

Government 'okays' new White River financing plan

Action in Washington clears major hurdle

By JIM CORNISH
Biggest hurdle to completing financing of the \$4,000,000 White River Dam project was cleared Tuesday with the announcement in Washington that the federal Housing and Home Finance Corporation has approved the district's new plan to pay off \$4,000,000 in federal and state loans without necessarily using sales of surplus water to oil companies.

of directors, from the nation's capital shortly after noon.
Mahon told Bouchier that he, George Mahon, and Sens. Ralph Yarborough and Lyndon Johnson had been informed that the White River dam project's revised financing plan has been approved in Washington.

Bouchier was all smiles.
It was the announcement White River directors have been waiting months to hear.

The Texas Water Resources board had tentatively approved the plan in October pending receipt and action upon the White River Municipal Water district's formal application for a \$1,300,000 loan from that state agency.

What comes next? That's the first question on the lips of most citizens who eagerly are awaiting the start of construction on the big dam and pipelines to the four participating towns which by engineers' estimates will guarantee each an ample water supply for the rest of the 20th century.

The answer is —water contract elections.
Each of the four towns of Post, Ralls, Spur, and Crosbyton must now approve in city elections the water rates which will apply for White River water.

Bouchier said yesterday directors "hope" to get all four elections held by late February.
Voter approval by all four towns is another of the requirements for

Ward to head Post C. of C.

Lee Ward, superintendent of Tex Mills, Inc., was elected president of the Post Chamber of Commerce at a directors' meeting yesterday afternoon.
Ward, who was vice president in 1959, succeeds Harold W. Lucas as head of the Chamber for ensuing year.
The directors also elected Wilf Scarborough, proprietor of the American Cafe, as vice president, and tentatively set Friday, Feb. 5, as the date of the annual Chamber of Commerce banquet.
The banquet date was set tentatively until it is learned whether conflicting events are already scheduled for that date.
The banquet program was also discussed and it was tentatively decided to obtain a government film of a federally-assisted water pro-

jects. It was pointed out that such a program would tie in nicely with the government's recent approval of the White River board's new plan for financing construction of the White River dam.

Monday, Jan. 11, was set as the deadline for counting mail ballots in the election of four new directors to the Chamber's 12-member board.

Ballots, which have been mailed to all members, bear the names of seven nominees, with members asked to vote for the four of their choice. The new directors will take office early in February.

The nominees are: James L. Minor, T. L. Jones, Arnold Parrish, R. B. Dodson, DeWitt Caylor, Walter Johnson and R. H. Tate.
Outgoing directors will be Lucas, Jess Michael, Keith Kemp and L. G. Thuet Jr.

Other members of the board are Ward, Scarborough, Paul Jones, Wallace Simpson, L. W. Duncan, and Claud Collier, according to a list furnished by John N. Hopkins, Chamber manager. George (Scotty) Samson is an honorary member of the board.

March of Dimes to bang off at Verbena affair

Garza County's 1960 March of Dimes will be "kicked off" Saturday night with an MOD benefit party at Verbena, where Mrs. Douglas Buchanan and Mrs. Ozell Williams are MOD chairmen.

Harold Lucas, 1960 district chairman, said the Verbena benefit will be the first of a series to be held in the various communities during this year's March of Dimes, which is to continue throughout the month of January.

Volunteer workers still are needed in Post, as well as in other communities, Lucas said. He asks that anyone wishing to volunteer their services get in touch with him at the Post Insurance Agency.
The chairman said today that the county chapter of the National Foundation raised \$850.83 from its March of Dimes in 1959 and that a fund balance of \$171.20 made the year's total \$1,022.03.

During the year, four polio cases in the county received financial assistance totaling \$699.33 from the county chapter. That left a year-end total of \$322.70, minus a few other expenses on which figures have not yet been received.

Most of the money raised in the March of Dimes is retained in the county for use by the county chapter in assisting in the treatment of polio cases.

Lucas said other MOD activities will include distribution of coin containers to the business establishments, coin cards to the schools, and the annual Mother's March on Polio later in the month to conclude the campaign.

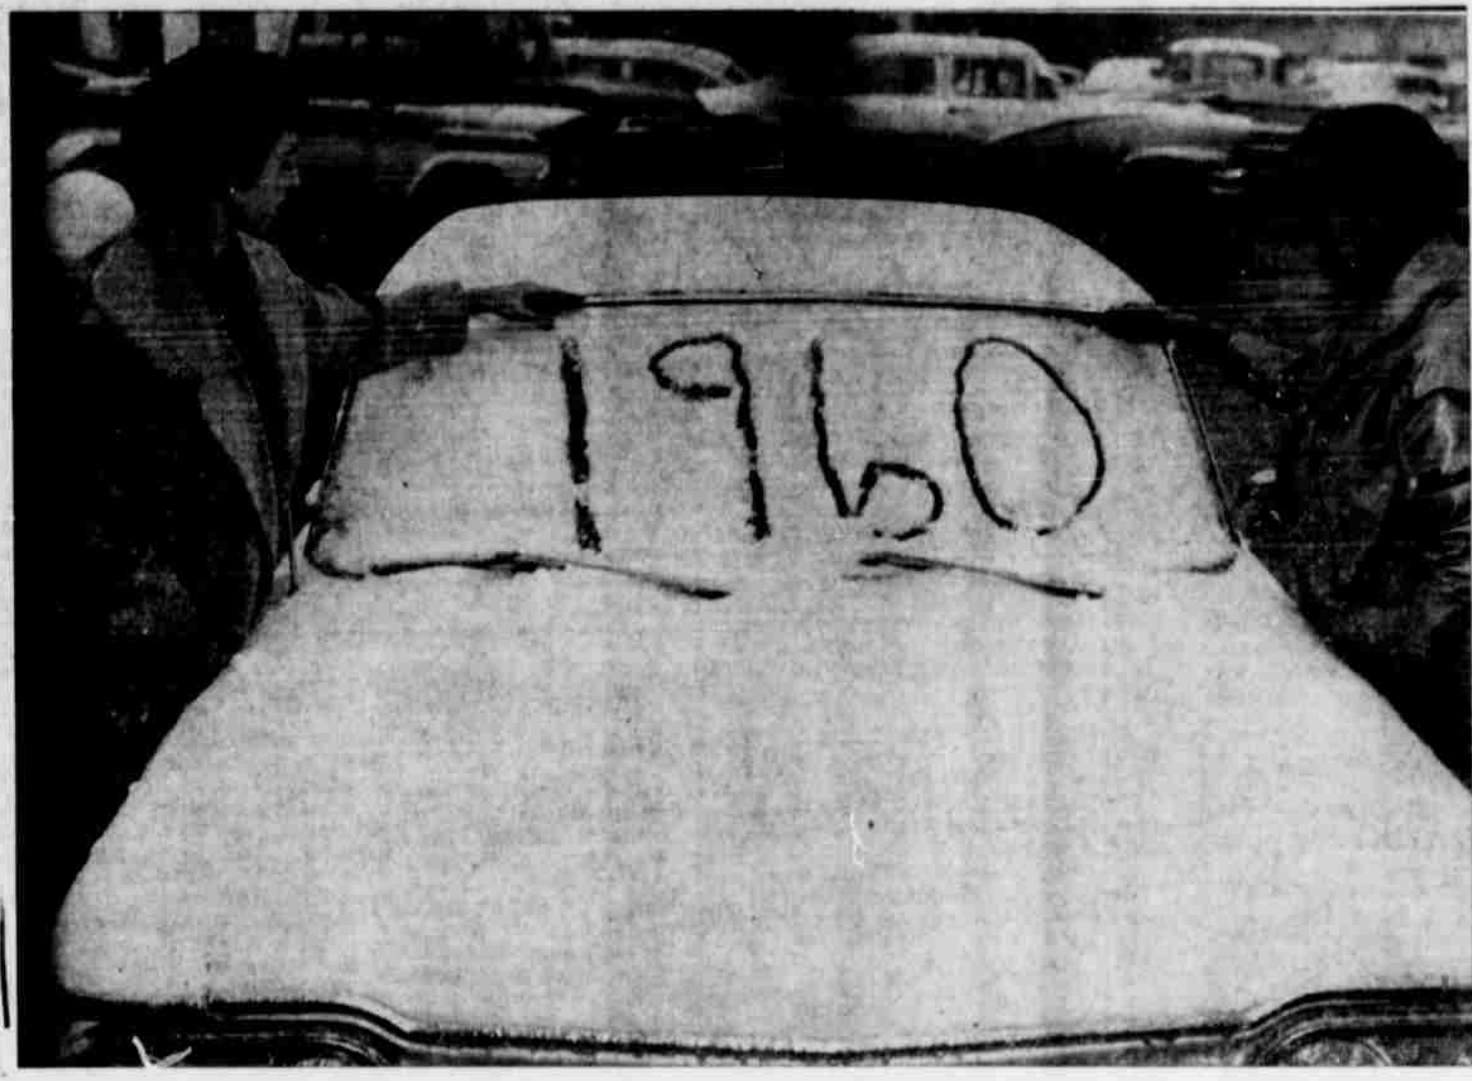

Adding machine is stolen here

An adding machine valued at about \$300 was taken by burglars Tuesday night at the Service Pipe Line office at 200 East 8th Street.

Nothing else was taken and there was no evidence of ransacking, it was reported to The Dispatch. A company employee said the burglar might have been "scared off" by an employee who stopped his car at the office to turn off some lights, but drove away after discovering he didn't have his key.
The burglar gained entrance to the office by prying a hasp off a door.

Old year goes into ledger as 'good one'

Old year 1959 went into business ledgers around Post and Garza County this week as a "good year" with community leaders stamping it into the record books as one of the "best ever" in terms of community progress.
Most folks see prospects for infant 1960 as bright although cotton parity is due for a 10 per cent drop this year and area cotton farmers aren't starting the new year with as much available cash as they did a year ago after the lush 1958 harvest.

Bank deposits to record high

Bank deposits at the start of 1960 were reported at a record high by the First National Bank here.
Deposits as of Jan. 1, 1960, stood at \$7,505,570.76—a gain of \$196,026.38 during 1959. First National deposits Jan. 1, 1959, were \$7,309,544.22.

75 marriage licenses issued here in 1959

May and August were the big months for Dan Cupid in Garza County during 1959.
Of the 75 marriage licenses issued during the year at the office of County Clerk Carl Cederholm, nine were issued in May and the same number in August.

Marriage licenses for the other months were: January, 8; February, 5; March, 8; April, 5; June 4; July, 7; September, 1; October, 4; November, 4; December, 1.

Garza County attorney seeking re-election

Carlton P. Webb today authorized The Dispatch to announce his candidacy for re-election to the office of county attorney of Garza County.

Webb has served one elective since his appointment to the office about five years ago.
He said a formal statement in regard to his candidacy will be made later.

Moisture from rain, snow adds up to nearly an inch

Rain Monday and the season's first snowfall Tuesday brought .85 of an inch of moisture and severe winter weather to Post and vicinity.
Monday's rainfall measured .61 of an inch at 8 a. m. Tuesday, with the days snow bringing an additional .24 of an inch.
Temperatures dropped sharply to

bring the coldest weather of the season, with the mercury tumbling well under the 20-degree mark.
Skies were clear yesterday, with only a little of the snow remaining, and temperatures were rising.
Roads and highways in the Post vicinity were hazardous from snow Tuesday until late Wednesday morning. School was held here, but

some of the buses did not run. There was no school at Southland Tuesday.

Sheriff's officers said that except for a few instances of "fender bumping", there were no accidents in the Post vicinity during the severe weather. The high school boys basketball team made the trip to the Ropesville tournament Tuesday night, but games scheduled by other school teams for Monday and Tuesday nights were called off.

Moisture ranged higher from the rain and snow in some other sections of the county than it did at Post.

J. E. Birdwell reported .80 an inch of moisture at his ranch east of Post and 1.20 inches about 20 miles southeast of his place.

The moisture, while beneficial to pre-planting conditions, will keep farmers out of the fields for several days. Most of them already had been delayed by wet spots remaining from the rains just before and during the holidays.

The .85 of an inch of moisture measured here gives Post a much better start than last year when only a trace was measured for the entire month of January.

Mother of Post woman buried

Funeral services were held in Gorman Tuesday for Mrs. Roy O. Rankin, 64, mother of Mrs. Fay Cockrell of Post.

Mrs. Rankin, who died Sunday in a Gorman hospital, taught school in Eastland County and several West Texas towns before moving to Gorman.
She is also survived by her husband; another daughter, Mrs. Rosella Gay Birtton of Sweetwater; four sisters and three brothers.

Mrs. Rankin was a native of Carbon, where burial was held.
Mrs. Cockrell and her husband, Fred, had been called to her mother's bedside several hours before she died.

Post people attending the funeral included Mr. and Mrs. Leo Wisley, Mrs. Mabel Garrison, Mrs. Raymond Perdue and Mrs. Vera Cockrell.

COUNTY AGENT'S COLUMN

by Lewis C. Herron
COUNTY AGRICULTURAL AGENT

Many Garza County farmers have indicated an interest in planting oats and barley following the 26.55 inches of rain in 1959 in which 8.67 inches fell during the last four months of the year.

Varieties of the two crops that are recommended for this area are Mustang and Bronco oats and Cordova barley.

The economic outlook for these grains states that the carryover of oats on July 1, 1960, will be the smallest since 1948 while that of barley is expected to be down by 15 to 20 per cent from the record carryover on July 1959.

Grain sorghum, which always has been planted as a cash crop, is with the group of feed grains with large supplies or carryover.

The total supply of sorghum grain is estimated to be 16 per cent above last year and more than three times the 1953-57 average.

The 1959 grain sorghum crop was 7 per cent smaller than that of 1958 but the carryover into this year is a record high. Total utilization is expected to be substantially larger in 1960 than the 423 million bushels used domestically and exported in 1959. Even so, some further increase in the carryover is in prospect for Oct. 1, 1960.

The economic outlook for cotton in 1960 shows that the carryover during the season Aug. 1, 1959, to July 31, 1960, is about 3.4 million bales over that of the 1958-59 season.

See COUNTY AGENT'S, Page 5

1960 business outlook appears bright

The economy of the area is closely tied to the weather and 1960 got off to a "million dollar start" weatherwise this week with almost perfect moisture benefits.

If it rains—especially at the right time in July and August—1960 could prove to be a bumper cotton year despite price prospects and a slight reduction in Garza's cotton acreage.

IN A DISPATCH survey with business men preparing tax returns on 1959 for Uncle Sam this week, the newspaper found the

general business feeling to be that 1959 was a "good year".
Some businesses reported record sales for the year. Others termed it a "good year sales-wise" but commented they had had better.

Still others called it a "fair" or "average" year. But it totaled up to a "good year" in the sampling of opinions.
Some of the 1959 business barometers worthy of note:

(1) Building permits here hit a record high of approximately \$1,800,000 for the year.

(2) Bank deposits climbed \$196,026.38 here to another record high for the First National Bank of \$7,505,570.76 as of Jan. 1. Deposits at the start of 1959 were \$7,309,544.22.

(3) Postal receipts should be at record proportions when the postal year closes at the post office here Friday.

(4) Garza County oil production for 1959 climbed considerably over 1958's although final figures won't be available for some time.

Some 13 fine prizes were still waiting the arrival of Little 1960 at the Garza Memorial Hospital at 12:30 this morning. No babies were born last year. We are hoping for a winner shortly, but we'll leave that to the "prospecting" business to Walter C. Shell, the NY columnist. Anybody next week, The Dispatch reports it will report the winner of the 1960 Baby Derby to which the hospital is offering mother and free hospital care for up to 30 days and a dozen local merchants are joining in to offer all kinds of other useful prizes.

Compliments were busy again this week with The Dispatch news carrier. Editor Charlie Didway got bad news yesterday that our front page picture of several Postex workers paying their poll taxes just didn't make it through the developer". So Charlie got busy in the snow and took the 1960 picture you see on today's front page as a pretty substitute. But sorry we couldn't come with the poll tax shot to emphasize the importance of getting money on the line so you'll be able to vote this presidential year.

For those who have followed the White River dam development to the front page news is the best thing to start off a new year. That was really the big hurdle of financing plan. Next come the contract elections and then it will be time for the directors to approve the \$4,000,000 plan for water. The rain-snow always a welcome start for the year.

First building permits issued

The first city building permits of 1960 were issued Monday to Tom Welch for additions to residences.
One of the permits was for a 48x14-foot addition to a house on Lots 6 and 7, Block 30, costing an estimated \$2,000.

The other permit was for a 32x14-foot addition to a house on Lot 8, Block 30, at an estimated cost of \$1,800.

Both additions are to be of frame construction with a composition roof and concrete foundation.
The two permits started the 1960 construction total off at \$3,800.

Building permits issued here during 1959 were for construction costing approximately \$1,600,000, which set a new record here.

The final 1959 building permit went to Ray Dickey for a 12x12-foot addition to a house at 116 West Third at an estimated cost of \$1,800.

Two youths injured in crash at intersection

Two Post High School students, Dorothy Carter and David Lee, were seriously injured about 5:45 p. m. yesterday in a shattering collision at the intersection of 11th Street and Avenue K.

Dorothy, the daughter of Mr. and Mrs. Carl A. Lee, suffered a severe head cut and other injuries. David, the son of Mr. and Mrs. Chant D. Lee, was badly bruised and shaken up.

Both youngsters remained in the Garza Memorial Hospital this morning.
Two youths riding with Lee in a Mercury station wagon, Noel Landreth and Ronnie Clayton, escaped injury in the accident. Also uninjured was Tomma Copple, who was riding in the 1959 Chevrolet being driven by the Carter girl.

City Marshal Otis G. Shepherd Jr., who with Deputy Red Floyd investigated the accident, said David was driving west on 11th Street and Dorothy was driving north on Avenue K. The collision occurred at about the center of the intersection, the officer said.

David, the only one of the five youngsters thrown from either of the vehicles in the crash, was pinned between the station wagon's bumper and the curb.

Dorothy suffered the head cuts when she was thrown into the windshield by the impact. Besides the injuries, she suffered from loss of blood. Numerous stitches were required to close a deep gash on her forehead.

Both automobiles were heavily damaged by the collision, according to Shepherd.
David is a sophomore in Post High School and Dorothy is a freshman.

Three other accidents, blamed on slippery streets, have been investigated by the city marshal during the last few days.
At 6:45 a. m. Wednesday, there was a collision at 8th Street and Avenue H between automobiles driven by Eugene Redman and Daniel Mitchell, neither of whom was injured. Both automobiles were damaged.

Herman E. Kiesel funeral conducted Monday at Slaton

Funeral services for Herman E. Kiesel, 49, of Route 2, Post, who died at 5:30 a. m. Saturday in Methodist Hospital, Lubbock, following several weeks' illness, were held at 2:30 p. m. Monday in Grace Lutheran Church in Slaton.

Mr. Kiesel had been a resident of the Southland vicinity for more than 25 years and farmed just over the line in Lynn County. He was born Feb. 26, 1910, in Colorado City.

He is survived by his wife; two daughters, Beatrice and Judy, and a son, Gene, all of the home; three sisters, Mrs. Pauline Siewert of Route 2, Post, Mrs. Annie Dahse of Weimar and Mrs. Agnes Wallick of Yukum, and five brothers, Willie and Henry Kiesel of Corpus Christi, Fred Kiesel of Route 2, Wilson, and Raymond Kiesel of Anton.

The Rev. Leroy Dean officiated at the funeral services and burial was in Southland Cemetery under direction of Williams Funeral Home.

The Southland schools, where Mr. Kiesel's three children are students, were closed Monday out of respect to the deceased.

Stiff penalties for mail box damages

Postmaster Harold Voss today called attention to the fact that it is a federal offense to maliciously injure, tear down or destroy any letter box or other receptacle intended, or used, for the receipt or delivery of mail.

It is also an offense to break open a mail box or willfully injure, deface or destroy any mail deposited therein. The offender is subject to a fine of up to \$1,000, or imprisonment up to three years, or both.

Any violation of either the mail or mail boxes should be promptly reported to the postmaster or to the Postal Inspector, Lubbock.

Responsibility at our doorstep

Juvenile delinquency in itself is a problem affecting only a small minority of young Texans, but the various factors surrounding juvenile delinquency constitute many problems facing today's children and youth.

During the last few weeks, Post has had more than its share of cases involving juvenile delinquents, and it was by no means the first outbreak here and won't be the last. That in itself, however, does not mean that more than a handful of Post youngsters ever get into serious trouble. The proportion here is about the same as it is elsewhere in the state.

Extensive studies of delinquency, its causes and cures, have been conducted by the Governor's Committee for the 1960 White House Conference on Children and Youth, and much of the responsibility, it was found, lies on the doorsteps of the communities.

Because of its findings, the Committee recommended that communities tackle the problem on an every-day basis in the following areas:

Schools, law enforcement, juvenile courts and probation, churches, youth participation and recreation, youth employment and health.

Emphasis was placed on the need for continuing work within communities to prevent delin-

quency by affirmative action in those areas which affect youth development.

Highlights of the Committee's findings include:

1. The moral, religious, and value decay within many homes has given rise to growth of delinquency.

2. In the field of law enforcement, there is an inability to cope with the lack of respect by youthful offenders for the individual and property right of citizens; insufficient personnel trained in servicing prospective delinquents and community action to utilize resources available to deter delinquency.

The Governor's Committee cited numerous individual problems which contribute to the delinquency of children. Many of these revolved around the home and the relationship between the child and his parents. The studies showed that a great majority of the Texas public feels that parents today aren't doing as good a job of raising their children as did parents of yesteryear. The general opinion was that youth is losing out on the values of family togetherness, the time, attention and personal care of their own parents.

To sum it up, the studies show that the specific problem of juvenile delinquency can best be coped with on a community basis. Let's go after our problem here in Post!—CD

They're after 'Abominable Snowman'

Long ago, mariners gave up on the existence of a "sea monster," and rare indeed, compared to a few years ago, are reports of "flying saucers." But there still is the mystery of the "Abominable Snowman," which may be proved or disproved in the new year of 1960.

With the exception of flying saucers, folks in Post have been far removed from the three phenomena. About all any of us ever knew of the so-called sea monster was what we read in old accounts of the mysterious creature, which occasionally crop up again here and there. In recent years, the Abominable Snowman has been pretty much in the news, with belief in the existence of this creature based primarily on the tracks discovered on many isolated snowfields of the Himalayas. The tracks indicate a creature of consid-

erable weight, walking upright, with feet similar to a large, abnormally broad human foot.

The reason we say the mystery of the Abominable Snowman may be proved or disproved this year is because Sir Edmund Hillary, the New Zealander who conquered Mt. Everest, will return to the Himalayas with an expedition to test high altitude survival and to conduct a carefully planned hunt for the creature that makes the king-sized tracks in the snowfields.

Unless something more important comes along during the year, we'll be following with interest Sir Edmund's search for the Abominable Snowman. We wouldn't like to see it fade out along with the sea monster and flying saucer simply because there was no one around smart enough to track it.—CD

March of Dimes is under way

Despite the fact that it still hasn't come into the Community Chest, as we think it should do, this newspaper is urging wholehearted support of Garza County's annual March of Dimes now under way.

The objective of the March of Dimes is much too vital for us to haggle over whether or not it should be included among the other fund campaigns now covered by the Community Chest. Perhaps something on that can satisfactorily be worked out later.

Within the last year or two, the National Foundation, which stages the March of Dimes, has broadened its work to include not only polio, but other crippling diseases and birth defects.

That makes it all the more valuable to each and every one of us.

A big percentage of the funds raised in Garza County's March of Dimes will remain here to be used in patient care. Thousands of dollars have been spent for this purpose in Garza County the last few years, and there still is a big need despite the gains made in the nationwide fight against polio.

The Dispatch not only is urging generous contributions to the March of Dimes, but also is urging that citizens answer drive chairman Harold Lucas' appeal for volunteer workers. The campaign will continue throughout the month of January. Let's all help make it another successful one in Garza County.—CD

New trophies prove something

Proof that the Post public schools are already reaping benefits from the broadened athletic program is seen in the addition of a number of new trophies to the trophy cases in the junior high and high school buildings.

With the school year now set for half over, at least a half-dozen new trophies have already been installed in the trophy cases. The 7th and 8th grade boys' football teams started it with the presentation of championship trophies won in district football. Since then, there has been a fourth place tournament trophy from the high school girls' basketball

team, first place tournament trophies from the high school boys' basketball team and the 8th grade girls' team.

To be added to the imposing array of new trophies is the runner-up trophy won by the high school boys in the talent-studded Caprock Holiday Tournament held last week in Lubbock.

We predict there'll be a number of other trophies before the end of the school year to help emphasize the fact that interscholastic sports are on the upgrade in the Post schools.—CD

Area loses outstanding citizen

The plane crash death New Year's son of Mayor Reese McNeill of Spur took one of the South Plains' most progressive-minded and at the same time most accommodating citizens.

During the past few years, Post citizens who have taken an active part in the White River dam project had come to look upon Mayor McNeill as "one of them," just as they have all members of the board of directors from the neighboring towns of Spur, Ralls and Crosbyton.

Reese was interested in the project even before being elected mayor of Spur and was in on

the Crosbyton meeting of a few years ago at which the ball was started rolling on the project. Since that time, he had given freely of his time and efforts in the development of the project to its present status. On a number of occasions, he had made his private plane available for transportation of White River directors to meetings held in connection with the project's plans.

The Dispatch extends its condolences to the families of Mayor McNeill and of his pilot, who was also killed in the plane crash, and to the community of Spur.—CD

What our contemporaries are saying

Tech's famous board of regents is trying to thumbs-down the lovely plans for the school's new library building.

Reason is said to be the latest campus structure, a sawtooth classroom building squeezed between engineer and journalism buildings. It is attractive, functional and a good solution to its location problems.

But its modern lines are a fly in the regents' soup. They don't intend to let it happen again. Some men feel more at ease with building styles resembling shoe boxes with holes punched in them.

Apparently the regents plan to perpetuate the Spanish Barn style architecture which has been the college motif in the past. A shining example of this is the silo which serves as a museum.

All of which reminds us of the one about the 100-year-old man who was being interviewed by a cub reporter on his birthday.

"Guess you've seen a lot of changes in your time?" the young journalist asked.

"Yep, sony," the oldster replied, "and I been agin every one of 'em."—The Crosbyton Review.

Flash! In Mexico the Communications Ministry has ruled that operators of radio stations must have "moral and economic solvency." If this line of thinking filters up to the United States, and is applied to newspaper and radio people, the profession will not have enough members left to hold a convention. I know what economic solvency is, although it's only a dream for most of us, but moral solvency is a vague term. I've seen radio and press boys getting solvent, on occasions, in fact I've poured a few of 'em into bed, but to set any kind of standard on moral solvency sounds like a violation of freedom of the press.—The Belton Journal.

THURSDAY to THURSDAY

By CHARLES DIDWAY

HAVE YOU BEGUN writing it "1960" yet?

Again this year, the stork missed Post on his New Year's day rounds, but the first 1960 baby contest still goes. At the time this column was being written, the hospital still hadn't recorded a 1960 birth, but that was over the weekend and chances are there'll be something about one elsewhere in this issue of the paper.

LAST YEAR, it was way up in the afternoon of Jan. 7 before the first New Year's baby was born at the hospital here. She was Karen Gail Ringhoffer. . . you saw her picture on the front page of last week's issue. Karen Gail's picture also appeared shortly after she was born. It isn't often that even a beauty such as Karen Gail makes the front page twice before she's a year old!

In case you've forgotten, the most popular records of the 1950's, which bowed out last week, were "Ballad of David Crockett," "Oh, My Papa," "This Old House," "Hound Dog," "Singing the Blues," "Doggie in the Window," "St. George and the Dragonet," "Song From Moulin Rouge," "Around the World in Eighty Days," "Unchained Melody" and "Til I Waltz Again With You."

WONDER WHY "Your Cheatin' Heart" didn't make that list?

The decade's best movies were "All the King's Men," "All About Eve," "An American in Paris," "The Greatest Show on Earth," "From Here to Eternity," "On the Waterfront," "Marty," "Around the World in 80 Days," "The Bridge on the River Kwai" and "Gigi."

OVER ON ANOTHER page of this issue you'll find a feature, "Frontier News Flashes," which has appeared a time or two in the past in The Dispatch, but which will appear regularly throughout 1960. The column, which is compiled from old newspaper files, tells of happenings in Texas 100 years ago. It is furnished The Dispatch by the Journalism Department of the University of Houston. I think you'll find it interesting. . . look for it every week.

A young couple who are moving from Post to Wichita Falls were in over the weekend to have their home town newspaper sent to their new address. They are Leon Davis and his wife, the former Marie Howard. Both are 1957 graduates of Post High School, where they were popular members of the student body. Leon, who has been employed at Wacker's here for the past month and a half, will begin on-the-job managerial training at the Wacker's Store in Wichita Falls.

THE POST ROTARY CLUB received a Christmas card from Danielle Thullier, French girl, who spent several weeks here and, at Slaton in 1957 as a guest of the Rotary Clubs under their exchange student program. The card was postmarked Casablanca, French Morocco, and included a small snapshot of Danielle. She wrote, "Best wishes to all Rotarians from a French cowgirl—remember?"

Dina Merrill, granddaughter of Mrs. Marjorie Post May, is one of the stars in the Universal-International film, "Operation Petticoat." Dina and her husband, Stanley Rumbaugh, and their son were here a year ago last April for the dedication of the C. W. Post statue.

A THIRD GRADE teacher asked her pupils to draw a picture of what they wanted to be when they grew up. The pictures came in pictures of nurses, of space cadets, of firemen—but one little girl handed in a blank sheet of paper. "Don't you know what you want to be when you grow up?" asked the teacher.

"Sure I know," retorted the little girl. "I want to be married. But I don't know how to draw it!"

This may make some of us get jittery over plans for the White River Dam, but the Population Reference Bureau says we are using up our water resources at a suicidal rate. The U. S. uses 232 billion gallons of water a day. Each of us drinks 200 gallons a year.

Garza County's "Mr. 1955" was Larry King Haynes, born to Mr. and Mrs. Clyde Haynes New Year's Day in Garza Memorial Hospital. Jimmy Bird of Post had the best average time in amateur roping at the Abilene Range Riders' Show in Abilene; "Provide for Common Defense" was the theme at the meeting of the Parent-Teacher Association in the grade school auditorium; Girl Scout Troop One met Monday evening at the Little House for an investiture ceremony for two new members, Marilyn Steele and Linda Livingston; Edith Johnson who celebrated her fifth birthday Jan. 1 was honored with a party given by her mother; Mr. and Mrs. J. Allcorn seeks second term

Bill Allcorn announced Thursday that he would seek a second elective term as Commissioner of the General Land Office.

The 35-year-old Brownwood attorney promised an even more vigorous campaign than in 1958, when he polled over 735,000 votes in his first race for land commissioner, leading all candidates in the Democratic Primary.

Allcorn, who rose to state political stature by his prosecution of fraudulent practices in the Veterans' Land Program, said he had received "overwhelming approval of the Land Office operation for the past few years."

Victims of plane crash are buried

Funeral services were held Saturday for two Spur men killed in a plane crash near Lamesa Thursday afternoon.

Rites for Mayor J. R. (Reese) McNeill, 58, a lifetime resident of Spur, were held at 4:30 p. m. at the First Methodist Church. Burial was in the Spur Cemetery.

Final rites for Herbert Heimer, 24, were conducted at 12:30 p. m. in San Antonio, with burial in the Coker Cemetery there.

The plane crash occurred around 3:50 p. m. Thursday about 20 yards off an unpaved road near Welch. McNeill and Heimer had been to Phoenix, Ariz., to attend a stockmen's meeting.

McNeill was a member of the board of directors of the White River Municipal Water District and was a frequent business visitor in Post, where he had many friends.

He is survived by his wife, one daughter, one son, two brothers and two grandchildren.

Dun & Bradstreet's new Reference Book shows business gain

The growth of Garza County is reflected in statistics released by Wayne A. Clark, manager of Dun & Bradstreet, Inc., at Amarillo, which covers this area.

Basing his facts on a physical count of the January, 1960, edition of the Dun & Bradstreet Reference Book, Clark reports that in 1959 a total of 129 businesses are listed in Garza County and today 138 businesses are listed—an increase of nine.

The Dun & Bradstreet Reference Book lists all manufacturers, wholesalers and retailers credit. It does not include some businesses such as beauty and barber shops, security dealers and real estate brokers. Therefore the figures for businesses in Garza County would actually be higher than the 138 quoted above.

Bring Your Dream Home Down to Earth

WITH A BUILDING LOAN FROM FORREST LUMBER CO. We Offer A Loan For Every Building Purpose

TAKE ADVANTAGE OF FORREST'S FINANCE PLAN
We can, without delay, arrange a suitable loan for any kind of building project. We have a special loan to cover all purchases made from Forrest Lumber Company or affiliated stores. Its a loan plan to cover cost of all types of repairs, alterations or improvements to your existing residence. We also have the same type loan to cover multi-family dwellings, buildings and commercial structures, and farm structures.

IF YOU WANT TO BUILD A NEW HOME...
We can fix you up with a GI or FHA loan to include purchase of real estate and completely build the structure. Complete cost for a two-bedroom home will range from \$7,000 to \$10,000. Low monthly payments, including taxes and insurance, will retire the loan over a period of years. Come in and talk it over with us.

Five are charged with gambling

Five persons have been assessed fines and costs of \$24.85 each in justice of the peace court for gambling.

The five, arrested Sunday afternoon by Deputy Sheriff Red Floyd and City Marshal Otis G. Shepherd Jr., are Helen Milo, Charley Griffin, Vic Soto, C. B. Taylor and Raymond Latson.

The arrests were made at Latson's cafe in the "flats", according to the officers.

Also in the justice of the peace court, Thomas R. Ashley paid fine and costs of \$20.55 on a drunk charge. Two others charged with being drunk, Charles W. Stuart and Joy Garrison, paid their fines by jail confinement, according to records in the JP office.

Californian is to hold revival

The Rev. A. M. Heath, superintendent of the Rescue Mission in Bakersfield, Calif., will be the speaker at a three-day revival this weekend — Friday, Saturday and Sunday — at the Friendship Baptist Church in the Close City community.

The Rev. Ed Bates, pastor of the church, and everyone is invited to attend the meeting.

The pastor also announces that there is a contest under way in the Training Union with the banner going from class to class on the basis of most visits, contacts made, etc.

Scholarship plan set up by five area publishers

Five West Texas publishers, including Jim Cornish of The Post Dispatch, are encouraging study of journalism at Texas Tech with a unique scholarship plan based on circulation. Prof. W. E. Garretts, Tech journalism department head, has announced.

The purpose of the plan is to recruit more and better students for newspapers in this area.

Garrets said four publishers make their contribution to the scholarship fund on the basis of one-cent per subscriber per year. Backing the plan in this way are Cornish, Joel Combs, publisher of the Slaton Standard, W. H. Graham Jr., publisher of the State Line Tribune at Farwell, and Neil Vanzant, publisher of the Gaines County News at Seagraves.

Curtis Sterling, publisher of the Brownfield News, is encouraging financial aid to deserving journalism students by contributing two cents per subscriber annually.

The newspapers make their contributions through the Texas Tech Foundation. The grants to journalism students are made on the basis of need and qualifications of the student.

Vet's Forum

Q I borrowed on my G. I. insurance and want to start paying off the loan with monthly payment. How do I do this?

A Make your check or money order payable to the Veterans Administration and mail it to the VA office which has your insurance records. Be sure to give your insurance number and specify that the payment is to be applied to your loan.

Q Is it possible to take college extension courses by correspondence under the War Orphans Education program?

A No correspondence courses are prohibited by the War Orphans Education law.

Q I was in military service both in World War II and in the Korean conflict. I have never used my GI loan benefit. Which deadline am I bound by — the one for World War II veterans or the one for Korea veterans?

A The deadline for Korea veterans applies in your case. You have until Jan. 31, 1965, to obtain your GI Loan.

Q I am on the VA pension rolls for a nonseverely-connected disability and have just got VA's annual income questionnaire through during 1959 from relatives. Do the mails, I received a money gift I have to report that as income?

A Yes, money gifts are considered as income for pension purposes and should be reported as income on the questionnaire.

GI insurance holders should check records as to beneficiaries

GI insurance policyholders, some \$1 million strong, were urged today to check their records to be sure that their designated beneficiaries are up to date.

The law gives GI policyholders the right to change their beneficiaries at any time without the consent of the prior beneficiaries.

Should he neglect to change his designated beneficiary before he dies, his insurance may be paid to his former wife, and his widow and children will receive nothing.

Policyholders also have several different options as to how the insurance shall be paid. Explanation of these options can be obtained by contacting any VA office.

God's Love knows no Season

Trees, flowers, and the beautiful green grass bring joy and lift our spirits in the spring. In the fall the leaves turn to beautiful gold, red, and yellow, and only too soon fall and pass away. The Bible teaches us: *The grass withereth, the flower fadeth, but the word of our God shall stand forever.* Isaiah 40:8. Attend church regularly and share with others the never-ending and bountiful love of God.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

All looked good at holiday 'hop'

By Janene Haynie

Seen in a bright pink velveteen sheath, with a daring neckline and tiny off-the-shoulder straps, Ruthell Martin was a doll at the New Year's Eve Semiformal Dance.

Jane Francis looked like a little snowflake in her all white, princess styled satin dress with a draped bow at the waist.

Wearing a bright blue jersey sheath, accented by satin ribbon bows at the waist, Margie Casteel was just right for the New Year.

Glenda Whittenberg wore a blue lace sheath overlaid with chiffon. She wore white shoes with this lovely dress.

Sharon Jobe was as attractive as ever in her black jersey dress. It had a low neckline and a box-pleated skirt. It was accented by a flower pinned at the waist.

All the boys looked especially nice in their dress pants, sweaters, and coats. We like to see them make a change!

Seal coat job near Southland slated

The Texas Highway Department has announced a new seal coat will be applied during 1960 to 3.8 miles of U. S. Highway 84 in the extreme northeast section of Lynn County near Southland.

The work will include surface and base strengthening and shoulder improvement. Total cost is estimated at \$4,400.

THELMA

"I Told Ralph To Wait, Cause You Didn't Have Any Face On Yet!"

Mrs. Fleming is Teacher of Week

The featured teacher for this week is Mrs. G. E. Fleming. She is our commercial teacher, which includes shorthand, bookkeeping and typing.

Mrs. Fleming was born at Snyder and graduated from high school at Wilson. She received her B. S. degree from Howard Payne College and her M. S. degree from West Texas State.

After college, Mrs. Fleming taught grade school for two years at Garnolia, then she taught history and geography in the 6th, 7th and 8th grades in Post for two years. She has been teaching high school commercial subjects for 13 years.

Mr. Fleming is employed by Havana Construction Company in Brownfield at the present. They have one daughter, Margaret Adell, and two granddaughters, Jeanne, who is nine, and Dana Sue, who is eight years old. They live in Odessa.

We really appreciate Mrs. Fleming, with her many talents and her help with the many clubs, organization and classes.

CAPTURE OF RIO GRANDE CITY BY CORTINAS

Dec. 24, 1859.—The few American inhabitants of this place, concluding that resistance to so large a force was in vain, passed over to the Mexican side of the river.

Two merchants went out to escort Cortinas into town thinking to be able to save their stores of goods. Their stores were the first that suffered and to the full extent, as far as wearing apparel, arms, ammunition, etc. went.

Col. Ford with the volunteers and Major Heintzleman of the regulars reached Rio Grande City on the 29th and drove the Mexicans from the town and pursued them nine miles up the river, scattering them in all directions. What became of Cortinas and his men was not known, but a rumor reached Roma that Cortinas had re-united with some 200 or 300 men at Rancho Boston, some 35 miles above Brownville.

Southern Shoes.—One of our contemporaries asks: "What is to hinder us from manufacturing our own shoes?" To which we are to answer, the want of shoe pegs. Thousands of bushels of shoe pegs are brought from the North and sold to Southern shoemakers. Is it possible that there is no wood in the southern states suitable, or that the manufacture of a shoe peg is beyond southern ingenuity? We know to the contrary, and we think that those who very properly advocate the manufacture of southern shoes had better begin at the beginning and let their motto be, Independence in Shoe Pegs.

"MY DOCTOR..."

This possessive phrase is familiar to all. It represents the profound confidence American people have in physicians. But do you really have a family physician?

Even though you may have been fortunate, not requiring medical care, it is stitch-in-time wisdom to establish a "family doctor" relationship.

Simply contact the physician of your choice, requesting that you would like him to serve your family should the need arise.

And if such a need arises, our prescription department is prepared to serve you and your family.

Business men reported a tremendous late Christmas buying rush after a slow holiday buying start and generally a slow fall.

GARZA'S OIL talks generally figures Garza oil production up for 1959 and points out that the eight producing day figure of 1958 was followed by nine and ten-day production months in 1959 which helped.

As for the oil outlook of 1960 most of them think it will be better all around than 1959 when a fall drilling slump really made a sharp fall away.

Some oil men are predicting the possibility of production days advancing to over 11 or 12 before the year's end—and if they do climb, then oil activity in the generally "independent" producing country will get a solid incentive boost.

A considerable pickup in new drilling starts is predicted by February. Only five rigs now are active in the country as the new year begins. The total was 15 high as 13 last year and even more in 1958.

A RENEWAL of "deep drilling" on the Slaughter Ranch is expected with 11 month discovery allowances now running out on most of the wells drilled on the big ranch in southern Garza County in 1958.

Construction for 1960 isn't expected as challenging the 1959 record which included the new high school, new bank building, new telephone building, and new medical clinic. But some building should pick up as proposed new residential addresses are worked out and opened to buyers and builders.

Most farm observers saw 1959 as a "better than average" crop year in cotton.

BUT THE farmers don't have as much cash available as 1959 did a year ago following a better 1958 crop.

The 1959 difficulties on the farm front, ignoring the weather hazards, are that rising costs and lower prices for his commodities will continue to put more of a squeeze on the farmer.

W. G. Metcalf Jr., First National Bank president, talks for another good and progressive year here in 1960, but as to the farmers' problems he points to the government reduction of cotton parity from 65 per cent last year to 75 per cent this year. He says that the estimated average price on cotton per pound for Garza farmers this year should be about 25 cents as compared to a 30-cent to 35-cent in 1959 under the A plan.

The cotton allotment for the county also has been trimmed again this year, amounting to an average of about three acres to the quarter section.

The solution for the cotton farmer of course is cost at the right time. But observers point out that the battle will be to get more cotton on less acreage. The "skip row" plan is going to help, they say.

County Agent's—

(Continued From Front Page) Experts during the present marketing year 1959-60 are expected to double the 2.8 million bales of last season. The reasons for this increase are a decline in foreign free world production, an increase in fiber—the world cotton consumption, and relatively low cotton stocks in foreign free world. Specific consumption of cotton 1959-60 is expected to be 10 million bales compared to 9 million a year earlier.

State Capital NEWS

AUSTIN—If you are adding up the Christmas bills and wondering what all that money was spent for, then consider the task of the Board of Control.

This relatively small state department is personal shopper for 200 state agencies. During the past fiscal year it selected the goods and paid the bills for purchases totaling \$26,000,000.

These millions went for many items that the average citizen can imagine. Everyone realizes that it requires tons of paper, thousands of filing cabinets, typewriters, desks and chairs to run the state's business.

Ever wonder how much yellow paper it takes to put a stripe down the highway from Amarillo to Brownsville?

Board of Control staff knows just how much to get for a given amount of road and sees to it that the paper has little glass beads ground up into it to reflect your auto headlights at night. Just the other day they bought \$300,000 worth of the little glass beads.

BOARD OF CONTROL buys all the state's commodities—oil, coal, trucks, tractors, motor vehicles, motor graders, snow plows and school buses (for school remaining state debt). Last week they purchased \$23,000 worth of new Plymouths.

It buys the industrial machinery with which the state prints system makes the state license plates. It buys the paper for your driver's license and tags for the printing. It also buys buttons and ribbons and shows and socks and surgical kits and skin drying kits.

"We buy practically everything," says Executive Director William J. Burke.

It's a job that sounds unbelievable until the use for each item is run down. Clothing and footwear needs for the apparel of the thousands of persons in state hospitals and schools must be bought by the Board of Control. State hospitals use surgical equipment. Game and Fish Commission uses boats and skin diving equipment in its independent work.

If the State School for Girls at Galveston starts a pottery class, Board of Control buys the clay. If the prison system builds a new prison building, Board of Control picks out for the best buy in construction paper.

Board of Control itself is a big user of paper. In the past fiscal year it processed 426,000 envelopes. Nine employees handled these at the rate of 1,200 a day. It takes 10,000 envelopes to handle an average weekly mailing of bid invitations to suppliers.

It's all done according to a very businesslike system. Purchases are consolidated, standardized, submitted, bid on and checked for specifications, value and performance.

YET ALL this procedure doesn't kill the element of human emotion. Director Burke recounts with real interest the million printed envelopes just bought for a large state department at \$2.50 a thousand. That's less than the usual cost of unprinted envelopes.

Comparative prices can be listed to supervisors who have just had papers of a dollar a dozen or more sent at five cents a copy.

Board of Control is about to have its 40th anniversary. It began operation in 1920 after a statute passed in 1913 established in one agency a number of state institutions.

It is headed by a part-time public making board whose three members serve overlapping six-year terms. They are appointed to the governor.

Present board members are E. E. McAdams of Austin, chairman, F. H. Frewster of Austin and C. F. Metcalf of Dallas.

Burke, as executive director, is the top administrative officer. Under him are five divisions set up on what he terms "a check-and-balance system."

A specifications division works out requirements for items to be bought. Purchasing division buys them. Administrative services division handles the clerical work. Inspection division has a team of

"things" who go over the state to check new purchases to be sure they're what they should be.

A FIFTH DIVISION, building engineering and management, sees to a staggering list of housekeeping chores for the Capitol and state buildings. When the buildings grow under way or being planned around the Capitol are finished, the Board of Control anticipates operating a heating system that will put out 80,000 pounds of steam heat an hour and an air conditioning system of 2,750 tons.

It also sees to the upkeep of the Governor's Mansion, the Sam Jackson and Patton State Parks and the State Conservancy. It handles the rental for state offices outside of Austin which do not have state quarters. Last year this required 252,000 square feet of office space.

As in the state buildings going up in Austin, Burke feels sure they will have the state money over the roof and rental system. "Besides having to pay rent," he pointed out, "the state can only lease for two years at a time, and you never know when you may have to move, which is expensive."

In the course of their special chores, Board of Control staffers become expert on many subjects. They learn the price of dairy cattle, the best prices for diamonds, steel, sheet wave radios and food mixers.

Metcalf gives talk on financing to Rotarians

W. G. Metcalf Jr., First National Bank president, gave a talk which ranged over many topics of interest in the field of finance before Rotarians at their Tuesday luncheon.

Metcalf said that "we were awfully lucky" to sell Post's school bonds in 1959 "when we did" at a 2.67 per cent interest rate. He said if the bonds were sold today the rate would be over 4 1/2 per cent.

1960 automobile tags to go on sale Feb. 1

A total of 1,900 motor vehicle license tags for 1960 are due to arrive soon at the Garza County tax office for sale beginning Feb. 1. County tax assessor-collector T. H. Tyson has received a notice of the tag shipment from the state, but they have not yet arrived, he said Monday.

(Continued From Front Page) receiving the federal loan.

Successful elections should then clear the way for actual granting of both state and federal loans totaling \$4,000,000, thus permitting purchase of the dam site and letting of contracts for the dam and pipelines' construction.

Water rates in each of the four towns will include any necessary payoff of water bonds now in existence as well as water department operation, besides the cost of White River water delivered to the city limits.

This will mean that each of the four towns probably will be different, depending upon present water debt.

The White River district's fiscal agents already have visited the four towns and secured the necessary information of bonded indebtedness, water consumption, etc., for the determination of these rates.

The White River directors will hold their next regular scheduled meeting in Crosby on the night of Jan. 23 and it is hoped that action can be taken at that time or at a special meeting shortly thereafter to call the water rate elections.

The new White River dam financing agreement, worked out by the White River district's financing committee with the regional FHDA office and the Texas Water Resources Board, calls for a 25-year federal loan at a 4 per cent interest rate of \$2,700,000, instead of the \$3,000,000 originally sought from federal sources.

The Texas Water Resources Board has tentatively approved a \$2,300,000 loan for 40 years at a slightly higher rate than the 4 per cent of the federal loan.

Post to play Sundown tonight at Ropesville

The Post Antelopes, sporting an 11 record, will play the Sundown Roughnecks at 8:45 o'clock tonight in a semi-final game of the Ropesville Invitational Tournament.

The Antelopes advanced through a first round Tuesday night with only 22 to 27 victory over the Illinois Wildcats, Sundown, playing its first game of the season because of state start due to the football playoffs, outshot New Home, 49 to 44, in its first round game.

The other semi-finalists in the boys' division are Meadow, which defeated Frenship, 63 to 56, and the host Ropesville Eagles, who won an easy victory over Union.

By CHARLES DIDWAY

One week from Friday night, the Post Antelope basketball teams—boys and girls—will open District 3-AA play here against the Spur Bulldog teams.

Coach Pete Murray's boys' team, defending co-champions, are slight favorites to win the district championship this season. The term "slight favorites" is a good one, since every other team in the district—Floydada, Spur, Tahoka and Slaton—are to be reckoned with in the round robin conference schedule.

To me, it looks like just about an even race, with any of the five teams apt to beat their conference foe on any given night. If the Antelopes win their first clear - cut district title, they're going to have to keep the pressure on every minute of every game.

In the girls' division, the Slaton Tigerettes are ranked as favorites to win the district championship, with Spur not far behind. Coach Jiggs King's girls' team is expected to be a contender right down to the finish, with a good chance of coming through if they can beat Slaton.

In the Brownfield Tournament Saturday night, the Denver City Mustangs became the second team to beat McAdoo this season, the Dimmitt Bobcats having turned the trick earlier in the season. In a semi-finals game in the Brownfield meet, the Mustangs also handed Plains its first defeat of the season.

Those same Mustangs, who turned into giant killers after getting a late start because of the football playoffs, will be in the same district with Post next season. If the Denver City five keeps coming along, it should give Seminole plenty of trouble this season when it comes time to decide the District 4-AA championship.

There is a good possibility that Post and Denver City could meet in this season's bi-district playoffs.

Number of Graham area residents recently dismissed from hospital

By MRS. DILLARD THOMPSON
School opened Monday after what might be called a long Christmas vacation. Most of the children seemed to be happy and ready for it to start—as were most parents!

It seems that on every turn someone is sick with colds or virus. But we are glad that most of our hospital patients have been dismissed and are home. Among those are S. D. Lofton, who was dismissed Thursday from Garza

Memorial Hospital following admission after an accident, and is doing fine. Mrs. Fred Gossett who recently underwent surgery in Lubbock Methodist Hospital was dismissed Thursday and is recuperating in the Petersburg home of her daughter and family. Mr. and Mrs. Jason Justice; Mrs. J. N. Gossett was dismissed recently from Garza Memorial Hospital and has suffered a virus since returning home but is improving, and Roy Ethridge is a patient in West Texas Hospital where he underwent surgery last Thursday.

Jerry Ligon spent last week in Lubbock working and visiting relatives.

MR. AND MRS. Franklin Masey are making their home in Big Spring, where he started work Monday at Southwestern Investment Co.

Guests last week in the C. W. Chandler home were their grandchildren, Linda, Jayne and Randy Jolley and Robert Pierce of Post. Mrs. Maud Thomas and Mrs. Carl Fluit visited New Year's day with Mrs. J. N. Gossett. Visiting Tuesday were Jane Masey and her grandmother, Mrs. J. D. Green, who has known Mrs. Gossett since

POSTEX MILL PLAYS SANTA CLAUS

girlhood. Sunday guests were Mr. and Mrs. James Stone and Mary Ann, Mrs. Virgil Stone, Mrs. John Wallace and Fred Gossett.

New Year's day guests in the home of Mr. and Mrs. Tommy Markham and children were Mr. and Mrs. C. O. Newton and children of Anton.

Mr. and Mrs. Buster Lusk and son of Baytown were guests during the holidays at their parents and brother, Mr. and Mrs. Bill Lusk and Vernon.

Mrs. Jon Allan Kelley and children of Lubbock were guests from Thursday until Sunday of her parents, Mr. and Mrs. Bud Mason and Brenda.

Sunday evening guests in the home of Mr. and Mrs. Fred Babb were their son and family, Mr. and Mrs. James Babb and son of Post.

MRS. QUANAH Masey, Mr. and Mrs. Lewis Sinclair and family and Mrs. John Kirksey returned Saturday evening from a trip to California.

Sgt. and Mrs. Glynn Barron and daughter left Thursday for their home in Albany, Ga., after spending the holidays with her parents, Mr. and Mrs. Grover Nason.

Mr. and Mrs. Gene Nunn and sons of Abernathy were guests from Saturday until Monday in the Earl Gregg home. Mr. and Mrs. Ralph Gregg of Ropesville were also Sunday afternoon guests.

Mr. and Mrs. L. B. Turner returned home Wednesday after spending Christmas in New Orleans, La., with their daughter and family, Mr. and Mrs. Richard J. Kluck.

Mr. and Mrs. Ray McClellan returned Monday that they have a new nephew, Ralph Wayne Becker, born Dec. 23 to Mr. and Mrs. Jake Becker. Mrs. Becker is the former Mary Jo McClellan, daughter of the late Noah McClellan, former resident of this community.

Mill party described as 'best ever held'

More than 1,200 people — 800 adults and about 410 children—described the annual Christmas party of Postex Mills, Inc., held Dec. 24 in the Post High School gymnasium as "the best one yet". Children and adults alike were

enthusiastic about the size of the gift sacks at this year's party and the quality of the presents.

Prior to the party, the mill employees and their children gathered in the gym's west bleachers while the gym floor was being made ready for the big party.

There was a Christmas tree and Santa Claus at the north end of the playing court, and two lines of employees formed to fill the gift sacks as the children and adults filed through.

Chant D. Lee the Mill's personal director, was in charge of the party, assisted by A. Lee Ward, mill superintendent.

Especially singled out for their assistance in the lines and in other contributions to the party's success were the following employees:

Jack Baillentine, Herman McVay, Vester Smith, Dick Tanner, T. J. Johnston, Clarence Warren, Speck Bowling, Vachel Anderson, Ollie McDougle, Cephas Alberty, Dayle Nelson, Bobby Woods, Jack Beavers, Glen Wheatley and Dick Allen.

They gave hurricane feminine names because they couldn't be controlled.

Plainview spent Wednesday night in the Dillard Thompson home. They were en route to Dallas for a visit with their daughter and family, Mr. and Mrs. Charles Moore. Other visitors this week included Mr. and Mrs. Delmer Cowdrey, Mrs. Harlon Morris and sons, Lonnie Peel, Elmer Cowdrey, Wilburn Morris, Mrs. Elmer Dee Jones, Jack, Jerry and Shelia Morris, Kenneth Howard, Mr. and Mrs. C. W. Roberts and Waymouth if Tahoka, Mr. and Mrs. Ray McClellan and Kim, and Joseph and Brittie Aimo.

Earl Gregg and his brothers, Ralph, Jess, Pete and Morris returned Wednesday from a visit in Thomasville, N. C., with another brother, Roy, who is seriously ill.

MR. AND MRS. Donald Windham and family of Post were hosts for a New Year dinner. Those attending were Mr. and Mrs. Elmer Cowdrey, Mr. and Mrs. Delmer Cowdrey, Mr. and Mrs. Lonnie Peel and Gene, Mr. and Mrs. Glen Davis and Carol, Mr. and Mrs. Alvin Davis and children of Brownfield, Mr. and Mrs. Elvus Davis and daughters, Mr. and Mrs. Bobby Cowdrey and daughters, Mr. and Mrs. Lester Nichols and Mr. and Mrs. Auvy McBride.

Sunday guests in the home of Mr. and Mrs. Carl Fluit and sons were Rev. and Mrs. Elbert Nelson and sons, Mrs. Maud Thomas and Lois Edwards.

Garza oil discoveries total eight during '59

Garza County, which edged out Andrews County, 18 to 17, in the number of 1959 West Texas oil discoveries, failed to make it two years in a row in 1959.

Garza finished in a tie with Borden and Ward counties for eighth in the number of discoveries last year—each with eight. Garza County grabbed first place with 25 pool openers, nine more than its nearest rival, Andrews County, which posted 16.

Following is a complete list of the Garza County discoveries for 1959:

THREE-WAY GLORIETA—Continental No. 1 L. G. Thuett, survey 1, scrap file 1439, A-1063, pumped 105 barrels of 39.7 gravity oil and 45 barrels of water daily through perforations at 4,021 to 4,061 feet.

after 5,500 gallons of acid. (Glorieta).

FORBES SAN ANDRES—M. R. Voltz, et al, No. 1 Wheeler, section 20, block B-9, F. Bathwell survey, pumped 108 barrels of 39 gravity oil, plus 20 per cent water, daily through perforations at 3,031 to 3,090 feet, after 1,000 gallons of mud acid and 10,000 gallons of fracture fluid. (San Andres).

CAIN STRAWN—Southern Union Gas Company No. 1-A Susie Koonsman, section 4, block 2, T&NO survey, flowed 210 barrels of 39 gravity oil and no water daily through 16-64-inch choke and perforations at 7,660 to 7,680 feet and 7,694 to 7,699 feet, after 3,000 gallons of acid. Gas-oil ratio 269-1. (Strawn reef lime).

CAIN SPRABERRY—General American Oil Company of Texas No. 1-3 Koonsman, section 3, block 2, T&NO survey, flowed 191 barrels of 41.3 gravity oil daily through 18-64-inch choke and perforations at 4,916 to 4,940 feet. Gas-oil ratio 205-1. (Spraberry sand).

NORTH WEST JUSTICEBURG SAN ANDRES—McCrory & Franklin No. 2-130-C McCrory, section 103, block 5, H&GN survey, pumped 62.33 barrels of 36.5 gravity oil, plus 45 per cent water, daily through perforations at 2,036 to 2,054 feet, after 19,500 gallons of fracture fluid. (San Andres).

ELLIS AND ANDRES—Alamo Corporation No. 1 G. D. Ellis, section 1304, J. Hays survey, pumped 4.15 barrels of oil plus 30 per cent water, daily through perforations at 3,232 to 3,238 feet and 3,304 to 3,308 feet. (San Andres).

NORTH RED LOFLIN STRAWN BURGER—United States Smelting, Refining & Mining Company No. 1 Lora S. Sims, section 7, block 2, T&NO survey, pumped 218.33 barrels of 37 gravity oil and 36 barrels of water daily through perforations at 8,264 feet, after 1,500 gallons of acid. (Ellenburger).

NORTH RED LOFLIN STRAWN BURGER—United States Smelting, Refining & Mining Company No. 1-A Sims, section 809, block 97, H&TC survey, pumped 190.9 barrels of 35.4 gravity oil, plus 25 per cent water, daily through perforations at 8,008 to 8,044 feet, after 900 gallons of acid. (Strawn reef lime).

NORTH WEST JUSTICEBURG LOWER SAN ANDRES—Carthay Land Company No. 1-A J. S. Boren, section 132, block 5, H&GN survey, pumped 96.9 barrels of 38.3 gravity oil plus 27 per cent water, daily through perforations at 2,468 to 2,473 feet. (Lower San Andres).

Student director to teach Bible Conference here

"Salvation at Work" will be the teaching theme used by the Rev. S. L. Harris, director of the Baptist Student Center at Texas Tech, next week at the First Baptist Church here.

Rev. Harris will take the epistle of James and teach it to a Bible conference beginning each night at 7:30 o'clock and continuing for one hour.

Rev. Harris, a native of Austin, received his B. A. degree from Howard Payne College, and his B. D. and ThM. from Southwestern Baptist Seminary. He has done work at Sam Houston State College where he was a Baptist student director for a number of years.

He has served on important denominational committees in the Southern Baptist Convention relating to Student Work and as pastor of several churches in Texas.

The public is invited to attend these meetings Monday through Friday of next week, said the pastor, the Rev. C. B. Hogue.

Book tells story of oil company

The story of Humble Oil & Refining Company, a Texas firm organized in 1917 which grew to become one of the nation's leading producers, transporters, and refiners of petroleum, has been published in book form.

The volume, "History of Humble Oil & Refining Company—A Study in Industrial Growth," was written by Henrietta M. Larson and Kenneth Wiggins Porter under the auspices of the Business History Foundation of New York and was published by Harper & Brothers. The study traces the development of Humble through the year 1948.

The 789-page book reviews the company's activities in exploration, production, transportation, refining, and marketing. It provides a general view of Humble's role in a highly dynamic and competitive industry and shows how the company has adapted its personnel, methods, and techniques to meet new problems and opportunities while, at the same time, adhering to its basic philosophy of being fair in all its relations.

The authors are both well known in the field of history. Henrietta Larson is associate professor of business history at the Harvard Business School. Kenneth Porter is professor of history at the University of Oregon.

Mr. and Mrs. Ray (Andy) Andrews of Lubbock became parents of a son Jan 2 in Goodnight Hospital at Lubbock. He weighed seven pounds and 10 ounces and was named Joey Ray. Maternal grandparents are Mr. and Mrs. E. R. Moreland and paternal grandparents are Mr. and Mrs. V. W. Andrews of Lubbock.

Final rites conducted for Post man's mother

Funeral services were held last week for Mrs. Lela Verna Gist, 61, of Sundown, mother of John W. Gist of Post.

Mrs. Gist died in a Levelland hospital after having suffered a stroke at her home on Christmas night. She had lived in Sundown for about six years, moving there from Pampa.

Besides the son of Post, she is survived by her husband, Buck Gist; three other sons, two daughters, eight brothers, four sisters and a half-sister.

Miss Barbara Shytles has returned to her studies at Southern Methodist University, Dallas, after spending the holidays here with her parents, Mayor and Mrs. Powell Shytles.

Many a housewife spends two hours a day telling her neighbor she doesn't have enough time to do her housework.

This is a lousy depression. Everybody's working and everybody's broke. At least we didn't have to work in the last one.

Let Us Serve You

Most growing families have some building "dreams," whether it be a new bedroom for the last arrivals or a recreation room for family fun.

But those building "dreams" often are some long steps from reality. You don't know where to start, exactly what you want, and you are not sure if you can afford it.

Let us help you. You won't get our kind of service in any other city. We'll sit down with you and help you work out exactly what you want. We offer you years of building experience at no cost to you. And the time it takes suits us just fine. We have services available too for new home plans and remodeling plans.

This is one of our ways of helping Post to grow.
