In each VFW community, more

FRIDAY'S RASH OF tornados has finally convinced us. Up until then, we'd gone along with those who said it just seemed like twisters were more numerous this year because we were hearing more about them. But the unvarnished truth is that we're having more of them.

SINCE IT GIVES most of us time to eatch our breath, we're sort of gind that last week's rain washed out the city-wide cleanup drive. It has been re-set for next week, with Thursday designated as trash-hauling day. That's far enough away from the rodeo and school closing activities that more of us can get in on it.

SOMETHING ELSE ALMOST lost in the hustle and bustle of the last two weeks is the fact that the VFW Post and Auxiliary are staging their annual Buddy Poppy sale this Saturday. That'll be two days after Memorial Day, but it's about as close as they could work it in, VFW officials tell us.

THE UNITED STATES Treasury Department says the dollar bill will last nine oths. That's another good laugh!

HERE ARE SIX mistakes of life that many of us make: The delusion that individual advancement is made by crushing others down. The tendency to worry about a thing that cannot be changed or corrected. Insisting that a thing is impossible because we ourselves have not accomplished it. Refusing to set aside trivial preferences in order that important things may be accomplished. Attempting to compel others to believe and live as we do. The failure to establish the habit of saving money.

OF ALL THE DRILLING companies operating in Garza County, the name of the newest one is the most glamorous-Blue Danube Oll Company. A Fort Worth firm, it is drilling the No. 1 Charles Bird, 10 miles northeast of Post.

A MATHEMATICS PROFESSOR has calculated that a perfect bridge hand-13 cards of one suit-could happen only once in 40 billion hands. The nearest thing to it we've ever seen in a game in which we were playing was II hearts. But we heard of a fellow who drew a hand of 13 spades and got so excited he won, the bid with a grand slam in no trumps! We haven't heard of him since.

SPEAKING OF NUMBERS, each of the winning teams in the first four Little League games scored 12 runs.

FOR THE FIRST quarter-mile a motorcycle has a quicker getaway than a jet plane. And makes just about as much noise.

SOMEHOW OR OTHER, the school buildings don't seem like the same places this

JOHNNY HOPKINS AND the other people loudspeaker WAS working. at the Tower Theatre have a nice way of making you feel your patronage has been appreciat- PARTING THOUGHT: The man who puts ed. They have a habit of inviting you back as his shoulder to the wheel now has a son who you walk through the lobby on your way out. can't wait to get his hands on it.

The bountiful rains of the last few weeks have brightened crop prospects, but at the same time have made it more important than ever that the annual city-wide clean-up drive turns out a success.

Originally scheduled for last week, the cleanup campaign was postponed until the coming week because of the rainy weather. The morethan-usual amount of moisture poses a serious fly and mosquito threat, which can be overcome only if we thoroughly clean up the city, then follow with spraying and fogging.

We sounded out the mayor early last week, before the clean-up drive was postponed, and he was gloomy over prospects for an all-out effort. On the basis of past performances, he can hardly be blamed for such an outlook. He pointed out that "target day" on the last few clean-up campaigns has seen only labor and equipment furnished by the city, the county and Brown Bros., et al, oil operators, turn up for the important job of hauling away and disposing of accumulat-

This year, the mayor said, prospects for sufficient help appear brighter with Alamo Corporation also offering the use of trucks and men. But, as pointed out by his honor the mayor, other business firms and individuals shouldn't depend upon these three or four groups to do all the

Every truck and every man available can be used next Thursday in getting rid of the trash accumulated on Monday, Tuesday and Wednesday. "The more trucks and men we have for the job, the quicker we'll get through and the sooner the equipment and laborers will be released for the pursuit of their normal duties," reasoned the

Meanwhile, householders and business firm proprietors are urged to make those first three days count by thoroughly cleaning up about their premises. There won't be any use of a bevy of trucks and men showing up Thursday morning if there is nothing to haul away. Let's make this clean-up drive count!

A New York Times article states that the pawnbroking business has declined 25 per cent in the past 10 years in that city. Reasons given include prosperity, the high level of employment, installment selling, and increased small loan activity by banks and credit unions.

You don't find that in many theaters.

NOWADAYS PEOPLE attending baseball games and other athletic contests miss a public address system almost as much as they'd miss the umpire or referee. We kept scores at the opening week Little League games Tuesday and Thursday of last week, with the loudspeaker out of operation both days. Those coming up to the press box to find out the score (and there was an almost endless procession) always asked first, "What's wrong with the speaker?"

BRYAN WILLIAMS and Bill Edwards, this season's PA system men, said they'd have the speaker fixed in time for Saturday's games. Another engagement kept us from going out, but for the sake of whoever kept scores, we hope the

Roger W. Babson Writes This Week:

Oil, Chemical Among Industries Presenting Best Opportunities In United States Today

BABSON PARK, Mass .- During the past winter I have used my spa time trying to decide what industries have the est opportunities.

Among these, the following seen the leaders. The Oil Industry, represented by of the large companies. The Chemical Industry, in which I consider the American Agricultural Chemical Co. of Florida one of the best. Hopsehold Heating by uranium, with American Radiator & Standard Sanitary the most conservative and National U. S. Radintor perhaps the best speculation. Electronics and Thermodynamics, with Westinghouse Air Brake perhaps the best speculation. Earthmoving Machinery, with Caterpillar Tractor the most speculative and International Harvester perhaps the most conservative purchase. The Microwave Industry, of which Hughes Products of Los Angeles and the Motorola Co. of Chicago are among the leaders. Greeting Cards, with a Gibson, Hallmark, or Norcross trademark. The Broadcasting of Power for small kitchen utensils may be developed by the Radio Corporation of America.

Reasons For The Above Selections

There are four basic factors which I am oring in selecting these industries:

(1) Labor Shortage. This will continue due to the desire for four more years of education and for retirement at 65, and to other factors which will offset the population growth. This will further strengthen the power of Labor

(3) Automation. At first glance this should cause unemployment, but automation will be so expensive that it will come about only slowly. Furthermore, although automation reduces greatly the number of employees needed, yet the quality of the employees needed will be considerably up-graded. Automation for many years will barely offset the possible shortage of labor under present conditions.

(3) Inflation. We ought to fight inflation in may form, but it will slowly creep up on us, resulting in a gradual increase in the cost of living. Of course, if World War III should come, the value of the dollar will drop from 50 cents to 35 cents, but I am not looking for anything up-to-date "dime store" in the dense downtown like this now.

(4) Government Expenses, barring World War III, should hold fairly steady. The development of missiles should reduce defense expenses in both the Navy and Army. This should offset any increuse arising from the growth of bureaucratic government.

Other Trends To Watch

(1) Higher Education will be considered a necessity. Not only will teachers receive higher salaries, but they must work harder to earn the same by having double sessions, by the further use of television, and by proper grading. Anytime there may be discovered a completely new revolutionary system of education. Colleges will cease as residence schools and become day schools with elaborate parking facilities.

(2) Automobiles and Parking. Unless the trend for larger cars and automobile accidents soon turn downward, with greatly increasing "4 lane" highways, the automobile industry will be leveling off. There will be more money in providing parking facilities than in the sale of auto-

(3) Community Churches. The Church is the hope of America, but young people are giving less attention to formal_creeds and the old religious dogmas. Denominations are meaning less to the coming generation. I forecast a great growth in community churches attended by a large number of people of different denominations. Churches will be located adjacent to municipal playgrounds, lakes, rivers, etc.

(4) Shopping Centers for retail stores will be followed by brain centers for insurance companies, legal firms, architects, etc. The suburban population definitely will increase, attracting churches, YMCA's, and other organizations, as well as retail stores. As the working population grows and working hours lessen, the time given to sports will increase; in fact, the sale of sporting goods will increase. Stores in the downtown metropolitan cities will gradually appeal more to men who have not the time to visit shopping centers. With self-service properly developed, there will always be a field for selfservice specialty stores, variety stores, and the districts of all cities.

Getting Out On The Limb

By EDDIE the editor

SUDDEN THOUGHT: There is always free cheese in a mou

A recently-acquired illusion shared by many is that Jerry Lewis

For book lovers only: "Torture in a Wigwam," or "Her Suffering Was Intense."

THE OLD MULLARKEY about one town's loss being another town's gain when some citizen moves from one to the other has been worn to a nub, but I want to haul it out again to say that believe it to be the gospel truth in the case of Jim Cornish, who is to arrive this week to take over active operation of The Post Dispatch. In case you got lost in the middle of the foregoing sentence, what I'm trying to say is that Pratt, Kansas' loss is Post's gain.

Jim and his charming wife, Helen, were our house guests for three days week before last while here consummating the deal wherein they purchased The D patch. Even if I hadn't already heard of Jim's good qualities from some of the Sunflower State's top newsmen, I'd have learned enough about him during the short time he was here to know that I am selling The Dispatch to a man who will continue the same high standards I've always tried to maintain in its publication and to a man who will be an asset to the community.

While I haven't yet met the Cornishes' two daughters, 12-yearold Christine and 9-year-old Susan, I'm looking forward to doing so. All in all, what I know and what I've heard of the Cornish foursome convinces me they're a typical American family. Jim and Helen have purchased a new home here, and, since their daughters are out of school for the summer, will be moving in right away.

The Cornishes are members of the Presbyterian church, and Jim is a member of the Rotary Club. The Post club has already received a letter on him from the Pratt club and several Rotarians here have told me they're looking forward to welcoming Jim as one of their service-minded number.

I've just read a story in The Pratt Daily Tribune which Jim sent me on his purchase of The Dispatch, and, reading between the lines, I can tell that the new owner is highly enthusiastic about our little city. That enthusiasm will no doubt carry over to the Golden Jubilee Celebration in September and I'm predicting that Jim will be a wheelhorse in helping make the 50th anniversary event one of which Post, Garza County and the entire South Plains may well be

Here are a few paragraphs from the story on the purchase: "Cornish is enthusiastic about

his new paper. He claims it is the finest weekly in West Texas and has one of the finest weekly newspaper backshops in the nation, as far as new modern equipment is concerned.

"Post, which will celebrate its Golden Jubilee this September, was founded by C. W. Post of Post Toasties fame . . . Post is the county seat of Garza County . . . which has 12,000 acres of cotton above the Caprock and the rest is cattle country which has been hard hit for the last seven years by the drought, but the ranges have received soaking rains this spring and already have greened again . . . The area is rich in oil

There are almost 700 wells in the county with production running over 4 million barrels a year . . . The town's principal industry is the Postex Criton Mills, which has just completed a million dollar expansion program."

That'll give you some idea of Jim's enthusiasm about his future

Among the good things we've head of The Dispatch's new owner is the following editorial from The ElDorado, Kan., Times:

Jim Cornish has resigned as 'itor of the Pratt Tribune, effactive June 1, and his colleagues around the state regret to see him go. For Jim has proved himself an able citizen at the tripod-and his comment has been wise and helpful in the Kansas councils.

Jim first made a name for himself at Garden City along with Publisher Jerry Reed. Jim and Jerry stacked up as a couple of western Kansas wildcats; together they left no stope unturned that needed overturning; they recorded a lot of history in sprightly fashion, and they helped to make con-siderable of it themselves. Jim and Jerry were a right fair pair of newspaper performers and the dove of peace never lingered long around where they operated. Jerry had the drive and Jim the follow up-and both wielded snicker-

mess with cutting edges. When Jerry sold out, Jim went to Pratt and his work there has been first rate, as always. He is one of the most industrious men to his profession-and he must toil around the clock to accomplish all that shows up as his handiwork. He is a corking good news man and an editorial writer who aboriously assembles the facts THE AMERICAN WAY

The Customer is Always Boss

Our Contemporaries Are Saying

Somebody Goofed!

Do you have an issue of The Lynn County News dated May 3? I goofed-threw out the good ones and kept the bad ones. If you are by the slightest chance interested in saving my scalp, please bring us your issue of the paper. Thanks.-"Standing on the Corner" in The Lynn County News.

The Way It Goes

The government guarantees the farmer for what he plants, then pays him not to plant. It pays him if his land gets too little water, then pays him if he gets too much water. Which reminds us of the Chinaman's description of an American: "He boils his tea to make it hot, then puts ice in it to make it cold; adds sugar to make it sweet, puts in lemon to make it sour; says 'here's to you,' then drinks it himself."-Wink Bulletin.

Enchanted Moments

Plaiting the frayed strands of memory that dangle from the skies of long-ago springs, fraught with rain-washed sage and yellow buttercups, I could almost hear the music of the school girl's laughter. We carried our shoes and empty dinner buckets, and waded in the mud left by a warm rain. She fastened the buttercups in her dark hair and raced me gate at the end of the lane. Some moments of enchantment were intended to endure forever.-"Trail Dust" in Matador

and then delivers his conclusions with a punch. Jim has been a top figure in the Associated Press wire editors' group-and has done a bang-up job all the way.

Now he wants to get hold of a small daily or a weekly of his own-and edge into the purseproud publisher class. This journal sincerely trusts he will attain his ambition-and in Kansas, too. This state, rich as it is, simply cannot afford to let crackerjack and accomplished newspapermen like Cornish get away from its Best Of Everything

A single fellow down at Abilene was showing his apartment to a Hamlin friend. The local spouse declared: "I wish I could afford a place like this,

"Yep," replied the friend. "You married men have the better halves but we bachelors have the better quarters."-"Popvalve" in The Hamlin Herald.

Crusade For Sesame Sesame is nearly as good a

cash crop as cotton, they say. And there have been developments of the plants, so that new strains lend themselves to mechanical harvesting. Shattering has been one of the bugaboos. This has been eliminated, is the claim. Quite a campaign on and it is said there is no danger of a market collapse about the time the crop is ready to go to town. Since so many interests are urging sesame and since something better is badly needed to take the place of maize as a cash crop, the pros and cons might well be checked. Most everybody has the problem of layout land they'd rather not put into maize .- "Views and Comment" in The Floyd County Hes-

Dangerous Pastime

Kids always delight in pastimes with a hint of danger, and probably always will. Now they are using the water-filled caliche pit east of Lorenzo for a swimming hole, a distressed mother informed us Wednesday. Kids being what they are, there's not much that can be done about it except to point out the danger. The pit is in an isolated spot; the water is now cold and deep. So, kids, keep your parents happy and stay out of it.-"Main Street" in The Lorenzo Tribune.

Joint Session Held By Church Women

The Presbyterian Women's Organization and the Mattie Williams Memorial Circle held a joint meeting at the home of Mrs. Clinton Edwards Monday afternoon.

The meeting was opened with a prayer by the Rev. Clinton Edwards and followed by a business meeting presided over by Mrs. Howard McCampbell, president of the Mattie Williams Memorial Circle. It was decided that these organizations join the Presbyterian Women of the World in their "Fellowship of the Least Coin," in which each woman gives the least coin of the realm once a month and the coins are sent to Miss Shannon, Secretary of the Board of Foreign Missions in Kansas City, Mo. Miss Allan Louise Brown was

the guest of honor as she was the church's only member of the senfor graduating class. She was presented with a gift from the church. Mrs. McCampbell was in charge of the program on "The UN and Us," and assisted by the Rev. Edwards and Mrs. James Sims. A picnic will be sponsored by the church for all members and families to be held on the church lawn following the closing of Vacation Bible School on June 7. Attending this meeting were: the Rev. Edwards and Mmes. Edwards, A. C. Surman, D. C. Williams, W. E. Dent, Oscar Smith, McCampbell, Sims, Tom Hagood, Walter Boren, Jack Brown and

Drive with care ... everywhere!

loves to cut loose and cover the miles!

If you're looking for a real "escape artist," a car that loves to step out and get away from it all-well, it just happens that Chevy was born with that urge.

If there ever was a car that loved to cut loose and cover the miles, it's this one. Yet it's so easy to handle that it even makes city traffic seem a bit lighter and parking places a bit bigger.

Chevy's pretty easygoing out on the highway too. Not pokey. Far from it. You find, for example, there isn't a hill around that can make it breathe hard

ance V8 on the pulling end. You've got up to 245° horsepower here for the biggest-helping of driving pleasure found in the low-price field! Chevy's new Positraction rear axle

-not with Chevrolet's high-perform-

(optional at extra cost) adds still more pleasure. It delivers greater power to the wheel that grips, not the wheel that slips. You have surer control and better traction on any road surface.

Stop by your Chevrolet dealer's before another good driving day goes by.

LONE STAR AGRICULTURE

Imported Fire Ants Are Becoming Serious Threat To Texas Farmers

By JOHN C. WHITE Commissioner of Agriculture

Imported fire ants, native South American pests, have become a present problem and a serious Houston. threat to Texas farmers.

June 5 Steven Charles Cooper Connie Rahe Cockrell Kenneth Cook Mrs. Delmo Gossett June 6

Mrs. Bill Stone Grover Mason Vickie Kay Maddox Johnny Huffman

ern states in a line from Florida castward, infesting in their final course an area in Southeast Texas from the Louislana border to

The imported fire ant is noted for the fierceness of its attack. Its painful sting can cause boil-like sores on humans and severely injure animals. They aggressively attack small animals in numbers and have killed new-born calves on the farm.

Their damage extends from poultry, livestock and wildlife to all types of plant life. Feeding both above and below ground, they seriously damage many vegetable crops. They injure pasture grasses, cereal and forage crops, nursery stock, and fruit trees.

Imported fire ants are easy to detect by the mounds that they build-reaching up to two feet in height and three feet in diameter. The huge, hard-crusted mounds mar lawns, damage pasture lands and interfere with cultivating. mowing, and harvesting machine-

Entomologists have said the ants are at their worst as a nuisance, hampering all types of farm operations. In heavily infested fields, it is difficult for cotton pickers and other farm labor to work.

The tiny fire ants at present have covered only a relatively small part of Texas, but the continued growth of their population since introduction into this country some 30 years ago gives cause for alarm.

Spread of infestation is high inthe springtime when the queens scatter to start new colonies. It takes only 8 to 10 days for the queen's eggs to hatch into dirty white grubs and another 6 to 12 days for these larvae to become active workers. Queen larvae become active in 9 to 16 days. The entire life cycle is completed in about 30 days.

At a recent meeting of the Southern Plant Board, the imported fire ant was termed a major pest of agriculture in the South and special federal aid was asked for cooperative control work with states heaviest hit.

Eradication measures are expensive but effective and necessary if infested land is to remain of any value.

Persons desiring control and eradication recommendations should contact the Division of Plant Quarantine, Texas Department of Agri-culture, Austin 14, Tex.

come alive for them.

tolerance.

Childhood is a brief span in the bridge of life. Yet it is during the

early years that we lay the foundation for all that is to come.

Church School is over, and Eileen and Johnny linger on

the church steps, talking about the lessons they've learned

this morning. They both are excited because, under their

teacher's guidance, the stories of the Bible are beginning to

We're not going to say that having met in Church School,

Eileen and Johnny will go on seeing each other in church each

week and that ultimately they'll grow up, fall in love, and get

married. (Though, who knows? Maybe they will at that!)

Church School these children and thousands upon thousands of

other children are receiving religious education, an ever-ex-

panding lesson in good fellowsnip, wisdom, kindness, and

But we are saying-and deeply believing-that through

We're not going to predict a "happy ever after" ending.

THE CHURCH FOR ALL . . .

The Church is the greatest factor on earth for

the building of character and good citizenship.

It is a storehouse of spiritual values. Without a

strong Church, neither democracy nor civilization

can survive. There are four sound reasons why

every person should attend services regularly

and support the Church. They are: (1) For his

own sake. (2) For his children's sake. (3) For the

sake of his community and nation. (4) For the

sake of the Church itself, which needs his moral

and material support. Plan to go to church regu-larly and read your Bible, daily.

Coppright 1907, Knister Ade. Service, Strasburg, Va.

Dodgers Win, 12-1, Behind David Lee

Dodger pitcher David Lee hurled six-hit ball last Thursday evening in a 12 to 1 victory scored by his team over the Tigers.

The game started out as a pitching duel between Lee and Pat mell of the Tigers, but after rielding a single run in the first nning. Lee settled down to hold the Tiger bats in check. Meanwhile, his teammates were raking Cornell for 10 safe base blows, including a third inning home run by left fielder Dennis Huntley.

Cornell collected two of the halfdozen base hits yielded by the Dodger pitcher.

GATEWAY MOTEL SOLD Mr. and Mrs. Guy Floyd have purchased the Gateway Motel from Mrs. Mary Fumagalli and will take over operation of the business Saturday. Mrs. Fumagal-li and her husband, the late Julius Fumagalli, purchased the motel from the Earl W. Wrestlers on June 1, 1956.

METER CATCHES FIRE

A trash fire Monday afternoon ignited gas escaping from a me-ter at the rear of the O. G. Hamilton residence, 502 West Main. Firemen report only slight damage, confined to the meter and a wooden fence.

SAFE DRIVERS HONORED-Marilyn Steel (center) is being presented a \$50 savings bond by Mayor James L. Minor as first place prize in a teen-age safe driving contest sponsored by the community services committee of the Post Chamber of Commerce. Linda Livingston is holding the third place trophy she won. Raul Solis, winner of the second place trophy, was not present at the awards ceremony, which was held Friday in the high school auditorium. John N. Hopkins, chairman of the C. of C. committee, said there were 13 contestants in the safe driving event, which was judged over a period of several weeks .--(Staff Photo).

Awards Presented 14 PHS Students

Academic and other awards English, Orabeth Maxey; history, were presented 14 Post High Marilyn Steel; homemaking, Lin- Antonio, after recently joining the Clary, 29; Ray Charles Garner, School students last week as the da Livingston; mathematics, Andy 29; Don Greer, 31; Butch Wilson, 1956-57 school year came to a Schmidt; music, Frances Diet-Post High School. His brother, rich; science, Roy Joe Carter;

The awards, presented by Prin- speech, Lexa Acker; valedictorian, cipal Glenn Whittenberg, were as Howard Jones; salutatorian, Ken-

Commercial, Rexene Welch; Oneita Jones; DeKalb, award, Harry Smith.

JOINS AIR FORCE

Mack Kemp, son of Mrs. Glenn E. Shelton, is stationed at Lackland Air Force Base, near San USAF. He is a 1956 graduate of pulpit and pedestals in the present Allyn Kemp, has been in the Navy since January and is being transferred from Norman, Okla., to Memphis, Tenn. neth Mills; Betty Crocker award,

Specific Location Of Fires Said Necessary

Fire Chief Robert Cato this week asks that those reporting fires be specific as to location.

"Those turning in an alarm are if known," Cato said.

The fire chief explained that there was a mix-up in an alarm turned in early Monday afternoon, with the result that the firemen had to backtrack to get to the scene of the actual fire.

"Fortunately, it was only a minor blaze, but if it had been a frames. major one, the mix-up could have resulted in disaster," said the fire sixth inning home run by left field-

Mrs. Celia Swaim Dies In Indiana

Mrs. Celia Swaim, who with her husband, Harry Swaim, was instrumental in the building of the First Christian Church here, died May I at the Vermilion County Hospital in Clinton, Ind., according to information received by

Mrs. Swaim, who was 80, and her husband were residents of Bloomingdale, Ind.

The couple were active workers in the First Christian Church during their residence in Post. Mrs. Swaim was church pianist, president of the Women's Missionary Society for a number of years and taught a beginners' Sunday School class. Mr. Swaim, a cabinetmak er, built the communion table church, of which he was an elder Besides her husband, Mrs. Swaim is survived by a sister, Mrs. Arrell Trimble of Danville, Ill.; a brother, Leonard Newlin of Salt Lake City, and several nieces and nephews.

Red Sox Outscore Yankees, 12 To 6

Scoring five runs in the sixth inning, the Red Sox widened a oneasked to give the street address run margin over the Yankees in a and the property owner's name, Little League game last Thursday to take a 12 to 6 decision.

> The Red Sox had come from behind to tie the score at 6-6 in the fourth inning, then held the Yankees scoreless the rest of the way while chasing six more runs across the plate in the last two

er Pat Sullivan. First baseman Polk led the Yankee hitters with three singles in four trips.

Ronnie Storie started on the mound for the Red Sox, but was shelled out in the third inning when the Yankees scored five runs. The box score:
