Swing of Southwest Farm Markets

Advance in cotton prices, the strength on livestock and steady trend on eggs, poultry and vegetables accounted for strong markets for most Southwest farm products last week, according to USDA's Production and Marketing Administration.

Cotton prices reached the highest peak in 20 years last week with gains of \$2 to \$3 a bale Friday. Middling 15-16 inch was quoted at 26.20 cents per pound. Dallas, Houston and Little Rock: 26.16 cents at New Orleans and 26.10 at Galveston. The level of cotton prices has been rising steadily for the past year, although the value of certain low grades has not increased proportionately. Spot markets were somewhat more active last week than usual for this time of the year.

Short supplies and excessive demand kept grain prices at ceiling where they have been for weeks. No. 1 hard ordinary wheat was quoted at \$1.80 to \$1.82 per bushel, bulk, in carlots at Ft. Worth and Galveston; No. 3 white oats at 87 to 90 cents per bushel in Fort Worth and 89 to 92 cents in Galveston; and sorghums at \$2.61 per hundred including all permissible markups.

Lighter poultry offerings almost balanced with the fair demand this week at most Southwest markets. Prices remained about unchanged from last week-end with heavy hens quoted at 27 to 28 cents a pound, New Orleans; 21 to 23 cents, Dallas; 21 to 22 cents, Fort Worth; and 22 to 24 cents, Denver. Fryers were quoted at most markets around 30 cents per pound.

Southwest cattle markets neared the close of the week with prices 25 to 50 cents higher on some classes than last Friday. Receipts were the lightest in seven years at Houston and smaller than last week's at other Southwest terminals, except Denver. Canner and cutter cows were still in good demand at \$6 to \$8 per hundred pounds, Houston; \$8 to \$8.50, San Antonio; \$6.50 to \$8.75, Fort Worth; \$6 to \$8.50, Oklahoma City; and \$6.50 to \$8.50 Wichita, and \$7.50 to \$9.50, Denver.

Hogs continued active and steady despite increasing receipts at most Southwest markets this week, and lambs were strong to 25 cents higher with other classes.

THE THOUGHT FOR THE MONTH

Time is the one thing that can never be retrieved. One may lose and regain a friend; one may lose and regain money; opportunity once spurned may come again; but the hours that are lost in idleness can never be brought back to be used in gainful pursuits. Most careers are made or marred in the hours after supper. —New York World.

a new High in dairying

New records in dairying are being piled up every year in the Panhandle-Plains and Southeastern New Mexico. Believe it or not, but our territory produces a large percentage of all the butter and cheese in the entire Southwest. Milch cows thrive in this good climate—and, of course, there's plenty of good feed and an abundance of fresh, wholesome water.

Yes, we have everything in the Panhandle-Plains and Pecos Valley including an abundant supply of low cost, dependable electric power to help the dairymen produce more dairy products at a lower cost.

Growth And Improvement Indicated For Neighboring West Texas Towns

News this week from neighboring towns signifies people are again planning for civic growth and improvement.

Snyder has plans for a \$210,000 airport project and last week work was begun on a \$58,000 highway improvement project between Snyder and Fluvanna.

Ralls has announced 30 blocks of paving, 25 new residences, a new fire house, rodeo and stock show grounds as improvements for 1946.

Sweetwater has a corporation, headed by Rep. Harley Sadler, to construct 10 new homes. The city may be soon.

Junior Chamber of Commerce clubs have been organized in Lovelland and Littlefield.

Tahoka has re-organized its Chamber of Commerce.

Slaton plans a paving program.

Civic clubs in Brownfield are planning erection of a swimming pool, skating rink and other athletic inducements.

Plans for a memorial auditorium honoring Dawson County war heroes has been endorsed at

Lamesa. Work begins on a new residential section as soon as priorities are obtained.

TOWN WILL HAVE TO MOVE TO HIGHER GROUND

Robert Lee, Texas, is about to experience an extra ordinary happening. The entire town will have to move, business, residence, even the court house.

A proposed dam on the Colorado river, one of Texas' largest rivers, would inundate the present townsite to about 12 feet, but would provide enough water to irrigate 58,000 acres of land.

A four county area will be benefited, because of greater feed production.

The town will move to an elevation north of the proposed lake.

Miss Vera Colleton, Mrs. Colleton and Mrs. Lillie McTea visited relatives in Lubbock Sunday afternoon.

NEW EQUIPMENT BEING INSTALLED AT THE AMERICAN CAFE

The American cafe is really undergoing a rejuvenation. A new oak counter with tiered plate, cup and saucer rack and pastry cabinet was installed a few days ago. Larger coffee urns to more efficiently accommodate the coffee customers were also installed. Recently new oak tables and red leather and chrome chairs replaced the booths.

Mecle Carmichael, new owner, says a new oak counter with new red topped counter stools will replace the one now in use as soon as it can be arranged.

"We hope to make the American an attractive place for our customers," he said.

GRADE SCHOOL CHILDREN HAVE VALENTINE PARTIES

Mrs. Thomas' first grade had a program of readings and songs given by the children. Punch, cheese sandwiches, and Valentine candies were served.

Mrs. Bister's third grade enjoyed Valentines with candy suckers given the group by Mrs. Stephens. Another room got clever Valentines with pencils on them.

Before an altar decked with flowers, the wedding ceremony for Miss Vlasta "Bunny" North, daughter of Mr. and Mrs. Walter D. North of Cicero, Illinois, and Allen Owen, son of Mr. and Mrs. George W. Owen, was read at 5:30 p. m. on February 9.

About 400 guests attended the wedding, which was solemnized in Warren Park Presbyterian church in Cicero.

The bride, who was given in marriage by her father, wore an exquisite gown of white satin and net. The fitted bodice had a sweetheart neckline and long fitted sleeves. The bouffant, net skirt was made with insertions of satin flowers. Her fingertip veil fell from a tiara of seed pearls.

The bride's bouquet was of white roses and carnations.

Mrs. Frances Reitz Roach was matron-of-honor. She wore a pink satin formal and carried pink carnations. Pfc. Robert North, brother of the bride, attended Mr. Owen as best man. Pfc. North was home on furlough, having just arrived in the States from Tinian and Saipan.

The mother of the bride wore an afternoon dress in powder blue crepe with matching hat and wore a corsage of pink carnations.

Immediately after the ceremony a reception was held in the church parlor. One hundred guests called to congratulate the couple. A triple-tiered wedding cake graced the table where a buffet supper was served.

Margaret Stone And Malcolm Bull Married In Beautiful Church Ceremony Last Thursday Evening

Wedding vows for Margaret Stone, daughter of Mr. and Mrs. Noah Stone, and Sgt. Malcolm T. Bull, son of Mr. and Mrs. Leigh Bull of Long Beach, California, were read Thursday, February 14.

The Methodist church was filled to capacity as Rev. L. A. Smith read the double ring service at 7 o'clock. Wedding guest personnel included many lifelong friends of the bride and many friends of the groom, whose former home was in Canyon.

Green and white floral background was provided for the wedding scene, with the couple standing under an archway of fern entwined with carnations. White gladioli in baskets were at each side of the archway and the chancel rail was lined with the fern and carnations. Myriad lighted cathedral candles in tapering holders illuminated the altar scene and marked the aisles.

The bride entered with her father who gave her in marriage. Her wedding gown was of white satin, fashioned with a very full skirt and fitted bodice. The sweetheart neckline was outlined with sequins and the long fitted sleeves tapered into petal points over her hands. The fingertip veil of bridal illusion was held in place by a hair outlined with sequins. She carried an orchid on a white prayer book and she wore a string of pearls, the gift of the groom.

Mrs. Robert H. Collier, Jr., was her sister's matron-of-honor. She wore a floor length frock of ice blue net with a shoulder corsage of white carnations. Bridesmaids were Mrs. Bill Wood and Roselean Edwards. Their gowns were fashioned on similar lines with Mrs. Wood wearing peach colored net and Mrs. Edwards wearing ice blue. Their bouquets were Colonial nosegays of white carnations.

The three year old daughters of the bridesmaids, Anahara Wood and Cheryl Edwards, were ring bearers and carried the rings in calla lilies. Little Sharon Jobe, daughter of Mr. and Mrs. Weldon Jobe, was flower girl. All three wore identical evening dresses of white ruffled net.

Mr. Bryan Rogers of Amarillo attended his brother-in-law as best man. N. W. Stone, Jr. and Wayne Hundley were ushers.

Candles were lit before the ceremony by Miss Skeeter Smith and Mrs. Bill Duncan, who wore blue and peach colored floor length models. Mrs. Ashley Lawson of Odessa, organist, played the traditional wedding music and accompanied Mrs. Weldon Jobe as she sang for a pre-nuptial solo "Ah, Sweet Mystery of Life."

Out-of-town guests attending included the bridegroom's sister and family, Mr. and Mrs. Bryan Rogers and son of Amarillo; Mr. and Mrs. Meredith Warren and Mr. and Mrs. Lassiter, all of Canyon. Mr. and Mrs. W. B. Little and daughter of Littlefield; Mr. and Mrs. Wynne Collier and daughters; Mr. and Mrs. Charles Walden, Sr. and Mr. Bill Wood, all of Tahoka.

Reception Held In Home Of Bride's Parents

Mr. and Mrs. Noah Stone were hosts at a reception immediately following the ceremony.

From a lace laid table appointed in silver and crystal the triple tiered wedding cake was served with punch. Red and white carnations formed the centerpiece.

The bridal couple left on a month's wedding trip, during which time they will visit his parents in Long Beach and friends in San Francisco.

For traveling the bride chose a navy blue suit with pink blouse. Her hat was a sailor model in navy blue straw, with trimming of pink satin roses and veiling. Her other accessories were of navy blue.

After Sgt. Bull's release from the Army, the couple will live in Albuquerque, New Mexico. He is now on 90-day leave after his repatriation from three and a half year's imprisonment by the Japanese.

Refreshments of tuna fish salad, olives, potato chips, ice box cookies and coffee were served by the hostess following the meeting.

FORMER POST TEACHER MARRIED LAST WEEK IN TEXARKANA, ARK.

Miss Vada Cole of Lubbock was married to Russell Turnham of Wayne, Oklahoma. The wedding was performed last week in Texarkana, Ark.

The bride, daughter of Mr. and Mrs. R. D. Cole of Lubbock, formerly lived here and taught school in the grade school. She also taught Home Economics at Rotan and Colorado City before entering government work.

For the past three and a half years she has been a member of the Women's Army Corps. She held the rank of major and was supply officer for the Convalescent Hospital at Camp Upton on Long Island, N. Y.

Mr. Turnham served five years with the 45th Infantry Division in the European theatre—principally in Italy and France. The couple will make their home in Dallas.

Mrs. J. A. Thomas, Post Grade school teacher, is a sister of the bride.

JOE BILL DUCKWORTH MARRIED RECENTLY IN PARENT'S HOME

Miss Joe Bill Duckworth was married recently to Arvin E. White in a ceremony at the home of her parents, Mr. and Mrs. Lee Duckworth of Abilene.

The ceremony was read by W. R. Smith, faculty member at Abilene Christian college, before a mantel decorated with a fan shaped arrangement of peach colored gladioli. Only members of the family were present.

The bride wore a two-piece suit of powder blue wool with black accessories and orchid corsage.

Both the bride and groom graduated from ACC in 1939. Mrs. White will be remembered in Post as a grade school teacher. While here she made her home with Mrs. Jessie Voss. For the past year and a half she has been an assistant to Dr. Joe A. Kennedy.

Mr. White received his discharge from the Army in December after four years service. He was mathematics instructor for air cadets at Kelly Field. He is now acting manager of the Abilene Retail Credit Association.

TEA-SHOWER IS GIVEN TO HONOR MRS. LARRY KLINE

Mrs. Ott Nance and Mrs. Cecil Smith honored Mrs. Larry Kline, the former Gloria Tuffing, with a miscellaneous shower Wednesday afternoon, February 13, in the home of Mrs. Smith at Justinburg.

Guests were greeted by the hostesses and Mrs. Tuffing. In the absence of the honoree who now resides in Milwaukee, her mother served as her proxy for the occasion.

The home was beautifully decorated with cut flowers, lovely pink and white gladioli and snap dragons. A beautiful arrangement of the pink and white blossoms in a lustre bowl formed the center decoration for the tea table which was laid with a handmade lace cloth. Dainty sandwiches and confections further emphasized the color scheme. Mrs. Cameron Justice presided at the tea table.

Many beautiful and useful gifts were on display, about twenty-five guests registered in the bride's book.

DINNER GIVEN BY O. E. S. CHAPTER TO HONOR MASONS

Seventy eight guests registered for the dinner last Friday night at the lodge hall. Eastern Star members were hosts. Members of the Masonic Lodge were honored and non member wives and husbands were special guests.

A bounteous meal was spread and served buffet style. Cherry pie with whipped cream climaxed the meal.

Mrs. A. C. Surman cleverly acted as mistress of ceremonies and introduced the program in an impromptu style which delighted her hearers.

Worthy Matron Bernice Shepherd gave the welcome, to which Worshipful Master J. A. Stallings responded.

Faye Mathis read a poem, "George Washington—the Mason." Mrs. B. J. Edwards and Mrs. C. R. Thaxton presented a playlet concerning Washington's life and principles. During the play a minuet was performed by Consuelo Thurtell, Ruby Stewart, Edna Lea Nichols, Thelma Fry, Edna Mason, Svbil Cockrum, Faye Mathis, and Thelma Clark.

DISPATCH PUBLISHING CO. IS FIRST POST BUSINESS TO PROVIDE VET TRAINING

The Dispatch Publishing Company is the first Post business firm to be approved for on-the-job training for War II veterans, and has employed Delmo Gossett, recently discharged serviceman, for a four-year training course in printing and linotype operation and maintenance.

The firm received the go signal Wednesday when E. F. Fuller of the Lubbock branch of the Veterans Administration inspected the plant's facilities for training students and checking working conditions and equipment.

The "on-the-job" training program as outlined in the management of the Dispatch Publishing Company, is designed specifically to assist the servicemen. Most all of Post's business firms may be eligible to give on-the-job training, and in doing so will greatly benefit the returning servicemen, asserted Mr. Fuller.

Under the plan of training, Mr. Gossett, who was reared in Garza county and graduated from Post High school, will receive ninety dollars from the Government each month, in addition to the salary he will be paid by the Dispatch Publishing Company. His thirty-nine months with the Army, qualifies him to draw ninety dollars per month from the Government for forty-eight months. At the completion of his training he should be eligible to draw a salary equal to the amount he receives from his employer, plus the government pay per month.

TITLES FOR AUTOMOBILES MUST BE IN ORDER WHEN YOU APPLY FOR '46 PLATES

The Motor Vehicle Division of the Texas Highway Department of the Texas motor vehicle owners to see that the titles for vehicles be registered in 1946 are in order. The law provides that before a vehicle may be registered, the owner must present to the Tax Collector the prior year's registration receipt and must have a title.

Many people do not understand the importance and value of the Title Act, and do not realize that the Certificate of Title Act was passed to improve the validity of titles on motor vehicles thereby making such a title comparable to an abstract on real estate.

Motor vehicle owners who have acquired used vehicles, and who have received assigned titles from the previous owners, are urged to apply at once for their titles in order that the transactions may be recorded and the new owners shown on the title records of the Department. Motor vehicle owners are also urged to register their equipment by purchasing the 1946 license plates as soon as possible. It is a common practice throughout the State for owners to wait until the last week in March, thereby creating congested conditions and long lines of applicants in the various Tax Collector's offices. The County Tax Collectors are experiencing difficulty in obtaining temporary help, and you will be helping them and yourselves by obtaining 1946 license plates during February or in the first part of March and not waiting until the last day or days.

There are some persons operating motor vehicles with out-of-state license plates who may legally operate under 1946 out-of-state license plates, and these persons are cautioned to obtain such 1946 plates and apply same on or before the expiration of their present plates. There are others operating motor vehicles with out-of-state license plates who must legally re-register in Texas, and these persons are advised to purchase Texas plates immediately to avoid having to pay a penalty in addition to the registration fee.

Particular attention of the owners of trucks, truck-trailers, trailers, and semi-trailers and buses was called to the fact that they must be prepared to furnish the Tax Collector with a complete description as to the size, type and serial number, et cetera, of equipment to be registered, and must be prepared to register for the actual weight of the empty vehicle, plus the heaviest load to be carried, which under the law cannot be less than the manufacturer's rated carrying capacity. If in doubt as to the actual weight, the owners of commercial vehicles should have them weighed and present the weight certificates at the time of registration.

TEXAS CRIME WAVE CLIMBS 13 PERCENT

Texas is definitely in the grip of a crime wave, Director Homer Garrison of the State Department of Public Safety declared today.

The crime rate in Texas cities and towns, Garrison said, jumped 13 per cent in 1945—and this increase was superimposed upon a substantial increase in the previous year.

Forty-six police departments, representing 1,873,000 inhabitants, last year reported a total of 46,898 major offenses to the Department of Public Safety.

The total included 284 murders, a gain of 9.65 per cent; 115 homicides, up 6.48 per cent; 234 rape cases, a gain of 23.16 per cent; 972 robberies, up 20.30 per cent; 10,826 burglaries, a gain of 22.54 per cent; 28,154 thefts, a 15.93 per cent increase; and 6,313 automobile thefts, up 20.11 per cent.

The increase in rural crime is even greater than that in cities, Garrison said.

Mr. and Mrs. Tom Wood of Lamesa were in Post Sunday, after having spent the day at their ranch near Justiceburg.

NEW TRANSLATION OF BIBLE TO ENCOURAGE MORE READING

A new translation of the New Testament to be known as the Revised Standard Version, has been completed and is now being distributed to the public. This version was prepared by a committee of translators and Bible scholars named by the International Council of Religious Education.

Members of the committee have said that while the new version is cast in a simpler, more familiar style, none of the changes affects any major doctrine of the Christian faith.

Translators outlined the reasons for undertaking the laborious task of revision with these explanations: that the English Revised and American Standard versions lost much of their beauty and power because of a too literal, mechanical translation; that scholars are better equipped today than they were 60 years ago both to determine the original text of the Greek New Testament and to determine its language; and that the Bible is "not merely an historical document and a classic of English literature, but the Word of God."

The Rev. Dr. Luther A. Weigle, dean of the Yale University School, states in the introduction that "the Word must not be hidden in ancient phrases that have changed or lost their meaning; it must stand forth in language that is direct and clear and meaningful to the people of today."

Whether or not you subscribe to a change in your Bible, it is reasonable that a change of language will benefit the children of today who are used to a far different speech.

Without predicting in any degree the popularity of such a version, still the very fact of its completion and publication marks a notable accomplishment in the field of Biblical scholarship.

WILL THE FULL LIFE SURVIVE?

In this day and age when speed and money and big governments seem to be controlling factors in the average life, it is refreshing to read about a man who has lived to be one hundred years old and kept up his ideals and enthusiasm for helping others.

Such a man is Henry C. Lytton, Chicago merchant, and the last one of the original fourteen founders of Chicago's State Street. Lytton's life, from before the Gold Rush to the Atomic Age, is typically American. He was floor sweeper, clerk, bankrupt, millionaire, patron of the arts, philanthropist, scholar, sage and wit.

He provided coal in the winter, ice in the summer, for the needy. He stopped the construction of a new store building during a hard winter and made it a shelter for the homeless. He gave scholarships to worthy students. In his success he did not forget how it felt to be at the bottom of the ladder. He did not depend on government to solve his problems.

Will men have the individual opportunities in the Atomic Age, that Lytton had? Only time will tell. Lytton is a product of private enterprise during a period when government did not dominate every phase of life.

 Second Fisherman: Well, let's let two more big ones get away and then go home.

An economic study now circulating in Washington compares the living standards of average wage earners in leading nations. On this comparative basis, Russia is where the United States was in 1790; Italy is about the U. S. of 1812; Germany matches us at 1860; and England enjoys the living standard of the U. S. of 1870.

Sidelights . . .

FROM WASHINGTON, D. C.
 By Congressman Geo. Mahon

In this column last week I referred to our efforts in Congress to pass legislation providing an additional \$100,000,000 loan authorization for REA. This must be done by March 1st if a lag in REA construction is to be averted in Texas and 20 other states.

On February 14th the House approved an amendment to an appropriation bill making the funds available. It is hoped and believed that the Senate will take favorable action in the near future and send the measure to the President for his approval.

REA loans are being repaid to the government; people in rural areas are getting the benefits of electricity; industry is being afforded a new market for electrical gadgets and equipment; and more work is provided for the laboring people in industrial areas. I joined with others in pointing out these facts during the House debate on the measure, the chairman having given me the privilege of closing the debate.

The conclusion seems inevitable that the job of disposing of surplus Government property has been badly bungled thus far. The top responsibility has been booted from one agency to another.

First the sales were under an agency of the Treasury Department; then the responsibility was shifted to the Commerce Department under Secretary Henry Wallace. From there the job was transferred to the RFC. Today the War Assets Corporation, an agency of the RFC, is in the driver's seat, but next month the War Assets Corporation becomes the War Assets Administration and will no longer be associated with the RFC. This, undoubtedly, will be the last shift in responsibility.

While all this tossing about has been in process, the confusion has been terrific. Lt. General Edmund B. Gregory has now assumed the top job as Surplus Property Administrator. That fact offers hope. The General was formerly Quartermaster General of the Army, and he has the reputation for being a man of efficiency and action.

The businessman has become disappointed with the administration of the surplus property program; the veteran has become not only disappointed, but disgusted, over the run-around that he has received—and he has received the run-around. Certificates have been issued to veterans out of all proportion to the availability of surplus property. It has been impossible for a veteran or anyone else to get accurate and complete information, but there has been an abundance of misinformation which has caused many people to make long and expensive trips, only to be disappointed.

I talked personally with General Gregory yesterday, telling him of the dissatisfaction of the people with the way the program had been administered and urging him to do something about it. I based my complaint upon facts which I learned from veterans and others when I was in Texas in January and the letters which I am presently receiving about the surplus property program.

A check-up on the disposition of surplus consumer goods in the four-state area which includes Texas reveals total sales to date of fifty million dollars. In this same region last month there were 4,396 sales to veterans who held preference certificates. But there were many additional thousands of these certificates outstanding.

The over-all job of disposing of surplus Government property is only one-tenth completed. I hope the strong and insistent demand for better service will get results in the future handling of the program.

INCREASED ENROLLMENT AT POST GRADE SCHOOL

Enrollment in Post Grade school has risen considerably during the school year. The total figure now stands at 404, compared with 323 the first day of school last September.

J. L. Miller, principal, in releasing these figures Monday morning, expressed himself as being well pleased with school conditions in general. He was gratified with the attitude of all the children.

"The children are learning and their behavior is very good. There have been no problems. The cooperation from teachers has been excellent. The entire group, teachers, janitor, and lunch room force, works in unity for the good of the school," was the splendid report given by Mr. Miller.

In discussing the several activities of the school, Mr. Miller was very proud of the fact that every room contributed 100 per cent on the Junior Red Cross drive and the sale of tuberculosis seals.

The magazine drive conducted by seventh grade students, resulted in subscriptions amounting to \$517. Half of the amount, \$258.50, was for the school and was used to pay for a movie-machine projector. This was a creditable

THE SCOTCHMAN SAYS:

If you are planning to set out trees and shrubs you should do so before the sap rises and the buds swell says George, Spiechman, Samson, the best gardener in these parts.

Trees set out too late do not stand a chance of survival, he says.

The planting or transplanting should be done as soon as possible, and preferably after a rain or after the ground has been thoroughly soaked. If planted now they will have time to get well set before leafing-out time.

Cuttings from evergreen shrubs should be made before new buds put out.

Winter is the best time for pruning shrubs, particularly evergreens, in order to promote thicker growth of leaves.

Now is the time, too, to get the soil ready for that flower garden,

showing because their quota had been \$300.

A report such as this speaks well for the school and will be reflected in the lives of the children.
