Memorial Services Attended Here Friday By 150 Persons

"More than 500,000 young men have died in the defense of this great nation since it was founded, shedding their blood so that we might enjoy the privilege of walking the streets as free men."

John Lee Smith told approximately 150 persons gathered Friday at Terrace cemetery to observe Memorial Day.

"They gave up their freedom; they gave up their chance to have the love of a home; they sacrificed their all for you and me, and I hold no respect for a citizen who won't remember that," Smith continued.

4-H Delegates To Leave Monday For State Event

Five Garza county 4-H club members and two adult leaders will leave this weekend to attend the annual State 4-H Roundup to be held at College Station June 9-11.

contest at the Roundup. Mrs. Hardy Smith and Agent Lewis Herron will accompany the group when they leave by chartered bus, with the other South Plains delegates of Extension District II.

Classes with sufficient enrollment will begin Tuesday morning at 7 a. m. Each full credit class will require two hours daily and half credit classes one hour daily.

Delegates to the convention are Norma Ritchie, daughter of Mr. and Mrs. Aubrey Ritchie; Wyvonne Morris, daughter of Mr. and Mrs. Wilburn Morris; V. A. Lobban, jr., son of Mr. and Mrs. V. A. Lobban; and Ned Myers, son of Mr. and Mrs. Jack Myers.

Recognition for achievement and entertainment are the primary objectives of the 1952 Roundup.

No student will be allowed to take more than 1 1/2 credits, Lee explained. The classes will be conducted six days per week for six weeks or five days per week for eight weeks.

Sandstorm Destroys Much County Cotton

If it ain't one darned thing, it's another! That is the consensus of several Garza county farmers who live on the Plains.

According to A. H. Walker, chairman of the Roundup program, the 1,800 4-H club members, local adult leaders and extension agents will find all planned programs and activities aimed at achieving the two objectives.

Registration fee of \$5 is required and the remainder is to be paid before the class is completed. The entire cost is \$21 per credit and \$11 per half credit.

Having experienced one of the worst droughts in many years, the farmers felt a little respite when the rains fell last week.

The first planned activities are scheduled for Monday afternoon and include visits to spots of interest on the campus of Texas A. and M. college. The Monday night program will feature an outdoor party for all 4-H members at the "Grove" and at the same time Chancellor and Mrs. Gibb Gilchrist will honor all 4-H leaders with a reception at their home on the college campus.

Attending the Tuesday night meeting was a guest from Slaton who marked up his fifth year without an absence. He was Bland Tomlinson.

City Plans Buying Street Sweeper

Have you noticed the paved streets in Post looking somewhat cleaner the past few days?

Tuesday is the big day. Sixteen judging and demonstration contests will be held to pick the state winners in as many different 4-H fields of work. The delegates to the Roundup and the leaders will participate in the program which formally opens the 1952 state meeting and they will hear Dr. G. C. Baker, Jr., chaplain, Southern Methodist university, discuss "Tomorrow's Honors." Periods devoted to group discussions and recreation for the 4-H delegates will follow the general meeting while the 4-H leaders will confer on "How to be a Better 4-H leader."

Program Tuesday night was presented by Louis Mills. He carried the members through a day with a postal employee.

Getting Out On the LIMB...

By EDDIE the editor

Did you attend the Memorial Day Services held in Terrace cemetery last Friday? Nine chances out of ten, you didn't.

Whew! The eleventh Post Stampede is just history. And I imagine plenty of people in this town are more than happy to see it on record.

Which brings up one question. There is talk of having to rebuild all the stands. Why not build them so that the seating capacity can be upped considerably?

I would also like to discuss (did I hear someone say rave?) the specialty act which the Association officials were fortunate to obtain for the rodeo.

Bud Lucas, who organized the troupe, has been in the business for eighteen years. And he calls it teeterboard and tumbling acrobatics.

And believe it or not, that young lady who performed the death-defying flip to the shoulders of the two men while blindfolded, is only 12 years old.

Contestants in the 1952 Stampede, and incidentally they topped the 1951 total by about 21, turned in some real rodeo performances.

Every contestant was in there trying all the way. And I would like to take this opportunity to welcome them back to next year's Stampede.

How about the dances? Did you make any? Not being too much of a dancer these days, I didn't step out for a set.

Who was it that once said (I'm sure it was no one famous, but some young buck) that "dancing is just hugging set to music."

Speaking of sports. Maybe Post will have a softball league after all. Latest reports are that play is supposed to begin next Tuesday night and last until sometime early in August.

Good. Now if you don't have some place to go, or have seen the movie, then trundle out to the ball park and enjoy watching a couple of good softball teams battle it out.

The formation of this league should provide the men and boys of the town plenty of opportunity to blow off that extra steam (and to say nothing of some of those extended fronts the men have).

For as has been said before the league is being formed primarily to allow the men and boys a recreational program. There is nothing professional about it, but take it from men, there will be plenty of fun in watching.

Texas Brags: To move the Texas corn crop would take a string of box cars longer than the distance from New York to San Francisco.

When the corn is ready for picking, the farmers whistle for the wind to blow. It blows all the kernels off clean as can be; then a whirlwind picks them up in its syphon and dumps them into sacks which the farmer has tied along the fence.

Texans In WASHINGTON

By TEX EASLEY, Associated Press Washington Service

WASHINGTON, (AP) — Every congressman gets lots of mail, some of which is propaganda, some from constituents threatening to defeat the legislator if he doesn't go along with them, and some from people calmly expressing their honest convictions.

Rep. Lloyd Bentsen of McAllen offers some pointers about writing your congressman, views which undoubtedly are shared by the rest of his Texas colleagues.

The "Do's" include these points:

1. Give concise reasons for your position. Every congressman appreciates first-hand information from people who know what they're talking about.

2. Keep letters as short as possible. Considering some 100 to 1,000 letters a day may pour into an office, a congressman hasn't time to wade through a long drawn-out letter.

3. Give specific name or number of the bill in which you are interested. Some 10,000 assorted bills are introduced in the two-year period of each Congress.

On the other side are:

1. Don't send a form letter or quote someone else's letter. The congressman wants your own thoughts on legislation.

2. Don't ask the congressman to take a stand on a specific bill until the committee in charge of the legislature has had a chance to hear the evidence and dig out all the facts, pro and con.

3. Don't tell the congressman how influential you are in his home district.

ROGER W. BABSON WRITES THIS WEEK

Middle Class Living Standard Has Declined To A Disasterously Low Peak, Expert Claims

BABSON PARK, Mass.—I am much concerned about the financial plight of some white-collar workers. I am talking about small business managers, schoolmasters, bookkeepers, sales clerks, doctors, and the clergy. These have been our community leaders. They have represented much of what has been best in our communities.

This is the group of people who from 1935 to 1939 earned salaries ranging from \$2,500 to \$3,500. Only last week I talked with a salaried executive of one company. In 1939 he was making \$3,000 per year. Raises since that time have brought his salary to \$4,000. In 1932 he took out insurance policies which would pay \$500 per year toward each child's education.

With inflation and increased taxes, this man cannot afford the education he had planned for his children without going into debt. It is this segment of our population whose bank accounts have shrunk, who have been forced to cash in war bonds and insurance policies—not for television sets and new cars—but to pay the food, clothing, and shelter bills.

Here's What Happened

The 1935-39 \$2,500-a-year male school teacher would need much more today to maintain his 1935-39 living standards. How many school committees have raised their teachers as much as they should? The result is that our teachers have constantly had to pull in their belts for the education of their children, hospitalization, and their old age.

This unfortunate situation is not wholly due to inflation. Some of the troubles are due to

the school teachers and parents themselves. They have failed to instill into the youth a love for work and a desire to be of real service. Our communities are now suffering from this neglect of fundamental training.

Salaried Workers vs. Wage Earners

Wage earners, on the other hand, through group pressure—namely, labor unions—have gained ground fast. During the 1935-39 period, manufacturing workers earned, as a group, about \$23 per week. Today they make about \$66 per week. This represents an increase of approximately 187% in wage earnings.

What I am concerned about is that those white-collar workers in our community who, by the nature of their training and experience, have been our leaders have not received the same kind of treatment as the production-line worker. Does this mean that the only way to get the problem recognized is through group pressure? If top management does not realize the inequities in this group of workers, I am afraid they are inviting disaster.

Looking Into The Future

Perhaps the one consoling factor for the white-collar worker is that commodity prices and federal taxes will probably not increase further in 1952. This, however, is small encouragement for a substantial block of our most solid citizens. On the other hand, all should realize that raising wages is not the cure for the disease or the answer to the problem.

Summer Activities At Camp Post Get Underway With Annual Cub-Dad Day

Summer time means camping out for Boy Scouts of the South Plains Council and camping activities got underway with a bang this past weekend at the C. W. Post Memorial Scout Camp 2 1/2 miles southwest of Post.

Opening Saturday with the 18th annual Cub-Dads camp, the camp played host to 230 Cubs and Dads Saturday and Sunday. The first Scout week began Sunday afternoon with 168 boys participating.

Scout camp breaks up following breakfast each Saturday and the Cubs and their Dads come in for the Saturday night meal and leave right after Sunday noon.

A total of five Cub-Dad Camps will be run this year: Saturday to Sunday; last week; June 7-8, (330) June 14-15, (174); June 21-22, (160); and June 28-29, (92). This Saturday members of Cub Pack 16 here in Post and their Dads will go to camp. There will be a total of 330 Cubs and Dads participating this weekend.

Six weeks of Scout Camp are scheduled. The dates and expected enrollment are: June 1-7 (168); June 8-14, (192); June 15-21, (215); June 22-28, (120); June 29-July 5, (51 registered last Saturday).

The fifth week is a provisional camp. Any scout can attend without troop or scout master. And the final week is reserved for all colored scouts. They are troops in Lubbock, Plainview, Levelland, Littlefield, Slaton, Brownfield, Tahoka and Lamesa.

This year the South Plains scouts are enjoying the facilities of a brand new dining hall. The structure was built with a \$25,000 gift from the First National Bank in Lubbock.

However, the boys have the same cook, A. G. (Jabbo) Fney has been cooking for the scouts

for four years. He is being aided this year by Joe Smith and Roy Fennell.

Also new at the camp is an archery range. Charles Wendt is in charge of archery. A full time chaplain has been added to the summer staff and the health lodge is brand new. Repair work of the Trading Post has it in excellent shape.

Jack Johnston, with the help of Medwin Gattis, will supervise the health lodge and be in charge of sanitation.

Raymond Lupfer, director of field service for the council, will serve as camp director. Curt Wilcox district executive of the southern section of the council, will serve as program director. Ray Howard, district executive of the Central Plains District, will be commissary director. The waterfront activities will be under the direction of Bob Harston and he is to be assisted by Jack Vaughn of Lubbock and Sidney Tinnin of Ralls.

The Cub Camps each weekend will be under the direction of Scout Executive W. R. Postma and District Executive T. D. Daniel. Chief Frank Runkles will be in charge of Indian lore and nature study.

The program at camp this year will be on a patrol basis. Each patrol of Scouts will have the opportunity to choose activities while in camp. The program includes swimming, life saving, rifle range, archery, pioneering, bird study, nature lore, a complete handicraft program, and this year for the first time special training courses will be run for the Scoutmaster each week.

The new health lodge was built by the doctors of the 20-county area. Also added is a new 100,000 gallon water storage tank. The sanitary system has been greatly improved with the addition of several new showers and toilet buildings.

Scout troops from the entire 20-counties of the South Plains attend the camp. Fifty-four troops now hold reservations.

C. W. Post Memorial campsite consists of some 400 acres and lies just below the Caprock. The campsite was given to the South Plains Council, Boy Scouts of America, by the Post Estate in 1926.

Medical rechecks will be given each boy as he arrives at camp through the co-operation of Lubbock-Crosby county Medical association.

Each Friday at 8:30 p. m. there will be a big Indian dance

program and all parents and friends of scouting are invited to attend.

Santa Fe Renews Education Awards

The Santa Fe Railway will renew its annual Educational Awards to 4-H club boys and girls in Texas again in 1952. A total of 69 awards are offered in states served by the Railway, and Texas will receive 15.

Garza county did not have a winner last year, but Janyce Lobban, daughter of Mr. and Mrs. V. A. Lobban of Justiceburg, was alternate state winner.

The awards are cash sufficient to pay all the winners' expenses to attend the National 4-H Club Congress to be held in Chicago next fall.

In addition to the annual prizes, the Santa Fe will this year offer two college scholarships valued at \$250 each to the 4-H club boy and girl in Texas.

Winners for both the awards and scholarships will be selected by State 4-H club leaders based on achievement records of the individuals.

N. J. Lanotte and his daughter, Mrs. Maggie Childress, are in Los Angeles, Calif., where they are visiting in the Frank and Lloyd Lanotte homes. They will go from there to Washington where they will visit with the Smith and Perkins families for several weeks.

Richard Simpson was a guest of his grandmother, Mrs. Harold Ellis, during the rodeo. His parents, Mr. and Mrs. Wallace Simpson, of Clovis, N. M., brought him last weekend and visited through Sunday.

Public Notice

No. 104 AN ORDINANCE

Designating a certain zone within the city limits of the City of Post, Texas as a Hospital Zone and prohibiting the erection of any kind of buildings thereon, except for residential purposes; prohibiting the operation, carrying on, or maintenance of any business thereon; declaring any building erected thereon, and any business operated, carried on, or maintained thereon, to be a nuisance; fixing a penalty for violation hereof and declaring an emergency.

BE IT ORDAINED BY THE BOARD OF COMMISSIONERS OF THE CITY OF POST, TEXAS:

(1) There is hereby made, constituted and designated a hospital zone within the limits of the City of Post, Texas in and upon the following described lands, to-wit:

Being all of blocks Numbers One Hundred Ten (110), One Hundred Eleven (111), One Hundred Twelve (112), One Hundred Twenty Four (124), One Hundred Twenty Three (123), One Hundred Thirty Six (136), One Hundred Twenty Two (122), One Hundred Nine (109), One Hundred Eight (108), and the South one-half of each of Blocks Numbers Ninety Six (96), Ninety Seven (97), and Ninety Eight (98); all of the City of Post, Garza County, Texas, according to the map or plat of said City of record in Volume No. 13 at Page No. 1 of the Deed Records of Garza County, Texas, reference to which is here made:

(2) It shall be unlawful for any person, firm or corporation, or any association of persons to build or move upon any lot or lots, or part or parts of a lot or lots, within the said Hospital Zone, as above set out, any building, structure, edifice, shed, or other thing whatsoever; except for residential purposes.

(3) It shall be unlawful for any person or persons, firm or corporation, or any association of persons to operate, carry on, or maintain any business enterprise whatsoever in and upon any lot or lots, or part or parts of a lot or lots, within the said Hospital Zone, as above set out.

(4) Any person, persons or association of persons, firm or corporation who shall violate any provision of this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not to exceed Two Hundred Dollars (\$200.00), and each day of any such violation shall be considered a separate offense.

(5) The fact that there is not now any ordinance whatsoever declaring a Hospital Zone within the limits of the City of Post, Texas; and the further fact that the Garza Memorial Hospital located approximately in the center of the above described Hospital Zone is nearing completion and will soon be open for business; and the further fact that there is a danger that some person may go upon and into said zone and erect some structure or operate some business which would be detrimental to the use and welfare of said hospital, constitute an emergency and a public necessity that this ordinance be in effect immediately from and after its passage in publication, and it is so ordered.

MADE, PASSED AND ENTERED AS HEREIN ORDAINED by the unanimous vote of the Board of Commissioners of the City of Post, Texas at its regular monthly meeting, all members being present and participating, on this 10th day of April, A. D. 1952, and shall take effect immediately upon its publication.

T. L. JONES, Mayor

Attest: LORENE BENSON, City Secretary.

PRODUCTS FOR EXPORT

TEL AVIV, (P) — Israel's citrus harvest this season is expected to yield nine million boxes, half of which will be sold abroad for foreign currency while another 250,000 cases are being shipped under barter agreements. The rest will be locally consumed or preserved.

AERIAL WOLF-HUNTERS

FT. FRANCES, Ont. (P)—Several permits have been granted here to hunters planning to shoot wolves from aircraft. A special permit is required.

The quips now. One man mailed him three typewritten pages full. Another gave him an expensive daybook for the year with a quotation for each date. Robinson was a little disappointed in that.

"Mostly Socrates stuff," he said. He thinks his most successful quotation may have been: "Be friendly with the folks you know. If it weren't for them, you'd be a total stranger."

Office Of Education Approves Large Percent Of Texas School Applications

WASHINGTON, P — The Office of Education estimated today it has approved 76 percent of the Texas applications for critical materials for school construction projects.

Of 438 Texas applications filed since rationing of steel and copper began in July, only 104 remained pending at the end of the first week in December.

Of the 334 projects approved, 180 were certificates permitting start of construction before the end of this year. Critical materials for the other 154 are to be delivered during the first three months of next year in at least sufficient quantities to get work under way.

T. L. Roswell, assistant director of the civilian education requirements division of the Office of Education, said the present scarcity of steel necessitates spreading construction over two or more quarters.

"The long range picture looks pretty good," he continued. "It may be by the latter part of 1952 we can approve allocations for gymnasiums and auditoriums."

He emphasized that he was speaking mainly of steel, that copper remains tight with no foreseeable easing of the situation.

It may be possible to substitute aluminum for copper in electric wiring, he said, adding that such an experiment is being conducted in the District of Columbia. The aluminum wire has a steel thread core to give it tensile strength.

If the electrical wiring situation gets too bad, Roswell said, schools still could be built with proper conduits for completion of the work later. Classes could be conducted without lights except on dark days.

The program under which federal aid is granted for the build-

ing of schools needed to accommodate increased enrollments in national defense areas is separate from that of allocating materials.

Explaining that his office expedites issuance of priorities on materials for schools receiving such financial aid, Roswell said it gives equal consideration to the needs in non-defense areas.

Miss Floyd And Giles W. Dalby Marry In First Baptist Church

Miss Nelda Floyd and Giles W. Dalby exchanged wedding vows in a formal ceremony in the First Baptist church, at 8 o'clock Monday evening. Mr. and Mrs. Guy Floyd, Arno Dalby, of Lubbock, and Mrs. Preston Parks, of Colorado Springs, Colo., are parents of the couple.

Miss Lynn Benton of Lubbock, cousin of the bridegroom, and Mrs. Donna Floyd of Snyder, cousin of the bride, lighted candles as Mrs. Ray N. Smith, organist, played "O Promise Me." The candlelighters wore ice blue taffeta formal with matching picture hats and white wrist corsages.

Pre-nuptial music included "Because" by Jack Ballentine, vocalist, and "I Love You Truly" by Miss Barbara Norris and Mr. Ballentine. Mrs. Smith was accompanist, and she also played the traditional wedding marches.

The Rev. Gerald N. Blackburn, pastor of the First Presbyterian church, read the double ring service before an altar decorated with white peonies and palm fronds, with a background of foliage and blue tapers in candelabra. Mr. Ballentine sang "The Lord's Prayer" as the benediction.

Mr. Floyd gave his daughter in marriage. She wore an original model gown of imported French lace and nylon tulle over satin, fashioned with a portrait neckline on a fitted bodice, and long sleeves ending in points over the hands. The immense, pleated skirt of tulle over satin was shirred at the waistline, and had a wide lace panel across the front and two lace panels at the back which swept into a chapel length train. Her finger-ring silk illusion veil was attached to a cap of net and white flowers. She carried a white ribbon topped with white orchids and stephanotis, arranged with blue lace and ribbon.

Mrs. Weldon Rogers was her sister's matron of honor. Miss Anne Mathis was maid of honor. They wore ice blue strapless gowns with net overskirts and matching picture hats. They carried pink rose bouquets tied with rainbow ribbon.

Bridesmaids were Mrs. Ralph Miller, of Fluvanna, Mrs. Jacky Meeks and Misses Nonie Branson, LaRue Stevens, Delores Cox and Maxine Baylis. They wore

dresses fashioned like those of the matron and maid of honor, with scalloped sleeves, spencer jackets and picture hats. Their bouquets were yellow roses, tied with rainbow ribbon.

Ronald Joe Babb attended the bridegroom as best man. Ushers were Junior Fulks, of Lubbock, Billy George Taylor, Roy Jossey, Bill Jones, Weldon Rogers, Leon Miller and Jack Kirkpatrick.

Rebecca Richardson was flower girl. She wore a white nylon tulle and taffeta evening dress and white flowers in her hair. Joe Hudman, ring bearer, wore a white suit.

The church parlor was the scene of a reception after the ceremony. The couple was assisted in receiving by the honor attendants, Mrs. Floyd, Mrs. Parks and Mrs. Glenn Mauer, sister of the bride.

The bride's table was covered with a white cutwork cloth over blue satin. Pink roses arranged in natural straw baskets against a background of Hawaiian foliage, and blue tapers decorated the table. Mrs. Dalby's chosen colors were also emphasized in the cake, which was blue decorated in white. Silver and crystal appointments were used.

Mrs. Miller and Miss Branson served the cake and Miss Cox and Miss Stevens presided at the punch bowl. Guests were registered by Mrs. Meeks and Miss Baylis.

Mr. and Mrs. Dalby will be at home at 2303 Thirty-Second street in Lubbock after June 20. They left Lubbock by plane Tuesday morning for a trip to Florida and Puerto Rico.

For travel the bride wore a royal blue and black original suit with black accessories.

The couple was graduated from Post high school and he attended Texas Technological college, Lubbock. Both plan to attend Tech this fall.

LOOK WHO'S NEW!

Mr. and Mrs. Wilton J. Payne, of Tahoka, announce the arrival of a daughter, born at 7:49 o'clock Tuesday morning, in Lubbock Memorial hospital. She weighed five pounds and three and one-half ounces, and has been named Paula Jo. Mrs. Payne is the former Miss Dixie Shepherd, daughter of Mrs. W. J. Shepherd.

Truett Babb and Sonny Curtis, of Meadow, attended the rodeo and visited Mrs. E. W. Babb and Ganell Saturday night.

Grand Officers Of Eastern Star Visit Chapter

Worthy Matron Henrietta Nichols and Worthy Patron Lester Nichols presided for a called meeting of the Order of the Eastern Star, in the Masonic hall Friday evening.

Mrs. Flora Best Boone, worthy grand matron of the grand chapter of Texas, was honor guest.

Other members of the OES Grand Chapter of Texas attending were Pat Boone, past worthy grand patron; Mrs. Pauline Smith, grand Ruth; Mrs. Florence DeArmond, grievance and appeal committee; and Burton S. Burks, titles, deeds and property committee.

During the welcome ceremony Mrs. Boone was given a corsage. Mrs. James Minor presented her with a gift and Miss Billie Louise Nichols gave her a bouquet during the program, which was directed by Mrs. Paul Jones.

The visitors then gave the response.

Refreshments were served from a lace-covered table. Worthy Matron Nichols' colors of green and yellow, were emphasized in table decorations.

Preceding the meeting, a banquet was held at Levi's Ranch cafe. Mrs. C. R. Thaxton served as mistress of ceremonies. The table was centered with an arrangement of yellow and white mums, surrounded by green tapers.

Mrs. O. H. Hoover And Ellis Mills Will Head OES

A public installation of officers of the Order of the Eastern Star, was conducted in the Masonic hall Tuesday evening, at 8:30 o'clock. Mrs. O. H. Hoover and Ellis Mills will head the chapter next year as worthy matron and worthy patron, respectively.

Mrs. Hoover received a bouquet of red roses from her daughter, Mrs. Rudolf Chapman, of Plainview, and an arrangement of peonies from Mrs. L. S. Turner. Other arrangements of roses were used to decorate the hall.

Officers installed other than the matron and patron were: Mrs. Dowe Mayfield, associate matron; Truett Fry, associate patron; Mrs. T. W. Hagood, secretary; Mrs. Noah Stone, treasurer;

Mrs. Alvin Young, conductress; Mrs. L. G. Thuet, jr., associate conductress; Mrs. Price Thomas, chaplain; Mrs. E. W. Babb, marshal; Mrs. Ray N. Smith, organist;

Mrs. Bob Collier, Adah; Mrs. E. Haire, Ruth; Mrs. Wilburn Morris, Esther; Mrs. James Minor, Martha; Mrs. R. B. Dodson, Electa; Mrs. Woodrow Stewart, warder; and Lester Nichols, sentinel.

Installing officers were Mrs. Hagood, installing officer; Mrs. Jess Propst, installing marshal; Mrs. C. R. Thaxton, chaplain; Mrs. Lester Nichols, secretary; Mrs. Will Wright, treasurer; and Mrs. T. L. Jones, organist.

During the social hour refreshments were served by Mrs. Mills, Mrs. Ralph Welch, Mrs. Minor, Mrs. A. B. Haws, Miss Henrietta Nichols, Mrs. Dodson and Mrs. Nichols.

The serving table was laid with a lace cloth and was centered with an arrangement of flowers, emphasizing Mrs. Hoover's chosen colors of gold and silver, and green tapers. Punch and cookies were served to fifty guests.

Included in the guest list were two of Mrs. Hoover's sons and their wives, Mr. and Mrs. Herbert Hoover, of Crosbyton, and Mr. and Mrs. Houston Hoover, of Littlefield; the new matron's sister, Mrs. Inklebarger, of Grassland; and four nieces of Tahoka.

Church News

(The following Sermonette is presented by the Rev. Almon Martin, First Christian pastor.)

Peter's Lesson—Our Lesson
"Arise, Peter, slay and eat." These words are familiar to us as words of Jesus. The reply is likewise familiar. "Not so, Lord, for nothing common or unclean has ever touched my lips." These are words of a man who was proud of his moral and religious stature.

Peter was a Jew, and as such, he was very particular about the things he allowed and disallowed. Since that day, many nations have held the Jewish people in much less esteem than did this man who was one of that race.

The question was not then, nor is it now one of nationality or race. Men have falsely held to standards of race and color. Jesus saw beyond these boundary lines and lines of demarcation, to the heart of the man; to the spirit that dwells within. He answered Peter: "What I have cleansed, that call thou not common or unclean."

With Jesus, that which really counts is what a person is inside. "Man looketh on the outside, but God looketh inside." A little later, when Peter had seen more of the plan of Jesus, as it unfolded at the house-hold of Cornelius, he said, "I perceive that God is no respecter of persons, but in every tongue and nation, he that feareth God and worketh righteousness is acceptable with him."

Such a one is acceptable with God. What of men. Many times today, such a one is still not acceptable with men. What matter? What of it? Simply this. We are still on God's standard as Christians. As such we will either live up to Jesus' expectations, or we will be accounted by him as lacking. "Let us arise out of the darkness." Let us dare to be right.

A Vacation Bible school will begin Monday at the Methodist church, and will continue Monday through Friday of next week and the next. The sessions will start at 9 o'clock each morning and dismiss at 11 o'clock. There will be three age groups as follows: Kindergarten (ages four and five); Primary (ages six, seven and eight); and Juniors (ages nine, 10 and 11).

Rosa Morrow, Wilma Jean Welch and Margaret Welborn will attend the Young People's assembly at McMurry college in Abilene next week.

Sixty-five attended the Vacation Bible school Tuesday at the Calvary Baptist church.

The Rev. Joe E. Boyd, Methodist pastor, will speak at both the morning and evening services Sunday. He will also preach at Verbenia at 12:30 o'clock.

The First Christian Bible school will be closed with a program at the church at 11 o'clock, Sunday morning.

The Rev. James C. Holman and family left the first of the week for Steele, Mo., to be with his father, who is seriously ill.

News was received here this week that the Rev. R. G. Tension, a former pastor of the local First Baptist church, has assumed duties at San Saba. He was pastor at Hamilton First Baptist church prior to his recent move.

The Rev. T. L. Denton has announced that a Vacation Bible school will begin at the First Baptist church, Monday morning. Sessions will be from 8:30 until 11:30 o'clock daily, through June 18. The commencement exercises will be conducted the evening of June 18. All children between the ages of three and 15 are invited to attend the school.

Why are women's purses bigger than men's?

Remember all those cartoons you've seen of a wife going through her sleeping husband's trouser pockets? They may give you a clue why some women's purses are bigger.

But we're inclined to think that there are other and better reasons why more women than men own stock in so many of America's largest companies.

For one thing, women are practical, thrifty, and inclined to do something sensible about their future finances and those of the family. Forgive us, mister, but the facts speak for themselves:

Women have outnumbered men share owners of telephone stock since 1900. The big food companies have a predominance of women share owners. Ditto the country's largest auto maker. And, at last count, 116,800 women owned shares in General Electric as against 83,000 men.

Big business, as it turns out, is a woman. About 2,100 of these women—and men—turned out this spring to attend the G-E annual meeting and eat a box lunch in one of our largest factory buildings. If you'd like a report of what was said and done, just let us know. A card asking for "Report of the Sixtieth Annual Meeting," Dept. 6B, General Electric, Schenectady, N. Y., will do the trick.

Local FFA Boys Apply For Degree

Five Garza county Future Farmers of America applied for the Lone Star Farmer of Texas degree at the Area II FFA convention held in Odessa Monday through Wednesday.

Attending the meeting were Vocational Agriculture teacher E. F. Schmedt and James Boren, son of Mr. and Mrs. Walter Boren. The other boys were unable to attend. These included Charles Bird, Kenneth Rogers, Melvin Williams, and John Boren.

Schmedt says that as far as he can find, this is the first time boys from Post area have applied for this degree.

Those attending the meeting enjoyed a full slate of barbecues, dances, speeches, and business sessions. Area Sweetheart was also selected before the final business session Wednesday afternoon.

A recent guest of Miss Carolyn Hudman was Miss Sue Williams of Tahoka.

Garza County 4-H Club Girls Hold The First Annual County Camp Day

by Sue Stephens

Garza County 4-H club girls and their sponsors and our county sponsor, Mrs. Hardy Smith, enjoyed our first county-wide camp this year.

We are required to fill in a pretty yellow sheet or sheets of paper called "Standard Report Form." This is the record of all our work since we joined 4-H. One of the questions asked is "How many county camps have you attended? Garza county girls had to answer "none." I have had 8 years of club work and each time I went to District Camp I wished we could have a County Camp.

Miss Dorothy Harbin called a meeting May 9th of our adult sponsors to set a date for a field day for all 4-H girls who made a dress for the Dress Revue April 27th. Mother told the leaders of my idea of a county-wide camp for Garza county. All the leaders and our county sponsors and Miss Harbin were in favor of it, so the date was set for the latter part of May.

We met at the roadside park at 7 for supper and then went to the Rodeo grounds to spend the night. Our program consisted of guessing games, singing, ring games and a talent show. Mr. Hopkins gave rates to us and some went to the show.

Garza County really has talent. All of us enjoyed the "Duet" by Mrs. Smith and Mrs. Henry Wheatly. All our girls from first year girls to our senior girls were on program. Our sponsors were wonderful.

It is said all good things must end—our camp did very sudden like, as the rain storm sent us home after midnight. Did you say disappointed? And why not? When we had our appetites set on that good breakfast of bacon, eggs and left-overs from supper and of course that coffee Mrs. Sid Cross promised us.

It is agreed the Camp was a big success and we plan one annually. We hope to have a bigger and better program in the future. Maybe two days and nights and include crafts and out-door cookery and make it a real camp.

To the sponsors of each club and to Mrs. Smith I would like to say in behalf of all 4-H girls who attended Camp—we do appreciate your work and sportsmanship. To the parents I would like to say "Don't worry about your girls when they are with the sponsor of their club because she is always on the job

and ever mindful of everyone's safety. To Mr. and Mrs. Byron

TESTIFIES — Herman Dawson of the Plains Grain and Storage company in Pantex and St. Francis, testifies in Washington before a Senate Agriculture committee probing shortages in stored government-owned grain. Dawson said the shortages were all a mistake. Another witness, however, said government audits indicated Dawson made \$260,000 for the sale of the grain.

County Gins Process Grand Total Of 68,371 Bales In Five Years

Since the spring crops were planted in 1947, Garza county gins have processed a total of 68,371 bales of cotton, figures released by County Agent Lewis Herron revealed.

The best year out of the five crops was in 1949 when gins processed 23,600 bales. These figures, compiled by the Production Marketing Association, Cotton Branch, of Lubbock, do not give the exact number of bales grown in the county, for their listings are the number ginned by county gins. However, the difference in the figures probably would not be too high.

The crop of 1947 placed second in the list with 15,653 bales, and the 13,892 bales of 1950 were third. The 4,840 bales ginned in 1948 took over the cellar spot and despite the drought of last year, the 1951 total reached 10,386, or fourth in the five years.

Percentage of the cotton sampled in the county for this period of time never fell below 96 percent during any year. The figures read: 1947 (96.5); 1948 (97.2); 1950 (99.4); and 1951 (98.7).

According to grade the Garza county cotton held its own with most of the surrounding area cotton. In 1951 40.3 per cent of the cotton sampled, or 4,179 bales, was spotted strict low middling; in 1950, 35.7 percent, or 4,928 bales, sampled spotted, strict low middling; in 1949, 34.1 percent, or 7,815 bales sampled white, strict low middling; in 1948, 34.8 percent, sampled white, strict low middling; and in 1947, 32.9 percent, or 4,697 bales, sampled white middling.

Picture of a Pair who just waked up

HERE in the driveway is a Buick. It has just arrived. It belongs to this proud young couple. They've just "arrived" too.

They've arrived at a discovery—the discovery that owning a Buick instead of a "low-priced car" isn't so much a matter of money.

It's a matter of knowing the facts of life. Buick prices are closer to the prices of smaller, less powerful, less distinguished cars than most people think.

Why don't you check into this? You'll find you could pay \$300 to \$400 more — and still not match the horsepower of this nimble beauty.

You could pay hundreds of dollars more—and still not get any more interior room, or richer fabrics.

But that's only part of the story.

The big thing about any car is the way it goes. So you ought to find out how this car rides the road—the freedom from bobble and sway that cost a million real dollars to develop.

You ought to sample the way Dynaflo Drive*

feeds the power — with a steady swoop and unbroken smoothness in city traffic, on hills, or out on the open road.

And you ought to know how it feels to touch off that Fireball 8 Engine. With all its might, this high-compression valve-in-head gets a lot of miles from a gallon of gas.

We'll tell you this—because a lot of folks have told us this: No matter what car you're driving now—no matter what cars you've looked at—they'll never seem the same after you try this one.

Just give us a chance to prove it — and you'll have a lot of fun.

Garza County Farms Run More Acres Than The Average West Texas Farm

Garza county farms are much larger on an average than those of the surrounding South Plains according to a recent agriculture census report.

Where the cotton - producing lands of Lubbock, Hockley, Hale, Lamb, Lynn, Crosby and Cochran counties are divided into farms about a half section, or 320 acres, the average farm in Garza county is 1,039.1 acres.

Of the approximate land area of the county—an estimated 584,000 acres—the majority, or about 535,000 acres, is in farm or ranch land. Because of the lack of irrigation and a shortage of natural rainfall, average farm acreage is considerably larger than in the majority of the other South Plains counties.

However, irrigation is gradually coming to the front in Garza county, though the county still has fewer wells than most other counties. In 1945, according to the report, only two irrigated farms were reported. This year, county Agent Lewis Herron estimates that there are approximately 125 wells on about 100 farms. Whereas about 365 acres were being irrigated in 1945, Herron says that the figure has jumped to about 6,800 acres this year.

Cotton occupies a first place ranking in the county, with estimated 70,000 acres being planted this year.

Average per acre of farms and ranches in Garza county is estimated at only \$30.53—a figure considerably lower than the per acre value of farms in some of the more-productive and better-irrigated counties. Farm income for the county in 1950 was \$4,279,349, but that was an enormous increase over the total farm income of 1945, which was only slightly over \$2 million. Herron estimates this figure will run more than \$5 million this year.

Expenditures for labor, gasoline and machine hire take a big bite into the farm income of the county, with farmers spending more than \$1,908,636 for producing their 1950 crop. The big item in the expense account was hired labor, with farmers in the county hiring more than 3,500 hands on at least a part-time basis. Cost for hired labor in 1950 amounted to more than \$900,000.

Fewer telephones were reported in 1950 than in 1945. According to the last census report, there were only 76 telephones in farm homes, while in 1945, a total of 79 farm homes had telephone service. This number is expected to increase considerably when the new REA telephone co-op begins operation in the western portion of the county.

Electricity, however, has spread over the county considerably since 1945. In early 1950, 380 farms had electric service, while five years earlier less than 250 farm homes had electricity.

With only a few dairy farms (and only one processing plant) and a few poultry farms reported, the main sources of agricultural income in the county is from beef cattle, grain and cotton. The general trend in the county is for the farmer to raise some cotton, along with grazing a considerable amount of land with beef cattle.

Approximate livestock population of the county in 1950 included 20,179 head of beef cattle, 1,336 head of swine, 1,035 head of dairy cattle, 295 sheep and 557 head of horses and mules.

Though it first appears that farm income for the county is rather low, the fact remains that farmers of the county, for the most part, netted over \$10,000 in 1950. There were 135 farms reporting over \$10,000 in 1950, and 105 reported incomes exceeding the \$6,000 mark, but not surpassing the \$10,000 figure.

Like in other counties in the South Plains, mechanization has made a rapid advance in Garza during the five years reported on. In 1950 total of 90 grain combines, 175 mechanical cotton pickers, 164 farm trucks, 471 tractors and 448 cars were reported by farmers. Of course, some of these figures have actually jumped much higher during the last year and half.

Movie of the Week

Throbbing with the feverish pulse of the most exciting city on earth—America's Monte Carlo—loaded with gambling, luxury and no-limit thrills—this is the story of three people plunging into an emotional turmoil, as a romantic triangle develops, involving a glamorous woman, a society spouse, and the man she thought had forgotten her.

That's "THE LAS VEGAS STORY," our movie of the week, showing Wednesday and Thursday. The picture adds truth to all the rumors people have heard about this fabulous town.

Voluptuous Jane Russell (The "Outlaw" girl who since has taken up a singing career in her pictures) co-stars with Victor Mature and Vincent Price in this expose of how the "rmonied" people manage in Las Vegas.

Of interest to most people will be the bit appearance of that "master of song and music" Hoagy Carmichael. Hoagy introduces new novelty tune as he plays the part of a joint piano man. And Miss Russell sings two other Carmichael songs.

Mr. and Mrs. Byron Haynie might enjoy "THE LAS VEGAS STORY." They have two tickets, good for any performance, at the boxoffice.

Like Oriental pictures? Then see "HONG KONG" at the Tower tomorrow and Saturday. The picture stars Ronald Reagan and Rhonda Fleming.

Sunday and Monday, the TOWER present "THE WILD NORTH." Starring Stewart Graner, Wendell Corey and Cyd Charisse the picture is claimed to be as good as "KING SOLOMON'S MINES."

Then on Tuesday there is a picture for both men and women. To thrill the women will be Glenn Ford and for the men there is a double exposure, Ruth Roman and Denise Darcel. They all play in "Young Man With Ideas."

Mrs. Jack Johnson and daughter, Mrs. Kenneth Alwell and her daughter, Susan, of Albuquerque, N. M., visited in the Lester and P. S. Nichols homes last week. The group attended Tech graduation exercises Monday night and Miss Billie Louise Nichols received her degree.

The J. N. Power family will move to Abilene as soon as housing is available. Power accepted a job with a motor company there the first of the week.

"Texas" Bragging Proved Incorrect

AUSTIN, AP — The University of Texas Department of Geogra-phy offered figures to help settle the question over how many states have capitals closer to Amarillo than the Texas capital.
 Dr. Donald Brand, geography professor, said the answer is three—no more.
 With a big globe and callipers Dr. Brand's assistant measured these geographic airline distan-ces:
 Amarillo to Santa Fe, N. M.—230 miles.
 Amarillo to Oklahoma City, Okla.—240 miles.
 Amarillo to Denver, Colo.—355 miles.
 Amarillo to Austin, Tex.—415 miles.
 Amarillo to Little Rock, Ark.—535 miles.
 All other capitals were farther away than Austin. Topeka, Kans., however, ran a close race at 425 miles.
 Dr. Brand said his figures were accurate within five airline miles. If he is a full five miles too low for Austin and five miles too high for Topeka, then the two capitals would tie for fourth place, but he doesn't see much likelihood in the possibility.
 "The edge definitely favors Austin," he said.
 Closes capital beyond Topeka was another 15 miles across the globe — Cheyenne, Wyo., at 440 miles. Lincoln, Neb., was farther —475 miles.
 Recent claims had put the Tex-as Panhandle city closer to all of the five state capitals than to Austin. The claims were appar-ently only three-fifths correct, if you're a globe-and-calliper sup-orter.

 It's Tea Time in Texas!
 It may be hot one day and cold tea the next, but at any rate, the calendar says it is tea time. This drink that helps make hot weather bearable was intro-duced almost half a century ago in St. Louis. The story goes that it was an English tea promoter who first introduced iced tea at the World's Fair. He put ice in the tea to counteract competi-tion from other iced beverages. Fair goers took the idea home with them and iced tea was here to stay. At any rate, iced tea is consumed at the rate of 74,000,000 glasses a day, claims some "info" we have from the Tea Council of America. This ac-counts for the use of 470,000,000 lemons, many tons of mint and some 100 million pounds of sugar.

Motor Inspections In Post Increase

Although motor vehicle inspec-tions have increased in Garza county, there are still a large number not inspected, according to Jim Riddles, Department of Public Safety, Motor Inspection Division.
 Riddles estimated that about 750 vehicles of the approximat-ly 2400 in the county have been inspected. He said that as many vehicles were inspected last month than in the months since the announcement of the law.
 All trucks, pickups, cars, trailers, semi-trailers and motor-cycles that are registered must be inspected, Riddles explained. He also pointed out that semi-trailers must be inspected as a separate unit.
 Inspection places in Garza county are at Wilson Brothers, Tom Power, Connell Chevrolet, Les Short Buick, all in Post; and Southland Hardware in South-land.

Record Number Of Polio Cases Are Predicted For Texas During 1952

Texas may have to fight a re-cord number of polio cases this year with the same type weapons it used ten years ago. The 120 new cases reported to the State Health Department in January was the largest number ever to occur in Texas during that month.
 And methods of treatment — though changed and improved — are basically the same as those used a decade ago.
 These are the observations of State Health Officer George W. Cox, Dr. G. B. Forbes, professor of pediatrics at Southwestern School of Medicine, and Dr. Norman Chandler, of Dallas, who treats poliomyelitis cases almost daily.
 "On the basis of January totals alone, it would parallel that we could expect an even greater number of poliomyelitis cases than occurred in 1950, the year in which the largest number of Texas cases have been reported," Dr. Cox wrote.
 Dr. Cox furnished the following table to support his statement:

Year	Jan. Totals	Totals
1952	120	2060
1951	50	2778
1950	82	2355
1949	61	1765
1948	8	183
1947	14	

Price Changes To Hit Post Stores

Markup increases allowed food stores last week by the Office of Price Stabilization apply to all types of stores, whether they are independents, chain units, or supermarkets, food price officials of the district OPS said today.
 At the same time, regional OPS food officials issued a statement commending those individ-ual food stores and those asso-ciations of food stores which have announced that they will not raise existing prices as al-lowed under the new amend-ments to the grocery regula-tions.
 "Naturally, none of our regu-lations require firms to sell as high as the ceiling prices set for any commodities," pointed out Frank C. Tomlinson, OPS Regional Foods Branch Chief. "The ceiling prices are exactly what the name implies — the highest price at which the com-mo-dity may be sold."
 "On the other hand, those who state they will not have to raise prices as high as a new ceiling are indicating they are taking very seriously the problems we have in fighting inflation and it is cheering to see that numer-ous firms and trade associations are cooperating voluntarily in our inflation control program."
 Tomlinson explained that the markup increases were allowed by OPS because the agency, by actual surveys made in food stores, had found that its earlier regulations had in some cases discriminated against some re-tailers by not allowing them as much margin for markup as had been practiced historically in those stores and had for that reason placed some stores in a "squeeze."
 Foods effected by wider mark-up allowances include canned vegetables, such as beans, to-matoes, and corn—canned fruits, such as peaches, pineapple, and fruit salads, and breakfast cere-als.

What can the individual do to fight the disease, besides contrib-uting to polio funds, Drs. Forbes and Chandler were asked. Their advice, paralleling that of doc-tors 10 years ago, was keep away from people who have polio and maintain scrupulous personal hygiene.
 The primary treatment applied to spinal poliomyelitis is the Sister Kenny method — consisting fundamentally of hot packs and physical therapy.
 "We have little, if any, addi-tional equipment or medicine to fight the polio virus this year that we didn't have in 1932," Dr. Forbes said.
 The iron lung, used in severe polio cases, is essentially the same as it has always been. The object of using the lung is to force air in and out of the patient. But this only aids treatment after the patient has contracted the virus. There is still no medicine which doctors can use to kill the virus without killing the patient, too.
 Dr. Chandler said about one half to 75 percent of persons af-flicted by spinal polio recover. He added that two percent of those affected die.

Dr. Cox added in his statement to the Associated Press that an- other factor should be taken into consideration before predicting 1952 will be a record year.
 "In December, 215 cases were reported, which was the largest number of cases that we have had reported in that month. A graph of the reported incidence shows a peak in August, which corresponds to the median over a seven year period. In 1951, a decrease from the peak was not as sharp as in previous years, and the decline has been more gradual.
 "While the January totals are high, there is still a decline from December. The high January totals can partly be explained by a continued gradual reduction in incidence."

United States Unprepared For Arctic War Should Russia Attack

ARLINGTON, TEX. (AP) — Harmon Helmericks and Constance Helmericks have lived ten years above the Arctic Circle. They believe the United States isn't prepared for a sort of war that could develop over the Polar regions.

The young couple has been on tour, lecturing about the North Pole and how to live on floating ice fields. They tell of living as long as six months on such fields, without suffering from cold or hunger.

They say U. S. fliers and other personnel seem to lack proper clothing, as well as psychological training for the sort of war the Helmericks think could develop with Russia.

The Helmericks made their statements while visiting here. Tom Green, staff writer for the Laredo Times, found them after they had just returned from a trip of over 500 miles into Mexico.

Green wrote that as explorers the Helmericks wanted to make the trip to Mexico "because the world has become so small with air travel and air wars, that they wanted to visualize what the area would be like in a defensive war, not only on the part of the U. S., but a defensive war on the part of Mexico if U. S. armies were forced to retreat into Mexico."

In May the Helmericks and their 22-month-old daughter, Connie Jean, will go to their home in the Brooks Mountain range in Alaska. Before that, says Green, they will go to Washington, where they are on the advisory board of the U. S. Army concerning arctic clothing.

The Helmericks, in an interview published by the Laredo Times, gave this estimate of the situation: "People fail to realize that if war with Russia comes it will be fought along the shortest route, which is over the Polar basin. It is likely that in such a war thousands of our fliers would be shot down. With their present psychological and technical training, says the Helmericks, most of them would not be able to survive."

But with the proper clothing and the right psychological and technical training fliers could survive on ice fields.

The Helmericks said a greater air force is needed in the region of Alaska and the North Pole. They said air preparedness in that region is not more than 10 per cent of what it should be.

"The Arctic is so vast that Russia could have a whole floating city the size of Laredo and we wouldn't even know it," the explorer said. He said they could use the floating ice fields for refueling and taking off.

"The Russians are as familiar with that area as can be. To them the pole is not psychologically remote. For that reason Connie and I feel that we are unprepared," Helmericks said.

Helmericks, a tall, husky blond, said he felt their secluded valley log cabin in the Brooks Mountain range would never be found by the Russians in event of an all-out war.

"I am not as afraid of their bombing Shangri-La, our home, as I am that they will bomb Mexico City, he said.

Helmericks, born in Illinois, was with the U. S. Army engineers in Alaska in World War II. Mrs. Helmericks is from Birmingham, N. Y. They met at the University of Arizona.

Golfer Ben Hogan To Play Thousands Of People To Benefit Sweet Charity

By Harold V. Ratliff
Ben Hogan, the king of golf, is going to play more than a quarter of a million linksters Saturday. Hogan, the man who likes to win more than anyone, estimates that 75 per cent of those people will beat him. And he laughs about it.

Little Ben, a fellow who has made a fortune out of playing the game, is doing it all for sweet charity. He will play 18 holes at Northwood Club, Dallas, where the National Open will be held June 12-14. All over the nation golfers will be playing a round to see if they can beat what Hogan hangs up.

C. F. Sentell, Of Snyder, Makes Announcement For Representative

(Editor's Note: C. F. Sentell, of Snyder, has authorized the Dispatch to announce he is a candidate for the State Representative post of the 90th District. This is comprised of Crosby, Garza, Kent, Borden and Scurry counties. Mr. Sentell's statement is reprinted below.)

To The People Of Representative District No. 90 of Texas:
Since the last election the State has been divided into new Representative districts. Our district is No. 90, and is composed of Crosby, Garza, Kent, Borden and Scurry counties, West Texas now has a more fair representation than it formerly had. Fair and equal representation is fundamental in our form of government, and this applies to the people we select to represent us.

Before the July primary election I will want to see and meet the people of the district, and you have a right to know something about me and what I will stand for as your representative in the legislature.

I was born and grew up in Parker County, Texas, where my paternal grandfather settled in 1852—100 years ago. Most of all of my life before I became of age was spent farming and stock-raising. There were 8 children in our family. As a young man I taught school 4 years and before I quit I was superintendent of a 9 teacher school. Just before coming to West Texas I served two terms in the Texas legislature from Parker county. My wife and I, with two children, moved to Scurry county in 1922, where I served as county attorney for two terms, and I have been in the private practice of law since then.

With my 30 years here I have become well acquainted with the people and conditions in West Texas and especially in our district, and, if elected, I will represent honestly and fairly and as efficiently as I can the people of this district without fear or unfair favor to any factor or part of the people or district. My duties will be absolutely to each county in the district, and I shall work earnestly to render the best service to our district, and as well, as to the State of Texas.

As to my political philosophy, I have strong convictions that the government should be kept as close to the people as possible and that all officials should be as far as possible directly responsible to the people, instead of having too much appointive power and the creation of too many bureaus with officials having so wide authority but not in any way directly responsible to the people for their conduct.

I believe in simplicity of government and all of the economy possible consistent with efficiency and common sense. I am opposed to the Federal government taking over the exercise of authority in the states and interfering with the police powers of the states. All such powers not given to the Federal government by the states are reserved to the states, and that is the way it should be.

O. V. McMahon Is Assembly Delegate

O. V. McMahon, Post, is an official lay delegate to the Thirtieth General Assembly of the Church of the Nazarene, to be held in Kansas City, Mo., June 19-28.

More than 10,000 delegates and guests will attend from the 64 districts of the church in the U. S., Canada and the British Isles. Nationals and delegates will also come from 28 other world areas where the missionary program of the church is underway.

Delegates will elect five general superintendents for four-year terms and take action on policy, program and budget requirements for the next quadrennium. New business will include consideration of a funded pension program for Nazarene ministers.

The 1952 assembly will demonstrate in a striking manner the growth of the Church of the Nazarene. Thirty-seven years ago, in 1915, when the national convention was first held in Kansas City, 220 delegates and guests attended. The 10,000 persons in attendance this June will represent a total of 4,000 churches with nearly 250,000 members around the world.

Rev. Gossett Gets SMU Degree June 3

The Rev. Douglas W. Gossett, son of Mr. and Mrs. Fred Gossett, Route 3, Post, received a Bachelor of Divinity degree from Southern Methodist University in graduation exercises held June 3.

Dr. Umphrey Lee, president of the university, delivered the 37th annual convocation address to the class of more than 600. Rev. Gossett attended McMurry college before going to SMU.

J. Hopkins To Attend Conference In Dallas

John Hopkins, manager of the Tower and Sunset theatres will be among the 700 film producers, distributors and exhibitors at the first annual Texas Compo conference, which is to be held in Dallas Monday through Wednesday.

The conference is to be held in the Adolphus hotel. Among the guests will be film stars Ronald Reagan, George Murphy, Allan Ladd, Phil Harris, David O'Selznick, Carey Wilson, Nancy Davis, Alice Faye and Chill Wills.

Dr. Billy Graham will be one of the speakers during the three day event.

Mr. and Mrs. Ben L. Thomas and daughter, of Roundup, Montana, spent last week with relatives and attended the stamper rodeo, Jimmy Thomas and family, of Hereford, were also Post visitors during the week-end.

Mr. and Mrs. Harvey Herd and children, Tevis, Claire and Danny, of Midland, spent Sunday with the John Herds.

TO HAVE MEAL
All Scout men connected with the Cap Rock District—comprised of Post, Slaton, Southland and Wilson—will be out for dinner at the new Camp Post dining hall tomorrow night.

Mrs. Laverne Gibbons and little daughter spent last week-end in Fort Worth visiting relatives and friends.
Fred Boyd, of Lubbock, was a rodeo guest of the Sherrill Boys.
