Four-Night Show Is To Be Held Aug. 7, 8, 9 And 10

27 Riding Groups Invited For Junior Rodeo Parade

Twenty-nine area riding groups have been invited to participate in the parade opening the annual Southwestern Championship Junior Rodeo here Aug. 7, 8, 9 and 10, according to Leon Miller, secretary of the adult division of the junior rodeo association.

The visiting riding groups will be participating for first, second and third place trophies.

The secretary also announced that there will be first, second and third place prizes of \$15, \$10 and \$5 for best floats, and a \$10 first prize for the best-decorated automobile in the parade.

"We'd like to have a record-breaking number of floats and decorated cars in this year's parade," said George (Scotty) Samson, parade chairman.

The parade will be held at 6 p.m. Wednesday—opening day of the four-performance rodeo. The procession will form just south of the intersection of the Tahoka Highway and FM Road 1313—between the high school and junior high school buildings. From that point, the parade will proceed north to Main Street, east on Main to the railroad crossing, then back up Main

to the courthouse and south to the original starting point.

The secretary said today that inquiries for entry blanks are being received daily from junior rodeo contestants throughout the Southwest and from other sections of the nation.

"We've received inquiries from several states, the most distant one being Ohio," Miller said.

More than 150 contestants 19

years of age and under will be competing for approximately \$3,500 in cash and prizes. The regular rodeo events will be bareback riding, calf roping, flag race, ribbon roping, girls' barrel race, cutting horse contest and bull riding. In addition to the regular rodeo events, there will be a goat-sacking contest each night for children under 12 years of age. All children within the age

Abnormal Cotton Leaves Add To Farmers' Woes

Many farmers of the Graham community have something to worry about this week besides drought and insects—possible 2-4-D poisoning of cotton.

Leaves at or near the top of stalks in any cotton fields in the Graham community have taken on an odd shape, long and narrow and tapering to tiny fingers, instead of their normal round shape.

County Agent Lewis C. Herron took some of the stalks to the Lubbock Experiment Station Tuesday and was told that the oddly-shaped leaves were an indication of 2-4-D poisoning.

Experiment Station personnel, however, told Herron to advise farmers whose crops are affected to continue normal farming operations on the cotton.

"They said they believed the affected cotton would gradually come out of it and the leaves resume their normal shape as the cotton continues to grow."

The county agent said that as far as could be ascertained there had been no direct applications of 2-4-D to cotton in any of the affected areas.

Herron said the affected crops in the Graham community total more than 500 acres and are in an area "roughly two miles wide."

The agent added that he'd also received reports of similar cotton leaf growth in the Barnum Springs

community, which is northeast of Post.

The chemical 2-4-D was described by the agent as a growth hormone. It is used as a mesquite-killer in many areas.

Outside of the odd-shaped-leaf stalks in the Graham area, the cotton crop continues to look good, "And even the cotton with the funny-shaped leaves is growing," the agent added.

The early feed crop is in desperate need of moisture, although later-planted feed, like the cotton, is holding up well.

The agent said there is a noticeable increase in fleahoppers and bollworm eggs. The jumbo grasshopper infestations which have plagued crops in some areas of the county appear to be easing up, Herron said.

In conclusion, the agent said he wished to emphasize the importance of farmers whose cotton has some of the odd-shaped leaves to continue farming their crop in the normal manner. "The chances are good that this cotton will come out of it," he said. "At least, the Experiment Station personnel believe that it will."

Every Drop Is Needed

Tying in of two new wells and slightly cooler weather appear this week to have eased Post's pressing water problem to a slight degree, but there still is need for conservation on the public's part, Mayor James Minor said today.

With the master meter "out of whack" and readings being taken from a meter in a manhole near the master gauge, water consumption figures for Tuesday showed 954,000 gallons, but Mayor Minor said he believed the total was "higher than that."

The mayor said figures for Sunday, Monday and Tuesday all indicated that the readings being taken while the master meter is being repaired "are not accurate."

Daily water use since Wednesday of last week and through Tuesday of this week has been as follows:

Wednesday	1,050,000
Thursday	1,074,000
Friday	1,110,000
Saturday	1,043,000
Sunday	623,000
Monday	999,000
Tuesday	954,000

City Supt. R. H. Tate has advised residents to watch these weekly figures as they appear in the paper and to remember that any time usage goes past the 1,000,000-gallon mark daily, the city is getting close to its maximum potential.

Members of the Post Rotary Club were told by the mayor at Tuesday's luncheon that "the city council wants you to know that water is a 24-hour job for us during the summer months."

In a program devoted to the city's water problem, the mayor said that since last summer the city has drilled 15 new water wells at a cost of \$22,161. Only seven of these wells, he said, were tied into the city's water system, pumping at the rate of about 50 gallons a minute.

He explained that a few years ago it was considered uneconomical to pump 50-gallon-a-minute

O. W. Horton Dies Of Heart Attack

O. W. Horton, 58-year-old Close City farmer, died of a heart attack at his home in the Close City community at 1 a. m. Wednesday.

He had worked Tuesday. Horton, a native Texan, came to Garza County eight years ago from Foster, Mo., where he also farmed. He was born April 8, 1899, at Springtown, Tex.

Survivors include his wife; three daughters, Miss Dorothy Horton of Post, Mrs. Robert F. Parker of Lubbock, and Mrs. Ray Marlow of Reno, Nev.; three brothers, Earl of Ranger, Tex., Rosa of Palestine, Tex., and Gordon of Durant, Okla.; and three sisters, including Mrs. Bob Foster of Grand Prairie, Tex., and Mrs. Roba Ramey of Woodson, Tex.

Funeral arrangements today were pending notification of a daughter, Mrs. Ray Marlow, who was enroute to her home in Reno from a visit with her parents at Close City when her father died.

Mason Funeral Home is in charge of arrangements.

Who Will Be

'Miss Post'?

A "Miss Post of 1957" will be selected in a contest at the municipal swimming pool at 7 p.m. Saturday, July 27, according to Miss Frances Craig, instructor and director at the pool.

Unmarried girls between the ages of 15 and 23 are eligible to compete for the Miss Post title. Those wishing to enter, or sponsoring firms which wish to enter a candidate, are asked to contact Miss Craig at the pool.

Two contestants had been entered up to noon Wednesday. They are Linda Lott, sponsored by Franleigh's Fashions, and Mary Louise McCrary, sponsored by Maxine's. Two other firms, Duniap's and Herring's, had indicated they would sponsor contestants, Miss Craig said.

In addition to the beauty contest, a swimming and diving exhibition is planned.

The winner of the Miss Post contest will represent the city in a district bathing beauty contest to be held here next month.

Completion Nears On Disaster Setup

Sub-committee chairmen of the new Garza County Disaster Organization will complete their committee organizations and draw up disaster plans to cover their committees' specific disaster responsibilities in the next two weeks.

The sub-committee chairmen will meet with John Lott, head of the organization, Monday night, July 29, and have been asked to have their committees organized and plans drawn up in writing by that time.

The first meeting of Lott with his disaster sub-committee chairmen held in the First Christian Church annex Monday night, included considerable discussions of various phases of the disaster problem.

Robert Cato was named chairman of the committee in charge of the warning net and Mrs. M. J. Malouf as chairman of the sub-committee on clothing.

In a discussion on the tornado warning signal, Cato said that the warning will not be used unless a funnel has been sighted bearing down upon the town. The signal will be four blasts of the fire siren if the power is on and four blasts of the steam whistle at the mill if the town's power has been knocked out by the storm.

Then, after the burns had healed, he just decided to keep the "full beaver" for the Jubilee doings. He has on one of the derbies which most Post males will wear for the celebration. — (Staff Photo).

Mere Promises Don't Warrant Rate Boost

In its request for an increase in rates here, General Telephone Company of the Southwest is not improving its already-strained public relations by practically telling the people there will be no appreciable improvement in service until the rates are raised.

One reason public relations between the telephone company and the public are strained is because promises were made some five or six years ago that Post was in line for improved service. These promises have not been carried out on the scale city officials and the general public expected they would be at the time they were made.

The company's newest request promises a dial telephone system and improved rural service for two rate increases—one an interim boost to go into effect while the improvements are being made and the other a raise to go into effect after the improvements are in.

Nor is the company improving its position with the City Council by not furnishing information to which the city dads think they are entitled before passing an ordinance increasing rates. The City Council wants a look at the company's toll figures here, but has been refused. The City also asked for some idea of what it could expect in improved rural service and was told by the

company that engineering data on the proposed improvements would not be available until an ordinance was passed raising the rates.

This attitude on the part of the company toward requests for information to which the City Council feels it is entitled, plus its record of unfulfilled promises of better service some five or six years ago, certainly isn't setting the stage for an increase in rates. Neither does the public want to see higher rates go into effect on nothing more than promises.

We feel that the company is entitled to a raise, since the last one went into effect in 1951. And, we've heard most of the councilmen say that they feel the company is entitled to an increase in rates.

We believe that if the company will supply the City Council with the information it has requested and assure the city dads that the improvements will be made, then they will get an increase in rates. It's just that the City Council and the public at large is reluctant to boost the rates on the basis of promises alone. We're not intimating that the promises contained in the current rate increase request are not made in good faith, but neither are we forgetting that several years ago a company official promised us improvements which were never carried out to the extent expected.—CD

By CHARLES DIDWAY

IN SOME TOWNS around here, nothing ever seems to come through except big trucks and freight trains. Tahoka, however, slipped a notch ahead of its neighbors one night last week when a flock of Lubbock motorcycle enthusiasts hit the town like a ton of brick.

In a front page story in which it referred to the visitors as "a group of Lubbock motorcycle hoodlums," the Lynn County News said the cyclists raced the streets, ran stop signs, "blew out" mufflers and otherwise flouted the law.

THEY MUST HAVE been a "salty" group, indeed, since The News reports that the riders refused to obey Police Chief Roy Hefner's orders to leave town, forcing him to turn in a fire alarm for assistance. Firemen set out to round up the bunch of cyclists as they raced helter-skelter through the residential districts, finally trapping ten of the drivers at a road block.

By this time, Sheriff Norvell Redwine had appeared on the scene, and through the combined efforts of the officers and the firemen, the riders finally were convinced that the best thing they could do would be to leave town. Even then, according to The News, the drivers were impertinent to the officers.

IT MUST HAVE been a night of excitement for residents of the Lynn County seat, since one motorcycle can make enough noise to awaken most people in a town the size of Tahoka. We hope the group doesn't decide to pay Post a visit. We own a German police dog which won't chase anything except motorcycles, and think what a field day he'd have! Nope, we're satisfied with the big trucks and freight trains and not a bit jealous of Tahoka on account of its motorcycle invasion.

The Weather Bureau says it can warn people of approaching dangerous weather, but it can't take them by the hand and lead them out of danger zones. One great trouble with most people is that they're too optimistic.

AT THE ROTARY Club's installation luncheon, where we'd gone to take a picture of the new officers, we lost both our right-hand and left-hand neighbors—to the Major League All-Star game which had set a starting time of 12:15. No sooner had Supt. R. K. Green, on our right, finished eating than he pushed back his chair and told us in a small voice that he hated like the dickens to leave but that he just couldn't miss the game.

A few seconds later, we looked to our left and saw that Dick Wood also had slipped out. Dick hadn't said anything and it could be that he didn't leave on account of the hall game, but that's the first thing that popped in our mind when we saw that he was gone.

WE WANTED to see the game, too, but publisher Jim Cornish, who'd taken us in the luncheon as his guest, was nearby, and anyway we had to wait to get the pictures. Confidentially, Jim wanted to see the game, too, and so did most of the other Rotarians, but you can imagine how un-cricketer it would have been for 75 or 80 per cent of us to have up and left before the officers were installed. A handful of early leavers didn't make much difference, but a wholesale exodus could have had its repercussions.

We owe an apology to Joe Moss, and when there's as much difference in size as there is between us and Joe, it's best for the one owing the apology to make it—if he happens to be the smaller of the two. Joe came in a week or two ago to tell us he'd resigned as assistant district attorney in Harris County and had opened a law office in Houston. Except for us writing that Joe had resigned as "assistant county attorney," it all came out just as he'd told us.

SOME PEOPLE were surprised that a girl with a bandage on a big toe was chosen a beauty queen, but most of us weren't, as we assumed the contest judges overlooked the bandage on account of their being so busy looking elsewhere.

V. G. Guthrie writes in a little item which he says he thought "you might want to put in your paper." Here it is:

"I hatched a pullet 'bantam' off March 5. Now she has laid a hatching of eggs herself and hatched them off—all within three months of her life. I thought this might be interesting to folks, as most don't even lay until five months of age. She has another brood of chickens besides her own, too."

That sounds like a might unusual chicken, V. G., and thanks for the item.

WE'VE JUST heard of a man who wanted his son to marry a West Texas girl because that no matter how hard times got she would have always been it much worse. You know, he might have something at that.

Ready To Serve When Danger Comes

Organization last week of a Garza County Disaster setup should be good news to all local residents.

Post and the West Texas area this spring underwent its worst tornado season within memory. That turned most local residents into either "rabbits" or "prairie dogs" according to Eddie Warren's definition. A "rabbit" he explains is a storm-fearing individual who jumps into his car, and figures to outrun or outdrive any tornado funnel. A "prairie dog" on the other hand is the individual who buries into a storm cellar and sits it out below ground.

The series of tornado alerts around the community to the need for both a storm warning system and a disaster organization.

The need has created both. Both are in their infant stages. The bad storm season has ended and a mid-summer heat wave has replaced the series of twister funnels.

That doesn't mean that the whole thing can be forgotten until next spring—or maybe for several springs until the storm disaster grows intense again.

Disaster organizations and storm warnings can't be put together during a time of emergency. They must be thoroughly planned and properly organized. They are of no value unless they are ready to serve when the danger comes. They must be able to operate without elaborate warn-

ing and in times of poor communications and even under the handicap of a power shortage.

There isn't time when the storm comes to check and see if everybody is ready, knows his job, and is on the firing line so to speak. All that must be carefully planned in advance.

That's why the start of a disaster season, so to speak, promises much for the future. There is now time to work out the necessary organization and plans before a new season blows in the black clouds from the West.

There is of course the danger of apathy. Now that the danger is past for the time being, some people are prone to shrug their shoulders and turn to the more immediate problems.

But there is no need for that to happen in this instance. A proper start has been made. Some excellent selections have been made of local people to head up the disaster planning in its many fields.

The effectiveness of any disaster organization depends primarily upon its advance planning. If the Garza organization is to function next year or five years from now in time of crisis this is the time to assure its success.

The community is urged to cooperate with John Lott and his disaster sub-committee chairman. Disaster work can't be planned after the disaster. Let's be ready for the new storm season whenever it may come.—JC

Don't Be A Water Bug

There's been a campaign on across the nation for some years against litterbugs. They are the people who trash up our streets and highways. They're not criminals. They are just careless and heedless. But they are a problem because it costs millions of dollars each year to clean up after them.

Here in this water-conscious community, Post of necessity is aiming its appeal in a new direction.

Don't-be a water bug. That's the call from city officials vitally concerned with the town's limited water supply in the midst of the summer heat wave.

Every day Post uses over a million gallons of water for work, lawns, and play, the town is in the danger zone.

City Supt. R. H. Tate and the city dads don't want to impose water restrictions. They will of course if they must.

But first they are appealing to local residents for their cooperation in conserving water. Tate

advises that lawns should not be overwatered, urges that air conditioners and plumbing be checked for wasteful water leaks.

Will such an appeal to reason work?

It did last year. It can this year. It doesn't in most American communities because the American and his family is a rather independent breed.

Post faces its water future Aug. 19 when voters will go to the polls to decide on the White River Municipal District plan of providing for all the water this community can conceivably use in the next 30 years and more.

Post citizens then can do two things to help weather the summer water crisis.

They can use what water is available sparingly. Then they can talk up the water district bond vote and prepare to go to the polls next month and take a positive step to solve the water crisis once and for all.

Don't be a water bug. Be a water saver instead.—JC

Valley Forge Has Lesson For Scouts

An experience in American history is being shared by more than 60,000 Boy Scouts, including five from Post, during their five-day national encampment at Valley Forge, Pa. Valley Forge symbolizes the hardships which American colonists endured to win their freedom from oppression. The spirit of dogged determination to uphold the rights of the individual which pervaded Valley Forge that historic winter should be re-created in the minds of the army of young Boy Scouts who encamp there.

Gen. George Washington's army was far smaller than the one which moved into Valley Forge last week. But it was not discouraged by the odds against it in fighting powerful England. Washington's army fought for a principle, the dignity of the individual and the establishment of his rights.

The Boy Scouts of today are living in a time

when the type of government founded by the victorious colonists is under attack from within and without. There is no better moral to guide their future as citizens than that of Valley Forge.

A knowledge of American history, and the motivating principles involved, is the best defense for the preservation of the American way of life. The army of 60,000 Boy Scouts can be a formidable force in preserving this way of life when they take their places as adult citizens.

The Boy Scout movement is one of the most hopeful factors for the future of the country, and citizens of Post should be proud that their community is playing such an important part in it. Scouts are taught patriotism. They are taught the meaning of Americanism. And they are taught the principle of self-reliance, a trait which is important to the citizenship of this country.—CD

Clipped Quips From Other Newspapers

We talk about federal aid and we seem to believe that the government can hand out grants without reservation to any group that requests it. We seem to fail to realize that before the government can provide aid to the hundreds and hundreds of groups who are asking for it, that the money must be forthcoming from someone, and that someone is Mr. Average Taxpayer.—Sac City, Ia., Sun.

Every year, tons and tons of government documents which have no value as news, public information or in any other way, come into newspaper offices all over the nation—and most of it is thrown into the wastebasket after it has been scanned by the addressee. It must cost the Post Office Department millions of dollars to carry this torrent of useless mail over the nation.—Port Huron, Mich., Times Herald.

RETURN TO POST

Mr. and Mrs. Chris O'Keefe of Girard returned to Post for a brief visit with friends last week. They lived in Post 29 years ago.

Mr. and Mrs. Raymond Hare and daughter, Patricia Ann, and Mr. and Mrs. Warren Hill of Lubbock were Sunday guests in the home of Mrs. Hare's and Mrs. Hill's parents, Mr. and Mrs. Lee Beard.

VA Questions And Answers

Q. I understand I can get my GI loan entitlement restored if I have to sell my house because of getting transferred to a job in another city. But what if I'm transferred to another job in the same city, on the other side of town? If I sold my house, could I get my loan rights restored?

A. Generally a change of jobs within the same metropolitan area would not be considered a reason for restoring your loan rights. However, restoration might be approved if you could show compelling proof that the change of job location involves substantial increase in the time or cost of transportation to and from work.

Q. I have a World War II GI term insurance policy. If I needed a loan, could I borrow on this policy?

A. No. World War II GI term insurance has no borrowing value. However, your World War II term policy may be converted to permanent insurance, which does begin to build up a loan value after it has been in force one year.

Q. A friend of mine recently lost his sight as a result of a World War II combat injury. What is his deadline for obtaining a VA grant to buy an automobile?

A. He has three years from the time his blindness occurred to file an application for a VA grant for an automobile.

Q. I am a disabled Korea veteran taking vocational rehabilitation training. Will my monthly subsistence allowance end as soon as I am declared rehabilitated?

A. No. It will go on for two months after you are declared rehabilitated.

ROGER BABSON'S AUTHENTIC STATEMENT

Labor Rightfully Called Commodity Depending On Supply And Demand

BABSON PARK, Mass.—Like it or not, labor is a commodity depending on supply and demand. Labor unions can raise wages temporarily just as a dam can raise the height of a stream. But the dam does not destroy the water; sooner or later the water flows over the dam, or the stream dries up.

During the thirties, birth rates in the U. S. had been running about 17 per thousand. Just before World War II, in 1938, the birth rate was 17.6 per thousand, and in 1943 it was 21.5. Then it began to fall, and slipped lower through the rest of the war years. This was accompanied by a scarcity of men due to the draft, with a surplus of women workers. While normal manufacturing was greatly curtailed, the war created an excessive demand for labor for war industries. Therefore, labor adjusted itself fairly well.

The war had two closings, but the boys began to return from Europe in May 1945 and babies began to arrive in 1946. This means that the postwar crop of babies is now under twelve years of age. The birth rate is now running around 24.2 per thousand and the schools are becoming crowded, especially in the elementary grades. As the women who went to work during the war become older, they are dropping out of the job market. This accounts in part, for the shortage of labor, the increased wages, and the inefficiency of much of the labor. Every employer complains about it; but I see nothing that can now be done.

As the oldest of this postwar crop of babies is now under twelve years of age, no relief can be expected (without a severe business depression) for at least five years. The situation is being tinkered with still further by minimum wage and other labor legislation. In the meantime, business is prosperous and production is close to an all-time high. This means that the supply of labor is low and the demand for labor is abnormally high. I repeat that—barring a business depression—I see no relief until after 1960.

As a result of the above conditions, there is constant demand for labor-saving machinery of all kinds. This especially applies to all

forms of office labor-saving devices. We hear much talk about automation, that is the running of a factory or office automatically with very few employees; but this is for some time in the future. Changing to automation is both a

slow and an expensive process and requires considerable capital investment.

The most practical means of bridging the next five years is to take greater care in the selection of employees and to treat them well. There seems to be a natural average wage for given work in a given community. There is no use attempting to buck this wage during the next five years and little point in arguing as to the efficiency of the worker. Wages, however, are not all! Workers have pride and self-respect. They like reasonable hours, good clothes, and a comfortable place to work. Furthermore, the location of the plant or office often demands the expense of an automobile.

Just now the new graduates are "sitting in the driver's seat." It will be fairly easy for most of this year's graduates to get positions. Moreover, many of them will be paid more than they are worth. This is no reason for them to be careless or to think that their job is secure. They will be watched most carefully, with the idea of a big weeding out after 1960.

Every reader should remember that the labor cycle is constantly revolving—the same as the stock market cycle, the money rate cycle, and the housing cycle. Many June graduates who now find it easy to get jobs will be out of jobs or be "sitting on the tailboard of the cart" in about five years. Therefore parents, as well as June graduates, should realize that the present labor situation will not continue unless their "darling" makes good. The present "honeymoon" will continue for a few years more. But it will surely be followed by a period when employers will "clean house," trim down their personnel, and keep only the most efficient. This applies to both men and women.

Post Woman Injured Critically in Wreck

Two Post women were injured, one of them critically, Thursday night when the automobile in which they were riding struck loose gravel and overturned near Lorraine.
 Marion Brown, 26, was reported in critical condition Wednesday in Lubbock Methodist Hospital. She had not regained consciousness at that time. Less seriously injured and not requiring hospitalization was Rose Carter.
 The automobile in which the two women were riding caught fire and burned after rolling over several times. The less seriously injured of the two climbed from the wreckage before the car caught fire. The other, thrown from the automobile and pinned under the wreckage, was freed by motorists who had stopped at the scene of the wreck.
 After being admitted to a Lorraine hospital, the Brown woman was taken to the Lubbock hospital Friday morning in a Hudman Funeral Home ambulance.
 It was reported that the car struck loose gravel as the driver swerved to avoid collision with a station wagon at a crossroads. Reports reaching here were that the near-collision between the automobile and station wagon occurred after another automobile crossing the highway failed to observe a stop sign.

UNDER PROGRAM ADOPTED BY VOTERS

Helpless Persons, With No Support, To Be Eligible For Welfare Checks

Complete and permanent invalids or persons in the community so mentally deranged that they require continuous oversight to keep from harming themselves or others may soon be able to receive small monthly checks from their State Department of Public Welfare through the new state-federal program of Aid to the Permanently and Totally Disabled. The Constitutional Amendment, which was adopted by the voters in November, 1956, limiting the amount of money that can be appropriated for this program to 1.5 million dollars per year, makes aid possible only to those who are helpless and have no relatives able to support them.
 Mrs. Johnnie Weaver, welfare supervisor for this 15-county area, pointed out this is the only welfare program which requires consideration of the ability of relatives to support. This law defines "responsible relatives" as children, parents, step-children, step-parents, brothers and sisters. Mrs. Weaver said that for the first time in nearly 20 years the department's field workers will be required by law to determine the resources of relatives of persons who apply for aid.
 The "permanency" and "totality" of the disability will be determined by a state reviewing

Am I Correct?

Amy Vanderbilt says: (On home entertaining). "An Albanian proverb goes, 'Every guest hates the others, and the host hates them all.' Too much entertaining is exactly like that, with no fun intended. 'It is a good thing for a family to set aside its home for itself and its friends. When guests are invited to break bread for other than purely friendly reasons the entertainment is too often a failure, unless it so happens that such business acquaintances turn out to be congenial. A good rule to follow is: don't try to do business over your own dinner table. 'So entertaining at home should have no strings attached. Occasionally we all accept invitations we prefer not to accept and thus incur a social obligation we must repay in kind. The successful hostess never includes too many new or difficult guests at what should be an intimate little dinner. Eight people who never saw or heard of each other before—and hope never to see or hear of each other again—can do social violence to the most adequately planned evening. 'If host and hostess themselves can, through the careful selection of their guests and through sufficient advance preparation, look forward with pleasure to an evening or a weekend, then the party is virtually assured of success. Whether trained servants present platters of peacock's tongues or the hostess herself dishes up a good spaghetti dinner is quite immaterial. If the house looks as if it expected and welcomed guests, if the host and hostess are relaxed and smiling, the guests will feel at home and at ease, no matter what superficial accountments of entertaining may be missing through necessity or design. 'Entertain and enjoy it!'

Lubbock Gardens Opened To Public

Ten Lubbock gardens will be opened to the public on July 20 and 21, when the Methodist Hospital Auxiliary will sponsor their second "Over the Garden-Wall Yard Show." Funds raised from the annual fund drive are to be used by the auxiliary to furnish all the family waiting rooms of Methodist Hospital. Tickets are \$1 and are good for both days. They may be obtained at the reception desk at the hospital, from any auxiliary member or at the gate of any of the yards shown. Each garden will feature a particular point of interest. The following gardens will be open Saturday July 20 from 6 to 9 p. m.: Roy Furr, 3120 29th Street, patio and professional lighting; John A. Hughes, 3306 43rd, professional landscaping; L. M. Wartes, 3314 45th, professional landscaping; Harris Underwood, 4620 17th, children's playyard and built-up planters, and I. A. Stephens 1907 32nd, swimming pool. The following will be open Sunday July 21 from 5:30-7:30 p. m.: Homer Maxey, 4706 22nd, professional landscaping; J. T. Krueger, 2703 19th, Williamsburg yard; J. F. Schneider 3301 42nd, new yard with professional landscaping; F. W. Hudgins, 3213 23rd swimming pool and redwood cabana; Willa V. Tinsley 3510 29th small yard planted for continuous blooming.

Mrs. K. Stoker Is Birthday Honoree

A tradition of the Christian Women's Fellowship of the First Christian Church is to honor their members when they reach their 70th birthday. As Mrs. K. Stoker's birthday was July 9, she was feted with a salad luncheon in the home of her daughter, Mrs. Willard Kirkpatrick. The table was covered with a mint green cloth and the centerpiece was an arrangement of pastel summer flowers. Summer flowers decorated the luncheon area. Mrs. Stoker cut and served her birthday cake and was presented with a gift by the group. Present were: Miss Nora Stevens and Mmes. F. I. Bailey, Lee Davis, Ella West, W. E. Dent, Will Wright, Jack Burreas, O. A. Madison, Hub Haire, Mason Justice, Ott Nance, Jess Cornell, Larry Kiene of Lafayette, L. J. B. Jones and daughter, Vera Jones, Jack Kirkpatrick and Willard Kirkpatrick.

Life Membership Is Presented To Mrs. Tom Hagood By PWO

The Presbyterian Women's Organization met Monday at 2 p. m. in the home of Mrs. J. A. Stallings with Mrs. A. C. Surman presenting the program on "Stewardship." The group participated in a discussion of the subject. An offering was taken for the aid of medical missions. The highlight of the business meeting, which was presided over by Mrs. D. C. Williams, was the presentation of a life membership certificate and pin to Mrs. Tom Hagood. This is an honor conferred upon those who have rendered outstanding service in the organization. Mrs. Hagood, who recently received a degree from Texas Tech, has given much time and effort to the PWO. The presentation was made by Mrs. Walter Boren, program chairman. Mrs. Stallings served refreshments of cookies and frosted orange juice to the ten members present. The next meeting will be Sept. 9, in joint session with the Mattie Williams Memorial Circle at the Presbyterian Church.

Mrs. N. C. Outlaw Entertains Friday

The Priscilla Club met Friday, July 12, with Mrs. N. C. Outlaw. Secret pals exchanged gifts. Refreshments of white layer cake and lime punch were served to the following: Mmes. R. H. Collier, C. W. Terry, Victor Hudman, Nettie Barrow, O. H. Hoover, Ellis Mills, Monroe Lane, and J. L. Durbin. Also present was a guest, Mrs. Boone Evans.

Bridal Shower In Cummings Home

Mrs. Odean Cummings' home was the scene of a bridal shower for Mrs. Ben Gordon, nee Jane Taylor, and Mrs. Bill Scott, the former Faye Taylor, Friday, July 12. Other hostesses were Mrs. Jack Taylor, Miss Loyce Josey, Miss Joyce Josey, Miss Frances Craig, Mrs. Hansford Hudman, Mrs. Lois Childs, Mrs. Barney Martin, Mrs. Richard Vardiman, Mrs. Dwayne Dodson, Miss Linda Lushy and Mrs. N. A. Lushy. The approximately 25 guests who called between the hours of 7:30 and 9 p. m., were registered by Miss Lushy and Mrs. Dodson. Forming the receiving line were: Mrs. Bill Scott, Mrs. O. B. Scott of Roaring Springs, Mrs. Ben Gordon, Mrs. J. M. Gordon, Mrs. O. B. Taylor and Mrs. Cummings. The refreshment table was laid with an ecru lace cloth over pink and centered with an arrangement of white gladioli flanked by pink tapers in crystal holders. Appointments of crystal and silver were used. Presiding at the table were Misses Loyce and Joyce Josey. The entertainment area was decorated with pink carnations and pink roses and a color scheme of pink and white was carried out. Baking apples? WED IN GALVESTON—Mr. and Mrs. Eugene Geiser are at home in Texas City since their recent marriage in Galveston. Mrs. Geiser is the sister of Mrs. Theima Kuykendall of Post and is a former resident. She is the former Mrs. Gladys W. Denson and has a son, Jeton Denson, who is stationed with the U. S. Air Force in Germany. The couple was married at the Bible Baptist Church and spent a short vacation at the Shamrock-Hilton Hotel in Houston.

Wanda Murray's Engagement To Kenneth Rogers Is Announced

Mr. and Mrs. Tom Murray of Grassland are announcing the engagement and approaching marriage of their daughter, Wanda, to Kenneth Rogers, son of Mr. and Mrs. Earl Rogers. Wedding vows will be exchanged Friday, Aug. 2, at 8 o'clock in the evening in the Grassland Nazarene Church. The Rev. Marshall Stewart will officiate at the single ring ceremony. All relatives and friends of the couple are invited to attend.

OES Has Regular Meeting Tuesday

The Order of the Eastern Star met in regular session Tuesday night at the Masonic Hall. Mrs. Lucille Morris presided as worthy matron and in the absence of worthy patron, the Rev. W. L. Porterfield, Bobby Pierce presided. A patriotic program was presented by Mrs. Luther Bilberry and Mrs. Shirley Mayfield. In the business meeting a committee of W. L. Porterfield, Bobby Pierce, Mrs. Hazel Stallings and Mrs. Fern Jones was appointed to investigate the possibilities of obtaining a new piano for the Hall. Refreshments were served by Miss Thelma Clark and Mrs. Nettie Barrow. The next meeting will be Aug. 3.

Former Post Resident Wed In Hillsboro

Tance Williams, daughter of Mr. and Mrs. James Williams of Hillsboro and formerly of Post, was married to James E. Parton, son of Mr. and Mrs. W. B. Parton of Hillsboro, June 7 in the Hillsboro Church of Christ. Mr. Herbert Coffman of Houston performed the double ring ceremony. The couple is at home in Columbus, Ga.

Elisabeth Tubbs Has Slumber Party Monday

Elisabeth Tubbs, daughter of Dr. and Mrs. Harry Tubbs, was hostess to a group of her friends at a slumber party in the Tubbs home Monday night, July 15. The guests arrived around 7:30 p. m. Monday night. Refreshments of Cokes, peanuts, and home-made popicles were served to Susan Cornish, Meredith and Marsha Nowby, Deborah McCampbell, and the hostess. Entertainment was furnished in the form of television and games played upstairs after the television went off the air. The group enjoyed a wholesome breakfast at 6:30 Tuesday morning and retired to bed about 8 a. m.

Professional Band To Furnish Music For Pampa's Big Top O' Texas Rodeo

The Top o' Texas Rodeo officials announced this week the engagement of the Ruby Nance professional rodeo band to furnish music for the big Top o' Texas show held in Pampa Aug. 7-10.

All members of the Ruby Nance Band are former circus musicians and for the past several years the band has performed for all of the top rodeos in the nation, including Madison Square Garden.

Another musical feature of the show will be the appearance of Leon McAuliffe and his Cimarron Boys of Tulsa, Okla. This band is recognized as the leading western dance band in the nation. McAuliffe will be featured on the nightly rodeo and will then play for dancing following the show. The dances will be held in the National Guard building on the rodeo grounds.

Top rodeo hands in the southwest will be competing for approximately \$5,000 prize money plus a number of appropriate special awards, including silver belt buckles, Steeple hats, saddles, and other trophies.

Announcing the show will be Nat Fleming, popular TV personality and rodeo announcer of Wichita Falls. Fleming has announced the Pampa show for the past several years and is recognized as one of the best in the field.

A downtown ticket office will be set up in the lobby of the Pampa Hotel on July 29 and reserve seat tickets can be secured anytime after that date.

The Kid Pony Show and Miniature Rodeo will hold forth on Monday and Tuesday night, Aug. 5 and 6 prior to the opening of the big show on Aug. 7.

Pampa's tourist of the day will be guest of the rodeo association nightly, Wednesday through Saturday.

Several special acts are being booked to add variety to the regular rodeo program. Six thousand good seats are available for each performance.

YOU and YOUR DOCTOR

The Big Three in America today are reserpine, chlorpromazine, and meprobamate. They are tranquilizing drugs — so-called "happy pills." And as more and more people take them for real and imagined tensions, they are fast becoming household words.

Americans last year spent well over \$150 million for various types. A single drug company reported the sale of 30 billion tablets during the first 10 months of 1956, and indicated that sales were expected to double in 1957.

Scientific studies indicate that the drugs have great value in the treatment of some types of mental illness, but when healthy people, for no other reason than that they had a bad day at the office or that the children have been unusually noisy, begin eating them like popcorn, an insidious danger is in the making.

Like other valuable drugs, tranquilizers can be harmful physically and mentally. Medical researchers have reported that in some cases there is a tendency toward habit formation. In a few cases unpleasant side reactions have occurred. Some users have been depressed rather than calmed. Calm users have become excited. Some reactions have been severe enough to require hospitalization and extensive treatment. And only time can tell whether prolonged use will permanently damage the nervous system.

Last September, some 700 of the nation's foremost authorities on mental illness met to discuss tranquilizers and some of the problems their wide usage had raised. The conference concluded that the drugs do evidently relieve tensions in mentally disturbed persons, but for every research team reporting positive results, another reported failure in trying to duplicate those results.

Certain tranquilizers influence the release of a body chemical called serotonin—a hormone found most heavily concentrated in the brain. What the chemical does is not yet fully understood, but present belief is that it acts as a switch to turn moods on and off by sending impulses of good or bad feeling along the pathways of the central nervous system. Enough serotonin in the brain might actually be a factor in sanity. When the role of this hormone is fully known we may have the final answer as to how certain tranquilizers produce their effects.

CRIMEMOBILE VISITS POST—The Texas Law Enforcement Foundation Crimemobile, a scientific crime detection exhibit, visited Post last Thursday and was toured by a large number of people. Bill Squier, the Crimemobile supervisor, was on hand to answer questions about the unit's various exhibits and displays. Arrangements for the Crimemobile's visit and location here were made with Carl Rains, Garza County sheriff.

Grasshoppers And Lygus Bugs Reported In County's Cotton

Continued infestations by grasshoppers and the appearance of lygus bugs in large numbers in Garza County cotton fields is reported in the current Cotton Insect Situation roundup mailed by Welton H. Jones, District 2 Extension Service Agent.

The complete report follows: "Weather conditions have continued favorable for growth and fruiting of cotton. While plants are not as large as normal for this late, cotton is fruiting at a satisfactory rate in most of the earlier planted fields.

"Although several of the cotton insects are present in most fields, infestations have not been heavy in most plantings. Many growers have made early season applications to cotton to insure maximum early fruit set. In most instances such treatments were used to control light to medium infestations.

"Aphids were reported present in some fields throughout the area. Infestations have been light in most cases.

"Thrips were present on cotton in light to medium infestations. No heavy infestations were reported.

"Fleahoppers appeared in larger numbers as cotton reached the fruiting stage. Infestations were light in most fields, but occurred

in fairly large numbers in some fields in Mitchell, Terry and Yoakum counties. Heavy infestations were reported in Gaines County. Since cotton is late in most locations, a damaging infestation of fleahoppers should be controlled to insure maximum early fruit set.

"Garden webworms (careless weed worms) were reported on cotton in Collingsworth, Crosby, Gaines, Lamb, Lynn, Lubbock and Mitchell counties. The worms generally moved from careless weeds to cotton as weeds were destroyed.

"Lygus bugs have appeared in larger numbers on cotton in some fields in Cochran, Crosby, Floyd, Gaines, Garza, Lubbock, Lynn and Terry counties. While a few growers have used control measures, most infestations haven't been sufficient to require control.

"Cabbage loopers were present on cotton in most fields. The loopers were reported less common from several counties. There seemed to be a slight increase in eggs and small loopers in some fields in Cochran, Floyd and Lubbock counties, though infestations were not heavy.

"Grasshoppers appeared in damaging numbers on cotton in some fields in Briscoe, Dawson, Gaines, Garza, Howard, Mitchell and Yoakum counties.

"A number of reports have been received of incorrect dosages being recommended and used for control of certain cotton insects. Such practice will give unsatisfactory control or tend to bring on earlier trouble with bollworms, aphids and spider mites.

"We strongly urge everyone to consult the Texas Guide for Controlling Cotton Insects for recommended insecticides and dosages. Guides are available at county agents' offices."

CAN YOU LAUGH AT DUCKLINGS?

Betty can laugh at ducklings. She remembers that classic of the Ugly One who grew up to be a stately swan. Betty laughs because she understands the story. She knows that some people, like ducklings, often scorn someone who is different. But she knows, too, from her religious training, that there are times when a person must face the scorn of others and be different. In fact, already she has found that a primary aim of Christianity is to change life for the better... to help the individual be different so the world can be different. Not everyone can laugh at ducklings. Some folks take quite seriously the dread of being different. For instance, there are men and women who don't attend Church, but who would like to. They simply feel awkward about breaking away from an indifference which they think is expected of them. You can make it easy for the hungry-but-hesitant to attend Church. Always invite someone to worship with you.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

250 Horse Owners Invited To Show

Two hundred and fifty entry blanks have been mailed for the 9th annual Quarter Horse Show to be held here Saturday afternoon, Aug. 16, according to Don Long, secretary of the Garza County Quarter Horse Association.

Trophies for grand and reserve champions, trophy buckles for first place winners, rosettes and ribbons have been purchased, the secretary said. Ribbons will be awarded through sixth places.

Fred Albright has been named to judge this year's show, which is being held in conjunction with the Southwestern Championship Junior Rodeo.

An Appalaasan Horse Show is to be held Friday afternoon, Aug. 9, Floyd Richardson is chairman.

Five Are Charged In Gambling Cases

Five persons were fined \$5 and costs for gambling and two others \$2.50 and costs for "sweating" the game in justice of peace court this week.

Fines and costs on the gambling charges were assessed against Della Laston, H. N. Penny, J. B. Brown, Joe Hackett and Raymond Laston. The fines and costs on "sweating" the game were imposed on Cleveland Waters and A. Morroyed.

The arrests were made by Deputy Sheriff J. W. "Red" Floyd.

Charges of no operator's license court with speeding were Herbert Russell Hayworth, William Clifford Ray and Byron Boyd Daily.

Charges of no operator's license were filed against Perry Sanders and Raymond Quinonez.

Water Use-

(Continued From Front Page)

wells. "Today," he said, "we are pumping 20-gallon-a-minute wells." To illustrate Post's dwindling water supply, Mayor Minor pointed out that in 1953 Post had nine wells in its system capable of pumping 1,500,000 gallons of water daily. When the city finishes tying in new wells this week, he continued, Post four years later will have 25 wells in its system capable of producing not more than 1,300,000 gallons of water daily.

"We haven't told anybody they couldn't water their yards," the mayor emphasized. "All we've asked is that people conserve water—not waste it."

He said that the city hopes to "get by" this summer without water restrictions. He praised a wet spring as a salvation here water-wise. By May 1, he said, Post usually has to turn on all its wells to keep pace with the water demand. "We didn't have to turn on all the wells this year until about July 1," he told the Rotarians, "and the fact that irrigation farmers weren't pumping during those two months also helped."

Last week, with the exception of Sunday, the city used a little over a million gallons of water daily, Minor said. He added that the water potential is only about 1,100,000 gallons daily and that the light Sunday—when the cotton mill is closed—is used to pump the reservoir full for the week.

The mayor declared that water troubles will continue, however, "if we don't get some rain and we experience a few 1,500,000-gallon consumption days."

Mayor Minor called on Tom W. Bouchier, chairman of the board of the White River Municipal Water District, and R. J. (Rube) Jennings, a member of the board, to discuss the Aug. 17 vote on the \$4,000,000 bond issue for the White River project.

Jennings said he had read in a Fort Worth paper that an expert had declared that "ten years from now, the underground water supply of Texas will be a thing of the past."

"The water situation over the state is a lot more serious than most of us realize," Jennings said. Bouchier declared that "the longer you wait to get water the more it is going to cost." He pointed out that taking into consideration the present inflationary spiral, it is difficult to say how much the White River project would cost in another five years. He said that in the last five years interest rates have jumped from between two and one-half to two and one-half per cent to "at least five per cent" on such projects and that "water costs here are up at least 50 per cent to the consumer."

Bouchier said that approval of a \$4,000,000 bond issue is sought and that the \$4,000,000 is enough for any foreseeable contingencies. "We hope we won't need that much," he said.

The regular monthly meeting of the water district's board of directors is to be held at 8:30 p.m. today in Crosbyton. Additional information on the proposed bond issue is expected to emanate from the meeting.

VISITORS FROM OREGON
Mrs. Ellanore Ryder and family of Portland, Ore., visited her mother, Mrs. Oma Moreman Tuesday through Thursday last week.

Little League Trophy Presented To Red Sox

The Post Little League championship trophy was presented to the Red Sox team Thursday evening in a ceremony at the park.

Lee Ward, secretary-treasurer of the league, presented the trophy to Manager Walter B. Holland, who in turn presented it to E. R. (Buster) Moreland, manager of Brown Bros., sponsors of the Red Sox.

The traveling trophy had been in possession of the First National Bank, sponsors of the Dodgers, who were 1956 champions. Any club winning the trophy two consecutive years gets to keep it.

A swimming party for all Little League players is being planned for 4 o'clock Friday afternoon. The league will furnish ice cold watermelons, but mothers of the players are asked to prepare sandwiches, Ward said.

limit are eligible to enter, with no entry fee being charged. Each night's performance is to start at 8 o'clock. A rodeo dance will be held each night, with music furnished by the Texas All-Stars of Brownfield. The secretary said the rodeo association wishes to emphasize that the dance is open to everyone, not just juniors.

"Some were under the impression last year," he said, "that the dance, like the rodeo events, was open only to those 19 years old and under."

Miller said today that the town will be decorated for the rodeo, if the merchants are willing. He said the cost of hanging flags and bunting would be about \$4 to each business firm.

Flag judges, timekeepers, cutting horse contest judges and other rodeo officials and workers were named at a recent meeting of the rodeo group. They include:

Timekeepers—Alvin Young, Jack Brown, Walter Jones and Melvin Stewart.
Flag Judges—Manuel Davis and J. Martin Basinger.
Cutting Horse Judges—J. E. Birdwell and Novis N. Rodgers.
Announcer—Alvin G. Davis.
Advertising—Alvin G. Davis, Fritz Greenfield, Leon Miller.
Decorations—Fritz Greenfield.
Riding Groups—Phil S. Bouchier.
Cowgirl Sponsors—Linda Davis, Minnie Lee Mathis.

Other workers and their duties include the following:
R. E. Josey, calf roping gate; Cecil Wells and Nathan Little, unsaddling chute; Red Mathis, east arena gate; Hinton Fluttitt, ropers' box gate; Curtis Steel, Eddie McCowan, Jerry Ray and Darrel Jones, untying calves; Roy Josey, north arena gate; S. E. Camp and Noel White, barrels; Floy Richardson, arena equipment; Glenn Davis arena care; Harold Voss, tickets; Red Floyd, parking; Walter Josey, gates and locks.

Junior rodeo officials are: Don Long, president; Ronnie Kennedy, vice president; Linda Davis, secretary; Noel White, arena director; Jack Morris, manager; Loyce Jossy, Tommy Young, Jack Rains, John T. Brown, Jerry Don McCampbell and Noel Don Norman, directors.

The Garza County Home Demonstration Council and 4-H Council will have charge of concession stands at the rodeo grounds.

Airman Rewarded For Suggestion

ABILENE (wSpl) — A 2c Robert Huffman, a Post boy who made good with a suggestion that will save the Air Force an estimated \$3,000 a year, as awarded a \$25 prize at Dyess Air Force Base here this week.

The award was presented to Huffman by Lt. Col. Reo C. Trail, chairman of the Incentive Awards Committee.

Huffman's innovation is a screw remover used for the inside of the KC-97 refueling boom, and was described by Maj. Walter L. Abbott, officer in charge of Quality Control, as an "ingenious tool which has proved invaluable."

In addition to Huffman's \$25 award, the suggestion will be forwarded to Headquarters Strategic Air Command, and if it is adopted there the airman will have a chance to win an additional \$75 for his originality and inventiveness.

The group of public-spirited Post citizens, named to important leadership posts in the new Garza County Disaster organization, are to be congratulated for the way in which they have jumped right into the problem of organizing for disaster. Despite the summer heat, they all turned out for a real work session last Monday night in the Christian church annex and in the next two weeks figure to complete their committee organizations and write their disaster action plans for their various fields of responsibility.

HAPPY VACATION!—HERE'S WHAT YOU DO

85,000,000 PEOPLE ON VACATION THIS YEAR

Each car averages 1500 miles

Most popular vacation sections of the country

- 1st - 1st
- 2nd - 2nd
- 3d - 3d
- 4th - 4th

Numerals 1 indicate most popular vacation states

Vacationists spend \$20,000,000,000 annually buying among other things:

CLOTHING • SWIMSUITS • LUGGAGE • FISHING TACKLE • FILM • CAMERAS • SUN GLASSES • MURINE • SUN LOTIONS

This vacation map is based on business surveys which indicate that during the year, 85,000,000 persons will go on vacation with 70,000,000 traveling by car. The most popular vacation area appears to be the North Atlantic States from New Jersey upward. Other popular areas are around Lake Michigan, out on the Pacific Coast and along the South Atlantic Coast. However, there are many popular vacation states outside these areas. About \$20 billion is spent annually having fun and relaxing.

Women Charged After Liquor Raids

Charges of illegal possession of intoxicants were filed against two Negro women in county court Saturday following a raid in the "flats" Friday by agents of the Liquor Control Board.

The women, Bessie James and L. C. Frazier, each posted bond of \$500, according to Sheriff Carl Rains.

More than \$1,000 worth of intoxicants were confiscated in the raids, one at Tippitt Inn, the other at the Harlem Grill.

Leon Bowman, head of the liquor control office, said several cases of the beverages were laced in a soft drink cooler and wash tub in a locked room of one of the cafes.

The beverages, which were loaded in a car and pickup, included 11 quarts of wine, 48 pints of wine, 30 (24-ounce) cans of beer, 36½ pints of whiskey and vodka, 544 quarts of beer, 28 pints of whiskey, 10 fifths of whiskey and 165 (12-ounce) cans of beer.

The liquor board agents made the raids alone, the sheriff said. He said they called at his office before making the raids, but that he was in Dimmitt and Deputy Sheriff J.W. "Red" Floyd was at Justiceburg, both on sheriff's office business.

The deputy sheriff arrived back in Post and on the scene just as the liquor board agents were completing the raids, the sheriff said.

Pony League Playoffs in Here Next Thursday

Pony League playoffs, which will be held on Thursday, Friday and Saturday next week with the All-Stars as host team. The district director has been named as Lee Arndt, who is district director for the area.

The schedule calls for four games Thursday, four Friday, two Saturday and one Monday, if necessary. The tournament director for this week is appointing committee chairman to assist in the tournament. Appointments to date include: Louis Mills, schedule; Oscar Garner and Ben Howell, umpire staff; Walter B. Holland, Bing Bingham and Acker, protests; Bill Edwards, announcers; Jess Michael, scorers; Phil S. Bouchier, Floyd Stanley and Edsel Cross, grounds and water; Dee Caffey, concessions.

The Post White Sox and Indians wound up their regular Pony League season last Thursday with Manager Ben Howell's Sox playing the role of "giant killers" in defeating the champion Indians, 7 to 5. It was the third loss against 12 victories for Manager Louis Mills' pennant winners.

A three-run sixth inning enabled the White Sox to overcome a one-run deficit with which they were saddled going into the inning. Roger Camp singled to open the inning, but was doubled off when Ray Gonzales lined to the pitcher, Donnie Hays singled, Pete Asebedo walked, and Hays scored when Minor reached first on an error. Another error scored both Asebedo and Minor, Ruben Valdez grounded out, second to first to end the inning.

The Indians threatened with two out in the top of the seventh when Bobby Beard, who had relieved Minor, walked Filiberto Collazo and John Valdez. The threat was halted however, when Feliz Bustoz bounced out, second to first, to end the game.

Minor, who started on the hill for the winners, gave up only three hits in the four innings he worked. Beard held the Indians hitless the rest of the way. John Valdez got two of the losers' trio of hits, with Bustoz doubling for the other.

John Valdez, who relieved Leslie Acker in the sixth, was the losing pitcher. The White Sox collected 12 hits—two in each inning. Reuben Valdez homered in the fifth with none aboard.

Minor, who started on the hill for the winners, gave up only three hits in the four innings he worked. Beard held the Indians hitless the rest of the way. John Valdez got two of the losers' trio of hits, with Bustoz doubling for the other.

League Champion Indians Upset By Pale Hose, 7 To 5

Huntley's 4-Bagger Gives Dodgers Win

Dennis Huntley's lead-off home run in the bottom of the sixth gave the Dodgers a 15 to 14 victory over the Yankees in a Little League game Saturday evening.

The Yankees had scored four runs in the top of the sixth to pull up to a 14-14 deadlock with the Dodgers.

Huntley's game-winning blow came off pitcher Butch Cross, who had relieved D. Perez in the second inning, in which the Dodgers had scored eight runs.

David Lee went all the way on the mound for the Dodgers, keeping 12 hits well spaced. The Yankees scored two in the second, one in the third, three in the fourth, four in the fifth and four in the sixth.

The Yankees' hits included a sixth inning circuit smash by Edward Byrd.

Two Tiger Homers Fail To Beat Sox

David Nichols and Wallace Shumate combined Saturday evening to toss a four-hitter at the Tigers, with Manager Walter B. Holland's Red Sox walking off with a 12-7 decision.

The winners collected only seven hits off Pat Cornell and John Bland, but four of them came in the first when they scored five runs.

The Tigers took the lead with a brace of tallies in the first on Cornell's two-run homer. They failed to score again until the top of the sixth when a rally produced three runs, including a two-run circuit blow by Delroy Odom.

Yankees' Big Fifth Brings 14-8 Victory Over Red Sox Nine

Trailing by one going into the bottom half of the fifth, Manager J. P. Parnell's Yankees scored seven runs last Thursday to drub the top-running Red Sox, 14 to 8, in a Little League game.

Successful walks to Ken Rankin, Kent Wheatley, Henry Lee Daugherty and Butch Cross forced in the first run, and it was "Katy bar the door" from then on in.

Successful singles by Danny Odom, Edward Byrd and Glen Polk sent across four more runs, and the inning's final two tallies were driven in on a one-base blow by Raymond Villa.

John Sepeda, who had relieved David Nichols, struck out Rankin, forced Wheatley to pop out to the catcher, and whiffed Daugherty to put out the fire.

Rankin, who went all the way on the mound for the winners, bore down to get the Red Sox three up and three down in the top of the sixth, and that was the game.

The Yankees outdid the Red Sox, 8 to 7.

Miss Roselyn Williams and Miss Adelle Harrell of Memphis, guests of Miss Agnes Wintham, were overnight guests in the home of Miss Jessie Pearce Saturday. Sunday they spent the day with the Rev. and Mrs. Roy Shaban and visited Miss Louella Eades in Methodist Hospital in Lubbock.

Miss Louella Eades, secretary of the First Baptist Church, underwent surgery at Methodist Hospital in Lubbock Friday. She is reported to be in good condition.

Mr. and Mrs. Roy Green and family of Lubbock spent Sunday with her parents, Mr. and Mrs. R. E. Cox.

Post - Tahoka All - Stars Mop Up On Crosbyton

The Post-Tahoka All-Stars played rube hosts to the Crosbyton All-Stars here Monday night, walloping the visitors, 22 to 3, in a game called after four and one-half innings because of the lopsided score.

The Crosbyton team was held to three hits, one coming off Felix Bustoz, who pitched three innings, and two off Bobby Beard, who hurled the fourth and fifth.

Meanwhile, the Post-Tahoka team was raking the offerings of Zane Ellison and Stegall for 13 safeties.

The P-T All-Stars indicated what was to come when they chased across four runs in the first inning. Raul Hernandez driving in three of them with a lusty double. Richard Stice then doubled to score Hernandez.

The winners tallied four more in the second on five hits, including two-baggers by Beard and John Valdez.

The Crosbyton All-Stars rallied for three runs in the top of the third. They came on one hit, a single by Eldridge, a hit batsman, a walk and an error.

The Post-Tahoka team came roaring back with nine runs in the bottom of the third, with Leslie Acker's single the only hit. Walks, wild pitches, passed balls and errors brought the avalanche of runs. After holding the visitors scoreless in the top of the fourth, the P-T team scored five runs in the bottom half of the inning on hits by Beard, J. Valdez, Jim Green, Stice and Finis Rogers.

The Post-Tahoka team's box score follows:

Post Divers Score 266-Point Total In State Swim Meet

Three Post representatives, Miss Frances Craig, Walt Wensel and Sammy Martin, scored a total of 226 points in diving at the state TAAF Swim Meet held Saturday and Sunday in Tyler.

Miss Craig, who is American Red Cross water safety instructor at the Post pool, said the Post group was ineligible to compete in the swimming events because of not having met the entry deadline and because of the difficulty of entering teams of less than six members.

This was Post's first year to be represented at the state meet, and Miss Craig said the group wishes to thank Mayor James L. Minor and the City Council and pool manager Robert Meisch for having made the trip possible.

San Antonio, with 65 swimmers competing, won the meet by edging out the Dad's Club of Houston. Among the other teams in the meet were Tyler Swim Club, West University Park of Houston, Fort Worth YMCA, Dallas YMCA, Dallas Athletic Club, Forest Hollow of Dallas, Crystal Club of Amarillo, Panther Boy's Club of Fort Worth and College Station Aquatic Club.

Miss Craig said Post Aquatic Club swimmers will compete Saturday, July 20, in the Slaton swimming meet, where the preliminaries begin at 9 a. m., with the finals scheduled to get under way early Saturday afternoon.

Swimmers from here also plan to enter meets at Odessa, Midland, Abilene and possibly Austin.

FROM MIDLAND
Billy Joe Woods and family of Midland spent the weekend with her parents, Mr. and Mrs. Hardie Smith. During their stay they enjoyed the anniversary supper of the Smiths' other daughter, Mrs. Carter White. Also present were Miss Orabeth Maxey and Noel White.

Turkey Fryers Are Ideal For Those Outdoor Meals, Backyard Barbecues

By MISS JESSIE PEARCE
Home Demonstration Agent

The U. S. Department of Agriculture reports that turkeys are on the plentiful foods list for August. So we should be able to find turkeys on the frozen foods shelves in adequate supply and at a reasonable price. Turkey fryers are also in the markets now. You find all of these turkey items frozen for safety in storage, but you are thus assured of fresh food.

In preparing frozen turkey, thaw completely before cooking. To roast turkey, the traditional method of cooking, coat thoroughly with fat, place breast down in a shallow baking pan, and roast uncovered at 250 degrees to 325 degrees depending on size of the bird for 30 minutes per pound. The bird is cooked when the joints can be moved easily.

We don't have to buy entire turkeys now, either. They come in halves, quarters, steaks, or frozen boneless steaks. These parts of turkeys may be roasted, braised, or the steaks are a wonderful treat when chicken-fried.

We are always talking about outdoor meals or backyard barbecues, and what could be better than the turkey fryers. Use your favorite barbecue sauce, have ready a bowl of potato salad or baked beans, a tossed green salad, plenty of hot French bread (use garlic butter if you are a garlic fan), iced tea and top off with a freezer of fresh peach ice cream. This is literally a meal fit for a king, and an easy one to prepare. This type fare carries equally well to the favorite picnic area as well as to the backyard.

To use the left over smoked turkey, use any recipe that you would for left-over ham.

So with plenty of turkeys on the grocers' shelves, let's talk turkey when it comes to meal times.

Post Little League All-Star Game Is Set For Tonight

The Post Little League all-star game will be played at 8 o'clock tonight, with the all-stars scheduled to begin drills tomorrow for the area playoffs to be held July 29-31 at Tahoka.

Walter B. Holland, J. P. Parnell and Punk Peel will manage the all-star team. Members of the team are Ken Rankin, David Nichols, Wallace Shumate, Buddy Moreland, Glen Polk, Eddie Valdez, Larry Lusby, John Sepeda, Pat Cornell, Billy Mitchell, Pat Sullivan, Dennis Huntley, John Mayfield and John Bland.

Teams besides Post eligible for the area playoffs at Tahoka are Jayton, Lamesa, Snagraves and Tahoka. Post's first game will be against Seagraves at 5:30 p. m. Tuesday, July 30.

The winner in the area tournament will compete in the district playoffs at Snyder on Aug. 1. Plans for the area meet at Tahoka were made Sunday at a meeting in Big Spring. Representing the Post league at the meeting were Lee Ward, J. P. Parnell and Walter B. Holland.

Biggest Sellers...because they're Biggest Savers!

You can tell from the way they're put together that Chevrolet trucks stay on the job... save on the job!

A truck with built-in stamina—that's Chevy. Whether highhailing down highway or roughing it across rugged terrain, or doing delivery duty in town, dependable "can-take-it" Chevrolets are cutting

downtime to the barest minimum. A truck with a choice of ready-to-go power—that's Chevy. From an advanced lineup of eight engines—140 to 210 hp—you can save by choosing the power precisely matched to your job. Thanks to compact weight-saving design, Chevrolet's V8's deliver high power per pound of engine weight—power that works harder for you. Chevy truck 6's are famous for their stay-

ing power. Whichever engine you choose, you know it's got the power to back up every inch of brawn in every Chevrolet Task-Force truck. A truck for your job—that's Chevrolet, too. From pickups to middleweights to high-tonnage tankers, there's one just right for your job. See your Chevrolet dealer. He'll show you a model that's practically made to order for your kind of hauling.

Mr. and Mrs. J. F. Barron and Mr. and Mrs. Will Teaff were visitors in the A. O. Rosenbaum home Sunday afternoon.

Three members and four children met at the church Monday afternoon for W.M.U. Bible study on "Prayer" which was conducted by Mrs. Will Teaff.

Garza County Group At Electric Camp

Six Garza County 4-H Club members and two adult leaders are in Lubbock for the annual 4-H electric camp for District 2 of the Texas Agricultural Extension Service, being held Wednesday, Thursday and Friday at the Panhandle-South Plains fairgrounds.

Representing Garza County at the camp are Linda Payton, Patricia Wheatley, Ruth Ann Long, John T. Brown, Dean Huddleston and Donald Young and their adult leaders, Extension Service agents Miss Jessie Pearce and Lewis C. Herron.

The annual camp is a combination electricity and leadership training meeting. Youngsters who attend the camp will serve as junior 4-H Club leaders in their home communities.

The training meeting is sponsored jointly by the Extension Service and the Southwestern Public Service Co.

The public service company is providing the food and technical assistance for the camp.

8 New Locations Include Three Wildcat Ventures

Three wildcat ventures are among the eight new locations staked in Garza County during the last few days, according to Railroad Commission filings. Oil activities also include five completions.

Paul C. Teas of Dallas has staked location for his No. 3 J. B. Slaughter Estate in southwest Garza County. The venture will be drilled as a north offset to operator's No. 2 Slaughter Estate, a recent Sprayberry discovery. Site is 1,980 feet from south and 660 feet from east lines of Section 4, Block 2, T&NO Survey, 13 miles southwest of Post.

Perkins-Prothro Co. of Wichita Falls will drill its No. 1 W. G. Williams as a 3,000-foot rotary wildcat. Site is 330 feet from north and 2,310 feet from west lines of Section 81, Block 5, H&GN Survey, two and one-half miles northeast of the Dorward field area.

The third wildcat venture is the Leland F. Long (Star Route Mineola) No. 1 Hattie Worwood, 1,850 feet from north and 330 feet from west lines of the northwest quarter of Section 12, Block 6, H&GN Survey, three miles south of Justiceburg.

Six miles northwest of Post, in the Huntley, East-San Andres field, Continental Oil Co. has staked location for its No. 8-1204 Blake, on a 325-acre lease. The site is 2,351 feet from south and 1,650 feet from west lines of Section 1204, I&GN Rotary tools are to be used to drill to 3,500 feet.

On a 160-acre lease in the Dorward field, O. L. Weakley et al have staked location for their No. 1 C. D. Morrel, with cable tools to be used to drill to 3,200 feet. It is 330 feet from the north line and 990 feet from the east line of the southwest quarter of Section 137, Block 5, H&GN Survey, three miles east of Justiceburg.

Alamo Corp. of Lubbock will drill its No. 4-B Kuykendall in the Garza-Glorieta field, 330 feet from north line and 1,263 feet from east line of Section 1235, AB&M Survey, on 164 acres, three and one-half miles northeast of Post. Rotary tools will be used to 4,000 feet.

Continental Oil Co. has also staked location in the Huntley East-San Andres field for its No. 7-1204 Blake and its No. 2 Blake. Site of No. 7-1204 is 1,689 feet from south line and 2,310 feet from west line of Section 1204 J&GN Survey, six miles northwest of Post. Projected depth of both wells is 3,500 feet, with rotary tools to be used. No. 2 feet from east lines of Section 1290.

spots 330 feet from north and 2,310 J&GN Survey, six miles northwest of Post.

Smith and Breyer's No. 3 Connell Estate has been completed in the Justiceburg. Northwest-Glorieta field, pumping 94 barrels of oil per day plus 15 per cent water. Gravity tested 38.7 and gas-oil ratio was 100-1. Pay was topped at 2,488 feet and 4 1/2-inch casing set at 2,580. Perforations were made from 2,488-90, 2,495-500 and 2,507-66.

Slaughter On Highways Exceeds Tornado Toll

"If you're afraid of being killed by a tornado, then you'd better stay off the highways," warns James H. Garner, deputy coordinator Division of Defense and Disaster Relief.

"Statistics," Garner points out, "prove that the automobile is 187 times more dangerous than a tornado. In the 41 years that records have been kept by the Weather Bureau, tornadoes are credited with killing 8,984 people. Last year alone, 40,200 lost their lives in the slaughter on our highways."

Electrical Power For Area Available From New SWPS Plant

For the growing electrical needs of the Eastern and West Texas area available this month when Public Service Company and modern Cunningham plant went on the line.

Public Service's principal steam plant is located west of Hobbs, some 10 miles north of the Texas highway. The new structure is on a site owned by the power company.

It is named for J. E. Cunningham, president of the Public Service Company and member of the board of directors. He has been with the company for 30 years, and presided over the plant for 12 years.

From Cunningham's plant, power is transmitted into the existing transmission line between the Denver City and Hobbs plants. This same line carries the power company's operating stations with 3,000 kilowatts and a voltage transmission of 45,000 square miles by Southwestern Public Service.

ningham plant was another home-grown product, for this new plant was the second steam-generating station in Southwestern Public Service's system which was designed by the company's own engineering staff. And, like the first, which was Plant X, Cunningham plant incorporates the latest features in economical power plant design and operation. H. O. Hodson, vice president of Southwestern Public Service Company, supervised the design and construction.

Public Service engineers cut down on the construction time by putting aluminum exterior walls instead of steel. Designers did not omit a decorative touch, for they used black ceramic coated aluminum for outside trim, parapet caps and front entrance facade.

Another construction cost cutting application was the location of the plant's 55,000 gallon water storage tank on the roof deck of the semi-outdoor boiler. This location saved most of the construction cost of a conventional hi-tank.

J. B. Matthews is plant manager at Cunningham. He was named to this position Feb. 1, 1957 and moved here from Public Service's Moore County plant near Dumas.

BLOOD BANK PLAN

SPUR—The establishment of a "walking blood bank" has been adopted as an annual project by the Auxiliary of the Veterans of Foreign Wars post here. The free blood-typing service will be done by an experienced lab technician, with members of the VFW Auxiliary assisting.

NEW HIGH SCHOOL

HALE CENTER—School officials here are hopeful that the new high school building will be ready by the opening of the 1957-58 term next September. Recent hold-ups in the work have been brought on by a bricklayers' strike and unfavorable weather conditions.

GET AIRPORT FUNDS

LITTLEFIELD—A total of \$72,375 in government funds has been allocated to the construction of Littlefield's new airport, Mayor E. J. Foust has announced. The government money will be matched with funds derived from the sale of the present airport site.

Natural gas was used 3,000 years ago by the Chinese.

EVACUATION TRAIN on which 110 simulated medical patients and "displaced" children were carried to "safety" is shown loading at Binghamton, N. Y., during "Evac 12," a test of the city's ability to evacuate under the threat of "nuclear attack." The 30-minute trip into Pennsylvania was used to practice emergency medical care of 64 "litter patients."

Everyone enjoyed Sunday school and church services Sunday and one of our little girls joined by baptism. We hope to have a large crowd and many prayers for our revival coming soon.

Mrs. Roland Sullenger and daughter, Brenda, attended church here Sunday.

Mrs. McAlister of Post and her granddaughters, Ella Rose and Mary Kay McAlister, of Clovis, N. M., attended church at Justiceburg Sunday with Mrs. Maude Pettigrew.

Mrs. Maude Pettigrew and Mrs. Sweet Simms visited Mrs. Smith, who is Mrs. Hinton Fluit's mother, in Lubbock Sunday afternoon. Mrs. Smith has a broken hip.

Mrs. Etta Clarkston attended the funeral of her aunt, Mrs. Lillie Hobbs of Plains last week. She then went home with her daughter and family, Mr. and Mrs. W. H. Hancock, of Seminole to stay there while they are on a trip to El Paso and other places.

Milton Woodard and Jim Tidwell were in Lubbock last Wednesday.

Miss Bell Duncan of Los Angeles, Calif., visited Mr. and Mrs. Elton Nance Friday and Friday night.

Mrs. Monty Stanforth and daughter, Sue, of Hale Center, spent Saturday night with her parents, Mr. and Mrs. Elton Nance.

Some of our good neighbors we hate to lose are leaving the community. Mr. and Mrs. Lee Morgan and son are moving to Snyder. They visited Sunday with Raymond Key.

Tommy Forrest is having double bad luck. He just got over a broken leg and now has the same leg hurt by the same horse, but it is not broken.

Mr. and Mrs. Don Robison took his mother, Mrs. May Robison, to Temple for an extended visit with her sisters.

John Boren spent a few days recently with his sisters in Lubbock.

Roger Sullenger spent the first part of the week with Johnny Robison.

Mrs. Bill Mize and baby boy are home from Garza Memorial Hospital and are doing fine. They also have a daughter, Lylie Bell. Visiting them are her parents, Mr. and Mrs. Timmons and family of Andrews.

Mr. and Mrs. H. F. Ainsworth attended church at Fluvanna Sunday.

Mrs. Della Morgan of Post visited this week with her daughter and family, Mr. and Mrs. H. F. Ainsworth and Sharon, also her son, E. A. Morgan, and family.

Mrs. Morgan and Mr. and Mrs. Ainsworth visited Mr. and Mrs. Henry Key Monday night.

Mr. and Mrs. E. A. Morgan had

their children home for a reunion Wednesday. They were Mr. and Mrs. Harold Dickinson and sons of St. Charles, Iowa. Also Mr. and Mrs. George Mize and children of El Paso; Mr. and Mrs. Red Deewe and children of Odessa; Mr. and Mrs. Jack Russell and sons of Happy and Mr. and Mrs. Sam Bevers, Jr., of Justiceburg.

Sharon Blackwell is visiting this week with Susie Messer of the Canyon Valley Community.

Mr. and Mrs. Jim Tidwell and son, Bobby, visited Sunday in Colorado City with her father, Mr. J. E. Beasley.

Mr. and Mrs. Chris Cornett and Mr. and Mrs. J. A. Cornett of Brownfield attended the Primitive Baptist Association in Lampasas. They also visited their old home place in Llano.

Dan Hodges has the whooping cough and Ben Miller is recovering from the mumps.

Mr. and Mrs. S. S. Bevers spent the weekend with their son and daughter-in-law, Mr. and Mrs. Herbert Dale Bevers, and Sandra in Brownfield.

Mr. and Mrs. Son Morgan and Mrs. Sam Bevers and Sonny were in Snyder Wednesday.

Mr. and Mrs. S. S. Bevers visited in the home of their daughter and son-in-law and family, Mr. and Mrs. Marvin Dorman, Betty and Sammy, in Snyder Monday.

Mr. and Mrs. S. S. Bevers visited Mr. Cap Roy who has been a patient in the Post hospital for several months.

Mr. and Mrs. Albert Bevers and boys, Bobby, Skipper and Junior, were in Snyder on a picnic with friends Tuesday evening.

Mr. and Mrs. S. S. Bevers were in Slaton Tuesday. They were also in the home of their son and family, Mr. and Mrs. Hershel Bevers, of the Gordon Community.

VISIT GRANDPARENTS

Lauris and Quay Lee of Graham have been visiting with their grandparents, Mr. and Mrs. J. L. Wheeler, the past two weeks.

Farmers Hope For Late July Rains

Texas farmers are depending on late July rains to "put them over the top" this crop year. It is a gamble—and an important one.

Only a very few areas lacked enough moisture to start their plantings earlier this spring. The first few days in July saw much of the row crops hitting their peak stride from these initial rains. Now, more rain is a vital necessity—particularly in the western portion of the state.

Many crops that thrived from heavy downpours of April and May developed root systems close to the surface of the ground. Although sub-soil moisture is adequate, these shallow roots are not reaching it and crops in West Texas are beginning to wilt in some sections.

Hot weather has been ideal for harvesting wheat and corn, baling hay and cultivating row crops. But cotton remains the question mark in the low rolling plains, parts of East Texas and larger areas in the West.

Most farmers are counting heavily on a good cotton crop already heavily reduced from the 10-year average by a crop allotments. Cotton in cultivation on July 1 was estimated at 6,230,000 acres. This amount is one-eighth smaller than the 7,065,000 acres at the same time last year and compares far below the 9,093,000 acres averaged from 1946 through 1955.

This puts the Texas cotton crop acreage at the lowest amount in 62 years.

The record year for plantings was in 1925 when 18,443,000 acres were standing on July 1. And as recently as 1954, a acreage was double the estimate for 1957.

A vast number of acres in South and Central Texas is late. Repeated plantings were necessary because of washouts. But cotton's future is promising this year—provided those July rains materialize.

Tax Valuations In Close City School District Increased

Tax valuations on real and personal property in the Close City Independent School District have been increased more than \$100,000 by the district's board of equalization.

The tax valuation was equalized at \$16 an acre on real property and then increased by 25 per cent, according to A. T. Nixon, principal of the Close City School.

Total valuation of real and personal property within the district is \$476,709.

The equalization board is to meet Friday to deal with tax valuations on oil and utilities property. The total valuation on these two types of property is expected to be approximately \$1,500,000, as compared with about \$1,000,000 last year, Nixon said.

Nixon said the main reason for the 25 per cent boost in real and personal property valuation was to provide funds with which to pay tuition fees of \$155.32 on each of about 36 transfer students who will attend the Post schools during the 1957-58 term.

The principal said approximately \$14,000 was spent last year in improvements at the school. These included new windows throughout the two-story building, hardwood floors in the two classrooms and hall downstairs and in two upstairs rooms, one of which is to be used as the school tax office. Modern rest rooms were also installed, with the improvements including a septic tank and 700 feet of drainage tile.

Members of the district's tax equalization board are L. H. Peel, chairman; John E. Nelson and D. H. Bartlett. W. H. Childs is board secretary.

VISIT IN MIDLAND

Mr. and Mrs. Roy Stevens and daughter, Mrs. La Rue Gay, spent last week in Midland visiting Mrs. Stevens' parents, Mr. and Mrs. L. P. Hancock; her brothers and families, Mr. and Mrs. C. N. Hancock and C. W. Hancock; and nephew and wife, Mr. and Mrs. Calvin Hancock.

ASKS THAT CONSEQUENCES BE CONSIDERED

Traffic Laws Designed To Protect, Not Annoy, Says Sheriff Carl Rains

"Traffic laws are designed to protect—not annoy you. Cheating on them will lead to sudden death or crippling injury!"

This warning was issued today by County Sheriff Carl Rains in connection with the Texas Safety Association's current Slow Down and Live campaign.

"Some people think that laws are made to be broken or at least bent," he said. "Nowhere is this more evident or more fatal than in traffic."

"Persons who hire attorneys to ascertain their legal rights and obligations in business and property matters think nothing of risking their lives by driving without a good knowledge and a respect for traffic laws.

"Even if you have no regard for your personal safety, consider these consequences:

"When you drive faster than the speed limit, make wrong turns, go through stop signs or red lights or pass improperly, you run these risks: A traffic fine; damage to your vehicle that may amount to hundreds of dollars; medical expenses; time and income lost from your job; damage suits; possible loss of your driver's license; lawyer's fees; and, you create anxiety

for your family. "Add to these the many indirect costs such as higher insurance rates and increased taxes, plus the suffering and anguish even a minor traffic accident could cause, and you have a real case for safer driving," Sheriff Rains said.

Commenting on the role of law enforcement agencies, he said the highway patrolman or county or city officer can only be as effective as the public will permit him to be.

"Once the public is convinced that they have a personal responsibility for traffic safety," the sheriff said, "we can make further inroads into the shocking traffic accident record which last year killed 2,611 persons on Texas streets and highways, and injured 111,501. This is a terrible price to pay for apathy when public support is free."

RETURNS HOME

Mrs. H. J. Dietrich, accompanied by her daughter, Mrs. Joe F. Hopper and children, returned home from Alvarado where she had been staying during her recent illness. Upon her release from Harris Hospital in Fort Worth, Mrs. Dietrich recuperated in the homes of her daughters, Mrs. Hopper and Mrs. Arvel McBride in Alvarado.

Three County Teachers Attending Texas Tech

Two teachers from Post and one from Southland are among the 453 teachers and school administrators enrolled in Texas Tech for the first term of the summer session, the registrar's office reports.

Enrolled from Post are William R. Bennett and O. A. Madison and from Southland, Mrs. Alma Ruth Hall.

Also doing graduate work at Tech are 22 faculty members from seven colleges and universities.

States represented besides Texas in the over-all graduate enrollment are New Mexico, Arizona, Colorado, Oregon and Washington.

For once the women do outnumber the men in a Tech statistical breakdown. There are 243 women educators enrolled, compared to 210 men teachers and administrators.

There are 113 Texas communities represented in the analysis. They range in size from Boys Ranch to Houston.

Post Boy Scouts Visit In Capital

Five boys from Post were among 280 South Plains Boy Scouts who toured Washington, D. C., last week before the opening of the National Boy Scout Jamboree in Valley Forge, Pa.

The Post group included Kent Green, Dan Cockram, Wayne Rundles, Marshall Ticer and Sonny Hudman.

The boys, who were traveling aboard seven special buses, visited the Capitol, where they saw the House of Representatives in session and visited with Texas Senators Lyndon Johnson and Ralph Yarborough and Cong. George Mahon of the 19th District.

After a box luncheon on the Capitol grounds the boys made a short tour of the city, the highlight of which was a stop at Arlington National Cemetery to watch the changing of the guard at the Tomb of the Unknown Soldier.
