Booster Club To Open Season With Meeting Friday

The Antelope Booster Club will open the 1949 football season with a public meeting at 7:00 o'clock tomorrow evening in the high school auditorium. The president, Marshall (Monk) Gibson, will announce the new directors and Coach V. F. Bingham will introduce the Post Antelope players.

The meeting will be followed by a Post Antelope football scrimmage.

Membership in the Antelope Booster Club is open to all persons interested in boosting the Post Antelopes during the forthcoming high school football season.

Mr. and Mrs. L. D. Vessels of 2518 Thirty-sixth Street, Lubbock, are announcing the birth of a daughter, Diana Lee, at 12:48 p. m., Aug. 7 in the Lubbock Memorial Hospital. She weighed 7 lb., 4 1/2 oz. The baby is a granddaughter of Mr. and Mrs. Dave Sims.

Mr. and Mrs. Bobby Pennington are announcing the arrival of a son Aug. 16 at the Tahoka Clinic. He weighed 7 lb., 8 oz., and was named Roger Dale. The paternal grandparents are Mr. and Mrs. Roy Pennington of the Graham Community.

Fifty Notices Of Intention To Drill Filed In Garza County Since First Of January

County 4-H "Camp" To Be Held Aug. 26

Garza County 4-H girls will "camp" in the district room all day Friday, Aug. 26, beginning at 9:30 a. m. Meeting with the girls will be the 4-H sponsors and friends of the 4-H members. A program of handicraft instruction is planned, and the girls will spread their own picnic lunches at noon.

Garza County girls who attended the district encampment at Lubbock will teach the making of bracelets and copper foil plaques. The girls are Lenona Stone, Wynonna Morris, Doris Ritchie, Sara Lou Ray, Jeanie Peel and Wynona Pennington.

Verbena Revival Begins Aug. 28

The revival meeting at the Verbena Church has been postponed from the week beginning Aug. 21 to the week beginning Aug. 28.

The Rev. A. B. Cockrell will preach for the service each evening. The public is invited to attend.

Fifty Forms 1, Notice of Intention To Drill, have been filed with the Railroad Commission of Texas for wells in Garza County since the first of the year, according to a release received this week from Railroad Commissioner Ernest O. Thompson. The release, which was sent at the request of the Post Dispatch, also gave the following other information regarding the oil situation here:

"There are only two oil fields in Garza County. As of July 1, 1949, there were 268 producing wells in this field. The reported production for this field in 1948 was 2,347,300 barrels. The accumulated production for this field to July 1, 1949, is 6,723,828 barrels.

"The P.H.D. Field is located in the northwestern part of Garza County and, as of July 1, 1949, there were seven producing wells in this field. During 1948, this field produced 49,773 barrels. (Continued On Back Page Col. 3)

Polio Collections Here Raise \$207

The Garza Theatre, joined all the other movie theatres of the state of Texas during the past week to raise funds for treatment of Texas polio cases.

Collections taken at the local theatre, from Friday night through last night, when the campaign ended, totaled \$206.96. Manager John Hopkins expressed appreciation for the excellent cooperation of the theatre patrons.

Two Business Firms Entered By Robbers

Two Post business houses were broken into Sunday night, but only one, Hodges Tractor Co. was robbed. The other was Ben Williams Barber Shop.

The Garza County Sheriff's Department lifted three fingerprints at Hodges, where several boxes of shotgun and .22 shells and several packages of cigars were stolen. The robbers apparently entered the building through a back window, knocked a hoise in the glass of a door separating the shop from the parts department and reached through the hole to unlock the door. The safe was moved but not robbed.

Garza County Fair Will Be Held Here September 9-10

Fall exhibits of Garza County 4-H boys and girls and home demonstration clubwomen will be shown in Post September 9 and 10 instead of Sept. 16 and 17, the dates previously announced, Mrs. Jewell H. Strasser, county home demonstration agent, has announced. The change was made in order to avoid some conflicts with district activities.

The agent is urging all 4-H boys and girls to get their ex-

hibits planned and prepared immediately.

All persons interested in assisting with the County Fair are invited to meet with the exhibits committee at 2:30 p. m. Monday in the district court room.

Place for the boys' and girls' exhibits has not yet been announced. The clubwomen will put education exhibits in the downtown store windows during the two-day fair.

NEGRO FINED

A Post negro, who pleaded guilty to an aggravated assault charge in county court Tuesday, was fined \$25 and costs.

Ellenburger Tester Goes To Glorieta

Another Deep Test Progresses In Area
The Garza County oil situation: The Comanche Corporation, operator for the No. 1-A Garza Deep Montgomery-Davis, south of Post, drillstem tested the Ellenburger, from 8474 feet to 8509 last Wednesday night. Thirty-eight stands of water cushion were put in. Recovered were the 38 stands of water cushion, 24 stands of drilling mud and 21 stands of sulphur water.

The operator plugged back from 4000 feet to 3600 in the Glorieta and, Friday night, set pipe-to 3557 for a test as soon as cement was available. Cable tools were to be moved there this week for an attempt at completion.

The operator found the top of the Strawn at 7960 feet, the top of the Mississippi at 8250 feet, and the top of the Ellenburger at 8459 feet.

Comanche has no plans to date for further deep testing in the county.

In southeast Garza County, P. W. Anderson of Midland and others, at last report, were drilling below 445 feet in shale with their No. 1-A R. Clyde Miller, (Continued On Back Page Col 3)

Mrs. Roy's Sister Claimed By Death

Mrs. W. M. Taylor of Austin, sister of Mrs. Walter Roy, died Wednesday night of last week in Dallas at the home of her daughter, Mrs. J. V. Edmondson, after a long illness.

Mr. and Mrs. Roy left Thursday morning for Dallas and attended the private funeral service Friday morning in the Starkman-Brand Funeral Home there. They returned here Saturday.

Mrs. Taylor is survived by her husband, a judge on the Texas Supreme Court, her daughter and a son, W. M. Taylor, Jr., whose appointment as judge of a Dallas court will become effective Oct. 1.

SOUTHWESTERN CHAMPIONS ARE ANNOUNCED— Junior Rodeo Nets Good Fund For 4-H Building Here

Alvin Davis, manager of the Southwestern Championship Junior Rodeo, yesterday submitted to the Post Dispatch an incomplete financial report of the 1949 rodeo which was held Thursday, Friday and Saturday in the Post Stampede Arena. It showed a net return to date of \$1,192.01. The remaining amount after taxes are paid, will be deposited in the Garza County 4-H building fund.

From the dances, an additional net profit of \$377.15, was made for the Post Stampede and Rodeo Association. Encouraged by the success of the second annual "World's Original All-Junior Rodeo," Davis and the Garza County 4-H boys and girls—supported by the Post Stampede and Rodeo Association—already are making plans for an even more suc-

cessful 1950 show. Lubbock Group Helped Davis yesterday expressed gratitude for the help of two Lubbock groups in making the Saturday parade worthy of the efforts of three newsreel companies who were here to photograph the activities for more than 8,000,000 of the nation's movie fans. Adding needed glamor to the parade were the horses and riders representing the Lubbock Sheriff's Posse, a chuck wagon brought by the posse, and a group of Indian dancers sent by Troop 8 of the Lubbock Boy Scouts. The Indian dancers staged a dance in costume during the parade and also as a feature of Saturday night's rodeo performance. They were well-received by the large crowd of spectators. Because of the rain during the

opening parade, judging of floats and individual riders was postponed until Saturday's parade. Winners were announced as follows: Floats—First, Wacker's; second, Close City 4-H girls, and third, Bryant-Link Co. Junior Riders—First, Sandy Cross; second, Donald Wheeler; and third, Noel White. Cash prizes were given to the six winners. Champions Are Listed One hundred forty-eight contestants were entered in the various events of the four-performance rodeo. Top champions of the show were: All-round cowboy—Jimmy Moore, 16, Post, buckle and hat awards; all-around cowgirl—Sissy Allen, 16, Voss, buckle and hat awards; champion sponsor—Betty Barron, 18, San Angelo,

boots; champion cutting horse—Billy Cogdill, 16, Snyder, trophy and bridle; champion ribbon rider—Bob Russell, 17, Fife, buckle; champion bull rider—tie between Jimmy Moore, who received a buckle, and Heavy Thomas, 18, Northfield, who received a buckle. Champion calf roper—Scooter Fries, 16, Bandera, buckle; champion of hat race—R. E. Josey, 18, Post, trophy; winner of special matched roping—Scooter Fries, buckle and hat. Fastest calf tied each night—Thursday, R. E. Josey, rope; Friday, Scooter Fries, rope; Saturday, Edwin Banks, Adrian, rope. First boy to buck off each night—Thursday, Robert Blackwell, Fort Worth, Levis; Friday, Rex Milhollon, Snyder, Levis; Saturday, Buddy Hettler, Lubbock, Levis.

Day Money Winners First go-round—Calf roping, Perry Walker of Big Spring, first; Scooter Fries, second; J. L. Stewardson of San Saba; third, and Bill Arnett of Clovis, N. M., fourth; ribbon roping—Bill Arnett, first; Bill Melton of Ozona, second; Bob Russell of Fife, third; and Neil Love of Spur, fourth; sponsor contest—Betty Barron, first; Betty Rush of Levelland, second; Wynona Barnett of Gatesville, third; and Betty Smith, of Abilene, fourth. ROGER W. BABSON WRITES THIS WEEK:

Children Should Be Allowed To Work During Vacations

Gloucester, Mass.—I believe in children's summer camps. Money spent by parents there is well invested. But I do notice one thing with my grandchildren. The first summer they are home alone, after being too old for camp, they are "lost" and know not what to do. During previous summers while at camp, every hour of the day was planned for them; they merely followed their camp counselors and the other children. After outgrowing camp life and left to themselves, they appear helpless and bored, while children

who never went to camp and lacked the many camp advantages are much happier. The above does not mean we should deprive our children of camp life; but it does mean that camp owners should overcome this drawback. This correction is even more important in connection with the recreational progress which cities and towns are now putting on for children. Certain mornings each week I see a class of children following, like little soldiers, a teacher to the beach or a playground. They—like the camp children—are having their days planned for them during the summer vacation as well as during the school terms. As these children will be entirely "on their own" after graduation from school and going to

work, it seems only reasonable to let them take care of themselves for two months each year so as to get used to individual responsibility. **Labor and Politicians** Certainly our public schools are not developing individual responsibility. Young people have too much given to them and are taught to "follow their leader" from birth until they get their first job. Therefore, it is natural that they will want a labor leader and ward politician to follow when they go to work. Certainly, our schools are making followers for the labor leaders. From this bad training children receive in school and during vacations they are unconsciously being trained to welcome fascists and Communists. We are

undermining democracy. One of the first things every state should do is to repeal all laws which discourage children from taking jobs during vacations. If I want to hire one of my grandchildren for running errands in the office or working on the grounds outside, I must get various papers signed by the state and/or school authorities,—provided they will sign them. The whole present system is wrong. Many children could acquire valuable habits and knowledge by summer work at almost any age. I worked for wages every vacation after I was 12 years old and the experience was of great value. It is a crime to rob children of this privilege today. Again I say we are undermining the remains of one of the Utopia

Socialistic settlements of 75 years ago, which, like the others—failed because individual responsibility was lacking. They depended upon a leader. I took this name to impress upon students that Utopia come not thru socialistic programs, but thru honest competition. As an ending to this column on children, let me state what we teach the students at Utopia College, Eureka, Kans. Here it is: The future of the United States—and every other country for that matter—depends only partly on scientific progress, or natural wealth or even cultural advantages. The advance of man everywhere depends upon the recognition that it is immoral to depend upon others or upon the government. Furthermore,

that the essence of democracy is individual responsibility from babyhood. Of course, this demands an interest in our fellow men. But we should teach that—in the center of the U. S.—at Eureka, Kans., and named it Utopia College. One reason for this name is because nearby are mining democracy and individual responsibility by so doing. **How A Utopia Will Come** I recently established a college in the long run—we can help save our fellow men only as we save ourselves physically, mentally and spiritually. First words spoken over the telephone were, "Watson, come here; I want you," spoken by Alexander Graham Bell to his assistant.

Garza and the World

By EVELYN BOYD

In the welter of mail which loads the Post Dispatch desks each week, I found a batch of blurbs on "The World Calendar for One World," on the need for a revised calendar. Presuming it will prick your interest, as it did mine, I am quoting from it as follows:

"The present calendar amended in 1582 with the seasons was not adjusted in its irregular arrangement. This irregularity, with corresponding changes every year, is bringing untold difficulties, confusion and inconveniences in our modern life which are costly to government, business, economy, agriculture, transportation, society, education and the individual.

"Nations are being drawn more closely together with the airplane, radio, telephone and automobile, with international trade, world economic conditions and a growing interest in the common welfare of man. This calls for a greater order, stability, harmony and coordination to be established in our various systems, notably that of the calendar. The calendar is indispensable to us and nothing is planned or accomplished without it.

"In adopting any change, experience has demonstrated that combining the best of the old with the new makes any transition easy and natural with a minimum of disturbance.

"To bring order and stability into our present time system is a logical process that began in 1884 with the adoption of Standard Time, when the clock was planned on the 24 time-zones throughout the world and the International Date Line was fixed. The World Calendar completes that process.

"This new and perpetual calendar, that survived a competition of more than 500 plans submitted to the former League of Nations, retains the convenient and easily divisible 12 months but apportions their lengths more evenly. It rearranges the year into equal quarters and halves, removing the inequalities and irregularities of the present unsatisfactory calendar. The plan:

1. Every year begins on Sunday, 1 January.
2. Each quarter of the year has 3 months of 13 weeks or 91 days.
3. In each quarter: the first month totals 31 days and begins on Sunday; the second month of 30 days begins on Wednesday; the third month also of 30 days begins on Friday. This arrangement recognizes a harmonious variety.
4. Days and dates always

agree from year to year.

"5. Each month has 26 weekdays, plus Sundays.

"6. The week keeps to the familiar order of days beginning with Sunday.

"7. Months have their irregular number of weekdays including Sundays.

"8. Every year has an even 52 weeks, plus the one or two new world holidays.

"9. Holidays and anniversaries are stabilized on their regular days and dates.

"10. Religious feast days, such as Easter, are left to the decision of the churches.

"11. Perfect coordination is attained among the different calendar units at the end of every quarter year and the year itself.

"12. Every year and quarter year are comparable from year to year.

"13. To secure the stability of the calendar, at the same time retain the accuracy of the length of the year that it takes the earth to make a complete revolution around the sun, the 365th day follows Saturday, 30 December. With the old 31 December changed to the new World-day, which falls outside the week yet belongs to the last month of the outgoing year and dated W or 31 December, it becomes the closing day of every year. World-day is considered a world holiday.

"14. Leap year day, the 266th day, follows Saturday, 30 June and is considered as another world holiday in leap year. It is the new Leap-year Day, W, or 31 June. Both these days stabilize the calendar, making it the same from year to year. This is comparable to the International Date Line at which point a day is gained or lost, that was essential in the establishment of Standard Time and is now used throughout the world."

"The time for adoption is when old and new calendars agree. This occurs on Saturday, 30 December, 1950. On that coincidental date the World Calendar takes over. By considering the following day, old 31 December of the present calendar as the new World-day, W, or 31 December, the new year 1951 will begin with Sunday, 1 January, and every year thereafter will always begin on Sunday, 1 January.

"These two logical dates are further enhanced in significance because they come at the mid-term of the Twentieth Century—a unique occasion. This event will be as significant a milestone in the advancement of man as when Egypt adopted the sun seasonal calendar, the Magna Carta of Runnymede freed man from feudalism, the Emancipation Proclamation abolished slavery, and the United Nations Human Rights Declaration in 1948 recognized the dig-

Minute Editorial

Last week's survey on what people think about a compulsory health examination and inoculation program for the Post school children only hinted at some of the problems involved. Being in favor of the program, one might presume that the local physicians should donate their time to the cause, an attitude which isn't at all fair to the physicians. It is not fair to expect the doctors to give 500 hours to a public cause any more than it would be fair to expect the merchants and other business men to give 500 hours to a civic cause. There is far too much of this sort of presumption and expectation going on in cities of this size. If such a program is worked out for Post, it should be planned in such a way that professional assistants can be reimbursed for their work and that the vaccines used can be bought rather than donated. All of the local physicians are extremely civic-minded and they have a reputation for giving more than their share to public causes, but they should not be expected to give more than men and women of other professions. This problem was one of the reasons Bob Warren expressed an objection to the program in last week's survey. He also explained that he thought the program would be better received if it were not compulsory, this being a free country and human nature being what it is. He is in favor of the program if it can be worked out so that the burden will be equally distributed, and the freedom of those who might object would be protected. These thoughts should be considered, if the program is tried in Post.

What Our Contemporaries Are Saying:

OIL OUTLET—Surveys are now being made in Borden County, to lay a pipeline from the recently opened Williams pool east to the vicinity of Fluvanna, a distance of some 25 miles to tie in with the trunk pipeline running near that village. Four offsets to the discovery near Mesquite are drilling below 5,000 feet and are expected to reach the pay of 10,000 by mid-October. If these new locations produce like the discovery, interest will run in fever height in this area. The possible outline of the pool is still anybody's guess.

TRUTH IS SPOKEN—People whoop and holler about the teen-agers going off in cars, parking in the country and so on but still don't do a darn thing about providing nice recreation centers for them.

Oh, we know they (whoever THEY are) say the young folks can go to church. They do—most of them anyway, but one can't go to church everyday and besides one gets tired of any one thing for a steady diet.

25 YEARS... on the job

This month marks the 25th anniversary of the day we first went to work for the folks in the Panhandle-Plains-Pecos Valley area. We say "went to work" because that's exactly what we did.

Our job for the past quarter-century has been to keep pace with the great strides these folks—our customers—have made... agriculturally, industrially, commercially.

We've really enjoyed our work, and we're looking forward to many more pleasant years "on the job" for the area we serve.

Our 25th Anniversary

In the years to come... as in the past... it is our constant aim to keep pace with the ever-increasing power needs of the vast area we serve... to provide low-cost, dependable electric service for better living—electrically—for everyone.

Dink Lanier, who worked for S. F. Everett this summer, returned to his home Sunday. While here, he earned enough money to buy a calf for the FFA program in his school.

Mr. and Mrs. E. G. Hartman, whose 2½-year-old daughter, Katherine Sue, was hospitalized for polio in Abilene when they moved here several months ago, took her back to the hospital recently for a check-up and found she is convalescing satisfactorily. She contracted polio last September in Sweetwater and was in the hospital until July. Although she still has to wear a brace, she can walk fairly well and is improving.

Visiting Mrs. W. J. Shepherd are her son-in-law and daughter, Mr. and Mrs. Smith Lawson, and two daughters of San Leandro, Calif., and her daughter-in-law, Mr. and Mrs. J. B. Shepherd, and three children of Los Angeles, Calif. The family will meet with all of Mrs. Shepherd's other children and their families Sunday in Mackenzie State Park in Lubbock for the first big family dinner in a number of years.

Mr. and Mrs. J. A. Mooks returned from a visit in Abilene and Merkel, Mrs. Pearl Harris of Merkel accompanied them home to spend a week.

CARD OF THANKS

On this small space I cannot begin to tell you nice people how I appreciate what you did for me while I was in the hospital, and since I have come home, and since I have come home. The nice cards, letters, flowers, gifts and visits meant more to me than I can ever let you know. But any time, any way I can help you, don't fail to call.

And for each of you, "thanks a million." May God bless you.

New Texas Hunting Laws Will Apply Here As Dove Season Opens Within 2 Weeks

Garza County nimrods are stocking up with ammunition for the dove season which opens Sept. 1 and lasts through Oct. 15. Shooting on property with permission of owner, will be permitted a half hour before sunrise until sunset. The bag limit is 10 and the possession limit is 10, according to State Game Warden Alton D. Willmann of Lubbock.

Willmann, who was in Post this week, gave the Post Dispatch the following "New License and Law Reminder for Sportsmen:"

Effective Sept. 1, is the Big Game Hunting License Bill. It provides for a \$2.15 annual license for hunting deer and turkey. Exempted only are those hunters under 17 years of age and those (regardless of age) hunting on land on which they reside. Those in the latter class must register with the Austin office on a form to be supplied by the Game, Fish and Oyster Commission, and obtain an exemption license. Major provisions of the bill, however, is the deer tag feature. Each license issued will bear the same number of deer tags as the number of deer the hunter is allowed to kill during the season for which the license is issued, and the tags will bear the same serial number as the license of the hunter who killed and tagged the deer. A tag must be permanently attached to each deer killed and must not be removed or used again. The Big Game Hunting License permits the hunter to hunt deer, turkey and small game, but if a hunter intends to hunt only small game he may secure a regular \$2.00 hunting license. If he hunts at all and is not exempt as stated above, he must have one or the other of the above named licenses.

New Fishing Law

The new fishing license law provides for a \$1.65 resident fishing license and eliminates a number of special licenses heretofore required. A license is required of all anglers over the age of 17 years who use artificial lure regardless of where they fish (except salt water where no license is required for sport fishermen) and fishermen over the age of 17 years using minnows or other live bait and fish outside their home county. Fishermen using worms or cut bait may fish in their home and/or adjoining counties without a license. The law provides also for an annual non-resident fishing license for \$3.25 and a 5-day non-resident fishing license for \$1.65. All other laws requiring various licenses for sport fishermen, including general, special or local, were repealed in the new law.

Must Get Permission

The Trespass Law: Article 1377, Section 1—it shall be unlawful for any person to enter the enclosed land of another without consent of the owner, proprietor or agent in charge thereof, and therein hunt with firearms or therein catch or take or attempt to catch or take any fish from any pond, lake, tank, or stream or therein camp, or in any manner deplete upon the same. By 'inclosed lands' is meant such lands as are in use for agriculture or grazing purposes or for any other purpose, and inclosed by any structure for fencing either of wood or iron or combination thereof, or wood and wire, or partly by water or stream, canyon, brush, rock or rocks, bluffs or island, proof of ownership or lease may be made by legal oral testimony.

The bill provides for penalties graduated on the number of previous trespass convictions of the offender, beginning with a maximum penalty of \$200 fine and forfeiture of hunting licenses for one year, and on the third conviction a penalty of not less than 30 days and not more than one year in the county jail and a fine of not less than \$500 nor more than \$1,000 and the forfeiture of hunting license for three years.

He and his wife, the former Bonnie Allphin of Tahoka, have two children. Our sister, Geraldine, lives at Post, where she is employed by the telephone company.
"The three grandchildren are Gene, Bob and Joy Smith of Lubbock. Gene is married and has a five-year-old daughter."

Aberdeen-Angus Cattle Show To Be Fair Feature

More than 500 of the top Aberdeen-Angus cattle in the nation will be exhibited as the major attraction in the livestock show of the 1949 State Fair of Texas, W. H. Hitzelberger, vice-president and general manager for the fair, has announced.

The National Aberdeen-Angus Show, Oct. 8-13, offers a bulging premium list of \$11,500, and will attract entries from every state which produces the black hornless breed.

"This national show means much to the people of the Southwest," Hitzelberger said. "This is one of the fastest developing breeds in the world and its popularity is increasing rapidly."
Judging dates are Oct. 11 and 12, with a banquet the night of Oct. 12 at the Baker Hotel, where State Fair Angus awards will be made.

Aberdeen-Angus cattle since the 16th century have furnished most of the famous "roast beef of Merry England." Stemming from the native cattle of the shires of Aberdeen and Angus in rugged northern Scotland, the breed's development is one of the most interesting chapters in animal husbandry.

First imported to the United States in 1873, the breed soon proved it could hold its own with the long established Short-horns and Herefords.

More than 1,000,000 purebreds have been registered with the national association since the breed was first imported to the U. S. and countless thousands of animals bear the characteristics of the breed—the hornless head and uniform body conformation with solid black color.

At the Fat Stock Show in Chicago, Aberdeen-Angus steers have won 75 per cent of the grand championships in the four major divisions during the past 43 years. In 41 of 43 carcass contests at the same show, the grand champion beef carcass has been from an Angus steer.

Happy Shahan of Brackettville is president of the Texas Aberdeen-Angus Association.

Mr. and Mrs. Forrest Weimhold of the Hockley County News in Levelland and Mr. and Mrs. Allen Hodges of the Countywide News in Littlefield visited the Post Dispatch last Thursday. They were en route to Brownwood to attend the West Texas Press Association convention. Weimhold was vice-president and Hodges was a director in the organization this year.

Stanley Butler left Saturday night to meet his parents, Mr. and Mrs. S. B. Butler, and his daughter, Stanna Cheryl, in Marlin for a week's vacation. The parents and little daughter had been spending a week in San Antonio and Austin.

Mr. and Mrs. E. T. Stolle and son, Carlton, have gone to Corpus Christi after spending a month in the Fred Steinhauser and D. G. Stolle homes in the Wilson community.

Former Post residents whose children performed in the rodeo and who were here for the occasion included Mrs. Hal Arnett of Clovis, N. M.; the former Edna Yonge and Shirley Robbins of Big Spring. Mrs. Arnett's son, Bill, and Robbins' daughter, Mary, were among the contestants.

Improvements Of Texas Roads And Soils Are Urged

Immediate enactment of a program providing a tax revenue from natural resources to assure future stabilization of the state's economy by investing in permanent improvements, such as rural roads, soil and water conservation, state hospitals and public buildings, is the pressing need in Texas today. This recommendation came from Gilbert Smith, former president of the Texas County Judges and Commissioners and now executive director of the Texas Rural Roads Association, speaking in Brownwood recently before the 19th annual convention of the West Texas Press Association.

In sounding a warning, Smith said: "The day is inexorably coming when the natural resources of this state will be exhausted, and oil and natural gas are being drained off to other sections of the country in such a rapid fashion that within 25 years Texas will be a great blighted area." He urged action to stabilize this condition before it was too late.

"As our natural resources are depleted," the director of the Texas Rural Roads Association said, "the state will have to rely more and more upon its agricultural economy, and certainly no one can disagree that rural roads are the arteries feeding our agricultural economy."

"The State Highway Department has been doing a splendid job in building one of the finest highway systems in the country," Judge Smith declared. "But it is now time to bring the rural roads of this state up to par and that to take Texas out of the mud, we must balance the scales between the highway and the rural roads program."

"The Texas Rural Roads Association, following a meeting of the board of directors in June, recommended a plan embodying the sound business premise, that natural resources, Texas' greatest capital assets, should leave capital gains in the state in the form of permanent improvements, as they are drained away," Smith said.

The Rural Roads Association director called attention to a recent report from the National Planning Association to the President's Council of Economic Advisors, which coincided closely with the association's recommended program.

"This report," Smith said, "goes so far as to suggest the federal government levy a production tax on these resources. If the state fails to collect adequate tax revenues, as the present rate of production will dwindle the supply sharply within the next 20 years."

"The exhaustion of these major fuels is depriving us of a very important source of raw materials for industry, besides paralyzing our future economy and menacing our national security," he warned.

Mr. and Mrs. J. N. Power took their daughter, Nancy, to Lubbock Tuesday for a physical check-up. She has suffered from several illnesses this summer.

Southland Football Boys In Training

Fifteen of the 20 boys who will play six-man football for Southland High School this year are, with their coach, R. C. Green, taking 10-days training at Roaring Springs.

Green, a student of Texas Technological College in Lubbock, has coached the Southland players for several years.

Southland has been changed to a different district this year. The new schedule will be announced in the Post Dispatch soon, the superintendent, C. S. Lindsey said.

PICK-UP STOLEN

Earl Rogers' pick-up, which was stolen Tuesday night, was found by Rogers Wednesday morning south of the Postex Mills.

BUDGET HEARING

The public is invited to a hearing on the 1950 Garza County budget at the court house Monday, beginning at 10 a. m.

SPORTS

FROM A STRICTLY LOCAL ANGLE

Six Of Remaining Oil Belt League Games Will Be Played At Home In Postex Park

Six of the Post Millers' remaining Oil Belt League games will be played in the Postex Park. The only out-of-town game will be with Levelland Tuesday night in the park at Sundown.

The Millers' fourth place in the league standing does not look so bad in view of the fact that they are a game ahead of Levelland and are two games behind schedule because of rainouts.

One of the rainout games will be made up during a double-header with Seagraves here Sunday afternoon. The other will be made up here next Thursday night in a game with Tahoka.

Tonight the Millers play Denver City in the Postex Park.

On Aug. 28, the Millers will play Levelland again, and the last game of the season will be Sept. 4 with Slaton. No game is scheduled for Thursday, Sept. 1. Shortstop Jim Boyd, who is leaving soon to resume his studies at Texas Christian University in Fort Worth, will play his last home game here Sunday. It is possible that he will play at Sundown Tuesday and, should the Millers get in the run-off he plans to come back from Fort Worth to help them. Boyd expects to be business manager this year for the TCU Horned Frogs.

The Millers lost their third place position Sunday when nosed out in the Postex Park by Sundown, 5-4, in a thriller played before 350 fans. The locals fell when a ninth-inning squeeze play attempt backfired. Trailing 5-4, with one out and runners on second and third, Post put on the squeeze. Dale Hester failed to hit the ball and Bill Holcomb was tagged out easily as he raced home from third. Hester then fanned to end the game.

Tommie Smithers was the winning pitcher. Holcomb, the loser, had replaced Windle Greer for Post in the fourth. Richard McChrystal and Doug Ethridge paced Sundown at bat with two hits each. For Post, Boyd had two for four, while Hester and Doug Simpson each hit a triple.

Mrs. Crowley Is Death Victim In Eastland Sunday

Funeral services for Mrs. O. R. Crowley of Eastland, pioneer Post resident who died at her home Sunday, were held at the First Baptist Church in Caddo Monday afternoon.

Mrs. Crowley and her husband, who celebrated their 50th wedding anniversary only a few weeks ago, were married in the Caddo church.

Survivors, besides her husband, are three sons, James of Oxnard, Calif.; Grady W. of Laguna Beach, Calif.; and Murray of Eastland; five daughters, Mrs. W. H. Collins of Cisco; Mrs. O. T. Stephenson of Abilene; Mrs. T. L. Morgan of Eastland; Mrs. C. M. Hutto of Olden and Mrs. J. A. Summers of Laguna Beach, Calif.; and 17 grandchildren.

Mrs. Crowley, who was born in Atlanta, Ga., 69 years ago, came to Texas as a young girl with her family and settled in what is now the southern part of Fort Worth. The family later moved to Caddo. The Crowley family lived in Post for a number of years and had been in Eastland the past five years.

ONLY TWO WRECKS

Only two wrecks, besides Jim Smith's train collision, were reported to the Garza County Sheriff's Department during the past week. One was an overturned pick-up in south Post last Thursday night. The driver was treated at the Post Clinic. The other was an overturned van on Highway 84, above the Caprock, the same night. The driver of the vehicle pulling the van, apparently allowed the van to turn over to avoid a collision with an oncoming car, witnesses said.

N. J. Lanotte has a new four-door Packard.

Thirty-Six Small Boys Are Working Out For 1949 Post Antelope Football Year

It will be another week or two before Coach V. F. Bingham will know what kind of team he has in 36 boys who are training twice daily for the Post Antelope football season.

The boys are small and inexperienced, and it will take time to teach them the fundamentals, Bingham said yesterday.

Calvin Storie, the only boy left from last year's first string and Ronald Joe Babb, were elected co-captains last week.

The boys will perform for the public in a light scrimmage tomorrow night after the Booster Club meeting, then on Friday night of next week they will play a football game for the public, beginning at 7:30 o'clock. New game suits have arrived for the season. Each player will have two suits, one of black satin and jersey with gold trim for home games and the other of gold with black trim for games away from home with teams having suits similar to the Post Antelopes' black suits. The numbers on the two sets of suits will correspond, so that each boy will always be identified by only one number.

Nearly \$800 Lost And Found At Show

Many were the interesting little sidelight of the recent Junior Rodeo but none was more unusual than the good luck of C. E. Davidson, Jr., of Ozona whose lost billfold was returned to him complete with its contents of \$720 in cash and \$78 in a check.

It was at Friday night's performance that Davidson lost his billfold. He reported his misfortune to Sheriff E. M. Bass who promptly went to the announcer's platform to have the loss described over the public address system. On reaching the platform, he learned that Phil Bouchier had just been there with the request for an announcement that such a billfold had been found.

The money was found by Wendell Mayo of Petrolia, who gave it to his father, Goat Mayo, and Goat had asked Bouchier to help him find the owner.

After the sheriff introduced Davidson and the two Mayos, Davidson started handing the boy \$20 bills as a reward. After the third bill had been given, Goat said "that's enough."

GARNOLIA ELECTION

Qualified voters of the Garnolia community will participate in a special election at the school Saturday to determine whether or not the school tax will be increased from \$1 to \$1.50.

Two Mexican Babies Die During Week

Funeral services for two Mexican babies were conducted under supervision of Mason and Company during the past week.

The first was held Saturday for 11 month-old Carmen Perez, who died Friday at Hereford, where her father is employed. She was a granddaughter of Juan Perez. Burial was in Terrace Cemetery.

The other was 4-month-old Julian Saldivar, son of Mr. and Mrs. Esquivel Saldivar, on Monday. Burial was in Terrace Cemetery. The baby died Sunday.

Post Boys Place In South Plains Swimming Meet

Tommy Malouf of Troop 16 and Donald Moore of Troop 11 won fourth place respectively in junior free style and intermed late side stroke at the annual South Plains Area Council Swimming meet in Mackenzie State Park at Lubbock Tuesday night. Plainview's Boy Scout Troop 50 won top honors in the meet and Troop 66 of Grassland and Troop 5 of Lubbock tied for second place, with a total of 72 points each. Grassland, like Post, is a member of the council's Llano District which has held top place in advancement, membership gain and other Scouting honors in the council since May. The swimming conquests strengthen this position.

Six boys of Troop 16, accompanied by Mr. and Mrs. John Lott and Bill Land, attended the meet. They were, besides Malouf, J. C. Shedd, Allen Kemp, Jack Lott, Leonard Short and Gerald Howard. Troop 11 was represented by Moore and John Schmidt, who were accompanied to the meet by Mrs. H. W. Schmidt.

Grandfather of Post Woman is Publicized

Tom Rose of Whitney, 97-year-old grandfather of Mrs. Marvin Hudman, was pictured in a two-page Life Magazine spread Aug. 15 in connection with Whitney's oldsters' fight to maintain their "spit and whittle" bench outside a downtown drug store. The caption under Rose's picture said: "Oldest sitter, Tom Rose, 97 angrily demands, 'What do they expect us to do, go hide in the woods?'"

The article explained that the old men won their fight and quoted Rose as saying, "been married 76 years, and my wife ain't whipped me yet." Rose and his wife visited in Post last year, a short time before they celebrated their Diamond wedding anniversary.

Erosion Control Is Seen In Vegetation

Grass and other vegetation is nature's tool for erosion control, soil conservation technicians say.

On areas that are barren of vegetation, water in the form of rain quickly runs off, taking with it particles of soil. But when these bare areas are returned to a good stand of grass, the water is held back and "walks off" the land and cannot pick up the soil held by the grass.

When ranges are properly managed, good grasses come back to make a thick cover. The grass roots will penetrate deep and loosen the soil, allowing water to saturate the subsoil, the technicians say.

State School Man Addresses Rotary

Dean Robinson, who was in charge of the program at Tuesday's Rotary meeting in the City Hall, introduced E. H. Boulter, deputy state school superintendent, who discussed the philosophy of business relations.

O. L. Weakley is to discuss his recent trip to Canada at next Tuesday's meeting.

What next? A complete pocket toolkit is a stainless steel knife. It contains two blades, screw driver, can opener, bottle opener, punch, corkscrew, scissors and saw.

Betty Joe Stevens Becomes Bride Virgil Bilbo In Ruidoso On Friday

Betty Joe Stevens, daughter of Mr. and Mrs. Phillip E. Stevens of the Graham Community, became the bride of Virgil Bilbo, son of Mr. and Mrs. Bilbo of Pascagonia, Miss., in a double ring ceremony at 8 o'clock Friday night in the Ruidoso Methodist Church at Ruidoso, N. M. The Rev. Henry H. H. H. officiated. The ceremony was a traditional wedding march. Attendants listed are Ted Bonnell and William Luck, both of Ruidoso, served as ushers and candlelighters, and the bride's brother, Emory Ralph Stevens, served as best man.

Mrs. Geno Hill of Waco, the bride's cousin, was matron of honor. She wore an original gown of deep mauve crepe and carried an arm bouquet of pink asters. The bridesmaids, Miss Mary Shook of Ruidoso and Miss Mary Etta Norman, wore identical dresses of mauve faille taffeta and carried arm bouquets of orchid asters. Flower girls were Dixie and Virginia Ann Dryden of Ruidoso, nieces of the bridegroom. They wore floor-length dresses of white taffeta and carried colonial bouquets of white asters.

CHURCH NEWS

By GANELL BABB

The Junior Girls Auxiliary met at the church Monday with 15 members present. After the meeting was called to order by Bettie Sue Claborn, the counselor, Mrs. Glenn Norman, read "Peter of the Mesa." Benediction was by Ann Osborne.

In Sunday's First Baptist Church bulletin, the Rev. T. M. Gillham thanked the members for "pulling together to turn a summer slump into a summer jump" and explained that the average Sunday school attendance in July was 285, a gain of 56 people over June, and the Training Union average was 89, a gain of 22 over June.

Members of the First Baptist Church budget committee and others will attend a Baptist stewardship rally at the First Baptist Church in Lubbock, beginning at 2 p. m. and continuing through an evening service.

The First Baptist Church, in keeping with tradition, will pay expenses of Sunday school workers who attend the Sunday school convention in San Antonio, Sept. 7-9.

The Rev. A. B. Cockrell will do the preaching for the meeting at the Verbena church each night for one week, beginning Aug. 28. The public is invited to attend.

All of the families belonging to the Lutheran Church at Southland were present for the Sunday services. The only absentee, as nearly as could be determined, was Carol Stolle who was ill.

Mrs. Tom Power is organizing a choir in the First Presbyterian Church. It had its first weekly rehearsal last night. Both men and women are members.

Honorable mention went to Joyce Evans and Mrs. Gertrude Ward for news about new babies; to Al Bird for information about a robbery in his neighborhood and to Henrietta Nichols who reported a party in the Cross Roads community. News from Cross Roads is so scarce, it is likely to qualify for a prize some week.

Mrs. Dee Coleman and daughter, Judy, of Carlsbad, N. M., arrived Monday to spend several days with Mrs. Vera King.

Letters From The Readers

Dear Eddie:
Sorry I was in such a hurry when I was in there Thursday, but I was out on a hunt for a corral to get my kinsmen's horses unloaded for the two days we were there.

This is to ask you to send me a copy of your issue this week to Lanier Forgason, Hungerford, Texas, as he has a scrapbook which he wants to bring up-to-date with our report of the show.

My compliments to the community at Post on the grand showing they presented with the All-Kid Rodeo. For my money it is tops in entertainment. Keep it up.

Sincerely yours,
J. M. Rankin,
Ralls, Texas.

(EDITOR'S NOTE: Ex-News-paperman Rankin's Hungerford kinsman will receive this week's issue of the Post Dispatch. The editor has every reason to believe that this community will put on a bigger and better junior rodeo next year. Rankin's letter was most appreciated.)

Dear Editor:
Some time ago you ran an article in your paper concerning the settling of the Sartain family in your county. My parents sent me a copy of it, and it has been misplaced. I don't remember the date of the issue, but I wonder if you would be kind enough to send me a copy if at all possible.

Thanking you in advance, I remain,

Sincerely yours,
Mrs. George Dressel
(Mildred Sartain),
1800 East 28th St.,
Baltimore 18, Md.

(EDITOR'S NOTE: Mrs. Dressel wanted a copy of the July 14 issue, which has been mailed to her.)

Dear Post Dispatch Staff:
I look forward to Monday and the Post Dispatch. I enjoy all of the paper and think you are doing a fine job. I have especially enjoyed the news about ex-Postites.

Sincerely,
Mrs. Robert Burch,
48 North Avenue,
Newark, O.

Mrs. Elmer Long To Begin Classes Soon

Mrs. Elmer Long, teacher of piano and theory of music, will open her classes Sept. 1 and teaching will be at her studio only, she said last week.

Rain or Shine--Day or Night The Folks at FLOYD'S Will Give You the Best Service and The Best in Gas and Oils! **TEXACO**

WHAT WAS GOOD ABOUT THE GOOD OLD DAYS?

There was fuel-haulin', stove-stokin' and a blue nose for every tubbing. There was the kettle that never held nearly enough hot water for the weekly bath . . . never enough for Monday's wash . . . never enough . . .

ALL THE HOT WATER YOU WANT, at the temperature you want, with a handsome automatic GAS water heater.

Be sure to buy one of adequate size . . . then you'll always have plenty of hot water for all your needs. There will be no need to worry about the lack of hot water for doing the laundry, dishes and the hundreds of other cleaning jobs around the house.

You can't beat the new, modern automatic gas water heaters for fast, dependable, low-cost hot water service.

Fertilizer Results Noticeable In Area

Summer time is time to think of phosphate fertilizer for all cover crops. Cover crops are part of a coordinated soil and water conservation farm program. Cover crops protect the land against wind and water erosion. They add organic matter and improve soil fertility, according to soil conservation experts.

Soil Conservation Service analysis of soils for district cooperators shows phosphate fertilizers are needed to grow cover crops. Here are results of soil tests: Double U Company sandy soil needs 200 lb. phosphate. T. R. Greenfield's tight soil needs 200 lb., J. W. McQueen's deep sandy soil needs 250 lb.

McQueen applied the recommended 250 lb. of phosphate per acre under rye and vetch last fall and he says he is sure it helped his cover crop.

Denny Eubanks plans to put more phosphate on his alfalfa. He says he cut a heavy crop of alfalfa where he put a heavy application of phosphate and a light crop where he made a light application of fertilizer.

E. C. Merrill fertilized part of his rye last year. He says, "it is plain to see the difference where the fertilizer was."

Truett Fry is urging Duck Creek Soil Conservation District cooperators to get their fertilizer orders in now.

ARRESTED IN LUBBOCK

A negro man, charged with stealing a Colt .38 revolver, a watch and \$40 to \$60 in cash from a trunk at the home of another negro man, who lives on the Plains in Garza County, was arrested by Sheriff E. M. Bass in Lubbock Monday.

bor, \$2,056.80; window cards, circulars, stickers and programs, \$193.55; lumber, food, dance band, stamps, parade prizes, matched roping, use of city hall, \$356.33; cost of concessions, \$333, and day monies, buckles, trophies, \$2,438.40; total (not including taxes), \$5,378.08.

Davis asked the Post Dispatch to express the junior director's gratitude for the use of cutting stock, belonging to Hinton Flitt and Red Sims and their appreciation for all of the other help that was given by various individuals and organizations of Post and Garza County.

Knute Rockne was born in Norway.

Garza Deep Tests

(Continued From Front Page) slated 2,500-foot wildcat to test the upper Permian lime, five miles southwest of Justiceburg. The Postex Drilling Company set pipe yesterday on the Sam G. Dunn-Amerada No. 1 on the Stoker Ranch, southeast of Post, and moved on the Sam G. Dunn-Catholic Church and Gowen Heirs No. 1, east of the city, across the highway from the Planters Gin.

The Postex Drilling Company set a pump on the Sam G. Dunn-Clovis Hudman well, northeast of the city limits, early this month and the well was described as a fair producer.

A deep test, the Seaboard Oil Company and Republic Natural Gas-O. S. Ranch No. 1, southeast of Post, had reached 2,510 ft. by last night and is drilling ahead, seeking the Ellenburger.

Intentions To Drill

(Continued From Front Page) The accumulated production for this field to July 1, 1949, is 184,854 barrels.

A map showing the location of all wells in the Garza field can be purchased from the Mason Map Service, 1001 Guadalupe St., Austin, for \$2.50.

Companies having permits to drill in Garza County, from Jan. 1, 1949, to the present date are:

P. W. Anderson et al of Midland; Herman and George R. Brown of Houston; John T. O'Neal of Midland; Seaboard Oil Co., of Delaware; and Republic Natural Gas Co., of Midland; Sam G. Dunn of Lubbock; Grisham-Hunter Corporation of Abilene; Comanche Corporation et al of Dallas; Ken-Tex Oil Corporation of Dallas; Roland Bond et al of Dallas; General American Oil Co., of Dallas; and Plymouth Oil Co., of Midland.

infestation by any insects has been very light and damage almost nil.

"He described the progress of the crop over the South Plains as a whole last week as 'fair', the condition of the fields as 'fair to good' and the labor supply 'sufficient for the present.'"

Mr. and Mrs. Dick Roach and Mr. and Mrs. Ira Vaughn left this morning on a vacation trip to Colorado and Phoenix, Ariz.

THANKS...

We'd like to say "thanks" to you, our customers for your kindness and for your consideration of us in the past year and a half. We all started in pretty green at this business of running a drug store, and all that goes with it. We still admit being green on lots of things but we have tried hard to please you in your needs, and hope to be more able to do so in the future.

I wish to thank you personally for bringing your prescriptions to me from other towns. Many times I haven't the preparation called for by the prescription, and then I really have to get busy and get it. But with your patient understanding of the situation we've delivered your prescription to you in the shortest amount of time that we possibly could have filled the prescription in.

Thanks again for being the swell people you are.

IT'S A FALLACY!

A popular fallacy says we should eat fish for "brain food." While fish is an excellent source of many nutritional elements, no particular food will improve our mind, if eaten regularly.

It has been proved, however, that a well-balanced diet will indirectly improve our sense of well-being, as well as nourishing our body.

Should your Physician find that you are lacking in important nutritional elements, bring his prescription to your Rexall Drug Store. There you are assured...
