## Phil Trammell Funeral Held Here Sunday

Funeral services for Phil Trammell, 42, Brown Bros. et al Oil Co. electrician, who was accidentally electrocuted Friday morning, were conducted at 3:30 p. m. Sunday at the First Methodist Church.

The Revs. Charles R. Gates, First Methodist Church, Almon Martin, First Christian Church, and Gerald Blackburn, First Presbyterian Church, officiated. Burial was in Terrace Cemetery under the direction of the Hummer Funeral Home.

Pallbearers were Garland Davies, Charles Casey, Edsel Cross, Bailey Matsier, E. R. (Buster) Moreland, Oscar O'Neal, Ed Dye and Ralph Cockrell.

Members of the Post Lions Club, of which Trammell was a past president, and employees of Brown Bros. were honorary pallbearers. Troop 16 Boy Scouts sat in a body at the services.

Flower girls were Girl Scouts Barbara Haragan, Patricia Crowley, Mary Ann Bowen, Sharon Brooks, Marquisette Williams, Betty Mayes, Barbara Shytles, Linda Livingston, Patsy Rountree and Frances Dietrich.

Trammell, a resident of Post for the past six years, had been active in Cub work, having served as Cubmaster and in other capacities.

## Red Cross Budget Is Set At \$2,000

Garza County's 1955 American Red Cross budget was set at \$2,000—\$200 less than the 1954 budget—at a meeting here Tuesday afternoon of chapter officers and Miss Jean Fitzsimmons, field representative.

John N. Hopkins was elected 1955 drive chairman to replace O. C. Garner, who resigned. Mrs. Kenny Cash was elected public relations chairman.

Organization of a county disaster committee was suggested by Miss Fitzsimmons. The committee will be organized in the near future by John F. Lott, county disaster chairman for the Red Cross.

The \$200 reduction in the budget came at the local level, the \$900 budgeted for the county in 1954 being reduced to \$700 for 1955.

Guy Floyd is chairman of the county Red Cross chapter.

## Engineers Make Survey Of City's Water Requirements

Immediate and future expansion of the city's water supply to assure against a threatened shortage was discussed Thursday night at a meeting of the City Commission and City Planning Board.

As a result of the meeting, called by Tom Bouchier, planning board chairman, two engineers from H. N. Robertson Associates were here Monday making a survey of the needs of immediate expansion of the water supply area, as well as for a long range program.

The engineers' findings are to be reported at a meeting tentatively set for Oct. 3, Mayor T. L. Jones said Tuesday.

Immediate expansion of the supply area is expected to include westward extension from the present wells in the Close City community, about five miles west of town. The long-range program might take in a surface water supply, city officials said.

Figures were quoted at the commission - planning board meeting to show that the city faces an imminent water shortage if it must continue to depend on its present supply, furnished by 18 wells.

It was disclosed that during the past three years the water level has dropped as much as eight feet in both the old and newer city water wells. Increased consumption, which for three months this summer was practically double what it was in the summer of 1951, was given as the reason for the impending water shortage.

For the month of July, water consumption has increased from 15,254,000 gallons in 1951 to 33,530,000 gallons in 1954. Average daily water consumption in July of this year was 1,081,000 gallons, as compared with 492,064 in 1951, 577,226 in 1952, and 805,967 in 1953.

City officials estimate that average daily usage for July of 1955 will reach the 1,250,000-gallon mark.

The daily average for the months of June and August of this year was 922,033 and 909,548 gallons, respectively, more than for any other single month, with the exception of July, 1954.

Construction of a lake as a surface water supply in the proposed long-range program was discussed by the commission and planning board. Also discussed were the possibilities of the city.

## Date Set For First Concert; Four Offered

The Duggill International Concert Company will be heard here Friday night, Oct. 15, in the Garza Town Hall Concert Association's first presentation of the 1954-55 season, it was announced by Clint Herring, concert association president, following a meeting Tuesday night.

M. C. Turner, Jr., representing the Southern Town Hall Concert Association, attended the meeting and, together with officials of the local group, scheduled three other concerts for the coming season.

To be presented early in January is Anafu, said to be the only Eskimo woman on the American platform. A native of Baffin Land and author of "Land of the Good Shadows," she describes the way her people live and tells many amusing stories of the country.

Scheduled for presentation early in March are Hansen and DeDell, duo pianists, who will bring their own matched seven-foot Steinway grand pianos.

Another concert artist, who may be presented at any time during the season, is Josephine Antoine, leading lyric soprano of concert, opera, radio and television.

Herring said he and other concert association officials were well pleased with the four programs lined up for the coming season.

Meanwhile, season ticket sales are continuing this week.

## Shedd Funeral Is Held Wednesday

The Rev. Roy Shahan, pastor, and the Rev. Shelby Bishop, Calvary Baptist pastor, officiated for the funeral service of Alfred Thomas Shedd, Sr., yesterday afternoon in the First Baptist Church. A choir sang "Sunrise Tomorrow" and "Lily of the Valley," with accompaniment by Mrs. Ray N. Smith. Burial was in Terrace Cemetery under the direction of Mason Funeral Home.

Mr. Shedd, a Garza resident from 1929 until 1939, had made his home with a daughter, Mrs. Pauline McDade, at San Angelo for the past four years. He died of a heart attack early Tuesday while on a fishing trip near Aransas Pass. He was born June 16, 1878 in Oakalla.

Survivors are five sons, John W. and E. E. Shedd of Post, Noble F. Shedd of Phoenix, Ariz., James W. Shedd of Los Angeles, Calif., and A. T. Shedd, Jr., of Grants Pass, Ore.; three daughters, Mrs. Doyel Blacklock of Post, Mrs. Virgie Price of Los Angeles and Mrs. McDade; 21 grandchildren; nine great-grandchildren and a brother, George H. Shedd of Belton.

He was preceded in death by his wife and three daughters.

## County Is Waiting For Drouth Relief

Although repeated requests that Garza County be included in the emergency drouth relief program have been made by local Agricultural Stabilization and Conservation officials and county officials, the county still had not been included late Wednesday.

Last Friday, a group of county farmers and ranchers contacted Cong. George Mahon with the request that he do what he could to help get the county on the emergency feed program.

Mike E. Custer, county ASC office manager, said the county ASC committee requested last July that Garza County be included in the program. About the same time, County Judge Os-

## School Enrollment Increases To 939

With a gain of 11 by grade school and four in high school, student enrollment here was increased to 939 through Tuesday, school officials report.

At the end of school Tuesday, there were 584 enrolled in the grade school and 325 in the high school. Enrollment at the Negro school remained at 30.

The 939 total is slightly more than the number enrolled at the same time last year.

## Rotarians To Fete Teachers

Post Rotarians and Rotary Anns will be hosts at 7:30 p. m. Tuesday at an ice cream and cake supper for the city's school teachers and their husbands or wives.

The supper, an annual affair, will be held in the school cafeteria. A special Rotary Club committee is making arrangements for the get-together, including plans for a program.

The club will not hold its regular noon luncheon on Tuesday. At this week's luncheon, Mrs.

## 4-H Club, FFA Members Show Fair's Top Animals

Don Richardson and Delwin Fluitt, 4-H Club members, and Charles Crain and Bowen Stephens, Future Farmers of America members, showed grand champion animals here Saturday afternoon in the livestock division of the annual Garza County Fair.

Don, son of Mr. and Mrs. Floy Richardson, exhibited the grand champion steer, "Okie," a 900-pound Black Angus, raised by James Dillard of Langley, Okla.

The reserve champion was a 980-pound Hereford shown by young Crain.

Delwin and Bowen showed the grand champion gilt and barrow, respectively, in the fair's swine division. The reserve champion gilt, a Berkshire, was shown by Delwin Hodges, 4-H, and the reserve champion barrow by Gary Welch, FFA.

Young Richardson's grand champion steer was the only milk-fed entry. Other entries were in heavy and medium classes.

Following are winners in the gilt class: Fluitt, first; Jerry Stone, second; Jerry Ligon, third; Joel Morris, fourth; Pat Wheatley, fifth; Auvy McBride, sixth.

Hodges' gilt was the only Berkshire entered. James Williams' animal won second in the barrow class, in which Stephens also placed third.

Showing medium weight steers judged prime were: Dean Huddleston, Carol Davis and Don Richardson, all 4-H Club members. Choice animals in this class were exhibited by Leo Wayne Sullenger, FFA; Jackie Carpenter, FFA; Harry Smith, FFA; Lonnie Peed, 4-H, and James Barron, FFA.

In the heavy weight class, prime steers were shown by Crain and Tommy Young, 4-H, and choice steers by Gary Welch.

### Thursday to Thursday

By CHARLES DIDWAY

IF THE HEAT'S BEEN getting you down and you feel like the last rose of summer, cheer up!—Tuesday was the first day of fall.

CHESTS ARE IN THE news here, and it isn't because of Dior's flat look. Plans are in the making for another mass chest x-ray survey in Garza County, and directors of the Post Chamber of Commerce are working on plans for a Community Chest program.

WE HOPE WE'RE ALL rested up by the time this appears in print, but as it is being written, we're pooped. Another Garza County Fair has gone into the record books, and we've succeeded in compiling for publication the results of the judging, but at what a price!

ALTHOUGH IT WASN'T AN easy task at the best, our work was made less difficult by the cooperation of the various department heads and other fair officials. We especially wish to thank Mrs. Lonnie Peel, Mrs. Glenn Davis, Mrs. Henry Wheatley, Miss Jessie Pearce, Mrs. Hardie Smith, Lewis C. Herron, E. F. Schmedt and Clarky Cowdry.

GETTING BACK TO THE heat, it was something terrific during the livestock judging early Saturday afternoon—much too warm for such an event. The club boys had a time with their pigs and steers, and at one point during the pig judging, the show ring was a bedlam. One youngster was bumped by a couple of brawling pigs and knocked head-over-heels over the knee-high hog wire surrounding the ring.

THE NEAREST THING to a casualty, however, was when Delwin Fluitt's grand champion gilt almost succumbed from the heat and excitement after being steered back into her pen following the judging. Delwin was really worried for awhile over the condition of his champion, but, following the advice of Herron and Schmedt, cooled and quieted her down, and soon had her back to her old prize-winning self.

THE ONLY TWO GIRLS competing in the open division of the fair's youth department were blue ribbon winners. Elisabeth Tubbs, nine-year-old daughter of Dr. and Mrs. Harry A. Tubbs, won first with her yeast bread entry, and Linda Lott, 14-year-old daughter of Mr. and Mrs. John F. Lott, was a blue ribbon winner with her oil painting.

THE UNTIMELY DEATH Friday of Phil Trammell came as a shock to residents of a community in which he had devoted much of his time to work with young people, who loved and respected him for his interest in their welfare. Phil was one of the first men we met after coming to Post, and our first association with him was in connection with Cub Scout affairs. We wanted a story on a banquet the Cubs had held and someone referred us to Phil.

HE WAS ALSO AN active member of the Lions Club, having served as president of the organization for most of the 1953-54 club year. He was always ready to help on any community project when called upon, and he was called upon often. We join the rest of those who knew Phil Trammell in extending sym-

## Insurance Is Form Of Christianity In Which Every Church Member Should Join

NEW BOSTON, N. H.—I believe in insurance—fire, life, and casualty—yes, and I include hurricane, accident, and sickness insurance. I especially like the Blue Cross and Blue Shield. Everyone should subscribe to these.

### Practice Christianity

Apart from being a business, insurance is also a form of good sound Christianity in which every church member should enthusiastically join. Insurance is really all of us contributing to help ourselves and others who are in trouble. Instead of waiting for fire, death, or accident, and then "passing the hat," insurance companies collect the money first. To interest people in taking out insurance consumes time and costs the insurance companies much money; also, bookkeeping and other expenses are high. But in a free nation I see no way of avoiding this expense. Even compulsory insurance costs something to "service," and it is very easy for politics and even corruption to creep in. Therefore, I believe the present plan is best.

### Buy Enough Different Kinds of Insurance

A week or two ago, Greater Boston and Eastern New England were swept by a hurricane. Within about one hour, \$100,000,000 of property values was wiped out. A portion of this—such as beautiful trees—can be insured only at very high premium rates, but damage to buildings, life, etc. can be protected at reasonable insurance costs. (Incidentally, uninsured loss of trees can be deducted from your income tax.)

Since this hurricane I learn that very few people carry hurricane insurance. In fact, most people do not know what their insurance covers. For instance, manufacturers insure their F. O. B. goods until delivered to the merchant's nearest railroad station. The merchant insures these goods after they arrive at his store; but very few carry policies which protect the goods while being trucked between station and store. Be sure you have the right insurance, and enough of it.

### Read Your Policies

Whether you are a manufacturer, or a storekeeper, or a humble citizen, you should read your policies. Get them all out tonight and read them. Anything not plainly covered will not be covered. Especially read what is in fine print. This advice strongly applies to accident and health insurance sold at low rates. An executor may try to collect on a \$10,000 accident policy and find that the accident must be in a train wreck—in order to collect. In fact, one company which sells accident insurance at very low rates insists you must be seated in a train when killed in order for your executors to collect.

### IT'S A GOOD THING . . .

The Community Chest organization being planned for Post by directors of the Chamber of Commerce stands a good chance of being the answer to mounting criticism against the ever-increasing number of fund-raising campaigns.

Community Chests have succeeded in most communities, but in some they have failed. From the standpoint of practicality, they're the best method hit upon to coordinate all, or as many as possible, of the community's fund-raising drives into one big campaign. It's hard to see, therefore why Community Chest programs have failed in a few communities, but there's no arguing against the fact that they have. Perhaps these failures came about from flaws in organization or administration, or from a lack of cooperation on the parts of businessmen and the general public, or from a combination of both.

A Community Chest is such a huge undertaking and such a worthwhile one that it stands to reason that all proper preparations should be made to insure its success. There is no reason to believe that the Chamber of Commerce is not making these preparations down to the last detail. Once they are made and carried out, then organization and administration is, to a great extent, taken care of. All that will remain then to make the Community Chest a distinct asset to the community will be as near 100 per cent cooperation as possible on the part of the public.

You can't spend more than you have and remain solvent. The longer such a system is followed, the more impossible it becomes to keep afloat. Know anyone who trades in a mortgaged car on a new one and has both a newer car and a bigger mortgage? The woods are full of such people. It is bad economics. It's somewhat like drug addiction. This applies equally to a person, a business, or a government.—Windom, Minn., Reporter.

pathy to the bereaved family. He was one of those men who leave behind them, as an everlasting monument, the good things they have implanted in the hearts and minds of the young.

WELL, ANOTHER BASEBALL season is nearing an end, and it'll be the Cleveland Indians and the New York Giants in the World's Series. With the football season overlapping the baseball wind-up, there's always a dwindling of interest in the major league races during the last few weeks of the campaign, but the World's Series can always be counted on to revive it.

TECH'S RED RAIDERS are off to a flying start following their one-sided win Saturday night over a disorganized Texas Aggie eleven. With the possible exception of the Oklahoma Aggies and Louisiana State Tigers, the Texas Aggies loomed as the biggest stumbling block in the Raiders' bid for an undefeated season.

GOING INTO FRIDAY night's Hamlin game here, the Post Antelopes are undefeated. With none of the District 3-AA teams showing too much class, we think the Antelopes have a good chance to win the conference title, and might even go through the season undefeated. A little encouragement won't hurt, so let's all turn out for Friday night's game—it'll be the next to the last home stand for the Antelopes.

## Insurance Is Form Of Christianity In Which Every Church Member Should Join

In fact, one company which sells accident insurance at very low rates insists you must be seated in a train when killed in order for your executors to collect.

Sickness insurance should be checked. A long list of diseases of which you have never heard are mentioned, but you may find no mention of heart disease, cancer, or some very common causes of death. I forecast that the time is coming when these accident and sickness policies will be compelled by law to state in large type what they DO NOT cover. In the meantime I beg that all my friends read their policies. If these policies do not cover every reasonable hazard which you can think of, get covered. For instance, if your wife should put a person's eye out with an open umbrella, are you insured against its costing you \$25,000?

### Get Letter From Your Agent

Your insurance agent wants to be one of your best friends. He is truly interested in your welfare. Tell him you want everything covered and get a letter from him stating that everything, unless he mentions it in this letter to you, is covered. One other thought. In most states only perfectly sound insurance companies are allowed by law to operate; but this is not true in all states. Furthermore, some unscrupulous companies get around the law by operating by mail from a careless state.

You cannot be expected to study the financial strength of each company; but you can insist upon selecting only well-known companies which have been in business a long time. Any company which has advertised consistently in your local paper should be safe. This is a good test, especially if the advertisement reads that the company has been approved by the Insurance Commissions of all the leading states.

## Getting Out On The Limb

by EDDIE the editor

**SUDDEN THOUGHT:** The same jolting that shakes the little rocks to the bottom brings the big ones to the top.

The happiest people are those who are too busy to stop and wonder whether they are or not.

Father to small son: "Never mind how I first met your mother—just don't go around whistling!"

**JUST FOR A** change, perhaps it is a good idea to point out some of the good things that are true, but which don't make the headlines.

The suggestion interested the editor of the "Lions News" in Atlanta, Ga., to such an extent that he included a summary of things that might make people a little bit happier if they knew about them.

In the cause of cheerfulness, these are passed along to others:

"The daily news is filled with headlines about casualties, divorces, murders, strikes, as we all know. Is it any wonder that a man is afflicted with heart trouble, insomnia and ulcers?" "Just came across some figures that gave a different, healthy slant on things—33,000,000 couples won't get divorced next year; 87,000,000 people will drive 350,000,000 miles without being killed; 21,000,000 teen-agers won't land in a juvenile court; 14,000,000 passengers won't be killed in airplane accidents; and each day there will be 14,800,000 organized workers at work.

"Don't you feel better already?"

The optimist looks upon life as an unexpected dividend; the pessimist, as a note coming due.

**COURTSHIP**—The short interlude between lipstick and moustick.

A man's body is remarkably sensitive . . . pat him on the back and his head swells.

**IN A RECENT** issue of the Hamlin Herald, we came across this item about a former Post boy:

Gayle Bowen, music and educational director at the First Baptist Church, is reported to have been seeking recruits for his choir Sunday.

As an apparent stranger to the new music director was loitering in the back vestibule of the church just before the evening preaching service began, Bowen asked the fellow:

"Are you going to sing with us this evening?"

"Man," the fellow replied, "the only note I know is at the bank, and they keep asking me to pay that."

The man who hoarded his money used to be known as a miser. Now he's a wizard.

One thing about middle age, you don't get tired during the day—you start tired.

Things that begin at 40: Life, lumbago, bifocals, stomach disorders and an inclination to tell the same old stories, over and over.

**GOOD FOR GARZA** County! Not a Garza County man is included on a list of 85 men Local Draft Board No. 88 says it is going to turn over to the federal district attorney for prosecution, if they do not respond to official draft board communications.

"For too long a period we have carried a list of men who cannot be located," Chester A. Hubbard, local board chairman, informed this newspaper. "I have been the policy of the local board not to declare these men delinquent until all efforts possible have been made to locate them."

"But," Mr. Hubbard continued, "the patience of the board is at an end. Federal law requires these men to keep the board informed as to their current address. They have not done so, or they do not reply to official communications."

Local Board 88 has jurisdiction over the four-county area of Lubbock, Crosby, Garza and Lynn.

**THE WOMEN, GOD LOVE 'EM:** Fashion is what a her does to a hen to get a him.

**AS A MEMBER** of the City Planning Board, I sat in on a meeting Thursday night with the City Commission in regard to the City's water problems. Accounts of the meeting and later developments will be found elsewhere in this week's Dispatch, but I want to pass along a few figures furnished the group on water pumped for the City of Post from January, 1951, through August, 1954.

The driest month, from the standpoint of water used, was July of this year, when 33,530,000 gallons were pumped. That gave the month a daily average of 1,081,000 gallons—far and away the highest in the city's history.

## Our Contemporaries Are Saying

**You Can't Beat It!** A gourdful of cold clabbered milk probably has little sales appeal but the entire beverage industry hasn't produced its equal in satisfaction.—Matador Tribune.

**Hunters, Too** Ask John Reese to tell you that wild yarn of his about a dove landing on the end of his gun barrel. He swears it is true. Just to make his story sound more plausible, he recounts a hunting incident of a friend wherein a bear bit the end of the gun barrel. All I can say is, fishermen don't tell all the tall tales.—Stamford American.

**Don't Stop Treatment** The Stamford boy who was dating the Hamlin girl really had his hands full the other night. Witness . . .

"Let me kiss those tears away, sweetheart," the ardent lover begged. She fell into his arms and he was very busy for a few moments, but the tears flowed on.

"Will nothing stop them?" he asked breathlessly.

"No," she murmured, "it's hay fever, but go on with the treatment."—The Hamlin Herald.

**What Is Tolerance?** The most lovable quality that any human can possess is tolerance. Tolerance is the vision that enables us to see things from another person's point of view. It is the generosity that concedes to others the right to their own opinions and their own peculiarities. It's the bigness that enables us to let people be happy in their own way instead of our way.—The Liberty Vindicator.

**In The Dark** A fellow trying to run his business without advertising is just about like a feller that winks at the gal in the dark—he might know what he is doing, but so one else does.—The Comanche Chief.

**You Have To Be Tops** You have to be tops to get a niche in the Hall of Fame. Sec. and places are not good enough. Consider the case of Methuse.

The month in which the least amount of water was used was November, 1951, when 11,234,600 gallons were pumped for a 374,466 gallon daily average.

More than twice as much water flowed through the city pumps in July of 1954 as in the same month of 1951.

The staggering total for the three years and eight months included in the report is 742,981,000 gallons. That's a monthly average of 16,896,000 gallons for the 44 months, and a daily average of 554,880 gallons.

lah's grandfather, Jared. He lived to be 962 years old—just seven years less than his famous grandson. However, it wasn't good enough. He remains to this day unknown, unhonored and unsung.—The Hamilton Herald-News.

**Dad's To Blame** A youngster, being scolded for a poor report card, asked: "Dad, what do you think is the trouble with me—heredity or environment?"—The Crosbyton Review.

**A Slight Difference** Several of the school children have been in the office lately asking for "vanilla folders." We haven't that flavor, but they have seemed reasonably well satisfied with a time-proven substitute—manila folders.—The Slaton Slatonite.

## Mother Goose In Texas

By RAY WOOD

As I went down to Silver Lake I met a little rattlesnake; He et so much jelly cake It made his little belly ache.

Mother Goose went with the early pioneers and their offspring into the hills and valleys, the river towns, the farmsteads and ranches as they spread over the country, and she found subjects for child rhymes in endless variety. Many of these rhymes are far more amusing and interesting than those adapted from the Classic Mother Goose. Almost every critter known to the kids of pioneer days became a subject for child rhymes. Even the rattlesnake.

Along with the snake, the bullfrog, was a common subject for pioneer children. Here is a sample:

Snake baked a hoe cake  
Set the frog to mind it;  
Frog fell to nodding,  
And the lizard come and find it.

Even the lowly June-bug (more often "umble-bug" in American vernacular) found his way into child lore and into folksong as well:

Possam up a gum stump,  
Cooie in the boiler,  
Wake, snake! June-bug  
Stole a half a dollar!

Next Week: "Doodle Bugs." Variants of these or other rhymes will be recorded in the permanent collection of Mother Goose in Texas if addressed to Ray Wood at Raywood, Texas. Copyright 1954, by Ray Wood.

VA Questions And Answers

Q. I was seriously disabled in a train wreck while traveling under orders, to an induction center. Even though I never entered military service, would I still be entitled to VA compensation payments for my disability?

A. Yes. Under a recent law, your disability is considered to have occurred in active military service, provided it was not the result of your own misconduct.

Q. Since I am rated as 60 per cent disabled, I am receiving extra compensation pay because I have a family. I understand that my basic compensation check will go up five per cent as of Oct. 1. Will the extra pay for my family also increase on that date?

A. No. The law did not provide for a five per cent increase in the extra payments made to veterans for dependents. Only your basic compensation will be increased.

Q. I expect to get out of service within the next few weeks. What is my deadline for starting Korean GI Bill training?

A. Your deadline for starting Korean GI training will be three years from the date of your separation from the armed forces.

Q. Is it necessary to apply for the five per cent increase in compensation payments, recently voted by Congress?

A. No. The five per cent increase will be made automatically. It will be included in checks mailed at the end of October.

Post Men Training At Lackland AFB

Two Post High School graduates, Robert Y. (Pete) Hays, 19, and Donald L. Moore, 18, are completing their Air Force basic military training course at Lackland Air Force Base, the "Gateway to the Air Force."

Lackland, situated near San Antonio, is the site of Air Force basic military training for men and women, headquarters of the Human Resource Research Center, and home of the USAF Officer Military School.

The Post men's basic military training is preparing them for entrance into Air Force technical training and for assignment in specialized work. The course includes a scientific evaluation of their aptitude and inclination for following a particular vocation and career.

Hays, a 1952 graduate of Post High School, is the son of Mr. and Mrs. Jim Hays Moore, who graduated here last spring, is the son of Mr. and Mrs. R. A. Moore.

Willa Faye Graves Wins FHA Rosette

Willa Faye Graves won the sweepstakes rosette in the Future Homemakers of America division of the Garza County Fair held here Friday and Saturday. Miss Graves won five firsts, three seconds, two thirds and two fourths to capture high point honors.

Class winners in the FHA division were: Onella Shedd, crafts; Miss Graves, needlework; Janie Gossett, culinary, and Orabeth Maxey, Barbara Wheatley and Louise Gerner, tied for first in the clothing class.

**Loans For Water Facilities Are To Be Insured By Government**

**COLLEGE STATION (Sp.)**—Where insured loans from private sources are not available for approved projects, some direct government loans will be made.

Interest rates for insured loans from private sources will be four per cent a year on the unpaid principal, plus an annual loan insurance of one per cent. Direct loan interest will be five per cent.

Loans can be used, under the amendment, to pay costs of materials, equipment and services directly related to the application or establishment of soil and water conservation practices, water facilities or drainage. This may include such things as construction or repair of terraces, dikes and ponds, pasture improvement, basic application of lime and fertilizers, and tree planting. Water facilities that can be financed with these loans include tanks, silters, well pumping and irrigation equipment and similar facilities.

Eligibility for loans under this new legislation will be passed upon by the local three member county committee of the FHA. Loans will be made only for the types of soil and water conservation practices recommended by the Extension Service, Soil Conservation Service and other agricultural agencies. No loans can be made for annually recurring costs that generally are considered as farm operating costs.

**'Fair A Success,' Sponsors Report**

The annual Garza County Fair held here Friday and Saturday was reported a success Tuesday evening at a regular meeting of the Post Lions Club, sponsoring organization.

Fair committee reports, while incomplete, indicated that this year's fair was more successful from every standpoint than the 1953 event—the first one sponsored by the club.

The Lions expressed their appreciation for the assistance of non-club members in staging the fair.

Following opening of the meeting by President Jess Rogers, the Lions stood in silent meditation in respect to the late Phil Trammell, who was a member of the club and then were led in prayer by Alton Martin.

Plans for a pancake supper were discussed.

The only visitor was Clyde Minshew of Lubbock.

## Church News

The Wesleyan Service Guild met Monday evening in the home of Mrs. Charles Gates with Mrs. C. R. Smiley, president, conducting the business session. She also gave a report on her recent trip to Ceta Glen Wesleyan Camp. Miss Jessie Pearce was in charge of the program on "The City." She was assisted by Mrs. Lewis Herron, Mrs. Malcolm Bull, Miss Theima Clark and Mrs. W. L. Welborn. Others present were Mrs. Luther Bilberry and Mrs. Tol Thomas.

Report from Roy Shahan, pastor of the First Baptist Church: "Sunday is promotion day in our church. Pupils in school look forward to promotion and this indicates progress and it is a distinct disappointment when a child falls in school. Everyone enrolled in our Sunday School is urged to be present this important day. 'An Old Testament Example of New Testament Stewardship' (Exodus 25:1-9) is the sermon topic for Sunday morning. The evening subject will be 'The Sabbath and Sanctuary as Basic Elements in Christian Progress' (Exodus 31:12-18)."

Mrs. J. E. Parker was hostess for the WSCS meeting Monday afternoon. Mrs. J. R. Durrett, vice-president, presided. Mrs. Ellis Mills began the new study on "Man and God in the City."

Tom Williams, First Baptist Training Union director, reported that 23 members of the First Baptist Union plan to attend the State Training Union planning program in Amarillo tomorrow. They are the Rev. and Mrs. Roy Shahan, Mr. and Mrs. Everett Windham, Miss Louella Eades, Buster Moreland, Mrs. Charlie Baker, Mrs. Henry Bilberry, Mrs. Walter Johnson, William Robinson, Mrs. Loyd Edwards, Mrs. L. G. Thuet, Jr., Robert Baker, Mrs. Winnie Henderson, Mrs. Tom Williams, Mr. and Mrs. T. F. Davis, Mrs. E. S. Stewart, Mrs. Glenn Norman, Mrs. E. C. Haragan, Mrs. Guy Floyd, Miss Agnes Windham and Miss Helen Marie Williams.

Don Gates, Patsy Rountree, Kenneth Mills, Linda Livingston and Mrs. Charles Gates attended a sub-district MYF meeting at Overton Methodist Church in Lubbock Tuesday night. It was a workshop for the Christian witness and faith leaders over the area. Don is chairman of Christian witness in the local church and Patsy is chairman of faith.

Calvary Baptist revival closed Sunday night with 21 additions to the church, with five for Baptism. The Rev. J. T. Campbell of Shallowater conducted the services.

The Rev. J. F. Chatham, pastor of the Church of God of Prophecy, his wife, Mrs. Alice Byrd and Mr. and Mrs. Vernon Nesmith and daughter recently attended the World Wide General Assembly of the Church of God of Prophecy in Cleveland, Tenn. They also visited the "Field of the Woods" in North Carolina. Mrs. Chatham went to Iowa to visit a son and daughter before returning home and the others arrived home last week.

Messengers from Calvary Baptist Church who attended the Lubbock Baptist Association meeting at Trinity Baptist Church Tuesday were the Rev. and Mrs. Shelby Bishop, Mrs. Albert Odum and Mrs. Bud Odum.

### Beef, Cheese Take Food Spotlight

COLLEGE STATION (Sp.) — Beef and cheese take the spotlight on the U. S. Department of Agriculture's October plentiful foods list.

Here's why, says USDA. Cattle slaughter is running ahead of last year's all time high and stocks of cheddar cheese are the largest in history.

With supplies of these two essential commodities so large, prices should be attractive enough to push consumption to the highest peaks every reached, believes John J. Slaughter of the Agricultural Marketing Service.

Stocks of many foods which were heavy a month ago have

### From where I sit... by Joe Marsh

### Slugger Wins the "Home" Game

Slugger White, the home town's star hitter, dropped by the other day to talk baseball, and to "tell one" on himself.

Seems Slugger had been baby-sitting. "I was doing just fine," he said, "until it was time for a 'change.' I called Mom for advice. Still didn't get it right. Then Dad set me straight."

"Place the diaper like a baseball diamond with you at bat," he said. "Fold second base over home plate, and pin first and third base on home plate." That did it—with no errors!

From where I sit, Slugger's Dad had the idea. Often, like his Mom, a lot of us tend to give advice in our terms without considering the other fellow's way of doing things. Even in choosing your favorite beverage, it's best to think of your neighbor. If you like tea, and I prefer a temperate glass of beer, we should both "play the game" and try to understand each other's point of view.

SOUTHWESTERN PUBLIC SERVICE COMPANY

The homemaker who wants to "do" her daily tasks, such as cooking and clothes washing and drying, rather than having the tasks done for her, wants to use automatic electric appliances. See your Reddy Kilowatt Dealer now and find the electric appliance that will bring you homemaker's freedom.

"I am a graduate home economist as well as a busy homemaker, and I really appreciate the value of electric appliances in saving time with everyday homemaking. I have owned my electric clothes dryer just a few months, but I've had time to appreciate the freedom which it gives me to enjoy my home and my family."

"I love to cook, and I love electric cooking when we have our new home. We do a lot of entertaining, and I chose the new separate oven in order to bake and broil at the same time for my guests."

"My washer and dryer give me more time for preparing food and the other things I enjoy doing. Convenience and time-saving—just naturally follow when you use electric appliances."

"My laundry is so soft, even better than when drying in the sun. I also enjoy my dryer after the children have gone to bed. Electric service lets me do my laundry at any time, day or night."

**Funeral Held—**

(Continued From Front Page)  
 He was employed by Southwestern Public Service Co. here until accepting a position with the oil company last November. Trammell apparently was killed instantly when he came in contact with a transformer ground wire and barbed wire fence at the same time while looking for trouble which had caused a power failure at a company well one-half mile west of Post.

Paul Simpson, oil field trucker, said he was standing about 20 feet from Trammell at the time of the accident, and was preparing a headline for the electrician to use in climbing the pole to the transformer. Simpson said he heard a sizzling sound and turned around as the arc of electricity knocked Trammell to the ground.

Simpson applied artificial respiration to Trammell and his calls for help brought Mrs. Bernice Jones from her home about fifty yards away. She called an ambulance, which brought Trammell to the hospital here.

The Post Volunteer Fire Department's respirator was used in an attempt to revive Trammell. A member of the hospital's medical staff later expressed appreciation to the fire department for its promptness in answering a call for the equipment.

Trammell, who served as president of the Lions Club during the 1953-54 club year, had served with John Perry as chairman of the wiring committee for the Garza County Fair, which is sponsored by the Lions. The night before the accident, Trammell had assisted in operation of Lions concession stands at the fair.

Trammell is survived by his wife, Mrs. Katherine Trammell; two daughters, Mrs. Allyn Kemp and Lucy Ann Trammell; a son, Joe Bob, and his step-father and mother, the Rev. and Mrs. J. E. Stephens, all of Post.

 obtaining water from Lake Thompson, 38 miles southeast of Post, near Snyder.

Since construction of the city's own surface water supply would entail at least a five-year project, it was pointed out that extension of the present underground water supply area is the only immediate solution to the water shortage problem. It was also brought out at the meeting that such an extension, if large enough in scope, might be a permanent solution to the water problem, making a surface supply unnecessary.

Present at Thursday night's meeting were Mayor Jones, City Commissioners E. S. Stewart and Roy Baker, Joe S. Moss, attorney for the city, and planning board members Bouchier, Dr. A. C. Surman, Marshall Mason, E. A. Warren and R. J. Jennings.

 1/2 lb. ground lean beef  
 2 tablespoons finely cut onion  
 2 tablespoons fat  
 cut green pepper  
 1 teaspoon salt  
 few grains pepper  
 1/2 tablespoon mixed herbs or margarine

Cut a thin slice from tops of buns. Put out centers of buns, being careful not to break crust. Break centers into crumbs. There should be 1 cup. Mix crumbs in a bowl with beaten egg and milk. Let stand 5 minutes. Add beef, onion, green pepper, salt and pepper. Mix well. Fill hollowed out buns with meat mixture. Replace tops. Brush with butter. Put on greased cooky pan. Bake on oven rack slightly above center 30 minutes, or until buns are brown and toasted. Serve hot with catsup or chili sauce, if desired. Makes 6 sandwiches.

# Post, Hamlin Play Here Friday

Antelopes, undefeated in games, play the Hamline Pipers of District 4-AA tonight at Antelope Stadium.

Sixteen of the Pipers' squadmen are lettermen, six of them regulars from the 1953 season. Hamlin opened their season by losing to the strong Winters Blizzards, 27 to 0, then dropped their second game to the Haskell Bulldogs, 14 to 0. They operate from conventional T and single wing formations.

In last Friday night's 33-6 victory over O'Donnell, the Antelopes played minus the services of Novis Pennell, center, and Bowen Stephens, guard. Stephens, who was out because of a dislocated vertebra, is expected to be back in shape for the Hamlin game, but it will be at least another week before Pennell will be ready to go, Bingham said. He received two broken ribs in the Morton game here Sept. 10.

The Antelopes' probable starting line-up for Friday's game follows:

### 7th, 8th Graders Beat Ralls, 13-0

Coach Herman F. Raphael's 7th and 8th grade football team got off to a good start at Ralls last Thursday evening by downing that school's 7th and 8th grade team, 13 to 0.

The Post team's first touchdown followed a 60-yard drive, with Quarterback Sidney Hart and Backs Herbie Hays, Kenneth Williams, Jerry Windham and Charles Morris lugging the leather. Morris scored on an 11-yard end run, but failed in a try to run over the extra point.

The junior Antelopes scored again before the end of the first half when Windham took a pitchout from Hart and went 15 yards for the touchdown. He also ran across the extra point.

The second half was scoreless, with good line play on the part of the Post team staving off several Ralls scoring threats.

The sweeping end runs of Morris featured the Post attack.

The 7th and 8th grade team plays Slaton here on Sept. 30.

### 'B,' Grade School Schedules Listed

Olin Reddell, "B" team coach, and Herman F. Raphael, 7th and 8th grade coach, have announced the following schedule for the remainder of the season:

Sept. 23—Wilson there; "B" team.

Sept. 30—Slaton here; "B" and 7th and 8th.

Oct. 5—Slaton there; "B" and 7th and 8th.

Oct. 12—Tahoka there; "B" and 7th and 8th.

Oct. 14—Cooper here; "B" team.

Oct. 19—Tahoka here; "B" and 7th and 8th.

Oct. 21—Crosbyton there; "B" and 7th and 8th.

Oct. 28—Spur there; "B" and 7th and 8th.

Nov. 9—Spur here; "B" and 7th and 8th.

The Ralls "B" and 7th and 8th grade teams are to play here on a date yet to be set, the coaches said.

and goes 87 yards for the Antelopes' third touchdown. Murray's kick is wide and the Post lead mounts to 19-0.

O'Donnell receives and Murray's kick is returned 18 yards to the 33. Sanders gets 2 at the line, Meeks tackling, and Schmidt and Beggs stop another try after a 3-yard gain. Another center plunge goes for 2. Davis stopping, and Norman takes Barton's punt on his 29, getting back upfield 6 yards to the 35.

Graham gets 6 through the right side of the line and 3 more at the other side. He carries again, this time on a quarterback sneak, for 2 yards and a first down on the Post 46.

Graham's jump pass to Terry is no good. Graham goes back to pass, turns it into a run and gets to the O'Donnell 45, a 9-yard gain. Graham is stopped for a 5-yard loss on a keeper, and Norman's punt rolls dead on the O'Donnell 22.

On the first play, Tatum re-

over on their 18.

Murray gains 11 yards and a first down on two runs, and then takes a handoff and gets 5 more to the Post 34. He plows center for another 5 and a first down on the 39.

Gary gets only a yard at center, and O'Donnell declines an offside penalty against the Antelopes. Gary loses one after taking a handoff, and Murray's pass is too long for Tatum. Murray's pass is returned 21 yards to the Post 49, Beggs tackling, as the first quarter ends.

Second Quarter

Mott is hauled in by Cato after a 4-yard gain, but the play is called back and O'Donnell penalized 5. Mott gains 8 on a pitchout, Norman tackling. Davis stops drive at center after a 4-yard pickup, and Schmidt kicks next try for no gain. Gates get runner after yard pickup and the ball goes to Post on downs on their 41.

Tatum takes Murray's pass on the O'Donnell 45, but can't hold onto the ball. Norman takes lateral from Murray and gains 8. Murray's quarterback sneak fails to gain, and another fails short by inches of making necessary yardage. O'Donnell taking over on the 50.

Lose Ball on Fumble

Gates recovers O'Donnell fumble squarely on midfield stripe. Gary loses 2 yards on a pitchout, and Murray's long pass is barely over Norman's fingertips. Terry takes a pass from Murray for a 6-yard gain to the 44. Gates takes pitchout from Murray, sidesteps beautifully, gets good blocking and goes all the way for touchdown. Murray's kick is wide, and the Antelopes lead, 6-0.

The Eagles receive and Norman's kick is returned 14 yards to the O'Donnell 39, where Beggs and Schmidt make the tackle. Barton, back to pass, is smeared by Gates for a 7-yard loss. McLaurin takes Barton's pass to the Post 31 for a first down.

O'Donnell Drives

Meeks stops Barton after a 2-yard gain at center, and Cato stops runner after 6-yard gain. A jump pass fails to connect, but a center plunge gains to the 20 for an Eagle first down.

Sanders gets 5 yards at center, then 8 more, but the Eagles draw a 5-yard penalty for backfield in motion. Smith gets Mott for a 2-yard loss at end, and Gates bats down a pass over the line.

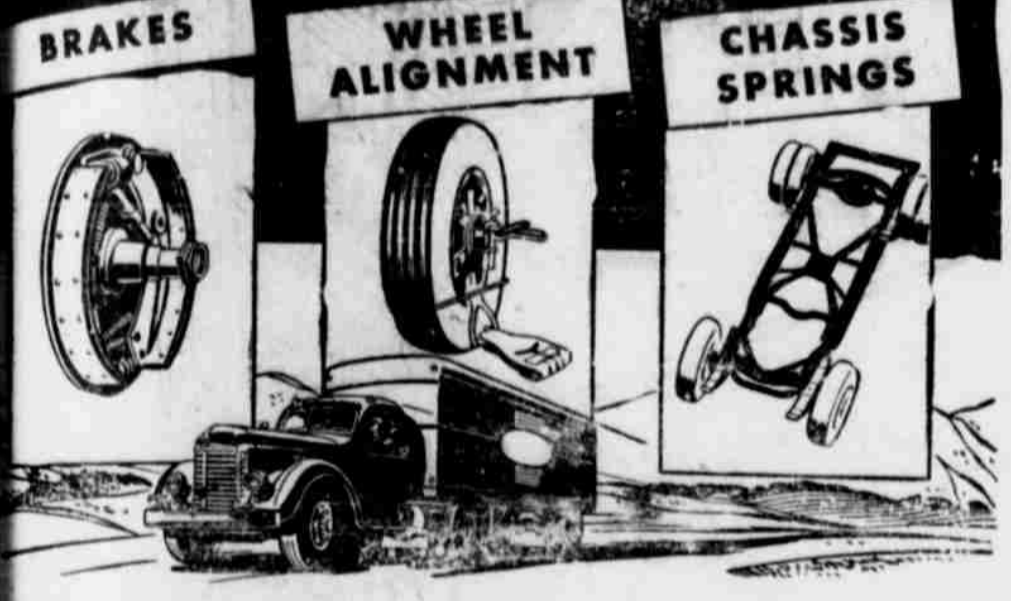

Kennedy intercepts Barton's fourth down pass on the 17 and goes 83 yards for a touchdown. Murray's kick splits the uprights and Post leads, 13-0.

Norman kicks off and the ball is returned 12 yards to the O'Donnell 40 as the first half ends.

Third Quarter

Norman takes the O'Donnell kickoff on the 13, bursts through a clump of would-be tacklers

### Antelope 'B' Team Plays Wilson '11' There Tonight; Win Over Ralls, 19-14

Coach Olin Reddell's Post Antelope "B" team, which opened its season with a 19-14 victory at Ralls last Thursday night, plays the Wilson Mustangs at Wilson tonight.

The strong Class B Wilson eleven lost to Seagraves, 13-7, in its first game, then bounced back Friday to defeat Petersburg, 19-13.

In their victory over Ralls, the Antelope reserves got off to a slow start, with Ralls scoring a touchdown and running over the extra point in the opening minutes of play.

Ralls got the ball on Post's 15 when a bad snapback got away from George Graham, who was back to punt. The Ralls scoring play came on a seven-yard end run.

The Antelopes got back in the game a few plays later when a Ralls back fumbled behind his goal line and Quarterback James Williams recovered for a Post touchdown. James Brewer's kick for point was blocked to leave Ralls with a 7-6 lead.

Just before the fumble, the Jackrabbit reserves had taken the ball on downs on their one-

yard line following a Post drive, which included ground-eating runs by Williams, Corky Ammons, Noel Don Norman and Jimmy Redman.

Post went ahead when Ammons scored from two yards out, but the Antelopes failed to add the extra point when the snapback from center was fumbled.

Early in the fourth quarter, Ralls forged back into the lead, 14-12, on a 12-yard touchdown run and a successful running try for the extra point.

Post ended the night's scoring with the fourth quarter more than half gone when Williams went over from the one. Sammy Martin made the extra point on a running play to give the Antelopes their 19-14 margin.

The Jackrabbit reserves came back strong and had completed a long pass to the Post five-yard line when the final whistle sounded.

Showing up well in the line for Post were Graham, who did the punting; Captain Robert Carlton, Linebacker Darrell Davis, End Larry Lishman and Guard Joe McCowan.

covers Eagle fumble on the 20. Terry takes Murray's short pass and scampers to the 1-yard line, from where Gary takes pitchout and skirts right end for a touchdown, Murray's kick is good, and Post leads, 26-0.

Norman kicks off for Post and the return is for 16 yards to the Eagle 36, where Kennedy makes the tackle. Sanders makes 4 yards, but fumbles, and Norman recovers on the Eagle 40.

**Pass Pays Off**  
Tatum takes Graham's pass on the 32 and goes for a touchdown. Murray's kick is good to boost the score to 33-0.

The Post kickoff by Norman is momentarily fumbled, but recovered for a 5-yard return to the 30, Smith tackling.

Sanders, on three carries, gets 10 yards and a first down through the Antelope line. Mott goes for 2 more, but a jump pass falls in complete. Mott gets 5 at the left side of the line, but the Eagles draw a 5-yard penalty on the play. A jump pass fails, and Murray returns the ensuing punt only 3 yards to his 36, as Antelope reserves pour into the game.

Graham gets a yard at the line, but Post is penalized 5 for offside. Graham fails to gain, and Dale loses a yard, with Post drawing another 5-yard penalty on the play.

Gary gains 4, and Graham, running from punt formation, gains 18 yards to the Post 48 for a first down. Gary twists through center for 4 as the quarter ends.

**Fourth Quarter**  
Gates is shoestrung for a yard loss on an end run, O'Donnell declining a 5-yard penalty on the play. Graham's pass to Gibson is too long, and another heave fails to click, as the Antelopes starters return to the field.

O'Donnell takes over on downs on the Post 47. Mott gets loose for 29 yards to the Post 18, fumbling but recovering. Tatum stops Mott after a yard gain on a pitchout, but a clipping penalty sets the ball back to the Post 41.

Smith breaks up pitchout for a 6-yard O'Donnell loss, and a pass is no good. A pass carries to the Post 30, Graham tackling, and another pass is no good, the Antelopes taking over on downs.

**Antelopes Lose Ball**  
Tatum takes Murray's pass for 12 yards and a first down on the 42. Kennedy gains 4 on a pitchout, but Post draws a 15-yard penalty for holding. Tatum takes Murray's pass for a 14-yard gain, but another pass fails to connect. Murray runs from punt formation for a 10-yard gain, but the ball goes to O'Donnell on their 49.

A long pass is no good, but Mott gains 16 yards on a pitchout. He gets 5 more on the same

kind of play, Graham tackling, and the Antelopes decline a 5-yard penalty on the play.

**Eagles Go Over**  
Smith stops Mott after a 2-yard gain at end, and Sanders plows to the 21 for a first down. He gets 4 more at center, Meeks

stopping, then gets 5 at the right side of the line. Two short plunges make it a first down on the 10, and Sanders plows for 7 to the 3-yard line. A pass is no good, but Sanders burrows through center for a touchdown. Schmidt stops a running try for

the extra point and the 33-6.  
Post receives Terry for a short kick on the Antelope game ends.

"Later on," Hopkins said, "another student admission plan will be put into operation at our box office, but for the present we are forced to discontinue student admission prices."

**BOTTLE STUDY**

ANN HARBOR, Mich.—If you come upon a bottle with a note in it on the beaches of Lake Huron, it won't be from a shipwrecked sailor or show a map of some lost treasure.

The University of Michigan Great Lakes Research Institute set afloat 500 bottles with postal cards inside to study lake currents.

**District 2 4-H Girl's Scholarship Goes To Yolanda Ellis, Hale County**

Yolanda Ellis, outstanding 4-H Club girl from Hale County, received the District 2 4-H Girl's Scholarship of \$500 Saturday, at a meeting in the Home Economics Building at Texas Tech.

The scholarship was presented by Mrs. Jack Knox of Lubbock who represented the home demonstration club women in the 20 counties that comprise District 2.

Miss Ellis received the scholarship that is offered each year to the outstanding 4-H girl in District 2 who plans to attend Texas Tech and take Home Economics. She will use the scholarship to further her Home Economics Education at Texas Tech. She will be a sophomore this year.

Yolanda is the daughter of Mr. and Mrs. Elmo Ellis of Plainview. She is a member of the County Wide 4-H Club and her mother is the adult leader of the club.

Her nine years in 4-H have been packed with demonstrations and activities. Clothing has long been a favorite but food preparation and preservation, gardening, poultry and bedroom improvement too have received major attention. She has never passed up an activity which had a place in her overall 4-H program. She has given demonstrations and taught others but still has found time to participate in community, church and school affairs.

**MOPPED UP**

NORFOLK, Va.—The Tidewater Sanitary Supply Co. told police a man asked a woman clerk to show him a mop handle. He ordered several and she went to the second floor to get the extras. The customer said he would have to go to his car to get the money but would be right back. He is still missing and so is \$24.77 from the cash register.

**EARL ROGERS' FEED STORE**

**DID YOU EVER**

Stop to think: How hard the little hardware store on the corner tries to get your business?

How much they appreciate the business they get from you?

How much merchandise they buy and keep to supply your needs?

How much they depend on you and your purchases of their merchandise for their daily sustenance?

How necessary both of us are in the community—You need an item—We have it for you. We need to sell—You buy from us.

At the same time you are in our store buying what you need, you are finding out how our folks are and telling us how your family is, how Church attendance was last Sunday, when and where you caught that good bunch of fish and when you are going back after them.

Come back to see us.

**Gulf announces a completely new and different gasoline!**

Now—Gulf refines out the "dirty-burning tail-end" of gasoline—the No. 1 trouble-maker in high-compression engines. Result: a cleaner-burning super-fuel that gives you thousands of extra miles of full engine power... free from knock or pre-ignition.

**Proof:** Instead of trying to fight trouble-making deposits with so-called "miracle-additives"—inside your engine—Gulf believes in preventing them from forming in the first place. That's why Gulf, in making new Super-Refined NO-NOX, refines out the carbon-forming, "dirty-burning tail-end"—more than a cupful in every gallon. Look at the plates the Gulf scientist is holding in the unretouched photo above and see what a difference Gulf super refining makes!

Starting with your first tankful, this new, super-refined, super-powered fuel will give you these immediate and lasting benefits:

- More complete engine protection than so-called "miracle-additive" gasolines. See laboratory test proof at left.
- Extra gas mileage in the kind of short-trip, stop-and-go driving motorists do most.
- No knock, no pre-ignition. Because the anti-knock power of new Gulf NO-NOX has been stepped up to an all-time high.
- Stall-proof smoothness—no more worries about carburetor icing in chilly weather, or vapor lock on warm days. Instant starts, too—and fast, fuel-saving warm-up.

That's why new Super-Refined Gulf NO-NOX gives your engine more power-with-protection than you've ever known. See proof below...

Road tests show: New Gulf No-Nox actually makes cars perform better than new... even after 15,000 miles!

Under all conditions—Gulf test cars showed: Higher-than-new horsepower! Better-than-new on gasoline mileage! And not a single trace of carbon knock or pre-ignition at any time.
