Volume XXIII Post, Texas "The Gateway To The Plains" Thursday, June 2, 1949 Number 30

This drawing by Haynes and Kirby, Lubbock architectural firm, is of the proposed new grade school building for which a \$275,000 bond election has

been called for June 14. The proposed building has 16 classrooms, study hall, library, office, infirmary, drinking fountains, two boys' rest rooms, two girls'

rest rooms, an auditorium with a seating capacity for 500, a cafeteria and a rear room for heating equipment. There are three entrances, and the build-

ing will be equipped with new desks and other basic furniture. The building is to be erected east of the high school building, if the election carries. The site will be selected from several lots owned in that neighborhood by the school.

## A. Stone Dies In Lubbock Hospital Monday Morning

Augustus Stone, a resident of Garza County for 33 years, died at 7:15 o'clock Monday morning in the Lubbock Memorial Hospital after an illness of three weeks.

Funeral services were held at 4 o'clock Tuesday afternoon in the Graham Church of Christ with Paul Mayr officiating. A scripture was read by S. D. Lofton and J. F. Maxey led in a prayer.

Music included three hymns by a choir under the direction of J. O. Reed, "That Beautiful Land" by a male quartet composed of the Rev. A. B. Cockrell, T. R. Hibbs, W. F. Presson and the Rev. J. E. Stephens, and a vocal solo, "Have Thine Own Way," by Miss Wilma Pirtle.

Mr. Stone had been a member of the Church of Christ for 40 years.

Burial was in Terrace Cemetery under the direction of Mason and Company.

Pallbearers were Malcolm Bull, Frank Smith of Lubbock, Bob Collier, Bill Stone, N. W. Stone (Continued On Back Page Col. 1)

## Boys Club Opens For Six Weeks On Monday Afternoon

All boys of the ages, 6 to 14 years, are invited to enroll in the Boys Club which Coach Vernon Ray is to direct from 1 until 3:30 p. m. each week day afternoon in the Post School Gymnasium, beginning Monday and lasting six weeks. The fee is one dollar per week per student.

The club, which was directed successfully last summer by Coach V. F. Bingham, is sponsored by the Post Chamber of Commerce. The program will consist of softball games and relays, basketball and boxing. A public Fun Night will be held during the term.

### TWO FINES PAID

Two fines of \$1 and costs each were collected by Justice of the Peace Jim King for highway violations during the past week.

The Garza County Commissioners Court has been petitioned to call a bond election for the construction of paved roads shown in the above plat and also the paving of Main Street, west of the court house; and all connecting streets between Main and the Tahoka highway, from Madison to and including Taylor Street on the west edge of the city. A public hearing on the subject will be held at the court house at 10 a.m. June 17.

The legal notice describing the proposals is published elsewhere in today's Post Dispatch. The petition, as the above plat indicates, calls for paving to the pump station in the Garza oil field. It is possible that, as an

accommodation to the oil companies, this will be changed to a caliche loop in the oil field. Precinct 2 Commissioner Buck Gossett said. The election date will be announced after June 17.

## Commerce Group To Hold Public Meeting June 8

The public is invited to attend a town meeting of the Post Chamber of Commerce at 10 o'clock next Wednesday morning, June 8, at the Garza theatre.

The purpose of the meeting is for an open discussion of any suggestions or criticisms which anyone might have, in order to plan an effective program of work for the recently elected Chamber of Commerce Board of Directors.

All business men of the town are especially urged to be present, said Jess Wright, secretary. The board of directors will meet at 7:30 o'clock Monday night at the City Hall.

### NEW MANAGER

Ann Gilmore has succeeded the former Imogene Jewell as manager of the Rodgers Hotel. Imogene recently was married to J. B. Jordan, Fluvanna rancher.

## Proposed Paving Project In Precinct 2 Discussed

The Garza County Commissioners Court has been petitioned to call an election for bonds not exceeding \$300,000 for the paving of approximately 28 miles in Precinct 2.

Acting on the petition yesterday, the Commissioners Court called a public hearing for 10 a. m. Friday, June 17, in the Commissioners Court Room. The hearing and details of the proposition are announced in a legal notice elsewhere in today's Post Dispatch and also in the above plat showing the rural paving proposals.

The proposed paving includes Main Street, west of the court house, and all connecting streets between Main Street and the Tahoka Highway, from Madison Street to and including Taylor Street on the west edge of the city.

The proposed project, as shown on the plat, also includes the paving the South Caprock road,

## Mayr Resigns As Church of Christ Minister In Post

Paul Mayr presented his resignation as pastor of the Church of Christ at the prayer meeting service last evening, announcing that Sunday will be his last day as pastor of the local church. He has accepted the pastorate of the Church of Christ at Kerrville.

Mayr, who has served the Post church the past two years, said: "We reluctantly bid goodbye to our many friends in Post. The warm way in which you received both me and my wife into your lives has been most gratifying. If our new work with the church, schools and civic organizations can be as pleasant as that which we have experienced here, that will be as much as we could possibly desire."

The minister told the Post Dispatch that in Kerrville he will have the responsibility of a much larger church, which has daily activities and that radio will be among the facilities available for his program. (Continued On Back Page Col. 2)

## New Building Proposed For Grade Pupils

June 14 was set as the day for an election on school bonds and two other issues when the Post Independent Consolidated School Board met at the high school building Tuesday night. The three issues to be voted on are:

1. "Shall the Board of Trustees . . . have the power to levy and collect annually a tax upon all taxable property in said school district for the maintenance of public free schools therein of and at the rate of not exceeding \$1.50 on the \$100 valuation of all taxable property in said school district . . . ?"

2. "Shall the present . . . school district assume as its general and direct obligations the . . . bonded indebtedness (against the present school building) which outstanding bonds aggregate in amount \$104,500 and whether or not a tax shall be annually levied and collected on all taxable properties . . . such tax to be for the payment of the interest on and provide a sinking fund sufficient to pay the principal . . . at maturity?"

3. "Shall the Board of Trustees . . . be authorized to issue the bonds of said District in the amount of \$275,000, to mature serially and annually . . . said bonds to bear interest at the rate of not more than 3 1/4 per centum per annum . . . ?"

The propositions are stated in detail in public notices . . . in the city hall, court house and high school building.

Barker and Smith, attorneys for the Central Investment Company, have been engaged to handle the legal matters of the project and to get it approved by the Attorney General of Texas. Their company will provide supplies for the election.

## Delbert Cockrell Seriously Injured

The condition of Delbert Cockrell, who was critically injured when a horse fell with him Saturday morning at the U Lazy S Ranch, was believed to be slightly improved at last report. He is in the West Texas Hospital, in Lubbock, where he underwent intestinal surgery after the accident.

Five men were with Cockrell at the time of the accident. They were loading cattle, and while running a cow Delbert's horse stepped in a hole and fell.

He is a son of Mrs. Vera Cockrell, a son-in-law of Mr. and Mrs. Will Teaff of Cloze City and a brother of Mrs. Hardy Smith of the Pleasant Valley Community and Ralph Cockrell.

## Jack Walls' Home Damaged By Fire

The home of the Jack Walls family was badly damaged and all the furnishings and personal belongings were destroyed by fire of undetermined origin yesterday afternoon. The Walls family was at work in the Post Cotton Mills at the time of the fire, which was extinguished by the Post Volunteer Fire Department.

## Look Who's New

A daughter, weighing 6 lb., 13 1/2 oz. was born to Mr. and Mrs. H. W. Edwards of Route 3 at 7:28 a. m. yesterday in the Lubbock Memorial Hospital.

A son, Tom Edward, was born to Mr. and Mrs. Albert Rattan of Matador last Thursday at Matador. He weighed 9 lb., 4 oz. Mrs. Rattan is the former Kathryn Cook, daughter of Mr. and Mrs. O. R. Cook.

Mr. and Mrs. Ed Kerns are announcing the birth of a son, Jerry Don, on May 24. He was born in the Brownfield Hospital and he weighed 7 lb., 5 oz.

A son, Danny Hugh, was born to Mr. and Mrs. Hugh Webb of Tatum, N. M., on May 21. The baby is a grandson of Mr. and Mrs. S. H. Webb of the Pleasant Valley Community.

Mr. and Mrs. B. P. Vardiman are parents of a 9 lb. boy born about 8 o'clock last night.

ROGER W. BABSON WRITES THIS WEEK:

# Opportunities Seen In Nursing, Teaching, Dentistry

Babson Park, Mass. — As a part of the annual Casparilla Celebration of Tampa, and the Mardi Gras of New Orleans which I attended last winter, also the Cotton Exposition of Memphis, and the Orange Festival of Los Angeles, there are always marvelous parades.

Then, there are divisions of majorettes, which always get good applause. The football players make up a division; and the baseball players another; and of course, there are the high school "soldiers".

There are no divisions which exhibit the work of the Chemistry, Physics, Secretarial, Manual Arts, or in fact any other departments of the schools upon which employers depend. From watching these parades, one would think that our high schools existed only for training for noise, sports and war. Yet, I can well realize how a very interesting float could be made of pretty girls in scanty bathing suits, operating gaily colored typewriters!

**Newspapers Guilty Also**  
The featuring of the non-

essentials of our school system is not limited to the parades. Almost every day the best newspapers of our largest cities give one or two pages to the athletic teams of its schools and colleges. They give space to featuring the bands, and they send photographers to get pictures of the majorettes. When a new college or high school professor is employed, it scarcely gets into print; but when a new football coach is hired, he will get his picture in the newspapers with a half column story of his life!

Employers feel that this present policy of featuring the non-essentials is all wrong. Yet 80 percent of the high school and state universities are looking to these same employers to give their students jobs. Employers

would like to have more spelling matches, typewriting contests, oral arithmetic quizzes, and other practical exhibitions and contests which the newspapers would feature. Furthermore, I would not limit this new attitude merely to the "practical" subjects which my business friends want. Let us also have contests in history, in science, in literature and the arts. Those who lead in these departments should also be featured.

**Jobs Now Available**

During the past few years, the United States has been enjoying the greatest boom in its history. Everyone could get a job of some kind. But let me tell my readers that this rosy situation is beginning to come to an end. During the years ahead only those who are proficient in some line of

work will get employment. Even common factory labor is gradually being eliminated by automatic machinery. Young people must be trained in something worthwhile to get decent jobs in 1951 and through the depression years to follow. In fact, today the Bureau of Labor Statistics, states that 50,000 Bachelors of Science will be graduated in 1951, when the replacement demand will be less than 10,000. The best opportunities will be for those who are studying nursing, dentistry, grade school teaching and machinery.

In closing, I do want to say a good word for the "4-H Clubs" of our schools. These are doing excellent work and they are being generously featured by the newspapers. For this work the national, state and county agri-

cultural agents largely take the credit. These clubs, systematically organized, have the U. S. Department of Education start the 4-H Clubs, Arithmetic Clubs, Spelling Clubs!

The need is great. It met some way. Cooked oatmeal may almost any meat loaf of bread, cracker or other cereal. Also, porridge left from a loaf may be used thrifty for a loaf or supper.

## GETTING OUT On The LIMB by EDDIE the EDITOR

In the rush of the rodeo, baccalaureate, etc., I never did get around to commenting on the very significant fact that half the honor students (the top 10) in this year's Post High School graduation class were boys and that four of the male scholastic wonders were among Post High's outstanding football players of two decades.

I particularly wanted to call attention to this fact before another football season gets under way because, in the fall, some newspaper columnist in the area can always be depended on to come out with the theory that athletics and school students don't mix.

My good colleague Ernest Joiner of the Rails Banner, who is one of the most brilliant young men in the newspaper editing business, belongs to the old school of thinkers that a boy has to be tutored on the side if he is to keep his grades up while playing football.

Last year was the first year in 20 that Post High School has won the bi-district championship in football and the first year in history that the same boys went ahead and won the bi-district championship in another sports field. These boys, as you know, also won the bi-district championship in baseball, and they got into the playoff for the district championship in basketball.

Then came the end of school and the news that four of the outstanding athletes were among the 10 top ranking boys and girls in the scholastic realm. These boys were Junior Malouf, Kay Kirkpatrick, Carter Gene White and George Pierce. Without exception, they are going to college with a definite career—besides football—in mind.

It may be true that over at Rails or some other places football and good grades don't mix, but I can promise that the above four top ranking football players and honor scholastic students will make a success in life and will always be an asset to Post.

I can also promise that the other six honor students—whether or not they all get to college—will be an asset to Post. All six were outstanding in school affairs and several of the girls, like the football boys, were athletes. Alice Ruth Carr, Marjorie Freeman and Shirley Schmidt were on the basketball team that played in the state tournament. Faye Ruth Hamilton and Theona Josey were just as active in other extra-curricular activities, as was E. O. Young, Jr., the only boy honor student who didn't play football. Faye Ruth and E. O. are especially talented in music. E. O. wants to go to college and study to be an architectural engineer, and I am sure he will make a success of it.

I can't tell what the girls will do. Theona is already married and is looking forward to a successful career as a housewife. The other four girls will either do the same or go on to college to prepare for careers either in business or as housewives, and I am sure they will all succeed because they have demonstrated that they are both versatile and capable, and I have gathered from conversations with them that they are bubbling over with good, healthy ambition.

As readers of long standing will remember, it is the custom of the Post Dispatch to publish brief autobiographies of the Senior honor students each May. We had the best written autobiographies in history this year.

## Garza and the World

By EVELYN BOYD

I told everybody who would listen in 1946 about the "Leftish" tint of the Maritime Union. My chief effort was to offer it to the Attorney General of the United States during that year and in 1947 when I was trying to get compensation for the looting of my belongings aboard a liberty ship on my return from Greece. Nobody was interested.

Now, three years later, the newspapers are full of discoveries of Communism within the ranks of several CIO Unions and the references always include the Maritime Union. Some observers believe that CIO will kick out the Maritime and other "Left" unions at the October convention.

All I know about the Maritime Union is that I spent 21 days on a Liberty ship which was manned by a left-wing union crew. As the only other woman on the ship didn't speak English, I spent many long hours talking or playing cards with the "off-duty" crew members. Most of them were young and politically inexperienced. All that I talked with thought the government owed them a living, that the steamship company employing them deserved to be cheated on every turn and that the Maritime Union could be relied upon to protect them in their cheating practices and their demand for shorter working hours, better pay and pensions at an early age.

The ship's radio officer and I played gin rummy every time he was off duty in the captain's dining quarters where a crew of ship's painters were smearing paint during most of the voyage. The dining room was small and I believe I could have put one coat on it in a day's time or less . . . and such expert painters as John Shedd and Buster Willis could have done it in two hours time.

It took the ship's union men at least two weeks, with some overtime involved. The painters and these biographies revealed more ambition than we have noted among the honor Seniors since before the war. It sort of thrills me to think of the fine example that these kids are setting.

It was with a tinge of sadness that we accepted the resignation of Mrs. R. J. Key, who for so many years, has been our correspondent at Justiceburg.

The long-suffering Mona Key took her work most seriously and—this was as important as her good coverage of the news—she was an excellent barometer of how we were doing down at Justiceburg. If she ever heard that somebody in that community objected to anything at all about the Post Dispatch, she was quick to report this fact and we always benefitted by the information.

We hope that Mrs. Key's health will rapidly improve and that she will soon be back into the swing of the community life.

ers (there were always two working together) always stopped their work, when the captain wasn't on the deck, to kibitz on our game and brag about how they were loafing in order to collect the maximum of overtime.

This was all very shocking to me, particularly inasmuch as they told me they painted the room on every trip, or about every every six weeks. I was further shocked to learn that the entire ship's interior was painted in this manner on every trip.

These young kibitzers seemed to like me because I was interested in the strike which they were going to go on next month, etc. I was interested because I was shocked and curious, and I made a good listener. They told me plenty.

It's unions like the above that are making it so hard right now on such well-meaning CIO unions as the United Automobile Workers who were having to accept city relief while on strike at Ford's River Rouge plant in Detroit. The public is—at long last—beginning to associate some of the unions with Communism and this makes the average layman suspect all unions.

Had CIO got busy three years ago and ridded itself of the Left-Wingers, it's hard-working, straight thinking unions might now have more public sympathy in times of stress.

The recent newspaper publishers and editors of the country's convention in New York City inspired New York Sun Columnist H. I. Phillips to make the following observations:

"You can identify a newspaper publisher, owner or editor at a glance in New York. He is the one who crosses the crowded street between speeding trucks, confident that any bruises he gets that way will be comparatively trivial. He is the fellow who crosses against the red light because if he were a timid soul he couldn't enjoy himself . . ."

"Operating a newspaper today combines all the features of crossing the Grand Canyon on a tight rope, lurching with Gargantua and chinning one's self on a rainbow . . ."

## What Our Contemporaries Are Saying:

**PIE IN SKY SCARCER!** A young fellow came to our shop this week and asked our help in finding a job. Any kind of work would do, he said; he was not experienced in any particular job. He was alert and eager, and appeared to be sober and serious-minded.

Having nothing open for him in our plant, we gave him as many leads as we could. And right then it occurred to us that it has been a long time since we have heard an application for a job without qualifications. For the past several years, applications have been accompanied by "How much do you pay?" and "How long are the hours?"

It must be that "pie in the sky is becoming a little scarcer!" —The Gaines Co. News.

**W.T.S.C. LEGAL INITIALS**—It is legal to call it West Texas College.

Several years ago the practice started in dropping the word "Teachers" from the official name. Now it is legal.

Some of these days something must be done about the name carved in stone on the front of the Administration Building. There you read in big lettering, "West Texas State Normal College." This was the name back in 1914 when no one conceived the idea of making this a general college. —The Canyon News.

### Sweetclover Helps Keep Fertility Of Soil In Hard Land

H. M. Ford, Duck Creek Soil Conservation district cooperater at Barnum Springs has about six acres of Sweetclover that is making a good growth. It was planted March 24, and some of it is six to eight inches high. It has rooted down 12 to 18 inches deep. Many of the sweetclover plants have nodules on their roots, which show the plant is storing nitrogen in the soil, according to local Soil Conservation technicians.

Sweetclover has nine recognized benefits:

1. While it is growing it protects the soil against wind and rainfall erosion.
2. Its bulky root system extends four or five feet into the earth, bringing up mineral plant foods beyond the root zone of ordinary crops.
3. When Sweetclover plants die, the root system and tops give large amounts of organic matter to the soil.
4. Being a legume it supports nitrogen collecting organisms on its roots.
5. It opens up tight sub-soil so water will soak in faster.
6. Sweetclover pasture is high in proteins and it comes on in late winter and early spring.
7. Sweetclover can yield from 200 to 400 pounds of seed per acre. It is thrashed with a combine. Seed in 100 pound lots is selling for approximately \$30.
8. A rotation including sweetclover in the cropping system will help maintain soil fertility. Crop yields will be maintained or improved.
9. In the same way that hairy vetch and rye are good for sandy land, sweetclover does well on hard land.

### Crowd Of Long Ago Sees Sons Finish Hardin-Simmons U.

Three young men who were graduated Monday from Hardin-Simmons University in Abilene are the offspring of three couples who met each other and did their courting together and spent the early years of their married life in Post.

They were James Carroll Bowen, son of J. Lee Bowen and the former Bessie Smith; the Rev. Ernest Dee Stewart, Jr., son of Ernest Stewart and the former Lois Martin, now of Levelland, and Donald Evan Yarbo, son of Bevy Yarbo and the former Rosalie Self, now of Lovington, N. M.

Carroll and Donald Evan were among 47 graduates to receive the first Bachelor of Business Administration degrees ever conferred at the University, Carroll, who with his wife returned to Post with his parents after the commencement exercises, will take over his father's insurance business. He and his wife will make their home temporarily with the elder Bowens.

The Rev. Mr. Stewart is pastor of a Baptist church near Abilene. He received a Bachelor of Arts degree. Another former Post boy, the Rev. Ennis D. Hill, also received a B.A. degree from Hardin-Simmons Monday. He is pastor of the Baptist church at Loop.

A total of 267 students were graduated from the university. The commencement speaker was a former H-SU student, William J. Murray, Jr., who is now chairman of the Texas Railroad Commission. His address, which was dedicated to the late President Sandifer and the late Dean Olson of the university, was entitled "Perform Something Worthy of Remembrance."

Mr. and Mrs. George Evans went to Sherman Saturday night to visit his sister whose husband, J. L. Petty, passed away Wednesday of last week and was buried there on Friday. Mr. Petty died from a heart attack.

**Counting Sheep Gives Way to Chasing Rabbits Now That Youngsters are Out**

The kiddies are on a rampage again!

The freedom from school routine, the smell of wild flowers or, perhaps, an overdose of spring tonic at this time of year generally inflict a certain element of the boy and girl population with midnight amensia and a desire to keep the adult population from sleeping.

In previous years, these nocturnal pranksters have been known to damage, destroy and steal property while showering bedrooms with streams of water from the owner's garden hose, etc., but—as far as was known by press time—this year's run of pranksters are a bit more considerate.

Chasing rabbits in their house with flyswatters all night to the Curtis Davies family was definitely less excruciating than have been the children's mischievousness of previous years.

Davies went to the train to mail a letter last Friday night and, during his absence, his wife and daughter, El Wanda, who had gone to bed heard the front door open. They bravely got up to investigate and found two white rabbits, a large mamma rabbit and a baby rabbit, hopping around the living room. They were chasing them when Curtis came home.

Knowing that Dr. L. E. Andrews raises white rabbits, he telephoned to see whether or not any of his were missing. Dr. Andrews said he didn't think so, but he started counting, anyhow. Some time later, after the Davies had finally caught the rabbits and put them in the wash house, he telephoned to say that some were missing and that he would be after them the following day.

The Davies family finally went to bed, but could not go immediately to sleep for all the giggling of some boys outside their house.

How many other Post residents have been victims of this type of goings on was not known by press time. This writer only knows what happened at her house last Thursday night at a quarter to midnight.

The Boyd family, including a Cocker named General, was fast asleep when General jumped up and started barking. This awakened this writer enough to observe that two girls about 11 years of age were trying to open the front door. One of them said "Sarah has locked this damn door."

The man of the house finally roused up and asked the little girls what they were up to. They pretended to cry and said "Some boys are chasing us and we are scared." "We'll call the sheriff," said he.

"No," said they, retreating. "we'll just run up here to this filling station and wait until they go away."

The girls started away and, from across the street, came some boys chasing them again. "Let's call the sheriff, anyway," said this writer.

"Why spoil their fun?" he said. "If their parents don't care, it's not our duty to add a jail record to their experiences. Besides, they're just out to heckle people like us, as kids frequently do at this time of year. It could be worse. There was a time, when it was fashionable for mischievous youngsters to "ticktack" the houses.

**Lubbock ABC Getting Ready For Annual Rodeo**

The American Business Club of Lubbock is readying Jones Stadium, on the Texas Tech campus, for the June 8, 9, 10 and 11 presentation of the exciting Boys Club World Championship Rodeo, with five big acts and \$4,000, plus entrance fees, in prize money. Everett Colburn is the managing director of this world-famous show. It is a crowd-thrilling spectacle that has played to capacity audiences all over America, including Madison Square Garden and two previous appearances in Lubbock under the auspices of the Lubbock ABC's.

Again this year, receipts from the four-day showing of the ABC Boys Club World Championship Rodeo will be placed in the capital fund of the Lubbock Boys Club. Concession earnings of the Lubbock Lions Club will also go to this fund. The entire show is sponsored to aid the boy-building projects of the Lubbock Boys Club.

A colorful parade of horse-men and ladies, horses, and vehicles of the old West will wind its way down Lubbock's principal thoroughfares on the afternoon of June 8, at 5 o'clock, to launch the big rodeo activities. The famed Will Rogers Range Riders of Amarillo will highlight this parade, which is expected to be many blocks long.

Reserved seats, \$2.40 including tax, and box seat reservations, at \$3.30 tax included, are on sale in the Main Rodeo Office, 1118 Main Street, Lubbock, phone 3-3489. General admission tickets which will be sold at the gate only, are \$2.00 for adults and \$1.00 for children, tax included. Checks and money orders for reserved and box seats should be sent as early as possible, and made out to "ABC Boys Club Rodeo."

Performances begin nightly at 8 p. m., June 8, 9, 10, and 11, at Jones Stadium, Texas Technological College, with a clear view of all acts and contests from all of the 20,000 seats.

Mr. and Mrs. Fritz Hester and daughter of Kermit spent the weekend here visiting relatives and friends.

Mr. and Mrs. Shorty Ensminger and Mr. and Mrs. Charlie Bowen spent the weekend fishing near Stacy.

Mr. and Mrs. J. W. Garrett and Mrs. Emma Slade attended a Garrett family reunion at Paducah Sunday.

**Boy Scouts Offer Snow Cones Each Saturday In Post**

Troop 11 of the Boy Scouts—out to raise some money for their various activities—started operating a snow cone stand Saturday on O. D. Cardwell's business lot east of the Post Dispatch. They will sell the cones at five cents each every Saturday as long as the boys will work, Assistant Scoutmaster Jess Wright said.

About 12 members of the troop will go to Camp Post Sunday for a week's outing with approximately 125 boys of the South Plains area.

**BITS OF NEWS**

Sloan Trott of Bakersfield, California, who lived here for seven years before 1923, and his wife and daughter stopped in Post to renew old friendships last Thursday. They were en route home from a trip to South Texas. His father, L. J. Trott, formerly operated a tailor shop here.

Mr. and Mrs. H. A. Karpe and son, Dale, left Sunday on a 10 day trip to Iowa City, Ia., to visit Mr. Karpe's mother, Mrs. Max Karpe.

Mr. and Mrs. A. P. Ottinger and children left Saturday to spend a few days in New Mexico. They went through Carlsbad Caverns while on the trip.

Mr. and Mrs. Wayne Hundley of Kermit visited relatives here over the weekend.

One of the real pleasures of putting on a successful rodeo is the thought of the friendly associations it brings about, and the willingness shown by the people of Post in working toward this annual entertainment.

Another is the opportunity it provides for telling you how much the directors appreciate the cooperation and good will of all the folk who participate in promoting a successful show. As everyone will agree, this season's Stampede was the greatest show ever presented in Post.

Especially do the directors wish to thank the time-keepers, the ticket salesmen, those in charge of the dances, the persons who helped in operating the chutes and directing the arena activities, those who assisted in feeding and helping with the stock, the musicians who played for the dances and cooperated in making the booster trips a success, and the girls who provided entertainment for the booster trips. Too, the directors wish to thank those who were responsible for parking the cars and handling the traffic, and all others who assisted without pay.

The Directors of the **POST STAMPEDE, Incorporated**

## Postex Bleacher Will Be Among Best In Nation

The bleacher at the Postex Mills, which is the only cotton mill bleacher in Texas and one of only two west of the Mississippi River, is closed down this week for the installation of new, modern equipment which will make it one of the best bleachers in the nation. Supt. Claude Bailey told the Post Dispatch Monday.

The bleacher improvement project is only a part of a gigantic program to replace obsolete machinery in the mills with more efficient equipment which got under way four a half months ago. The program should be completed within two more months, Bailey said.

The bleacher probably will be finished this week and work should be resumed there next week, the superintendent believes. The new equipment, of stainless steel, should last a lifetime, he said.

## Wellington Takes Regional Honors

Wellington High School's baseball team won the championship of Region 1 in Spur Saturday afternoon with a 9-2 victory over the Spur High School team which defeated the Post Antelopes in the bi-district championship game last week.

Wellington won the game in the first inning, when three hits and an error brought in three runs. That was one more than enough needed to win, but the visitors stormed back to salt away the game in the second frame. In that inning, three more hits with a combination of other factors brought in six runs.

Spur kept trying to get back into the ball game, but Mel McCutchen never gave them a chance. The winning hurler was chary with his hits, setting the Bulldogs down on three scattered safeties.

The Bulldogs made two hits. The only other bleacher west of the Mississippi River is at Sand Springs, Okla.

## Jobs Needed For Two New Post Millers Who Are Here To Improve League Status

The Post Millers, who have lost some ground in the Oil Belt League, are expecting to gain it back with the addition of two new players, who have qualified for tonight's game with Tahoka in the Postex Park, beginning at 8 o'clock.

One of the recruits is James (Curley) Barnett, right-handed pitcher who was graduated Sunday from Texas Christian University in Fort Worth. The other, a shortstop, is Jim Boyd, who has just completed his third year at T.C.U.

The two new players arrived here yesterday to work out with the Millers and remain here the rest of the season if they can find jobs. Jim Hundley, on behalf of the Post Millers, announced that anyone who can offer a job to either player is urged to contact him at once. Barnett's wife would also like to obtain an office or typist job, if available, Hundley said.

The Millers will play Slaton at 2:30 o'clock Sunday afternoon at Slaton.

In Sunday's highest scoring Oil Belt League game, Levelland overwhelmed Post, 25-4, in an afternoon game at Levelland. Carroll was on the hill for the winners.

According to Veteran Post Miller Fan Paul Duren "it was a good game until the sixth inning when the score was only 5-3 in favor of Levelland."

Levelland scored nine runs in the sixth, six in the seventh and five in the eighth. Lloyd, Boren and Holland pitched for Post. Shepherd, the locals' hitting star, got four out of five but also committed four errors.

Seagraves suffered its second loss of the current league campaign Sunday, and Denver City did a neat job of whitewashing the leaders, 16-0, behind the pitching of Epperson. Faulkner was the loser.

Off beaten Brownfield took another licking, this time from Slaton, 14-8. Getting credit for the win was Wilson, and Drane was the loser.

Tahoka squeezed by Sundown, 11-10. Getting credit for the one-run victory was Holcomb, and Medford dropped the decision.

## World Championship Rodeo at Midland Is Now Under Way

Record crowds are expected to attend the 15th Annual World Championship Midland Rodeo which opened last night and will have a performance each evening through Sunday.

Top rate novelty and specialty acts have been booked, including trick riding and roping acts which have won acclaim at the nation's largest shows, and the famed Hendrick Family Specialty Act direct from Hollywood.

The world's best cowboys are said to be on hand to compete for the \$7,500 in purses and prizes, including entry fees, offered in the various events. The stock is being provided by Gene Autry and Everett Colborn of the World Championship Corporation.

Martha Thomas, a beauty operator in Plainview, spent the weekend with her parents, Mr. and Mrs. J. E. Thomas in the Garnolia Community.

good for two runs in the third to avoid a whitewash. Smith led off with an infield out, but Joe King, losing pitcher, pumped a single to left, stole second and went to third on a wild pitch. Darwin Callahan grounded to the second baseman, whose throw to the catcher to get King was dropped. Callahan stole second, went to third on a passed ball and scored on Melvin Lindsey's single.

The line score:  
Wellington 360 000 0-9 8 0  
Spur 002 000 0-2 3 3  
McCutchen and Norman; King and Lindsey.

## Millers Lose To Seagraves Nine

The Oil Belt League leading Seagraves baseball nine defeated the Post Millers 12-6 last Thursday night in the Postex Park. Post got 11 hits to Seagraves' 16. Douglas Simpson who was up five times for the Millers got three hits.

Jones, pitcher for the locals, relieved Holland in the fourth inning and gave up two hits and no runs during the remaining 4 1/2 innings.

By GANELL BABB

**Scripture:**  
For, behold, the day cometh, that shall burn as an oven; and all the proud, yea, and all that do wickedly, shall be stubble; and the day that cometh shall burn them up, saith the Lord of hosts, that it shall leave them neither root nor branch. But unto you that fear my name shall the Sun of righteousness arise with healing in his wings; and ye shall go forth, and grow up as calves of the stall. And ye shall tread down the wicked; for they shall be ashes under the soles of your feet in the day that I shall do this, saith the Lord of hosts. Malachi 4:1-3.

**Minute Prayer:**  
O Lord, give us the quietness, confidence and strength that cometh to all those who wait on Thee. Amen.

The council voted to give \$50 to the 4-H girls for their trips to the State Round-Up in College Station, this month, and to camp in Lubbock July 12, 13 and 14. Six girls have been selected to attend the Lubbock camp. Attending the State Round-Up will be Mrs. Wilburn Morris, 4-H sponsor; Glenda Grantham and Sue Stephens, delegates, and Lois Ritchie, who will represent Garza County in the State 4-H Dress Revue, modeling the dress which won first place in the county revue. They will leave with other girls from this district in two chartered busses from Lubbock at 7 a. m., June 12, and return June 16.

It was also decided that the council will spend \$35 on expenses of home demonstration clubwomen at the short course at Texas Technological College in Lubbock August 2, 3, and 4. Each of the six clubs is planning to send the delegate and the council is planning to send its chairman, Mrs. R. A. McLaurin. As Garza County is allowed 10 representatives, the first three clubwomen wishing to pay their own expenses at the course who sends the required fee to Mrs. Strasser by July 1 will be enrolled.

The course will be taught by Tech faculty members and Texas A. and M. College Extension Service staff members. It will include instruction in making copper bracelets, basic color in the home and dress, frozen food cookery, landscaping the home grounds, other subjects and a recreational program. The clubwomen will stay in the Tech dormitories and, at the end of the course, they will receive certificates.

The recreation committee of the council requests that each club submit suggestions for a countywide entertainment this summer at the June 8 meeting. The entertainment will take the place of an annual stunt night. The suggestions submitted will be voted on at the meeting.

### Mrs. R. V. Burnes Honored at Party

A layette shower honoring Mrs. R. V. Burnes of Idalou was given recently in the home of Mrs. R. L. Kelley. The gifts were arranged around a Maypole which centered the refreshment table.

Punch and cookies were served to about 20 guests.

Mrs. Burnes formerly lived near Post.

Mrs. J. E. Parker had major surgery in the West Texas Hospital in Lubbock yesterday.

**Warning Signals Of Tornado And How To Keep From Being Injured Outlined Here**

What are the warning signals of a tornado? What should a person do who is in the path of an approaching twister? Advice on these subjects was supplied in Lubbock Saturday by Eric L. Hardy, who has been watching weather professionally in the Southwest during the greater part of the past 37 years. He has been regional director of the U. S. Weather Bureau at Ft. Worth since 1941. The Sunday Lubbock Avalanche-Journal published his comments, as follows:

Tornadoes are most frequent in April, May and June, but they might occur any time of the year. They usually happen in the late afternoon or early evening—but they might strike any hour of the day or night.

**"Tornado" Cloud Described**  
 Tornado weather is likely to be sticky, sultry and oppressive, with southerly winds. An hour or two before the storm, topsy-turvy clouds are likely to appear which bulge downward instead of upward. Thunderstorms in the west or northwest are usual. The thunderclouds as a rule are "sickly greenish black" in color, with the lower clouds in rapid and confused motion.

Then, from the base of the cloud, a rope-like funnel may reach toward earth, spinning counter-clockwise at a furious rate, and varying widely in thickness. The noise it causes may be compared to the "roar of hundreds of airplanes or freight trains going through a tunnel."

**Can Be Outrun**  
 When these things happen, it

is time to seek safety—in a storm cellar, if one is available. Persons who have a few minutes of advance warning might be able to run out of the path of an approaching tornado if it appeared to be a small one and was moving in one straight line. Those who flee in this manner should run at right angles to the approach of the storm. However, running from a storm could prove dangerous if an approaching tornado covered a wide area and was moving in a zig-zag fashion.

Those who can get to automobiles usually can outrun the tornado. Persons caught in the open should lie flat in the nearest depression.

**Stay Out of Open**  
 Frame houses afford more protection than those built of brick or stone. If a basement is available, the southwest corner usually affords the most protection.

In office buildings, an inside wall on the lowest floor which can be reached is safest.

Stay away from windows and don't stand in open streets. The air is likely to be filled with debris traveling at machine gun bullet velocity.

Schools in city areas should follow the same procedures as in office buildings. In rural schools more protection usually can be obtained in a ravine or ditch than in the building.

**Favorite Hymns To Be Broadcast**

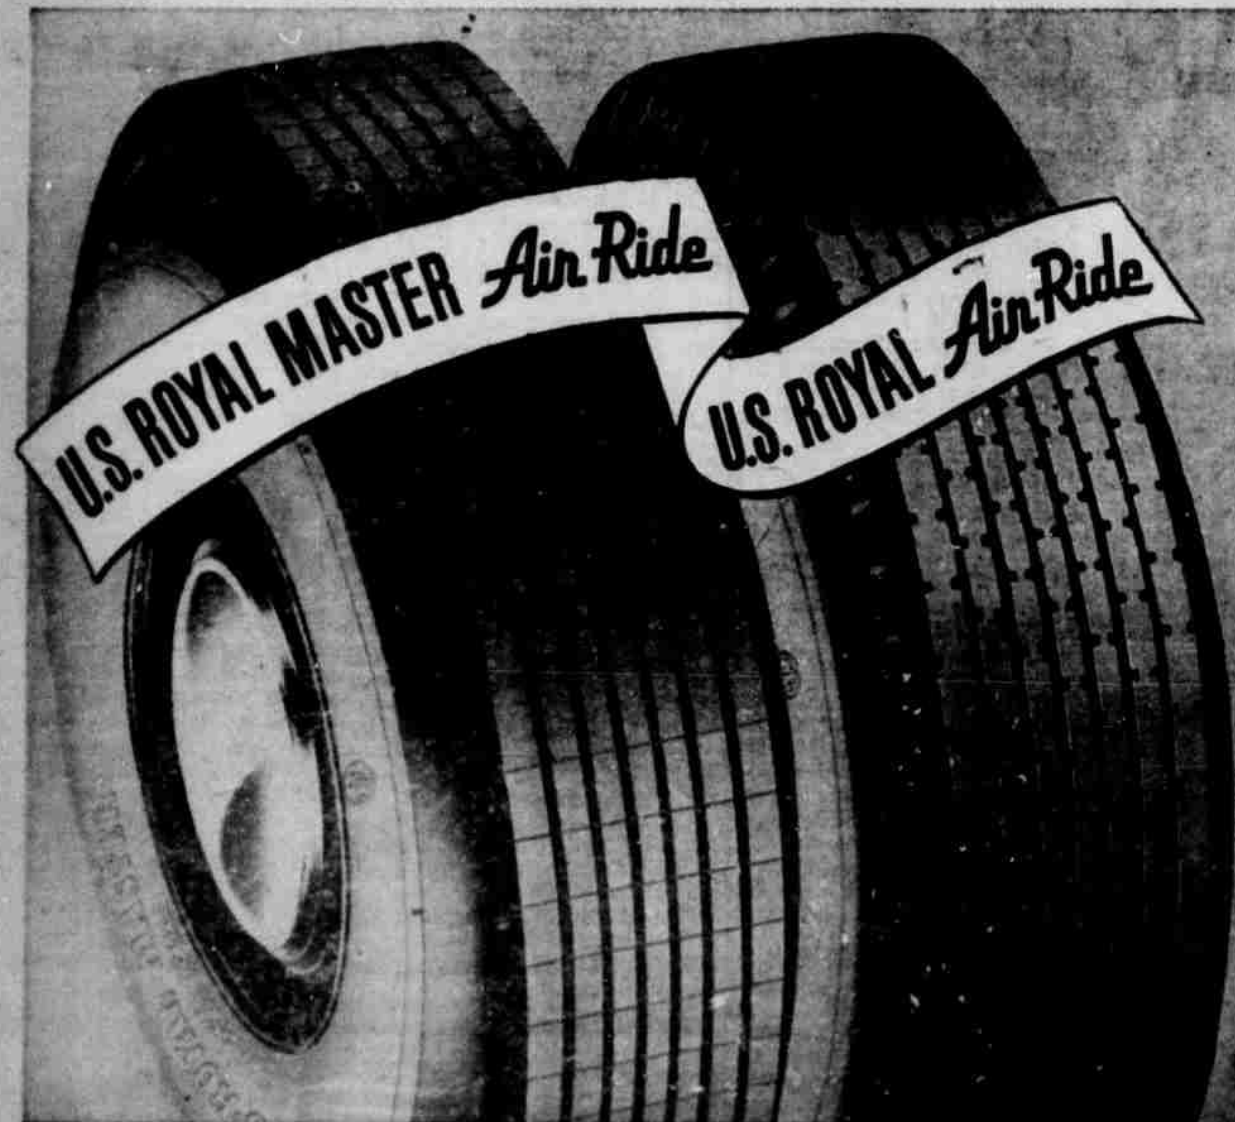

The premiere broadcast of "Hymns of the World", featuring John Charles Thomas and the King's Men will be heard over KFYO, Lubbock, Sunday at 12:45 p. m. The program is a presentation of the Southwestern Public Service Company and KFYO is the local outlet on the new 14 station Public Service Company network.

The 15-minute program features hymns of all faiths and all nations sung by Thomas and the well known quartet. The vocal and choral arrangements are by Ken Darby and Roy Urseth is the organist. Monte Rosenwald is the announcer. It is an entirely new program and has never been heard before in this region.

Your Public Service Company Network is a "program" network and joins together 14 independently operated radio stations in the Texas Panhandle, New Mexico and Oklahoma each Sunday for the "Hymns of the World" broadcast.

Mr. and Mrs. H. M. Snowden left Monday morning for San Antonio to attend funeral services for Mrs. Snowden's nephew, the son of her sister, Mrs. L. A. Gilmore. Mrs. Gilmore has visited here several times.

*Who said so? And why are they the most wonderful tires ever built?*

For more than two years these great tires have dominated the automotive scene, written themselves into the design of the newer motor cars, fixed themselves in the enthusiasm of countless thousands of motorists.

What is all this? What's going on? Why should a couple of new tires create such a startling revolution? Why were they followed by a hush of attempted imitation—why were they never successfully equalled or duplicated?

Yet here they are—just a couple of nice looking tires. What's inside of them? What do they do that other tires won't do? Why should you prefer them, insist on them, buy them? Why do millions insist on them and buy them?

**The answers are very simple**

The answer starts with the simple fact that they are the exclusive and original U. S. Royal "Air Ride" tires. They take more air than ever before because there's more air room inside them—yet they ride you and cushion you on less air pressure. That's point number one.

Point number two is that they steer magnificently, easier than former tires, because their treads were especially designed for steering. Their treads are for sure and easy steering as well as safety.

Point number three is that by combining lower air pressure and faultless steering you get a tire that provides complete vehicle control around the turns, in parking maneuvers, on the straight-a-way at any speed—yet they are tires that also ABSORB THE ROAD. They cushion you and your vehicle from every shock and discomfort. They are tires that pave their own highways as they go along.

**The difference between them**

What's the difference between these two U. S. Royal tires? The difference is quantity. You get a bigger tire in the Royal Master, one with much deeper tread rubber; one whose traction and stopping tread may be renewed by regrooving time and time again. And the U. S. Royal Master costs more because it's a bigger tire with a proportionately greater capacity and span of life. Both tires are the finest net value in the world.

They are not luxury tires. They are not cut-price tires. They are pure value—the greatest value in tire history.

**The tires that revolutionized automotive riding and driving**

1. The tires that perform with more air and less air pressure
2. The tires that absorb the road they travel on
3. The tires that fully cushion every shock and road strain
4. The tires that radically influenced modern automotive engineering and design
5. The tires that have been copied and imitated but neither equalled or duplicated
6. The only tires of low air pressure with especially designed steering tread
7. The tires without any excess (lazy) rubber—run cooler and, therefore, wear much longer
8. The tires exactly designed to fit your present wheels
9. The tires chosen as original equipment on the finest of the new cars
10. The tires that make old cars feel like new
11. The tires that pay for themselves in pleasure, protection and long wear

These are the tires whose revolutionary qualities and sensational performance established today's highest standards of riding and driving comfort, safety and economy. Sold by U. S. Royal Dealers everywhere at fair and stable prices representing the highest tire value in the world. You may act with complete confidence on these facts today or any day.

### Belgian Exhibits Coming To Texas

Participation by the Belgian government in the 1949 State Fair of Texas has been assured by cable from Brussels, authorizing contract for 1,600 square feet of space in the General Exhibits Building, David A. McMinn, State Fair manager of sales and promotion, has announced.

Strong possibility of additional foreign exhibits from Britain, France and Holland indicate that the 1949 Fair will be the first truly international fair in Texas since the Pan-American in 1937, McMinn said. Representatives of all these governments have been in Dallas recently, conferring with McMinn and Ray L. Miller of the U. S. Department of Commerce, regarding the opportunities offered to foreign exhibitors in Texas.

The formal request for exhibit space for the Belgians came from Luc Van Bellinghen, representative of the Belgian Ministry of Economics Affairs, who visited Dallas late in April. He was accompanied by Charles Leonard, Consul General of Belgium, New Orleans.

The Belgian exhibit at the Fair will show baby carriages, handsome period desks, original handmade ceramic pieces, rich blankets, mirrors, objects d'art, world-famed Belgian laces, hand-carved shotguns, fine linens, rugs, draperies and upholstery materials — petit point, damasks and brocades — treated glass pieces, gloves, fine rabbit skins, picture frames and moldings, and other quality products by Belgian manufacturers.

### Dale Cravy Injured And Companion Dies From Car Collision

Cpl. Dale Cravy, son of Mr. and Mrs. Dick Cravy, was injured and his friend, Pfc. Ellis Bryan Hudgins, died, as a result of an automobile collision Saturday afternoon on U. S. Highway 81, eight miles east of Brownwood. The young men, who have been close friends since Dale entered the army in September and were stationed at the Waco Air Force Base, were en route to Post in Cravy's 1940 convertible on a three-day pass.

The automobile, driven by Hudgins, collided with a 1946 model sedan driven by George P. Matson of Brown County, with his wife as a passenger. The Matsons were not injured.

The Brownwood Bulletin quoted state highway patrolmen as saying the cars collided as the Matsons were turning off the highway onto the country road leading toward their home. The convertible skidded, then overturned when it struck deep ruts in the ditch.

Cravy and Hudgins were taken to the Brownwood Memorial Hospital, where Cravy was treated for a mild concussion and lacerations of the lip and nose. His mother, who has returned from Brownwood, said that he was to be flown Wednesday from the Brownwood hospital to the army hospital at Waco. As soon as he is able, he expects to get sick leave and come home for a few days.

Hudgins, who was unconscious when he reached Brownwood Hospital, died Monday morning. He was 20 years old and a resident of Grinstead, Va.

### Lubbock Boosters Advertising Rodeo

Nine decorated automobiles carrying boosters from the American Business Club of Lubbock for the Boys Club Rodeo to be held there June 8-11 inclusive visited Post yesterday afternoon. The boosters presented a program of music over a Southwestern Public Service Company public address system and distributed circulars, whistles and other rodeo advertising.

The neighbors of Mrs. Elgie Stewart, who has been in Glen Rose for several weeks, cleaned up her yard as a welcome gesture for her return home. They were Mrs. F. I. Bailey, Mrs. Dick Allen, Mrs. Tom Morgan and Mrs. Carl Claborn.

### Cotton State Senators Introduce To Overhaul 1938 Marketing Quota

Senator Clinton P. Anderson of New Mexico and 27 other cotton state senators have introduced legislation to overhaul the 1938 cotton marketing quota law, the United Press announced Saturday. The statement said: It would set up a new system of marketing allotments for states and provide for acreage allotments when the cotton supply exceeds normal by more than eight percent. Also, it would require the agriculture secretary to proclaim cotton marketing quotas by Oct. 15. Almost every cotton state senator signed the measure. Sponsors thought it would provide a "fair" distribution of acreage between the "Old South" cotton raising areas and newer cotton states in the west.

**One Republican**  
The 28 sponsors are all Democrats except Sen. William F. Knowland, R., Cal. As explained by Anderson in a statement, the bill would "eliminate objectionable features of the old act which contained obsolete provisions that would serve to make any kind of production control program unoperative and impractical." Also, the former agriculture secretary said, it would give credit in areas where war crops were planted instead of cotton. A referendum on marketing quotas would have to be held by Nov. 15 in any year. The bill also would set up a minimum nation-wide allotment of 10,000,000 bales or 1,000,000 bales less than domestic exports of the preceding year, whichever is smaller. Senators said this would "prevent unreasonable reduction of cotton acreage in any one year."

**'Moving Base' Planned**  
The measure also would provide a five-year "moving base" for acreage allotments, beginning in 1953. For 1950 and 1951, state quotas would be computed on a four-year base 1945-48 plus credit for 1949. The "national base allotment" would be set at 500,000 acres which could be raised or lowered if necessary. For 1952, the base would be 1946, 1947, 1948 and 1950. Also in the bill are provisions for farmers who overplant a provision that price would be based on 7/8 middle cotton on 10 markets established by the agriculture secretary with appropriate adjustments.

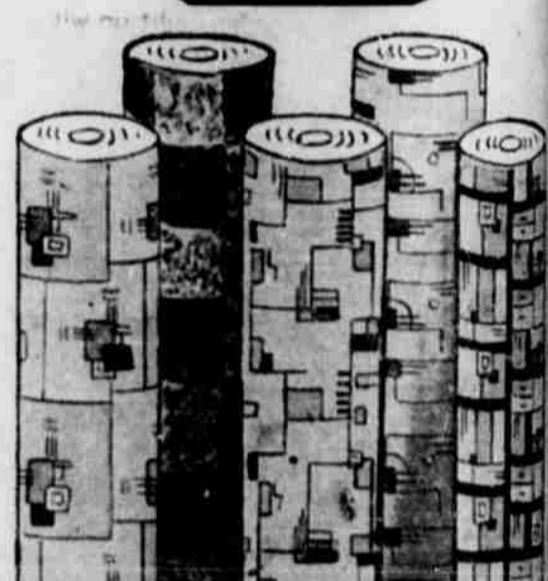

Besides Anderson and Knowland, sponsors include Tom Connally, D., Tex.; Chavez, D., N. M.; and senators from each of the following states: Oklahoma, Kansas and Louisiana.

### Car Demolished in Collision Friday

An automobile belonging to Mr. and Mrs. J. P. Gilbert was demolished Friday evening in a collision on Highway 100 near the cutoff from the Rails to Trails. Mrs. Gilbert, who was driving the car, was accompanied by two children. The three were taken to the Post Clinic Hospital ambulance but Mrs. Gilbert was dismissed after being treated for minor injuries. The Gilbert car was towed toward Post when it was broadsided by an automobile driven by Claude Drake. Drake was entering the highway at the cutoff. Deputy Sheriff non Lobban, who investigated the mishap, said that he failed to observe the car there.

Mrs. Bib Knight and one of Morton have been visiting with Mrs. Knight's brother-in-law, sister, Mr. and Mrs. Perry. Sons, this week.

## Rep. Chambers Sees Texas as Industrial Wilderness If Export of Gas Continues

Rep. W. R. Chambers of District 125 wrote for the Post Dispatch the following statement on the export of Texas natural gas which currently is an important legislative subject:

In the newspapers of Thursday, May 19th, there appeared a story stating that the Coastal Pipeline Company was going to file an application before the Federal Power Commission to build a 30-inch pipeline 1,000 miles long from Texas to Virginia. The same story mentioned the Piedmont Pipeline company that also is applying for a certificate to build a big-inch pipeline to North Carolina.

Texas may be sure that both of them will be built, as the Texas Railroad Commission never opposes these applications. A few weeks earlier I noticed that the Gulf Coast Northern Pipeline Company was going to build the biggest big-inch, a 34-inch line to Chicago. Last month the Federal Power Commission granted permits to the Texas Gas Transmission Company to build a 26-inch pipeline to the North-East, and another to the Trunkline Gas Company to build a line of the same size to Iowa.

**More Plans Made**  
 The Tennessee Gas Transmission Company is going to double its capacity and increase its take to more than a billion feet a day, and so is the Texas Eastern Gas Transmission Company and the El Paso Natural Gas Company.

The Transcontinental, not yet complete, is planning to increase its capacity by a couple of hundred million feet per day.

The total capacity of these new pipelines will come from wells and fields 'dedicated' to them by contract, and they 'dedicate' enough gas to last the pipeline for at least 20 years.

There is great significance to Texas in the dedication of our state's gas reserves. Recently, in the Supreme Court, in the oral argument of the Federal Power Commission Vs. Panhandle Eastern Pipeline Co., the question came up as to who would get gas, which in this case was Kansas gas, when there wasn't enough for both Kansas and the out-of-state users. The answer was that the gas 'dedicated' to the interstate pipeline, being in interstate commerce, would get preference. This caused Mr. Justice Jackson to observe that the gas producing state might be worse off than the state which gets its gas from a distant state whose reserves are dedicated to the interstate pipelines.

**Is It Sound?**  
 Many may ponder the soundness of the law and the wisdom of the authors of the Tenth Amendment. There is little doubt as to who will get the last gas from Texas. It will be the pipelines that we permitted to secure the dedication while we sat idly by.

Texas industries will be burning wood while people in Philadelphia and Detroit are trying eggs or warming their feet with Texas gas.

The problem is serious, but it can be solved. The Senate of the State of Texas has before it a resolution, HCR-18, that I introduced, directing the Texas Railroad Commission to appear before the Federal Power Commission and oppose the granting of these permits. If this resolution is passed, we can expect to see these permits denied instead of approved, and we can look forward to Texas future with less fear of dying cities and decaying industries.

If this Resolution is not adopted this session, we may expect Texas to become an industrial wilderness. For when we have to buy our gas from the coal produced gas of Pennsylvania, we won't be able to compete with industry in the coal-rich states of the North-East.

If enough people will write asking their Senators to support the House Concurrent Resolution No. 18, it will pass at this session, which will conclude its labors in a week or two.

## Verbena Bits

Please Send News Not Later Than MONDAY to HENRIETTA NICHOLS Verbena Correspondent

Capt. and Mrs. Paul Beach and children, Paul Allen and Diane, are expected to arrive here Friday from Great Falls, Mont., to visit Mrs. Beach's father, Al Bird, and other relatives. Captain Beach will leave two days later for Germany, where he is to be stationed for two and a half years. Mrs. Beach and the children will spend a month here, then go to Germany to make their home.

Richard Bird and family of Lubbock spent Saturday night in Ruidoso, N. M., visiting his mother, Mrs. R. C. Rodgers. Mr. and Mrs. Bird and two of their daughters left Sunday morning for a two weeks vacation sight-seeing in Arizona. Their third daughter, Carolyn, and son, Richie, remained with their grandmother in Ruidoso. Mrs. Rodgers plans to return to Post soon.

In a box which residents of the Verbena community sent to Germany early this year, Mrs. Tom Ashley placed some Sunday school literature on which she wrote "Pray for Peace," and her name and address. Recently she received an interesting letter from a German woman who thanked her and asked that some of the Verbena boys write to her two sons who are learning English in school. Some of the boys of this community plan to start a correspondence with the German boys.

Nelly Don Dilly

Just imagine! \$95

Here's the dress of the hour. Sing hey-nony and dilly-dilly. Straight from the bare shoulder vogue of this past winter's sun resorts. A smart gal wears the "dilly" for sunning (pushes the elasticized top down) and for mooning. A woman wears it when she gets dinner, looks pretty for husband and guests. You'll see it gardening, dancing, especially SQUARE DANCING! A Nelly Don idea that's caught on—crisp-as-starch dress in a variety of quality cottons... Everglaze crease-resistant cotton dot, silky broadcloth, print cotton, checks and plaids, dotted swiss and lawn! Sizes 10 to 20. It's really a dilly!

**Seventeen Rainbow Girls and Chaperons Spend Memorable Weekend in N. M.**

Miss Henrietta Nichols, the Post Dispatch's Verbena Community correspondent who accompanied the girls of the Rainbow Assembly on a trip to Ruidoso last weekend, wrote the following account of the trip which, she believes, will long be outstanding in the pleasant memories of the 17 girls who went:

Thursday morning J. C. Fumagalli drove a Verbena School bus loaded with Rainbow girls; his wife, the Rainbow Mother Adviser, drove her car loaded with suitcases and food, and Mrs. Claude Thomas drove her station wagon loaded with "bed-rolls" on a weekend trip to Ruidoso, N. M.

The group stopped in a park in Roswell, N. M., for a picnic lunch and had as guests, Bill Fumagalli and his roommate, Buddy Bach, of the New Mexico Military Institute. The party arrived at Ruidoso in time to get settled in three cabins belonging to Mrs. R. C. Rodgers and one belonging to the Fumagallis, which were rent free. Mrs. Rodgers, who is Mrs. Fumagalli's mother, and her grandson, Richie Bird, were in a neighboring cabin. After settling in camp, the girls spent the remainder of the afternoon climbing mountains. That night Mrs. Lester Nichols and daughter, Billie Louise, and I joined the party.

Adult members of the group, assisted by Mrs. Rodgers' colored helpers, prepared delicious meals in one of the cabins and served them on long tables beneath the pine trees.

On Friday, a picnic lunch was prepared and taken by the girls on a trip up the beautiful Black Canyon. Many stops for sight-seeing included a church—the building of which was started in 1884. The thrill of the outing came when the group arrived at the White Sands National Monument, near Alamogordo, to be

told to leave because a bomb would be dropped on the proving grounds there in 15 minutes.

The group stopped a while in the park at Alamogordo, then went up the canyon to Carrizozo. After playing in a mountain stream, the girls returned to camp hungry and ready to settle down for some serious Rainbow studying. During the weekend, several of the girls completed their memory work which entitles them to color bars and badges of merit.

On Saturday morning the group went on a sightseeing tour to Lincoln to see the old courthouse from which Billy the Kid escaped just before his death and to a fire lookout station on top of a high mountain. That afternoon some of the girls went horseback riding, others climbed mountains or played miniature golf.

Saturday night, the adult sponsors accompanied the girls to their choice of entertainment spots. Sunday morning the girls went into the Hondo Valley for their own outdoor Sunday School service. Afterward, they ate lunch, then went swimming in the Bottomless Lakes, near Roswell.

They arrived home Sunday night, full of thanks for their Mother Adviser and all the other people who made the trip possible. The girls have really worked to earn the Ruidoso trip and the one which they will soon make to the Grand Assembly in Houston, and now they are ready to make interesting plans for next year.

Girls making the trip were Mary Nell Bowen, Annie Mae Pierce, Lois Hattie, Judith King, Shirley Schmidt, Louise Ferguson, Billie Louise Nichols, Daisy Holly, Joan Thomas, Janie Shepherd, Anita Kennedy, Joyce Short, Agnes Dodson, Jill Welch, Sudie Morris and Bonnie Faye and Ethel Mae Williams.
