

New financing plan will speed White River dam

Subject to approval

In an effort to get construction of the White River dam under way by January, directors of the municipal water district last Thursday night voted unanimously to try to complete financing of the \$4,000,000 project without including sale of surplus water to oil companies.

Anticipated income from oil companies will be replaced by taxes—at a low rate—upon the property of the four member cities of the district.

This action came at the August dinner meeting of the directors in Spur to break a summer-long stalemate in the district's efforts to qualify for a \$3,000,000 federal agency loan and a \$1,000,000 state loan already approved.

THE NEW financing plan will have to be approved by both the Housing and Home Finance Agency of the federal government and the state water development board.

Then it would be submitted to the voters of the four member towns again via required water contract elections sometime this fall.

Marvin McLaughlin of Rails, chairman of the directors' finance committee, arranged a session in Fort Worth this week with HHFA regional officials to present the district's proposed changes in the financing plan which would eliminate for the present income from the sale of surplus water to oil companies.

McLaughlin said Thursday night he thought the federal agency probably would approve the new financial arrangements and saw no difficulty in then obtaining a state approval.

THE FINANCING changes probably will have to go to Washington for final HHFA approval, however, it was predicted.

The White River directors have been stalled since federal loan approval last March in meeting the loan requirements because oil companies refused to sign contracts to purchase surplus water at this time although saying they probably would buy the water when it became available.

The income from these water sales had been figured into the original financing plan approved by the federal agency in earmarking a \$3,000,000 loan to the water district in the spring.

McLaughlin told directors Thursday that "the oil companies' attitude" in the matter "makes sense." He pointed out the oil firm officials told his committee that "you ask us to spend \$350,000 to prepare to use this water without you having anything but a loan commitment to offer in the way of water."

THE RAILS banker commented he was sure the oil companies would line up for water when "they could see the lake."

Commenting on substituting a tax for the oil income, McLaughlin pointed out that actually such a tax may never be necessary. "Personally," he declared, "I feel we will have no trouble selling the water when we get it."

The new financing plan was worked out following a conference of the finance committee with the district's consulting legal firm and engineers in Dallas July 23, which was authorized at the directors' July meeting in an effort to break out of the financial deadlock.

IF NO SURPLUS water is sold to oil companies, the added tax liability upon the four member cities under the new plan would average \$48,260 annually from 1963 (through 1985) (17 years at \$45,000 and 6 years at \$57,500) and \$25,500 from 1986 through 1995. This would require an average tax rate of 19 cents per \$11 for 23 years and 7.3 cents per \$109 for eight years.

To substitute these low tax rates for anticipated oil company income, the district would make the \$1,000,000 bonds sold to the state second lien revenue bonds only—no tax liability involved—and would make only 46¢ payments on principal from 1963 to 1982 with heavy retirement on the state bonds from 1983 to 1994.

Although bonds to the state would be second lien revenue bonds, the district proposes to fulfill.

Legion meeting set

A regular meeting of James C. Cole Post No. 279 of the American Legion will be held Tuesday night, Sept. 1, at the Legion Hall, Post Commander Nicholas Vukac announces. All Legionnaires are urged to be present.

EARLY-DAY BANKERS TAKE HAND

Shown turning the first spadeful of dirt for the new First National Bank building is Ollie Weakley, who has been associated with the bank since 1917 and is still a director, looking on are Ira Lee Duckworth, left, also a director, who has been associated with the bank since 1919, and Irby G. Metcalf Jr., bank president.—(Staff Photo)

Ground is broken for bank building

Ollie Weakley and Ira L. Duckworth turned the traditional first spadeful of earth here Tuesday afternoon when groundbreaking ceremonies were held for the new \$140,000 home of the First National Bank.

In a brief talk on the bank and its history, Irby G. Metcalf Jr., bank president, declared that "the present management feels that it is quite proper that Mr. Duckworth and Mr. Weakley should participate in this ground breaking since Mr. Weakley was active in the bank's management from 1917 until 1955 and Mr. Duckworth from 1919 until 1955."

"Both are still on the bank's board of directors and have had much to do with the growth and progress of the bank."

METCALF SAID that the present management "feels by building this new building that we will be better able to serve our customers and will assure them of having every banking service available that could be obtained in any other locale."

"The officers, directors and employees of the bank certainly appreciate our customers," said Metcalf, "and promise each of them they will put forth every effort to see they are given the very best banking service."

Metcalf noted that the First National Bank of Post was organized July 20, 1909, with some of the original stockholders being H. B. Herd, John Herd, C. W. Post, W. C. Stevens, C. D. (Doug) Morrel, C. I. Dickinson and John B. Slaughter.

JOHN HERD WAS elected the first president of the bank and served in that capacity until 1922. Metcalf said, when the First National Bank acquired the Citizens National Bank in a consolidation at that time G. W. Connell was elected president, inactive. John Herd, vice president, Ira L. Duckworth, cashier and O. L. Weakley, assistant cashier.

Herd served in this capacity until his retirement at which time Weakley and Duckworth took over active management of the bank and operated it with Connell as inactive president until it was sold in 1954 to its present owners.

METCALF SAID the bank has had a member of the Herd family on its board since it was organized in 1909, first H. B. Herd, then John T. Herd, and now J. Harvey Herd.

City, school library hours are announced

Mrs. Lillie McRee, librarian, announced today that the city and high school library will be open during the school term on Mondays through Fridays from 8:15 a. m. until 4:15 p. m.

These hours are for high school students, including the eighth grade, and citizens of the area. Those wishing to use the library and who are not students of the school will be required to make a \$2 deposit, the librarian said.

Burglars hit lumber company here for \$50, ransack files

Texas Rangers and local law enforcement officers were continuing an investigation today of a break-in over the weekend at Forrest Lumber Co. in which about \$50 was stolen and considerable damage done to doors and the firm's records.

The latest development in the investigation came Wednesday when officers said the break-in here, was similar to burglaries pulled over the weekend at Asperment and at Lubbock. A tool used in one of the Asperment break-ins has been found and is said to be of the same type as the one apparently used here in forcing four doors—three outer doors and one inner door—at the lumber firm.

The break-in here was pulled either late Saturday night or early Sunday morning. Walter Johnson, manager, said he discovered the burglary about 8:45 o'clock Sunday night when he went by the office after church. He and his family had been to Lubbock, returning to Post just in time to go to church.

"It was the first time we'd been out of town in four weeks," Johnson said.

The manager also said it was at least the twelfth time that his place has been broken into.

Johnson at first thought that the burglars had "cleaned out" the place as far as money was concerned. Monday morning, however, about \$54 was found buried deep beneath cluttered records which had been pulled from filing cabinets and dumped on the floor.

The manager estimated the total loss at \$94.

See BURGLARY Page 8

TWO-YEAR FILES DUMPED BY BURGLARS

Walter Johnson, manager of Forrest Lumber Co., ruefully surveys the "messed up" files, dating back two years, which were dumped out of filing cabinets and desk drawers by burglars. The intruders also took about \$50, but "lost" \$94 more, which was later found in the pile-up on the floor.—(Staff Photo)

The Post Dispatch

Third Year Post, Garza County, Texas, Thursday, August 27, 1959 Number 13

Absentee voting

County voters of Commission District 1 who wish to cast a absentee vote in the \$200,000 bond election set for Sept. 5 should go to the county clerk's office before the election.

The county commissioners' court after it had been present petition asking that such an election be ordered.

Bond money would be used for the county's share in purchase of road-way needed for four-mile extension of U. S. Highway 84, construction of an eight-mile market road and for improvement of county roads and city streets within the precinct.

NO INCLUSION in the proposed issuance of bonds is one of the items on the agenda for the meeting of the county commissioners on Monday and retire the bond.

The commissioners' court has approved the proposed tax on the bond issue is 30 cents per \$100 property valuation and voters are to retire the bonds over 12 years at 3 per cent interest.

ABSENTEE VOTING Page 8

Oil Centennial is set for October

Garza County's oil folks at an annual meeting in city hall Monday night formed the Garza County Oil Centennial Association to mark the centennial of the first oil well in the United States drilled in Pennsylvania 100 years ago. The Oil Centennial will replace the Oil Progress Association this year.

Newly, oil information for the county, was

Pistol whipping case

Hung jury dismissed in suit for damages

A district court jury was dismissed Tuesday afternoon after Jury Foreman D. I. Dunn announced that they were "hopelessly deadlocked" in the \$30,800 damage suit brought by P. E. Romo against E. E. Wallace as the result of an alleged pistol whipping.

The jury had retired at 4:10 p. m. after hearing eight witnesses for the plaintiff, two for the defendant and the closing arguments by Lawrence Green, counsel for the plaintiff, and Jim Milam, counsel for the defense.

Season grid tickets go on sale Monday

Reserved seat tickets for the Post Antelopes' six home football games will be placed on sale Monday, according to R. T. Smith, superintendent of schools.

Smith said reserved seats may be reserved by contacting Mrs. Nell Compton, secretary, at the superintendent's office in the high school building.

The season tickets for the six games will sell at \$7.50.

Date nearing for delivery of mail

With city mail delivery due to be established here within the next few weeks, Postmaster Harold Voss this week reminds patrons who wish mail delivered to their homes to call at the post office and leave their name and address.

"We won't be able to take mail to anyone's home whose name and address are not listed with us," the postmaster said.

Meanwhile materials for setting up the mail delivery are still arriving at the post office, and progress is reported on the City of Post's project to number all unnumbered houses.

Former resident dies in Snyder

Last rites were held in Snyder Tuesday for Mrs. Morgan (Cowan) Evans, former Post resident, who died early Sunday morning following a heart attack. Mrs. Evans, who was 51, died at her home at 2804 33rd Street, Snyder. Burial was in Wichita Falls.

She is survived by her husband and two daughters, Mary and Sarah, of the home.

Those attending the services from Post were Mrs. Pete Morgan, Mr. and Mrs. O. L. Weakley, Mr. and Mrs. C. D. Morrel, and Mr. and Mrs. Walter Duckworth.

Wallace, who is a Kent County rancher, claimed that he struck Romo with the pistol only after the latter pulled a knife on him.

The testimony, which began Monday afternoon, brought out that Wallace and Romo were on route to Claremont at the time to check on the disposition by Romo of a \$435 check made out to him, but belonging to Wallace. The testimony was to the effect that the check had been returned to Romo by a group furnishing bracero farm laborers after the group was unable to furnish the workers.

In his suit, Romo asked \$15,000 for pain and suffering, \$5,000 for See HUNG JURY Page 8

MAIL BOX AT DEPOT

Matt Stelzer, field superintendent for Ken-Tex Oil Corp., is dropping mail into the mail box installed at the depot for those who miss the 6:30 p. m. post office deadline. Looking on is Lee Ward, vice president of the Chamber of Commerce, which promoted the installation of the box. As the sign on the box says, it's just for mail that can't be posted at the post office before 6:30 p. m.—(Staff Photo)

Dispatch Editorials

Thursday, Aug. 27, 1959

Speak out for law enforcement

A basic community need—nighttime law enforcement—deserves public attention again. The problem has not been solved.

The Dispatch has focused its editorial attentions on other matters these past few months while new city and county administrations took over in the hope that something would "give" and something would be accomplished.

Sorry, but it hasn't. Post still has no nighttime law enforcement unless an officer is routed from his bed for the purpose.

The sheriff's department would like to see the problem solved by the city and county each adding an officer and jointly employing a nighttime radio operator so that the public could instantly reach "the law" at any hour by phoning the sheriff's office for immediate radio contact with patrolling officers.

Actually night patrolling should be done in pairs.

This would solve the problem, if the city-county cooperation which has worked successfully numerous times in the past could be employed again.

The other alternatives are for the county to

expand the sheriff's department to do the job on a strictly county basis, or for the city to expand its one-man police department to take care of the night work on strictly a city basis.

Those are the three choices. There is nothing new here to offer. These have been the choices for a long time.

It is obvious to the vast majority of the public that nighttime enforcement is essential. Last spring, the city folks voted by a single vote majority in favor of a major police force expansion, which they were told would really boost taxes, to get the necessary law enforcement on a city basis. Nothing has resulted from that long heralded poll to decide the issue.

The public can always in the end have what it wants in government. Law enforcement can become reality around the clock here if interested citizens will speak up individually and collectively for it at every opportunity.

Let city and county authorities know where you stand again.

We can have nighttime law enforcement—and we can afford it. The question is of having it now or waiting until it is forced on us by some preventable tragedy.—JC.

A problem about to reach its peak

Accidents are the leading cause of death to school age children and most of these accidents involve motor vehicles. That's something to remember now that another school term is about to get under way.

The location of the three Post schools attended by white students has always presented a traffic hazard, but we've been fortunate in the past. Let's not let down our guard this school year.

Traffic safety has been, as well it should be, the concern of school authorities, parents and law enforcement officers. That is mainly the reason we have been able to keep our school accident rate at an almost unbelievable low, considering that all three of the schools front on a heavily travelled U. S. highway and that a farm-to-market road, also heavily travelled, runs between two of the schools.

But, one bad accident can undo all the good

that has been done. That's why it will be well for us to consider, as back-to-school time approaches, these five facts from the National Safety Council:

1. Accidents are the leading cause of death to school children.

2. More than 2,500 children from five to 14 years of age are killed annually in accidents involving motor vehicles.

3. More than 1,100 of those children are pedestrians.

4. A total of 150,000 children in the five to 14 age group are injured each year in motor vehicle mishaps.

5. One out of 12 students injured in a school jurisdiction accident is on his way to or from school.

That's the problem—and back-to-school time is when the problem reaches its peak.—CD.

Centennial oil event has good sound

One hundred years ago, almost to the day, the first commercial oil well was drilled in a small town in western Pennsylvania. This year, the nation's oil industry is celebrating the centennial of its founding.

Garza County, which in the last few years has forged to the forefront among Texas counties in oil activities, has tentative plans under way for joining in this nationwide celebration with a centennial event of its own.

Scheduled for Tuesday night was a meeting of Garza County oil men interested in promoting a centennial oil celebration for the county. Since this editorial was written a few days ahead of the meeting, its outcome was unknown, but there will be a news story elsewhere in The Dispatch on what transpired at the meeting. We hope that in that news story you will read an account of definite plans jelling for such a celebration.

Only an outstanding celebration would be worthy of the millions of dollars of oil money invested in Garza County.

Such celebrations the nation over this year are replacing the annual Oil Progress Week observance, since this is the oil industry's 100th year. During the last few years, Garza County has appropriately observed Oil Progress Week, but never with anything very big. This centennial year affords us a splendid opportunity to stage an event worthy of the oil industry's contribution to Garza County.

The Chamber of Commerce and other civic groups can help make a centennial oil celebration a first-year success by supporting and participating in whatever plans were worked out Tuesday night by David Newby, county Oil Information Committee chairman, and other interested oil men.—CD.

Let's back club cemetery project

Post's Business and Professional Women's Club has a worthwhile project under way in their program to leave nothing undone in efforts to clean up the grounds at Terrace Cemetery and keep them that way.

Currently, the club is spearheading a clean-up campaign at the cemetery, but the organization's long-range plans call for a permanent clean-up and beautification program at the cemetery, with assistance from the City of Post.

The bad weather of a couple of weeks ago hampered the start of the B&PW Club's cemetery project, but members report that early response by the public has been gratifying and that they are confident of the eventual success of their club project.

Many of the people who have loved ones

buried in Terrace Cemetery see to it that their burial plots are kept free of weeds and other growths, but there are some who do not. B&PW Club members point out. Most of these people, they explain, are lot owners who have moved away from Post. These out-of-town lot owners can make arrangements to have their cemetery lots cared for by writing the B&PW Club or the City of Post.

Volunteer workers will be welcome at all times in the club's project to clean up the cemetery and keep it clean. This volunteer labor and other cooperation on the part of the public with the B&PW Club and the City of Post should make it a fairly simple task to keep our cemetery clean once the project gets off to a good start.—CD.

What our contemporaries are saying

The height of self-control is to eat one salted peanut . . . and quit.—The McLean News.

An editor isn't grumpy by nature; it takes years practice to get in that frame of mind.—The Andrews County News.

Just about the time we begin to think this old world has become rather stable, nature has to demonstrate that it just ain't so. Not to be outdone by man-made bombs, Monday night and Tuesday's severe earthquake in eastern Montana points out again that man doesn't control his own destiny. Earthquakes where earthquakes had never been known before, tropical storms last year in Oklahoma and Arkansas, thawing weather at the North Pole, and cloudbursts in the desert all alter the future of many people. And it makes one wonder just what might happen here at any time.—The Crosbyton Review.

In choosing a life career for yourself, make it a tough one; than you won't have so much competition.—The Hamilton Herald News.

The average man's idea of a good sermon is one that goes over his head and hits a neighbor.—The Andrews County News.

Don't tell me this isn't a democratic coun-

try. Where else could a commoner get permission to marry a Rockefeller?—The Ralls Banner.

It must have been rather embarrassing and conducive to high blood pressure last week in Denison when the President made it plain he did not consider himself born in Texas, despite the record. "Back where I was born" means Abilene, Kan., to President Eisenhower. At least, the President did not let Denison sweat it out longer than it took Mr. Hagerty to pick up the telephone. Denisonites may be as well off that Mr. Khrushchev is wanted at Abilene, not Denison.—The Floyd County Hesperian.

We're going to hear some more cries from some businessmen because of the fact that they will soon be loaded up with another bookkeeping chore as a result of new tax laws passed by the recent Legislature. The boys spent a lot of time at Austin figuring out something to tax, but little or no time figuring out means to save money.—The Lynn County News.

The weather is still hot, but local merchants are piling high their shelves with fall merchandise. The gin is being readied for the cotton harvest and mamas are busy trying to get enough clothes together so the youngsters will be able to start to school in just 10 more days.—The Jayton Chronicle.

THURSDAY to THURSDAY

By CHARLES DIDWAY

WE DON'T WANT to alarm anyone, but offhand we'd say the first week of school is going to be a rather hectic one—even more so than usual.

There'll be a lot of scurrying around at the high school this weekend to try to get the six new classrooms (where the auditorium used to be) ready for Monday's opening, and even at this late date it's anybody's guess as to whether or not they'll be ready.

TO WIND UP the week, there'll be the first football game on Friday night, Sept. 4, and whether the fact that it is being played away from home will make the week even more hectic depends on how you look at it.

Even so, school administrators are working long hours to get everything ready. Pre-registration will have been completed by the time this issue of The Dispatch is published, and that means one big job out of way even before the term opens.

ANOTHER CONSOLATION — although some of the administrators might not agree—is that students and faculty members who fail to recover during the first weekend of school will get a chance to do so on the Labor Day holiday, which falls on Monday, Sept. 7.

Then, of course, the first of the month falls on Tuesday, the day after school opens, which makes it a big week of firsts.

SCHOOL AND football aren't the only things September will bring. There is a road bond election scheduled for the 5th in Commissioner's Precinct 1, and the Chamber of Commerce's first annual barbecue for farmers and business men has been set for the 19th.

In other words, the fall "rush" is coming on.

WE GOT TO talking the other day with a friend of ours who used to live in Oklahoma, and the conversation got around to the fact that the Sooner State has finally gone "wet" and that there'll soon be package stores in every place of any size. The state has had beer ever since the suds were legalized in 1933, but no "legal" hard liquor.

Our friend said that in his opinion one reason Oklahoma held off so long on voting in liquor is because there are so many Indians in the state and that the government has frowned on mixing whiskey and Indians ever since 1832 when Congress passed an act prohibiting the use of liquor in trading with the noble redmen.

THEN OUR FRIEND informed us—as if we didn't already know, being a displaced Sooner ourselves—that the government never was able to make the prohibition law, as it affected Indians, work. "A reason for this," he went on, "appears in a list of the desirable things of this world, presented by the Arapahoes in an interview with a Colonel Dodge back in 1835. They listed: first, whiskey; second, tobacco; third, horses; fourth, guns, and fifth, women."

Our friend up the street says so many substitutes have been discovered by scientists that it's difficult to remember what it was needed in the first place.

WE DON'T KNOW if they're teaching this at the Dale Carnegie course, but we ran across something the other day on the Art of Remembering Names. From both a business and social standpoint, it is important to remember names. What can be more embarrassing than to meet a person to whom you have been introduced, but whose name has slipped your mind? Here are five rules that may help you to remember names:

1. When introduced make certain that you have heard the name correctly.
2. Repeat the person's name as often as possible as you stand talking to him.
3. Learn as much about him as you can and study his features.
4. Mentally associate the name with something.
5. Later in the day test your memory of the name.

Eire's farmers are receiving grants of \$42 for building or improving silage pits.

There is little harmony in the home where parents are continually harping.

Sometimes one wonders if it isn't easier to count his friends than it is to count on them.

The Tennessee Valley area has a capacity of 9,889,485 kilowatts of electricity.

The only American first edition of Handel's "Messiah" is in the public library at Johnston, Pa.

The ouija board got its name from a compounding of the French and German words for "yes."

Bible Thoughts

"ADULTERY"

by RONNIE PARKER

When the truth is taught about adultery divorce, and remarriage, there are some who, like Herod's wife, would have you beheaded for pointing out their unlawful marriage relationships.

Why, oh why, will men refuse to obey the truth of God concerning marriage? Jesus states in Matt. 19:9 "Whoever shall put away his wife, except for fornication, and shall marry another, committeth adultery; and he that marrieth her when she is put away committeth adultery."

- Jesus states:
1. There is only one reason for divorce; that is the sin of fornication. The world accepts many, yet Jesus says there is one.
 2. To put away a wife for any other cause and marry another brings about an adulterous relationship.
 3. The one who remarries the unlawfully divorced is also guilty of adultery.

One of the works of the flesh mentioned in Gal. 5:19 is adultery. Paul says "That they who practice such things shall not inherit the kingdom of God." Let not the archdeceiver of men ever lead you who live in adultery to believe that you can escape the condemnation of God.

Professional card sharks really enjoy meeting an amateur who knows all about the game.

It was not until 1876 that Navy adopted the English telegraphic code.

Second largest county in the United States is Coconino, in Arizona, with 18,573 square miles.

Easier now to qualify under Social Security for disability benefits

"It is a little easier now to qualify for disability benefits under social security," John G. Hutton, Manager of the Lubbock social security office, said today.

As a result of changes made by Congress in 1958, the work requirements were liberalized so that some people who were previously turned down may now be eligible. The manager emphasized, however, that there was no change in the requirement that the disability must be very severe and of indefinite duration.

Before the 1958 change in the law, the amount of work needed to qualify under the social security disability provisions was at least 5 years out of the 10 years before becoming disabled and not less than 1 1/2 years of work being in the 3 years preceding the disability. This last requirement (1 1/2 years work in 3 years) was repealed.

Hutton explained that people who gradually became disabled found it hard to meet the requirement of 1 1/2 years of work in the 3 years before disability, and their applications had to be denied. They may now re-apply under the recent change in the law. Those who are 50 years of age or over should re-apply promptly to avoid losing any back payments due them.

"Anyone whose application was denied because the disability was found not severe enough," Hutton added, "is not helped by this change in the law and a new application would serve no purpose."

OVER 400 YEARS AGO

Practice of branding livestock was brought here by Spaniards

The practice of branding livestock was brought to America by the Spaniards over 400 years ago. The Spanish Government granted and recorded brands which guaranteed the exclusive ownership of such marks to certain individuals. This system was adopted in Texas by the early settlers, and brand records were kept in the courthouses as they are today under present State Laws.

Car should be checked before holiday jaunt

AUSTIN - "Going on a trip during the Labor Day weekend? Has your car been safety-checked?"

These questions were asked of Texas motorists, today, by J. O. Musick, general manager of the Texas Safety Association, who added:

"Remember this: Drivers who check first... last! Even the best drivers can have an accident with a car that is in poor mechanical condition."

Musick said that people seem to get carried away in a "welter of carelessness" during holiday periods, thus making these the most dangerous driving times of the year.

"With Labor Day just around the corner," he said, "it means that many Texans will be making short, vacation-end trips before school bells start ringing."

Musick pointed out that 42 persons died in Texas traffic accidents from Friday through Monday, during the 1958 Labor Day weekend. This doesn't include deaths from other causes, such as drownings, airplane crashes, etc., which will come close to matching traffic accidents in total number of fatalities.

For an all-around safer Labor Day, the safety expert suggested the following precautions:

- 1. First of all, a good healthy helping of common sense with a constant awareness that there is danger in nearly everything you are likely to be doing.
2. If you will be on the highways, limit the miles you plan to cover in one day's driving and be prepared for heavy holiday traffic.
3. Get an early start and pause for rest occasionally.
4. Keep your speed down, but don't be a slow poke and, of course, don't drink and drive.
5. Be courteous on the road - courtesy is a sign of intelligence.
6. Follow the safety rules of swimming, picnicking and sun-play. Don't over-do.

The Luckless Legion by Irwin Caplan

In 1958 motor vehicle accidents killed 36,700 and injured 2,825,000.

Post woman's mother injured in accident

Mrs. Joe M. Mullis of Crosbyton, mother of Mrs. Jimmy Moore, was released from Lubbock Methodist Hospital Tuesday, and returned to Post with her daughter following a car accident in which she was involved.

The accident occurred on the Wolforth highway last Friday when a road equipment travelling machine pulled out onto the highway. Mrs. Mullis hit the gravel when she saw she was unable to pass because of an oncoming car.

She will be in Post for a week or two recuperating from stomach injuries received in the mishap.

Cemetery project making progress

The response to the Business and Professional Women's Club's cemetery clean-up campaign has been greater this week than ever before, according to member Willie Scarborough.

The B&PW Club member said plans are under way for a number of improvements at the cemetery, including landscaping.

Workers are still available at reasonable cost to help on the project, Mrs. Scarborough said. James and Martin Mears were named as two of the individuals

Southland school to open Monday

The Southland schools will open for the fall term Monday, Aug. 24, at 8:45 a.m., Supt. F. W. Callaway told The Dispatch today.

Registration of students will held that morning following assembly in the school auditorium. Callaway said school buses will return the students to their homes by 10:30 to 11 a.m. on Monday.

One new grade school teacher has been added to the staff for the fall term, bringing the faculty to ten, including the superintendent. Teaching assignments, announced by Callaway:

First grade, Mrs. Lemmie Swale; second grade, Mrs. Clara Monk; third and fourth grades, Mrs. Dixie Roberts; fifth and sixth grades, Mrs. Ruth Hall; seventh and eighth grades, Duane S. H. high school science, Bill R. Kuykendall; high school mathematics, Jesse Swindie; high school social science and coaching, Dan Locke.

Post cowboy winner saddle bronc rides

Jim Moore, Post cowboy, won high this weekend at the Mat Okla., rodeo to place first in go-arounds of the saddle bronc, and take the average in same event. A second in the back was also won by Moore, who is one of the top amateur riders in the country.

Natha Jo Mears, daughter of Mrs. Billie Mears of Post, rodeoed from the Levelland rodeo, winning first in the flag rodeo event. Natha is one of the younger rodeo contestants.

Many of the Post performers planning to enter the Reno Springs and Roly rodeo this weekend.

who have been contributing and effort to help make the campaign a success.

Transportation to and from cemetery for volunteer work who need it is still available. Wishing rides to and from the are asked to telephone the C. Hall or the American Cal.

Advertisement for 'Small Business' by C. Wilson Harder. Discusses the benefits of being a small business owner, including tax advantages and the ability to control one's own destiny. Mentions that 50 million people in the world are small business owners.

Postscripts

Friday afternoon Mrs. L. H. Welch and her daughter, Mrs. Eline Swert, stopped in at The Dispatch office to renew their subscriptions for a few minutes. They were en route to Lubbock where Mrs. Swert received her Master's degree in elementary education from Texas Tech, the 18th such degree received in the history of the university. The Welches are former Post residents and taught in the Post school system for seven years before moving to Mentone. Mrs. Swert will teach this fall in Muleshoe.

Other Post visitors during the weekend included Mr. and Mrs. Joe Davis and daughters, Judy and Cindy, of Corpus Christi. They were here to visit her aunt, Mrs. L. P. Kennedy Sr., whom she hadn't seen in 33 years.

Steve Shirley of Fresno, Calif., visited here recently en route to Colorado School of Mines at Golden, Colo., where he will begin fall semester as a freshman. He was a guest of his grandmother, George Shirley, and also visited his aunt and uncle, Mr. and Mrs. Tom Boucher. Steve is the son of Mr. and Mrs. Joe Shirley of Lubbock, who are former Post residents.

Tommy Mayfield is at Glorieta, N. M., this week attending a Student Union conference. Tommy, a junior music major at Texas Tech, accompanied the BSU group from Tech for the week's conference in the mountains. He is the son of Mr. and Mrs. D. H. Mayfield Sr.

Mr. and Mrs. Sexton Huntley received word this week that their son, Glenn, completed a five-week school of instruction on jets Friday at the Naval Air Corps on Guam.

Over 70 attend open house honoring D. W. Reed Sunday

Over 70 friends and relatives gathered Sunday at the open house honoring D. W. Reed on the occasion of his 70th birthday. The event was held at the home of his daughter, Mrs. Loyd Edwards, 106 East 14th Street.

Guests were greeted by Mr. Reed and his wife, who are visiting here from Ringgold, La. He was a South Plains pastor for more than 42 years before moving to Louisiana in 1956.

The guest of honor's granddaughter, Mrs. Wade Peppers, presided at the registrar where guests signed between 2 and 6 p. m.

Mrs. Margie Harper and Mrs. J. W. Rogers Jr., also granddaughters of Mr. Reed, served refreshments of punch, cake and coffee from a table laid in a linen cutwork cloth.

Included in the afternoon callers were Mr. and Mrs. Tom Ferguson of Ralls, longtime friends of the Reeds whom they hadn't seen in more than 30 years. Other friends called from Slaton and Justiceburg.

Texas Beef Council offers budget help to homemakers

This year, the question is not whether you have resolved to save money on your food budget—but how much are you trying to cut?

The Texas Beef Council, long-time defender of food budgets, recommends ground beef—better known as hamburger—as the ideal choice of budgeted menus.

Beef is Texans' favorite meat and one of the few complete proteins we have. Hamburger is probably one of its least expensive and most versatile forms.

The Beef Council recommends that homemakers buy hamburger in quantity when it is on "special" to serve it on three or four consecutive days, cooked with macaroni, spaghetti or beans, in chili meat pies, as meat loaf, or as beef patties.

Ground beef can literally be used in a number of ways. Each of the meals is nutritious and inexpensive.

Hamburgers are probably the most favorite way to serve ground beef, and they can appear almost any meal in almost any way. As party fare, they range from elegant cheese-filled patties to simple hamburger patties on a bun, and in wine sauce to plump burgers broiled over charcoal and served with generous slices of Texas Bermuda onions at a backyard party. Or try grilled weiners on the "burger for extra juiciness."

Enlistee honored at buffet supper

Mr. and Mrs. C. L. Cooper entertained at their home at 603 South Avenue H recently with an old-fashioned country-style supper in honor of their daughter, Pat, who had enlisted in the Women's Army Corps.

Over 40 friends and relatives were present for the supper, which was served buffet style.

Special guests for the occasion included Lt. Browning of Amarillo and the Rev. and Mrs. Robert Patterson.

Miss Cooper left Aug. 14 for Amarillo for entrance examinations. She joined with Miss Charlene Martin of Seagraves on a two-year "buddy" plan. They are taking basic training at Ft. McClellan, Ala.

'Shower of Stars' to be one of features of State Fair, Dallas

DALLAS — The 1959 State Fair of Texas, Oct. 9-25, will present a "Shower of Stars" that will include seven big free shows featuring entertainment personalities.

The "big name" stars who will appear in the free shows at the Fair include Herb Shriner, Red Foley, Mitch Miller, Johnny Puleo, Steve McQueen, Sam Cooke and Bandleaders Woody Herman, Perez Prado and Chris Barber with their orchestras.

"Shower of Stars" shows will be presented Oct. 12, 13, 15, 16, 19, 20 and 21.

Perez Prado, "king of the mambo," and his orchestra will headline the show on Mexico Day Oct. 12.

Mitch Miller, famous for his recording of "The Yellow Rose of Texas" and more recently for his "Sing Along With Mitch" series, will receive the second annual Texas Music Festival Award Oct. 13. He also will conduct a massed band of 4,000 high school musicians who will be on hand for the Fair's Music Festival.

Red Foley, popular western and country music artist who was a big hit at last year's Fair, will return Oct. 15 with an entirely new show from his Jubilee USA TV show, including Shug Fisher, the Jigalongs, Brenda Lee, Leroy Van Dyke and the Jubilee band.

On Elementary School day, Oct. 16, Steve McQueen, hero of the television western series "Wanted—Dead or Alive," will make a personal appearance. Blues and Ballad singer Sam Cooke will give three performances Oct. 19 as an Achievement Day feature.

Humorist Herb Shriner, the Hoosier wit, and Johnny Puleo and his Harmonica Gang will be featured on the East Texas Day show Oct. 20, which will also present the famous Apache Belles from Tyler Junior College and a bevy of East Texas beauty queens.

A Jazz Festival will be presented Oct. 21 with Woody Herman and his orchestra and Chris Barber and his jazz group.

All of the "Shower of Stars" shows except those on Oct. 19 and 21 will be presented in the Cotton Bowl. The Sam Cooke show Oct. 19 will be on the Mobil Midway Stage and the Jazz Festival Oct. 21 will be in the new State Fair Livestock Coliseum. There will be no admission charge for any of the "Shower of Stars" events.

Recent visitors of Mrs. Vera Gossett and Sonny were Mr. and Mrs. Lewis Wolf and Joe Gossett of Ontario, Calif., and Mr. and Mrs. Clovis Tucker who recently returned from Germany.

'Muted' colors for fall and winter make fashion news

By JESSIE PEARCE

Every woman, and man as well, is interested in fashion news. This fall we will be seeing the "muted" colors. Quiet, gently, subtle, rich, grayed, deep, and beautiful are adjectives used to picture these colors.

Yellows and browns will do much influencing of colors. A golden amber added to beige, gives a warm vicuna. A faint touch of yellow added to blue, giving the flattering Teal. In greens, it makes soft moss and lichen green; in reds, it creates paprika. Muted gold, represented by mustard gold, camel, vicuna, and the nut tones (pecan shell, for one) are strong with yellow-brown influence. Sun gold or sparkling gold, will be important for accents and for evening wear.

Many colors will be grayed. We will find these smoky colors called, taupe brown, heather green, and mist gray. The grays are important in their own right, and are seen in everything from medium gray to oxford, and on to the almost-black charcoal gray.

Reds will be influenced by yellow and blue. In the yellow-reds, we have paprika and brick; in the blue-reds, we have burgundy, plum, cranberry, mountain berry and candy apple. Some bright reds will be found in the clothes for the very young under such names as Red Hot, Scarlet, and Fire Engine.

Greens will be more muted than last year. We will find versions of olive, forest and loden green used in the Tartans and other plaids and prints. Deep blue-greens are destined for dress wear, especially at holiday celebrations. One small note of brilliance in this category—parrot and emerald green will make sharp accents in trimmings and accessories.

The junior set will be wearing the clear sharp blues, such as sapphire. Purplish blues are high fashion, especially for dress wear.

It is going to be a great time for black, particularly combined with the burnished browns and golds. These will be important for formal wear.

Refreshments of homemade ice cream and cake were served to 30 members and visitors.

Mrs. H. J. Dietrich, local music teacher, attended the first meeting of the South Plains Music Teachers Association in Lubbock Saturday.

The fall meeting was held at the Caprook Hotel, followed by a luncheon hosted by B. E. Adair.

Johnson home scene of GA social Friday

The home of Mr. and Mrs. Latham C. Johnson provided the setting Friday evening for a social for members of the Olive Riddell Girls Auxiliary of the Calvary Baptist Church.

Ice cream, cake and watermelon were served to those attending.

Guests were: Lorena Anderson, Linda Hays, Barbara and Sandra Holleman, Kay and Sue Litton, Calvin Anderson, Audra Mann, Nancy Robinson, Delores Strofer, Judy Holman, Glenda Bilberry, Norma Ruth Peoples, Mrs. Ila Mae Holleman, Mrs. Ruby Litton and Mrs. A. J. Mann.

Birthdays of OES founder observed

The birthday of Dr. Rob Morris, founder of the Order of the Eastern Star, was observed by Post chapter 296 Tuesday evening.

The observance was held in the form of a backyard affair at the home of Mrs. Beatrice Dodson. A brief sketch of Dr. Morris' life and his work in the OES was presented by the Worthy Patron, Thomas Gamblin. Prayer was led by Mrs. Innis Thuet.

Refreshments of homemade ice cream and cake were served to 30 members and visitors.

Mrs. Dietrich attends meeting in Lubbock

Alice Faye Kiker, Dalton Copple wed in double ring ceremony

Arrangements of white gladioli flanked with candelabra and palms formed the background for the wedding of Miss Alice Faye Kiker and Dalton Copple Friday evening. The bride is the daughter of Mr. and Mrs. W. C. Kiker and Mr. and Mrs. V. L. Copple are the bridegroom's parents.

The Rev. A. T. Nixon, pastor of the Justiceburg Baptist Church, officiated for the double ring service at 8 o'clock at the Calvary Baptist Church.

Traditional wedding music was provided by Georgie M. Willson, who also accompanied Jimmy Short as he sang "I Love You Truly" and "Because".

Given in marriage by her father, the bride wore a gown of white lace and taffeta, designed with a low scalloped neckline and long petal-point sleeves. The full skirt of net over taffeta formed a chapel train in back. A seed pearl tiara held her veil of silk illusion and she carried an orchid on a white pearl Bible.

Mrs. Jerry White of Lubbock was matron of honor. Her dress was fashioned from blue embroidered satin, styled with a fitted bodice and full skirt.

Misses Peggy Butler and Gwen Copple, sister of the bridegroom, were bridesmaids. Their dresses were of pink nylon fashioned similar to the matron of honor's dress. They carried white nosegays.

Candlelighters were Doris and Tomma Copple, sisters of the bridegroom, Diane Kiker, sister of the bride, and Barbara Britton. Their dresses were of yellow nylon and they wore white carnation wrist corsages.

Margaret Copple, niece of the bridegroom, was flower girl and Richard Brown of Lubbock, nephew of the bride, was ring bearer.

Boyd Copple, brother of the bridegroom, was best man. Ushers were Jerry White of Lubbock and Roy Brown of Lubbock, brother-in-law of the bride.

The bride's parents were hosts for a reception at Fellowship Hall of the Church following the ceremony. The bride's table was laid in lace over pink and accented with pink tapers. Streamers with the couple's names in silver completed the table decor.

Mrs. Roy Brown and Mrs. Joyce Martin, sister of the bride, Mrs. Boyd Copple, sister-in-law of the bridegroom, and Mrs. Herman Tanner served. The bride's aunt, Mrs. J. R. Kiker presided at the bride's book.

For travel the bride chose a beige linen suit with brown accessories. They are at home in Houston where he is employed by Red Ball Transfer Co. Both are graduates of Post High School and he attended Hardin-Simmons University.

Women's Culture Club to open club year with art showing

The Woman's Culture Club will open their club year Thursday, Sept. 3, with a luncheon in Lubbock followed by attending the art showing scheduled in the Concourse of the Lubbock Municipal Coliseum.

Clubwomen are to meet at the home of Mrs. W. L. Davis and leave from there for Lubbock.

The art showing, presented by the Junior League of Lubbock, will feature "Illuminations", a giant exhibition of colored photographs of more than 50 of the world's most famous masterpieces of painting.

Included in the exhibition will be "Dance at Bougival" by Pierre Auguste Renoir and "The Yellow Christ" by Paul Gauguin, both oils on canvas painted approximately the same period of the 19th century by French artists.

"The opportunity to see the exhibit will be second only to a trip to Europe to see the original paintings," stated a Lubbock artist and South Plains Art Guild past president Mrs. C. B. Martin.

Several Post clubwomen are expected to attend.

Larry Cummings has birthday party recently

Mrs. Odean Cummings entertained with a backyard party recently on the occasion of her son's, Larry, seventh birthday.

Games were played during the afternoon and refreshments of birthday cake, ice cream and punch were served to the 10 guests present.

Guests for the afternoon event were: Glenda Conley, Denny Wiseman, Sherry Wood, Sherry Perdue, Owen Davidwood, Charles Guthrie, Debbie Tucker, Bobby Tucker, Sherry and Debbie Cummings.

Other attending included Mrs. Raymond Perdue and Mrs. Clovis Tucker and Janice.

Bridal shower held for Wanda Hagler

Miss Wanda Hagler, bride-elect of Don Clary, was complimented with a bridal shower Wednesday afternoon of last week in the Southland home of Mrs. Noble Wynn.

The honoree's chosen colors of blue and white were carried out in decorations throughout the entertaining rooms.

Assisting Mrs. Wynn with hostess duties were Mrs. Herman Dabbs, Mrs. Claude Roper, Mrs. H. D. Hallman, and Mrs. J. H. Huddleston. Their gift to the bride-elect was a steam and dry iron.

Approximately 32 guests registered during the afternoon.

Susan Cornish has birthday party

Susan Cornish celebrated her 12th birthday with an outdoor hamburger supper Tuesday evening of last week at the home of her parents, Mr. and Mrs. Jim Cornish, 714 West 5th Street.

Following the hamburgers, birthday cake and ice cream were served to the 10 guests, who were: Terri Power, Joy Thomas, Elizabeth Tubbs, Linda Gist, Carol Camp, Pam Owen, Bettie Hutchins, Sharon Meisch, Meredith Newby, Lynn Edwards and Marcia Newby.

Games were played during the entertainment hours of 5 to 9 o'clock.

TRANSACT BUSINESS

Mr. and Mrs. Lewis Pierce of Lamesa transacted business here Tuesday.

Mr. and Mrs. M. A. McDaniel spent the weekend in Sweetwater visiting with Mr. and Mrs. Joe H. Poe.

VISIT IN SWEETWATER

Mr. and Mrs. M. A. McDaniel spent the weekend in Sweetwater visiting with Mr. and Mrs. Joe H. Poe.

RETURN TO ROBY

Mrs. Ida Beauchamp returned to her home in Roby recently after a visit here with her mother, Mrs. J. R. Davis.

VISIT IN SNYDER

Mrs. Curtis Davies returned home last week after a visit in Snyder with her daughter and son-in-law, Mr. and Mrs. Wayne Culvahouse.

RECENT VISITORS

Recent visitors of Mrs. Vera Gossett and Sonny were Mr. and Mrs. Lewis Wolf and Joe Gossett of Ontario, Calif., and Mr. and Mrs. Clovis Tucker who recently returned from Germany.

Women's Culture Club to open club year with art showing

The Woman's Culture Club will open their club year Thursday, Sept. 3, with a luncheon in Lubbock followed by attending the art showing scheduled in the Concourse of the Lubbock Municipal Coliseum.

Clubwomen are to meet at the home of Mrs. W. L. Davis and leave from there for Lubbock.

The art showing, presented by the Junior League of Lubbock, will feature "Illuminations", a giant exhibition of colored photographs of more than 50 of the world's most famous masterpieces of painting.

Included in the exhibition will be "Dance at Bougival" by Pierre Auguste Renoir and "The Yellow Christ" by Paul Gauguin, both oils on canvas painted approximately the same period of the 19th century by French artists.

"The opportunity to see the exhibit will be second only to a trip to Europe to see the original paintings," stated a Lubbock artist and South Plains Art Guild past president Mrs. C. B. Martin.

Several Post clubwomen are expected to attend.

Larry Cummings has birthday party recently

Mrs. Odean Cummings entertained with a backyard party recently on the occasion of her son's, Larry, seventh birthday.

MEMBER STUDIO

109 West Main

As little understood as any function in the cotton industry is the role of the cotton merchant... yet without him the industry would be in about the same predicament as if all gins closed down... after all, there is nothing so useless as a bale of cotton until it reaches the manufacturer... without the merchant (often known as a shipper) the cotton would have an almost impossible trip... here's what the merchant does—or at least part of what he does—he buys cotton of all kinds and assembles the different kinds into even running lots for sale to spinners... since his livelihood depends upon cotton markets, he seeks and develops new markets... and he has taken American cotton to markets all over the world... since the merchant does business on a "year-round" basis the farmer has a market when he wants and needs it... also the merchant offers the spinner a constant source of supply... and he guarantees that the spinner will receive the cotton he wants... and guarantees quality, weight and delivery... and the merchant, or shipper, not only pursues markets but by his services encourages the spinners to use cotton in preference to other fibers... for all of this the merchant makes a profit of about one per cent.

Study Group
Committee made up of members from seven major cotton exporting countries will present its recommendations for averting a cotton price war to the Cotton Exporting Countries' Study Group within next two or three months... the study group is made up of members from 12 nations.

Weevils
A boll weevil lays an average of about 81 eggs... but sometimes she may lay 450... she only needs to be five days old to start laying... incidentally there are more male weevils than female... just thought you would like to know!

Orders Up
Cotton mills had more firm orders on June 1 than at any time since early 1951... also the spinners were getting higher prices... "Mill margin" was at highest point since late 1956.

LEAVES ON VISIT
Mrs. Dan Mitchell has accompanied her daughter-in-law, Mrs. Ed Mitchell, and son to San Francisco, Calif., for a month's visit. She will visit her daughter and family, Mr. and Mrs. Perry Porter and Mr. and Mrs. Billy Long while in California.

RETURN FROM VACATION
Mary Nell Shepherd and Mary Smith returned recently from a two weeks' vacation trip to California. They visited in San Diego with Mr. and Mrs. Red Frank, and also visited with Jerry Ray of the Marine Corps, who is stationed at Oceanside, Calif.

WYOMING VISITORS
The Rev. and Mrs. Graydon Howell left the first of last week for Cheyenne, Wyo., to visit her brother and family, Mr. and Mrs. Richard McLaughlin, and at other places while on a two weeks' vacation. Rev. Howell is pastor of the Calvary Baptist Church.

MARSHALLS RETURN
Mr. and Mrs. Joe Marshall returned recently from a two weeks' vacation trip through Kansas and to St. Paul, Va., Joe's former home. They were guests of friends and relatives.

A Church Not Supported Weekly Is Weakly Supported

The Years Ahead

There is a point in every person's life when the years ahead must be carefully considered; it is as if a crossroads had been reached and each one of us must choose a path of life. In this young woman's mind she is thinking toward what career she is best suited. Every young person today has an unlimited opportunity in thousands of jobs and professions that will not only benefit themselves but all of mankind.

In the years ahead we might well read of this young woman being honored with a Nobel prize for physics, literature or medicine... but perhaps she realizes that one of the greatest satisfactions of life and equally as rewarding is being a homemaker and mother. Whichever path she chooses, whatever career she decides upon; one fact is certain... she must let God be a profound part of that life. For without God there is no job really worth doing. Attend your church regularly; let God become a constant companion of your years ahead.

© 1959, Coleman Adv. Serv., P. O. Box 4887, Dallas, Texas

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Post man appointed to FHA committee

Lee Duckworth of Post is the member of the Garza County committee for the Farmers Home Administration. He will succeed L. Hitt, whose three-year term expired June 30. Duckworth was reared on a cat-ranch. The major portion of his life has been spent in banks where he made loans to farmers and ranchers. He is a former president of the First National Bank of Post. Milton F. Wilfong, local county

Farm loan group elects director

D. McCampbell of Post was elected to the board of directors of the Tahoka-Post National Farm Association at the annual shareholders meeting held here recently. McCampbell was elected to succeed T. L. Jones, who served the past 10 years and whose term is not to be renominated. Other directors are Avery Moore of Garza County, and Fred McCoy, J. M. Small and Vernon Post, all of Lynn County. The association makes farm or ranch loans in Garza and Lynn counties and at present has 455 loans outstanding in excess of \$20,000.

supervisor for FHA, says that will enable him to make a real contribution to the county committee's actions when they review loan applications.

Serving with Duckworth during the coming year will be Lonnie H. Peel and Floyd H. Hodges.

There is a Farmers Home Administration county committee serving every agricultural county in the country. All loan applications must be approved by the committee before funds can be advanced. The committee also helps the county supervisor adapt the agency's loan policies and services to local conditions.

The Farmers Home Administration makes loans to farmers to buy livestock and machinery, to finance annual operating costs, to improve buildings and fences, and to purchase land.

The Agency also lends money to farmers or their non-profit associations to establish and carry out approved soil and water conservation practices, as well as for installing and improving irrigation and farmstead water supply facilities.

RETURNS TO MIDLAND

Miss Mary Ann Mason returned to her home in Midland recently after a visit in the home of her grandparents, Mr. and Mrs. Marshall Mason. Her parents, Mr. and Mrs. Marshall Mason Jr., came after her.

THELMA

"Just Because I Don't Love You, Spider, Don't Do Anything Drastic, Like Calling Agnes Riley!"

TRANSITION IS MAJOR UPROOTING

Changing schools can be made easier for nation's children

The transition from school to school, whether it occurs within one school district or between states, is a major uprooting for most children, say the editors of Changing Times magazine. Parents, the editors advise, can do a lot to ease the strain of a change.

Not all children react the same way to the problems raised by the shift of schools, the editors warn, so don't be misled by surface calmness. Instead, anticipate your child's problems, and you will help him bridge the gap between his old and new schools.

Specifically, here are some of the things you can do: Let him know early that a move is in the offing. Tell him why and let him help in the planning.

If at all possible, give him a chance to visit the new school well in advance of the move. See whether he can meet the principal, the counselor, some of the teachers he is likely to have, even a few of his future schoolmates.

Avoid making your own worries known. If you fear the school may be too tough, don't say so. In any case, beware of making snap judgments.

See that the old school is prepar-

ed to ship all necessary records to the new school. Often the hapless youngster is caught in the middle of the confusion that results when this is not done.

Confer with your youngster's current teacher and principal about his work and problems so that you will be in a position to discuss them with his new teacher.

GUESTS OF KIKERS

Recent visitors in the W. C. Kiker and J. R. Kiker homes were their brother and family, Mr. and Mrs. Paul Kiker and son of Waco, and their sister and her family, Mr. and Mrs. Ruff Roane and daughter of Grandview.

FROM CLARKSVILLE

Recent visitors in the home of Mr. and Mrs. Billy Littrell were her parents, Mr. and Mrs. Matt Mabry, and son, of Clarksville.

HOLDING REVIVAL

Ronnie Parker, minister of the Post Church of Christ, is holding a revival meeting at the Church of Christ in Jayton. The meeting will continue through Sunday.

CHEVROLET

most m.p.g.* *miles per gallon

one of 7 big bests Chevrolet gives you over any car in its field

Proof that Chevy delivers the most miles from a gallon comes from an indisputable source: this year's Mobilgas Economy Run. For a pair of Chevrolet sizes with Powerglide walked away with the first two places in their class — got top mileage, in fact, of any full-sized car. Over the Run's long, rugged course, over mountain and desert in the long, long haul from Los Angeles to Kansas City, the winning Chevrolet averaged a whopping 22.38 miles per gallon. That's the kind of economy-engineering that keeps you saving while you drive!

BEST STYLE—It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCI-

ENCE magazine, "a new high in daring styling."

BEST BRAKES—In competitive tests of repeated stops from highway speeds, conducted by NASCAR**, Chevy outstopped both of the "other two." Naturally—Chevy brakes with bonded linings are far larger, built to lengthen brake life by up to 66%.

BEST TRADE-IN—Look at the record—the used car prices in any N.A.D.A.† Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."

BEST ENGINE—Chevrolet engines have long won expert praise and, just recently, Chevrolet received the

NASCAR Outstanding Achievement award for "the creation and continuing development of America's most efficient V-type engines."

BEST ROOM—Official dimensions reported to A.M.A.‡ make this abundantly clear. Chevy front seat hip room, for instance, is as much as 5.9 inches wider than in comparable cars.

BEST RIDE—MOTOR TREND magazine names Chevy "... the smoothest, most quiet, softest riding car in its price class." But this is one Chevy feature you really should discover for yourself, at your Chevrolet dealer's. Stop by soon!

**National Association for Stock Car Advertisement and Research. †National Automobile Dealers Assn. ‡Automobile Manufacturers Assn.

"1 BARREL — 5 MILES — \$1.00"

Samuel Van Syckel built the first successful oil pipeline in 1865. He charged \$1.00 for moving a barrel of oil five miles.

Today, through pipeline technological efficiency, spurred on by competition, and the skills of pipeline workers, you can ship a barrel of oil a thousand miles or more for 35 cents.

Trustees hire teacher, custodian, bus driver

The board of trustees of Post Independent School District employed a new teacher and a new custodian and made three changes in bus driving assignments at a special meeting Tuesday night.

The board also accepted the resignation of Jack Alexander, a junior high school teacher, accepted the bid of Texaco, Inc., for furnishing motor oil for school buses and other vehicles, and discussed the sale of reserve seats in the new football stadium now under construction.

Mrs. Rowena Pierce, who has taught before in the Post schools, was employed as a fifth grade teacher. After the board had accepted Alexander's resignation, Supt. R. T. Smith announced that Darrell Stone, originally employed as a sixth grade teacher, would move up to the position vacated by Alexander, and that James Rushing, who was to have taught a fifth grade section, will be reassigned as a sixth grade teacher.

ALEXANDER, who had taught here two years, announced in his letter of resignation that he is resigning to accept a position with the Colgate - Palmolive Co. The board voted to make their acceptance of Alexander's resignation a year's leave of absence, giving him the opportunity of coming back into the school system a year from now if he wishes.

S. A. Nutt, who recently moved here from Yuma, Ariz., was employed as a school custodian. Smith said Nutt was employed for a number of years by the City of Yuma. John David Beverly, a Negro high school student, was employed by the board to drive the bus transporting Post's Negro students to the Stalon high school for colored.

BILLY HAHN, who has been driving the bus transporting Negro students to the Post schools, was reassigned to one of the Graham buses to replace E. O. Tackett, and the salary raised from \$90 to \$70 a month. Darrell Stone, newly employed junior high teacher, will drive the bus Hahn drove last year at the same salary of \$70 a month.

The superintendent told the board that Mrs. E. M. Postigrew, who was injured in a traffic accident a few weeks ago, will be unable to carry out her bus driving assignment at the opening of school, but that she will provide a replacement until she is able to resume her bus route.

There were three bids for the sale of motor oil to the schools. That of Texaco, Inc., the lowest submitted, was \$3.89 a case, which figures about 98 cents a gallon.

THE TRUSTEES did not reach a decision on the sale of reserve seats at football games, pending further progress on the stadium project. The suggestion that appeared the most acceptable to the board was that 252 seats between the 40-yard lines be reserved, with an advance sale of reserved seat tickets, and any left made available at the gate on game nights.

Smith told the trustees that he still is looking for a second home-making teacher allowed the Post school this year. Two or three applications were discussed, with the trustees deciding to leave it up to the superintendent to hire one, if possible, before school begins.

Smith explained to the board that the school could get along without an additional homemaker teacher, as it did last year, but that considering the large number of students enrolled in the course, it would be better to have two teachers, especially since the school has qualified for an extra one.

Postings—

(Continued from Page 1)
—so until oil contracts are signed for the water a tax levy will be used as a substitute. But it's not likely such a tax will ever be levied.

Garza's oil folks have a head-full of ideas for the Oil Centennial Week but won't firm up organizational plans until their next meeting in two weeks at which time they hope to have some kind of an idea as to how much financial support they will have from the area's oil industry. But you can write it down now that the celebration will be the biggest by far oil show ever held in these parts. The rest of Garza County adults and youngsters are going to learn a whole lot about oil and the importance of the industry to all of us before Centennial Week is over. It's a really praiseworthy project and is being undertaken with real effort and enthusiasm.

Over on page 13 you'll find the announcements of the moving of Dr. John Carter and Dr. Jim Matthews into the new \$40,000 Garza Medical and Surgical Clinic building at 318-20 West Eighth Street over the weekend ready for a start in the fine new clinic Monday. On the same page you'll also find the announcement of the opening of the Clinic Pharmacy in the front portion of the new clinic building next Monday.

The clinic is planning a big open house and the pharmacy a formal opening in two or three weeks.

Dr. Carter's new clinic building is of concrete block construction with steel-supported roof and is 112 feet in depth by 39 feet wide. The Clinic Pharmacy will occupy 790 square feet in the front portion of the building with a separate entrance. The clinic in which the two physicians will conduct their medical practices contains a large waiting room in the front with a large business office directly across the hall. Next down the hall, opposite each other will be the two rooms, carpeted and paneled offices of the two doctors. Four examining rooms, a laboratory, an x-ray room, an emergency treatment room next to the back entrance, a recovery room, and a utility room comprise the remaining facilities of the clinic building. The front is of pink, gray and white concrete tile with a decorative tile window fronting from the waiting room.

The clinic building also has an adjoining asphalt parking lot to the east with both front and rear entrances which will permit enough space for angle parking of 18 cars, not counting the private parking in the rear of the building.

H. S. Brown of Lubock was the general contractor for the building. The entire building of course is air-conditioned, contains tile floors throughout, and fluorescent lighting in all but the waiting room.

The adjoining clinic pharmacy will be operated by Bob Sinner, who moved to Post this week from Snyder where he has been a pharmacist for Snyder Drug. Sinner and Miles Clark are partners in the new drug firm with Clark expected to move here from Snyder at some later date to help in operation of the pharmacy. Sinner was graduated from the Southwestern State College of Pharmacy at Weatherford, Okla., in the spring of 1958 and has been employed in Snyder as a pharmacist since that time. His wife's name is Katy and they have one nine-months-old son, Gary. They are members of the Baptist Church.

We're sure Bob and Katy are going to like their new hometown of Post and hope they can quickly get a home located.

Some 900 pounds of beef are being ordered for the Farmers-Business Men's Barbecue sponsored by the Post Chamber of Commerce at the 4-H building Saturday, Sept. 19, for all the farm folks in this community's trade area. Leo Acker's food committee sat down yesterday to get the orders in for the food with some 2,000 persons expected. The remainder of the menu, besides the barbecued beef, will consist of beans, bread, potato chips, onions, soft drinks, and coffee.

We know one place just about everybody will want to go sometime this weekend—to Bryan J.

NEW DRUGGIST

Bob Sinner, above, is Post's new druggist. He will open the Clinic Pharmacy Monday in the new Garza Medical and Surgical Clinic Building, 318-320 West Eighth street. Sinner is moving here with his family from Snyder.

Burglary—

(Continued from Page 1)
"take" in money at about \$50, including money collected from cold drink dispensers in the building.

Johnson said the loss in time in getting files and records straightened out again would cost more than the amount of money stolen.

Both the inner and outer offices were thoroughly ransacked, with the contents of the cabinets and desk drawers dumped on the floor.

Texas Ranger Razz Renfrow of Lubbock came here Monday morning to investigate the burglary after Deputy Sheriff Red Floyd and City Marshal Otis G. Shepherd Jr. had made a preliminary investigation Sunday night.

When called here from Lubbock, the Texas Ranger had just returned from investigating the break-ins at Aspermont in which a grocery store and a garage were burglarized. He told Johnson that there was a striking similarity between the Aspermont break-ins and the one at the lumber company.

Williams' open house of one of the big new Sunset Homes, built by Ted Parks of Snyder. Bryan takes a page to invite everybody to the party on page 3 of this addition. Bryan explains that this is one of the really quality homes being built in the new Sunset addition by Parks, who already has built some 24 quality type homes in Snyder and was the contractor on the educational wing of the First Methodist Church here. The way we hear it, the new home will be ready to move in—just in case you'd want to buy it that way—with a new station wagon in the double garage along with a slick new motor boat.

Williams reports there are 14 building sites in Sunset Addition with eight homes completed or "underway". Parks at the present time has two more homes there under construction which will be for sale as will this weekend's model home. This is the first effort here to offer a new quality home that a family can simply walk in and buy. Bryan has a point when he says that such a procedure "takes the headaches out of building for the new homeowner".

Pointing out there is a shortage of housing in Post, Bryan thinks it's necessary to have some new homes available for those moving into Post who can't wait 90 days to four months to build one of their own. Sunset, Bryan adds, is one of the two restricted housing areas in the city. The "show home" has been built with the use of top grade yellow pine—throughout. It's built to last.

When Mrs. Merriweather Post May was here a year ago last Easter to dedicate the statue of her father on the courthouse lawn, one of the members of her large entourage was young Ron Waller of Los Angeles, a former professional football player whose wife is one of Mrs. Post's granddaughters. This week, Ron offered a guarantee of \$50,000 if he could come into the promotion of the title boat between Heavyweight Champion Ingemar Johansson and Floyd Patterson as a co-promoter. We haven't seen any reports yet whether the promotional group opened the door to let Waller into the highly mixed-up promotion or not.

When Jim Hays, wife, and son, Don, returned over the weekend from a two weeks vacation trip to California, Jim reported he had a good visit with O. B. Kelly, Garza County's first sheriff, in Ontario, Calif. Kelly, who is now 90, is living with his son, Bud, and according to Bud both of them plan to come back to Post when it cools off this fall—probably in October—to give O. B. a chance to have some good visits with all his old friends. O. B. was last here during the Golden Jubilee, two years ago. The Hayses visited with their son, James Hays, Jr., and family at Anahim and with Jim's brother, Walter, and family at Ojai.

School opens Monday morning

Registration ends for PHS students

Registration of high school students was continuing here Wednesday afternoon in preparation for the opening of the 1959-60 school year Monday.

Up to 10 a. m. Wednesday, 40 seniors, 61 juniors, 68 sophomores and 35 freshmen had been registered, with the registration of freshmen to continue throughout the day.

The total number of high school students registered up to 10 o'clock Wednesday morning was 204, indicating that the pre-registration total will be about 250. Some will be registered during the first few days of school, with the first week's total expected to be around 260.

Eighth grade students, who will attend classes in the high school building this year, were registered Friday, with a 64 total reported by school authorities.

Herman F. Raphael, junior high school principal, said registration of fifth, sixth and seventh grade students will begin about 8:45 a. m. Monday, the first day of school. School for the elementary grades will begin at 8:45 Monday and students will be taken through a regular school day, according to Principal James West. The school day will end at 2:30 p. m. for the first and second grades, 3 p. m. for the third grade and 3:40 p. m. for the fourth grade.

The principal said parents of first grade children are asked to accompany them to the grade school auditorium where the child will hear his or her name called by the teacher.

Pupils in the second, third and fourth grades will find their names listed on one of the doors in their particular grade, the principal said.

Two sections of the fourth grade will be placed in the junior high building, but all fourth graders are to report to the grade school building Monday morning.

Supt. R. T. Smith said a full day of school will be held in all schools running at their regular times and here on the first day, with buses running at their regular times and lunch being served in the lunch room.

Building permits near \$750,000

Building permits were issued this week for construction totaling approximately \$2,900 to bring this year's construction total to date to \$745,235 with more than 18 weeks left in the year.

A. L. Warren received a permit Aug. 18 for putting a new roof on the porch of his residence at 515 East 4th Street, for an estimated cost of \$50.

Aug. 20 Homer Gordon was issued a permit for the construction of a redwood fence at his residence at 117 S. Avenue N, at \$350.

Lorenzo Alexander was issued a permit Aug. 21 to construct a 20 x 24 residence with composition roofing and stucco in the Lorenzo Alexander addition, at a cost of \$2,500.

Absentee Voting—

(Continued from Page 1)
tax valued at about \$2,000 by the county.

Four-lane widening of the highway from where the present divided highway ends on top of the cap to the Lynn County line, at a point near Southland, would mean for the county a state highway project of about half a million dollars, the commissioners said.

THE PROPOSED farm-to-market road would run from the U. S. 84-Wilson Road intersection westward to the Ralls farm-to-market road.

The state will pay for half the right-of-way needed for the U. S. 84 widening, but the county is required to pay for the other half.

Commissioners said this week that even rough estimates on what the right-of-way would cost the county cannot be furnished until appraisals are made and other details attended to. Money left over from the \$200,000 bond issue after the right-of-way purchase would be used for the new farm-to-market road construction and for the city street and county road work within Precinct 1.

Ground Broken—

(Continued from Page 1)
son of the bank's late president, J. T. Herd.

The bank also had had a representative of the Post Estate on its board since it was organized, these being C. W. Post, S. B. Bardwell and at the present time, Monty J. Moore.

The Rev. Clinton Edwards gave the benediction to conclude the ceremonies.

Bank construction is scheduled for completion next February.

Estimate made Wednesday

Cotton puller shortage predicted for county

Garza County will be short 610 cotton pullers during the peak period of the cotton harvest, according to figures furnished the County Farm Labor Committee by the Texas Employment Commission. This shortage will be met by the importation of Mexican National Bracero workers, a committee member said.

Named to serve on the County

Strawn discovery finalized in Garza

Strawn production has been assured one location northeast of the Ellenburger discovery in the North Red Loflin pool in Garza County at U. S. Smelting, Refining & Mining Company's No. 1-A Lora Sims. Previously washed with 250 gallons of mud acid and treated with 350 gallons of regular acid through perforations at 7,946 to 7,977 feet, and 8,000 to 8,040 feet, the well pumped 190.69 barrels of 35.4 gravity oil plus 25 per cent water, in 24 hours. Testing was continuing.

The operator has not indicated yet if the well will be dually completed from the Ellenburger. The discovery is located 1,980 feet from north and 660 feet from west lines of Section 809, Block 97, H&TC Survey, eight and one-half miles southwest of Justiceburg, on a 480-acre lease.

Farm Labor Committee were County Judge J. E. Parker, D. W. ... Wednesday morning with ... Bunting, manager of the TEC ... to review the total ... employment needs developed by the TEC.

The Committee will function under Public Law 78, containing legislation relevant to the supply of domestic farm workers existing in Garza County and the shortage of workers, if any, which must be met by importing Mexican Nationals. Public Law 78 the TEC must supply this information to the Secretary of Labor who must limit the number of Mexican Nationals to be used in this county by granting a "ceiling". The committee consults with the local office manager to assist him in estimating a number of workers who will be needed, based on current local conditions affecting the cotton crop. "Ceilings" granted by the Secretary of Labor limiting the importation of Mexican Nationals in this area will be posted in public places in Post, Southland, Justiceburg, in the county agent's office and in the county courthouse.

Post defense looks better than offense in scrimmage

The defense looked fairly good, but the offense left much to be desired. Coach Vernard Alexander said his Post Antelope team in last Friday's scrimmage session with the Class A Eagles Monday afternoon on the Eagles' gridiron.

S in SPORTS

By CHARLES DIDWAY

Lubbock Avalanche-Journal about "sunk" the Post Antelope football team in last Friday's scrimmage session with the Class A Eagles Monday afternoon on the Eagles' gridiron.

...just for a clincher, the back paper ran the same Saturday morning under the heading: "Post's New Stars Will House Loser." For all practical purposes, that ought to get the job done. When something is "cut and dried" don't see much use of going through with it. Why should we now whether they get the stadium up in time for the game or not.

...realize that Bill didn't have in on the bright side to write when he sat down at the typewriter with the Antelopes in mind, but in our opinion he made a little too gloomy. On top of that, the story was filled with Bill's usual inconsistencies, the one that really irked us was when he last season's record had Slaton beating us. The correct score, Billy Boy, 35-28. The Antelopes put out much in that game not to give credit for the 29 points they scored.

...for the record, we asked Alexander if he was going to play out the schedule this year, and he said he was. We said the Antelopes will, too.

...with the Chicago White Sox hit the home stretch in their drive for the American League pennant, we're glad to see that Norm is being used more here of late. He got two hits in four trips today in the Sox' win over the mighty New York Yankees.

...since Norman, a Justiceburg Post High School product, is a member of the Chicago team, local fans probably will be cheering for the Sox to beat out Cleveland Indians in what is being pegged as a last ditch fight for the pennant.

...we've just heard good news on the way for the new baseball field to be built just east of the Little League park and used by players of the Ruth and American Legion baseball clubs. The good news is that efforts by a group of local ball boosters to get a new park built to pay off.

...we learned Monday that some of the two-inch tubing for the new building, the fences, etc., will be donated by four local oil companies. Plans for the new park are being worked out by sponsors already have decided to move the location from its present site to a spot in between the Little League and the baseball diamonds.

...the new playing field by next summer would mean that we could have a Babe Ruth League for boys 11, 12 and 13 years of age, and the present Pony League for 11 and 14-year-olds only. It is believed that there will be 100 youngsters out next season in the eight-team Little League instead of a four team loop. The proposed Babe Ruth League would have four teams.

...ATTENDS REUNION Mrs. Lola Hays spent the week-end at O'Donnell in the home of Mr. and Mrs. Clyde Childress and attended the Eastland reunion at the State Park in Lubbock Monday.

...IOWA VISITORS Mrs. L. C. McLaughlin Monday in the L. C. McLaughlin home were her brother-in-law, Mr. and Mrs. R. O. McLaughlin of Newton, Iowa. Also present were the McCulloughs Monday afternoon, Mrs. L. E. Braswell of Slaton.

...WEEKEND GUESTS Mrs. L. W. Evans of Lubbock, Texas, was here over the weekend with her mother and relatives.

is making several backfield changes. These changes will shift Curtis Didway from quarterback to halfback, Derwood Mayberry from fullback to quarterback and Forrest Claborn from a halfback position to fullback. Richard Ray is running at the other halfback position. In the line, Alexander has moved Mike Cornell from center to tackle and is running sophomore Jimmie Ivie at the center slot.

Dove shooting begins Sept. 1 in North Zone

AUSTIN — Season opens for North Texas dove hunters Tuesday, Sept. 1, with perhaps one of the best crops in years, according to the assistant secretary of the Game and Fish Commission.

The new 1959-60 hunting and fishing licenses went on sale after Aug. 20, according to the announcement. They will be effective Sept. 1, and all persons who hunt outside their own counties are required to have a new license. Fishing licenses also expire Aug. 31, and a new license is necessary for fishing outside the home county, or with any kind of winding device.

Persons over 65 years of age are not required to have a license. Exemption cards are available at the regional offices or by writing to the Game and Fish Commission in Austin. Such cards are issued as a courtesy, and are not required.

A map showing the Texas counties and their open seasons has been prepared by the Commission. A study of it will tell you where it is legal to hunt in both the North and South zone counties.

The season is open Sept. 1 through Oct. 20 in the North Zone, and Oct. 1 through Nov. 19 in the South Zone. There is an exception in the Lower Valley counties where mourning doves may be shot at the same time as white-winged doves. In that area the season will close three days earlier.

The whitening season is for the alternate days of Sept. 11-13-15, from 2 p. m. until sunset.

Licenses to wed are issued four couples

Four marriage licenses have been issued the last few days at the office of County and District Clerk Carl Cederholm.

The licenses have gone to the following: William Harrison Carlton, 17, and Miss Patricia Ann Patterson, 16; Aug. 25. Bobbie Joyce Long, and Miss Brenda Joyce Shott, 16; Aug. 21. Homer Bedford Sullivan, 51, and Bessie Vearl Messer, 40. Dalton Leroy Copple, 21, and Miss Alice Fay Kiker, 18.

BACK IN NORFOLK

G. E. Davis Jr., son of Mr. and Mrs. Guy Davis, has returned to Norfolk after a cruise to Key West, Fla. Davis is in the U. S. Navy, stationed aboard the USS John Hood.

RETURN FROM TRIP

Mr. and Mrs. Pat N. Walker and family returned Friday from a 12-day vacation trip to points in Louisiana and Mississippi. While gone they visited relatives and friends.

RETURNS FROM DENISON

Mrs. L. P. Wood returned last Friday from an eight-day visit in Denison with her daughter and son-in-law, Mr. and Mrs. E. E. Bird, and family.

DISMISSED

Mrs. Ila Cartmill, Vickie Martin, Sidney Hart, Ricky Mann, Mrs. Willie Johnson, Chester Keeton, C. E. Foster, Mrs. Billy Holly, Pat Pennell, Judy Pantoja, Spencer Kuykendall, James Chancellor, Mrs. C. J. Hunt, Maudie Pettigrew, Donna Allane Ammons.

THOSE ADMITTED TO GARZA MEMORIAL HOSPITAL SINCE LAST TUESDAY WERE:

Mrs. C. J. Hunt, surgical; James Chancellor, surgical; Ricky Mann, surgical; Mary Alice Hall, surgical; Chester Keeton, medical; C. E. Foster, medical; Rilla Crofford, medical; Pat Pennell, medical; Judy Pantoja, medical; Spencer Kuykendall, surgical; Donna Allane Ammons, medical; Marion Duer, medical; Terry Laws, medical; Mrs. Billy Holly, medical; Mrs. Don Hinson, obstetrical; Mrs. Lola Mae Master, surgical; Leslie Avant, surgical; Bill Prince, medical.

THOSE ADMITTED TO GARZA MEMORIAL HOSPITAL SINCE LAST TUESDAY WERE:

STYLISH CHAP, THE DINOSAUR

The lumbering dinosaur passed into oblivion millions of years ago. But his remains have found their way into the jeweler's art. Gloria Pagano, secretary at Chicago's Natural History Museum, holds 73 pieces of their fossilized bones that have been cut and polished for jewelry.

Film highlights of Cotton Bowl tilts available

DALLAS — Five different motion picture films picturing the highlights of each of the Cotton Bowl football games played on New Year's Day during the past five years are available for loan without charge to interested clubs and organizations.

The most recent film is, of course, that of the 1959 Cotton Bowl Classic between the Southwest Conference champions, TCU's Horned Frogs, and the Air Force Academy Falcons, making their first appearance in a bowl game. The game ended in a scoreless tie.

Other games for which films are available include the 1958 Navy-Rice clash won by Navy 20-7, the 1957 thriller in which TCU bested Syracuse 28-27, the 1956 squeaker with Mississippi edging TCU 14-13, and the 1955 game in which Georgia Tech defeated Arkansas 14-6.

Requests to borrow the films should be sent to the Cotton Bowl Information Service, P. O. Box 7735, Dallas 26. The year desired should be specified, along with a second choice.

A preferred showing date and an alternate date should be indicated. This is necessary in case the desired film is not available on the date preferred.

The films, in sound and color, run about 20 minutes each. A 16-millimeter sound projector is necessary to show them. There is no charge for borrowing the movies. However, the Cotton Bowl Association requests they be returned as soon as possible after use, so that a tight schedule of bookings can be adhered to.

NEPHEWS VISIT

Pete and Joe Mike Dodson, nephews of Mr. and Mrs. Jim Shipley and Mr. and Mrs. Dee Coleman, returned to their home in Carlsbad, N. M., last week. The youngsters have been here for the past month. They were accompanied home by Mr. Coleman.

25 suit out at Southland

Coach Duane Locke was greeted by the biggest grid squad in Southland High history last week when 25 candidates for the Eagles' eight-man grid team answered the opening call.

Although Ronnie Dunn, the 145-pound scoring ace has graduated, Locke has not only a big squad in numbers out for practice but a fine nucleus of returning lettermen from the team which finished second in the district.

What are the prospects? Team followers predict a "better season than last year" when the Eagles grabbed three out of four district starts.

Gary Robinson, returning letterman who attended the Post schools last spring, is back in suit and eligible for play again with Southland, school officials report. His eligibility has been approved by the state. Supt. F. W. Callaway told The Dispatch.

Gary is one of the seniors being counted on to lead the way to a winning season. Others include Clinton Smith, all-district end last year; Halfback Darrell Jones, and Fred Melcher, a letter linesman last year.

Southland opens its 10-game season at home against Peacock Friday night, Sept. 4. The entire slate will be played on Friday nights this year with 7:30 p.m. kickoff times.

The remainder of the schedule includes Loop at Loop, Sept. 11; Dawson at Southland, Sept. 18; Klondike at Klondike, Sept. 25; and Guthrie at Southland, Oct. 9.

Following an open date on Oct. 16, the Eagles will open district play against Pettit at Southland Oct. 23. Other district games are Union at Union, Oct. 30; Wellman at Southland, Nov. 6; and Smyer at Smyer, Nov. 13.

Belgium is offering incentives for capital investment in its distressed areas.

TEACHING AT MULESHOE Mr. and Mrs. Clarence Hawkins and daughter, Jovanah Lea, left Monday for Muleshoe where they will make their home and Hawkins will teach social studies for the sixth grade in the Muleshoe school system. He is a spring graduate of Bethany College, Bethany, Okla.

TOUR CAVERNS Rev. and Mrs. Louis McMahon, Carolyn and David, left Friday after a visit with his parents, Mr. and Mrs. O. V. McMahon and other relatives and friends. They were accompanied to Carlsbad, N. M., by Mr. and Mrs. Bill Bennett and daughter and the group toured Carlsbad Caverns. Before returning to their home in Granada Hills, Calif., they plan to visit in Clovis.

DELEGATE TO MEETING Mrs. Walter Boren will leave Tuesday as delegate of the Abilene Presbytery to the Presbyterian state meeting in San Antonio. The convention will last through Thursday, being held on the Trinity University campus.

More than 1,300 contracts signed, Great Plains conservation program

COLLEGE STATION — Over two and one-third million acres of farm and ranch lands in the Plains areas of Texas have been contracted for cost-share assistance under the Great Plains Conservation Program, reports Lynn Pittard, extension assistant soil and water conservation specialist.

As of June 30, 1959, approximately \$5,500,000 had been obligated to the landowners for assistance by the program. In the 78 counties now participating, Pittard says more than 1,300 contracts have been signed. The contracts are for three to ten years duration.

This voluntary program applies in the Great Plains area and provides cost-share assistance for many soil and water conservation practices such as, brush control, range reseeding, constructing wells and ponds for livestock water and several others. Operators may receive up to 80 per cent assistance, depending on the practice.

Pittard pointed out that the program has several advantages. It is flexible and can be modified to meet the particular individuals' needs. There is no limitation on assistance except on irrigation. Crop allotments are not affected during contract and the program may be used in combination with other government cost-share plans.

At present, range work such as; reseeding, range chiseling or pitting, controlling brush or shrubs, and initial establishment of a permanent vegetative cover accounts for well over half of the fund distribution.

The 150,000 residents of Stockport, England, include 2,300 aged over 80.

PROTECT OUR CHILDREN... drive carefully!

With the opening of our schools Monday for the new Fall Term, we motorists must exercise every possible caution for the safety of this community's boys and girls. They will be walking back and forth to school. Sometimes they may not look before they dart into the street. The traffic pattern around our schools is not the best possible one, which makes it all the more important for all of us to put safety first. It may take a little longer to be careful—but really no one is in that big a hurry.

New financing plan seen for river dam

(Continued from Page 1)

ly guarantee the payment on time of both principal and interest.

BY MAKING THE state bonds revenue bonds only, the district could qualify without oil company income for the sale of \$3,000,000 "first lien" tax and revenue bonds to the federal agency.

Under the original financing plan—and still contained in the new one—a tax rate of from 55.3 cents to 57.1 cents per \$100 will apply for the first three years the water district is in operation to create the necessary sinking fund for debt obligations. This is on a 95 per cent tax base.

The engineering firm of Freese, Nichols and Endress of Fort Worth in a written report to the White River directors declared that "if the Community Facilities Administration of the Housing and Home Finance Agency and the Texas Water Development Board will agree to the financing as herein proposed, we believe that it will result in a very favorable project for the district and the four cities from the standpoint of cost of the project in terms of cost of the water filtered and delivered in elevated storage in the cities and from the standpoint of minimum tax liability."

THE FINANCING picture was brighter, the report pointed out, than the original financing plan indicated for three reasons: (1) because Post is already using more water than had been estimated by the engineers, (2) because the Postex Mills will install a dye plant and thus use considerably more water when such water becomes available, and (3) lake recreation and other miscellaneous revenues which would safely accrue to the district had not been figured in the original financing plan.

Engineers now estimate miscellaneous revenues to the district at \$15,000 annually.

These will include recreation revenues such as boat licenses, fishing permits, campsite leases, and pipe line sales to rural customers and drilling rigs.

The lease of 150 camp sites at \$100 per annum each would bring in \$15,000 per annum, the engineers pointed out in the report.

IN THE FIRST six months of this year, engineers said, recreational revenues at Lake Thomas near Snyder totaled \$48,964 with \$15,582 being received in addition from water sales to nearby rural users. The White River lake of course would be considerably smaller than the Lake Thomas operation but a \$15,000 miscellaneous income appears conservative, the engineers said.

Engineers pointed out that "although the past 12 months have been comparatively 'rainy', the water use at Post is already exceeding our estimate made in July, 1957, by some 36,500 gallons per day. Also a planned dye plant at the Postex mills will use an additional 46,000 gallons per day or so as soon as water can be made available. For these two reasons, the engineers said, "we are justified in increasing the estimated use of water by the cities in the amount of 100,000 gallons per day. This would bring in an increase of net operating revenues of \$9,600 per annum."

The engineers' written report had this to say about the future probabilities of sale of surplus water to oil companies for water flooding of Garza County fields:

"THE SALE OF 11,500 barrels per day of water to the oil companies with net revenues of \$46,500 per annum would result in there being no tax liability on the district in meeting the debt service on bonds sold the U.S. and the state after the initial three years

DOUBLE TAKE

Two hands are needed to drive out the thirst during a recent heat spell in Moscow. The lady is downing cold soda water.

except for an estimated average of \$10,000 per year for the six years, 1966-71, requiring an estimated average tax of 4.2 cents per \$100 for the six years.

"There will be an additional 22,000 barrels per day or \$25,000 gallons per day available for sale from the project when it starts operating. We believe that there will be a demand from the oil companies for a substantial part of this water which is surplus to the municipal requirements of the cities.

"THE OIL companies are experimenting with pilot water flooding plants and indicate they will want 25 to 30,000 barrels per day. However, it is apparent that they are not willing to contract for the water until the various fields have been utilized, the water flooding projects approved by the Railroad Commission and possibly the water "in sight." Since water was stored in Lake Thomas, the Colorado River Municipal Water district has been selling an average of approximately 200,000 barrels per day to the oil company repressuring units.

The engineers went ahead to even indicate a possibility of future reduction in the cost of water to city users:

"Since the sale of 11,500 barrels per day to oil companies would substantially eliminate any tax liability on the part of the White River Municipal Water District, any net revenues from the sale of surplus water to the oil companies above the 11,500 barrels per day, any increased sales to the cities above those estimated, and any increase in miscellaneous revenues above \$15,000 per year, could be applied to a reduction in the 30 cents per thousand gallons price for water sold by the district."

McLAUGHLIN, IN discussing the financial proposal to substitute taxes for income from the oil companies, declared: "I don't believe it would be a burden on anybody, if we had to go all the way without the commitment for the loan without a full year's notice."

Discussing the federal agency's commitment for a \$3,000,000 loan if all conditions are met, McLaughlin said the agency can't withdraw "This is a little different from what we started out with," McLaughlin said. "We told the people

Civil defense booklet gives building plans for 5 basic shelters

AUSTIN — A new 36-page civil defense booklet, "The Family Fallout Shelter," gives detailed building plans for five basic shelters.

It may be obtained without cost by writing the State Civil Defense Office, Capitol Station, Austin.

James H. Garner, acting state coordinator of civil defense, pointed out that numerous recent studies have underscored the importance of fallout shelters, even in the remotest rural areas.

Radiation, called "the silent killer," cannot be seen, felt, tasted, or smelled. But a nuclear attack on just the critical military targets in this country could send fallout over almost the entire country.

Some studies estimate an adequate system of shelters could save as much as three-fourths of the population.

Cost to each family would, in some cases, be hardly more than early television sets cost when millions of families began installing this new entertainment in their homes.

A do-it-yourself basement shelter would cost from \$150 to \$200. Above ground shelters cost more, from \$700 to \$2,000, depending on the elaborateness of the plan and the amount of help hired.

Some saving is usually possible if the shelter is built at the same time as the house.

Atlantic flier Charles Lindbergh was born in Detroit, Mich., but his teen-age home was Little Falls, Minn.

IT WAS BOUCHIER at the July meeting who first proposed substituting a low tax levy for the oil company income.

In the discussion, a letter from the Crosbyton city commission to the directors was read, which pointed out that the water situation at Crosbyton has grown much more dangerous this summer.

The letter said Crosbyton now has only three wells pumping only 365 gallons per minute to provide for the city's needs after two other wells, thought good this spring, failed.

"We do not know how long it will be before we will have to curtail the use of water in Crosbyton," the letter said. "In May we had five wells pumping enough water to take care of our needs for two years. Then two of the wells virtually went dry."

The Crosbyton city commission promised full cooperation to speed the dam's construction in any way possible.

Spur representatives reported that that community "is not in good shape" water-wise either and that "we'll have to drill some more wells."

POST REPORTED on the dangerous day-to-day situation here.

Powell Shytles, Post mayor, told the White River directors that "the commission at Post has all the confidence in the world in you and you have our support."

George Gabriel, Spur director, declared: "I don't believe we'll have any trouble on this proposal in Spur."

It is now proposed, the engineers reported to the directors, to complete the dam sufficient to catch spring run-off in 1961 and to allow for two run-off seasons before starting operations. This increases the construction period to three years rather than two as originally contemplated.

It is proposed to complete the filter plant and pipe lines by the end of 1961. If the lake catches sufficient water to start operations by the first of 1962, there will be estimated net revenues from the sale of water to the cities in 1962 of \$120,000 which has not been taken into consideration in the new proposal.

IN ANOTHER action by the directors, approval was voted for additional coring and soil studies at the dam site to facilitate completion of the final plans and specifications of the dam and reservoir. Mason and Johnson and Associates of Dallas were employed to do the work at a cost not to exceed \$7,290 with \$2,000 payable upon com-

RITES HELD

Funeral services for Jack Samson (above) were conducted here Aug. 16. Mr. Samson, member of a prominent Post family, had been a resident here since 1911. The above engraving was delayed en route to The Dispatch, arriving too late to appear with the news story of Mr. Samson's death and burial in last week's Dispatch.

SUNDAY GUESTS

Sunday guests of Mr. and Mrs. Sexton Huntley were her parents, Mr. and Mrs. G. E. Leonard of Levelland, her aunt, Mrs. Belinda Dunahou of Richmond, Calif., a sister, Mrs. Georgie Mayfield and another sister and brother-in-law, Mr. and Mrs. Archie Norman of Levelland.

FORMER RESIDENTS VISIT

Mr. and Mrs. H. H. Huntley and family of Pampa visited Friday through Sunday in the Sexton Huntley home and with other relatives and friends. They are former Post residents, where he was co-owner of TV-Appliance Center.

In high school ag department

Welding short course slated for November

A short course in welding for the farmers of the area will be held in November in the Post High School vocational agriculture department. The course is to be sponsored in the local high school by D. H. Koeninger, vocational ag teacher, in cooperation with the Texas Education Agency. Approximately 15 men will be allowed to enroll in the course with a tuition charge of \$5 each.

Included in the course will be

WEEKEND IN ABILENE

Mr. and Mrs. Eddie Stewart and daughter, Kelly Lynn, spent the weekend in Abilene visiting his mother and family, Mr. and Mrs. Bill Boydston. While there, they also visited with Mr. and Mrs. Melvin Taylor, Mr. and Mrs. Curtis Bilbrey, and an aunt and uncle, Mr. and Mrs. Jesse Mansee, from Houston.

such basic information as the and proper operation of the welder; striking and running a bead for the four basic positions; heat treating; selection of size of torch and the acetylene torch.

"We believe," Koeninger said, "that the farmer will receive many times the value of the course by application on the farm."

The tuition charge is to be materials used in the course. The course will consist of meetings, probably twice a week for three weeks, the ag teacher said. This will be for a total from 18 to 20 hours instruction.

Definite plans for the course to be announced early in November at which time contacts may be made for enrollment in the course.

"Farmers who are interested in the short course may contact at the high school or at home," Koeninger said.

U.S. OIL

Indispensable in our way of life... vital to our national defense

In the 100 years since the drilling of the first oil well in the United States, the usefulness of petroleum has been often demonstrated in many ways... It is an economical and efficient source of energy and a raw resource convertible through petrochemistry into innumerable useful materials... It is indispensable in our way of life, and vital to the national defense.

It is comforting to know that today's reserves are ample for today's needs. And if incentives to undergo the heavy risks involved are continued, there is no doubt that more oil will be discovered and produced to replace the oil we use...

The United States has found, produced, refined, and used more oil than any other nation. This has made petroleum products a feature of the abundant American life. Americans use more petroleum products than any other people on the globe.

The past is prologue to the future. During its second century, oil can serve you and your grandchildren, and the nation, as well or better than ever before.

OIL'S FIRST CENTURY - BORN IN FREEDOM - WORKING FOR PROGRESS

The Humble Company, incorporated in 1917, has participated in the development of new and better ways to find and produce oil, and in the research that has improved petroleum products and discovered countless new uses for oil and natural gas. Humble is a major producer of U. S. oil, with production extending all across the southern tier of states from Florida to California. Marketing operations are carried on in Texas, New Mexico and Arizona. Humble's Baytown refinery, near Houston, is one of the great refineries of the world. (Humble Pipe Line Company, a major transporter of crude oil and finished products, operates more than 9000 miles of pipe lines in Texas.)

Running
when
School Opens Monday, Aug. 31**

Don't be the motorist who in one horror-filled moment must ask himself the question, "why?", or try to explain it to the parents of the boy lying still and quiet in the street. Hundreds of Post youngsters start back to school Monday - full of exuberance and fun. Be extra careful where they are concerned. Parents taking and picking up their children at school should be sure they drive up on the "school side" of the street so the youngsters don't have to cross that busy street.

BIG CAT KILLED IN BACK YARD

Bobcats and rattlesnakes reported on the prowl in Graham community

By MRS. DILLARD THOMPSON It seems that Bobcats are roaming around quite a bit. Melvin Stewart recently killed a large one in their back yard. Then just a few nights later a large one crossed the road in front of Kenneth and Patsy Thompson just south of the C. N. Chandler home. Rattlesnakes are also drifting around. Jimmy Doggett killed one last week—first one killed on his place in several years and some have been killed over at the Earl Gregg, E. M. and Gerald Norman homes.

A small amount of moisture fell in our vicinity Monday afternoon, measuring about .94 of an inch. There have been quite a few on vacation and some still are gone. Mr. and Mrs. Jimmy Doggett, Lee, Bill and Shirley, returned Monday of last week from vacationing in Colorado.

Mr. and Mrs. Cecil Propst of Fort Worth were guests of his brother and sister-in-law, Mr. and Mrs. Jess Propst from Thursday until Saturday. Clarky Cowdrey has been ill for the past two weeks and was a patient in Slaton Mercy Hospital part of last week. Best wishes, Clarky, for a speedy get-well.

I'M SURE Mr. and Mrs. James Stone, Leita, Kathy, and Mary Ann, were happy to get moved into their new home last week. Sunday guests in their home were Mr. and Mrs. Jerrel Stone and family of Artesia, N. M., and Mr. and Mrs. Randall Laurence and children of Austin.

Sunday guests in the home of Mr. and Mrs. Glenn Davis and Carol were Mr. and Mrs. E. A. Hargrave and Mr. and Mrs. Lonnie Peel and Gene.

Mr. and Mrs. Tommy Markham and children visited recently in Colorado Springs with her sister and family Mr. and Mrs. Merle Jenkins.

Mr. and Mrs. Earl Gregg were hosts Sunday for a Gregg reunion.

Business, election sessions slated by Assemblies of God

The Rev. J. R. Brincefield, pastor of the First Assembly of God Church, announces the national biennial business and election sessions of the Assemblies of God in San Antonio, Aug. 28 through Sept. 1.

Sessions of the convention will be held in the San Antonio Municipal Auditorium and the Alamo Stadium. Daily meetings will be in the auditorium and the Sunday evening evangelistic service will be conducted in the stadium.

The Rev. Ralph M. Riggs, Springfield, Mo., general superintendent of the Assemblies of God, will open the convention with an address Wednesday evening, Aug. 26. Daily devotional and evening evangelistic services will continue throughout the convention. In addition, business, elections, and reports will be included in afternoon sessions.

Services of the convention will be open to the public. Persons desiring additional information on the sessions may contact Rev. Brincefield for a complete schedule of activities.

Those enjoying the day were Mr. and Mrs. Hub Gregg and Mr. and Mrs. Carl Gregg and children of Miami, Fla., Mr. and Mrs. H. F. Gregg of Abernathy, Mr. and Mrs. Bobby Gregg of Whittier, Calif., Mr. and Mrs. Jess Gregg and children of Ropesville, Mr. and Mrs. E. M. Gregg and family of New Home, Mr. and Mrs. R. M. Gregg and Mr. and Mrs. M. R. Rowland and sons of Ropesville, Mr. and Mrs. Jack Starns and family of Lubbock, Mrs. Gene Gunn and sons of Abernathy, and the hosts. Afternoon visitors were Mr. and Mrs. C. W. Roberts and Waymouth of Tahoka.

Mr. and Mrs. Darrel Stone, Mr. and Mrs. Frank Smith, and Mr. and Mrs. Bill Stone were Saturday night guests in the Ray McClellan home.

MR. AND MRS. Orvell Morris of Tullia visited last Tuesday in the Close City community with Mr. and Mrs. D. C. Morris and with the Dillard Thompson family.

Mr. and Mrs. Fred Gossett and Rev. and Mrs. Douglas Gossett and children of Abilene left Thursday for a few days vacation in New Mexico.

Overnight guests Thursday in the Elmer Cowdrey home were their daughter and family, Mr. and Mrs. Jake Sparlin and children of Odessa.

Mr. and Mrs. Roy Priest and family of Brownfield and Bob Hoover of Lubbock were dinner guests Sunday of Mr. and Mrs. S. D. Lofton and supper guests of Mr. and Mrs. Elmer Cowdrey.

Mrs. Mutt McGaugh and Mike of Abernathy were Wednesday guests of her parents, Mr. and Mrs. Jess Propst. Sunday guests were Miss Ida Montgomery of Slaton and Jimmy Napier of Lubbock.

Mr. and Mrs. Gien Hill of Graham visited Sunday with Mr. and Mrs. Elvius Davis. Their son, Allan returned home with them after a visit here and at Tullia.

SUNDAY GUESTS in the home of Mr. and Mrs. Delmer Cowdrey and Clarky were her brother and sister-in-law, Mr. and Mrs. Gus Clark and Kathy of Littlefield.

Mr. and Mrs. Grover Mason and G. T. Mr. and Mrs. Jody Mason and Joe, Mrs. Joe Aimo, Kim McClellan, Mr. and Mrs. Nolan Williams and Karen, Mr. and Mrs. Bob Mason and daughters and Mr. and Mrs. Billy Lester and sons visited Sunday evening in the Bud Mason home.

Patsy Thompson spent Sunday with Shirley McBride. Afternoon visitors were Mrs. L. E. McBride, Verle and Vada.

Katie McClellan is living in Lubbock and is employed by the Homer G. Maxey Co.

Shirley Doggett spent Sunday with Gloria Thompson. Afternoon visitors in the Thompson home were Mr. and Mrs. Jimmy Doggett, Mrs. Jess Gregg of Ropesville and Mrs. C. W. Roberts and Waymouth of Tahoka. Visiting Thursday afternoon were Mrs. Ray McClellan and Kim and Mrs. Elmo Bush.

Mr. and Mrs. Alvin Davis and children of Brownfield attended church Friday evening at the Graham Church of Christ and were overnight guests of his parents, Mr. and Mrs. Glenn Davis and Carol.

J. C. Howard and Kenneth were

in Old Mexico last week vacationing. They returned home Thursday night.

Mrs. Joe Aimo and children spent last week in Post with her sister and family, the Billy Stones.

Those from here attending the surprise birthday party in Post Friday night at the home of Sharon Isaacs for Donald Young were: Kenneth Howard, Delwin Fluitt, Kenneth and Patsy Thompson.

Linda McMahon returned recently from a trip to California. She then accompanied her parents, Mr. and Mrs. Bill McMahon, on a vacation trip.

Mr. and Mrs. Lonnie Peel and Mr. and Mrs. Glenn Davis were in Lubbock Wednesday.

Mr. and Mrs. Ray McClellan and family and Mrs. Elmo Bush and Ricky visited in Post Sunday with Mr. and Mrs. Morris McClellan.

Mr. and Mrs. Carl Fluitt also visited in the McClellan home.

Mr. and Mrs. Quannah Maxey, Jane and Diane, and Mr. and Mrs. Bryan Maxey and Don attended a family reunion in Fort Worth this weekend and visited in Weatherford, Granbury, and Lipan with relatives.

MR. AND MRS. Quannah Maxey became grandparents Monday at 1:33 a. m. when a son was born to Mr. and Mrs. Noel White at West Texas Hospital in Lubbock. He weighed eight pounds one and one-half ounces and was named

Steven Jay. Mr. and Mrs. Lowell White of Post are the paternal grandparents.

Pvt. Franklin Maxey arrived Friday from Fort Leonard Wood, Mo., for a two week leave with his wife, Naomi, and his parents, Mr. and Mrs. Bryan Maxey, Simons, Kay and Don.

Mrs. Juanelia Mahmood and children visited Thursday in the Carl Fluitt home. Sunday dinner guests were Lois Edwards, Mrs. Maud Thomas and Jerry Bush.

Mrs. Lucille McBride and Mrs. Mary Lee Wristen visited in Lubbock Monday at West Texas Hospital with Mrs. Noel White and baby. Other Monday visitors were Mr. and Mrs. Carter Gene White.

Mrs. Maud Thomas and Mrs. Carl Fluitt visited Wednesday afternoon in the homes of Mrs. Ray McClellan, Mrs. Eva Childs, and Mrs. Era Aten.

Former residents are visitors in community

Mrs. R. V. Burnes and family left Sunday for Lometa after a few days visit with her parents, Mr. and Mrs. J. R. Matnis. They also visited her sister-in-law and family, the V. H. Kuykendolls, and their many friends in and around the Pleasant Valley community, where they lived for several years.

Mrs. Paul Lee of Moline accompanied Mrs. Burnes to Post, where she visited her sister and family, the Leo Barkers of Pleasant Valley.

Mr. Burnes is in San Angelo, where he is running custom combines.

Horse thievery was punishable by death in Minnesota until about 1872.

SOUTHLAND AND GORDON NEWS

Bobby Warshaw in hospital from injuries received in road mishap

By MRS. JESSE WARD Bobby Warshaw is in Mercy Hospital at Slaton suffering from injuries received in an accident Monday when a pick-up overturned. He is the son of Mr. and Mrs. Kenneth Warshaw.

Brenda Dabbs, daughter of Mr. and Mrs. Herman Dabbs, underwent tooth surgery Monday in St. Mary's Hospital in Lubbock.

Mr. and Mrs. Ed Denton, Mr. and Mrs. Earl Morris, W. P. Lester and Howton Haire attended the funeral of George W. Small of Tahoka, held at the First Methodist Church in Tahoka Friday afternoon.

MR. AND MRS. J. B. Rackler, J. B. Jr. and Beverly, returned home last Thursday from their vacation. They visited relatives in Murfreesboro, Tenn., and from there they went to Jacksonville, Fla., then up the East Coast and through the Smoky Mountains in the Carolinas. They report a fine vacation trip.

Mr. and Mrs. Walter Burkett of Lamesa spent last weekend with Mrs. Thelma Burkett. Other Sunday dinner guests were Mr. and Mrs. Jack Meeks, Mr. and Mrs. Carl Chilcoat and Joann, and Mr. and Mrs. Jack Burkett and children.

Sunday afternoon Mr. and Mrs. Martin Edmunds' son-in-law and daughter, Mr. and Mrs. S. A. Wall, and children, of Florian, La., arrived for a few days visit. Other Sunday visitors were their two sons, Mervin Edmunds and Mr. and Mrs. Glenn Edmunds of Lubbock.

MRS. HATTIE Burkett of Lubbock spent last week with her sister-in-law, Mrs. Thelma Burkett, and attended the revival at the Pleasant Valley Baptist Church.

When Residential Mail Delivery begins here in a few short weeks, the mail man can deliver your POST DISPATCH on Friday morning at your home, or if you are going to maintain a post office box you can receive it there each Thursday afternoon. Your other choices are to either buy your paper at a grocery store, drug store, or to buy it from one of our newsboys each Thursday afternoon. If you want home mail delivery please let us know well in advance so we can have your paper ready for mail delivery when the service is inaugurated. The change over from postal box to home delivery will be made smoothly — if you act NOW, and give us the necessary time for subscription changs-over. Thanks. The Post Dispatch

Merchants to be tax collectors

Most merchants who have patiently tangled with all the red-tape connected with withholding wages from their employees for federal income tax and the bookkeeping and time-consuming social security tax deductions, soon will have a bigger headache to contend with.

Beginning Tuesday, Sept. 1, these merchants and thousands of others throughout Texas will be collecting taxes for the government of the state of Texas.

State comptroller Robert S. Calvert directs the vast tax collecting system. His department has been working under a time-pressure with only 25 days to put collection procedures into operation.

TEXANS WILL PAY \$93,000,000 a year in new taxes.

New taxes hit air conditioners, new taxes hit air conditioners, cars and other tobacco, furs, precious metals and stones and more than \$25, boats and motors and occupancy fees of 3 per cent on hotel and motel rooms costing more than \$2.

Increased taxes include 8 cents per pack on cigarettes, 2.2 per cent perfume and colognes and the new cosmetic tax, new license for many coin-operated machines and the 1 1/2 per cent severance beneficiary natural gas tax

aimed primarily at pipelines. Taxpayers already know about many new levies, Calvert said.

DIRECTOR CHARLES WATSON of the cigarette tax division agrees. His proof: Cigarette sales in Texas hit an all-time high during July. The state collected a record \$4,703,722 in cigarette taxes, and August will set another monthly record.

The big problem, Calvert said, is finding the new tax collectors.

You must have a special \$5 a year license if you sell phonographs, radio and television sets, and component parts, boats and motors, and air conditioners. These items are taxed from 1.5 to 3 per cent at the retail level.

Another \$5 license is needed if you sell cosmetics, playing cards, semiprecious stones and metals and furs. This affects about 14,000 retailers said Albert Brown, director of the store tax division.

ALTHOUGH 150,000 store taxes are issued annually, about 40,000 to 50,000 more retailers must pay special fees now, Brown said.

He said the store taxes will be collected monthly on air conditioners and other items.

The 7,000 hotels and motels will

pay quarterly but don't need a license.

"Although there is no penalty for not paying the new tax on rooms, we don't anticipate any trouble," he said.

Brown's division gets the taxes via the consumer-retailer-wholesaler-distributor method. On cigarettes, Watson has help from State treasurer Jesse James, who sells special stamps to distributors.

"**WE AUDIT THE** sale of stamps and cigarettes," Watson said. "We now license about 290 distributors, 90,000 retailers and 710 wholesalers. About 40,000 more retailers will be licensed this year because of the new taxes on cigars and other smoking tobacco."

Tax collection on cigars and other tobacco—except snuff which is exempt—opens a new theory to Texas, Watson said.

"Distributors will report monthly and pay the tax," he said. "It is almost foolproof and no trouble is expected. They must be bonded and everyone seems anxious to cooperate."

The new cigar and tobacco tax means many businesses—such as service stations—will need the new \$5 license.

"**ABOUT HALF** the permits existing now are for vending machines selling cigarettes," Watson said. "Although they have a vending machine, they still need a license to sell cigars."

Retailers selling cigars and cigarettes over the counter need only one license.

Watson's division also is responsible for numerous minor occupation taxes plus those on coin machines. He said coin-operated

ENDS TRAINING

Army Pvt. Joe W. Cartmill (above), son of Mr. and Mrs. J. H. Cartmill, recently completed eight weeks of military police training at the Provost Marshal General's School, Fort Gordon, Ga. Cartmill received instructions in self-defense, traffic control and the basic procedures of civil and military law. He entered the Army last February and completed basic training at Fort Chaffee, Ark. The 22-year-old soldier is a 1954 graduate of Post High School. His wife, Carolyn, lives in Augusta, Ga.—(U.S. Army Photo)

MANY FAMILIES HOSTS TO VISITORS

Comings and goings highlight the week's news in Justiceburg area

By CAROLYN McCOWEN

Mrs. Weston of Midland visited her daughter and family, Mr. and Mrs. Roper over the weekend.

Mr. and Mrs. Weldon Reed were in Post Friday night where they visited her brother and sister-in-law, Mr. and Mrs. Novis Pennell.

Mr. and Mrs. A. V. McCowen and family visited in Lubbock Saturday with her brother and family, Mr. and Mrs. A. C. Wilson. Mrs. Nelda Blackman, Mike and Terry, returned home with them for a visit.

Mrs. Bertha Pike and Ann of Post visited Friday in the home of her daughter and family, the B. W. Wilsons.

Mr. and Mrs. Mason Justice and Dee Cecil and Mr. and Mrs. Cecil Smith were in Clovis, N. M., Sunday.

VISITING IN the home of Mr. and Mrs. Henry Key last week were their grandsons, Joe Key and Ronnie Lee Page of Tulla.

Dell Ross Claiborne has returned home after a visit in Seminole with his mother, Mrs. Joyce Hancock and family.

Mrs. Clyde McAllister and daughters visited in Post recently with Mrs. L. E. Baugh, Bud and Vickie Lynne.

Mrs. Henry Key and Mrs. Etta Clarkston visited in Slaton Monday with their sister and daughter, Mrs. Hern Pettigrew and family.

Carolyn Dugger of Post visited several days last week with her cousin, Mrs. Weldon Reed.

Visiting in the A. V. McCowen home Friday night were Mr. and Mrs. Weldon Reed, Mr. and Mrs. B. W. Wilson and children, Mr. and Mrs. Lloyd Baugh, Bud and Vickie Lynne of Post, and Mr. and Mrs. A. C. Wilson and family of Lubbock.

MRS. CECIL Smith and Mrs. Mason Justice were in Big Spring Wednesday. Cecil Smith returned home with them from the hospital there.

Mr. and Mrs. Weldon Reed visited in Post Friday night with her brother and sister-in-law, Mr. and Mrs. Novis Pennell.

Visiting in the home of Mr. and Mrs. Claude Pettigrew over the weekend were Mr. and Mrs. Kenneth Hale and children of Alamo-gordo, N. M., and Mr. and Mrs. Bryan Morgan of San Antonio.

Visiting in the A. V. McCowen home Saturday night were Mr. and Mrs. Fred Taylor and Ann of Post.

Mr. and Mrs. B. W. Wilson and daughters visited in Post Saturday with her mother, Mrs. Bertha Pike.

MRS. JOYCE Hancock and daughters of Seminole visited her mother, Mrs. Etta Clarkston, recently.

Mrs. Mason Justice and Dee Cecil and Cecil Smith were in Big Spring Monday morning on business.

Visiting Mr. and Mrs. A. V. McCowen Wednesday night were Mr. and Mrs. Joe McCowen and Johnny of Post, Mr. and Mrs. Bill Wilson and daughters and Mr. and Mrs. E. M. Woodard.

The B. W. Wilson family visited Sunday in the Post homes of Mr. and Mrs. L. E. Baugh, Bud and Vickie Lynne, and Mr. and Mrs. Fred Taylor and Ann.

Pearl Nance was in Snyder Wednesday night visiting her mother, Mrs. L. N. Perriman.

Mr. and Mrs. Bobby Page of Tulla visited here with her parents, Mr. and Mrs. Henry Key, recently.

Careless hauling of livestock can cause big losses

COLLEGE STATION — Careless hauling and handling of livestock can cost producers a lot of money, says U. D. Thompson, extension animal husbandman. A recent USDA study shows the loss from careless hauling of livestock amounts to about \$100 million annually for the nation.

Four major causes account for most of this loss, says Thompson.

First, almost a fourth of all trucks hauled either too many or too few livestock. Animals shouldn't be crowded but the load needs to be fairly snug to avoid shifting. Marketing agencies and most truckers have charts which tell how to load according to type of animal and available floor space.

Second, only half of the loads were partitioned by type of animal. Horned cattle were seldom partitioned, resulting in much bruising and crippling. Partitions need to be put up between animals of different sizes and types, the husbandman says.

Third, almost 30 per cent of the trucks had little or no bedding, leaving the danger of animals slipping or falling. Floors need to be "slip-proofed" with sand, shavings or sawdust, and a straw covering should be used to absorb moisture.

And fourth, the animals weren't handled properly when loaded and unloaded. Some truckers — and farmers too—used clubs, shovels and sticks. More than half the hogs and a fourth the cattle were mishandled as a result. Thompson says the only proper way to urge livestock a long is with canvas slappers or electric prods, as clubs will injure the flesh.

In order to avoid losses, Thompson urges growers to make sure their livestock are hauled by reliable truckers. And be on hand when your cattle, hogs or sheep go into and out of the truck. Until sold, it's still your livestock. Producers eventually pay for these injuries, despite hauling insurance, he adds.

Santa Fe carloadings

Santa Fe carloadings for week ending Aug. 22 were 22,833 compared with 23,542 for the same week a year ago. Cars received from connections totaled 10,166 compared with 11,039 for the same week a year ago. Total cars moved were 32,199 compared with 34,581 for the same week a year ago. Santa Fe handled a total of 32,514 cars in the preceding week this year.

WEEKEND VISITORS

Mr. and Mrs. Wayland McClellan of Muleshoe visited over the weekend with his parents, Mr. and Mrs. Jock McClellan.

LOUISIANA VISITORS

Visiting Mr. and Mrs. E. H. Britton are her niece and nephew, Mr. and Mrs. Glenn Ofallon and children of Bastrop, La.

VISITING PARENTS

Mrs. Billy Joe Mahmood and children of Grants, N. M., are visiting her parents, Mr. and Mrs. Jock McClellan.

TO HOLD SERVICES

Lynn Dale McDaniels will hold services at the Nazarene Church Sunday in the absence of Rev. Cecil Stowe, pastor. Rev. Stowe is attending the church camp at Glen Rose.

Solons pass new farm measures

Major farm legislation passed by the regular session of the Texas Legislature this year included laws which:

1. Outlaw the use of live-virus hog cholera vaccine in Texas.
2. Revise statutes on tuberculosis allowing a re-accreditation of counties for control of TB.
3. Establish a comprehensive program for eradication of brucellosis (Bang's disease).
4. Control movement of livestock out of markets back to the country so that spreading of disease will be prevented.
5. Require reporting by veterinarians to disease-control agencies of certain diseases.
6. Makes mandatory cooking of garbage in commercial hog-feeding operations.
7. Changes the name of Texas Livestock Sanitary Commission to Texas Animal Health Commission.

TO TEACH IN FRIONA

Bill Bennett left Wednesday for Friona where he will assume duties as physics, biology, and chemistry teacher at the Friona High School. He was accompanied by Mrs. Bennett.

shuffle boards and ten pin alleys must pay a higher license fee. It is now \$10 and can go as high as \$60 a year.

Shooting gallery machines also will go up from \$15 to \$60 in many cases.

He said brokers' license fees increased from \$10 to \$12 and the licensing law for insurance adjusters is broadened.

"**THE NEW TAXES** may even hit the kids," Watson said. "You know the electric hobby horses in the supermarkets? They were exempt. But if the ride costs more than a nickel, the machine operator now has to pay a \$60 license fee."

Calvert said after Sept. 1 his department's reorganization will move at a faster pace. The Legislature authorized installing of new electronic equipment and appropriate more money for operations.

"We need to study it more," Calvert said. "We got more money but we'll need more people too. And there are a lot more taxes to collect now."

Post girl joins WAC; undergoing basic training

AMARILLO — The Women's Army Corps, female branch of the U. S. Army, added a Post girl to its ranks recently.

Miss Patsy Sue Cooper, 18, daughter of Mr. and Mrs. Calvin L. Cooper, was administered the oath of enlistment into the Army by Lt. Hilton S. Sanderson of the Amarillo Army Recruiting Station.

Patsy is now deep in the "heart of Dixie" at the spacious new Women's Army Corps Center, Ft. McClellan, Ala., where she will undergo an eight week period of basic training. The Center, built in 1955, covers approximately 25 acres and is located in the rolling pine-covered hills of the Appalachian Mountains. Built to fit the needs of women, all its facilities such as the dormitory style barracks, classrooms, chapel, theatre, bowling alley, beauty shop, post exchange, and swimming pool, are the most modern in design and equipment.

At Ft. McClellan, the newest members of the WAC are taught the principles of working and living together harmoniously in a training situation. Here, these young women will acquire a good working knowledge of such subjects as First Aid, Personal Hygiene, Group Living, Defense Against Atomic and Chemical Attack, Military Law and Discipline to name but a few plus a three-day field trip designed to teach the women of the Army the fundamentals of campcraft and outdoor living.

Upon completion of basic training, Private Cooper will attend one of the Army technical schools available to women.

people who are at home with quality... choose GAS air conditioning!

Whether the day is blistering hot or cold and blustery, pass through a doorway that promises gracious living and you're likely to find an atmosphere made miraculously fresh and comfortable through the marvel of Arko-Serve GAS all-year air conditioning. Never before has there been an air conditioning system so technically simple, yet so compactly efficient. From the same space-saving unit, it heats and cools with a single fuel... a tiny Gas flame provides the energy for both winter heating and summer cooling. Because it operates on the absorption principle of refrigeration, there are no moving parts, your assurance of unrivaled quiet and years of trouble-free operation. And here's the Bonus Advantage of superior GAS air conditioning... operating costs are far below those of comparable units using other types of energy! All this with a five-year guarantee, too! Contact Pioneer Natural Gas Company tomorrow for all the facts on remarkable GAS air conditioning. It offers exciting proof that "where the finest is truly appreciated, Gas belongs!"

Fuel for a growing empire Pioneer Natural Gas Company

State Capital NEWS

By Vern Sanford

AUSTIN—Texas will have a virtual "government on wheels" for the last part of this month as 31 state agencies pick up their filing cabinets and move into the new State Office Building.

This is the second new headquarters building to be completed this year. First to be occupied was the new Texas Employment Commission building, completed only a few weeks ago.

Transferring into the new State Office Building undoubtedly will be the biggest move of state agencies since horse-drawn dray wagons moved the government into the present Capitol Building in 1880.

First to move will be a host of commissions, boards and divisions which have been in rented quarters scattered over Austin.

Later, probably October or November, another big move will take the Supreme Court, Court of Criminal Appeals, Attorney General's Department and Supreme Court Library out of the Capitol into the new State Courts Building. . . . third state building to be completed this year.

IT HAS BEEN the dream for some time of the Supreme Court's elderly Chief Justice John E. Hickman to stay on the job until the day he could preside in the new Courts Building.

Built of granite similar to that in the Capitol, but with modern styling, the new buildings are to the north of the Capitol. Combined cost of the two buildings is some \$7,000,000.

With all the happiness over the prospect of splendid new quarters, there are some regrets. Many employees are worrying about where they'll park their cars once all the scattered agencies move into one building.

Supreme Court jurists feel a touch of sadness at leaving behind the historic walnut bench, inscribed with the Latin phrase, "As God was to our Forefathers, so may He be unto us." It has been in use practically since the memory of man. Replacement is a handsome marble piece which the judges compare to a soda fountain.

A TINGLE OF excitement, fear

and hope runs through landowners and business people when they learn that a new super-highway is to come through their area.

Some residents fret over the prospect of losing the old home place. Others dream of wild profits. Businessmen worry whether the motorists will be able to get to their places.

As more and more expressways pierce the countryside, the State Highway Department is making every effort to explain the procedures for acquiring highway right of way.

Samples from recent official Department statements:

1. Although its first responsibility is to the public—the taxpayers and the Highway Department "tries to create a minimum of private injury or inconvenience."

2. When private lands are needed for public roads, the law guarantees "adequate compensation" to the owner. Independent professional appraisers are hired, and an "approved value" figure determined.

3. ONCE THE "approved value" is settled on, the Department negotiator can't "horse trade" with the landowner. This might reward the greedy and tough-minded at the expense of the timid or public spirited person. But a dissatisfied owner can have the matter settled in court.

4. When part of a piece of property is taken and the rest left isolated or of little value, the state will make payment for the loss of value.

5. Owners will be given ample time to move buildings to another site or find new buildings.

The Luckless Legion by Irwin Caplan

Driver error was responsible for 85% of the motor vehicle accident casualties in 1958.

6. If an owner with a GI mortgage has to sell, the Veterans Administration will restore his GI loan privileges for getting a new piece of property.

7. An owner who sells property for more than he paid for it will not have to pay income tax on the profit, providing he uses the money to buy similar property within a year.

8. Controlled access highways cannot have an entrance and exit for every piece of property along the way. Real estate developers are urged by the Department to contact the local planning engineer before making any commitments based on access to the through lanes of a controlled access road.

STATE BOARD OF Water Engineers has scheduled a hearing for Aug. 31 on the City of Houston's controversial bid for Trinity River water.

Houston seeks permission to build two reservoirs near the mouth of the Trinity, one near Livingston and one near Wallisville, and divert more than a billion gallons daily. Trinity River Authority and a number of upstream cities—Dallas, Fort Worth, Huntsville, etc.—are protesting that Houston is trying to grab the water supply from the whole river.

WITH TEXAS' 1959 traffic deaths running six per cent higher than last year, Gov. Price Daniel issued an urgent safety plea to Labor Day motorists.

He called on law enforcement agencies, civic organizations, safety councils and "most important of all, driver, to help in this most important of all Texas efforts, the saving of human lives."

Department of Public Safety reported traffic deaths for the first half of 1959 at 1,097, compared to 1,032 for the same period in '58.

TEXAS RANGE and pasture land is in the best condition since 1914, reports the U. S. Department of Agriculture. Good winter feed prospects for cattle are predicted. . . . Texas construction activity for the first half of 1959 totaled \$1,123,332,000, an increase of 11 per cent

over last year . . . A 1959 pecan crop of 27,000,000 pounds is forecast for Texas by the U. S. Department of Agriculture. This would be slightly better than the 26,000,000 - pound crop in 1958. . . . Governor Daniel has appointed Otha F. Dent of Littlefield to a new six-year term on the Board of Water Engineers. Dent is a former Lamb County judge. . . . J. T. Ellis Jr., former administrative assistant to Governor Daniel, has been appointed the top non-medical administrator for the State Department of Health. Ellis is a one-time state representative from Weslaco.

A Palermo, Sicily, firm is exporting "folkloristic donkey and horse carts".

HELD IN LUBBOCK

Close City folks attend reunion

By MRS. WILL TEAFF

Mr. and Mrs. Will Teaff and Dennis Popham, Mr. and Mrs. Howard Teaff and Howard Lee, Mr. and Mrs. Roy Teaff and Rodney, Mr. and Mrs. Delbert Cockrell and Freddie, Clinton Smith and Don Justice attended the annual Teaff-Isom reunion last week. The three-day event was held Friday through Sunday at Mackenzie State Park in Lubbock. One hundred and sixty relatives registered from 21 different towns.

Visitors in the Mike Custer home Sunday were Mr. and Mrs. Lawrence Sparks and Norma and Miss Jana Thompson of Rotan.

MR. AND Mrs. W. W. Armstrong of Freeport visited in the Roy Maddox home one day last week. Sunday visitors were Mr. and Mrs. Pete Maddox and Mr. and Mrs. B. Williams of Post.

Craig Stotts of Lubbock spent Sunday night in the home of his grandparents, the Will Teaffs.

Mr. and Mrs. Roy Maddox went to Merkel Thursday to see Tom Maddox who is in the hospital there.

Mr. and Mrs. Will Teaff left Monday for Merkel to be with her brother who is a patient in the hospital there.

SUNDAY VISITORS

Mr. and Mrs. Wesley Collins and family of Snyder visited Sunday afternoon with the O. E. Montgomery family and with Mr. and Mrs. Charles Williams Jr.

Two from Post will enroll in Wayland

PLAINVIEW — Starting a second half century with Wayland Baptist College on Sept. 4 will be the largest group of freshman and transfer students ever enrolled, according to Dean Maurice J. Sharp, director of counseling and guidance.

Among those enrolling for the first time will be Alice Frances Barron and Kathryn Kay Martin of Post.

All new students report at 8 a.m., Sept. 4, for a testing and orientation program prior to registration which begins on Sept. 7. All students will find many new facilities, including the new Flores Bible Building, which will be dedicated on Parents' day, Oct. 12. Opening days of school will have many social affairs for new students, including the President's Reception at which Dr. and Mrs. A. Hope Owen hold open house and introduce the new faculty to all students, an informal party given by Baptist Student Union, and still other affairs given by campus organizations and local churches.

Higher pay scale set for patrolmen

AUSTIN — The Texas Department of Public Safety announced today a higher pay scale for 1,000 patrolmen will go into effect Sept. 1.

Col. Homer Garrison Jr., director, said the pay of beginning patrolmen will be increased from the present \$300 per month to \$320 during the time they are in training at the Department's Law Enforcement Academy at Austin. It will be raised to \$350 per month during their period of on-the-job training in the field.

Upon completion of the full training period, patrolmen's pay will range between \$365 and \$388 per month, depending upon their assignment.

Garrison said the pay raise was made possible as a result of an increased appropriation made available for this purpose by the recently adjourned Texas Legislature.

Oil and its products are mainly hidden from view

The next time a hurried service attendant dribbles a few drops of gasoline on your car fender, don't be up—just stand in awe. Shades of Galileo, Magellan and Admiral Drake! That gasoline you're looking at is something that no human being has ever seen before.

Amazing? You can well believe from the moment that crude oil is raised from its underground home, it enters a closed system of pipes and tanks. The end of that system, which may be 1,500 miles more away, is the nozzle through which the gasoline pours into the tank of your automobile.

What lies between: well, a producer's lease tank, a pipeline, the tubes and joints of a refinery, a products line, a bulk station, a transport truck—and the service station, a complex system that hides

the oil and its products from view as effectively as nature conceals from us the other side of the moon.

THE FIRST OIL from Col. Edwin Drake's well at Titusville, Pa., in 1859 traveled a different route. You could see crude oil then, as it was poured into wooden tanks or dumped into wooden barrels to be hauled by wagon team and railroad flat car to refineries. They sold petroleum in glass bottles in those days, too, as medicine to treat all kinds of ills.

It was a matter of economic necessity that oil was first enclosed in a pipeline. The cost to haul a barrel of oil five miles by wagon was about four dollars. In addition, teamsters and wooden barrels couldn't keep up with the demand for transportation in the oil boom days of the early 1860's.

A man named Samuel Van Syckel

was the first to make a success out of putting together some pieces of iron pipe and pumping oil through them. He charged a dollar a barrel to move oil through his line from Pithole, Pa., to the Oil Creek Railroad, a distance of five miles. From that beginning in 1865 evolved one of the world's largest and most economical transportation systems.

TODAY, THE United States has a network of more than 200,000 miles of crude oil and products pipelines. The pipeline industry includes more than a hundred companies—small and large. Together they move nine million barrels of crude oil and products daily, serving half a million oil wells and more than 300 refineries.

A great majority of these pipelines are common carriers—required to provide transportation for any and all shippers, to the extent of their facilities. They are subject to the Interstate Commerce Act the same as other common carriers, such as trains, trucks, airlines and barges.

Service Pipe Line Co., which operates lines in this vicinity, is a common carrier transporter of crude oil with a pipeline system totalling more than 15,000 miles. It delivers 850,000 barrels of crude daily to 74 refineries directly or through connecting pipelines.

FROM ITS beginning in 1916 with 487 miles of pipe in Oklahoma and Kansas, Service has expanded to include gathering and trunk lines in 15 states. It employs some 2,500 people, and its total investment in lines, tanks, stations and other facilities is about \$270 million—more than \$108,000 per employee.

Twenty-four hours a day, the nation's pipelines use giant diesel engines and powerful electric motors to boost the unseen, unnoticed underground river of oil on its way.

Samuel Van Syckel, with his five miles of 2-inch line, started the industry that today provides the most economical overland means of transporting oil. One gallon of oil can be carried a thousand miles by pipeline for less than a penny.

Those few drops of gasoline that spilled over on your fender were transported from oil well to service station for only a fraction of one cent. Meanwhile, billions of other drops of petroleum will be used to produce light, heat, power, lubrication and innumerable other things—providing about two-thirds of our country's energy. And pipelines will deliver them to points of use, at the right time, in the exact amount, whenever the need arises.

You still have a gasoline stain on your car? Just open a can of wax—another petroleum product never before seen by human eyes.

Texan is in regional 4-H tractor contest

COLLEGE STATION—Sammie Swim of near Roaring Springs in Motley County will represent Texas in the Central States Regional 4-H Tractor Operator's contest to be held on Oct. 2 and 3 at Columbia, Mo. Swim won the right to participate when he was named top operator at the Texas 4-H Roundup in June.

Site of the contest will be the horse show arena of Stephens College, nationally known girls' school. Host will be the Missouri Agricultural Extension Service.

Top 4-H tractor operators from 19 states are scheduled to participate. This event tests both driving skill and the participants' knowledge of tractor maintenance. Participants are also graded closely on their safety habits when operating a tractor.

The winners of the first four places will receive trophies while each state representative receives an expense-paid trip to the regional finals.

The Thrill That Comes Once in a Lifetime A WESTER CLASSIC

LOS ANGELES VISITORS

Visiting in Post last week with their aunt, Mrs. F. L. Bailey and grandmother, Mrs. M. E. West, were Mr. and Mrs. Lincoln A. Sanders and children Susie and Lincoln Lee of Los Angeles, Calif. They returned to California Friday.

CONDUCTING REVIVAL

The Rev. Eugene Matthews, pastor of the First Methodist Church, is conducting a revival at the Knox City Methodist Church. The series of meetings began Sunday, Aug. 23, and are to continue through Saturday of this week.

Internal Revenue Service has good news for change

Believe it or not, the U. S. Internal Revenue Service is looking for 4,000 taxpayers in the Dallas District with some good news for them.

Uncle Sam, in the form of the Dallas District of Internal Revenue Service, has thousands of dollars in the form of refund checks which rightfully belongs to Dallas District taxpayers.

These are checks left over from the recent filing period. The checks, ranging from \$1 to \$4,000 have been returned in the mail for lack of proper address.

Ellis Campbell Jr., director of the Dallas District, announced the figures today in kicking off "Operation Refund."

He said a group of his employees have been searching telephone directories, contacting employers and attempting through other sources to find the correct addresses of the taxpayers to whom the refunds are due.

Now Director Campbell is asking taxpayers to do themselves and his office a favor. In an appeal of this newspaper, he said:

"If you are entitled to a refund check on the tax return you filed this year and have not received a letter from the Internal Revenue

GUESTS OF WRIGHTS

Recent visitors of Mr. and Mrs. Will Wright were their son and daughter-in-law, Mr. and Mrs. Kenneth Wright, and children, of Abernathy, and their daughter and son-in-law, Mr. and Mrs. J. M. Eichelberger of Lubbock.

WEEKEND IN ROTAN

Mr. and Mrs. V. H. Anderson spent the weekend in Rotan visiting his sister and family, Mr. and Mrs. Hooper Shelton, and an uncle, George Anderson of Abilene, who was a guest in the Shelton home.

About Your HEALTH

A weekly public service feature from the Texas State Department of Health.

The germs of lockjaw are commonly found in soil—especially manured soil. They enter through a break in the skin and emit a deadly toxin which causes jaw and neck muscles to contract so severely that jaws involuntarily close, vise-like.

Slowly the muscle constriction spreads to other body muscles, until the victim is bent like a bow.

Lockjaw germs are spore-formers, which means they can live for years outside an animal body. Its life processes lie dormant in a tiny seed-like pod, sitting about on the ground until finally, perhaps through a nail puncture, it gets back into live tissue.

The wound may heal over, but inside, protected as it is from the air, the spore may begin "revegetation" and emitting deadly toxin. The primary source of the germs is the intestinal tract of all animals. They're passed onto the ground in animal dejects, easily available for re-entry into a human body when that body is cut or scratched or otherwise wounded.

Exposures to lockjaw are so common that it is mere common sense for everyone to maintain a high level of protection via immunization. Such shots should be given children early in life, at the discretion of your family physician, and then maintain immunity with periodic boosters, especially following exposure.

(This is a weekly feature of the Public Health Education Division, Texas State Department of Health.)

VISIT LAST WEEK

Mr. and Mrs. Roy Brown and sons of Lubbock visited here last week with the W. C. Kikers, Mrs. E. L. Gilmore and Mrs. Susie Brown.
