County Ginning Totals Reach 4,736 Bales With Fifty Percent Harvested

Season ginning totals for Garza county reached 4,736 bales this week according to a survey of the county gins. The survey also revealed this year's totals fall approximately 50 percent short of the number of bales ginned this time last year.

In the week of November 30, 1950, a total of 9,550 bales of cotton had been processed at the six county gins. That number was the highest number ginned since 1947 by that time of the year.

Gin operators throughout the county said that approximately 50 percent of the county's 1951 cotton crop has been harvested. Most of the work over the county is being done by machines now, they said.

Season totals broken down by gins read as follows (with last years totals being given in parentheses): Close City, 630 (1,775); Graham, 300 (2,275); Storie, 340 (794); Planters, 1,206 (1,564); Southland, 1,460 (2,240); and Pleasant Valley, 800 (912).

Appeal Is Made To County And City Residents On Christmas Project

Appealing to the people of Post and Garza county! Christmas time is just around the corner and everyone has long since been busy deciding on Christmas presents for those they love.

This editorial is an appeal for Christmas gifts. Probably not for anyone you know personally, but definitely to someone who has made great sacrifices so that you might enjoy another observance of the birth of Christ Jesus.

This appeal is for the American soldiers who lie wounded in hospitals because of wounds they have received in protecting our country from the evils of Communism. Protection which allows us to remain free, prosperous and safe. Protection which has cost these soldiers countless hours of anguish, heartache, loneliness and pain. Protection which we enjoy but never get around to showing our appreciation for.

Those of you who hear the Edgar Bergen and Charlie McCarthy show know about the proposition which this appeal puts forth. Through his program Bergen is sponsoring "Operations Santa Claus." He is asking people to send gifts for soldiers and he will see that they are distributed by planes to their destinations.

The idea is indeed an excellent one. But this appeal is to take it one step farther. Why not concentrate our efforts and make the gifts from the town and county? Naturally all gifts will be wrapped and signed by the individual who contributed it, but they will all be grouped and sent in one large package as appreciation of the people of this county.

Are you interested in such a project for Garza county and the city of Post? We do not want any one club or organization to sponsor the project, but we certainly want the entire town, including every club, organization, church, and individual, to get behind the project with us and let everyone know that Post and Garza county deeply appreciate the efforts and sacrifices of these American soldiers.

A suggested list of items which may be sent as gifts include handkerchiefs, talcum powder, shave lotion, shave cream, toothpaste, razor blades, razors, stationery, house shoes, socks, candy, non-perishable cakes and cookies, gum, pocket books, cigars, cigarettes, pipes and pipe tobacco.

Wrap your gift as attractively as you can and drop it by the Dispatch office. We do not intend to send cash gifts along with the package, but if anyone wishes to turn in any cash it will all be used to buy stationery, socks and cigarettes, which can be bought for servicemen tax-free, we believe.

Double Parking Thing Of The Past In Post

Double parking in Post is taboo as of now. With the re-instatement of center parking from the railroad tracks to the courthouse, which the City Commission recently approved, the enforcement of the ordinance prohibiting double parking will be strictly enforced.

City officials point out that spaces have been drawn off to provide center parking and they urge all vehicle owners to park in these spaces correctly. Only one line of cars can be parked in the center of the street, and the lines are drawn so that car owners, if they are parked correctly, will be able to get in and out of their cars without any trouble and still allow enough space for cars to pass in the thoroughfare.

A City Court has been set up to enforce traffic laws within the city and officers have been instructed to make arrests and issue tickets. Double-parked cars which the owners have left will be towed away and impounded until the towing charge is paid.

City officials point out here that this step is necessary to prevent the main street from becoming so congested that it will cause the Highway Department to route the highway around the town.

Tandem trucks and larger vehicles cannot be parked in the center spaces. They may park in the block nearest the courthouse, but must park parallel.

With the completion of the city court, officials explain that all ordinances will be enforced more strictly from now on.

County Jurors Report To Judge On Monday

Sixteen county jurors will report to County Judge H. M. Snowden Monday morning for December county court, according to an announcement from County Clerk Ray N. Smith.

These include: M. L. Dunlap, Dick Allen, Elton Mathis, Ralph Cockrell, William S. Land, Elmer Hitt, H. N. Clary, Dan Altman, Irvin Cross, Carl Flutt, Charles Propst, J. Lee Bowen, Bob Pool, Sol Davis, Robert Cato and Thelbert McBride.

FAST RESPONSE

Fast response was received on the appeal for Christmas gifts for wounded soldiers. Mrs. A. E. Floyd brought her gift by the office Wednesday morning.

Dispatch Editor Turns Down Jacksonville Job

The announcement in last week's Dispatch to the effect that Burnis Lawrence, editor of the Dispatch, had accepted a position in Jacksonville, should be ignored.

Lawrence and his family have decided to remain in Post therefore turning down the position of managing editor of the Jacksonville Daily Progress.

Burglars Try To Blow Safe At Local Office

Investigations are still underway in an effort to apprehend the safecrackers who were thwarted in their attempt to dynamite open a safe in the Higginbotham-Bartlett Lumber company office Saturday night.

Sheriff Carl Rains and Deputy L. E. Claborn, Jr., said late Wednesday that no new clues had been found.

A window was jimmied through which the would-be burglars entered the building. Officers said the safe was damaged but was not opened and that the thieves apparently were scared off by poison gas with which the safe was equipped.

Papers were scattered in the office, but company officials said nothing apparently was missing. The safe was four by five feet in size and contained only a small amount of money.

Erroneous reports early this week connected a burned car with the break-in, but Claborn said that the two could not have been connected. The break-in occurred Saturday night and the car burned Sunday night.

Post Christmas Lightings Almost Ready; Contest Set

Plans for another gala Christmas time in Post, including at least two big trees, decorated store fronts, lighted streets and courthouses, and a big decoration contest, are being formulated by the City and the Chamber of Commerce.

Entries for the lighting and decoration contest, the prizes of which will be announced later,

include, (1) most beautifully decorated exterior of home, (2) most beautifully decorated outdoor tree, (3) most beautifully decorated doorway, and (4) most beautifully decorated window.

All entries will be judged on the basis of originality and taste rather than cost. Therefore, it is not necessary to spend a great amount of money to become a

winner. Deadline for entering the contest, and amount of prizes will be announced next week in the Dispatch. First, second and third prizes will be given in each division.

As for Christmas lighting, Post is going to be as richly decorated as any town in the state. City officials and the Chamber of Commerce plan to put up two trees, approximately 16 or 20 feet high, along Main street and decorate them fully. Tentative plans call for one in the middle of the block where the Garza theater is located and one in the middle of the block where the bank is.

Strings of lights will be placed across Main street all the way up and down. The courthouse will be gaily decorated and merchants are urged to decorate their individual store fronts.

And at Christmas time a big parade has been planned for the adults and the kiddies. Starting promptly at 2:15 p. m. on Saturday, December 22, the parade will feature Santa Claus and his live reindeer. Present plans call for the Post High School band, Post Grade School band, the Reese Air Force Band, Boy Scouts, Brownies, Fire Boys and other local groups.

Everyone is urged to help with the Christmas theme in Post and make it one of the best decorated towns in the South Plains area.

Antelope Band Plans Big Concert December 14th

Post Antelope Band will present its first concert at 8 p. m. December 14 in the Grade School Auditorium, Band Director Vernon Lewis has announced.

Divided into two parts, the concert will feature both the Grade School Band and the High School Band. The Grade School Band is scheduled to present the first part with the High School Band presenting the last half.

The concert is to be a variation of musical numbers, and Director Lewis says all types will be presented. One of the selections is to be a choral of one of the greatest composers of music, J. S. Bach. The band will also play his widely known KOMM, SUSSER TOD, or as known by the majority of people, Come Sweet Death.

Included on the program also are a tone poem, as well as Concert Overture in G Minor. The read section of the band plans to play Mozart's Minuet in Eb (E flat) a portion taken from his Symphony in E Flat.

There will be a variation of marches and popular numbers. Also to be included is a unique selection made up of all the "little folk" selections young people play when they start on the piano, like Chopsticks.

One of the first main concerts to be staged by a school band here, the December 14 concert will provide a good evening of entertainment and the admission prices are low at 15 cents for children and 35 cents for adults.

Shallowater Takes Cage Opener, 34-33

A terrific last quarter surge by the Post Antelope cagers, who were playing their first game of the season, failed to make the grade Tuesday night as they fell to the Shallowater five 33-34.

The girls team was also edged out by Shallowater 40-35. Hitting the basket for not quite 10 percent of their shots the boys team, composed of starters Bobby Cowdrey, center; Jack Kirkpatrick and Darrell Stone, guards; Cordell Custer and L. W. Evans, forwards, lagged behind until the final minutes of the game. But in the final canto they surged to within one point of tying the game.

Shallowater led at the end of the first quarter 10-2; at halftime they maintained a 16-8 lead. The Post girls team led most of the game but fell off in the last half of the final stanza to be edged out. Juanelle McClellan copped high point honors by making 14 points, but teammate Deanie Hill followed close on her heels with 13 points.

In the boys game Jack Kirkpatrick led the losers with 13 points, followed by L. W. Evans with 11, and Darrell Stone with 6. Brock of Shallowater was high point man of the game with 14 points and Staton with 12 points.

Both the boys and girls A teams play host to Cooper teams in the gymnasium here tomorrow night at 7 p. m.

Post FFA Chapter Selects Officers

Election of officers and the selection of a chapter sweetheart highlighted the Monday meeting of the Post Future Farmers of America chapter.

Billy George Taylor was elected president of the group. Other officers included Bobby Cowdrey, vice president; Wayland Craig, second vice president; Cotton Womack, third vice president; Stanley Nixon, reporter; Roger Tucker, treasurer; Vandon Thomas, secretary; Simeon Maxey, sentinel; Harlan Pennington, parliamentarian; Gaylord Anderson, historian; and Edwin Schmidt, advisor.

Miss Mary Ann Rose, daughter of Mr. and Mrs. Frank Rose, was selected as sweetheart of the Post F. F. A. chapter.

Grand Opening At McCrary Appliance Store Attracts Total Of 1,276 Guests

Mrs. E. L. Duncan, route 2, walked away with the grand prize of an electric range at the Grand Opening of McCrary's Appliance last Saturday to become the envy of the 1,276 persons registered for the event.

De Ann Walker, daughter of Mr. and Mrs. Pat Walker, reached in the box containing the 1,276 cards and pulled out the winning card for Mrs. Duncan.

Winner of the Guessing contest was John Shedd. In guessing the cubic feet of water which would run through the new pressure pump in the store Saturday, Shedd only missed the total by a mere fraction. He guessed 23 cubic feet and 23.6 cubic feet ran through the pump. For his efforts Shedd won a set of dishes.

On the lucky keys, Paul Gooch won the red canister set; Mrs. Ralph Kirkpatrick, Sun Beam electric iron; W. O. Holly, \$25 credit on any Frigidaire appliance; C. M. Murphy, electric clock; Mable Lawrence, one year subscription to Post Dispatch.

Mrs. Elzie Williams, Post Dispatch; Mrs. Betty Mock, Post Dispatch; R. L. Hagler, Post Dispatch.

Mrs. F. B. Cearley, Post Dispatch; Mrs. Earl Brown, Post Dispatch; D. B. Nash, Proctor Novelty, combination steam and electric iron; Mrs. Cletus Graves, Post Dispatch; V. H. Kuykendall, Post Dispatch.

Mrs. Edward Neff, dish washer; J. E. Lynn, ham; Jack Whitaker, defroster; Mrs. E. L. Duncan, dish washer; Mrs. W. S. Duckworth, electric clock; T. H. Tipson, Post Dispatch; Mrs. Raymond Young, Post Dispatch; Mrs. Tom Henderson, Post Dispatch; and Mrs. H. D. Potts, electric toaster.

As the crowd strolled around the new store throughout the day they were greeted on every hand by either Homer McCrary, Mrs. McCrary, Mrs. Floyd Stanley, or the representatives of the various companies whose products McCrary's Appliance handles.

These representatives included L. A. Jobe, Frigidaire representative from Lubbock; Donald Armstrong, Ahilene Plumbing Supply; Gene Palvochek, Youngstown Kitchens, Fort Worth.

J. E. Jefferson, Southwestern Electric Supply of Lubbock; H. McKinley, Electrical Supply of Lubbock, and Howard Billings, GMAC, Lubbock.

The store was attractively decorated with clusters of varied colored balloons and the many beautiful flowers sent by merchants and businesses of Post and the area.

"The Grand Opening was a great success," McCrary said, "and we wish to thank all our patrons and friends who attended and also express our gratitude for the many flowers."

SELFISHNESS . . .

Upon close inspection the subject of Farm-to-Market roads points up a glaring question. Are Americans only interested in something that will benefit them personally, or do they think about helping others outside of their immediate area? When you stop to consider that since the end of World War II, Texans have paid for the building of nearly 21,500 miles of Farm-to-Market roads while it has taken them 35 years to build a primary highway system of 16,000 miles, it becomes apparent that selfishness may have been a deciding factor in the tremendous growth of the farm roads. Such a road by a farmer's land can be a great asset to the farmer, therefore he doesn't mind paying extra taxes to have it built. But don't think he won't jump the traces when an extra tax is requested to build a four-lane highway in some distant part of the state. Why he may never even get to see the road, much less receive any benefit from the "wild idea." But fortunately, the idea of the farm road is not as selfish as these thoughts make it appear. For aside from the area benefits produced by a Farm-to-Market road, the state as a whole also benefits by the all-weather traffic service into rural areas. These arteries not only benefit the rural areas of Texas but assist the movement of motor vehicle traffic that is vital to our economic welfare by tying into the main primary highways, giving the citizens of the state a connected paved road system.

Texans In WASHINGTON

By **TEX EASLEY**, Associated Press Washington Service

WASHINGTON, P — The Congressional Record has published a list of individuals registered as lobbyists during the third quarter of 1951. Among several score named are seven Texans.

The registration act requires that all persons who attempt to influence, directly or indirectly, the passage or defeat of legislation must file a statement with the clerk of the House of Representatives. They must show their business connections and salaries or fees received.

The constitutionality of the act has been challenged by the National Association of Manufacturers. A special three-judge federal court panel is expected soon to rule on the issue; their decision undoubtedly will be appealed to the Supreme Court, so it may be many months yet before the question is settled.

The Texans who filed statements with the House clerk for the July, August, and September period are:

David G. Gray, Humble Oil Co., Houston, received \$1,500 during the quarter; Harold L. Kennedy, formerly of Palestine, Ohio Oil Co., \$500 during the quarter; Fritz G. Lanham, former Fort Worth Congressman, \$1,000 from American Fair Trade Council, \$1,500 from the National Patent Council, \$2,500 from the State Tax Association (Houston), and \$900 from the Trinity Improvement Association (Fort Worth); Dale Miller, formerly of Dallas, received \$1,500 from the Dallas Chamber of Commerce, \$1,500 from the Louisiana and Texas Intracoastal Canal Association, and \$1,500 from Texas Gulf Sulphur; J. E. Sturrock, Austin, received \$2,275 from Texas Water Conservation Association; Claude C. Wild, Jr., formerly of Austin, received \$2,500 from Mid-Continent Oil

and Gas Association; Walter F. Woodul, former Texas lieutenant governor and a resident of Houston, \$6,133 for representing more than a score of southwestern railroads, and \$2,105 for representing the Imperial Sugar Co., Sugarland, Tex.

Many lobbyists devote only a part of their time watching a particular bill or subject matter under consideration in Washington. They may have other sources of income. In some instances they are allowed generous expense accounts to supplement their salaries.

Some who are registered as lobbyists are recognized authorities on subjects in which they are interested. In many cases they are men of such high regard that their views have considerable influence on congressional committees.

Among those on hand at the New York piers to welcome to America the one millionth person brought in by the International Refugee Organization was Mrs. Glenna Taylor Loughran.

There as the representative of Rep. Ken Regan of Midland, on whose secretarial staff she works, Mrs. Loughran delivered a special Texas welcome to the Czechoslovakian family of Alexander Ranezey. He and his wife and two daughters are to live in Midland.

Formerly of Pecos and El Paso, Mrs. Loughran participated in the welcoming ceremony alongside such notables as New York's Mayor Impellitteri. Mrs. Doughran's parents are Mr. and Mrs. W. E. Taylor of El Paso.

When the Ranezeys came through Washington en route to Texas they were shown about the capitol by Mrs. Marita Fanning, formerly of Dallas and El Paso, also a member of Regan's staff.

Now that pumpkin pie made from potatoes is a delicacy. Somewhat pithy to begin with, and with the assistance of the Navy cooks, they emerged from the oven with only a faint resemblance to a pumpkin pie—made from sweet potatoes (and this is yams to you Yankees) that is.

And the celery hearts. Well, as far as I am concerned celery hearts are celery hearts in the United States, Europe or the South Pacific. Only the ones we had were more so.

Always save the best for the last. So let me tell you about the beer we had instead of the wine (although not being a wine lover I did not mind). Now the consumers of the suds will belchingly insist that nothing goes so fine with a good meal than a nice, cold bottle of beer.

Maybe so. I did not get the opportunity to find out with my South Pacific Thanksgiving dinner. The beer was luke warm. Of course the British takes his Mild and Bitter that way and asks for more, but what beer I drink, I want it cold.

You people who never drink the beverage of the hops. Have you accidentally gotten soap suds in your mouth while bathing? Well you know what we had to wash our Thanksgiving dinner down with then.

So there you have it. A Thanksgiving dinner in the South Pacific—in the Navy. And as I said before beginning this narrative, I do hope the boys in Korea far better than we did.

Oh, yes, there was an item on the after-dinner-menu that I liked. Cigars. In fact I would almost admit this made up for the rest of the dinner.

All in all, however, the thought behind the dinner was and is an excellent one and is sincerely appreciated by every boy in the service.

Getting Out On the LIMB . . .

By **EDDIE** the editor

Thanksgiving 1951 has been! And many a middle aged man (naturally that's the ones who have stopped growing on both ends and started growing in the middle) are still reaching for the bi-carb. Burp! . . . see what I mean.

There is no way of telling, off-hand, how many turkeys stuck their necks out too far and got them chopped off this year, but more than likely a good many families could live a long time on the amount that was consumed.

Thanksgiving 1951 was indeed a wonderful time to give thanks for the many blessings we Americans have enjoyed during the past year. And it was (although this should not be limited to Thanksgiving alone) also a wonderful time to express our thanks for the many American and United Nations soldiers who have sacrificed and are sacrificing so much so that we may enjoy many more Thanksgivings.

And speaking of the soldiers and Thanksgiving, I see where the Army announced that front-line soldiers enjoyed a real Thanksgiving dinner, plus the turkey, this year.

Speaking from experience, it is definitely a morale booster to know that the high brass hasn't forgotten you exist around Thanksgiving time and that they make special efforts to see that you enjoy a feast which resembles the one you would have at home. So I imagine the boys in Korea enjoyed and deeply appreciated the dinner they had.

But I do hope for their sake that the 1951 dinner did not turn out as ours did in the South Pacific during the last skirmish. We, too, had a similar menu as that of the Korean soldiers, namely, turkey and dressing, pumpkin pie made from potatoes, cranberry sauce, celery hearts, sweet potatoes, and instead of wine, beer.

A tempting dish I'll assure you. But as is usual when there are so many mouths to feed there was a slip between the U. S. and the South Pacific.

Oh, we had turkey all right, but somewhere in the process of being frozen, thawed out, refrozen, re-thawed out, frozen again and thawed out again, the poor bird became disgusted with the whole idea and assumed a tougher and tougher outlook.

This freezing and thawing process is not an imaginary idea. When the bird started from the United States it was fine, but by the time it reached us it had been taken from the locker of one ship and changed to another so many times that rigor mortis had already set in.

We ate it though. And liked it. How did we cope with the problem, you ask? Why we took our towels to the table with us and took the situation (only this time it was turkey) in hand and broke and pulled it apart. The towel enabled us to get a better hold, and then clean the grease off our hands. Could we chew it? "If they tho,"—excuse my false teeth.

Now that pumpkin pie made from potatoes is a delicacy. Somewhat pithy to begin with, and with the assistance of the Navy cooks, they emerged from the oven with only a faint resemblance to a pumpkin pie—made from sweet potatoes (and this is yams to you Yankees) that is.

THE AMERICAN WAY

At Last The Truth

Our Contemporaries Are Saying:

Should Change Our Minds

We are not surprised to read that the Reds of North Korea and of China are slaughtering the United Nations prisoners of war. Most of these prisoners are American soldiers. It is no wonder that the true representatives of the Reds want to put off discussion of prisoners of war until after shooting has stopped. They want more time in which to re-group their fighting forces in order to again attack when they get good and ready. As we see it, what is the use of discussing peace with a bunch of liars whom no one can believe? Why have we not turned the war dogs loose on the Reds, including the use of the atomic bomb, and ended this terrible waste of men and material long ago? If Truman and the war heads think for a minute that a war in 1952 will re-elect the President, they are wrong. The whole bunch should be kicked out of Washington if that is their concept of good Americanism.

Program Is Planned

Hamlin, in keeping with the spirit of other West Texas growing cities, this year will have its own gaily lighted tree, a street parade, band music, carol singing—and all of it provided by every organization in the community. At a meeting Tuesday of the Hamlin Chamber of Commerce, presided over by President Carl Murrell, it was decided that the organization would buy, erect and furnish the lighting for a huge Christmas tree on the Santa Fe lot, just about opposite the Haroon Hotel, or south of the Phelps Ice Company. Hamlin High School Band will furnish the music, and Walter Chaircraft, director of music in the Hamlin Schools, will direct the singing of carols. A program in which practically every organization of Hamlin will join will open at 3:00 o'clock Monday afternoon, December 3, following the parade and assembling of the community and spectators at the Christmas tree. It will be greater Hamlin's official opening of the Christmas season in this and surrounding communities.

A Timely Thought

Two of this season's most popular pastimes are: Gripping about the uncertainty of the Thanksgiving Day date, which this year falls the fourth Thursday in November on most calendars; and complaining about the commercialization of Christmas reflected in early November Yule decorations and frothy "Shop Early" advertisements. But no one is complaining, as far as we have heard, because anti-T.B. Christmas Seals are being received in pre-Thanksgiving mail. Old Santa, on the 1951 seal, slants a knowing pair of eyes at senders and receivers of the tiny bits of muellaged good cheer . . . as if to say: "Well, folks, here's one modern Christmas custom you can't complain about, for these little seals have saved the lives and restored the health of thousands of citizens of all ages. Good health is priceless . . . you can help prevent T. B. inflation by purchasing Christmas seals."

It Sez Here

Nothing so delights a man as elaborating on the bad driving habits of women, even though official statistics prove otherwise. A man in North Dakota has planned a new home, and decided to include a two-car garage. In order to assure the safe ingress and egress of his wife's car, he had painted over the door of one garage in large letters, "His" and over the door of the other—two feet wider—in the word "Hers."

Soil Conservation Program In 1952 To Be Based On Individual Farms

"When you get right down to it, soil and water conservation has to do mostly with individual farms and individual owners," says Claude E. Spence, chairman of the Garza county PMA committee. "That's why, under the 1952 Agricultural Conservation Program, we start with the conservation problems on the individual farm."

"In this farm by farm approach we will seek to determine not only which conservation practices are needed on each farm but which practices are needed most to help that farm produce

what is needed to meet defense requirements and at the same time check soil deterioration and build the productivity of the land for future increased production." Spence says that the 1952 ACP assistance will be conditioned on each cooperating farm operator carrying out practices which will contribute most to conservation of the soil and water resources to make possible the production of commodities needed in the defense effort. Each cooperating farmer will base his year-by-year conservation efforts on an overall conservation plan developed for his farm with the assistance of State or Federal agency representatives.

Financial assistance under the Agricultural Conservation Program will be limited to practices designated by the farmer which the committee considers essential to increased and sustained production, the chairman explains. Where individual farmers cannot be contacted by local PMA Committeemen letters will be sent to each farmer. On this letter or a "sign-up" form the farmer will designate the practice he intends to carry out in 1952.

Hunters Asked To Aid Game And Fish Office

Quail hunters are reminded by W. C. Glazner of the Texas Game and Fish commission that quail wings are again wanted this season to complete the study started last year on age and sex ratio and other important information concerning bobwhite quail.

Glazner said, "If any of your friends are in a position to participate, just let us know. We will be glad to mail you a supply of return envelopes on which you need not pay postage."

"It is our opinion that 300 to 500 wings will be required to serve as a dependable sample from a given county. Therefore, we will greatly appreciate any efforts you might make to fill such a need."

To hunters who sent in quail wings last year will be sent an analysis report if they request it.

"Fair and Square"

We've just had a political campaign with everything from a torchlight parade to a neck-and-neck ballot box race.

Rusty Robinson, with no campaign funds, planned his Election Eve speech for the Square. Slim McCormick, who owns the Palace movie house, was finishing up his campaign in Pioneer Hall.

Then it began to rain. Rusty's political career was fizzling out in the damp when Slim showed up to say that Robinson people could meet in his theatre—for nothing. "I want to beat Rusty," Slim said,

"but certainly not with rain!"

From where I sit, you've got to give Slim credit for acting on his belief that everyone has a right to be heard—just as everyone has a right to his own opinions and tastes. Maybe you like hot coffee, for instance, when you "take a break." Well, my vote goes for a refreshing glass of beer. After all, we're lucky to be living in a free country where we can have our own preferences!

Mailing Tips On Christmas Packages Passed On To Public By Post Office

That Christmas package you mailed last year. Did it arrive on time or was it two weeks late? Late.
 Boy were you hopping mad! At whom? Why the postal department of course.
 But look at it another way. Perhaps you were to blame for the late arrival of the package, card or Christmas letter.

Me? you ask. Why I did my part. I mailed it and the post office should be able to do the rest.

Postal officials willingly shoulder the blame for some of the late arrivals, but they also admit that many times the sender is at fault.

So Christmas time is here again and Postmaster Harold Voss has appealed for the cooperation of the public in seeing that Christmas letters, cards and packages arrive at their destination in time to convey the correct Yuletide spirit.

Therefore, in an effort to help the public help him, he has dropped a few "mailing hints" that could prove helpful to both senders and the department—to say nothing of those who are to receive the goodies.

Now in planning your deluge of packages, cards and letters why not save time by purchasing an adequate supply of stamps in advance of the rush period. Eliminates standing in line you know.

And addresses. As silly as it may sound to some of you, this one aspect of mailing causes more trouble and extra work than any other. Many people never get an address right.

Take a hint. All mail matter must be plainly and completely addressed, preferably in ink, giving street address, including apartment number, if any, or Post-office box or rural route and rural box number whenever possible.

Simple No? Mail intended for delivery in the larger cities should be addressed to include the delivery zone number when applicable. It is important that the sender's return card appear in the upper left corner of the address side.

Address tags should not be used unless absolutely necessary, in which case a slip containing the name and address of the sender and the name and address of the addressee should be placed inside the parcel for purpose of identification, if necessary. If necessary here means in case the tag or label on which you have the address comes off, or if you could not find a pen and said, "Oh, well what difference does it make?" and used a pencil.

Address labels and tags should be free of any extraneous written or printed matter.

Now for the greeting cards. Most people say to themselves, "Why pay three cents to send the card when it will go for two?" A fallacy of thought no doubt brought on by our Scottish in-

stinct. However, if you will investigate further, you will note that the one extra penny affords many advantages not included in the two cent rate.
 Such greetings prepaid at the

first-class rate may be sealed and contain written messages; they are dispatched and delivered first; forwarded, if necessary, without additional postage, and, if undeliverable, returned at no further expense to the mailer provided the sender's return address is shown on the envelope.

On the other hand, however, unsealed Christmas greetings sent as third-class mail without unauthorized writing enclosed are chargeable with two cents postage (if weight does not exceed two ounces). However, a minimum charge of 3 cents is applicable to such greeting cards which measure less than four inches long or two and three-fourth inches wide. These cannot be forwarded or returned without extra cost.

To those persons who have a great number of friends or just send out a lot of cards anyway, the postmaster has a hint that will facilitate better and faster handling.

Tie them in bundles with addresses all faced one way before mailing so as to help the clerks to get through faster—thereby enabling them to start on other bundles.

Greeting cards bearing particles of glass, metal, mica, tinsel and other similar substances for decorative purposes which are likely to rub off and injure postal employees or damaging canceling machines must be enclosed in tightly sealed envelopes with postage prepaid at the first class rate in order that such cards may be accepted for mailing.

And on the subject of packaging and wrapping. Pack articles carefully and tightly in strong durable containers. Wrap and tie packages securely with good quality paper and cord, but do not seal them unless name and address of sender are shown together with the printed inscription reading, "Contents, Merchandise—Postmaster: This parcel may be opened for postal inspection, if necessary," as sealed parcels not so labeled or endorsed are subject to the letter rate of postage.

Simple rules and simple procedures which benefit you, the postal department and the receiver. And after you have followed these rules, the post office has one more suggestion:

MAIL EARLY AND INSURE ON TIME ARRIVAL.

Australian Youth Are Among World's Best

SYDNEY, AP — Out of almost 11,000 Australian youths called up for national service in July and August, 80 percent have been found fit, according to Labor and National Service Minister Harold E. Holt.

An additional 13 per cent were classified as either temporarily unfit or good for restricted duty. Only 137 failed to report for service and most of these had satisfactory explanations.

Chinese "Bandits" Are Suppressed By Reds

HONG KONG, AP—Communist authorities in South China are boasting that 261,636 bandits or guerrillas were killed or captured during the first six months of 1951.

The South China military command's report on Red China's "bandit suppression campaign" said most of the dissidents were "inactivated" in Kwangsi province, which borders northeast Indochina.

The report listed the capture of thousands of weapons and even such things as "20 telephone switchboards, 449 telephones, four radiophones and 29 telescopes." It didn't say what the guerrillas would be doing with telephone switchboards in a land noted for the scarcity of such items.

Ladies' Trio To Sing At Series Church Dedication Services

The ladies' trio pictured above, composed of Mrs. L. L. Keeton, Miss LaVelle McMahon and Mrs. Holman, will sing at the service in the new Church of the Nazarene auditorium, at 10 o'clock, Sunday evening, Dr. Smee, from the General quarters of the Church of the Nazarene, Kansas City, Mo., will be the speaker for the initial service.

The ladies' trio will also sing at each of the other dedication services on Dec. 9. Included in the service is a Sunday School rally at 10 o'clock in the morning, in place of the first Sunday assembly in the new building; and the main dedication service at 3 o'clock in the afternoon.

The service was planned in the afternoon so that Post representatives from the various churches could attend without conflicting with their respective services. Beginning the evening of Dec. 8 and continuing through Dec. 10, Dr. Fred Thomas, of Bart, Ind., will speak at a series of dedication services. A cordial invitation is extended to the citizens of this area to attend these services," the pastor, the Rev. J. C. Holman said.

Scripture

What shall we say then? Shall we continue in sin, that grace may abound? God forbid. How shall we, that are dead to sin, live any longer therein? Know ye not, that so many of us as were baptized into Jesus Christ were baptized into his death? Therefore we are buried with him by baptism into death: that like as Christ was raised up from the dead by the glory of the Father, even so we also should walk in newness of life. For if we have been planted together in the likeness of his death, we shall be also in the likeness of his resurrection: Knowing this, that our old man is crucified with him, that the body of sin might be destroyed, that henceforth we should not serve sin. For he that is dead is freed from sin. Now if we be dead with Christ, we believe that we shall also live with him: Knowing that Christ being raised from the dead dieth no more; death hath no more dominion over him. For in that he died, he died unto sin once; but in that he liveth, he liveth unto God. Likewise reckon ye also yourselves to be dead indeed unto sin, but alive unto God through Jesus Christ our Lord. Romans 6: 1-11

A prayer for peace was recently sent out by church and interfaith groups to educational, political and business leaders and was broadcast by a nationally-known radio team. Hundreds of thousands are now using this daily prayer: From the point of light within the Mind of God let light stream forth into the minds of men. Let light descend on earth. From the point of love within the Heart of God let love stream forth into the hearts of men. May Christ return to earth. From the center where the Will of God is known let purpose guide the little wills of men, the purpose which the Master knows and serves. From the center which we call the race of men let the plan of love and light work out. And may it seal the door where evil dwells. Let light and love and power restore the plan on earth.

Diabetes Usually Attacks White Collar Workers

Diabetes, a disease for which modern medicine can do much, took a toll of 887 lives in Texas during the past year, according to Dr. Geo. W. Cox, State Health Officer.

"Diabetes is generally recognized as a class disease. It seems to attack the white collar class of indoor men and women much more frequently than it does the outdoor person whose work is more vigorous and calls for more exercise. Whatever the actual cause of the disease may be, vocational and economic conditions are factors, since it seems that a fact that those who do not indulge in luxurious living and whose occupation calls for manual labor are not frequently affected. Simple living, wholesome diets, sufficient exercise and sleep are factors in the prevention of diabetes. An annual physical examination, with a blood or urine analysis, is important to determine whether or not the disease is present in the middle age group."

Letters To Santa...

Mail! Mail! Mail!
Old St. Nick is certainly a popular man along about this time of the year. Garza county children continue to write him letters which he forwards on to us. And we are glad to print them so that he might be the most popular man in these here parts.

Dear Santa:
I want a set of soldiers and a good set of guns, and some view master films and some candy and nuts and fruit. I wish you a Merry Christmas.
Love, Bobby Hudman

Dear Santa:
I am a little girl, nearly two years old. I have been pretty good this year, so please bring me a big doll, a tricycle and some dishes. Remember all the other little boys and girls.
Love, Zelika Freeman

Dear Santa:
Please bring me a bicycle so I can practice riding it to school. And please don't forget my friends and all the little boys and girls.
Love, Sheila Ann Lawrence

Dear Santa Claus:
Please bring me two guns, a double holster set and an electric train. I am five years old and I have been a real good boy. Don't forget my little friends, Hal, Mary Paul and Little Bill.
Ronald Harold Storie

Dear Santa Claus:
Please bring me a doll and a ton of candy and fruit.
Love, Lois Hodges

Dear Santa Claus:
I am a little girl six years old. I have been very good. I would like to have a doll on roller skates. And other toys and candy and fruit. Please remember my sister Lois.
Love, Carol Hodges

Dear Santa:
Please bring me a doll and two guns. I would like a cowboy suit and anything else you care to bring me.

Reporting Of Accidents Practically Unchanged Under New Texas Motor Law

Public confusion over the method of reporting traffic accidents under the state's new Motor Vehicle Safety Responsibility Law was cleared up this week by Public Safety Director Homer Garrison, Jr., who showed that any change in the present system is so slight that it should cause no difficulty among motorists.

The present confusion was brought about by the discrepancy in time for filing regular accident reports, which must be sent to the Texas Department of Public Safety within 24 hours, and the time for filing additional information under the Safety Responsibility Law, which may be sent to the Department with as much as 10 days. This gave rise to belief among motor vehicle owners and operators that they would be required to file two lengthy reports, which is not true.

Here are the rules for reporting traffic accidents beginning January 1, when the Safety Responsibility Law becomes effective, as explained by Director Garrison for the guidance of all motorists:

Under the state's Uniform Traffic Law, the operator of every motor vehicle that is involved in an accident resulting in death or injury to a person, or total property damage to an apparent extent of \$25 or more, must file a complete written report with the Texas Department of Public Sa-

fety within 24 hours, exactly as they do now. Official forms for this purpose may be obtained from any sheriff's office, local police station, highway patrolman or the Texas Department of Public Safety, as at present. In other words, there is no change whatever in the present rules for reporting accidents of the type just described.

When you obtain a regular accident report, beginning January 1, there will also be furnished along with it an Insurance Information form, labeled Form 21, which must be filled out completely and accurately should the accident in which you were involved result in death or injury to a person, or property damage to any one person, including yourself, in excess of \$100 since this will bring the accident under the provisions of the new Safety Responsibility Law. If the accident did not involve death or injury to a person, or property damage to any one person, including yourself, in excess of \$100, you may disregard this Insurance Information section. If you are required to file it, however, be sure that you still get the regular accident report section off to the Texas Department of Public Safety within 24 hours, despite the fact that you may take up to 10 days to send in the insurance section.

The simplest procedure, Director Garrison pointed out, will be simultaneous filing of all required information, but this will require a motorist to be prepared to answer the insurance and security questions promptly and file the combined report within 24 hours. Any motorist can do this, however, if he follows these suggestions of the Director:

1. Carefully read the state's leaflet about the law and keep it handy in your car.
2. Get a report form, study the questions, and keep it in your car; you may need it in a hurry.
3. If you are insured, keep the name of your insurance company, number of your policy and amount and kind of insurance it provides, in your car for immediate reference.
4. If you are not insured, make up your mind in advance how you will meet the new law's security requirements by other means, as explained in the state's leaflet, if you are involved in a traffic accident.

"It cannot be repeated too often," Director Garrison said, "that the driver of every car involved in an accident must file all required information with the Department of Public Safety within

the brief periods stated. Any question of who was at fault must not even be considered—the law says every driver, regardless of fault. The penalty for failure to report is a fine of \$25 and suspension of your operating license until the report is filed. If an operator is physically unable to report, and was driving another person's motor vehicle at the time of the accident, the owner of the vehicle must file the report."

County Residents Buy Defense Bonds

Garza county residents bought bonds totaling \$4481.25 during the first U. S. Defense Bond drive, Nathan Adams of Dallas, state chairman, informed T. R. Greenfield, local county chairman. The drive was held from Sept. 3 through Nov. 13.

Final figures showed that Series E bonds accounted for all sales.

Sales of \$27,778,453.25 in Texas during the drive were almost 50 per cent more than normal, Adams said.

"Normal sales for this period would have been about \$18,000,000 or \$19,000,000," he said, "and the fact that sales were so much higher is definite proof that the people of Texas are responding, as they always do, to the country's need in national emergencies."

The sales total for the state included \$22,459,665.25 in Series E bonds and \$5,318,788 in Series F and G. There were no state or county quotas, the goal being the "largest possible" volume of sales.

Adams expressed appreciation to the thousands of citizens who served as volunteers in the drive, but urged that they continue their efforts.

"The need for buying Defense Bonds still exists," he said. "With our country engaged in a gigantic preparedness program, these bonds form an important economic link in our defense."

Mr. and Mrs. Charles Benson spent Thursday and Friday in Healdton, Okla., with her brother, Bud Byrd, and his wife. Other Thanksgiving Day dinner guests in the Byrd ranch home were former Postites, Mr. and Mrs. Bob Roberts and little son, Bob, Jr. Mrs. Roberts returned with the Bensons and is now in Rotan with her father, L. H. Helm, who is critically ill in the Rotan hospital.

Guests of the Rev. and Mrs. Almon Martin during the Thanksgiving holidays were Mrs. Martin's twin sister, Miss May Morris, who is physical education instructor in the Carlsbad, N. M., Junior High school; and her parents, Mr. and Mrs. A. E. Morris of Louisville, Texas. The Martins and their guests spent Thursday in Tulla as dinner guests of the W. C. Crawford family.

Mrs. Leonard Barrow and Mr. and Mrs. Monroe Lane had as their guests at the Barrow and Lane ranches during the Thanksgiving holidays, the H. B. Taylor family of Pampa and the Earl Perser family of Snyder.

Word has been received of the November 5th marriage of O. B. Crowley, of Eastland, and a childhood friend, a former Miss Carey, in Eastland.

Mr. and Mrs. Ed Warren, Mrs. W. B. Stanfield in Sunday. Mrs. F. L. Bailey had been a guest in the Stanfield home since last Wednesday turned home with them.

Mr. and Mrs. R. V. Barrow, daughter, of Iran, escape injuries when their car was involved in a pickup near Donnell, en route to their after visiting relatives here.

IT'S A FIREBALL ENGINE

It gives you a lot to be thankful for

Let's suppose that this is you. The car you're riding in, as you can see, is a Buick.

But what you can't see is the satisfaction which being behind that wheel brings to every day in the year.

Take the feel of it — the way it goes into action when you nudge the gas treader. Quick. Eager. Willing. No effort at all. You just swoop up to the miles per hour you want.

That's because there's a high-powered, high-compression, valve-in-head Fireball Engine under the hood that makes every drop of gas do extra duty. And it's because there's a Dynaflo Drive,* feeding that power back to the rear wheels as smoothly as cream flows from a pitcher.

Take the way it sits the road. Balanced. Poised. Sure-footed. Saug.

That's because of a long list of things that Buick engineers have done to its ride—including a torque-tube keel that keeps rear wheels tracking true—and soft coil springs that individually cushion each wheel.

Take the way it steers. Easy. Light. Firm. On a straightaway—or coming out of a curve—it seems to know what you want it to do.

That's because of something the engineers call "front-end geometry"—and because 60 steel balls roll in their own little race track to ease each turn of the wheel.

Take its room, its comfort, its smart good looks—and its price.

Any way you size it up, here's a car to make you thankful for your good judgment in picking it, against the field.

All that is needed to complete this picture is you at the wheel of a flesh-and-blood Buick—out on the road for a sample of what we've been talking about.

That's easy to arrange. Just give us a call and we'll do the rest.

Harlingen Flower Battle Still On

HARLINGEN, P — Harlingen has a battle of the flowers, but it's not like San Antonio's Fiesta de San Jacinto, brother.

It's a question of who should plant what around the new library.

Everybody had a different idea—the Harlingen Garden Club, the Stuart Place Garden club, the Flower Lovers' club, the Thursday Afternoon Bridge club, City Manager Larry Crow and City Parks director Don Parsons.

Take the patio, for instance. The architect's plans called for "low plantings." So the city planted grass.

Mrs. Gerald McKenna, librarian, thought "low plantings" meant plants, not grass, so she coaxed the city to remove the grass and prepare a flower bed which garden club members planted.

The clubs then decided to allot each other areas outside the building to plant to their own tastes, at the request of Mayor Gene McCullough, according to a members of the Thursday Afternoon Bridge club.

More trouble brewed. One club member said: "The city park director called me and said he didn't like what we planted. It looked terrible, he said. He especially didn't like the periwinkles."

"So we planted it over and if he doesn't like it, he can lump it. We're through. Nobody even said 'thank you.'"

law and sister, Mr. and Mrs. J. M. Phillips, of Lawton, Okla., his nephew and wife, Mr. and Mrs. A. A. Phillips, of Snyder. The group spent Thursday in Snyder celebrating the two Mrs. Phillips'

ROTAN, P — Lot of folks wonder about old Pete.

He stands on a hill by the side of the road and watches the cars go by.

Day after day — that's all he does. Won't move ten feet, one way or the other.

Just stands there, head down, looking and thinking. Swishing that thin tail. Twitching his big ears.

About 200 yards west of the Coulter Senn's new farm home. Up in the pasture with the cows. Children ask if he can talk.

No, he can't. And he's never been to war. Although he's lived through two, and into a third.

Pete's pretty old for a mule. He was born in 1918, just in time to get in on the last of World War I. He's coming 34, and if he was a man instead of a mule, he'd be a civil war veteran. The way a mule's age is gauged, in relation to a man's age.

But don't misjudge him. He's still mean as thunder, and wild as a March hare, Coulter says.

Old Pete hasn't felt a collar in two years — has been in harness but few times in the past ten years. He was put on pension in 1946, and hasn't hit a lick of work since.

He's been in the Senn family since he was a coming two years old. Was born in the pasture just across the road. Belonged to Elvis Howell.

Elvis sold him to Alvin Senn, bachelor brother of Coulter and Claude Senn of Rotan, in 1920. Alvin died in 1946. Old Pete was part of the Senn estate to be settled. The only way to "settle" old Pete was to sell him.

"I told them my part of old Pete was not for sale," Claude said.

He was already in the pasture of Coulter's present farm, west of Rotan. There he has remained.

When he dies, he'll be buried in that pasture.

Old Pete will never go to a Soap factory, Claud declares.

He's had only two harness mates in his lifetime. He first worked to the plow with a lively mule named Radio. Worked with him ten years.

Old Pete's next harness mate was old Fannie, the mare. She died in 1947, after being on pension with old Pete for a year. She's buried in the pasture.

Alvin traded old Pete off once, back in 1931. Alvin was the second man in Fisher county to buy a John Deere tractor. Traded his livestock in on it. Kept one team — old Fannie, and one mule.

He brooded about old Pete for a week. Was afraid he might be mistreated. Went to town, and there was old Pete, still in the pen, back of the store. He traded the mule he had kept in on old Pete, and paid a \$50 bonus. Took him home and turned him out to pasture.

Old Pete hasn't done an honest day's work since the Senns purchased the skip-row tractor attachment.

He's not without bad habits. He opens the pasture gate near the barn, and walks down the road a ways. Used to do that to visit a neighbor's horse across the fence. The horse was sold, and old Pete stays home pretty good now.

"I think he just opened that gate to show me he could," Coulter says.

He's no trouble now. Eats and drinks with the cows. Sleeps wherever it's handy.

A mule is stubborn. Sot in his ways.

Old Pete will go on looking and thinking to the end of his days.

Never know what he's thinking about. He's not a "talking mule."

Russian Guns Said In Use In China Town

HONG KONG, P — The Bocca Tigris forts, at the mouth of the Pearl River approaches to Canton, are reportedly strengthened with Russian - made long range coastal guns.

The independent, but pro-nationalist newspaper, Kung Sheung, said the forts had been placed under the command of Gen. Lin Ping, former commander of the Kwangtung - Hunan-Kwangsi defense force.

Last year unconfirmed reports were that Lin was in command of a new Sixth Field Army based in the South China area.

Pecan Output Hits Squirrels' Larder

PARIS, P — Pecan growers are even feeling sorry for the squirrels.

Pecan outlook for this area is near disappointing from the standpoint of yield and prices received for the few being harvested.

Ed Lindsey, operator of the Texas Pecan Company, Paris, said that harvesting of pecans is later than usual. The frost of last week started pecans falling, and some have been harvested.

Lindsey said the lateness of the harvest was probably due to people trying to finish gathering cotton first. Pecan prices in the Red River area range from 11 to 14 cents per pound.

The Department of Agriculture has estimated national pecan production to be about 15 per cent above last. Texas pecan crop last year was 39 million pounds. The estimate by the department was placed at 12 million pounds this year.

Oklahoma crop last year was 7 million pounds, against an estimated yield this year to be 29,280,000 pounds.

* Fruit Cake Flavors all filling the air. In Post's food stores, you'll find all the fixins. For a timely tip—don't store your fruitcakes in your home freezers if you plan to use them during the holidays ahead.

For a pretty glaze over cakes, bring corn syrup to a full boil and spread or brush over the surface of the cakes. Then decorate with desired fruits and nuts. When fruitcake recipes call for prunes, use cooked ones and chop them into small-sized pieces. Other dried fruits do not need to be cooked.

For a Time Saver Fruitcake try this recipe. It "ripens" in only 48 hours.

Last Minute Fruit Cake

Ingredients: 1 1/2 cups seedless raisins, 1 cup prunes, 1 cup sliced pitted dates, 1/2 cup quartered candied cherries, 1 cup diced citron, 1/2 cup butter or margarine, 1/2 cup confectioners' sugar, 1/2 cup light corn syrup, 1/2 cup orange marmalade, 1 teaspoon cinnamon, 1/4 teaspoon cloves, 1/2 teaspoon salt, 1 cup chopped walnuts, 5 cups finely rolled graham cracker crumbs.

Method: Rinse and drain raisins and prunes. Pour boiling water over prunes, let stand five minutes, drain, cool and slice from pits. Combine all fruits and citron. Cream butter and sugar together. Blend in syrup, marmalade, spices and salt. Mix lightly with fruits, and let stand two hours or longer. Blend in nuts and crumbs. Pack into loaf pan (8 1/2x4 1/2x2 1/2 inches) which has been lined with waxed paper. Chill forty-eight hours or longer before cutting. Makes a 4-pound cake.

Five Post Antelope Gridsters Listed On 6AA All-District Team

Four Linemen And One Backfield Man Selected For Team

Announcement of the All-District teams from the 6-AA district revealed that the Post Antelopes had five men on the list of 22 players from the five schools.

They included Billy Taylor, guard; Buddy Davis and Cletus Graves, tackles; L. W. Evans, center; and Jack Kirkpatrick, quarterback.

All district players were selected by the coaches of the Spur, Slaton, Tahoka and Ralls teams in a recent meeting. All names voted on the players list were submitted.

The coaches decided to vote on the players and eliminate having honorable mention list. This list of 24 men will not be divided into first or second teams, but will be called the All-District team.

District champions Tahoka had six men on the team as Ralls; both Post and Spur had five men; and Slaton placed two men.

The entire list contains the names of these players: ENDS: James, Ralls; Dean King, Bill Short, Tahoka; and L. Evans, Post; TACKLES: Cleaves, Post; Buddy Davis, Bill Cooper, Ralls; and Earl Nett, Tahoka; GUARDS: Billy Post; Tommy Scroggins, Larry Smith, Spur; and Curry, Tahoka; CENTERS: Alsup, Ralls; Toby Williams, Spur; and Wayne Tekell, Tahoka; BACKS: Jack Kirkpatrick, Charles Grimland, Jerry Reynolds, Slaton; Sooter, Slaton; Alvin Roj, Ralls; Don Bennett, Ralls; Simmons, Spur; Lynn Hala, Tahoka; and James Foster, Tahoka.

The list of all district players held up for several days because of the Tahoka - Anson basketball game.

Post Cagers To Play Cooper Teams

Post High School Antelope cagers meet their second foe of the young 1951-52 season here tomorrow night, when the Cooper team invades the local gymnasium.

Both the boys and girls teams will attempt to conquer the Cooper groups before local fans tomorrow night. The boys team played their first game of the season at Shallowater Tuesday night. Results of the game can be found in a story on the front page of the Dispatch.

Against the Cooper five, Coach Vernon Ray will probably start Bobby Cowdrey at center; Jack Kirkpatrick and Darrell Stone at guard positions; and Cordell Custer and L. W. Evans at forward positions.

Girls who will clash with the Cooper cage team includes Joy Martin, Pearl Craig and Juanella McClellan, forwards, and Deanie Hill, Mary Joe Williams and Jackie Sue Dale, guards.

Starting time for the games has been scheduled for 7 p. m. and the admission prices are 50 cents for adults and 25 cents for students.

Tahoka Bulldogs Lose To Anson

The Tahoka Bulldogs, champions of District 6-AA by virtue of four conference wins and no defeats, failed to fare so well in their bi-district game with Anson last week.

Anson swamped the Bulldogs 27-0 at Anson last Friday afternoon. The Anson team had no difficulty from the beginning of the game in subduing the Bulldogs, Tahoka's scoring punch, which stood them in such good stead during the regular season, failed to materialize in the bi-district playoffs.

Anson takes on Kermit at Odesa Friday night.

Pvt. Jerry Odom, of Fort Campbell, Ky., is visiting his parents, Mr. and Mrs. Bud Odom.

Dance of DeWitt Weaver, is favored slightly to win the tilt. The game will wind up the season for both teams, unless they accept a bowl bid.

Hunters Are Urged To Practice Safety Measures To Prevent Costly Accidents

In a few weeks Garza county hunters (and the estimated number who will buy licenses this year run around 200, not to mention those who will hunt without the benefit of a license) will join with thousands of hunters in taking the fields on their annual hunt.

And unless simple rules of safety are followed, many will be involved in a serious accident. Most hunting accidents can be prevented. (Sportsmen are urged to read the story by Leighton Dawson entitled, "Carelessness— or Criminal Negligence," in the November issue of the Texas Game and Fish.)

It is the "trigger happy" hunters, says R. E. Callender, extension specialist in wildlife conservation of Texas A. and M. college, who endanger the lives of every other hunter in the woods and cause needless damage to wildlife. Wild shooting leaves many birds and animals crippled and these are usually lost because

they are never found. Practicing safety with guns in the fields or woods, says Callender, is a good conservation practice that applies both to humans and wildlife. He points out that about two-thirds of all hunting accidents result from three causes: humans in the line of fire, mistaking humans for game and hunting with the safety catch off on the gun or rifle.

Good sportsmanship is just using good manners while on the hunt. It includes using the right gun for the right game; hunting only in season and not taking more game than can be used even though the bag limit may permit the hunter to take more. Wise hunters will use a trained dog to retrieve crippled birds. The careful and wise hunter never throws down a lighted cigarette for either may start a destructive fire. He breaks matches after they are struck and before they are dropped to the ground and leaves the area where he has hunted in good condition.

Here is an excellent code of safety for the hunter. Treat every gun as if it were loaded; it is usually the empty gun—that takes the most lives. Loaded guns

should never be carried in an automobile. The gun barrel and action should always be checked to make sure there are no obstructions in either. The gun should be carried so that the hunter always has control of the direction of the muzzle, even if he should stumble. The good hunter never pulls the trigger until he is sure of his target and never points a gun at anything he doesn't intend to shoot.

The specialist says loaded guns should never be left unattended and that the hunter should unload his gun before climbing over a fence. Bullets fired at flat, hard surfaces, or at objects on the surface of water may ricochet and hit objects not thought to be in the line of fire. Last but not least, gunpowder and alcohol should never be mixed for the results can be disastrous.

The intelligent hunter will be thinking how he can aid in conserving the wildlife of the land so that he and others will have areas where they can continue to enjoy one of America's greatest sports in the future. Wasteful and careless hunting habits on the other hand can destroy the protection, vegetation and even the wildlife itself.

Here's Helena Rubinstein's new long-lasting nail polish to match Stay-Long lipstick!

AMAZING NEW NAIL POLISH HAS BUILT-IN BASE COAT

Helena Rubinstein's Stay-Long lipstick is the first really creamy indelible lipstick used by millions of women. It actually protects lips against dryness, lasts all day after blotting, and won't smear on anything!

What makes it so creamy and moist—and still indelible? Indelibase—an ingredient which combines super-lasting qualities with lubricating emollients.

Now Helena Rubinstein introduces nail polish with the same amazing Indelibase. It lasts much longer than ordinary polish, protects the nails themselves, and requires no undercoat (the base coat is built right in)!

There are 14 magnificent colors—12 matched to Stay-Long lipstick, plus 2 neutral tones.

You'll find Helena Rubinstein's remarkable new nail polish and famous Stay-Long lipstick here today.

100 (like in jumbo-size 1.50) .60

Defies chipping and peeling. Comes in spill-proof bottles. 12 nail polish colors matched to Stay-Long lipstick.

Two Sections Of Garza County Roads Approved By Highway Department

Approval of two more Farm-to-Market road designations in Garza county has been received from the Texas Highway Department, according to an announcement from D. C. Greer, state engineer.

These include from the end of FM1618, five miles northeast of Post, northeast, a distance of approximately 2.5 miles; and from end of FM399 at Close City north

to US 84, a distance of approximately 4 miles.

Approval was for the improvement of Farm-to-Market roads by the Texas Highway department during the biennium from September 1, 1951 to August 31, 1953, and subject to the further condition that Garza county will furnish all required right-of-way free of cost to the state.

Once the county officials accept these provisions the State Highway engineer is directed to proceed with the preparation of plans for construction and when right-of-way funds are available to proceed with construction and to assume the roads for maintenance upon completion of construction.

Work on these two roads will be a part of the continuing state financed and state constructed Farm road program. This program was approved first by the Texas Legislature in 1949 and re-enacted this year. It is a cooperative program in that the

right-of-way necessary for the development of the road is furnished by the property owners and the county.

Selections of the two roads were made after careful cooperative study by county officials and the department, the objective being to include the most important county roads in the State Highway system. After the road is constructed it will be maintained by the Texas Highway department in the future years.

The Texas Farm to Market road system had its beginning at the close of World War II when the Texas Highway Department embarked on a program of construction of important Farm to Market roads to extend all-weather traffic service into the rural areas of this state.

Each year, as additional funds have been made available to the Department for this specific purpose, it has been able to extend more and more of these important feeder roads into the rural areas of Texas. At the present time the state has added 19,000 miles of these roads which were formerly county roads, and this new program will add an additional 2,500 miles of such roads, making a total of 21,500 miles of rural roads that have been constructed or financed for construction by the state since the close of World War II.

While it took the state 35 years to build a primary highway system of 16,000 miles, a larger mileage of state Farm to Market roads has been achieved in approximately six years. Thus the Farm to Market roads are generally new; the primary highways generally old. The Texas Farm to Market roads tie into the main primary highways, giving the citizens of this state a connected paved road system.

This rapid increase in the number and mileage of Farm to Market roads benefits not only the rural areas of Texas but assists the movement of motor vehicle traffic that is vital to the economic welfare of the state.

Thanks Folks . . .

May we thank the fine folks of Post and trade territory for their splendid co-operation in making our . . .

GRAND OPENING

held last Saturday, such a huge success.

Too, may we thank our many friends who sent flowers for our opening.

If you were unable to attend our opening, may we invite you to drop by at any time and see our fine new store

McCrary Appliance Co.

Movie of the Week

December is the best month of the year!

Or it seems that John Hopkins would think so with the array of fine entertainment, the big surprises and the fine gifts he has in store for his theater patrons during the month.

The biggest event of the month, naturally, is the two big FREE shows made possible by an arrangement of the theater with the merchants of Post. This annual event promises to be bigger and more crammed with entertainment than ever.

JUST LOOK AT THIS! Two big and wonderful shows are yours for absolutely NOTHING. Just patronize your local merchants and tickets are yours. And the shows?

ON DECEMBER 20, YOU WILL SEE "THE STRIP," STARRING THAT CURVACIOUS YOUNG STAR SALLY FORREST AND MICKEY ROONEY.

AND THE NEXT DAY (THE 21 NATURALLY) YOU WILL SEE "TWO WEEKS WITH LOVE" WITH JANE POWELL AND RICARDO MONTALBAN.

Of course these shows are scheduled for regular matinee and evening showings. Just like any other show, except they are FREE.

But that only takes up two days of the month. And the schedule for the other 29 days is just as good.

Now you take the menu for next week. It goes something like this: Friday and Saturday: "Mark of the Renegade," with Ricardo Montalban and Cyd Charisse; Sunday and Monday: "Millionaire for Christy," with Fred MacMurray and Eleanor Parker; Tuesday: "On the Loose," starring Joan Evans and Melvyn Douglas; Wednesday and Thursday: "Submarine Command," with William Holden and Nancy Olson.

A good lineup, don't you think? Mr. and Mrs. Raymond Key are cordially invited to attend any showing of "Millionaire for Christy" through the courtesy of the management. Your tickets may be picked up at the box office.

Since you have found out that your name wasn't used this week, take a look at this array of pictures scheduled for the month. THE MOB, SILVER CITY, LADY AND THE GROOM, HERE COMES THE GROOM (and Hopkins says the groom is going to make it here this time), PEKING EXPRESS, MEET ME AFTER THE SHOW, A CARTOON CARNIVAL, CAPTAIN HORATIO HORNBLLOWER, PAINTING THE CLOUDS WITH SUNSHINE, A PLACE IN THE SUN, SLAUGHTER TRAIL, DESERT FOX AND TIME OF THEIR LIVES.

When you can get a month schedule like that one you know that MOVIES ARE BETTER THAN EVER.

And now for a peek into which merchants are sponsoring the big special FREE CHRISTMAS SHOWS!

They include Tom Power, Piggy Wiggly, Mason and Company, Gulf Wholesale, Short Hardware, Connell Chevrolet Company, Storie Motor Company, G. F. Wacker Stores, Bob Collier Drug-gist, American Cafe.

Pure Food Market, Maxine's, N. J. Lanotte Furniture Company, Garner Butane, Bus Station and Dudd's Cafe, O. E. Food Store, Cannon Service Station, Dowe H. Mayfield Company, Inc., Parker Bakery, Graeber's Grocery, Ry-

New Dodge Displayed At Storie Motor Now

Have you been by Storie Motor company and inspected the NEW 1952 DODGE?

If not you are missing a treat. The 1952 Dodge cars (which are on display now at Storie's) have improvements and refinements inside and out, including new upholstery fabrics, new wheel covers and hub caps, a new tail light assembly and modified front grille.

All models are available with the Gyro-Matic transmission — the new transmission that frees the driver from shifting. And speaking of models, Dodge for 1952 has eight attractive models. Dodge Tint Safety Glass windows and windshields are an optional feature.

As an added attraction, all 1952 model Dodge cars have water-proofed ignition systems, electrical windshield wipers and Ori-Flow shock absorbers.

View the 1952 Dodge at Storie Motor company today!

BITS-OF-NEWS

Mr. and Mrs. L. P. Kennedy, Jr., celebrated their 42nd wedding anniversary Thanksgiving. Mrs. Delmo Gossett, daughter of the Kennedy's, prepared the dinner for the celebration. Guests included Kennedy's brother, Mr. Delmo Kennedy, of Post, and Mr. and Mrs. Morgan Smithers of Snyder.

Mrs. W. O. Davis of White-wright recently renewed her subscription in the Dispatch and said in her letter that she would like to say hello to all her friends in Garza county.

man Furniture Company, Tom Williams Grocery and Market, Josey Grocery and Market, Shepherd's "Gulf" Service, Young Hi-Way Grocery, Wilson Brothers, Les Short Buick Company, Verner's Launderette, Her-rings, Humble Grocery and Mar-ket, Earl Hodges, E. E. Cox Lum-ber Company, West Cleaners, Shytles Implement Company, The Dunlap Company, Southwestern Public Service and Post News Stand.

Don't forget these are the places to pick up those FREE tickets for the shows on Thursday and Friday, December 20 and 21. A TREAT THAT CAN'T BE BEAT!

HERE NOW! JUST IN TIME FOR YOUR FALL OIL CHANGE GULFPRIDE H.D. HIGH DETERGENCY

Cuts engine wear up to 80%!

Yes, in short-trip, low-temperature operation (the kind of winter driving most of us do) this new motor oil reduces engine wear by as much as 80%.

Developed in 14,000,000 miles of driving!

800 cars and trucks of various makes were used in this test, each with a different driver. The test included all types of driving terrain.

Keeps hydraulic valve lifters from fouling and sticking!

Your Gulf dealer can tell you if your motor has this type of high-precision valve lifter (many cars do) which requires a high detergency oil.

Prevents plugging, sticking of piston rings, clogging of oil screens!

That means a reduction of oil consumption. Also eliminates oil starvation of vital engine parts, caused by clogged oil screens.

Whether your car is new or old, you can get the benefits of this revolutionary new oil NOW. Start using Gulfpride H.D. this fall, when you see your Gulf dealer for complete "Safety-first" car service.

Get your GULF man's complete "Safety-first" service—protect your car FULLY for winter driving!

GULFLEX LUBRICATION

Get full protection against winter's gritty slush; have your car Gulflexed. Special Gulflex lubricants are used to reduce car wear at up to 39 vital points.

GEAR LUBRICATION

Now is the best time to let your Gulf dealer flush out summer gear lubricants and replace them with tough, long-lasting Gulf gear lubricants.

GULF BATTERY SERVICE

A fully charged battery is a "must." Your Gulf man will check yours and recharge if necessary, or install a Gulf Powercrest battery.

Orphan Home Film To Be Presented

A film in color will be presented at the Post Church of Christ, Friday, Nov. 30th, at 7:00 p. m.

The film is an actual picture of Boles Orphan Home, one of the major child caring institutions of the state, and it presents the various activities of the young people in the home, their living conditions and training.

The film is presented by Mr. Lewis Hogue, West Texas Representative of the Boles Home, and is given as a public service to acquaint the people of the state with what is being done in the realm of modern child care at Boles Home. The public is invited.

Boles Home is located at Quinlan, in Hunt county, 12 miles south of Greenville, Texas, and cares for some 300 boys and girls. Children are admitted to Boles Home regardless of sectional, religious or moral background.

The home specializes in the maintenance and preservation of family ties. It does not adopt children out, and is currently beginning a new phase of benevolence in which deserving widows and their children are permitted to live together at Boles Home.

New De Soto Now On Display Here

Now you can see it! Now you can drive it!

What? Why the new 1952 De Soto.

The 1952 De Soto is on display at Post Auto Supply now, with the scores of new car features you want — high compression engine, smoothest ride known, appealing beauty, waterproof ignition, safety rim wheels, no shift driving!

De Soto's new 1952 car offers you striking beauty, front to rear, lots of head room and legroom inside, chair high seats, high, wide doors, big 12-inch brakes, fast, all-weather starting, Oriflow shock absorbers.

Post Auto Supply says the new De Soto is the buy of the season. They also claim you never owned a big car that gives such outstanding service at such low cost.

Why not drop by and see the new 1952 De Soto today. It's designed for you—and your budget, too! POST AUTO SUPPLY.

Private Alton J. Taylor, son of Mr. and Mrs. O. B. Taylor of Post, recently graduated from clerical typing school at Fort Ord, California. He is now a company clerk there.

Gary Pierce has recently returned from Waco where she spent several days visiting.

CATTLE SHORTAGE — Very few cattle are being fattened in feedlots of dry West Texas this fall. One of the larger herds is 200 bulls being fed by Joe Barton of San Angelo. Barton feeds the cattle (above) on high priced feed, but he says fat cattle prices haven't gone up correspondingly. Barton says he wished he was not feeding stock this season.

Garza County Sergeant Stationed In England With 22nd Medium Bomb Wing

(Special to the Dispatch)

MILDENHALL, Eng. — For the third time since World War II, the B-29 Superfortresses of the 22nd Bomb Wing (Medium) are streaking contrails high across Europe's skies, and playing an important part in the job of "keeping 'em flying" is a native of Garza county.

He is Master Sergeant Woodrow B. Mason, 35, son of Mr. and Mrs. L. R. Mason, route 2, Post. Sgt. Mason is an aircraft maintenance supervisor.

But on this third tour the 22nd is different. There are many recent civilians scattered around the outfit.

Although essentially a "California" outfit stationed at March Air Force base near Riverside, the 22nd has drawn flying talent from virtually every state in the Union.

Gone are most of the 22nd's veteran air crews who dumped 6,800 tons of high explosives on the North Koreans late in 1950—gone to new units to spread their recent combat experience throughout the expanding U. S. Air Force.

The new crews are largely made up of "recallees," World War II men who returned to active duty from Reserve status. Fresh from civilian life, the "recallees" have tackled their retraining program enthusiastically. Their sustained drive to reach full combat readiness draws unqualified praise from the wing's commander, Col. James V. Edmondson, jr., of Santa Monica, Calif., and he's not a man to pass up compliments lightly.

The 22nd has dozens of "Four Headed Monsters" — men who are qualified as pilot, navigator, bombardier and radio-radar man.

Flying from three airfields in East Anglia — "the land of The Fens"—the recallees are squeezing every possible flying hour out of their planes. The flying goes on around the clock with ten hours being a normal mission. You can cover a lot of Western Europe in ten hours in a B-29, and the new crews are rapidly becoming familiar with the face of Europe.

Every mission has a definite purpose and is carefully planned and coordinated. Planes might disperse in small groups in many flight patterns over Europe, and then suddenly rendezvous for simulated mass raid on Paris or London. Oftentimes they fly in conjunction with RAF bombers, including RAF B-29s, which the English call "Washingtons." Coming back into England from Europe the American bombers can count on being intercepted by RAF jet fighters which are directed by radar. The British are still sharpening up the famed intercept system which won them the "Battle of Britain" and probably staved off a German invasion of the Isles.

The fields used by the Americans hum with activity, and security is almost on a war-time basis. The Superforts are widely dispersed, and any time you go near one of them you will be challenged by a guard carrying a very business-like shotgun. You've got to have a valid reason for being anywhere near a Baker two-niner.

Runways are being extended, and more taxi ways are being added. American ack-ack crews man their gun emplacements. Hedge-hopping British jets

flash in low on these crews and keep them constantly on their toes. The fields are so spread out that nearly everyone has a motor scooter, motorcycle or a bike. The prevalence of motor scooters, California style, is usually enough to identify a Strategic Air Command unit such as this one.

Their bailiwick in England is that picture book countryside northeast of London and south of "The Wash." Across the Channel due east of them lies the Netherlands. The ancient and historic cities of Cambridge, Ely, King's Lynn, and Bury St. Edmund pro-

"A CITY STORE AT YOUR DOOR"

Great In Store For Young And Old When Santa And His Reindeer Arrive

Eskimos in the village of Igloolik, Alaska, will thrill with thousands of children who get to view real live reindeer brought by Santa Claus in Post at 10 p. m. Saturday, December 1, according to the Chamber of Commerce who is sponsoring Santa Claus and his reindeer on their visit.

MOMMIE, LOOK! THERE'S SANTA CLAUS — That could well be what all the kids in the above picture are saying for it is a certainty they are seeing Santa Claus and his four reindeer. And that is just exactly what Garza and Post residents will see at 10:30 p. m. Saturday, December 22 when the "Reindeer Show" is brought to Post by the Chamber of Commerce.

The 200 Eskimos live in the village on the Bering Sea, and it is here that Grady Carothers, of White, Texas, ranchman who each year in raging blizzards and snowstorms, where temperatures go as much as 80 degrees below zero, to bring reindeer back to the Christmas parade in Texas for the nation.

The parade here promises to be the greatest day from the standpoint in the history of the city," declared the Chamber of Commerce. "We are especially in honor of all children in the city who will be our guests for the day and see Donder, Blitzen and Prancer. Santa Claus will be wearing a Santa suit to match his red and white suit. His charges will be gaily dressed in bright red, harness and brass nameplates, and will be the children to spell out names," the secretary said.

The reindeer have spent the winter on the ranch and now are ready to gladden the hearts of millions of boys and girls over the nation as they parade city streets.

Saint Nick has been working with his crew of helpers all over at the North Pole and plenty of toys for boys and girls everywhere. He has promised to talk some to the children while here if he is not tired from his long trip. Over a million children in Texas alone have thrilled to the sight of seeing Santa drive his sleigh and wave as he stood in his sleigh.

The parade will be a rare treat to children and adults who have never seen live reindeer. The festive occasion in this town will provide a double thrill, as Santa Claus just as much as his children, and caught up in the spirit of the occasion.

In all cities the crowds swarm the streets hours before the parade begins. As Saint Nick, his sleigh and reindeer come in sight, throngs always block their way to see the sleigh.

Children want to spell out their names. Children's eyes blaze with excitement as they shout almost in unison, "Mother! Daddy! Santa Claus and his reindeer!" Others want to see if the sleigh perspire, while a few try to touch the smooth antlers of the transplanted Arctic reindeer.

The idea that reindeer would live as far south as Texas does not deter Grady Carothers. He says they are living on his ranch and this year he brought twenty-three more to prove his idea even more correct. Included in the latest shipment are twelve females. So, some of the days there may be some reindeer on the ranch.

As you wait and see... Santa Claus will be here with his sleigh and reindeer. Right now he is making up your list of toys you want for Christmas for Santa is working overtime in his huge toyshop at the North Pole to help satisfy every childish heart.

Children's restless reindeer feet are Texas today. Donder and Blitzen have tried on their harness, and honestly they are splendid in it. Dancer and Prancer are getting shiny new harness, too. Santa is making special preparations for his visit to Post, and the sleigh is being given a new coat of flaming red. The North Pole headquarters today, the only herd of live reindeer are on the Texas ranch.

The main first year diet consists principally of oatmeal just as you eat for breakfast. Each year the reindeer are given competitive examinations for professional positions with the Texas State Department of Health are being announced this week by Mr. Russell E. Shradler, Supervisor of the Merit System Council.

Applications and information are available on request from the Merit System Council, 805 Littlefield Building, Austin 15, Texas. Examinations will consist of written and performance tests for professional positions, and both written and evaluation of training experience for professional positions. Classifications for professional application may be made for secretaries, stenographers, typists, bookkeepers, office operators, Chief Field Supervisor, Milk Supervisor, Foreman, Health Educator, and other positions.

animal eats about two and one-half pounds of the cereal each day. After that they do well on peanut and alfalfa hay to replace the lichen moss they eat in Alaska. The moss is highly nutritious but transportation costs prohibit its being used on the ranch extensively.

Carothers secures his animals each year from Eschscholtz Bay, 90 miles south of Kotzebue, an Eskimo village of 200 population. The bay section is a peninsula on the Bering Sea. Here, he camps in snow some three weeks each year getting his herd together for the air trip back to Texas. Temperatures where the reindeer are captured range as much as 80 below zero.

The Arctic reindeer have some odd characteristics. For example, their ankles pop when they walk... a crackle you can easily hear. Their cloven hoofs are large and act as a firm foundation for the deep Arctic snows. They are completely covered with fur except for the tip of their nose. They breathe like a dog when warm, and regurgitate like a cow when eating.

Both male and female reindeer have antlers with a range spread as high as four feet, and with as many as forty points. Flies are their pet peeve for if one gets on their nose, they will shake their heads.

Four-H Yearbooks Are Planned At Meeting

Planning of the 4-H Girls yearbooks was accomplished at a meeting held Saturday morning in the Courthouse. The following 4-H members and adult leaders participated: Sue Stephens, Janeyce Lobban, Barbara Wheatley, Mrs. Wesley Stephens, Mrs. Hardie Smith and Mrs. V. A. Lobban. Mrs. Barnie Jones, Mrs. Stephens and Mrs. Theibert McBride had previously worked on the planning of the book. Yearbooks will be distributed to the girls at the first regular meeting of the 4-H clubs in January.
