LYNN DUNCAN

Duncan installed Lions president

L. W. (Lynn) Duncan, vice president and cashier at the First National Bank, was installed as president of the Post Lions Club at a ladies' night meeting Tuesday.

Dr. P. D. O'Brien, pastor of the First Baptist Church of Big Spring, was principal speaker for the program preceding the installation ceremony.

County Judge Pat N. Walker, a member of the club, was the installing officer.

As president, Duncan succeeds Al Norris. The new president has been a member of the club since moving to Post about three years ago, and is outgoing treasurer of the organization.

Other officers installed by Walker were: Wilf Scarborough, first vice president; Weaver Moreman, secretary; Homer McCrary, Lion Tamer; Lewis C. Herron Jr., tail-twister, and Jackie Alexander, Robert Meisch and M. S. Nichols, directors.

Bobby Cowdrey and Nathan Little, incoming second and third vice president, respectively, were (LIONS CLUB—See Page 8)

Weather hinders cotton comeback

Very little replanting

The major portion of the insurance adjusting for last week's destructive hail storm is scheduled for the first three days of next week with adjustors due here Monday after the holiday weekend.

Best guess yesterday was that only 500 to 1,000 acres of the destroyed cotton has been replanted since the slashing storm June 23 which caused an estimated \$250,000 cotton crop loss and destroyed or heavily damaged an estimated third of Garza County's 37,000 acres of young cotton.

The hailstorm has been declared "a catastrophe storm" by the National Bureau of Hail Underwriters, Bryan J. Williams, local insurance man said today. This means, Williams said, that there is a possibility of a survey of the stricken area by the Department of Agriculture, Extension Service and other agencies.

COUNTY AGENT LEWIS C. HERRON says that the brand of weather which followed the county's worst hail storm in 35 years was "just about the worst possible" for recovery of the young cotton damaged by the hail.

High winds which followed the next day after the hail storm filled the air with sand which "burned the little cotton leaves."

It took cotton farmers a day or more to stop the sand.

Then came the early Sunday morning thunderstorm which brought an official .62 of an inch

of moisture and more high wind, but no hail. Moisture measurements ranged up to an inch and an inch and a half in some parts of the county.

THE SUNDAY storm was followed by more high winds and blowing sand Monday.

Herron pointed out that due to the lateness of the season, farmers didn't attempt a whole lot of replanting. The replanted cotton had to be "scratched" after the Sunday rain.

It still remains too early to tell

how much recovery the hail-damaged cotton will make.

Herron, after a Monday afternoon tour of the damaged area with Powell Shytles, reported some of it also is looking worse. He said some was "responding to a slight degree."

Grain sorghams are still being planted in the county following the hail storm.

A LOT OF the feed crop in some areas was washed out or covered by the heavy pelting rain (COTTON CROP—See Page 8)

16 merchants offer bargains

Dollar Day deals beckon customers

The Fourth of July holiday weekend won't be so quiet in Post—no bargain hunters anyway.

Although almost all local stores will close Friday for the traditional Fourth of July holiday, some 16 local merchants are joining this weekend in a big three days of July Dollar Day bargains.

The opening of the Dollar Day weekend has been moved up to Thursday because of the holiday closings Friday. Thus the Dollar Day specials will be offered Thursday, Saturday, and Monday.

Some dozen new merchants have joined the monthly Dollar

Green and family in move to Plainview

Mr. and Mrs. R. K. Green and children have moved to Plainview, near where he owns a farm.

Green's contract expired June 30 after three years as superintendent of the Post schools.

He told The Dispatch last week that his plans for the future are indefinite at this time.

Day promotion and you will find their bargains grouped in a big page advertisement on page 3 of today's Dispatch.

Other firms participating in the Dollar Day promotion with separate ads are Herring's on page 5, Hundley's on page 9, Wackers on page 10, and Dunlap's on page 11.

With the arrival of mid-summer clearance sales, bargain hunters will find an unusual display of real bargain values among the 16 firms participating in the Dollar (DOLLAR DAY—See Page 8)

Air service is instituted here

Kuykendall Air Charter Service to anywhere in the United States has been instituted here by Spencer A. Kuykendall, commercial pilot.

Kuykendall, who now lives in Plainview but who will move back to Post in the near future, will operate the service from Plainview for the time being. He is negotiating to sell his home there and plans to build one here in the West Gate Addition.

Kuykendall has available for air transportation to any point a three-passenger Beechcraft Bonanza. He asks those wishing to book passage to call him collect at Capital 33748 in Plainview.

START OF CHURCH BUILDING

No complaints at tax board meet

The board of equalization for the Post Independent School District met Monday to hear any protests of valuations from oil firms, local industry, and public utilities, but not a single complaint was presented to the board.

That didn't mean that representatives of the oil, utility and other firms weren't on hand. They went over their valuations with representatives of Pritchard and Abbott, tax engineering firm, and reached agreement on them without carrying any protests to the board of equalization.

Both the school district and city boards are expected to have many more visitors next week, however, when they will sit to hear protests from property owners on their new valuations.

The city board will meet on Monday and Tuesday and the school district equalization board next Wednesday, Thursday, and Friday.

Ground is broken for church school

The ground breaking ceremony for the First Methodist Church's new church school building was held Sunday, with construction getting under way Monday.

Ted Parks of Snyder was awarded the building contract on a bid of \$71,337.

Condition described as 'still critical'

The condition of Rupert Savell, who was taken to Veterans' Hospital at Big Spring Monday after suddenly becoming ill, was described as "still critical" Tuesday.

Savell, who is 46, has lived here since May 25 and was employed as a day nurse to Dee Boren.

Savell was under an oxygen tent Monday night, but his condition had improved enough by Tuesday morning that he was removed from it.

The two-story brick building is to be constructed at the rear of the present church building, extending north to the alley and then west.

The Rev. Eugene Matthews, pastor, said the building is scheduled to be completed within 105 days from the starting date.

Members of the church's building committee are Mrs. Pat N. Walker, Mrs. Edsel Cross, John F. Lott, Noah Stone and Bob Collier.

The first spadeful of dirt at the building site was turned by Mrs. T. R. Greenfield, widow of the late T. R. Greenfield who was a member of the building committee.

Rotarians install Dr. B. E. Young

Dr. B. E. Young, president of the Post Rotary club back in the war years of 1942-43, took over the gavel as the club's new president at the Tuesday luncheon, succeeding Glenn Whittenberg.

No formal installation of the new officers was held.

Dr. Young, who was the club's delegate last month to the Rotary International convention at Dallas, reported on the convention.

The new club president announced the following committee chairman for the new club year:

Club service activities, Tom Power; attendance, Marvin Hudson; club bulletin, Lee Ward; classifications, Dean Robinson; fellowship, Powell Shytles; magazine, Ira Lee Duckworth; membership, Lowell Short; program, J. B. Potts; public information, Jim Cornish; Rotary information, Chant Lee; sergeant-at-arms, Harold Voss.

Five indictments are brought by grand jury

Five indictments—two for burglary, one for assault with intent to murder, one for disposal of mortgaged property and one for conversion by bailiee over value of \$50—were returned by a 106th District Court grand jury at 5:15 p.m. Monday.

Ends of four fingers lost in power mower

Joe Vasquez, 46, couldn't have been in a much better place last Thursday morning when the ends of the four fingers on his left hand were cut off in a power mower.

Vasquez was mowing grass at Garza Memorial Hospital when the accident occurred. After receiving emergency treatment at the hospital, he was taken to Lubbock for treatment by a bone surgeon, then returned here.

Vasquez was still in the hospital this week

The grand jury convened at about 11:30 a. m. after members of the sheriff's department had to go all out to fill the jury panel.

District Judge Louis B. Reed excused several of the original jury panel for farm work. They were farmers whose crops were haled out in the June 23 hailstorm and who were having to fight blowing sand to continue crop work Monday. A number of others were excused because of illness and other valid reasons.

"We had to pull all the stops to find enough jurors to serve," said Sheriff Carl Rains.

Buren Curb was indicted for burglary in connection with a break-in at Wilson Bros. Service (GRAND JURY—See Page 8)

More than million gain over last year

Bank deposits on upgrade

Deposits at the First National Bank at the close of business June 23 totaled \$5,409,536.87, which represents a substantial increase over deposits at the same time last year.

The above figure was disclosed in the regular quarterly call by the Comptroller of Currency. Last year's June call, which came on the 6th of the month, found deposits here totaling \$4,669,929.62, giving this year's deposits at call time a gain of \$739,618.25 over

last year's.

However, on June 6 of this year, deposits amounted to \$5,485,550, which was an increase of \$815,630.38 over deposits on June 6, 1957.

Current loans at the bank total \$2,185,064 as compared with \$1,746,306.11 on June 6 of last year.

Bank President Irbj G. Metcalf Jr. attributes the increase in loans to the fact that the bank has made a number of loans to dry-land farmers who had paid off

their Farmers Home Administration loans.

In commenting on current deposits, Metcalf said deposits here could be expected to decline between now and crop harvest time, "just as they do in any farming community bank."

Total assets at the bank are up considerably more than one million dollars over last year.

"That is a gratifying increase and a healthy reflection of our area's economy", Metcalf said.

The truth about city and school taxes

Some folks, knowing that the tax valuation firm of Pritchard and Abbott arrived at the same valuation figures for the City of Post and the Post School District, are wondering why their tax statement from the two bodies vary so much. The answer is simple. The city and the school district were given the same valuations by the tax engineers, but there the sameness ends. The city is entering 35 per cent of 100 per cent value on its tax rolls, while the school district is entering 40 per cent of 100 per cent value. And the difference doesn't end there. The city's tax rate is \$1.50 per \$100 valuation, the same as last year, and the school district's tax rate is \$1.30 per \$100 valuation, a decrease of 16 cents from last year's tax rate of \$1.46.

The City of Post has found it necessary to keep its tax rate at the same level on an increased valuation in order to meet an increase of at least \$9,000 in its budget. The \$9,000 hike includes minimums of \$4,000 for patching paved streets to save them from destruction, \$2,500 for the city's share of the joint city-county park board operation, and \$3,000 for a depreciation reserve for the fire department.

There is also an increase of more than \$20,000 in the school district's budget, the biggest boost coming in teacher salary raises amounting to approximately \$16,000. And the school, the same as

the city, is faced with increased costs of operating, which are going up the same as increased costs of living.

Those wondering about discrepancies between their city and school tax statements or not satisfied with either, can have the procedures by which their tax levy was arrived at cleared up by seeing representatives of Pritchard & Abbott during the equalization board meetings. Whether or not they'll be satisfied even after the tax engineers have explained it is something else, but the tax firm representatives will be here for that purpose while the equalization boards are in session. They have set up a card file for each taxpayer, and part of the job they agreed to do when contracting with the city and the school district for the property revaluation was to explain the procedure to the taxpayers.

Then, after seeing the tax firm representatives, the taxpayer has the right, if not satisfied, to register a complaint with the tax equalization board. After all, that is what it is in session for.

There is some inequity, of course, in the tax levies imposed on each taxpayer by the city and the school district, but this inequity comes from the difference in the two tax bodies' percentage of value and tax rate—not in the valuation as arrived at by Pritchard & Abbott. It was the same for both the city and that part of the Post school district included in the city.—CD

Need still great for living quarters

New families fortunate enough to find houses, trailer space or other living quarters are moving to Post every week. New faces are seen daily in the city's business places, and it all adds up to the fact that Post is growing. Its growth would be even greater if there were enough places to live for everyone wanting to move here.

Instance after instance of oil field or seismograph crew workers bringing their families here to stay a few days in motels while permanent living quarters are sought are heard on every hand. In many—too many—cases these workers have to take their families back where they came from because rent houses are not available.

The influx of oil workers, including seismographic crewmen, is a good barometer of the town's general progress and a strong argument against recession talk. If Post were able to accommodate all the families who want to move here, we'd be much better off from every standpoint. Steady growth never hurt any town, just

as increased purchasing power never damaged any town's business establishments.

Post is fortunate in having the kind of merchants and other business men who go out of their way to make a newcomer feel welcome. That is not the case in every town. A stranger in town becomes much more of an asset to the community when he has the feeling that he is being welcomed.

The fact that there has been no tapering off in the search for furnished and unfurnished apartments, furnished and unfurnished houses, and trailer space is a good sign. The only bad sign is the fact that these living quarters are becoming harder and harder to find as the few that are available fill up.

Such a situation cannot, of course, be eased overnight. It's the sort of a problem from which we can learn by being confronted with—providing we make an effort to do something about it.—CD

You can get a 'life's wonderful' button

At one time or another most of us here in Post and Garza County have agreed that "life's wonderful." Sometimes we've talked about it being that way, and have been ready to prove it. Other times we've taken the opposite view, seemingly with plenty of proof that we were right.

The truth is, of course, that life is wonderful—not just sometimes—and man is privileged to be able to even help in its creation.

We were reminded recently that "life's wonderful" by, of all sources, a trucking company. This firm, Spector-Mid-States, a motor freight carrier in the Middlewest and East, wanted to buck up the morale of any of its 3,000 employees who were worried by recession talk. Some of the salesmen hit on the idea that since the company's business was good, and they personally thought life was wonderful, why not say so to the employees. So they started a "Life's Wonderful" club.

The club has no dues, no meetings, no officers. Members have one obligation: to make no less than two optimistic observations daily concerning things and people. Each member "signed up" is given a big yellow and white "Life's Wonderful" and so is business" button, a membership

card, and a Credo certificate for the signing of other members.

Employee response was immediate and unanimous. They have "signed up" so many friends that the trucking company is being deluged with requests for buttons. As a result, the company decided since the idea was that good, it should be opened to the public as a national program to combat economic gloom.

Now, "Life's Wonderful" clubs are springing up everywhere. The company has no idea how many have joined—the figure of 250,000 seems modest from the requests pouring in for membership buttons. Demand is so great that the firm has been forced to charge for large orders the cost of making the materials, but it still fills individual or small orders. You can join by just writing to Spector—"Life's Wonderful," 3100 S. Wolcott Ave., Chicago 8.

All this seems to prove once more not only that life's wonderful, but that most people really believe it is when it's called to their attention. "Life's Wonderful" may not pull us out of our economic plight, but it certainly is a step in the right direction. Let's write to the above address and get some of those buttons circulating in Post and Garza County.—CD

Any ideas for a July 4th celebration?

At Stamford, Clarendon and a number of other places—some near, others far away—they are in the midst of final plans for Fourth of July celebrations, which is something Post hasn't had for a good many years.

We've sometimes wondered why Post can't move one of its two rodeos up to the Fourth, so there'd be something doing here on Independence Day. Come to think of it, though, the reason they don't no doubt is because long-established rodeos

such as the Texas Cowboy Reunion at Stamford already have the date filled. So that takes care of that.

But you hear so many people wanting to know why Post doesn't have some sort of a celebration for July the Fourth, that it just keeps you wondering the year-round. It seems too good a holiday to pass up without anything at all going on. Any suggestions, anybody?—CD

What our contemporaries are saying

This weekend you may hop into the car to take the family for an early spin in the country, or get out into the garden while your wife does spring cleaning, or get the screens in shape. While you're doing that, 200,000 individuals will have been added to the population of the world. For the current rate of increase—births over deaths—is somewhat more than 100,000 a day. . . . It's far past the time when we should be thinking soberly and continuously — and demanding that our statesmen do the same — about the problems that growth brings in its train.—Leesburg, Fla., Daily Commercial.

Drugstores across the country which have served their communities long enough to fill a million prescriptions are receiving some deserved recognition. They are being given plaques attesting this by Lederle Laboratories. One went the other day to a Savannah, Ga., pharmacy which filled prescriptions for Gen. Robert E. Lee and which has preserved one of them as a cherished

relic of the Confederate hero.—McComb, Ohio, Hancock County Herald.

Anger is a wind which blows out the lamp of intelligence.—Ellicottville, N. Y., Post.

Every so often some self-appointed censor conceives the idea of cleaning up the newsstands. Invariably our rely is a stock one. The reading matter to which they take exception is legally distributed and legally licensed for resale, and under these conditions any adverse action on our part would be interference with free enterprise. Our suggestion would be that the censors inaugurate an educational campaign toward the reading of good literature rather than a clean-up campaign directed at resale.—Sylacauga, Ala., News.

Which way will our nation go in the next few years? Will we salvage our system of free enterprise, of freedom of action, or will we drift more swiftly toward the central state than in the recent past?—Lambertville, N. J., Beacon.

THURSDAY to THURSDAY . . .

By CHARLES DIDWAY

FRIDAY IS THE Fourth of July. Events which made America independent may be uppermost in our minds—but other events of interest and importance to our country also happened on this celebrated day. For example:

July 14, 1884, the world's most famous lady—the Statue of Liberty—was presented to the United States ambassador in Paris by its sculptor, Auguste Bartholdi. The statue was dedicated in America two years later.

The United States Military Academy at West Point, N. Y., was officially opened July 4, 1802. It had an initial enrollment of 10 cadets.

The Erie Canal, longest in the world, was started July 4, 1817, and completed eight years later.

Samuel de Champlain, famed French explorer, discovered the vast lake named after him, July 4, 1830. The lake lies between Vermont and New York.

The first issue of the first penny newspaper, the Boston Daily Transcript, appeared July 4, 1830.

Construction of the great Washington Monument in the nation's capital was begun July 4, 1848, making this year its hundred and tenth anniversary.

The Fourth is also the birthday of such great Americans as Nathaniel Hawthorne, Stephen Foster, and Calvin Coolidge.

Post people with birthdays on the Fourth include Mrs. Wallace Simpson and Kathy Jones. The birthday of Mrs. V. A. Lobban Jr., the former Miss Delores Dye, of Midland is also on the Fourth.

THE FIRST PRIMARY election is only three weeks away, but you wouldn't think it was that near at hand . . . there just ain't much interest being shown.

We're probably passing up the opportunity of a lifetime, but we just haven't gotten around to doing anything about the offer of Thomas V. Pearson of Show Low, Ariz., to sell us a membership in the Space and Telescope Club.

Mr. Pearson writes that if we join now at the \$2 membership fee we will receive free a deed covering 10 acres in the King Solomon Mines Subdivision on the moon, including all values in minerals, metals, and precious stones found thereon.

Mr. Pearson states that original filing on the moon was recorded by him in 1957 and that lands for the King Solomon Mines Subdivision were recorded June 10, 1958, all in Navajo County, Arizona.

Mr. Pearson is trying to get the following message through our thick skull: "Conquest of Space and the Moon is now a going project, with billions of dollars, the industries, the Scientists, and our Government, teamed up for the job. And our President, in releasing a recent report on Outer Space, stated his wish 'That all Americans could share, through understanding, in the adventures which lie ahead.' Maybe this ground floor deed venture could be your best chance to share in Moon values as they are determined and brought to practical use."

MAYBE SO, Mr. Pearson, but

State Capital NEWS by Vern Sanford

AUSTIN — Texas has a fairly new addition to its long and much-vaunted list of "firsts" and "mosts." But this one's no fun to brag about.

Texas has the greatest number of designated potential enemy bomb targets of any state in the union, says State Defense Coordinator William L. McGill.

This, added to Texas' longstanding record of leading the nation in natural disasters, puts a heavy responsibility for defense preparedness on Texans, McGill told the annual State Defense Advisory Council conference in Austin.

Officially designated "aiming areas", as they are called, are Fort Worth, Dallas, Houston, Austin, San Antonio, Galveston, Beaumont, Port Arthur, Amarillo, Corpus Christi, El Paso, Laredo, Lubbock, San Angelo, Waco and Wichita Falls.

Others considered possible targets because of nearby military installations are Abilene, Beeville, Big Spring, Brownsville, Bryan, Dalhart, Del Rio, Killeen, Marfa, Pecos, Pyote, Sherman, Victoria and Wink.

Texas has received a \$320,000 federal grant, conferees were told, to draw up a state Survival Plan. Several larger city plans are complete, and the state plan, a massive and complex thing affecting the lives of millions, is due to be finished by Dec. 1.

Rural residents cannot feel themselves invulnerable, the Council was told. In case of a large-scale bombing, it is felt likely that radioactive fallout would cover most of our terrain, contaminating crops, cattle, pasture and ponds.

Under the present national civil defense plan, considerable responsibility for advance training and preparation rests with the individual family. Each would be responsible for feeding itself for the first two weeks of a post-disaster period. After that, state and local government would take over for two weeks, and after that, if necessary the federal government would step in.

Persons or organizations wanting to obtain official civil defense information and study materials may write the State Defense and Disaster Relief Office, Capitol Station, Austin.

IN A RARE reversal of one of its own rulings, the Texas Supreme Court has held it is not unlawful for optometrists to advertise the prices of their eyeglasses.

Last spring the court upheld a temporary injunction issued by a Beaumont court prohibiting Lee Optical Co. and others from advertising prices. Suit was brought by a competitor, Texas State Optical.

At issue was how to interpret a law passed by the Legislature in 1957 barring optometrists from advertising that is "fraudulent, deceitful, misleading — including statements of bait, discount, premiums, price, gifts."

Effect of this is to knock out the injunction against Lee Optical.

ATTY. GEN. WILL WILSON is being asked to give an official ruling on a highly controversial question.

It is whether Texas, under present law, can accept additional federal funds to extend the period of unemployment payments. Texas Employment Commission and Gov. Price Daniel are asking for the opinion.

Pros and cons already have been the subject of heated discussion. A recently passed federal law would allocate to the state, funds to provide an additional 12 weeks of \$14-a-week payments to persons who had already come to the end of their 24-week benefit period.

An estimated 60,000 Texans are in this category.

But, to receive this money, the state must repay the funds to the federal government. If it doesn't get the money by some other means, such as the normal accumulation during high employment periods, it would be pledged to raise the tax on employers after Jan. 1, 1963.

Some argue that this would violate the constitutional prohibition against pledging the state's credit. Others say here is no obstacle since the state merely serves as a collecting and disbursing agent for the federal government, with no state money involved.

Spokesmen for organized labor have strongly urged that Texas enter into an agreement to receive the extra money.

STATE AUDITOR C. H. Cavness, watchdog of departmental spending practices, has questioned use of railroad and bus passes by Railroad Commission employees.

Commission Chairman Olin Culbertson declared the passes were used only for official business. Use of passes for state business is specifically authorized by law for certain Commission employees.

Cavness noted that 30 employees had passes and that some apparently had not traveled on state business during the past year. He said he felt it violated the new

OUTDOORS IN TEXAS

By VERN SANFORD

Right now bass fishermen are winding up the top-water season.

This is the type of fishing we dream of. Unfortunately, however, too few of us get out often enough to enjoy it to the fullest.

There is a lot of luck to bass fishing. A lot of science too! The secret of success is in using the right plug in the right place.

True, there are times when an old bass will hit on anything. But, there are other times when it seems he will hit on nothing.

While many fish are caught for some reason or another, the man who comes in with a good stringer of big fish usually does it because he knew what he was doing.

A good example of that occurred recently when a group of fishing tackle salesmen beat the brush in Lake Whitney. They came up with more live pond bass in one afternoon than any of the old timers who were there ever remembered seeing in any one day.

NATURALLY these salesmen were experts in casting. However, they also knew how to study the lay of the land. It couldn't be said that any one plug was better than another, because each rep was using his own particular brand, and all paid off.

Both are wonders in the use of rod and reel. So were all the other reps. But the big payoff came for this team because they picked out some places that were natural for bass.

They not only worked the points and the pockets. They worked water where it was evident that a fault line lay beneath. For instance, if a rock ledge protrudes into the water, study its range.

If there is a known drop-off beneath the surface, fish parallel to this reef, not across it. In that way you'll attract the big bass on the deep side, as well as the yearlings that might be playing near the surface.

If there is a little drainage cut entering the lake, where water from the countryside flows in to make a sandbar, that usually is a good place, too. Food particles enter the lakes at such places. Small fish feed on this plankton. Big fish feed on the little ones.

Some people fish with top water lures almost all the time. They get fish. It is known that a bass will dash 20 feet to take a lure if he wants it.

Top-water fishing follows the same general pattern, even though a good top-water fisherman works according to his own experience.

FOR THE BEGINNER, top water fishing is much easier. He can watch his plug work. He is less likely to get hung and lose a plug. And he can have plenty of fun when a bass hits.

Working along the shore line the man in the back of the boat takes the close-in water; the man in the front of the boat reaches out. The front man, however, always should be careful not to disturb all the waters which will affect the fishing of the man in the back of the boat.

Pick your spots. Lay your plug in where there is likely to be a bass. Twitch it jerk it or chug it, according to the make of lure you are using. Wind in a couple of times, and then do it again.

Sometimes when you are fishing in brush waters, or in moss pocket, it pays to leave your plug where it falls, for 30 seconds or more. Give it a slight twitch occasionally. Save bass finally get curious.

In brush fishing, you'll hang your plug many times. But you'll also get bass. The fellow who never hangs a plug doesn't usually get the most bass.

You can go on and on about the methods of top water fishing. It is good on quiet, still water, in the early morning or late evening. It is a wonderful way to catch bass around lily pads, moss beds, rocky shorelines, in the brush, or among the tree stumps.

LONG THE favorite system of thousands has been cane pole fishing. It may be the lazy way to catch fish, but it also contributes a great deal to the enjoyment of many thousands of fishermen.

Go anywhere you'll find pole fishermen. Usually they are wearing flop hats or blue bon-

nets. But, it also is pretty certain that there'll be a stringer of mixed fish hanging in the water nearby.

Now comes South Bend with a new rod for jig and pan fishing. It is called the Lazy Day. It is a 10-foot telescoping glass rod, with a wooden handle. Some of these rods are equipped with line keepers so that the lines can be wound on the keepers when the rod is closed.

The combination costs more than a cane pole (\$7.95 to \$11.95), but it also has many worthwhile features to recommend it. For instance a 10-foot rod closes to approximately half its length, and can be carried in the back of an automobile without any trouble.

There's a big day coming for these extension type rods.

HERE'S A PIECE of advice that might save you a lot of money before the summer is over. Check your trailers. Most of us run our trailers trip after trip without paying too much attention to them. Then when something happens we are, invariably, a long, long way from home.

Trailer manufacturers make the best piece of equipment they know how. If we take good care of them, they will give us many miles of trouble-free use.

GOING MY WAY? — Paris —

To help out a lovely lass like Sylvie Solar, drivers going the other way would probably turn around to make sure they were going her way. Sylvie was practicing for her role as "Miss Auto Stop, 1958," in Paris, when the driver of this old car got the picture, though not quite in the picture.

Firemen answer two calls Tuesday night

Post volunteer firemen answered two calls Tuesday night, one to a grass fire, the other a false alarm.

The grass fire was at the rear of the office of Dr. B. E. Young, dentist, at 225 West Main.

The false alarm sent the firemen to the "flats" section late Tuesday night.

Church women begin work on bazaar for November

The women of the First Methodist Church began their part in contributing to the building fund for their church Wednesday at their first all-day get-together at the church grounds, where they began a series of projects for a fall bazaar.

The different tables for working consisted of the idea table, the glue and glitter table, the candle making table, the dresden making table, and the sewing table.

Items made during the next few months will be used for a bazaar, which will be held Nov. 15, with proceeds going into the fund for the new church school. The bazaar will contain all sorts of gifts for Christmas giving. It has been named "Bazaar of the Three Elves."

The women will meet each Wednesday morning at 10 o'clock. Those present Wednesday enjoyed a covered dish salad and sandwich luncheon.

Maritta Pennell, Weldon Reed engagement is told by parents

The engagement and approaching marriage of Miss Maritta Pennell to Weldon Reed is announced by her parents, Mr. and Mrs. O. F. Pennell, Route 1. Reed is the son of Mr. and Mrs. Lee Reed of Justiceburg.

The couple will be married Aug. 1 at the bride's home. Miss Pennell and her fiance attended Post schools and he is now engaged in farming near Justiceburg.

Favorite recipe is listed for pickles

Along with the other food preservation projects that many homemakers will be undertaking in the near future is pickling. Pickling may involve the use of cucumbers, beets, green beans, carrots, or okra, as well as such fruits as peaches and pears. You will probably want to include some relishes such as picallilli, chili sauce, chutney, and chow chow in your food plans.

Before you start collecting your ingredients and filling the empty jars, plan how much of each kind of pickles and relishes your family will eat during the next year. There isn't any use in putting up food that your family will not use. You may want to add a few extra jars of your favorite pickle or relish for gifts.

You may have some tried and true recipes that you have used for years, or that have been handed down through the family, or you may be looking for some new recipes that will give the type product you desire. We have a bulletin here in the office, "Pickles and Relishes," that has excellent recipes for many pickles and relishes. If you would like one of these bulletins just write, call or drop by the office for your free copy.

Some of the best sweet pickles I have ever eaten are the ones Mrs. B. E. Young made. She gave me her recipe that I am passing on to you.

Sweet Pickle Chips
2 cups sugar
2 qts. vinegar
1 tablespoon salt
7 lbs. cucumbers
½ box pickling spice

Cut cucumbers into uniform slices. Soak for 24 hours in a solution of two cups lime (air slaked) to 1 gallon water and rinse through several cold waters to remove all lime sediment. Soak in clear water 2 hours.

Mix sugar, vinegar, salt and pickling spice. Add cucumbers and simmer for 1½ hours. Put into clean, sterile jars and seal while hot. Store in cool dry place.

VISITING IN COLORADO

Mr. and Mrs. Gordon Hamilton and Billy are vacationing in Colorado Springs, Colo., this week. They are also visiting Miss Faye Ruth Hamilton, who is employed at the Broadmor Hotel there.

ACUTE PORT CONGESTION AT COLONBO

Acute port congestion at Colombo has threatened to disrupt the Ceylonese economy.

Club has picnic Saturday night

Members of the Matroni Micere Club and their husbands enjoyed a picnic and evening of entertainment Saturday night at the Mackenzie State Park in Lubbock.

Following a picnic supper consisting of fried chicken, potato salad, beans, tomatoes and onions, and cold drinks, the group went to the amusement park and spent some time riding the different rides. To conclude the evening, those attending played miniature golf at the Twin Lakes course.

Attending were: Mr. and Mrs. Gene Hays, Mr. and Mrs. Shorty Hester, Mr. and Mrs. Bob Pace, Mr. and Mrs. Bill Hall, Mr. and Mrs. Mell Moon, Mr. and Mrs. Neal Clary, and Mr. and Mrs. Royce Josey.

RECENT VISITORS

Garza ranks second in savings bonds standing

Garza County ranks second among the eight counties of District 4 in the percentage of savings bonds purchased toward its 1958 quota.

During the first five months of this year, Garza countians have purchased \$57,751 in Series E and H United States Savings Bonds, which is 45.5 per cent of its 1958 quota of \$125,800.

In percentage of purchases, Garza County is surpassed only by Lynn County, which through May had attained 50.2 per cent of its quota for the year.

Other counties in District 4 of the Amarillo area are Cochran, Crosby, Hockley, Lubbock, Terry and Yoakum.

During May, savings bond purchases in Garza County amounted to \$18,706.

Statewide, Texans increased their purchases of savings bonds 4.3 per cent during the first five months. Nationally the sales have increased 8 per cent during this period.

Texas sales for the first five months of the year were \$75,816,519, which represented 43.3 per cent of the 1958 goal of \$175,000,000.

The Movie Marquee

July Fourth fare at the Tower Theatre will be "Thunder Road," starring Robert Mitchum and co-starring Gene Barry and Jacques Aubuchon. It will also be seen on the Tower screen Saturday.

The heroes and villains of "Thunder Road," an United Artists release, are the moonshiners of the southeastern mountain area, descendants of Elizabethan Englishmen, believers in the right of every man to make his own whisky, sworn enemies of the Treasury Department revenue men.

A bang-up suspense melodrama dealing with the modern aspects of the billion-dollar whisky war between moonshiners and revenuers, "Thunder Road" was filmed on location in the environs of Asheville, N. C.

"Darby's Rangers," the first story of the American Commandos, shows at the Tower on Sunday, Monday and Tuesday. It is the personal story that finds the soft spot in America's toughest fighting hearts.

James Garner appears in "Darby's Rangers" in his first starring big-screen role. The film also introduces Etchika Choureaux, described as fresh, Frenchy and fabulous, and includes Jack Warren, Edward Byrnes, Venetia Stevenson, and many others.

The Broadway scene from the inside — the curious jungle world of the Big Street's columnists, press agents and entertainers — forms the background of "Sweet Smell of Success," showing next Wednesday and Thursday at the Tower.

Burt Lancaster as a power-mad columnist and Tony Curtis as a corrupt press-agent are starred in "Sweet Smell of Success," and Susan Harrison is introduced. Also heading the cast are Marty Milner, Sam Levene, Barbara Nichols, Jeff Donnell, Lurene Tuttle, Edith Atwater, Joe Frisco, Emilie Meyer, Jay Adler, Queenie Smith and Philip Van Zandt.

this is no Steeple!

The Army calls it "Nike," an anti-aircraft weapon that is vital to our defense.

And you and I bought it! Yes—gladly!

Every week a part of our earnings is withheld for our nation's needs. In addition, many of us buy a bond a month to invest in America's strength. We want forever to be free. That's why we bought "Nike."

But a land born of the Pilgrim's devotion needs more than rockets to defend its soul. America needs steeples—steeples strong and sure in their upward aim! It needs steeples that call men and women to the quest for God's peace . . . that lead boys and girls in the search for God's way.

And as many as are conscious of this deep, spiritual need find joy in GIVING to our churches . . . regularly . . . generously.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Bible Thoughts

SIN - AN ABNORMALITY

By RONNIE PARKER

Many people look on godliness as a kind of abnormality. The one who lives close to God is an "odd duck." He was true in the days of Jesus. They said the Master "beside Himself" (Mark 3:21). They said the apostle Paul was "mad" (Acts 26:24).

Sin is the actual abnormality. So long as a person is alien from God, he is an alien from his real self. Sin is an attempt to live against the laws of God, and against his own being. Therefore, it cannot be done without suffering, frustration, and fear. "The way of the transgressor is hard" (Proverbs 13:1). Sin is not natural, else when we commit it we would feel inwardly fulfilled. We would be at home with ourselves, full of peace. This is not the case. Sin is like sand in the eye.

"Oh, that a man may arise in me,
 That the man I am may cease to be."

Postal rates will take rise Aug. 1

Costs of doing business with United States post offices are going up.

The most important rate increases will be effective Aug. 1. Postmaster Harold Voss said today.

Out-of-town letters will have to have a four-cent stamp after Aug. 1. Rate in the past, of course, has been three cents.

The old penny post card, which has been selling in recent years for two cents, will be advanced to three cents.

Air mail post cards, after Aug. 1, will go for five cents. Air mail letters will fly for seven cents instead of the six cents patrons are in the habit of paying.

On the bright side of the picture is the fact that postal employees will get a raise of about 10 per cent in their pay checks. Postmaster Voss points out that the raise was effective this month.

Second class mail is scheduled to have its rates increased in three annual jumps with the first being effective Jan. 1, 1959.

Newspapers, magazines and all other advertising matter will get rate boosts Jan. 1. Rates on newspapers will rise 60 per cent in three annual jumps. On the non-advertising portion of the newspaper, the rate will go up 30 per cent, also in three annual stages. For advertising matter, the rate will increase 66.6 per cent in two yearly jumps.

The rate increase for the mailing of an out-of-town letter is the first since 1932.

Third class mail, which has been sent for two cents for the past two ounces, will increase to three cents for the first two ounces.

Annual bulk mailing fee, which is used here primarily by businesses which send out advertising circulars, will be increased from \$10 to \$20. This raise will become effective Jan. 1.

Vets' Forum

Q. Two years ago I converted my GI term insurance to a permanent plan policy. Please tell me how soon I can borrow on my permanent plan policy, and how much?

A. You can borrow on your permanent policy now, since it has been in force for more than one year. The amount you may borrow cannot exceed 94 per cent of the cash reserve of your permanent plan GI policy.

Q. Can a paralyzed veteran who is eligible for a \$10,000 VA grant for a "wheelchair" home especially adapted for his needs also get a GI home loan with which to pay off the rest of the cost of his house?

A. Yes. The fact that he receives a \$10,000 VA housing grant does not deprive him of his right to the GI loan benefit.

Q. I will be going to school this fall, under the GI Bill. How soon do I get my first allowance check?

A. Under the law, VA allowance checks for training are payable only after the completion of each month of training, and the law allows VA 20 extra days to process checks. You should be prepared for a two-month wait before your first check comes.

Q. Is it possible for a disabled "peacetime" veteran to draw VA compensation at wartime rates?

A. Yes - if his disability resulted from extra-hazardous service, such as simulated warfare and the like.

Plans under way for Pampa rodeo

PAMPA - Officials of the Top o' Texas Rodeo Association here announced this week a complete all-new lighting system is being installed on the rodeo grounds. This new lighting system, which is nearing completion, will give the Top o' Texas Rodeo, scheduled for Aug. 4-9, one of the best-lighted arenas in the Southwest.

Goat Mayo, veteran rodeo producer of Petrolia, will bring his rough line of bucking stock to Pampa for the 14th consecutive year. Mayo will be in the arena to direct the events, which will include calf roping, double mugging, bull riding, bareback bronc, saddle bronc, and bulldogging.

In addition to the above events, the ever-popular cowgirls' sponsor contest will be a part of the show each night. Cowboys and cowgirls from a wide area will be competing for several thousand dollars in cash prizes.

(Continued From Front Page) drilling days will gradually work themselves back up to 12 per month. On a 12 a month basis, oil would be profitable and drilling could be expected to pick up considerably. By late fall it's possible the oil recovery will be here and not just somewhere on the calendar ahead. Opinion on this of course isn't unanimous, and a lot of ifs, ands, and buts cloud the picture. But there is considerably more optimism now within the industry and that is good news indeed for Garza County folks who count oil as one of their most profitable "crops."

Some of the best news we've heard in a long time on the local "business front" is today's announcement by Spencer Kuykendall that he's coming home to operate an air charter service out of the Post flying field. You'll find on his plans detailed in an ad on page 9. Right now Spencer is operating his charter service and seeks Beechcraft Bonanza plane out of the Plainview airfield but that won't be for long. Spencer is planning to sell his home in Plainview and is going to build a new home here in Bryan J. Williams' new - mushrooming Westgate addition. He'll move here with his family as soon as he sells his home in Plainview, not waiting for his Westgate home to be finished. His oldest youngster will be starting to school this fall and Spencer and his wife want to be in Post by the time the autumn term gets under way in September. In the meantime, Spencer will fly out of Plainview for Post patrons with his new charter service. Establishment of a charter service here will mean that interest in flying will perk up. New aviation interest will mean new interest in improving Post's airport thus enabling this community to keep more abreast of this flying age.

R. T. Smith, Post's new superintendent of schools, took up regular office hours in the high school here Tuesday, the day he was to assume the school management position under his contract. But to do it, R. T. has to do a lot of driving every day as he's commuting back and forth some 50 miles each way to Shallowater on the other side of Lubbock. R. T. is going to keep driving for three weeks and then move here to Post. He is having a new home hopes to be in it as soon as possible.

Leo Acker really enjoyed the Rotary luncheon Tuesday. Leo is the retiring editor of The Post Branding Iron, the club's weekly publication. He's had the job for the past four years which is an awful long time to come up with fresh jokes and bits of wisdom for his publication. It was Leo's first luncheon "out of harness" so to speak as Lee Ward has assumed the editorship. But that's not all. Leo explains he moved to Post in 1951. Since joining Rotary he has served three years as club secretary and four as editor. Now he's going to find out how it feels to be just a member.

On the way out to the Caprock golf course Saturday we were a bit surprised to see a small airplane sitting out in a feed crop field next to a drilling rig. So we stopped and inquired and found that Don Wambaugh of Midland, geologist for the Duncan Drilling Co.'s No. 1 Bingham G, had been flown up to check the well by his friend, Johnny Barnett, also of Midland. They came up in a Piper Tri-Pacer and landed on a north-south road and taxied down the road and into the field by the rig. They were just preparing to taxi back to their road and take off when we came along.

Dollar day—

(Continued From Front Page) Day promotion. Merchants here are planning an all-out Dollar Day promotion for the next six months. Dollar Days are built around the weekend containing the first Monday of each month. Since July 7th is the first Monday, the July Dollar Day weekend comes during the holiday weekend.

Retailers point out that the more firms participating in the Dollar Days the better, as bargains in every store help attract more customer traffic downtown. This gives bargain hunters a whole lot more reasons to come downtown shopping.

Gunshot victim leaves hospital

James Smith, 14, who suffered an accidental gunshot wound June 29, was returned to his home here Monday from Lubbock Methodist Hospital.

The youth's father, Howard Smith, said James would be confined to his bed for some time yet. He will return him to the Lubbock hospital for a check-up in about a week.

The Smith youngster was shot in the lower part of the back when a .22 caliber pistol was accidentally discharged while he and three other boys were engaging in target practice at the railroad bridge just southeast of town.

He underwent surgery soon after being admitted to the hospital. The bullet punctured 14 places in the youth's body.

Little League player suffers cut finger

Wendell Johnson, Red Sox first baseman, received a severe cut on the ring finger of his left hand during Saturday night's extra inning Little League game between the Red Sox and the Tigers.

The accident occurred as the Red Sox came to the dugout between the seventh and eighth innings of the overtime contest.

A ring on Wendell's finger caught on a nail as he grabbed the top of the dugout to step down into it. The finger was badly gashed, several stitches being required to close it.

The first baseman, who is the son of Mr. and Mrs. N. R. (Jiggs) King, will be lost to his team for several days.

Cotton crop—

(Continued From Front Page) which came with the June 23 hail. Charles Witt, who was in The Dispatch office Tuesday, said the June 23 hail "got three or four farms" in the community southeast of Calgary in northeastern Garza County.

He said several farmers in that area have replanted "some of their cotton" but that most of them think the old stalks will come out.

Farmers in that area "lost all their feed," Witt reported, with wind and rain plastering the crop to the ground. Up to 2 1/2 inches of rain were received with the hail in that area. The sand blowing the following day also did some damage.

Building permits continue to rise

Only three small building permits have been issued at the City Hall during the last few days, but one coming up for a church school building costing more than \$70,000 will push the total past the \$200,000 mark for the year.

Miss Kate Lowrie, city secretary said Tuesday a permit would be issued later in the day for the new church school building at the First Methodist Church.

The three permits issued up to Tuesday noon were as follows: Candelario Quinonez, move garage and put in concrete floor for R. J. Blacklock, Lots 15 and 16, Block 85; \$50.

Parrish Grocery, painting and repairing roof, Forrest Lumber Company, contractor; \$250. Casey & Welch, replace wiring and light fixtures at American Cafe; \$300.

Estimated total cost of construction on these three projects is \$600, bringing to \$136,048 the total since the building permit ordinance went into effect in March.

John C. White claims major advances for state's agriculture

AUSTIN — A major advance for the Texas Department of Agriculture was claimed by Commissioner John C. White this week with the announcement that Texas now stands first among 12 southern states in the amount and enforcement of farm legislation.

"Since 1951, we have jumped from seventh to first position in modern farm laws", said White. "These legal provisions have enabled us to increase our services in Texas by as much as 300 per cent. As a result, Texas can no longer be regarded as an agricultural dumping ground for inferior products from other areas".

The 33-year-old commissioner, who is seeking re-election to the top farm job in Texas, added that "ten years ago we were a convenient 'garbage pail' for the nation. Today, we can put more trust in our own production and know that farm goods shipped into the state must meet certain quality standards".

Dodgers rapped starting pitcher and reliever Ayresland and reliever Ayresland for a total of 18 hits. The hitless home runs by Dan and Daniel Johnson, the Dodger hurler, only four hits to the Yankees was a third inning home run by Dennis Odom.

Post edges Slaton in swim contest
A margin of a single point edged Slaton Friday in the second annual swim meet at the Post pool.

The team racked up a total of 119 for Slaton, last year's meet. Swimmers competing in the meet, finished third with a scoring most of their events. Tahoka was with 13 points.

A large crowd attended the meet which was directed by Miss Craig, co-manager at the meet. She was assisted by the other manager, Lawrence Cook, Thruett Fulcher, Slaton and Hatchett.

A Labcock diving team put in an appearance for the meet. Post, Spur and Tahoka put on one of their best time space between preliminaries and finals. The exhibition was staged by Rocky Thompson and Gene Post, Pam Allen, Cheryl Charles Sullivan of Spur and Jerry Bragg of Tahoka.

204 game wardens on duty in state
AUSTIN — Enforcement of Texas game and fish laws now is in the hands of 204 officers, the largest number on record, according to the director of law enforcement of the Game and Fish Commission.

The number was jumped recently when 21 new men completed the Warden School at A&M College. They now have taken up their assignments, wearing new green uniforms with yellow shoulder patches.

There are 13 supervisors and 192 game wardens. This means that if every warden had an equal amount of Texas to patrol, he would be responsible for a 1,382 square mile area. Actually the wardens are assigned on smaller or larger areas in relation to law enforcement needs.

PL twin bill slated for today

The first doubleheaders of the season by Pony League teams will be played here this evening and at Tahoka Saturday as holiday weekend affairs.

At Little League Park this evening, the league - leading Indians meet the Orioles at 6:30, with a game between the White Sox and Indians following.

On Saturday, it'll be the Braves against the White Sox in the first of two games at Tahoka, and the Orioles against the Indians in the second contest.

The Indians, sponsored by Levi's Ranch Cafe and coached by Louis Mills, ran their victory streak to ten straight last Thursday evening with a 12 to 1 victory over the Braves at Tahoka. John Val-

dez, who the previous week had pitched a no-hitter, turned in a one-hit victory in Thursday's game.

SOX EDGE ORIOLES IN 11 INNINGS
Bobby Beard doubled, went to third when the centerfielder bobbled the ball, then came home on an overthrow Thursday night to give the White Sox a 6 to 5 victory over the Tahoka Orioles in an 11-inning Pony League game.

The two teams were tied, 5-5, at the end of the regulation seven innings and from that point until Beard's smash, it was a tight pitcher's battle between David Lee of the White Sox and Bray of the Orioles, with players on both teams turning in several fielding gems.

After a scoreless first inning, the home team took a one-run lead when Roger Camp singled with the bases jammed to score Jackie Baldree.

The Sox increased their lead to 3-0 in the bottom of the third when Ruben Valdez, whose double had scored Beard, rumbled home on Lee's single.

The Orioles broke the scoring ice in the fourth when Finis Rogers singled, then made successive steals of second, third and home.

Camp and Pete Asebedo were on third and second, respectively, after errors by the Oriole first baseman, and Beard was on first after being hit by a pitch. On Valdez' grounder to the second baseman, Beard was called out for interference by base umpire Luke Bilberry. The Tahoka coaches contended that Camp, who had scored on the play, should go back to third, but head umpire Polly Duren ruled that Camp had crossed the plate before Beard was called out for interference. The Tahoka coaches then announced that they were playing the remainder of the game under protest.

The Tahoka boys knotted the count at 5-5 in the top of the seventh when Rogers blasted a double, went to third on an overthrow and scored on an infield out. Bray relieved Nance on the mound for the Orioles to begin the eighth inning and held the Sox hit-

less until Beard's game-winning blow in the 11th.

Lee gave up six hits in the seven innings he worked, but was effective in the pinches. Beard pitched the first three innings and Ronnie Reed the fourth for the Bob Collier Drug team.

The game was well played, with the Sox turning in two fast double plays and the Orioles one.

Texans saved thousands of dollars by weights, measures enforcement

By JOHN C. WHITE, Commissioner of Agriculture

Practically everything we buy—from the main course of Sunday dinner to the cross-town ride in a taxicab—is bought in terms of weight. And the accuracy of devices which function to give us and those we patronize correct weight or measure is a matter of great importance.

In Texas, the responsibility for seeing that such accuracy is the rule is a little-known but highly significant function of the Texas Department of Agriculture.

Through vigorous enforcement of our Texas Weights & Measures Law by regular investigation and frequent spot-checking, savings amounting to many thousands of dollars annually are effected for Texas citizens.

Such protection is not accidental. It is an accomplishment. Since 1932, when I first took office, frequency of weights and measures violations have decreased in some instances by as much as 300 per cent.

For example, in 1951, about seven out of ten pre-packaged food items such as meat, poultry and cheese were incorrectly marked as

to weight; during 1957, an average of only three out of ten were found incorrectly marked, and two of these were very apt to be in the buyer's favor.

In another area of major consumer expense where measure is of great importance—gasoline purchasing—an accuracy improvement of over 100 per cent has been effected since 1951.

Seven years ago, the state average for faulty gasoline pumps was 1 out of every 4.5 inspections. In 1957, a total of 43,203 Texas pumps were checked and only 1,623 were condemned for repairs—averaging 1 for every 9.1 pumps.

To have achieved such results has not been without effort. Last year, we pushed our record to a total of 374,081 inspections of weight and measuring devices—ranging from tiny, intricate pharmaceutical scales to ton-unit hopper scales. This is almost twice as many inspections as the 209,201 made in 1951.

With this increase in services has come the resultant increase in protection. And added experience, increased legislative support, and encouragement from all Texans has made this possible.

Eight complaints filed in court

Eight complaints have been filed in the court of Justice of the Peace D. C. Roberts during the last few days, with fines having been paid on two of them.

J. L. Mock paid fine and costs of \$20.65 on a no driver's license on a complaint filed Sunday.

Mike Brooks paid fine and costs of \$16.50 on a no driver's license charge. The complaint was filed June 23.

Other complaints and their filing dates are: V. M. Samples, speeding, June 23; John Veach, drunk in a public place, June 29. W. D. Haddox, loud and excessive muffler, June 27; Joshua B. Valdez, no tail lights on vehicle, June 27; R. E. Heinrich, speeding, June 26; Billy Hal Jones, muffler violation, June 24.

Minister to leave on church work

Ronnie Parker, minister of the Post Church of Christ, will leave Monday for New Haven, Conn., to spend a week's personal work campaign under the leadership of the church there.

Parker, who is being sent to New Haven by the church he serves here, will be accompanied by his wife and children.

Following his week of personal work, Parker will preach three or four nights at the New Haven church on "The Church of the New Testament."

The Parkers will return to Post via Chicago, Ill., and Valparaiso, Ind., with Parker preaching at the Valparaiso church on July 27. The Post congregation helps support the Valparaiso church in its missionary work.

Leonard Tittle will preach at the church here during the time the minister is away.

About Your HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. HOLLE, B. S., Commissioner of Health.

Ask the first 100 people you meet what their favorite sport is and chances are good that at least 70 will say swimming. Even golf and fishing have taken back seats as sport choices, a recent nationwide poll shows.

A, estimated 50,000 new pools will be constructed this year throughout the nation. In Texas at this moment well over 4,000 pools are attracting swimmers like bees to a flower.

This is all to the good, because swimming lends itself to social adjustment. It teaches coordination and builds stamina and character. A child who overcomes fear of water has learned courage.

BUT THERE IS also an element of risk. This accelerated interest in swimming creates hazards of life and limb, and danger of disease transmission. That's why the State Health Department conducts courses to teach pool operators the various skills of their jobs.

"Short schools" for pool operators are concentrated during April, May and June, the intention being to enroll as many operators as possible before hot weather and overflow crowds make it hard for them to get away from their work.

Co-sponsored by the Texas Beach and Pool Association, courses consist of eight hours of intense technical and practical instruction. It covers such things as how to disinfect the water, and how to control water acidity—the factor, incidentally, which causes swimmers' eyes to burn, rather than chlorine as is popularly supposed.

THE COURSE also covers pool safety, bathhouse sanitation,

and the various filtering systems used by modern pools.

How important are swimming pools as links in the chain of disease transmission? Eye, ear, nose, and throat, skin and intestinal infections are among the most common conditions spread in swimming pools. Typhoid fever and diarrheal diseases have been traced to neighborhood pools.

Most prevalent, however, is called "athlete's foot," contracted in pool water and on which spores flourish.

In well-operated pools little chance of contracting these conditions. That's why the Department's emphasis on swimming pool safety.

Swimmers, too, have a responsibility toward pool operators. Like most public places, quickly assumes the character of its least desirable patron.

Surprise birthday celebration is held for Baptist pastor and wife

MRS. EARL MORRIS
 Mrs. Earl Morris of the Baptist Church Fellowship Hall Wednesday night to surprise her husband, Rev. Earl Morris, with a birthday celebration. The celebration was held in the home of Mrs. Morris, and was attended by Rev. Kirk and his wife, and other members of the congregation. The celebration was a surprise to Rev. Morris, who had been in the hospital for several days. Mrs. Morris had learned his birthday a few days away, and was planning to surprise him with a "Sunday" shirt and ice cream cake and she was served.

MR. AND MRS. Wes Donahoo and their grandson, Jerry Donahoo, went to Possum Kingdom for a five-day outing, fishing, etc. They caught lots of fish, including a three-pound yellow catfish caught by Jerry.
 Mrs. W. A. Hamilton, her son, Curtis, of Lubbock and a daughter-in-law, Mrs. Herschel Hamilton, who is visiting them from California, were here Sunday looking after farming interests. They visited in the home of the Glen Smallwoods.
 Visiting Sunday with Mr. and Mrs. W. E. Edmunds and the Martin Edmunds family were some former neighbors, Mr. and Mrs. Junior Hale and children, and two of Junior's brothers, Don and Bob Hale, of Levelland.
 Mr. and Mrs. Billy Castner and granddaughter of New Deal were weekend guests of the Wes Donahoos. Spending a month in the home was a grandson, Jerry Donahoo, of House, N. M.
 Mr. and Mrs. Dick Denton and Lin of Plainview visited his parents, the Ed Dentons, Thursday. Martha Carson and Jerry Shelton returned home with their uncle for a week's visit.

VACATION ON RANCH
 Mr. and Mrs. O. B. Taylor and Linda, Mr. and Mrs. Alton Clary and Judy returned Sunday night after spending several days on the Reynolds Ranch near Kent, Tex., in the Davis Mountains. They were guests of Mr. and Mrs. Ed Taylor, Taylor's brother. The group enjoyed sightseeing in the mountains and the McDonald Observatory and Fort Davis.
SLATON GUESTS
 Saturday night guests in the home of Mrs. Vera Gossett, Judy and Sonny were Mr. and Mrs. John Berkely of Slaton and Dick Jones of San Saba.

Mahon announces for re-election

George Mahon, Congressman from this district, requested this week that The Dispatch formally announce his candidacy for re-election to Congress. He had filed for a place on the ticket some time ago.
 "A long statement would serve no useful purpose," Mahon said, "but I would like for the people to know of my feeling of appreciation for the wonderful support and good will which they have given me through the years."
 "And I would like to add this," Mahon said. "We seem always to be living in uncertain and difficult times. Under all conditions and at all times I am doing everything in my power to serve the best interest of our district and of our country. I am always pleased to have the people of our district call upon me. I will deeply appreciate a continuation of your support and confidence."
