Two Fire Prevention Contests Announced

The Addax Makes 1949-50 Debut On Monday Morning

The first 1949-50 issue of The Addax, Post High School newspaper was published Monday by the Senior Class. Although last year's P.H.S. newspaper was called The Antelope Whirlwind, the Seniors voted to return to the original name of the school paper. The Addax is a species of the Antelope. The Addax staff consists of Wayne Kennedy, editor; ElWanda Davies, assistant editor; Sue Bell Brister, business manager; Jamie Shepherd, assistant manager; Donald Carpenter, Joy Stewart, O'Della Morgan and Lathaniel Johnson, circulation department; Daisy Holly, society editor; Billy Ramage, sports editor; Cletta Buster, assistant sports editor; Betty Mills and Bonnie Gary, typists; Wanda Runkles, word artist; Bonnie Faye Williams, class reporter, and Mrs. G. E. Fleming and C. D. Lee, sponsors. The first 1949 issue, consisting of four tabloid size pages, was financed by the advertising bought by 27 merchants. The front page is devoted to news, a Happy Birthday column, and a column entitled Coketails—Did You Know? Page 2, the editorial page, carries the masthead, a short editorial, an "Around the Campus" feature and a poem, "The Senior's Story," by Jamie Shepherd. Page 3 carries a Future Farmers of America column, two columns of individual class news and library notes, and a column of Personalities describing the teacher, the boy and the girl of the week. Page 4 carries news, a column of jokes and a fashion column called Campus Garb. It is tentatively planned that The Addax will be published every other week. It is printed by the Post Dispatch.

Garza County Entries Make Good Showing At Area Fair

Garza County, as usual, came in for its share of the prize money at the 32nd Annual Panhandle-South Plains Fair which attracted a paid attendance of 4,371 spectators when it opened Monday for a week's stand. Although the Garza County agricultural exhibit did not place as high as usual, it was listed among the cash prize winners. In this department, of which George (Scotty) Samson was superintendent, Palmer County took the blue ribbon, and Floyd County placed second. Others placed in this order: Castro, Raymond King in charge; Hale, Manuel Ayers in charge; Bailey, J. K. Adams in charge; Garza, Lewis Herron in charge; Terry, Truett Babb in charge; Lamb, D. F. Eaton in charge, and Roosevelt, N. M., J. F. Leo in charge. Robert Gibson, former Garza County farm agent, was in charge of the Floyd County exhibit. In the vocational agriculture division, Lamesa High School won top honors, Roosevelt placed second, Tahoka placed third and Meadow placed fourth. The Meadow exhibit was supervised by Truett Babb, son of Mrs. R. W. Babb of this city. Post did not have an exhibit, as this is the first year in a number of years that the course has been offered in the Post High School. The judges, Dean Emeritus A. H. Leidigh and T. L. Leach of Texas Tech and Knox Parr of Amarillo, district Extension Service superintendent, agreed with Samson that the agriculture exhibits as a whole are the finest ever shown in the history of the fair. They will remain on display in the Agricultural Building throughout the week. The Garza County exhibit was arranged by Herron, with the help of Donald Windham, Post Chamber of Commerce secretary; Alvin Davis and Sherrill Boyd, former chamber of commerce secretaries; E. F. Schmidt, Post High School vocational agriculture teacher, and Carter Gene White and some other Garza County 4-H boys. Samson lauded Herron for his work in arranging the Garza County booth, as it was his first experience of this type. The booth, while interesting enough for the variety and quality of products shown, had an unusual, very attractive background. Grass Exhibit Good Samson, who has been presiding over the agriculture division at the fair for a number of years, saw his fondest hopes realized this year with an out-

In anticipation of National Fire Prevention Week, Oct. 9-15, the Post Volunteer Fire Department has announced its annual Fire Prevention Contests, which this year have some new features. Pupils in all grade schools of the county will be eligible to enter the Fire Prevention Poster Contest in which cash prizes are offered for the five best posters as follows: \$7.50, \$5, \$3, \$2, and \$1. Herebefore the contest has been conducted in the Post grade school and high school, with three prizes offered in each division. All students of Post and Southland high schools are eligible to enter a Fire Prevention Theme contest, in which three cash prizes are offered as follows: \$7.50, \$5 and \$2.50. The five best posters in the grade school contest will be sent to the State Fire Prevention Contest early in the spring. Fire Chief Homer McCrary said.

Homer Brant Dies Suddenly At Home In Fort Worth

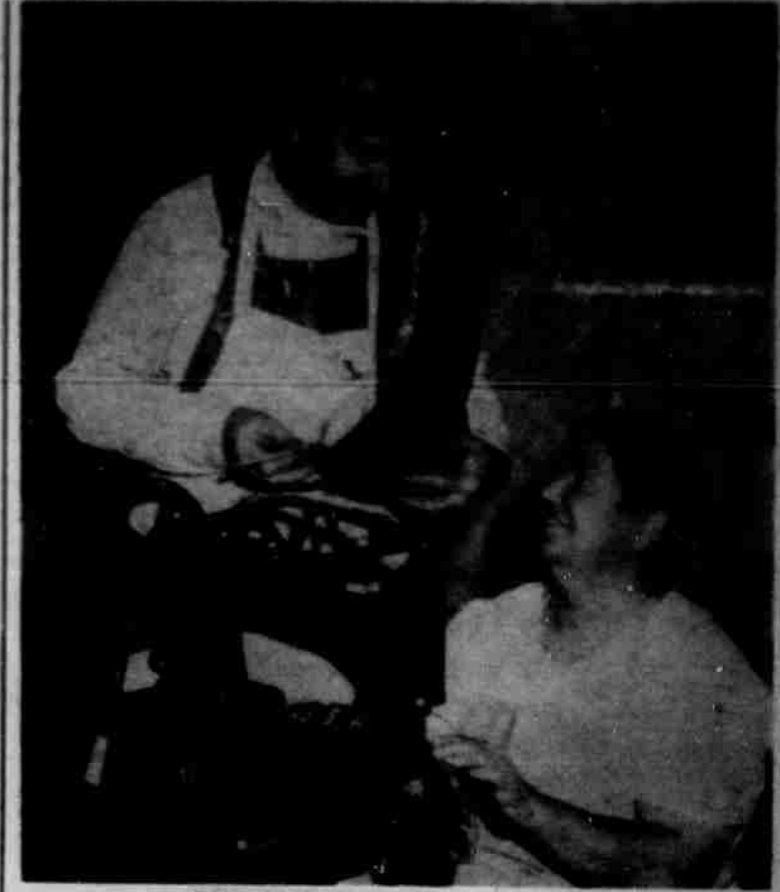

Funeral services for Jasper Homer Brant of Fort Worth, son of Mrs. Vida Brant, were held at the First Baptist Church here Tuesday afternoon at 3 o'clock with the Rev. T. M. Gillham officiating. Burial was in Terrace Cemetery under the direction of Hudman Funeral Home. Mr. Brant, who was found dead at his Fort Worth home Saturday, was born in Vineyard, Nov. 17, 1885. He had been a member of the Baptist church since he was 13 years old. He attended schools in Shamrock, and served in the Navy during World War I. Until the time of his death, he was maintenance superintendent at Harris Memorial Hospital in Fort Worth. Survivors include his mother; three sisters, Mrs. J. N. Power of Post; Mrs. Jim Cloud of Lubbock and Mrs. Boyd Rea of Anton; and six brothers, Rex of Houston; Robbie of Wichita Falls; A. G. of Odessa; Jeff of Trona, Calif.; Gordon of San Antonio and Ralph of Houston. Pallbearers were Tom Bouchier, Ray N. Smith, Harold Voss. (Continued on Back Page, Col. 2)

Annual Bargain Rates Of Post Dispatch And Daily Papers Go Into Effect Soon

The Post Dispatch is pleased to announce that its annual Bargain Rate period will begin Saturday and last as long as the daily newspapers of West Texas are carrying their bargain rates. During these bargain days, both new and old subscribers may subscribe or renew at \$2 a year for subscriptions or renewals in Post and Garza County and \$2.50 for subscriptions going elsewhere. This is a saving of 50 cents a year. While the bargain rates are on, the Post Dispatch is also authorized to take subscriptions

and renewals for the Fort Worth Star-Telegram, Abilene Reporter-News and Lubbock Avalanche-Journal. The Star-Telegram Bargain Rates are \$13.95 a year with the Sunday paper and \$12.60 a year without the Sunday issues. The Reporter-News Bargain Rates are \$9.95 a year with the Sunday paper, and \$8.95 without the Sunday issues. Rates for the Lubbock paper will be announced later. The Post Dispatch has offered bargain rates during this season every year that it has been in

business. While many subscriptions naturally expire during this period, those which expire at a later date may be renewed on the Bargain Rates now. Garza County subscribers taking advantage of the Post Dispatch Bargain Rates receive their paper at a cost of less than four cents a week. All persons sending or bringing in their money for the subscriptions and renewals are invited also to submit any bits of news that they might happen to know at that time and at all times in the future.

MR. AND MRS. D. L. YANDELL

Post Bootmaker Has Been Cobbling For Sixty Years

For all D. L. Yandell knows, he cut his teeth on a homemade cobbler's last. He has been a cobbler all his life, but since he is 63 years old the farthest back he can remember is going to the forest to cut wood for shoe pegs as a small boy. Yandell and "Deila", his assistant cobbler who will have been his wife for 45 years in January, bought the Yandell Shoe Shop here three years ago, but only moved here May 22 of this year to operate it. The shop has been operated at various times in the past by their twin sons, Lesley and Wesley, and a son-in-law, Ellis Andrews. Children Know Trade The Yandells have nine children, all cobblers or cobbler's wives. In addition, one of their 19 grandchildren, B. L. Yandell of Douglas, Ariz., is a shoe repairman by profession and a granddaughter, Mrs. Gracie Bowers, is married to a man who owns a shoe repair shop in California. It is too early to predict as to whether their six great grandchildren will follow the family trade. Yandell's father, A. R. Yandell, was not a cobbler by trade, but D. L. suspects it was because there were no professional cobblers in his youth. "In those days, everybody had his own homemade lasts and repaired or made the shoes for his family. My father, of course, had shoe repair equipment and he taught me all I needed to know for this business," he explained. The elder Yandell was a farmer in Sayre, Okla., during D. L.'s boyhood. The family moved to Floyd, County, Tex., in 1900 and the elder Yandell worked on the Massey ranch there for a number of years. Wife Prefers Embroidery Although D. L. has been making shoes for longer than he can remember, he started making boots only 22 years ago. His wife, who started making and repairing shoes as a bride, has always worked in his shop but she has never learned to like the trade. She prefers embroidery work and crocheting and takes greater pride in displaying this type of handiwork than she does in showing the beautiful craftsmanship that she puts in boots. Mrs. Yandell has done every job that is necessary in making boots, but has never made a complete pair without assistance. She says she knows how, but just isn't interested. Her favorite work in the profession is sandal making, and she and all four of her daughters enjoy this work. (Continued on Back Page, Col. 3)

Transportation Is Needed For Boys To Attend Games

Coch V. F. Bingham is planning to take as many of the Post Antelopes as possible, with available transportation, to the Slaton-Tahoka football game in Tahoka tomorrow night. Anyone who is taking a car to the game and has room for some of the boys is invited to report this fact to the coach. As the Antelopes are resting this weekend, it is believed that a large crowd of Post fans will scout the important conference game in Tahoka.

C. E. Nickens Is Death Victim At Home On Monday

Last rites for Charles Edward Nickens were conducted at the First Methodist Church at 4:00 o'clock yesterday afternoon with the Rev. A. B. Cockrell officiating. Burial was in Terrace Cemetery under the direction of Hudman Funeral Home. Mr. Nickens was born Nov. 27, 1875, in Nashville, Tenn., and was married to Miss Mary Taylor at West Point, Ga., in 1900. He had been a Post resident 30 years and until two years ago, when he became ill, was overseer in the spinning room at the Postex Mills. He died at his home here at 1:30 p. m. Monday. Survivors include the widow; four daughters, Mrs. Imogene Field of LaGrange; Mrs. Hattie Barrett of Hoganville, Ga.; Mrs. (Continued on Back Page, Col. 2)

Special Bus Will Go To O'Donnell

Fans who wish to ride the special bus to the District 4-A Conference game between Post and O'Donnell at O'Donnell, Oct. 7, should make reservations now at Bryant-Link store. The round trip tickets are \$2 each. Ralph Carpenter, Antelope Booster Club president, has announced. The bus will load in front of Bryant-Link store at 6:15 p. m. the day of the game. The booster club will not meet this week.

Leasing Spurt Keeps County Group Busy

Officials at the court house, who have been swamped with work for several months, were busier than ever now because of the recent spurt in oil leasing. It is estimated that most of the acreage in the county is now leased or in the process of being leased. At any rate, it looks that way to the court house officials who are recording the transactions.

LOCAL MARKETS

Grain is down 15 cents since last week's market report. The quotations below were given to the Post Dispatch Wednesday afternoon by local firms: No. 1 milo grain and kaffir \$1.50 No. 1 eggs .45 to .48 U-ht hens, lb. .15 Heavy hens, lb. .18 Cocks, lb. .08 Fryers, lb. .33 to .37 Cream, lb. .20

Four staff members of The Addax, Post High School newspaper, which published its first 1949-50 issue Monday, are shown in the Post Dispatch office where the newspaper is printed. They are, left to right, Jamie Shepherd, assistant manager; ElWanda Davies, assistant editor; Sue Bell Brister, business manager, and Wayne Kennedy, editor.

ROGER W. BABSON WRITES THIS WEEK:

More Pay For Less Work Is Economic Detriment To Nation

New York City—Today Wall Street is the most conservative street in the United States. California is bursting with people; the Central West is bursting with huge crops; city people's pockets are bursting with high wages; but poor Wall Street is neglected.

Once when talking with President Roosevelt he said to me: "Roger, I will fix your Wall Street friends for encouraging people to expect to get something for nothing. It just can't be done and you know it." Consequently, he had the Securities & Exchange Commission formed so that a banker cannot "blow his nose" today without first getting permission from

Washington.

It is true that this discouraged people from buying stocks; but the "SEC" did not stop the peoples' desire to get something for nothing. The business of the race tracks immediately boomed. Pinball and numbers games grew by leaps and bounds. People began to bet on football, baseball, and other sports which they never bet upon before. There is more gambling today than ever. Only a spiritual revival can stop the desire of people to get something for nothing.

Labor Doing It

But we do not need to come here to Wall Street, where I am today, or to go to the race tracks, to see people trying to get something for nothing. The most flagrant cases are where wageworkers are striking to get more pay for less work. It is okay to ex-

pect more pay for more work, but to expect even the same pay for less work is merely trying to get something for nothing.

On the train last week some shoe workmen complained to me because they had not had a raise in pay this year. Yet, they admitted that they have two weeks vacation with pay; a half hour of "rest periods" to smoke and play cards each day with pay. All this and holidays with pay amounts to 26 days for which they were getting full pay for giving no work in return.

Unemployment Reasons

It is true that we now have unemployment and high prices; but this is largely due—not so much to high wages—as to the attempt of people to get pay for time when they do not work. Main Street today needs a Commission which will cut the

fraud out of labor union practices, as Wall Street in 1929 needed a Commission to cut the fraud out of bankers' practices. Certainly, some labor leaders are trying to get their unions "something for nothing."

There, of course, are other reasons for unemployment and high prices. Among these I mention unnecessary government expenditures, huge business-killing taxes, the false attitude of Congress as to depreciation charges, the double taxation on dividends, and the handicap of the small businessman to get a start and compete with big business. Remember this: If there was a tax of 100% on what we save, we would save nothing. Conversely, the lower the taxes, the harder we work and the more we save to invest in new industries to make more jobs.

Jobs Require Capital

The discouragement of Wall Street is hurting employment. Babies are being born at the rate of about 7 per minute. Our population, after deducting all deaths, is increasing at 200,000 per month. To take care of these people, we must have more factories, more stores and more business. Today it requires an investment of \$6,000 in land, buildings, machinery and working capital to provide a job for one more man. This means that the work of Wall Street should now be encouraged by the Truman Administration.

Every reader of this column should, at the right time, buy good stocks and help provide the money for more machinery and for more jobs. This could be done by Congress eliminating the present double taxation on dividends. It also would help

to have any income you get from dividends under \$1,000 to be exempt from taxation. Those who love their work and save money usually become employers of others; but those who want short hours and "modern living" will always work for others and, at times, suffer from unemployment. Moral: "Live over your store or business and keep it open from 7:00 a. m. until 9:00 p. m."

Great Barrier Reef along the Northeastern coast of Australia has the largest coral formation in the world.

Chester, common ending for English town names, comes from the Roman word castrum meaning camp, since many were originally Roman camp sites.

Garza and the World

A world about housing: Post is missing the boat for not naving it.

Have you been to Snyder lately? It is building madly and the new constructions extend as far out as the Country Club.

Snyder still has a housing shortage, and will have for some time. While Post's oil boom isn't nearly as advanced as Snyder's, Post could benefit from Snyder's boom, if it had some houses, apartments and buildings to rent to the Snyder overflow.

Post could also benefit from Lubbock's overflow. On Wednesday of last week, a couple of army air force sergeants were in the Post Dispatch practically crying because they could not find housing for their families this close to Lubbock, where they and hundreds of other soldiers with families recently have been stationed.

A big oil well supply house recently seriously considered opening a business here, but finally decided in favor of Snyder. There must have been some good reason for the company's considering Post in the first place. Why didn't we get this important business? Something evidently was not offered that would have cinched the deal. Snyder, as crowded as it is, provided the answer. We are missing out, somehow.

And nobody seems to care; or else, nobody appears to be in a position to do anything about the situation.

Building in this part of the nation is an excellent risk, good times or bad—because of the atom bomb and other frightful developments in modern warfare. We of the hinterlands have assurance now, that we didn't have before World War II, that we will grow in population while the big, vulnerable cities disintegrate.

Our property, for this reason, will become more and more valuable as time goes on, and our rent houses and business buildings will be in demand for the rest of our lives and, during the lives of our smallest children. It will take another 100 years for this part of the country to build up to the vulnerable state that is now a menace to New York, Washington, D. C., Los Angeles, Houston, etc.

Civic pride would be reason enough for building houses and apartments in Post right now, if one had the money; but good sound economics is still a better reason. It might take a long time to get the building paid for, building costs being what they are—but the building will be there—and in demand—long

after it is paid for, and the property on which it sits will increase, rather than decrease, in value because of our fortunate geographical location.

Two oil men's wives from Levelland were in the office last Thursday hoping to get some tips about available houses or apartments. Their husbands were commuting here each day from Levelland, and they want to move here. It's like this every day, in the Post Dispatch office.

Now to the world: England's economic collapse has not been forestalled permanently, but just long enough to get the Labor Government re-elected. After the people have been hoodwinked into thinking Socialism will work, after all, the real austerity will set in and the crisis that has been feared in recent weeks will rear its ugly head in a most alarming manner. This will cost us plenty.

Once a great, powerful empire with enough capital to influence the entire world, England has succumbed to the trends that now threaten the United States. The United States will be able to help England only so long as she keeps herself free from the same pitfalls—socialism being the most imminent.

Under free enterprise, the government is the slave of the people. It's duty is to enforce the people's laws and to carry out the people's will and to protect the people from infringements at the hands of unscrupulous individuals, groups or nations.

Under socialism, the people are the slaves of the government which—in return—has to take care of the people in their old age because the people could never hang onto enough money to care for themselves. Under socialism, the people carry out the government's wishes and get in return a half-hearted security which doesn't measure up to the standards of West Texas' poorest elements.

The socialist government robs Peter to pay Paul less than he could have earned in free enterprise. The surplus goes into government waste and extravagance which is enjoyed by a chosen few.

The present Congress is having to decide on which trend the U. S. will follow. That it has accomplished little is significant indication that the problems are alarmingly at hand but that there are still a few true representatives of the people fighting for us old-fashioned Americans.

THE POST DISPATCH

ESTABLISHED IN JUNE, 1926

Published Every Thursday at the Dispatch Publishing Company Building in Post, Garza County, Texas.

E. A. WARREN, Publisher-Editor

Entered at the Post Office at Post, Texas, for transmission through the mails as second class matter, according to an Act of Congress, March 3, 1879.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

Minute Editorial

National Newspaper Week, Oct. 1-8, is as good a time as any to reflect on the merits of your local newspaper, to forget for one short week any little grudges or prejudices or real or imaginary shortcomings. For only five cents a week, your Post Dispatch gives you complete coverage of the news of this area. This complete coverage includes official courthouse records, school and church news, rural news from every community, funerals, births and weddings, civic and club activities, sports, business and industrial news, crime, traffic mishaps, personal news from trivial to tragic, and varied features from the ridiculous to the sublime. In addition—and for the same five cents—the Post Dispatch gives you paid advertisements regarding all types of merchandise and a large variety of professional services and free tips as to what's new or especially interesting in the various stores. The same five cents a week also buys a page in the Post Dispatch with a financial column written by one of the nation's most outstanding commentators on the subject, a locally written column which attempts to interpret world news as it affects us at home, editorial comment from the other weekly newspapers of West Texas, and this Minute Editorial which generally comments on a strictly local situation. The same five cents also buys a classified ad page each week, showing what is for sale and for rent and for how much, what has been lost and found and miscellaneous other odd bits of information. Whether or not the Post Dispatch is good or bad, or its personnel is loved or despised, the fact remains it is an excellent buy for a nickel and it gives you more for your money than any other public servant in the community.

What Our Contemporaries Are Saying:

SUPPORT THE FIREMEN—The Firemen's Carnival is an annual event, the one fund-raising activity sponsored by this important and alert organization.

Members of the Kaufman Fire Department are rendering a great service to the people of Kaufman, for which they are not paid. It is the least that we can do when we either patronize their carnival or make direct contribution.

No person in Kaufman could sleep very well if there were no fire department, ready to fight any blaze that might suddenly spring forth. Not all fires are discovered in time to save property, but the Kaufman fireboys are skilled in fire fighting, keeping water damage to a minimum, and in rescue work.

We owe a lot to the firemen. Let's give them our full support at the Firemen's Carnival.—The Kaufman Herald.

THE RIGHT TO GRIPE—There are so many things being investigated today in Washington that good Americans are pretty apt to become cynical of our government. The trend of the day is to criticize all phases of government, instead of try to help out on ticklish situations.

There are so many more good things in America today than there are "bad" ones that all of us should consider the blessings which we enjoy. The free right to gripe about existing evils is one of these blessings. For instance, English speaking nations encourage all citizens to explode when they think they are badly treated. Under dictator rule, a lot of American newspaper men would have been shot years and years ago.—The Canyon News.

I WANT QUALITY DRUGS

In "over the counter" drugs as in the makings of prescriptions, branded merchandise is all-important. It's your guarantee of quality and perfection. We feature only the best brands—each one a promise of complete satisfaction. Come in today!

Warren's Drug

WERE FLATTERED—We've had a lot of compliments. Just about the time we feel there's nothing left for customers to complain about, up jumps a new and entirely unexpected lamentation. A couple of readers have protested that we shouldn't use such long, complicated words in our paper. We're half embarrassed and half flattered. It never occurred to us that we actually got our money's worth out of five years in college, where we never learned much about grammar. But what we did learn, we're sure going to use. We're not going to throw all that time away publishing a newspaper of five-letter words geared to the vocabulary of a fifth grader. However, if the demand persists we will consider employing an interpreter to travel the Banner circuit with letter blocks and a book of synonyms. Maybe a crutch for the tongue isn't a bad idea, what with the idea working so well with the lame, the nearsighted and the victims of too many visits to the dentist!—The Ralls Banner.

PREVENTION OR CURE?—The Better Business Bureau of Houston hits the nail on the head: "Men who are all they claim to be are glad to provide full credentials and references. Usually, such men welcome full investigation of their references before attempting to establish trade or credit relationship with newly contacted firms. It's the bogus operator who indignantly objects to investigative security... He's the boy to watch!"

Prevention is better than cure—especially for a broken-hearted pocketbook or bank account. Ask the Retail Merchants Association—or your banker.—The Liberty Vindicator.

FORGING AHEAD—In several respects a high-g geared individual and a fast-rolling locomotive have common characteristics.

Any man with a sincere purpose and a dynamic desire to drive ahead usually gets going after gathering a lot of steam—physically and mentally. And on his way, it is only natural that some steam must escape through the compression apartments while pushing the wheels of progress.

So, generally speaking, the sound of blowing steam, whistling through the air, carries a good omen; for here is an ac-

cumulation of energy being allowed to forge forward full steam ahead!—The County Times.

RE-NAME TEAM—It's wet, speaking from the point of moisture, of course these parts recently that wag has suggested we name the Wildcats the Luv Weefoots. If the situation continues, the Fikesmen should be exceptionally good muddlers at the end of the season.—The tiefield County-Wide News.

Victorious Second String Antelopes To Meet Crosbyton On Local Grid Tonight

A large crowd is expected to attend the football game tonight between the second string of the Post Antelopes and the Crosbyton second string, as the first string Antelopes are resting this

week and the next three Antelope games will be away from home.

Coach V. F. Bingham emphasized the fact that the second string games are not "Junior" tilts, although all players are 15 years of age or younger.

Activity tickets are not good for second string games, for which an admission price of 10 and 25 cents is charged.

The Antelope second string was scheduled originally to play Slaton tonight, but the game was called off by Slaton, Coach Bingham said.

Crosbyton Line Up

Crosbyton's tentative starting line-up tonight will be as follows:

LE, Johnston, 160 lb.; RE, Barton, 160; LT, Edwards, 270; RT, Hargrove, 140; C, Davis, 140; LG, Parker, 150; RG, Hawkins, 150; QB, Savage, 140; LH, Ogle, 130; RH, Collier, 130; and FB, Holder, 160.

The starting line-up for the locals, tentatively will be:

C, Johnny Matsler, 127 lb.; LG, Roy Josey, 135; RG, Donald Gossett, 135; LT, Roy Briggs, 142; RT, David Tyler, 145; LE, L. W. Evans, 140; RE, Carroll Light, 126; QB, Darrell Stone, 112; LH, Rex King, 140; RH, Bobby Tarry, 118; and FB, Pat Stephens, 130.

D'Donnell Defeated

The Post second string defeated the O'Donnell second string 31-0 at O'Donnell last Thursday night. Coach Bingham said the boys showed the best teamwork, the best blocking and the most hustle that he has seen in a long time. He took 26 boys and all played and showed up good.

He said that Darrell Stone showed up exceptionally well, throwing 14 passes and completing 11 for 150 yards. He also said that Rex King did a fine job in making three touchdowns, including one on a 90-yard run, and L. W. Evans and Carroll Light looked good in the end positions. Evans went around the end for one of the touchdowns. Fred Long was exceptional on defense and the coach believes that as soon as he learns the plays, he will see a lot of service.

Bobby Terry made one of the touchdowns.

After each of the five touchdowns, only one of the conversions was good. Evans attempted a kick that went offside. The ball was brought back, and Stone threw a pass to Light for the extra point.

Southland Wins Conference Tilt

The Southland six-man grid-ers defeated Patton Springs 6-0 Friday in a conference game played at the Ranger Field at Afton before about 500 spectators.

Southland scored the only touchdown in the first quarter, with Gene Anderson carrying the ball. Anderson was said to

It Takes A Pass To Watch Games From Sidelines

Nobody except football players in uniform, coaches, and game officials will be permitted on the sidelines without a special pass at football games on the Post Antelope field, Supt. C. R. Day has announced.

Newspaper reporters, photographers and others who need to be on the sidelines for any reason must obtain a pass from Mr. Day at the gate.

This rule was made this week because of the well-meaning football enthusiasts who have been getting in the way on the sidelines at previous games this year and last, Day said.

"Last Friday night the coach had to push the crowd aside to find his substitute players," he explained.

Millers Lose To Denver City In Semi-Final Play

The Denver City Gassers defeated the Post Millers 10-2 in the opener of the three-game Oil Belt League playoff finals Sunday before a crowd of 450 fans at Denver City.

The second game, if necessary, the third and last, will be played at 2 p. m. Sunday in the Post-Ex Park.

According to the Monday Lubbock Avalanche the Gassers staged four-run scoring sprees in the fifth and sixth innings to break up what started as a pitcher's duel between Marshall (Hook) Epperson of Denver City and Wendle Greer of Post.

Epperson, husky lefthander, scattered six hits and fanned 14 batsmen while his mates were pounding four Post twirlers for 11 safeties and the decision.

The Millers started strong, grabbing a 1-0 lead in the fourth inning on Jim Boyd's single, a Gasser error, and Doug Simpson's sacrifice bunt which brought Boyd in from third.

But Denver City put its big guns to use in the fifth, and the Post defense promptly collapsed. Doc Keel opened the game-clinching rally with a walk, taking second on Tommy Hilton's sacrifice. Jackie Cook also walked, then Epperson singled to score Keel. A Miller miscue gave Spec Simpson life at first, and let Cook come in with another run. Cyclone Jones and Nuel Landreth rapped consecutive singles, with Simpson and Jones scoring on Landreth's blow, before Manager Ed Gorman hit into a double play that ended the uprising.

In the fifth, Denver City added four insurance runs on three singles, two Post errors, a walk and a hit batsman.

The final two Gasser tallies came in the seventh on two hits and two Miller bobbles.

R. M. Thomas of Post clotted a homer on the top of the ninth to give the Millers their second run and close out the scoring.

Greer, who gave way to Jim Boren in the sixth, was tagged with the setback. Ed Altman and Walter B. Holland followed Boren to the Hill in the late innings.

Jones, Denver City's diminutive third baseman, was the day's hitting standout with three singles. Simpson, Hilton and Epperson had two hits each for the victors.

For Post, Ed Altman collected

be the outstanding defense man and J. H. Trimble lead the winners in offense. Loyd Shaw was the strong man of the Patton Springs squad.

The Southland Eagles will play Roaring Springs tomorrow at Southland, and on Oct. 7 the Southland team will play at McAdoo.

In the game with Patton Springs the lone tally was made on a two-yard plunge over center after a 20-yard pass from Leake to Hill.

The Eagles have a new face on the field this year, their manager, Miss Dian Haire. The football players also have new suits, of silver trimmed with red and black.

Joe Trimble has been elected as the Eagles' Sweetheart for the school term.

Antelopes Defeat Seagraves 19-6 to Hold Over Two Hundred Bales Of Cotton Ginned In County

The Post Antelopes, defending champions in District 4-A South, picked up their conference record where they left off in 1948 by beating the Seagraves Eagles, 19-6, here last Friday night. This triumph gives the Antelopes at least temporary possession of first place in the district, as no other conference games have yet been played.

This week's football docket includes: Slaton at Tahoka in a conference tilt; Seagraves at Morton and O'Donnell at Meadow. Post will rest this weekend because of an open date in the schedule and meet O'Donnell in a conference game there Oct. 7.

Friday night's Antelope-Eagle game was exciting from the time of the kick-off which gave the ball to Post. Early in the first quarter, on a pass from quarterback Jack Kirkpatrick to end Jerry Odom for 13 yards after three first downs on a drive from the Antelope's 41-yard line, the locals made their first touchdown. Kirkpatrick kicked the extra point.

Post's second score came midway in the second quarter as Kirkpatrick went over the center for four yards for a touchdown. His kick for the extra point failed.

Seagraves' lone score came in the opening minutes of the final period as Seagraves fullback, Bobby Dale, went over the guard for about six yards and a touchdown. He missed the pass that would have meant an extra point.

On the last play of the final quarter Kirkpatrick made a spectacular 15-yard pass to Norman Cash who ran about 25 yards for a touchdown. Kirkpatrick's kick for the extra point failed.

Although the game was chock full of excitement, one of the most tense moments was in the third period when Kirkpatrick faked a pass play and went around the end for about 60 yards before he was called back because Referee Howard Price of Lubbock thought he stepped out of bounds. Although the referee's decision stuck, Price is said to have later told Kirkpatrick that a mistake had been made.

a double and a single to share hitting honors with Thomas. Denver City finished first in Oil Belt League play, and Post wound up fourth.

Players Looked Good

In commenting on the game, Coach V. F. Bingham said that if Norman Cash, right end, keeps improving he will be one of the best runners Post ever had.

Jack Schmidt, who was a star of last year's second string, was back in his old form Friday night in the position of left guard.

Jerry Odom did an outstanding job at left end.

The coach also liked the work of Billy Ross Sullivan, tackle, who was getting his first good experience. He played more than half the game, and did a fine job.

He commented also that Jack Kirkpatrick, quarterback, and Calvin Storie, right guard, first stringers from last year's team, seem to be in better form than ever.

Over Two Hundred Bales Of Cotton Ginned In County

The past two days have seen the cotton ginning season pepping up at a rapid rate. A total of 230 bales had been ginned by four gins in the county by late yesterday afternoon.

The recently rebuilt Planters Gin, which has been in operation for several weeks, has ginned 144 bales, the manager's wife, Mrs. C. M. Murphy, said. She is the gin's bookkeeper.

The Graham Gin, which is managed by Bill McMahon, has ginned 41 bales, 30 of which were finished Tuesday and Wednesday. This gin, a farmer's co-op, added quite a bit of new equipment during the summer months and started operating several weeks ago.

The Close City Gin, a co-op managed by George Fulton, started ginning this week and had turned out one bale by yesterday. This gin also has quite a bit of new equipment, including three new electric motors.

The Southland Gin, managed by L. B. Hambright, started ginning about a week ago and has turned out 34 bales.

Two other gins will be in operation by Monday. One is the Storie Gin, west of Post on the Plains. It is one of the newest gins in the county. The owner, S. C. Storie returned Saturday from a gin until the close of the season there last week. He said he ginned more than 4,000 bales.

The Pleasant Valley Gin, managed by Raleigh Reese, has been completely overhauled and a new engine has been added to the equipment. It will be ready for business Monday or before, Reese said.

Gas Company Plans Range Rodeo Here

Local retail dealers in gas ranges met at the West Texas Gas Co. headquarters here Tuesday afternoon to hear details of the gas company's Range Rodeo, Oct. 1 through Nov. 30, in which every person buying a gas range from one of the dealers will receive a set of eight chip-proof glasses, and the dealer selling the most stoves will receive \$50. Second and third dealer prizes, respectively, will be \$25 and \$15.

The contest will be conducted in the 42 West Texas towns that are served by the gas company. To be eligible for the prizes, the dealers must send a card to the nearest gas company office after each sale.

The contest is open to all gas range dealers in towns served by the company and to anyone buying a gas range from any of the dealers.

Maple Vows Are Solemnized At Lutheran Church In Borger Sunday

Wedding of B. J. (Buddy) Maples and Mrs. M. M. Maples, daughter of Mr. and Mrs. J. J. Phillips, was solemnized at 2:30 o'clock Sunday afternoon in the First Lutheran Church at Borger, with the Rev. Glenn of that church officiating. The bride wore a lace gown and the groom a suit. The bride's bridesmaids were Miss Polly McLemore and Miss E. E. Eakin. The groom's best man was Mr. J. J. Phillips. The ceremony was followed by a reception at the home of the bride's parents. The bride is the daughter of Mr. and Mrs. J. J. Phillips of Borger. The groom is the son of Mr. and Mrs. M. M. Maples of Borger. The ceremony was officiated by the Rev. Glenn of the First Lutheran Church at Borger. The bride is the daughter of Mr. and Mrs. J. J. Phillips of Borger. The groom is the son of Mr. and Mrs. M. M. Maples of Borger. The ceremony was officiated by the Rev. Glenn of the First Lutheran Church at Borger.

Mrs. Nance Is Party Honoree

A layette shower honoring Mrs. Lewis Nance was given by Mrs. James Minor and Mrs. Phil Bouchier Wednesday afternoon of last week in the home of Mrs. Marshall Mason. The party was a complete surprise to the honoree who had been invited there "just to play bridge." After several games of bridge, in which Mrs. Nance qualified for a prize, the gifts were presented to the honoree in a bootie-shaped baby's laundry bag. Refreshments were served from a buffet decorated with two cakes, one iced in blue and decorated with a baby boy and a question mark and the other iced in pink and decorated with a baby girl and question mark. Bridge guests were Mesdames Tom Power, Robert Hall Davis, of Slaton, Glenn Kahler, George Tracy, O. L. Weakley, L. J. Richardson, Jr., Giles McCrary, Bob Warren, John Lott, S. E. Camp, Alex Webb and Carl Webb. Tea guests were Mesdames Elton Nance, Irving Scarborough and Ed Sims.

Graham Club Meets With Mrs. Peede

The Graham Thursday Club met last Thursday afternoon in the home of Mrs. Jess Peede. Mrs. O. H. Hoover led an interesting program. A business meeting was held. Refreshments of sandwiches, salad, cookies, nuts and punch were served to Mesdames O. H. Hoover, J. A. Propst, Taylor Cook, John Wallace, Glen Davis, Will Wright, R. W. Babb, Bill McMahon and the hostess.

Needlecraft Club Meets On Friday

The Needlecraft Club met in the home of Mrs. J. E. Stephens Friday afternoon. The group enjoyed visiting and sewing. During the business session, the club voted to send flowers to Mrs. F. A. Gilley who is ill at the home of her daughter in Lubbock.

Members present were Mesdames J. R. Durrett, T. R. Greenfield, T. L. Jones, L. N. Roberts, Naomi Clark, Laura Faulkner, M. K. Bingham, W. F. Pierce, A. A. Suits, Ida Robinson, Weaver Moreman, H. M. Snowden and Boone Evans. Mrs. E. F. Keeton was a guest. The next meeting will be in the home of Mrs. Pierce.

Neighboring O.E.S. Units To Meet Here

The Order of the Eastern Star will be host to 17 neighboring chapters at a Friendship Night program here at 7:30 o'clock this evening.

THE MEANING OF LIFE

Go to now, ye that say, today or tomorrow we will go into such a city, and continue there a year, and buy and sell, and get gain: Whereas ye know not what shall be on the morrow. For what is your life? It is even a vapour, that appeareth for a little time, and then vanisheth away. For that we ought to say, If the Lord will, we shall live, and do this or that. But now ye rejoice in your boasting: all such rejoicing is evil. Therefore to Him that knoweth to do good, and doeth it not, to him it is sin. James 4: 13-17.

The Rally Day program presented by the children at the First Presbyterian Church Sunday morning was well attended. Children participating in the program were Jane Francis, Lee Williams, Jo Nancy Power, Roger Camp, Pamela McCrary, Neal Francis, Bill DeWalt, Dan Rankin, Mary Louise McCrary, Kateline Kahler, Glenda Kahler and Bryan Williams.

Among the Post Methodists who are attending the training church school in Lubbock this week are the Rev. and Mrs. J. E. Stephens, Mrs. B. E. Young, Mrs. A. B. Cason, Mrs. Ralph Welch, Mr. and Mrs. A. P. Ottinger, Miss Bonnie McMahon, Mrs. John Lott and the pastor, the Rev. A. B. Cockrell.

The W.M.U. of the First Baptist Church met Monday afternoon at the church with all groups present. The organization is composed of the Sunbeams, the Junior Girls' Auxiliary, the Intermediate Girls' Auxiliary and the Women's Missionary Society. The entire group studied a missionary lesson in their separate divisions. Pearl Self and Sue Gillham are Sunbeam leaders; Mrs. Glenn Norman and Agnes Windham are G.A. leaders and the Rev. T. M. Gillham directs the boys' work. Mrs. Henry Biberly led the women's program in a discussion on "Christ is the Answer to Atheistic Communism." Seventy-three people attended the meeting.

The Presbyterian Missionary Society met Monday afternoon in the home of Mrs. Pauline Hagood with ten members present. The scripture lesson was taken from the 17th chapter of John. After a lesson study a report on the Amsterdam conference was given.

The local Methodist church has assumed the responsibility of being host to the Lubbock District Conference here Nov. 8. Approximately 250 out-of-town guests are expected to be present.

Twenty-eight men attended the Brotherhood meeting at the First Baptist Church Monday evening. The Rev. Abe Hester, pastor of the College Avenue Baptist Church in Lubbock was speaker on "Soul Winning." Refreshments were served at the conclusion of the meeting. Henry Tate is president of the organization and James Minor is program chairman.

It was erroneously printed in the church column last week that Mrs. Lee Davis is the new president of the First Christian Ladies' Aid. Mrs. G. R. Day is the president.

Sunday is Rally Day at the Methodist Church and the Sunday school goal has been set at 175. All members are urged to attend and all visitors are welcome.

The Y.W.A. of the First Baptist Church met in the home of Mrs. T. M. Gillham Monday evening for a study of "State Missions." Sue Gillham was program chairman and the following took part in the program: Bonnie Bowen, Helen Williams, Mary Nell Bowen, Pearl Self, Agnes Windham, Sue and Mrs. Gillham. The group presented a skit on state missions at the prayer service last evening.

The Berean Sunday School Class will present the program at the monthly fellowship program at the Methodist Church Monday evening.

Gossip About Garza Guys And Gals —by gay nellie

Mary Etta Norman, a senior student at Texas Tech in Lubbock, was awarded a \$50 scholarship from the National Secretaries Association. The award was given on the basis of leadership and scholarship and she was chosen from the students enrolled in secretarial studies at Tech.

We don't know just when Bud Everett and Jean Sartain are going to tie the knot, but we hear that it won't be long now. Jean is employed by Thaxton Cleaners since recently moving here from Slaton.

Shorty Hester is working at Hundley's Cleaners now and we bet he is saving up a batch of money to carry out his matrimonial plans.

Melvin Coarley who has been working in Houston this summer is home now and is spending most of his time buzzing around town on a motorcycle.

Frank Gillham and his roommate, Arvil Holt, of Howard Payne College in Brownwood spent the weekend here with Frank's parents and sister, Sue. Joe Moss spent the weekend in Amarillo.

Jim Norman has forsaken McMurry and returned home to be a farmer, we hear.

Golf Course To Be Ready Soon For Club Folk

The same golf course, which was used by the old Post Country Club, will be used by the golf club which is now being organized and in which membership is open to anyone interested.

The membership fee will depend upon the number of members who sign up, but tentatively a \$20 fee is being charged. Those wishing to join may pay their fees to E. S. (Buddy) Stewart at the First National Bank.

The golf course was mapped yesterday by George Samson and Jim and Jimmy Hundley. The property is in the process of being leased from the Double U Company this week, and work on the greens and fairways will begin next week. Samson is in charge of laying out the course, and J. C. Strange is in charge of the greens. Homer Gordon will do the bulldozing and other dirt work.

Oil Reports Are Continuing Good

It was announced last weekend that a production test of a six-foot lime zone which was saturated with oil was to be undertaken shortly at Rogers Brothers and Stewart No. 1 Wahlenmaier, wildcat in the Canyon Valley Community.

The project was bottomed at 2,817 feet in Permian lime and had cemented a string of seven-inch casing at the top of the pay.

The rotary drilling rig was being moved out and a cable tool unit was to be moved in to drill the plug and test the possible pay section.

Location is 330 feet from south and east lines of the northeast quarter of Section 3, Block D-15, WTRR survey. It is in Crosby County about 20 miles north of Post.

The Seaboard Oil Company of Delaware No. 1 OS Ranch, wildcat about 15 miles south of Post, last weekend was continuing to drill below 6,060 feet in lime and shale.

It is contracted to drill to 8,250 feet to test the Ellenburger.

Herman and George R. Brown No. 1 Basinger, wildcat 11 miles northwest of Post, last weekend was waiting on a pump to be installed and to take production tests. No reports had been made of any tests since the project plugged back to 3,547 feet.

Post Bootmaker

(Continued From Front Page)

Learned On Watchfobs

The five Yandell sons started their bootmaking careers by making miniature leather boots for watchfobs. After they mastered the art in miniature, their father permitted them to make boots for his customers. All have made their own boots since they were 10 or 12 years old. Several of the boys became experts in the line.

Sandal making is about as far as the girls ever got in the profession, but each married a boy whom Yandell taught bootmaking and shoe repair work and each son-in-law has worked at the trade at some time or other. Here's a brief sketch of the nine Yandells of today:

Leonard owns a shoe repair shop in Clifton, Ariz. He is the father of the above mentioned B. L.

Raymond makes boots and repairs shoes in Miami, Ariz.

Both the twins are excellent bootmakers but not as interested in the work as some of the other boys. Lesley lives in Lubbock and drives a Waples-Plattor wholesale delivery truck. Wesley follows the fruit picking trade in California.

David works in a shoe repair shop owned by Raymond in Globe, Ariz.

Husbands Learned Trade

Mrs. Connard Anderson lives in California where her husband is a fruit picker. He is an expert at making loggers and all other types of boots, and has owned two shops. He gave up the work because of his health condition which required outdoor work.

Mrs. Charlie McDonald owns a restaurant in Roaring Springs, where her husband makes boots. He formerly owned a shop.

Mrs. Willard Woods lives in California where her husband follows the fruit trade. He formerly owned a shoe shop in Floydada.

Mrs. Ellis Andrews now lives in Floydada where her husband works in a garage. He had to give up the boot and shoe business because the dust from the shop irritated a throat ailment.

Mr. and Mrs. Yandell were married in Sayre, but lived in Floydada for a number of years. They also lived at Roaring Springs and Matador before moving here. They have operated a shoe and boot shop in each place.

Changed Like Cars

Boots, like automobiles, have changed in style during the past 22 years, and Yandell can illustrate this by showing the first boot lasts that he ever used beside the type of last that he uses today. They are as different as a Model T and as Ford V-8.

Twenty years ago the boots were made with rounded toes and high heels which were slung "away under." The heel was made this way because all of the boot wearers engaged in riding and roping. The underslung heel stayed in the stirrup better, and was also useful for anchoring the cowboy in the dirt while he tied the calf.

Many people who wear boots today have never been on a horse nor tried to rope a calf. Lots of truck drivers, for instance, wear boots to keep their feet warm and because they are practical for loading and unloading trucks in muddy weather. The heels today are not so high and are not slung under so far, and the toes are pointed.

Pins Still Used

Boots are still made with little wooden pins, instead of nails. The only nails that Yandell ever puts in a boot are in the heel. He no longer cuts his own wooden pins, as they are available from wholesale houses. The pins are made of maple.

Yandell currently uses between 300 and 400 lasts in his bootmaking trade. Each last is a different shape and size. They include corrective lasts for various types of cripples. Yandell takes great pride in making boots that make crippled feet look normal.

The Yandells buy their leather already tanned and tooled, but they can remember the days when they did a lot of their own tanning. They have tanned the hides of prairie dogs, squirrels and cats for some of their more eccentric boot customers.

It takes Mr. and Mrs. Yandell at least two full days to make an ordinary pair of boots. Inlay work and other decorations take longer and the cost is higher. They charge \$35 a pair for plain boots and \$45 for boots requiring fancy work.

Jury Trials Often Aggravate Cases Of Mental Illness

The constitutional amendment authorizing trials without the necessity of a jury in lunacy cases, to be submitted to the voters in November, has the full support of the Texas Junior Chamber of Commerce, it was announced in Dallas Saturday.

Jim Mahon, chairman of the Jaycee's Mental Health Committee, made the announcement after conferring with E. M. Kirkpatrick, Jr., of Baytown, president of the Texas Jaycees. Mahon said the committee "will work for the passage of the amendment with every facility at our command."

Texas is the only state in the Union which still requires mandatory jury trial in cases for the commitment of mental patients to state hospitals. Experts in the field of mental health regard the elimination of mandatory jury trial as the first step in placing proper emphasis on the medical nature of mental illness. These experts state that the present Texas jury trial system frequently aggravates illness, reducing the patient's chance for recovery.

Present practices with respect to "trial" of the mentally ill have been strongly criticized in that they cause an unwarranted stigma to attach to mental illness, thereby discouraging many persons from seeking hospitalization for themselves or members of their family until too late for effective treatment.

With the possible exception of Herbert Hoover, George Washington was the United States' wealthiest president.

Post Scouts And Cubs Joining In National Program

Post Boy Scouts, Senior Scouts and Cubs will join other Scouters of the nation in observing a National Roll Call, Inspection and Liberty Round-Up which is part of the two-year Scouting program "to strengthen the arm of Liberty."

Within the next two weeks, every Scout and Cub in the United States is to be inspected by a district commissioner or his representative. Post Boy Scout Troops 11 and 16 and Senior Outfit No. 11 were inspected last night by A. R. Milliken of Tahoka, district commissioner, at a meeting in the Troop 16 headquarters.

Members of the three Cub Dens will be inspected at the first monthly Pack meeting of the year, at 7:30 p. m. Thursday, Oct. 6, in the City Hall.

TROPHY ARRIVES

The 1948-49 District 4-A Baseball Trophy, which the Post Antelopes won last spring, was received at Post High School last weekend. It was brought here Friday by the Morton High School coach who came to scout the Seagraves football game. Morton has had the trophy since winning it the previous year.

S. E. Camp Named Garza Chairman In USO Campaign

S. E. Camp, commander of the local American Legion post, has been named Garza County chairman for the Texas USO Reactivation Campaign, Carl Roundtree of Lamesa, district chairman, has announced.

The quota for Garza County is \$472.50, which is this county's share of the \$500,000 goal for Texas.

Camp said "The cold war continues, and our people have called for a big Army, Navy and Air Force so that our country will be ready to meet any pressure from the enemy."

"We have 98,000 of our young men and women from Texas now in uniform, and Garza County has her share of these people who are in the service. It is up to us to show our gratitude and appreciation through our support of USO. This we can do because USO is on the scene to serve them whether they are stationed at some military establishment here in the United States or at an overseas outpost."

"We believe that unless we do assume this responsibility, that it is only natural that these young people will return home embittered because of the lack of interest on our part. Through USO we can provide them with wholesome religious and recreational facilities and, in so doing, we assure ourselves that they are meeting and mingling with the right type of people. We all know that there are those among us who advocate foreign ideologies and if we do not do something to keep our young men and women away from such people, they will fall prey to such false philosophies."

"USO provides the thousands of veterans in Army, Navy and Veterans hospitals with professional entertainment and the frequent reminder so important to their morale, that neither they nor their heroic deeds have been forgotten."

Planting Crops With Fertilizer Showing Results

J. W. McQuien at Verbena says "I think planting cover crops with fertilizer is a good thing for the soil." He is planting 45 acres of a rye and vetch mixture now. Where vetch was grown last year he had found quite a lot of seedling vetch plants that have come up this September. Many of these plants three and four inches tall have nitrogen fixing nodules on their roots, he says.

W. C. Quisenberry and Tommy Head at Grassburr are trying a practice that may prove its worth. These two Duck Creek conservation district cooperators took four discs off the district's grain fertilizer drill and planted land that is now growing cotton. The drill straddles four rows. These rows are planted with a negligible amount of damage to the cotton. Quisenberry made several acres plantings of each, sweetclover, alfalfa and a vetch-rye mixture. All are in growing cotton. Scattered sweetclover seedlings are coming up now. Tommy Head planted 25 acres of vetch-rye mixture in a cotton field.

Just across the road southeast of the Cross Roads school house, the Double U Company is making an interesting trial planting. Boy Hart of the company planted 200 acres of a mixture of vetch and rye this week. He inoculated the vetch seed with nitrogen fixing bacteria and fertilized the planting with 200 pounds of phosphate fertilizer per acre. This trial planting will be interesting to see if modern scientific land use and soil management practices can bring deep wind-blown soil back to economical production, soil conserva-

Baptist Revival To Begin Sunday For Eight Days

An eight-day revival meeting will begin Sunday at the First Baptist Church. The pastor, the Rev. T. M. Gillham, will do the preaching and the music will be under the direction of the Rev. Sheldon Russell of Tahoka. Services will be held each day at 7:30 a. m. and 7:30 p. m. The morning services will be held at this early hour so that business men and employees and school children can attend. A Sunday school goal of 375 has been adopted for next Sunday, and a Training Union attendance goal of 125 for the 6:30 hour has been set for Sunday night. The general public is cordially invited to attend each service, the Rev. Mr. Gillham announced.

State Leader To Help VFW Post In Local Activities

A good crowd of members of the local Veterans of Foreign Wars post met at the Algeria Hotel Wednesday night of last week with Jack Armstrong of Austin, who was representing the state VFW commander, Julian Dickinson of Austin. Armstrong was on a tour of VFW posts for the purpose of helping them perfect their organizations and improve their spheres of influence. He complimented the local post highly for its excellent bookkeeping and for the building which it recently acquired and had moved to property east of Post. He said the accomplishments here were good for a town this small. He presented a plan of increased activities, which the post will try to put into effect. Armstrong will return here soon to further assist the members. Mr. and Mrs. T. D. Scott spent Friday in Snyder. Mr. Scott transacted business and Mrs. Scott visited with her brother, V. A. Pierce.

Mrs. Jim Cloud of Lubbock is spending this week with her mother, Mrs. Vida Brant, and other relatives while Mr. Cloud is in Fort Worth on business.

Mrs. H. B. Conner of Graham is visiting in the home of her daughters, Mrs. Alice Parsons and Mrs. S. C. Storie. She has been spending the summer in Childress. Mrs. Storie went to Childress for her last Thursday.

A person really gets his money's worth in making a long distance call to Southland, as the Southland telephone operator can survey the town from the window above his switchboard. Yesterday the Post Dispatch was trying to call L. B. Hambricht, who operates the Southland (Cin. The operator, a man, said Mr. Hambricht wasn't at the gin, that he had just driven away but he would be glad to watch and see where he was going and get in touch with him when he stopped the car. The Post Dispatch reporter held the line, and in only a few minutes Mr. Hambricht was on the phone.

Mr. and Mrs. Percy Parsons attended the funeral of Mrs. Parsons' grandfather, Mr. Hennings, in Muleshoe yesterday. He died at the home of a daughter, Mrs. J. D. Aday Monday. Funeral services were held at the Baptist church in Muleshoe and burial was by the Lloyd Roberts Funeral Home.

Joy Thomas, baby daughter of Mr. and Mrs. R. M. Thomas of Grassland, put a baby walker through a hazardous test while visiting her cousin, Terry Power, in Post Monday and the experiment was a partial success. While some guests were departing from the Powers' upstairs apartment, Joy walked out on the stairway landing in the walker and attempted to go down a long stairway. The walker fell with her half way down the steps, then Joy fell out of the walker and rolled to the bottom step before she was rescued by her mother. She suffered a bump on her head and, at last report, was eager to try the experiment again.

Rural Roads Meet At Tahoka Well Attended Thursday

A good crowd attended a district meeting of the Texas Rural Roads Association in Tahoka last Thursday night, according to Mrs. W. C. W. Morris, local secretary for the Farm Bureau which is working closely with the association for passage of the McLennon Bill No. 59 which calls for the hard surfacing of all mail and school routes in the state from funds from natural resource taxes.

Mrs. Morris said the first speaker was Walter Foote of Petersburg, who has been a rural mail carrier for 19 years. He pointed out that the Rural Roads Association has the support of 28 other organizations in the road building project. Its success, he explained, depends upon the support of every business man, farmer and rancher in the state.

Foote introduced the next speaker, Colonel McGregor who served in World Wars I and II and is said to have been the first man to set foot on Nagasaki after the atomic bomb was dropped before the close of the last war.

Colonel McGregor said that a 10-cent tax per barrel on oil alone would bring \$60,000,000 to the state each year and that this sum would provide more than \$200,000 per year for roads in each county.

Pointing out the natural reserves that are being drained away from Texas, untaxed, each year, he asked: "Are we big-hearted Texans going to sit here and pay taxes on every little item that we buy and let our gas run through the big pipelines to the East Coast without a drop being taxed?"

Lynn County residents attending the meeting organized a county chapter of the association, in which membership is one dollar a person. Sixty-nine members were received. Directors are to be appointed by the County Commissioners.

Mrs. Morris said that a similar meeting will be held in Garza County in the near future. The date will be announced in the Post Dispatch.

LEGION CONVENTION

Commander S. E. Camp and several other members of the local American Legion post are planning to attend the 19th District American Legion convention in Brownfield this weekend. They and some of the wives will attend the dance Saturday night and the men will attend the convention sessions on Sunday.

Mrs. Ethel Ramsey of Gorman is visiting Mrs. J. H. Ramsey.

Eligible Voters To Name District S. C. Supervisor

All eligible voters are reminded to attend the mass meeting in the district court room at 7:30 o'clock Tuesday night to elect a district soil conservation supervisor.

Eligible voters are all land-owners and their wives who have reached the age of 21 years and whose property or any part of it is in the Duck Creek Soil Conservation District. The present supervisor is Will Wright, whose term is expiring. The man elected will be in charge of spending Garza County's share of the \$5,000,000 which the Texas legislature recently voted for soil conservation in the state. He will serve for five years.

Carl Periman of Amarillo is spending this week in the home of his sister, Mrs. Ott Nance, at Justiceburg.

J. M. Rankin Is Candidate For Education Post

J. M. Rankin of Crosby has announced his candidacy for this district's representative on the State Board of Education. Although he has never been associated in any way with the now extinct State Department of Education he has 10 years of experience in school administration. He has twin sons, who are medical students at Texas College in Lubbock.
