Shell Completing 20,000-Acre Lease Block

PROGRESS SIGNS — Construction is well under way on the State Highway Department's division supply house (above) being built just south of the present highway department maintenance warehouse. Operations at the prefabricated metal building are expected to be in full swing by May 1. The house will supply nearly all of the highway department's West Texas area. At the left is shown a loader biting into a mound of dirt in construction work on widening of U. S. Highway 84 southeast of the city limits. While the construction work is under way between town and the "Y," where Loop 46 comes in, traffic is being detoured down Post's Main Street. The loop road, over which traffic is heavy following setting up of the detour, is virtually completed, according to Julian F. Smith, resident highway engineer. — (Staff Photos).

12 Youths Charged In Dynamite Theft Case

Twelve youths of Slaton and vicinity have been charged with theft of dynamite by Garza County Attorney Carleton P. Webb. The charges, filed Thursday in county court, allege theft of dynamite valued at \$15 from Elliott Taylor.

Seeks Information On New Road Use

County Judge Pat Walker, at the direction of the county commissioners' court, is busy securing information for the state highway department on the oil truck usage of the planned new paved highway from Post to Gail in Borden County. The information is needed to determine the best kind of construction.

Post Office

The post office will be closed Saturday and Sunday for rearranging of clerk windows and mail boxes. Postmaster Harold Voss has announced.

The windows, now on the north side of the lobby, are to be moved to the west side, and the mail boxes, now on the lobby's south and west sides, are to be moved to the north side.

The postmaster said there will be very little, if any, "business as usual" during the moving around, but that it is expected to be far enough along by Monday morning for normal operations to be resumed.

The rearrangement will make it more convenient for employees and patrons alike, the postmaster said.

Mrs. Fortune Dies Wednesday Noon; Rites Set Today

Mrs. Bettie Elizabeth Fortune, 82, died at noon Wednesday at her home here at 124 North Avenue N following an illness of several months. She had lived in Garza County since 1915.

Burial services were to be held at 2 o'clock this afternoon at the First Methodist Church, of which she was a member. The Rev. W. L. Porterfield, pastor, will officiate.

Burial, under direction of Mason Funeral Home, will be in the Grassland Cemetery. Pallbearers will be Robert Thomas, Carl Cederholm, W. F. Furr, Loyd Edwards, Lee Mason and Lawrence Fleming.

Mrs. Fortune was born Bettie Elizabeth Chadwick in 1875 in Missouri, the daughter of Mr. and Mrs. W. H. Chadwick. She was married to T. E. Fortune on Jan. 13, 1895, in Montague County, Texas.

They moved here from Tillman County, Okla. She is survived by three daughters. See FORTUNE RITES, Page 8

Contest Scheduled For Late May

Jaycees Planning Teenage Road-e-o

Plans for a teenagers' driving Road-e-o in cooperation with the national association were discussed Monday night at a regular meeting of the Post Junior Chamber of Commerce.

All teenagers up to age 20 will be eligible to participate in the event. The winner will be sent to the state meet, from where the winner will go to the national Road-e-o.

An obstacle course will be erected and the drivers will compete over the course to test their driving skill. Boys and girls will compete against each other to determine who is the best teenage driver in Garza County.

A plaque will be presented the winner. Tentative plans call for a movie to be shown of a Road-e-o event, and all interested persons will have a chance to see the picture and sign up for the contest.

Jaycees will decide at their next meeting when and where the contest will take place. Tentative plans call for the Road-e-o to be held the latter part of May.

A contestant must be under 20 years of age and must not have received a traffic violation ticket since Nov. 1, 1957.

J. P. Parnell is general chairman for the Jaycee - sponsored Road - e - o. Other chairmen are: J. E. Tanner and Jack Kennedy, location, course and equipment; John Davis, judging and scoring; Lee Ward, eligibility, screening and certification; Jack R. Foster, publicity, awards and state Road-e-o.

Chamber Luncheon To Hear Shell Official

Oil Future Is To Be Topic

A special Chamber of Commerce luncheon has been called for the city hall next Wednesday noon at which a high Shell Oil Company official will tell local business men and community leaders the probable future of Garza County's oil development.

Frank Lovering of Midland, production superintendent for Shell Oil who is in charge of development of the company's big Slaughter Ranch field, has accepted a Chamber invitation to fly here and address the luncheon.

Members of the Post Independent board of trustees, the county commissioners' court, and the city council will be extended special in-

itations to hear Lovering. Chamber members will be contacted by the Chamber office on luncheon details as soon as arrangements are completed.

Lovering will explain in general terms what kind of oil development his company sees for this area and what the town of Post could expect from such a development.

He will answer questions on the luncheon was set up at the February session of the Chamber directors Wednesday afternoon, with Chant Lee, vice president, presiding.

See said that announcement of See OIL FUTURE, Page 8

Checks Are Going Out

By JIM CORNISH

An estimated \$300,000 in checks now are in the process of being mailed Garza County farmers west of Post by The Shell Oil Company which is reported to be competing a lease block of 20,000 additional acres north of its big—and seemingly prolific — Slaughter Ranch holdings.

Farmers living west of town are being paid \$15 an acre for five-year leases. With a \$1 a year rent for each of the remaining four years this means some \$380,000 in lease money alone for the new block.

Leases for the big Shell block have not yet been filed at the

Ranch Area To Be Dotted With Rigs

Present plans call for 12 drilling rigs to be running in the Slaughter Ranch area on deep drilling within the next three to six months.

This was revealed in Midland yesterday by the Shell Oil Company, which along with Humble, Pan-American, and two independent producers, hold the lease rights on the big ranch acreage.

Most of the ranch drilling in the next year will be exploratory in nature, it was indicated.

courthouse here but are expected within a few days.

Shell now has land department officials in town completing the last details on the big lease block. The first of the lease checks on this acreage started arriving here last weekend.

The lease block, its exact location not yet announced, is reported to lie directly west of Post and extends well above the Cap where farmers have been unable to lease before and where little drilling activity has taken place.

Shell Oil has had two or three lease men in the county virtually working night and day for some weeks.

Lease brokers still are busy throughout the county signing up any remaining farm land not now under lease. Several major companies are reported "interested."

It is difficult to determine who is obtaining the leases until after they are filed, because lease scouts normally can work as individuals and then assign the leases once they have obtained them to some major oil company.

It generally takes about a month after the lease activity begins before the leases reach the courthouse for filing. The month has just about passed since the prolific 500-barrel Slaughter 1-C touched off the big lease rush here in late January.

See SHELL LEASE, Page 8

Cafe And Residence Burglaries Solved

Break-ins at the American Cafe and Ira L. Duckworth residence were in the process of being cleared up this week, and Sheriff Carl Rains reported a good lead in his investigation of burglaries at the Bob Collier and Hamilton drug stores.

The sheriff also reported the solution of thefts at Short Hardware, TV-Appliance Center and Western Auto Store.

Officers said Rowell P. Leggett Jr., 29, of Slaton, had admitted breaking into a home here the night the Duckworth residence was entered, and that a revolver and a traveling clock taken from the Duckworth home had been recovered in a room Leggett had occupied.

Burglary charges have been filed against Leggett in Lubbock where he is accused of a number of house break-ins.

Leggett was returned to Lubbock Monday following his arrest in Midland. Another Slaton man is being sought in connection with the Lubbock break-ins, officers said.

Sheriff's officers here said that in admitting the burglary of the Post residence, Leggett said he fled through the back door after hearing a car drive up in the driveway.

The Duckworths discovered the break-in the evening of Sunday, Feb. 9, after returning from a brief visit with friends. Inside the

house, they found two piles of clothing, silverware and other household goods on a blanket and a sheet, apparently ready to be wrapped and carried away.

In addition to the gun and clock, about \$7 in money was taken. See CAFE BURGLARY, Page 8

Deputy, Marshal Are Alternating On Night Patrol

Sheriff Carl Rains told The Dispatch this week he is alternating Deputy J. W. "Red" Floyd and City Marshal Junior Shepherd on night duty a week at a time.

He said this gives Garza County the best law enforcement possible "round the clock" with the small size of the force.

The new sheriff's radio system is now in operation, but the base station in the sheriff's office is now in operation during daylight hours only. There is no night personnel available to maintain the office at night.

While talk continued over the possibility of establishing a city police force for Post, Sheriff Rains declared that this community "had more law enforcement officers 40 years ago than we have

foreign mission programs. This year's prayer service, whose theme is "The Bread of Life", was compiled by the women of Australia.

Women of the Society of Christian Service, under the direction of Mrs. R. A. Moore, president, organized this year's program for Post. It includes special music by Mrs. Warren Vancey, Mrs. Tom Power, Mrs. Manus Samples, Miss Jan Herring and Miss Pam McGary. Congregational singing will be accompanied by Mrs. Y. L. Jones.

Mrs. Moore will introduce the program which includes a review of the book, "The Story of the World Day of Prayer" by Mrs. Lee Davis and a presentation of this year's projects by Mrs. William Bennett.

Participating in the prayer service, along with the congregation, will be Mrs. Sid Cross, Mrs. J. E. Parker, Mrs. R. E. Shedd, Mrs. Tom Gates, Mrs. Graydon Howell, Mrs. A. C. Surman, Mrs. C. B. Hogue, Jack Lancaster, and the Rev. Almon Martin.

Mrs. Moore urged all church women of Garza County to attend the prayer service tomorrow.

STUDENT COUNCIL OFFICERS — Bryan Williams III is president of the Student Council at Post High School for the current term. Other officers include Barbara Shytel (left), vice president, and Patsy Ethridge, secretary. One of the Student Council's outstanding projects was sponsoring of the Christmas decorations contest. The officers are shown in front of the Student Council charter case. —(O. A. Madison Photo).

Community Service At Highest Level

Within the next two weeks come the filing deadlines for candidates for both the city council and the school district trustees.

Much depends in any community upon the abilities of the men and women its citizens select to run their city and schools.

These are not salaried jobs. Sitting on school or city ruling bodies is true community service at its highest level. It calls for considerable time and plenty of effort. It generally brings more personal criticism than praise.

City councilmen and school trustees must be not only capable men and women, but dedicated as well to doing their best to solve the problems which face their city or schools. They must not only be economical and prudent in their decisions, but they must set broad areas of policy and look into the future and plan for it.

Post's city council and school trustees both have their share of problems and headaches. Both boards have future planning projects to wrestle with to permit the community's facilities to keep abreast of its growth and economical development.

That's why selection of good school men and good city councilmen is very important. At the writing of this editorial, present incumbents in both city and school positions had not indicated whether or not they would seek new terms.

The present trustees and councilmen whose

positions are up for election in April have given freely of their time, abilities and experience in helping to build a better Post. If you have liked what they have done, tell them so. Encourage them to seek reelection. Experience on either board is important and can be gained only by actual service.

If you have others in mind you would like to see make the race and whom you feel are well qualified, then urge them to run.

Every person who permits his name to go on the ballot for either city or municipal office is motivated by the desire to be of public service to his community.

That is why these men and women should be encouraged by their friends, and acquaintances. It is only through such expressed confidence on the part of others that any man would be willing to give freely of his time and efforts on the school board or city council.

It is imperative that Post have capable, qualified personnel sitting around its school and city tables if Post is to continue to solve its community problems and to progress.

Tell those you want to run for these offices how you feel. Encourage them to run. Support them. Praise them if you feel they have done good jobs or are capable of doing good jobs. Remember they will be working for you—for nothing—with just one goal in mind, the betterment of this community.—JC

Glimmer Of Hope In Valentine Sales

It's been years since we've seen one of those old-time wall mottoes, "Let Us Live Together And Love One Another," but the lesson it was meant to teach seems to be coming through to most of us. We base this observation on the fact that Valentine candy sales hit a new high here this year. Practically every place selling the heart-shaped boxes of candy had sold out by the time last-minute shoppers started drifting in on Valentine Day.

Odds and ends of valentines were left on the counters of most of the stores, but these had been pretty well gone over by shoppers in making their

choices. It all adds up to the fact that the sentimentality which for the last few years has been considered more or less old-fashioned seems to be making a comeback.

Anyone except the most pessimistic will be able to see a glimmer of hope on a much wider scale in the sale and exchange of this year's valentine greetings. If individuals are learning to cherish each other more with the passing of each year, doesn't it naturally follow that nations also will soon be leaning closer together rather than falling farther apart?—CD

Good Park Plan More Important Now

Citizens will applaud the careful and considered approach of the new city-county park board to the park development problem.

Essential thing at the start is in obtaining a good overall park plan. The board is concentrating its attentions on this point.

Several years from now it will not be important whether the board was able to move fast enough to get some trees planted this month or not. The important thing will be whether a well-conceived plan was approached and followed.

The park development will take several years of work before the full results will be apparent.

Probably the board will take one section of park development at a time once the overall plan is approved.

It simply can't all be done at once. The public shouldn't expect a sudden park transformation by summer. Probably there will be some tangible evidence of the park board at work, but it will be 1959 before real results should be expected.

The board is showing its real interest in the park program by deciding to meet monthly. Regular meetings will keep the program moving.—JC

School Board Looking For 'Best Man'

Although the board of trustees of Post Independent School District has voluntarily shortened its own time in hiring a superintendent of schools, it appears to be giving the utmost consideration to employing the right man for the job.

The board shortened the time it has for hiring a superintendent in order that one might be named before the principals are elected. The trustees feel that anyone coming in as superintendent of schools should be in on the ground floor, so to speak, when it comes time to elect the principals.

But, with the time they have, the trustees apparently are making every effort to see that

the right man is hired for the superintendent's post. They have interviewed a large number of applicants for the position and no doubt will interview others within the next few weeks before filling the position.

We are sure that among the applicants already interviewed there are a number of men any high school in Texas would do well to have as its superintendent. The first man the board interviewed might be the one they eventually hire, but it is to the trustees' credit that they are taking the time and effort to fill the position with the man they feel is best qualified for the job.—CD

Conservation Through Free Enterprise

The Duck Creek Soil Conservation District, of which Garza County is a part, is one of more than 2,700 of these districts now in operation—all administered by locally elected farmers and ranchers.

Nolen J. Fuqua, president of the National Association of Soil Conservation Districts, had this to say about them at a speech before the last annual convention of the Farm Equipment Institute:

"The successful operation by farmers of a nationwide soil and water conservation program through their Soil Conservation District has proved that a free enterprise operation can do the job effectively and that a free people can govern themselves as in contrast to conservation by gov-

ernment edict — and expensive, tax-supported administrative agency operation."

The convention of the Farm Equipment Institute was certainly a logical place to talk about conservation—for modern agricultural machinery has done more than any other force to make it possible, practical and profitable.

Nearly two million farmers are participating in carrying out soil and water conservation plans throughout the country. And here is a work with a real cash value—for it has been proven that conservation farming increases the annual net farm income by \$6 to \$15 per acre. More important, it is the means whereby our limited farm acreage will be preserved and improved for coming generations. In this age of soaring populations, that is an urgent and continuing need.—CD

Clipped Quips From Other Newspapers

The way to find out how many folks read the hometown paper thoroughly is to make a mistake or print something which can easily be misconstrued. Newspaper folk are human—they try to satisfy but mistakes do creep in.—Clifton, Kan., Clarion.

Is there too much debt? Who knows how much "too much" is? As far as the private debt is concerned, the soundness of the debt structure simply depends on the soundness of the individual loans. Even if there were no debt whatever in existence it would be still unsound for a merchant to extend credit to a poor risk.—Santa Paula, Calif., Daily Chronicle.

The actual increase in military spending in next year's proposed budget is less than a billion more than is being spent in the present fiscal year. . . . Come on, Congress, let's slice off some of the non-military fat, and let the states handle some things they should be handling anyway.—Franklin, Va., Tidewater News.

As millions of Americans are now finding out to their sorrow, inflation creates just as much hardship, bread-and-butter wise, as does a depression. Our lawmakers now need to be made aware of that realization and take the necessary steps to stem the creeping tide of inflation which has dealt our pocketbooks such a severe jolt.—Barnesboro, Pa., Star.

The corporation executive seeking to finance expansion plans or a wage-earner shopping for a new home or car, will find loan money a little more plentiful in the first half of 1958 than in the latter part of 1957. This means of course you must be a good credit risk.—Liberal, Kan., Southwest Daily Times.

Kruschev is forever announcing that the Soviet Union is studying reduction of its armed forces. Wonder when the Russians find time to plan for defense against the war they say the U. S. A. is hatching?—Yves Hauts, Ind., Tribune.

THURSDAY TO THURSDAY

By CHARLES DIDWAY

AT LONG LAST, we have found a kindred soul. He is Editor Robert J. Waite of the Breckenridge, Minn., Gazette-Telegram, who has this to say in defense of cluttered-up editors' desks:

"Some smart people around town, and at home, have made fun of my desk because I like to keep a few papers on it handy. A newspaper editor would have a hard time trying to file the stuff that comes through the mail every day. Maybe I can use it another day, or I had better save this for later reading.

"At any rate, my desk isn't like a banker's or some others that can keep them clear of debris. But now, thanks to the fine weather in January . . . I have a caterpillar living somewhere among the papers and items on my desk."

There! That should be a lesson to these clean-desk-boys — and girls! Any of them could outlive Methusalem and never have a caterpillar on his desk—in January or June—much less have it living there in complete seclusion and utter privacy!

As every grassroots editor knows, any oddity that turns up in town is brought to the newspaper office—as was this out-of-season prowler. The editor was out on his rounds when Joe Rezac brought in the caterpillar and left it, in an envelope, on top of the collection on the editorial desk. The envelope, Mr. Waite noted, is still on top, but its former occupant has obviously sought shelter somewhere below.

IT IS NOTEWORTHY, of course, that a caterpillar should be abroad in Minnesota on Jan. 13 (the day Joe picked it up). But it is much more important, we think, to speak up for an editor who is too conscientious to brush aside whatever may not be of immediate interest or concern.

So far as the editorial desk is concerned, neatness denotes laziness — not efficiency — an unwillingness to study and weigh and evaluate the myriad messages that somebody thought would be of concern to the paper's readers. And, as every editor knows, a story that may seem unimportant today can be front-page tomorrow.

GIVEN SANCTUARY, that caterpillar on the editorial desk of the Breckenridge Gazette-Telegram may emerge a butterfly.

Meantime, Editor Waite will go on doing his duty as he sees it. And, if there is any further needling about that desk, he is invited to send his critics to us. We'll show them ours. There are probably mice in them that hummocks of paper.

OUR WIFE HAS always said that we are one of those men who never notice what a woman is wearing, but we don't know about that. Sitting over a cup of coffee in Hamilton's one day last week, we noticed that Irene Rodgers had on a head scarf with the name "Irene" in big letters on the back of it.

Martin Shepherd, one of the fellows in the back shop, handed us this clipping from the Texas Spur, published at Spur.

"Consider the editor. He wears a purple and fine line. He abode is among the mansions of the rich. His wife hath her limousine and his first-born sporteth a racing car that can hit her up in forty flat."

"Lo! All of the people breatheth their necks to hand him money. A child is born unto the wife of a merchant in the bazaar. The physician getteth ten gold plunks. The editor writeth a stick and a half and telleth the multitude that the child tipteth the beam at nine pounds. Yea, he lieth even as a centurion. And the proud father giveth him a Cremo.

"Behold, the young one growth up and graduateth. And the editor putteth in his paper a swell notice. Yea, a peach of a notice. He telleth of the wisdom of the young woman, and of her exceeding comeliness. Like the roses of Sharon is she and her gown is played up to beat the band. And the dressmaker getteth two score and four yon men. And the editor getteth a note of thanks from the SGG.

"The daughter goeth on a journey. And the editor throweth himself on the story of the farewell party. It runneth a column, solid. And the fair one remembereth him from afar off with a picture postal card that costeth six for a jitzney.

"Behold, she returneth, and the youth of the city falleth down and worshipeth. She picketh one, and lo, she picketh a lemon. But the editor calleth him one of our most promising young men and getteth away with it. And they send unto him a bid to the wedding feast and behold, the bids are fashioned by Montgomery Rawbuck, in a far city.

"Flowery and long is the wedding notice which the editor printeth. The minister getteth ten bones. The groom standeth the editor off for a twelve month subscription.

"All flesh is grass and in time; the wife gathered into the silo. The minister getteth his bit. The editor printeth a death notice, two columns of obituary, three lodge notices, a cubit of poetry and a

THE AMERICAN WAY

A Fraud Exposed

Our Contemporaries Are Saying . . .

Wanta Be Smart?
Another charming aspect of the path of least resistance is that the chances are exceedingly good to bypass the necessity of paying an income tax. Loafing may not be profitable but it is smart.—"Trail Dust" in Matador Tribune.

Wrong Place
Some men put anti-knock in their automobiles when they should be drinking it. — "Drifting Sands" in The Andrews County News.

It Could Help
The average citizen of Terry County would not be hurt at all by a careful analysis of his or her mental status.

While most of us usually like to boast of our intelligence, the fact is that few of us ever try to do more than assert our opinions, many of which were picked up years ago and never tested since that time.

Seekers after truth, if such there be, should resolutely attempt to master the new facts that detailed research has revealed in all important lines of human thought. Philosophical inhabitants, if still conscious, should, it seems, re-set their theories in order to conform to recently discovered facts.—The Brownfield News.

Know What You Mean!
Here's a good one—and it's on me. I went out Monday to get a picture and write-up from Mrs. Bill Layne. Her grandson is visiting her, and I wanted a picture of her and the child. I warned them that I was strictly a novice

card of thanks. And he forgetteth to read proof on the head, and the darn thing cometh out "Gone To Her Last Roasting Place."
"And all that are akin to the deceased jumpeth on the editor with exceeding great jumps. And they pulleth out their ads and cancellleth their subscriptions and they swing the hammer unto the third and fourth generation.
"Canst thou beat it?"

Line Of Thought
When they talk of guided missiles and other implements of the space age, we Swisher residents sort of feel that we live off main street far enough not to be affected except to read about what they are doing at Cape Canaveral or possibly at Salt Flat, Utah. But we may not be so far off main street as we think. — "The Country Editor" in The Tulsa Herald.

What Is The Role Of The Church In Combating Juvenile Delinquency?

SARAH T. HUGHES
This is another in a series of articles on the state's problem of juvenile delinquency. District Attorney T. Hughes has handled more than 25,000 family relations cases, an even greater number in 23 years on the subject.

Recently asked by people with the role of the church in the effect of the church attendance on delinquency?—Do boys and girls who go to church regularly become delinquently?"

The question is difficult to answer. In fact, there is no single answer. The part the church plays in the development of children depends upon many factors—the individual child, his parents and home situation, and the type of church program and its leaders.

Here are some statistics, however, which I think will be of interest:

A study made of 105 delinquents and 105 non - delinquents showed that 46 of the delinquents were regular church attendants and 64 of the non - delinquents (only 25 per cent more) attended regularly.

Another study of 761 delinquents in New Jersey revealed that 54 per cent attended regularly, 21 per cent occasionally, and only 25 per cent never attended.

Recently Elaine Holcomb, wife of the pastor of the Lakewood Baptist Church in Dallas, made a study of 200 boys and girls in the Texas schools for juvenile offenders. Two - thirds claimed actual church membership and slightly over three - fourths claimed to attend church and Sunday school.

The study also revealed that at about 12 years of age there was a decline in church interest and that the youth activities of most of the churches of the delinquents made little appeal.

Of vital importance was the fact brought out in the study that a large proportion of the religious instruction had been of a negative character and had failed to make religion a part of their lives.

From the findings in these and other studies it would appear that somehow many of the churches are falling down in their responsibility to young people. Despite attendance and membership in church and Sunday school, surveys reveal that much too large a percentage becomes delinquent.

One religious leader has said that the church must "re - examine its program and re - direct its activities so as to make religion function as a dynamic force in the home and early life of the child."

An official of the religious education department of one of our large church groups has said that "the rising tide of juvenile delinquency shocks the church into taking account of the fact that here is a great need towards which the church could well direct a greater amount of attention than it has in the past."

What then can the church do to meet the challenge of today's most pressing problem — juvenile delinquency? Here are some suggestions from church leaders who have given consideration to the problem.

1. Church and home must work together in a program in which the home becomes a laboratory and the parents partners with the church's teachers in the training of children.

2. Church and home must work together in a program in which the home becomes a laboratory and the parents partners with the church's teachers in the training of children.

3. There should be many more church - sponsored activities which will appeal to young people and will give them a sense of significance in the life of the church. Discussion groups with right lead-

March 1-8 Is Designated National 4-H Club Week

COLLEGE STATION — The nation's 4-H club members, more than 2,200,000, will observe National 4-H Club Week from March 1 to 8. They will not only salute their parents but all parents and will recognize the important part that parents play in guiding and influencing youth.

The 111,535 Texas 4-H club members were recognized by Gov. Price Daniel in his greeting to them when he said, "As 4-H members you have contributed much to the material wealth of Texas and the Nation in raising the quality of agricultural production, but you yourselves are our richest resource. May you continue to build yourselves, your homes and communities during the coming year, and thus help build a greater America."

Prunes Top List Plentiful Foods

COLLEGE STATION — Dried prunes are given top billing on the U. S. Department of Agriculture's March plentiful foods list for this area.

A larger than average crop, plus a liberal carryover from last year, assure an abundance of this fruit. Prunes are a perfect food for March, 'Good Breakfast Month,' coupled with cereals or served alone. Other fruits on the list are apples and canned pears.

Eggs return to USDA's plentiful foods list for the first time since last July, as production is expected to reach a seasonal high in March. Also, March is "National Egg Month."

Dairy products are also in plentiful supply. Milk production is increasing seasonally and the 1958 outlook is for record supplies. Jan. 1 stocks of American cheddar cheese were estimated at 372,000 pounds and stocks of butter were above a year ago.

Pork continues to take the spotlight at meat counters as supplies will probably be at their seasonal peak during March. Frozen whitening is plentiful, too. Jan. 1 stocks totaled 18 million pounds—eight million above a year earlier.

Canned and frozen corn and pinto beans are the only vegetables listed as plentiful for March. Production of pinto beans was estimated to be 1,455,000 hundred-weight larger than the year before. Stocks of frozen corn are at a record high.

Peanuts and peanut products complete the plentiful list compiled from a survey of major food suppliers in this area.

Membership can be as popular as game and recreational activities. Giving a child a creative role to play in a church group can be the means of channeling him into such roles in worthwhile non - church activities also.

4. The relationship of the minister with the youth in his community must be more than derived in an occasional contact at a youth meeting and his relationship with their families must be more than a mere handshake after services or a conversation about the weather and crops during a pastoral visit.

The minister who takes the time and makes the effort to know and understand the members of his congregation may not only spot trouble but can act in solving the problems that life brings to every family.

The church can and should be a potent factor in the developing of children and in preventing delinquency.

Whether it is or not depends upon church leaders — ministers and lay people as well. It requires work, time, effort, and vision.

Modern airliners are featured on three new stamps. Australia's is in honor of her 'Round the World Services'; a Czech stamp shows the Russian TU104 jet flying over Eiffel Tower, and the French Caravelle is shown on a St. Pierre and Miquelon issue.

The Governor also saluted the parents, adult leaders and friends of 4-H for the contributions they have made to the 4-H program in Texas.

The Texas 4-H members last year completed more than 154,000 demonstrations involving practically every phase of farming, ranching and homemaking. They are members of 4,027 local 4-H clubs and received assistance from 10,068 local adult leaders and 3,210 junior leaders. Local county extension agents provide the leadership for 4-H club programs in the counties.

Members of 4-H clubs, individually and as a group, participate in community service activities. Any boy or girl between the ages of 9-21 years of age may become a member by agreeing to follow 4-H ideals and standards. The chief requirement is a willingness to "learn to do by doing", which is the club slogan, and "to make the best better", which is the club motto. Character development and good citizenship are long - time goals.

Observances of the special week are being planned in most counties in Texas. The general public is invited to participate in the observances and to learn more about this great rural youth organization which over the past half century has helped 20,000,000 youth develop into useful citizens.

VISITING PATIENT
V. L. Peel and his father H. B. Peel left for Fort Worth Monday, to be with their sister and daughter, who is to undergo surgery in St. Joseph's Hospital.

VISIT IN LUBBOCK
Mr. and Mrs. Paul Jones and Marianne, visited Mr. Jones' brother and family, the Gene Jones of Lubbock, on Sunday.

Card of Thanks

We want to thank everyone who was so nice to us during the sickness and death of our son and brother. We truly appreciated the flowers, the food that was brought in, all the visits, and all the other expressions of sympathy. Everything helped, at a time like this, to make our loss more bearable. May God bless you all.
 Mr. and Mrs. E. J. Jones and all the brothers and sisters of Joe Parker.

I wish to thank all the many friends who sent cards and visited me during my recent illness.
 Mrs. Lula Floyd

Baby kangaroos are only about an inch long at birth, while the adult may reach eight feet in length including tail.

High School Hi-Lites
 By FRANCES DIETRICH

Hi, kids! The senior sponsored "Twirp Week" is in full swing. The girls are furnishing all transportation, money, etc. The boys seem to really be enjoying it. There are several cute posters around school about "Twirp Week".

Mr. Earnest has been sick this week, and Mrs. Thaxton has been teaching his classes. We wish Mr. Earnest a speedy recovery.

Members of the high school band are selecting their solos and ensembles to play for contest in March. Several members of the band meet at the Baptist Church on Wednesday nights after church to play in the church orchestra.

The "Twirp Week" edition of the school paper was on sale this week. On the cover, was a picture of a girl buying the show tickets while the boy stood back and watched with a big smile on his face.

Dan E. Cockrum is back at school this week after being absent for a number of weeks while he was ill. Welcome back, Dan!

The basketball sweethearts, Kay Martin and Wayne Runkles were crowned Tuesday night at the ball games when we played Lockney.

Class Is Entertained At Valentine Party

The Garza County Youth Center was the scene Friday night of a valentine party for members of the eighth grade class. The serving table was laid in white with a large red net heart adorned by Cupid as the centerpiece. The table decorations also included miniature red hearts, and adding to the motif was the punch bowl containing bottles of red soda pop on ice. Also served as refreshments were white cake squares. Approximately fifty eighth grade students attended the party, where games were played.

Mothers and other adults arranging the party were: Mrs. Bryan J. Williams and Mrs. B. E. Young, games; Mrs. Phil Boucher and Mrs. Leo M. Acker, refreshments, and Mrs. Junior Hagins and Mrs. Leta Smith, decorations.

The last word in a strapless gown is sometimes a shriek. Phenician tombs estimated to be 3,000 years old have been unearthed by heavy construction machinery at Rota, Spain, where the U. S. Navy is building a modern air - sea base.

The Belgian Congo has become the world's largest supplier of cobalt and industrial diamonds, Leopoldville reports.

A New Forest oak uprooted in England by a recent gale was thought to be 1,000 years old.

OPPORTUNITY FOR INEXPERIENCED MAN
 Age 17-45, in Electronic Position. Must be ambitious and willing to spend one hour a day, four days a week, training under the guidance and supervision of our engineers on practical equipment. Arrangement will be made so that it will not interfere with your present employment. Salary open, \$92.50 to \$137.50 per week when employed. For strictly confidential interview, write "Electronics," giving name, age, phone, present occupation and working hours to: Post Dispatch, P.O. Box GG, Post, Texas.

SCIENTIST AT WORK — Baltimore, Md. — Dr. Jerzy Leon Nowinski, the top flight Polish Scientist is shown working a problem on the blackboard at Johns Hopkins where he is lecturing. The 53-year-old expert in the metals stress field was described by Scientists at the University here as one whose knowledge will be "extremely useful" in the current U. S. research on jet aviation, rockets and nuclear reaction.

MOM GETS AN ASSIST — Curtina D'Ampezzo, Italy — Actress Linda Christian is being towed by her skating daughters Tyrina (left) and Romina on a rink in the Italian Dolomites, where they are vacationing. The children are daughters of Tyrone Power, former husband of Miss Christian.

CHILDREN ARE 'EYES' FOR MOM AND DAD — Detroit, Michigan — Robert Mahoney, a Michigan State Representative, and his wife, Jennie, 38, who met when they were students at a school for the blind in Lansing, Michigan are shown teaching Braille to their children, who serve as their "eyes". Four of the eight Mahoney youngsters are shown. While 14-month-old Mark watches, Dad gives a Braille lesson to Dennis, 8, Colleen, 7, and Joey, 6.

Baptists To Begin Campaign Sunday

The First Baptist Church will enter their enlargement campaign for the Sunday school this week. The program of activities includes study courses for all ages, with specific emphasis on organization for adults.

The adult course is entitled, "A Church Using Its Sunday School," under the direction of Bob Callahan, director of religious education for the First Baptist Church in Odessa. Callahan will also direct the campaign. He is recognized by the State Baptist Sunday School Department of Texas as one of the most outstanding men in this field of work.

The intermediate book, "Pilgrim's Progress", will be taught by Mrs. Mary Raphael, and Mrs. Janje Elsworth will instruct the juniors from the book, "The Junior Baptist." Primaries, beginners, and nursery children will take courses with credit in training union.

Rufus Gerner Home Scene Of Reunion

The Rufus Gerner home was the scene of a family reunion Sunday in honor of Mr. and Mrs. Jim Lormand.

The Lormands are being transferred from the Army base at Albuquerque, N. M., to Fort Hood and stopped in transit to visit relatives.

Brothers and sisters of Mrs. Lormand that were present at the reunion with their families are: Ben Brewer and family; Mr. and Mrs. Amos Gerner of the Graham community; Mr. and Mrs. Lee Mason, Gordon; Mr. and Mrs. Anton Mueller, New Lynn; Mr. and Mrs. Pete Gerner, Post; and Mr. and Mrs. Raymond Gerner, Lubbock.

Mystic Sewing Club Has Valentine Party Friday

Members of the Mystic Sewing Club met Friday afternoon in the home of Mrs. Eva Bailey for a valentine party.

The group spent the afternoon sewing and then exchanged valentine gifts. Refreshments of cherry pie with whipped cream, nuts and coffee were enjoyed by those present. Attending were: Mrs. Wood, Mrs. A. J. Carter, Winnie Henderson, Ella West, Frank Runkles, Marvin Hudman, Lester Nichols, N. A. Lusby, E. R. Moreland, Lowell Short, Everett Windham, G. D. Ellis, Gordon Hamilton, S. M. Young and Mrs. Bailey. Mrs. Marvin Hudman will be hostess for the March 2 meeting of the group.

NON-AGGRESSION PACT IN FORCE — New York usually accepted meaning of a "cat and dog life" all to this pass and her cocker friend. There is no hostility, nor shadow of suspicion in evidence as they cheek and turn scowlful eyes at the camera. Strangely "dumb" animals on whom man looks down from his intellect can bury their instinctive antipathy and love and trust while man himself lives in constant suspicion of man.

Mrs. Henry Tate Hostess For Priscilla

A valentine motif was used in the serving of refreshments when members of the Priscilla Sewing Club met Friday afternoon at 3 o'clock in the home of Mrs. Henry Tate.

Refreshments consisted of spiced tea, open-face sandwiches, and congealed red salad, shaped in hearts. Attending were: Mrs. Monroe Lane, Mrs. O. H. Hoover, Mrs. R. H. Collier, Mrs.

Delta Mae Rogers Weds Harold Allen Friday Night

Wedding ceremony Friday night at the Church of the Holy Trinity, Delta Mae Rogers, bride of James Harold Allen, groom, was officiated by Rev. Cecil Stowe, pastor. The single ring ceremony was held at 7:30 p. m. The couple are Mr. and Mrs. James Harold Allen of Lubbock.

MRS. JAMES HAROLD ALLEN (Miss Delta Rogers)

'King And Queen' Crowned At Banquet Here Friday Evening

Mrs. Lloyd Anthony and R. E. Shedd were crowned "queen and king" of the Cavalry Baptist Church's annual valentine banquet, held Friday evening at the church. The event was sponsored by the training union groups, with the queen and king decided by record attendance during the past four weeks.

Mrs. W. C. Kiker was presented a valentine corsage by Margie Harrison and Diane Kiker, representing members of the Junior Girls Auxiliary.

Members of the court consisted of the following: Renee Carpenter, crown princess; Chip Ray Polk, crown prince; Martha Ella Goode, duchess; Donnie Hays, duke; Alice Fay Kiker, countess; Graydon Howell Jr., count; Margie Harrison and Deborah Britton, princesses; Linda Hays and Richard Brown, crown bearers; and Mike and Keigan Sloan, pages.

Following the dinner, toastmaster T. C. Polk made introductions and recognitions before a program revealed "Sweethearts in Review". Each scene was presented in front of a huge red valentine heart.

Participating in the valentine scenes were: Diane Kiker, Edith Johnson, Glenn Polk, Chip Ray Polk, Vickie Williams, Gary Hays, Martha Blodgett, Billy Ruth Hill, Kenneth Smith, Peggy Butler, Robert Shedd, Jan Polk, Gilbert Carpenter, Sandra Martin, Rev. Howell, Mrs. R. E. Shedd, Mr. and Mrs. Marvin Williams, Mr. and Mrs. Gordon Flowers, Mr. and Mrs. T. C. Polk, Mrs. John Miller, and Mrs. W. C. Kiker.

Following the revue, Rev. Howell delivered a message on "How Can I Know Its Love?", and concluding the evening, he sang, "The Love Of God".

Approximately 110 people were present for the evening.

Miss Patty Lott Is Honored At Shower In J. Parker Home

Miss Patty Lott, who will become the bride of Kay Kirkpatrick Feb. 22 at the First Methodist Church, was complimented with a kitchen shower Friday morning in the home of Mrs. J. E. Parker.

The eight hostesses alternated in greeting the guests, who called between the hours of 9 and 11 o'clock, and presenting them to members of the receiving line, which was composed of the honoree, her mother, Mrs. John F. Lott; the prospective bridegroom's mother, Mrs. Willard Kirkpatrick; and Mrs. Parker.

Over 50 guests registered at the bride's book, which was decorated with an arrangement of spring flowers. Members of the Methodist Church comprised the guest list.

Included in the houseparty for the event were Mrs. Jack Lott and Mrs. Jack Kirkpatrick, Mrs. K. Stoker and Mrs. Bertram Tizard were seated hostesses.

The hostess gift to the honoree, an aqua electric mixer, formed the centerpiece for the serving table, which was laid with an imported lace cloth. A floral arrangement of daisies and other spring flowers completed the table decor.

A copper coffee service was used in the serving of refreshments, carrying out the bride-elect's chosen kitchen colors of copper and aqua.

Mmes. Alec Webb of Slaton, Malcolm Bull, Bill Edwards, Bob Collier, Pat Walker, Carleton P. Webb, B. E. Young and Mrs. Parker were hostesses for the occasion.

SORORITY SWEETHEART — Mrs. Shirley Hundley is shown above with her husband, Jimmy Hundley, following her crowning as sweetheart of Beta Sigma Phi's annual dinner-dance Friday evening. (O. A. Madison Photo).

Dinner-Dance Highlighted With Crowning Of Sweetheart Friday

Highlighting the annual sweetheart dinner-dance of Beta Sigma Phi sorority was the crowning of Mrs. Shirley Hundley as sweetheart for 1958. Those present formed a heart while Mayor James Minor crowned Mrs. Hundley and Mrs. Patsy Fumagalli, sweetheart for 1957, presented her a large bouquet of red carnations, on behalf of the sorority.

Thirty-one were present for the dinner at 7:30 o'clock at Levi's Dining Room. Tables for the occasion were arranged in the shape of a "U", and a styrofoam heart, centered with a cupid, formed the centerpiece.

At the dinner, the group of Sigma Phi American Legion was assigned to a post office, and the group of the American Legion was assigned to a post office.

Also, Mr. and Mrs. J. B. Greer, Mr. and Mrs. Nick Vukad, Mr. and Mrs. James Simms, Mr. and Mrs. Douglas Hill, Mr. and Mrs. Johnny Hopkins, Mr. and Mrs. Bill Fumagalli, and Miss Maxine Durrutt.

GA Groups Entertained With Valentine Party

Members of the Junior and Intermediate Girls Auxiliary of the Calvary Baptist Church were entertained last Wednesday evening with a valentine party in the junior department.

Mrs. Graydon Howell and Mrs. W. C. Kiker, sponsors, directed games, after which the group exchanged valentines.

Refreshments of heart-shaped cookies, decorated cup cakes, and hot chocolate were served to 22 guests, by Dorothy Fogarty, Emmerean Halford, Diane Beas and Ann Long.

Needlecraft Club Votes In Member

During the business session at Friday's meeting of the Needlecraft Club, Mrs. Tol Thomas was voted into club membership.

A valentine program, telling of the origination of valentine's day, was enjoyed by the 13 ladies present.

Following the program, the group played games and enjoyed refreshments of open-face sandwiches, valentine cakes, and congealed salad, served by Mrs. W. R. Graeber, hostess for the afternoon.

Attending were: Mrs. J. R. Durrett, Ms. S. C. Storie Sr., Mrs. F. A. Gilley, Mrs. Boone Evans, Mrs. Connie Caylor, Mrs. Oscar Smith, Mrs. H. J. Dietrich, Mrs. M. J. Malouf, Mrs. H. W. Schmidt, Mrs. Tol Thomas, and three guests, Miss Jean Samson of Lubbock, Mrs. J. E. Parker and Mrs. Walter Clark.

Postscripts

Afternoon students at Post Grade School were entertained with valentine parties. Each grade's roommothers were present for the afternoon, with school dismissing following the refreshments.

Speaking of the school valentine parties, students of Arthur High grade were entertained Friday by Mr. Powell Shytles, the illness of his wife, Sue. Isn't very often that classes have parties?

Thursday's meeting of the Green Thumb Garden Club was held this evening when Mrs. Sid Cross will be hostess for a dinner at her home. "Transplanting Seedlings" will be the topic for the meeting.

Larry Schmidt, son of Mr. and Mrs. H. W. Schmidt, has been named manager of SMU's freshman swimming team. The group will compete against A&M Friday at College Station, and Saturday at Rice, at Houston. Andy is a 1957 graduate of High School.

Larry McCullough recently spent a 10-day furlough touring Europe. These included Frankfurt, Germany; Paris, France, and Scotland. Larry is the son of Mr. and Mrs. L. C. McCullough.

Mrs. Webb was awarded a certificate of merit at Level 10 of the Post-Teacher Assn., founder's celebration Monday night in the gymnasium. Mrs. Webb was the first president of the organization. She was elected Tuesday after spending the night as a guest of Mr. and Mrs. L. C. McCullough.

Mrs. Malouf Speaks At Tuesday Scout Meeting

Members of the fifth grade intermediate Girl Scouts met at the Little House Tuesday afternoon at 4 o'clock for a regular meeting.

Mrs. M. J. Malouf gave a discussion on "International Friendship", helping the girls work toward their second class badge.

Betsy Shytles, hostess for the afternoon, served refreshments to the following:

Susan Cornish, Meredith Newby, Elisabeth Tubbs, Deborah McCampbell, Marcella Glenn, Barbara Britton, Vickie Wilks, Sherry McAfee, Paula Smith, Janice White, Frances Poole, a visitor, Barbara Montgomery, and troop leaders, Mrs. David Newby and Mrs. Jim Cornish.

Brownie Scout Troop II Meets At Little House

Cheri Cummings was hostess for Monday afternoon's meeting of members of Brownie Troop II. Refreshments of sugar cookies were served to those present.

Attending were: Terri Power, Carol Camp, Janet Peden, Cheri Cummings, Dixie Lucas, Linda Bullard, Shelia Pierce, Pat Martin, two visitors, Barbara Lucas and Debbie Cummings, and the group's leaders, Mrs. Odean Cummings and Mrs. Harold Lucas.

'Happy Hearts' Theme Saturday For Church Sweetheart Banquet

Fellowship Hall of the First Baptist Church was the scene Saturday night of a sweetheart banquet, with the theme "Happy Hearts" carried out.

The program and decorations carried out the theme in detail. A menu centered around ham was enjoyed by 66 guests, with the menu having specific names in keeping with the theme.

The Rev. Ed Bowles, pastor of the First Baptist Church of Floydada, was guest speaker with "God's Love-letter" his topic. The speaker's table was decorated with an arrangement of red roses.

The program began with Jerry Hitt playing a "Happy Heart Medley", after which master of ceremonies Wayne Runkles called on Shelby Baucum, music - education director of the church, to lead the invocation. After dining, Jimmy Short sang two selections, followed by a reading, "Love", by Linda Wilkes.

Other highlights points on the program included a romantic skit by Peggy Butler, Leland Edwards and Joanne Dunn; and a musical selection by Benny Clary, Charles

PTA Has Highlight Meeting Of Year Thursday In Form Of Tea

Approximately 70 parents, teachers, and guests were present for the Post-Parent-Teacher Assn. Thursday evening at the school lunchroom. The meeting, held in the form of a silver tea, paid tribute to the founder of PTA, Mrs. Ella Carothers Porter, and past presidents of the local organization.

Guests were greeted at the door by Mrs. C. R. Wilson.

Mrs. Herman Raphael, who was in charge of the evening's program, gave a discussion of the founding of the organization and introduced past presidents who were present at the Thursday meeting. They included: Mrs. John F. Lott, Mrs. Willard Kirkpatrick; Mrs. J. E. Parker, Mrs. J. A. Stallings, Mrs. D. C. Williams, Mrs. A. C. Surman, Mrs. S. E. Camp, Mrs. Tom Bouchier, Mrs. Ralph Welch, Mrs. Victor Hudman, and Mrs. Irene Rodgers.

Following the program, a brief business session was held during which Mrs. Sid Cross, president, appointed a nominating committee of Mrs. Victor Hudman, chairman; Mrs. C. R. Wilson, Mrs. Jack Ballentine, Mrs. Harold Voss, and Glenn Whittenberg.

During the social hour, refreshments of cherry tarts, topped with whipped cream, and coffee were served from a silver and crystal service.

A beautifully decorated table, laid in red and centered with an unusual arrangement of silver driftwood entwined with red and white tulle, sprinkled with glitter, was used as the serving table. Red and white tapers and red and white paper lace dollies completed the table decor.

Contributions — which were used as birthday gifts for the organization — were made in a miniature silver treasure chest, from which gold coins, rubies and pearls overflowed. Red and white tapers, and a silver centerpiece, helped to complete the figure.

Entertainment for the evening was provided by the Post High School girls sextet, under the direction of George Wilson. The sextet is composed of Doris Eilenburger, Sharon Hebe, Kay Martin, Jaene Haynie, Sandra Martin, and Alice Joy Nichols. They sang "Red Sails In The Sunset" and "Around The World In 80 Days."

Awards were presented to the rooms with the most attendance.

Leo Cobb Home Is Scene For Party

Mr. and Mrs. Leo Cobb entertained with a valentine party last Thursday evening in their home for a group of young people.

Refreshments of Cokes, cup cakes, iced in white and topped with red hearts, and valentine candy were enjoyed by those present.

Attending were: Susie Bowen, Kathy Hester, Ruth Miller, Patsy Thompson, Carolyn Martin, Cheri Moore, Carolyn Moore, Jerry Ligon, Travis Guy, Homer Carter, Kenneth Howard, Charles Gordon, Franklin Carter, Kenneth Thompson and Delwin Fluit.

Westminster Group Meets At Church

The Westminster Fellowship of the Presbyterian Church met Sunday at 8:30 for their regular weekly meeting.

Charles Tubbs presented the program. David McCampbell served refreshments to the five members present.

Officers were elected at a previous meeting and are as follows: Moderator, Charles Tubbs; vice-moderator, Gary Simpson; secretary - treasurer, Christine Cornish. Mrs. David Newby and Mrs. Giles McCrary are the group sponsors.

ATTEND MUSICAL — Mr. and Mrs. Clint Herring and Jan and Miss Pam McCrary attended the Tech Choir Musical Sunday afternoon in Lubbock.

Matroni Micere Group Meets In B. Hall Home

Mrs. Bill Hall was hostess for a regular meeting last Wednesday evening at 7:30 o'clock for members of the Matroni Micere Club.

The group discussed old and new business.

The valentine motif was carried out in the serving of refreshments of individual cakes and coffee.

Attending the meeting were: Mrs. Bob Pace, Mrs. Gene Hays, Mrs. Roy Josey, Mrs. Royce Josey, Mrs. George Hester, and Mrs. Bill Hall.

WMU Elects Mrs. Polk As Prayer Chairman

The Women's Missionary Union of the Calvary Baptist Church met Monday night for a business meeting at the church.

Mrs. T. C. Polk was elected as prayer chairman of the union. Seven ladies were present for the meeting.

Only 17 Per Cent Of Garza County Vehicles Inspected

April 15 Date Is Drawing Nearer

Only 600 of 5,950 motor vehicles registered in Garza County have been inspected to date, according to J. R. Whitmire, motor vehicle inspection patrolman for the area.

"This represents only 17 per cent of the total vehicles in the county required by state law to be inspected," Whitmire said here this week.

The patrolman stated that five state approved inspection stations are located in Garza County and that motorists should have their vehicles inspected as soon as possible in order to avoid a last-minute rush to meet the April 15 deadline.

Capt. Alan Johnson, service commander of motor vehicle inspection of Region 5 of the Texas Department of Public Safety, announced at the same time that only 30 per cent of the registered vehicles in the entire region have been inspected to date for the year 1958.

Captain Johnson pointed out that motorists are subject to a fine of \$1 to \$200 if they are apprehended operating a vehicle without a valid safety inspection sticker.

Achievement Program Is Entered By Area Church

The Southland Baptist Church is one of more than 300 Baptist churches participating in the 1958 Texas Baptist Achievement Program sponsored by the Baptist General Convention of Texas, the Rev. Lusby Kirk, pastor, has announced.

Designed to stimulate interest in small church work, the program recognizes outstanding achievements by pastors and churches in areas of church, community and world improvement.

Each church participating in the

program sets up goals for advancement in the three areas. An inventory questionnaire furnishes suggestions for projects, such as health education, community recreation, citizenship training, race relation studies and world missions. Individual churches, however, select their own projects for the program.

Winning pastors in each of the 17 districts receive a parchment scroll and the church a metal plaque.

Churches in the open country

and in towns up to 2,500 population are eligible to enter the program. Approximately two-thirds of all Texas Baptist churches are classified as town and country congregations.

The program has been expanded this year to include all Spanish-speaking congregations regardless of location.

Lt. W. F. Burke, stationed at Kuala Lumpur, Malaya, has airlifted a baby elephant to a game reserve by helicopter.

ATTEND BALL GAME

Charles Didway and son, Curtis, and Kenney Poole attended the Texas Tech-Arkansas basketball game Saturday night.

GUESTS OF MICHAELS

Sunday evening visitors of Mr. and Mrs. Jess Michael were Mr. and Mrs. H. D. Bourland of Lubbock. Mrs. Bourland is Michael's sister.

ON TRAMPOLINE TEAM

Don Gates, formerly of Post, was one of the "Flying Matadors" trampoline team performing at halftime at Saturday night's basketball game between Texas Tech and Arkansas. Don, a pre-med senior at Tech, is a graduate of Post High School. He is the son of the Rev. and Mrs. Charles R. Gates, now of Stratford. Rev. Gates is a former pastor of the First Methodist Church here.

The Boy Scouts of America announce that a study is being made of a possible change in uniforms for its Explorer unit, for older boys.

The Netherlands' Rippen Piano Factory, at Ede, has been expanded into the largest in Europe, with daily production of 100 pianos. It is a light-metal with a wooden action.

WOULD A FENCE HELP?

If we could build a fence around the world, what would it mean? Would we live happily with one another? Would we respect our limitations and still feel free within our confines? Would we stop wars, and know eternal peace?

Probably not. Because, while you can fence in physical objects, the minds, the hearts, and the souls of man cannot be harnessed. Nor could we be forced to live in peace. Blessed peace can come only to us through practicing the love, the faith, the tolerance and the understanding that God, through His Church on earth, tries again and again to teach us.

With that in mind, remember World Day of Prayer this year. Determine not to build a fence around yourself, or around anyone else—but to pledge, instead, to enlarge your horizons and the horizons of the entire world through the common voice of prayer.

And what better place in which to make such a pledge than the Church itself?

HOLY BIBLE
THE CHURCH FOR ALL... ALL FOR THE CHURCH
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

'Silent Policemen' Public Protectors

AUSTIN — "What would you do if all the traffic signs in Texas were suddenly removed?" That question was asked today by J. O. Musick, general manager of the Texas Safety Association, in an attempt to focus the public's attention on TSA's Signs of Life program.

"Traffic signs placed at carefully selected locations act as silent policemen to protect the public and help move traffic safely and efficiently," Musick said.

He stressed that in addition to urging the public to know and obey traffic signs, traffic officials, police and engineers make regular checks to see that the signs are in good condition. Sometimes, he reminded, the weather, vandalism or other conditions make the signs difficult to read.

"We urge motorists and pedestrians to learn the meaning of signs by their shape alone," the TSA manager said. "They should know their shapes and learn to use this knowledge instinctively in city traffic or on the highway."

Musick said that the over-all attack on traffic accidents is built around safety's original three E's—engineering, education and enforcement.

"First," he explained, "the engineers design and install aids for moving and controlling traffic. Then it's necessary to educate the public to utilize these aids and protections. Finally, for those people who insist on learning the hard way, there is enforcement. All of these are being continuously stepped up, particularly this year, as part of a national drive to make 1958 traffic safety's decisive year."

VISITS IN LUBBOCK
Mrs. C. E. Casey spent the weekend with her mother, Mrs. Beck.

ABOUT YOUR HEALTH

Urban Renewal Act Provides Means Attacking Housing Hygiene Tangle

AUSTIN — The State Department of Health has been engaged for many years in the promotion of housing hygiene because of the direct relationship between insanitary housing conditions and the spread of communicable diseases.

The Urban Renewal and Slum Clearance Act of 1949 (amended by 1957) provided a means for systematically attacking this problem. The 55th Texas Legislature provided the needed state aid.

The State Department of Health was made the official planning agency by act of the Texas Legislature for city planning programs undertaken by cities with populations of less than 25,000 according to the 1950 census.

Since August, 1957 (the effective date) 18 Texas cities have applied for planning assistance under the urban planning assistance program. They are Texas City, Rosenberg, La Marque, Brownwood, Irving, M. La Marque, Brownwood, Irving, McAllen, Victoria, Edinburg, Mesquite, Kleberg, Mission, Deerfoot City, Greenville, Richmond and Donna.

The total cost of the planning applied for is \$504,456.50, over \$242,000 of which will be federal matching funds. The remainder of the planning funds will be raised by the cities.

All these cities had less than 25,000 population according to the 1950 census, which is one of the basic prerequisites under the program. However, seven of these cities — Texas City, Brownwood, Irving, McAllen, Victoria, Grand Prairie and Denton—have present populations in excess of this figure.

Indications are that there are other Texas cities now eligible on the basis of their 1950 figures which will be eligible for their planning assistance after 1960.

Cities contemplating participation in the program are Linden, Mineola, Quitman, and Panhandle, although they have initiated no active steps in that direction as yet. Other cities are working with a consultant, and their applications will be filed soon.

All cities with less than 25,000 population according to the 1950 census and who cannot financially bear the entire cost of planning are eligible to receive the aid offered by the matching funds. The grant may not exceed 50 per cent of the cost of the work for which they are made, local funds making up the remainder of the cost.

VA Questions And Answers

Q. I've seen a lot of real estate advertisements stating that the GI loan program comes to an end July 25, 1958. I am a Korea veteran. Is that my deadline, too?

A. No. Korea veterans have until Jan. 31, 1965, to obtain GI loans. World War II veterans, however, must apply for GI loans before July 25, 1958 under existing law.

Q. I am a disabled Korea veteran eligible for vocational rehabilitation training. I've had an offer of a job. Would it be possible to work during the day and take rehabilitation training at night?

A. No. Vocational rehabilitation training must be full-time, unless a veteran's disability prevents him from training full-time. The law does not permit your holding a job and taking training part-time.

Q. I have a World War II GI term insurance policy. I would like to convert it to a permanent plan but at present I cannot afford the higher premiums. Would it be possible to convert part of my term insurance to permanent?

A. Yes. You need not convert the entire amount to permanent insurance. Instead, you may convert \$1,000 or more, in multiples of \$500.

Q. I am going to school under the Korean GI Bill. Is there any limit on the number of times I can change schools, without changing my course?

A. No. There is no limit on the number of times you may change schools. You are limited, however, to only one change of course under the Korean GI Bill.

Hale Center, Tex., Man Reports—

"A \$5.60 Investment Netted Me \$54.85 In Cotton."

Jack Shelley, Hale Center, Tex., says: "I put down Phillips 66 Agricultural Ammonia on my irrigated cotton and got an average of 847 pounds of lint per acre. This compared to a yield of 633 pounds on a check plot. My increase netted me \$54.85 an acre. I got more well matured, five-lock cotton bolls, too."

Other Southwestern farmers have discovered that the 82% nitrogen in top quality Phillips 66 Agricultural Ammonia helps them to get more profit per acre, through higher yields and lower production costs.

They have found that, by using Phillips 66 Agricultural Ammonia, they get more cotton that grades out higher at the gin; yields of sorghum grain and ensilage are increased; more marketable vegetables are harvested, and profits on wheat are increased through better forage, and higher yields of grain.

See your Phillips 66 Agricultural Ammonia distributor about profitable Phillips 66 Agricultural Ammonia, the 82% nitrogen fertilizer.

Honor Roll At Colored School Includes 19

Malachi Mitchell Jr., only member of the senior class at the colored high school, tops the honor roll for the first semester with a straight "A" average.

There were two other students who also maintained an "A" average—Robert Lawrence Moreau and Albert Lawrence Moreau.

March 14 Is Tentative Date For County Spelling Bee

C-C Offers \$50 In Cash Prizes

The sixth annual Garza County Spelling Bee has been tentatively set for March 14, Dean A. Robinson, county chairman, announced Wednesday.

The bee will be held at 1:30 p. m. in the district courtroom.

The Post Chamber of Commerce is offering cash prizes totaling \$50 to this year's winners, as compared with the \$30 total the Chamber has awarded in the past. First place winner will receive \$25; second place, \$15, and third place, \$10.

The Garza County winner will be eligible to compete in the regional spelling bee at Lubbock.

Trustees Continue Interview Series

Post independent school district trustees will hold another special meeting tonight to interview two more candidates for the school superintendency.

The board already has interviewed four applicants from the 20 applicants for the post which will become vacant here July 1.

Clint Herring, president of the trustees, said today that following the interviews tonight the board probably would agree on the top two or three applicants to carefully check their records and to talk with them further.

Selection of the new superintendent will be made as soon as possible, Herring indicated.

Board Confers With Landscape Architects

The city-county park board met Tuesday afternoon with representatives of the Lubbock firm which developed the Gaines County Park in Gaines County.

The firm's representatives spent an hour inspecting the local park site before meeting with the board and showing slides of their Gaines park development.

The park board plans to meet with other landscape architects before final selection of the firm which will be employed to plan the new city-county park.

Post Mail Is Nominally Parole Chairman

T. L. Jones, longtime Post resident and an ex-mayor of the city, has been appointed chairman of the Garza County Voluntary Parole Board. He succeeds Bryan J. Williams Sr., who resigned after having served more than 20 years in the post.

Notice of the appointment was received by Jones from Gov. Price Daniel, who wrote:

"I commend you for your willingness to undertake this important work... and am enclosing your commission and identification card."

"You will find the State Board of Pardons and Paroles ready to help you in any way, and I hope you will call on me whenever you feel I can be of any assistance."

Prison parolees residing in Garza County will report to Jones once a month, as required by law.

Oil Future—

(Continued From Front Page)

New Chamber of Commerce committees for 1958 will be made at the next directors' session. Directors will wait to see if Ralph Kirkpatrick, new Chamber president, can be back at the helm before taking action on organizing committees for the year.

Kirkpatrick suffered a heart attack early Monday morning and is now in the West Texas Hospital at Lubbock.

Attempted Murder Charge Is Filed

Gaylon Mitchell has been released under bond on a charge of assault with intent to murder in connection with a shooting Feb. 9 at a cafe in the colored section of town.

Mitchell is charged with shooting Tom Lucas in the neck with a .22 caliber pistol. Lucas was taken to a Lubbock hospital.

Deputy Sheriff J. W. "Red" Floyd arrested Mitchell following the shooting.

311 Sets 1958 Auto Tags Are Purchased

Three hundred and eleven sets of 1958 passenger automobile license plates had been sold here up to noon Tuesday, according to records at the office of County Tax Assessor - Collector T. H. Tipton.

The new tags went on sale Feb. 1 and are required on automobiles by April 1. A total of 2,375 sets of the tags were received for sale in Garza County.

Army Couple Adopts Daughter in Korea

Sgt. Harold Fitch left Monday en route back to Korea after a 30-day furlough he spent here with his wife.

Sgt. Fitch brought with him from Korea a 4½-year-old girl he and Mrs. Fitch have adopted. Mrs. Fitch met her husband and their adopted daughter, Margie, when their ship docked at San Francisco.

Mrs. Fitch said her husband plans to adopt another child to bring back with him when he returns in August upon completion of his 15-month tour of duty in Korea.

Sgt. Fitch has been in the Army for 15 years. His wife is the daughter of Mrs. Ethel Bruton of Post.

Cage 'Sweethearts' Crowned Tuesday

Kay Martin and Wayne Runkles were crowned basketball sweethearts in a between-games ceremony at Tuesday night's Post-Lockney contests.

Kay, chosen as sweetheart of the boys' squad, was crowned by Noel Don Norman. Wayne, the choice of the girls' squad, was crowned by Linda Livingston.

Both sweethearts received gifts.

Night Patrol—

(Continued From Front Page)

He pointed out that four decades ago the force consisted of a sheriff, a deputy sheriff, city marshal, constable, and night watchman.

The "night watchman" may be coming back into the picture though.

One business man has suggested forming a merchants' organization to hire a night watchman for business firms along Main street until a city police force could be gotten into operation. He pointed out firms would pay \$5 or \$10 a month apiece toward the watchman's salary.

This suggestion has been talked along Main Street.

There is a possibility that a "straw vote" might be taken at the city election April 1 to see if voters wanted the city to pay the cost of it.

Cafe Burglary—

(Continued From Front Page)

from the Duckworth home, sheriff's officers said.

Sheriff Rains was in Lubbock Wednesday afternoon to question Leggett further on the break-in and also about a burglary a few weeks ago at the Zeb Dappan home, northeast of Post, where a sewing machine, clothing and other items were stolen.

The sheriff said a Latin-American youth arrested in Lubbock had admitted being implicated in the burglary of the American Cafe the night of Jan. 23.

The officer said the Latin-American is also wanted for alleged burglaries at other places, including Robert Lee and Lockhart.

The youth reportedly told officers that he and four others broke into the cafe after stopping in Post en route down state. The sheriff said he was going to question him about other break-ins here.

Charges of theft and receiving stolen property have been filed against Guillermo Gomez, who officers said had admitted being involved in the theft of electric razors at Short Hardware and Western Auto Associate Store and a radio at TV-Appliance Center.

Gomez, who was brought here from Lamesa by Sheriff Rains, also is charged with leaving the scene of an accident. The charge grew out of an automobile collision here the same day the thefts of the razors were reported.

In addition to following up leads on previous burglaries, the sheriff Wednesday was also investigating a break-in at Jake's Recreation Parlor on East Main Street. The officer said nothing was reported missing after a break-in at the back door had been discovered.

Layette Shower For Mrs. Mason Tuesday

Mrs. Jody Mason was honored with a layette shower Tuesday evening in the home of Mrs. Everett Windham, when 17 hostesses entertained.

Refreshments of cake squares, nuts and punch were served from a table laid with a cutwork cloth, and featuring a centerpiece of a miniature train, surrounded by blue and white carnations.

The hostess list for the occasion was composed of:

Mmes. Fred Gossett, Bill McMahon, Elmo Bush, Junior Morris, Carl Fluit, Dillard Thompson, Edsel Cross, Bill Stone, Leo Acker, E. R. Moreland;

Also, E. E. Peel, Chester Morris, Delmer Cowdrey, James Babb, Elton Mathis, Katharine Trammell and Mrs. Windham.

Approximately 35 guests were present.

Garza Teachers Are To Name Delegates

Delegates for the teachers' meeting at Odessa on March 7 will be elected Monday at a meeting of the Garza County unit of the Texas State Teachers Assn.

The meeting, which all members are invited to attend, will be held at 7 p. m. in the junior high school library.

It would take all the sea water in the world 2,000,000 years to flow over Niagara Falls.

SATELLITE PILOT AND TRIGGERMAN—Cape Canaveral, Fla. — Scientists Walter Hausserman (Left), Chief of Guidance and Control at the Redstone Arsenal, and Dr. Ernest Stuhlinger, who triggered the rockets that launched the U. S. Satellite "Explorer" into orbit, are shown at a press conference in Cape Canaveral as their baby was whooping it up once around the Earth every 114 minutes at 18,000 MPH. The story goes that when Dr. Stuhlinger became a father recently, his wife told him: "Okay, I had my little Satellite, now you have yours."

Post Man Wounded In Gun Accident

Charlie Lon Baker, 25, received a gunshot wound in his left leg Tuesday night when a .22 caliber rifle accidentally discharged after sliding from the seat of an automobile in which he was riding.

Baker was taken to Garza Memorial Hospital suffering from a wound in the calf of his leg. His condition was reported good Wednesday.

Details of the accident were not learned immediately, but Baker was reported to have been riding in a car also occupied by his brother, Ed Ray Baker.

Movie On Natural Gas Is Shown Rotarians

natural gas Tuesday noon at their weekly luncheon.

Showing the film was Bill Brown, Lubbock, assistant advertising manager for Pioneer Natural Gas Co.

James Sims was inducted into the club as a new member.

ALLEGED FORGER HELD

Another alleged check forger is being held for Garza County authorities at Jacksboro, Tex. Sheriff Carl Rains said the man will be charged with passing a \$30 forged check with Mrs. Jess Michael at Western Auto.

Approximately 41,000 acres have been leased in eastern Lynn County in an area extending from east of Wilson south and east to the Redwine community. Currently going for lease in this block is \$10 per acre for a five year lease and \$1 rental.

All involved in the Lynn lease rush are reported to be major oil companies.

The inflow of some \$300,000 cash into this area in lease money—most of it to small farmers—is expected to give a healthy shot in the arm to the area's economy.

D. J. White, foreman of Shell's Oil Exploration in Garza County, besides its own crew and Garza County, is now having a second crew from the Midland Geophysical Co.

Shell has completed most of its exploration work on its big Slaughter ranch holdings and now is working all over Garza County.

According to White, Shell's exploration work in the county will keep its crew here until sometime in 1959.

Two more seismograph crews are reported to have moved into Post in the last week to begin operations in this area.

The housing supply in Post today has fallen well behind housing demand. All local trailer parks are full.

Meanwhile, this week Shell Oil has announced location of an offset to its prolific Slaughter 1-C discovery well on the Slaughter ranch south of Post.

The new location will be the No. 2-C J. B. Slaughter estate and will be a one-location south offset to the No. 1-C Slaughter. This field has been named "JL"-Penn and Ellenburger field.

The proposed rotary depth objective of 8,650 feet will test the Ellenburger. The test is nine miles south of the city.

Christian Churches in Texas Enumerate 134,346 Members

INDIANAPOLIS, Ind. — Christian Churches (Disciples of Christ) in Texas have 134,346 members in 590 congregations, according to the just-published 1957 Year Book of the Christian Churches. Only five other states have a larger membership and only four others have more Disciple congregations.

Year Book data show that baptisms added 4,135 members to Texas Christian Churches and 8,148 were accepted as transfers from other churches. The net gain in membership was 2,146.

While church membership increased, church school enrollment decreased by nearly 2,000, according to the new figures. 1955-56 enrollment was 92,452; in 1956-57 enrollment is given as 90,364.

Texas Disciples of Christ gave (per capita) \$72.68 for local church expense and \$12.10 for missions in 1956-57. Per capita averages for Disciples in the United States and Canada were \$69.74 for church expense and \$7.91 for missions.

The total membership of Christian Churches in the United States and Canada in 1957 was an increase of 21,000 members before. There are 830 congregations in the two countries. Begun in the early 19th century, the brotherhood of Christ still has its concentration in Kentucky, Illinois, Ohio and

Post Teams End Season Here Friday Against Abernathy

Both Boys, Girls Tilts Scheduled

The Post Antelope boys' and girls' basketball teams will play their final games here Friday night against the Abernathy Antelopes. The games were originally scheduled for Feb. 11, but were postponed because of icy road conditions.

In games at Abernathy a few weeks ago, both Post teams lost. The Abernathy girls are undefeated this season and are favorites to win the Conference AA championship in the regional tournament at Lubbock and go from there to the state tournament. Big and rangy, they surprised the dopsters two weeks ago by sailing to championship honors in the annual Abilene High School Girls Tournament, which attracts some of the best sextets in the state.

The Post boys were defeated, 44 to 38, in their game with Abernathy, and will be out for revenge Friday night. Neither they nor their coach, Al Parsons, were entirely satisfied with the officiating in the game, and feel they can take Abernathy in the game here.

Antelope Reserves Remain Undefeated By Beating Slaton

Protecting a six-game winning streak, the Post Antelope "B" team defeated the Slaton Tiger "B" cagers, 51 to 44, here Thursday night, but only after a battle.

From late in the second quarter to early in the fourth, not more than four points ever separated the teams, but Coach Al Parsons' boys began pulling away about midway of the final period.

Post was ahead, 13-8, at the end of the first quarter, but led by only three points — 27-24 — at halftime. After letting the visitors catch up in the third quarter and momentarily go one point ahead, the Post team began widening the gap in the fourth.

Derwood Mayberry's 13 points paced the Post team, with Marshall Ticer chipping in 11. Dale Gordon, with 15 points, was the big gun for the Tigers.

The Post Antelope "A" and "B" boys' teams rolled to victories over the Slaton Tigers on the Slaton court Friday night, the varsity winning by a score of 53 to 46, and the reserves taking a 37 to 19 decision.

Jimmy Short hit eight points and Sidney Hart four in the first period to get the Antelopes off to a 12-8 first quarter lead. The Tigers made it closer in the second frame, scoring 14 points to Post's 15 and leaving the court on the short end of a 27-22 count. Post racked up 16 points to Slaton's 14 in the third period and led by a score of 43 to 36 going into the final quarter.

Short, with 25 points, had one of his best nights of the season. Doug Corley hit 19 to spearhead the Tigers' offense.

The Antelope "B" team was never in trouble in posting its 17-point victory over the Slaton reserves. Derwood Mayberry hit for nine points to lead the Post team, closely followed by Charlie Morris with eight.

The victory left the Antelopes with a 4-6 record in District 2-AA play. The "B" team win made their record for the season seven victories against no defeats.

8th Graders Bomb O'Donnell, 46-29

Benny Schlehber scored 14 points to pace the Post 8th graders past O'Donnell, 46 to 29, here Friday. The Post team hit 60.40 percent of their field goal attempts and 38 per cent of their free throw tries. They outrebounded O'Donnell, 41-27.

Coach Lawrence Cook's team led by only 7-6 at the end of the first quarter, but hits the nets for 17 in the second period to pull into a 24-10 halftime lead. At the end of the third quarter, they were ahead 35-22.

Trailing Schlehber in the scoring column were Bobby Beard, 9; Tommy Bouchier, 8; Leslie Acker, 6; Harold Wayne Mason, 6; and Dwayne Capps, 2. Also seeing action for Post were Jerry Stone, Bobby Hudman, Floyd Hair, Joe Porter, Jimmy Ivie, Roger Camp, Larry McBride, Clarence Ivie and Carroll Cowley.

Girls 'B' Sextet Is Defeated By Slaton

The Slaton girls' "B" team put on a third quarter spurge here last Thursday night to down the Post girls' "B" team, 35 to 26.

Only one point separated the teams at the end of the first quarter, with Slaton ahead, 5-4. They were out in front by only three points, 15-12, at halftime, but scored 16 points in the third period to Post's two to put the game out of reach of the local sextet.

Glenda Whittenberg's nine points led the Post scoring. Leta Stone had eight, Pat Wheatley, five, and Rhea Peel, four.

Lockney Wins First Loop Game At Expense Of Antelopes, 43 To 37

The Lockney Longhorns, evidently tired of being District 2-AA doormats, defeated the Post Antelopes, 43 to 37, here Tuesday night to win their first conference game of the season. The Longhorn victory was an upset, considering that the Antelopes had defeated them by a comfortable margin on the Lockney court.

With Post taking a quick 5-0 lead, it appeared that they'd do it again Tuesday night, but the Longhorns had other ideas. It didn't take them long to overhaul the cold-shooting 'Lopes, and by the end of the first quarter the visitors were out in front, 14-10.

Freshmen Edge Out Colorado City '5'

Superior shooting from the free throw line enabled Coach Frank Krhut's freshman cagers to defeat Colorado City, 37 to 35, here Thursday night.

The visitors hit 14 from the field to only 11 for the Post team, but made only seven of 25 free throws while Post was hitting 15 of 27.

The local cagers led, 9-8, at the end of the first quarter and 22-11 at halftime, with each team managing only three points in the second period.

The third quarter was the big one for the Post team, which chalked up 17 points in the frame to Colorado City's 10. The visitors rallied in the final period to outscore the future Antelopes, 14-8, and provide a thrilling finish.

Kenneth Williams, with 15 points, was the game's high scorer. McKay scored 13 to pace the Colorado City quintet.

Colored Girls' Team Wins District Meet

The colored high school girls' basketball team of Post won first place in the district tournament in Lubbock on Feb. 8. They also won the sportsmanship trophy.

The boys' team won a consolation trophy.

The Post girls have had a successful season, winning 10 of their 12 games. The two games lost, both non-conference contests, were to Slaton and Levelland.

Members of the girls' team are: Mary Lou Moreau, Doris Marie Mitchell, Louise Hoyle, Willia Bruce Mitchell and Bonnie Yvonne Ray, forwards; and Florence Jean Johnson, Annie Mae Spencer, Dorothy Lee Hoyle, Rubye Jewel Bell and Emma Jewel Mitchell, guards.

TO EVALUATE PERFORMANCE OF AREA COTTON

Final Plans Approved For Pilot Spinning Plant At Texas Tech

LUBBOCK—Final go ahead plans for re-activation of a pilot spinning plant at Texas Tech College were approved here Saturday as members of the Board of Directors of Tech approved an agreement with the Plains Cotton Growers, Inc. where by the Textile Research Laboratories will conduct research to evaluate performance of cotton pro-

duced on the High Plains. George W. Pfeiffenberger, executive vice president of the PCG, said that this organization will finance the program at the pilot spinning plant along with matching funds from the Cotton Research committee of Texas. The PCG has already appropriated \$15,600 to cover costs of the research in the

State Capital NEWS
By Vern Sanford

By VERN SANFORD
Texas Press Association

AUSTIN — Money is making the biggest news in Austin at the moment.

Discussion swirls around such topics as campaign funds, unemployment, recession, taxation, receiverships and credit insurance rates — all pocket-prodding issues. Gov. Price Daniel publicly deplored the money-raising efforts of Texas' Republican National Committeeman H. J. (Jack) Porter. Porter staged a \$100-a-plate dinner in Houston to raise money for Republican congressional campaigns. His widely publicized letter asking contributions pointed out the need to gain support for the

proposed program for the period March 1 to Aug. 31, 1958.

Directors of the PCG earlier approved the re-activation plans whereby equipment available at Tech will be used to conduct research from the raw cotton stage through the spinning stage.

Pfeiffenberger explained that facilities now at Tech are adequate for this research. Prof. R. K. Flieg, head of the Textile Department at Tech, said that work is already under way to recondition machinery and put all equipment in top working condition.

The pilot spinning plant will be operated by Tech on a contract basis. Both the PCG and Cotton Research Committee will contract for specific research problems and other groups as well as the U. S. Department of Agriculture, in all probability, will negotiate for research work to be done at Tech. Flieg said most of the equipment should be in operating condition by March 1.

Pfeiffenberger said that the first work for the PCG is now being planned and cotton from various areas on the High Plains will be secured for the planned tests. Details on the testing work will be announced later, he said.

natural gas bill now before Congress.

A hard-fought issue for many years, the bill is generally favored in Texas and other gas-producing states, but bitterly opposed in gas-consuming Eastern and Northern cities. Opponents were quick to label Porter's approach as "mass bribery" and "selling legislation for campaign contributions." Proponents of the bill groaned. They contended that Porter had heaved a huge monkey wrench into plans for passage this session. Governor Daniel said the incident "should convince all Texans that the Republican leadership in this state has nothing to offer but embarrassment, discord and division."

Why No Jobs

Viewing the soaring unemployment figures, Governor Daniel took more jobs at the GOP.

Loss of jobs reportedly increased more in the past month than at any time since World War II.

As far as Texas is concerned, said the governor, much of the blame can be laid to the Republican administration's ineffectiveness in controlling oil imports. Competition of foreign oil, he asserted, has caused Texas production to slip steadily, bringing loss of jobs and revenue to the state. National farm policies also were criticized by the governor.

Texas Employment Commission says its January unemployment compensation payments hit \$537,800, an increase of almost 70 per cent from last September.

More Taxes?

Governor Daniel has slightly and very cautiously amended his determinedly cheerful stand about possible need for new state taxes.

He still doesn't agree with Comptroller Robert S. Calvert's chilly predictions. These are for a \$12,000,000 deficit by the end of this biennium (in 1959) and need for the next Legislature to scratch up \$100,000,000 in new revenue.

Governor Daniel said he felt the state would just about break even by 1959. But he conceded that needs of a growing state might call for more money by then. He still favors a gas gathering tax, which he proposed last year, but emphasized he isn't recommending that or any other new tax for the time being.

Let's Face It

It's a recession, all right, but a minor one. This is the answer Dr. John R. Stockton, one of the state's top business analysts, is giving many groups these days. Dr. Stockton is director of the University of Texas Bureau of Business Research.

Ebbing of prosperity and fear of another Depression have put the spotlight on BBR's studies. Dr. Stockton minces no words about there being a recession, but contends that the cures for this one are in plain sight. He cites increased federal spending and easier credit regulations.

A "minor" recession, says the BBR director, usually lasts about six to eight months.

Rate Order Delayed

State Board of Insurance is re-studying an order that would cut in half the rate for insurance on people who get small loans. Order brought a storm of protest from credit insurers who said

SANTA FE CARLOADINGS

Santa Fe carloadings for the week ending Feb. 15 were 20,571 compared with 22,718 for the same week a year ago. Cars received from connections totaled 9,814 compared with 11,995 for the same week in 1957. Total cars moved were 30,385 compared with 34,713 for the same week a year ago. Santa Fe handled a total of 30,535 cars in preceding week this year.

SEAGRAVES VISITORS

Mr. and Mrs. Joe McCowen of Seagraves visited Monday and Tuesday in the home of their parents, Mr. and Mrs. A. V. McCowen and Mr. and Mrs. John Rogers.

the regulation would put them out of business. After a hearing, the Board postponed effective date of the order from March 1 to April 1.

Atty. Gen. Will Wilson has said he would head a drive to crack down on "loan sharks" if the Insurance Board would tighten up credit insurance regulations.

Trust Payment Foreseen

Partial repayment to investors in the bankrupt US Trust and Guaranty Co. may be possible within a couple of months. Texas Supreme Court rules that all creditors must share alike in the distribution. Payment has been held up by a suit in which holders of "trust certificates" sought preference.

Depositors can make one last move by asking the court for a re-hearing. But unless the court completely reverses its view, this will be denied, making it possible for the state liquidator to begin paying out some \$4,000,000 in recovered funds.

Anti-Gift Law Toppies

The Attorney General has declared invalid a section of a new law prohibiting insurance company officials from making gifts to State Insurance Department employees.

His reason: the bill's caption or title did not mention the subject. Texas' constitution requires that a bill's caption must state specifically what is in the bill. In this case, the caption did mention that Insurance Department employees could not accept gifts from industry people. But it did not say that industry people could not give them.

Each year a number of newly-passed laws are thrown out by the attorney general, or by courts, as being improperly written. Governor Daniel has suggested a bill-drafting division in the attorney general's department to help legislators avoid such errors.

House Cleaning

"I can't help but think that just about all of those rotten apples are out of the barrel," said State Insurance Liquidator J. D. Wheeler, in predicting that the period of insurance company failures might be over.

Our job with the insurance industry is like that of a traffic policeman, said State Insurance Board Chairman Penn Jackson. "If directors and stockholders will discharge their responsibilities, we will have less tickets to issue."

Short Snorts

Robert E. Wallace has been appointed superintendent of the Abilene State School (for mentally retarded children) by the State Board for Hospitals and Special Schools. Wallace, currently heading a similar institution in Illinois, will begin his new duties April 1.

Atty. Gen. Will Wilson has announced the annual conference on law enforcement to be held March 9-11 in Austin. Meeting of the District and County Attorneys Association of Texas has been set to co-

REV. BUFORD BATTIN

Nazarene Church Slates Revival

The Rev. Buford Battin of Lubbock will conduct a revival at the Church of the Nazarene Feb. 26 to March 9, the Rev. Cecil Stowe, pastor, has announced.

Each service will be held at 7:30 p. m. "The church joins the pastor in extending everyone a hearty welcome to attend each service," said the Rev. Mr. Stowe.

The Rev. Mr. Battin is an evangelist in the Church of the Nazarene, devoting full time to the work of evangelism. He has had wide experience as a minister, having served as pastor in San Antonio and Dallas, in Clovis and Roswell, N. M., and in Olympia, Wash.

He attended Texas Tech and is a graduate of Eastern New Mexico University at Portales.

The Rev. Mr. Battin is hailed as a forceful preacher, presenting the appeal of the gospel in a convincing manner.

incide with the conference. Prices paid for Texas farm products were relatively steady during the past month, reports the U. S. Dept. of Agriculture. Most marked change was in meat prices — up 42 per cent from a year ago, seven per cent from December. More than 6,000 men of draft age registered last month, according to State Selective Service. A new law requires 18-year-olds to register on their birthdays or 30 days thereafter. All the various gimmicks and gadgets used in a radio, television or hi-fi set, if bought separately and assembled on a do-it-yourself basis, are not subject to the state sales tax on radio and television sets, ruled Atty. Gen. Will Wilson. Single exception is a "tuner" regarded as a radio set and, hence, taxable.

Buying at Home

is much like The Golden Rule

Everybody Recommends It for Everybody Else

But ... the sad fact that some folks who preach buying at home don't practice it much, doesn't keep it from being a wise habit. There always will be people who regularly stand in their own light, even when they know better.

Unlike The Golden Rule, the principle of buying at home has few moral aspects. It's just a matter of dollars and cents, and fuller living.

Because somebody else does ... or doesn't ... is no good reason to give away what is ours.

Yet that is just what we're doing when we spend our money off somewhere else, with the excuse that our neighbors are doing it.

Let's quit watching them, and examine our own habits, reminding ourselves selfishly that of each dollar we spend, nearly one-third goes to pay for community progress and upkeep.

But it's no soup for the birds, no schools for our kids, no churches for our people, no property, if it is some other community.

It Pays to Buy where you Live

Troop 16 Boy Scouts 'Serve' In City, County Offices

Join Observance Of Special Week

Boy Scout Troop 16 observed National Boy Scout Week last Thursday by "taking over" city and county offices for the day.

Serving in the various offices were the following Scouts:

Archie Gill, fire chief; Jackie Braddock, assistant fire chief; Ike Joe Hare, water commissioner; Charles Brannon, school superintendent; Delroy Odum, tax assessor-collector; Raymond Shaw, sheriff; Daniel Johnson, deputy sheriff;

Masel Salinas, constable; Billy Max Gordon, deputy sheriff; Curtis Hudman, county judge; Butch Cross, mayor; Donnie Hare, assistant mayor; Lonnie Crowley, city marshal; Arlis Doggett, assistant city marshal.

The Boy Scouts cooked dinner at the Scout Hut, cleaned the Scout yard in the afternoon and then took part in a tent pitching contest.

Bobby Terry is scoutmaster and Leon Miller is assistant.

Traffic Violation Complaints Filed

Five traffic violation complaints were filed during a "light" week in the court of Justice of the Peace D. C. Roberts, with fines being paid on three of them.

Albert Solis paid fine and costs of \$20.50 on a no operator's license charge filed by Highway Patrolman McKnight.

Jasper J. Stokes was fined \$16.50, including costs, on a charge of not having a valid motor vehicle inspection sticker. J. R. Whitmore signed the complaint.

R. J. Dupuy paid fine and costs of \$48.50 after being booked for operating a motor vehicle over gross weight. L. E. Morahan filed the complaint.

Paul Richard Bradley was booked on a charge of operating a vehicle with two headlights out on a complaint signed by McKnight.

A complaint of no valid motor vehicle inspection sticker was filed against Dan Price by Highway Patrolman Delmer Tuggle.

TRANSACTS BUSINESS

Mr. and Mrs. J. W. Satterwhite of Seminole transacted business here Saturday and visited in the home of his mother, Mrs. Inez Afterwhite, and his sister and family, the J. D. McCampbells.

VISIT IN LOVINGTON

Mrs. T. J. Johnston, Mrs. Virgil Priddy, and Mickey visited in Lovington, N. M., in the home of Mr. and Mrs. L. E. Rylant last week.

Mr. and Mrs. Daniel DeLaRosa announce the birth of a daughter, Deloris Ann. She weighed 6 pounds 14 ounces and was born Feb. 16.

Mr. and Mrs. Bobby Williams of Seagraves announce the birth of a daughter, Bobbie Jaton, weighing 7 pounds and 13 ounces. Maternal grandparents are Mr. and Mrs. A. L. Shephard of Grassland and paternal grandparents are Mr. and Mrs. Carl Williams of Tahoka.

Mr. and Mrs. George Pierce announce the birth of a son, Jimmy Earl. Born Feb. 12, at 11:27 a. m. Jimmy Earl weighed 7 pounds and 2 ounces. Maternal grandparents are Mr. and Mrs. Earl Hodges, and T. A. Pierce of Bakersfield, Calif., is the paternal grandfather.

DON'T WAIT UNTIL PLANT BADLY OUT OF SHAPE

Pruning Important Operation Now In Caring For Shrubs And Trees

By JESSIE PEARCE
Home Demonstration Agent

Another job that needs to be done now in the care of your shrubs and trees is pruning. All shrubs do not need to be pruned at this time. I will try to give you information on which ones to prune now and which to prune after blooming.

Shrubs and trees are pruned to keep them in shape and remove dead or damaged branches. We need to keep this fact in mind when doing any pruning.

Many questions are asked about pruning roses. Experiments show that spring pruning produces more flowers than fall pruning. Spring pruning practices should consist of the following: (1) Cut out dead wood; (2) Remove weak and spindly canes and all canes that have come out below the bud; (3) Even the plants in the beds by pruning all canes to 24 inches from the ground. Cut the stems straight across with a sharp instrument just above the last bud you want to grow out. These pruning practices are recommended for the greatest number of flowers and not for exhibition blooms. In general, hybrid tea roses are pruned more severely than floribundas.

A good general practice for pruning climbing roses is to remove injured wood and weak canes in spring when growth starts. After the plants have bloomed, partially shorten the longer canes and remove a few of the older canes each year.

Many roses are beginning to put out new growth now. I suggest that you delay pruning until the freezes have stopped, as pruning them now will tend to force out the new growth.

Shrubs that bloom on old wood such as lilac, forsythia, flowering crab and bride's wreath should be pruned after blooming in the spring.

Crepe myrtle and butterfly bush should be cut back each year. They bloom on new wood, so may be pruned severely in the winter. Pyracantha is a rapidly growing shrub and needs

Some of this may be done as berries are out in the fall and some of it in the winter or spring. This plant blooms on both old and new wood, but more profusely on new wood.

Nandina is one of the most neglected shrubs we have. Many of them have grown up on long stems and now have foliage in the tops only. Prune out the old canes by removing two or three each year until all of the old canes are replaced by new ones. Be sure to give the nandina sunshine to the ground in the growing season. This will prevent the plant from growing up on tall stems and becoming "leggy".

Evergreens such as juniper and arbovitae need to have the tips pruned each year to keep them in shape. This may be done now.

Eucynymus japonica is a rapid grower and needs constant attention. This shrub may be pruned any time of the year to keep it in shape.

Shade trees need careful attention to remove dead or damaged branches. Bark injuries need attention to prevent decaying from these injuries. In general all trees that lose their leaves need to be pruned while dormant and evergreens preferably in the winter when the trees are more nearly dormant. Trees are more difficult to prune than shrubs due to their size and may need the attention of a professional.

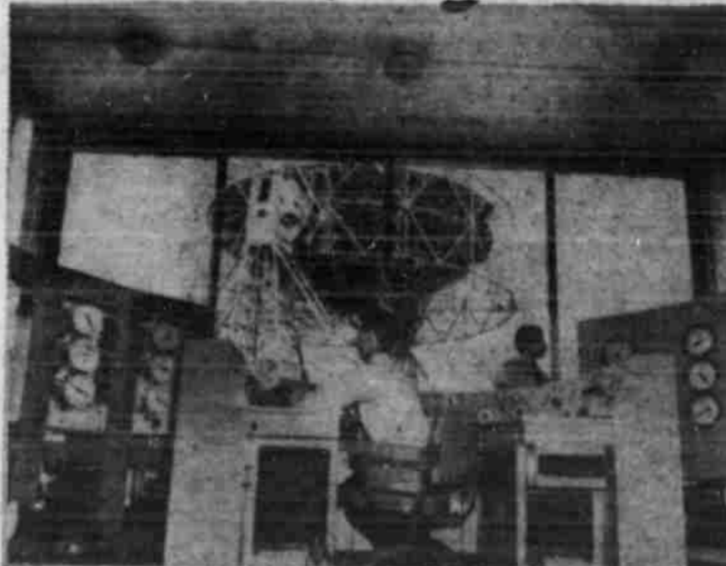

In caring for the plants around your home, remember that it is better to prune some each year rather than wait until the plant has become badly out of shape. Restoring its beauty is sometimes very difficult when this has happened.

SUNDAY GUESTS

Guests in the home of Mr. and Mrs. Jimmy Stanaford Sunday were Mr. and Mrs. L. D. Stanaford and son of Littlefield, Mr. and Mrs. Arlie Ramage and sons, Mrs. Vera Gossett, Judy...

'PHONES HIS WAY THROUGH COLLEGE' - East Chicago, Ind. - Bedridden since he was stricken with Polio 11 years ago, Edward A. Fiori, Jr., 23, has completed four years of college by talking on the Exectone Telephone at which he is seen studying. He is the third person in the U. S. to win a degree by telephone.

ENGLAND CHECKS ON "EXPLORER" - London, Eng. - As the first American Satellite "Explorer" circles the Earth every 113 minutes, operators in the Jordrell Bank Radio Telescope Station pick up its signals. The signals from outer space are being picked up in many countries of the world. This radio telescope was specifically built to receive the space messages.

VISIT IN LUBBOCK

Mr. and Mrs. Virgil Priddy and son, Mickey, visited Sunday in Lubbock in the home of Mr. and Mrs. Jerry Hoover, who were celebrating their 13th wedding anniversary.

SUNDAY IN NEW MEXICO

Mr. and Mrs. J. D. McCampbell and Judy, and Mrs. Satterwhite spent Sunday in Tatum, N. M., where they visited Mrs. Satterwhite's brother, M. R. Bess.

The strongest words are usually for the weakest arguments. When money talks the average man doesn't need a hearing aid.

MRS. DAVIS FILLS IN FOR MRS. THOMPSON

Graham Mothers Entertain School Children With Party Held Friday

By MRS. GLENN DAVIS

The mothers entertained the Graham school children Friday afternoon. Different kinds of cookies, cake squares, candy, gum and cold drinks were served.

Here I am trying to substitute for Mrs. Thompson and it seems the Graham news will be short this week.

Mrs. Dillard Thompson has been in Tulsa since last Friday with her daughter, and family, the Vic Arnolds. A still-born son was born to the Arnolds Monday morning. Mr. Thompson and children, Kenneth, Patsy and Gloria, attended funeral services for the child Monday afternoon.

Mr. and Mrs. Will Wright attended the funeral of Mr. Wright's brother, E. M. Wright, last Thursday in Aspermont.

The Graham community extends sympathy to the Wright and Thompson families.

Mr. and Mrs. Carl Fluitt entertained with a party in their home Saturday night. Refreshments of homemade cookies, candy, and cold drinks were served to Mr. and Mrs. J. C. Howard, Kenneth and Keith, Mr. and Mrs. W. O. Fluitt Jr., and Sherita, Mr. and Mrs. Maurice Fluitt and Mark, Lois Edwards, Ruth Miller, Kenneth, Patsy, and Gloria Thompson, Delwin and Jacky Fluitt.

Visiting in the W. O. Fluitt Sr. home Sunday afternoon were Mr. and Mrs. Marion Matthews, Gail and Phil of Morton, Mrs. Elmo Bush and Rickey, and Mr. and Mrs. Carl Fluitt.

Delmer Cowdrey and Glenn Davis were in Lubbock Tuesday.

Mrs. Blanton Mason and daughter of Levelland spent last week with her parents, Mr. and Mrs. Elgie Stewart.

Mr. and Mrs. Alvin Davis and Glenn Robert of Brownfield spent Sunday afternoon at the home of Mrs. Davis and Elvus.

Jerry Ligon was a Sunday guest of his grandmother, Mrs. Minnie Maxey.

Mr. and Mrs. Bob Glasgow and son of Roswell, N. M., spent the weekend recently in the Elvus Davis home.

Mr. and Mrs. C. R. Baldwin returned home Monday from a visit in Graham, Tex.

Mr. and Mrs. Jess Propst returned Monday from a 12-day visit to points of interest in the south and east. This included the Mardi Gras in New Orleans.

Mr. and Mrs. Delmer Cowdrey visited Sunday afternoon in the Roosevelt community, near Lubbock, with his uncle, Jim Railsback.

A weekend visitor in the Bryan Maxey home was their son, Franklin Maxey, student at ACC in Abilene.

Mrs. W. A. Oden spent Sunday visiting Mr. and Mrs. Emory Stevens.

Mr. and Mrs. Roy Holland of Portales, N. M., visited here Sunday with relatives and friends.

Mrs. Jewel Graham of Post spent Saturday night as a guest of the Bill McMahon family.

Miss Ruth Miller of Post was a Sunday dinner visitor at the J. C. Howard home. Mrs. Jackie Miller visited with them that afternoon.

Light Leads Our People

Each day a new door opens. What it reveals on the other side, for the people who must pass over its threshold, depends upon the conditions under which they lived their yesterdays.

Those in some countries look through the door upon a new day shadowed with oppressions, where there are few freedoms, tyrannies abound and living is hard and cold.

Those of us in America are more fortunate. Opening the door each day, we are met by the light of freedom which has led our destiny for many years. Protecting that freedom

has been — and always will be — a Press that will not succumb to dictation or overpowering despotism.

For the light that leads to all freedoms is Freedom of the Press: Education . . . information of all kinds . . . news of all that transpires . . . and the open discussion of opinions and ideas that sharpens understanding.

Complete freedom of speech and of the press is the light that builds understanding, helping all mankind to advance onward and upward through the opening door of each tomorrow.

OUTDOORS IN TEXAS

By VERN SANFORD

In this busy world where everyone is rushing about in such a hurry you'd think that all our pistol and rifle hulls would come put up in boxes ready to shoot. After all, mama buys her bread already mixed, her chicken pies cooked, frozen and ready for the oven.

Not so with shooters, however. There still are many who prefer to handload their own fodder. In fact there were more than 5,000,000 jacketed projectiles sold for rifles in Texas in 1957. Hard to believe, isn't it?

These are some figures put together by George E. Fairchild, who bothers about such things for the Stith Scope Mount people in San Antonio. His firm alone sold more than a million of these bullets. Of course some of the shooters even cast their own.

The prime reason for reloading seems to be in the economy. Next in accuracy, which really might be first in the long run.

On the basis of economy a box of 20 factory loaded 30-60 hulls sells for \$4.55 retail. This is almost 23 cents each. Of course, if you are a deer hunter and just use one shot a year to get your venison, then that isn't expensive. But if you do a lot of shooting between seasons, at paper targets, on the hill or at silhouettes, then it gets expensive. A break down shows that the actual cost of components of a reloaded 30-60 shell is around 1/4 cents each.

Handloading equipment now has been perfected to assure the utmost safety in reloads. And with these custom loads you can get accuracy that is almost impossible with factory loads.

Hand loading is practical in all but rimfire ammunition. You can reload your old brass for either rifle, pistol or shotgun.

Savage Has New 110 While on the subject of shooting, be sure and take a look at that new Savage 110 when it hits the market in a few days. It's America's new high-power rifle. We've just had a chance to examine one of them thoroughly. It is a light weight, trim appearing gun, with a very impressive stock line. The gun we saw was a 30-60. It also will be chambered for 270 and 243 at a later date.

The Savage 110 with a 4 power Bear Cub scope and Stith Dovetail mounts, weighs only 7 1/2 pounds. It will retail for just a little over \$100. One of the most interesting fea-

tures of the gun is the ease with which it can be stripped. A coin slot in the bolt head makes it possible to take down the entire bolt in a matter of seconds. And most interesting to some 11 per cent of our shooters, is that very shortly it will come out as a left-handed model, too, the first commercial left-handed bolt action gun.

New Runabout Readied Boaters were given a new thrill at the New York National Motor Boat show last month when Evinrude unveiled its "station wagon" outboard, built at a cost of \$18,500. It is a custom-built 21-footer that can be changed from utility-type runabout to a day cruiser, by telescoping the cabin top.

The boat, with rising and falling electrically operated seats, will sleep four. It comes equipped with a radio, built-in refrigerator, two burner galley stove, folding table and three aircraft-type thermos beverage containers. Two 20-gallon fuel tanks also are built in. Evinrude's new four-cylinder 50 hp V motor supplies the power.

Fisherman's Digest A new book for fishermen is coming out in March. It is to be "The Fisherman's Digest, edited by Tom McNally, outdoor editor of the Chicago Tribune. The first edition will contain 256 pages and more than 200 photos. Russell Tinsley, outdoor editor of the Austin American-Statesman, is author of one of the scheduled pieces.

The new book also will give complete instructions for "spoon-plugging" for bass, a new system of catching more and bigger bass. "The Fisherman's Digest" is a companion publication of "Gun Digest", which is issued annually.

Fishing Prospects Bright There is good news in the announcement of the Texas Game & Fish Commission that fish hatchery production is getting under way with an improved program this spring. Last year the state produced and delivered more than 14,000,000 fish. This year, barring the unforeseen, the production will be much greater.

Most of the applications for these fish will come from the owners of farm and ranch tanks, filled by the 1957 rains for the first time. Unfortunately many more fish will be asked for by people who really don't need them. If you have any idea about making application for fish, discuss the need first with your local fisheries biologist. Then take his word for it. Believe it or not, it will be awfully easy this year to overstock an impoundment. That makes fishing worse, not better.

There was a terrific spawn in every lake in Texas in 1957. Those lakes right now are alive with plenty of last year's production that have already reached keeper size. We've caught those bass, now from 10 to 12 inches long. In another month or two they'll really be good fighters. With another good natural spawn this spring, don't worry about the big lakes running out of fish. Just get out there and feed 'em what they like.

Big Firms Consolidate Several months ago True Temper, Montague and Ocean City were combined into the American Tackle Co. Now the company has announced publication of its 1958 catalog, which should be most interesting.

This new 28-page book describes 161 fishing rods, 62 reels and a full line of other tackle. Prices in the book range from a 65 cents lure to a \$225 big game rod.

Latest product is a new Tru-Spin reel, built for fresh or light salt water fishing. It can be operated either right or left handed. It features include crosswind, oscillating spool, built in click, bronze bearings and nylon bushings. It has a 3 1/2 gear ratio and weighs 12 ounces. Should be some reel.

What's Missing At Your House?

Most property owners are insured against fire and extended coverage, such as windstorm, hail, and etc.

With recent theft losses in Post and rural areas, we find most of our assured do not have theft coverage.

Surprising Raiders To Meet Mustangs

LUBBOCK — Texas Tech's Red Raiders play the defending champion Southern Methodist Mustangs in Dallas Saturday.

An overflow crowd is expected at the basketball game, since Texas Tech Student Council has voted the journey to Dallas an "official school trip."

After the SMU game the Red Raiders will have games remaining with Texas A&M in Lubbock Feb. 25, with Texas Christian at Fort Worth Mar. 1, and with Rice in Lubbock Mar. 4.

For the third time this season, Tech set a Southwest Conference attendance record when 18,270 turned out to see the Red Raiders beat University of Arkansas 69-48 here Saturday night. The loss by the conference's leading Razorbacks was the worst they have suffered this season, surpassing the one handed them by the nation's No. 1 team, Kansas State. It was one of the best defensive games in Tech history.

Colorado City Beats 8th Graders, 54-30

The Colorado City 8th grade team made it two in a row over the Post 8th graders here last Thursday night with a 54 to 30 victory. In an earlier game at Colorado City, Coach Lawrence Cook's team lost by a much closer score — 28-22.

The Post team turned in what was probably its most dismal performance of the season in losing its second game in 16 starts. The visitors were out in front 17-12 at the end of the first quarter, 35-21 at halftime and 44-26 at the end of the third quarter.

While no chart was kept on the Post team's field goal shooting, it probably was as cold or colder than its free throw percentage, which was a frigid 17 per cent. The team hit only four out of 24 tries from the charity line.

Bobby Beard's nine points was high for the Post team. Other point scorers were Tommy Boucher, 8; Leslie Acker, 4; Dwayne Capps, 4; Harold Wayne Mason, 3, and Benny Schliehuber, 2.

7th Graders Turn In Good Game, But Lose

Coach Lawrence Cook's improving 7th grade team held Colorado City even for two quarters here last Thursday night before falling six points behind in the third period to wind up on the short end of a 23-17 score.

The visitors were ahead 2-2 at the end of a "cold" first quarter, but the Post youngsters pulled up to a 7-7 halftime deadlock. The third quarter was the big one for the Colorado City team when they scored nine to Post's three. The teams matched points, 7-7, in the final period.

David Nichols, with six points, was Post's high scorer. Others were John Valdez, 5; Buddy Moreland, 5, and Derrell Haley, 1. Also playing for the Post team were Glenn Polk, Billy Shumard, Raymond Gonzales, Felix Bustoz and Ken Rankin, who went out early with an injured ankle.

Lockney Girls Are Defeated By Post

Scoring their seventh conference win against four defeats, the Post Antelope girls team downed the Lockney girls' 45 to 28, here Tuesday night.

A 20-point second quarter turned the trick for the Post team, with the scoring fairly close the rest of the way. The teams were tied, 6-6, at the end of the first period, but the visitors managed only eight points in the second against Post's 20. The scoring was 9-8 in the third period and 10-6 in the fourth in favor of Post.

Doris Eilenburger fouled out with four minutes to go in the second quarter, after having scored seven points. Janet Stephens finished with 12 and Kay Martin with 11. Leta Stone came through with seven, Barbara Gary, six, and Glenda Whittenberg, two.

Janice Boedeker and Carolyn Merrell led the Lockney scoring, each with eight points.

There are two vipers in India, one about 20 inches long and the other about four feet long.

Hale Center Bumps 8th Grade, 27-23

Post's 8th grade boys' team has failed to make the grade in its quest of a third tournament championship.

The Post quintet lost to Hale Center, 27 to 23, Tuesday in a first round game of the Lorenzo Junior High Tournament. They were to play a consolation round game at 3 o'clock this afternoon.

After Hale Center had taken a 5-4 first quarter lead, Post led the rest of the way until the final period when Hale Center rallied for the win. Coach Lawrence Cook's cagers were out in front, 14-10, at the half, and 20-18 at the end of the third quarter.

Bobby Beard was the leading Post scorer with 11 points. Others were: Tommy Boucher, 8; Leslie Acker, 2, and Benny Schliehuber, 2. Also in the line-up were Harold Wayne Mason and Dwayne Capps.

All three of Post's starting guards fouled out of the game. The Swedish Air Force has a new fighter plane "Draken" (The Dragon) which can exceed the speed of sound. It was given a test flight for United States and Canadian newspapers.

8th Grade Girls Win At Lorenzo

Post's 8th grade girls team came through Tuesday with a 31 to 19 victory over Hale Center in a first round game of the Lorenzo Junior High Tournament.

The Post team was scheduled to play Idalou at 9 p. m. Wednesday in a second round contest.

The local sextet, coached by Mrs. Leta Smith, had little trouble with Hale Center. Raynora Young scored 16 points, Linda Taylor, 11, and Ruthell Martin, four for the winners. Others playing were Cora Beck, Judy Morris, Ann Messer, Sheila Morris, Jean McGuire, and Danella Bateman.

His birthright

A SHARE IN AMERICA!

Make it pay off for him even more generously through U. S. Savings Bonds

Nobody has a better birthright than an American child.

Born to this land, he shares its abundance and its privileges.

His opportunities stretch from the Golden Gate to the Statue of Liberty in New York Harbor. And he doesn't need a passport to reach any of them.

All he needs are the things that you, his parents, can give him — care, security, a good education for a richer life.

These are the important things you want to save for. And one of the easiest ways to save for them is by investing in U. S. Savings Bonds through the Payroll Savings Plan.

Through this plan, money is set aside for you before you get a chance to spend it. At your company's pay office, you name the amount you can save each payday and it is put into Savings Bonds for you. Here, in its safest form, it can't be lost, stolen or destroyed because the U. S. Treasury will replace your Bonds without charge if anything happens to them.

And you'll be surprised at how quickly your money in Bonds adds up to big things such as the down payment on a home or tuition for four years of college. Series E Bonds now earn 3 1/4% interest when held to maturity, mature in only 8 years and 11 months.

So isn't the Payroll Savings Plan a good way to make sure of your youngster's share in America? Sign up for the Payroll Savings Plan where you work today.

Part of every American's Savings belongs in U. S. Savings Bonds

The U. S. Government does not pay for this advertising. The Treasury Department thanks for their patriotic donation, the Advertising Council and

POST INSURANCE AGENCY HAROLD LUCAS

Gov. Daniel Designates Feb. 22-March 1 As FFA Week

1958 Expected To Be More Profitable For State's Egg Producers Than '57

COLLEGE STATION — This year, 1958, will likely be more profitable for egg producers than 1957, according to F. Z. Beanblossom, extension poultry marketing specialist.

On Oct. 1, 1957, the number of potential layers was five per cent smaller than a year earlier, he adds. During the first half of 1958, this number will probably continue below a year earlier, but in the last quarter, the size of the laying flock will be increased by the addition of pullets.

It appears that there will be a slight increase in the demand for chicks for egg production in the United States, says the specialist. Flock - replacement chicks produced in December, 1957, were 12 per cent larger than in December, 1956. But Texas hatcheries produced only 838,000 egg-type chicks compared to 1,067,000 for the same month in 1956. However, egg-type chick production in Texas will probably pick up during the next three months.

It seems reasonable to expect that the total number of chickens raised in the United States in 1958 will be from four to six per cent larger than in 1957, but there will be three or four per cent fewer layers on farms. However, increased production per bird will partly offset the decline in layers, and though egg output in the first six or eight months will be slightly below a year earlier, by late 1958, total production will be about equal

or slightly above late 1957 levels. With continued large consumer incomes and about a five per cent reduction in per capita egg supplies, prices to farmers in 1958 are likely to increase, says Beanblossom. The rise will be the most pronounced in the first eight months. Little change is likely the last three or four months.

Remember, the Texas Egg Law became effective Aug. 22, 1957, reminds Beanblossom. All licenses should have been obtained before Oct. 20, 1957, and the enforcement began Feb. 17, 1958.

Praises Work Of Boys, Teachers

Thirty years of outstanding progress by Future Farmers of Texas were acknowledged by Gov. Price Daniel recently as he designated Feb. 22 - March 1 as official FFA Week.

In presenting the proclamation to Billy Penn, State FFA president and George Hurt, state director of Vocational Agriculture, the Governor praised the work of the Future Farmers who are studying the science of agriculture and who are striving to continuously improve the agricultural economy of the State.

The Texas Future Farmers have been extremely successful in developing leadership, promoting good citizenship, and inspiring patriotism among its members, the Governor said.

Billy Penn, State FFA president from Lufkin, received the proclamation in behalf of the 36,099 active members in 904 FFA Chapters in the state.

George Hurt pointed out that the Future Farmer organization is composed of boys who are studying vocational agriculture in the public high schools as preparation for careers in farming, ranching and related occupations. Hurt credited the teachers of vocational agriculture, the school administration, and the lay people where vocational agriculture is taught, for the success of the FFA program in the state.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

Sooner or later, Congress is going to have to face the issues created by the widespread use of trading stamps.

It's a ticklish problem, too. When trading stamps first sprang into prominence in the postwar period, many an independent merchant found they helped stimulate his business, especially in competition with the chains.

But as more and more trading stamp promoters set up shop, more and more merchants have felt forced to take on stamps for self-protection, either absorbing costs out of profits, or adding to prices.

Thus, there has developed a system whereby the advantage anyone had from the use of trading stamps is largely negated by everybody offering stamps.

Due to lack of clarification of many legal aspects of matter, Federal Trade Commission more or less backed out of hassle.

The latest body to take a seemingly confused position on this issue was the Supreme Court of the State of Oklahoma. This state has what is called an Unfair Sales Act which requires a minimum markup of 6% above the cost to the retailer including not only the invoice cost, but also subsidiary items such as freight, taxes, and other items.

Safeway decided to meet stamp giving competition by cutting prices below legal minimum on grounds giving away stamps is form of price cutting.

The big chain lost the case in a lower court, and recently lost an appeal to the Supreme Court.

of the State. At the same time, the court passed on another stamp matter, and upheld a lower court decision prohibiting any merchant from giving away double stamps on certain days.

But the decision of the court seemingly was a most peculiar one stating, "We conclude the weight of the law distinctly shows that the practice of giving away stamps in the usual customary manner does not sustain a charge of price cutting." The opinion further stated that stamps amount to a cash discount rather than a price reduction.

Bearing in mind that the same court also prohibited anybody from giving away a double amount of stamps on certain days, the decision appears most ambiguous. To the average layman, the difference between a "cash discount" and a "price reduction" is like Tweedledee and Tweedledum.

Thus, it would appear that there is needed from Congress a law defining just what the use of trading stamps amounts to in actual practice.

For example, the question is still up in the air as to whether or not trading stamps are a form of currency, which would thus make them illegal.

Probably one of the biggest interests in this issue is held by the American farmer. Obviously, cost of stamps given on many food products either eventually is made up for in form of lower prices to farmers, or in higher prices to consumers, thus cutting down farm product consumption.

There is even some thought, therefore, being given, to make it illegal to give away stamps on any product containing farm products that are being price supported by federal funds collected from taxpayers. This could have a far reaching effect.

Cutting Feed Costs Ups Dairy Profits

COLLEGE STATION — One effective way to increase dairy profits is to cut feed costs, for feed normally represents about one-half the cost of milk production, says J. W. Davis, extension dairy husbandman.

Research has pointed out that the best way to do this is by replacing some of the grain and concentrates usually fed to dairy cattle with more high-quality roughage, he adds.

In feeding tests, it has been found that dairy heifers fed large quantities of good forage reach normal weights at 24 months of age with much less grain than is usually fed. In contrast to the 2,000 to 3,000 pounds of grain commonly consumed before first calving, the heifers grew normally on 560 pounds of grain plus plenty of good forage. The tests also pointed out, however, that it is important to maintain a high legume content in the ration.

The dairy nutritionists experimenting with this means of reducing the costs of raising dairy herd replacements discontinued milk feeding of the heifers at 60 days rather than the usual six months, and discontinued feeding grain at nine months. The nine Holstein and 25 Jersey calves were offered as much forage as they would eat after 10 days of age.

There have also been other studies made showing how savings can be made by substituting high-quality roughage for some of the grains and concentrates in milking herds, says Davis. Such a roughage program can mean more efficient production and therefore a greater profit to dairymen.

NEW OIL DIRECTORY

Sunday School Study Course Is Scheduled At Close City Church

The Rev. Mr. Bryant, pastor of the Baptist Church at Spearman, will conduct a Sunday School study course at the Friendship Baptist Church here beginning Monday night, Feb. 24. There will be classes for every age group, and everyone is invited to come and hear this very able preacher. The Rev. Ed Bates is pastor of the church.

Mr. and Mrs. Jim Barron were called to Roswell, N. M., Saturday to attend funeral services for a brother-in-law.

The Rev. and Mrs. Ed Bates and family visited two days last week with relatives in Lubbock.

Mr. and Mrs. Will Teaff, Tech. Sgt. and Mrs. N. B. Teaff and son visited last week with the O. J. Watson family of Gouldbusk, with the Eldon Roberts family in Abilene and with the Dee Teaff family of Tye. Sgt. Teaff left Monday for Roscoe and boarded a train there for his base in Plattsburg, N. Y. He will leave there by plane for England on March 1.

Mrs. A. O. Rosenbaum spent a few days last week with the Paul Foster family in Snyder. Mrs. Foster was in the hospital.

James Barron, a junior in Wayland College, spent the weekend here with his sisters, Frances and Diana.

Visitors in the Will Teaff home Sunday were Mr. and Mrs. Milton Bayer and family of Lubbock. The young people and intermed-

"ALL I KNOW IS WHAT I READ IN THE PAPERS"

LOW IN PRICE... RUGGED IN CONSTRUCTION VERSATILE IN PERFORMANCE

Wherever there's a call for a rigid, fixed-angle, wheel-type harrow, the John Deere "RW" provides the answer. Here is a disk harrow which, while simple in design, is strong on serviceability—built to take it in the toughest conditions.

Versatility is another built-in quality of the "RW"—you'll find it equally dependable in disking tough stalks, disk-ing heavy stubble, or working in plowed ground.

Let us show you how to fill your disk-ing needs at less cost in investment, labor, and maintenance with an "RW."

Shytles IMPLEMENT CO.

See Us For JOHN DEERE Quality Farm Equipment

America's best-loved humorist also was one of the best-informed persons in his time. Nothing, it seemed, escaped his notice. His comments on the passing scene were applauded and repeated by millions the world over. "All I know is what I read in the papers" became his trade-mark. Will Rogers recognized that newspapers, more than any other media, are the common source of information of all the people. The simple fact that everyone knew immediately what he was talking about provided an important basis for his fabulous popularity.

Changeover To Irrigated Farming Requires Planning

Efficient Systems Part Of Study

COLLEGE STATION — Efficient irrigation systems just don't happen. They are planned, designed, installed, and maintained by an engineer. They are the result of study, planning and engineering.

YANKEE TRADER IN DEAL WITH INDIAN? — New York — George Weiss, (Left) General Manager of the New York Yankees, and Frank Lane, General Manager of the Cleveland Indians are having a little conference of their own as they met for the Major League Meeting at the Hotel Commodore. The Yankees of the old days found it easier to trade with the Indians than at present. It is reported Weiss wants Pitcher Ray Narleski from the Indians. Lane is playing hard to get.

WEST TEXAS C. OF C. REPORTS

68 West Texas Cities Spent Over Million A Day On 1957 Building

ABILENE — Sixty-eight West Texas cities spent more than \$1,000,000 per day during 1957 on construction, a survey by the West Texas Chamber of Commerce reveals.

In addition to the record breaking construction, new highs were set in population and bank deposits, the survey indicates.

The survey, published in the WTCC's monthly magazine West Texas Today, shows that population has almost tripled since 1940 and that bank deposits have practically doubled since 1947.

The 67 cities, a cross section in both size and location of the cities throughout the WTCC's 132-county area, had metropolitan construction through Nov. 1 of 1957 amounting to \$1,183,000.

Information provided the WTCC for the survey was developed by the chamber of commerce in each of the participating cities.

Soil Test Urged On Farmlands

COLLEGE STATION — The subsoil moisture that is now available as a result of the fall and winter rains indicates an exceptional yield potential for the coming year, according to Bill Bennett, extension soil chemist.

With this reserve supply of moisture and increased yield potential would come an increased need for an adequate fertility level, he points out. In drought periods, lack of moisture naturally becomes a limiting factor in crop production. But in periods of sufficient moisture, plant nutrients often become the limiting factor.

So, with chances for sufficient moisture looking good, and since no farmer wants a limiting factor in his crop yields, Bennett advises farmers to apply sufficient fertilizer to supply enough plant nutrients for good growth.

To determine the needs for the coming year, Bennett strongly urges the use of a soil test. The soil test not only will determine the amount of nitrogen, phosphorus, potassium and limestone which will be needed, but it will also determine the proper balance in which the nutrients should be applied. The recommendations based on a soil test are designed to give the yield increase which would result in the most profitable return from money invested in fertilizer.

For more information on how to have a soil test made, Bennett suggests contacting local county agents.

DEDICATION SLATED
SEMINOLE — Formal dedication of the new \$750,000 Gaines County courthouse has been tentatively scheduled for April 12. Waggoner Carr of Lubbock, speaker of the House of Representatives, will be principal speaker.

Construction of new churches during 1957 cost \$11,409,249 and federal and state buildings totaled \$11,795,599. In addition, the cities spent \$33,780,456 on construction of new streets, sewers and other civic improvements.

The WTCC survey shows bank deposits at all time high of \$2,260,380,151, a billion dollars higher than in 1947. Deposits in the 67 cities in 1952 amounted to \$1,865,394,349.

Combined population for the cities through November is estimated at 1,803,497, an increase of more than one million over the 1940 census population figures. The estimated 1957 population is also considerably above the 1950 census figure of 1,183,000.

Former Post Man On C-C Banquet Program

Monta J. Moore, former Post president, will be on the program tonight at the Levelland Chamber of Commerce's annual banquet.

Moore, who was manager of the Double U Company here before the offices were transferred to Levelland a few years ago, is to present the Levelland C. of C.'s award for Hockley County's outstanding farmer of 1957.

RETURN FROM TRIP
Mr. and Mrs. Cecil Cummings have returned from a trip to the Rio Grande Valley and Old Mexico. Accompanying them were her sister and brother-in-law, Mr. and Mrs. W. E. Barksdale of Amarillo. The group visited with relatives in Missouri, Tex., and also made a trip through the Valley to Padre Island. They returned by way of San Antonio to visit Cummings' brother and family, the B. C. Cummings.

WEEKEND VISITORS
Mr. and Mrs. L. W. Evans of Lubbock were weekend visitors in the home of her parents, Mr. and Mrs. Charlie Williams, and other relatives.

MILL CONSUMPTION AT LOW LEVEL

Use Of Cotton In 1957-58 Marketing Year Still Above 10-Year Average

LUBBOCK — Disappearance of cotton in the United States in the 1957-58 marketing year is estimated at about 13.5 million bales, as compared with disappearance a year earlier of about 16.2 million bales, but is still slightly above the average for the marketing years from 1947-48 through 1956-57, George W. Pfeifferberger, executive vice president of the Plains Cotton Growers, Inc. announced this week on receipt of the U. S. Department of Agriculture's "The Cotton Situation," published bi-monthly by the Agricultural Marketing Service.

Domestic mill consumption in the first five months of this season was at the lowest level since 1939. The total for the marketing year probably will be around eight million bales. This would be about 600,000 smaller than consumption during the preceding season and smaller than in any other marketing year since 1948-49, Pfeifferberger pointed out.

Exports of cotton during the current season are expected to be close to 5.5 million bales. Exports from Aug. 1 through November were 1.7 million running bales or about 84 per cent of those during the same period a year ago. However, the rate of exports which prevailed during the first four months of the season is not expected to continue during the entire season.

Sales of cotton by the Commodity Credit Corporation for export during the 1957-58 marketing year were 4.8 million bales as of Jan. 14. This cotton must be exported between Aug. 16, 1957 and July 31, 1958. In addition, cotton which was exported between Aug. 1 and 16, 1957 from CCC sales for export during 1956-57 must be added to CCC sales for export in 1957-58. Although there are no official figures on the amount of cotton so exported, the New York Cotton Exchange estimates that about \$85,000 bales were exported between Aug. 1 and Aug. 15.

Foreign spot market prices for foreign-grown cotton continued slightly above U. S. export prices in December. This situation has prevailed for several months.

CCC held about 4.7 million bales (owned and held as collateral against outstanding loans and excluding stocks sold for export and for unrestricted use) on Jan. 24. This compares with post-world war peak stocks of about 14.2 million bales on Jan. 20, 1956. CCC loans on the 1957 crop through Jan. 24 covered about 2.4 million bales. About 4.1 million bales of the 1956 crop were under loan a year earlier.

The average 14 spot market price for Middling, 1-inch cotton in January averaged 34.83 cents per pound. This compares with 34.89 cents in December and 33.41 cents in January 1957. On Feb. 3 the average price at these markets was 34.69 cents. The high during the preceding season was 34.69 cents on July 1, Pfeifferberger concluded.

Rites Are Held Friday

Services for Allie Stepien Rinker, 61, of the Valley community, who died Saturday in Station Mercy were conducted at 2 p.m. Williams Funeral Home. Interment was in Maplewood Cemetery.

R. A. Etheredge and wives officiated at the funeral. Pallbearers were Elmer Ward, Henry Edwards, Nelson, Richard Lewis and others.

Rinker, who was born Aug. 1, 1913 in his parents' home, moved to Station in 1913 with his parents. He was in the Army in World War I.

He had moved back to the Valley community last year from Sheep Springs.

Survived by his wife; two daughters, Mrs. J. T. Davis of Dallas, Mrs. Dale Cole of Dallas and Mrs. Frank Doul of Lubbock, Calif.; two granddaughters.

Funeral will run 125 miles from Bolivia, to the Chillicothe, Mo.
