BEST ALL-AROUND AWARD—Charles Didway, editor of The Post Dispatch, is admiring the first place trophy the newspaper won in the West Texas Press Association contests for being "best all-around" in towns of less than 4,000 population.

The trophy was brought back from the WTPA convention at San Angelo Saturday by E. A. Warren, publisher, and Mrs. Warren.—(Staff Photo.)

'Outstanding' Trophy Is Won By Post Dispatch

A two-foot high trophy, the likes of which it has been trying to win for years, was awarded The Post Dispatch at San Angelo Saturday morning for being adjudged the best all-around newspaper published in towns of under 4,000 population.

Rev. Graden Howell Accepts Pastorate

The Rev. Graden Howell of Lubbock has been called as pastor of the Calvary Baptist Church here. He will replace the Rev. Shelby D. Bishop, who recently resigned to accept a pastorate in New Mexico.

The Rev. Mr. Howell has been pastor of Antioch Baptist Church in Lubbock for the last four and a half years. He conducted a revival at the Calvary Baptist Church here in 1955.

The Rev. and Mrs. Howell have three sons and two daughters. They are Graden Jr., 17; Lucy Ann, 15; Leonard, 11; Sandra Lee, 6; and Tim, 4.

The Howells plan to move into the parsonage about Sept. 1.

'Am-Amateur' Meet Set Here For Aug. 26

An "am-amateur" tournament, which is the same as a pro-amateur, except that there are no pros in it, will be held Sunday afternoon at Caprock Golf Course, Durward Bartlett, manager, has announced.

Each foursome will consist of an "A," "B," "C," and "D" player, the manager said.

First and second place merchandise prizes will be awarded the winning foursome and runner-up.

FIREMEN CONTRIBUTE

Members of Post Volunteer Fire Department have contributed to the fund for the relief of widows and orphans of firemen killed in the recent blast at Dumas. The contribution has been set to Olin Culbertson, secretary of the Texas Firemen's and Fire Marshals' Association, and will be forwarded by him to the relief agency.

Absentee Vote Proceeds Here At Slow Pace

With the primary runoff election less than two weeks away, absentee voting was at a slow pace this week, according to County Clerk Carl Cederholm.

The county clerk said only four persons had voted absentee in his office up to 3 p. m. Wednesday, and that he had received only 23 requests for mail ballots on which to vote absentee.

The clerk said that about 19 physically disabled persons are expected to cast absentee votes between now and Aug. 21, the last day for absentee voting. Members of the Amity Study Club who carried ballots to these disabled voters prior to the first primary as a club project plan to repeat the procedure, Cederholm said.

A total of 82 absentee votes were cast in the first primary. Two state, two county and one precinct race are to be decided by Garza County voters in the Aug. 25 runoff election. State races are those for governor, between Price Daniel and Ralph Yarborough, and for attorney general, between Tom Moore and Will Wilson.

In the two contested county races, voters will choose between Carl Rains and Odean Cummings for sheriff and between Percy Printz and T. H. (Talmage) Tipson for tax assessor and collector. Opponents in the Precinct 1 commissioner's race are Racy Robinson and B. F. (Boone) Evans.

Alleged 'Toters' Of Pistols Face Trial

Judging from the number of pistol-packing cases on the county court docket set for Aug. 27, the world powers aren't the only ones faced with disarmament problems.

Of the ten criminal cases set for trial at the new August term of court, half of them involve charges of carrying a pistol. Three of the others are for alleged liquor law violations, one for alleged check law violation and one for alleged driving while intoxicated.

Those charged with carrying a pistol are Charles R. Beeman, Calvin Bryant, Richard Collins, Lance Evers and Phillip Smith.

Charged with liquor law violations are R. M. Collins, Bryce King and Phillip Smith. Lee Roy Curry is charged with check law violation and Charlie Henry Banks with driving while intoxicated.

Civil cases on the docket are Southwestern Bell Telephone Co. vs. Ted Shults et ux and Southwestern Bell Telephone Co. vs. A. A. Meeks et al.

The new term of court is to open at 9 a. m. Aug. 27 before County Judge Pat N. Walker.

Checkups Required Of Grid Hopefuls

Coach Leroy Fenstermaker this week urges football candidates who have not yet taken their physical examinations to pick up blanks at the high school and take the test before opening of practice on Aug. 27.

Each boy is to fill in the first page of the form and then take it and the second page to the doctor's office for his examination.

Fenstermaker said equipment will be checked out and practice sessions begin at 6 o'clock the morning of the 27th. The first game is here Sept. 7 against Ralls.

76 Business Firms 'Lined Up' For C. Of C. Hospitality Days

A 16-week series of "Hospitality Days," sponsored by the Post Chamber of Commerce, will begin Thursday afternoon, Sept. 6, and continue each Thursday thereafter, except Thanksgiving, until the first of the year.

Cooperating with the Chamber of Commerce in the Hospitality Days program will be 76 Post business firms. Drawings for merchandise coupons from these business firms will be held at 4 o'clock every Thursday afternoon.

There will be five merchandise coupons drawn each Thursday, and these coupons will be redeemed by the Chamber of Commerce in the amount of value, after being honored by the merchant.

Participation in the program entitles each member firm to issue tickets to be signed by customer and placed in store container. It will not be necessary for the customer to make a purchase in order to receive the tickets, according to the Chamber of Com-

merce. On the day of the drawing the ticket containers will be picked up at each business place and taken to the site of the drawing. There will be another container in which will be the names of the participating firms. The drawing will proceed by matching one customer name with one firm name for each of the five merchandise coupons to be awarded.

As a member firm is drawn from the container it will not be placed back until the day's drawing is completed, thereby allowing a different firm for each customer that day.

A spokesman for the Chamber of Commerce said Tuesday that the Hospitality Days program is strictly local in origin, and that none of the money spent on its promotion will go out of town. After the original expense of advertising and printing tickets, the plan will be supported by regular weekly dues.

A portion of the weekly dues will be held in reserve for a Christmas week jackpot drawing, the spokesman said.

The 76 participating firms are listed in an advertisement on page 12 of this issue of The Dispatch. Other firms desiring to participate and who have not been contacted are asked to get in touch with the Chamber of Commerce office.

ONLY THREE FACULTY VACANCIES REMAIN

8 Teachers Hired By School Board

Election of eight teachers Monday night by the board of trustees of the Post Independent School District leaves only three faculty vacancies to be filled between now and the Sept. 4 opening of the 1956-57 term, Supt. K. Green has announced.

Still needed, Supt. Green said, are a high school English teacher, high school Spanish teacher and junior high school language arts teacher. He said that at least two of these vacancies are expected to be filled within the next few days.

Teachers elected at Monday night's board meeting were Robert Madison, high school science and mathematics; Arthur Alley, elementary school; Mrs. Travis Dabbs, elementary school; Misses Lea and Betty Mitchell, elementary school; Mrs. Ed Sawyers, elementary school; Miss Patsy Johnson, high school homemaking, and George Wilson, high school

and junior high school choral music.

Madison, the high school science and math teacher, is a graduate of Texas Tech and has taught seven years at Abertown. He is returning to the teaching profession after a one-year absence, during which he was associated with a sound-photo firm in Lubbock.

Wilson, employed to teach choral music in high school and junior high school, is presently band director and choral music teacher in the Ralls schools.

Miss Johnson, the new home-making teacher, has taught at Stephenville for the last three years and prior to that taught at Winters. She is a graduate of North Texas State College.

Misses Lea and Betty Mitchell, who are sisters, are from Santa Anna, where Lea has taught for the last three years. Betty has had no teaching experience. They are graduates of Howard Payne College.

Mrs. Sawyers, one of the newly-elected elementary school teachers, is the wife of Ed Sawyers, co-owner of the TV Appliance Center. They moved here a few months ago from Boulder, Colo.

Alley, another of the new elementary school teachers, attended Howard Payne College. He has had no teaching experience.

Mrs. Dabbs, a resident of the Pleasant Valley community, is a graduate of Texas Tech and taught last year in Lubbock.

Boys Ranch To Be Rotary Program

A representative of Boys Ranch, near Amarillo, will be principal speaker at next Tuesday's Rotary Club luncheon, with Harold Lucas in charge of the program.

This week's luncheon-meeting, marked the official visit of Rex Webster of Lubbock, governor of the 183rd District of Rotary International.

Webster was here Monday evening to confer with President Harry A. Tubbs and Secretary Irby G. Metcalf Jr., in regard to the local club's activities and to hear committee reports.

At Tuesday's luncheon, the district governor highly praised the Post club for its program of service and commended the committee chairmen for their "excellent reports."

LINE COACH — Frank Krhut (above) of Wakeeney, Kan., newly-elected line coach at Post High School, arrived recently to assist Head Coach Leroy Fenstermaker in getting grid drills underway. They and assistant coach Burl McCoy attended the annual Texas Coaches' Association School in Lubbock last week. Krhut is a graduate of Sul Ross State College, where he lettered in football and baseball.

HOME FROM HOSPITAL

Billye Ruth Hill, 11-year-old daughter of Mr. and Mrs. Wiley Hill, has been returned to her home from Lubbock Methodist Hospital where she underwent surgery Friday on her right leg. Billye Ruth, who has had polio, will be required to wear a cast on her leg for about three weeks.

GOVERNMENT PAYMENTS TO TOTAL APPROXIMATELY \$136,117

6,720 Acres Go In Soil Bank

Garza County farmers have signed 210 contracts putting 6,720 acres into the acreage reserve phases of the soil bank, figures from the county office of the Agricultural Stabilization and Conservation Service have revealed.

They will receive government checks totaling approximately \$136,117 for the idle acres. The figures break down this way:

Cotton—4,193.7 acres for \$133,127.90.
Wheat—527 acres for \$2,989.
Measuring of soil bank acreage

will begin late this month, with farmers expected to receive their checks late in September. Mrs. Emmarhe I. Hartel, county ASC office manager, said Wednesday.

Mrs. Hartel said it will be necessary for the farmer or his representative to assist the acreage reporter in obtaining the measurements.

The farmer will be required to point out the acreage he is designating for the soil bank, since this will determine the amount of payment he will receive.

Deadline for making applica-

tion for participation in the acreage reserve plan of the soil bank was July 27, and the acreage designated must have been destroyed by Aug. 3.

Garza County has been designated as a disaster county, and the soil bank acreage with an approved cover may be grazed through Sept. 30. The approved covers include grain sorghum, millet, sweet sudan, and all summer legumes.

These crops may be grazed if standing on soil bank acreage only until Sept. 30.

First Grain Being Received In Post

The first Garza County-grown grain of the season is being received at T. L. Jones Grain Co.

In with the first load, a 40,000-pound one, last week was Richard H. Lewis of the Pleasant Valley community.

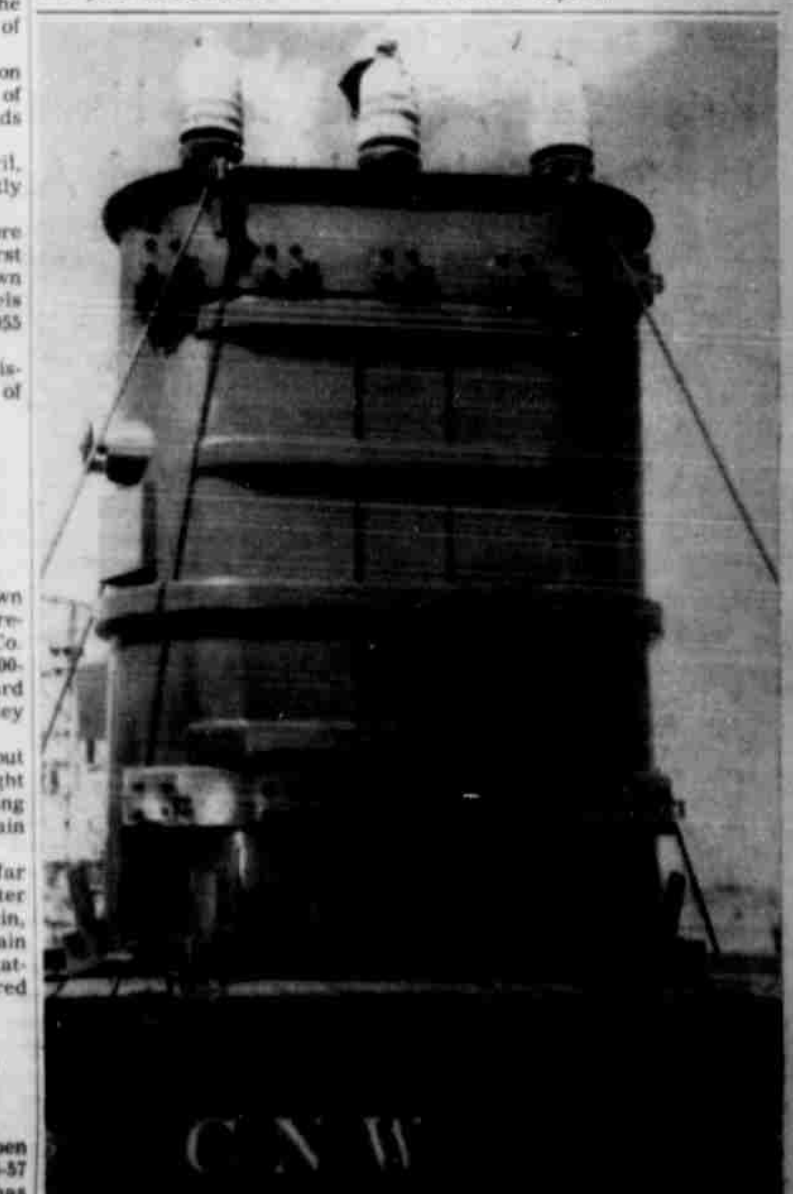

H. E. Mueller, who farms about 18 miles west of Post, has brought in about 200,000 pounds, according to T. L. Jones, owner of the grain company.

All the grain received thus far has been maize, and is of a better quality than last year's grain, Jones said. Testing dry, the grain being received here was irrigated last winter and left unwatered this summer.

Close City School Is To Open On Sept. 3

The Close City School will open Monday, Sept. 3, for the 1956-57 term. Principal A. T. Nixon has announced. The bus will run, lunch will be served at noon, and all classes will be held that day.

Mr. and Mrs. Nixon are the teachers. Mrs. Cecil Bland is the bus driver and Mrs. Horna is the lunchroom supervisor.

TO BOOST ELECTRICAL OUTPUT—This new transformer, just received from the factory by Southwestern Public Service Co., is shown on a flat car on a railway siding here. The new transformer, which is to be installed soon, is a 2,500-KVA three-phase job weighing 23 tons. It will replace the present 1,500-KVA transformer now serving the City of Post.—(Staff Photo.)

THE RODEO IS over, which means that the bucking horses, calves, Brahma bulls and most of the Cadillacs that were here last week have departed.

AGAIN THIS YEAR, we wish to thank R. E. and Loyce Jossey, rodeo secretaries, for their assistance in helping us keep track of go-rounds, winners, etc., in our coverage of the four-day event. They were busy enough with their own work, but always found time to help us out.

ALSO MAKING OUR job an easier one was Announcer Alvin Davis, who knows all the junior contestants by name and the home town of each.

SCOTTY SAMSON and all the other horse show officials are enthused over the success of last Saturday's event. The show drew the biggest crowd of spectators in its eight-year history, as well as an outstanding group of quarter horses from three states.

THE DROUTH AND heat are taking the edge off interest in the national political conventions and the Democratic runoff primary, now less than two weeks away. That soaking rain we've all been hoping for would sharpen up interest in what's going on around us.

WE HAVE HEARD through the underground that Conrad Hilton is going to buy the Leaning Tower of Pisa and name it "The Tiltin' Hilton."

ALL THE FOLKS here at The Dispatch office—minus one, since Ganell is on vacation—are mighty proud of the best all-around newspaper award won at last weekend's West Texas Press Association convention in San Angelo.

THE HANDSOME TROPHY awarded us for having the best all-around newspaper in towns of less than 4,000 population, is prominently displayed here at the office. You're invited to come in and see it.

COUPLED WITH THE "best appearance" award The Dispatch won in the Texas Press Association contests, the best all-around trophy gives us a good score for the year, but we're not resting on our laurels. Our prime objective in seeking to improve the paper with each successive issue is not to win prizes, but to give you, the reader, a home town newspaper of which you'll be proud. The prize awards are incidental, but we're always mighty glad to get them.

IT'S THAT TIME of year when baseball and football start crowding each other on the sports pages. We're anxious for the football season to get under way, but as long as our favorite Cincinnati Redlegs are in contention for the National League pennant, we aren't going to lose interest in baseball.

THE GOVERNMENT CAN always find an excuse for giving money away, but they never find one for giving any back.

STEPPED-UP OIL activity in the Justiceburg area and progress of the expansion project at Postex Cotton Mill are bright spots in Garza County's economic picture—how much brighter the over-all picture would be if we could get enough moisture between now and Sept. 1 to assure at least an average cotton crop.

Roger W. Babson Writes This Week:

Retail Sales, Employment Have Been Kept Up By Local And National Advertising

BARBSON PARK, Mass.—I have continually stressed in this column that the continuation of present prosperity depends upon the consumers or customers of your local stores. So long as retail sales remain high, all is well, and husbands will continue employed; but when you begin to restrict buying, then retailers buy less from manufacturers. The manufacturers then begin to lay off their workmen and retail sales are further reduced—the "vicious circle." Hence, the business cycle—so-called—turns downward until we have a depression.

Good Wages And Advertising Retail sales and employment have been kept up by extensive local and national advertising. The latter has been greatly aided by photography, color printing, radio, and now TV. Unless something unexpected happens to shake confidence, retail sales will be further stimulated by air conditioning and self-service. Some day a little oxygen will be fed into air-conditioning systems, which will be a great blessing to all.

I, however, wish to refer this week to "pills" which are being used so unnecessarily by wage-workers, many of whom leave home without a real breakfast. The "coffee break" is the most apparent development in this line. The milk and sugar are real food; but the coffee is only a temporary stimulant lasting at most one half hour. Those working on continuous-line production—who must keep up with the speed of the belts—often use desferine pills. These tend to keep one awake and supply "pep." They don't work with all people who really need better meals and more sleep.

Surrounding Statistics That consider the following statistics on pills which are being used today—not by sick people—but those who are employed in factories, retail stores, and offices. The following figures have been supplied by Dr. Henry van Zile Hyde of the U. S. Public Health Service at Washington. He says: Each year we dose ourselves with about 400 tons of barbiturate (a nerve drug), 24 tons of amphetamine (a "pep" drug), and 7 tons of caffeine (a stimulant). In addition, there are billions of laxatives...

PRELIMINARIES ARE OVER

From here on out there will be no more preliminaries on the proposed White River project. Steps to be taken now are "main events," with the first coming up Sept. 10 when the State Board of Water Engineers holds a hearing in Austin on petitions asking that the White River Control and Improvement District be created.

If the State Board sets up the district, the next main event will be confirmation elections in the cities of Post, Crosbyton, Spur and Rails. Then, if favorable votes are given in the confirmation elections, bond elections will be called for construction of the dam, reservoir, filtration plant, pipe lines, etc.

Members of the White River Municipal Authority Committee, realizing that the project is well past the planning stage and that now the chips are down, are to meet this evening in Crosbyton with city councils of the four cities. The committee members have a big job from here on out in selling the city councils 100 per cent on the project and then assisting them in selling it to the citizens of their respective towns.

The need for ample water supplies is great in all four cities, just as it is elsewhere in Texas and throughout the Southwest. The need is perhaps greater in Post than it is in Spur, Crosbyton and Rails, but those cities, too, are, or will be, in dire need of a surface water supply in the years to come. The White River project is by far the most feasible plan yet advanced for solving the immediate area's water shortage problems.

There are, of course, still some "bugs" to be eradicated from plans on the project, but these more than likely will be worked out as each main event comes up. Following today's meeting at Crosbyton, the principals will be in their corners for the "opening gong" on Sept. 10, and are in for a fight to the finish. Let's hope it is a victorious one.

Keep America Beautiful, Inc., has been laboring mightily for more than two years now to make the riders and drivers of our more than 60 million motor vehicles more thoughtful. Unless we can curb our bad habits and substitute the good habit of thinking of the other fellow, we are in grave danger of transforming the convenience and sanitation of modern packaging into a Frankenstein that can suffocate us in a blizzard of trash. In the simplest terms, we've got to stop being litterbugs.—Hurlock, Md., News.

Emporia is doing its bit in urging more young people to learn how to swim. There is alarm over physical fitness in the U. S. and swimming beats hot-rodding forty ways from Sunday.—Emporia, Kan., Gazette.

USUALLY WHEN YOU come across a brain-twister, you can find the answer either at the bottom of the column or on another page. But here is one we happened upon for which no solution was printed. We think we have it worked, but are not sure. If some of our mathematical-minded readers hit upon a solution we'd like to hear from them.

A man died and left 17 mules to be divided among his three sons, and this is the way the will read: "My oldest son shall receive one-half of all the mules on the property; my next son shall receive one-third, and my youngest son, one-ninth. Each son shall receive whole, live mules."

The lawyer, reading the will, was stumped for a moment, then he divided the mules as the will read and rode home on his mule. How did he do it?

Hard work is an accumulation of easy things you didn't do when you should have.

An Arabian proverb says that all mankind is divided into three classes: those that are immovable, those that are movable, and those that move.

SPECTACULAR MUSICALS this year may have some unexpected competition. For their forthcoming political conventions the Democrats have signed Frank Sinatra and the Republicans are to feature Ethel Merman, Howard Keel and Lucille Norman. While politicians are busy kissing babies and making speeches, TV radio and movie personalities will be pleasing an amusement conscious public.

Though they may not seriously threaten TV's top ten, the conventions are beginning to parallel the Jewish productions of that medium. Viewers will be informed and entertained at the same time. Broadway and Hollywood performers are usually easier on the eyes than aspiring candidates. If the silver-tongued orator cannot win followers on his own promises, Mr. Golden-Voice Entertainer will get into the act. Actors and politicians together will sit up all night waiting to read the morning reviews.

It's difficult to predict the success of such political extravaganzas, but while foreign policy, economic trends and the farm situation are dull to some observers, the ballads, "pops" and arias hold their attention. Perhaps politicians who do not obtain their desired office will find employment with a political road show.

More of us would become interested in the election campaigns

Getting Out On The Limb

By EDDIE the editor

THE WOMEN, God love 'em; A lot of mothers of the last generation had their daughters vaccinated in places they fondly thought would never show.

We can take a lesson in democracy from Iceland, where 90 per cent of the voters actually voted.

ON THE SUBJECT of voting, every election year at about this time "Get Out the Vote" campaigns swing into high gear throughout the country. It's a rare citizen indeed who doesn't read and hear that voting is both a privilege and a duty, incumbent upon us all.

This year a nation-wide campaign to persuade people to vote is under way—and it goes a long step farther. The American Heritage Foundation, aided by some 130 cooperating organizations representing groups as varied as business executives, union members, actors, lawyers and many others, has come up with this slogan—"Vote—But Don't Vote in the Dark!"

William Hard, writing in The Reader's Digest, tells the story under the striking title: "Register! Inform Yourself! Vote!" And the big emphasis is on those two words, "Inform Yourself!" Anyone can mark an X on a ballot or scratch out names or pull the handle of a voting machine. But it takes some extra effort to vote intelligently, with full knowledge of just what the competing candidates stand for.

There is no doubt that intensive campaigns such as the American Heritage Foundation is conducting do bring out the vote. The Foundation waged its first national campaign in 1952, and 63 per cent of eligible voters made their choices known, as against 51 per cent in 1948. In 1954 the Foundation was busy with other matters and did not conduct a campaign—and the percentage dropped to 52 per cent.

Mr. Hard observes that compulsory voting laws are sometimes urged for this country. In countries where failure to vote brings a fine—Belgium and Australia—the turnout customarily runs around 85 per cent. But it is obvious that forcing a man to vote does not and cannot make him an informed or thoughtful voter. Also, as Mr. Hard writes, "Legislation to compel the exercise of liberty is a denial of liberty."

Moreover, Eurpoe teaches us that compulsion is not necessary. In recent elections in a length list of non-compulsion countries the turnout ranged from 77 per cent in Britain to an amazing 96 per cent in Austria. As General Gruenther, head of the NATO vote the Foundation: "Although I never cease to be proud of being an American, I have been impressed during my five years in Eurpoe by the high percentage of Europeans who go to the polls to vote. Their record is better than ours in this all-important matter of individual participation in government."

From now until election day you will be bombarded with appeals to vote—even loudspeakers at scores of ballparks and other public gatherings will broadcast the message.

Finally, Mr. Head observes that our responsibility as a great world leader demands "that we must read, we must listen, and we must study, we must think—and then say at the polls what kind of country and what kind of world we want."

Hard work is an accumulation of easy things you didn't do when you should have.

An Arabian proverb says that all mankind is divided into three classes: those that are immovable, those that are movable, and those that move.

WHOEVER THOUGHT of adding the goat sacking race (for 10-year-olds and younger) to this year's Junior Rodeo deserves a vote of thanks. Such shenanigans delight the crowd, in addition to giving the "small fry" a chance to let off steam.

And there is no doubt that this year's crown, Dale Winders of Earth, is one of the best, if not the best, to perform at a rodeo here in many moons. He comes up with some real stunts, the best two of which are his telephone booth disappearing trick, and tying a Roman candle to a calf's tail.

Always a characteristic of rodeos here are the visits of folks from foreign lands seeing their first rodeo. This year we've had Iraqi Master of Iran, Dr. Gottfried Moshart of Austria, and Yelmar Oral of Turkey. Master and Dr. Moshart are currently guests of the Rosary Clubs in Slaton and Tahoka, respectively, while the Turk is employed this summer at Postex Cotton Mill.

VA Questions And Answers

Q. I am a veteran with a total and permanent non-service-connected disability. I waited several months before applying for disability pension payments. Is it possible for the payments to be back-dated to the date I incurred my disability?

A. Under VA's regulations, the effective date that payments may begin is the date VA received the claim or the date the disability arose—whichever is later. In your case, the date of VA's receipt of the claim would be later.

Q. Premiums on my World War II GI term insurance policy are under waiver because I've been totally disabled for more than six months. May I convert my term policy to a permanent plan, even though I am totally disabled?

A. You may convert your term policy to any permanent plan other than an endorsement. Also you will not be required to take a physical examination.

Q. I want to take a course under the Korean GI Bill that's commonly considered recreational in nature. In my case, I need it in connection with the business I plan to enter. Will I be allowed to take it?

A. Yes—if you submit justification to VA that the course will be of bona fide use in your present or contemplated business or occupation, and VA approves the case in advance. The only courses absolutely prohibited by law are in bartending, dancing or personality development.

Q. My son is eligible for schooling under the new educational program for children of deceased war veterans. His college begins early in September. Will he be able to receive payments from his first day in school?

A. The law specifies that monthly payments may not begin before Oct. 1, 1956.

FOUNDATION IN 15th YEAR OF OPERATION

Patients With Crippling Diseases Find Treatment, Hope At Gonzales

GONZALES (Spl.)—As Gonzales Warm Springs Foundation progresses during its 15th year of successful operation, patients with all types of crippling diseases find treatment and hope here.

Although poliomyelitis cases presently predominate at the Foundation, the hospital facilities are so designed, both personal and equipment, to treat other types of cases such as cerebral palsy, multiple sclerosis, muscular dystrophy, arthritis, and other neuro-muscular diseases and musculoskeletal disorders.

Within the limits of its bed capacity, the Gonzales Warm Springs Foundation is open to any adult or child who can be benefited by the treatment program. A medical examination and evaluation conducted at the Foundation determines whether the patient can be helpful or not.

While limited welfare funds do not permit free care for adults, no Texas child under 21 is ever denied treatment for lack of funds.

The first step in securing admission for prospective patients is to write for an application blank to be filled out by the patients and the referring physician.

This application blank should then be returned to the registrar at the Foundation, Box 58, Gonzales.

Two Post Students Degree Candidates

LUBBOCK (Spl.)—A total of 254 Texas Tech bachelor's degree candidates—among them two from Post—are scheduled to hear Charles C. Thompson of Colorado City deliver the principal address during commencement at 7:15 p. m. Friday, Aug. 24, in the Lubbock Auditorium.

Thompson is a prominent rancher, banker, attorney, and chairman of Tech's board of directors. A reception for candidates, relatives, friends, and faculty will be given by President E. N. Jones at his campus home from 3:30 to 4:30 p. m. Friday.

The Post candidates for degrees are Lee W. Davis Jr., who is majoring in education, and Doyle Meredith Taylor, who is majoring in sociology.

Fertilization Aids Cotton In August

Mid-summer isn't generally considered the best time to put fertilizer on cotton. But a West Texas farmer went against the advice of his neighbors last year and applied 200 pounds of fertilizer per acre during the second week of August.

The result? At harvest time, W. H. Yater of Stanton had produced 60 bales of cotton on 20 acres. This is an area record, which might have been even higher. At least another half bale per acre had been lost to an unusually early freeze.

The county average with similar soils and cotton varieties was only a bale and a half per acre.

BITS-OF-NEWS

Mr. and Mrs. Bobby Page of Knox City spent the weekend here visiting friends and relatives.

Mrs. Raymond Redman of Pottsburg visited her mother, Mrs. H. H. Foster, on Friday.

Mr. and Mrs. M. H. Hutto and children and Mrs. Bird have returned from a trip to Albuquerque and other points in New Mexico.

Dr. and Mrs. Lincoln Sanders of St. Louis, Mo., arrived Monday for a visit with Dr. Sanders' mother, Mrs. Ella West, and his aunt, Mrs. Eva Bailey.

Yater claims that the last application of fertilizer made the difference. He figures that it brought him back at least six dollars for every one spent.

The Big M outvalues all cars two ways, leads its price class six ways

- THE BIG M LEADS THE MEDIUM-PRICE FIELD FOR:**
- 1. Power per pound.** THE BIG M Monterey and Montclair give you the best combinations of weight and power in their price field.
 - 2. Torque per pound.** All four Mercury series—Monterey, Medalist, Custom and Montclair—are out in front of the entire medium-price field for usable wheel-turning power.
 - 3. Choice of V-8 models.** Only THE BIG M in its field offers so many V-8 models—18, in 4 price ranges. All with distinctive styling shared by no other car.
 - 4. Choice of hardtop models.** Eight BIG M hardtops! Mercury Phaetons offer you the most advanced design in 4-door hardtops—with the greatest visibility, for both front and rear seat passengers.
 - 5. Braking power.** THE BIG M's brakes give you the quickest stopping power in its field! Authority: independent MOTOR TRENDS tests. At 60 mph, THE BIG M stopped quicker than any competitor.
 - 6. Extra-value features.** For example, only Mercury in its field has an impact-absorbing steering wheel and a 4-barrel carburetor at no extra cost on every model.
- THE BIG M LEADS THE INDUSTRY FOR:**
- 1. Most power per dollar.** THE BIG M Medalist and Custom offer you more power for your money than any other make of car.
 - 2. Most torque per dollar.** No other make of car built today comes up to the low-cost Mercury Medalist for usable wheel-turning power. And now's the time to save the most money on a Mercury. We invite you to stop in at our showroom.
- *All power and torque comparisons, shown above and at the left, are based on an analysis of manufacturers' suggested list or factory retail prices for 4-door sedan models, using comparable models equipped with standard horsepower and automatic transmissions.

Public Notice

NOTICE OF HEARING ON PETITION FOR ORGANIZATION OF WHITE RIVER WATER CONTROL AND IMPROVEMENT DISTRICT

THE STATE OF TEXAS: COUNTY OF TRAVIS:

TO THE HOLDERS OF TITLE TO LANDS IN, AND TO ALL OTHER PERSONS INTERESTED IN THE ORGANIZATION OF PROPOSED WHITE RIVER WATER CONTROL AND IMPROVEMENT DISTRICT.

NOTICE is hereby given that a hearing will be held at 10 o'clock, A. M., on the 19th day of September, 1956, at the Office of the State Board of Water Engineers of Texas, in the City of Austin, Travis County, Texas, upon a petition for the creation of said water control and improvement district, duly passed by said State Board of Water Engineers, to-wit:

ORDER SETTING HEARING
THE STATE OF TEXAS: COUNTY OF TRAVIS: OFFICE OF STATE BOARD OF WATER ENGINEERS OF TEXAS, AUSTIN, TEXAS

On this 30th day of July, 1956, the State Board of Water Engineers of Texas met in regular session at its regular meeting place in the City of Austin, Travis County, Texas, with the following members present, to-wit:

R. M. Dixon, Chairman; H. A. Beckwith, Member; O. F. Dent, Member, and Ben F. Looney, Jr., Secretary.

There came on to be considered a petition signed by more than fifty (50) holders of title to the lands therein, praying for the organization and establishment of a water control and improvement district to be known as White River Control and Improvement District situated in the Counties of Crosby, Dickens and Garza in the State of Texas, the territory described in said petition being as follows, to-wit: The area and boundaries of the City of Spur in Dickens County; the Cities of Crosbyton and Ralls in Crosby County; and the City of Post in Garza County; as such boundaries existed on May 15, 1956.

Said petition prays that said district be organized for the purpose of controlling, storing, preserving and distributing water for domestic and industrial uses, irrigation and for other useful purposes, and for protecting, preserving and restoring the purity and sanitary condition of waters within the State of Texas.

The general nature of the work to be done is to construct a dam and reservoir, lay out, construct and maintain pumping and filtration systems, pipe lines and other works necessary or incidental to acquiring a source of supply and to furnishing the inhabitants of the District with fresh water for domestic and industrial uses, irrigation and other useful purposes.

And it appearing that the Board has jurisdiction to entertain said petition, under the provisions of Chapter 25, Acts of the Thirtieth Legislature, together with all amendments and additions thereto and particularly Section 21 thereof as amended, and it further appearing that said petition is signed by the requisite number of qualified holders of title to lands situated within the territory to be included in said proposed District and that said petition has been duly filed with the County Clerk of Crosby County, Texas, and recorded as prescribed by law, and certified copies thereof filed in Dickens and Garza Counties, and that said petition meets all of the requirements of said Chapter 25 and of Section 59 of Article XVI of the Constitution of Texas and is accompanied by a deposit of Two Hundred Fifty (\$250.00) Dollars, as further required by law, to be used, if necessary, for the payment of costs in this proceeding.

It is, therefore, ordered by the State Board of Water Engineers of Texas that said petition be received and filed and the same be and it is hereby set down for hearing before this Board at its office in the City of Austin, Travis County, Texas, at 10 o'clock, A. M., on the 19th day of September, 1956.

On the date set for said hearing, any person whose land is included in or would be affected by the creation of such District, may appear and contest the creation thereof and may offer testimony to show that such District is or is not necessary, would or would not be a benefit to the lands in said District or a public utility and would or would not be feasible or practicable, and any interested person may appear and offer any such testimony.

It is further ordered that a public notice of such hearing shall be prepared, which shall include a copy of this order, and the Secretary of this Board shall deliver to the County Clerks of Crosby, Dickens and Garza Counties, Texas, an original and sufficient copy thereof, and the Sheriff of each of said Counties shall post a copy of said notice at the Courthouse door in his County, at least fifteen (15) days prior to the date of such hearing and shall publish a copy thereof in one or more newspapers to give general circulation in the area of the proposed District once a week for two (2) consecutive weeks, the first publication thereof to be made at least twenty (20) days prior to the date of said hearing. The Sheriff shall make due return of service thereof, with a copy and affidavit of publication attached to the original prior to the date of hearing.

Upon motion by Dent, seconded by Beckwith, the foregoing order was passed by the unanimous vote of all members, all members voting "AYE" and none voting "NO." PASSED, APPROVED AND ORDERED at Austin, Texas, this 30th day of July, 1956.

Miss Toni Faye Palmer Becomes Bride Of Allen D. Reeder, Jr.

The wedding ceremony Aug. 14 at 11:30 a. m. at the home of the bride's parents, Mr. and Mrs. C. H. Palmer of Brownsville, formerly of Post, and Mrs. A. D. Reeder of Dallas.

The bride was attired in a white, princess style, lace dress with pink gloves and hat. Her other accessories were of pink also. Mrs. R. J. Lofton of Midland attended her sister as matron of honor. She wore a pink, nubby cotton dress with matching white accessories. For their trip in New Mexico, Mrs. Reeder chose a navy linen suit with white accessories.

Mrs. Reeder is a 1956 graduate of Post High School, where she was active in many school activities, including the school choir.

The bridegroom is a graduate of San Jacinto Senior High School in Houston. He served with the Army for five years, during which he spent some time in Korea. The couple are at home at 504 South Ave. 1. He is employed as an announcer at KRWS radio station. Mrs. Reeder is employed at Postex Cotton Mills.

A reception honoring the couple, will be held Friday evening in the home of the Rev. and Mrs. Cecil Stowe.

Woman Honored At Banquet Past Auxiliary Presidents

L. Jones of Post was the former president of the American Legion Auxiliary, District of Texas, honored at last Friday night in her home in Dallas. Jones served as state president of the Auxiliary in 1935-36. She has been active in the local Auxiliary since its organization in 1920, as well as in other district units. She served Auxiliary here as president about 10 years, and is also president of the 19th and of the 5th Division organization. She has done outstanding work as member of two Auxiliary committees—scholarship and unemployed children. In Dallas, Mrs. Jones was

a guest of her sister and other relatives.

The Rev. J. D. Peters, superannuated minister of the Methodist denomination, was guest speaker at the First Methodist Church here Sunday in the absence of the pastor who was conducting a meeting. Another guest, Mrs. Glendon Presson, who was here visiting with her husband in the home of his mother and sister, Mrs. Gladys Presson and Mrs. Boo Olson, sang a special solo.

Mrs. Ellis Mills and Mrs. W. B. Porterfield represented the Post Methodist Church at the District Seminar of WSCS organizations which met in Abernathy on Tuesday. Mrs. Mills is district student advisor. Outlines of the various phases of the coming year's work were discussed. A large group of women from area churches attended the seminar.

Ellis M. Mills, junior high school principal, will conduct the service and bring the sermon at the First Presbyterian Church Sunday while the pastor, the Rev. Clinton Edwards, and family are on vacation. There will be no worship service Sunday, Aug. 26. The Sunday Church School is continuing to meet at the usual time every Sunday.

Mrs. Victor Hudman, Mrs. Lee Davis, Mrs. K. Stoker and Mrs. Almon Martin, members of the Christian Women's Fellowship of the First Christian Church, have completed work on the yearbook this week. Emphasis will be placed on Christian Education this year and the theme of programs will stress "That Thy Way May Be Known". The first meeting of the fall season will be held on Sept. 3, the place to be announced at a later date. Several special programs have been planned such as book reviews, inter-church groups, night programs, in order that business women may participate.

Plans were put in motion for a Sunday School attendance contest when leaders of various departments of the First Christian Church met in the home of Mr. and Mrs. K. Stoker Wednesday night. The contest will begin the first Sunday in September.

Mrs. E. S. Stewart Is Elected As New President Of WMU

Mrs. E. S. Stewart was named president of the Women's Missionary Union of the First Baptist Church at a recent meeting of the group. In a business session Monday morning at the church other officers were presented by the nominating committee and were elected by those present.

Mrs. Henry Tate will serve as vice president; Mrs. Walter Johnson, second vice president; Mrs. J. F. Storie, secretary-treasurer; Mrs. E. R. Moreland, recording secretary; Mrs. Howard MaDdera, Young People's director; Mrs. Glenn Norman, pianist; Mrs. Manis Samples, choirist.

Standing committee chairmen elected were: Stewardship, Mrs. Roy Shahan; prayer, Mrs. Dove Mayfield; community missions, Mrs. Lee Bowen; and mission study, Mrs. Don Butler.

Preceding the election of officers, Mrs. Johnson directed a lesson on Royal Service entitled, "Onward Christian Herald." Assisting in the program were Mrs. Arnold Parrish, Mrs. Don Butler and Mrs. Henry Tate.

The session was closed with a prayer meeting with emphasis being placed on the approaching revival meeting scheduled to begin Sunday.

Amity Club Adopts Course Of Study

The course of study, "United States," was approved by members of the Amity Study Club at a called meeting Tuesday night in the home of Miss Thelma Clark. Mrs. Kenny Cash, club president, was in charge of the meeting.

Plans were discussed in regard to holding an anniversary tea in observance of the club's 20th year as a member of the Federated Club organization.

Weekly meetings have been held through the summer by the yearbook committee in preparing programs for the club year, which is to open Sept. 4 with a breakfast in the dining room at Judy's Cafe.

Members of the yearbook committee are Mrs. V. L. Peel, Mrs. Pat N. Walker, Mrs. Boo Olson and Mrs. Arnold Parrish, and Mrs. Thurman Francis, chairman.

Garza County Will Have Fair Booth

Garza County is one of 14 counties which will have a county agricultural exhibit at the Panhandle South Plains Fair Sept. 24-29, announced Supt. Lowell D. Richardson.

The county's entry was submitted by County Agent Lewis Herron. Each county entering booths in the agricultural show automatically receives a \$50 participation award, providing the quality of the booths is educational in nature and acceptable to the officials of the agriculture department.

Purpose of the agriculture building exhibits is to be a "Show Window" of South Plains agriculture, and only deserving exhibits will be paid the \$50 cash award.

All county exhibits will be carefully and tastefully arranged. Neatness, attractiveness and general arrangement of the exhibits will be scored on a basis of 100 points. Each county must show 25 different kinds of agricultural crops which shall be selected and scored for a total of 900 points. The total possible score will be 1,000 points.

Fair President R. E. (Bob) Gee is expecting one of the greatest fairs ever to be held in Lubbock. One of the top attractions will be "Holiday on Ice of 1956" which will be seen in Fair Park Coliseum for nine performances beginning Sunday evening, Sept. 23, and extending through Friday, Sept. 28. Matinees will be held on Monday, Tuesday, and Friday at 2:30 p. m., with children being admitted at half-price.

From where I sit... by Joe Marsh

Turned Out To Be a Good Break

We had a water main break last Thursday. Happened early in the morning—about two a.m.—and the first thing most of us knew about it was when we tried to turn on the faucets and nothing came out but a hissing noise.

Nobody was inconvenienced much though. Repair crew went right to work—and things were fixed up in jig time.

Incidentally, the water company got a flood of payments on overdue bills that day. Lots of "forgetful" folks must have figured they were being warned!

From where I sit, sometimes our obligations slip our minds. Like the responsibility we all have to our communities... to see that our neighbors enjoy the right to decide for themselves how to work, how to vote, whether or not to enjoy a bottle of beer. Any time we "forget" we owe this right to others, we take a chance on stopping the flow of tolerance that makes this country such a grand place for us to live in.

Security is everyone's byword in this era of tension, anxiety, and bristling competition. It's the goal of government, industry, business, family, and nations.

Security generally means being sure of something, or even someone. But, no one gets security without giving. It is not self-accomplished. Other people and factors contribute in providing our security.

Above all, God alone is the source of security and serenity. Society cancels out our security with finality when we run afoul of its standards, whereas God endows us with the privilege of obtaining forgiveness and mending our ways.

How secure are we against the disasters and perils of life and against our own imperfections? To find the answer, turn to God's Church where we will find the fountain of security.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Thuett Re-Elected To Lyntegar Board

L. G. Thuett Jr. was re-elected to the board of the Lyntegar Rural Electric Cooperative at the annual membership meeting Tuesday night in Tahoka.

Approximately 2,600 persons attended the meeting, at which Texas humorist Boyce House was the featured speaker. Many of those attending were members from Garza County.

Harold Douglas, Lubbock auditor, reported on the financial condition of the co-op, saying that the organization showed a net gain of \$276,900 this year on a total income of \$884,604 less expenses of \$567,704. Last year, the co-op had an income of \$665,143 and expenses of \$511,785.

On July 1, the report showed, the organization had 7,938 accounts—including 1,296 irrigation wells—an increase of 389 accounts during the past year.

Other speakers included George Pfeifferberger of Lubbock, executive vice president of Plains Cotton Growers, Inc.

More than \$700 worth of electrical appliances were given to 52 prize winners at the meeting. There were rides for the youngsters.

School time isn't very far off and with band rehearsals, football practices, and so forth going on all the time, it makes it seem even nearer. Most of the kids are making their plans to go to college too. PHS opens the football season on Sept. 7 with a non-ference game with Rails. Which reminds me—this is the first time in years Post hasn't played Slaton close to the end of the season. Slaton is the first conference game and will be played here on Oct. 5.

With the rodeo finished for another year—Post has kinda settled down. Among a few of the former Postites seen here during the rodeo were: Beverly Bland, Kay and Gay Roberts, Keith and Tommy Bird, Larry McCullough, Mr. and Mrs. Bobby Page (Eva Lou Key), Anne Osborn and lots of others.

A few of the couples seen together lately include: Travis Polk and Carolyn Hudman, Billy Gray and Sandra Ray, Vernon Scott and Jo Ann Lee, Don Tatum and Anne Porterfield, Corkey Ammons and Alane Norris, Noel Wilson and Mildred Wells, and Frank Bosman and Elizabeth Todd.

75 Horses From Three States Exhibited In Saturday Event

Connie Connell of Dermott showed the grand champion stallion and Don Long of Post the grand champion mare in the eighth annual Garza County Quarter Horse Show held here Saturday afternoon.

Seventy-five horses from three states were shown. George (Scott) Samson, superintendent, described the show as "the best in the history of the Garza County Quarter Horse Association."

Owner of the stallion shown by Miss Connell is her father, Wilson Connell. The horse's name is Tom Baker and he placed first in the class for stallions foaled in 1953 or before.

The grand champion mare, owned by J. W. (Bill) Long, is a filly, which took top honors in the class for fillies foaled in 1956.

Trophies donated by the American Quarter Horse Association and Post business firms were awarded the grand and reserve champions and winners in other classes. Ribbons were awarded through sixth place.

Awarding of trophies was in charge of Misses Ruth Ann Long, Kay Martin and Minnie Lee Mathis, 1956 Junior Rodeo queen.

Approximately 300 persons attended the show, which was held at the rodeo arena. Clyde Miller of Gail was the judge.

Vote For RALPH YARBOROUGH For GOVERNOR

Ralph Yarborough is the only candidate for Governor who has offered a program:

Ralph Yarborough has outlined to the people of Texas his program for water and soil conservation; he inaugurated the only water program which Texas has when he was Assistant Attorney General of Texas. His opponent has been in various positions during the last 20 years to do something about soil and water conservation but has failed to do anything.

Ralph Yarborough has a program for drought relief, but although his opponent is a U. S. Senator and in a position to do something about that still he neglects it in his effort to step down to the Governor's office—Why?

Ralph Yarborough has a school facility and teacher retirement program whereby the children of poor families would have equal opportunities with the wealthy to get a college education. He proposes to give the widow's son and the orphan girl the educational opportunities they deserve.

Ralph Yarborough has a program to remove Texas from its disgraceful position in its treatment of Old Age Pensioners, Blind, Needy Children, Juvenile Delinquency problem, mentally ill, and Public Health and Hospitalization program. He proposes a program in the name of HUMANITY as opposed to the SPECIAL INTEREST program of his opponent.

Ralph Yarborough proposes larger Workman's Compensation payments for disabled and injured laborers to be more in keeping with present day standard of living. Industry and big business oppose this program and are contributing money and active campaigning to Ralph Yarborough's opponent, yes this is being done in Post too.

Ralph Yarborough is carrying the banner of honesty in government and he is the person who has been mainly responsible for the exposure and removal of some of the corruption in high places in government in Austin. Ralph Yarborough's opponent can not claim any credit on these scores. The truth is that Ralph Yarborough's opponent for nomination for the Governor's office is one of those responsible for corruption in Texas government during the last few years. PRICE DANIEL, as Attorney General of Texas, approved the charter of U. S. TRUST & GUARANTY COMPANY and permitted it to issue stock without nominal or par value, thus he set in motion the biggest insurance fraud ever perpetrated in Texas, with loss to over 400,000 policy holders, causing many whom each of you know to lose their life's savings. While Attorney General PRICE DANIEL was a member of the VETERANS LAND BOARD and as such on November 18, 1952, approved block sales of the now notorious Cuero and Crystal City fraudulent deals, in the "Cuero" deal the block of SAND DUNES was sold to 20 veterans at \$232.50 per acre and in the "Crystal City" deal the block of equally worthless land was sold to 17 veterans at \$225.00 per acre. All these things are a matter of public record in Austin. DISGRACEFUL, yes; but thanks to the untiring efforts of RALPH YARBOROUGH they have not only been exposed but all are now familiar with the fact that the money stolen from the Veterans Land Board in those transactions has been recovered—it would never have been recovered, except for the efforts of RALPH YARBOROUGH.

Ralph Yarborough proposes stringent Lobbyist laws, an honest government for the people and not for special interests, free of entangling alliances and partnerships with the outgoing administration.

Income Tax Relief Is Due Farmers Selling Stock Due To Drouth

Drought stricken farmers have been provided income tax relief on the sale of livestock by Public Law 629 approved June 29, 1956. When a farmer has to sell his livestock, in excess of the number that he usually sells in his ordinary business, due to a drought, he can consider the sale as an involuntary conversion. The tax relief provisions relating to involuntary conversions have in the past applied to such things as the burning of your house, losses by flood, etc. on which insurance is collected. No tax is due on the sale of property due to an involuntary conversion if the property is replaced with like kind within a specified period, generally before the end of the following year.

H. O. Nichols, administrative officer of the Lubbock office, stated that farmers who are having to sell livestock due to drought conditions will qualify. He pointed out that the Farmers Tax

Mr. and Mrs. Cecil Cummhage have returned from a 10-day vacation trip to New Mexico, Colorado, Kansas, Oklahoma and South Texas.

Guide for 1955, Internal Revenue Service Publication 225, sets out the procedures the farmers should follow in Chapter 13. Publication 225 is available at Internal Revenue Service offices and at county agents' offices. Thousands of farmers used this publication in preparing their 1955 tax returns.

HAS BEEN STUDYING TEXTILE INDUSTRY

Turk Expresses Regrets At Leaving Friends On Return To His Homeland

(Editor's Note: The following farewell to the many friends he has made during his short stay in Post was written by Yilmaz Oral, native of Turkey, who has been employed at the Postex Cotton Mill for the last few weeks. He has been studying the textile industry in Germany, England and the United States on a five-year permit from the Turkish government.)

Four months have gone by and the day of my departure from Post is very near. Is the life therefore wonderful because we very often do not notice how fast the time goes by? It is difficult to give a positive answer to this question.

My excitement now is as keen as that of the moment I left Southampton, England, and the moments I spent aboard my ship gazing in wonderment at the silhouettes of skyscrapers. I was at last in New York, a very important and wished event of my youth.

During the whole disembarkment, in a hurried crowd, I was as happy as any other passenger, although no one had come to meet me and financial difficulties were confronting me. It was the happiness and contentment of an ambitious heart and the feeling of an unlimited joy.

I always thought that a very long stay abroad without visiting the States could not give me a wide knowledge about the world. Perhaps that was because my own country of Turkey and the United States have so many common interests. This country is in any field of endeavor a very advanced one. Then, too, we the people of the free countries need to know a bit more about each other's life.

New York City, New England, Southern States, and finally Texas—and Post! This is the picture of my visit, every day of which I have enjoyed very much indeed. A stay full of changes, enabling me to see interesting parts of the country, to follow its people's daily life and to exchange opinions with them on different subjects of common interest.

The more I see and learn about new things, the more I change my point of view. It has been the case after this nice visit, too. I am not looking at the world with the same eyes of four months ago, and am not thinking of every

day affairs the same way. As a matter of fact, an intellectual revolution has taken place in my mind. Having had the privilege of coming to this country is one of the best gifts ever bestowed upon me.

Next week I shall be on my way to a new life, a life different from that of studying and training, a life full of intensive work and goodwill awaiting me in Turkey; a new beginning, with responsibilities toward a small community in which I am going to live, to my family, and, finally, to myself.

I am very happy about being about on the first step into this new world. I sincerely think that my having spent a few weeks in Texas, including my experiences in Postex Mills, will help me to find the most suitable way to complete happiness in my new fields of endeavor.

I am also happy to have made a small group of friends while in America. I don't know how to express my thanks for everything they have done for me. But I sincerely hope that I, too, may someday have the opportunity to welcome them or their children with the same warm hospitality they have shown me.

The world is not as big as it seems to be. Therefore, here is my address, dear friends. Please reserve a little space for it in your address books. Some unexpected occasion might bring you to Turkey. If so, please do not hesitate to call on me:

A host of friends met at the Winnie Tuffing farm for lunch Monday. Those present included Mrs. Tuffing's daughter, Mrs. Gloria Kline, of Spokane, Wash.

Dazzling 'Esplanade Of Light' To Be Feature At This Year's State Fair

Spectacular illumination and scenic water effects will be incorporated into a dazzling "Esplanade of Light" for the 1956 State Fair of Texas, Oct. 6-21.

The lighting effects will be the most magnificent and thrilling since those which illuminated the Texas Centennial Exposition on the Dallas fairgrounds in 1936.

In addition to the modern theatrical illuminative techniques, an array of 1,772 jets and fountains of water will leap and cascade in and around the 730-foot-long reflecting pool which forms the centerpiece of the Esplanade, just inside the main gates to the fairgrounds.

Lights playing on and under the water will provide ever-changing kaleidoscopic effects of magnificent color.

Dallas Power and Light Company is co-sponsor of the State Fair of Texas with the lighting and fountain project.

The Esplanade of Light will utilize enough electrical voltage to light up a small city. There will be a total of 981 spouts and fountains. Special mercury vapor lamps will give a silver-green glow to the 40 great live oak trees along the Esplanade.

The overall lighting effects for the Esplanade of Light were designed by C. M. Cutler of General Electric Company. Mr. Cutler is one of the world's top experts on illumination. He served as director of lighting for the Texas Centennial and was also a consultant on lighting for the Chicago Century of Progress Exposition. From 1927 to 1939 he represented General Electric on lighting matters at the New York World's Fair.

Everett Folsom, illumination engineer for the Dallas Power and Light Company, is working with Mr. Cutler on the project, serving as the Dallas coordinator. He also played a major role in lighting the Texas Centennial.

MODERN PHONES

ABILENE—Hand-cranked telephones are marvels of modern communication in some of the jungle areas of West Africa. So when Miss Aetha Fuller left for her mission post at Joinkrama, Nigeria, she took six more. Three of the hand-cranked telephones earlier were installed at the Southern Baptist Mission Hospital there. The six she took with her were a gift from the Taylor County Telephone Cooperative. The agency no longer used that type.

ing the Texas Centennial. One huge 25-foot star shaped fountain in the reflecting pool will have 1,080 separate jets of water. Two 6-foot rings will have 226 jets each, shooting 25 feet into the air, and lighted by colorscopes. Five 18-foot stars will shoot water 20 feet into the air along the length of the reflecting pool, and at the lower end the two 25-foot pylons will have a colorful flow of water cascading down its length.

Yellow "buttercup" lights, 83 on each side of the pool, will line the bordering walks.

IT COULD HAVE HAPPENED—Emergency hospital scenes like this would have been duplicated across the nation if the assumed toll of "dead" and "injured" during Operation Alert, 1956, had not been merely "paper casualties." The 200-bed emergency hospital, including part of the sorting (triage) area shown here, has been designed by the FCDA to be moved into disaster areas and set up on short notice. It is complete with X-ray, operating room and other usual hospital equipment.

Turkeys And Rice On Plentiful Food List

COLLEGE STATION (Spl.)—A record turkey crop is expected this fall—about 10 million head more than a year ago.

Heaviest increases in farm marketings over a year ago are due in September, placing turkeys at the top of the U. S. Department of Agriculture's plentiful foods list for the month.

Rice is another top feature on the list. While this year's crop is estimated to be about 13 per cent less than last, carryover supplies are still heavy.

With the drought forcing more cattle to market than last fall, beef also makes the September plentiful list. Since most of the cattle are off grass, supplies of intermediate and lower grades of beef will be especially heavy.

Good catches of tuna coupled with a heavy carryover from last year have put canned tuna in oil on the list.

Too, broilers and fryers, milk and other dairy products, fresh Bartlett pears, summer vegetables and peanut butter complete the list.

"GOT SHOT"

LYNNFIELD, Mass.—A lost 3 year old girl's statement that she "got shot yesterday" was good enough to establish her identity. Police got in touch with Dr. Thomas B. White, who had been giving polio shots in the area. He identified her as Karen Dineen.

Mr. and Mrs. W. C. Kiker, Alice Fay, Wayne and Deane returned from a two week's vacation in Central Texas, Cleburne, Grandview and Hillsboro. They also visited in San Angelo with Mr. and Mrs. G. W. Norris and Mr. and Mrs. I. M. Kiker.

Members 4-H Clubs Attend Camps For Conservation Study

COLLEGE STATION (Spl.)—Texas 4-H club members have for many years attended special camps each summer where subjects ranging from wildlife to human conservation have been studied. For almost 20 years these camps have been financed in part or total by the Federal Cartridge Corporation.

The 1956 camps were held in Extension districts 3 and 5 at Buffalo Gap and Lake Trinidad with 218 4-H members and 105 others including county extension agents, specialists and leaders attending. Training in such subjects as soil and water conservation, plant life, forestry, wildlife, entomology, conservation of human resources and rifle and highway safety was given.

Each 4-H member in attendance prepared a statement on their experiences at camp and one boy and girl from the two camp groups was awarded a year's membership in the National Geographic Society by the Federal Cartridge Corp. for excellence in reporting.

Winners of the award in District 3 were Bonnie Lenoir of Stephens county and Jimmy Couch of Baylor county. The District 5 winners were Janet Kay Castle of Hopkins county and Paul Payne of Titus county.

Miss Lenoir reported new information gained in water safety, recreation planning, new ideas on crafts and safety practices. She expects to use the information in working with other 4-H members and home demonstration clubs.

BITS-OF-NEWS

Mrs. Roy Brown Jr. and Richard returned home with Mr. and Mrs. J. R. Kiker Sunday from Cleburne where they had been visiting.

Mr. and Mrs. Dale Kidd of Lamesa visited in the Grady Hunt home during the weekend.

Jack Lancaster attended the educator's meeting in Lubbock Friday.

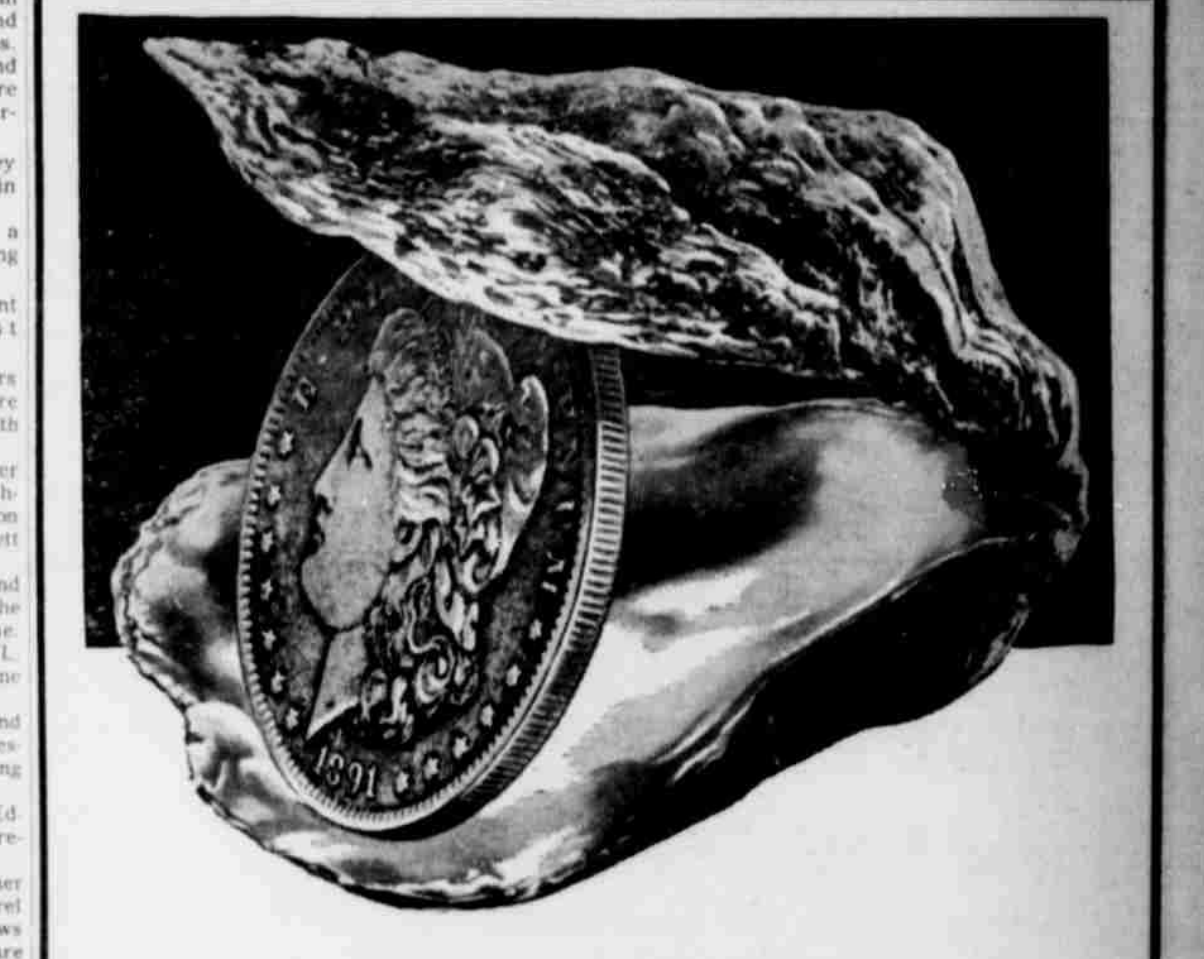

Mr. and Mrs. Walter Boren returned early last week from Albuquerque where they visited with their children, Carolyn and Jim, and in Farmington with another daughter, Mildred, and her husband and baby. The Tom Woods of Lamesa accompanied them on the trip.

Walter Didway, who is employed by the Snyder Daily News, visited here Sunday with his parents, Mr. and Mrs. Charles Didway and Curtis.

Mrs. Helen Rhodes of Lawton, Okla., spent several days of last week visiting her sister, Mrs. H. D. Moreman.

Couch lists information gained on insects and wildlife as very valuable also his experience working with other campers in his capacity as district co-chairman.

Miss Castle says she hopes to make a collection of birds and animals and prepare them for use in demonstrations to be given in her home county. Payne reported that the training he received in soil and water conservation and forestry will enable him to do a better job on his home farm and also in helping other 4-H members with their conservation activities.

LONE STAR AGRICULTURE

Texas Only State With No Legal Means Protecting Egg Industry

By JOHN C. WHITE
Commissioner of Agriculture

Egg production is big business in Texas—187 million dozen worth each year, to be exact.

Yet Texas stands alone among the 48 states with no legal means of protecting its egg industry. As a result, the housewife suffers through unrestricted shipment of inferior egg products from other states, as well as frequent misgrading and labeling which sells her poor-quality eggs branded as "top-quality."

Farmers and egg industry men, alike, are now asking that the State Legislature pass a uniform grading and labeling law. Such a law would have a double purpose:

1. It would protect the consumer. The industry wants to guarantee the housewife that she will get 12 good eggs in every dozen she buys—and that the eggs actually are of the size and grade which the label claims.
2. It would assure the producer a fair price for the grade of eggs he sells, by encouraging and promoting payment according to quality.

Such a law is a strong possibility in the next session of the Legislature. In the meantime—and especially during the hot summer months—industry men are recommending to producers methods to keep eggs fresh until they are sold and consumed.

Egg producers are urged to gather their eggs at least three times a day in wire baskets and leave them in the baskets overnight in a cool, damp, ventilated place.

A good on-the-farm storage temperature is around 50 to 65 degrees if eggs are marketed often.

The humidity should be 65 to 80 per cent.

These steps are also suggested:

1. Clean dirty eggs with steel wool, sandpaper or emery cloth brush. Be careful about actually washing unless you know the procedures recommended, or the quality can deteriorate rapidly after eggs are wet.
2. Pre-cool egg cases or cartons before packing eggs.
3. Pack eggs with the large end up.
4. Market at least twice a week, more often if possible.

Nation's Cotton Acreage Down 37 Pct. Since 1951; Production Only 3 Pct.

COLLEGE STATION (Spl.)—Cotton acreage has dropped in the nation 37 per cent since 1951 but production by only 3 per cent. In Texas, John McHaney, extension economist, reports the acreage of cotton dropped 42 per cent during this same period but production only 1 per cent.

Production is up because, he says, there is no better income-producing enterprise than cotton for the cotton belt. It is a dependable crop and responsive to improved cultural practices. He predicts that acre yields will continue to increase. Since 1951, nationally, yields are up 52.9 per cent and in Texas 69.9 per cent. Too, production in the Far West has increased very rapidly where yields average around 700 pounds an acre. Other areas making noticeable production increases have been the Mississippi Delta, Lower

Santa Fe carloadings for the week ending Aug. 11 were 22,620 compared with 23,023 for the same week in 1955. Cars received from connections totaled 11,801 compared with 11,905 for the same week in 1955. Total cars moved were 34,421 compared with 34,930 for the same week last year. Santa Fe handled a total of 34,961 cars in preceding week of this year.

Farmer residents of Wise County will hold their annual reunion north of the swimming pool at Mackenzie State Park in Lubbock on Sunday, Aug. 19. Mrs. H. H. Kemp of Lorenzo, secretary, has announced. Speaker will be the Rev. Joe Motesbocker, Idalou. Those attending are asked to bring basket lunches.

Rio Grande Valley and the Texas High Plains.

McHaney points out cotton has been planted on the better land and that growers are also using better varieties, cultural methods, following stricter insect control programs, using more fertilizer and irrigation to increase production. Too, he believes, as more and more of the known production technology is applied, yields will continue to rise.

From the consumption standpoint, McHaney says cotton has not shared the increased use of fiber. In 1920, cotton's per capita consumption was 26.3 pounds and in 1954, 25.4 pounds. Per capita consumption of synthetic fibers in 1920 was only .1 pound while in 1954 it was 9.1 pounds. The per capita consumption of wool, silk and flax was 3.5 pounds in 1920 and 2.4 pounds in 1954.

McHaney expects consumption of cotton to increase with the rising population but points out that cotton faces a crisis in its research program to meet its competition with other fibers. He says strong competition from foreign cotton producers can be expected and if present trade policies remain in effect exports may equal or slightly exceed the average for the past four years. Because of incentives and opportunities to apply technology, production is expected to continue to exceed demand.

Mr. and Mrs. Roger Hensley were accompanied to Colorado this morning by Mr. and Mrs. Tom Henderson. They plan to spend several days there vacationing.

ALSO KNOWN AS LOCKJAW

Ancient Disease Of Tetanus Is Still With Us, Says Health Commissioner

AUSTIN (Spl.)—A disease 2,000 years old is still with us according to Dr. Henry A. Holle, commissioner of health. The disease is tetanus or lockjaw and is caused by bacteria found in earth, garden mold and manure. The bacteria are normally found in the intestines of animals, such as horses, cows, sheep and goats.

Tetanus bacteria thrive where there is no free air or oxygen. That is why a puncture wound such as that caused by nails, splinters, or gunshot is the most dangerous. Especially is this true when the injury occurs in a barn yard, cow pasture, or where field manure has been used.

All such wounds should be taken seriously. They should be opened,

cleansed, and dressed by a physician.

If tetanus develops, such signs as restlessness, stiffness of the neck, a tight jaw and beginning stiffness of the arms and legs may be observed. Usually such symptoms develop about five to eight days after the injury. Children may have convulsions and there will be fever.

It was not until late in the 19th century that a preventive measure was developed. At first, this protection against lockjaw was given separately. As years passed and research continued, doctors perfected a vaccine or preventive measure to protect the person early in life.

Now this protection is given at

CAREFUL HANDLING OF FOODSTUFFS URGED

Hot Weather Means An Increased Possibility Of Food Poisoning

AUSTIN (Spl.)—Hot weather means an increased possibility of food poisoning if foods aren't handled carefully, according to Dr. Henry A. Holle, commissioner of health. Bacteria grow more readily when the weather is warm and this presents the danger of food poisoning. Modern refrigeration and sanitary handling can eliminate part of the danger, but food poisoning still occurs, largely because of carelessness.

Sickness from food poisoning usually strikes quickly and violently. Those who do not eat the infected food escape. Usually in one to four hours after eating contaminated food, victims feel ill. If it is a mild case of poisoning, recovery usually begins in eight to 12 hours, but victims may feel the ill effects for several days.

Usual symptoms of food poisoning are diarrhea, nausea, vomiting, abdominal cramps and weakness. The effects of food poisoning may be mild, causing only slight weakness and discomfort, or they may be severe enough to result in death. Unfortunately, you can't always tell if food is

safe by its appearance, smell or taste. A physician should be called when any of the symptoms of food poisoning are felt.

The staphylococcus organism grows best in foods which are quite fatty, such as ham, pork, salads, or sandwiches with rich dressings, cream pies, cream puffs or any food with custard fillings. When you prepare a picnic lunch, or a lunch to take to work, it is best not to include these foods in it unless they can be kept chilled until eaten.

Possibly the worst feature of staphylococcus infection is the ease and speed with which it is transmitted to large numbers of persons. It can easily start from a small cut or sore on the hands or body of a careless foodhandler.

Botulism, which is about the most dangerous kind of food poisoning, may be found in home-canned vegetables that have not been preserved properly. Home-canned string beans seem to be one of the chief foods carrying this poison. Commercially canned food is safe.

Canned food of any kind that appears foamy and smells bad should be thrown away. Never taste food which is suspected of being spoiled. A very small amount of botulinus poison may be fatal. Home-canned food that is spoiled should be kept away from small children and buried, where animals cannot find it.
