## Vandals Send Highway Machinery On 'Bender'

## Three Trustees Elected In Record Vote Here

## Damage Is Extensive

By CHARLES DIDWAY  
Burglaries took a back seat to vandalism here over the weekend, with damage estimated at several thousand dollars being caused to two heavy pieces of road machinery by vandals who put a D-8 crawler tractor and a dirt loader into motion and then let them "run wild."

There were four break-ins over the weekend, but they were minor compared to the damage caused by vandals at a construction site on U. S. Highway 84 about six miles southwest of town.

The tractor rumbled through a pasture, a right-of-way fence, a section of a stock pen and a stock tank before running its blade into the ground against a steep gully bank, more than a mile from where it had started its unattended run. The dirt loader, its throttle propped open with a stick, didn't leave the construction site, but traveled in a circle until all its rods were thrown out and its motor damaged beyond repair.

Full extent of the damage to the tractor had not been determined late Wednesday. Employees of Bryan & Hoffman, owners of the equipment, had difficulty getting the machine out of the gully. The equipment was being used by the contractors in the four-lane widening job nearing completion on U. S. 84.

The property across which the tractor rumbled on its wild run belongs to K. Stoker—at the site of his old stock loading pens, Sheriff Carl Rains said.

The vandalism, discovered Sunday, is believed to have occurred either late Saturday night or early Sunday morning. Constable J. A. Johnson, the first officer notified by the road construction men, made a preliminary investigation before notifying the sheriff.

Texas Ranger R. E. "Razz" Renfrow of Lubbock was here Monday to take a hand in the investigation, which was being conducted by Sheriff Rains.

## To Query Members On C-C Manager

Questionnaires on proposed employment of a full-time manager of the Post Chamber of Commerce will be mailed members within the next few days, according to Ralph Kirkpatrick, president of the organization.

The questionnaire will ask each member to state whether or not he is in favor of employment of a full-time manager, Kirkpatrick said.

The salary of a full-time manager would be about \$6,000 a year, it has been estimated by C. of C. officials.

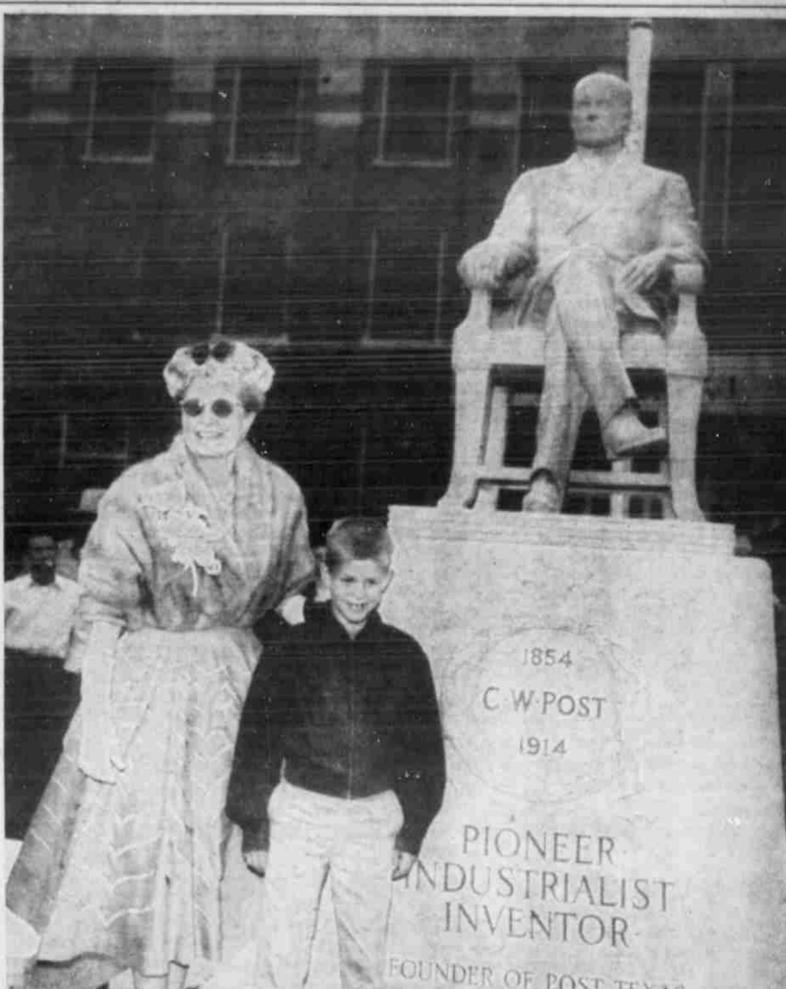

The response of the members to the questionnaires will enable the directors to decide on a future course of action in regard to employment of a manager, the president said.

## Councilmen Sworn In At Monday Night Meeting

The April 2 vote was canvassed, two councilmen sworn in for new terms and a number of city projects discussed at the regular monthly city council meeting Monday night.

Following a canvass of the election returns, which showed a total of 50 votes cast, Powell Shytles and C. R. Thaxton were administered the oath of office by Mayor James L. Minor, L. A. Presson, who was re-elected along with Shytles and Thaxton in the April 2 election, will be sworn in later.

The council discussed, but took no action, on a proposal by the Garza County commissioners' court that the city pay half of an estimated \$4,400 for paying of the

PROMISE FULFILLED — Mrs. Merriweather Post and her grandson, eight-year-old David Rumbough, are shown after unveiling the statue of Mrs. Post's father, C. W. ## 'Duster' Links Present With Past At Unveiling Of Statue

By JIM CORNISH  
Probably it was fitting, though disconcerting, that the statue of C. W. Post, town founder, was unveiled Saturday afternoon at 4 o'clock in a stinging sandstorm.

Such weather certainly is one of the few remaining links in the lives of most Post residents today with the hardy pioneers who built this town almost 51 years ago.

The colorful statue ceremony, moved inside to the grade school auditorium to escape the grit and 50-mile-an-hour winds, not only drew a standing room only throng of 650 adults and youngsters. It also attracted another estimated 400

who watched proceedings via closed circuit television from classrooms, library, and gymnasium in the junior high building next door.

Mrs. Merriweather Post, who gave the statue of her father to the city, uttered "nary," a word about the bad brand of West Texas weather she encountered both Friday and Saturday, other than saying she had encountered Texas sandstorms before.

When the time came to unveil the statue on the east courthouse lawn, Mrs. Post stepped smilingly into the sand and wind. With her youngest grandson present, David Rumbough, 8, she pulled the green ribbon which slid the canvases covering from the life-sized likeness of her father seated in a chair atop a five-foot pedestal of Georgia granite.

Inscribed on the front of the statue's base were these words: "1854, C. W. Post, 1914, Pioneer, Industrialist, Inventor, Founder of Post, Texas, in 1907." On the back of the pedestal appeared these additional words: "Presented by Marjorie Merriweather Post in loving memory of her father, in com-

memoration of The Golden Jubilee of the city of Post, 1907-1957."

Mayor James Minor told Mrs. Post and her party and the large crowd in his speech at the dedication ceremony that "we are especially and particularly pleased and proud to have three generations of C. W. Post's family with us today."

"We feel a friendly kinship with them," he declared. "And we hope there will always be a close bond between the members of the Post family and the citizens of the city he founded."

Mayor Minor called Post "an extraordinary man, a man of boundless energy and restless imagination, who believed firmly in the rights and abilities of the American individual", and who "throughout his life was moved by a strong desire to aid his fellow men by making it possible for them to help themselves reach their goals."

In the speech, Minor briefly reviewed the many accomplishments of Post in building this town on the West Texas plains, and de-

THOMAS W. GAMBLIN  
Attorney And CPA  
Opens Office Here

Post has a new attorney and certified public accountant in Thomas W. Gamblin, who opened his office here Saturday in the Stevens Style Shop building on West Main Street.

Gamblin comes to Post from Dallas, although he is a West Texan, having been reared in Lubbock where he was graduated from high school and then Texas Tech in 1948.

He received his law degree from Southern Methodist University in 1954 and has practiced in Dallas since that time.

Gamblin told The Dispatch he wanted to return to West Texas and heard about the bright future of Post.

## Oil Spotlight In Sudden Shift To Southland Area

Oil interest this week shifted to the Southland area when T. F. Hodge of Fort Worth completed the No. 1 Mrs. A. J. Matlock in the third pay zone in the Hackberry-San Andres field.

Hodge's discovery was in the Gloria area at a site four miles south of Southland. It pumped 105 barrels of 34 gravity oil daily through perforations at 4,235 to 4,245 feet after 1,500 gallons of acid.

Earlier pays in the field were in the upper Hackberry and lower San Andres.

But all the Southland oil news wasn't so bright. Paul Teas, Jr., No. 1 Sidney Johnson, drilled as a "tight hole" with no information released as the drilling progressed, was plugged and abandoned at 4,265 feet. It is located two miles southeast of Southland. James Simms, Texas superintendent, said there was no free oil in testing of the well.

No new drilling starts were reported this week on the sprawling Slaughter ranch area south of Post which has held most of the oil interest here for the last several weeks.

M. L. Pierce, Shell superintendent, announced that Shell's Slaughter 1-D wildcat, west of the ranchhouse, got only salt water in drillstem testing of the Ellenburger and the Ellenburger has been plugged off preparatory to completing the wildcat as a Pennsylvania producer.

All other Shell wells on the Slaughter have been dual produce. See OIL SPOTLIGHT, Page 8

## Zone Leaders Are Named For Census

Names of 11 zone leaders for the city-wide census to be taken April 20 by the Post Ministerial Alliance were announced today by the Rev. Clinton Edwards, personnel director for the census.

Leaders named by Rev. Edwards and the churches they represent are: Pat N. Walker, Bob Collier and Harold Voss, First Methodist; Porter V. Roberts, First Christian; Ray N. Smith, Walter Johnson, William Robinson, Dowe H. Mayfield and J. Lee Bowen, First Baptist, and Earl Rogers and W. R. Bennett, Church of the Nazarene.

Names of zone leaders for the other churches have not been submitted, Rev. Edwards said.

The zone leaders will meet at 3 p. m. Sunday at the First Presbyterian Church for a briefing and to receive instruction kits.

The leaders will be in charge of the teams that will work in the various zones.

## Through Traffic Moves Again On S. Broadway

Merchants and motels on South Broadway, hard-hit for the last three months by the US 84 highway detour which cut off going-through traffic from the street, were back in the "tourist business" Tuesday afternoon.

The detour signs were taken down after 12 weeks and traffic began to move through South Broadway on US 84 again. The detour had been necessary to permit four-lane work around the railroad overpass south of the city.

## Voters At Justiceburg Elect Three Trustees

Unopposed candidates Riley Miller, Jim Tidwell and Billy Blacklock were elected to the board of trustees of the Justiceburg school district in Saturday's election.

Miller and Tidwell were candidates for re-election. Blacklock will fill a vacancy created several months ago by the resignation of Albert Bevers.

Other members of the board are Bandy Cash, Tommy Forrest, Clyde McAlister and Mason Justice.

LOCAL TALENT ON PROGRAM—Jerry Hitt, Post High School senior, is shown with Danny Thomas after playing the piano on the Thomas-Hyington Show Saturday afternoon. Jerry played "Autumn Leaves" and "Indian Love Call" as an encore number. Like others appearing on the stage, Jerry came in for some good-natured kidding from the TV star.—(Staff Photo).

**Geologists To Study Area Of Strategic Interest To Oilmen**

LUBBOCK—Texas Tech and University of Texas geologists have joined forces to study 1,000 square miles of strategic interest to the petroleum industry.

The area, called "Kent's Quadrangle of Trans-Pecos Texas," is located north of the Davis Mountains in West Texas.

A casual look at the rocky, broken terrain might cause a layman to wonder why the UT Bureau of Economic Geology is sponsoring the project.

Obviously it isn't prolific oil-producing country.

"But it's a place where many of the geologic strata that are in oil-producing country crop out on the earth's surface," Tech Geologist John Brand explained.

"Studying these outcroppings allows us to identify details of strata that extend into oil and gas producing areas," he added.

Purpose of the current project is to study details of the Cretaceous, a geologic period estimated to be 70 or 90 million years old.

Terminology decided upon for details found in the study may be used in the future by oilmen in communicating about the geologic system.

Dr. Brand is working with Prof. Ronald K. DeFord of the University of Texas on the study. Other staff members and graduate students of both institutions are helping on the project.

Church News

The Rev. J. R. Brincefield of the Assembly of God Church has announced his sermon topic for Sunday. He will preach on "The Answer", from Matthew 3:11—"He shall baptise you with The Holy Ghost and with Fire". An invitation is extended to the public to attend the revival still in progress at the Assembly of God Church, where Rev. and Mrs. Norman Jones are the evangelists for the services each evening at 7:30 o'clock. There will be a meeting of all Sunday school officers and teachers Friday, April 17, at 7:30 o'clock at the First Presbyterian Church. Miss Thelma Glenn, publication division field representative of the Board of Christian Education of the First Presbyterian Church, will be on hand to meet with the group. Miss Glenn's assignment is to itinerate the churches and counseling with the teachers, officers, pastors, and superintendents on their various problems in Christian education. The Mattie Williams Memorial Circle will meet at the Presbyterian Church, Thursday at 9 a. m. April 17. The program will be the Bible study No. 7, "Luke and the Social Outcasts." The Woman's Society of Christian Service of the First Methodist Church will complete study on the Gospel of Mark at 3 o'clock at the church Monday. All the women are urged to attend. Sunday night after the services at the Church of Christ all of the Bible School teachers met and discussed and decided to have a regular monthly meeting of the teachers each first Sunday night of each month. Joe Barnett of Anton will hold a meeting at the Church of Christ beginning Monday, April 14 and continuing until Sunday, April 20. Everyone is invited to attend. Post Statue

(Continued From Front Page) Present-day engineers tell us that C. W. Post's planning of this city is a model of achievement without parallel—and could only have been accomplished by a man of creative imagination with a visionary perspective possessed by few men. Mrs. Post went to the auditorium platform at the conclusion of the mayor's address to thank him for the fine tribute he had paid to her father. Her words were not picked up by the microphones and she did not step up to them to address the crowd. Mayor Russell V. Worgess of Battle Creek, Mich., who flew down here with his wife to participate in the statue dedication service, spoke briefly before Mayor Minor's speech. He said that "we in Battle Creek also are indebted to C. W. Post and the Post Cereal Co. for all they have done for our city. He pointed out that Mr. Post was always concerned about the welfare of his employees and did a great deal for Battle Creek in a personal way. Worgess ended by saying he considered it a great honor to have a part in the ceremonies. Worgess was introduced by O. L. Weakley, who presided as master of ceremonies. Weakley introduced Mayor Minor as "the outstanding mayor of West Texas." Prior to Mayor Minor's speech, the colorfully costumed International A Capella choir from Wayland Baptist College of Plainview under the direction of W. E. Steward sang a short concert of western and religious numbers. The choir leaves this week on a spring tour of the eastern United States. Danny Thomas, one of the nation's top television stars, was the laugh-provoking headliner of the special entertainment which followed the statue program in the auditorium. Spring Byington, TV star of "December Bride", made a brief appearance with a short talk in which she told Mrs. Post that "I read the book of Post City, Tex., and what struck me as the most important thing your father did was that he invested in people. "I hope the whole state of Texas follows his example." Danny Thomas, who came to Post despite a painfully wrenched back, never let on he wasn't having the time of his life. "I don't mind the dust at all," the black-haired Danny told the audience. "But my hair is blond, you know." "I'm glad to be here—I'm glad the boss invited me," Thomas said grinning down at Mrs. Post seated near the front of the auditorium. Thomas is sponsored on television by Post products of General Foods, the business C. W. Post founded. Mrs. Post is a director of General Foods. Filling in his background, Thomas told the crowd that he grew up in a small town — Deerfield, Mich.—and that "my father raised horses—and me. In fact I was brought into this world by a veterinarian." He went on to say he was raised — "or forced up"—in one of the toughest neighborhoods in the world when his family moved to Cleveland. "We invented juvenile delinquency," he said. Turning to his sponsors, whom he termed "good, honorable people", Thomas told the story of how 13 years ago he had been fired by the Post people for clowning about the product. "It took me 13 years to get back with them," he said. Thomas said it was back in the days when he got a break on the Post Toasties radio show. The man giving the commercial was explaining how "they taste so good — eat them with strawberries and cream." "I jumped up," the TV comic said, "and shouted, 'What wouldn't taste good with strawberries and cream?' I was fired as soon as we were off the air." Thomas went on to say that money doesn't mean much. Back in 1941, he recalled, the Thomases owed \$114 and "I thought I'd never get out of debt. Then I got my break and made good. Since 1945 I've earned from \$3,000 a week to \$37,500 for a week. I have a non-cancellable contract with 'the boss'. In fact I stand proudly before you owing \$280,000. How successful can you get?" Danny started off the entertainment by introducing Jerry Hill, local young pianist, called him back for a second number, and then interviewed him. Halfway through his show, he introduced "The King's Four", a very unusual instrumental and singing group of five which Thomas said he "found" on a tip from his movie actor friend Alan Ladd playing in a California night club. Thomas told the audience he hopes to take "The King's Four" to Las Vegas with him for a night club engagement if he can cancel the act he now has booked to appear with him. He added he hopes to work them into his TV show as well. "The King's Four, four of the five playing a wide variety of instruments and singing and dancing, gave an entertaining and energetic performance which drew heavy applause. The group possessed unusual showmanship and even got to strutting around the stage in a rock 'n' roll number. To conclude the entertainment, Thomas sang a popular song, accompanied by his pianist, Walter Popp, and then led the entire crowd in singing "The Easter Parade." His final bit of fun-play was leading "The King's Four" in "Post Cereals' Oath of Allegiance to the Boss" — meaning Mrs. Post. After the show, youngsters crowded to the stage for autographs from both Thomas and Spring Byington. Prior to the dedication and entertainment and statue unveiling Saturday afternoon Mrs. Post was hostess at a buffet luncheon in the school lunchroom at which some 200, including the TV stars, members of her party who flew in to West Texas with her, Post pioneers, and other local residents, were her guests. The luncheon was prepared by Mrs. Wilma Hill, high school home economics instructor, and the FHA girls. Mrs. Post and her party arrived at about 12:40 p. m. from Lubbock. She was wearing a gray dress for the occasion with a large white orchid corsage. After the guests had eaten she arose and introduced each member of her own party to the Post people present as well as TV stars Spring Byington and Danny Thomas. Mayor and Mrs. J. A. Meis Minor and Mayor and Mrs. Worgess of Battle Creek met each of the guests as they arrived for the luncheon. Mrs. Post and her party flew in to Lubbock in two chartered Trans-Texas Airline DC-3s Thursday afternoon to be greeted by a large turnout of dignitaries and photographers at the Municipal Airport. The welcoming committee from Post, besides Mayor and Mrs. Minor, included County Judge Pat Walker, George Samson, O. L. Weakley, R. J. (Rube) Jennings, and City Councilman Johnny Hopkins. Mayor Minor presented Mrs. Post with a bouquet of red roses as she stepped off the plane and introduced her to Mayor Lennis Baker of Lubbock and other Lubbock dignitaries and then to members of the Post welcoming committee. The commercial airliner, bringing Mayor and Mrs. Worgess from Battle Creek, arrived only minutes after the two planes containing the Post party landed. The Post group and Lubbock Mayor waited at the same ramp to greet the Worgesses an dtio pose for pictures with them. The two-day sandstorm began Friday morning as Mrs. Post and her party left Lubbock for a day-long tour of Mrs. Post's holdings in the Levelland and Post areas. But it didn't postpone or cancel out the sightseeing from the air-conditioned bus. In mid-afternoon, the bus was driven right into the Post Stampede Rodeo arena so that Mrs. Post and her guests could watch close-at-hand and shoot as many pictures as they wanted of Double U cowboys in cutting horse and branding exhibits with Double U cattle and calves. Friday evening a West Texas barbecue was held in honor of Mayor Worgess at the J. E. Birdwell ranch east of the city. After the beef, beans, and fried potatoes had been consumed, Mayor Worgess was presented with a cowboy hat by Mayor Minor on behalf of Post. Earlier in the day, the Battle Creek mayor had been presented with a handmade pair of cowboy boots by Post. Worgess posed for numerous pictures with his new cowboy hat and boots and with Sheriff Carl Rains' gun he got in some "picture snapping" practice of the gun fighter's draw. While Post men were entertaining Mayor Worgess, Mrs. Worgess was being honored at Mayor Minor's home with a coffee given by Mrs. Minor. Mayor Worgess told The Dispatch that "the hospitality and friendliness shown us here has been the finest we've ever enjoyed anywhere." The mayor said he hoped he and his wife could someday bring their four youngsters and return to visit Post on a vacation trip. Mayor and Mrs. Worgess left by plane Saturday night from Lubbock to return home. Mrs. Post and her party departed Easter Sunday morning, shortly after 10 a. m., for their flight back to the East via Dallas. Swifts are the swiftest of birds. ## 'Backyard Living' Time Almost Here Says Garza Agent

By JESSIE PEARCE  
With warm weather and vacation time almost here, perhaps all of us need to take a look at our outdoor living equipment and make any needed repairs and replacements. That metal lawn furniture may need repainting and the plastic and fabric seats replaced. Use a good metal paint, which comes in many colors, and buy the seat material by the yard. This is available in widths from three inches up and also comes in many colors. This material can be sewed on the sewing machine and is really quite easy to do. Measure the old seat for the size, sew the hems securely, leaving the ends open, and by removing a few nuts, the chairs can be disassembled and the new seats slipped on.

## Mrs. Hub Haire To Attend OES School

Mrs. Hub Haire, Deputy Grand Matron of District 2, Section 4 of the Order of the Eastern Star, is completing her plans to attend the annual OES School in Lubbock, to be held April 12 at the Lubbock Masonic Hall. Post and Southland are included in Section 4 of the organization.

Mrs. Haire urges all OES members to attend the school, one of the best such schools in the state, as they are trying for a record-breaking attendance this year.

Mrs. Haire will be one of five Grand Officers for the day of schooling. Others are: Ruby Enloe, Worthy Grand Matron; Dr. Russell Holt, Worthy Grand Patron; Elizabeth Elliott, Grand Examiner; and Inez Boyd, District Deputy Grand Matron.

## 'The Music Man' Booked For Fair

"The Music Man," currently Broadway's hottest musical hit, has been booked as the Music Hall attraction for the 1958 State Fair of Texas, Oct. 4 through 19.

The Meredith Willson musical is now playing to capacity audiences in its fifteenth week on Broadway.

Twenty-four performances will be presented during the State Fair. There will be sixteen evening performances, one each night of the fair, and eight matinees, on Saturdays, Sundays and Wednesdays.

Dallas will be the third city in the nation to see the show. The national company of the show will be organized in Los Angeles and will come to Dallas after playing its initial engagement there. Following the fair, it will return to the coast.

Casting has not yet been announced for the national company which will play here.

## NEW REGION V IS BEING CREATED

### Salvation Army's Big West Texas Territory Split Into Two Units

DALLAS—Because of the tremendous growth and development of West Texas and the resulting increase in activities of The Salvation Army, it has been found necessary to divide that territory into two regions and to assign another man to the staff of field representatives for the Service Unit Department, Dan Eddy, service unit director for The Salvation Army, has announced.

Dan Elliott Johnston, who has served for a number of years as field representative for Region IV, which included West Texas from the northern Panhandle to the Rio Grande, has been transferred from Abilene to Lubbock and will continue to serve the far West Texas area. The large area known as Region IV, and served by Johnston, is being divided and a new Region V is being created. Johnston will

serve as field representative for Region V. Charles Brannen of Abilene will serve as field representative for Region IV.

During the years that Johnston has served West Texas for The Salvation Army's Service Unit Department, he has done outstanding work, Eddy said in announcing the creation of a new Region V. He has developed many close friendships and has won many active supporters for The Salvation Army. The number of Service Unit Committees has been increased from 29 to 54 during the time he served this area. Many towns and communities requested the establishment of Service Units of The Salvation Army when they learn-

## Youth - BY THE DRAWERFUL

In a nation as big as ours there is always a tendency to overlook the individual and to think only of groups. Youth gets the brunt of this generalizing.

About three percent of our boys and girls are delinquent. But some folks would have us believe that every child is a potential delinquent.

Time we realized that children aren't chicks! They don't grow up by the drawerful to have the same characteristics and habits.

Children respond to love, parental example, religious guidance. They possess an ever-increasing aptitude for responsibility, trust, and faith.

Most of our boys and girls will grow up to assume their rightful place in an orderly, Christian society. Some will populate our jails. But the destiny of the individual youth is not a matter of chance and percentage . . .

It is determined primarily by the conscientiousness of loving parents, and by the persistency with which his natural religious interests are cultivated.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

# Cotton Guide Is Drafted By Extension Service And Station

The Plains Cotton Extension Service and the Lubbock Experiment Station have met with the Extension Service and Agricultural Experiment Station to draft a "Plains Cotton Guide."

The Extension Service Station and other Extension Service agents have met with the Extension Service and Agricultural Experiment Station to draft a "Plains Cotton Guide."

Directors of the PCG approved the educational and prompt promotional program at the last board meeting and appropriated necessary funds to carry out such a program.

By cooperating with the Extension Service personnel and members of other organizations, we hope to eliminate duplication of effort and help one another in an overall educational program. George W. Pfeifferberger, executive vice president of the PCG, said.

W. H. Jones, district Extension Service agent, Lubbock, pointed out that production practices in general govern quality and yield. Processing procedures are problems of the farmer in harvesting and of the gin in ginning cotton.

"The cotton farmer has a greater opportunity to improve his pro-

duction and harvesting practices than to the ginning and marketing procedures, but an understanding of how cotton is processed and marketed may enable him to realize more net return from his investment and labor," Jones said.

Earl Hobbs, New Deal, president of the Plains Ginners Assn., sat in on several planning sessions and with the farmers in this united effort to raise the quality of Plains cotton.

The new cotton guide was printed by Texas A&M College and 50,000 copies are to be distributed to farmers and others in the area.

Eleven of the top cotton officials in this area and in Texas assisted in drafting the cotton guide and have approved the information it contains.

These include Charles Fisher, Don L. Jones, Dr. J. D. Bilbro, all of the Lubbock Experiment Station; Ernest Thaxton, formerly with the station here, now project leader at a new experiment station at Pecos; Bill Taylor, Levelland, Hockley County agent; Bill Kimbrough, Littlefield, Lamb County agent; Ollie Linder, Hale County agent; Lee McLeroy, Lubbock County agent; John Box and Fred Elliott, both of the Extension Service, College Station; Dr. Tom Richmond, who has charge of cotton research at College Station; Dave Sherrill, district Extension Service, Lubbock; Jones and Pfeifferberger.

The guide was edited by Conrad L. Lohoefer, director of public relations for the PCG, and Tad Moses of the Extension Service information office, College Station.

Copies of the guide will be available from the Plains Cotton Growers, Inc. office, 320 Lubbock National Bldg., Lubbock, or any county agents' office.

# More Rainfall And Better Prices Decrease In Livestock Numbers

STATION — Adequate rainfall and more favorable market conditions have resulted in a decrease in livestock numbers in Texas.

On Texas farms on Jan. 1, 1958, says Wooten. This was 4 per cent below last year and 36 per cent below the 1947-56 average. The higher prices for beef at retail should give some strength to hog prices in the fall of 1958 and keep them from falling to an abnormally low level, he adds.

Goat numbers have been increasing steadily. This year's inventory showed an estimated 2.8 million head—a 2 per cent increase over 1957.

On a nationwide basis, cattle numbers showed a decrease of 1 per cent, sheep increased 3 per cent, and hogs were about the same, though the number of sows and gilts on farms were up about 5 per cent.

# VA Questions And Answers

Q. Must I include the new Social Security disability payments as income, in figuring my annual income for VA pension purposes?

A. Social Security disability payments should not be considered as "income" until the payments add up to the full amount of what you personally have contributed to the Social Security fund. After that, the Social Security disability payments will count as income for VA pension purposes.

Q. I have been offered a job as test pilot for an aircraft company. Will my GI insurance policy cover me if anything happens to me on the job?

A. Yes. Your GI insurance policy contains no restrictions as to hazardous employment. It will protect you no matter how hazardous your job might be.

Q. My husband was killed in active service in March, 1947—after the fighting in World War II had ended but before the war officially was declared an end for purposes of VA benefits. Would my daughter be eligible for War Orphans schooling?

A. No. The War Orphans Education law specifies that for World War II veterans, death or disability must have occurred between Dec. 7, 1941, and Dec. 31, 1946. Since your husband's death occurred after the latter date, your daughter would not be eligible for the schooling benefits.

# Hints Offered On Controlling Grass, Weeds In Cotton

COLLEGE STATION — The second highest cost item in cotton production is for grass and weed control. Fred C. Elliott, extension cotton specialist, says on the average, 10 hours of labor are required an acre for this one item. But, he adds, this figure can be reduced if recommended control practices are followed.

Last year the State's cotton producers saved an estimated \$16,000,000 by using rotary hoes, chemicals and oils in their efforts to keep weeds and grass under control. Rotary hoes on 44,798 farm tractors were used in 150 counties to cut more than \$15 million from the hoe bill. Elliott points out that rotary hoe equipped tractors should be operated at high speed for best results, around six miles an hour.

Lateral oiling with five gallons of naphtha an acre was used on 21,000 acres in 53 counties to cut the weed and grass control cost by \$65,000, reports Elliott. The cost of application was \$1 an acre and oiling shoes with a gage wheel arrangement permitted the operators to travel at fourth gear speeds.

# City Progress Report Is Heard At Club Luncheon

Mayor James Minor repeated a two and one-half year old speech Tuesday noon to Rotarians — with some up-to-date additions.

Minor re-read a list of some 30 civic improvement needs he had listed in a talk to Rotarians and Lions in 1955 and then discussed what had been accomplished toward filling these needs in the past 30 months.

The accomplishments of the present administration added up to quite an impressive total.

Listed among the needs now filled were the aldermanic form of government, new water lease, fly and mosquito spraying, cooperation on projects with State High-

way Department, traffic light installation at Eight and Broadway, signs and markers in front of schools, turning over operation of cemetery to city by Post estate and addition of 13 acres to cemetery area, 20-year water plan drawn up by engineers, coordinated action between schools and city to partially solve library problem, purchase of city street sweeper, water and sewer extension program, big street paving program, adoption of peddlers' ordinance, new street lighting system, stop sign installation on highways, deepening of South Lake, and holding line on the water rates.

Mayor Minor commented that the council feels "it needs more cooperation from business men and Post citizens in the annual clean-up day project."

As for General Telephone's long-standing request for a phone rate increase which was on the list, Minor said that "I would like to say on behalf of the city council that we think we've gone more than all-out and we're right where we started from. "I never believed in driving a Ford and paying for a Cadillac," he added.

As for the park improvement item on the list, Minor said "at long last" the community is embarking on a program which will give Post one of the outstanding parks in West Texas.

The mayor said a lot of work was done for free city mail delivery and that "I still believe in it" but "we didn't put it over with the people."

On the subject of water and sewer extensions, he said pipe has been received to put in 15 more blocks of water mains and this will provide water through the entire townsite. The city now lacks only five blocks of having sewer extensions to the entire townsite with the present work considered, he added.

On the water supply future, he said a lot has been done on the White River dam project, which looks to be the best answer of all the possibilities considered in the last two years.

As to a city court and police force, he pointed out the council has a citizens committee working on it to "bring us an unbiased report on what the public wants."

Minor said the city hasn't raised the water rates although trying in more wells in the municipal water field is proving "an expensive way to get water although we have no present alternative."

Concluding his talk Mayor Minor listed five items for future expansion he believed necessary, the same five he had listed 30 months ago—(1) city manager, (2) new city hall, fire station and jail, (3) city court and uniformed police force, (4) extension of the city limits in all directions, and (5) city youth and recreation center.

...ing. And as far as we know he still had them when he climbed aboard the airliner with his wife Saturday night for the flight back to Battle Creek.

★ Mrs. Wilma Hill, high school home economics instructor, and her FHA girls are to be congratulated on that fine buffet luncheon they prepared and served Saturday.

★ Fashion note — Only one female member of Mrs. Merriweather Post's party of distinguished guests was wearing one of those "sacks" Saturday. That must mean something.

On page 3 of The Dispatch you'll find a half page ad filled with cut price items in the week-long "Remodeling Sale" at Greenfield Hardware. The sale is to clear out space as Bill Edwards has obtained the Post dealer for Frigidaire and has installed a complete Frigidaire line at Greenfield's. He has remodeled the eastern third of the big store with a false ceiling, new fluorescent lights, and new tile floor for the appliance department. Watch for the formal opening of the Frigidaire line April 28. Bill emphasizes that he has a trained serviceman for his new line in Ewell Gandy. Gandy already has been off to school studying Frigidaire appliances.

★ Ralph Kirkpatrick will be moving to Lubbock one of these days but plans to come back to Post two or three days each week to look after his auto electric business here. Ralph has purchased Julian Smith's home in Lubbock which the state highway engineer had been renting and in turn sold Julian his home here, which we understand Smith will keep as a rental property. Ralph says it is necessary to get away if he is to get the thorough rest he needs after his recent heart attack. The doctor has told him that in a year or two he possibly can return to Post and devote full time to his business again. If that happens Ralph says he will build a new home here. In the meantime, Rex King, his assistant manager at his auto electric shop, will be in complete charge when Ralph isn't there.

★ Post is happy to welcome this week Tom Gamblin, new local attorney and accountant. Tom is a fine fellow and his selection of Post as his new "hometown" is a good indication that this community is going to keep right on growing. Tom certainly should keep some of that "CPA business" which has been going down the road to Lubbock here at home.

Probably the advertisement in last week's Dispatch which aroused the most comment and interest was the announcement by Earl Rogers that his Garza Farm store is ready to start buying eggs from the farmers. The ad even drew a very plain-speaking letter of thanks to the editor on page 14. Earl says there isn't any money to be made in the egg business but it should help the farmers and the farmers are his customers so he is in the egg business.

Pierce indicated the well probably will be watched for a couple of months before a decision is made on drilling offsets.

The Shell's only wildcat now drilling on the ranch is the Slaughter 1-E, now drilling at around 6,000. Another well will be required before the Pennsylvania will be reached for testing.

Shell has an interest in the Cobb wildcat strike in Borden County some two miles away from the Slaughter ranch line. The Cobb well got a flowing drillstem test in the Pennsylvania and will be deepened to the Ellenburger. It is not far from the U Lazy S field.

Shell probably will take over this well and develop the new field with offsets.

Teas' J. B. Slaughter No. 2 is drilling at below 8,300 feet.

Humble's No. 1-B Slaughter, north offset in the Teas' Pennsylvania and Ellenburger field, has recovered oil in three tests of the Pennsylvania and is now drilling ahead toward the Ellenburger. Some salt water also was gotten on each drillstem along with the oil.

he done and paid for from year to year in order to save the city's investment in its street paving program.

The city superintendent informed the council that eight-inch cast-iron pipe is being unloaded for water works extensions into the extreme northwest and southwest parts of the city—areas which are now without water.

Enough pipe was purchased at \$2.50 a foot to extend water service to eight blocks in the southwest part of the city and to six blocks in the northwest part.

Councilman Shytle said eight and one-half blocks had been signed up for the new street paving program now under way. Several blocks have already been paved on South Avenue H and curbing and gutter are being laid there.

# Building Permits First Month Here Go Past \$13,000

Thirteen building permits for construction costing an estimated \$13,776 have been issued at the City Hall since the building permit ordinance went into effect early last month.

Three of the permits were for storm cellar construction, as anxious Post residents continue building protection for the anticipated spring storms.

The biggest permit of the 13 went to Forrest Lumber Company for erection of the all-metal 4-H Club building on the south side of the city-county park site. Estimated cost of the building is \$10,000. The structure will consist of steel beams covered with corrugated iron and with a concrete floor.

The first permit issued by City Clerk Kate Lowrie after the ordinance went into effect was to J. D. Hensley for a board fence costing \$65 at Avenue I and 14th Street along the railroad right-of-way.

Other permits have been issued as follows:

Alex Ringhoffer, 8x10 storm cellar of concrete or concrete tile. Lots 9 and 10, Block 148; \$125.

W. W. Guthrie, moving 8x13 building onto home lot; \$50.

Reese Carter Jr., 8x12x7 concrete and plaster storm cellar and board fence on Lot 6, Block 135; \$300.

Albert Pantoja, 16x10 tool house, Lot 3, Block 13; \$100.

Homer Joe Mason, 8x12 storm cellar, \$150, and 8x16 work shop, \$100.

T. R. Hibbs, 8x13 farm addition to garage, Lots 13 and 14, Block 59; \$205.30.

Mrs. G. N. Leggett, storage closet on car port, Lots 12 and 13, Block 41; \$56.

G. I. Huffman, 4x390-foot fence at First Baptist Church, \$1,325. Also granted permission to store materials on alley.

Bill Edwards, dropping false ceiling, tile floors and painting walls at Greenfield Hardware store; \$1,000.

Albert Pantoja, 420-foot square room; \$300.

## Vandalism—

(Continued From Front Page)

Sheriff Rains said that since it appeared the machines had been started by someone familiar with handling such equipment, he had investigated the possibility of it being a "spite" action. He said he had talked this possibility over with those in charge of the construction job, but that he had not yet come up with any leads on it.

"I don't believe just anybody could have gone out there and started those two machines", the sheriff said.

A local highway official who requested that his name not be used said "it could have been had if that tractor had been in the right place and headed in the right direction to have come into town."

"I shudder to think of what might have happened if it had been on top of the cap and headed downhill", he added.

The break-ins came Sunday night at the Medical & Professional Building, Post Recreation Club, Iven Clary Service Station, and Stevens Style Shop and the law office of Tom Gamblin.

With the exception of an empty money bag taken from a desk drawer the break-in at the Medical & Professional building was fruitless. Entry was gained through a pried-open front door. There was evidence of all offices in the building being entered, but nothing except the money bag was reported missing, the sheriff said.

An undetermined amount of change was taken from a cigarette machine in the break-in at the recreation club. The intruders forced entry through an outside door to a rest room.

In the filling station break-in, about \$1.50 in small change was taken from the cash register, with several pennies left behind. The burglar or burglars crawled through a small space between the bars on a window after raising the window, the sheriff's report showed.

Entrance was gained by forcing the door of Gamblin's office. The new attorney and accountant's desk was searched but nothing reported taken. The thief or thieves then went into the style shop from the lawyer's office. Nothing was reported missing there either.

The burglaries at Stevens were discovered Sunday morning.

Meanwhile, a seven-member citizens' committee appointed by the city council early in March to make a study of law enforcement needs was continuing the study this week, chairman Irby G. Metcalf said. The committee met again at 4 p. m. Wednesday.

"We have nothing to report, but are making a thorough study of each member's suggestions on how to improve the situation," Metcalf said. He added that the study might require another month or two.

In four years, more than 250,000 persons have used the visitors' gallery of the London Stock Exchange.

# Bicycle, Beard Help Students Make News

By ORABETH WHITE

Two Post High School 1957 graduates have found ways to make the news.

Gary Welch, a freshman student at Texas Tech has entered a bicycle race at Tech. To practice up for the race, which is April 19, he set out to ride his bicycle home for the Easter holidays.

He left Lubbock Thursday afternoon and was in Post in an hour and a half. He made a 10-minute stop in Slaton at a bicycle shop and then had a blowout in South-

land. He caught a ride on into Post.

Monday afternoon Gary headed his bike back toward school. His parents, Mr. and Mrs. Ralph Welch, were going to Lubbock and made plans to pick him up on the way. He left here at 4:30 o'clock and when his parents arrived in Lubbock at 8:30 o'clock, Gary was already there.

His bicycle isn't a motor-propelled job, either. It is a pedal-pusher type that he has made from pieces of other old bikes.

His brother, Bernie has also entered the race.

James Williams, who is attending San Angelo Junior College, came home for the Easter holidays and for the statue unveiling. James missed the Jubilee band growing contest so he grew a goatee for the unveiling of the statue. When he arrived here Thursday he had a heavy goatee, which he shaved off Saturday.

James is the son of Mr. and Mrs. Bill Williams and is a freshman student in college.

## Rotary Conference Set For Amarillo

The Post Rotary Club will be represented at the annual conference of District 573, Rotary International, in Amarillo Sunday, Monday and Tuesday.

Rotarians planning to attend from here are Dr. B. E. Young, president-elect; Jess Michael, treasurer-elect, and C. H. Harrel.

Carl Cederholm is "On to Amarillo" chairman for the Post club.

The conference program will include outstanding speakers, recreation, visits to Palo Duro State Park and America's First Boys' Ranch, plenary session and an all-district conference luncheon closing the conference at 12:30 p. m. Tuesday.

## Post Amateur, Lubbock Pro Cop Plainview Honors

Jimmy Hundley of Post teamed with pro Hank Hensley of Lubbock to take top team honors with a low ball of 63 Friday at the Plainview Country Club in the first West Texas Pro-Am golf meet of the year.

### The Movie Marquee

Three outstanding shows, "Jamboree," "Paths of Glory" and "Noah's Ark," in that order are booked for the coming week at the Tower Theatre.

"Jamboree," which shows Friday and Saturday, is the inside story of the fabulous recording industry, smartly interwoven with some of today's most popular recording stars.

Among the stars appearing in "Jamboree" are Fats Domino, Jerry Lee Lewis, Buddy Knox, Jimmy Bowen, Charlie Gracie, The Four Coins, Count Basie & Orchestra with Joe Williams, Jodie Sands, Carl Perkins, Slim Whitman, Lewis Lyman — the Teen-Chords, Ron Coby, Andy Martin, Rocco & His Saints, and Frankie Avalon.

One of the great novels of the First World War is brought to the screen at last Sunday when "Paths of Glory" opens at the Tower to continue through Tuesday. It is a United Artists release, starring Kirk Douglas, co-starring Ralph Meeker and Adolphe Menjou and featuring a brilliant supporting cast.

"Paths of Glory" has more than a probability of becoming the greatest war film of all times. It was produced on the green plains and wooded rolling hills of Bavaria, Germany, not far from picturesque Munich.

In "Noah's Ark," showing next Wednesday and Thursday, the greatest story ever told becomes the most spectacular picture of all time. Powerful, impressive and tremendous, it surpasses everything of its kind ever given to the cinema before. "Don't miss it," is the advice of theatre manager Johnny Hopkins.

## AAU Junior Tests Slated At School

Amateur Athletic Union junior physical fitness tests are getting under way in the Post schools, Coach Frank Krhut announced today.

The purpose of the tests is to determine each participating student's physical fitness on the basis of performances in five required events and one optional event, the coach said.

Plans are to give the tests to all students from six through 18 years of age. Students measuring up to the test standards will receive an official AAU Certificate, Krhut said.

The tests will be given according to age groups.

The required events are sprints, walk-and-run, set-ups, pull-ups and standing broad jump. Each student will be allowed to select an optional event from one of the following: push-ups, baseball throw, continuous hike for distance, running broad jump. Distances and other standards set up by the AAU will be according to the age group in each instance, Krhut said.

over the same stretch. Hundley shot two birdies on the first five holes of the back nine and two bogies on the last four to come up with the nine-hole par performance.

The 50-mile an hour wind forced the golfers to use drivers instead of putters into the wind on the par-three hole. Over the 18 holes, Hundley had the "hottest" putter, taking 21 putts over the course.

The windy weather kept all players from bettering or equaling par of 71, the first time that the trick hadn't been turned in a golf meet at the Plainview course.

## Post Loses Title At Hale Center

The Post Antelopes managed to score only one point Friday in the Hale Center Invitational Track and Field Meet, which they had won in 1957.

Jerry Windham won fourth place in the broad jump with a leap of 18 feet, 11 1/2 inches to score the Post team's only point.

The Lockney Longhorns won the meet with a total of 34 points.

The Southland Eagles scored nine points to finish in sixth place. The Eagles' points were scored by Dunn, who took first place in the broad jump, third in the 100-yard dash and third in the 220-yard dash.

The meet was run off in the worst sandstorm of the season.

Hi kids! Everyone enjoyed the holidays from school for Easter. Classes resumed Tuesday and reviewed for the six weeks test which were given Wednesday and Thursday.

The senior class will tour Shreveport, Vicksburg, Monroe, Mobile, Gulfport and New Orleans on their trip, which will be the second week in May.

Send in more requests for the PHS radio program on KRWS Monday through Saturday from 4:30 until 5. Put the request in the request box in the study hall.

The bookkeeping class has started its partnership practice sets which are the same as keeping a complete set of books for a partnership business firm for several weeks.

Friday the track team will go to Lubbock for the district meet. The track team went to Hale Center last Friday where Jerry Windham placed in the broad jump.

The juniors are ordering their senior rings for next year. They have a choice of a red or blue set in the rings.

Kay Martin, Kay Gene Jones, and Ann Sartain will represent Post schools in typing and Marilyn Steel and Frances Curb will represent Post in shorthand at the Interscholastic League meet Saturday at Floydada.

The juniors are really working on plans and decorations for the annual junior-senior banquet.

## Driver's License Checks To Be Made In Vicinity

An effort to rid Texas highways of unlicensed and unsafe drivers was revealed today by Maj. R. A. Crowder, Region 5 commander of the Texas Department of Public Safety.

At the same time, Crowder pointed out that 16 per cent of all rural fatal accidents in Texas during 1956 involved an unlicensed driver.

Officers of the Department will begin conducting driver's license checks in the immediate future on all traveled thoroughfares in Region 5 and throughout the State. All motorists that are stopped will be required to exhibit their licenses to the officers.

Crowder said that thousands of Texas motorists are operating motor vehicles on expired driver's licenses or have never been licensed at all.

"It is not our desire to surprise motorists without a forewarning," Crowder said. "So we would like to take this opportunity to advise

them that they may expect these checks at any time in the future," Crowder stated.

The driver's license checks will be made on a full enforcement basis and vehicle safety inspection stickers will also be checked and motorists not having a valid driver's license or current inspection sticker as required by law will be cited into the proper court.

Major Crowder is requesting all city police departments and county sheriff departments to assist in this effort.

Any questions concerning driver's licenses, including date of examinations should be directed to the nearest sheriff's office, police department, or Department of Public Safety facilities, Crowder concluded.

# Mayor Pays Tribute To Founder's Enterprising Spirit

## Brands Ceremony 'City Milestone'

(EDITOR'S NOTE: Following is the text of the address by Mayor James L. Minor Saturday afternoon at the C. W. Post statue dedication ceremonies.)

We of the City of Post and Garza County are honored by the presence here today of a group of the most distinguished guests ever to visit this city.

They have traveled far—from all parts of the country and even from London and from Peru—to join with us in these ceremonies paying tribute to the founder of our city—Charles William Post.

And to witness the unveiling of a statue of him so generously presented to us by Mrs. Marjorie Merrivether Post in loving memory of her great father.

Mayor and Mrs. Russell Worgess came from our sister city to the North—Battle Creek, Mich. Others have come from Washington, New York, Pittsburgh, Chicago, Los Angeles, Hollywood, and other prominent cities.

To all these distinguished guests, may I say we deeply appreciate your presence here today.

We are especially and particularly pleased and proud to have three generations of C. W. Post's family with us.

We feel a friendly kinship with them. And we hope there will always be a close bond between the members of the Post family and the citizens of the city he founded.

Today—Saturday, April 5th, 1958—will be recorded indelibly on the scrolls of Post.

This date will always represent—and be referred to by historians of the future—as a significant and memorable milestone in the history of our City.

All of you here today—by your presence—are helping to make this an historic occasion.

But the one person—singularly most important and uniquely outstanding in making this a remarkable and inspiring event—is the gracious and distinguished Mrs. Merrivether Post.

The people of Post are keenly aware of what your father did for this city.

We are gathered here today to pay tribute to his pioneering and enterprising spirit and his vision and his works—which all still abound here.

He was an extraordinary man. A man of boundless energy and restless imagination, who believed firmly in the rights and abilities of the American individual.

Throughout his life he was moved by a strong desire to aid his fellow men by making it possible for them to help themselves reach their goals.

Perhaps more for this reason than for any other, Mr. Post decided at one point in his active and successful life to devote his resources and energies to the creation of this town on the then undeveloped plains of West Texas.

In 1906—when he was already internationally known as an industrialist and inventor—Mr. Post bought 213,324 acres, or some 313 square miles, of land in Garza, Lynn, and Hockley counties.

A large tract was set aside for the Double U Ranch and stocked with cattle. This ranch, as you know, is still operating here today.

Mr. Post then laid out this model town in large squares with wide streets on all sides. This was revolutionary in city planning in those days—and still is a revolutionary concept in the planning of many cities today.

Present-day engineers tell us that C. W. Post's planning of this City is a model of achievement without parallel—and could only have been accomplished by a man of creative imagination with a visionary perspective possessed by few men.

In 1906—51 years ago—this site was 80 miles from the nearest railroad; there were no roads; streams were without bridges; and lumber, lime, wire, machines—in fact practically all construction supplies—had to be hauled in by wagon train from Big Spring, 80 miles away.

The obstacles to building a town on this site were formidable, but Mr. Post—with his ingenuity and driving energy—overcame all these challenges.

He established rock quarries; drilled wells for precious water; constructed roads; built modern business blocks, schools, a bank, a hotel, a laundry, and a hospital.

Electric lighting, power, waterworks, and telephone systems were installed. Mark you, this was all done some 50 years ago—and many of these buildings and systems are still in operation today and will continue to be for many years to come.

He blocked out thousands of acres around the town into quarter-sections. Modern houses were built on these 160-acre plots and offered to pioneer farmers on a long-term installment payment plan.

As the population grew, Mr. Post established experimental farms, tested dry-farming methods; installed irrigation systems; introduced Aberdeen Angus cattle to the area, and influenced the Santa Fe Railroad to expand through this city.

After farmers began raising long-staple cotton—which Mr. Post developed from a probable in to a profitable West Texas crop—he built the Postex Cotton Mills.

In 1913, 45 years ago, the Mills were said to be the first in the country—if not the world—that combined all the processes between getting cotton straight from the fields and turning out finished products.

The Postex Mills—still a modern plant by any standards—is a leading factor in the economy of this community today—employing more than 475 people with an annual payroll of 1½ million dollars and producing more than 15 million dollars worth of sheets and pillow cases annually.

Mr. Post will long be remembered in all parts of Texas as the foremost initiator of dry-land farming and for pioneering the introduction of alfalfa and long-staple cotton into these semiarid Western Plains.

But before this frank and friendly man turned his attention to developing farms and ranches and this city, he had already scored successes in many fields. From his earliest years, he seemed destined for success.

By the time he was 35, he had already been the successful owner and operator of a hardware business; the organizer and manager of the Illinois Agricultural Works; a rancher and real estate operator in Fort Worth, and the inventor of many farm-machinery tools.

Not many years thereafter, he founded the Postum Cereal Company and organized the Battle Creek Paper Company.

Mr. Post was born in Springfield, Illinois, on Oct. 26, 1854. He died in Santa Barbara, California, on May 9, 1914.

Today—more than a half century after his death—many of his creations are still an important part of our daily living.

The food products he invented are still sold throughout the world. The plow blade he invented is in common use today.

But—more important—his high ideals and vigorous spirit still today stir and motivate the hearts and minds of men in West Texas.

Mr. Post always found great pleasure in his personal relations with workers—both at Post City and Battle Creek.

He was a man of commanding dignity, but never lost the common touch. His pride in his own ability as a worker, his enthusiasm for the skill of his men, his understanding and appreciation of their humor created and maintained a feeling both of ease and respect.

Mr. Post had naturally the frankness and friendliness of the West and earned the respect of co-punchers in West Texas as he did that of his workers in Battle Creek.

The admiration was mutual. And perhaps therein lay the secret of this great man's success.

Mrs. Post, we the people of the City of Post express to you our heartfelt thanks for all you have done to carry on your father's work here; to make this tribute to him possible, and for making this a lastingly memorable occasion.

### FROM 24th SENATORIAL DISTRICT

## Sen. David W. Ratliff Announces His Candidacy For Second Term

David W. Ratliff this week authorized The Dispatch to announce his candidacy for election to a second term as State Senator from the 24th Senatorial District, subject to the Democratic primary elections.

SEN DAVID RATLIFF

Senator Ratliff's statement to the voters follows:

"During the first three months of this year, I have traveled throughout the counties comprising the 24th Senatorial District of Texas. I have visited every area and community in the district and have attempted to talk with as many people as humanly possible in such a short period. I regret that I have not been able to see and visit with more of the citizens of this district, but I am hopeful that the ensuing two months will give me that opportunity.

"It has been my purpose to assemble the cross-thinking of the people of the district and obtain grass-roots opinions in order that I can more ably serve the district as State Senator.

"I have discussed water problems, highway situations, hospital needs, and the imposing tax problem with men and women in every walk of life. Out of the experience of these visits I am more humbly conscious of the grave responsibility with which the next regular session of the legislature will be faced.

"There is no question that in this period of economic instability there is a keen and profound need for State Government stability. T stability can be gained only through sane, sober and mature deliberations by the two bodies composing our state legislative branch. As a member of the nine member STATE TAX STUDY COMMISSION I am particularly conscious of the possibility, actually the probability, of the imposition of new tax burdens on the people of this State. During my eight years in the legislature I have consistently opposed the imposition of new taxes. I have particularly opposed the levying of punitive taxes. It is my hope and belief that from the information being gathered and studies being made by our Commission, any new taxes recommended will be most equitable and less damaging to the individual.

"The Study Commission of which I am privileged to be a member has paramount in mind the responsibility of reducing or eliminating wasteful and extravagant state expenditures before even contemplating the levying of new taxes.

"Out of the visits with the citizenry of this Senatorial District, it is my true and genuine belief that the most fundamental desire of the majority of the people is that king-makers and lobbyists of the CIO-AFL not dictate the policies of State Government or control the political future of Texas. I unreservedly pledge to defend the structures of our political system and the operation of our state government against the potential invasion of stooges and candidates selected by special interest groups.

fishy sponsored by the Political Action Committees of Walter Reuther.

"The people of this district extended me a great honor by allowing me the privilege of serving the unexpired term of the late Sen. Harley Sadler. My family and I are deeply grateful for the many experiences of friendships which were afforded us through this opportunity of public service. It is our deepest hope that my conduct as State Senator has never and will never cause embarrassment or disappointment to any of the people I represent.

"I respectfully and humbly ask the voters of the 24th Senatorial District to allow me a second term in the State Senate and prayerfully pledge that I will serve faithfully and honestly and will cast my votes in every instance in a manner in which I believe to be in the best interest of the majority of the people."

## Post Girl To Spell In Regional Bee

The sixth annual Lubbock Avallanche-Journal Spelling Bee will be held at 1:30 p. m. Saturday in the O. L. Slaton Junior High School auditorium, with Marianne Jones as the Garza County entrant.

Marianne, 12-year-old daughter of Mr. and Mrs. Paul Jones, is a seventh grade student here. She won the right to represent the county in the regional bee by outspelling five other contestants in the county bee last month.

In addition to the Post girl, 13 other county champions will spell in the bee. Nine of them are in the eighth grade, four are in the seventh grade and one is in the fifth grade.

The winner will receive an expense-paid trip to the National Spelling Bee to be conducted June 12 in Washington, D. C., and will take part in sight-seeing trips and visits with government officials during that week.

## Area Students Will See Space-Age Show At Tech

LUBBOCK—Rocket men—both student and professional—will highlight the first space-age Engineering Show that more than 2,000 high school Interscholastic Leaguers will see when they visit the Texas Tech campus May 18-19.

Tech's 26th Annual Engineering Show is part of the Spring Festival that will also feature the "Atom for Peace" Atomic Energy Commission exhibit, the Tech Home Economics Open House and Varsity Show.

West Texans will be able to see an Army Nike-Ajax missile, its launcher and 12-man crew as part of the Tech Army ROTC display. The Nike is the 20-foot surface-to-air missile that currently is used to guard strategic defense areas throughout the nation.

Interscholastic Leaguers will also see a rocket built by Tech physics students, members of the Pyros club, who have made several successful supervised rocket launchings.

The AEC's newest "Atoms for Peace" exhibit will be displayed during the Tech Spring Festival at the Naval Armory on the Tech campus. The free show features more than 80-panel displays showing developments in nuclear-energy technology, a "balloon suit" for AEC workers and a mechanical "hand" used in manipulating radioactive materials.

The Region I Interscholastic League competition is held each year at Texas Tech for high school students throughout the Panhandle and

## LETTERS To The EDITOR

Dear Editor: Hurray for the Earl Rogers Garza Farm Store ad, "Will Buy Your Eggs." It will do more good to our town than all the other ads your paper carried.

## CAN MAKE YOU MONEY WITH HIGHER QUALITY COTTON IN 1958

Production practices govern quality and yield. Do your best to see that your land preparation is adequate. Check your soil fertility needs now so that maximum production of quality cotton will not be hampered by lack of nitrogen, phosphorus, potassium or organic matter. Sub soil moisture may be adequate—but check to be sure.

Planting time is almost here. Optimum planting dates on the High Plains are May 5-20. Later planting usually results in lower quality. Before planting be sure the minimum soil temperature averages 60 degrees for 10 days at an 8-inch depth from the top of the bed. Use delinted, treated seed and check for germination. A uniform stand of approximately four stalks per foot in 40-inch rows is recommended. The method of harvest to be used should help determine the variety planted.

"I put down Phillips 66 ammonia pre-plant on my  
cotton and made 2 bales to the acre. I also use  
Phillips 66 Agricultural Ammonia on my wheat and maize  
with good results."

Southwestern farmers have discovered that 82%  
from top quality Phillips 66 Agricultural Am-  
monia helps them get more profit per acre through higher  
yields. They get more cotton that classes higher at the gin  
and sorghum grain and ensilage are increased . . . and profits  
from marketable vegetables are harvested . . . and profits  
from wheat are increased through better forage and higher  
yields of grain.

Phillips 66 Agricultural Ammonia contains 82% nitro-  
gen and gives you more nitrogen per dollar than any other  
commercial fertilizer available.

**MRS. MORRIS WRITES SOUTHLAND-GORDON NEWS  
Operator Of Southland School's  
Lunchroom Honored On Birthday**

Mrs. C. A. Callaway, who has been in charge of the lunchroom at the Southland School for a number of years, was surprised with a gift shower on her birthday last Tuesday. Faculty members, students and other friends of Mrs. Callaway staged the gift shower, which Jerry says was a complete surprise to her, but a happy one.

The Southland Methodist Youth Fellowship had charge of the surprise services at the Methodist Church on Easter Sunday. Visitors at the 11 o'clock service were Miss Harriet Bean, Ross Dunn and George Ellis, who are students at McMurry College; Mrs. W. P. Thomas of Grassland, Mrs. C. A. Maeker and Marilyn of Lubbock, Linda Davis, a student at Sul Ross State College, and Frank Bean of Snyder, who was visiting his parents, the Rev. and Mrs. Bean.

The Rev. Lusby Kirk reports there were 72 in Sunday School and 94 in church at the Baptist Church Sunday. They had a few visitors and most of the members were present.

Mr. and Mrs. Ronald Huddleston and Mr. and Mrs. Paul Vertz, students at Abilene Christian College, visited at Gordon during the Easter holidays. Paul preached at the Gordon Church of Christ Sunday and Ronald preached at the Grassland Church of Christ, also on Sunday.

R. L. Hagler was taken to Lubbock Methodist Hospital March 29 and on April 2 underwent a major operation. He was reported Sunday to be recovering satisfactorily and he is expected to be able to come home by the end of the week.

Mrs. H. D. Hallman's sister, Mrs. Mattie Dabbs, has been in Slaton Mercy Hospital the past week. She is reported to be seriously ill.

Mr. and Mrs. Melton Bruster, Linda, Steve and Dennis of Alamogordo, N. M., spent last week with his parents, Mr. and Mrs. Melvin Bruster.

Luther Rudd, who lived at Southland a number of years, but has been making his home in Slaton for the last few years, died Saturday in a hospital in Colorado.

Mrs. Hub Haire and Mrs. Jack Myers were in Odessa last Thursday to attend an Order of Eastern Star school. Kelly Jo Myers went with them to Midland to visit an aunt, Mrs. May Cox.

Mr. and Mrs. Weldon McGehee and children visited his parents, the B. F. McGehees, in Lubbock Sunday afternoon and also visited R. L. Hagler at the hospital.

Easter guests of the L. J. Myers family were a son and daughter-in-law, Mr. and Mrs. Ned Myers of Dyess Field, Abilene, and Fred Myers, a student at Sul Ross State College. Guests in the home Sunday were Myers' brother and wife, Mr. and Mrs. E. A. Myers

**Teachers Council  
Added A Tech**

LUBBOCK — A council to further mobilize every facet of Texas Tech teacher training program has been announced by Dr. E. N. Jones, Tech president.

"Today's educational crisis demands more quality in teaching as well as more teachers," Dr. Jones said in announcing the 19-member interdepartmental council.

Dr. G. E. Giesecke, academic vice-president, said the council has been asked to determine the responsibilities of each Tech department in training teachers.

Within the next two years, the

**FROM HALE CENTER**  
Mr. and Mrs. Ellis M. Mills and daughter, Sara, of Hale Center visited friends here Monday. Mills is principal of the Hale Center Junior High School, a position he formerly held at the junior high school here. The Mills' son, Kenneth, who is attending Tulane University, New Orleans, did not come home for the Easter holidays, but his parents talked with him by telephone.

The council is charged with recommending policies and procedures to the council of deans, coordinating institutional effort regarding teacher education, and facilitating communication among departments contributing to teacher education.
