

# Thanksgiving

To attract and hold experienced teachers

## Principals propose teacher pay boost

The three Post principals have submitted a joint recommendation to Post school trustees for a proposed salary scale for teachers

above state minimum which would add an estimated \$83,800 to instructional costs here on the basis of the current staff.

The Post schools now pay \$400 annually above state minimum but ranks only 96th among the 156 Class AA school systems in Texas.

The proposition was presented trustees Thursday night at their November meeting for their study.

The plan was presented in response to a trustees request back at budget making time as to what the principals would recommend to secure more experienced teachers and keep them.

The board, faced with constant turnover among first and second year teachers, is seeking some way to prevent the turnover here which trustees feel hinders "educational production."

The way principals Joe Giddens, Bud Davis and Dan Rankin figured it out they would pay teachers with bachelor degrees \$1,000 over state and master degree teachers \$1,200 over state each year for their first three years, bachelor degree teachers \$1,200 and masters' \$1,500 for four to six years experience, bachelors \$1,400 over and masters' \$1,800 over for seven to nine years experience, Bachelors' \$1,600 and masters' \$2,100 for 10 to 12 years experience, and bachelors \$1,600 and masters' \$2,700 for 16 years and over.

New but experienced teachers would receive 1/2 year credit for experience outside the Post system (See School board, Page 10)

### Caylor rites to be today

Funeral services for J. C. (Connie) Caylor, 78, a longtime resident of Post, will be held today (Tuesday) at 2:30 p.m. in the First Baptist Church with the pastor, Glenn Reece officiating.

Caylor died Sunday in University Hospital in Lubbock.

Burial will be in Terrace Cemetery under the direction of Hudman Funeral Home.

Caylor was retired from Postex Mill and Married Althea Maddox, Dec. 24, 1925. She preceded him in death in March of 1978. He was a Baptist.

Survivors include one daughter, Virginia Babb of Post; two brothers, Dee and Albert of Post; one sister, Hettie Dudgeon of Post and two grandchildren.

## Housewares show success

The first ever Housewares Show sponsored by the Garza County Family Living Committee under the direction of the Texas Agricultural Extension Service held Saturday afternoon in the Community Center was a great success. Approximately 200 people attended the exhibits and demonstrations held from 1 to 4 p.m.

Merchants displays and exhibits completely filled the center showing great ideas for early Christmas shoppers and also giving helpful hints on energy conservation and home decorating.

Winners of the door prizes given were: Grace Cummings, the TV given by the First National Bank; Beulah Gilmore, Master Chef from White Auto; Maurine Hudman, Mr. Coffee from Rick's Venture Foods; Nancy Shaw, towel set from Happiness Is; Mrs. Joe D. Moore, Christmas Arrangement from Maurine's; Barbara Woodall, hat rack from Coe's Trading Post and Furniture; Jeanette Hodges, (See Show success, Page 10)

RUNNING FOR A POST RECORD — Tailback Alonzo Luna, No. 40, breaks through a hole in the Frenship line and cuts back to avoid a closing corner back as he ran for 305 yards at Wolfforth

Friday night. The 305 yards probably is an all-time Post High School football record. See story on page 8. — (Staff Photo by Norma Baumann)

## United Fund is nearing its goal, now \$9,537

Garza's 1980 Garza Fund drive began closing in on its \$10,195 goal today with \$2,753 more in contributions over the weekend bringing the current giving total to \$9,537.

Mrs. Delores Dunn brought in \$665 Friday from the farm and ranch division she heads to bring the farm and ranch total of a very respectable \$1,165 to date.

Mayor Giles McCrary also spent most of one day last

week working his cards in the business division and reported back complete with \$830 in contributions.

A number of other business division contributions were received, including a large contribution by Burlington Industries.

Walter Didway, chairman of the Postex Plant employees division, reported another \$493 in plant worker contributions to bring that total to \$1,400.50 with at

least 100 cards still out.

"We're getting close to the cleanup stage now," Drive Chairman Jim Cornish reported.

"We've got an excellent chance to reach our goal for the 12th straight year if all the workers will get finished up. "But we may wind up again in a race with Santa Claus."

That is what Cornish has been trying to avoid.

### Court rules evidence insufficient—

## Walker conviction reversed on appeal

The Texas Court of Criminal Appeals has reversed the felony conviction of Pat N. Walker on a charge of theft of property valued at over \$200 and less than \$10,000 in value revolving around some oil field scrap metal.

The criminal appeals court ruled "the evidence insufficient to support the conviction" in handing down its ruling in Austin last Thursday morning on Walker's appeal.

Walker was found guilty after a jury trial in the 132nd District Court in Snyder in September, 1977. In October of the same year he was given three years probation on a three year prison sentence.

The case had been transferred from the 106th District Court here to the 132nd District Court in Snyder for trial.

District Attorney Leland Greene in Snyder told The Dispatch that he plans to review the transcript of the testimony in the trial as recited in the appeal court's reversed opinion and discuss the case with District Attorney Joe Smith of the 106th judicial district before deciding whether or not he

will file a motion for a rehearing.

Fifteen days are allowed for filing such a motion. If

no motion is filed, or if it is denied, the Texas Court of Criminal Appeals would

(See Reversal, Page 10)

### To correct jail deficiency—

## Dispatchers given boosts

The Garza County Commissioners Court has abolished the position of dispatcher in Sheriff Jim Pippin's office and upgraded the employees from dispatchers to correctional officers at a substantial salary increase.

The action, taken in a special court session last Thursday, was the last major step necessary to bring the county jail here in compliance with the Texas Jail Standards Commission. Sheriff Pippin told the court that with this action he should have the jail in full compliance by around the first of the year.

The jail standards commission requires a correctional officer to be on duty at the jail around the clock seven days each week.

The court in converting the dispatchers into four correctional officers designated continued dispatching as a portion of the correctional officers' duties.

The state requirement on salary for correctional officers is that it be compensatory to the risks involved.

(See Pay raise, Page 10)

### Thanksgiving to be holiday

Generally, Thanksgiving will be a holiday in Post for just about everybody but Postex Plant employees.

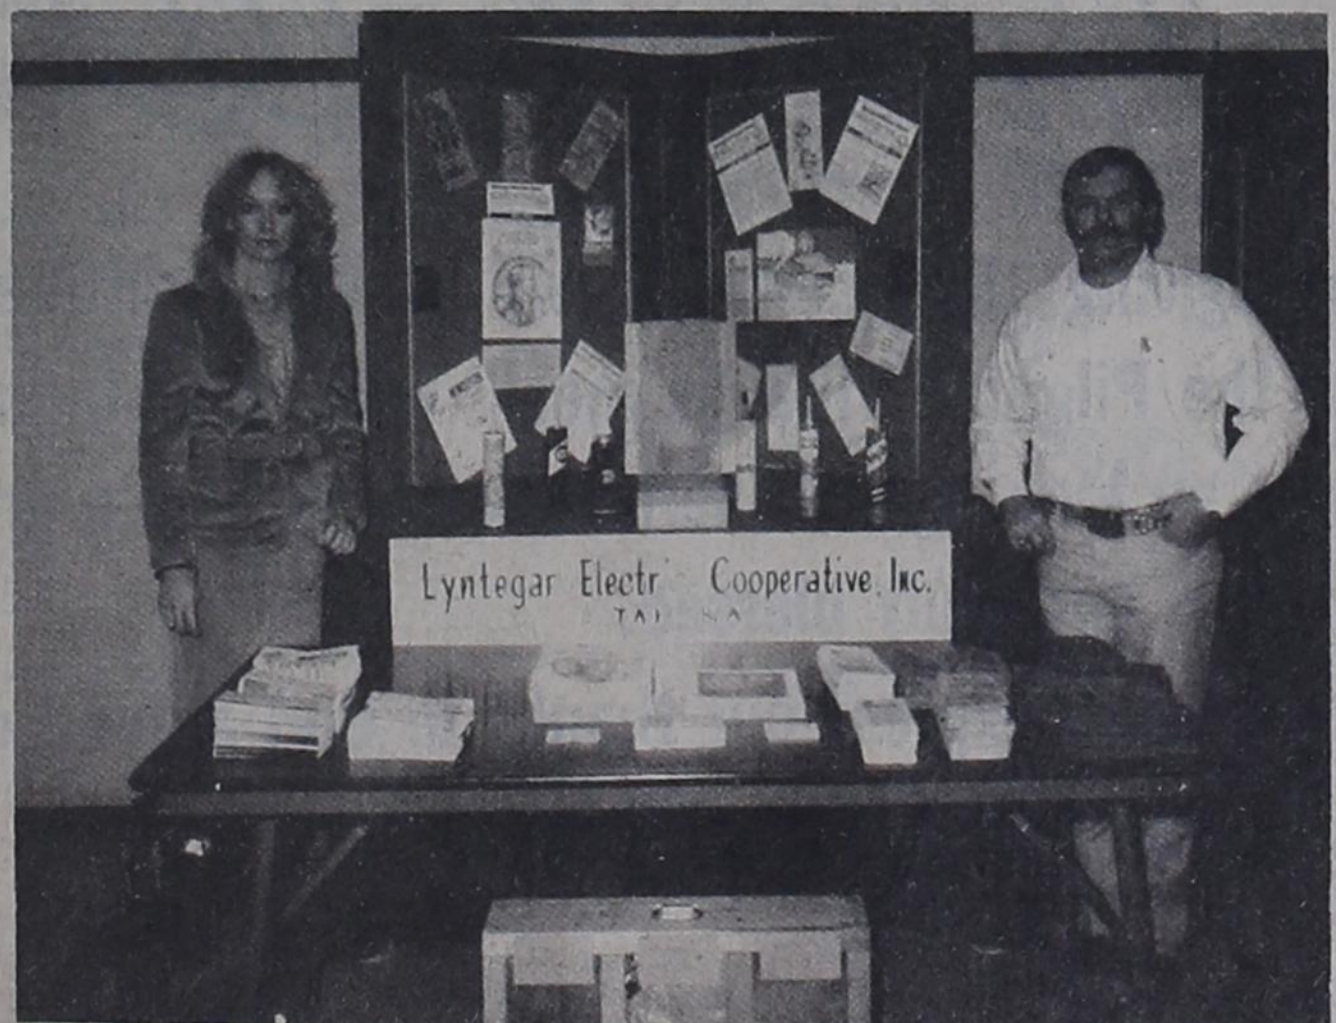

Postex is planning a five-day operation this week, including a Thanksgiving work day.

Post schools will be dismissed Tuesday afternoon for the remainder of the week.

The courthouse offices will close Wednesday afternoon for a long Thanksgiving weekend.

The Dispatch, being published Monday, will close Monday night to give employees the remainder of the week off as a short vacation in advance of the Christmas rush.

Some food stores, restaurants and gasoline stations will be open Thanksgiving. The rest of the business community will be locked up tight.

ENERGY CONSERVATION — Lugene Lane and Rick Etheredge of Lyntegar Electric are shown as they prepare to present their energy demonstration at the Housewares Show held in the Community Center Saturday afternoon. The Show was sponsored by the Garza County Family Living Committee under the direction of the Texas Agricultural Extension Service. — (Staff Photo)

### Santa coming for 'picture session' Dec. 1—

## Chamber is buying new Christmas decorations

The Chamber of Commerce board of directors at a special meeting last Wednesday noon voted to purchase \$8,200 worth of new Christmas decorations for Post.

The decorations will consist of 15 12-foot Christmas trees — five red, five green, and five gold — to be mounted on the Main Street light poles in the business district.

Delivery has been promised by Dec. 3.

Next year the Chamber will receive 15 balls to be mounted on the light poles above the trees to reflect the street lighting.

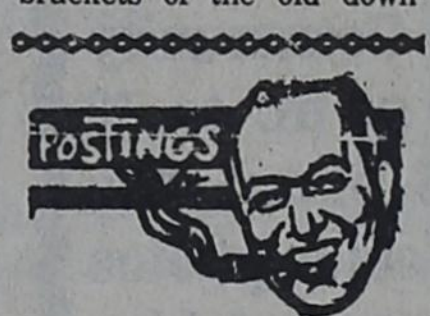

The downtown poles with underground cables are such that there is no means to light pole decorations.

The Chamber will borrow that money it needs to complete the purchase above available funds. It then will launch a campaign of private contributions, and possible contributions from both city and county, to pay for the decorations.

The smaller Christmas tree ornaments which have been mounted unlighted on the downtown light poles

will be shifted to poles down highway 84. Since these are wooden poles, it will be possible to have them lighted.

Work on changing the brackets of the old down-

This coming weekend — right after Thanksgiving — Handy Hardware will hold its fifth Anniversary Sale in appreciation of the support the community has given Jim and Sammie Pollard in the growth of their fine store. Look over their first-ever page sale ad on page 3 and you'll find all kinds of bargains, microwave demonstrations, free Christmas record and more. Since we're out early for the holidays don't forget their sale comes with your Thanksgiving leftovers.

Lope gridders deserve our plaudits and appreciation for the way they played their way through the 1979 season, improving with each and every game, and finishing up a very respectable football team. They worked hard from start to finish and didn't quit after tough losses.

But what we want to emphasize here is that Coach David Thompson and his staff of assistants did an excellent job in preparing the youngsters, in teaching them how to improve, and eventually in putting together a team which last Friday night possibly would have beaten either Tahoka or Slaton.

Coaches generally get only criticism. Their only praise usually is doled out for championships and "fun-filled winning seasons."

We want to praise a staff — Thompson, Arcadio Rivera, Lane Tannehill, DeWayne Osborne, Jerry Reynolds, Darrell Radle, Rick Compton, and Randy Josey — which had what we will look back upon as "a wonderful losing season."

It was "wonderful" be- (See Postings, Page 10)

town decorations to the highway poles will begin this week.

The Chamber also has purchased a four-foot silver star to mount at the top of its 40-foot downtown Christmas tree which will otherwise be decorated with lights only. The tree is to be erected in front of the McCrary building as soon as it is brought here from Ruidoso, New Mexico.

Other Christmas promotional plans for the Chamber include two visits from Santa Claus — the first of them a unique "picture

taking session" in the Post Community Center Saturday, Dec. 1.

Santa will meet and greet his small friends that day from 10 a.m. until noon and from 1 to 5 p.m. during which time he will pose for pictures with his small friends.

The Chamber has arranged to have three by five inch instant color photos made of Santa and any youngster after which Santa will autograph the picture.

The cost per picture will be \$3 with the money applied (See Yule plans, Page 10)

## New uranium search fails

Another firm looking for uranium production has spent about two months in Garza County shooting 800-foot test holes about 15 miles north of Post but reported it "didn't find anything that indicates enough potential for further exploration."

ASCS ballots to be mailed Friday

Persons eligible to vote in ASCS community committee elections will be mailed ballots Friday, Nov. 23.

These ballots are to be returned to the county ASCS office in person by Dec. 3 or postmarked by that date.

Ballots will be tabulated at the Garza County ASCS office Thursday, Dec. 6 at 9 a.m.

## City sales taxes

### \$100,000 for 1979

Post will reap over \$100,000 in sales taxes for 1979 — the first year the return on the one percent sales tax has ever topped this mark.

With an \$8,068.17 tax check for November just received, the city has received \$97,083.63 to date for the year with one more check still to come.

For the first 11 months last year, the city received \$85,204.98. This represents a 13 percent gain in sales taxes for the year to date

Frank Samples, division land man of Sabine Products of Corpus Christi, told The Dispatch Friday from his headquarters that his firm has no further plans for Garza exploration.

"We found some pretty shallow low grade uranium," Samples told The Dispatch, "but it didn't have the potential."

He went on to explain that his firm tested only one Garza area and he wasn't saying Garza didn't have uranium somewhere else worth looking into.

"We run in six months cycles," he said. "When we get into another cycle we might be back."

According to reports Sabine spent about two months drilling about 120 test holes (See Search fails, Page 10)

Sales taxes have been climbing each year over the last several years.

This reflects a healthy retail economic situation here but inflation also makes a good sized contribution to the tax take.

As retail prices rise, so do the sales taxes upon the items sold.

# Dispatch Editorials

Page 2

Tuesday, Nov. 20, 1979 The Post (Tex.) Dispatch

## What we're thankful for

Since the whole conception of the American Thanksgiving is stopping to give thanks to God for our bounties, The Dispatch last year listed many things we find here and now to be thankful for.

This Thanksgiving, in our Thanksgiving edition editorial, we are adding to our list.

Here's our "thanks list" as it now stands:

We're thankful the air is clean and one can walk the streets alone at night without fear.

We're thankful our town has its head screwed on straight and is full of folks who constantly strive to make life better.

We are thankful for a balanced economy — where cotton, cows, oil wells and looms all play an important part in our scheme of things.

We are thankful that in our town Sunday is still Sunday in the real sense where people fill our churches to hear able men explain our Christian faith and call us to witness.

We are thankful that we live in a hard but beautiful land, which adds zest to living, nurtures natural freindliness to strangers, and cements our bond to continue to strive for something better.

We are thankful for some measure of adversity too, for in facing it we are strengthened. And we can always find a full measure of adversity here.

We are thankful for a man who would create "the OS weekend" and for all of those who join him each fall in his endeavor for the betterment of a group of boys who

will be America's men of tomorrow. This, to us, is the best one example we know of why we love this town so much.

We are thankful we live in America, a huge and imperfect nation but one so full of freedom and opportunity, a land where the lowest has not once but many times risen to the highest on his or her abilities.

We are thankful for our heritage and aim to thrust it forward to the generation of our sons and daughters, and grandsons and granddaughters, hopefully untarnished while in our hands.

We are thankful for our schools where children of all races learn together in the same classrooms and where the only need for busing is to bring the kids who live in the country into town for class.

We are thankful for our community library where stored for us are millions of words of wisdom, philosophy, poetry, and adventure written by the best writers of not only this generation but all generations. It is truly a bountiful storehouse.

We are thankful for this holiday season which permits families to gather together again around the festive table though some live far away. In reunion we find new life and reawaken fond memories.

Finally, we are thankful for the opportunity which is given to each of us to build a life of his or her own choosing.

And last of all, we are thankful that our town hasn't been discovered by those millions and millions of other Americans as the best place in which to raise a family and grow old contentedly and gracefully.

Yep, we're thankful to have our town to ourselves.

"DO YOU PROMISE TO LOVE, CHERISH, AND PROTECT HER IN SICKNESS AND HEALTH UNTIL MEDICARE CAN TAKE OVER?"

## Remember When

**10 YEARS AGO**  
Christmas promotion to be 'three times bigger'; Lights to come Dec. 2; Mrs. Lil Conner and Mrs. Sue Allison discover single Indian burial site here, carefully preserved; Awards presented to 28 Cub Scouts; Mr. and Mrs. Robert Buckley, Walking couple, find stopping place here; Cage teams sweep three games with Ralls Friday; Surprise party honors Steve Newby; Some Thanksgiving specials 10 years ago were Tom Turkeys, 37 cents a pound; cooked ham, 59 cents a pound; Cranberry sauce, 17

cents a can; Whipping cream, 25 cents for half pint; and shelled pecans, 69 cents for 8 oz. Pkg.; County's cotton allotment hiked.

**15 YEARS AGO**  
Mrs. Harold Lucas wins golf meet at Caprock Golf course; Elwood Wright elected by Ex-Students group; 1965 Chest drive set up for kickoff here Nov. 30; Drizzling rain halts Garza cotton harvest; Last hospital bonds paid off; 5th birthday of Butler's LP Gas; Birthday party held for Donna Gayle Josey; Pam Stewart is football Queen; Ronald Simpson is Pep Club beau; FHA girls name Johnny Bilberry as beau; Post Does open with 46-45 win over Sundown; Post defeats Slaton, 40-0 in final game.

## W.B. Sanders celebrate 51st

Mr. and Mrs. W.B. Sanders of 510 West Sixth Street in Post were honored this month by Post Dairy Queen and were given a special dinner and jewelry in celebration of their 51st wedding anniversary on Nov. 5.

Of all the couples with wedding anniversaries in November who have signed up for the anniversary dinner program at the Post Dairy Queen, the Sanderses have been married the longest.

Every couple registering at the Post Dairy Queen receives a free wedding anniversary dinner at the restaurant as a gift of Dairy Queen, whether they are celebrating their first, 50th or longer anniversary during the next 12 months.

Those married 50 or more years are presented with specially designed jewelry — gold-filled pins for the women and tie tacks for the men.

The wedding anniversary dinner program encompasses almost 50 DQs in Central and West Texas that are a part of the Chapman Fast Foods organization.

**25 YEARS AGO**  
Union Service highlight of Holiday here; State X-Ray unit here this week; Cinemascope is coming to Post; George Byrd and Ronald Ticer show lambs in local show; Floydada is back in District with Post; Polly O'Neal leaves for filming in Hollywood with Greer Garson.

## New Arrivals

## Twin Cedars Nursing Home News

Due to the paper coming out early for Thanksgiving we have no church news at this time.

We had a very unexpected visitor this past week, he was C. H. (Claude) Bailey. He lived in Post for 37 years, several of our residents worked under him at the Postex Mill. He came down from Amarillo to Slaton to visit his daughter, Paula Gotzki who brought him to see everybody. He still subscribes to the Post Dispatch.

Visitors this past week were Lottie Sanders, Terrie and Trevia Williams, C. H. Bailey, Paula Bailey Gatzki, Jewell White, Inez McGrew and Virginia Terry both from Lamesa, Walter and Myrl Mathis, Leon and Jadene Clary, Rev. Phillip and Alma Daniels and Hooter Terry.

The Calvary Baptist Church gave a supper for some of our residents. The ones attending were Lucy Clary, Jessie Roberts, Eve-

lyn Roach, Irene Wheeler, Henrietta Nichols, Anna Shellnutt and John Majors. They greatly appreciated this affair and we want to give a big thanks to all the members of the church.

The residents Christmas Party will be held Saturday Dec. 22 at 2 p.m. All the families are urged to attend.

Mary Caywood is back with us from her stay in the hospital. We are glad she is feeling better and is back with us.

Everyone would like to congratulate Ronnie and Tricia Metsgar on the birth of their baby boy Ronald Scott born Nov. 15 at 12:08 p.m. weighing 8 lbs. in the Methodist Hospital in Lubbock. We're all proud for you two.

Until next week.....  
Not all veterans are ex-servicemen. Some 679,000 or over two percent of the veteran population are women.

## THE POST DISPATCH

Published Every Thursday by Dispatch Publishing Company  
123 East Main, Post, Garza County, Texas 79356

JIM CORNISH ..... Editor and Publisher

Entered at Post Office at Post, Texas, for transmission through the mails as second class matter, according to an Act of Congress, March 3, 1879.

Any erroneous reflection upon the character of any person or persons appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

## DISPATCH SUBSCRIPTION RATES

In Garza County \$6.00  
Anywhere Else in U. S. \$7.00

Notice: All mail subscribers — First class mail only is forwarded on any changes of address. Papers are mailed second class and you must notify us for any changes of address for your subscription.

## 1979 Christmas Events

**December 1st — Santa Claus is coming to town and will stop at the Community Center for pictures from 10 a. m. to 12 noon and from 1 p. m. to 5 p. m. The pictures will be 3 x 5 instant color photos which will be placed in a keepsake folder and may be autographed by Santa. Everyone may visit Santa whether he has his picture made or not. The pictures will be sold for \$3 each and Santa has candy for all who visits him.**

**Dec. 6th, 13th & 20th — Starting at 6:30 p. m. there will be Christmas caroling around the Christmas tree in front of the McCrary building for all to enjoy.**

**Dec. 15th — Santa Claus will come back to town at 2 p. m. and be here until 3 or 3:30 p. m. giving candy to all who comes and visit him. (If the weather is bad Santa will be at the Community Center during these hours.)**

The Women's Division of the Chamber of Commerce will have their annual contest on the best decorated house, but they will be judging the whole community instead of having entries.

The Chamber of Commerce would like to remind everyone that we still have the C. W. Post Commemorative Medals which can be purchased in necklaces, bolo ties or keychains. Also, we have 15 — 50 year plates of Post left. Both of these would make very nice Christmas gifts, and for anyone who is interested please call or come by the Chamber of Commerce office.

Merry Christmas and  
Happy New Year

## Repairman Available

for CB Installation and 8-track and Stereo repair

**Radio Shack**  
 DEALER

**LUBBOCK** — A few producers and processors of agricultural commodities on the High Plains already have been investigated and cited for violations of law most of them had never heard of. And unless something is done, more of the same will follow, says Ed Dean, Field Service Director of Plains Cotton Growers, Inc., Lubbock, and also a director and executive committee member of the National Council of Agricultural Employers (NCAE).

The law, the Farm Labor Contractor registration Act, known as FLCRA, was passed in 1963 with a worthy objective — to curb the exploitation of migrant farm workers by unscrupulous "crew leaders."

The language of the Act itself defines a farm labor contractor as "any person who, for a fee, either for himself or on behalf of another person, recruits, solicits, hires, furnishes, or transports migrant workers for agricultural employment."

Specific exemptions are granted for "any farmer, processor, canner, ginner, packing shed operator or nurseryman who personally engages in any such activity for the purpose of supplying migrant workers solely for his own operation," and "any fulltime or regular employee of an entity . . . who engages in such activity solely for his employment on no more than an incidental basis."

The word "personally" in the stated exemption was added to the law in the 1974 amendment and the U.S. Department of Labor (USDL) is using that word to bring all incorporated farmers and agricultural product processors under its jurisdiction.

Growers do not agree with the USDL interpretation and it is being tested in a number of Federal court challenges. But until the courts decide, or until Congress amends the law, a high percentage of the farmers, ginner and others in agricultural processing who use anything other than year-round labor will be subject to citation if they fail to register, fail to comply with all the requirements that follow registration, or if they employ a farm labor contractor who isn't properly registered.

At the urging of PCG, NCAE, the Texas Cotton Ginners' Association, the National Cotton Council and others, some 52 senators have signed and sent to Secretary of Labor Ray

Marshall a letter expressing their dissatisfaction with the broad powers he has assumed under the law.

In addition a move is afoot to get an amendment to the law that will force the Secretary of Labor to conform to the intent of Congress instead of his own labor-biased inclinations.

It is generally agreed, according to Dean, that the USDL is using this law, among other things, as a backdoor approach to curbing the use of illegal aliens.

"The FLCRA is the only Federal law on the books directly dealing with the employment of illegal aliens," he says, "and unless the Secretary of Labor is curbed, many in agriculture will be shocked to find themselves the target of a massive Federal law enforcement campaign."

Dean invites anyone concerned with liability under FLCRA to contact him at the PCG office in Lubbock.

## Boys Ranch seeking cows

Johnny Bonner, president of West Texas Boys Ranch, has issued a request for help in stocking a grass lease we have with 50 bred cows.

"We need to gather the cows at the ranch for branding and then to the grass lease as soon as possible before hard winter sets in — due to our situation up there, yearlings will not fit too well," he said. For any cows you can get us for this purpose, please contact Billy Carlisle of Post, who is the wagon boss in your county, or Benny Friend, of West Texas Boys Ranch at 915-949-1936.

"They will be gathered up the week of Nov. 19th, and the following week if needed. If cash is offered instead of a cow, we have a special cow investment fund to put it in. All donations, either livestock or cash, are tax deductible, as this will help us to continue to help the hard luck boy."

### Thanksgiving supper set

Xi Delta Rho, a chapter of Beta Sigma Phi, met for their regular meeting, Monday, Nov. 12 in the home of Bernice Eubanks.

The club discussed their Thanksgiving supper, which is scheduled for Monday night, Nov. 19 in the home of Voda Beth Gradine.

During a business meeting, the club discussed plans for treats for the special school, with Bernice Eubanks and Glenda Morrow being in charge of this project.

Sherryl Blair was presented the ritual of jewels during the meeting.

The program was presented by Bernice Eubanks as she showed slides and a scrapbook of her trip to the Panama area during the summer. She served dinner to those attending in Panama style.

Those attending were Johnny Francis, Nancy Shaw, Sherryl Blair, Jenny Francis, Joy Orr, Susan Cardinal, Gretchen Junginger, Joyce Teaff, Janis Smith, Margaret Price, Glenda Morrow, Voda Beth Gradine and the hostess.

### Christmas plans made

The Women's division of the Chamber of Commerce met Nov. 14 in the Reddy Room for a noon luncheon. Geraldine Butler reported that Ruby Kirkpatrick and Helen Richards have purchased a 7-foot Christmas Tree to be donated to the Community Center.

The Post Chamber of Commerce has asked the ladies division to decorate the tree with wrapped gifts for the time when Santa will be in Post.

The annual home decorating contest for Christmas was discussed and decided that entries will not be necessary this year, and the members of the chamber will drive over town on Dec. 17 to choose the winners. Three prizes will be awarded, first place, \$75, second place, \$50 and third place, \$25.

Natalie Shepherd was a guest during the meeting.

HOME DECORATIONS EXHIBIT — Shown above is one exhibit displayed at the Housewares show Saturday in the Community Center. Articles on these tables were all hand made and are home decorating accessories, by Patsy Sanderson and Paula Cawthon. — (Staff Photo)

### Teen Scene By Norm

CONGRATULATIONS TO THE LOPES on a SUPER ball game at Frenship Friday night. Each of you played great and what a way to finish up the season.

What with the winding up of the pigskin year, the band, cheerleaders, spirit squad, parents and fans all deserve a big THANK YOU for a job well done. Without you, the season wouldn't have been the spirit filled it was.

And now on the roundball year, the Does and JV and freshmen came out on top Saturday in their scrimmage here against Seagraves. It is going to be a very interesting year and a successful one for all involved. The Does will play again tonight (Tuesday) at Seagraves following the JV girls game. This one will count whereas the one Saturday didn't. The girls and boys need your support in their upcoming season just as the football team did.

### Claybourn shower here

Miss Susan Claybourn of Greenville, Tx., bride elect of Bob Craig, was honored with a bridal shower in the fellowship hall of the First Baptist Church, Saturday, Nov. 10.

The table was laid with a lace cloth over a wine knit underskirt and centered with an arrangement of wine colored mums and baby's breath. Silver and crystal appointments were used to serve guests hot spiced tea, fruit, sausage and cheese balls and miniature muffins.

Out of town guests included the mother and sister of the bride-to-be, Mrs. B. J. Claybourn and Cynthia of Irving, Texas and Mrs. Ted Shults, grandmother of the groom-to-be of Littlefield.

The hostesses presented the mothers of the couple and the honoree with wine chrysanthemum corsages. Patricia Craig, sister of the groom-to-be registered guests.

The hostesses presented the honoree with a food processor.

Hostesses for the occasion were Mrs. Sharla Wells, Carolyn Sawyers, Linda Lewis, Ruby Bostick, Carolyn Thomas, Geraldine Butler, Frances Craig, Joyce Howard, Joy Pool and Bobbie Josey.

Hope you all attend each and every game.

There will be a dance at the community center Saturday night, Nov. 24 with KSEL playing from 9 to 12. Admission \$2 per person or \$3.50 a couple. See ya there.

John Bill Hedrick visited in San Angelo last week and attended a roping. (He saw Kelly goofing around in the mall.)

Pat Mitchell also visited in San Angelo last week with relatives and also visited at the college.

Thursday is Thanksgiving. I hope each and everyone of you have a happy Thanksgiving. I hope each and everyone of you have a happy Thanksgiving, stuff yourselves, and remember all the many things you have to be thankful for.

Happy Birthday this week to Scott Walker and his gift was beating Kerrville Tivy 28 to 11 last Friday. Now on to district and the best of luck to you and your team.

NOTICE: Jay Lott, if you'll check your post office box Thursday, your paper will probably be there. We came out on Tuesday this week.

### You Ask

Questions and Answers

#### DISHWASHERS

Question: I have a new dishwasher. How can I get the best results from it?  
Answer: Water temperature in the dishwasher should be at least 140 degrees, because hot water helps remove greasy soils and properly dissolve the detergent. Scrape dishes and load soiled surfaces so that they face the spray, and always use fresh, dry dishwasher detergent.

Question: What is causing rust spots on my stainless steel flatware?  
Answer: According to the home economists at Whirlpool Corporation, one of the leading manufacturers of home appliances, allowing salty or acidic foods such as mayonnaise, vinegar, fruit juices or salad dressing to remain on flatware can damage the stainless steel finish and cause the rusting of the steel underneath. To prevent this, rinse flatware or use the Rinse Hold Cycle on your dishwasher.

MONEY-SAVING TIP: On chilly evenings, open your dishwasher door after use, and let hot air in the machine out to help warm up your kitchen.

### HOSPITAL NOTES

Those admitted to the Garza Memorial Hospital since Thursday of last week are:

Mary Brown, medical; Joshua Ticer, ped.; Mary Caywood, medical; Aneglita Bernal, OB and Baby Boy Bernal, NB; Henry Hall, medical; Travis Gilmore, medical; Mary Olive, OB and Baby Girl Olive, NB; John Rodriguez, medical; Bene Loredo, medical; Carl Jones, medical; Harold Ribble, medical; Beulah Tew, medical; Oma Clay, medical and Henry Key, medical.

Also Bonnie McMahon, medical; Lois Kennedy, medical; Norval Cunningham, medical and B. E. Young, medical.

Those dismissed are: Ronnie Ammons, Mary Brown, Dixie Robertson, Angelita Bernal, Baby Boy Bernal, Joshua Ticer, Henry Hall, Mary Olive, Baby Girl Olive, Carl Jones, Harold Ribble, Bene Loredo, Travis Gilmore, John Rodriguez, Beulah Tew, Mary Caywood and Norval Cunningham.

TO SAVE HOT WATER, wait until you have a full load of dishes before using the dishwasher.

# Alonzo Luna runs for record 305 yards

## Attack jells in 35-13 win

Tailback Alonzo Luna set some kind of a Post rushing record at Wolfforth Friday night when he ran for 305 yards on 26 carries and scored three touchdowns in leading the Antelopes to a 35 to 13 smashing of Frenship.

Almost equally important to Lope fans was that the Post squad put it all together for the first time this season offensively with a 513-yard performance in the grid finale to bring their district record to three wins and four losses and give them a 3-6-1 slate for the season.

The Lopes did not have to punt once and completely dominated the second half by parading to three touchdowns on three straight possessions with the clock stopping them on their fourth.

Not once all night was punter Mark Holly called upon to boot the ball away. Post's five touchdowns came on drives of 45 and 82 yards in the first half and 76, 77, and 90 in the second.

Adding to the consistency of the team's performance were Larry Rodriguez five straight conversion kicks after the touchdowns.

Luna's 302 yards averaged out 11.73 yards every time he touched the ball. They included touchdown runs of 2, 82, and 38 yards.

What kind of a Post rushing record those 305 yards are is lost in time. This was the best performance by a Post back since this writer came to Post 22 years ago. It probably goes back a lot further than that — maybe even all the way to the start of PHS football.

While Luna's 11.62 yards per try average was the guadiest for the night, his backfield mates had their "vest nights" too in the average department.

Quarterback Drew Kirkpatrick ran for 67 yards in six carries for a 11.17 yard average and didn't lose a single yard. Fullback Barry Wyatt totaled 49 yards in 10 tries for a 4.9 yard average, and Wingback Jackie Ayala had 37 yards in four trips for 9.25 yard average. Reserve back Pat Mitchell was right up there too with 7 yards in one carry for a 7.0 average.

All totaled up Post had a 468 yard night rushing and completed four of 10 passes for an additional 45 yards.

Mark Holly returned a Frenship punt 12 yards to the Tiger 45 to set the Lopes' first scoring drive in motion the first time Post got the ball in the first period.

Post scored in 10 plays with Luna getting 23 of the yards in seven carries, scoring from the two. Included in the drive was a 17 yard pass from Kirkpatrick to End Jimmy Pruitt.

The next time Post got possession, this time on its 18, Luna cut back through right tackle on the first play, found the Tiger secondary out of position on the left and raced 82 yards for Post's second touchdown with 1:37 still left in the first period.

In the second period penalties stopped a 43-yard Post drive, which included runs of 35 and 13 yards by Kirkpatrick, on the Frenship 23. Frenship geared up and drove back to the Post 24 where End Jackie Stelzer sacked Tiger quarterback Ken Attaway for a loss on fourth down and Post held on its 25.

There was 2:09 left in the half and in these two minutes Frenship gave Post plenty of anxiety.

Frenship defensive back Pat Gaston intercepted a long Kirkpatrick throw intended for End Mark Holly on the Tiger 38 when the ball was slightly underthrown.

Third string Tiger quarterback Pat Molina then came in to throw a perfect long pass to Split End Victor

### STATISTICS

Bugg who gathered in the ball in full stride, eluded two Lope defenders and raced 62 yards for Frenship's first touchdown. Steve Bradford converted and it was 14-7 Post.

A new trick play of the Lopes then went awry after the kickoff. Kirkpatrick passed into the flat to Holly who was trying to lateral to Luna when hit and fumbled the ball. The Tigers pounced on it but the Lopes dug in and held for four downs on their 26.

The interception and fumble were the only Lope turnovers of the night.

The second half, as usual, found the Lopes at their attacking best.

From the kickoff they marched 76 yards in 11 running plays with Kirkpatrick slipping up the middle on a keeper for the final six and the third touchdown.

Frenship had the ball four plays and then Post was back in business this time with a 77 yard march in five plays with Luna zigzagging his way 38 yards through a broken field for his final touchdown. Also included in the drive was a 17-yarder by Luna and a 14-yarder by Ayala.

Frenship got to the Post 24 on a drive after the kickoff but Defensive Back Walter Perez picked off a Tiger throw at his five and returned it 25 yards before being knocked out of bounds.

Post drew a 15-yard penalty for clipping — one of their six "big ones" of the night — and had to start their final touchdown drive from their own 10.

This time they ran and passed 90 yards in 14 plays with Wyatt plunging over from the two foot "line." The march included a 14-yard smash by Wyatt to start it, a 26-yard scamper by Luna and an 18 yard pass to Ayala.

Frenship then passed its way 75 yards for its final touchdown with 2:06 left in the game as Attaway ran it in from 11 yards out when he couldn't find an open receiver.

It was just the kind of a win to carry the Lopes into a tough off-season program in preparation for the 1980 campaign with experienced juniors now coming back at the skill positions.

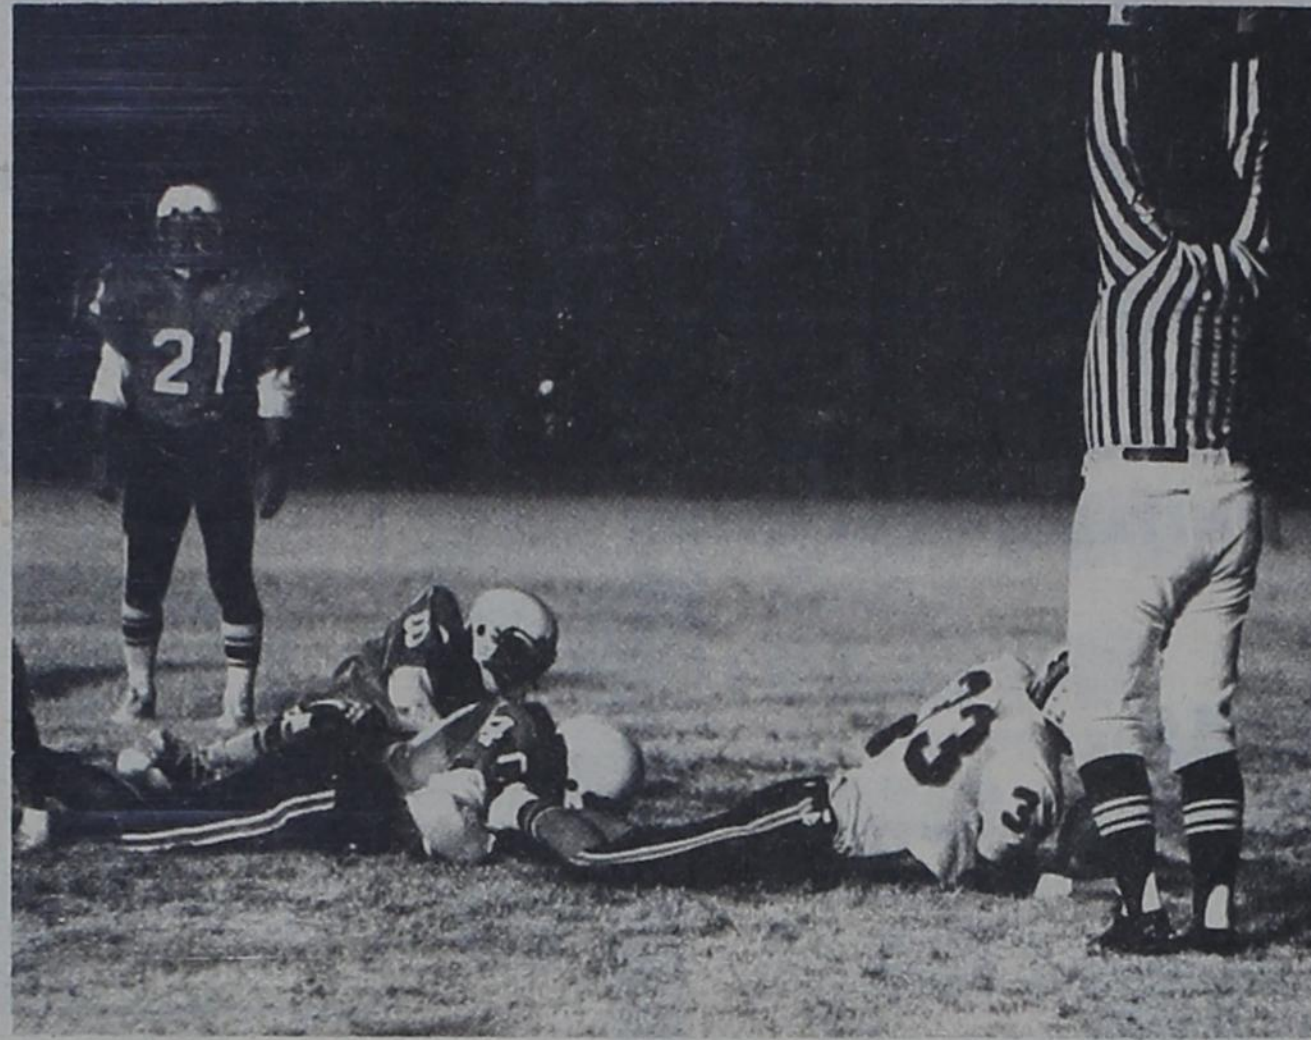

Nearly 10 million persons served in the armed forces during the 11-year Vietnam Era which began Aug. 5, 1964. Some 583,000 veterans joined the military after the official end of that conflict. May 7, 1975.

## Hunters facing big quail 'crop'

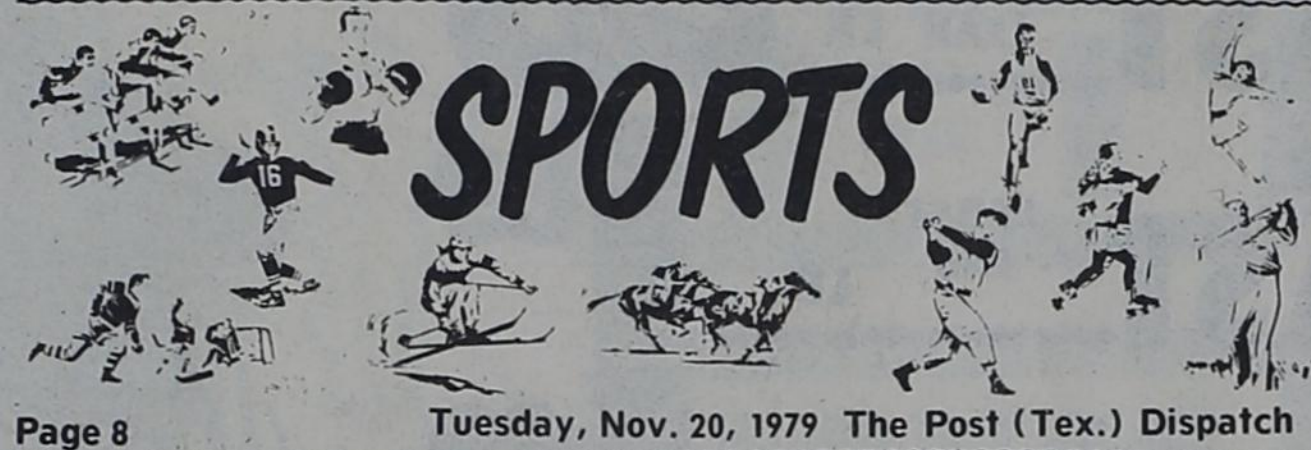

AUSTIN — Quail hunters should get into the field as early as possible this hunting season, advises the Texas Parks and Wildlife Department.

The quail season already is open in most counties, particularly in South Texas, and opening day for most of the rest of the state was Saturday.

Department wildlife biologists point out that an early hunt is especially important this year because of two main factors: highly

**TOUCHDOWN** — Fullback Barry Wyatt, No. 33, falls across the Frenship goaline in the grasp of a Tiger tackler as an official raises both arms high to signal a touchdown. The TD was the fifth and final one for the Lopes against Frenship Friday night. — (Staff Photo by Norma Baumann)

## Whipped 20-0 at Tahoka--

### Slaton wins playoff flip

The Slaton Tigers weren't so good Friday night, but they were lucky.

The Tahoka Bulldogs shut them out 20 to 0 in the big season finale at Tahoka before a packed house to throw the 5AA grid race into another three-way tie for the championship among Tahoka, Slaton and Seminole.

That left Coach Ed Cook speechless at his dressing room door.

But he recovered to win the coin toss later that night among the co-champ schools to send the Tigers into the post-season playoffs for the second year in a row via the

### Does win scrimmage

The Post Does and the Post JV girls got off on the right foot — that means winning foot — for the 1979-80 basketball campaign here Saturday afternoon with a scrimmage sweep over the Seagraves girls.

Coach Sonja Curry reported she was pleased because she had the opportunity to see what each player could do in action. Everybody on the two squads got plenty of action.

The season officially opens for the two teams Tuesday night, Nov. 20, at Seagraves when the Does and the JVs engage Seagraves girls in a twin bill with the JV game tipoff set for 5 p.m.

"heads or tails" route.

Slaton will play Stamford (9-1) winner, 6AA champion, in the first game of the playoffs in Tiger Stadium at Snyder at 7:30 p.m. Friday night.

Tahoka's thorough whipping of the Tigers knotted the 5AA grid tie picture for the fifth straight year.

Slaton had a touchdown called by a holding penalty early in the game and never again threatened. Tahoka scored the winning points on a short pass into the end zone on the final play of the first half.

Clifford Oages got the

second td in the third on a 16 yard run and Tracy White rammed in from the one in the fourth for the other. Tahoka outrushed Slaton 238 to 130 with White getting 95 yards on 30 carries and Oages 93 in 23 runs for the winners.

Jesse Titus got 75 yards in 12 carries for the Tigers.

Meanwhile, the Seminole Indians held a track meet at home in demolishing Cooper 61-0, and Denver City won their third straight district game, edging Roosevelt 14 to 8, to tie Roosevelt and Post for fourth place in the final standings with 3-4 district records.

## Fire hazards cited to hunters

LUBBOCK — Very little rainfall since early August has created potential fire hazards for both hunters and landowners in northwest Texas.

An excess of moisture last spring and summer furnished the ingredients for lush weed and brush growth. This growth is now turning brown and dry.

The dry conditions also contribute to nose problems, especially for bird dogs. Hunters using dogs should carry enough water to allow the dogs an occasional drink.

The Texas Parks and Wildlife Department suggests anyone hunting during this dry period follow the rules of fire prevention, especially no camp fires near brush or grass and no smoking afield.

Another hint to prevent fires is to drive vehicles on established cleared roads. Side trips through weeds or grass in newer model early quail crop before natural winter mortality takes its toll.

The Texas Parks and Wildlife Commission this year approved liberal quail bag limits for areas of the state found to have unusually high populations — most notable in the South Texas and the Trans-Pecos regions — which were assigned limits of 20 per day and 60 in possession.

vehicles with catalytic converters increases the potential for wild fires. These pollution control devices become red hot while the vehicle is operating and can stay hot after the engine is shut off.

Hunters usually check with the landowner to determine the location of birds or game and this is a good time to locate water sources on the property in case of a fire. Also, carry an extra shovel which can be used to cover or smother a

## Frenship in sweep over 7th and 8th

Frenship swept a bill with Post's Middle School football teams at Wolfforth Thursday night, knocking the local eighth grade club out of its bid for the district title.

Frenship's seventh graders won a 6-0 defensive struggle, and the eighth graders were simply outplayed in the nightcap, bowing 30 to 18 after Frenship had built up a 24-0 halftime lead.

Both teams played good defense in the 7th grade game with the only score coming on a 35-yard first quarter drive by Frenship.

Just before the half, Post made its only real scoring bid but on a fourth and goal at the five-yard-line Tailback Greg Massey was tackled on the one-yard-line, with Frenship kicking out as the half ended.

Neither team seriously threatened in the two final periods.

Wingback Curt Greer was the big gainer for Post in this one, picking up 68 yards on eight carries. Tailback Mike Ollison was held to 10 yards on four carries and Massey to 36 yards on seven carries. Fullback Danny Storie got two yards on the other carry as Post totaled only 95 yards rushing for the night.

In the eighth grade game it was all Frenship in the first half with the host club holding a 24-0 advantage going into the third period.

Tailback Milton Williams broke outside in the middle of the third to race 80 yards for Post's first touchdown. The conversion failed.

Frenship bounced back to tally their fourth touchdown on a long pass to maintain their advantage at 30-6.

In the fourth period, Post Quarterback James Brown threw a touchdown pass to L.D. Harper on a play covering 35 yards. Again Post failed to convert.

Post recovered their on-side kick on the kickoff. After a 26 yard pass interference call against Frenship, Post broke outside for a 50 yard touchdown run

which was called back for offsides.

Late in the quarter, Williams returned a punt 30 yards to the Frenship four. Two plays later he scored from three yards out for the game's final points.

For the night Williams

had 137 yards in 13 carries, Wingback Harper 13 yards in four, Fullback Giles Dalby 17 in six, and Brown completed one of four passes for 35 yards.

The defeats ended very successful seasons for both Middle School teams.

## Frosh win 21-0 for 8-2 season

The Post freshmen footballers rang up their eighth victory in 10 starts in Antelope Stadium Thursday night with a 21 to 0 victory over Frenship's frosh in the season's finale.

Tailback Will Kirkpatrick got the first touchdown in the opening quarter on a two yard smash off tackle and then kicked the conversion point.

Wingback Richard Cisneros got the second td in the second quarter, scoring on a five-yard dive lay. Kirkpatrick again converted from placement.

The final tally came in the third when Fullback Marvin

Wynne slammed across from six yards out. Kirkpatrick again booted the extra.

Post tallied 14 first downs to seven for Frenship and had 167 yards rushing to 85 for the visitors. Post completed one of six passes for five yards and Frenship connected on five of nine for 35 yards. Frenship also bagged one of Post's passes.

Post had 172 yards offense to 120 for Frenship. The entire squad logged playing time.

The freshman won second place in district behind Slaton and overall had a very successful season.

## Frenship hammers

### Post JVs 26 - 0

The Post junior varsity footballers were handed a 26 to 0 walling in their final game of the season by Frenship in Antelope Stadium Thursday night.

Frenship marched 63 yards for a first period score, added two touchdowns in the second on a 39-yard run after a fumble recovery and again on a 34-yard pass after picking up another Post bobble, and put their final points on the board in a third on a 11-yard pass to cap a 57 yard drive.

Post was held to six first downs and 25 yards rushing and three of nine pass completions for 64 yards.

Frenship rushed for 309 yards, totaled 22 first downs, and added 63 yards passing by completing three of nine throws, though having two intercepted.

The JVs finished with a record of one win and nine losses for the year.

Coach Lane Tannehill

termed the JV squad a good group of boys who never gave up. "They have big hearts buy overall are small physically," he added.

## Christmas plans—

(Continued From Page One) to the new Christmas decorations.

Chamber officials pointed out, however, that youngsters don't have to have their pictures made with Santa to talk to him about their Christmas wants. And photo or not, Santa will have some candy for every single one of his little visitors.

Santa will return to Post at the Chamber's invitation at 2 p.m. Saturday, Dec. 15, for his final pre-Christmas Eve visit. He will visit up and down Main street if the weather permits with candy for all his young friends. In case of bad weather he will set up his visitation headquarters again in the community center, but no picture taking is planned for the second visit.

Other pre-Christmas events planned include (1) three Thursday evenings of Christmas caroling around the downtown Christmas tree, and (2) the outdoor home decoration contest sponsored by the women's division of the chamber.

The caroling is scheduled for 6:30 p.m. Dec. 6, 13 and 20 at the downtown lighted

## Show success—

(Continued From Page One) ice trays and bin from Guy's; Mrs. Marvin Hudman, air pot from Handy Hardware; Debbie Redman, lamp from Hudman's Furniture; Johnnie Francis, glue gun from Cox's Lumber; and Allene Ault, 3/4" drill from Cox's Lumber;

Also, Mary Tillman, wall clock, from S & H Green Stamps; Sexton Huntley, pipe insulation from Higginbotham-Bartlett Co.; Barbara Gossett, hand mixer from Lyntegar Electric; Patsy Sanderson, dried arrangement from Prairie Flower Shop; Pearl Storie, Mary Peel, Iris Truelock and Ola Keeton, sheets from Burlington; Nona Lusk, smoke alarm from Radio Shack and Edwin Gossett, Sizzl Grill from Wacker's.

Christmas tree with various groups booked for the singing.

The outdoors Christmas lighting contest will offer three prizes total \$150 in cash to the top three winners.

First prize will be \$75 with \$50 for second and \$35 for third.

No entries will be required this year as the judges will drive the entire community and view all outdoor Christmas lighting. The judging is scheduled for the night of Dec. 17.

The women's division also is in charge of the decorating of the community center for Santa's visits to Post. This includes a seven-foot Christmas tree containing wrapped gifts.

An announcement will be made later by the Chamber concerning local stores staying open at night during the Christmas buying season in December.

## Pay raise—

(Continued From Page One) The dispatchers had been receiving \$518 monthly and will be boosted to \$700 monthly in the new jobs.

County Judge Giles Dalby told The Dispatch that with deputies being paid \$850 monthly, the court decided \$700 would be about right for comparative risks involved.

The dispatchers will have to attend 40 hours of schooling in correctional officers' work and receive a certificate as a qualified correctional officer.

In the only other action taken Thursday, the court accepted an agreement with the State Department of Highways and Public Transportation for the installation of upgrading of railroad crossbucks and related signs at no cost to the county.

The state highway department has received a federal grant to upgrade all railroad crossing in the state, but must secure county permission before proceeding with the work.

**SACK** — Kelly Mason, who plays a lot of football both offensively and defensively, sacks Tiger Quarterback Ken Attaway on a fourth down deep in Lope territory to give the ball to Post in the game with Frenship Friday night. — (Staff Photo by Norma Baumann)

## Teachers' boost—

(Continued From Page One) when they entered the system, but after staying three years these teachers would receive full experience credit.

The principals reported Crane pays the highest now at \$3,000 above state with Anahuac \$2,800 above, Denver City and Seminole \$2,000 above, Coahoma \$1,900 above, and thus on down to nine AA schools \$1,000 above, 35 AA schools from \$400 to \$999 above, 44 schools from \$1 to \$399 above, and 47 schools no bonus.

Asked for his opinion on the principals' proposal, Supt. Shiver said "I don't buy the point that tenure necessarily makes a better teacher."

Shiver said the school district needs to pay above state for two different reasons. One is to enable teachers to keep abreast of inflation and the other is additional merit pay for the deserving teacher.

One board member commented that "no doubt we need to raise the pay scale on some basis."

Another said he was "tired of seeing the same recommendations from principals on teachers year after year after year — and still we don't raise educational production."

Shiver said a merit pay system has been tried in many ways all over Texas the last 15 years but none of them have worked.

The superintendent also said that it is important that the public support the method selected by the board to increase pay to attract and keep better teachers.

He pointed out that the availability of personnel in some fields, particularly math and the sciences, is critical.

One trustee suggested bonuses be paid to teachers in these fields just as bonuses are paid to coaches.

## Postings—

(Continued From Page One)

cause of the way the squad came on — steadily from the first game when they couldn't run at all to the finale when they ran for almost 500 yards with aplomb. True Frenship was not the greatest AA grid eleven around, but it would have been a vastly different contest if the Lopes hadn't come out in the second half to completely dominate the Tigers on both offense and defense and keep the ball for about 18 of the 24 minutes playing time.

Coach Thompson and his mostly new staff have done more grid teaching this year than we've seen on the Post practice field in a long time.

They kept dangling goals for accomplishment in front of the kids' noses and had the Lopes ready to play hard every game. They simply convinced the kids they could win.

Look back and you'll find that nobody ran over the Lopes this season. When they were beaten it was their own mistakes which helped put them in the loss columns. They gave both Tahoka and Seminole tough ball games and shut down Slaton for a half.

Not only did the varsity learn a lot of football this fall but so did the other four football squads in the Post program. The two Middle school teams and the frosh had winning records and the JV's were simply "out-sized" not out fought.

We're convinced the Lopes "bottomed out" in football last year — and in 1980 will be trying to win their portion of the perennial district co-championship.

Shiver said nobody in education has wanted to try the bonus system so far.

Shiver promised to provide the board with other information in the months ahead with the board aiming at a February salary decision so it can be used to advantage in the search next spring for new teachers.

Joe Hall of the architectural firm of Whitaker and Hall reported the Middle School remodeling and expansion project begun last spring is just about completed.

Trustees set Thursday afternoon, Nov. 29, as a tentative date for a final inspection of the Middle School facilities with the architect and contractor to list what still needs to be done.

Trustees agreed to Principal Davis' suggestion that new ceiling tile for four upstairs classrooms be substituted for a chain link fence on the east side of the building to force students to use the two cross walks in crossing the avenue.

Hall told trustees he does not know why a new plastic waterline broke and one night recently behind the Middle School caused a flooding of that area.

Jimmie Redman appeared before the board to propose that half of the old football field lights, which have been replaced, be mounted on 40-foot poles and used to light the new all-weather running track being built around the football practice field. He said the Antelope Booster club would purchase the poles and have them erected if the school would handle the wiring. The matter was taken under advisement.

Trustees elected the proposed five man board of Jack Lott, Wanda Mitchell, Dr. William Wilson, Giles Dalby, and Weldon McGeehee as the new county evaluation board.

The board also agreed to hold their December, January and February meetings on Thursday nights to avoid conflict with the basketball games.

## Search fails—

(Continued From Page One)

800 to 825 feet deep. A geiger counter instrument would be lowered into the hole for readings.

The holes than had to be filled up with cement.

That left the firm with quite a cement bill by the time they were through. Sabine also tested in Floyd county too, but according to Samples found nothing worth developing.

The firm has built two uranium production plants near George West in south Texas in the only Texas area where uranium is being produced today.

"We sold those plants and are now looking for new uranium areas for production development," Samples told The Dispatch.

He said "a lot of people are now looking for uranium in West Texas."

Samples said the uranium market is good today, but nobody — buyer or seller — wants to enter into long term contracts. Which makes it a spot market, he added.

Garza County got a good look from a lot of uranium prospectors back in the late 1950s and early 1960s when the first uranium boom was on. They found plenty of low grade ore, but long haulage to the closest uranium plant at Grants, N.M., made its development not economically feasible.

The county in fact has been mapped by uranium search planes with geiger counters aboard. Paul Get-

ty's firm mapped the county for one.

Some uranium production was begun north of Post about where Sabine made its tests. But it didn't prove worth the long haul to Grants and didn't last long.

A few years ago some other uranium testing was done north of Post but the results were not announced.

The United States government no longer controls this nation's uranium production like it once did and prices are high enough to make the lookers start looking again.

## Reversal—

(Continued From Page One)

then make its reversal final. If it would grant the motion for rehearing, the case probably would be returned to the Snyder court for a third jury trial.

District Attorney Greene told The Dispatch that if the criminal court of appeals makes the reversal final, the Texas Supreme Court would reinstate Walker's license to practice law.

The license suspension, which began with his sentencing in October, 1977, was to have remained in effect for the duration of his three-year probation.

# Farmer control of Cotton Inc. sought

ABILENE, TX. — Elected leaders of the Texas Farmers Union meeting in Abilene have called for congressional action to bring about changes in the selection of the Cotton Board and the Board of Directors of Cotton Incorporated.

Following the release of a critical report by the Office of the Inspector General of the USDA in late summer, much dialogue has surfaced concerning the lack of accountability to producers who fund the \$18 million plus research and promotion program.

The report centers on a lack of oversight by the two

boards that are charged to administer Cotton, Inc. and questions the use and accounting of funds that have doubtful impact in relation to the goals of the program.

TFU strongly supported passage of the uniform collection of fees from producers for cotton re-

search and promotion when the law went before congress and later to a producer referendum vote in 1967. The near 10,000 member farm group later withdrew as a certified producer organization in 1973 when it felt that administrative control of Cotton, Inc. had fallen to a select few hands and that

producers had no way of democratically choosing directors or controlling the program.

A formal resolution of the Board of Directors of the Texas Farmers Union has been directed to members of congress and officials of the USDA calling for legislative action to amend the federal program, preferably to a one-man, one-vote system of election of cotton farmers to administer the program.

Part of that resolution reads "we feel that the Cotton Research and Promotion Program must reflect the views of the farmers who are paying for it . . . it is vital that the entire program be responsive to the views of farmers and that farmers have the right to democratically select their representatives on the Cotton Board and Cotton, Incorporated."

The TFU resolution also reads that if legislative action is taken to improve a better administrative and democratic procedure, "that Texas Farmers Union will once again cooperate as an interest group."

The Inspector General's report also discloses information concerning the questionable use of what is termed "own funds", mon-

ies collected by voluntary checkoff prior to implementation of the mandatory federal program. Accounting has been loose in several areas of the multi-million dollar program and additional funds have been received into the "own funds" category, some of which were used to pay the National Cotton Council to conduct a campaign to increase per bale assessments three years ago.

A spokesman for Texas Farmers Union stated that the organization felt that efforts were being made to

"sweep the problems under the rug."

"The questions raised cannot be overlooked by producers," he said. "This is not a minor matter. Cotton Incorporated is supposed to be a producer-funded producer-controlled program. We're greatly disappointed by the conduct and administration of the program and are convinced that this mess will only repeat itself unless some system is put in place to assure accountability of the program and use of funds to producers."

**Weevil Bait Okayed**  
The Environmental Protection Agency has approved a commercial biological product that uses sexual lures to interfere with boll weevil matings. The product duplicates sex-attracting scents emitted by female weevils on sticky tapes. These tapes would be placed on traps to lure and catch weevils.

**New Bale Rules Likely**  
The public comment period on the new U.S. regulation for cotton bale sampling ended recently with all comments received supporting the proposed rule. As a result, the regulation will probably be adopted and placed into effect Aug. 1, 1980, a U.S.

Department of Agriculture source said. The new rule would limit sampling to one cut per side upon initial receipt at the warehouse. More than one sample may be drawn from the same hole. The rule would not prevent cutting additional samples later.

**Executives Begin Tour**  
Customers representing nine major Far East markets for U.S. cotton this week began a two-week tour of the Cotton Belt. The visit by foreign textile executives is sponsored by Cotton Council International National, National Cotton Council, and USDA's Foreign Agricultural Service to increase the U.S. industry's share of overseas markets. The group will be in the Lubbock area the latter part of the week to observe cotton operations from field to fabric.

**Exports Continue Strong**  
Sales of 212,000 running bales of upland cotton during the week ended Sept. 30 brought the current season's total commitments to 4,842,200, compared with 3,808,700 a year ago. The principal buyers were Korea, 59,200 bales; China, 52,200; Taiwan, 22,400; Indonesia, 16,100; Hong Kong, 15,800; and Bangladesh, 15,000. The week's exports of 81,600 bales brought total shipments to 853,900 thus far this season.

**And Cotton Today**  
The first stormproof cotton strain in Texas was discovered in 1930.

Chimpanzees trained to use the sign language widely taught to the deaf appear to have expressed original thoughts by combining gestures in a meaningful way not directly imitated from their human teachers.

## Amoco will drill Bush I

Amoco Production Co. has staked its No. 1 Elmo Bush in the new Post, west field, 8 miles west of Post.

It is targeted for a 9,200 foot hole as Amoco tries to expand its new field opened only a few weeks ago with its 460-barrel a day wildcat, the No. 1 Silvia Winder near the Storie Gin.

That production was found at an interval between 8,472 and 8,482 feet.

The No. 1 Bush is the second offset by Amoco to the Winder.

# The Country's No.1 Bestseller

More things are sold through the Yellow Pages than any other buying guide.

If you think the Yellow Pages is just a listing, think again. It contains all sorts of information that can be extremely helpful no matter what you're shopping for. Like, does the place take credit cards?

What are their hours? Etc. Etc. Etc. Maybe that's why more people read the Yellow Pages last year than just about any book published. Curl up with it the next time you're shopping for something.

# SPS will study solar conversion

AMARILLO — A half-million dollar solar repowering study for the Department of Energy (DPE) by Southwestern Public Service Company and General Electric to determine the feasibility of a solar powered electric generating unit has been launched. The project could result in the installation of an \$80-million solar-powered unit as SPS's Plant X near Earth, Texas.

A great deal of research has been done on solar-powered plants but not much has been done on the concept of adding solar units to existing plants. This study will determine the engineering and economic factors of repowering an electric plant — if it can be done on a large scale and if it would be more economical than building new solar plants.

In recent years, as the search for feasible alternatives became more intense,

Southwestern Public Service Company began an effort to assess those options that might have practical utility application. Solar power was one of the alternatives selected for consideration. The Company's involvement began with a data collection and literature review program of the latest developments in solar energy.

As early as 1975, Southwestern became an active participant in a solar program called the Southwest Project. The objective of this study was to examine the technical, economical and institutional barriers to the rapid implementation of solar energy. A final report was drafted in January, 1979.

Southwestern's second solar project involved participation in a General Atomic study (sponsored by DOE) of a 100 MW Line Focus Solar Central Power System

(LFSCPS). General Atomic's Fixed Mirror Solar Concentrator tracks the motion of the line image of the sun. Southwestern provided information on utility load profiles, the present and future worth of conventional power generation, utility requirements that could affect the design of the LFSCPS and performed an assessment of the limitations of the proposed system configuration. This study was completed on October 1, 1979 and a final report from the DOE is expected soon.

Six utility-industrial groups, including SPS and GE were chosen by the DOE to develop designs for combining a solar energy plant with an existing electric generating plant. Six similar contracts were

awarded by the DOE for research on repowering units for industrial use.

The repowering of existing plants, both for electric generation and industrial use, is a relatively new idea and is being developed more as a fuel saver than an alternate fuel source. The proposed plan calls for about 60 percent of the thermal energy of the retrofit unit be supplied by the sun, and, if feasible, could save approximately 1-billion cubic feet of gas annually. It could also increase or recapture the life of an existing plant. By

The liquid sodium as a heat transfer agent, could be a major area of consideration by the DOE when it begins reviewing the repowering proposals. Similar plant designs are expected to use water, molten salts and gases as cooling agents. Other factors DOE will be considering are efficiency, price and geographical location, for amounts of sunshine.

## Eagle Roundup

SOUTHLAND SCHOOL NEWS

**Girls Lose to LCHS Nov. 13**  
The Southland Varsity girls lost 37-31 to Lubbock Christian High School in Lubbock, Nov. 13. Leading scorers were Cynthia Wheeler with 10 points and Camille Wheeler with 9.

**Southland Wins Two, Loses Two Nov. 12**  
The varsity girls rolled over the Wildcats of Wellman, Nov. 12, 44-33. Camille Wheeler led the Eagle's team with 16 points at Wellman.

The junior varsity lost 35-38. Rosie Rodriguez led with 17 points. Carla Nelson added 7.

The junior high girls lost 14-31. Lisa Nelson was high point with 4. The junior high boys won a close game 31-30. Jerry Hirscheta led the attack with 11. Dee Farquhar added 8.

## White grades on cotton dropping

LUBBOCK — White grades accounted for 48 percent of samples graded the week ended Nov. 15, according to Paul R. Dickson, area director for USDA's cotton division offices on the High Plains. This compares with 75

percent white grades a week earlier, Dickson said. Mikes 35-49 accounted for 15 percent — down from 20 percent a week earlier.

Predominant grades for the week were grade 31 at 13 percent, grade 41 - 30 percent, grade 32 - 21 percent and grade 42 - 29 percent.

Predominant staples were staple 31 at 31 percent, 32 - 43 percent and 33 was 14 percent.

Mikes 35-49 accounted for 15 percent, 33 - 34 was 15 percent, 30 - 32 was 38 percent, 27 - 29 was 29 percent while 26 and lower accounted for three percent.

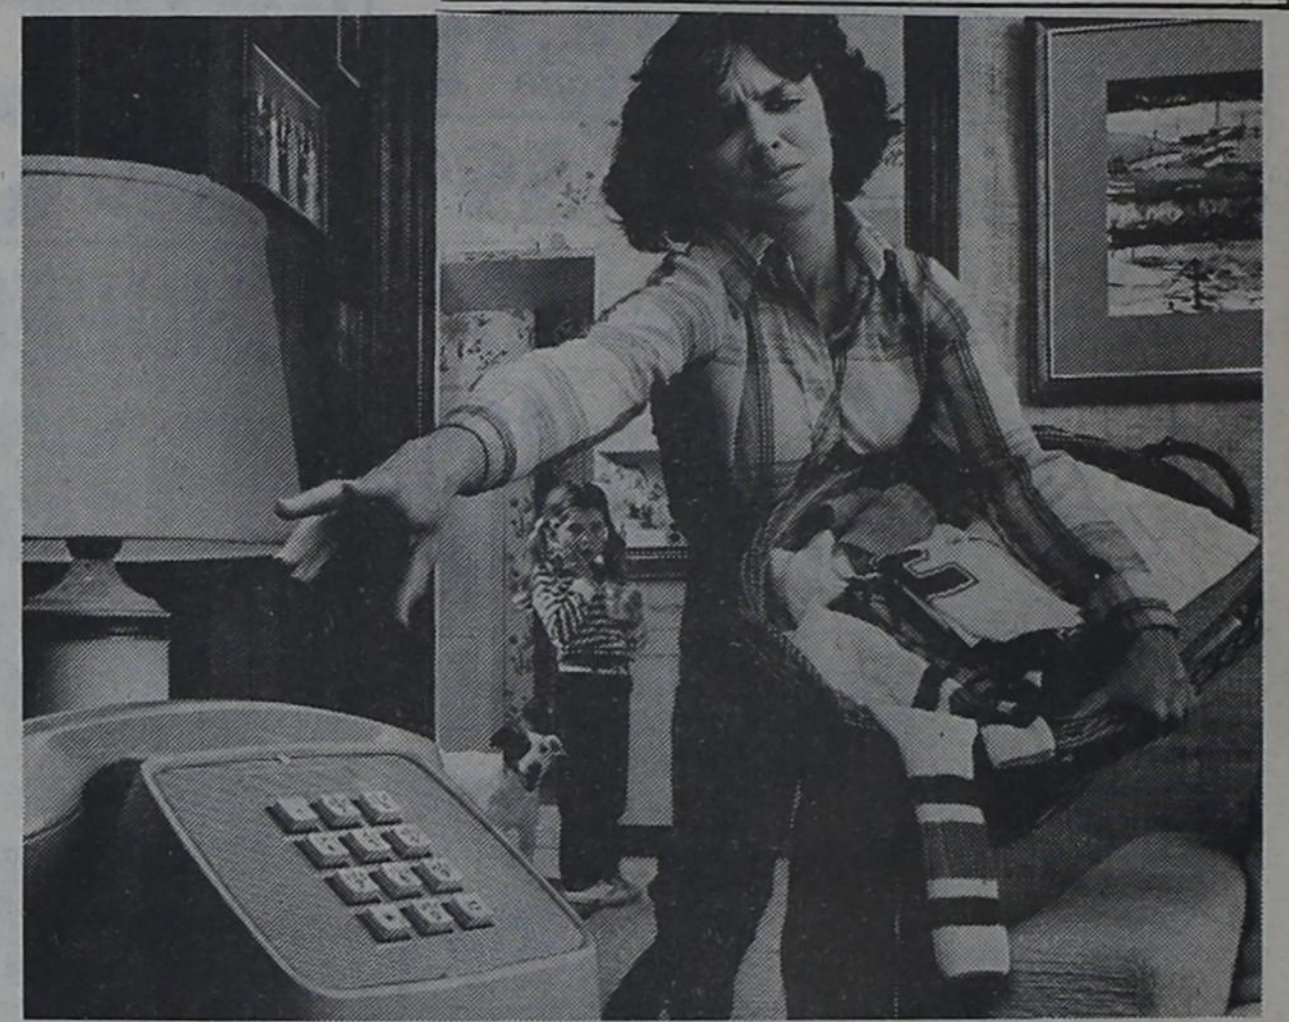

Breaking strength averaged 87,000 pounds per square inch.

Pirces paid growers for their 35 - 49 mike cotton ranged from 775 to 1100 points over 1979 loan rates. Growers sold mixed lots of mostly grades 42 and better, staples 30 - 33, mikes 35 - 49 around 56.35 cents per pound — up 70 points from a week earlier. Lower mikes brought 300 to 700 points over '79 loan rates, according to USDA's Agricultural Marketing Services.

Gins paid growers 105 to 125 dollars per ton for cottonseed.

**COMING EVENTS**  
Nov. 22 - 23, Thanksgiving Holidays.  
Nov. 26 - No school (In-Service for teachers at Whiteface.) J. H. Girls and boys (A teams) with Union, home, 5 p.m.  
Nov. 27 - H.S. games with O'Donnell (A girls, A&B boys) home, 5 p.m.  
Nov. 28 - Picture retakes.  
Nov. 29 - Dec. 1 - Southland High School basketball Tournament.

**New McCrary well is small producer**  
Palmer Oil Properties has a small new oiler in the big Post field. It's the No. 1 I.N. McCrary, 12 miles east of Post which produces 17 barrels of oil daily and three barrels of water from an interval of 2,675 to 2,735 feet. Total depth of the hole was 2,910 feet.

**FOR A SMALL MONTHLY CHARGE, SHE COULD'VE ANSWERED IT BY THE DRYER.**

Every time Barbara Phillips' phone rings, it's long distance—the distance from her to her phone, that is.

If you spend a lot of time running to the phone, maybe you're in the running for an extension phone. For much less than you'd expect, you can start reaching for your

phone. Whether you're stuck in the laundry room, glued to the TV or deep in sleep.

What's more, you know you've got a phone that's as reliable as the phone company. So the next time you run to the phone, call your General Telephone business office. And make it the last time.

**It's easy to see where many of our priorities are.**

The children of today are looking to us for ways they can prepare for their own style of life . . . families . . . and job opportunities.

To help, we'll need more electricity. It's true, electricity will play a big role toward helping expand the job market to include these adults of tomorrow.

The modern use of electricity has contributed to a better educational system to prepare our young people for the new experiences yet to come.

Almost 10 years ago, the folks at Southwestern Public Service wanted to make sure there was enough electricity to keep today's wage earner working. They decided that the fuel used in their power plants should be coal because, coal would be more abundant and cheaper to use than the conventional fuel . . . natural gas.

Now, Southwestern Public Service has a new coal plant in operation and more on the way. Yes, coal plants will help stabilize fuel costs while providing a long-term, reliable, energy source to provide electricity.

It's good to be able to tell someone what they can depend on.
