"The Gateway To The Great South Plains"

Twenty-Eighth Year

Thursday, October 14, 1954, Post, Texas

Number 18

**BANQUET SCENE**—The family of George (Scotty) Samson, honoree at a barbecue here last Thursday, are shown admiring some of the gifts received by Mr. and Mrs. Samson. The Samsons' daughter, Jean, holds the plaque presented her father, and Mr. and Mrs. Samson hold the bronze tray she received. At the rear are Jack Samson, his wife, Estelle, and Scotty's brother, Jimmy Samson of Lubbock. —(Staff Photo).

## FRIENDS FETE GEORGE (SCOTTY) SAMSON Banquet Honors Pioneer Resident

More than 275 friends and neighbors of Post's one and only George (Scotty) Samson gathered at C. W. Post Memorial Scout Camp last Thursday night to pay tribute to "the Scotchman" at a barbecue dinner in his honor.

Time and again throughout the program, Samson was reminded by the speakers that the tribute being paid him at the dinner was to be considered only "part payment" for the many, many things he had done for Post and Garza County during the 47 years he has lived here.

To the large number who stayed around, however, to shake the honoree's hand after the dinner was over, it was clearly evident

## 'Magic Barrel' Is Oil Progress Week Feature

"The Magic Barrel," a personal appearance by Jack Rolfe, was scheduled at Post High School and grade school today as part of the city's observance of Oil Progress Week, Oct. 10-16.

The show was scheduled for 10 a. m. at the high school and 1:15 p. m. at the grade school.

"The general public is cordially invited to attend this special Oil Progress Week program," said E. R. (Buster) Moreland, Garza County chairman for the Oil Industry Information Committee.

"Oil Serves You" is the theme of Oil Progress Week, which is being observed throughout the nation by some 42,000 companies. It's the industry's annual effort to familiarize the public with petroleum's 95 years of achievement, pointing up the benefits oil and its derivatives bring the buyers.

## Condition Of Polio Victim Improves

The condition of Mrs. James Seideman, who was stricken with polio early last week, was reported improved Wednesday at the Plainview Polio Center, where she has been since Oct. 6.

Mrs. Seideman was in a critical condition for some time after being admitted to the hospital and spent 30 hours in an iron lung. She was paralyzed to the extent that for several hours she was unable to talk or swallow. She still is paralyzed in her legs and will be fitted for braces in about two weeks, it was reported here Wednesday.

Mrs. Seideman was taken to Slaton Mercy Hospital after becoming suddenly ill, but was transferred to Plainview upon diagnosis of her illness as polio.

The Seidemans have been residents of Post since last Feb. 1. Seideman is manager of Garza Motor Supply.

## Wide Screen At Tower Installed

Installation of the new 34-foot panoramic screen at the Tower Theatre has been completed and the first movies will be shown on it this weekend, John N. Hopkins, theatre manager, has announced.

The new installation, which will enable the theatre to show Cinemascope productions and other films made for wide screens is 10 feet wider than the screen it replaces.

Installation of the new screen was by Waller & Allen, Lamesa contractors, who constructed the Tower Theatre building.

Hopkins said other equipment needed for projection of movies on the wider screen has arrived

## Grid Player Receives Broken Collarbone

Charles Morris, son of Mr. and Mrs. Chester Morris, suffered a broken collarbone Tuesday night in an eighth grade football game at Tahoka.

Young Morris, who plays at a halfback position on Coach Herman F. Raphael's eighth grade team, was treated at a Tahoka clinic following the injury.

Post lost all three games to Tahoka. The seventh grade lost, 35-14; the eighth grade, 6-0, and the ninth grade, 12-0.

## Driver's Course Is Being Taught

Through the courtesy of Caprock Chevrolet, Inc., Post High School has been furnished a dual-control Chevrolet automobile for use in its driver's education course, being taught this year for the first time.

The driver's education course is offered by the American Automobile Association through the Texas Department of Public Safety. The dual controls on the automobile in use here were furnished by the AAA.

Enrolled for the new course this semester are 24 students—

12 ninth graders and 12 tenth graders. The class will complete the course by the end of the first semester, at which time a new one will begin, made up of 11th and 12th grade students.

V. F. (Bing) Bingham, instructor of the course, said the sole purpose is to teach safety, both from the standpoint of the driver and the pedestrian.

The first six weeks of the semester course is spent on theory. This includes study of car mechanism, protective insurance, state laws, signs, and rules and regulations governing drivers.

The course also offers films and filmstrips in order for students to get first-hand views of the problems of driving.

**FURNISH CAR FOR COURSE**—The keys to a new dual-control Chevrolet automobile for use in the driver's education course at Post High School are being presented by Wayne Brown (left), of Caprock Chevrolet, Inc., to Principal Chant D. Lee. At right is John F. Lott, also of Caprock Chevrolet, Inc.—(Staff Photo).

# Community Chest Plans Shaping Up

Machinery has been set in motion by directors of the Post Chamber of Commerce for organization of Garza County's first Community Chest, with the opening fund drive slated to get under way either around Nov. 15 or Dec. 1.

Powell Shytlies, temporary chairman, said cards had been sent business places over the county asking if a December drive would be suitable in case the organization could not be completed in time for the drive to commence in mid-November. He said enough of the cards would be in by this weekend for the directors to determine on which date to launch the fund-raising campaign.

Cards also have been mailed, Shytlies said, asking each organization to name a member to the Community Chest board. He said response has been good and that a board is expected to be organized within the next few days.

Shytlies emphasized that the

Community Chest will be county-wide in scope. He said organizations at other places in the county are being asked to name members to the general board.

The Community Chest board will be composed of about 12 members, Shytlies said.

The temporary chairman also said that the budget for Community Chest operation in 1955 will be "between \$7,000 and \$8,000." "We've figured that such a budget would cover the needs of all local groups for the coming year," Shytlies said.

"As far as we know," he continued, "groups and organizations eligible to participate in and use funds raised by the Community Chest are the Boy Scouts, Girl Scouts, American Red Cross, March of Dimes, USO, Cancer Crusade, Heart Fund and Salvation Army."

All these groups, Shytlies said, are now conducting fund drives here each year.

The chairman also said that part of the funds would be set

up, on a percentage basis, for local emergencies, such as fires, etc.

Members of the Chamber of Commerce indicated at the organization's annual membership meeting last February that they favored a Community Chest here. Questionnaires sent out recently by the Chamber of Commerce

indicate that most of them still favor it, Shytlies said.

"The purpose of the Community Chest," said the chairman "will be to combine all the fund drives into one big undertaking, thus avoiding one drive following closely on the heels of another throughout the year."

**PLANNING HOLLYWOOD TRIP**—Six-year-old Pauline (Polly) O'Neal of Post breaks in to show her bride doll to J. A. McCaskill, office manager for the Gonzales Warm Springs Foundation for Crippled Children, as he talks over plans with Polly's parents, Mr. and Mrs. Oscar O'Neal, for the child's trip to Hollywood. She and Greer Garson will make a movie short to be used in a statewide theater fund drive for the Gonzales Foundation. Polly and her mother will leave Lubbock by Continental Air Lines, joining others from Gonzales in El Paso. Actual shooting of the movie short, which is expected to take about a week, is scheduled to begin Nov. 1.—(Staff Photo).

## Season's First Concert Set For Friday Night

Dungill International Concert Company will be heard at 8 o'clock Friday night in the Post Grade School auditorium as the first presentation of the season by the Garza Town Hall Concert Association.

Although the membership goal had not been reached at the time of Monday night's meeting of officers and directors, the group was assured by M. C. Turner, Jr., of Dallas that Southern Town Hall Concert Association of Dallas would furnish the four programs originally agreed upon.

The concert association also received permission from Turner to continue season ticket sales until starting time of Friday night's opening concert. The tickets may be purchased before Friday night from officers of the concert association, and Friday night may be obtained at the ticket office at the grade school.

The tickets sell at \$10 for couples, which also admits other members of the family; \$6 for

## Lion-Hunting's No Joke, Says Randy

Randy Hudman, two and one-half year old son of Mr. and Mrs. Hamford Hudman, is convinced that the perils of lion-hunting are every bit as bad as Ernest Hemingway says they are.

Randy accidentally shot himself in the right foot shortly before noon Tuesday while "hunting lions" with a 22 caliber pistol he'd found in the automobile of Robert Russell, who is employed at the service station operated by Randy's father.

Randy's mother had borrowed Russell's car and it was parked in front of the Hudman home when Randy found the pistol. The bullet from the accidentally - discharged gun passed through the heel of the child's foot. He was taken to Garza Memorial Hospital by his mother.

Randy is quoted as having said that he had the gun's sights trained on the lion when he pulled the trigger, but that somehow or other the bullet hit his foot instead.

It was reported at the hospital Wednesday that Randy probably will have to spend another two or three days there.

## Band Boosters Set Chili Supper Date

A chili supper, sponsored by the Band Boosters Club for the benefit of the senior and junior bands, will be held Friday evening, Oct. 22, in the school lunchroom. Mrs. R. B. Dodson, president of the club, has announced.

Band Booster Club members are also taking orders for fruit cakes to be delivered for Christmas. Orders will be taken until about two weeks before Christmas, with all proceeds a above cost of the cakes going into the band fund.

## Club Representative To Chest Appointed

Clifton Clark has been appointed as the Post Lions Club's representative on the Community Chest board being organized here.

Clark, newest member of the club, was appointed at Tuesday night's meeting.

## Council To Assist In Homecoming

The Post High School Student Council announced Wednesday that it will sponsor a one-hour program Friday, Oct. 22, to get annual homecoming activities under way.

The program will be held from 3 until 4 o'clock in the high school auditorium and will include numbers by the "Modernaires," stage band, and the "Choralteens," newly reactivated choral group.

Following the program, a bonfire and pep rally will be held.

Members of the Ex-Students Association will get under way at 4 o'clock with their homecoming activities. A business meeting, at which new officers will be elected, will be held at that hour. A supper is scheduled for 6 o'clock, and the Post-Tahoka football game for 8 o'clock.

Ex-Students and others eligible for membership in the association are reminded that Friday of this week is the deadline for payment of the annual \$1 membership dues. In addition to ex-students, their husbands or wives and present and former teachers are eligible for membership.

The dues may be paid to Pearl Craig, secretary, at the First National Bank.

## GRADE, JUNIOR TEAMS ALSO SCHEDULED

# Post 'B,' Cooper Play Here Tonight

The Cooper Pirate varsity eleven and the Post Antelope "B" team will tangle tonight at Antelope Stadium in the finale to a full evening of football—three games.

The first game, starting about 6 o'clock, will be between Coach Herman F. Raphael's 7th and 8th grade team and a Ralls grade school eleven. Immediately following this game will be one between the Post and Ralls freshmen teams.

In Cooper, the Antelope reserves will be meeting one of the area's best Class B elevens, Donny Ethridge, 143, left halfback; Jerry Key, 153, right end; Moody Graham, 135, quarterback; Daymon Ethridge, 143, left halfback; Jack Morris, 127, right halfback; James Williams, 127, fullback.

Coch Kenneth White is expected to start the following team for the visitors:

D. Bednarz, 150, left end; B. Thomas, 165, left tackle; F. Weaver, 150, left guard; D. Bell, 155, center; R. Arndell, 170, right guard; B. Prisk, 225, right tackle; J. Hargrove, 145, right end; Donnie Skipworth, 165, quarterback; D. Johnson, 145, left halfback; E. Bednarz, 140, right halfback; K. Granger, 155, fullback.

Probable starters for the Antelope "B" team are:

Noel White, 137, left end; Lee Wayne Sullenger, 185, left tackle; Andy Schmidt, 138, left guard; Jackie Carpenter, 140, center; Jerry McCampbell, 150, right guard; V. A. Lobban, 162, right tackle; Jerry Key, 153, right end; Moody Graham, 135, quarterback; Daymon Ethridge, 143, left halfback; Jack Morris, 127, right halfback; James Williams, 127, fullback.

## County's Cotton Harvest Resumed

Garza County's cotton harvest was resumed this week after being halted for a few days by last week's rain, which measured more than two inches in some sections of the county.

Ginlings, reported last week at approximately 1,300 bales, were nearing the 2,000-bale mark this week.

Last week's rainfall in Post measured 1.25 inches on County Agent Lewis C. Herron's gauge. That brought the year's total here to 12.13 inches, which is 35 of an inch ahead of the total for the entire year of 1953.

Thursday to Thursday

By CHARLES DIDWAY

AS ONE OF TEXAS' 191 counties producing oil, Garza County is joining this week in observance of Oil Progress Week, which has as its theme, "Oil Serves You."

INCLUDED AMONG THE SCADS of publicity sent out on Oil Progress Week is a table from Texas Mid-Continent Oil & Gas Association showing that Garza County had produced 23,738,527 barrels of oil from 1926, the year of discovery, to Jan. 1, 1954. Crude oil production in the county last year totaled 3,809,036 barrels—10,436 barrels a day.

ALONG WITH SEVERAL OTHERS, we took a short run out on Highway 84 Friday afternoon to watch three members of the State Highway Patrol demonstrate one of the new-fangled radar speed meters. They appear to be just the gadget the Highway Patrol needs in its constant crusade against excessive speeding.

CAPT. E. L. POSEY, Sgt. R. W. Howie and Patrolman Clay Bednar had set the speed meter up in an ordinary-looking automobile, and the rest of us watched and marveled as the radar-eyed device registered the speed of every passing vehicle—even reacting to two noisy helicopters which flew over from the southwest.

PATROLMAN BEDNAR, WHO IS safety officer for the Lubbock district of the Highway Patrol, told us that the speed meter, now being officially used in 37 states, is guaranteed 98 per cent accurate. It's still on a trial basis in Texas, but probably will go into official use in the near future, he said.

THE HIGHWAY PATROL IS COUNTING on the psychology of the speed meter more than anything else to help reduce speed on heavily traveled streets and highways. They believe that signs informing the motorist that the street or highway on which he is traveling is radar-checked will do more than anything else to ease heavy feet off deeply-depressed accelerators.

THE PATROLMEN ARE ALSO counting on the speed meters to eliminate much of their risky work in having to overhaul speeders. A patrolman stationed at one of the meters can contact a patrol car up ahead when a speeding vehicle makes the radar-controlled needle shoot past the speed-limit. He can give the patrolman up ahead the speeding car's make and license number (if it isn't going too fast) and then set back to wait on the next speeder instead of having to risk life and limb in a roaring chase.

PATROLMAN BEDNAR ALSO explained that a graph could be synchronized with the speed meter to register the number of vehicles passing the meter and the speed of each. "That way," the patrolman said, "we'll be able to figure out average speed rates on any given section of roadway."

EVER SINCE WE READ a few years ago that scientists had bounced a radar beam off the moon, we'd wanted to see it in action. We got the opportunity Friday afternoon. Other interested onlookers were Sheriff Carl Rains.

Roger W. Babson Writes This Week:

Making Will Especially Important If Name Is Common One Such As Smith, Brown, Etc.

NEW BOSTON, N. H.—Everyone should employ a lawyer and make a will at once, and re-read it once each year. Over 70% of those who die each day leave no will. Inquiry shows, however, that a large percentage of these careless people have some property. When they die without a will, this property usually goes to someone whom they don't want to get it.

Too Many Smiths, Browns, and Joneses. Making a will is especially important if your name is Smith, Brown, Jones, or some equally popular name. (If you have any doubt as to the number of people having your name, just refer to any large city telephone directory.) If you happen to own a house when you die, your family may get hundreds of letters claiming relationship.

Probably the Probate Court will throw out most of these claims as fraudulent; but some may be left whom your family must "buy off" before a clear title can be given to the real estate or the stock or bond which you own. I am much troubled by the fact that the number of stockholders and Government bondholders are increasing so much faster than the WILLS are being written.

The Great American Lottery Each year about \$500,000,000 are paid by insurance companies for the 40,000 people killed in automobile accidents. Most of those killed leave no WILLS, yet they get "awards" of from \$10,000 to \$20,000 or more.

What persons would you like to have receive your part of this \$500,000,000 in case you should be killed? It depends upon the laws of your state; but the chances are it may go to "relatives" whom you never saw. Hence, before you take another auto ride, you should make a will stating to whom you want this award to go in case you do get killed. I forecast the time may come when states will not be allowed to issue auto registrations to those 21 and over unless the applicant swears he has made a WILL.

Fires, Hurricanes, and Other Casualties Every up-to-date corporation and employer carries liability insurance to protect workers and customers. You do not need to be in an

FIRST SERVICE STATION . . .

Many a great innovator is unsung and unknown. That's true of whoever established the first automobile service station. But he certainly started something!

By today's standards that first station would be about as unimpressive as anyone can imagine. The equipment probably consisted of an old water tank and a length of garden hose. Perhaps there was also a compressor and a sign offering the inducement of "free air." But customers flocked in, other men saw that this new kind of business offered an opportunity for profit—and so a great competitive industry was born.

With Post having been established in 1907, the history of the town doesn't ante-date the first filling station by many years. But, in other cities and towns throughout the United States, automobile service stations are comparative newcomers to the civic scene. Old and new, however, join this week in paying tribute to the service station operator and his helper—the "front men" for the oil industry, which this week is observing Oil Progress Week.

The growth of the service station industry has been phenomenal. Between 1929 and 1954 the number of stations doubled, and there are more than 200,000 of them in operation in this country now. Last year they satisfied the voracious appetites of 55,000,000 motor vehicles, which consumed 43,000,000,000 gallons of gas, along with vast quantities of lubricants. There has been a comparable growth in the quality of service to the consumer. It's estimated that the free services offered actually cost the average service station nearly \$600 a month.

Finally, the modern service station is the answer to the empty charge that the oil industry is a haven of big business, in which there's not much room for the little fellow. Nineteen out of every 20 stations are independently owned, and are typical small business enterprises. All of them are assets to their communities—and all of them are making important contributions to the comfort and convenience of the public.

Deputy Red Floyd, City Marshal F. M. Reep, County Attorney Pat N. Walker, Mayor T. L. Jones, and four local school men, D. C. Arthur, Chant D. Lee, Ellis M. Mills and Bing Bingham.

OFFICIALS OF THE POST High School Ex-Students' Association have good reason to believe that this year's homecoming on Oct. 22 will be much bigger and better than last year's, at which time the ex-students' association was organized. Punk Peel, president, says approximately 1,000 invitations have been mailed exes and their husbands or wives. Regardless of the size of the crowd, the day's activities will be an unequalled success if they can end with the Post Antelopes scoring a grid win over the Tahoka Bulldogs.

THERE WERE SO MANY "firemen" in town last week that it looked like a convention. Most of the grade school pupils were honorary firemen during Fire Prevention Week and wore imitation fire helmets that looked like the real thing. The fire department also furnished the youngsters fire prevention blanks to take home and fill out in an educational program.

There are, perhaps, some merchants who would balk at serving Mexicans in their places of business, regardless of how their regular customers felt about it—whether they liked it or not. As far as these merchants are concerned, it is, of course, useless to suggest that the customers change their attitudes. The solution I propose would work only with those tradesmen who'd like to have the migrant laborers' business, but who can't risk losing regular customers on account of it.

Garza County doesn't raise near as much cotton as some of the other South Plains counties, and for that reason being "black-listed" by the Mexican government and labor groups for such discrimination as "Whites Only" signs wouldn't be as much of a detriment to our county's economy as to that of other counties. Yet these signs and other acts of discrimination have been known to seriously hinder farmers of many counties from getting all the labor they need for the harvesting of their crops.

My sympathy is with the merchant who'd like to have this trade he is missing by having to post "Whites Only" signs. In his case, I don't think it is fair of his regular customers to force him, by their attitude, to lose it. The way I look at it is that if a cafe or drug store I was in the habit of patronizing was full of Mexicans and I didn't feel like going in for a cup of coffee for that reason, I'd forget the coffee and rejoice over the fact that the merchant was having a good "run" of business. All money is the same color.

Wonder what has become of the good old days when people paid their doctor's bills by naming their babies after them? Some guy has figured out that one woman in every 10 has bow-legs. Wonder how does a fellow go about getting a job checking up on things like that? In my opinion, it's not very much of a sin to lie to people who come around and ask all sorts of personal questions.

Temporary Wills Helpful If you are not ready to do this immediately, I have arranged with the Non-Profit Educational Information Center here at New Boston, N. H. (not "Old Boston" which may be bombed!) to send you, for Two Dollars, a blank form for a Temporary Will and other information. This blank form you can fill out in a few minutes and have witnessed by three neighbors at no expense. Later you can take this to your lawyer for a re-write when you think of some addition you may wish to make. But don't wait to take some step at once. Next week may be too late. At least, send for a temporary WILL now; it will serve you until you do go to your lawyer.

Getting Out On The Limb

by EDDIE the editor

SUDDEN THOUGHT: One way to avoid losing your shirt is to keep the sleeves rolled up.

While an authority tells us that a flea can go for two weeks without food, we don't believe we ever heard of one actually doing so.

A crank is usually one who is something of an expert on a subject in which you are not interested.

FARMERS, TRADESMEN and the general public are faced with a predicament, a solution of which would be one of the best things that ever happened to Post and Garza County. It's the deal on what to do about serving Mexicans in public places during the harvest season, and I don't believe the posting of "Whites Only" signs at these public places is the solution.

At the same time, I don't believe the merchants who post these signs can be blamed. I think most of them would be only too glad to benefit from the additional revenue they'd gain during the harvest season by serving the transient laborers on the same basis as they do their regular customers. But these merchants must go along with those regular customers of theirs who consider it an affront for places they patronize to serve Mexicans. Hence, the "Whites Only" signs. The merchant cannot afford to lose year-around customers by serving the Mexican laborers who are here for only a few weeks each year.

The most logical solution would be for the customers to make it possible for the merchants to benefit from this transient trade by adopting an altogether different attitude in the matter. Since it is very doubtful that all the customers would do this, the next best thing would be for them to look upon the harvest season as a short interval during which the transient laborers are the regular customers and the regular customers are the occasional ones. It's doubtful that such an outlook would inconvenience many of the year-around residents, and it's a cinch that it would help the merchants, as well as the migrant laborers.

Restaurants, drug fountains and a few other places are put at a distinct disadvantage by their regular customers' attitude toward serving of Mexicans. They are put at a disadvantage with which other firms, such as dry goods stores, grocery stores, etc., do not have to contend during the harvest season. With all tradesmen needing all the revenue they can get in order to operate their businesses profitably, it just doesn't seem right for some of them to have to let much of this trade go by the boards on account of a few regular customers who are finicky about who is served in the places they patronize.

Protect The Birds Someone puts in a plea for the birds—the dove brings peace and the stork brings exemptions.—The Pittsburg Gazette.

This Week's Definition A co-ed is a girl who didn't get her man in high school.—The Rails Banner.

Monument Is Moved The Hank Smith memorial monument, located since 1936 at the site of a dugout which was his first home after moving to the Plains in 1876, was moved this week to the intersection of the two farm-to-market high-

ways in Blanco Canyon north of Crosbyton. Its new location is about a half mile from the original site.—The Crosbyton Review.

Only Wondering During a severe electrical storm, the parents of Jimmy, age 5, thinking that he might be awake and be frightened, looked into his room. He opened his eyes and mumbled, "What's Daddy doing with the television set now?"—The Kaufman Herald.

People Growing Up People are growing up in the United States, or possibly it is just the point of view that is changing. There was a time when to be a golf player was to brand yourself as a member of the "smart set," and to belong to a "country club" was to make yourself above and beyond the common touch. So that, for instance, you would not do for governor, senator or president. Once not too many years ago, an aspirant for governor lost a good many votes when it got out on him that he belonged to a country club. It was good politics for his opponent to play up the fact. Voters were allowed to look on him as a snob. He lost the race, though he might have lost anyhow, of course. Now the president and everybody plays golf, and if the president should make a hole-in-one, the executive press secretary would be the first to give out the good news.—The Floyd County Hesperian.

Business must be pretty good when the dealers can sell anti-ques faster than the manufacturers can make them. Copyright 1954, by Ray Wood.

THE AMERICAN WAY,

Woodshed Psychology

Our Contemporaries Are Saying

A Solution Of Sorts I've been trying to estimate the time and energy lost nowadays by young men just combing their hair. You won't see one stand still long until he yanks a comb out of his pocket and starts caressing his pompadour with it. However, I have about arrived at a solution of sorts. Just about as much time is spent that way by us baldheads who are continually struggling to keep a few scattered locks pasted down to hide the bald spot.—The Hamilton Herald-News.

Sticks To Guns We're still getting quite a ribbing about our tirade last week on the so-called music coming out of juke boxes. But we still maintain that 90 per cent of the stuff played by jukeboxes is not music at all, but noise—and a very poor grade of noise at that.—Andrew County News.

Definition Of Man Man is that highly ingenious creature who uses nearly two tons of material and 100 horsepower or more to supply personal transportation for an average load of 380 pounds of human beings.—Lubbock Morning Avalanche.

Mother Goose In Texas

By RAY WOOD

What you got there? The King's cupboard. What's in it? Bread and cheese. Where's my share? The cat's got it. Where's the cat? In the woods.

What reader can finish this one? Authentically a part of the Mother Goose legend, this question and answer game has been a part of American childhood as far back as the earliest memory of the oldest person I have questioned.

It sets the pattern for the "Trade-out" which is usually a series of rhymes that can run as long as the teller can think of things to rhyme about. One widely enough known as to have many variants is the following. I wish readers would give me the versions they recall of this one:

Obadiah Jumped in the fire. He fired was so hot He jumped in the pot. The pot was so little He jumped in the kittle. Let the reader take it from there. Next Week: "My Pretty Little Pink."

Variants of these and similar rhymes will be recorded in the permanent collection of Mother Goose in Texas, if sent to Ray Wood, Raywood, Texas.

**LEVI'S RANCH CAFE**  
"Where Good Food Is Never Accidental!"

CHARLES DIDWAY  
E. A. WARREN

Entered at the Post Office at Post, Texas, for mailing through the mails as second class matter, according to act of Congress, March 3, 1879.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the manager.

Remembering Yesteryears

Five Years Ago This Week Last rites for W. B. Longshore, 83, were conducted Saturday afternoon in the First Methodist Church; Mrs. Tommy Markham will be honored this afternoon at a layette shower in the James Brookshire home; A son, Don Edward, was born to Mr. and Mrs. J. B. Cole in Slaton Mercy Hospital. Mrs. Cole is the former Miss Sarah Adams; Glenn Foley spent the weekend attending homecoming at Hardin-Simmons University; Mrs. Malcolm Bull has returned to her job at Post Office; recovering from major surgery; Fifty high school students enjoyed games and dancing at home of Sheriff and Mrs. Ross after the football game day night.

Ten Years Ago This Week A baby girl was born on Oct. 7 to Mr. and Mrs. Sid Cross in the Snyder General Hospital; Chester W. Hunt has purchased the Cloyd Curb Cafe; At the beer election held Saturday, 839 votes were cast against the sale of beer and 170 for; Miss Alma Ruth Lucas and Marshall E. Reynolds of Slaton, attended homecoming at Fort Benning, Ga., on Tuesday in the home of the retiring minister, the Rev. Smith; Mr. and Mrs. A. B. had as their Sunday guests Mr. and Mrs. E. Reynolds of Slaton.

Fifteen Years Ago This Week What a nickel will buy at Powers' Food Store this weekend: No. 1 cans of green beans, corn, spinach, kraut and blackeye peas; Mrs. J. W. McCoach was feted at a surprise birthday party in the home of Mrs. Guy Speck recently; Mr. and Mrs. J. F. Maxey celebrated their 50th wedding anniversary Monday at their home; The Court Cafe is offering the following special Sunday dinner for 50 cents: shrimp tail or chilled tomato cream of tomato soup, fried spring chicken, steak, drawn butter meat, hen turkey with celery, prime beef ribs, macaroni, English peas, butter lettuce and tomato salad, rolls, hot mince pie, pineapple, coffee, tea or milk.

Say mister—where do you get your gasoline?

Let us answer for your dealer, Sonny. He gets it from a local oil jobber like us. You might call us the service station's "service station." You see, we receive and store oil products—like the gasoline that powers the family car—in our bulk plant. And we see that these products are distributed wherever, whenever they are needed—in any weather, in any emergency. Because we're local business men we know exactly what products and services our neighborhood needs. That's how we can compete for local business and carry out our responsibility in America's progressive oil industry. Here's our Oil Progress Week pledge that we'll never let you down.

## Oil Pool Not Like Lake On Surface

A "pool" of oil in deposits under the ground is not like a lake on which you could boat. An oil "pool" is oil packed under terrific pressure in porous sandstones, limestones or other types of rocks. Sometimes gas is packed in with the crude oil by the same pressures, and must be separated when brought to the surface. To oil people, there is a continual challenge to find oil and produce it in the abundant quantities needed for the enormous oil appetite of America. The challenge not only is accepted, but is accomplished by the privately managed oil industry in this country.

## 'Antelope Echo' Is Being Published

The first 1954-55 edition of the "Antelope Echo," published by the Student Council of Post High School, made its appearance this week. Wyvonne Morris is editor of the paper. Other staff members are: Glenda Askins, assistant editor; Don Gates and Bill Stephens, business managers, and Jeanie Peel, Moody Graham, Loyce Josey, Norma Ritchie, Bettie Sue Norman, Sherry Taylor, Don El Dale, Rhea Hays and Marian McCrary. Vernon Ray is faculty advisor to the staff. The paper is to be published every two weeks.

## Oil-Derived Rubber Consumption Is Up

An oil-derived synthetic rubber called neoprene has reached an all-time high in domestic consumption. Introduced in 1931, the synthetic rubber offered physical properties resembling the natural product. In addition, neoprene is noted for its resistance to oils, grease and chemicals. Among the uses found for it are neoprene work gloves for the housewife, rainwear for all members of the family, garden hose, faucet washers, and other household items. Industry uses neoprene for shoe soles, industrial belting, tires, and coated fabrics.

# More people drive FORD V-8's than all other V-8's combined

And it's still the only V-8 in the low-price field! No other engine in the world has enjoyed so much popularity as Ford's V-8. Today, 4 out of every 5 V-8's are Ford V-8's. Ford and Ford alone offers a V-8 in the low-price field... and for hundreds of dollars less than most sixes.

FORD'S V-8 IS THE SAME TYPE OF ENGINE AMERICA'S COSTLIEST CARS ARE SWINGING TO!

Seven makers in the last six years alone have switched to V-8 power in their most expensive models. Yet Ford's been offering V-8 power for over 22 years! Ford gives you your choice of Fordomatic,\* Overdrive,\* or Conventional Drive—the finest choice of drives in the low-price field.

FORD'S V-8 IS THE MOST MODERN V-8 OF ALL!

Ford's new 130-h.p. Y-block V-8 is the most modern overhead valve V-8 in any car at any price. And it's just one of Ford's many "Worth More" features like new Ball-Joint Front Suspension and tomorrow's modern styling. See and Value Check all of Ford's "Worth Mores" and you'll agree Ford's worth more when you buy it, worth more when you sell it. \*Optional at extra cost.

Come in and take a Test Drive!  
WHAT'S IN THE CARDS FOR THE OTHERS, FORD DEALS YOU TODAY!

Since 1913  
1,553,444 Ford Cars and Trucks have been Built  
In Texas By Texans!

# HATS OFF TO POST OILMEN

This week we are glad to join oilmen everywhere in observing Oil Progress Week. We think it's a good time to take our hats off to America's oilmen for their continuous, faithful service to all of us. As part of a service-conscious, competitive industry, they are proving daily that your progress and Oil Progress go hand in hand. Today you can actually

measure that progress by improved gasolines that power your car, more efficient fuels for home heating and hundreds of other oil products that make living more comfortable every day. We'd like to point out that by serving you and the nation so well, America's oilmen have actually made every week of the year Oil Progress Week.

WE APPRECIATE THE PATRONAGE GIVEN US BY THE OIL FOLKS OF GARZA COUNTY

**SERVICE PIPE LINE COMPANY**

YOU drive and operate your car, tractor, and all mechanical servants at less cost because of the pipe line industry's economical transportation of crude oil.

**HUMBLE BITS**

Howdy Folks: We heard about a rich family who had to fire the maid because she insisted on going in the servant's entrance and coming out the family way.

Rich husbands should remember that it's dangerous to awaken your wife with kisses, if you're giving them to the maid.

In San Francisco, a judge is reported to have given the husband the divorce and also the custody of the maid.

That husband was probably the considerate type who sat up with the maid on his wife's night out.

Anyhow a maid has it all over the housewife. She gets paid for doing the house work.

The servant problem has become so acute in certain cities, the housewives are playing Bridget instead of bride.

If your problem is what gasoline to buy, allow us to suggest our ESSO EXTRA. We know you'll be satisfied with it.

**Card of Thanks**

We are deeply grateful for the kind words, flowers and other expressions of sympathy shown us during the illness and death of our father and grandfather, W. J. Hodges, May God bless each and everyone of you.

The Earl Hodges family.

We wish to take this means of thanking all who were so wonderful in the tribute paid us at last Thursday night's banquet. We are deeply grateful for the nice gifts, for all who attended, for all who sent messages of regret for not being able to attend—for everyone, in fact, who made the occasion such an enjoyable one for us.

Mr. and Mrs. George Samson, Jean, Jack and Kettle.

I would like to take this means of thanking everyone for all the many nice things that have been done for me during the time of my accident and stay in the hospital. I appreciate all the flowers, lovely gifts, many nice cards, and the courtesies of Drs. Surman and Williams and the staff at the hospital.

Mrs. W. H. Childs and family

**Bits of News From Here and There**

Guests in the home of Mr. and Mrs. Harry Dietrich over the weekend were Mr. Dietrich's sister and husband, Mr. and Mrs. Ray Mathmeister of Dayton, Ohio.

Mr. and Mrs. Lawrence Epley are in Odessa attending the Permian Basin Oil Show, which began today and will continue through Saturday. They will be guests of Haman Oil Co., of which Mr. Epley is a district superintendent, at a dinner party to-night at the Midland County Club. They will also be guests of Mr. and Mrs. Chester Phillips while in Odessa.

Weekend visitors in the home of Mr. and Mrs. Jim Hays were her brother and family, Mr. and Mrs. David Lee and two sons, of Odessa.

Mrs. J. A. McBee of Brownwood is visiting her sisters, Mrs. Odean Cummings and Mrs. Guy Gearhart, and their families this week.

Mr. and Mrs. Odean Cummings and children, accompanied by Sharon Brooks, spent Sunday in Lubbock with Mr. and Mrs. H. M. Tucker.

Weekend visitors in the home of Mr. and Mrs. Reece Hodges were Mr. and Mrs. Durward White of Hale Center.

Mrs. F. A. Gilley spent the weekend in Lubbock with her daughter, Mrs. Gordon Treadway, and her family.

Friends here have received announcements about the birth of a son, Gailon, to Mr. and Mrs. Gailon Combs of Lubbock. Mrs. Combs will be remembered as Miss Imogene Bowen, daughter of Mr. and Mrs. Aron Bowen.

Mr. and Mrs. Shelley Camp were among those from this section who attended the Texas-Oklahoma football game at the Cotton Bowl in Dallas on Saturday.

Mrs. Tom Gates and little grandson, Mike Bumpass, of Lubbock spent Sunday here with Mr. and Mrs. Bob Warren.

**Name Fire Essay Contest Winners**

Winners were announced Wednesday in the annual fire prevention essay contest at Post High School.

First place winner in the upper four grades was Patsy Roundtree, English II student, with the theme, "Your Help Is Needed."

Frances Barron, also an English II student, was first place winner in the eighth grade, with the theme, "The Lumber Fire."

Second and third place winners in high school were Ruby Montgomery, second, and Johnnie Graham, third. In the eighth grade, Jimmy Short was second, and Victor Hudman, third.

Loans and discounts at this time total \$778,415.70, as compared with \$844,720.41 a year ago, and \$387,900.17 on June 30.

## Post High School A Cappella Organizes, Elects Officers

Post High School A Cappella met Tuesday and reorganized under the direction of Tom Mayfield, junior student. Ballentine and Frances Dietz will serve the group as acousticians again this year.

Officers were elected as: Lonnie Welborn, president; Leonard Short, vice-president; Glenda Askins, secretary; Lou Hedgepath, treasurer; Ballentine, reporter; Donna Asky, recreation chairman; Arleta Galy, student representative.

Members are Naomi Niva, Iva Byrd, LaJuan Davis, and Moeleland, Linda Moreland.

### HOW SPANISH FILMS

Spanish-language movies are shown Saturdays and Sundays at the Garza Theatre on Main Street, according to N. Hopkins, manager of the Garza theatres.

## OUR MOVING EQUIPMENT

plus  
oilmen's  
"know-how"  
means  
more oil for you!

You may not know it, but you're on the winning end of the world's most efficient teams. You see, every day oil moving equipment companies like ours provide America's oilmen with the tools and equipment they need to bring you and your neighbors the record amounts of oil you call for.

We like working hand in hand with America's competitive, progressive oil companies in serving you. And this week we'd like to join oilmen everywhere in observing Oil Progress Week. But we'd like to point out that, by their faithful service to you, they have made every week of the year Oil Progress Week.

## E. MERCER

Trucking Contractor

## Church News

The Rev. and Mrs. Gerald N. Blackburn and J. A. Stallings, delegate from the Abilene Presbytery, are in San Antonio attending the Presbyterian Senate.

A goal of 238 has been set for First Baptist Training Union Sunday evening. The Training Union revival now in progress is being well attended. The Rev. Roy Shahan, pastor, also reports an increase in Sunday School enrollment. He has announced his sermon topics for Sunday as follows: "Fish—Cucumbers—And Garlic" (Numbers 11:1-6) Sunday morning and "Steps to Canaan, the Land of Promise" (Numbers 13:30), Sunday evening.

About 60 women attended the Wesleyan Service Guild district meeting at the Methodist Church here Sunday afternoon. Mrs. Boo Olson offered organ selections as guests were registered by Mrs. Luther Bilberry and Miss Bonnie McMahon. The Post guild gave a tea immediately following the business session Mrs. Malcolm Bull, Mrs. Pat Walker and Miss Thelma Clark assisted with hospitalities. The next regular guild meeting will be at 7:15 p. m. Monday in the home of Mrs. Bull. Mrs. Mittie Walker of Grassland will have charge of the program.

There will be a congregational meeting during the 11 o'clock workshop service Sunday at the Presbyterian Church.

### Amity Club Meets Tuesday Evening At Mrs. Peel's

The Amity Study Club met Tuesday night in the home of Mrs. V. L. Peel with Mrs. Leo Cobb as cohostess. Following the business meeting, presided over by Mrs. C. H. Hartel, the group was served refreshments at four-some tables. The French theme was emphasized in the menu and place cards. Canapes and French pastries, nuts, pickles, olives and coffee were served.

Mrs. Gerald Blackburn gave an interesting talk on her recent trip to Paris, France and London, England, and showed movies taken on the trip. Mrs. Bob Collier concluded the program with slide pictures of vacation spots throughout the United States.

Attending were Mrs. Leo Acker, Mrs. Luther Bilberry, Mrs. Malcolm Bull, Mrs. Jack Burrell, Mrs. G. K. Cash, Mrs. Collier, Mrs. Edsel Cross, Mrs. Thurman Francis, Mrs. Hartel, Mrs. Lewis Herron, Mrs. N. R. King, Mrs. Chant Lee, Mrs. Wilma Olson, Mrs. E. F. Schmedt, Mrs. Pat Walker, Mrs. Blackburn, Mrs. Jack Lancaster, Miss Thelma Clark and the hostesses.

Mr. and Mrs. D. C. Roberts visited in Abilene Sunday with Mr. and Mrs. Eldon Roberts.

## Mrs. Davis Gives Book Review For Sorority Members

Mrs. Lee Davis, director of Mu Alpha Chapter of Beta Sigma Phi Sorority, gave a review of Irving Stone's "Love Is Eternal" at a regular meeting of the unit, Monday evening at Mrs. Gerald Blackburn's.

During the business session preceding the review, plans were completed for the chapter's first fall rush party, which is to be a spaghetti dinner at the home of Mrs. James Minor, Monday evening. The group also voted to sponsor Girl Scout Troop Two, led by Mrs. Max Gordon and Mrs. Giles McCrary. Refreshments were served to the group.

Those present were Mrs. Jimmy Hundley, Mrs. Jess Cornell, Mrs. Bing Bingham, Mrs. Vernon Ray, Mrs. Gordon, Mrs. Charles Propst, Mrs. Burney Francis, Mrs. Willard Kirkpatrick, sponsor, Miss Ganell Babb, Miss Jane Stephenson and Mrs. Blackburn.

## Mrs. Jess Propst Is Club Hostess Friday Afternoon

Mrs. Jess Propst was hostess for a meeting of the Priscilla Club in her home Friday afternoon. The group completed work on curtains for Garza Memorial Hospital nursery.

Refreshments of sandwiches, nuts, mints, cake and drinks were served to the following: a guest, Mrs. Lacy Richardson, Mrs. R. L. Redman, Mrs. E. S. Stewart, Mrs. Robert Cox, Mrs. Dezzie Middleton, Mrs. N. C. Outlaw, Mrs. L. A. Barrow, Mrs. Almon Martin and Mrs. Victor Hudman.

## Norman Relatives Go To Oklahoma Sunday

Several members of the J. W. Norman family went to Hollis, Okla., Sunday for an open house honoring their aunt and her husband, the C. J. Parris, on their 40th wedding anniversary, at the home of their daughter, Mrs. G. W. Wade.

Attending were Mr. and Mrs. Earl Gregg, Mr. and Mrs. B. A. Norman and Wanda and Mr. and Mrs. W. H. Norman and Patsy of Grassland, Mr. and Mrs. Ray Norman of Gordon, Mr. and Mrs. A. B. Norman of Levelland, Mr. and Mrs. Reagan Reed of Brownfield and Wade Gerner.

## Mrs. Hodges Has 74th Birthday Oct. 10

Mrs. M. C. Hodges celebrated her 74th birthday Sunday at her home. Several relatives visited during the day.

Those present were Mr. and Mrs. Spence Bevers of Justiceburg, Mr. and Mrs. Dee Hodges and children, Mr. and Mrs. Floyd Hodges and children, Mr. and Mrs. O. A. Tannehill, Mrs. Cloma Eason and Wanda of San Angelo, Mr. and Mrs. Bonnie Hodges and Reece Hodges.

## We Salute...

### Garza County's Oil Industry ---

The Garza County Oil Industry has contributed greatly to the growth of our community.

We appreciate the fine folks associated with the industry and wish to thank them for the splendid patronage they have given us through the years.

## SHORT HARDWARE

## Miss Wanda Hawkins, Ross Self Are Married In Nazarene Church

Look Who's New

Mr. and Mrs. Doyle Kelley of Tahoka and formerly of Post, are announcing the arrival of a seven pound 11 1/2 ounce son at 11:19 a. m., Oct. 7, in Lubbock Methodist Hospital. He has been named Gordon Price. Mr. Kelley is a Church of Christ minister.

A nine pound, one ounce boy was born to Mr. and Mrs. Raymond Bates of Seminole, in a Lamesa Hospital Friday. He was named Joe Don. Mrs. Roy James is the maternal grandmother.

Jackie Hays of Oceanside, Calif. is home on a 30 day leave from the Marines.

Miss Wanda Ruth Hawkins, daughter of Mr. and Mrs. D. H. Hawkins, became the bride of John Ross Self, son of Mr. and Mrs. W. H. Self Saturday evening.

Family members and close friends attended the single ring ceremony, which was read at 7:45 o'clock in the Church of the Nazarene with the Rev. Cecil Stone, pastor, officiating.

The bride wore a pale blue tulle dress with white accessories and carried a pink bouquet on a white Bible.

Miss Pearl Self of Hardin-Strickland University in Abilene, sister of the bridegroom, was maid of honor. She wore a blue flowered silk dress with white accessories and a pink corsage.

Curtis Williams attended the bridegroom as best man.

After a trip to New Mexico, the couple will be at home here where he is employed as a drill bit with Head Drilling Co., 322 1/2 and Mrs. Self attended the Nazarene Church.

## Let's go steady!

Give us a chance to make friends with your car. We know exactly how to do it—we give your car the care it deserves, keep it supplied with the finest gasolines and lubricants and see that it gets top-flight service... as long as we're "going together."

Taking good care of your car is our job, as part of America's competitive and progressive oil industry. Drive in today—you'll find it pays off when we "go steady" with your car.

# YOUR CAR CAN CATCH COLD, TOO!

● You know how easy it is to catch cold when the seasons change. That can happen to your car, too! Now that winter's coming you want to make sure that your car is ready for the cold weather ahead.

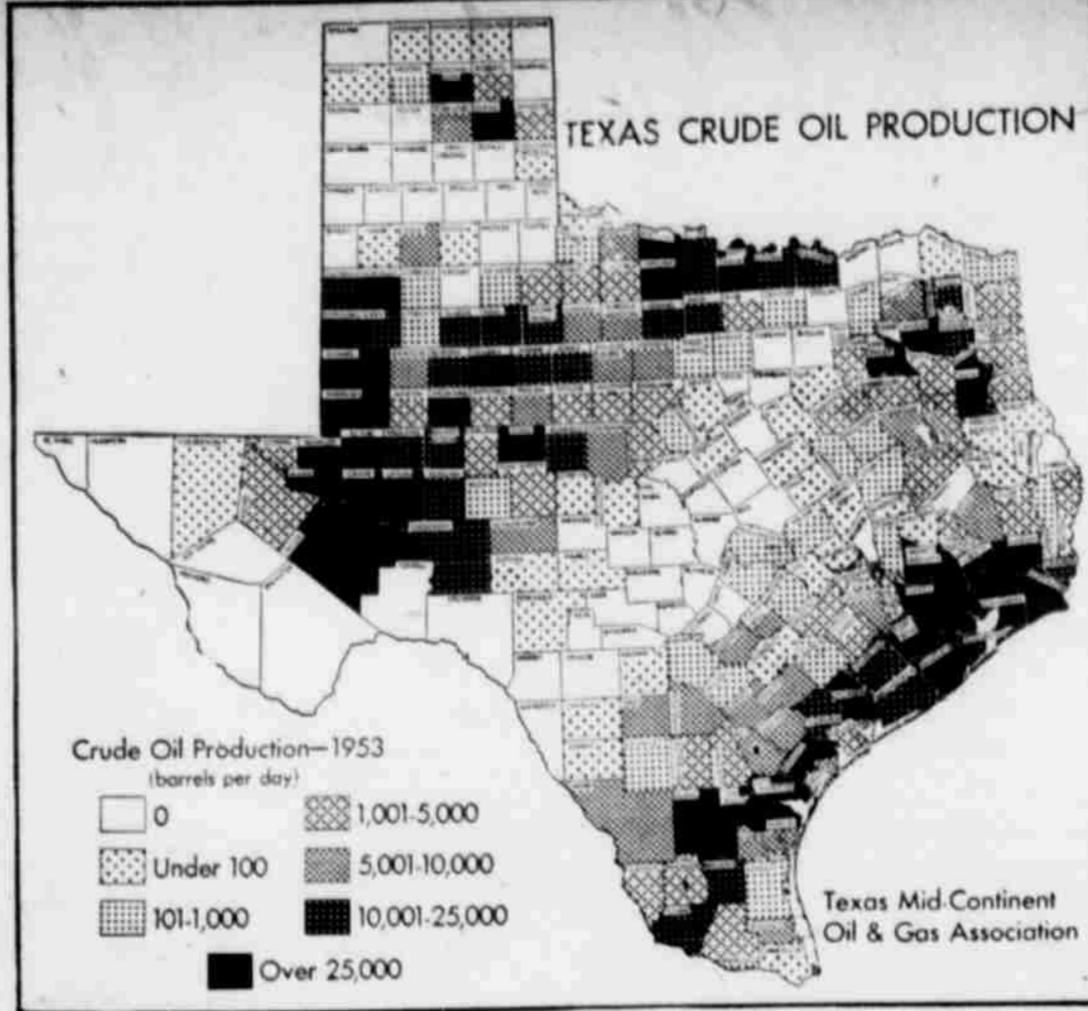

That's why we urge you to drive in for our special winterizing service right now. We'll put in anti-freeze, change the oil, lubricate and do everything to get your car ready for "old man winter."

Giving your car this kind of special care is one way we can show you how America's competitive and progressive oil industry works for you. So drive in today—we'll try to make your car "healthy" and safe all winter long!

## Floyd's Service Station

We Appreciate The Splendid Patronage Given Us By The Oil Folks Of Garza County

WE GIVE FRONTIER STAMPS

TEXAS CRUDE OIL PRODUCTION—Texas' 191 oil producing counties are shown in this map, prepared by the Texas Mid-Continent Oil & Gas Association. Three counties—Culberson,

Dickens and Ellis—began producing for the first time in 1953. Texas has 37 counties which produce over 25,000 barrels of crude oil a day.

### Oil-Bearing Rocks Identified By 'Eye'

Combining chemical and geological techniques and the use of a relatively new analytical tool called the infrared spectrophotometer, oil men have now identified the source rocks of certain types of oils or asphalt.

Geologists and chemists reached their conclusions after years of research on samples of outcrop, sub-surface rock, and hydrocarbons. By knowing how to identify source rocks, geologists may be able to locate areas which are particularly favorable to oil occurrence.

In the risky and costly search for oil, new clues and techniques are eagerly developed by the hundreds of oil companies in this country.

All American Indians are legal citizens of the United States.

### Heaviest Tanker Is Recently Launched

A new "heavyweight champion" tanker with a capacity of 16,500,000 gallons was launched recently.

The vessel can transport enough oil to fill a caravan of oil trucks more than 30 miles long. Its hull is divided into 33 cargo tanks, each twice as large

as the average six-room house. Entering service under charter to an oil company, the tanker is exceeded in size by only five merchant ships now in service: the passenger liners United States, Queen Elizabeth, Queen Mary, Liberte and Ile de France.

The Common Moonrat, a cousin of the hedgehog has an odor similar to that of an onion which repels its enemies.

The moon is an average 238,857 miles from the earth. About 15,000 U. S. children 5 to 14 years old die each year. The moon has no atmosphere.

# Only Gas Heats Water 3 Times Faster

Fully Automatic For Dependable Service

Illustrated at right is a "Liberty" Day & Night fully-automatic gas water heater. This heater features a control panel that is completely enclosed by a panel board.

The scientifically engineered and time tested features of an automatic gas water heater assure the modern family of plenty of hot water for bathing, dish-washing, laundering and all the other cleaning chores around the house. See your plumber or gas appliance dealer today and have him install a fully-automatic gas water heater in your home. Be sure that it's sized to the needs of your family.

### Fire Department Sponsoring Show

The Post Volunteer Fire Department is sponsoring the appearance here at 8 p. m. Wednesday, Oct. 20, of Plunkett's all-new stage show with their band and orchestra.

The show will be at the fairgrounds, just south of Main Street on South Avenue H.

Plunkett's new show has 10 acts of vaudeville, plus a three-act comedy, "Holy Sinners."

Read The Classified Ads.

### SEE NEW AUTO

John F. Lott, Wayne (Tramp) Brown, Harold Lucas and Cliff Clark, all of Caprock Chevrolet, Inc., were in Tulsa, Okla., the first of the week to attend a dealer's preview showing of the new 1955 Chevrolet. The group made the trip in Lott's private airplane.

T. B. Harmon was called to Jaldale, Calif., last week to be with his mother who underwent emergency major surgery.

Mr. and Mrs. R. L. Pike and Mr. and Mrs. John Smith are visiting relatives in Alabama this week.

### Post Girls Leaving Friday For Japan

Mrs. Billy Jack Boren and Miss Carolyn Boren will leave Friday for Tokyo, Japan, to visit their husband and brother-in-law, Pfc. Billy Jack Boren.

Pfc. Boren, who has been stationed in Korea since January, will be on a 30-day furlough during their visit.

Mrs. Boren and Carolyn will travel by plane from Amarillo to Los Angeles and from Los Angeles to Honolulu, where they will spend the weekend. They will leave Sunday for Tokyo, arriving there Monday.

### Honor Banquet—

(Continued From Front Page)

most of the crowd was "from right here at home," as Samson himself later described it, and the affair was strictly a home-folks program.

Telegrams were read from a number of persons who could not be present at the honor dinner. One of the messages was from Gov. Dan Thornton of Colorado, who formerly lived at Slaton. He wired:

"His guidance in 4-H Club work was of unestimable value to me."

O. L. Weakley, who was master of ceremonies for the program, presented Samson with a plaque which read: "Presented to George (Scotty) Samson in recognition of his outstanding civic achievement, devotion to the public interest, and contribution to the county's agricultural program over a period of almost half a century. Presented by his friends."

Don Long, representing the Garza County Quarter Horse Association, presented the honor guest a gift, as did Don Richardson, representing the Junior Rodeo Association; Carol Davis, representing the Garza County 4-H Council; and Shelley Camp, representing the Post Stampede Cowboys.

Music was presented by the "Serenaders" from Lubbock, and the entire program was recorded by radio station KFTO of Lubbock and broadcast early Sunday afternoon.

Samson himself made no talk at the program, but at its conclusion, he acceded to the wishes of the KFTO radio men and said a few words into the microphone for the broadcast Sunday afternoon. In this brief talk, he expressed himself as "overjoyed" at the honor paid him by his friends and neighbors.

### BITS-OF-NEWS

Miss Catherine Royalty and Miss Jean Parks of Lubbock attended the Wesleyan Guild district meeting held at the Post Methodist Church Sunday afternoon and visited the Ed Warren home following the meeting. Miss Royalty, a former Post school teacher, presided over the meeting.

Mrs. Eva Bailey, Mrs. Ella West, Miss Katharine Stryker and Malcolm Usrey spent Sunday afternoon visiting in the W. B. Stanfield home in Snyder.

Mr. and Mrs. Andy Adams of Bryan attended the Appreciation Banquet for Scotty Samson and visited in the Ed Warren home while in Post. Mr. and Mrs. Adams formerly lived in Post. Mr. and Mrs. Noah Stone spent the first of the week in Dallas.

### WE KEEP CARS IN TUNE

It's music to our ears to hear your car's engine purr after one of our special tune-up jobs. It's music for you, too, because it's a sure sign that there are miles and miles of safe, carefree driving ahead.

You see, we're not satisfied with just keeping your car supplied with gasoline and oil. We offer

you expert service—the kind of service that actually adds thousands of miles to your car's life.

This is how we compete for your business. We don't just offer you the finest oil products available—we guarantee you the best services possible, as well. So put your car in good hands—bring it to us today!

**SECTION TWO**

**SPORTS**  
**Post Scripts**

With an open date this weekend, the Post Antelopes won't be able to improve on their 2-1-3 record, but neither will it get any worse. The hard-luck Antelopes, who have been plagued by injuries almost as much as they have by game mistakes, can use this weekend's breathing spell. On Oct. 22, they face the Tahoka Bulldogs here in their final home game of the 1954 season. Here's hoping they can wind up their home season like they opened it!

Tahoka lost a tough one to Seminole, 7-0, Friday night, and are in for more trouble this weekend when they go to Brownfield to take on the Cubs, one of the area's fastest-improving teams.

Two teams the Antelopes have already played this season, Roscoe and Hamlin, got together Friday night, with Hamlin coming out on the long end of a 37 to 0 score. Roscoe plays Throckmorton this Friday night, while Hamlin's Pied Pipers go against Spur.

Spur's Bulldogs pulled a surprise Friday night by defeating high-ranked Olton, 14 to 13. As a result of this non-conference victory, the Bulldogs will be favored along with Tahoka by most gridiron observers as the team to beat for the District 5-AA championship.

The Morton Indians, who tied Post, 7-7, in a game here Sept. 10, lost to Seagraves, 13-0, Friday night in a conference game. The Indians play their next-door neighbor, Whiteface, this weekend in another conference setto and should get back on the win side of the ledger.

The O'Donnell Eagles took another drubbing Friday night, losing to Stanton, 32-0, in a conference game. O'Donnell and Denver City play Friday night in what will be a game between two winless teams. One of them is going to spoil the other's record.

The goose doesn't hang near as high in Crosbyton as it did before the Chieftains lost to the Hale Center Owls, 49 to 0, Friday night. The victory stamped Hale Center as one of West Texas' best Class A eleven's—right up in the class with Sundown.

Rotan's Yellowhammers, who defeated the Antelopes Friday night, have an open date this weekend. On the 22nd, they go up against one of the state's Class AA powerhouse eleven's, the Stamford Bulldogs, in a District 4-AA game.

Following an open date, the Slaton Tigers go back into action this week on their home field against the Floydada Whirlwinds, who were surprised last Friday by Abernathy.

Abernathy, which won over Floydada by a score of 20 to 13, play the Lockney Longhorns at home Friday and aren't expected to have any trouble against one of several area teams which are going through dismal seasons.

**The Post Dispatch**  
 THURSDA, OCTOBER 14, 1954

**Post '11' Has Open Date; Play Tahoka Here Oct. 22**

The Post Antelopes, who have lost their last three games after getting off to a fairly good start, have an open date this weekend in which to rest up for their District 5-AA opener here Friday night against the Tahoka Bulldogs.

The Antelopes scored first at Rotan Friday night, but couldn't hold onto the lead and wound up on the little end of a 26 to 12 score. Last season, Post downed Rotan, 39-14, at Antelope Stadium.

Early in the opening period against Rotan, Darrel Ray Norman, Antelope halfback, gave Post fans something to cheer about when he circled his own right end for 20 yards and a touchdown. His placekick try for the extra point was blocked.

The Yellowhammers came back to tie the score on the ensuing kickoff when Wesley Minton took the ball on his own 15 and ran 85 yards to tally. Jimmy Ashley's placekick try was wide.

The Antelopes went ahead again in the second stanza when Junior Smith, right tackle, intercepted a Rotan pass on the Yellowhammers' 30 and went all the way. Quarterback Tommy Murray failed to convert.

Rotan snapped back to take the lead when Minton hit the line twice for short yardage, the last from two yards out, and Ashley converted.

The Yellowhammers added another touchdown in the third quarter when George Bridges intercepted a Post pass on Rotan's 34. On a fake fourth down kick, Bridges handed off to Minton, who scooted 56 yards to score. Ashley failed to convert.

Rotan iced the game in the fourth period when a Post fumble was recovered on the Yellowhammer 24. Minton hit through the center and raced to the Post 20-yard line before being brought down by Norman. Funk passed to Jerry Black, left end, for the touchdown, and Ashley placekicked the extra point.

Evangelista Torricelli invented the barometer in 1643.

**fall in love with your car again...**

Remember how proud you were of your new car when you saw it in the showroom? We'd like to do all we can to keep that car as close to new as possible.

We know that next to your home, it's your greatest investment and therefore deserves the best care in the world. To us this means more than just keeping it supplied with top-quality gasoline and oil. It means extra service—the kind of service that makes your car a pleasure to drive while you own it, makes it worth more when you trade it in.

Making friends with your car is our business. And making that friendship pay off for you is our job in America's competitive and progressive oil industry. So why don't you bring your car in today—and find out for yourself that we mean all we say!

**MRS. R. V. BURNES**  
 Pleasant Valley Correspondent

Mr. and Mrs. Dee Tipton of San Bernardino, Calif., are guests of her sisters and their families, the Clovis Robinsons and W. R. McGehees.

Carl Payton was brought home Monday from Portales, N. M., where he underwent surgery last week.

Thirteen members of the local Brotherhood heard the Rev. Wayland Edwards of the Southwest Baptist Church in Lubbock speak here last Thursday night.

Mr. and Mrs. D. R. Payton of Gentry, Ark., were recent visitors in the home of their son, Carl, and family.

Mr. and Mrs. Alton Graves of Goldsmith were guests of the Lawrence Burkett's the first of the week.

Edwin Lewis is recuperating from surgery on his arm, following the dislocation of an elbow.

Mr. and Mrs. A. R. Robinson have returned home from a vacation in Colorado. They visited the J. R. Robinsons at Mameos.

Mr. and Mrs. Charles Ruff and family of Wolfthorpe were recent guests in the home of her brother and family, the Robert Mocks.

**Oil... AT YOUR SERVICE**

**WE'RE NEVER TOO "MODERN" FOR OLD-FASHIONED COURTESY!**

When you drive into our service station, you'll find modern equipment and the finest oil products available. We're only old-fashioned about courtesy—the kind of friendly, "old-fashioned" service that earned service stations their name.

We're not satisfied with just supplying your car with gasoline and oil—we want to give it the expert care that can actually add thousands of miles to your car's life.

Courtesy and service—that's our aim, as part of America's competitive, progressive oil industry. So put your car in good hands—you'll find it pays big dividends.

**TUESDAY -- ONLY -- OCTOBER 19**

**THE BIG NIGHT!**

**RETURN TO TREASURE ISLAND** HUNTER BAWW ADDAMS

**RECRUITING OFFICER HERE**  
Sgt. Burton Staats, recruiting officer, of Lubbock will be at the local courthouse and post office each Friday morning. Anyone interested in enlisting in any branch of the Army is asked to contact him. Enlistments now are for a three year period and include all GI benefits. Further information is available at the recruiting station, Room 204, Federal Building, Lubbock.

**OIL FOR ENERGY**  
Further illustrative of petroleum's role in the formation of the new world is the fact that in 1900 it supplied roughly eight per cent of the nation's energy needs; in 1953, despite a five-fold increase in the energy needs of the nation, petroleum supplies almost 64 per cent.  
In the year 2000, Easter Sunday will be on April 23.

# \$2.3 Billion A Day Spent In Texans' Search For Oil

All the gold and silver mined in the United States in a year would pay only about one and one-half months of the Texas petroleum industry's drilling bill.  
As Texas oil and gas operators headed toward a record year in drilling, they appeared to be spending some \$2.3 billion a day in the search for new fields and the development of those already found, according to Texas Mid-Continent Oil & Gas Association. (Annual U. S. gold and silver ore yields run about \$112 million, according to 1950 estimates.)

When the final third of the year's oil hunt began, Texas drilling operations were running 10 per cent ahead of the 1953 rate for the same period. If this were kept up to year's end, it would mean a total of more than 20,000 holes for 1954. The 1953 record: 18,383.

Fears were voiced at the August hearing of the Texas Railroad Commission (where state production allowances are decided) that the operators face a record bill for drill costs while at the same time their income is curtailed as allowances are trimmed to meet reduced demand figures.

Early September saw more than 151,000 oil and gas wells on Railroad Commission schedules, a gain of 5,200 since the first of the year.

Many segments of the economy are affected by the drilling operations themselves, to say nothing of the benefits that come from production.

The Association points out that oil prices, the amount that can be sold, and the depletion allowances are three important factors in determining the amount of exploring the operators are able to undertake.

A glimpse at some of the dollar activity in Texas which stems from drilling makes clear the stake that Texans have in the "depletion" provision in the federal income tax law which encourages oil men and other investors to risk their money in the face of great losses from dry holes.

ed) that the operators may be drilling themselves into an economic hole.  
Some 41,000 Texans are employed in the drilling operations. The wages of men working on rigs and in service units have been calculated at more than \$180 million a year. Labor costs are estimated to be about one-fifth of a well's cost.

Farmers, ranchers and other landowners receive from the operators some \$70 million a year in lease money on undeveloped acreages. The State of Texas itself is one of the largest landowners. Operators have paid the state more than \$40 million in lease and bonus money for the "tidelands" tracts alone. Before the last award of offshore leases (some \$32 million in December, 1953), the state had already received nearly \$160 million from leases and bonuses.

Each new drilling venture unleashed a fresh flow of money into the state's economic blood stream. For example, the campaign to find oil in the tidelands has meant millions of dollars in contracts for shipyards in the Orange, Port Arthur and Beaumont area. One yard at Orange reported employment up 80 per cent. The operators are spending from one-third to a million dollars apiece on platforms for deep water drilling that must withstand Gulf hurricanes. Drilling tenders—ships that warehouse supplies and mud pumping equipment—cost from \$1 million to \$1.5 million each.

The seismograph exploration which precedes the drilling operation itself is a \$60 million a year item for the state's oil-hunting operations.

Costs vary on wells in different parts of Texas according to depths and difficulties encountered. Deeper drilling generally is required in West Texas than in North or Central Texas. West Texas operators have spent \$95,040 on 6,500 foot wells, while 12,000 foot wells have cost nearly \$300,000. (In early September a Reeves County wildcat passed the 18,500 foot mark; a new depth record for Texas—over 3-1/2 miles deep.)

And what are the odds which the industry faces for such outlays of cash?

Of the 18,383 wells drilled in Texas in 1953, 37 per cent were dry, but this included the development wells which were drilled in the vicinity of producers.

The Railroad Commission reported that 4,383 of these wells were "wildcats"—wells drilled in new territory or into new rock strata not explored before. Eighty-five out of 100 of these are dry.

## VA Questions And Answers

Q. I have a 30 per cent service-connected disability, which I incurred in Korea. Would that alone be enough to entitle me to Public Law 16 training?

A. No. A service-connected disability alone is not sufficient to entitle you to Public Law 16 training. You also must be in need of training to overcome the handicap of your disability. Need would have to be established at a session with a VA counselor.

Q. I am going to a vocational school under the Korean GI Bill. I understand that I am allowed 30 days of absence a year. Do legal holidays and weekends count as absences?

A. No. However, other days during school vacation periods—such as Christmas and Easter—would be counted as absences.

Q. I have a permanent GI insurance policy on the endowment plan. At the end of the endowment period, how will I be paid the money—in a lump sum or in monthly installments?

A. You may choose to receive the proceeds in either manner—lump sum or monthly installments, ranging from 36 to 240 in number.

Q. I pay premiums on my GI insurance once each year, in advance. What would happen if I were to die shortly after making my yearly advance payment?

A. The present value of premiums paid in advance of the current month would be refunded to your beneficiary.

Pete Hays, who is in the Air Corps and stationed at Carswell Air Base, Fort Worth, spent the weekend here with his parents, Mr. and Mrs. Jim Hays.

## Oil Serves Home In Invisible Role

Among the larger consumers of petroleum are the public utilities. They use it to manufacture gas and to generate electricity, as well as to lubricate the whirling dynamos and spinning wheels.

One gallon of residual fuel oil will yield approximately 8.9 KWH of electricity. Since the average home uses about 5.9 KWH per day, a gallon of residual fuel oil, therefore, can be converted into a one and one-half day supply of electrical power for this purpose alone.

In turn, that electricity serves many masters. It provides a constant supply of lights at the touch of a finger; it heats irons and ironers, and it operates vacuum cleaners, toasters, refrigerators, ranges, broilers and the many other electrical gadgets in the average home.

## Oil Progress Week . . . .

Every one of us, every man, woman and child in America, owes a load of thanks to our oilmen. This is Oil Progress Week—a good time for us to put our thanks into words.

By their continuous, faithful service to this community and to the nation, America's oilmen prove daily that your progress and Oil Progress go hand in hand. You can measure that progress—by the improved gasolines that power your car, the efficient new fuels for home heating and the hundreds of other new oil products that make living more comfortable every day.

It seems to us that by serving America so well, oilmen have made every week of the year Oil Progress Week.

## International leads again!

With 4 Great New All-Truck Features for America's Only All-Truck Light-Duty Models

INTERNATIONAL—world famous for truck value and all-truck engineering—now brings four big quality advancements to the light-duty truck field! Now—with new engines, new handling ease and performance—INTERNATIONAL sets a new high in light-duty truck value! Come in and see these newest features . . . then take a demonstration drive.

Arrange for Demonstration Drive—Today Your trade-in may cover the down payment. Ask about our convenient terms.

**Dowe H. Mayfield Co., Inc.**  
**INTERNATIONAL TRUCKS**  
Trucks of the Highway

### 1 New Tubeless Tires.

Now standard equipment on all ONE HUNDRED Series models. Provide great new safety and freedom from tire troubles. Lessen the danger of blowouts and punctures. Operate with less noise.

### 2 New Automatic Transmission.

Last word in automatic drives! Extra pulling power for smooth, fast starts. Direct gear drive in high for conventional transmission economy. Cuts engine, drive-line, tire wear, maintenance cost. For all light-duty models, at low extra cost.

### 3 New Overdrive Transmission.

INTERNATIONAL-tested and proved to provide outstanding light-duty truck economy. Reduces engine speed—increases engine life—saves on gasoline, oil, maintenance expense. Well worth low extra cost in all ONE HUNDRED and R-110 Series models.

### 4 New Power Steering.

Truck-designed, truck-built to combine finger-tip-easy parking and maneuvering with true, solid "feel of the wheel." Provides conventional steering in event of power failure. For all light-duty models, at extra cost.

## Plastic Pipes Now Carry Petroleum

Oil, that magical substance which contributes to so many businesses and industries, may contribute to its own travels.  
Polyester resins, which are oil-derived, have been used to make a plastic pipe that is said to have high-strength and corrosion-resistance. Designed primarily for use in oil fields, the new pipe joins a vast underground network to move oil from field to market.  
In the United States alone,

## HERE'S BLACK MAGIC

Nearly 95 per cent of all carbon black sold in this country goes to the rubber industry. More than 1.8 billion pounds were used last year in the manufacture of tires, and in fountain pens, hot water bags and other products of natural and synthetic rubber. Carbon black, a petroleum product, strengthens the rubber.

there are more than 170,000 miles of petroleum pipe line, enough pipe to circle the earth almost seven times.

## Graham News

By MRS. DILLARD THOMPSON  
Please Send News Not Later  
Than Monday To  
Graham Correspondent

Mr. and Mrs. Jack Brown will go to Dallas Sunday, where she will enter St. Paul Hospital.

Mr. and Mrs. Tom Ferguson of Ralls, Carl and Delwin Fluit and Jerry Bush were Sunday visitors of the W. O. Fluitts.

Visiting Mrs. J. F. Mason Sunday were her niece and her husband of Kerrville.

Mr. and Mrs. Billy Johnson and boys of Pleasant Valley were Sunday dinner guests of the Allen Odens. Afternoon visitors were Mrs. Nellie K. Babb of Post and the Gus Porterfields.

Mr. and Mrs. Delmer Cowdrey and Clark spent Sunday at Garden City.

Mr. and Mrs. Gerald Norman and Judy left Sunday for Atlanta, Ga., to visit her mother and sister, Mrs. V. Stell and Mary Lou.

Mr. and Mrs. Bill Thompson of Slaton visited the Ray McClellan family Wednesday night. Thompson is home on furlough from the Army.

Mr. and Mrs. L. D. Gollightly and Bobby and Linda of Floydada and Miss Janet Hamer of Lubbock were weekend guests in the G. L. Hamor home.

Mr. and Mrs. Maurice Fluit spent Sunday at Childress with her parents.

Glenda Oden accompanied Mr. and Mrs. John Burks to Lubbock Sunday where they visited Mrs. Ed Singleton.

Mr. and Mrs. Herbert Bishop of Lubbock visited the Maxey families Sunday afternoon.

Jeanie Peel was a Saturday night guest of Shirley Sullivan in Post.

Mr. and Mrs. Bobby Pierce and boys of Post visited Mr. and Mrs. C. N. Chandler Sunday.

Mrs. Carl Fluit and Jacky spent Sunday at Tahoka with their parents and grandparents.

Alvin Javis attended the Tech football game in Lubbock Saturday night.

Mrs. Maud Thomas and Mrs. Arthur Crockett were recent visitors in the Close City homes of the C. J. Mangums, L. G. Thuett and J. M. Bushs.

Sunday guests of Mr. and Mrs. Jess Propst were her cousin and his wife, Mr. and Mrs. Clarence Reddy, of Floydada.

Mr. and Mrs. Jess Gregg and family of Ropesville visited the Dillard Thompson and Earl Gregg families during the weekend.

Mr. and Mrs. Elmer Cowdrey spent Saturday and Sunday visiting relatives and friends at San Angelo.

Mr. and Mrs. Bob Lusk visited at Lorenzo and Muleshoe Sunday.

Doyle Smith of Abilene spoke at the Church of Christ Sunday morning and evening. He and his mother were guests in the Elva Peel home.

Mrs. Donald Gossett of Close City spent the weekend with her parents-in-law, Mr. and Mrs. Fred Gossett.

Mr. and Mrs. Lester Mafcey of San Saba were Monday night guests in the home of her brother-in-law and sister, Mr. and Mrs. Albert Stone.

The Rev. John Syrois spoke at the Methodist Church Sunday. He and his family were dinner guests of the Chester Morris at Close City.

Mr. and Mrs. Elton Lee and girls of Carlbad, N. M., spent the weekend with the Harley Wallace and H. L. Mason families.

Mr. and Mrs. J. B. Stewart of California are guests of his brother, Melvin, and family.

Mothers of school children are asked to meet at the school house at 2 p. m. Friday to make plans for the Halloween Carnival.

Mr. and Mrs. Earl Hodges and daughters returned Sunday night from Quinlan where they attended funeral services Friday for his father, W. J. Hodges.

Mr. Hodges, who was 87 years old, died Wednesday of last week in an Austin hospital after a brief illness. His home was in Austin.

The funeral services were conducted in the First Methodist Church of Quinlan.

Besides the son of Post, Mr. Hodges is survived by four other sons, Charlie and William of San Francisco, Calif., Jim of Dallas and J. B. Hodges of Terrell; one daughter, Mrs. Goldie Sherman of Abilene; three brothers, J. A. and Ben Hodges of Lubbock and C. N. Hodges, who lives in the Philippine Islands; two sisters, Mrs. Laura Holland of Lubbock and Mrs. Addie Elliott of San Angelo; 20 grandchildren and 16 great-grandchildren.

Visiting Sunday with Mrs. E. L. Gilmore were Mr. and Mrs. W. A. Waters of Abernathy and Mr. and Mrs. Weldon Ritchie of Hale Center.

Mr. and Mrs. Roy James visited in Lamesa Sunday in the Jack Temple home. Other guests were Mr. and Mrs. Rayford Bates and children of Seminole.

● Every time one of our tank trucks delivers oil products to your farm, you're getting help from one of the world's best and most versatile "farmhands"—Oil power!

No one knows better than you how oil power has made farming and farm life better all over America. You have seen how farming with oil can step up production—how it helps speed your crops to market.

That's why we're so proud of our job in America's competitive and progressive oil industry. You see, it's our job to supply this community with power from petroleum. Here is our promise that we'll always be on the job, doing everything we can to bring "more power to you" with the newest, most improved oil products.

# R. L. REDMAN

**WE'LL BE  
"AT YOUR SERVICE"  
THEN, TOO!**

● We don't know what tomorrow's cars will be like—but we do know our service station will be ready to bring you the newest oil products and the best service available.

We're not satisfied with just supplying you with gasoline and oil—we want to give you our kind of expert service that adds thousands of miles to a car's life.

Assuring your motoring pleasure and highway safety is our way of showing you what America's competitive, progressive oil industry is like. Here's our promise we'll always be on the job for you.

# We Salute.....

The Oil  
Industry Of  
Garza County

We appreciate what oil has meant to Post and Garza County... we deeply appreciate what the oil industry has meant to our store.

The fine folks of the Garza County Oil Industry have been loyal customers at our store and we appreciate each and every one of them.

We appreciate the fact that the folks of the oil industry have fitted themselves into our churches, our civic clubs, and into the activities of this community.

**WE SALUTE YOU THIS OIL  
PROGRESS WEEK AND EVERY WEEK  
IN THE YEARS TO COME.**

# Hudman Furniture Company

**Water Helps Coax Stubborn Oil**

Water pumping into oil formations which have their natural pressure, oil is now coaxing more oil out of the ground than nature would yield.

A resourceful method is water-flooding. It is one of the many conservation methods which the industry has developed to squeeze every last drop of oil possible from existing fields.

Water-flooding now is making available millions of barrels of oil which once were thought beyond recovery.

**We Salute...**

**The Oil Industry Of Garza County**

...too, we wish to express sincere thanks to the members of the oil industry for their splendid patronage we are receiving from them.

...we welcome you at all times to our restaurant.

**American Grill Cafe**

**County's Oil Activity In Spotlight With 9 Locations, 2 Completions**

Operators have staked location on which to drill a shallow wildcat oil project in the south-central sector of Garza County.

J. K. Wadley and K. E. Jennings of Texarkana, Ark., No. 1 K. Stoker is projected to a depth of 4,200 feet. Rotary drilling equipment will be used and operations are to commence immediately.

Exact location is 330 feet from north and 630 feet from east lines of the southwest quarter of Section 28, Block 5, GH&H Survey, seven miles southeast of Post.

Other new locations are as follows:

Post—Dr. Sam G. Dunn No. 2 Henderson, 330 from south and east lines of the southwest quarter of the northeast quarter of Section 82, Block 5, GH&H Survey, 10 miles northeast of Post; rotary to 3,000 feet, at once.

Post—Dr. Sam G. Dunn No. 3 Henderson, 330 from south and east lines of the northeast quarter of Section 82, Block 5, GH&H Survey, 10 miles northeast of Post; rotary to 3,000 feet, at once.

P. H. D.—Leland F. Long No. 2 Ben Altman, 330 from north and east lines of the southwest quarter of the southeast quarter of Section 1255, TTRR Survey, six miles southeast of Southland; rotary to 3,600 feet, at once.

P. H. D.—Leland F. Long No. 3 Ben Altman, 330 from north and east lines of the southeast quarter of the southeast quarter of Section 1255, TTRR Survey, six miles southeast of Southland; rotary to 3,600 feet, at once.

Post—Dr. Sam G. Dunn, 7 Davis, 2,310 from south and 1,650 from west lines of Section 80, Block 5, GH&H Survey, 10 miles northeast of Post; rotary to 3,000 feet, at once.

Post—Dr. Sam G. Dunn No. 16 McCrary, 990 from south and 330 from west lines of Section 81, Block 5, GH&H Survey, 10 miles northeast of Post; rotary to 3,000 feet, at once.

Post—Dr. Sam G. Dunn No. 17 McCrary, 1,650 from south and 900 from west lines of Section 81, Block 5, GH&H Survey, 10 miles northeast of Post; rotary to 3,000 feet, at once.

Post—Dr. Sam G. Dunn No. 18 McCrary, 2,310 from south and 330 from west lines of Section 81, Block 5, GH&H Survey, 10 miles northeast of Post; rotary to 3,000 feet, at once.

Following are completions during the past week:

Huntley-Glorieta—Alamo Corp. No. 1-GB W. A. Cash, 330 from north and 1,313 from west lines

of Section 1216, TTRR Survey, pumped 101.09 barrels of 36.2-gravity oil and no water daily. Gas-oil ratio was 210-1. Perforations from 3,966-4,031 feet were not treated.

Huntley-3400—Continental Oil Co. No. 1-A Shultz, 330 from north and east lines of Section 4-SF-1441, Horace Brannon Survey, pumped 94 barrels of 35.4 gravity oil plus 22.72 per cent water daily. Gas-oil ratio was 318-1. Perforations from 3,300-3,560 feet were acidized with 4,000 gallons.

**This derrick means more comfort and convenience for you**

**OIL PROGRESS IS YOUR PROGRESS**

**OCT. 10TH TO 16TH IS OIL PROGRESS WEEK**

We are proud to be a part of this great team which has established Post as one of the centers of the oil industry.

**Southland News**  
Please Send News Not Later Than Monday to MRS. HARLEY MARTIN Southland Correspondent

Mr. and Mrs. R. Mason of Abilene have been visiting their daughter, Mrs. L. B. Hambricht. Mr. Mason, a retired Baptist minister, spoke at the local Baptist Church Sunday evening.

Mr. and Mrs. H. D. Hallman, Jr., of Lubbock visited his parents and aunt, Mr. and Mrs. Hansell Hallman and Mattie Dabbs, Sunday.

Tyra Jan Martin, 20 months-old daughter of Mr. and Mrs. Harley Martin, underwent surgery in Lubbock Methodist Hospital Thursday morning. Her condition is reported as good.

The Rev. Harrison, operator of the Baptist Book Store in Lubbock, preached at the Baptist Church Sunday morning.

Mr. and Mrs. Jack Myers and family attended funeral services in Dickens Sunday for a cousin, who was killed when he was thrown from a horse.

The Rev. and Mrs. H. B. Coggin visited Mr. and Mrs. Sam Martin Friday. He is pastor of the Buchanan Methodist Church in Amarillo and is a former pastor here.

Mr. and Mrs. Herman Dabbs and Brenda attended the football game at New Home Saturday night. New Home defeated Southland 20-12 in the game, which highlighted homecoming activities.

Mrs. Dick Denton had as her Sunday guests her sister and family of Brownfield.

Visiting Tyra Jan Martin while she was in Lubbock Methodist Hospital were Mr. and Mrs. Edgar Moseley, Mr. and Mrs. Sonny Moseley, Mr. and Mrs. Sam Martin, Mrs. Herman Dabbs, Mr. and Mrs. Hub Taylor, Mr. and Mrs. Aubrey McNeely and Mr. and Mrs. Jack Lancaster of Post.

Herman Dabbs, Virgil Smith, Alvo Albright, Hansel Hallman, Roy Williams and Spencer Kuykendall left Tuesday for a week's deer hunt in Colorado.

A guest of Mrs. Weldon McGehee this week is her sister from California.

Mr. and Mrs. T. L. Weaver and children of Wilson visited Sunday with his parents, Mr. and Mrs. Ealy Weaver.

Travis Dabbs, a Tech student, visited Saturday with his parents, Mr. and Mrs. Herman Dabbs.

Sherry Taylor attended the Post-Rotan football game at Rotan Friday night.

Valton and Stanley Wheeler, Tech students, were weekend guests of their parents and brother, Mr. and Mrs. Horace Wheeler and Ferrel.

Mr. and Mrs. Charlie Dabbs recently visited their son, Royce, and family in Lubbock. The Royce Dabbs' youngest son, Stevie, who has been ill is improved.

Mrs. Joe Gayle Fleming visited her parents, Mr. and Mrs. E. M. Norman, near Grassland Saturday.

Mr. and Mrs. Robert Cannon recently visited Mr. and Mrs. W. A. Arms in Lubbock and Mr. and Mrs. N. A. Arms in Plainview.

Mrs. Clyde King, the former Miss Ollie Davies, and children who are in Germany with their husband and father who is stationed there, write that they are enjoying sightseeing. They plan to return to the States in the spring.

Mr. and Mrs. Lessie Jolly of Slaton visited Mr. and Mrs. Robert Cannon Sunday.

Sam Martin had as his guest on Monday evening his brother, Leland Martin, of Odessa.

of Section 1216, TTRR Survey, pumped 101.09 barrels of 36.2-gravity oil and no water daily. Gas-oil ratio was 210-1. Perforations from 3,966-4,031 feet were not treated.

**Stop Taking Harsh Drugs for Constipation**

Avoid Intestinal Upset! Get Relief This Gentle Vegetable Laxative Way!

For constipation, never take harsh drugs. They cause brutal cramps and griping, disrupt normal bowel action, make repeated doses seem needed.

When you are temporarily constipated, get more but gentle relief—without salts, without harsh drugs. Take Dr. Caldwell's Senna Laxative contained in Syrup Pepsin. The extract of Senna in Dr. Caldwell's is one of the finest natural laxatives known to medicine.

Dr. Caldwell's Senna Laxative tastes good, gives gentle, comfortable, satisfying relief of temporary constipation for every member of the family. Helps you get "on schedule" without repeated doses. Even relieves stomach sourness that constipation often brings.

Buy Dr. Caldwell's. Money back if not satisfied. Mail bottle to Box 280, New York 18, N. Y.

**Bits of News From Here and There**

Pete Dodson of Carlsbad, N. M., is reported getting along nicely this week in St. Francis Hospital at Carlsbad, where he underwent surgery Saturday morning.

The Rev. and Mrs. Gerald N. Blackburn were in Lubbock last Thursday and Friday to attend a lecture-clinic for physicians and ministers at the First Presbyterian Church.

Mr. and Mrs. James Minor and Jimmy and Marilyn spent last weekend in Dallas. They attended the Oklahoma-Texas football game, as well as other attractions at the State Fair.

Children of Mr. and Mrs. M. J. Malouf gathered at their home Sunday to honor Mrs. Malouf on her 50th birthday. Those present were Johnny Malouf and family of Lubbock, Buddy and family of Borger, Junior and family of Eunice, N. M., and Mrs. Matilda Assad and daughter of Los Angeles. On Monday night, Johnny Malouf held a birthday dinner for his mother in his home at Lubbock.

Lawrence Epley and Billy Hill of Post and Paul Sizemore of Snyder will leave Sunday for Casper, Wyo., where they will spend 10 days deer hunting.

Mrs. Claude Thomas of Grassland and her sister, Mrs. Carlice Edwards and Don Mac returned Sunday from Idaho Springs, Colo., where they visited for two weeks with their sister and aunt, Mrs. Jim Looker. Their mother and grandmother, Mrs. R. B. McCord, of Tahoka returned home with them after spending six weeks in the Looker home.

**ARTHITIS, RHEUMATISM, NEURITIS Sufferers Now Offered Amazing Relief From Agonizing Pains**

Sensational new medical discovery called AR-PAN-EX works through blood stream where it can do the most good, fastest. Even most stubborn cases have gotten blessed relief from torturing misery. See us today about guaranteed AR-PAN-EX tablets.

**GREENFIELD HARDWARE**

**How would YOU search for oil?**

● Believe us—the search for oil is one of the world's riskiest businesses! In areas where oil has not been found before, only 1 out of 9 wells drilled ever produces oil. The other 8 are costly dry holes.

But like thousands of other oilmen, we accept risks like this—every day. That's because uncovering new sources of oil is our responsibility in America's oil industry—an industry that always brings you more and better oil products through the keen competition for your business.

We like our job, because every time we do find new oil it's good news for us—and for everybody in America. Here is our pledge that, no matter what the odds, we'll continue our search—for you and the nation.

# OIL PROGRESS

America moves forward . . . on oil. Everywhere you turn . . . from the car on the highway to the plane in the sky . . . from the kitchen mixer to the farm tractor . . . it is oil that "makes the wheels go 'round" . . . freeing millions from physical toil . . . making life run more smoothly, more happily for all!

**FARM** Oil has transformed life on the farm . . . to the vast benefit of the farmer and his family. With tractors and other mechanized equipment, the farmer can cultivate more land and produce more food with far less labor than ever before. Petroleum-based insecticides help him to control pests. The farmer's life is easier, more successful, more satisfying . . . because of OIL!

**HOME** Household tasks are lighter . . . home life brighter because of oil! Automatic oil heat banishes the tedious task of furnace tending from millions of homes. Oil lubricates electric appliances . . . is ever-present both outside and inside the home . . . in products that range from asphalt roofing and linoleum floor coverings to plastic covered furniture.

**INDUSTRY** Every wheel that turns in every factory is lubricated by oil. Mining and manufacturing industries and public utilities are tremendous users of petroleum fuels. Petroleum also furnishes raw materials for plastics, synthetic rubber and many other commodities. Oil plays a basic part in maintaining America's productivity and high standard of living.

**Oil Progress Week**  
Oct. 10th - 16th  
Whoever you are, whatever you do, wherever you go, 24 hours in every day,  
"OIL SERVES YOU"

Here Is Our Progress Week Pledge That We'll Keep At It . . . So That, Through OIL PROGRESS, You'll Have Even Better Living Tomorrow.

We Are Proud To Have In A Way, Contributed To The Growth Of This Community

**HOW TO "SEE UNDERGROUND"**—An electric logging truck lowers into a well a device called a "sonde," which passes current into underground formations. Resistance to the current—measured and recorded on film—helps lo-

cate and identify fluids trapped in rock layers. This is one of many tools the modern oilman has to help him see what lies below the earth's surface.

## Modern Oilman Can 'See Underground' With Electric Log Introduced In 1929

The modern oilman can "see underground."

Far-reaching advances in petroleum technology have given him methods and tools which enable him to tell with uncanny accuracy the types of formations pierced by his bit.

The use of cutting, cores, electric logs, caliper surveys and other seeing-eye tools is reducing the chances of drilling through unrecognized oil-bearing zones or missing oil fields by close shaves.

And although none of these devices can scan a well bore and show everything that lies below, the oilman can take revealing glimmers from many sources and fit them into a complete picture of underground information.

One of the earliest sources of

underground information was the driller's log. Pioneer drillers acquired the knack of recognizing certain formations by "the way the bit acts." The driller's log of today is a more reliable tool. With a rotary rig, the rate of penetration becomes a good measure of the relative hardness of the rocks being drilled. Such data in the driller's log is of great help in checking information obtained from other techniques.

Mud logging, among the modern methods of seeing underground, involves making continuous tests of the drilling mud as it returns to the surface from the bottom of the hole. If the bit has entered a formation containing oil or gas, that oil or gas will be entrained in the mud, and it can be detected in field laboratories usually stationed near a drilling well. The most common test for oil consists of putting the mud sample under an ultraviolet light and looking at it through a microscope. Any oil in the mud will show up as a fluorescent glow.

A much older method of obtaining underground information is the study of cuttings collected as the well is drilled. These cuttings are taken from the mud stream and later submitted to laboratory tests. Facts about the type of formation, its general porosity and the presence or absence of oil are often brought to light.

Rating second to none as a method of seeing below is coring. A core is a cylinder of the earth's crust—ranging up to 100 feet long—which is cut out by a circular bit and then brought to the surface in a core barrel. These cores are subjected to laboratory analysis and accurate measurements are made of their porosity, permeability and oil-water content. This enables a geologist to tell a great deal about a well's prospects.

A seeing-eye tool introduced to the oil industry in 1929 is the electric log. In making such a log, a device called a "sonde" is slowly lowered into the uncased hole. Inside the sonde is a system of electrodes through which is sent a steady flow of electricity into the adjacent strata. The resistivity encountered by this electrical current is recorded above ground on log strips. If a layer of rock contains salt water, it will offer little resistance to the flow of current. But if it contains gas or oil, it will show a high resistivity. The electric log also measures another phenomenon, called the self-potential, which serves as a highly useful marker to tell where one rock bed ends and another begins.

For special jobs and special situations, the oilman seems to have as many logging instruments as a surgeon has scalpels. Among these are the induction log, microlog, radioactivity log, neutron log, caliper log, dipmeter and temperature and pressure surveys.

A recent guest in the home of Mr. and Mrs. Jim Barron of the Close City Community was his sister, Mrs. McWhorter, of Lubbock.

Mrs. Sam Sanders recently attended the funeral of an uncle at Cisco.

Miss Joyce Short of Tarleton State College spent the weekend here with her parents, Mr. and Mrs. Lowell Short.

### OIL PAVES ROADS

Asphalt, one of the residues of petroleum refining, is used to pave U. S. highways. Currently, more than 80 per cent of the nation's surfaced roads, including practically all of the vital farm-to-market highways, are paved with petroleum asphalt.

Mr. and Mrs. Red Floyd went to Amarillo during the weekend after his mother, Mrs. Lula Floyd, who had been recuperating from a broken hip at the home of a daughter, Mrs. O. B.

Redman. She is visiting with another daughter, Mrs. Ethel Redman, and family for several days. Miss Pearl Self, a student in Hardin-Simmons University in Abilene, spent the weekend here with her parents, Mr. and Mrs. W. H. Self.

## M. C. FURNITURE

NEW AND USED FURNITURE

EAST MAIN

The article you buy is no better than the dealer who sells it to you. We are proud to be connected with men who have served their town and their county with devotion and integrity. The name of Mason means much to those men and women who expect honesty in their dealer. Almost from the infancy of the city of Post this firm has been busy in helping build churches, schools, and giving itself, without reserve, to the making of better opportunities for boys and girls as they grow into womanhood and manhood. The senior member has long been connected with youth organizations such as scouting and welfare work. The junior member, after leading his battalion of our boys through the slime, mud, and cold of France and Germany with bullets and bombs falling everywhere, returned, and chose our town for his home. Now you can see why we are so happy to be connected with a firm, that has such excellent men as its leaders.

We have several new bedroom suites from \$99.50 up. Also two livingroom suites priced \$139.50 and \$239.50.

- 1-7 Ft. Frigidaire, used . . . . . 59.50
- 1-Up-Right Deep Freeze, used . . . . . 250.00
- 1-8 Ft. Deep Freeze, used . . . . . 99.50
- 1-Chrome Dinette, new . . . . . 127.50
- 1-Baby Bed, used . . . . . 24.50

There are many other bargains in both new and used furniture which we will be happy to show you.

**We're Happy To Add Our Congratulations  
To The Great Oil Industry Of This County . . . . .**

Post and Garza County are, indeed fortunate in having such extensive oil operation. We are proud to have the members of the oil industry as our friends and neighbors.

It is our privilege to congratulate the oil industry on their progress this past year and wish them continued success.
