

Speed highlights rodeo opener

g show
ntinues

With annual Southwestern Championship Rodeo got off its start here last night before a crowd of approximately 2,000 spectators.

Plans are to continue tonight, and Saturday night. Tonight's opening performance will last for four hours of the traditional parade.

In the grand entry, Miss Jane Hill, daughter of Mr. D. C. Hill, was announced as Rodeo Queen. Runners-up were Miss Jane Maxey, daughter of Mr. Quannah Maxey, and Mrs. Quannah Maxey, daughter of Mrs. J. L. Miller.

When presented a pair of cowboy boots from the Best Shop in Lubbock with presentation being made by Danielle Thuillier, French girl, who is a guest of the Post and Rotary clubs.

Second place trophies were given to riding groups were presented by Floy Richardson to the County Sheriff's Posse and by Rangers, in that order. Mr. Hart, daughter of Mr. and Mrs. Hart, received a trophy from the most typical young cowboy in the parade.

He himself got off to a late start as the events were run off early that the last event was

youngster is seriously hurt in motor mishap

Year-old Buddy Morehead of Mr. and Mrs. E. R. Morehead, was reported injured when his motor scooter with an automobile at the corner of Avenue M and 14th

injured a crushed chest suffered a lung, and ribs and bruises.

Other boys were riding on a motor with Buddy when it was driven by a girl, Miller, daughter of Mrs. Miller. Only one of the three, L. Rankin, was injured. Rankin was injured when he was ejected from his home after exiting at Garza Memorial Hospital that he had escaped cuts and abrasions.

Other two boys were Royce and Gary Brewer. Carl Rains said Miss who was driving east on 2nd, told him she stopped as she felt the impact of the automobile she was driving.

Miller, who was uninjured, left later at Post Stampede arena to be presented as a queen in the rodeo queen contest.

concluded at 9:50 o'clock for one of the fastest rodeo finishes ever held at the arena. One reason for the fast show was that there are not as many entries as in most of the previous years, there being only one section of riders in the bull riding event. Announcer Alvin G. Davis did his usual good job of keeping the events moving along. Norman Brooks of Decatur is back as rodeo clown. Roping and riding stock, which

proved too tough for most of the cowboys, is being furnished for the second year by Morris Stephens of Quitoque. It was ideal rodeo weather on opening night and the arena turf was in almost-perfect condition. Following are first-night results: Bareback Bronc Riding — Jerry Brown, Big Spring. (Only one of 11 riders to qualify.)

CalF Roping — Walter Arnold, Silverton, 13.6 seconds; Noel White, Post, 15.3; Keith Neff, Colorado City, 18.1; Royce Rogers, Abilene, 19.6. Barrel Race — Judy Ford, Abilene, 19.8 seconds; Maxine Rogers, Colorado City, 20.2; Karen Knight, Post, and Jane Ford, Abilene, tie for third and fourth, 20.5. Ribbon Roping — Pete Baker, Anson, 12.9 seconds; Royce Rogers, Abilene, 13 flat; Jerry Harlan, Slaton, 13.6; Steve Cone, Lubbock, 17 flat. Flag Race — Ronnie Flenniken, Floydada; Jerry Harlan, Slaton; Billy Carter, Sundown. Bull Riding — Jim Whitefield, Big Spring; Jerry Brown, Big Spring. (Only two of eight riders qualifying.) Kids' Pony Race — Ronnie Flenniken, Floydada; Maxine Rogers, Colorado City; Richard Hart, Post. Goat Sacking — Bobby Joe Harlan and Ronnie Flenniken, first; Sylvester Collazo and Eddie Gonzales, second; Wallace Shumate and Leslie Hair, third.

Minor, and City Supt. Henry Tate. Holdrege, whose firm is handling the planning of a number of similar West Texas housing projects, went into detail in explaining the procedure for getting the authority organized and the steps it needs to take in securing a federal planning loan. The five-member Authority was named recently by Mayor Minor and approved by the city council. Under terms of the federal law, the Housing Authority of the City of Post can seek a temporary loan amounting to \$150 on each unit it proposes to build here in public housing. The loan will take 60 to 90 days, perhaps longer, to receive PHA approval. Under terms of U. S. statutes, the housing authority, once its project is approved by the PHA, would receive a government loan to cover the cost of retiring bonds which would finance the housing project. A survey will be required to determine the amount of sub-standard housing in the community with the PHA ceiling on public housing units being in a one to seven ratio to the total number of such sub-standard housing units here. Rental charges will be well below rentals charged here for standard housing and once a family's annual income exceeds the amount set by the Authority as the maximum (\$2,500 to \$3,500 a year) the family must move out of a public housing unit, according to statutes. The local housing authority, now constituted by its own resolution passed yesterday, will have the authority to conduct all the business necessary to construct and operate such a project, including employment of architects, lighting of bids, issuance of bonds, and employment of a project manager. The authority Wednesday set the second Tuesday night of each month as its regular meeting date. It will meet Tuesday night at 8 p. m. in City Hall and at that time will discuss employment of an architectural firm to handle the planning.

QUEEN OF THE 1958 RODEO

Billie Lou Hill (center) was presented last night as Queen of the Southwestern Championship Junior Rodeo. Runners-up in the queen's contest were Ruth Miller (left)

and Jane Maxey. Billie Lou is the daughter of Mr. and Mrs. D. C. Hill of 711 West 11th.—(Staff Photo.)

BILL MCGLAUN

McGlaun named scout executive

The South Plains Council, Boy Scouts of America, announced today the appointment of Bill McGlaun to the position of district scout executive for the Comanche Trail District, which is comprised of Crosby, Dickens, Garza and Kent counties.

McGlaun, 26 years old. He was born in Athens, Tex., and completed his secondary education at Kaufman High School, and is a graduate of Texas Tech with a degree in government. He served in the Army from 1951 to 1954.

The new district executive's history in Scouting is long and full. He has been a Cub Scout and a Boy Scout and has served as scoutmaster of a Boy Scout troop in Smyer, where he was employed as a teacher. He has just completed a national training school for scout executives at Minden, N. J., where he was in training for six weeks.

Besides Scouting, McGlaun's hobbies are camping, tennis, football, chess, radio, coin collecting and reading. He and his wife, Wanda Ann Nails McGlaun, will reside in Crosbyton.

SISTER VISITING

A guest for several days in the homes of Mr. and Mrs. Elgie Stewart and Mrs. Aby Rogers is Mrs. Stewart's and Mrs. Rogers' sister, Bertha McKinney, of Houston.

Anticipated contest fails to develop

Conservatives control convention

CONVENTION DELEGATES

Garza County Democratic Convention today named these four men as delegates to the state Democratic convention in Houston on Sept. 19. From left to right

are Leo M. Acker, chairman of the delegation; Walter Duckworth, Giles C. McCrary and A. T. Sanderson. — (Staff Photo.)

\$7,500 starting loan proposed for housing

Post's new five-man Housing Authority has voted unanimously to seek a \$7,500 preliminary loan from the Federal Public Housing Administration to prepare plans for a 50-foot housing project for this community.

Action for the preliminary loan came at the authority's organizational meeting Wednesday morning at City Hall.

Irby Metcalf was elected chairman of the Housing Authority, Chant Lee, its vice-chairman, and Lee Ward, temporary secretary. Other commissioners on the Authority are Arnold Parrish and Jim Cornish.

The five housing commissioners met with Will Holdrege of the Fort Worth architectural firm of Hedrick and Stanley, Mayor James

New tax rate of \$1.30 set by school trustees

A tax rate of \$1.30 per \$100 valuation was set, four new teachers employed, and custodians, bus drivers and lunchroom workers hired by the board of the Post District at a called meeting Monday night.

The board also set Aug. 14 as the date of a public hearing on the proposed budget of \$419,186. The hearing is to be held from 9 a. m. to 4 p. m. in the superintendent's

office at the high school. This year's \$1.30 tax rate is 16 cents less than the \$1.46 rate charged last year, the reduction having been made possible through a boost in property valuations to approximately \$19,600,000.

Employed as new teachers for the term opening Sept. 2 were Mrs. Ella Norene Ryder, Billy Hahn and Mr. and Mrs. James S. Rushing.

Supt. R. T. Smith said Mrs. Ryder probably would be assigned as 7th grade language arts teacher.

Hahn, who was assistant football coach at Spur for nine years and head coach at Springlake the last two years, will be in charge of girls' physical education in junior high school.

The Rushings will teach in the elementary grades — Mrs. Rushing the second grade and Mr. Rushing the fifth grade.

All school custodians were re-employed by the board, with a new custodian, Mrs. Nathaniel Manuel, hired for the Negro school. Head custodian is F. F. Keeton and the others are J. D. Henley, Ray Young, Nathaniel Manuel and Johnny Johnson.

Mrs. Bailey Matsler was employed as lunchroom supervisor to replace Mrs. L. C. White, who resigned.

(TAX RATE—See Page 8)

Pipe is stolen from oil lease

Sheriff's officers today were hot on the trail of thieves who stole approximately 1,500 feet of two and one-half inch pipe Saturday night from an oil lease south of Justiceburg.

Sheriff Carl Rains said he had been working on the case since being notified of the theft Sunday by J. K. Jones, pumpjack, and that he believed he about had it "nailed down".

The sections of pipe, which averaged 31 feet in length, were stolen from a storage rack on the lease.

Youth is charged after accident

Charges of speeding and driving on the wrong side of the street were filed against Sammy Martin, Post youth, Wednesday in justice of the peace court as the result of an accident at 810 West Main Street.

Young Martin's automobile, which he was driving north onto Main Street off a side street, struck Tom Williams' automobile which was parked at the curb in front of Williams' home.

Sheriff Carl Rains, who investigated the accident, said each car was damaged to the extent of several hundred dollars.

The accident occurred about midnight Saturday.

The sheriff said three other youths were in the car with Martin at the time of the accident.

Band meeting is set for Monday

A meeting of all students who were in the Post schools' band program last year has been set for 7:30 p. m. Monday, Aug. 11, at the band hall.

The meeting time and place was announced by Director Bob Meisch, who is to return Sunday from a three weeks' trip.

Meisch said that at the first meeting Monday rehearsals times will be set up for each section.

No headway made on rate requests

Two representatives of General Telephone Company of the South-west met with the city council Monday night, but not an inch of headway was made by either side in the five-year-old stalemate over rate increases.

J. L. "Dusty" Kemper of Brownfield, division manager, and Don Mortimer of San Angelo, revenue development representative for the telephone company, were told by Mayor James L. Minor that the council would be unable to reach an agreement with them because inventory figures furnished by the

company and sent by the city to Pritchard & Abbott, tax valuation engineers, for appraisal had not yet been returned.

BEFORE MEETING with the telephone men, the council:

1. Voted to purchase advertising space in the 1958 South Plains Parade of Progress yearbook.

2. Heard a request for assistance from the Golden Age Club.

3. Heard a request from Bryan J. Williams Jr. that a tract of land just northwest of the city limits be annexed.

5. Voted to pay bill of \$491 for installation of two-way radio system in the city marshal's automobile and in city fire truck.

6. Accepted the resignation of Kate Lowrie as city secretary.

Stout rites are held Saturday

Funeral services for Mrs. Lillian Gertrude Stout, who died Friday in Garza Memorial Hospital were held at 3 p. m. Saturday in Mason Funeral Home Chapel with the Rev. Graydon Howell, pastor of Calvary Baptist Church, officiating.

Mrs. Stout, who was 84 years old, had been a resident of Post since 1945, making her home here with her daughter, Mrs. Ima C. Smith.

She was born Aug. 23, 1873, at Fairview, Kans., the daughter of John W. and Hannah T. Smith. She was married to William Manley Stout on Oct. 16, 1897. They lived in North Carolina, Kansas and Texas following their marriage. Mr. Stout died Dec. 14, 1947.

Besides the daughter of Post, Mrs. Stout is survived by a brother, Charles A. Smith, and a sister, Mrs. Adella Jewett, both of Halstead, Kans.

PARTY SATURDAY

Mrs. Ethel Gray will be hostess Saturday afternoon at 4 o'clock for a party for her niece, Johnnie Mae Gross of Dallas, on her seventh birthday, at the Colored Community House.

RIGHT OFF the bat, Mortimer, the telephone company's revenue development representative, told the council he was disappointed because they were not ready to come to an agreement on the rate request.

"We came over here tonight thinking that we'd be able to reach some sort of agreement," he said. "You are no more anxious to get it settled than we are," the mayor said, then explained that the council had sent the telephone company's inventory figures to the tax engineers' to find out why there is such a difference in your figure and in the one Pritchard & Abbott came up with when they re-evaluated city property several weeks ago."

THE MAYOR said the telephone (TELEPHONE—See Page 8)

\$750,000 project on 84 approved

The State Highway Commission has recently approved an appropriation of \$750,000 for the improvement of 21 miles of roadway in Garza County under the 1959 and 1960 Consolidated Highway Program.

The project approved for Garza County is on U. S. 84 between Post and the Scurry County line. The proposed work consists of reconstruction of the old lanes on sections.

Ringmaster named for Saturday horse show

This year, for the first time, there will be a ringmaster at the Garza County Quarter Horse Show which is to be held Saturday afternoon at the Stampede Rodeo arena.

Don Long secretary of the Garza County Quarter Horse Show Association, has announced that Jess Shurbert of Floydada has been employed to "keep things moving" as ringmaster at this year's show.

Entries in the AQHA-approved show close at noon Saturday and are expected to top last year's mark of more than 50 horses.

Judging of the animals by B. F. Yates of Plainview will get underway at 1 p. m.

Silver trophies, which are on display at Mason & Co., will go to all first place winners, with ribbons being awarded through sixth place in each class. There will be special trophies for the grand and reserve champion stallion, mare and gelding.

Registration will be in charge of Floy Richardson, Pete Morgan and Jean Sanson. Trophy and ribbon presentations will be made by Ruth Ann Long and Don Richardson.

By JIM CORNISH

The "squeeze" is really on here for phones. General Telephone several months ago announced it "couldn't afford" to continue to expand in a community in which it was losing money and since that time has refused to do any line expanding to put in new phones. A total of 52 written requests for phones are now reported to have stacked up in the phone office here. Latest to be denied a phone because of this policy is the Shell Oil Company for its new unit office here. And Shell can't operate without phone communications, General Telephone promises to have a crew in next day to put in the new phones when a "satisfactory rate agreement" can be worked out with the city council. The phone firm's "pressure policy" has stirred the ire of the council and townsmen alike but it will cost a powerful lot of dough to sue its court for phone service and it is the customer, not the city, which must take the court action. The council, which has offered a compromise rate hike that was rejected by the phone firm, is convinced the utility firm is making a fair rate of return. But with the "squeeze" on, community progress is now at stake. One thing, whether the phone company in the end wins rate concessions or not, via such tactics, it is not going to win any goodwill hereabouts. It's a prime example of the need for a state regulatory commission for utilities.

Rodeo time is here again and the Junior Rodeo youngsters will give you lots of enthusiasm for the next three nights at the rodeo grounds. Attend at least one of the performances and all of them if you can. Remember proceeds, if any exist after expenses, go to a very worthy cause — that 4-H building development in the city-county park.

Speaking of the park, several have called our attention in the last couple of weeks to a leak in the gate at the lake dam which, they report, is letting "considerable water through." Some estimate it has dropped the lake a good two or more acre feet, not counting the heavy drain through evaporation. City Superintendent Henry Tate doesn't think the leakage loss is very great, but according to others the gate need fixing. We're calling attention to it because darned if we know who is right in the matter.

The preaching mission at the Methodist church next week is going to have an unusual feature — a men's breakfast at the church at 6:45 a. m. Monday through Friday. Rev. Eugene Matthews will bring a 10 minute message with each set of bacon and eggs and the whole thing will be over by 7:30, plenty early enough for most men to start their business day.

We stopped the other morning for a short visit with Earl Hodges, the tractor man who is convalescing at home with a broken hip. Earl, who hopes to be up and around soon.

Bumper cotton yields predicted

West Texans have learned the hard way not to count their cotton bales until they are ginned, but it's worth announcing that agricultural authorities are predicting that Garza County is headed for one of its biggest-yet cotton yields from the 1958 crop.

These predictions are being made despite the fact that cotton in most sections of the county suffered a severe blow from the late June hail storm. The big-crop predictors, for the most part, point out that the cotton which wasn't killed or didn't die as a result of the hail storm is making a surprising comeback.

The current prediction is that from Garza County's approximately 37,000 acres of cotton—26,000 dryland and 11,000 irrigated—the county will produce 25,000 bales. Even if this figure should turn out to be 5,000 bales too high, we'd still come up with around 20,000 bales for the highest yield in years.

Good rains over much of the dryland area has been one factor in the crop estimate hikes in Garza County and elsewhere on the High Plains. Almost ideal cotton growing conditions have also helped, and the general prediction is that production of the 1958 crop will be the largest in history in this area.

The Aug. 1 crop estimate officially was made

at approximately 1,900,000 bales by the Lubbock Cotton Exchange and Plains Cotton Growers, Inc.

This is by far the largest production ever forecast on the High Plains and it is being forecast on much less acreage than has been planted in previous years, one official pointed out.

The 1,900,000 total was reached after officials talked to county agents, ginners, farmers and others in each county. Individual county estimates were gathered from each of the 23 counties and totaled for the over-all figure of 1,900,000 bales.

Representatives of both the PCG and Lubbock Cotton Exchange said these figures were based on conditions as of Aug. 1, and they added the crop conditions at that time were just about the best in history.

The crop has fruited heavily and is making excellent progress. Much of the irrigated land throughout the High Plains is estimated to have more than two bales per acre set. Dryland cotton is expected to yield higher than in many years.

While some farmers and others might feel the 1,900,000 estimate is too high, farm observers point out that good conditions in 1956 saw this area produce better than 1,650,000 bales, and the poor rainy fall of 1957 saw production hit 1,570,000 bales.—CD

White River loan decision is near

Almost any day now can come the news of federal action on the White River Municipal Water District's application for a \$3,000,000 federal loan.

Wrapped up in that application are the bright dreams of the future for Post and its three neighboring towns involved.

The solution now appears near. If the loan application is approved—and it already has the approval of the regional office at Fort Worth—then the road is virtually clear to start construction of the big dam.

Approval of the regional office was the "toughie" because that office is required to completely check the application from top to bottom

for flaws and require corrections. Lots of changes had to be made in the end to get clearance at Fort Worth. But this is now behind—and the painstaking checking will not need repeating in Washington.

The day is drawing close now when Post will have its answer.

White River planning has been a long haul for the four communities who have made it together. The day of fulfillment is close unless some sudden shift in governmental policy should wipe out the federal loan.

So it is truly a "long hot summer" now in Post—waiting for news from Washington.—JC

We pay bill for traffic accidents

The growing problem of traffic safety on Texas streets and highways is best exemplified by the stiff boost last weekend in auto insurance rates throughout the Lone Star State.

For Garza County the insurance rate jumps were 15.8 per cent for auto collision, 16 per cent for bodily injury, 23.1 per cent for property damage, and 33.2 per cent for comprehensive coverage.

Insurance firms were granted these drastic increases in rates because claims paid had grown to such proportions that insurance companies no longer could expect a profit at the old rates—but were taking stiff losses instead.

The point to be made here is that the motoring public is going to have to foot the bill for its dangerousness and carelessness. There is no magic way to wave a wand and have a new fender on the car instead of the crumpled one or to pay hospital bills for an injured youngster badly mangled in a head-on collision.

The cost is going to continue to mount until we—the motoring public—start to drive in a manner to keep that cost down.

Texas can boast of fine roads and topflight road engineering, one of the three important fac-

tors in any safety campaign. The second factor—public education—is a never-ending process which is difficult at best. The third E of any safety campaign is enforcement.

Enforcement means putting stiff penalties upon those who break our traffic laws. Many states and many cities have really tough traffic enforcement. Neither Post nor Texas does.

For both it is due to the lack of law enforcement manpower. The Texas Highway Patrol is an excellent force—but spread far too thinly. The Post police force to bring a high degree of traffic enforcement here does not exist.

It's an old axiom in the "law business" that you can't enforce laws the public doesn't want. This time the public has a clear choice. It can either go on paying higher and higher insurance premiums to meet the continually rising costs of traffic slaughter on our streets and highways, or we can stand for a "crackdown" to halt this very expensive waste of human lives or resources.

It's time the price of traffic slaughter went down—instead of up. But that decision is really up to you—the motoring public—which will have to pay the price it sets.—JC

The family reunion lingers on

This is the time of year for family reunions, with hardly a Sunday passing that scores of them aren't held throughout the area, most of them at Mackenzie State Park in Lubbock, but a few in our own park and in other small-town parks over West Texas.

Of all the joy-filled get-togethers and good neighborly events, so universally popular in the so-called proud and happy good old days of long ago, the family reunion is perhaps the only one that today remains as popular and is conducted with as much warmth as it was a half century or more ago.

City families still assemble almost annually at a central spot and make merry for a day or a weekend. Parents and their children, grandparents, grandchildren, uncles, aunts, cousins and in-laws answer the call to come and for a brief period

relive the days and experiences from the cradle to the atomic present.

Most of the "use to be" gatherings and occasions have gone the way of the horse and buggy, the oil lantern, the palm leaf fan, the old oaken bucket and the wash-up pan on the back porch.

Ice cream socials are no more. A community event calling for dinner to be served "on the grounds" is seldom thought of any more. Horse races between matched nags representing the best ranches in the area are long gone. Public speakings in the shady grove are almost non-existent.

People have even about quit inviting the preacher home for Sunday dinner, and the boy-girl courtship has moved from the creek bank or hillside to the convertible or soft-chair movie.

The family reunion stays on, representing genuineness in the American way of life. Long live the family reunion.—CD

What our contemporaries are saying

Down through the years newspapers, and their editors and publishers, have been accused of a good many things, not excluding libel, dishonesty, tactlessness, sensationalism and lack of principle and ethics. But one thing of which they haven't been accused is not being outspoken. One of our favorite examples of that last trait comes from a paper out in Oklahoma where personal journalism is featured as a virtue and not a crime. Under the masthead the editor says: "If you feel you have been stabbed unduly, come in and we will take it back, unless the stabbing was intentional."
—Le Roy (Ill.) Journal.

If a potential customer comes and looks and does not buy, it simply means that in all probability he has found some fault with the merchandise or with the price at which it is offered for sale. That may not be the fault of the merchant. It may be the fault of the distributor or the manufacturer, factory management, or labor unions or labor leaders—all of which probably figure in the economic maladjustment which so plainly exist.
—Wildwood (N. J.) Leader.

A proposed curfew law would make parents responsible for their children. There might be con-

sideration given to a law to make parents accountable to their children.—Bellingham, (Wash.) Herald.

The trouble with today's dollar is that it seems to have been built more for speed than for endurance.—Mantorville (Minn.) Express.

This may not be a new discovery but the news comes to us only this week concerning a sure way to wean an overgrown calf that refuses to be weaned. Just butcher it. This method is said to be a tried and proven one and guaranteed to work.—Baylis (Ill.) Guide.

One cannot really excuse youngsters for breaking the laws by simply saying they didn't realize what they were doing. The fact is that young juvenile criminals do know what they are doing, and they should be held responsible for their actions.
—Boswell (Pa.) News.

The businessman who doesn't advertise regularly is like the merchant who had his telephone disconnected two days a week! People buy every day.—West Branch (Ia.) Times.

THURSDAY to THURSDAY

By CHARLES DIDWAY

IF YOU'RE reading this just after the paper is out, you still have time to see most of the Junior Rodeo.

We're always glad to get post cards from vacationers, but we'll admit they make us wish we were there. This one came a few days ago from former Superintendent of Schools R. K. Green, who recently moved to Plainview:

"Hi, Charlie: I'm at last on that vacation. We are seeing the West. This is the 18th day—we have been to Yellowstone and Yosemite Parks. I got a thrill out of seeing the Giants and Braves in Frisco, then the Dodgers in L. A. Those boys can play ball. We have spent eight days in California, so you see we like the state. Saw John Wayne making a movie. Disneyland is great."

NOW THAT ALASKA is coming into the Union, most Texans will be prone to agree with the wise man who said, "It isn't the number of square miles that make a state great, but the number of square people to the mile." Incidentally, if you haven't already read it elsewhere, you might be interested to know that Alaska is more than twice the size of Texas. But, by way of contrast, the entire population is only that of a middle-sized city—about 210,000.

Every cafe operator knows about the patrons who want to take the beefsteak leftovers "home to the dog." On a recent occasion when it happened, the small boy in the family spoke up: "Oh, boy, are we gonna get a dog?"

OUR FRIEND up the street says married men may not be the best informed people, but they are certainly the most.

While never having had to go through it ourselves, we can imagine that that walk around the swimming pool must seem like a country mile to bathing beauty contestants. At the contest here a couple of weeks ago, we heard a number of spectators offer suggestions for either making the walk shorter or seem shorter. One said he believed soft music would help the young beauties in their promenade around the pool, while another said they ought to let them just go half-way around, and still another was of the opinion that they ought to put the platform back up on the west side for the beauties to walk up and then down, thus breaking the monotony of the stroll. But the most sensible suggestion we heard was for the beauties to yank off those high heels and walk around the pool barefooted.

WHEN WE WERE a boy we used to do what our father wanted. Now, we have to do what our boy wants. Our problem is: When are we going to do what we want?

If you build a better mouse trap, the world may beat a path to your door. If you tell the world about it there will be a four-lane highway.

IF YOU THINK you're through paying more after the postage rate and auto insurance raises, you have another think coming—if you're a duck hunter. The House has passed a bill increasing the cost of federal duck hunting stamps from \$2 to \$3 each. The bill earmarks proceeds from the \$1 increase for acquiring additional land for migratory bird refuges.

The Springfield (Mass.) Education Association has translated the value of a high school diploma into dollars and cents. High school graduation completes a 13-year program that costs the taxpayers about \$5,000 per student, the teachers' professional organization said.

THE HIGH SCHOOL graduate has estimated lifetime earnings of \$189,000, compared with that of \$79,000 for a person of limited schooling, the SEA said, adding: "The high school graduate will earn and spend 25 times the \$3,000 invested in his education."

As soon as the average person pays one fiddler off, another starts tuning up.

Texas' deepest well was drilled on University of Texas land in Pecos County in 1957; Depth, 21,687 feet; cost, \$1.2 million. (It was dry.)

Of Texas' 6,169 oil fields the 79 largest produce about 50 per cent of the state's oil.

Texas oil men drilled 21,352 wells in 1957, or 46 per cent of U. S.

Texas drilling in 1957 totaled about 90 million feet of hole.

Texas operators spent about \$1.2 billion on drilling in 1957; about \$400,000,000 for dry holes.

The average expenditure per foot for drilling wells in Texas is about \$13.50.

Average depth of wells drilled in Texas in 1957: 4,267 feet.

THE AMERICAN WAY

"The Power to Tax Is the Power to Destroy"

Remembering yesteryears

Five years ago

Charlie Rogers, Graham community farmer, received multiple bruises and lacerations about 10:30 Saturday night when a horse he was riding was struck by an automobile just west of the city limits on the Tahoka highway; Post's biggest single rain, .60 of an inch, fell Tuesday night; Miss Jennie Lou Redman has been chosen 4-H queen for the Southwestern Championship Rodeo, which gets under way tonight at the Stampede arena; Mr. and Mrs. John R. Sutter spent the weekend in Waco with their son-in-law and daughter, Mr. and Mrs. M. L. Burns; Mr. and Mrs. Quannah Maxey were hosts for a wiener roast last Monday night honoring their daughter, Orabeth, on her 14th birthday; a son, Steven Lee, was born to Mr. and Mrs. Harold Lee (Bobby) Rogers of Lovington, N. M., and formerly of Post Aug. 6; Garza County's smallest cotton crop in many years 3,500 bales—is estimated by area agricultural observers; Mr. and Mrs. Fred Cockrell are on their vacation this week.

buquerque, N. M., to spend a week with their daughter, Miss Thelma Campbell; Mr. and Mrs. R. J. Hundley have a new blue Plymouth club coupe; improvements are being made on Southwestern Public Service Co.'s electric lines.

Fifteen years ago

Mr. and Mrs. Charlie Baker announce the birth of a son, Dan Everett, born Aug. 2 and weighing seven pounds and eight ounces; Post Chamber of Commerce officials have announced that Two Draw Lake is to be re-stocked in the near future; Elbert Davies has returned to his Naval base in San Diego, Calif., after spending a five-day furlough here with relatives and friends; Miss Lois Frances Williams, daughter of Dr. and Mrs. D. C. Williams, and Capt. James C. Arceneaux, Jr., were married Sunday evening in the chapel of the Lubbock Army Air Field; Floyd Stanley, who has just completed eight weeks boot camp at the Marine Base in San Diego, Calif., is visiting his wife and parents this week; Bud Abbott and Lou Costello will star in Damon Runyon's "It Ain't Hay" this weekend at the Garza Theatre; Post sweated through the hottest day of the year Monday with a temperature of 110, the hottest in 20 years; the Rev. Austin Moore, pastor, has announced that the Church of the Nazarene revival will begin Aug. 9, with the Rev. Haddley Hall of Amarillo in charge of services.

About one-fourth of Texas wells in 1957 were "wildcat wells," which seek to discover new fields.

About 5,000 "wildcat" wells were drilled in Texas in 1957. About 14 per cent found oil or gas.

Texas produced 1,085,000,000 barrels of crude oil in 1957; 41.4 per cent of U. S.

Texas produced 17 per cent of world oil in 1957, 27 per cent in 1947 and 25 per cent in 1937.

Garza County to have exhibit at area fair

Garza County will be featured in the agricultural divisions of the South Plains Fair, to be held in Lubbock Sept. 29 to Oct. 4. County Agent C. Heron announced this exhibit will feature crops and livestock of Garza County, and awarded a \$50 cash prize to the exhibitor.

Exhibits offered by the region this year total approximately \$100,000, largest in history. Prizes and ribbon awards will be given to winners in all agricultural, art and home divisions, according to the fair's president, Joe Baldwin.

In charge of the fair's agricultural divisions are: Mrs. George A. Long, both of Lubbock, the following department heads will arrange the various exhibits in the Women's Building:

Mrs. Haskell Speer, Lubbock, and Mrs. Lon Lincocum, Idalou, textiles; Mrs. A. L. Turner and Mrs. A. H. Weaver, both of Lubbock, culinary; Joyce Hazelton, Lubbock, and Mrs. Gussie Jennings, Anton, co-superintendents of the youth department; Mrs. A. R. Lawrence, Mrs. M. E. West and Mrs. W. A. Fix, all of Lubbock, in charge of the art department; Mrs. B. E. Needles, Lubbock, relics and antiques; and Mrs. E. E. Louthan and Mrs. John Powers, both of Lubbock, in charge of the flower festival.

Entries in any divisions of the Panhandle South Plains Fair should be addressed to the manager at Box 561, Lubbock.

Financial crisis said facing Gonzales Warm Springs unit

— In the next 60 to 90 days, the Gonzales Warm Springs Foundation (which is in the Garza County area) must raise the grade financially to keep the doors to handicapped children. Approximately 100 children have received some treatment since the center opened in 1941.

With a deficit of \$100,000, the center is facing a dramatic shift in care to the treatment of other handicapping

injuries and diseases, the Foundation's statewide board of directors was called into emergency session Sunday. While polio care has been extensively financed by the National Foundation for Infantile Paralysis, few funds are available for patients suffering brain damage, spinal cord injury, strokes, and such diseases as cerebral palsy, muscular dystrophy, and multiple sclerosis.

The new program of the National Foundation will not provide patient care help for patients other than polio in the immediate future, spokesmen from the Foundation told the Warm Springs board.

No child whose condition could be helped by the non-profit center has ever been turned away for lack of funds, and the welfare program has also been extended to adults.

"It is our fervent hope that the Foundation's many friends, when apprised of this need for additional funds, will come to the aid of this truly outstanding work," R. I. Payne of Dallas, president, said.

Stringent economies in the center's operation, special efforts to raise funds for immediate needs, an emergency public information and fund-raising campaign, and the establishment of a long-range fund-raising program were ordered by the board.

The name of the 110-bed center, Texas' only complete medical facility for the rehabilitation of the severely handicapped, was officially changed to the Texas Rehabilitation Center of the Gonzales Warm Springs Foundation.

LONE STAR AGRICULTURE

Pest situation bad, but not at hair-raising proportions

By JOHN C. WHITE
Commissioner of Agriculture

Some expressed opinions to the contrary, there are not armies of imported fire ants gnawing at the very steps of the Texas State Capitol Building nor are there frightened South Texas mothers guarding their cribs against hordes of rats which come in the night. The pest situation is not at such hair-raising proportions.

But we do have serious problems with fire ants, rats, and other nature's pests which will cost Texas agriculture hundreds of thousands of dollars in damage alone in this critical year.

The imported fire ant, subject of a great deal of national notoriety during recent months, has established itself in Eastern Texas, and a concerted effort is being made, through quarantine inspections of soil-bearing plants, to curb any further westward movement. Where he finds a home, the fire ant builds its near-impervious mounds and makes misery for every creature that comes near. Results of the anti-ant push in recent weeks are encouraging.

Down in the winter garden area have appeared a number of nature's most unpredictable and most despicable pests — rats! Much too cagy for street-roaming these vermin have taken to the fields, wreaking serious damage to melons, peanuts and other crops. This worst Texas rat infestation in forty years is being combatted through the best known means of control through combined efforts of the U. S. Rodent Control Division, the State Health Department and the Texas Department of Agriculture.

On the West Texas plains it has been the grain-hungry grasshopper, and the fight against this prolific pest has been a costly necessity this year. Spray units blanketed the Panhandle this summer to prevent the grasshopper from reaping man's harvest.

And there are others — at least one serious pest for every major commodity.

South Texas pecan growers, for instance, are uniting to fight the destructive walnut caterpillar which has forsaken his namesake in favor of the best of all edible nuts — the Texas pecan. Cotton farmers have the boll weevil and the pink bollworm to contend with.

There is no point in denying the annoying presence of undesirable pests. The important thing is not to accept or give in to them. Because they can and will be topped with.

Mitchell returns from Pacific tour

LONG BEACH, Calif. — James E. Mitchell, electrician's mate second class, U. S. Navy, aboard the destroyer USS Alfred A. Cunningham, returned recently to Long Beach with Destroyer Division 131 after six month's duty in the Western Pacific.

Division 131 steamed about 39,000 miles during the overseas tour which took them to Pago Pago, American Samoa and Wellington, New Zealand. In addition, they visited Hong Kong, Okinawa and ports in Japan.

Mitchell is the son of Mr. and Mrs. D. R. Mitchell and husband of Mrs. Wanda Mitchell, all of Post, Tex.

Bible Thoughts

SOUND INSTRUCTION

By RONNIE PARKER

Paul states in Titus 2:11 "For the grace of God hath appeared, bringing salvation to all men, instructing us, to the intent that, denying ungodliness and worldly lusts, we should live soberly and righteously and godly in this present world."

Out of our relationships with others grow three classes of duties. Soberness covers the ground of duty one owes himself; righteousness, to others; and godliness, to God.

The Christian should be a sober man, having his passions under control and avoiding all excesses; he should be a righteous man, being kind, sympathetic, and helpful to all that surround him; and he should at all times be a godly man, submitting reverently to God's will.

Thus living, he can then look "for that blessed hope, and the glorious appearing of the great God and our Savior Jesus Christ." (Titus 2:13).

Bring Your Dream Home Down to Earth

WITH A BUILDING LOAN FROM FORREST LUMBER CO. We Offer A Loan For Every Building Purpose

TAKE ADVANTAGE OF FORREST'S FINANCE PLAN

We can, without delay, arrange a suitable loan for any kind of building project. We have a special loan to cover all purchases made from Forrest Lumber Company or affiliated stores. Its a loan plan to cover cost of all types of repairs, alterations or improvements to your existing residence. We also have the same type loan to cover multi-family dwellings, buildings and commercial structures, and farm structures.

IF YOU WANT TO BUILD A NEW HOME...

We can fix you up with a GI or FHA loan to include purchase of real estate and completely build the structure. Complete cost for a two-bedroom home will range from \$7,000 to \$10,000. Low monthly payments, including taxes and insurance, will retire the loan over a period of years. Come in and talk it over with us.

IF YOU WANT TO IMPROVE YOUR PRESENT HOME

We have a loan designed to enable you to add an extra room or two, build a new garage or make any kind of extensive addition and improvement. You can borrow from \$2,000 to \$5,000 on payout periods of five to fifteen years.

OTHER LOANS IN FORREST'S FINANCE PLAN

We have a loan designed so you can finance any purchases made from this Forrest yard from \$65 up to \$5,000. You can re-pay this loan in from six to sixty months. Payments may be made on monthly, quarterly, semi-annually, or annual basis. This type loan will enable you to purchase new bath fixtures, floor coverings, home furnaces, paints, new fences, or any other materials. It's an ideal loan for a Do-It-Yourself homeowner.

There's another loan, designed to enable a home-owner to repair, make alterations and improvements, to his existing home. It will cover all costs of labor and materials up to \$2,500 and may be re-paid in from six to 36 months.

SMALL BUSINESS BUILDING LOANS

If you're interested in building a new business building we can arrange a small building loan of up to \$3,000, exclusive of financing charge. Repayment extends from six months to three years.

FARM BUILDINGS

This loan is designed to enable farmers and ranchers to build structures for agricultural purposes, exclusive of residential purposes. The maximum loan is \$3,000, repayable in six months to seven years.

Wild bull riding thrills rodeo fans
 In India, the land of their origin, brahma bulls are considered sacred and roam unmolested through village streets and market places. In rodeos, such as the Southwestern Championship Junior Rodeo under way here, the big beasts are treated with great respect, but they are considered more devil than divine.
 Actually, the brahmas used in modern rodeos are crossbred and not the pure strain that dwells in docile domestication in the Asian nation, and they are more than thousands of miles away from their ancestors in the difference in their disposition.
RODEO BRAHMAS are murderous. In spite of their hulking size, they are terrifically fast and agile. Not satisfied with merely throwing their rider, they will try to run him down, gore him and trample him.
 They are fast, powerful and crafty buckers.
 The bull rider has the least to hold onto of any rodeo rider: a simple rope wrapped around the animal. There can be no knots or hitches in it for the rope must fall off when the ride is complete. He may wrap the rope around his hand, but few bull riders wrap it tightly. There is no more terrifying sight in rodeo than that of a bull rider with his hand caught in the rigging being dragged helplessly around the arena.
THEY RIDE for eight seconds
Public Notice
NOTICE OF BUDGET HEARING
 A public hearing on the 1958-59 budget of the Post Consolidated Independent School District will be held from 9 a. m. to 4 p. m. Thursday, Aug. 14, in the superintendent's office at the Post High School building. All interested persons are invited to be present.

AT BAPTIST CHURCH
Fort Worth minister holding revival meeting at Close City
 By MRS. WILL TEAFF
 Friends of Cecilia Bland met in her home Friday night to help her celebrate her birthday with a wicker feast. Those present were: Reta Fern and Darrell Jones, Shelia and Judy Morris, Dorothy Horton, Sonny Sanders, Margaret Ann Ritchie, Kathleen Smith, John Shultz, Jim Bob Shultz and Susan Bates.
 Mr. and Mrs. Elden Roberts and daughters, Mrs. Jerry Morris and Caroline Malone of Abilene spent Saturday night in the Will Teaff home and attended the Roberts reunion in Lubbock Sunday. Sunday evening visitors were Mrs. Delbert Cockrell and Freddie of Post and Sue and Hugh Graves of Lubbock, who attended church services Sunday night.
 Guests in the L. R. Mason home Tuesday were Rev. E. R. Stiles of Fort Worth and Mrs. E. R. Stiles of Post.
RETURN FROM COLORADO
 Mr. and Mrs. J. E. Parker arrived home Saturday from a week's vacation in Denver, Colo., where they visited friends and relatives. They were accompanied to Colorado by a nephew, Holmes McLish, who had been visiting here.
FRIDAY IN BROWNFIELD
 Mrs. L. C. McCullough and Mrs. Vera Gossett spent Friday visiting Mr. and Mrs. Fibber McGee in Brownfield.
GUESTS IN THE HOME OF Mr. and Mrs. W. H. Childs and family Sunday were Mr. and Mrs. Mike Custer of Odessa and Mrs. G. Custer.
 Curtis Davies of Post visited in the Douglas Tipton home Monday night.
 A. O. Rosenbaum attended a Moss reunion in Lubbock Sunday. James Barron spent the weekend visiting in House, N. M.
VISITORS IN THE HOME OF Mr. and Mrs. Douglas Tipton Sunday were Rev. E. R. Stiles of Fort Worth and Mr. and Mrs. Reese Hodges and son, Bobby, of Post.
 Rev. E. R. Stiles of Fort Worth is conducting a revival meeting at the Baptist Church here this week. Jerry Hiitt of Pleasant Valley and Jimmie Short are directing the music. They were all guests in the Jim Barron home Monday, as were the Rev. Bates family.
 Ruby Mason of Plainview spent the weekend in the L. R. Mason home.
 Mr. and Mrs. A. M. Smith and daughters visited last week with the Pete Smith family in Artesia, N. M.
 Mr. and Mrs. Will Teaff and Mrs. Delbert Cockrell and Freddie were in Brownfield Wednesday helping the Milton Bayer family get settled in their home there. Bayer will manage the Terry Co. Lumber Yard in Brownfield.

Rentals

Motors Insurance appoints agent at Caprock Chevrolet
 Claud Collier Jr., president of Caprock Chevrolet Co., announced this week that, with the July 19 appointment of R. N. Carr as recording agent by Motors Insurance Corporation, and the subsequent purchase of Caprock Insurance Agency by Carr, the Chevrolet-Oldsmobile house has measurably increased its scope of service operations.
 Offices of the agency will be housed in the business office of the auto firm to afford quickly available service for underwriting by one of the nation's largest and best known automotive insurance companies.
 Carr, formerly associated with the Buick agency in Lamesa and long in the auto-accounting-insurance field, was appointed secretary-treasurer of Caprock Chevrolet Co., early in May. Since that time he has compiled extensive records and information to provide local MIC policyholders the best service obtainable.
 In a statement to the Dispatch, Carr stressed the fact that all car owners holding MIC policies purchased through Caprock Insurance Agency at any time in the past will be of record and may be renewed at the agency office, 111 South Broadway. MIC policies purchased through other agencies will be quickly serviced.
 In addition to Motors Insurance Corp., Caprock Insurance will represent United Fire & Casualty Co., and American Insurers, both nationwide stock companies, for all types of automotive and fire coverage.
 He continued: "Without in any way disparaging the industry, it is and will be our aim to join a growing number of conscientious agents in an effort to improve insurance conditions, insofar as the scope of our operations will permit. Specifically, this will include discouraging the writing of 'poor risk' coverage, (which you and I have to pay for), and the stern limitation of which will ultimately force poor risks into better risks. If you can't drive a car without insurance, and if you can't get insurance unless you 'change your ways' then your 'ways' will certainly be affected."
Survey shows more men wearing cotton shirts
 "What kind of shirt are you wearing? If you're like a group of men contacted in a Department of Agriculture survey it will be cotton. Ninety-nine per cent of their dress shirts and 95 per cent of their summer sport shirts were cotton. Cotton comprised about half the fiber used for their slacks and was the leading material for swim trunks and walking shorts.
 The men surveyed also expressed their preference among fibers, without regard to what they might have worn. Cotton was preferred by 72 per cent for summer sport shirts, by 90 per cent for business shirts, 68 per cent for walking shorts, and 54 per cent for slacks.
 Spun brahmas seem to be the undisputed lords of the arena at least.

THE RAINS CAME — Searcy, Ark. — A bumper crop of shoots fills a hallway at Harding College in Searcy, Ark. It's not a fit day out for man nor coed, with all the children, elected at U.S. education lately. It's reassuring to note that the dents know enough to come in out of the rain.

CLEVELAND, Ohio — After nearly matching the world for consecutive Caesarian births, Mrs. Thomas B. Murray shows off her 10th child delivered by this surgical technique. The new baby, named Ruth Ann after her mother, was delivered by E. P. Monaghan, who has been the chief physician at all operations. Two American mothers share the world's record Caesarian-delivered children apiece.

UP A LAZY RIVER — Paris — Banking in the balmy sun a pretty Parisienne relaxes with her shoes off along the banks of the Seine River in the French capital. One of the bridges spanning the Seine is in the background.

Letters to the Editor...

U.S. MAIL

OIL EXPOSITION

Tulsa, Okla.
Dear Editor:
As you probably know, next year marks the 100th anniversary of the commercial oil industry in the United States and throughout the world.

Many localities are planning special celebrations of the anniversary and oil's importance to the communities. The American Petroleum Institute and other organizations are planning programs.

The largest and most productive program during the entire year will be the International Petroleum Exposition, to be held in Tulsa, Okla., May 14-23, 1959. The IPE will exhibit nearly one-half billion dollars worth of oil industry equipment to an audience of more than 900,000.

A non-profit organization, the IPE is supported by the exhibitors and is conducted as a trade fair and educational display. More than \$1,000,000 worth of equipment was sold at the last show in 1957.

Its purpose, however, is one of service — since it makes it possible for an individual oil man to see more in two days at the above than he could see in two years of traveling from one manufacturer's plant to another.

We would like to invite you and interested members of your staff to plan to visit the IPE next May. There will be a press office for

your use and several of the exhibitors plan press receptions — in addition to the program of the show.

This visit will give you an opportunity to report at first hand on the progress of the dynamic oil industry and the machines that make it.

Cordially,
Leslie Brooks,
Publicity Director

FOR FREE PRESS

Waco, Texas
Dear Mr. Editor:
I want to express my gratitude to you for the fair treatment which I received in your paper in my race for Lieutenant Governor. More than ever I have come to appreciate the value of a free press.

You will recall that during my recent campaign, I strongly advocated the program of the Texas Press Association to abolish secret meetings of public bodies. Although my 400,000 votes were not enough to elect me Lieutenant Governor, I intend to continue my active support of a free press and the fair conduct of public business with full press coverage.

It is a thrilling experience for a young man to run for office in Texas, and the friends I made are more than worth all the sleep I lost and shoes I wore out.

I just want to thank you again for the part that you played, and the people for the privilege of participating in this democratic process.

Sincerely yours,
George Nokes

Oil lifting short course proceedings are now available

LUBBOCK — Proceedings of the Fifth Annual West Texas Oil Lifting Short Course are now available through Texas Tech's petroleum engineering department.

Prof. W. L. Duckert, chairman of the Short Course Board of Directors, said this year's publication contains information of interest to everyone facing problems of artificial lift in production.

The 240 page book has copies of all papers presented at the meeting, held last April in Lubbock. Papers include drawings, charts and photographs explaining subjects.

Duckert pointed out that copies of past Short-Course proceedings have been circulated throughout the world. "They are a valuable addition to any technical library," he said.

Tahoka's dial 'phone building completed

General Telephone Company of the Southwest's new building to house Tahoka's future modern dial equipment has been completed, according to Claude Adams, district manager for the telephone company.

No definite date has been set for installation of the dial equipment, but the switch-over to dial service is due before the first of the year.

QUEEN CANDIDATE

Jan Thomas, daughter of Mr. and Mrs. R. M. Thomas of Osgood, is a candidate in the Lynn County Farm Bureau's queen contest, which is to be held Aug. 22.

THESE ARE THE NINE TEXAS CONSTITUTIONAL AMENDMENTS TO BE VOTED ON AT NOV. 4 GENERAL ELECTION

CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT THE GENERAL ELECTION ON NOVEMBER 4, 1958. HJR #31—Number Four on the Ballot.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.

HOUSE JOINT RESOLUTION NO. 31 proposing an Amendment to the Constitution of the State of Texas providing that in this Constitution:

Section 1. Section 65 of Article 16 of the Constitution of the State of Texas is hereby amended so as to read as follows: "Section 65. STAGGERING TERMS OF OFFICE.—The following officers and Justices of the Peace shall be elected in November, 1958, and thereafter, shall serve for the full terms provided in this Constitution: (a) District Clerks; (b) County Clerks; (c) County Judges; (d) Judges of County Courts at Law; (e) Judges of County Domestic Relations Courts; (f) County Treasurers; (g) Criminal District Attorneys; (h) Inspectors of Hides and Animals; (i) County Commissioners for Precinct Two and Four; (j) Justices of the Peace.

"Notwithstanding other provisions of this Constitution and public officers elected at the General Election in November, 1954, shall serve only for terms of two (2) years, except: (a) District Attorneys; (b) County Clerks; (c) County Judges; (d) County Domestic Relations Courts; (e) County Treasurers; (f) Criminal District Attorneys; (g) Inspectors of Hides and Animals; (h) County Commissioners for Precinct Two and Four; (i) Justices of the Peace.

"In any district, county or precinct where any of the public officers elected at the General Election in November, 1954, shall serve for a term of more than two (2) years, the term of such officer shall be extended until such time as the term of one (1) year shall have expired, and thereafter, shall serve for the full terms provided in this Constitution.

CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT THE GENERAL ELECTION ON NOVEMBER 4, 1958. SJR #2—Number Two on the Ballot.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.

SENATE JOINT RESOLUTION NO. 2 proposing an Amendment to the Constitution of the State of Texas providing that in this Constitution:

Section 1. That Section 14 of Article XVI of the Constitution of the State of Texas shall have the power to amend Section 5, to provide for the purpose of expending such money for the purpose of developing the economic resources of the State of Texas, including: (a) natural, agricultural, industrial, educational, recreational and other resources of the State; (b) the promotion of the economic development of the State; (c) the promotion of the economic development of the State; (d) the promotion of the economic development of the State; (e) the promotion of the economic development of the State; (f) the promotion of the economic development of the State; (g) the promotion of the economic development of the State; (h) the promotion of the economic development of the State; (i) the promotion of the economic development of the State; (j) the promotion of the economic development of the State; (k) the promotion of the economic development of the State; (l) the promotion of the economic development of the State; (m) the promotion of the economic development of the State; (n) the promotion of the economic development of the State; (o) the promotion of the economic development of the State; (p) the promotion of the economic development of the State; (q) the promotion of the economic development of the State; (r) the promotion of the economic development of the State; (s) the promotion of the economic development of the State; (t) the promotion of the economic development of the State; (u) the promotion of the economic development of the State; (v) the promotion of the economic development of the State; (w) the promotion of the economic development of the State; (x) the promotion of the economic development of the State; (y) the promotion of the economic development of the State; (z) the promotion of the economic development of the State.

CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT THE GENERAL ELECTION ON NOVEMBER 4, 1958. SJR #3—Number Nine on the Ballot.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.

SENATE JOINT RESOLUTION NO. 3 proposing an Amendment to the Constitution of the State of Texas providing that in this Constitution:

Section 1. That Section 14 of Article XVI of the Constitution of the State of Texas shall have the power to amend Section 5, to provide for the purpose of expending such money for the purpose of developing the economic resources of the State of Texas, including: (a) natural, agricultural, industrial, educational, recreational and other resources of the State; (b) the promotion of the economic development of the State; (c) the promotion of the economic development of the State; (d) the promotion of the economic development of the State; (e) the promotion of the economic development of the State; (f) the promotion of the economic development of the State; (g) the promotion of the economic development of the State; (h) the promotion of the economic development of the State; (i) the promotion of the economic development of the State; (j) the promotion of the economic development of the State; (k) the promotion of the economic development of the State; (l) the promotion of the economic development of the State; (m) the promotion of the economic development of the State; (n) the promotion of the economic development of the State; (o) the promotion of the economic development of the State; (p) the promotion of the economic development of the State; (q) the promotion of the economic development of the State; (r) the promotion of the economic development of the State; (s) the promotion of the economic development of the State; (t) the promotion of the economic development of the State; (u) the promotion of the economic development of the State; (v) the promotion of the economic development of the State; (w) the promotion of the economic development of the State; (x) the promotion of the economic development of the State; (y) the promotion of the economic development of the State; (z) the promotion of the economic development of the State.

CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT THE GENERAL ELECTION ON NOVEMBER 4, 1958. SJR #10—Number Ten on the Ballot.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.

SENATE JOINT RESOLUTION NO. 10 proposing an Amendment to the Constitution of the State of Texas providing that in this Constitution:

Section 1. That Section 14 of Article XVI of the Constitution of the State of Texas shall have the power to amend Section 5, to provide for the purpose of expending such money for the purpose of developing the economic resources of the State of Texas, including: (a) natural, agricultural, industrial, educational, recreational and other resources of the State; (b) the promotion of the economic development of the State; (c) the promotion of the economic development of the State; (d) the promotion of the economic development of the State; (e) the promotion of the economic development of the State; (f) the promotion of the economic development of the State; (g) the promotion of the economic development of the State; (h) the promotion of the economic development of the State; (i) the promotion of the economic development of the State; (j) the promotion of the economic development of the State; (k) the promotion of the economic development of the State; (l) the promotion of the economic development of the State; (m) the promotion of the economic development of the State; (n) the promotion of the economic development of the State; (o) the promotion of the economic development of the State; (p) the promotion of the economic development of the State; (q) the promotion of the economic development of the State; (r) the promotion of the economic development of the State; (s) the promotion of the economic development of the State; (t) the promotion of the economic development of the State; (u) the promotion of the economic development of the State; (v) the promotion of the economic development of the State; (w) the promotion of the economic development of the State; (x) the promotion of the economic development of the State; (y) the promotion of the economic development of the State; (z) the promotion of the economic development of the State.

CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT THE GENERAL ELECTION ON NOVEMBER 4, 1958. HJR #17—Number Six on the Ballot.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.

HOUSE JOINT RESOLUTION NO. 17 proposing an Amendment to the Constitution of the State of Texas, by adding thereto a new section to be known as Section 52, to read as follows:

Section 52. The Legislature shall have authority to provide for the retirement and disability pensions for retiring Texas Rangers who have served for a minimum of twenty (20) years in the Employees Retirement System of Texas and who have attained the age of fifty (50) years at the time of their retirement, and who have received a pension of not less than Eighty Dollars (\$80) per month at any one time.

"If it appears from the returns of said election that a majority of the qualified voters of this State at an election to be held on the first Tuesday after the first Monday in November, 1958, at which election all ballots shall have printed thereon:

CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT THE GENERAL ELECTION ON NOVEMBER 4, 1958. SJR #4—Number Five on the Ballot.

That Section 14 of Article XVI of the Constitution of the State of Texas shall have the power to amend Section 5, to provide for the purpose of expending such money for the purpose of developing the economic resources of the State of Texas, including: (a) natural, agricultural, industrial, educational, recreational and other resources of the State; (b) the promotion of the economic development of the State; (c) the promotion of the economic development of the State; (d) the promotion of the economic development of the State; (e) the promotion of the economic development of the State; (f) the promotion of the economic development of the State; (g) the promotion of the economic development of the State; (h) the promotion of the economic development of the State; (i) the promotion of the economic development of the State; (j) the promotion of the economic development of the State; (k) the promotion of the economic development of the State; (l) the promotion of the economic development of the State; (m) the promotion of the economic development of the State; (n) the promotion of the economic development of the State; (o) the promotion of the economic development of the State; (p) the promotion of the economic development of the State; (q) the promotion of the economic development of the State; (r) the promotion of the economic development of the State; (s) the promotion of the economic development of the State; (t) the promotion of the economic development of the State; (u) the promotion of the economic development of the State; (v) the promotion of the economic development of the State; (w) the promotion of the economic development of the State; (x) the promotion of the economic development of the State; (y) the promotion of the economic development of the State; (z) the promotion of the economic development of the State.

A Church Going Family Is A Happier Family

It was a beautiful summer day and the willows hung in a pale green fringe above the water, and Bill and I were very young, and very much in love.

But there seemed to be so many obstacles in our path. Bill wanted to be a doctor, and it took such a long time. I was to go away to Teachers' College in the fall. We began to feel depressed.

Then it occurred to us to ask the advice of Mr. Thornton, our new minister. He hadn't been at our church very long and he was young for the responsibilities he had assumed. But as we sat in his office, I knew right away that here was someone who could help us face our problems.

Well, I can't say his advice made us happy. He said that Bill should go on with his education and I with mine, and that God would give us courage.

Time proved him right. I told him that, the day he married us. Ten years have passed since then. But on that Sunday afternoon, Mr. Thornton truly put the Church into our lives. We're never going to take it out.

Copyright 1958, Keister Ad. Service, Strasburg, Va.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Philippians	1	3-7
Monday	Philippians	2	1-11
Tuesday	Philippians	2	12-13
Wednesday	Romans	8	26-28

French girl is eager Junior Rodeo visitor

Bright-eyed Danielle Thuillier of Paris, France, who is visiting in Post and Slaton under the Rotary Clubs' International Students project, was eagerly looking forward here Wednesday afternoon to seeing her first rodeo.

"I know I'll enjoy it very much, for I'm already interested in riding horses," the French girl said. Danielle added that she'd never ridden a horse, but that after the first time she was sure she'd want to add it to her already-long list of interests, which includes literature, music, travel, tennis, and yachting.

Postings—

about soon on crutches, probably will have to be on those crutches for quite a spell. The hip bone was broken in the hip socket and pins for the bone were required. That is going to make recovery slow, but Earl already has been down the alley twice to his farm machinery store and his wife reported proudly that in his absence she sold a combine the other day. Earl is in good spirits and says he appreciates everything everybody has done since the accident in the way of cards, flowers, and visits.

It was good to get a letter the other day from Mrs. W. R. Graeber, who fell and broke her hip while on a visit with relatives in Carbondale, Ill. She said since the item about her mishap came out in The Dispatch even people she hadn't heard from in quite a spell wrote encouraging messages to her and make her rather lonely stay in the Carbondale hospital much more bearable. Mrs. Graeber sent along a card of thanks for the "thanks column" on page 4 and enclosed \$2 in payment instead of \$1 because as she said "my heart is so overflowing I can't make the message very brief." We of course returned the second dollar. We don't count the words in the cards of thanks.

Our family is off today for a weekend visit to Alpine, Texas, that part of the Lone Star state of which there has been some talk about "seceding" from Texas to join New Mexico. We're headed that way not just for a little "cooling off" but to attend the West Texas Press Association and see if we can get some new ideas on how to make The Dispatch a better paper.

Speaking of "cooling off," we got a post card from Clint Herring the other day from St. Thomas in the Virgin Islands where Clint and family are vacationing. Clint reported "we'll be too lazy to work when we get home." He wrote too that "the sailing, fishing, and loafing is out of this world for a landlubber like me." We're glad Clint and his family are enjoying it. We always thought Clint had the right idea about vacations—they're important—but we still don't see how we're going to get away ourselves this summer, except for some long weekends like this one.

Before we close we want to extend a public welcome to town to R. B. McAlister who along with Grady Maples purchased the Post radio station last weekend. We told Mac in a visit at the studio Saturday we thought he'd like Post fine. From what we hear, Mac is a real "doer" in the air-waves business.

Accident—

from the scooter. Buddy was loaded into a Hudman Funeral Home ambulance, accompanied by his parents and Dr. Bob Williams. A few miles this side of Slaton, one of the tires on the ambulance blew out, but the driver kept going after radioing for a Slaton ambulance to meet him. The injured youth was transferred to the Slaton ambulance for the remainder of the trip to the hospital.

It was at first feared that the youngster's punctured lung would collapse and he was placed under an oxygen tent. He was removed from the tent a few hours later. Twenty-three stitches were required to close a gash under Buddy's chin, and stitches were also taken in other cuts on his head and body. The injured boy's father said this morning that he had been told by doctors at the hospital that Buddy would be kept there for observation three or four days longer before being returned here. The youngsters were en route to the rodeo grounds at the time of the accident.

TUESDAY DINNER GUESTS Mrs. Leon Jones and son of Houston and Mrs. Bill Stone and sons were Tuesday dinner guests of Mrs. Vera Mae Gossett. Dwight D. Eisenhower, in 1956, received the largest popular vote in U. S. history.

Telephone—

(Continued From Front Page) company's figure, furnished the council at its request, was approximately \$146,000, while that of the tax engineers was approximately \$101,000.

Mortimer said there is a possibility of error in any such set of figures, but that he was reasonably sure the company's men who arrived at the figure furnished the council know more about the true worth of telephone equipment and installations than do the tax men. "You've caught us off guard," Mortimer said. "I thought we could come out here tonight and get it settled."

MORTIMER TOLD the council that he believed the issue had narrowed down to where it could be settled "if we'd both give a little and take a little." "We don't think your compromise rate offer of increases of 50 cents on business phones and 25 cents on residential phones is adequate, but we're willing to concede a little if you are," he said.

Mortimer told the council that "if we could reach an agreement tonight, the company would have a crew in here tomorrow to begin filling requests for telephone installations and doing other expansion work." In answer to a direct question by the mayor, Mortimer said the telephone company would not do any expanding here until a rate increase is granted.

"WE'RE AWARE of the continued pressure being put on the council by townspersons who want telephones, and we'd like to see you get out from under it," he continued. Mayor Minor asked if the telephone company would put it in writing that they would make the needed expansions here if a rate increase is granted by the council.

Kemper replied that the company repeatedly had pointed out that such a provision could be made a part of the ordinance granting the rate increase. The mayor told Kemper and Mortimer that he would telephone them and set a time for another meeting as soon as the city hears from Pritchard & Abbott on the telephone company's inventory figures.

IN PURCHASING advertising space in the 1958 South Plains Parade of Progress yearbook, the city is going along with the Chamber of Commerce and at least two local business firms who are also advertising in the book. The council voted to pay \$160 for a third of a page after hearing the publisher of the volume tell of plans for a bigger and better yearbook this year.

The council was told that 18,000 copies of the yearbook were printed last year and distributed throughout the nation, and that plans are to print several thousand more of the books this year than last year. Mrs. G. D. Ellis, president of the Golden Age Club, an organization for elderly citizens of the county, told the council she was not making a direct appeal for aid, but just wanted to let them know what the club's needs are.

SHE SAID the club, which meets every Thursday at Antelope Alley, needs an ice box, a stove and some tables. As far as financial assistance is concerned, she said, the club can get by with \$25 a month to add to funds derived from the club "kitty." Mayor Minor told her that the city could not help directly because it does not have a recreation fund set up, but that they realized the value of such an organization to the community and will be glad to support it in every other way possible.

Councilman Powell Shytlers suggested that the club apply for participation in the Garza County Community Chest, and Councilman Johnny Hopkins invited Mrs. Ellis to meet Wednesday afternoon with the Chamber of Commerce directors, who he said would be glad to help you present your request to the Community Chest.

ACCOMPANYING MRS. ELLIS to the meeting were two other members of the club, her husband, G. D. Ellis, and Mrs. Eva Bailey. The council heard, but took no action on Bryan J. Williams' request that the city annex property just northwest of town, which he proposes to develop for housing. The council indicated it was favorable toward the annexation, but asked Williams if he would be willing to "wait a little while" for a definite answer. He said he would be.

AFTER ACCEPTING the resignation of Kate Lowrie as city secretary, the council authorized City Supt. Henry Tate to see about employing a replacement for her. Mayor Minor said Miss Lowrie had told him she would be willing to remain at the post until a replacement is found. The council agreed to pay two weeks' vacation pay to Jackie Miller, who recently resigned as an office employee at the City Hall.

After voting to pay the \$491 bill for installation of the two-way radio system, the council discussed Pritchard & Abbott's bill of \$4,000 for re-evaluation of taxable property within the city limits. Tuskagee Institute was founded in 1881 by Booker T. Washington.

September vote set on community ASC groups

Farmers throughout Garza County will vote early in September to elect ASC community committeemen.

The elections will be held to select ASC committeemen and two alternates for each of the county's three ASC communities. Their duties as committeemen will be to help administer national farm programs during the coming year.

First Baptists plan meetings

Plans for a series of evangelistic services beginning Aug. 24 at the First Baptist Church have been announced by the Rev. C. B. (Bill) Hogue, pastor.

Dr. Harlan Harris will do the preaching and Floyd McCoy will direct the music. Cottage prayer services and directed prayer groups by Sunday School departments will be held prior to the series of meetings. Attendance for each night service will follow the "pack the pew" plan, the pastor said.

GUESTS OF SCHMIDTS

Guests of Mr. and Mrs. H. W. Schmidt and family last week were her mother, Mrs. M. J. Brannon, and Claude Kirby of Houston. Weekend visitors were Mr. and Mrs. R. H. Schmidt and children of Grand Prairie and Mr. and Mrs. Jack Schmidt and children of Knox City. The R. H. Schmidts remained for a two weeks visit.

GUESTS OF WHEATLEYS

Guests in the home of Mr. and Mrs. Glenn Wheatley and family last week were Mr. and Mrs. Paul Loper and daughter of Vineland, N. J., Mr. and Mrs. Hershel Walker and daughter of Los Angeles, Calif., and J. M. Walker of Lubbock. They also visited with Mrs. Winford Wells while here. Tuesday the group enjoyed a picnic at Lubbock Mackenzie State Park.

Simpson sells KRWS; new call letters, KPOS

R. B. McAlister and Grady F. Maples last week assumed ownership of radio station KRWS here which they purchased from Wallace Simpson for \$23,017.

The new owners have changed the station's call letters from KRWS to KPOS.

Simpson, who owns the K&K Food Mart and has farming interest in the Post vicinity, put KRWS on the air in August of 1955 as Post's first radio station.

R. B. McAlister's wife is serving traffic director at the station and their son, Bill McAlister, is program director. Also on the staff are Gary Gregory and Wayne Runkles, announcers. Runkles, who is working weekends at the station, is a 1958 graduate of Post High School and will leave soon to enroll in Cisco Junior College.

McAlister and Maples also own radio station KYBG in Big Spring and are former owners of KLLS in Lubbock and KGNC in Englewood, Colo.

Bill McAlister said today that a resident manager probably will be hired soon for the Post station. Harry Porter, who had been managing the Post station for Simpson, is still here. He has not announced his plans for the future.

The new station owners have purchased the building at 115 West Main, formerly occupied by Fashion Cleaners, and will move their broadcasting activities to that location soon.

First U. S. treaty with Japan was negotiated by Matthew Calbraith Perry in 1854.

Preaching series begins Sunday at First Methodist

"What's Religion All About?" will be the theme of a preaching mission at the First Methodist Church beginning Sunday, Aug. 10, and continuing through the following Sunday, Aug. 17.

The mission is to be held at 8 p. m. daily.

The Rev. Eugene Matthews, the following topics: The Saving Person; When God Became Man; A Date With Destiny; Who God is There?; The Kneeling Man; Is Belief Out of Date; How Can Modern Man Be Religious?; The Sick Soul; Beyond Tragedy.

pastor of the church, will discuss During the week the revival is in progress, the Methodist Men's organization will hold a breakfast from 6:45 to 7:30 o'clock every morning in the church's Fellowship Hall. Lynn W. Duncan will be in charge of the breakfast.

Post soldier in field exercise

Army Pfc. Cecil V. Smith Jr., 23, whose wife, Janice, lives in Slaton, recently participated in a field training exercise with the 54th Field Artillery Battalion in Germany.

Smith, a wireman in the battalion's Headquarters Battery, entered the Army in March 1957 and completed basic combat training at Fort Bliss before arriving overseas in October.

He is a 1953 graduate of Post High School and a former employe of Safeway Store in San Angelo. His parents live on Post.

'Sack' fashions are nothing new

Sack fashions are nothing new. Thousands of American women have been wearing them for years.

Down on the farm, in the suburbs, too, homelike throw away their cotton floor sacks. They save their ingenuity to work them into fetching and useful household items.

Modern bags bear resemblance to the sack fashions of a century ago. Housewives nowadays frequently use them in drapery, linens, and fine cambrics.

If you're a creative worker, you can make a bag into a purse that can be a pleasure. Not only does cotton enable you to make your skill and imagination count, but you may win prizes. By entering the 1958 Cotton Bag Contest to be conducted at regional fairs, you may win cash prizes, and may receive expense-paid travel to New York City, N.Y.

Three winners, to be named in October, will receive a merchandise prize that fit any woman's dress. These include a refrigerator, room air conditioner, cookware, and other household items.

OUTDOORS IN TEXAS

VERN SANFORD
 The most thrilling sight seen on the water is the boats coming in. Recently in Aransas I watched these boats after another, moving majestically through the bay waters and the loaded boat moved past it was followed by thousands of gulls. I learned they can pick up small shrimp being knocked about. They are an enthusiastic committee.

elsewhere with the desirable catch. As a result thousands of pounds of these small shrimp are being processed daily and canned for the commercial market.

IT IS GENERALLY agreed that the shrimp catch has gone up in the last few years because there are more fishing units. We are getting more shrimp from the Mexican waters. But it also is agreed that unless something can be done to protect our inshore waters from losing all the small shrimp, our inshore fish will be out of food.

We'd all lose and lose heavily under those circumstances. And speaking of fishing with shrimp, I recently had a wonderful trip to Port Aransas. The Boatman's Association there entertained a group of outdoor writers with a fishing trip. The weather was very bad so we didn't get into much water.

ANOTHER THING, you don't have to buy more tackle. You can fish for trout with your bass equipment. Furthermore you can use either shrimp or lures. Most of those who go to the coast for the first time like to free-shrimp. They use a small treble hook. Just back of the eye on the shrimp's head is a black or brown spot. This is the toughest part of the shrimp. Put your hook through the shrimp head at this point, cast it into the water and let it run free. Chances are, if you set your hook in time, you'll come in with a trout.

Calf roping is highly skilled event of rodeo
 Calf roping, such as that being seen at the Southwestern Championship Junior Rodeo, is a thrilling, scientific sport, bringing out the lariat-handling ability of the cowboy, a necessary accomplishment of every top hand on the range. It calls for teamwork and timing between a skilled roper and his highly trained horse.

Moore top rider at Nocona show
 Best all-around rider honors, with the prize a pair of cowboy boots, went to Jimmy Moore of Post in the annual Nocona Rodeo last week.

back bronc riding is big thriller
 The cowboy riding in the Southwestern Championship Junior Rodeo last week was a whole different thing from that of a bronc equipped with a surcingle for that is what makes the back bronc riding one of the most thrilling events of the rodeo.

 Post High School football practice will get under way within the next few weeks, and once again a number of parents will seriously think it over before letting their youngster "go out" for the team.

FATAL ACCIDENTS in all activities totaled 95,000 in 1956, according to figures released by the National Safety Council, with automobile accidents leading the list with approximately 28 per cent, 100,000 people. Industrial fatal accidents averaged 16 per 100,000; deaths from falls, 12 per 100,000; drownings, 4 per 100,000 and football fatalities ranked near the bottom of the list with an average of 1.1 per 100,000.

\$750 In Electrical Appliances To Be Given Away!
 "Owned And Operated By Those We Serve"

TEEN-AGE BOYS and girls are full of energy, enthusiasm and adventure, and if our schools and communities do not provide wholesome outlets they will find their own ways to express these traits and some will be of an undesirable type. It is best to have these "energies" channeled into supervised educational activities than to allow them to run rampant.

THE VOLATILE energies of youth must and will find means of expression. The school, recreation, church and other community agencies are the places to expend these "energies" under supervised direction. The end results of uncontrolled activity for youth would be disastrous.

 Coaches Frank Krhut and Al Parsons of Post High School are in Houston this week attending the 26th annual clinic of the Texas High School Coaches Association. More than 3,000 coaches are attending the school, which is the world's largest.

Post ropers take first in contest
 A team composed of Buck Craft, R. E. Josey and Jack Kirkpatrick won the Texas, New Mexico and Oklahoma roping contest held Friday and Saturday at Roaring Springs.

TEEN-AGE BOYS and girls are full of energy, enthusiasm and adventure, and if our schools and communities do not provide wholesome outlets they will find their own ways to express these traits and some will be of an undesirable type. It is best to have these "energies" channeled into supervised educational activities than to allow them to run rampant.

THE VOLATILE energies of youth must and will find means of expression. The school, recreation, church and other community agencies are the places to expend these "energies" under supervised direction. The end results of uncontrolled activity for youth would be disastrous.

SPORTS The Post Dispatch

Norm Cash sent to Indianapolis
 Norman Cash of Justiceburg has been sent to Indianapolis of the American Association by the Chicago White Sox.

YOUNG BARREL RACER
 Natha Jo Mears, 8-year-old daughter of Mr. and Mrs. Nathan Mears, no doubt is the youngest entrant in the cowgirls' barrel race at the Southwestern Championship Junior Rodeo here. Natha Jo has rode in a number of rodeo parades, but this is her first time to enter a rodeo event.

Hodges appointed to term on Farmers Home Administration

Floyd H. Hodges of Star Route, Post, has been named as a new member of the Garza County committee of the Farmers Home Administration, it has been announced by Joseph E. Box, the agency's county supervisor.

Hodges' appointment became effective in July. He succeeds Irby G. Metcalf Jr., whose term on the three-member committee expired this year.

Hodges is engaged in general farming and livestock farming. He lives northeast of Post and has been farming for himself for 20 years, 11 of which have been in Garza County. He is a past alternate ASC county committeeman, is interested in 4-H Club work, civic, community and agricultural activities.

The other two members of the committee are Elmer L. Hitt and Lonnie H. Peel. Hitt is a farm owner-operator engaged in general farming about 10 miles northwest of Post. He is a former member of the Pleasant Valley and Southland school boards.

Peel is a farm owner - operator in the Close City community and has been farming for himself for more than 20 years. He is a former ASC community committeeman.

There is a Farmers Home Administration county committee in every agricultural county in the country. The committee determines the eligibility of applicants and helps the county supervisor adapt the agency's loan policies and services to local conditions. Each member is named for a three-year term, and one appointment expires each year. A member completing his three-year term cannot succeed himself. At least two of the members must be farmers.

The Farmers Home Administration makes loans to farmers to buy, improve, enlarge, or operate efficient family-type farms. It also lends money to farmers or their non-profit associations to establish and carry on approved soil and water conservation practices. Purposes include establishing and improving permanent pastures, terracing, soil erosion practices, and many other conservation measures, as well as irrigation and farmstead water improvements. Most of the soil and water conservation loans and loans to buy, improve or enlarge farms are made from funds by private lenders and insured by the agency.

The agency also makes farm housing loans to provide decent, safe and sanitary farm dwellings and other essential farm buildings

"I Could Live Within Your Income — But What Would You Live On?"

to farm owners who cannot obtain the credit they need from other sources. The agency also makes Great Plains Emergency loans and production emergency loans in this area. Garza County is designated for these two types of emergency loans because of drought and economic conditions. Before the agency can make any loan, the applicant must have certification by the county committee. In the case of a farm ownership loan or farm housing loan, the farm to be purchased, enlarged or improved must also be approved by the committee. The agency does not make a loan of any type to an applicant whose credit needs can be handled by other credit sources.

"I will always remember with deep gratitude the fine vote the people of Garza County gave me in my race for the State Senate."

ROBERT R. PATTERSON

"Your daughter is engaged . . . your son is on the basketball team . . ." "I see by the paper . . ." It is a comment that starts thousands of conversations every day because your newspaper is the datebook of the community, the diary of your everyday life, the historian of our town. It announces births, weddings, deaths. It tells the community about all the things that happen to us from the cradle to the grave.

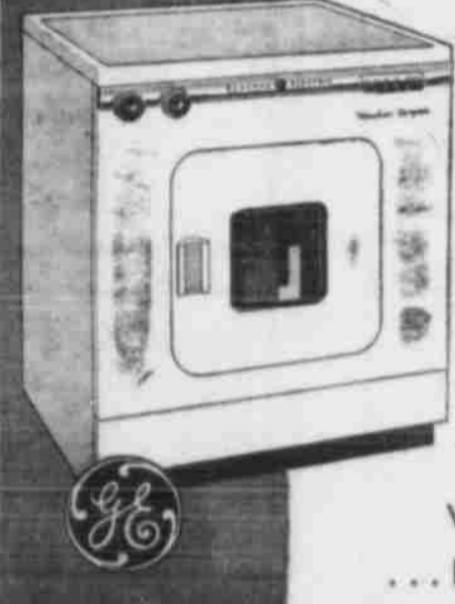

The newspaper has made us the best informed people in the world. It is our watchdog over local, state and national government. It is our eyes and ears all over the world. It is the favorite reading matter of every member of the family — Mom's, Dad's, Bud's, Sis'. It is this reading habit that keeps the family together. None of us would be without it.

Lubbock annexation to double city area

LUBBOCK — An annexation ordinance more than doubling the area of the City of Lubbock was adopted on first reading by the City Commission last Thursday.

The ordinance would take in 45.5 square miles of territory lying all around the present city limits, embracing 30.76 square miles.

An estimated 6,600 people live in the territory to be annexed.

City officials said the new land is needed to provide for Lubbock's business and residential expansion. Present population is estimated at 138,000.

TO VISIT IN BROWNWOOD
Mrs. L. P. Woods and Sharon are planning to spend the weekend at Brownwood visiting with their son and brother, Mr. and Mrs. Jerry Lee Woods and children.

TO GO TO FLORIDA
Charles and Ronnie Morris, Jerry Ray Key and Jimmy Redman are planning to leave Friday for a nine-day vacation to points of interest in Florida.

BROWNWOOD GUESTS
Brownwood guests in the homes of Mr. and Mrs. Donald Windham and family and Mr. and Mrs. Lester Nichols and daughter were Mr. and Mrs. J. D. Windham and family. They spent the weekend and their son, Ronnie, remained for a longer visit.

GUESTS IN THE Jack Myers
home this week are their son and family, Mr. and Mrs. Ned Myers and Nedra Sue, of Dyess Air Force Base at Abilene.

Mr. and Mrs. R. L. Hagler and Velma and their granddaughters, Wanda and Jean Hagler, spent Friday night in Anton with Mrs. Hagler's sister, Mrs. Lee Stone, and Mr. Stone.

Mr. and Mrs. Jack Lancaster and Kevin are visiting her parents, the Edward Moseleys, and his parents, the Earl Lancasters, while Jack is doing some work at Texas Tech. The Lancasters will move to Amarillo, where Jack will teach during the coming school year.

GUESTS SUNDAY of the Harley
Martins were her brother, Ed Moseley and family of Slaton, and Mr. and Mrs. Jim Presley and son of Muleshoe.

Mr. and Mrs. Clay Johnston returned home Saturday after a ten-day tour of Colorado and other Western states.

Mr. and Mrs. Clyde Shaw visited her brother-in-law and sister, Mr. and Mrs. Cameron Justice, at Justiceburg last week. Mr. Justice had just been released from a hospital.

Weekend guests in the Ed Milliken home were Mr. and Mrs. Leon Samford of Fort Worth. Mrs. Samford is a daughter of Dr. and Mrs. Tyler and lived in Southland as a child.

Mr. and Mrs. Clyde Shaw went to Idalou last Friday afternoon to attend a ball game in which their grandson, Billy Pat Swan, was playing.

Mrs. Don Hatchett of Lubbock is visiting her sister, Mrs. Ed Milliken, and Mr. Milliken this week.

COMPLETES BASIC FORT CARSON, Colo. — Army Pvt. Talmadge M. Pike, 22, whose wife, Robbie, lives at 706 N. Colorado St., Midland, Tex., recently completed eight weeks of basic combat training at Fort Carson, Colo. Pike, son of Mrs. Bertha Lee Pike, Post, attended Wetumpka (Ala.) High School.

Rodeo clown's job is dangerous one

Clowns are almost universally regarded as happy-go-lucky personalities with few cares or responsibilities. But rodeo clowns are different.

The Pagliaccis of the dusty arena have a deadly serious side to their business that doesn't stem from unrequited love.

They are among the bravest men in the sport and their job is easily the most dangerous. You may watch them with amusement throughout a long performance, but when the casual observers clear out of the arena for the bull riding event, you'll begin to appreciate the importance of the rodeo clown.

Brahma bulls, unlike the other

animals in rodeo, hold a permanent grudge against humans. After they have thrown their rider, many will try to gore him. Pick-up men, used to help the rider down in bronc riding, are of little value in bull riding. The bull won't let the horses get close enough.

It's up to the clowns to move in on foot and distract the bull to give the rider a chance to dismount and reach safety. If a contestant is thrown and injured, they must get the bull off of him and keep it busy until the cowboy is rescued.

The bulls are all individuals and no two react alike. To do their job—and to keep from being badly mauled—the clowns must not only know the general fighting characteristics of the breed, but also the peculiarities of hundreds of bulls.

But in spite of their hazardous work, most of them are still clowns at heart and they rarely stop when the life-saving part of their work is over. They'll taunt the bull and let him pass tantalizingly close, playing him until the bull tires or turns away.

Even this aspect of their work, apparently done just for the crowd, has its purpose. The bulls have good memories and the next time this particular bull tosses its rider, he'll go first for the familiar figure in the ridiculously striped shirt and baggy pants. And that's precisely why the clown is there.

Tractors are slow-moving vehicles made to do heavy field work and in most cases are unstable at high speeds and not meant for high way travel. Most of the time when there is a collision between a farm tractor and an automobile, the tractor driver is killed.

A little mutual consideration can help prevent many of these accidents, points out the council. Automobile drivers should be alert and watchful for equipment which may be on the highway and farmers can help by carrying warning flags in daytime and proper warning lights at night.

Lack of electrical equipment doesn't relieve the farmer of the responsibility of carrying warning lights. A lantern in conjunction with

good reflectors can be a big help in warning approaching cars.

Farmers should plan ahead to avoid unnecessary movement of farm equipment on heavily traveled roads, advises the council. Too, they should slow down for turns and leave the tractor in gear when going down hills. Only experienced operators should be given the responsibility of handling farm machinery on public roads.

Better entrances to driveways and fields plus courtesy on the part of both motorists and farmers may save lives.

U. S. farming remains highly diversified

COLLEGE STATION — Farming in the United States remains highly diversified despite the continuing developments in mechanization and automation. John G. McHane, extension economist, says this is true not only in crops produced, but also in size, in labor spent in production and in investment in land and equipment.

A recent U. S. Department of Agriculture report on farm costs and returns on family-operated farms for 1937 lists 31 major types of commercial farms and 18 important farming areas in the nation, says McHane.

The different types of farms vary considerably in acreage and intensity of use. Farms range in size from an average of 10 acres for poultry farms to 13,340 acres for sheep ranches in the Southwest. Little or no land is cropped on these two types of farms.

Farms with more intensive cropping range from an average of 29 acres harvested on high-labor intensive tobacco farms, to around 457 acres of grain-ruminant livestock farms. Average labor used per acre of cropland ranges from 133 hours on tobacco farms to 844 hours on grain-ruminant livestock farms.

Total investments per farm also vary considerably among the types of farms, points out the economist. Peanut-cotton farms average a total investment of \$10,539 in 1937, while the sheep ranches of the Southwest averaged \$177,770. Machinery and equipment investments ranged from \$1,800 for the peanut-cotton and poultry farms to almost \$17,000 on wheat-pea farms.

McHane also points out that a wide range in total investments exists within a farming type area and among individual farms within the area. Corn Belt farms, for example, range from less than \$40,000 to more than \$100,000 per farm.

MIDLAND VISITORS

Mr. and Mrs. Bud Byrd of Midland visited Thursday and Friday of last week with his parents, Mr. and Mrs. Lee Byrd.

HIS WORK'S NOT ALL "OFFAL" — San Francisco — Artist Danta Pessagno, applies paint to canvas while at work in the yard of his brother's home. Pessagno, 44, came to San Francisco from Italy in 1954. His brother Aldo was already here — well established and a stockholder in the Scavengers Protective Association, a group of garbage men, and a hardy worker on the refuse trucks. Dante joined him and went to work too, then had to stop work because of a cut on the hand. At just about that time — the Scavengers completed their new office building and needed some decorations. Aldo mentioned Dante to the job, and after seeing his work, members of the Association decided to let Dante paint for his salary instead of hauling rubbish. Pessagno works in oils, in water colors, and in India ink. He has completed a mural map of San Francisco for the Scavengers' lobby, and several scenes of his native Italian countryside for the offices in the building.

TAKES TWO-WAY COURTESY

Motorists cautioned to watch for farm machines on highway

COLLEGE STATION — This is the season of the year when both vacationing motorists and farmers are driving on the nation's highways; but if safety precautions are not followed, only one of them may drive off, warns the Texas Farm and Ranch Safety Council.

Tractors are slow-moving vehicles made to do heavy field work and in most cases are unstable at high speeds and not meant for high way travel. Most of the time when there is a collision between a farm tractor and an automobile, the tractor driver is killed.

A little mutual consideration can help prevent many of these accidents, points out the council. Automobile drivers should be alert and watchful for equipment which may be on the highway and farmers can help by carrying warning flags in daytime and proper warning lights at night.

Lack of electrical equipment doesn't relieve the farmer of the responsibility of carrying warning lights. A lantern in conjunction with

OSCAR GRAY

English churchman is to conduct revival

The Rev. Maynard James of Lancashire, England, will be guest speaker for a revival beginning Tuesday, Aug. 12, at the Church of the Nazarene and continuing through Aug. 24. The Rev. Cecil Stowe, pastor, has announced.

Services will be held at 7:45 o'clock each evening.

The Rev. Mr. James is editor of "The Flame," the official paper of the Church of the Nazarene in the British Isles, which has a circulation that reaches into about 30 different nations.

For five years he was president of the Beach Lawn College in England. He is not only an evangelist in the British Isles, but has preached in France, Switzerland, the United States, Canada, Cuba, Colombia, South America, and South Africa.

In his messages here, the Rev.

Mr. James will deal with present world events in the light of Bible prophecy.

The Rev. W. E. (Skeet) Rhodes, pastor at Slaton, and Mrs. Rhodes will be in charge of the music for the series of meetings here.

"Everyone is invited to hear the Gospel through the ministry of preaching and singing," said the Rev. Mr. Stowe.

New Arrivals

Mr. and Mrs. Joe Finley of Post are the parents of a daughter, weighing six pounds, two and one-half ounces, born July 27 in Slaton Mercy Hospital.

Dr. and Mrs. C. J. Lewis Jr., announce the birth of a daughter, Darla Fawn, born Aug. 4 in Garza Memorial Hospital. She weighed nine pounds, four ounces.

Mr. and Mrs. John A. Haley are parents of a son, Mark Wayne, born July 31 in Garza Memorial Hospital. He weighed six pounds, 11 ounces.

A daughter, weighing seven pounds, 13 1/2 ounces, was born to Mr. and Mrs. James A. Johnson, July 29 in Garza Memorial Hospital. She has been named Deborah Lee.

Mr. and Mrs. Jerry H. Kotria of Southland are parents of a son, Mark Allen, born July 30. He was born in Garza Memorial Hospital and weighed nine pounds, 10 1/2 ounces.

Mr. and Mrs. Luther Bilberry announce the birth of a daughter, Patricia Ann, born July 29 in Garza Memorial Hospital and weighing seven pounds, 10 1/2 ounces.

Auto interiors take bales and bales of cotton

The automobile industry used more than 310,000 bales of cotton during 1956 and preliminary figures from the National Cotton Council's market research section indicate 1957 consumption will exceed 300,000 bales.

Upholstery, sidewall material, headlining, convertible tops and seat covers account for most of the cotton used in the highly styled interiors.

Lining and upholstering the 1957 models consumed more than 150,000 bales according to these estimates. While the trend has been toward synthetics because of their shiny appearance, cotton is the major fabric used because of its superior holding power as a backing material. Virtually all coated fabrics used today are coated on cotton.

Convertible tops provide an excellent opportunity of how cotton can hold and expand markets by capitalizing on research opportunities. Specially developed cotton has virtually driven synthetic materials out of this market. In 1956, more than 5,100 bales of cotton were used. Vinyl-coated cotton is favored because it is durable, easy to fit, has color permanency and is easy to clean.

About 20,000 bales of cotton are consumed each year in the production of seat covers for the nation's automobiles. Special cotton fabrics have been developed which are moisture-absorbent, colorfast, durable, cool, lustrous and highly styled.

The tire cord market is still a substantial one for cotton. Although synthetic materials now account for most of the tire cord used, the preliminary 1957 figures show that more than 115,000 bales of cotton were used to keep America's wheels turning.

Consumption of cotton is expected to increase as production in the automotive industry expands and cotton comes up with quality improvements and greater sales appeal.

ATTEND REUNION

Mr. and Mrs. R. V. Long and daughter attended the Crabtree family reunion Sunday in Mackenzie State Park in Lubbock.

FROM SAN ANGELO

Mr. and Mrs. Paul Duren Jr. and Paula of San Angelo spent the Mrs. Paul Duren Sr.

CALIFORNIA VISITORS

Mr. and Mrs. O. E. Ammons of Lawndale, Calif., are spending two weeks visiting friends and relatives in Post and other West Texas towns. They are former Postites.

IN BASIC

Pvt. Graydon Howell Jr., recently arrived at Fort Carson, Colo., for training with the 9th Infantry Division. He is the son of the Rev. and Mrs. Graydon Howell and is a graduate of Post High School.

Money often root of family feuds

COLLEGE STATION — Family discord often is due to failure of all family members to agree on financial practices, according to Mrs. Elsie Short, extension specialist in farm and home development.

The effective operation of any family as a unit is influenced in part by the kinds of arrangements it makes to handle financial matters and by the attitudes of family members toward those arrangements. Close family relationships may be developed when there is mutual understanding and agreement in regard to the use of money.

Planning income, expenses, and family goals and making the plans work may not be an easy assignment at first. But families who have earnestly worked at it for several years say it strengthens family life, provides good training

Egg production bulletin topic

COLLEGE STATION — Successful management of a poultry flock for egg production is dependent upon maintaining a good performance level for the major factors that influence production cost.

Maintaining this performance level is the theme of a bulletin just released by the Texas Agricultural Extension Service. It is entitled "Commercial Egg Production." The authors are Ben C. Wormell and Bob J. Griffin, extension poultry husbandmen.

According to the bulletin, there are six major factors that influence production cost — size of flock, livability, feed efficiency, labor efficiency, rate of lay and money invested.

The bulletin discusses each of these factors as well as other related subjects such as pullet placements, housing, equipment, litter lighting, cooling, feeding and health maintenance.

The publication may be obtained from local county agricultural agents or from the Agricultural Information Office, College Station, Texas. Ask for B-905.

License-free anglers, hunters to get cards

AUSTIN — License-free hunters and fishermen over 65 may soon obtain a card testifying to their age, the Game and Fish Commission said Saturday.

The identification card will be issued by license deputies who will furnish it on such proof as driver's license or poll tax receipt. The game department hopes the new plan will be a convenience to older sportsmen who in the past have had to produce proof of their age on the spot for game wardens who questioned them.

ing for the children and helps to save money, energy and time.

Extension bulletin, "Money — Family Style," gives practical suggestions for managing family income. Copies are available from your county extension agent's office.

SALINA, KANSAS — This wheat on the Allan Hocking farm near here all but hides two of Hocking's sons that were playing in the fields. Jimmy, 5, has to hang around brother Bruce's neck to keep from getting lost. Record yields are expected in the 1958 harvest.

FIRST INSTALLMENT DUE SEPT. 7

Texas public school lunchrooms due increase in federal funds

COLLEGE STATION — First installment of \$5,488,245 of federal funds for Texas schools in the national school lunch program will be released by the food distribution division, Agricultural Marketing Service, Dallas, around Sept. 1, reports John J. Slaughter, chief of the Dallas AMS office.

Texas public schools will get \$5,166,017, an increase of \$661,449 over last year and private schools will get \$322,228, increase of \$72,370, according to Slaughter.

Funds appropriated by Congress for the program are released to the states according to the number of children between 5 and 17 years of age, inclusive, and the relation of the per capita income in the U. S. to the per capita income in the state.

The public school allotment for Texas will be used by the Texas Education Agency to reimburse schools in part for the food bought from local merchants. Texas private schools secure their allotments directly from Slaughter's office. Last year about 3,000 public and

131 private schools operating under the school lunch program spent about \$20,780,935 with local merchants for food, Slaughter said. They served 90,860,139 meals, nearly all with a half pint of milk and the average cost was about 25.4 cents during November, the peak month of participation last year.

"With the use of USDA funds and foods, schools can keep the cost of lunches at the lowest possible level," Slaughter said, emphasizing that each school determines the cost of its lunches on a non-profit basis.

The program is designed to improve the diets of school children and to enlarge the market of farmers. At the same time, it creates local business and jobs.

Texas public schools which have not been in the program but wish to participate this next school year should contact Charles M. Hicks, Texas Education Agency, Capitol Station, Austin. Private schools should contact the Food Distribution Division, AMS, USDA, 500 S. Ervay Street, Dallas 1, Texas.

SHOPPING FOR A FISH DINNER? — New York — Junior, a 4-month-old kitten, at the Pet Show of the Boys' Club of New York is interested in a bowl of tropical fish. Chances are that pet exhibit will become fodder for the former if someone says something about it — but fast.

Actual cotton plant seen as to cottonseed meal sales

total amount of protein concentrates used in swine and poultry feed in the cotton states alone exceeds the total production of cottonseed meal.

The development of such a new variety would reduce the cost of seed processing. It would enable oil mills to exercise greater freedom in selection and operation of processing machinery for the most efficient separation of oil and meal.

For many years, cottonseed meal has been a favorite for sheep and cattle feeding. These animals are not sensitive to gossypol. Thirty years ago U. S. feeders fed an average of 35 pounds of oilseed per unit. According to the latest figures, the average now is about 112 pounds.

HOME FROM TRIP

Mr. and Mrs. Bing Bingham and children returned Monday from a two weeks' vacation in California. They visited Disneyland and other points of interest.

State Capital NEWS

By Vern Stanford

AUSTIN — Although the main bout of the political summer is over, there's still considerable commotion ahead.

Generating a little extra heat during the scorching weeks ahead will be these events:

STATEWIDE RUNOFF: Only one race for statewide office, a place on the Supreme Court, remains to be decided at the Aug. 23 primary. Contenders are Robert W. Hamilton of El Paso and J. Edwin Smith of Houston.

In a one-contest race like this, the candidates' big problem is likelihood of being ignored. A tiny segment of authorized voters could tip the election.

State Democratic Chairman Jim Lindsey has reminded county chairmen that the law requires that they hold a runoff primary—even if it's just for one race. In some 100 counties there are no local races going into a runoff.

LEGISLATIVE RUNOFFS: Winners of 33 legislative posts are yet to be decided.

Included are three campaigns to decide successors of retiring Senators Otis Lock of Lufkin, Searcy Bracewell of Houston and Carlos Ashley of Llano. All of the 28 senators already definitely "in" are incumbents.

In the House, also, it appears to be a good year for incumbents. Out of a membership of 150, 191 won out in the first primary or had no opponents.

Nineteen new members were elected to the House in July, and winners of 30 seats are yet to be decided. Twelve incumbent representatives are involved in these runoffs.

SPEAKERSHIP RACE: Hanging in the balance of the 30 House of Representatives runoff races is the outcome of months of persistent campaigning for one of the key posts in state government—Speaker of the House.

Speaker is elected by fellow House members. Candidates are Rep. Waggoner Carr of Lubbock, seeking a second term, and Rep. Joe Burkett Jr. of Kerrville.

After the July primary, each claimed to have 45 per cent of House members pledged to his side. This is not literally possible since only 80 per cent of the total membership has been elected.

But it illustrates the nip 'n tuck nature of the contest that probably won't be over until the last chip is down.

STATE DEMOCRATIC CONVENTION: Climax to the precinct and county conventions—and all the struggle that preceded them—

Eastland man is new owner of The Dairy Hart

R. A. Duncan has purchased The Dairy Hart from Leon Ray and will be the new owner and operator.

Duncan, enthusiastic over Post as the town for a good drive-in restaurant and soft drink stand, comes to Post from Eastland. He has been in the drive-in business for the last seven years.

The new drive-in owner is married and has one daughter, Bonnie 15. The Duncans are members of the Church of Christ.

Right now, Duncan is trying to find a home to rent here for the family.

Duncan said he wants to meet his public and will gladly listen to any suggestions from customers for improving the service at The Dairy Hart.

Ray, former owner of the drive-in, has departed for the Gulf to "go fishing for quite a spell."

will be the state meeting in San Antonio Sept. 9.

It's known traditionally as the "governor's convention" with the nominee for governor and his supporters taking the lead in deciding on officials, committees and policies for the next two years.

Gov. Price Daniel, who worked harder at rallying moderate-conservative Democrats to precinct conventions than at his own race for renomination, predicts a comfortable margin of supporters at the state meeting.

MORE STUDENTS, more prosperous profs are in prospect on the campuses of Texas state colleges and universities this fall.

Commission on Higher Education predicts a total enrollment of more than 81,000 at the 18 tax-supported colleges, up from last year's 77,913. Beginning this year, a growing flood of college students is expected as the high schools turn out the "war babies" of the 1940's.

Pay raises up to 20 per cent will begin in September for the state college teachers. It will put the "average" professor's annual salary between \$5,000 and \$7,000.

ATTY. GEN. Will Wilson filed suits in an Austin district court in an effort to squelch a new scheme for charging excessive interest on small loans.

Wilson's suit attacked "brokerage fees" being charged by some small loan companies in Austin. Texas Constitution limits interest rates to 10 per cent. But "loan sharks" have been getting around this, says an assistant attorney general. They charge a legal rate of interest, then tack on a large "broker's fee," presumably for arranging the loan.

Until last spring, when credit insurance rates were sharply reduced, excessive insurance charges were regarded as the favorite dodge of lenders in getting around the 10 per cent limit.

Attorney General Wilson is asking the court to enjoin the loan companies from using "any indirect methods" of evading the law. Efforts to pass measures strengthening the state's anti-usury laws have had uphill going in past Legislatures. New tries are certain next year, some probably aimed at establishing a higher legal interest rate for small, unsecured, short-term loans than for long-term, secured loans.

A special state regulatory agency for loan companies, as for banks, also has been suggested.

A TEST SUIT is set for Aug. 13 to determine who bears the cost of moving utilities to make way for new interstate highways.

Attorney General Wilson filed suits in an Austin district court. Defendants are cities of Austin and Dallas, and the decision will ultimately affect many cities across the state.

Last Legislature passed a law permitting use of the federal-state highway funds to pay for necessary utility moving. But Wilson contends such payments would violate the constitutional prohibition against "donating" public money to corporations and individuals.

City governments, regarded as the law, are vitally concerned with the outcome of the case. Texas League of Municipalities has predicted an adverse ruling would result in some \$20,000,000 in utility moving costs for cities.

TEXAS SELECTIVE Service system marks its 10th anniversary this summer.

Since the present Selective Service Act became effective in 1948, the state's 137 local draft boards have kept tab on millions of young men. During this period 117,000 Texans have been drafted—70,000 of them during the Korean action.

WASHINGTON AND 'SMALL BUSINESS'

By C. Wilson Harder

It has now become the fashion among the so-called intellectuals, parlor pinks, and others, to throw stones at American auto industry.

And while perhaps in the present time of stress when the recession is in part due to the failure of the auto industry to maintain a steady pace, the Big Three of Detroit are entitled to some lumps.

What these critics forget, and what unfortunately the Big Three forgot, is that the lifeblood of the auto industry is the nationwide corps of auto dealers who for the most part are independent businessmen with their own money tied up in sales and service facilities.

It is these dealers who made America a nation on wheels, but as soon as law law enforcement and a fuzzy governmental attitude permitted huge concentration of auto making power, dealers were forced to go along with policies many, if not most, are not in sympathy with.

The American motorcar today is an outstanding engineering achievement. Perhaps they are bigger than absolutely necessary; perhaps they even have too much glittering chrome.

But it is quite possible that these things have added only insignificantly to prices of autos.

One of the most potent points in this entire situation was made by Charles Kettering, veteran inventor of General Motors, when in a recent article in a national magazine he stated that almost one-fourth of the retail price of each car is now tax money. This, National Federation of Independent Business.

in a car, selling for example, at \$3,000, \$750 is tax. Thus, probably in no industry, with the exception of whiskey, is so much tax incorporated in the selling price.

And while perhaps whiskey is not an essential, in today's economy, an automobile is essential to practically every family. This is a fact which bureaucrats have long refused to recognize, maintaining the same old stand when cars were but rich men's luxury playthings, and thus subject to taxation on that basis.

But today, there is hardly a salesman, factory worker, a business, or an executive that can exist without a car.

And thus the enigma of the auto business today is probably due to the disparity between the price of a new car, and the trade-in value of a used car, as compared to the pre-war ratio.

Yet greater depreciation in a used car today is undoubtedly largely accounted for by the fact that new cars carry not a "pack," but a "tax pack" of 25%.

Big Autos claim that Reuther's Big Auto Labor has forced up the prices. Reuther retorts that excessive profit taking by Detroit has forced up prices. Perhaps both in a measure are correct.

But claims of Big Auto and Big Labor do not seem of major importance at this time.

But the first step, it would seem logically, would be to eliminate the "tax pack" in new cars to immediately bring aid and relief to the thousands of hard pressed independent car dealers. Unless this is done, and done promptly, one of the most valuable economic forces on every Main Street in America could disappear with an irreparable loss to every community.

HAS HIGHLY SHIFTING NATURE

More sweeping changes are in store for agriculture

COLLEGE STATION — Agriculture has a highly shifting nature—big changes are in store and many have already occurred, according to Alvin B. Wooten, extension economist.

For example, U. S. farm population dropped nearly two million persons in 1956—an all-time record drop for any single year, says Wooten. But while numbers are decreasing, farm size is increasing. Since 1940, average farm size has increased 40 per cent and investment per farm has shot up 300 per cent (when inflation is allowed for). Farm land values have risen 40 per cent in the last seven years.

Only 12 per cent of the population is engaged in farming, says the economist. This means 12 per cent of the population now provides the raw material to feed itself and the remaining 88 per cent. In colonial times, more than 85 per cent of the nation was engaged in farming.

In 1950, only 30 per cent of farm people were working at off-farm jobs. In 1956 this figure had risen to 40 per cent.

In 1950, 17 per cent of farm wives had off-farm employment. In 1956, 26 per cent were so engaged. This was the largest increase of any occupational group.

In 1957, Wooten points out that 2.1 per cent of the nation's farmers produced 33 per cent of all farm products and half of the farmers produced 90 per cent. Thus, 50 per cent of U. S. farmers produced only 10 per cent of the total farm production.

The farm population is also getting older, he says. Since 1950, the largest decrease in farm population has been in the 18-to-44-year-old group.

FORT WORTH VISITORS

Mr. and Mrs. W. C. Compton of Fort Worth were Friday night guests in the home of Mr. and Mrs. Lowell Short and family.

SOCIAL SECURITY MAN SAYS

Some working after retirement age still entitled to benefits

Even though you continue working after reaching retirement age (65 for men and 62 for women), you may still, under certain conditions be entitled to social security payments for one or more months according to John G. Hutton, district manager of the Lubbock social security office.

Hutton suggests the four-point test below for all persons who have sufficient social security work credits at retirement age and who have delayed filing applications for old-age insurance benefits because of continuing employment or self-employment. You don't need a high score. A single "yes" answer may mean you can receive social security benefit payments for one or more months in a year.

Here's the test:

1. Will your earnings this year be \$2,050 or less?
2. Have you earned \$80 or less in any month since reaching retirement age and within the last 12 months?
3. Were you at least age 72 within the last 12 months?
4. If self employed, was there any month this year or within the last 12 months in which you did not carry on any business activity?

"Don't forget," said Hutton "if you scored one 'yes' or better, call at the social security office with facts and figures as to your earnings. An expert interviewer will review your record and let you know if you qualify for pay."

EN ROUTE HOME

Mr. and Mrs. Dolan Dempsey and family visited Mr. and Mrs. J. W. Rogers Thursday and Friday of last week. They were en route to their home in Seagraves from a vacation in Kentucky. Joan Rogers had accompanied them on the vacation trip.

THANK YOU, VOTER

OF PRECINCT 2

I wish to extend my sincere appreciation to everyone who supported me in the July 26th election. I earnestly solicit your support in the second primary.

To those who supported my opponents in the election, I wish to ask for your vote and influence in the second primary.

If elected, I will make every effort to make good and fair commissioner.

Again I Will Say Thanks,

R. A. (Roy) ETHRIDGE

Grain production is booming area storage business

LUBBOCK — Expanding grain production in West Texas has created a problem that in turn promises to expand the storage business, two Texas Tech agriculture researchers report.

A wet winter and promising high grain yields, greater application of fertilizer and improved seeds all have forced a need for greater storage facilities, Prof. Ira Williams, and Asst. Prof. Ray Billingsley, say in the July issue of "West Texas Today."

"Twenty-eight towns have just completed forty grain storage units averaging 500,000 bushels, Lubbock leading with ten buildings and space for 6,114,000 bushels," they write.

Pointing out that storage is the key to more profit for farmers with cash grain for sale, they state that storage—now at a premium in West Texas—must be provided either on the farm or commercially, if an organized market is to exist for grain.

Their statistics show that the value of grain crops produced in West Texas has jumped from just above \$90 million in 1951 to in excess of \$150 million in 1957.

"As long as this trend continues, large quantities of additional storage space will be required each year just to keep up with the increasing grain production," the Tech ag teachers predict.

Williams and Billingsley expect grain production and storage to take on an increasingly important role in West Texas.

With the shifting of population centers to the Southwest and the industrial Gulf Coast area, livestock and beef production is shifting too. This puts the Texas grain farmer closer to these markets, thus making grain handling and storage even more important.

HOME FROM VISIT

Mrs. Susie Brown, who has been visiting in Carlsbad, N. M., the past two weeks, was accompanied home Friday by Mr. and Mrs. Howard Brown and two children. They visited over the weekend with Mrs. Lucy King.

EN ROUTE TO LAKE

Howard Putman of Lubbock, accompanied by two friends, visited with Mr. and Mrs. O. E. Montgomery Saturday afternoon en route to spend the weekend fishing at Lake Thomas.

VISIT IN SNYDER

Mr. and Mrs. James Ray visited Sunday with friends in Snyder.

Study under way on crossbred and purebred cattle

COLLEGE STATION — Whether hybrid dairy cattle might be better producers than purebred cattle is about to be subjected to scientific scrutiny at the U. S. Department of Agriculture's Beltsville, Md., research center.

A long-range investigation recently undertaken by USDA scientists will compare purebred Brown Swiss, Ayrshire, and Holstein cows with crosses of the same breeds, according to A. M. Meekma, extension dairy husbandman. Test matings are planned so that both two-way and three-way crosses can be compared.

The crossbred and purebred cattle, descended from the same basic stock, will be compared on the basis of their milk production (including butterfat content and solids-not-fat production), breeding qualities, birth weight, growth of calves, and their efficiency in converting feed into milk.

Meekma says these studies should demonstrate whether the hybrid vigor that has been so effective in increasing productivity and quality in many plants and some animals can be put to practical use in improving dairy herds. Using sires from artificial breeding establishments, crossbreeding would be relatively easy to practice in the dairy industry if it

Santa Fe carloadings increase during week

Santa Fe carloadings for week ending Aug. 2, were 22,340 compared with 21,553 for the same week a year ago.

Cars received from connections totaled 18,194 compared with 12,875 the same week in 1957.

Total cars moved were 32,534 compared with 33,628 for the same week a year ago.

Santa Fe handled a total of 31,763 cars in preceding week this year.

KINGSVILLE VISITORS

Mr. and Mrs. Alfred Beauchamp and four children of Kingsville are spending a few days with their parents, Mrs. Lilly Beauchamp and Mrs. Mabel Martin. She and the children will remain for a longer visit.

VISIT IN ODESSA

Mr. and Mrs. Ardell Williams and three children visited Sunday with her brother-in-law and sister, Mr. and Mrs. Kenneth Hamilton, in Odessa.

WATER IS BEST FOR YOU!

These photographs depict simple illustrations of water heating principles. Any high school physics student can perform them. They graphically show why electric water heating is safe, efficient and dependable.

PHOTO 1 — Electric water heaters have cold water baffles. Smoke is used to represent cold water as it enters the water heater at the bottom of the tank. Because of the baffle, the smoke lays on the bottom, just as would cold water entering an electric water heater. The baffle keeps the cold water from mixing with the hot water.

PHOTO 2 — Remove the baffle and the smoke surges through the entire glass just as cold water entering non-electric water heaters surges throughout the tank, reducing the overall temperature of the previously heated water.

PHOTO 3 — Using a paper cup to represent a non-electric water heater and a candle as the heat source, you find that water poured into the cup keeps the paper from burning.

PHOTO 4 — But, now add sand, representing the sediment that collects on the bottom of water heaters due to solids in the water. The bottom of the cup is subjected to excessive heat and will burn out quickly.

PHOTO 5 — This is true because the insulating qualities of the sediment prevent the heat from reaching the water. This graphic presentation shows, too, why old non-electric water heaters become unsafe.

Electric water heaters are fully insulated on all sides. The heating elements wrap around the sides of the tank and are not affected by water solids which may collect in the tank. It is impossible for the bottom of an electric water heater to burn out. Electric water heating is safe and you can get Reddy's special water heating rate—ask your Public Service Company manager.
