Post Observes All Saint's Day With Old Fashioned Carnival

Post school students, their parents and teachers observed All Saint's day last week, with a traditional Halloween carnival at Antelope Stadium, Friday night.

Halloween queens from grade school and high school were crowned in the high school auditorium to start the annual festivities, which were sponsored by Post Parent-Teacher association.

Grade school pupils crowned their queen and presented other royalty members to begin the program. Vera Hunter, escorted by Lester Seaton, was crowned queen after the presentation of princesses and their escorts from each room in grade school.

After the coronation the grade school chorus sang appropriate songs for the occasion. This chorus is composed of about 50 members and is under the direction of Miss Wanda Rogers, public school music teacher.

Miss Velma Dee Daniell, high school queen, and the members of her court were presented to the audience following the singing. Miss Daniell was crowned queen by her escort, Charles Bird. Representatives from each class served as members of the queen's court.

Post's A Capella choir presented a Halloween program of songs and then a preview of their Christmas concert. This enjoyable part of the program was under direction of John Christopher, high school music director.

Coronations were supervised by Mrs. Nola Brister, grade school librarian, and Miss Katharine Stryker, grade school teacher.

After the coronation a unique show was presented by the sophomores. This show was given for the purpose of showing the feminine citizens of Post the latest fashion trends.

Post High To Honor Exes With Homecoming Friday

Friday is the day Post high school exes have been looking forward to for one year. That is the day of Post's homecoming. Homecoming is the event where all ex-students of Post are welcomed back to their old Alma Mater and they may enjoy visiting the school building and seeing school day friends. Chant Lee, high school principal, stated.

All exes are invited to come by the school house and relive the days of yesteryears, when they were the victims of the education plant.

Main attraction for homecoming will be the conference tilt between Post Antelopes and the Tahoka Bulldogs. "All exes should enjoy seeing their old rival, Tahoka, skinned by our team," Lee said.

As is customary, the 1952 Antelopes will crown their queen in a pre-game ceremony. Bob Robbins, bandmaster, announced that the coronation will be at 7:30 p. m.

Miss Mary Jo Williams, 17-year-old senior and daughter of Mr. and Mrs. Charlie Williams has been chosen by the football

No Rain And Little Dust During Month

Post received no rain, not even a trace, and only three hours of blowing dust during October, according to a check up made Wednesday at the Double U Company where an official rain gauge is maintained.

The recording is quite unusual in that normally October is considered a "rain month". Average rainfall, taken from the recording over a period of 33 years, showed an average of 2.21 inches. The report of "not even a trace" was unusual.

Another unusual aspect of October weather was the amount of sunshine. The sun shone all of the possible hours between sun-up and sunset during the month except six hours, which meant that Post received 302 hours of sunshine.

Dust blew on Saturday, October 18, until mid-morning.

Woman Is Held On Bad Check Charge Here

A young Indiana woman, who gave her name as Mrs. Harry Miller, alias Peggy O'Brien, is being held in the county jail in lieu of \$1,500.00 bond set on a charge of passing a forged instrument. The woman was arrested here last Friday after several forged checks had been passed to Post business men.

According to information given a Dispatch reporter last week by Sheriff Carl Rains, the checks were passed in a rather clever manner. The woman sold subscriptions to magazines and after receiving checks in payment for subscriptions, copied the checks and insisted that persons whom she asked to cash them, call the persons who had issued the original check. They verified giving checks for their subscriptions and the forged ones were cashed.

The incident caused the Garza Sheriff to issue a notice, warning persons to get proper identification before cashing checks for any one not known. Driver's licenses and car motor numbers were recommended as useful identification items. Four or more checks were reported given to Post stores.

Cafeteria Election Party Well Attended

Very little money was added to the Post Public Schools cafeteria operating fund, but a good time was had by all, when 200 or more Post people attended an election party at the cafeteria Tuesday night.

The party was planned by E. E. Pierce, cafeteria manager, and proceeds from the sale of cookies and coffee went to the cafeteria.

Election results, received over the radio, and local returns from County boxes were posted on a bulletin board.

Stevenson Edges General By 34 Votes In County

Garza County Tuesday added 766 votes to General Eisenhower's 5,000 majority piled up by 17 South Plains counties, but failed to give the General a majority by polling 34 more votes for the Democratic nominee, Adlai Stevenson, who garnered an even 800 votes.

Local voters rejected the two proposed constitutional amendments. The amendment authorizing the legislature to provide for Workmen's Compensation insurance for employees of cities, town and villages was turned down: For 368; against, 512. The amendment providing establishment of a State Medical Educational Fund which grants, loans or scholarships may be made to students desiring to study medicine was also given the cold shoulder: For 317; against, 564.

In the Garza County Sheriff's race, Carl Rains, Democratic incumbent, received 1,361 votes, while his opponent, B. A. Price, who ran on the Independent ticket, received 73 votes.

How they voted boxes:

Post, Box 1
Stevenson 304, Eisenhower 339; Rains 522, Price 40; Amendment No. 1, 171 for, 190 against; Amendment No. 2, 144 for, 210 against. Polled 706 votes.

Southland, Box 2
Stevenson 69, Eisenhower 21; Rains 83, Price 1; Amendment No. 1, 10 for, 34 against; Amendment No. 2, 11 for, 35 against. Total poll 93.

Verbena, Box 3
Stevenson 23, Eisenhower 16; Rains 39, Price 1; Amendment No. 1, 7 for, 24 against; Amendment No. 2, 6 for, 24 against.

New Wildcat Staked, Two Completions For Week

With the spotting of a wildcat location in southeastern Garza county and the completion of two new producers, one in the Garza field and another in the Darwood field, Garza continues to remain in the area oil picture.

The new wildcat is located five miles northeast of Justiceburg. Drillsite is 1,300 feet from south and 1,950 feet from west lines of section 127, block 5 M&GN survey. The No. 1 McCrary, being drilled by Duncan Drilling company, of Big Spring, will be drilled to a proposed depth of 3,000 feet. Combination tools are to begin at once.

The two completions are listed as: Alamo Corporation No. 1 W. A. Gray, 330 feet from south and west lines of section 1,215, TTR

survey. The test pumped 711.19 barrels of 37.2 gravity oil plus 3 per cent water daily. Open hole from 3165-3234 feet was acidized with 10,000 gallons.

Humble Oil & Refining company No. 6 Estine Blakney, in the Darwood field, pumped 57.44 barrels of 36.8 gravity oil plus 60 per cent water daily. Open hole from 2443-2590 feet was acidized with 5,000 gallons. The well is 1650 feet from north and 2310 feet from east lines of section 110, block 5, M&GN survey.

GOP Gains Thin Control Over The Congress

By DOUGLAS B. CORNELL, Associated Press Staff Writer
A record avalanche of votes gave Gen. Dwight D. Eisenhower the presidential election Tuesday and the GOP control of Congress.

With the great 1952 battle for the White House and Capitol Hill settled at last, the nation's once-warring political clans began uniting beneath the Eisenhower standard.

At 8:45 p. m. Wednesday, 57,519,460 votes had been tallied. The flood of votes for the old soldier rolled past the 31 million level and on up.

Previous Record Set In 1936
Late returns last night gave Eisenhower 31,925,143 votes, Stevenson, 25,594,317.

The greatest number of votes previously cast in an American election was just under 50 million in 1940. The greatest number ever before won by a candidate was 27,700,000 by Franklin D. Roosevelt in 1936 against Alf M. Landon.

The scope of the Eisenhower victory was measured in expressions of pleasure from abroad.

Early last night control of Senate and House were put definitely in Republican hands, although the margins were thin and shaky. The party at that time had 49 senators, including independent Wayne Morse, and 220 House members—in each instance a controlling majority.

Eisenhower's projected inspection mission to the Korean battlefields, for which no specific date has been set, emerged as one of the first items on his agenda as a result of a dramatically blunt exchange of telegrams with President Truman.

The President issued an invitation to Eisenhower to meet with him at the White House "to facilitate the orderly transfer" of administrations.

Eisenhower was a winner or leading early last night in 39 states with 442 electoral votes, Stevenson in 17 with 89 votes. It took only 266 to go over the top to victory.

For the 62-year-old war hero, who pulled off his battle jacket and turned politician only last June, the torrent of votes seemed to have sprung from two main factors:

A tremendous popularity built on a warm, friendly personality. A rampant sentiment throughout America that it was time for a change.

Traffic Commission Will Present Awards

Winners of Garza County Citizens' Traffic Commission's Safe Driver Awards were announced at the monthly meeting Monday night, in Post school cafeteria.

Les Short, chairman of the commission, announced that these are the first Garza county citizens to receive the approved safe driver awards, which are being issued by the Commission.

The awards are blue stars to be placed on the driver's automobile and winners were chosen by an unknown panel of judges. Drivers are judged on their driving ability, Short said, if they follow state regulations, they are eligible for the Traffic Commission's award.

Formal presentation of these stars will be made Monday night, November 10, at 7 o'clock in the school cafeteria.

Mrs. Chester Keeton, Miss Vera Wilson, Ambrose Gray, Ray McClellan, and Harry Dietrich have been selected as the winners for this week and are requested to be at the meeting Monday to receive their stars.

"The purpose of this project is to instill the desire for these stars in every driver of our county," Short said. "If a person would like to be named an approved safe driver, he will take notice of all traffic regulations and strive to become a better motorist," he added.

Twenty members of the commission were present at the second monthly meeting Monday night. Les Short was officially named chairman. See COMMISSION Page 8

EDUCATION WEEK - - -

"Children of Today's World" will be the theme for the 32nd annual observance of American Education Week, November 9-15.

To give pupils a deeper insight into the values of education, special programs have been planned. These programs are designed to carry out the general theme and will stress such subjects as church, home, heritage, country and opportunities.

There are over twenty-five million pupils and one million classroom teachers and administrators in the United States. These children are housed in more than 200,000 buildings and public school property is valued at more than eight billion dollars.

As has been the custom for several years, all schools of the county and those in Post will participate in some measure in American Education Week.

WOMEN DRIVERS BETTER? - -

In a recent test made by highway officials in Detroit, a "roadometer" device which grades drivers indicates that women are better drivers than men behind the wheel.

How can a "roadometer", or any mechanical device, accurately gauge the best drivers? Cemeteries are full of people killed by skillful drivers who know all the rules and the mechanics of driving.

Men cuss women drivers every day and in every way for doing things which are ten times more dangerous when men are behind the wheel. Yet, when men do them, they keep silent.

Getting Out On The Limb

by EDDIE the editor

SUDDEN THOUGHT: Satan may have work for idle hands to do, but they may not do it unless they are placed on a time-and-a-half schedule.

You may be interested to know that members of the national GYMNAFA GANU recently wound up their annual gathering in Columbus, Ohio.

A Garza County farmer who seemed to be a bit disheartened over his crop harvest, said he guessed he had a government crop.

This week, Nov. 2-9 is National Cat Week, or is it next week, Nov. 5-11. There seems to be some confusion over the dates and before it is settled to everyone's satisfaction I am afraid someone's poor heart will be torn out.

Seems that National Cat Week, Inc., of Pittsburg, Pa., insists that "the original National Cat Week" is Nov. 2-9 and the American Feline Society of New York, refuses to budge its Nov. 5-11 date.

Now that I am so perturbed over the annual occasion, and find myself in such an embarrassing predicament, I am offering them the olive branch. It hasn't been many weeks back that my cat, Clementine, hatched off another batch of kittens, which occasion I feel I must observe in one full week of special thought and praise.

And in the interest of harmony, for the sake of the millions of cats both the NCW, Inc. and AFS, Inc., are trying to help. I suggest they get together and observe two weeks—and may I wish them God speed in their undertaking.

THE WOMEN, God Love 'Em—One woman to another said, "I don't know her to speak to, only to talk about."

By the time my two readers get around to reading this we will have elected a new president. And, while we may carry his picture on the front page of this issue, this column had to be in early Monday to make the first run of this week's paper, so at the time of its writing I do not know whether I will be listening to the bray of the donkey, or tossing peanuts to the elephant for the next four years.

About the only thing I am certain of, is that we will have either another general, or a lawyer in the White House.

If General Eisenhower becomes the 33rd president, he will be the 11th general in the White House. If Governor Stevenson takes the oath he will be the 23rd lawyer, to be chief executive. As far as statistics go, only five men who have sought residence in the White House have been neither generals nor lawyers.

Tuesday's election will mark the ninth time that general has met lawyer in the contest, and so far the honors have been pretty even.

General George Washington twice was chosen over lawyer John Adams. In 1836 Martin Van Buren defeated the hero of the Indian Wars, General William Henry Harrison. But in 1840 General Harrison turned the tables on Judge Van Buren.

Lawyer James Buchanan entered the White House by defeating General B. McClellan. The generals came back in power in 1868 when Ulysses S. Grant scored a victory over Horatio Seymour, but the lawyers took over again in 1880 when General Winfield S. Hancock lost to lawyer-general James A. Garfield.

The only other man who ever moved into the White House who had neither worn stars nor studied law, besides Hoover, was tailor-turned politician Andrew Johnson who became the 17th president following the death of lawyer Lincoln, but he was never a candidate for office.

Since 1792, in addition to the eight campaigns between lawyers and generals, there have been 21 elections in which lawyers faced lawyers.

So if you are a believer of the great American tradition that any boy can grow up to be president, and if you are planning on moving into the White House with your son when he grows

National Income Higher, Wages Higher, Prices Higher, And Folks Are Going Deeper In Debt

As everybody knows, the national income is higher than it ever was. So are wages and prices—the two have a habit of moving pretty much in unison—and so are taxes. Armies of people are earning two or three times, as much as in the prewar era.

Yet a great many Americans, despite this statistical prosperity, are going deeper and deeper into debt. Higher incomes have been offset and then some by higher outgo. That is the theme of a Wall Street Journal news article aptly headed "Debts, Debts, Debts."

The paper cites case histories of people its reporters interviewed in various cities. These people represent a wide range of occupations and incomes. A Chicago steelworker earning more than \$5,000 a year is worried and in debt—the strike intensified his troubles, but he had them before it was called. A Detroit couple earning \$6,800 has cut its entertainment budget in half and hasn't saved anything for over a year.

These comments, the Wall Street Journal points out, square with Federal Reserve Board figures on outstanding consumer credit. When last August began, the total was \$21,200,000,000—a record—which marked a \$2,000,000,000 jump in one year. They also fit in with a Bureau of Labor Statistics report, covering the 1950 financial experience of families in various income brackets in 91 communities. During that year the average family in this group had income after taxes of \$4,300 and spent \$4,700, for a \$400 deficit.

A superficially confusing aspect to the picture is found in the fact that savings as well as debts, are also at record levels—the Commerce Department finds that they were rising at the annual rate of \$16,500,000,000 during the second quarter of this year. That is accounted for, in part, the Journal says, because "this definition of savings, of course, includes a lot of things many people wouldn't consider savings, such as repayment of debts on consumer goods—so the bigger such debts, and the more the repayments, the more the "savings." Also the 50 cent dollars make larger totals.

Lots of people are getting along nicely and are staying out of debt. The Journal quotes a number of these good managers, some in modest income brackets, who have more possessions than ever and still are making both ends meet. But they seem to be exceptions to the rule.

Here is one fly in the ointment of this depreciated money era, and various developments substantiate it. For instance, the steel strike made a hole in automobile production. Yet this scarcity of cars, which some dealers thought would bring in a flood of eager searchers for new machines, was accompanied by a scarcity of buyers. Save for a small handful of makes and models, no one has to wait for the new car of his choice, despite the drop in factory output.

To sum up, most of us have many more dollars to rattle around than we ever had before—but they don't go very far. And many of us are substantially worse off, if we make an honest accounting, than in times when prices, taxes and incomes were all much lower.

ROGER W. BABSON WRITES THIS WEEK

A Number of Persons Now Employed Will Be Let Off During First Few Months Of 1953

KANSAS CITY, Mo.—If Christmas had come last spring or summer when the steel strike was starting, it would have been a poor Christmas for manufacturers, merchants and the rest of us. Early in 1952, the public stopped using television sets, washing machines, and other appliances were filling up storehouses; while the companies making these were discharging workers.

Now May Be Time To Buy A trip through our Great Central West makes me believe the above situation is changing. Wise buyers are making their Christmas purchases, now—especially for the so-called hard goods, such as washing machines, refrigerators and appliances. Even automobiles appear to be selling well in most sections. They are now being produced at an annual rate of nearly 5,000,000 because the industry is catching up after the steel strike. However, for the same reason, full-year 1952 will not show such a total.

Probably most textiles can be bought for less now than they can in December. Sheets, blankets, and other household goods will become scarcer as Christmas approaches, although there will be the customary "sales" in January. Carpets, including wool and the blended types, are moving well now even though they were a drag on the market early this year.

New Houses In Demand

New houses, the sale of which fell off badly during the summer, are again in demand due to the relaxation of credit controls. There is, however, only little demand for large houses—though they are much better built. When well located, with land available for building small new houses, many of these larger old places are better buys than small ones. This is especially true when zoning permits larger houses to be used by two families.

Rents are sure to advance during 1953. This may once again make it profitable to build houses to rent. People have money; and they first want a home. Next, a television set! These are again moving and it is better to say one either now or wait until after Christmas. They will be higher in December than

What About Prices In General?

Wholesale prices have been declining for some time, and now consumer prices are moving very slightly lower. The Labor Department living cost index for September shaded off to 190.8 per cent of the 1935-39 average. That was against 191.1 in August. The immediate prospect is for foods, rents, utilities and miscellaneous consumer goods and services to show little further change. Apparel may move down slightly. House furnishings will be unchanged. All in all, little change in the consumer price-index is expected for the rest of the year. Food prices, on the average, appear to be declining a bit. The general uptrend in the cost of living seems to have been broken. Any change between now and the end of the year probably will be too moderate to be felt by the average family.

The above outlook is due to full employment in all but a very few sections. Contractors are again seeking workers; the utilities are employing more people; and most people willing to work can get a job. Stenographers, typists, and other office and store help are now in great demand. The situation may be a little less optimistic after Christmas with a chance that there then may be greater-than-usual seasonal unemployment. The best way for manufacturers and merchants to help prevent this—and thus save their own skins—is to spend more on advertising and selling—but keep prices down.

How To Hold Your Job

A number of persons now employed will be let go during the first few months of 1953, barring war. Defense work will not slack off, but there usually is a general reaction after Christmas. When reducing employees, manufacturers and merchants too often go on the principle of "last employed should be the first to be let go."

The above means that readers should not now change to some other job just to temporarily get more money. Stick where you are and do better work than you have ever done. Remember that Christmas—like other good things—may have an unpleasant "hang-over." Play safe and don't be blinded by tinsel and candles.

1953 PMA Program Is Announced By Garza Officials

Garza county farmers may receive assistance for 14 soil and water conservation practices under the 1953 Agricultural Conservation Program, Claude E. Spence, chairman of the county PMA committee stated.

These approved practices of soil and water conservation are: constructing terraces, constructing diversion or spreader terraces, chiseling, deep plowing sandy soil, leveling for irrigation, re-organization of a permanent farm irrigation system, constructing earthen dams or damless tanks, application of superphosphate, growing a green manure of cover crop of summer legumes.

Establishing a satisfactory cover of winter legumes, chemical control of mesquite, deferred grazing, constructing fireguards, establishing or improving permanent pastures by seeding.

PMA community committees are now visiting farms in their communities, assisting farmers to determine the most needed conservation practices, according to the chairman. Requests for assistance must be filed by December 1. Program assistance in the coming year will be centered on practices determined to be most needed.

Spence explained that representatives of the Soil Conservation Service, Extension Service, Forest Service, and Farmers Home Administration assisted in developing the program for 1953 and in drawing up practice specifications. Farmers also are urged to use any land-use of conservation plans that may have been prepared for their farms with the help of these agencies.

Locksmith Killed By Harmless Steel Tube

BEEDENBOSTEL, Germany (AP)—Death lurks in the walls of this small village in the north German moorlands. Beedenbostel and some other small hamlets in the vicinity have been seized by the jitters since Richard Germer died in his locksmith workshop after a seemingly harmless steel tube he was forging blew up in a violent blast.

Germer's death meant the beginning of many sleepless nights to villagers who took thousands of these steel tubes from a nearby Wehrmacht ammunition depot shortly after the war. The tubes soon were traded on the black market and some local builders bought them to reinforce walls of small farm-houses.

Others were used to fence off pastures or flower-gardens. Results of an investigation into Germer's death chilled the bones of many a farmer.

The "steel-tubes" were special explosives used by German engineers in the war against Russia. Authorities found out that farmer H. Hoppenstedt from near Endeholz had fenced off his cattle with 120 such explosive tubes. They said lightning striking into the fence would have set off an atomic-like chain explosion.

Serve deviled ham sandwiches with cream of tomato soup for a weekday lunch. Fresh fruit—pears, apples, or grapes—taste good after this combination.

Garza 4H Steer Project For 1952 Involves \$4,000

Garza county 4-H club members steer projects for 1952 involved a \$4,000 program, Lewis Herron, county agent reported. This figure is based on the receipts of sales at Lubbock and Dallas.

The steers were exhibited at the Garza county fair in September. Sales were made after exhibitions in the South Plains Junior Stock Show in Lubbock and Texas State Fair in Dallas.

All steers exhibited and sold in this program were from Garza county ranches, Herron said.

Fred Myers, Charles Chandler, and Dean Huddleston sold steers at the Lubbock show. Ned Myers, Carroll Davis, A. J. Stone, Darrell Roberts, John T. Brown, Dean Huddleston and Auvy Lee McBride exhibited and sold their steers at the State Fair.

Hunting Accidents Can Be Prevented

Most hunting accidents could be prevented if hunters would observe the simple rules of safety with firearms. "Trigger Happy" and careless hunters, says R. E. Callender, wildlife conservation specialist for the Texas Agricultural Extension Service, not only endanger the lives of every other hunter in the woods but also cause much damage to wildlife.

Practicing safety with guns in the fields or woods then, says the specialist, is just a good conservation practice and applies to both humans and wildlife. It is also very important at this time that hunters be doubly careful with fire. A wildfire can easily wipe out not only the wildlife of an area but destroy vegetation that is so badly needed at this time for livestock, says Callender.

He says records kept of hunting accidents show that two-thirds of them are caused by humans in the line of fire; mistaking humans for game and hunting with the safety catch off on the rifle.

He points out that good sportsmanship is just using good manners while on the hunt. It includes using the right gun for the right game, hunting only in season and not taking more game than can be used even though the bag limit may permit a larger take. Bird hunters, he says, should use a trained dog to retrieve crippled birds. The rights of others are always respected and permission is always secured before going onto another's property.

Here are Callender's suggestions for making the hunt a safe one. Treat every gun as if it were loaded; never carry a loaded gun in the automobile; be sure there are no obstructions in the gun barrel or action; carry the gun so that the hunter always has control of the direction of the muzzle, even if he should stumble; never pull the trigger until sure of the target and never point a gun at anything you do not intend to shoot.

Loaded guns, says Callender, should never be left unattended and hunters should always unload guns before climbing over a fence or into a tree. And he adds, bullets fired at flat, hard surfaces, or at objects on the surface of water may ricochet and hit objects not thought to be in the line of fire. Last but not least, he says gunpowder and alcohol should never be mixed for the results can be disastrous.

And finally, believes Callender, the intelligent hunter is always thinking about how he can aid in conserving and even building up his favorite hunting areas. By being careful, preventing accidents and fires and by always being the good relations between the landowners and the hunter can be given a big boost in the right direction, says Callender.

RATTLER EATS RATTLER

DILLON, Mont. (AP)—A man who hunts rattlesnakes for a hobby says the reptiles have turned cannibal.

Stewart Schlafke shot a 30-inch rattler one Sunday and cut off its rattles. He hiked on a little further and then came back to the same spot where he killed the snake.

This time he saw another rattler puffed up from a big Sunday dinner. He killed that one and inside was the first snake minus the rattles he'd removed.

4H Members Will Receive Awards Saturday Night

Garza county 4-H club boys and girls will be honored Saturday night, November 8, at an achievement awards program in the county courthouse at 8 p. m. Lewis Herron and Jessie Pearce, county agents reported.

Cash awards for winners in the county fair, medals to county winners in various contests, enrollment year pins, and sales checks for steers sold at Dallas will be presented, Herron said.

Miss Pearce stated that a Santa Fe representative will be present to give the state award to Janyce Lobban. Miss Lobban is

Bits Of News From Here and There

Mrs. Virgil Priddy enjoyed a telephone conversation yesterday morning with her son, Gene Ryland, in Baumholder, Germany. Gene has been hospitalized for 12 days. The call went through about 7 a. m. Post time.

Jack Kirkpatrick, who was injured in an auto accident recently, returned to classes at Texas Tech Wednesday morning. He was taken to Fort Worth by his parents, Mr. and Mrs. Willard Kirkpatrick, over the weekend for a check up by a specialist. Reports were favorable on the outcome of his injuries but it is not known whether or not he will continue football activities this term. Jack was hospitalized at Garza Memorial hospital immediately following the accident and was a patient there for several days.

Mr. and Mrs. Morris Huff spent the weekend in Colorado Springs, Colo., with Mr. and Mrs. Merle E. Jenkins, Rickey Jenkins, who had been visiting relatives here for several weeks, returned home with the Huffs.

Mrs. W. B. Sanders told a Dispatch reporter Tuesday that she received a letter from Mrs. M. J. Malouf saying that her son, Tommy, who is in a Houston hospital is "doing fine." Tommy was in New York City last week for observation by a cancer specialist. Mrs. Malouf also told Mrs. Sanders in the letter that she and Tommy visited with the C. I. Dickinsons in New York and that the Rev. and Mrs. H. E. McClain and daughter of Dover, N. J., and formerly of Post, came to the city for a brief visit with them.

Card of Thanks

Words cannot express our many thanks to our friends and relatives for the gifts, flowers, cards and visits while our daughter, Delores, was in the hospital. We especially want to thank all the employees of Brown Brothers et al and P and W Transport for their donation and Lewis Price, Edsel Cross and Walter Jones, blood donors, also Temple Lee and Dee Caffery who stood by in case more blood was needed. Your thoughtfulness will always be remembered.

Labor, Farm Meet Slated In Lubbock

Area farmers who are working Mexican Nationals (braceros) in their cotton fields, will meet in Lubbock Tuesday with six top officials of the Department of Labor, to protest paying the laborers more than \$1.75 per hundred for pulling cotton. Only three or four Garza County farmers are working Nationals, according to information given the Post Dispatch.

The Department of Labor officials are coming to Lubbock at the request of Cong. G. H. Mahon, who Monday night met with area growers at Brownfield. There have been several protest meetings held in the area the past several days with fifty or more farmers attending from each Terry, Lynn and Dawson counties.

A prevailing wage of \$1.75 was fixed Oct. 31 for picking in the field and does not include transportation to the gin. The tentative prevailing wage for the counties around Lubbock was announced as \$1.75 in the fields, for all counties except the three counties. Tentative figure for Lynn, Dawson and Terry Counties of \$2 in the field has already been reduced to \$1.75 by a survey and Cong. Mahon is asking for a reconsideration and reduction in that \$1.75 figure. While Garza County was not listed specifically in the \$2 bracket, the few farmers who are working the Nationals have been expected to pay in accordance with Lynn County as they live in the extreme western part of this county.

The six top Labor officials to attend Tuesday's session will include Undersecretary Galvin; Carl Holley, farm labor director, Department of Labor; Ralph Altman, regional director, Bureau of Employment Security; both of Washington; and Earl Street, regional attorney; and W. L. Crawford, Labor department representative; both of Dallas; and W. H. Farmer of Austin, administrator of the Texas Employment Commission.

The meeting is to be held at the Caprock Hotel.

Lubbock District Is Third In Fines Paid

The Lubbock district of the Texas Liquor Control Board, which embraces Garza County, placed third during September in the amount of fines collected, an announcement from Austin said. Statistics showed that the Big Spring district ranged first with \$9,811.80 in fines assessed; the Abilene district second with \$9,201.45 and the Lubbock district third with \$8,023.10.
Monte M. Hood, district supervisor, Lubbock, said that out of 32 criminal cases filed, 20 convictions and five jail terms were handled down by the courts.

Early Days Of Garza County And Post City Are Now 'In The Book'

Garza pioneers, who spend many hours relating memories of the early days of the county and Post City, may now "back-up" their statements with the popular "It's In The Book".

The "Book" has arrived and is on sale at the Chamber of Commerce office, the book we are referring to, of course, is "It's In The Book" written by the late Dudley Eaves and C. A. Robinson, and published by the

Texas State Historical Association. The authors' preface issues a thank-you to all who had a part in making the historical information available, and mentions the names of Mr. and Mrs. C. I. Dickinson, Mrs. Dickinson, who resides in New York City, is the former Mrs. Dezzie Babb Power. Included in the publication are the following illustrations: C. W. Post in his later years; C. W.

Post as a boy, a young man, on leaving Battle Creek and at Post City; Hack for hunting party, roundup, cowpunchers; breaks land, cap rock; lands of C. W. Post;

Texas, showing Garza county; route freight trains; site of Post City; Post City after three years; road up the Cap Rock; freight train; C. W. Post's original home (now owned by Mrs. Ben Smith); cooking on the Plains; Algerita hotel; Post City from a distance; building the reservoir; H. C. Hawk; W. O. Stevens; gateway to Post City; park in Post City; Double U company store; map of Post City and vicinity; and main street of Post City.

Mrs. Burnis Lawrence, chamber of commerce secretary, said that 100 copies of "Post City, Texas" were delivered to her office yesterday and that orders are pouring in. "Every home in Garza county should have a copy of this book. It would make a wonderful Christmas gift for any member of the family," Mrs. Lawrence said.

Cost of the historical publication is \$5.00 per copy.

Pre-Nuptial Parties Are Given In Amarillo For Miss Preston

Miss Leuna Preston and Miss Carol Roberts were in Amarillo during the weekend, where they attended pre-nuptial parties for Mrs. Preston's daughter, Jane, who will marry F. Bennett, Jr., on November 15th.

Thirteen guests attended a party at the former Postite Saturday evening, given by Misses Houston and Patty Gilchrist. Games were played and were presented before refreshments were served.

Mr. And Mrs. Stroud Go To Family Reunion

Mr. and Mrs. J. H. Stroud of Southland, attended a family reunion in Mineral Wells recently in honor of Mr. and Mrs. T. M. Turnbow of Paradise, Calif.

Mrs. Turnbow is a sister of Mr. Stroud and they had not seen each other in more than 28 years. Another sister, Mrs. Gertrude Skipper of Fort Worth also attended.

Dinner was served to 50 at the home of Mr. and Mrs. Elster Skipper. Skipper is a nephew of Mr. Stroud.

Scripture
Praise ye the Lord. Blessed is the man that feareth the Lord, that delighteth greatly in his commandments. His seed shall be mighty upon earth; the generation of the upright shall be blessed. Wealth and riches shall be in his house; and his righteousness endureth forever. Unto the upright there ariseth light in the darkness; he is gracious, and full of compassion, and righteous. A good man sheweth favor, and lendeth; he will guide his affairs with discretion. Surely he shall not be moved forever; the righteous shall be in everlasting remembrance. He shall not be afraid of evil tidings; his heart is fixed, trusting in the Lord. His heart is established, he shall not be afraid, until he see his desire upon his enemies. He hath dispersed, he hath given to the poor; his righteousness endureth forever; his horn shall be exalted with honour. The wicked shall see it, and be grieved; he shall gnash with his teeth and melt away; the desire of the wicked shall perish. Psalm 112.

Rev. O. W. Jenkins To Hold Revival At Local Church

The Rev. Orville W. Jenkins, district superintendent of the Abilene district of the Church of the Nazarene, will be evangelist for a revival meeting at the local Nazarene church.

A series of services will begin Sunday, and will continue through November 16. Everyone is invited to attend at 7:30 o'clock each evening.

The Rev. Mr. Jenkins has served with distinction as pastor of some of the larger churches of his denomination. He is much in demand as a speaker for college conventions, camp meetings and district gatherings.

There will be an inspiring musical program preceding the Rev. Mr. Jenkins' message each evening, the pastor, the Rev. J. C. Holman, said.

Miss Shirley Schmidt Is Named Party Honoree In J. Lott Home

Miss Shirley Schmidt, bride-elect of Bill Jackson, was named honoree when 10 hostesses entertained with a tea-shower last evening, in the home of Mrs. John Lott. Party hours were from 7 until 9 o'clock.

Miss Schmidt's chosen colors of blue and yellow were stressed in the table and room decorations.

Hostesses were Mrs. Lott, Mrs. Ralph Welch, Mrs. N. W. Stone, Mrs. B. F. Evans, Mrs. Bill Carter, Mrs. R. H. Collier, Mrs. Bob Collier, Mrs. Jess Rogers, Mrs. R. B. Dodson and Mrs. J. E. Stephens.

The wedding will be solemnized at 6:30 o'clock Friday evening, in the First Methodist church. Parents of the couple are Mr. and Mrs. H. W. Schmidt and Mr. and Mrs. W. R. Jackson of Breckenridge.

Miss Schmidt and her fiancé are seniors at Texas Technological college, Lubbock.

Movies Of The Week

Due to booking difficulties last week, we were unable to give a run down on the picture for tonight, but the management of the Tower theatre has disclosed that it is one of the latest releases from Hollywood. This picture is "HURRICANE SMITH", starring lovely Yvonne DeCarlo and John Ireland and is a fast moving and highly entertaining movie.

Pets and animals of one type or another are stealing the spotlight from movie land's glamour gals and guys. Some of these photogenic creatures are Lassie, the dog; Francis, the mule; and Bonzo, the monkey. Latest addition to film world's menagerie is Fagan, the lion. Fagan is starring in "Fearless Fagan" and will be at the Tower, Friday and Saturday. This film is based on the actual and true exploits of Pfc. Floyd Humeston and his lion. Humeston is drafted into the army and Fagan goes along for the ride. We would like to have seen a top sergeant bellowing orders to a 400-pound lion.

Supporting actors and actresses for "FEARLESS FAGAN" are Janet Leigh, Caryl Chesson, Keenan Wynn and Barbara Ruck. See this bang-up good movie Friday and Saturday, at the Tower

Sunday and Monday. Bud Abbott and Lou Costello hit the Yukon Trail at the Tower in "LOST IN ALASKA". This is a rib-tickling hour of merriment with Abbott and Costello assisted by former child star, Mitzi Green and deagan actor, Tom Ewell.

The world is being shaken with laughter by amazing exploits of the latest North Pole expedition, which is made by Hollywood's favorite comedy team. See the shenanigans with silly seals and gabby seagulls. It's an avalanche of frozen fun! See Abbott and Costello in "LOST IN ALASKA", Sunday and Monday.

One of America's most vicious rackets will be revealed Tuesday in Post. This revelation is made in "LOAN SHARK", starring George Raft and Dorothy Hart. Moving with machine-gun speed, this production exposes a ruthless crime syndicate that makes usurious loans to victims who are terrorized and shot for failure to pay.

You could easily fall victim to this racket, so don't miss "LOAN SHARK" at the Tower, Tuesday. Picture of the week is Wednesday and Thursday's offering, "YOU FOR ME", starring Peter Lawford, Jane Greer, Gig Young. To say much about this film would unravel and reveal the plot, but we can tell that the age-old problem of whether a girl should marry for money or love is given a witty and light-hearted comedy treatment in this story. Miss Greer is the girl in question, while Lawford and Young are victims of her charms. One thing can be said for this guy, Peter Lawford, when he is in a picture there are plenty of bee-ou-ti-ful girls in the scenery. Beside Miss Greer, Barbara Ruck, Paula Corday, and Elaine

Stewart are the other beauties for this new romantic comedy. Free tickets go to Mr. and Mrs. Jim Barron for any performance of "YOU FOR ME", Wednesday and Thursday.

Annual Dealers Meeting Held In Dallas Saturday

Earl Rogers, Ford tractor dealer; his son, Kenneth; and Jerry Tannahill, salesman for the Rogers firm returned Sunday from Dallas, after attending a meeting of Texas Ford tractor dealers there. The meeting was sponsored by the Stewart Company of Dallas and San Antonio. These companies are Texas distributors of the Ford Tractor and Dearborn Farm Equipment industries of Birmingham, Mich.

R. B. Robins, western regional sales manager of Dearborn Motors, was principal speaker at the meeting of 500 Ford tractor dealers and dealer personnel at the Science Building on the fair grounds in Dallas. Robins stated that 1953 will be another excellent year for farmers, with harvests that may well exceed 1952, and farm cash income upped a billion dollars over this year.

"The outlook now is for a farm cash income of thirty-nine and a half million dollars in 1953, against thirty-eight and a half billion dollars in 1952. In addition, it has been estimated that at the start of 1953 farmers cash resources also will be substantially higher than a year ago, when they stood at twenty and one half billion. These resources consist of cash, bank deposits, and government bonds," Robins said.

Henry Ford, Sr., originated the idea of a mass-production and low-priced tractor, Robins stated. "He wanted a tractor that everybody could afford to buy." The Fordson tractor was the result of Ford's work and went on the market in 1917.

"Results were the selling of more than 1,000,000 Fordsons at that time," Robins added. More than 2 million tractors produced by Ford are now being sold throughout the United States.

Sixteen Texas Ford tractor dealers were individually honored by H. E. Stewart, president of the Stewart company, for outstanding community service and presented a certificate from the company.

OIL SHOW BARBECUE—This is part of the crowd of 15,676 at a Chuck Wagon Gang barbecue held in Odessa at the Permian Basin Oil Show. Eighteen serving lines dished out Western beef and trimmings in

IT'S THE LAW in Texas

CHECK LIST FOR RETURNING SERVICEMEN

Have you put your affairs in order since you were released from military service? Here is a partial list of things to check.

Have you filed the original copy of your discharge papers with your County Clerk? This is important to insure that a record of your discharge papers always will be available. It protects you against future loss from theft, fire or negligence. Should you lose your discharge papers, the government will give you only a certificate stating that you were in service, but giving no other pertinent information. County Clerks throughout the state accept your discharge papers for filing without cost, and thereafter you may obtain certified copies whenever the need arises.

When you entered military service, did you execute a power of attorney so that someone would be able to act for you during your absence? If you now

want complete control of all of your affairs, you must cancel any contract which gives certain powers to someone else.

If you have had a will prepared, has it been revised to suit changed conditions? For example, if you have married or if another child has been born to you and your spouse, you will want to check your will to make sure that all of your dependents are provided for. Changes in tax law, judicial decisions and administrative actions by the Treasury Department, too, could affect the provisions in your will. Especially is this true if the government has passed a new revenue act since your will was prepared.

Are the beneficiaries named in your life insurance policies now correct? Is the amount adequate now in the light of the present deflated dollar? It is important 120 days after release from duty in order to continue their government insurance.

Did you change your automobile license and insurance to the name of another person? If your car was not used for business purposes during your absence, you perhaps were granted a reduced premium. Is the insurance you carry now adequate for the purpose for which you use your car?

Did you take advantage of certain provisions in the Soldiers and Sailors Civil Relief Act to protect you from further liability for leases or contracts after you entered service? This act provides

for immunity from court action only during the time you serve in the armed forces. Did you miss any payments on your home while you were in service? You now are liable for interest which accrued on the unpaid balance during the years that payments were postponed. These debts were not forgiven—and now that you are a civilian again, you must take up your postponed responsibilities.

Have you applied for reemployment in your old job? Application must be made within 90 days after you are released from service. If you do not return to your former job, it will be helpful to your former employer if you notify him as to your decision. The 86 local offices of the Texas Employment Commission and the Federal Bureau of Veterans Reemployment Rights are equipped to protect your rights and assist in returning you to your pre-service is made for this service.

A pamphlet explaining procedures to safeguard your reemployment rights can be obtained by writing the Bureau of Veterans' Reemployment Rights, Room 222 Commercial Building, 1100 Main Street, Dallas 2, Texas.

Garza County Citizens Are Advised To Make Preparations For Winter

The recent "cold-snaps" are the forerunners of more severe weather to come. It is just good management, says Lewis Herron, Garza county agent to do now the maintenance and repair jobs around the home and farmstead that will make for more comfort and safer living this winter.

Check the floor furnace burners, controls and plumbing before lighting it, says Herron, to make sure there is no escaping gas to cause an explosion. Do the same for gas heaters and vent them if possible. Vents will eliminate the problem of moisture condensing on the walls and chimney for loose mortar or cracks and if repairs are needed, make them before the first fire is started.

Insulation will make the house warmer this winter, cooler next summer and will cut the winter heating bill, says Herron.

The gutters and down spouts should be checked to make sure that leaves, trash and dirt are not blocking them. If they are clogged, damages can result from water spilling over or from seepage on both the inside and outside of the house. If the roof of the home or other farm buildings needs repairing, the job should be done now. Herron points out that nails in metal roofs will become loose in hot weather and may even come out and he suggests a careful check be made on this item. A coat of asphalt roofing cement will usually take care of the leaks in the roof that have resulted from cracks or small holes.

Drainage hasn't created much of a problem in most sections of the state for many months, but the specialist says be sure water drains away from instead of under farm buildings. Frost heave can cause the foundation to heave or crack and this means a big repair job later.

Plows and other implements that will not be used until next spring should be given good cleaning and a coat of oil. If it must be let standing out during the winter, be winterproofed. Tractors and other motors should be given special care. Drain the radiators, remove the batteries, place covers over exhaust pipes and other openings that catch moisture.

Periodic checks and maintenance of farm buildings and equipment will help to down repair bills and add to their useful life, says Herron.

Bernie Felder Dies Here, Buried at Moor

Funeral rites for Bernie Felder, were conducted Tuesday in Moody. He died Saturday at Garza Memorial hospital. Mr. Felder's home prepared the body for burial and sent it to Moody by train Sunday night.

Felder, 53, had been a Post-ident for 10 years. Survivors are his wife, Ethel; two children, Adell and Fort Worth and William Field of McGregor; two brothers and two sisters.

Like your travel with a JOYOUS THRILL?

WE HAVE NEWS for a lot of folks who want more fun from driving than they get from their present cars.

There's a trim bundle of eager high-powered energy that's just the ticket for you—a spirited automobile that can give you thrill after joyous thrill, for mile after fleeting mile.

Why not come in and try the Buick we have in mind?

The excitement starts with your first look at it, your first sitting in it, your first fingering of its slender wheel.

But wait till Dynaflo Drive* begins working its magic—and its constant and complete smoothness fills you with never-ending wonder.

Wait till you feel the bubbling exuberance

of taking your first hill with a high-compression Fireball 8 Engine doing the honors. That's when you get a man-sized sampling of the tremendously able and instantly responsive power you command here.

Wait till you feel the serene satisfaction of skimming over rough roads, cobbles or ridged crossings. That's when you know, better than words can tell, what a million dollars' worth of ride engineering can do in the way of magnificent comfort.

Wait till you jockey into a real tight parking space and note the fun and ease that Power Steering** brings to a once-tough job.

But—why wait?

There's a Buick that can do all this—and more, far more—all ready for you to try it.

And listen: If you can afford a new car, you can afford a Buick.

How about coming in this week for a real sampling of this joyous travel?

Traffic Commission

(Continued From Front Page) voted chairman of the Commission, replacing Bill DeWalt, who became vice-chairman.

The recently printed pamphlet was presented at the meeting and distributed among the members. This pamphlet was made possible by Post Parent-Teacher Association and explains the function of Garza County Citizens Traffic Commission. The publicity committee is working toward distribution of these booklets throughout the county.

Further explanations on the driver awards were given by Pat Henderson, publicity committee member.

Victor Hudman, acting for Mrs. Charlie Bird as School committee chairman, brought up a discussion on juvenile drivers situation. Hudman stated that there is a possibility of having State approved driving classes in the Post high school. The classes will be offered as elective courses and one-half credit will be given for them. Further discussion was made on ways of obtaining a car for this course.

Mrs. John Lott, juvenile driver license committee, gave a report on the licensing situation of juveniles in Garza county. Youngsters under the age of 16 years may obtain their licenses under two conditions provided for by State regulations. One of these conditions is that in case of necessity or where the juvenile must drive to aid the family. These conditions are in the drivers licenses manual, which is published by the State of Texas and distributed by the sheriff's office or by Highway patrolmen giving the driver's test. Parents should obtain this manual and study these conditions before giving their permission for underage children to get licenses to drive.

Suggestions were made for signs to be erected on the Highways entering Post. These signs will advertise and draw attention to the fact that the CIT-

be mailed this week to other winners, whose names were not available by press time, Hudman states.

The store received approximately 150 entries in the contest, which closed November 2.

Carnivals Highlight Halloween Events At Southland, Graham

Halloween carnivals remained in the spotlight throughout Garza county after last week's edition of the Dispatch. Graham, Southland, Justiceburg, and Post held their carnivals on Wednesday, Thursday and Friday nights.

Halloween merriment rang through the gymnasium of Graham school last Wednesday night as approximately 300 people joined with the citizens of that community in observance of All Saint's day.

The booths, consisting of baseball throwing, basketball goals, bingo, raffles, and many more opened at 7 o'clock and the coronation took place at 8:30. The queen winner was determined by how much money her class booth made.

Shirley McBride and Joe Dick Rogers were crowned queen and king. They were candidates from the sixth grade.

Other candidates were Lond Dale Crockett and G. T. Mason, first grade; Gail Stone and Floyd Loftin, second; Sharleta Taylor and Roy Newberry, third; Kathy Stone and Robert Loftin, fourth; Leta Stone and Joel Morris, fifth; and Oletha Oden and Carrol Ray Davis, eighth grade.

Southland's annual carnival was held Thursday night with an estimated 400 people present. F. W. Calloway, superintendent, reported.

Calloway said that \$685 was cleared from the traditional Halloween booths and concessions stands. Bingo, dart throwing, cake walk, spook house and others were featured in the carnival.

Southland's Traffic Commission is in operation. Short said. This proposal has been placed before city officials and they approved the idea. Texas Highway department officers are now considering the matter. Short stated that the signs will be financed by organizations in Post.

"Everyone is urged to attend the meeting Monday night," Short announced. "This is for all citizens of Garza county, so attend and become a member. There are no dues, fees or any costs, your attendance is all that is required."

val fun.

Halloween queen was chosen by the amount of money her class booth made. Carolyn Stolle, third grade princess, was crowned queen and she was escorted by Johnny Haire.

Other members of the royal court were: Aloma Gail Shoemaker escorted by J. W. Basinger representing the first and second grade; Delores Nell Shoemaker escorted by Earl Lowrey, fourth and fifth; Jerry Huddleston escorted by Noel Norman re-

presented the sixth and seventh graders; Eva Lou Williams and Harold Donahoo, eighth grade; Sue Lancaster and Jimmy Halliburton, freshman; Joyce Edwards and Jackie Myers, sophomores; Eda Dee Hagler and Ross Dunn were representatives for the juniors and seniors.

Fred Myers acted as master of ceremonies, Donald Basinger was the Princesses' attendant, Teddy Scout carried the crown and Sylvia Basinger was flower girl.

Farmers Of West Texas To Sponsor First "Pig Lift"

South Plains farmers are joining with a national movement to better the understanding between farmers of United States and two countries in Central America, Martin Strate, representative of the Texas Interfaith Committee and the Christian Rural Overseas Program (CROP), stated. West Texas' part in this program will be the first "pig lift" from the South Plains.

Two hundred pigs, bred and raised on West Texas farms, will be loaded aboard a transport plane at Lubbock Municipal Airport November 17 and then flown to Costa Rica and El Salvador.

"This program endeavors to help 'the little guy' in his struggle for a better life," Strate said. "That will do much toward changing his thinking in favor of the Christian and democratic ideas we in the United States have to offer."

A special program for the public will be presented at the airport before the first pigs are loaded. Among the distinguished guests to take part will be representatives of the government of El Salvador.

Each of the pigs to be shipped will be high grade animals and will weigh between 45 and 60 pound. A tag bearing the name of the person or organization giving the pig, or the money necessary to purchase the animal, will accompany each pig.

County agents, vocational agriculture teachers, Farm Bureau representatives, civic club members and church leaders in all of the counties have been assisting in the drive to obtain the animals.

Spur Defeats Antelopes, 25-7 In First District 6-AA Tilt

In the first conference try of 1952, Post dropped a 25 to 7 game to Spur's powerful Bulldogs last Thursday, at Jones Stadium in Spur. The Antelopes faced a heavier and more experienced team, but fought a clean hard battle.

Curtis Blair and Tom Hightower scored one touchdown each for Spur, while their teammate, Dean King racked up two of the tallies. Jack Cloude converted for one extra point. Fred Long recovered a Spur fumble behind Post's goal line and L. W. Evans kicked an extra point to chalk up Post's tally.

The first quarter with Blair, 145 pound back, taking the ball on a left end sweep of 27 yards. Conversion attempt failed, giving Spur a six point lead.

After the kickoff following the touchdown, Post failed to make first down yardage and Evans, 166 pound back, punted. Spur fumbled on the first play from line of scrimmage and after a struggle Long, 224 pound Antelope lineman, covered the ball behind the goal line and Evans converted to give the Antelopes a 7 to 6 lead.

In the second quarter, King, 170 halfback, began a touchdown

spreed to rack up two of Spur's touchdowns. The first scoring play of this period was made by King on a plunge over the middle after a 30 yard drive by Spur. Cloude, 155 pound back, converted to give the Bulldogs a 13 to 6 margin. Post took the ball on the kickoff, but failed to make a first down and Evans punted again.

The offensive team from Spur drove 60 yards and King sprinted over from the five yard marker for his second touchdown. Score readings stood 19 to 7, Spur, at halftime.

Post Antelopes came back on the field after the halftime rest, full of steam and drove 60 yards, before the Bulldog's 185 pound average line became a solid wall and the ball went over on downs. Post's defensive team held the Bulldogs scoreless during the third period of play.

Hightower, 155 pound backfield man for Spur, carried for the Bulldogs' final touchdown, midway in the fourth quarter. Hightower plunged over from the one yard line after a downfield march by his teammates.

Evans and Stone played outstanding ball for the Antelopes. Both backfield men marked up considerable gains with their runs. Stone could not get started with his passing shown against Tulla, but completed five passes out of 14 attempts for 53 yards gain. Most outstanding play made by Stone was a shifty run for 30 yards gain through Spur's entire squad.

Pete Hays, 134 pound guard; Long and Buddy Caylor, 140 pound end, were outstanding on Post's line.

George McAteer, sophomore back, and Blair were outstanding men for Spur, while Fred Price, 160 pound tackle, and John Rankin, 200 pound tackle, played a notable game on Spur's line.

Spur made 11 first downs and Post marked up nine. The Bulldogs drove for 173 yards gained rushing and Post raced to 139. Spur lost 120 yards on penalties, while Post lost 45. The Antelopes punted four times for a 39 average and Spur punted seven times for the same average.

Spur's starting line-up was Blair, Chester Lindsey, McAteer, and King in the backfield. Price, Harley Bingham, Don Wilson, Bobby George, Don McGinty, Ralph Gibson and Frank Gabriel were on the Bulldogs' line.

Post met the opposition with Stone, Evans, Charles Chandler, and Randall Lawrence starting in the backfield. Starting line-up were Long, Caylor, Don Moore, Junior Smith, Nolan Williams, Billy Meeks, and Royce Josey.

M-G-M's "FEARLESS FAGAN"
A unique film comedy based on a true story.
Movie fans owe Life Magazine a debt of gratitude for having printed the true story of Private Floyd C. Humeston and his pet lion Fearless Fagan. The hilarious comedy that M-G-M has made, entitled "FEARLESS FAGAN", is inspired by the unique adventures of a boy, drafted into the Army, who found no rest until he could provide a home for his pet. In the film, following a series of thrilling episodes which almost cost the lion his life, Fate in the shapely form of a Hollywood starlet, played by Janet Leigh, arranges for the lion to be taken to Hollywood where he joins his illustrious predecessors Lassie, the dog, and Francis, the mule, in the roster of screen favorites.

Southwest Conference Record Shows Crippled Conditions

By Harold V. Ratliff
Associated Press Sports Editor

The Southwest Conference has a lame and halting record in inter-sectional football this season and it doesn't give indications of bettering it in basketball.

In the first place, the conference as a whole does not appear as strong as last season. In the second place the teams are handicapped by the new rule that forbids their starting practice until Nov. 10.

Handicapped not because it isn't a good rule but because the conference is a lone wolf in this movement aimed at deemphasizing sports.

While the Southwest Conference must wait around most of the other conferences already have started practice. We hear that Alabama A&M played an intrasquad game as early as October. The so-called minor colleges of the Southwest are not restricted and have already begun practice.

Don't think the teams in the Southwest Conference aren't getting some practice. The boys are working out on their own. This, however, will do their little good except to condition them and

sharpen their eyes for the basket.

The Texas Interscholastic League comes up with one of the largest fields in basketball and it would seem that the Southwest Conference ought to be right up with any of the leagues since there are so many teams each year in the State. But Texas does not emphasize basketball like the other states. Where there are nationally ranked teams you will find the boys play basketball the year around.

Coaching of Texas high school basketball doesn't compare with the other areas either. It's because there is little specialization. As one college coach put it: "Before the season starts each year the head football coach (the king at a high school) will pick out an assistant and say: 'It's your time to coach basketball. Jim did it last year.' But Jim doesn't want to fool with it. He says 'I coached it year before last and Sam hasn't coached it for three years. Let him have it.'"

Football takes up two of the basketball months—November and December. And then there's spring football in February.

Doc Hayes, coach of Southern

Methodist where there may be a championship team this season because Doc finally has gotten himself some tall boys for the center spot, thinks the new rules of basketball are going to help the game a lot. These rules consist of making all fouls in the last three minutes two-shot affairs regardless of what they are, of giving a second chance on free throws in the first 37 minutes and of banning the privilege of taking the ball out of bounds at any time during the game.

How often have you left a basketball game in disgust when the teams ahead kept the ball all the time by taking it out of bounds on fouls and just passing it back and forth and keeping it away from the team that was behind? The game actually ended the right there. There was no use to stay anyway.

But those who advocate stalling say it's done in football when the team ahead keeps the ball and merely runs line plays. This is not a fair comparison. In football the team with the ball has to make 10 yards in four downs or give up the ball. In basketball the team doesn't have to

— FROM A STRICTLY LOCAL ANGLE —

Antelopes Act As Hosts To Tahoka For District Game

One of Post's age old rivals will invade the city Friday night for a conference tilt. Anxiety is mounting as the Antelopes prepare to meet Tahoka's Bulldogs. Friday's tilt will be the second conference game for each team. Post fell before the powerful force of District 6-AA strongest contender, Spur, while Tahoka defeated Slaton, last week.

Since 1945, the Post-Tahoka games have been evenly divided between the teams. The Bulldogs won in '45, '46 and '47, while the Antelopes won in '48, '49 and '50. Tahoka came back in '51 to win and go on to the district title.

Spur and Tahoka are running neck and neck now with the lead in District 6-AA, with Post and Slaton close behind them. Spur will meet the Tigers from Slaton Friday to see if they can maintain their lead, as Post battles it out with Tahoka.

Coach Bing Bingham's Antelope squad lost one of their starting guards in last week's game. Royce Josey, 140 pound guard, received a neck injury against Spur's Bulldogs and will be out for the rest of this season. This injury added another drawback to Post's lightweight and inexperienced team.

District 6-AA winner will meet one of the most powerful double A teams in the state for Bi-District playoff. This team has not been definitely decided upon, but Stamford is the most promising contender of District 5-AA. Stamford is rated the second best double A team in Texas, with Quanah falling in first place. Stamford defeated Rotan and Anson, in conference games. Rotan's Yellowhammers were considered to have one of the fastest backfields in double A competition.

From all reports, the state battles for double A winners will be well-worth following with such teams as Seminole, Huntsville, Littlefield and Dumas in the running.

Antelope B Team Wins Second Game

Post B team scored its second win Friday afternoon in Antelope Stadium by defeating the reserves of Slaton 20 to 12. The first battle between these two teams ended with Post victorious by a score of 13 to 6. The Antelopes B tied Spur's reserves 7-7 and lost to Tahoka to make a season standing of two wins, one tie and one loss.

Homer Cato sparked the Post squad to victory with two touchdowns and one extra point. J. C. Shedd scored one touchdown and Darrell Norman raced over for one extra point.

The first half was a struggle between the defensive teams from both schools. Slaton managed to drive for one tally, while Post could not break down resisting opposition of the Tiger line.

Post's first scoring play occurred midway in the third period of play with Cato sprinting over from the six yard line after a 60 yard drive by the offensive team. Cato raced around left end for the conversion. Score readings stood 7 to 6 as the fourth quarter started.

Norman hurled a pass from 20 yards out to Shedd in the end zone for the first tally of the fourth quarter and then Norman plunged over the middle for an extra point.

Slaton's defensive team began a march from its own 20 yard stripe to score. The conversion attempt failed leaving Post two points in the lead.

Cato caught a short pass from Norman and ran 40 yards to score the final touchdown of the game. Slaton's line held and the try for extra point failed.

Post made five first downs and Slaton, three. The Antelopes made 73 yards rushing, Slaton 59. Post completed two passes out of two attempts for 25 yards gain, compared to Slaton's eight attempts and three completions for 20 yards gain.

Slaton fumbled one time and was penalized five yards. The Antelopes received no penalties and did not fumble. Each team punted once, Slaton for a fifteen yard average, and Post's average was 20 yards.

The B team from Post will journey to Spur today for a rematch with the reserves of that school.

Traditional Halloween "Witch" And Aids Crown Justiceburg's Royalty

Editor's Note: Mrs. V. A. Lobben sent the following account of Halloween activities at Justiceburg to the Dispatch.

The traditional "Old Witch" brewed the magic for the Justiceburg School coronation exercises, which preceded the Halloween Carnival last Thursday night.

As the curtain went up the audience saw a witch singing over her cauldron. Other symbols of Halloween discovered on the stage were ghosts, goblins, jack-o-lanterns and even a fairy. The witch granted Justiceburg school three wishes. The announcer, Roger Sullenger, made the first wish for the school. He wished that the lovely Justiceburg girls might appear for one night as princesses, and the manly boys as princes. The witch granted the wishes by stirring and singing over her pot. The princesses appeared out of the flame and smoke around the cauldron. After the princesses and princes were on the scene, they made the second wish. They wished for a king and queen to reign over them. The witch granted this wish by making a king and queen appear above the smoke. The third wish was for

a crown for the king and queen and the witch produced these from the fire, and crowned the royal pair. Following the coronation, songs were sung by the king and queen's court.

Characters for the play were: Sharon Ainsworth and Theresa Mireles, jack-o-lanterns; Mary Molina, fairy; Jose Marroquin goblin; Oscar Molina and Jane Mireles, ghosts; Vickie Molina and Lydia Marroquin, witches; and Lewis Molina was a black cat.

Princesses and their escorts were Micah Cross and Billy Wayne Streetly, first grade; Brenda Lou Sullenger, and Bert Molena second grade; Sammie Kay Caffey and Roger Sullenger, third; Carolyn McCowen and Johnny Robinson, fourth; Shirley Masters and Eddie McCowen, fifth; Dema Jo Robinson and Monte Stanford sixth; and Cassandra Cross and Weldon Reed, seventh grade.

The queen and king were Jean Winkler and Joe McCowen.

Following the coronation program, an auction was held. Articles auctioned were donated by the merchants of Post, Justiceburg and other surrounding

Food was served from the cafe, and a cake walk was enjoyed by many. The children enjoyed the grab box from which many unusual things came.

One of the leading attractions was a "turtle race". The tiny turtles had numbers on their backs and "raced" for a prize. A turtle belonging to Walter Boren won the race and a \$25 saving bond for his owner. The second place was won by Jean Winkler's turtle and she received a dresser set donated by Dodson's Jewelry.

\$329.00 profit was added to the school funds to be used in enriching the visual aid program.

Post FFA Members Have \$5249 Fat Livestock Program

Post high school Future Farmers of America had a \$5249 livestock fattening program for 1952. E. F. Schmedt, vocational agriculture teacher, reported. This amount is based on sale receipts of the State Fair and Junior Stock show in Lubbock. Schmedt said that breeding stock and field projects are not included in this total.

The livestock were exhibited at Fat Stock shows in Garza county, San Angelo, Odessa, Lubbock and Dallas.

FFA boys exhibiting and selling steers were Bobby Cowdrey, Harlan Pennington, Mack Terry, Jack Ainsworth, Charles Bird, Tommy Bird, John Boren, James Boren, Jerry Crockett, Bernie Welch, Bowen Stephens, Kenneth Rogers and Moody Graham. This group received a total of \$4426.95 for their projects, but \$65 was premium money.

In the Fat Barrow division nine Post FFA members sold 12 pigs for \$679.00. \$30 of this was premiums. Boys exhibiting and selling barrows were: Novis Furr, Stanley Nixon, Auda Vee Teaff, Harlan Pennington, James Barron, Roberts, Wayland Craig, James Barron.

Darwin Howell raised five lambs which sold for \$143.30 and are included in livestock fattening.

United States President Will Be "Officially" Chosen December 15th

By popular vote, Dwight D. Eisenhower will be the next president of the United States, but he was not "officially" chosen Tuesday in the General Election. Under the Constitution the actual voting for the next President of the United States will not take place until December 15th.

Voting on December 15 will be the working of the Electoral College, one of the oldest and least understood of American institutions.

General Services Administrator Jess Larson recently sent letters to the Governors of all forty-eight states emphasizing the role of the Electoral College and explaining that Tuesday's election was the first step in electing the President.

Larson asked each Governor to send him, immediately after November 4th, a certified list of the state electors chosen. The official lists will say nothing whatever about the party affiliation or presidential preferences of the electors.

On the first Monday after the second Wednesday in December, which is the 15th, the elections of each state will go through the formality of casting their votes for President and Vice-President.

When Larson tallies up these votes, he will know—officially—who has been elected President.

Early Wednesday morning reports showed that Eisenhower and Nixon had tallied 531 electoral votes and 266 is the needed

number for victory. A number of lawmakers think that the Electoral College is a needlessly cumbersome way of ratifying what everyone had al-

ready known for weeks. Almost every year, constitutional amendments are proposed to abolish it. But to date none of them have gotten anywhere.

Miss Norman placed second in contest for district sweetheart under the winner from Brownfield's chapter.

Post chapter furnished musical selections for entertainment at the banquet. Lorrye Lou Livingston, Jeanette Storie, Joy Martin and Rose Mary Gayton were the Post girls that presented special songs for the occasion. They were accompanied by Mrs. J. A. Stallings on the piano.

Among the distinguished guests present were the president and vice-president of the Texas Chapter of Future Farmers. The president was principal speaker.

John Miller VFW Post To Send Boy To Scout Jamboree In California

One Post Boy Scout—although still unknown—will have the opportunity to represent the town and county as well as his troop at the third National Scout Jamboree scheduled at Santa Anna, Calif., July 17-23, 1953.

Members of the John Miller VFW Post No. 6797 assured one good scout of the trip recently when they voted to defray at least \$200 of the expenses for the trip. Post Commander Waggoner Johnson explained the group felt that Scouting is one of the most beneficial youth movements now going on in the country. "And nothing can be more helpful in assuring peace than a better understanding of our neighbors," he continued. "At the Jamboree the Post Scout will meet boys and leaders from over the entire United States and should return from the trip with a closer feeling toward the boys of other states."

John Lott, member of the South Plains Council executive board and also a member of the regional staff, announced that no definite plan has been formulated for selecting the boy who will attend the Jamboree. "He must be a second class Scout and a certain age by the first of next March, the deadline for selecting the boy."

Approximately 150 Scouts from the 20-county area of the South Plains Council will attend the Jamboree. A definite mode of transportation has not been decided upon, Lott explained, but at the present time officials are leaning toward bus travel. This will enable the boys to take side trips to national parks and other scenic or historical sites they might wish to view going out or coming back.

In tackling the problem of selecting the boys who are to make this trip, the executive board is contemplating the setting up of a three-man committee to help each troop with the problem. However, no one has been named to this board.

The last Jamboree was held in Valley Forge, Penn., and an official film was made of all the events. Lott said that this film, plus one which he personally took will be shown at a future meeting of VFW members so they can see exactly what their money is sending the Post boy, to Lott, as a regional staff member, will also attend next year's Jamboree.

To be staged at the Irvine Ranch near Santa Anna, the 1953 Jamboree has plenty of work, entertainment and fun scheduled for the boys who attend. The Jamboree site itself is a historical attraction, the Irvine Ranch having originally been a 90,000 acre land grant from a Spanish king. The owners have set aside 2,000 acres for the Scout festival.

Primary Teachers Visit Parents Report On Pupils' Progress

Grade school officials are pleased to satisfy the parents of primary students as far as possible. E. M. principal, announced this year some of the parents had a little disappointment in only a final report of children who were in grades. This report was in form of a letter which whether or not the student made satisfactory progress in grade level.

Year's letters will still be on progress, but they went out four times during the year, with the first to the parents next week. A method used in the public school system, the reports will enable the parents to follow the students more closely through the year, Mills said.

Year's teachers decided that parents could follow the progress of the students they

could help to remedy any faults which the students might develop," Mills explained. He also pointed out that teachers from the first through the fourth grades have supplemented this report with home visiting during the first nine week interval. During the next nine weeks, they will hold conferences with parents.

"Such close contact and cooperation between parent and teacher cannot help but prove beneficial to the students," the principal said. "Therefore we urge every parent with a primary grade student to give us their complete cooperation so that we might be successful in better preparing our students for higher grades and as better citizens."

The new reports still do not give a definite grade for the students. They point out that the student is either making progress in a certain study or needs to improve in another. This latter statement is naturally back-

ed up by teacher comments on why the student is not doing so well in a course. The form also shows the parents how many days the students attended school during the period and what his or her conduct was during that time.

"This new form is another step in our search for a workable, understandable and acceptable system of reporting Post students' progress to their parents," Mills explained. "The old system of numerical or letter grades every six weeks has long been abolished in many of the schools in the state. To replace this system we have adopted this new method which we hope will be satisfactory to the parent and at the same time give a complete picture of what the student is accomplishing in Post grade school this year."
