## Giles Connell Is Seriously Ill In Colorado Hospital

Giles Connell, who has been critically ill with a heart ailment the past week in Glochner Hospital in Colorado Springs, Colo., was considered noticeably improved last night, the Post Dispatch learned in a telephone conversation with Mrs. John Herd who, with Mr. Herd, had been allowed to visit him in the hospital. The Herds are spending several months in their summer home at Chipita Park, Colo.

Mr. Connell, pioneer Post rancher and business man, suffered a series of severe heart attacks last week and has been under the care of one of the nation's leading heart specialists. Although there is now definite hope for his recovery, Mrs. Herd said he is still seriously ill and that he is under an oxygen tent.

Mr. and Mrs. Connell had been vacationing near Colorado Springs since the latter part of July. They were planning to move into a recently purchased summer home at Chipita Park, when he became ill.

Their son-in-law and daughter, Mr. and Mrs. Carl Adams, and other relatives of Fort Worth and their grandson, Giles Dalby, have been with Mrs. Connell at his bedside. Dalby, a Post High School student, planned to return home today if his grandfather's condition was still improved by this morning.

Connell, who has been a Garza County rancher for a number of years, is president of the First National Bank and is the local Chevrolet and Oldsmobile dealer. He is a brother of Mrs. Nell McCrary and uncle of Giles McCrary.

## Teachers Will Be Honored Tuesday

An annual banquet for Post school teachers and their wives and husbands will be given by the Rotary Club at 8:00 o'clock Tuesday night in the City Hall. Rotary Annis will be guests.

A guest speaker will be engaged for the occasion.

The program will be presented as a welcome to the teachers and their wives or husbands to the community and an expression of appreciation to those who have taught here in previous years.

## New Bus Schedule Announced Today

A Post Bus Station advertisement published in today's Post Dispatch calls attention to the new bus schedule, which is now in effect.

H. W. Dodd, bus agent, suggests that persons who plan to travel by bus in the near future clip the advertisement for reference.

## Rip-Roarin' Weekend Keeps Sheriff's Department Busy

The Labor Day weekend was a rip-roarin' one for the Garza County Sheriff's department, who arrested so many people they had to release one prisoner before the last bunch could be detained.

The released prisoner was a white man who had been found "passed out" in a honky-tonk in the flats at 4 a. m. Sunday by the local peace officers. Charged with drunkenness and jailed, he was sober enough to be released by the time the jail was needed for eight of nine negroes arrested Sunday evening during the raid of a farmhouse honky-tonk in the Garza County area of the Grassland Community, Sheriff E. M. Bass said.

The Grassland raid was made by Sheriff Bass and Deputy Sheriff Vernon Lobban and Lynn County Deputy Sheriff Claude Johnson who had been tipped off that a serious fight was taking place.

Of the nine negroes arrested, five were charged with crap shooting, three with drunkenness, two with carrying concealed weapons, one with running a gambling house, one with oper-

## Schools Begin New Season With Large Number Of Pupils And No Bad Mishaps

Schools of Post and Garza County opened Monday with a faculty that was almost complete and with no unusual mishaps.

Although a complete number of students enrolled in the rural schools was not available by press time, County Supt. Dean Robinson was of the opinion that the Justiceburg School showed the greatest increase in enrollment. This school, which last year had an average daily attendance of 23 pupils, enrolled 38 students Monday.

Robinson by press time was seeking advice from Austin as to whether a second teacher would be permitted for Justiceburg under the Gilmer-Akin Law, or whether it would be advisable to send one of the six Justiceburg grades to Post. Mrs. V. A. Lobban is the only teacher at Justiceburg.

A total of 425 grade school pupils and 169 high school pupils had been enrolled by Tuesday morning, but it is known that additional pupils had been enrolled in both schools by press time. The grade school, which has 14 teachers, averaged 30 pupils per teacher, E. E. Pierce, Principal said.

Pierce recalled that the grade school had 403 pupils at the end of the first six weeks of school last year and 452 pupils at the close of school in May. He believes that at least 452 pupils will be enrolled by the end of the first six weeks this year.

In high school Tuesday morning, there were 33 Seniors, 51 Juniors, 44 Sophomores, 78 Freshmen and 63 Eighth Graders. (Continued on Back Page, Col. 3)

Enter Grandstand From South End For Reservations

Attention football game reserved seat holders: All persons having reserved seats for the football stadium are hereby notified to enter the grandstand from the south end as the north entrance to the reserved seats has been blocked off for the protection of the reserved seat holders.

With the north end blocked off, children and other spectators who do not have reserved seats will not be able to crowd into the section and block the view of the holders of first row seats.

The announcement was made yesterday by Supt. G. R. Day.

## Everybody Asked To Booster Club Meeting Tonight

The Antelope Booster Club will meet at 7:30 o'clock tonight in the high school auditorium for a program to which EVERYBODY is invited.

A movie will be shown. The club functions each year during the football season for the specific purpose of giving organized support to the high school football team and its coaches.

## Davis Resigns CC Job To Enter Tech

Alvin Davis has resigned as Post Chamber of Commerce secretary to enter Texas Technological College for his junior year in Animal Husbandry.

He told the Post Dispatch yesterday that his sudden decision to complete his college education was the result of some information about business opportunities that might be open to him if he gets a college degree in his chosen subject. He will enter Tech Sept. 15, but will continue to work with the Post Chamber of Commerce until his successor is appointed.

W. S. Land, Post Chamber of Commerce president, said it is possible that Davis' successor will be announced next week.

## Horse Show, Calf Roping, Dancing Are Planned Here

Visitors here for the Garza County Fair this weekend will have additional entertainment in the form of the First Annual Garza County Quarter Horse Show, Saturday afternoon and evening, a matched roping, quarter horse performances and dancing Saturday night at the Post Stampede and Rodeo grounds.

The quarter horse show will be held on the vacant lots on the north side of Main Street, just east of the courthouse. Judges will be Roy Parks, Jr., and Buster Cole, quarter horse breeders of Midland. Judging will begin at 2 p. m. on all classes except performance.

The performance class will be judged and all awards will be presented during the intermission at the calf roping, which will begin at 8 p. m. in the Post Stampede Arena. The quarter horse show is sponsored by the Post Chamber of Commerce and the calf roping and dance are sponsored by the Garza County Roping Club.

The matched roping will be between Crosby County's two top ropers, Billy Kirk and Willis Brunson, and Garza County's two top ropers, Jimmy Bird and Lewis Nance. Each will rope five calves. A jackpot roping will follow.

The Texas Plowboys of Slaton will play for the dancing on the Post Stampede Pavilion.

## Miller Wildcat Well Abandoned

It was learned yesterday that P. W. Anderson of Midland and associates No. 1-A Miller, central-south Garza County wildcat, five miles southwest of Justiceburg, drilled to 2,517 feet in Permian lime, and failed to find any indications of oil and gas production.

It has been plugged and abandoned.

## Mrs. Herron's Father Passes Away Sunday

T. L. Looney of Archer City, father of Mrs. Lewis Herron, died at his home Sunday after a long illness.

Mr. and Mrs. Herron and son, Lewis, attended the funeral services which were held Tuesday afternoon at Archer City.

The services also were attended by the Rev. and Mrs. A. B. Cockrell who had been visiting his father at Westover.

## Calvary Baptist Church To Have Revival Meeting

The public is cordially invited to attend the revival meeting services at the Calvary Baptist Church at 9:30 a. m. and 7:30 p. m. daily, from tomorrow through Sept. 18.

Harry Hames of Brownwood will be the evangelist and Richard Everett of Hardin-Simmons University, Abilene, will direct the song service. Mrs. Ray N. Smith will serve as pianist.

## Court Of Honor To Be Open To Public

A Court of Honor for Post Boy Scouts will be held at 7:30 o'clock tonight at the City Hall. Members of both troops and their parents will participate.

The public is invited to attend. A list of the awards presented will be announced next week.

## Band Parents Urged To Tuesday Meeting

The Band Parents Organization will meet at 7:30 o'clock Tuesday night in the Band Room at the high school.

In making the announcement, Mrs. Ralph Welch urged all parents of band members to be present.

## Getting Married Will Be More Complicated Oct. 5

Attention persons preparing to wed: Effective Oct. 5, women and men planning marriage will have to file with the county clerk a certificate form signed by a duly qualified physician stating that a medical examination, including standard serological test for venereal diseases, has been successfully passed. County and District Clerk Ray N. Smith, has announced.

House Bill 588, passed by the 51st legislature of Texas, requires that no marriage licenses shall be issued unless each applicant files such a certificate.

The marriage ceremony must be performed within 15 days after the medical examination, the bill further provides.

Smith explained the "usual case" and the "exception" as found in the law.

The applicant for a marriage license, he said, consults a duly qualified physician for a medical examination and blood test. The physician sends the speci-

### Drouth Broken By One-Inch Rain In Post This Morning

This morning's rain, which measured one inch in Post and was estimated to have been an inch and a half in some areas of the county, broke a drouth which was beginning to put farmers and merchants in the doldrums.

Garza County Agricultural Agent Lewis Herron could not be contacted this morning for a statement as to what effect the rain has on the bollworm situation.

Yesterday he issued a warning that a new threat of bollworms has developed in the west part of the county and suggested dusting before the worms are half grown for best results.

Despite drouth conditions that were prevalent yesterday, Herron estimated that the Garza County cotton crop would yield between one-fourth and one-third of a bale to the acre this year. He said the 78,000 acres of cotton might yield approximately 23,300 bales, which will be a record.

Last year's total yield was less than 5,000 bales and the 1947 yield was 15,600 bales.

The annual Garza County Fair, presented by the boys' and girls' 4-H clubs and the women's home demonstration clubs, Friday and Saturday, will give Garza County residents plenty of reasons to visit downtown Post Friday and Saturday.

Those who are interested in seeing the livestock exhibited should visit the vacant lots on the north side of Main Street, just east of the courthouse, Saturday morning as this space will be used for the First Annual Garza County Quarter Horse Show that afternoon.

All livestock exhibitors should have their animals at the exhibit place by 8 a. m. Saturday. County Agricultural Agent Lewis Herron has announced. Judging will begin by 9 o'clock and the livestock will be dismissed by noon because of the hot weather. The livestock division will include beef calves, dairy cattle, Hereford heifers, swine and horses.

Herron said that the poultry, turkey and rabbit exhibits will be shown in the Post Truck and Tractor building and that the exhibits must be in by 8 a. m. Saturday.

Crops, orchard and garden exhibits must be at Tom Power's by 6 p. m. Friday.

Judges for the above classes will be Leroy Colgin, Dawson County agricultural agent; E. F. Schmedt, Post High School vocational agriculture teacher, and George Samson, veteran agricultural judge.

Details of the women's and girls' exhibits were announced in detail in last week's issue of the Post Dispatch and are summarized in a full-page advertisement elsewhere in today's Post Dispatch.

Mrs. Jewell H. Strasner, Garza County home demonstration agent, said yesterday that included in the Women's Division will be a class on renovated (Continued on Back Page, Col. 2)

### Slogans For City Must Be Turned In By Saturday

There is still a chance to win the \$10 prize which the James C. Cole American Legion Post, No. 270, is offering for the best city slogan.

The slogan, selected from entries sent to the Legion Post or to Commander S. E. Camp, will be used on two 36-foot Scotch-lite Welcome To Post Signboards which the Legion Post plans to erect on the entrances to the city on Highway 84. Local advertising is being sold for the signboards.

Suggestions for the city slogan should not exceed eight words.

Several good entries have been received. Camp told the Post Dispatch yesterday. The deadline for entering slogan suggestions is Saturday, Sept. 10.

# Anti-Trust Laws Should Be Amended To Include Labor Union

Babson Park, Mass.—I am a good friend of every workman, having long been one myself. During World War I, I was appointed by President Wilson at the request of Samuel Gompers the then President of the American Federation of Labor, to be an Assistant Secretary of Labor. I worked closely with the leading Labor Leaders for some time and became fond of them. I think they also respected me.

**Clayton Anti-Trust Act**

When the anti-trust legislation was enacted, I strongly favored the exemption of labor unions from the act. Management then was very strong; it fought

both collective bargaining and manipulated prices. In 80 per cent of conflicting cases the courts ruled against labor when labor was only honestly endeavoring to improve conditions. The membership of all labor unions was then only about 1,000,000. Prices were being fixed; but wages and output were left to "supply and demand".

Today, the situation is wholly reversed. The labor unions number about 15,000,000. The courts are now more friendly to labor than to management. Collective bargaining is enforced by law. The fixing of prices or output by management is criminal; while the fixing of wages or output by labor is upheld by the courts. Therefore, today, management instead of being top dog is the under dog. Consumers today suffer by fixed wages and output even more than they did by fixed

prices.

**Political Changes**

Fifty years ago the political situation was vastly different. Senators then were not elected by the people, but were appointed by the Governors. Hence, most of the Senators were either officials of the big corporations or wealthy men. The Supreme Court was then made up of great lawyers most of whom had previously served large corporations. There was no income tax in those days. All these things gave management an advantage over labor and explains why I felt labor unions should be exempt from the anti-trust law.

Today the Senators are elected by popular vote. The Supreme Court consists mostly of men who were never officials of large corporations but mostly men in humble circumstances. In those days workmen usually voted

with their employers; while today most of them think it's smart to vote directly contrary to what their employers recommend. Labor unions have much more power today than management had 50 years ago.

**Small Businessmen**

Those were days when every small businessman had a chance to become a big businessman. Today under the present income tax it is very difficult for any small businessman to compete both against big business and big labor unions. Today the big corporations are "frozen" big; while the little businessmen are "frozen" little. If you have any doubt about this, write my friend Ernest H. Gaunt of Haverhill, Mass., who has made an intimate study of this situation.

Fifty years ago national advertising was unknown except in the case of patent medicines

and there were only a few national weeklies, and they had small circulations. The Saturday Evening Post then had only a hundred thousand. As a result, advertising rates were so low that the small businessmen could afford to advertise as well as the large corporation. Today advertising rates are 25 times what they were then. The small businessman cannot now afford national advertising as he is obliged to pay the same rate per page as the big operators.

**What Nation Needs**

Today labor unions have a greater and more dangerous monopoly by fixing prices and output than management ever had. Hence, the anti-trust laws should now be amended to include unions and forbid the fixing of prices, wages or output. If the people, through their legal representatives, want to "fix

minimums" this should be permissible, but only through proper legislation. Furthermore, if there need be any exemptions to the anti-trust laws, these should be in favor of the small businessman. He, today, is really in the same unfortunate position that labor unions were 50 years ago.

## Garza and the World

By EVELYN BOYD

With a good part of the population up to their necks in book learnin' this week, we feel inspired to do a little research among the dusty volumes of our bookshelves and dig up some little-known facts.

Let's begin with the Bible: Did you know that the Book of Esther is considered unhistorical by many scholars and that several chapters of the original book are omitted from the present-day Bible? These chapters may be found in the Apocrypha, a collection of books that have been deleted from the Bible.

And Graduate to Literature: Did you know that literature has no stranger or more incongruous masterpieces than Johann Wolfgang von Goethe's "Faust," which he spent 60 years writing? The first part might have been published as a monument to the romantic period of Goethe's youth. The completed "Faust," with its unearthly allegory, sums up the philosophical findings of Goethe's maturity. During Goethe's long period of writing the Faust legend, some 50 other German writers attempted to tell the same story in literature.

And to Music: Did you know that Wolfgang Mozart's full name was Johannes Chrysostomus Wolfgangus Theophilus Mozart?

A point of grammar: Did you know it is incorrect to say "I feel badly" and correct to say "I feel bad"? The former expression implies defective nerves of sensation.

History: Did you know that there is no history textbook written for use outside the country for which it was written? For instance, American textbooks describing the Revolution are sympathetic to the American side of the war while British textbooks are sympathetic to the British side.

Mythology: Did you know that the ancient Greeks believed that, in the beginning, the world was a great shapeless mass or chaos out of which was fashioned first the spirit of love, Eros (Cupid) and the broadest earth, Gaia; then Erebus, darkness, and Nox, night? From a union of the two latter sprang Aether, the clear sky, and Hemera, day. The earth, by virtue of the power by which it was fashioned, produced in turn, Uranus, the firmament which covered her with its vault of brass, as the poets called it, to describe its appearance of eternal duration, the mountains, and Pontus, the unfruitful sea.

Thereon Eros, the oldest and at the same time the youngest of the gods, began to agitate the earth and all things on it, bringing them together and making pairs of them. First in importance of these pairs were Uranus and Gaia, heaven and earth, who peopled the earth with a host of beings, Titans, Giants, and Cyclopes, of far

greater physical frame and energy than the races who succeeded them.

It's a beautiful idea—that of love making order out of chaos, bringing opposite elements together, and preparing a world to receive mankind. Wonder if it would still work, in this present chaotic world?

Philosophy: Did you know that one of the world's greatest men was born almost exactly 2,500 years ago? A teacher during his lifetime, he was also the creator of a philosophy which after his death shaped the whole history of China, spread to many other parts of the world and to this day is a living force? He was K'ung Fu-tzu, whom the modern world calls Confucius. His chief ambition in life was to direct the government of a state. He failed to realize it. He said: "If the people have no confidence in their Government, it cannot stand." This observation holds true today when more and more confused and befuddled people are losing confidence in their spendthrift government.

Science: Did you know that fermentable sugar present in dairy byproducts can be utilized in the production of alcohol and organic acids and that one plant in the United States is producing alcohol from whey and converting the alcohol into vinegar? Maybe everything is relative and milk and whiskey have more in common than the WCTU believes.

Religion: Did you know that only 39.6 per cent of the world's people are Christians? The Christians are the Catholics, 17.7 per cent; the Protestants, 12.7 per cent, and the Greek Orthodox, 9.2 per cent. Twenty-six and three-tenths per cent of the world's people are Buddhists, Shintos and Confucians, seven-tenths per cent are Jewish, 13.9 per cent are Moslems, 13.8 per cent are Brahmans, and the remaining 5.7 per cent of the people are of other faiths.

Geography: Did you know that no inhabited place on the globe is more than 50 hours' flying distance from any point in the United States? That Perth, the capital of Western Australia is approximately 11,000 miles from Chicago and that the South Pole is only about 9,000 miles from Chicago?

Meteorology: Did you know that half of all the air has an altitude of less than four miles; only one-quarter of it lies in the stratosphere? Rain, clouds and winds occur mostly below seven or eight miles; above this, the sun shines brightly on the calm, rarefied air. The temperature drops rapidly to about 60 degrees at seven miles, but above this altitude there is little change. The temperature at 40,000 feet is about the same over the Arctic Circle as over the equator.

Logic: Did you know that a cow tied to one end of a five-foot rope can eat a bundle of hay that is 10 feet away? She can if the other end of the rope is untied.

There is real danger in raising chickens and turkeys on the same ground. Diseases fairly mild in chickens are often extremely serious in turkeys.

## THE POST DISPATCH

ESTABLISHED IN JUNE, 1926  
Published Every Thursday at the Dispatch Publishing Company Building in Post, Garza County, Texas.

E. A. WARREN, Publisher-Editor

Entered at the Post Office at Post, Texas, for transmission through the mails as second class matter, according to an Act of Congress, March 3, 1879.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

### Minute Editorial

For the last three years there has been a crying need in Post for housing facilities to take care of the school teachers and the oil people. Hardly a week fails to bring to the Post Dispatch office someone or several groups of persons requesting a "list of apartments or houses." The Post Dispatch hasn't seen anything that could correctly be termed such a list in three years, as most apartments and houses are rented to a new tenant before the last one has finished moving out. Just last week, there remained one vacancy on the Post school faculty and filling it was contingent upon whether or not adequate housing for a man with a family could be obtained. When the point is reached that a teacher has to take a job where he can find a house rather than where he will best fit, something should be done by the town with the inadequate facilities. Local persons in position to build rent houses, and apartment houses or a needed tourist court, if it would make a bid for the transient trade and the oil people who are only here for a few weeks at a time. This would leave some of the older apartments for the teachers and permanent residents. Such a building might help pay its own way if it included several small corners which might be rented out as offices or shops catering to the transient trade. It would be a fine thing for Post if such a building could be put up in the near future.

### What Our Contemporaries Are Saying:

**RESEARCH NEEDED**—There is no doubt that Slaton is expanding just as most all towns over the nation are doing and I hope the growth is a healthy one. There is such a thing as too much competition in certain lines of business but I do not think such a condition has arisen in Slaton, for far too much business has gone to Lubbock from Slaton in the past.

There are certain things that are not available in Slaton and some traffic must be had between us as a small town and Lubbock as a larger one. The same condition holds true of Dallas, Fort Worth and other centers for there are many things that are not available in Lubbock that can be secured in the towns larger than Lubbock. Some organization that is interested in the growth of this community should make a study of the number of lines of business that are not represented in Slaton and have the information available for young men who are looking for opportunities to open businesses in the town. Future planning often means

the growth or stagnation of a town, or community, and from what little I know there are no definite plans for Slaton's future.—Slaton Slatonite.

**PUBLIC PARADOX**—Over at Farwell Publisher W. H. (Hop) Graham saw a drunken driver on the streets, threatening life and property of that community. He turned in the driver, and was criticised for doing his patriotic duty. A few weeks ago we chided Randall County citizens for the failure to assist officers in enforcing the law. Hop Graham did his duty, before the drunken driver killed some one. Had he waited until there was a wreck, chances are that a big per cent of the people of his community would have been on the side of the offender, rather than interested in enforcing the law. Funny folks are these Americans who howl to high heaven for law enforcement, and then back the law violator in their crime.—Canyon News.

IT'S NOT A GIFT—Veterans will get a welcome windfall in the form of dividends on their National Service Life Insurance policies . . . and the beautiful part of it is that not a penny of the nearly three billion dollars which is going to be paid out has come out of the taxpayers' pocket, and not a single politician can claim one iota of credit for the payment.

The dollars will come from a \$2,800,000,000 dividend kitty built up in the NSLI fund over the past nine years. They will be distributed among sixteen million ex-GI stockholders in the biggest mutual insurance company ever formed.

This isn't a bonus . . . it isn't a gift. It's interest due every GI policy holder on the money he paid in premiums during the war years and after on his National Service Life Insurance policies.

Visitors in the home of Mr. and Mrs. M. K. Bingham and daughter, Margaret, Saturday were Mrs. Bingham's parents, Mr. and Mrs. G. H. Moore of Comanche, and her sisters, Mrs. Avery Stevenson of Andrews and Mrs. T. N. White of Crane.

## Garza County's Cotton Bale Prospects, Still Good, Are Less Than Predicted

The Sept. 1 estimate by K. N. Clapp of Lubbock, area observer for Anderson-Clayton & Co., Houston cotton firm, on the total South Plains cotton crop gave Garza County 5,000 fewer bales than did the Aug. 1 estimate. Garza County was one of the few in the 20-county area, in which the prospects failed to improve during the "critical" month of August, the report showed.

The report, which was published in the Sunday Lubbock Avalanche-Journal, said in part:

Clapp's forecast of a crop of 1,385,000 bales, based on conditions Sept. 1, was 63,000 higher than his Aug. 1 prediction of 1,322,000 bales.

The figures compare with 614,000 bales actually ginned last year in the 20 counties in Clapp's territory.

### Normal Yield Foreseen

It is one of the few times during the 26 years he has been observing South Plains cotton that his Sept. 1 forecast has been larger than that of the previous month. August drought last year caused him to cut his Aug. 1 prediction of slightly more than 1,000,000 bales to approximately 600,000 on Sept. 1.

Clapp's September forecasts in the past have averaged within about 3 per cent of actual under the final official total.

The observer's largest prediction created a paradoxical situation. It anticipates a crop far exceeding that of any previous year—the previous record was 959,000 bales in 1937. He expects the yield per acre to be about normal.

### Forecast Disappoints Some

Yet the prediction caused disappointment to a good many circles—particularly those who had anticipated ginnings which might run higher than 2,000,000 bales.

Clapp conceded the probability that ginnings might run over 1,500,000 bales, if growing conditions are more favorable this month than he expects.

But he regarded a 2,000,000 bale crop as "out" unless conditions during the remainder of the growing season are phenomenally favorable.

With the weather which reasonably must be expected during September and October, Clapp said he expects ginnings to fall short of 1,500,000 bales.

But he also expects them to range up or down from his 1,385,000 bale forecast, according to whether the weather is favorable or unfavorable during the next few weeks. But he predicted his figure will be close to the final total unless growing conditions are exceedingly good or turn extremely bad.

As he reported last week, his forecast is lower than he anticipated two weeks ago because of the discovery that insect damage earlier in the growing season—particularly leaf hoppers—was much heavier than he had supposed.

Based on present conditions, estimates are that the hoppers probably have cost South Plains farmers 200,000 to 400,000 bales of cotton worth, with seed, \$30,000,000 to \$60,000,000.

However, they still have the prospects of a crop now regarded as a virtual certainty to be worth well over \$200,000,000, with a possibility of hitting closer to \$300,000,000.

### No Drastic Changes Seen

No drastic changes in prospects as observed Aug. 1 were noted by Clapp Sept. 1 in any of the counties of his territory.

An indicated crop of 220,000 bales in Lubbock County was 5,000 below the Aug. 1 forecast. If ginnings should reach such a figure, it would be an all-time record for any county in Texas history. Lubbock, incidentally, has been the No. 1 cotton producing county of the state the last two years—with 126,000 bales last year and 181,000 in 1947.

Among the largest producing counties of the area, the most improvement during the past month was observed in Hockley. Clapp's new forecast for Hockley was 205,000 bales, compared with 185,000 a month previously.

### Dawson Crop Improved

A significant improvement in outlook was reported in Dawson, where practically all the cotton is grown on unirrigated land. He boosted his Aug. 1 forecast of 115,000 bales to \$125,000.

Among the other big producing counties, he upped the Lamb forecast from 160,000 to 170,000 bales and the Lynn total from 100,000 to 115,000, rain last week helped Lamb county's prospects.

In Crosby he cut his Aug. 1 prediction of 120,000 bales to 90,000 a month later. Some spots in that county have suffered from drought and others have been hard hit by hoppers.

The hopper danger now is over this year, Clapp said, but bollworms are spreading in some localities and they could do serious damage unless brought under control. He expects them to be controlled.

Angular leaf spot, a plant disease he described as "generally present" in irrigated fields which have been over-watered. The disease may adversely affect the quality of this cotton by causing it to become spotted.

### Record Acreage Reported

He estimated that 2,761,000 acres remain in cotton, including 698,000 irrigated and 2,063,000 unirrigated. All the figures are record-breakers.

A table accompanying the article showed that Clapp's Aug. 1 estimate for Garza County was 25,000 bales and his Sept. 1 estimate was 20,000 bales. The county had only 5,000 bales in 1948.

## Roy Rogers Invited To Junior Rodeo Of 1950 By Local Folk

Alvin Davis, manager of the Southwestern Championship Junior Rodeo and Post Chamber of Commerce secretary, extended a personal invitation to Movie Star Roy Rogers when he and George Samson were in Amarillo Sunday for the annual Boys' Ranch Rodeo. The invitation which was in the form of a letter, was presented to Rogers on the occasion of a personal introduction.

Davis took notes on the Boys' Ranch Rodeo for his file on "How To Improve the Southwestern Championship Rodeo" and helped with the bucking stock during the show.

Other Garza County residents attending the show included the Charlie Baker family, Mr. and Mrs. Glenn Davis and son, Carol, Mr. and Mrs. Lonnie Peel and son, Lonnie Gene, Jack McClellan and children, Morris and Juanella, and Charlotte Brown.

An estimated 7,500 spectators crowded into the Tri-State Fair Grounds rodeo arena to see the Boys Ranch show. It was believed to have been the largest crowd ever attending a performance there.

Local spectators estimated that the Boys Ranch possibly netted \$20,000 from the show and the collections that were taken during the performance, as the stock and practically all other expenses were donated.

## 'Anything Can Happen' In Friday Night's Season-Opener With Ralls Jackrabbits

A large crowd of local football fans who are eager to see what the 1949 Post Antelopes can do are expected to crowd in to the high school stadium at 8 o'clock tomorrow night for the season's first game with the Ralls Jackrabbits.

Coach V. F. Bingham, who says the Antelopes seem to have the most determination and the least ability of any team since he has been here, is urging the support of local fans.

"The boys have a tough schedule," he said, "and how they meet it depends largely upon the support and encouragement that they receive from the home folk. They have a lot to learn and they will learn it faster if they have the proper encouragement."

As for tonight's non-conference game, the coach says "anything can happen" and he does not know what to expect.

The Jackrabbits have two 205

lb. tackles, but the rest of the boys on the roster are about Antelope size.

The tentative Antelope starting line-up has been announced, as follows:

Billy Lee Smith, center; Jack Schmidt and Calvin Storie, guards; Cletus Graves and Maurice Stelzer, tackles; Jerry Odum and Gordon Carey, ends; Jack Kirkpatrick, quarterback; Ronald Joe Babb, left half; Norman Cash, right half, and Roy Wade, fullback.

Officials will be Harvey Dunn, referee; Goober Keyes, head linesman and Howard Price, field judge, all of Lubbock.

Ralls, with some experienced players on the roster and two new, capable coaches, Doc Brantley of Hardin-Simmons and Tom Daniels of Trinity is expected to have a better season than it had last year. The Jackrabbits have scrimmaged several other good

teams and are better prepared

## Bloody-Browed Post Millers Win Over Slaton To Edge Into Shaughnessy Tilts

In a crucial Oil Belt League game Sunday, the Post Millers established for themselves a decisive fourth place in league standing by defeating the Slaton Lions, 3-1. The victory assured the Millers of a place in the Shaughnessy playoff.

Having clutched at the fourth place position for several weeks, the Millers were put on a precarious spot last week when Levelland's protest against Post was upheld by the league president, Joe Holmes of Lubbock and the upcoming Sept. 4 game between Tahoka and Levelland was forfeited to Levelland. These two "victories" left Levelland only half a game behind the bloody-browed Millers in the league standings.

In Sunday's game which was played in the Postex Park, Doug Simpson and Jess Cornell had three hits apiece as they led Post's 10-hit offensive against J. E. McCoy, Slaton twirler. Windle Greer was the Miller pitcher.

D. Weaver, A. H. Weaver and Roy Kahlich collected Slaton's three safeties, with Kahlich driving in the only Lion run in the seventh inning.

The line scores:

Slaton ..... 000 000 100—1 3 1  
Post ..... 000 120 003—3 10 2  
J. McCoy and D. Weaver; Greer and W. B. Holland.

Sundown, a team which started slow this season but picked up momentum all the way, Sunday nailed down first place in the league standing by defeating Seagraves, 8-6, in a 10-inning game at Seagraves.

Denver City slipped past Seagraves into the runner-up position by blanking Brownfield, 11-0, and Levelland received credit for a 9-0 win in Tahoka's forfeit.

The teams in the Shaughnessy playoff will be Sundown, Denver City, Seagraves and Post.

While definite pairings have not been announced, the final unofficial standings call for Sundown to meet Post and Seagraves to go against Denver City in the first round Sunday.

Each series will be a two or three game affair, with Sundown and Denver City as host teams for the openers. Double headers, if necessary, will be played in Post and Seagraves on the following Sunday.

The two first-round winners then will meet in the league finals, also scheduled for two of three games.

In Sunday's game with Sundown, the Millers will be supported by shortstop Jim Boyd who will leave TCU for the purpose. Boyd played with the Millers this season until he had to return to Fort Worth to work with the TUC Horned Frogs.

Windle Greer and, possibly, Bill Jones, pitcher, will also support the Millers in the playoff games.

This will be the Millers' first time to participate in the Oil Belt League's final playoff. They finished up fourth in 1945, the league's first year, but were not allowed in the playoff because of a protest from Kermit which was upheld.

## Day And Bingham Named Officials

Supt. G. R. Day was elected chairman and Coach V. F. Bingham was elected secretary at a meeting of high school coaches and superintendents of the South Half of the District 4-A Football Conference in the Tahoka High School Cafeteria last Thursday night.

The group agreed to charge the same prices that were charged last year for football games, 75 and 35 cents; but a special admission price of 25 cents each will be offered to grade school students who buy season tickets.

It was decided that members of bands and pep squads will be admitted free of charge at all games which they attend in uniforms or accompanied by chaperones who can identify them.

## Oil Belt All-Star Series Is Canceled

A proposed three-game series in Lubbock between the Texas League's Beaumont Exporters and a team of Oil Belt League all-stars has been cancelled because of failure to arrange for a suitable playing site.

The Lubbock Avalanche-Journal Sunday said that Oil Belt League Representative Curt Wilson, who had been negotiating with Beaumont personnel regarding the proposed exhibition tilts, announced Saturday that he had dropped all plans because he had been unable to secure the use of Sam Rosenthal Field in Lubbock. The series, had it been held, would have been played later this month.

A group of Beaumont players, led by Catcher Vince Castillo, former Lubbock Hubber manager, has been planning an exhibition tour through this section of the Southwest.

for the game than the Antelopes, Bingham believes.

The locals are bubbling over with a hustling spirit and are eager to show everybody that they are not as weak as pre-season publicity would indicate. With this spirit and determination, Coach Bingham believes that the game will be worth the time and money of all of the spectators.

## Junior Football Team Shaping Up For Good Season

Post's 1949 junior football team is looking good to Coach V. F. Bingham who believes that the spectators will get more than their money's worth when they attend their games this fall. The players are 15 years old or younger and some of them are "pretty good size."

Five of eight games have been scheduled to date. They will be played, as follows:

Sept. 22, O'Donnell, there; Sept. 29, Slaton, here; Oct. 6, Seagraves, here; Oct. 27, Seagraves, there; Nov. 3, O'Donnell, here. No dates had been set by press time for a return game with Slaton there and two games with Snyder.

Coach Bingham pointed out that activity tickets will not be good for junior games, for which the admission price is 25 and 10 cents.

## CHURCH NEWS

By GANELL BABB

The W. S. C. S. met Monday afternoon in the home of Mrs. Jim Hundley for a first Monday social. Jim Young, who is working on a masters degree in vocational agriculture at Texas Tech in Lubbock, and received the remainder of his education in Methodist Mission Schools in China, spoke to the group on customs and education in China and displayed some lovely embroidered silk garments. Refreshments were served to approximately 20 members.

The Rev. and Mrs. Lawrence Bridges and daughters of Lamesa visited in Post Sunday. He is pastor of the First Christian Church there.

Harry Hames of Brownwood will do the preaching at the revival meeting which will begin at the Calvary Baptist Church tomorrow evening and run thru Sunday week. Services will be held daily at 9:30 a. m. and 7:30 p. m. Inspirational singing under the direction of Richard Everett of Hardin-Simmons University in Abilene will be heard. Piano accompaniment will be by Mrs. Ray N. Smith, talented pianist.

The "Rachel Fong" G.A.'s of the First Baptist Church met Monday evening in the home of Billie Joyce Ticer with seven members, the counselor and a visitor, Claudia Ticer, present. A program was lead by Annie Mae Pierce. Refreshments were served at the conclusion of the meeting. The group will meet Monday at 6:30 p. m. in the home of Judith King.

Good attendance is the report of the revival meeting in progress at the First Christian Church this week. The public is cordially invited to attend these "spiritual enrichment" services each evening at 8 o'clock and hear a good program of music under the direction of the pastor, Roemer Hudler and the evangelist, Rov Curtis, and Mrs. Curtis, pianist, before each sermon delivered by the Rev. Mr. Curtis.

The Rev. and Mrs. T. M. Gillham Ray N. Smith, L. W. Dalby and Mrs. Carl Hughes are in San Antonio attending a Baptist Sunday school convention, in session yesterday, today and tomorrow.

The Presbyterian ladies will give the yearly prayer retreat at 2:30 o'clock at the church Monday afternoon. A program on prayer will be presented by the Missionary Society. All members of the church and visitors are welcome at the meeting.

Both chapters of the W.F.M.S. of the Church of the Nazarene met Monday evening in the home of Mrs. M. J. Malouf for a covered dish supper, with 24 members present. Mrs. H. E. McClain taught the lesson on Japan.

Miss Ester Batoon, a Filipino, who is a student in TCU in Fort Worth, was a guest at the Tuesday evening services at the First Christian Church.

The Missionary Society of the Calvary Baptist Church met Monday evening at the church with eight members present for a Bible study program lead by Mrs. June Kiker.

The Young People's Training Union department of the Calvary Baptist Church honored their former leader, Mrs. Kike Beauchamp with a surprise party at the church Tuesday evening. Seventeen members were present.

**Farmers Invited To Livestock Program**

September 23 a Livestock Field Day for all the adult farmers in District 2 will be held at Texas Tech in Lubbock. The farmers will assemble in the Agric auditorium at 9:30 a. m. The program will emphasize livestock production. This will involve the study of irrigated pastures and grasses, beef cattle, hogs, sheep and lambs, and dairy cattle. This field day is being held to acquaint farm and ranch people with the livestock program being carried on at Texas Technological College. It is also assumed that there will be a crop control pro-

Mrs. W. F. Cato and children and Mr. and Mrs. Robert Cato and son visited Sunday in Slaton with Mrs. Cato's mother, Mrs. H. M. Binion who is in the Slaton Mercy Hospital suffering from a broken arm, the result of a fall at her home last Friday evening. J. C. A weekend guest in the Davis home was Connie Holcombe of Snyder. gram beginning in 1950 and farm people will be interested in working livestock into their program of agriculture on the farm.

**Local Dealer Is Entered In Ford Safety Campaign**

The personnel at Tom Power's Ford agency has gone "all out" to launch the local dealership's participation in the \$100,000 car safety contest sponsored by the Ford Division of the Ford Motor Co. The local firm is one of 6,400 Ford agencies in the nation entered in the contest during September and October.

A total of 700 prizes amounting to \$100,000 will be awarded winners of the safety contest. Prizes include 25 new Fords including five Ford trucks, 25 \$1,000 U. S. Saving Bonds, 100 \$100 bonds, 200 \$50 bonds and 350 \$25 bonds.

In order to participate in the contest, motorists must bring their car or truck, of any make, to Tom Power's agency for a safety check at no cost or obligation to the motorist. Free checks will be made on brakes, steering, headlights, rear and stop lights, tires, windshield wipers, mufflers, glass, horn and rear view mirror.

An attractive safe driver reflector insignia will be placed on the vehicle inspected and the motorist will receive an entry blank to participate in the contest. Other details of the contest are available from the Tom Power personnel.

The contest has the support of the National Safety Council, the Inter-Industry Highway Safety Committee and other safety organizations.

**Drilling Progress On Several Garza Wells Is Reported**

Oil news: Herman and George R. Brown of Houston, No. 1 G. W. Basin, wildcat in northwest Garza County, had reached 3,640 feet in lime by last weekend and was slated to drill deeper. It had reported no show of oil or gas. The exploration is projected to 3,800 feet.

In southwest Garza County P. W. Anderson of Midland and others No. 1 A. R. Clyde Miller was drilling below 2,300 feet in lime and anhydrite last weekend and was understood to be drilling deeper. This wildcat is five miles southwest of Justiceburg. Comanche Corporation's No. 1-A Garza Deep-Montgomery and Davies south of Post last weekend was bailing to clean out after treating with 1,000 gallons of acid in the Permian lime above total plug back depth at 3,575 feet. It had made no show of new oil.

Seaboard Oil Co. of Delaware and Republic Natural Gas Co. No. 1 OS Ranch, wildcat 15 miles southeast of Post, last weekend was drilling in middle Permian lime below 4,940 feet. This exploration is slated to explore the Ellenberger at about 8,250 feet.

**McConaughy Shots Of Junior Rodeo Are On Display In Post**

Dick McConaughy of San Antonio, free lance still photographer who covered the Southwestern Championship Junior Rodeo in August, recently sent to Post a complete set of 8 by 10 glossy prints of the pictures which he made.

Alvin Davis, Post Chamber of Commerce secretary, put the pictures on display in the lobby of the Garza Theatre this week. He will keep most of the pictures for use in promoting next year's Junior Rodeo, as they are excellent pictures for the purpose.

The pictures include every part of the rodeo, from the registration of the contestants, through the parade to various performances. His bull riding and calf roping shots are exceptionally good.

**Public Rest Room Project Offered To Businessmen**

Sixteen people attended the meeting which the Post Chamber of Commerce called last Friday morning at the Garza Theatre for the purpose of discussing the proposed building of public rest rooms.

Everyone present expressed approval of the plans and estimates that were presented and pledged support to the project. A committee consisting of Guy Floyd, Lester Nichols and Alvin Davis was appointed by the president, W. S. Land, to contact every local merchant to find out whether or not they will help finance the building.

If enough merchants will help with the financing, the cost will be allocated among them, Davis said.

J. C. Curb and family of Canyon visited his parents, Mr. and Mrs. J. T. Curb, and his brothers and sisters and their families here Sunday and Monday.

Mr. Casey, father of Mrs. T. J. Daniels and Mrs. R. Bishop, was moved by Hudman ambulance Sunday from his home here to Mrs. Daniels' home. Mr. Casey has been quite ill for some time, but was noticeably improved by last weekend.

Mr. and Mrs. O. A. Tannehill visited their daughter in Oklahoma City over the weekend.

**Imported Mexican Labor Available To South Plains**

South Plains farmers may use the imported Mexican agricultural laborers to help harvest the bumper cotton crop this year, it was announced Saturday by B. T. O'Connell, manager of the Lubbock District Office of the Texas Employment Commission.

The Lubbock Avalanche-Journal reported Sunday that the Lubbock office has been named as information control point for a wide West Texas area on the cotton harvest labor market. The article said, in part:

**Labor Shortage Feared**

"Several thousand Mexican nationals may be needed on the South Plains in addition to the South Texas workers who always come here for the cotton harvest," O'Connell said. He thought the figure of Mexican nationals needed in this area might run as high as \$20,000.

The TEC fears that the shortage of harvesting help may be more acute this year because of the conflict in the harvesting period in East and Central Texas. The crop in that part of the state is late and consequently many laborers are expected to remain there after the West Texas harvesting gets underway.

**Procedure Explained**

The procedure for importing Mexican nationals for farm labor requires a number of steps, but no great amount of trouble to the farmer. O'Connell estimates it would take about two

**Mrs. Rodgers And Mrs. Voss Named News Tip Winners**

Mrs. Irene Rodgers received last week's first prize of \$2.50 in the Post Dispatch News Tip Contest for reporting the visit here of several well-known pioneer residents of Kent County. The second prize of \$1 went to Mrs. Jessie Voss for reporting the news about Mrs. Beulah K. Rodgers' sister winning a prize on the CBS program, "Beat the Clock."

Honorable mention went to Mrs. Elbert Davies for news on the birthday celebration and big family reunion of A. F. Davies in Southland, to Mrs. Sid Cross for news about the two Hammond organs that Post residents have bought and to Coach V. F. Bingham for news about the football conference that he, Coach Jess Wright and Supt. G. R. Day attended last week in Tahoka.

The contest is still on. Everybody has a chance to win at some time or other.

weeks for the farmer to receive labor after he orders it.

The steps through which the order for Mexican national farm labor must go are as follows:

1. The farmer places his order with the Lubbock TEC office, which clears it through the state level of TEC.
2. The state level of TEC passes the order on to the United States Employment Service, which in turn gets in touch with Immigration authorities, who pass it on to the Mexican government.
3. The Mexican government approves the order, making the laborers available.
4. The TEC notifies the farmer of the approval and he goes to the Immigration Service office and posts a bond as follows: \$15 per head for one to 499 workers; \$10 per head for 500 to 999 workers; \$5 per head for 1,000 workers or more.
5. The TEC then advises the farmer where to go to pick up his workers.

Detailed instructions are available to interested farmers at the Lubbock district office of the employment commission, 1114 Tenth Street.

Certain requirements have to be set up regarding travel and work conditions. For example, each truck must be equipped with fixed seats and cover to protect workers from weather. Trucks must not travel more than 12 hours a day, and travel shall not begin before 4 a. m. or extend later than 8 p. m. Each driver must be required to pause for 10 minute rest stops at two-hour intervals, and for a half hour at each meal.

Mr. and Mrs. Marvin Hudman spent Sunday in Levelland. Mr. and Mrs. Floyd Hodges and Mrs. Tom Eason of San Angelo attended the rodeo in Lamesa Friday night.

**BITS OF NEWS**

Mrs. J. H. Babb is happily anticipating a family reunion which will begin tomorrow with the arrival of most of her children and other relatives. Mr. and Mrs. C. I. Dickinson of New York City and Mrs. Babb's niece, Miss Nola Babb, of Wichita, Kans.; Mr. and Mrs. Jerrill Babb of Glendale, Calif.; and John H. Babb of Chicago will arrive by plane and automobile tomorrow afternoon and night. Mr. and Mrs. Joy McCartney and son, Alex, of San Antonio will arrive Saturday. Most of the visitors will spend from one to several weeks here. They will stay at the homes of J. N. and Tom Power and Sherrill Boyd.

John Lett has a new Chevrolet Station Wagon.

The Rev. Douglas W. Gossett was one of 36 students to complete requirements for a bachelor's degree recently from McMurry College in Abilene. He majored in religion and minored in English.

Mrs. C. L. Curb returned Saturday from a week's visit with her mother, Mrs. Stagg, near Brownwood.

Mrs. Tom Eason and daughter of San Angelo visited friends and relatives in Post and Lubbock last week. Mr. Eason joined them here Saturday and they spent the night in the home of Mr. and Mrs. O. L. Weakley.

### Sheriff Kept Busy

(Continued From Front Page) back door. No solution had been found by press time. The sheriff's department confiscated three quarts of wine and 42 cans of beer in a raid in the flats Saturday night, but the charges will not be filed until the return of County Attorney Joe Moss from his vacation.

Sheriff Bass said, in connection with the arrest of the white man who had "passed out" in the flats, that although no arrests have been made as yet it is known that some white men regularly go dancing with the negroes in one of the new honky-tonks in the flats.

### Getting Married

(Continued From Front Page) of a county or district court within the county in which the license is to be issued may waive the requirements as to medical examinations and laboratory tests and certificates and may order the county clerk to issue the license, if the judge is satisfied by proof that sufficient cause for such action exists and that the public health and welfare will not be injuriously affected thereby. The order of the court shall be filed by the county clerk in lieu of the certificate form.

Until the new marriage license law was passed this year, Texas was one of the few states in the Union not requiring such medical certificates.

### BITS OF NEWS

Mrs. Nell McCrary is making plans to move into her new home on West Main Street in about a week. She is staying with her son, Giles McCrary, and family until the new home is completed.

Mr. and Mrs. Nath Mears spent Tuesday and yesterday in Fluvanna with Mr. Mears' parents, Mrs. O. G. Lewis and son, Cecil, of Rule and Mr. and Mrs. Max Morris and Mr. and Mrs. Josh Cogdill of Lubbock visited yesterday and last night in the home of Mrs. Esma Cash and sons.

Bill Caldwell, who is in the Navy and stationed at San Diego, Calif., visited in Post Saturday night. Bill is a former resident of the Close City community and his parents now live in Muleshoe.

Jack Wright of Berger spent the weekend here visiting his parents.

Kathryn Childress of Wichita Falls spent the Labor Day weekend here with her mother and grandfather. They took her back to her job Monday.

Alma Outlaw and Faye Ruth Hamilton will leave Monday for Waco to enter Baylor University.

Zora Ann Outlaw left yesterday for Texas City where she will teach English in the schools there, beginning Monday.

Joe Moss is moose hunting in Wyoming this week.

Glenn Mauer of Seymour visited Am Floyd here over the weekend. Am will enter West Texas State College in Canyon next week.

Man's first weapon in warfare was the slingshot.

### County Fair

(Continued From Front Page) dresses shown in one of the Southwestern Public Service Company windows. Also in a Southwestern Public Service window will be the Graham H. D. Club's educational exhibit, "Sewing a Fine Seam."

Educational exhibits, which will be shown in the windows of Bryant-Link Co. (two exhibits), Mason and Co. (two exhibits), Greenfield Hardware Store, Maxine's and the Southwestern Public Service Company, will be explained at the above stores Saturday afternoon.

Other stores, in which other portions of the fair will be exhibited, include Tom Power, Herrington's, Haws, Hudman Furniture Co., and the Southwestern Public Service Co.

Mrs. Strasner said that all 4-H girls' work except flower arrangements and the women's canning division will be shown at Hudman Furniture Co.

This year's fair will not include a culinary division as this art will be displayed at a girls' and woman's bake show here Oct. 22, Mrs. Strasner said.

Lake Superior is the largest lake in North America.

### School Opening

All faculty vacancies in the rural schools were filled well ahead of the opening of school, but Post High School was opened Monday with a substitute teacher in the science department, because of the resignation of Mrs. H. T. Carr who, with her family, has moved to Friona. The vacancy was filled yesterday with the election of Mr. Powers of Lubbock, who has a masters degree. He will teach general science, biology and chemistry. He taught preflight courses at Texas Technological College in Lubbock during the war.

O. C. Strickland of Abilene was elected last weekend to teach Eighth Grade and Freshman English in the afternoons and Fifth, Sixth and Seventh Grade departmental work in the mornings.

Mr. and Mrs. Tom Gorner and son, Melvin, who have been living in Hereford moved to Post Saturday to make their home. Mrs. Gorner is a daughter of Mr. and Mrs. Mell Pearce.

Holloway and wife, ... their unknown heirs; John W. ... Hattie A. Crisp, ... the unknown heirs of said unknown ... Dickson and ... their unknown heirs; ... George Beggs vs. W. B. Holloway et al., in which George Beggs is plaintiff and in which those persons are defendants who are first named in this citation and to whom it is directed, which petition was filed in said court on the 15 day of August, 1949, and the nature of which said suit is as follows:

An action by George Beggs to remove a cloud cast on his title to Sections 1, 2, 3 and 4, John Z. Linn Surveys, Garza County, Texas, by a Comptroller's Tax Deed made to Mrs. T. J. Houston in 1886 and various deeds made from and under the said Mrs. T. J. Houston, and the failure of a judgment in the District Court of Garza County, Texas, to show that the surviving wife of W. B. Holloway, M. E. Holloway, and his surviving children, were all of the surviving heirs of the said W. B. Holloway, said judgment being rendered by said court October 23, 1900, in Cause No. 72 in said court styled Scoggin & Brown vs. John Z. Linn et al.

If this citation is not served within 90 days after date of its issuance, it shall be returned unserved.

Witness Ray N. Smith, Clerk of the District Court of Garza County, Texas.

Given under my hand and seal of said court at office in the city of Post, this 15 day of August, 1949.

**Garza Fair Booth Is Being Arranged**

The Garza County agricultural exhibit at the Panhandle-South Plains Fair, to be held in Lubbock Sept. 26-Oct. 1, is being prepared by County Agent Lewis Herron, Post Chamber of Commerce Secretary Alvin Davis, and Sherrill Boyd who has helped with the exhibit the past three years.

Great care is being taken to collect and select varied products of the highest quality available.

"This takes a lot of time," Herron told the Post Dispatch yesterday. "We worked until 4 a. m. Sunday and when we quit we only had about a half dozen apples for the exhibit."

**BITS OF NEWS**

**Mr. and Mrs. Hazen Ricker** and two sons of San Angelo and Mr. Ricker's mother, Mrs. Ray Ricker, who travels with her husband along the Santa Fe line, arrived here this week to spend a vacation. Ricker is on furlough from the Army.

**The three members of the G. W. Owen family** who are being treated for polio at a San Angelo hospital were noticeably improved by press time, members of the family here said. Bill Owen, who was the first to be admitted to the hospital about three weeks ago, is expecting to be dismissed soon. His brother, Elmer "Shorty," has the lightest of the three cases but it was not known by press time when he would be dismissed from medical treatment. Elmer's son, Harry, is still battling a bad type of polio which effects the throat but is believed to be improving. All three victims live at McCamey. They are the sons and grandchild of Mr. and Mrs. G. W. Owen. It is believed that none of the three will be paralyzed.

**Nearly 800 Scouts At Camp In August**

The swimming season at Camp Post officially ended Sept. 1 and the pool has been drained.

A total of 770 Boy Scouts of the South Plains Area Boy Council used Camp Post during the month of August.

Since "Chief" Runkles moved to the camp this summer as range director, the site can now be used by Boy Scouts the year around.

**'It's Alive' Is Explained Here**

Now it can be told: The Post Dispatch has been swamped with telephone calls from people desiring an explanation of "It's Alive."

The two-word advertisement which has been appearing in the paper for several weeks pertains to the unusual adventure picture, "Mighty Joe Young," which will be shown at the Garza Theatre Sunday and Monday.

Several Post residents who have been on vacation trips to various parts of the country report seeing the "It's Alive" ad "all over the country" and some of them stopped to see the movie in various cities. It was described as exciting and having an unusual twist.

Stars in the picture are Terry Moore, Ben Johnson, Robert Armstrong and Frank McHugh.

**Amnesia Victim Is Held Here Until Memory Returned**

A 50-year-old amnesia victim who was brought to Sheriff E. M. Bass Saturday regained his memory Monday and identified himself as Harvey Hobart Powers, who operates a commissary and chow car for a Santa Fe work gang near Slaton. He said he had suffered one previous attack of amnesia, and that the attack lasted 13 days.

After regaining his memory Monday, he figured that he lost his memory on Friday. His whereabouts from that time until Saturday afternoon are unknown. He wandered to a farm house, northwest of Post, Saturday afternoon and asked for food. While he was eating, the farmer and his wife discovered that he didn't know who he was and they brought him to Sheriff Bass.

A physician who examined the man said he was not under the influence of narcotics, nor had he been drinking. It was believed that he had gone a long time without food.

Capt. Paul Beach who has been here visiting with Mr. and Mrs. Al Bird several weeks on leave from Germany has been transferred to Carswell Field at Ft. Worth where he will fly the world's largest plane, the B-36. Too bad the Beaches' small son, P. A. had to leave here as he was just getting fixed up to be a "real rancher" with boots and a cowboy blue jean suit bought for him by his "Daddy Bird."

Mr. and Mrs. E. G. Hartman took their small daughter to Abilene Saturday for a polio check-up. She is doing nicely and can now lay aside her crutches.

Mrs. J. M. Matsler of Grassburg spent the past week here in the home of her daughter, Mrs. John McQuien and attended the revival meeting here.

Mr. and Mrs. Jack Taylor and Mr. and Mrs. J. C. Fumagalli and son, Bill, went to Ruidoso, N. M., for the holiday weekend. Bill enters NMMI at Roswell Monday for his senior year.

Mrs. W. E. Blake who has been visiting her mother, Mrs. Isabel Nichols, left Saturday for her home in Tucson, Ariz.

**Visiting and Fishing**  
 Mr. and Mrs. Allen Lucas left Wednesday for a visit with a nephew, Jake Lucas, and family who live on a ranch near San Antonio. Mr. Lucas hopes to get in some "real fishing" while there.

Mrs. Edna McLendon and her mother, Mrs. M. E. Kennedy and

**December Election Of ACC Important Because Of Funds**

It is probable that there will be an increase in Garza County funds to assist farmers in carrying out approved conservation practices in 1950, according to Will Wright, chairman of the County Agricultural Conservation Committee.

For the 1950 program, Congress has authorized \$285 million as compared to \$265 million for 1949.

The chairman explains that this money is used to assist farmers in carrying out soil and water conservation practices on their individual farms. Practices for which payments are available is left largely to the county committee. Assistance is provided only for approved conservation practices and specifications have to be met, but the committee has the responsibility of deciding . . . within the limits of the county allocation . . . the amount available for each farmer. This, together with increased price support and related activities, makes the coming agricultural conservation committee election even more important than usual, says the chairman.

Elections are held every year in every agricultural community. In these elections farmers cooperating in Production and Marketing Administration programs elect community committeemen and delegates to a county convention where a county committee is elected.

The county committee, consisting of a chairman, vice chairman, member and two alternate members, has the responsibility of deciding on the use of funds in meeting conservation needs and is in charge of activities connected with price support, purchase agreement and loan programs.

The chairman states "If each farmer realized the importance of the decision, which his three committeemen in the county office have to make, decisions which determine the use of the conservation funds and the effectiveness of price support programs, he would be as careful in selecting his ACP committeemen

Mrs. Norman and Longshore were treated for slight injuries at the Post Clinic. Both received bruises and Longshore received a cut which was not considered serious.

Sheriff E. M. Bass reported that the cars ran together when Longshore attempted a left turn. Mrs. Norman was driving west in an automobile belonging to her parents, Mr. and Mrs. I. L.

**Irrigation Begun Last Spring Shows Good Results Now**

Cooperators with the Duck Creek Soil Conservation District who had irrigation systems planned and established on their farms last spring were Ben Altman, Henry Edwards, and F. W. Hall of the Pleasant Valley group; A. O. Rosenbaum and Will Teaff of the Close City group; and J. W. Stotts and Herman Dabbs of the Hackberry group.

After a check on these irrigation systems last week by the soil conservation technicians, it was decided that these cooperators are getting the most benefits from their water by using these systems. Altman says that his graded row system works nicely. Next spring he intends to make a change by adding another main ditch for irrigation. This will shorten the length of water runs.

Henry Edwards says he intends to change from the graded row type to the level row system. In making this change Edwards thinks he will be able to hold more rainfall on the land and still do a good job of irrigation.

Other cooperators who want technical assistance in irrigation next spring should make application to the district now. This will give technicians ample time to gather information needed to plan the land.

**Spring Plantings Of Native Grass Make Good Showing**

Native grass planting made this spring by two district soil conservation cooperators have come through the summer in good shape. Scattering plants of sideoats grama in the L. A. Barrow-Tom Gilmore planting are making seed. The sideoats grama and King ranch bluestem have made the most growth in the gravel hilly part of the planting. Some King ranch bluestem plants are more than a foot wide. Some weedy spots in this planting have held the grass plants back. Now the weed growth is mostly dead and the seedling grass plants will grow with fall rains, according to soil conservation service technicians.

In Russell Wilkes grass mixture on deep sandy soil, weeping lovegrass has made the great-

Duckworth. Damages to the two cars were estimated at close to \$1,000.

As the Duckworth car was smoking after the collision the Post Volunteer Fire Department was called to the scene.

est growth. It is now suffering more from dry weather. Switch grass, although it has not made a large growth, has kept its dark green color through the summer. Sideoats grama and King ranch bluestem have not shown up so well during the summer in Wilkes' deep sandy land.

Little bluestem seedlings in both the Barrow-Gilmore and Wilkes planting are well established and will eventually offer competition with some of the faster growing kinds of grasses.

Establishing land back to grass is part of these cooperators coordinated conservation plan. It is using each acre on the farm or ranch according to the land's capability.
