from the previous December allotment.

He said the state did not receive any of an additional 59,382 acre national allotment because it was not among states needing to be brought up to 66 per cent of the 1952 total acres. Also, he explained, it did not receive any of another additional 4,968 acres gained nationally because it was not a state with less than 100,000 acres already allotted.

He said the state ASC committee had two choices in distributing the increased acres to Texas farms. It could, 1, distribute it to individual counties and let the counties distribute it to farmers on the same basis in which the December allotment was distributed, or 2, it could distribute it directly to farmers under provisions of the 65-40-50 basis which provides that a farm can receive either 65 per cent of the three-year average or 40 per cent of the highest year, with provision that neither should exceed 50 per cent of all the cropland.

Rollins said the state committee chose to use the latter. He mentioned that every other cotton producing state in the United States also chose this method, which the committee thought would do more good for all of the 140 cotton producing counties concerned.

He said each county committee would, in determining the distribution of the distribution of the increased acreage, apply the 65-40-50 rule to all farms producing cotton in the county. Some farms would receive an increase and others would not under this method, he said. He added, however, that no farm would have any of its previously allotted acreage taken away.

He said there was no way to determine how much increase any county would receive until the county offices had turned in their findings to the state office and individual farm increases had been tabulated. He said the figures should be tabulated soon.

Question was brought up by South Plains farmers concerning the 250,000 acres the 19-county area proposes to lose under the method the state chose to distribute the increased acres. Robbins replied that no answer was readily available but that the state committee had deliberated long and seriously before making the decision to use the 65-40-50 method.
