Grocery Checker Thwarts Brazen Robbery Attempt

Mrs. Carl Rains, wife of the county sheriff, thwarted an attempted cash register robbery by three Negro men Tuesday afternoon at her checking counter in the Piggly Wiggly Supermarket. The men fled from the store and raced away in an automobile after Mrs. Rains had stopped one of them from lifting a stack of \$10 bills from the cash register on which she had just rung up a purchase made by one of the Negroes. A search for the Negroes, who were reported last seen speeding north past the post office on Avenue I, proved fruitless, but Sheriff Rains said Wednesday that he had traced their automobile and expected an arrest "within a few hours."

Strawn Producer Is Assured By Tests

Garza County's 1958 oil activities started off on a bright note this week with the announcement that a series of three drillstem tests have assured Strawn oil production in Shell Oil Company's No. 1-C Slaughter Estate, nine miles south of Post.

Food Store Here Has New Owner

The O. K. Food Store, 312 North Broadway, opened today under the ownership and management of T. B. (Tom) Harmon, who purchased the store from Mr. and Mrs. E. E. Piers.

Initial evaluation of the Strawn was conducted from 7,882 to 7,902 feet. Tool was open one and one-half hours with gas surfacing after five minutes. The well was unloaded for an unreported length of time.

Reversed out recovery was 35 barrels of oil, with an additional 450 feet of heavily oil and gas-cut mud. Formation pressure plowing gauged 1,290 pounds with a 30-minute shut-in of 3,540 pounds.

The latest test reported was from 7,940 to 7,962 feet. Tool stayed open one hour with gas surfacing in five minutes and oil in 40. Twenty-minute flow to tanks produced 13 barrels of oil. An additional 56 barrels were recovered out, with 450 feet of mud recovered.

Flow pressure gauged 1,830 pounds and 30-minute shut-in was 3,480 pounds. Drilling was resumed, with a depth objective of 8,500 feet.

The Post Dispatch's annual year-end review of newsworthy happenings in Post and Garza County appears on page 15. The review includes a month-by-month summary of the top news stories, plus a few of the many local pictures which appeared in The Dispatch during 1957.

er under the pretext of making another purchase. "I was counting out their change," Mrs. Rains said, "when they both started asking for something else—one for some shells which I had to reach under the counter to get."

"I told them I could wait on only one at a time, but one of the men kept crowding me and trying to get between me and the other one. I stood my ground and looked back at the cash register just as one of them raised the clamp off the money in the \$10 bill compartment. I yelled 'Stop that!' and stuck his hand. He took his hand out of the money drawer and said he was just trying to get his Green Stamps. I told him that wasn't the place to get them, and then all three of them ran out of the store."

Mrs. Rains said she ran after them and that Byron Haynie, another employee of the store, got the license number of the automobile in which they roared away. She said they apparently turned east at the rear of the store and went down the alley to Avenue I. Mayor James L. Minor said he saw the car race north through the Avenue I and Main Street intersection and that there were four men in the car.

After sounding an alert and having roadblocks set up in the area, Sheriff Rains traced the license number to a Houston finance company. He said a Texas Ranger who heard the alarm set up a road block at a fork east of Post on U. S. Highway 380 and then See ROBBERY ATTEMPT, Page 8

Schools' Holiday Comes To Close

A Christmas and New Year's holiday vacation of nearly two weeks ended Thursday morning for students and faculty members of the Post schools. The vacation period began Friday, Dec. 20. The first semester of the school year ends Jan. 17. The next scheduled holiday is March 7, when the schools will be dismissed for a district teachers' meeting. The Easter holiday will be April 4-7. The 1957-58 school year will end on May 23.

McGuire Funeral Held Dec. 24 In Silvertown

Bobbie Jo McGuire, 15-year-old daughter of Mr. and Mrs. Robert McGuire of Big Spring, and a former Post resident, died Dec. 23 in an Abilene hospital. Funeral services were conducted at the First Methodist church in Silvertown, Tex., at 3:30 p. m. Dec. 24 by the Rev. James Patterson. Survivors, besides the parents, are four sisters, Catherine Ann, Judy Lee, Jean and Janet; and the grandparents, Mr. and Mrs. W. R. McGuire of Post and Mr. and Mrs. T. J. Hodges of Silvertown. The Hudman Funeral Home was in charge of all arrangements.

Jubilee Gets Top Rating In '57 News

With 1957 perhaps the most eventful year in Post's 50-year history, picking the top ten news stories of the past 12 months posed a problem for The Dispatch editorial staff. Picking the top ten stories has been a custom for the last few years, but never before have there been so many from which to choose. The result is a number of "also-rans," which barely missed making the top ten.

The four-day Golden Jubilee, celebrating the city's fiftieth anniversary, was selected as the No. 1 story without too much debate. But from there on down the list to No. 10, the selections and ratings became tougher.

1. Golden Jubilee celebration.
2. Approval of \$4,000,000 White River dam water bonds by voters of Post, Spur, Crosbyton and Ralls.
3. Uranium mining activity, which places Post as the only point in Texas from which commercial shipments of ore are being made.
4. Comeback of better-than-average cotton and maize crops despite a late season and adverse weather.
5. Oil developments, which included 10 new discoveries for county, among them being Strawn, Wolfcamp and Mississippian openers south of Post.
6. Consolidation of Graham and Garnolia school districts with Post district.
7. City of Post projects, which included 4 1/2 blocks of new paving and 17 blocks of "patching" and new street lighting system for residential areas.
8. Highway construction work on (Lower San Andres).

Chapter Hopes To Equal \$3,000 Raised In 1957 1958 March of Dimes Gets Under Way In Garza County

"Survival Is Not Enough" is the theme of the 1958 March of Dimes which opened this week in Garza County and throughout the nation. Mrs. Pat N. Walker is chairman of this year's March of Dimes in Garza County. Coin containers and MOD posters went up this week under the direction of C. H. Hartel. The special gifts campaign, under the direction of J. B. Potts,

is scheduled to get under way this weekend. Crowning event of the MOD will be the "Mothers' March on Polio" to be conducted the last of January under the direction of Mrs. Max Gordon. This year's goal in Garza County is \$3,000, which is a few hundred dollars less than was raised in last year's campaign. Other workers named by Mrs. Walker are: Mrs. J. L. Ballentine,

county workers; Al Norris, special events; Mrs. Lee Davis, women's division, and Mrs. J. B. Potts, publicity. The objective of the 1958 MOD holds hope for further recovery from the crippling of paralytic polio to thousands of disabled Americans. "Blighting effects of the disease," said Mrs. Walker, "are marring the lives of tens of thousands of children and young people in this country, and the National Foundation for Infantile Paralysis estimates that one out of three sufferers could benefit from application of modern techniques of rehabilitation."

May 15 Filing Deadline For Candidates

Eight County, Precinct Offices To Be Voted On

Eight county and precinct offices are to be voted on in this year's primary and general elections. They are the offices of county judge, county superintendent, county and district clerk, county tax assessor - collector, county treasurer, precincts 2 and 4 county commissioners and justice of the peace. This will be the second election year of voting under the constitutional amendment setting terms of offices at four years and alternating every two years in voting on them. In 1956, the voting was on county sheriff, county attorney, tax assessor - collector, precincts 1 and 3 commissioners and constable. The tax assessor - collector's office, held by Marshall Tipton, is up for a vote this year because he was elected after the office

was made an elective one in the middle of a four-year term. Previously, the office had been an appointive one in this county. Present holders of the other offices to be voted on this year are: Pat N. Walker, county judge; Dean A. Robinson, county superintendent; Carl Cederholm, county and district clerk; Mrs. Ruth Lee, county treasurer; E. E. (Elva) Peel, precinct 2 commissioner; Sid Cross, precinct 4 commissioner; and D. C. Roberts, justice of the peace. Mrs. Lee is serving out the unexpired term of the late Miss Vera Gollehon as county treasurer.

Youth Injured In Traffic Accident

Joe Dick Rogers, 17, received a broken leg and a broken arm last Thursday when his motorcycle collided with an automobile at the intersection of North Broadway and Tenth Street. The youth, son of Mr. and Mrs. John Rogers, was taken to Garza Memorial Hospital, then transferred to Lubbock Methodist Hospital. A. B. Thomas, driver of the automobile involved in the collision, was not injured, according to Sheriff Carl Rains, who investigated. The sheriff said Thomas was driving east on Tenth and young Rogers was going north on Broadway when the collision occurred.

Sullivan Funeral Held Sunday

Funeral services for Miss Dora Ethel Sullivan, 65, who died Saturday at her home here, were conducted at 4 p. m. Sunday at the Church of the Nazarene. Miss Sullivan and her sister, Miss Mattie Sullivan, with whom she made her home, moved to Post in 1954 from Fort Worth. She had been a member of the Baptist Church since childhood.

Accident Victims Are In Lubbock Hospital

Two Post residents injured Dec. 19 in an automobile accident near Roswell, N. M., have been transferred from a Roswell hospital to Lubbock Methodist Hospital. They are Carl Adams and Rose Carter, who were en route to Roswell to be married when their automobile overturned. They were married a few days later in the Roswell hospital.

Ross Leon Segroves Jr. Arrives With New Year

Ross Leon Segroves Jr., born at 5:13 p. m. New Year's day at Garza Memorial Hospital, is "Mr. Post of 1957." Ross Leon, who weighed eight pounds and five and one-half ounces, is the son of Mr. and Mrs. R. L. Segroves of Post. The father is employed by a construction company.

Jaycees Begin Nationwide Search For Outstanding Young Farmers

By JOHN C. WHITE
Commissioner of Agriculture

The nationwide search is on again for four young men who will be named America's outstanding young farmers of 1957.

From now through early February, the public is invited to nominate young farmers within their own communities whose progress in agriculture merits public recognition and awards on local, state and national levels.

This is the fourth annual "search" of this type, sponsored jointly by the U. S. Junior Chamber of Commerce and the American Petroleum Institute Committee on Agriculture. For the past two years, the state winner from Texas has been named as one of the top four young farmers in the United States.

This year, Texas Jaycee chapters are again hoping to find a winner that will lead the field in

the national contest. Any farmer deriving two-thirds of his annual income from farming and who is between the ages of 21 through 35 is eligible to be nominated.

Three questions are the basic elements in picking a candidate. (1) Has the young man made outstanding progress in his agricultural career? (2) Has he carefully practiced conservation of both his natural and soil resources? (3) How has he contributed unselfishly to the well-being of the community?

After nominations are concluded, each community, through its Junior Chamber of Commerce, will select and publicly honor its most outstanding nominee. The man will then be entered in state or territorial judging, and from the 50 winners, the national panel will pick the four young men who will receive the top honors. The national awards program will take place in Indianapolis, Ind., on April 14-15-16, 1958.

Competition for the many intermediate awards and honors is keen. In 1957, some 10,000 young farmers were nominated in all 48 states, Hawaii and Alaska.

Local Jaycee chapters who wish to make an entry—or any individual—can secure the proper material by writing for the Outstanding Young Farmer Kit, U. S. Jaycees, Bolder Park, Box 7, Tulsa, Okla.

VA Questions And Answers

Q. I have a 100 per cent disability rating from VA. Does this mean I could receive VA outpatient treatment for any ailment I might have?

A. No. You may receive outpatient care only for the disability or disabilities which have been adjudged service-connected. Your notification from VA lists those specific conditions.

Q. I am considering paying GI insurance premiums once a year in advance. What if I were to die shortly after making my yearly payment? Would that money be lost?

A. No. VA would refund to your beneficiaries any money which hasn't been applied to premium payments actually due.

Q. I am a World War II veteran and I live in a house I bought with a GI loan. If I were forced to dispose of it after July 25, 1958, for some compelling reason such as health or job transfer, could I get my GI entitlement reinstated?

A. Yes, so long as VA would be relieved of its guaranty liability. You then would be eligible for another GI loan until Jan. 31, 1965, even though the World War II GI loan deadline would have passed.

Q. I am the father of a deceased World War II veteran, receiving monthly payments under the Survivor Benefits law. In computing my annual income to determine whether I will remain eligible for the payments, do I include just my net take-home pay or my gross wages including various deductions? I have a small part-time job.

A. You must include your gross salary, including money deducted for such items as taxes and retirement.

ROUNDUP DATES SET
HASKELL — The 1958 Rice Springs Roundup will be held May 8, 9 and 10, with the show again being produced by Morris Stephens of Silverton. Directors of the Saddle Tramps, who sponsor the event, have also voted to hold a Quarter Horse and Palomino Show and a Shetland Pony Show in connection with the Roundup.

ATTEND REUNION
Mr. and Mrs. J. F. Barron and daughters, Frances and Diana, were in Amherst recently to attend a Rankin family reunion at the home of the Rev. and Mrs. John S. Rankin. The Rev. Mr. Rankin is pastor of the First Baptist Church at Amherst.

NAMED TO BOARD
FLOYDADA — Marvin Shurbet, Floyd County farmer, has been named to the six-man Texas Water Development Board. The board will administer the giant \$200 million revolving fund voted by the citizens of Texas in November.

BOND ISSUE CARRIES
CROSBYTON — Voters of the Crosbyton Independent School District have approved a \$160,000 bond issue for construction of a 10-room elementary school building. The vote was 83 for and 14 against.

Miss Wilma Jean Welch Weds Burl E. Carey Tuesday Evening

The First Methodist Church of Lubbock, Texas, was the scene of a double ring wedding Tuesday evening which united Miss Wilma Jean Welch, daughter of Mr. and Mrs. Ralph Carey, and Burl Elvin Carey, son of Mr. and Mrs. Oliver R. Carey, in marriage.

Rev. Ross T. Welch of St. Peter's Church in San Antonio, officiating, performed the ceremony at 8 o'clock before an archway of greenery, flanked with white gladioli. White candles lighted the altar and aisle.

Year's eve was chosen as the wedding date, as it was the anniversary of the bride's grandparents, Mr. and Mrs. R. J. Welch, united in marriage by her father. The bride wore a gown of Chantilly lace and tulle. The bodice featured lace, accented with pearls and iridescent sequins. The skirt ended in a chapel train. The bride wore even-tinged gloves to complement her crown of pearl orange blossoms held her fingertip-length veil of milk illusion. She carried a pair of gardenias and stephanotis in a white Bible.

Burl E. Carey carried the tradition of something old, something new, something borrowed, something blue. She also wore a white hat and gloves.

Miss Margaret Welborn of Lubbock attended the bride as maid of honor and Misses Joyce Short and Christine Macina of Lubbock were bridesmaids. They were dressed in dresses of pink rose velveteen, fashioned with full skirts and dropped sleeves. Brief sleeves completed the bodices. Their bouquets were of American Beauty

Candlelight Ceremony Unites Couple Saturday In Hereford

Miss Rexene Welch and Novis Pennell were married Saturday evening in a candlelight ceremony in the home of the bride's sister, Mrs. Eugene Bruton of New Home.

The double ring ceremony was read by Clford Newcomb, minister of the Slaton Church of Christ, before an archway formed of greenery and candelabra.

Parents of the couple are Mr. and Mrs. Rex Welch of Route 1, Post, and Mr. and Mrs. O. F. Pennell, also of Route 1.

Given in marriage by her father, the bride wore a gown of white imported Chantilly type lace over taffeta in a soft shade of bluish pink. The fitted bodice was designed with a portrait neckline and was topped with a bolero jacket with a small satin-bound Peter Pan collar, held with a bow at the front, and featured three-quarter length sleeves. A wide cummerbund of satin topped the slender, sheath-type skirt.

She wore a matching tiara of iridescent braid, holding a small veil, and carried a pale pink orchid, surrounded by tiny white roses.

Mrs. Pennell carried out the tradition of something old, new, borrowed and blue. She wore

the wedding ring of her grandmother; a string of pearls, a gift from the bridegroom; a handkerchief belonging to her aunt, and a blue garter. She also wore a panny in her shoe for luck.

Mrs. Eugene Bruton of New Home, attended her sister as matron of honor. She wore a broadcaded sheath dress of pale beige, with matching jacket, and a pink hat. She carried a small nosegay.

The bride's niece, Jeanne Bruton, was flower girl. Her dress was of pink silk, trimmed in white lace and pink velvet. She wore a white hat.

Tommy Joe Murray of Canyon was best man for the occasion.

Mrs. Welch chose for her daughter's wedding, a suit of gray and black with white and black accessories. Mrs. Pennell wore a tan and white dress with matching jacket and brown accessories.

A reception was held immediately following the wedding.

Miss Maritta Pennell, sister of the bridegroom registered approximately 35 guests.

The table for the event was laid in white lace over pink and featured a centerpiece of two white styrofoam rings, topped with miniature birds, and encircled with pink carnations. Ribbons with the couple's names in silver were attached to the arrangement. Completing the table were white napkins with silver and pink lettering.

Refreshments of pink punch and a four-tiered wedding cake were served by Miss Leslie Nichols, Mrs. Noel White and Miss Barbara Wheatley.

For travel, the bride chose a gray suit with a black velvet hat and other accessories of black.

The couple will be at home in Hereford, where he is employed by Reddell & Suggs Drilling Contractors. Both are graduates of Post High School and the bridegroom attended West Texas State College.

Engaged Couple Honored With Dinner-Party In Bouchier Home

An anniversary dinner-party, honoring Miss Patty Lott and Kay Kirkpatrick, engaged couple, in observance of their first date one year ago, was held Dec. 23 in the home of Mr. and Mrs. Tom Bouchier at 8 o'clock in the evening.

Co-hostesses for the occasion were Mrs. R. J. Jennings, Miss Sally Jennings and Mrs. Phil Bouchier. They presented the couple with a gift of silver.

The buffet dinner was served from a table laid in white linen and silver candelabra. It was centered with an arrangement of pine, pine cones and white wedding bells.

Individual tables for the guests were centered with large white candles, with the couple's names lettered in glitter, over white linen.

The unique place cards were designed in a wedding motif of wedding bells, and the entertain-

ing rooms were decorated in holly and mistletoe, with white wedding bells.

Following the dinner, Miss Jennings showed movie pictures of a previous party, held Dec. 23, 1956, at which Miss Lott and her fiancé had their first date.

Guests for the occasion were Mr. and Mrs. John Lott, the bride-elect's parents; Miss Linda Lott, her sister; Bryan Williams 111, Mr. and Mrs. Willard Kirkpatrick, the prospective bridegroom's parents; Mr. and Mrs. Jack Kirkpatrick, his brother and sister-in-law; Mr. and Mrs. R. J. Jennings, Mr. and Mrs. Phil Bouchier, Tommy Bouchier, Mrs. W. A. Bouchier, Miss Jennings, Ronnie Bouchier of Houston, the hosts, and the guests of honor.

Miss Lott and Mr. Kirkpatrick will be married Feb. 22, at 8 p. m. in the First Methodist Church here.

Post Couple Exchange Wedding Vows In Kermit Christmas Day

Wedding vows were exchanged Christmas Day, Dec. 25, in the Grace Temple Baptist Church in Kermit by Miss LaRue Stevens and 2nd Lt. Billy G. Jones. The Rev. A. C. Hardin read the ceremony at 4 o'clock in the afternoon.

Parents of the couple are Mr. and Mrs. Roy Stevens and Mr. and Mrs. Carl Jones.

The bride was attended by her cousin, Mrs. Wayne Culvahouse, and 2nd Lt. Gomer C. Custer.

brother-in-law of the bridegroom, served as best man.

The couple left on a wedding trip to San Antonio and other points of interest in South Texas.

Mrs. Jones will join her husband in San Antonio, where he is stationed with the army, in February.

At present she is employed by the Snyder Public Schools.

Both the bride and her husband are graduates of Post High School. The bride is a graduate of Hardin-Simmons University in Abilene and the bridegroom attended Tarleton State College and graduated from Texas Technological College in Lubbock.

Wedding guests included parents of the couple, Cerretha Jones, 2nd Lt. and Mrs. Gomer C. Custer, Mr. and Mrs. Curtis Davies and Mr. and Mrs. Wayne Culvahouse.

Nation's Air Sampling Network Includes Six Stations In Texas

Texas now has six stations operating in a gigantic, coast-to-coast air sampling network designed to measure the extent and type of air pollution at points of collection in American cities and towns.

There are now 110 stations located throughout the nation, 51 of them in comparatively remote non-urban areas, operating in cooperation with the U. S. Public Health Service. The service provides the equipment, analyses, and reports on findings.

The stations work like this: Each is equipped with an improved, high-volume sampler, a small device which works like a vacuum cleaner. It draws air through a special glass fiber filter, which can easily be removed for analysis.

As air rushes through the filter pad, tiny particles of atmospheric matter adhere to it. After each 24 hours of operation, filters are removed and sent to network headquarters at the Robert A. Taft Engineering Center in Cincinnati, Ohio.

Analyses are made of chemical, physical, and radiological content of filters. State and local officials are informed of results so as to have a clearer picture of air pollution at collection points in their areas, and thus relate conditions to climate, geography, population densities, and industrial development.

The sampling stations are also capable of detecting radioactive fallout. "Fallout" is the name given to particles of matter, either from a bomb or other source in the air or from dust, earth, building material, or rocks atomized and made radioactive by exploding super weapons and sucked skyward by updrafts. The particles eventually settle to earth, sometimes after having been wafted great distances at tremendous heights.

Texas air sampling stations also provide valuable experience in studying normal background radiation, such as that produced by cosmic and ultra-violet rays to which the whole earth is constantly subjected.

Tax-Man Sam Sez

A lot of folks will argue with you on how good the 'good old days' were but many folks will argue that times haven't changed. A lot of boys and girls in high schools and colleges work on part-time jobs and especially summer jobs. These students had income tax withheld from their wages but did not make over \$600 in many cases. Fortunately, the law provides for Dad to claim them as exemption as well as allowing the student an exemption for himself on his own income tax return, providing Dad furnished chief support (more than 50 per cent) for Junior. It will pay the students to look up their Form W-2 statement of income tax withheld and be ready to file their income tax return on Jan. 1. The sooner they file, the sooner they will get a refund of the income taxes withheld from their wages last summer.

OLNEY — Dr. Travis A. White, president of Midwestern University, Wichita Falls, will be principal speaker at the Olney Chamber of Commerce banquet Jan. 16.

The heaviest single-car freight shipment ever moved on U. S. railroads weighed 673,000 pounds. Think what that would do to a highway!

Primarily, however, stations serve as general indicators of man-made air pollution, becoming more acute as technology advances.

Texas' industrial growth in the past 15 years has aroused interest in the problem. Industry itself is hard at work on a solution. One industry has already spent \$6 million to control pollution in and around its plants.

Before any state-wide effort can be made to finally end air pollution, we must know the type and extent of the threat. The air sampling stations are helping us find that answer.

AGRICULTURAL ENGINEER GIVES TIPS

Proper Winter Care Can Add Years To The Life Of Farm Machinery

COLLEGE STATION—Up to 30 per cent can be added to the life of farm machinery by giving it proper winter care. And too, says W. L. Ulich, extension agricultural engineer, time will be saved in getting the machinery back on the job when it is needed.

Here are suggestions from Ulich on winter machine care. Keep machinery under shelter when not in use. Coat with grease or a rust preventative all bright metal parts such as mower sickles, plow wings, cultivator and other plow points as well as the working parts of machinery. Rubber tires should be blocked up to take the weight of the machine off of them while in storage.

Gasoline should be drained from auxiliary motors. Spark plugs should be removed and three or four ounces of cylinder oil dropped into each cylinder. Turn the motor over a few times and replace the plugs.

The cooling system on all motors not used during the winter season should be drained. Place a cover over the engine exhaust pipe to keep out moisture. Lubricate all machinery when it goes into storage and charge all batteries. It's a good idea, says the engineer, to remove the batteries from the motor and to check them regularly to see that they remain fully charged.

CHRISTMAS VISITORS

Mr. and Mrs. R. V. Burnes and children, Ronald, Roy and Cynthia, of Lometa spent Christmas week with Mrs. Burnes' parents, Mr. and Mrs. Jack R. Mathis. They spent Sunday in Andrews with his sister and family, the A. F. Neinstants, and also visited the V. H. Kuykendolls.

BLUEPRINT FOR PEACE

Behind every structure, whether large or small, intricate or simple, there's a blueprint. And behind every blueprint there's a vision.

Someone has a dream. He explains it to an architect. Using the tools of his trade, the architect makes a blueprint—a plan to show workmen how to build what was first conceived in a dream.

Centuries upon centuries ago God had a vision. He made man in His image, then gave him the tools to fashion a blueprint. The Bible was the result—a blueprint for right-living for every man who breathes.

God is the Supreme Architect. Under Him today churches work to show man how to use the Bible as a blueprint for his own life. When that plan is followed, life is good. When it is ignored, confusion and disaster result.

Let the church of your choice show you and your family how to follow the blueprint for peaceful living.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

GOVERNOR AND FRIEND—After signing a proclamation designating the month of January, 1958, as "March of Dimes Month" in Texas, Gov. Price Daniel has some words of encouragement for tiny polio victim George Craig DeVilleneuve Jr., 22 months old, of Austin. Stricken at the age of 10 months, Craig will eventually make a 100 per cent recovery, his doctors say. Cost of his treatment is paid by March of Dimes funds supplied by the Travis County Chapter of the National Foundation for Infantile Paralysis.

BIG HELP IN LOOKING BOTH WAYS

Good Set Of Records Invaluable To Well-Managed Farm Or Home

time," as it refers to 1957 farm records, is at hand, and C. H. Bates, extension farm management specialist, says it is time to total the balance sheets on the various farm and home enterprises and take a look at what happened during the year.

A close look should point up the problems that must be met in planning for 1958 and on into the future. For, as Bates points out, a good set of farm records will reveal problems that are of vital concern to every family member. Records often reflect whether a management change did cut costs and raise profits or whether or not a minor farm enterprise should be dropped or expanded.

Too, a complete set of records is a must at income tax figuring time. Regularly kept records can save dollars at tax paying time for often deductible expenses are overlooked, especially if paid in cash, points out the specialist. With tax rates as they now are, the failure to claim \$25 deductible expenses adds \$5 to the tax bill and even more in the case of higher tax brackets. Bates also points out that com-

plete farm records are an asset when money must be borrowed for production or operating expenses. Knowing what the business is doing is a strong talking point in making credit arrangements. Too, farm families need facts upon which to base their decisions and none are more reliable, says Bates, than those obtained from farm records.

If a simple record book is needed, he suggests using the Texas Farm Record Book. It is available from the Exchange Store, College Station, Texas, for 75 cents a copy. And finally, he suggests that if assistance is needed on record keeping, a visit with the local extension agents be planned. Start now and be ahead in 1958.

Vegetable Growers Given Warning On Use Of Insecticide

COLLEGE STATION — Cases continue to crop up which indicate that not all vegetable growers are fully aware of the provisions of the Miller Amendment which sets residual tolerances for insecticides used on vegetables, says F. M. Fuller, extension entomologist.

The entomologist points out that the amendment gave the Pure Food and Drug Administration authority to set tolerances for insecticidal residues on vegetable crops and also to enforce the legislation. With the tolerance information available, the extension entomologists prepare insect control recommendations which are supplied to growers through the offices of the local county agents. When the recommendations are followed, Fuller says, no residue trouble should be experienced by growers.

But when the recommendations are not followed closely, and certain insecticides are used too close to the vegetable harvest date, excessive insecticidal residues make the vegetables shipped interstate subject to seizure by inspectors of the Pure Food and Drug Administration. This happened recently in Texas. One hundred eighty-four bushel baskets of spinach were seized in Detroit, Mich., because the spinach contained residues of DDT, greatly in excess of the tolerance of seven parts per million allowed.

This spinach was produced and shipped from the Crystal City area and its seizure represents a big loss to the grower. Fuller cites this case as an example of what can happen when recommendations are not followed. He offers this suggestion to vegetable growers; if there is any doubt about using a certain insecticide, see the local county agent and ask for a copy of the guide for controlling insects on vegetables.

Postings—

(Continued From Front Page) community is continuing to grow and expand. The city council got busy on some important regulatory ordinances and by year's end had about worked out details for building permit and wiring codes—both badly needed. Another of the real accomplishments which should flower in 1958 is the joint city-county park project which can now enter the planning and building stages.

That's a mighty impressive list of community accomplishments, isn't it? The mayor and the council deserve a lot of thanks for these.

But back to the question — what about 1958? Mayor Minor first pointed out that "the city can use a modern telephone system with rural coverage." Negotiations with General Telephone have been going on so long now that it is anybody's guess what 1958 might hold in this field. There's hope—even if a lot of the luster has worn off.

The city's biggest 1958 need, Mayor Minor says, is to get the White River dam project through and of course the council is going to do everything possible to see if that goal can't be reached before the year is out. An assist from Uncle Sam will be needed here but that decision should come in the next two or three months. There will be more paving in Post in 1958. Mayor Minor says, with enough warrants left to pave about 15 blocks on a "first come, first served" basis. Minor says the city wants to emphasize getting in "connecting blocks of paving" this year.

Mayor Minor also listed improvement of the fire department—including a new fire truck as a 1958 goal. The city is working to get the key insurance rate down and better fire equipment will save everybody money in the end besides providing extra fire protection for any flaming emergency.

Looking back, Mayor Minor recalled a talk he made before Rotary last spring in which he listed five major needs of the city. He still is standing by all five although he doesn't predict any full solution of any of the five in the 12 months ahead. The five are (1) city manager form of government for Post, (2) new city hall, library, fire station, and city jail, (3) a city court, uniformed police force of at least three officers and one patrol car, (4) extension of city limits in all directions, and (5) a city youth recreation center.

Mayor Minor doesn't see any municipal bond elections ahead for the new year. There will be a municipal election in April of course with three councilmen's posts coming up for a decision by the voters. Cy Thaxton, Powell Shytles, and L. A. Presson are the councilmen whose positions will be up for decision.

Post has come a long way in the last eight years or so and much continued progress will be made. The community is "growing up" from a small town to a progressive middle-sized city and those "growing pains" produce problems the answers to which cost money. Post has been moving steadily forward and a lot more of the same appears ahead.

OUTDOORS IN TEXAS

By VERN SANFORD

Right now most of us are putting our rifles away for a long time. We've been through a successful big game season, with more deer, antelope and javelinas killed in Texas than for many years. All have been in good condition.

Chances are you have a big bore rifle. It may be an ordinary lever action, a converted military model or a new model bolt or semi-automatic. Whatever it is, it deserves the best treatment you can give it.

If you've already sacked it away without a good cleaning job, then for your gun's sake, stop reading right now and clean that fowling piece.

While it is true that today's ammunition is loaded with non-corrosive primers, there still is residue in the barrel, and sweat marks on the outside. All must be removed. Run a good oil patch through the barrel, then give the gun a rubdown with a good gun oil, like Hoppe's, or with a silicon cloth.

If you store your gun in a case, be sure there is no moisture in the case, or that no sweating is possible. Otherwise you may come up with a ruined gun. Finding rust flecks on a favorite gun isn't a comfortable feeling.

Store for Safety

Storage of your gun is just as important. Every man would like to have a good metal or even a knotty pine gun cabinet. But not every man can. Some keep their guns behind the bedroom door. Others keep them sitting in the corner. But mostly they are stored in closets.

All this is dangerous, especially where there are children.

If you are one who keeps a gun

Teaff of Merkel, Sunday they accompanied Will Teaff to Idalou to attend funeral services for a cousin, Walter Isom.

Sunday guests of the Teaffs were Rev. and Mrs. Ed Bates, Mrs. Delbert Cockrell and Freddie of Post, Mr. and Mrs. Jerry Morris, Joan Morris, Kay, Fern, and Sue Roberts of Abilene, Ronnie Golle of House, N. M., Mr. and Mrs. Milton Bayer and family, Mrs. Harvey Stotts of Lubbock, the Dee Teaffs, and Mr. and Mrs. Bernie Teaff and children of Merkel.

Christmas guests of the Walter Browns were Mrs. Tom Longshore and children of Odessa.

Anyone coming through the Ragtown community had better bring a bottle of listerine (as one woman did), because of the many cases of flu and common colds.

Mrs. Bon Longshore and Mrs. Ollie Sappington were sick on Christmas day; the Rev. and Mrs. R. E. Bratton have been ill; A. O. Rosenbaum is very sick at his home here; H. F. Wheatley is ill; Mrs. Frank Bostic missed work Monday due to her son, Danny, being ill; Mr. and Mrs. Marshall Tipton and Marsha were sick last week; the Will Teaffs have both had the flu; Mr. and Mrs. Robert Craig and sons have been ill; Imogene Rosenbaum was sick last week; Mrs. A. M. Smith and daughters missed church Sunday due to illness; Mrs. Hargraves spent a few days in the clinic last week; Reta Fern Jones missed the Christmas activities because of sickness; the Ira Cook family are recovering from the flu; three members of the Junior Morris family were sick during the holidays — and the gin almost had to shut down due to so many of the workers having the flu. So Ragtown at present, is having its share of "sickeniks."

Usually he and your county agent will know landowners who don't object to reasonable shooting. They'll even let you fish on their places if you ask them the right way.

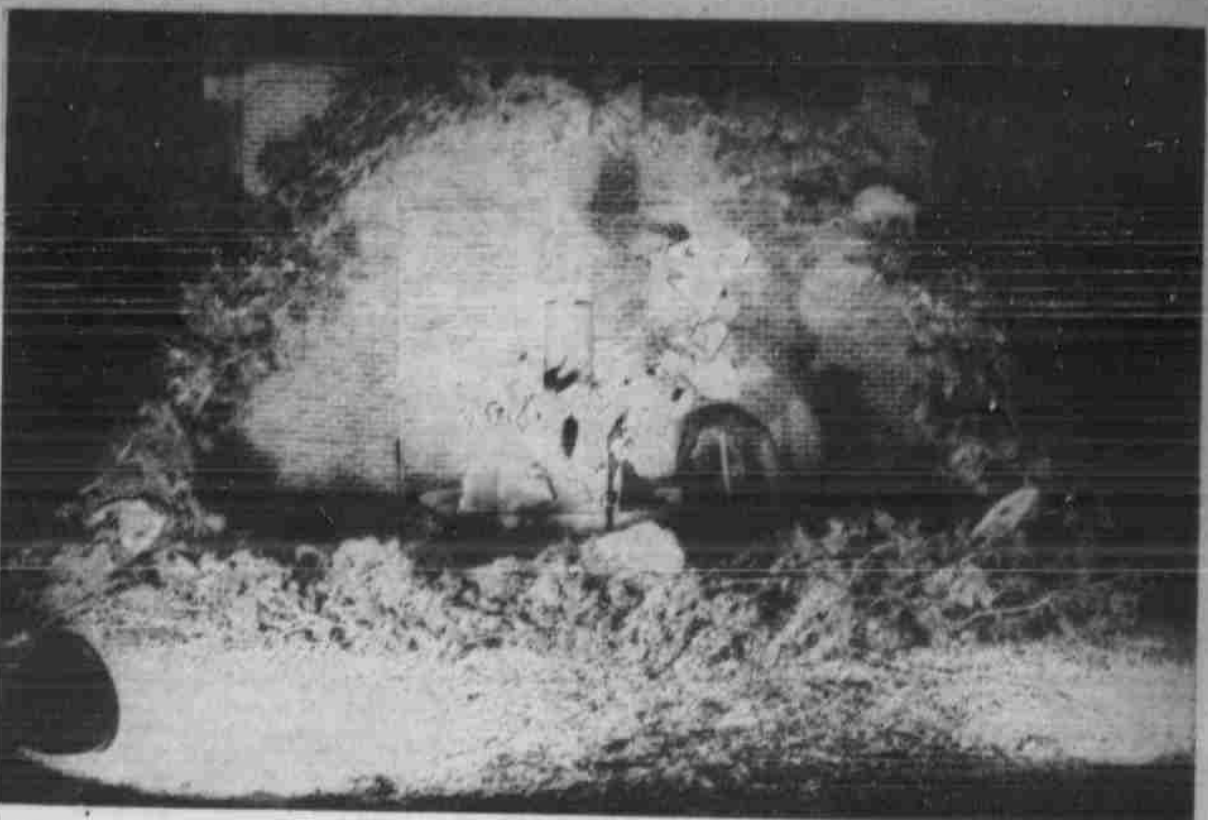

These game wardens are good citizens of your community and there will be a much better understanding all around.

Time for Trolines

If you are a catfisherman, now's the time to begin getting your lines ready.

If your line was used much during the last season, it may be pretty rotten by now. More than likely most of your stagoons have become rust rotted. Perhaps your hooks also are dull or rusted. Clean them up, and put on new stagoons.

There are now many new ways

Need For Strong Central State Agency Important To Water Problem Solution

Until Texas is willing to center responsibility for administration of its water laws, it is a long way from solving its water problems. That is the view of the Texas Society of Professional Engineers' Water Committee as expressed in a series of articles on the statewide water problem.

But, the TSPE Water Committee observes, the state board has not simply does not have any one agency with authority to speak for the state on water matters. Its Board of Water Engineers is assigned to study quantity and quality of ground and surface water, to make surveys on irrigation, furnish topographic maps to water received enough money to carry

out obligations imposed by the legislature. Texas, states the committee, districts, to locate reservoir sites and estimate their cost, to supervise water development and insure its greatest beneficial use, and to issue permits for public water appropriation.

The board today has the additional responsibility of making surveys necessary to watershed planning, but lacks personnel and funds to fulfill the legislative assignment.

Federal agencies have pointed out the importance of having a centralized agency with full authority to speak for the state in dealing with the U. S. government on water projects.

If law required all projects to be discussed with the board before any public money is spent on planning, developments could be better coordinated and correlated. This procedure is a fundamental to planning.

Unless some strong central agency is empowered to require such disclosures, planning for development of state water resources will not be practical. Furthermore, the application of planning ideas now advanced will, no doubt, be ineffective, because volunteer cooperation cannot be depended upon in such matters.

Continues the TSPE committee: In a state where water laws are so written that opposing factions can cite the same statute in support of their rival ends, only a strong administrative board would be able to determine future water rights. Statutes remain vague and contradictory; and courts, in many cases, have done little to clear them. The committee maintains it is frequently charged that many people in Texas don't want clearly-defined, restrictive water laws or a water board with power to enforce them.

The need is evident for a single strong agency with responsibility to administer the myriad duties now imposed in the water board, with authority to enforce its rules and regulations as the state Railroad Commission, states the committee.

Where would you find the answers?

1. What kinds of insurance should I carry on my property?
2. How much of each do I need?
3. Who will give me full-time service?
4. How can I be sure of quality protection?

Who can give you the answers to these questions, and many others on your insurance needs.

Your protection is our business. We are an independent local agency, and know the special conditions in this area. The service we provide is based on our practical experience.

Just a telephone call to us may be all that's needed to answer your insurance questions. If you need insurance, we offer you Stock Company Insurance—*noted for quality protection and full-time service.* And remember: if you're not fully insured—it's not enough!

Where did this shopping trip start?

Like so many of the most successful shopping expeditions hereabouts, this one started with a careful study of the advertising columns of this newspaper.

That way, the shopper got a quick, citywide preview of who was offering what for sale... and for how much.

Thus without waste motion or loss of time, she was able to make a bee-line for the stores that had what she wanted to buy at the prices she wanted to pay.

Advertising in this newspaper is a "two-way street." For the shopper, it's a time-saving short-cut to the best values in town. For the advertiser, it's an effective selling short-cut to his most responsive market.

Firemen Announce Turkey Winners

Twenty-five dressed turkeys were awarded at the Post Volunteer Fire Department's annual Christmas event held Dec. 21.

In addition to the turkey awards, the event included distribution of candy to children by Santa Claus, who rode into town on one of the city's fire trucks, and a Santa Claus parade led by the Post Antelope band.

Firms awarding turkeys in cooperation with the firemen and the winner of each turkey were as follows:

Hudman Furniture Co., Mrs. Ed Dye.
The Post Dispatch, Mrs. W. A. Long.
Tower Theatre, Pearl Putman.
Mason & Co., W. C. Caffey Sr.
Southwestern Public Service Co., Thelma Clark.
Greenfield Hardware, M. M. Samples.
Pioneer Gas Co., Junior Brown.
Herring's Dry Goods, Nell Rinkler.
Bob Collier Drug Store, Mrs. C. A. Miller Jr.
Caprock Chevrolet, J. S. Nichols.
Piggly Wiggly, L. H. Peel.
Shvites Implement Co., Mrs. L. E. Claborn Jr.
Kirkpatrick Auto Electric, Mrs. Will Allen Sr.
Thaxton Cleaners, Mrs. Bill Litton.
Texaco (S. E. Camp), Mrs. Cecil Lee.
Gulf Wholesale (Lester Nichols), Mrs. S. H. Murphy.
Young's Hiway Grocery, Mrs. Carter Gen White.
Phillips Quick Service, Wesley Guthrie.
K&K Food Market, Mrs. Sam Heintz.
Tom Power Ford, D. P. Mitchell.
Punk Peel Texaco Station, Roy James.
Garza Tire Co., Mrs. Pete Pennington.

Efforts were made in the 1850's to naturalize camels to the arid regions of Southwestern United States.

How to Keep a Free Press FREE

SELDOM does Freedom of the Press disappear in one annihilating blow.

In countries where the Press has been chained, there was first a period when it failed to realize and resist the beginnings of its end — the first encroachments on its freedom. There were powerful interests which wanted certain facts "kept out of the newspapers." There was pressure here and pressure there to have the truth withheld.

Before the Press of any nation succumbs to tyranny, there always has been a period of failure to speak out.

Here in America there is only the limitation of national security — the necessity to protect and preserve confidential military and scientific information — which can be accepted by a Press that is determined to stay free.

America's newspapers have made, and will continue to make, a conscientious effort to protect that security — at the same time keeping the people informed as fully as possible on all matters concerning their welfare. So long as American newspapers pursue that policy fearlessly, our Press, our people and our country shall remain free of tyranny.

Picking Up Highway Litter Costs \$50 Million A Year

Highway business is big. Any member of a maintenance crew can attest this time it's bad picking up litter thrown on highways of the nation costs \$50,000,000 a year in wages used to clear trash from highways and rights of way.

Effort to combat the litterbug in Texas, Highway Department conducted a survey to determine the distribution of litterbugs, as recommended by National Keep America Beautiful and other organizations, to reduce the litter problem on highways. A litterbug sack for stowing away debris which collects on a truck during a trip, a four-month test period July, August, and September, Texas Highway Department through its seven Highway

Information Bureaus at various entry points on the Texas border distributed 50,000 litterbags to motorists. The litterbags were furnished by the Texas Motel Assn.

At the completion of the test period, a poll of 200 highway maintenance foremen throughout the state was taken to get their opinions of the litterbug. The fact that very few of the bags were found discarded along the roadsides indicated that the bags were being used, emptied, and re-used by the traveling public. Approximately 70 per cent of the foremen were in favor of the litterbug idea for reducing highway cleanups.

The survey clearly indicated that the worst litterbugs were local people, not the out-of-state visitors nor motorists from another area of the state, but local residents who discarded trash, bottles, and cans from automobiles and trucks. As one foreman put it, "People will do things at home they

wouldn't dare do away from home." Crewmen who clean the highways and rights of way stated that a wide distribution of the litterbags to both local and out-of-state motorists through the facilities of filling stations, restaurants, motels, hotels, and allied tourist services might do a great deal toward making Texans conscious of the litterbug problem.

All personnel polled suggested that a widespread educational program be initiated to boost the use of the litterbag. Motorists don't realize that the habit of tossing litter on Texas highways is not only costly and dangerous, but is also against the law. Violators can be fined up to \$200 and costs.

One foreman commented, "There are two relatively new innovations in automobiles which will help hold litter to a minimum—air conditioning and the built-in rubbish compartments. People are reluctant to roll a window down in an air-cooled automobile and get a blast of hot air just to throw something out the window. In some 1958 models, the manufacturers have installed a simple litter compartment which will keep a lot of rubbish off the roads. Perhaps the service station attendants could empty them as a free service. However, at present, the best solution seems to be the litterbag."

Though progress has been slow, indications are that one day Texas highways and roadside parks may be free of unsightly litter—and the litterbug vanquished by the litterbag plus a genuine desire among motorists to keep the roadsides clean.

State Capital NEWS

By Vern Sanford

By VERN SANFORD
Texas Press Association

AUSTIN — Gov. Price Daniel took a look backward and a look forward and focused on two issues as crucial to Texans: water conservation (1957) and tidelands defense (1958).

Daniel named the newly-passed water conservation and planning measures as the most significant accomplishment during the first year of his administration. Texas is 25 years behind its neighbor states in this field, said the governor, but now can "begin to catch up."

Looking ahead, the governor called on fellow citizens to square off for another round with the federal government. Two-thirds of Texas' multi-million-dollar tidelands are at stake. Latest suit in the decade-long struggle was filed recently by the U. S. attorney general and likely will be considered in the Supreme Court sometime this year. It contends that Texas owns land three miles from shore, rather than three leagues (10 1/2 miles) claimed by the state.

Daniel said he would cooperate with Texas Attorney General Will Wilson in every way in preparing the state's defense. As attorney general and U. S. senator, Daniel has twice before, in court and Congress, led Texas' fight for its oil-rich tidelands.

Hart To Help
Former Supreme Court Justice James P. Hart of Austin will serve the Attorney General's Department as special counsel in preparation of Texas' defense against the tidelands suit.

Wilson said he'll give all his time during the next two months to the case. He also announced that his assistants, James N. Ludlum and James H. Rogers, and Austin attorney Chrys Dougherty will work on the case.

Rudder Resigns

Land Commissioner Earl Rudder will leave the Capital City Feb. 1 to become vice president of his alma mater, Texas A&M.

He will be succeeded by Bill Allcorn, fraud-fighting district attorney of Brown County (Brownwood).

Rudder was appointed land commissioner by Gov. Allan Shivers, early in 1955, to replace Bascom Giles. In resigning, Rudder said he felt "in all sincerity" he had accomplished his "mission to restore the land office to a place of confidence and respect."

Allcorn, while district attorney, secured the conviction of Mario (El Turko) Sapet for a murder arising from South Texas' political troubles. He also served as a special assistant to the attorney general in ferreting out veterans land swindlers.

After naming Allcorn, Gov. Daniel also announced appointment of David J. Morris of Brown County DA.

Big Turnover

Besides those above, some 85 other Texans will have new jobs in the new year.

Governor Daniel put in some December overtime ploughing through lists of names and making appointments to scores of vacancies that had piled up on state boards, commissions and committees. Among recent appointments:

Water Development Board — Marvin Nichols of Fort Worth, chairman; C. Y. (Cy) Mills of Mission, James D. Sartwell, of Houston; Bill Taylor of Longview, Marvin Shurbet of Petersburg and W. (Buck) Tinsley of Austin. This board is to administer the new \$200,000,000 program to build local water conservation projects.

State Law Enforcement Commission — Galloway Calhoun of Tyler, Dr. W. R. White of Waco, Jack

Five Young Texans Named By Jaycees

GRAND PRAIRIE — The Five Outstanding Young Texans for 1957—a drug company president, a railroad executive, a banker, an attorney, and a surgeon—have been announced by W. E. Snelson, president of the Texas Junior Chamber of Commerce.

Cited for outstanding contributions to the general welfare of the community, state and nation as well as for excellent achievement in their chosen profession or business are: Walter N. Corrigan, 34, San Antonio; Jack Jeffus, 32, Wichita Falls; William P. Ludwig Jr., 30, Texas City; C. Cullen Smith, 32, Waco, and Dr. Hugh Wilson, 33, Dallas.

1957 Goes On Record As Eventful Year In City, County

Birthdays Celebration Highlights Happenings

1957 was an eventful year for Garza County, most widely heralded being the city's Golden Jubilee celebration Sept. 14-17. Thousands of visitors, many dignitaries, received nationwide publicity in stories and pictures. Content to dwell only on the colorful past during the Golden Jubilee, the citizens of the city and county also made big news in a number of other ways—with progress.

JANUARY

County officials usher in the new year by taking oaths of office; March of Dimes gets under way with Almon Martin and Bob M. J. Malouf; 16 practices closed for county's 1957 Agricultural Conservation Program; C. Childs, 67, of the Graham and Grassland communities, and M. J. RED LETTER DAY—Aug. 17, 1957, was a red letter day in the towns of Post, Crosbyton, Spar and Ralls. That was the day on which voters overwhelmingly approved a \$4,000,000 bond issue for construction of the White River dam. Shown pointing to the date on the calendar is Tom Bouchier, chairman of the board of White River Municipal Water District. Also shown are the other two Post directors, Dr. A. C. Surman (left) and Rube Jennings.

FIELD OPENER — This well, the Paul C. Teas No. 1-A J. B. Slaughter Estate, was a Lower Strawn discovery on the U Laxy S Ranch, south of Post, early in 1957. Producing at 8,351 feet, the well is the deepest in the county. The discovery was indicative of oil progress here during the year, with 10 new fields discovered.

OF MILL EXPANSION PROGRAM — This is one of two big trucks put on during 1957 to help in Postex Cotton Mills, Inc. expansion program. The trucks shuttle back and forth between the Post mill, a dye plant in Alabama and a cloth plant in Sherman. The vehicles carry the name of the county and the mill's products over a wide area of the South.
