#### OFFICERS AND DIRECTORS ELECTED Ailing Man's Farm Is Plowed By Neighbors

Arvil Siewert, who lives west of the Grassburr community, has more reason than ever for believing in the "good neighbor" policy now that a group of his neighbors have done his plowing for him.

Siewert, unable to do his plowing because of illness, felt better when he learned that nine tractors were in his field last Thursday to do the job for him.

The good-neighbor workers included Dee Coleman, Dee Berry, Ozell Williams, J. D. McElroy, Bill Carlisle, Buster York, Irwin Cross, Herman Messer and Bennie Wilks.

Three other neighbors who were unable to assist in the plowing were Dale Cravy, who was in an accident the day before; Cliff York, who was ill, and Gilmore, who had been called away by a death in the family. York sent one of his employees, J. D. McElroy, to help in the work.

Also present, but unable to work since he had only recently been dismissed from the hospital, was Russell Wilks Jr.; also Monroe Lane and Jan Wilks.

Forming the junior board of directors are the above officers and Rains, Joyce Josey, Loyce Josey and John T. Brown.

Buck Craft was elected president of the adult board of directors to succeed Floy Richardson. R. E. Josey was elected manager to succeed Hinton Fluitt, and Leon Miller, secretary, to succeed Josey.

Other adult directors are Ed Dye, Alvin Young, Jack Brown, Bishop Mathis, Richardson, Walter Josey, Glenn Davis, Lewis C. Herron and George Samson.

Glenn Whittenberg, Post High School principal, was elected president of the Post Rotary Club at a meeting of the new board of directors following Tuesday's lunch-

Whittenberg will take office in June, succeeding Dr. Harry A. Tubbs.

Irby G. Metcalf Jr. was re-elected secretary-treasurer. The out-

stalled. Gossett, Dr. B. E. Young and comes here highly recommended

day night to accept the Southwestern Public Service Company's plans for additional street lighting, which will cost the city \$186 a month more than it is now pay-

"The increase in cost to the city will be from \$136.25 to \$322.25 a month, but we'll have more than three times the lighting we now " Mayor James Minor said. The electric company is to install the lights at no charge to

the city. Under the new lighting program, there will be 19 15,000-lumen mercury vapor lights, 15 of them on Main Street and the other four at each corner of the courthouse square. The county is to pay for

service from these four lights, the mayor said. There will be 26 10,000-lumen lights, 25 of them on U. S. High-

way 84 and one in front of the post office. On U. S. Highway 380 will be 13 6,000-lumen lights and two 6,-

000-lumens will be in front of Garza Memorial Hospital. Throughout the city's residential

sections there will be 111 4,000lumen lights and two of the same type at the City Parks. All the lights in the residential

sections and those along the high ways will replace present lights of lesser power. In addition, many sections of the city now in the dark will be lighted.

The mayor said Southwestern Public Service Company officials had informed the city that materials for the improved lighting system are being ordered and that installation is expected to get under way within the next 60 or 90

The mayor said the increased cost to the city will not necessitate a raise in taxes, but that it will be paid for from a contingency fund set up from oil revenues.

### Survey Under Way On Jubilee Costs

Post Chamber of Commerce di-Young, Noel Don Norman, Jack rectors have authorized a representative of the John B. Rodgers Producing Co. of Fostoria, O., to conduct a survey to determine the cost of staging a Golden Jubilee celebration here this year,

The action was taken after Carl A. Scott Jr., special field representative for the producing company, explained the firm's procedure at a breakfast meeting of Chamber of Commerce committee chairmen last Thursday.

The representative is to make a report on the survey, including estimated cost, to Chamber of Commerce directors within the next week or two, according to Bryan J. Williams, president of the organization.

Recent celebrations staged by the producing company in Texas have been in Live Oak and Karnes counties and at Abilene, Brown-

wood and Cleburne, Scott said. The Golden Jubilee celebration is planned in observance of the town's 50th anniversary.

# Thursday To Thursday THEY'RE IMPORTANT, TOO!

By CHARLES DIDWAY

IF FEBRUARY HAD as many days as the other 11 months, we could add Saturday morning's half-inch of rain to its precipitation mark, but as it is it'll have to go on the March record, which gets the new month off to a rousing start.

WE'VE LEARNED IN the last few days that running down rock 'n' roll isn't the only way to get some teen-agers stirred up. Bless their hearts . . . we're glad they have spunk enough to let a body know it when he writes something they don't like.

A TV HUMORIST said the other night that in his old home town people were too poor to paint and too proud to whitewash. That was one of grandfather's favorite gags.

SPEAKING OF HOME TOWNS, this is one year we'll all have the opportunity to do something extra special for ours, providing plans work out for the Golden Jubilee celebration . . . and progress is being reported.

OVER A CUP OF coffee the other morning, we were discussing the proposed celebration with Scotty Samson and Tom Bouchier when all of a sudden they began reminiscing about the town's first-year celebration-back in 1907-which was news to us, since we've been in Post only since 1953 and weren't around anywhere as far back

TOM RELATED TO Scotty how people came from Fluvanna and other places in covered wagons to help Post celebrate its founding. He said it was a sight to behold to see covered wagons parked here and there with celebration-minded people milling about them.

THE GOLDEN JUBILEE celebration, of course, will be different. The old-timers who'll be back for the second one, 50 years afterward, will be able to make the trip this time in highpowered automobiles over good roads.

WITH 22 CANDIDATES seeking the post and no runoff scheduled, it looks like a real horse race in the April 2 election to fill the U. S. Senate job vacated by Price Daniel and now held by an appointee.

WITH ONLY FOUR or five of the candidates rated as "strong possibilities," the vote probably won't be spread out as thin as some obthe Senate race will overshadow most city elec- Hale County Sheriff's Posse. tions on the local level.

SAFETY BELTS SHOULD be a must for everyone riding in cars; even the back-seat driver should get a belt!

TALK ABOUT ALTAPHOBIA (fear of high places), we heard a couple of otherwise dauntless fellows argue to a standstill the other day about which one of them was going to climb to the top of a stepladder and relight an automatic heater which had conked out. One of them said he couldn't afford to make the trip to the top of the ladder, since it made his nose bleed just to lick an air mail stamp. The other one said, "You're in no worse shape than I am . . . be done.

Roger W. Babson Writes This Week:

# Most States Careless In Their Expenditures Because Of Their Money Coming Easily

BABSON PARK, Mass.-Total taxes for the year, including Federal, State, and Local Taxes, will amount to more than \$100,000,000,000 for 170,000,000 people. There is very little possibility of relief from Federal or City Taxes. On the other hand, if we would really put up a fight, we should be able to keep down State and Local Taxes. State Taxes amount to about \$90 an individual. They range from a low of about \$50 in New Jersey (where city taxes are relatively high) to a top of around \$135 in the State of Washington (where city taxes are especially

State Tax Revenue Sources

More than thirty states have income taxes or sales taxes, or both. The states also get a big amount from automobile taxes, with cuts on alcohol and tobacco taxes. Unforunately, most z. are careless in their expenditures because their money comes so easily.

As a result, total state debts have increased almost fivefold during the last ten years,-from about \$21/4 billion to over \$11 billion. Now there is a row on as to who should pay for the new schools. School costs are really the responsibility of the cities and counties, but they are being passed on to the states, which in turn are trying to hand them over to the Federal Government. What About Teachers' Salaries?

It is generally agreed that cities, towns, and counties should pay teachers' salaries. It is unfair to believe that pressure for higher teachers' salaries is coming from the teachers themseives. Almost all good school teachers could get more money in industry, department stores, or offices, but they are sticking by their teaching from loyalty and because they have shorter hours and longer vacations.

This means that the cut in school cuts must come from a change in the curriculum or in school building maintenance, and especially in the high interest on building costs. This latter is particularly important now, when it is so difficult for municipalities to sell their bonds.

The Fundamental Question When discussing taxes for schools, we should avoid talking only about saving money. We must remember the old adage, "penny wise-pound dish." If I felt that luxurious achools produc-

It's good news that the City of Post is to install stop signs at all points where streets intersect U. S. Highways 84 and 380, but equally as important in the campaign to cut down on traffic accidents is the understanding and use of the "Yield Right of Way" traffic signs in other sections of the city.

The "Yield" signs, most of which are at intersections where avenues intersect such heavily traveled streets as Main, 10th, 11th and 12th, require a driver to slow down, then proceed if the way is clear. The Yield sign affords an additional traffic control without the necessity of using Stop signs at intersections where a full stop may not be necessary.

But drivers should remember that they must yield the right of way to approaching traffic on the cross streets in the case of either the Stop or Yield sign and not bat right on through at the risk of destruction of life and property.

The law requires that drivers approaching a Yield Right of Way sign slow down and be prepared to stop if necessary. If the way is not clear he must come to a full stop. However, if he will not obstruct the right of way of other vehicles, he may proceed without stopping.

Traffic officers point out that this freedom is balanced by the penalty of placing the responsibility for safe movement upon the driver who faces the Yield sign.

If drivers make proper use of these Yield signs, it will help move more traffic safely, particularly on side streets crossing streets which are more heavily traveled at certain times. However, if drivers do not use the Yield sign properly, it actually increases the number of intersection right of way crashes, and goodness knows we've had more than our share of them

Americans can never be accused of lacking in charity. The American Association of Fund Raising Counsel estimates that their giving in 1956 totaled at least \$6,100,000,000, an increase of 10 per cent over 1955. That's the kind of people we have in this "capitalistie," "imperialistic," "money-grabbing" nation.-Bellingham, Wash.,

I've got it so bad it makes me dizzy to go out with tall girls."

CHILDREN MAY TEAR up a house, but they seldom break up a home.

IT'S ALWAYS EASY to tell when the rodeo season is just around the corner. You start seeing items in the paper like the one about the Hale County sheriff offering a \$25 reward for reservers seem to think it will be. As it looks now, covery of a saddle stolen from a member of the

> WITH THE BASKETBALL season only a memory, thoughts at Post High School have turned to track and field, volleyball, golf, tennis and other spring sports. Jiggs King's girls volleyball team already has one tournament out of the way and is looking ahead to district competition, as are the track, tennis and golf teams.

THE ADVENT OF Spring on March 21 also will start things buzzing for Little League and Pony League baseball play, which won't get under way of course, until school is out, but on which there's always plenty of advance work to

ed better students. I would be the last to criticize the present craze for "bigger and better" school buildings. From my careful observation, however. I am sure such school buildings do not produce better and more efficient students. Schools were so crowded in my youth that we were obliged to have three grades in each classroom. Furthermore, we had two sessions-morning and afternoon-and no bus to take us to

school! I really believe these rough conditions

were a good part of our education.

Talking with students, I do not find much objection to having the schools used more or the curriculum made more practical. They welcome the use of television and radio. It is the teachers who complains about longer hours a day and working eleven months. The State Legislatures are also responsible for passing various laws regulating teachers' professional requirements and sanitary conditions in schools. These laws are actively promoted by P.T.A.'s, as well as by professional men and tradesmen who have interests at stake. Increased State Taxes are due not only to the cost of luxury buildings, but also to all these laws supposed to benefit the "health and comfort" of the children. The facts are that the graduates today need to be made tougher rather than softer. This is the way to cut costs, reduce taxes, and graduate better stu-

What About Parking?

Although the automobile has given the State and counties more income, yet it has vastly increased their expenses for roads, police protection, and parking facilities. This last is becoming a most important question. Good downtown purking facilities must be provided to enable retailers to continue prosperous. However, parents not only believe that the city should provide parking facilities for their automobiles but also parking facilities for their children!

I believe the present school system is luxurious and expensive because of the desire of parents for places to park their children while they are at club meetings or out working. I therefore forecast a complete revolution in school construction, in school maintenance, in the number of teachers required, and in the school curriculum.

# Getting Out On The Limb

SUDDEN THOUGHT: If we little wheels turned faster, we wouldn't have so much trouble keeping up with the big wheels.

If you are wondering where your tax money goes, take a globe of the world and point out at random any country on it, and the chances are about 10 to 1 that some of it goes there.

FOR SOME TIME now, Post has had the distinction of being one of the few towns with two rodeos a year. This year, if things work out as the Jaycees are planning them, there'll be three-except that one will be a read-so for teen-age drivers instead of a rodeo for cowboys and cowgirls.

Regardless of the spelling, that makes three groups working on plans for their respective events. And anytime an organization is working on plans for something. whether it be a rodeo, a road-eq or an old-fashioned hoe-down, it's good sign that the community is alive and kicking.

THE WOMEN, bless 'em, It seems to be considerably easier for a girl to walk the straight and narrow if she has a shape

In the old days if anybody missed a stagecoach he was content to wait a day or two for the next one. Now he squawks if he misses one section of a revolving dor.

THINKING ABOUT changing your name? Each and every week, as a public service, the State Bar of Texas sends us a column, "It's the Law in Texas." The current column has to do with names, or "handles," as they sometimes are called. Here's what it says

Not until the 15th century did Europeans put much stock in last names. Most had none. If need be, they used their given names, and now and then their fathers' given names (like John John's son) or their home towns or neighborhoods' (like Thomas of Aquinas).

But mostly they went by their given or baptismal names.

Since people had little property interests in their last names, English and American law gave them little or no protection. Trade names, of course, are another mat-

But in France and Germany the law gives one a property interest in his name; you may get a court to keep somebody from adopting your name by showing it would harm you. But not as a rule in America or England. For instance, on the ground that

by his writing he had earned a property right in his name, Samuel Clemens (Mark Twain) once sued a man for printing a work called "Sketches by Mark Twain." But the court ruled that Mark Twain had no sole right to use either his own or his pen name, except on his own books.

As a rule you can change your name at will even without going to court.

But a court action to change your name puts the public officially on notice that you have a new one, and it saves you endless trouble in collecting debts, identifying yourself, getting credit, inheriting property, selling your home, getting insurance, Social Security benefits, etc.

Some people change their names too much for their own good by using nicknames, middle names, and various ways of spelling the same name. It may cost real money to prove that John Jacob Smith is the same as Jack Smith, Jake Smith, J. J. Smith, or J. Jake Smythe

Decide on a good name to put on legal papers, checks, contracts, auto licenses. Stick with it unless you have good reason to change

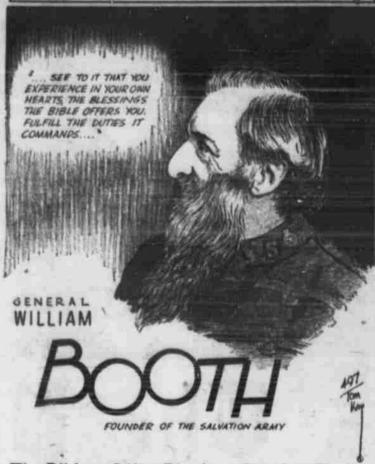

Money talks, all right. But in these days a dollar doesn't have enough cents to say anything

DO POST DESPATCH classified ads pay? We get proof every week that they do. Tom Power, Ford dealer, advertised in last Thursday's Dispatch for a shop foreman and a mechanic. Early Friday afternoon, his secretary, Imogene Roberts, called and asked us not to run the ad again next week. She said both positions had been filled.

PAT BULLOCK, oil lease businessman and Colorado City civic leader, recently began his new duties as a member of the State Board of Pardons and Paroles in Austin. Pat, who taught school for eight years in Scurry County and was county school superintendent there for 10 years, has a number of friends in Garza County, and is a brother of Mrs. Bert

Cash, who lives west of Post. Pat's varied career has also included being director of rural schools for the Texas Department of Education, State Representative, State Senator, state administrator for the WPA Emergency Education Program and manager of the Colorado City Chamber of

The Bible - Offers Blessings, Involves Duties

#### Our Contemporaries Are Saying ---to the monarch, and the fool to

Cultural Benefit

One of the cultural benefits coming out of television is the silence it demands of unessential family conversation. In its stead it substituted the heartburn-producing commercials and the stilted conversation of strangers.-"Trail Dust" in Matador Tribune.

#### It Usually Happens

Publisher J. L. Suits of The Petersburg Journal went to a newspaper publishers' convention last weekend. When he learned that his wife had decided to go with him, he knew it would cut the fun in half and double the expense, he said .- "Views and Comment" in The Floyd County Hesperian.

#### Night Sights

Night reveals a thousandfold more than it hides from us. The stars show us celestial depths and heights, and extend our vision beyond all human conception. Those things which the daylight shows are all near at hand. We see perhaps a mile ahead. In the night, we see millions of miles into the vault of the heavens. To the discontented, there is no experience like a vision into the night to widen one's thoughts of his own life's diameter.-"Popvalve" in The Hamlin Herald.

#### Wonderful Slumber

"Blessings on him who first invented sleep," said Cervantes. "It covers a man all over, thoughts and all . .It is meat for the hungry, drink for the thirsty, heat for the cold, and cold for the hot. It makes the shepherd equal

the wise. There is but one evil in it, and that is that it resembles death, since between a man sleeping and a dead man there is but little difference."-"Wise and Otherwise" in West Texas Re-

#### Strictly Family Affair

When we kid Baptists they are the Baptists in our own family. Our Gal Friday and her "big boy" are both members of that denomination. It is strictly a family affair, so don't any of you other Baptists go sticking your noses in just in order to find something to be mad at in this column. - "Pirootin' Around" in The Deming, N. M., Headlight.

#### The Rains Came

I guess just about everybody in Pecos County, or all of West Texas for that matter, felt an inclination to run out in the front vard and turn cartwheels or something when the rains came. It had been so long since some of us had seen real, genuine, foursquare rain that the stuff was downright unfamiliar. As a matter of fact, it took me three days of intermittent searching to locate my slightly-battered raincoat .-Fort Stockton Pioneer.

#### These Rumors!

If you heard a rumor that the PTA program Monday night was filmed by Texas in Review, we're sorry to say it isn't so. It was just Dr. Albert Perkins making a film of the show as a courtesty to the school.-"Nearly News" in The Lamb County Leader.

Your cancelled check (returned to you by us with your bank statement) is a bonafide receipt of payment that stops all arguments before they start. Just one of the many advantages you enjoy when you have a personal checking account here!

CALVARY BAPTIST CHURCH Graydon Howell, Pastor

never lived happily without God!

in touch with God.

That mail box on the city corner . . . that post office at the country

Life is too complex for us to live by ourselves. Man's interests and

his welfare reach far beyond the boundaries of his community. Com-

munication with people and corporations hundreds of miles away is a

part of modern living that we take for granted. We have to "keep in

But long before life became so complex, men discovered their need

for another kind of communication-prayer. The courage and faith

and hope which steel men for the challenge of each day come from God.

The deep spiritual needs of the soul can be supplied only by keeping

We think our mail-boxes are indispensable! Even so, one church

means more to a community than all its postal facilities. For not so long

ago men lived very happily without a postal system. But men have

crossroads . . . what would we do without them?

THE CHURCH FOR ALL . . .

The Church is the greatest factor on earth for

the building of character and good citizenship.

It is a storehouse of spiritual values. Without a

strong Church, neither democracy nor civilization

can survive. There are four sound reasons why

every person should attend services regularly

and support the Church. They are: (1) For his

own sake (2) For his children's sake. (3) For the

sake of his community and nation. (4) For the

sake of the Church itself, which needs his moral

and material support. Plan to go to church regu-

# February's Rains **Near Record Mark**

February rainfall in Post totaled 2.69 inches, the third highest mark for the month ever posted

The highest February mark on record was in 1932 when 3.68 inches were measured. The second highest was in February of 1938 when 3.11 inches were recorded. March rainfall through Wednesday totals .23 of an inch, bringng the year's total to date to 3.47 inches, which is only 1.52 inches under the 1956 low of 4.99 inches. Post's January total .was .55 of

County Agent Lewis C. Herron said the rains have dropped the subsoil moisture to a depth of about 20 inches, but that more will be needed before planting time to assure a good crop year.

Chevrolet Wins Coveted Manufacturers' Trophy at Daytona Beach as "best performing U. S. automobile"!

Want facts about performance?

Then look at the official figures from NASCAR's\* internationally famous Daytona Beach competition for stock cars. Here's what you'll find: Chevrolet, in two weeks of blistering competition, proved itself as America's Number One performance car. Nothing in the low-price field could touch it.

No other car, regardless of price, acored such a sweep. And Chevy walked away with the famous Manufacturers' Trophy, hands down!
The 1957 Chevrolet is, by all odds,

the most astonishing performer ever produced in the low-price field. Best of all, this superiority isn't limited to just a few extra-cost high-performance models. Every type of Chevy-from the six-cylinder models right up to the 283-horsepower "Super Turbo-Fire" V8's, from the single-carburetor V8's with Powerglide to the stick-shift "270's" —is a championship car.

# THE RAILROADS OF TEXAS

R WAGBZ GOVT PD=WASHINGTON DC FEB 7 636PME=1957 FEB 8 AM II 08

IN REPLY YOUR TELEGRAM FEBRUARY 4, RAILROADS HAVE NOT

BEEN COMPENSATED BY GOVERNMENT SUBSIDY OR DIRECT PAYMENT FOR THE FIFTY PERCENT REDUCTION THEY VOLUNTARILY MADE ON SHIPMENTS OF HAY TO DROUTH DESIGNATED STATES. MANY REPORTS

WE HAVE RECEIVED FROM THESE STATES INDICATE THESE REDUCED

RAIL RATES HAVE BEEN VERY HELPFUL TO FARMERS AND RANCHERS.

EZRA TAFT BENSON SECRETARY OF AGRICULTURE:

\$25,000,000 Contribution

Within the past four years the rail-

roads have contributed to the fa. mers,

ranchers and dairymen, through a

50% reduction in rates on hay and

Both the Congress of the United

States and the Legislature of Texas,

by resolution, have expressed their

other feedstuffs, 25 million dollars.

WE WOULD APPRECIATE IT IF YOU WOULD PUBLICIZE THIS STATEMENTS

... to Farmers and Ranchers

thanks to the railroads for this

Through the years the railroads have

always extended a helping hand to

their neighbors in times of disaster.

To us this is a basic responsibility of

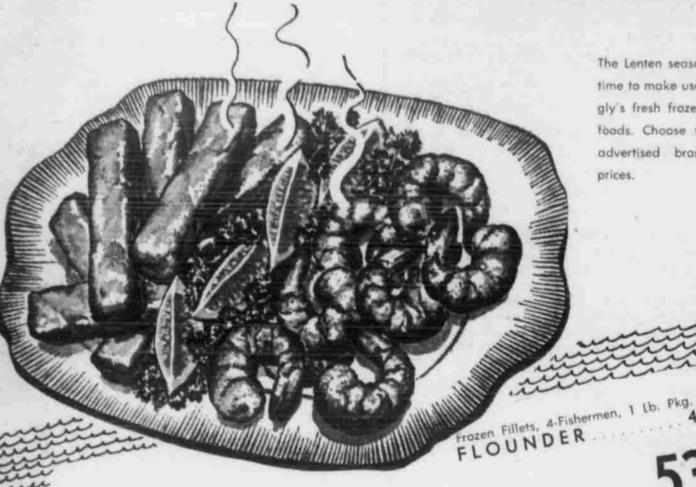

substantial contribution.

good Americans.
