used to be.

Also raised by the board were to \$285, Nathaniel Manuel from \$210 to \$265 and Johnny Johnson from \$210 to \$265.

The school calendar adopted by the board provides for 177 school days during the term.

For the first time in several years, the school will observe the Labor Day holiday, with no school on Monday, Sept. 7.

The complete calendar fol-

Pre-registration for high school, Aug. 26, 27 and 28. School opens Aug. 31. Labor Day, Sept. 7.

Thanksgiving holidays, Nov. 26 Christmas holidays, Dec. 23-Jan.

Teachers meeting, one day in

Easter holidays, April 15-18. Last day of school, May 20. Baccalaureate, May 22. Commencement, May 23.

The board accepted the resignations of Mrs. Nola Brister, junior high school librarian, and Johnny Howerton, a member of the junior high faculty.

Mrs. Brister, who has been junior high librarian for 17 years and helped establish the present library, has resigned to accept a position as librarian at Marfa High School.

Howerton, who came here mid-term last year, faught the sixth grade and assisted as junior high coach. His letter of resignation to the board stated that he is resigning to accept a coaching position in the Fort Worth Public Schools system.

Mrs. Sue Cornell, who received People have gone back to yard her degree from Texas Tech this work with vigor. One beautiful summer, was employed by the board, subject to placement. Mrs. couple of more in one year and Pat N. Walker was employed to four to six more in two. And that replace Mrs. Brister as junior has been the story here in Post. (See SCHOOL BUDGET on page 8)

Dial 'phones simply had to come

promises to bring the community and area considerably improved phone service, although admittedly unattended dials (no local operators) have their drawbacks when a community-wise switchboard help is needed in any crisis.

There is no denying that the town's present phone service is antiquated and quite expensive to operate. It is the equipment generally which accounts for the poor service when it crops up and not the operators at the switchboards.

Conversion to dials should not only aid the town with faster service, but it will help the telephone company, too, in the cost of operation and net profit zones of business operation.

Dials simply had to come if the phone problem here was to be resolved. Everyone close to the situation knew that. Post had little hope of attaining the service it desired without going to dials-and unattended dials was the only practicable solution dollarwise.

The city council and the General Telephone

Post's late-1960 conversion to dial phones officials are to be congratulated on the sensible solution they have worked out. The rates are in line with Lubbock and other towns and cities.

> Probably the biggest phone service improvement will come in the extended rural coverage which General Telephone now plans for the immediate Post rural area. General Telephone will not offer service outside their designated boundaries except to present subscribers, but service within the area should be greatly improved with farm folks who hitherto haven't been able to secure phone service now assured such service at a reasonable and fixed "ready-to-serve rate," depending on the zone distance from town for their particular location.

> All in all, the dial phone agreement adds up into considerable progress for the town and promises the removal of one of the community's "sore spots"-inadequate phone service.

The council which has been solving Post's "growing pains problems" one at a time without fuss or fanfare, can now turn its attentions to the next one.-JC.

Editorial reader has a point

"You fellows can't see the forest for the trees," one of our readers told us a day or two ago in commenting on the subject matter of our editorials.

When we asked him to elaborate on his statement, he said, "Well, I don't remember having yet seen an editorial in your paper calling attention to some of these kid drivers who make it unsafe for a pedestrian to try to cross Main Street.

We'll admit our reader has something there. While we've carried a number of editorials urging safe-driving practices, we've never made it a point to single out the teen-agers, because they aren't the only offenders. Statistics-furnished by the National Safety Council-show, however, that teen-agers are involved in twice as many fatal accidents for the number of miles they drive as drivers over 25.

It's also a fact that more teen-agers drive recklessly up and down Main Street than older drivers. Regardless of the age of the driver behind the wheel, reckless driving in the downtown area is perilous to pedestrians, as well as to

The National Safety Council, in a drive to cut down the increasing number of traffic accidents involving teen-age drivers, has issued a free booklet of safe-driving tips for this age group. The tips come from professionals-the state patrolman, the test track driver, the trucker. Here are some of them:

1. Don't show off or clown behind the wheel. 2. Have guts enough behind the wheel to chicken out when common sense tells you it's time to give in. Never mind who's right-be smartstay alive! 3. The public highways are for sharing, not competing. 4. The squeal of tires and roar of the exhaust may sound like hot stuff to a driver who needs it to build up his ego. But it tags him as strictly an amateur to the real pro. 5. The pro gives in to bad weather, bad roads, and traffic jams, and slows down. 6, would your coach send in a player who has been drinking? Well, it goes double for driving. Remember-a half-loaded driver is more dangerous than a

Public apathy and polio outbreaks

Public apathy toward inoculation might well be the cause of polio epidemics this year, with one already threatening in Iowa. Des Moines, Iowa's capital city, and surrounding Polk County have had 69 polio cases this year. Three of the patients have died.

There are threats of epidemics in other states, including Texas, where there has been an increase this year in the number of paralytic polio cases. It could get worse-in Texas and eise-

The board of trustees of the American Medical Association, in a supplementary report, says that the AMA's poliomyelitis inoculation and public education program during the past year has been a success. At the same time, however, the board of trustees notes that 54 per cent of the population under 40 have not completed their series of inoculations and almost one-third of all children under five have not been inoculated.

tees, the increase in the number of polio cases, states.-CD.

which became evident as far back as September of 1958, calls for renewed efforts on the parts of county and state medical socities and their member physicians. With an adequate supply of vaccine available, they point out, it is now possible to immunize every patient, within the susceptible age groups, against poliomyelitis.

Regardless, however, of the efforts of these groups and the amount of vaccine available, the inoculation program cannot be a success in the face of continued public apathy. One hundred chapters of the National Foundation in Iowa have been slerted to battle the outbreak of the disease in that state and Salk polio vaccine has been shipped to all but three of the state's 99 counties. These emergency steps might not have been necessary if the public had responded to the inoculation program. The same thing can happen in Texas and in other states. Iowans probably have been no more apathetic toward the In the opinion of the AMA's board of trus- inoculation program than the residents of other

You need room for some things

In these times of high tension, we believe in everybody having their fun, but we are of the opinion that the city council did a wise thing in sesing an ordinance banning motor boats on South Lake

Motor boating on the small lake has been affording a few boat owners recreation, but it has been endangering their lives as well as the lives of others. The lake simply isn't big enough, not even after a big rain, for safe motor boating.

Adding to the hazards to life and limb has been water skiing, which is also fun, but which ter for their boating and skiing -CD.

just isn't safe on as small a body of water as South Lake.

We are sure the councilmen were thinking more of accidents than they were of disgruntled fishermen when they passed the ordinance, although they've had a number of complaints from fishermen who said the motor boating was spoiling their pastime.

In our opinion, anyone who can afford to own a motor boat can afford to go to Lake Thomas, Buffalo Lakes, or some other large body of wa-

Noble steeds fast bowing out

Across the street from where we sit is a pony ride concession here for the roden weekend. It seems to be doing a pretty good business, which leads us to believe that the fellow we heard comment on the size of the opening day rodeo parade might have been right when he predicted that it won't be too many years before horses will be a thing of the past.

They already are, of course, in many of the thickly settled areas of the nation and even out here in the wide open spaces you don't see near as many horses as you did 10 or 15 years ago.

The horse still has a long ways to go before

it will become a museum piece, but it's a fact that their numbers are decreasing fast. It won't be too many years before their chief use will be for such events as rodeos and rodeo parades. Mechanization, even on farms and ranches, are relegating the horses to the status of show ani-

Maybe that's why a pony ride concession does a fair business out here on "Texas' Last Frontier," which will be one of the last places in which the horse does a fade-out. It hasn't been too many years ago that children who wanted to ride ponies had one of their own to ride. But not anymore,-CD.

What our contemporaries are saying

If Crosbyton's current Peeping Tom should happen to read this column, we think it our duty to warn him. Reports say a number of irate scholders have oiled their artillery and placed it in a convenient spot. So don't be surprised some night if the hole is in you rather than that curtain you've been peeping through.-The Cros-

Crosbyton's canine count is woefully incom-ete, but city officials are both patient and de-rmined. Every dog in the city must be vacci-

nated and tagged, they say, but the time limit has become elastic. The past few years citizens Now city officials must establish that habit again. would just get in the habit of securing their pooch papers when the veterinarian would move. Laxity in enforcement, however, doesn't alter the danger of rabies. The vaccination and registration law is for the protection of you and your pet. Just one rabid dog in town would send dog owners in droves to the veterinarian. So why not have your pet vaccinated now before the city is forced to reopen the dog pound.-The Crosby-

THURSDAY to **THURSDAY**

By CHARLES DIDWAY

IT TAKES ONLY a glance at the rodeo results appearing elsewhere in this issue of The Dispatch to see that very few of the competing cowboys and cowgirls go to the pay window.

And even fewer of those who are lucky enough to draw down cash prizes make enough to pay their rodeo expenses, not the least of which is the entry fees. Like many other sports competitors, these cowboys and cowgirls compete more for the sheer joy they get out of it than for any cash awards.

THIS APPLIES ONLY of course. to amateur rodeoing and not to the professional ranks, where the competitors are bona fide "play for pay" boys such as we have in professional football, basketball, baseball and other sports.

Rodeo, as pointed out by the announcer at one of the night shows here last week, is one of the few sports that can't be fixed. That's speaking generally, of course, since there are a few "gimmicks" here and there that can be rigged, but rarely are in amateur rodeos. Like the announcer said, it's pretty hard to get a bucking bronc or steer to go along with a "fix".

WE STARTED OUT jotting down notes on rodeo sidelights at the opening night's performance, but became so engrossed in the show that we didn't come up with much in the way of sidelights. One that we did get home with had to do with Joe Winter, who came all the way from Tucumcari, N. M., only to find that he couldn't enter.

The reason Joe couldn't enter was that the books had closed at noon Wednesday and he didn't put in an appearance until Wednesday night-several hours late. He told rodeo officials he'd tried to call them before the entry deadline, but that their telephone was tied up every time he tried to get through.

NOW THAT THE Stampede Rodeo is history, we can buckle down to getting ready for the Southwestern Championship Junior Rodeo, which is to get under way July 29 and continue through the first day of August. The juniors and their adult directors are working hard on show plans, and also "on the ball" are this year's rodeo queen candidates - Judy McCullough, Kelly Jo Myers, Sheila Morris and Kay Thompson.

Those planning to attend the Junior Rodeo are requested to purchase their tickets ahead of time -from one of the queen candidates. The winner will be decided on ticket sales, and it's starting out like a close race right down to

EVEN THOUGH A half - dozen or so restrictions are included in the park ordinance passed by the council last week, they're all for the public good, and we can't see how, in the long run, they'll cut down on anyone's fun. Thank goodness, our park commissioners are not going overboard on park rules and regulations as is done in some parks.

One of our exchanges, for instance, wants to know how anyone could have a good time stuck all over the place:

No Pets Allowed in Park No Pienicking Do Not Climb Trees Stay on Pathways Do Not Pick Flowers

No Bicycles Allowed Do Not Feed Pigeons No Sunbathing or Undressing Keep Off the Grass

No Fishing or Swimming Allow 20 Minute Parking Limit

This Is Your Park-Have a Good

Chalk up one for us in failing to mention in last week's write - up of the Post Beauty Pageant that the winner, Miss Jan Thomas, is granddaughter of County Judge E. Parker. 'Way back down the ine-we think it was the first time we saw Jan play basketball someone told us she was the judge's granddaughter, but it had slipped our mind when we wrote up the beauty pageant.

OUR FRIEND UP the street says anybody who's calm these days probably isn't well.

The boy who got a wrist watch when he graduated from high school now has a son who wears one to kindergarten.

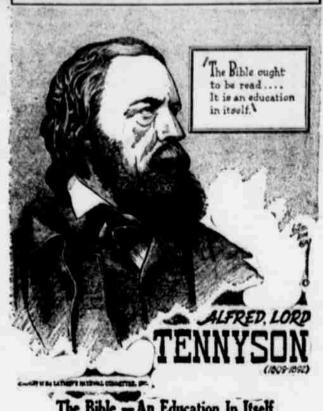

On July 16,1912, Rear Admiral Bradley A. Fiske was granted a patent for a method of directing and delivering an attack by a self propelled torpedo launched from an airplane.

State revenue funds which support the public school program are derived from fifty different sources.

Since 1952 the local districts of Texas have spent \$662,000,000 for schoolhouse construction.

Texas teachers receive a lower average salary than any classifi-cation listed by the Texas Employ-ment Commission.

Bible Thoughts

"God Is The Creator"

by RONNIE PARKER

God is first revealed to us in the Bible as the Creator of the heavens and the earth. (Gen. 1:1). The Bible introduces him to us as existing before all, hence possessed of all the wisdom, power, and authority, that dwells in the universe.

Then in as much as he is the Creator of all things, he must himself be the uncreated, self-existent Being, who is without beginning of days or end of years, who is from everlasting to everlasting.

David speaks in Ps. 106:48 "Blessed be Jehovah, the God of Israel, from everlasting even to everlasting and let all the people say. Amen." Paul expresses "Now unto the king eternal, immortal, invisible, the only God, be honor and glory for ever and ever (I Tim. 1.17).

God is the only self-existent, uncreated Almighty Being in the universe, the Founder, and Ruler of all things, "Who stretcheth for the heavens, and layeth the foundations of the earth, and formeth the spirit of man within him." Zech.

Keep more tender whites and less dark refrigerator until you pack the directions I have given for cookpicnic lunch, then carry them ing eggs are for hard-cooked ones

Morris home scene of 'gift day' for Graham Club group

Last Thursday was "gift day" for members of the Graham Thursday Club when they met at the home of Mrs. Alvin Morris.

Following the exchanging of gifts, club members spent the af-ternoon quilting for the hostess, after which refreshments of ice cream and cake were served. Attending the afternoon meeting

Mmes. Ada Oden, O. H. Hoover, Glenn Davis, P. E. Stevens, Jesa Propst, Bill McMahon, Will Wright and Mrs. Morris.

Mrs. Hoover will be hostess for the next meeting, which is scheduled this afternoon

Byron Taylor of Lubbock visited here Sunday afternoon with his parents, Mr. and Mrs. O. B. Taylor, and other relatives.

POST

Insurance Agency

"Why should a slow-poke burn me up?"

When you're driving.

your attitude can kill! When the stupidity or carelessness of other drivers makes you fume, watch yourself! If you let your anger take control of your car, you can literally kill or be killed yourself! Nearly 37,000 people died in traffic accidents last year. Many were victims of good drivers who for one fatal moment allowed their emotions to boil over. Check your boiling point and stay a safe driver.

The Bright Flame

How fortunate we are to have so many really devoted teachers in our vast school system. Teachers who have dedicated their lives toward one goal ... to kindle in the minds of their students the small glowing flame of understanding. A flame that will grow into a bright fire of knowledge. How many of us today owe so much of our mental ability to a teacher who possessed the love and patience to light in our minds the yearning for knowledge.

In the home, as in the school, it is our duty and privilege to instill in our children the knowledge of God. For only through God can they gain the riches of Eternal Life. Attend your church tomorrow and take your children.

Dawson counties, but some fields in Lubbock County had damaging populations of the insect.

Bollworm activity increased in many fields. No damaging infestain an increasing number of fields.

Cabbage loopers were present in somewhat greater numbers than during the previous week. Infestations were light in most fields where found.

Grasshoppers were reported in light infestations in Gaines, Garza, Hockley, Scurry and Yoakum counties. The 'hoppers continued to cause some damage in scattered fields in Swisher County.

NEWSPAPER READER POLL INDICATES

Children's greatest problem lack of parental care and guidance

Gov. Price Daniel announced this today in disclosing first results of a state-wide newspaper public opinion poll conducted by the Gov. much freedom with cars: lack of ernor's Committee for the 1960 White House Conference on Children and Youth.

The Committee had requested readers to send their opinions on the ten greatest problems facing Texas children and youth, and most

A tabulation of the first 1,000 replies to the poll revealed that 63 per cent considered lack of parental care and guidance the top problem. Three-fifths of this group specifically cited lax parental control, while two-fifths cited lack of spiritual training and church at-

Dr. Guy D. Newman of Brownwood, chairman of the Governor's Committee, presented results of the poll to the Governor.

Under problems relating to par-

Almost two-thirds of the respon- ental care and guidance, specific ses from newspaper readers in complaints most often repeated Texas expressed the belief that the were lack of spiritual training: greatest problem of children is lack poor church attendance; poor parof parental care, guidance and dis- ental examples; not giving child enough responsibility; lack of discipline and obedience to parents; lack of family unity and teamwork: teaching respect to others.

Other problems mentioned in order of frequency were:

Lack of educational opportunities. 10 per cent; too much time and too little work, 9 per cent; working mothers, 5 per cent; poor newspapers printed the poll as a public influences such as lewd and violent shows, obscene literature, alcohol and drugs, 4½ per cent; "juvenile delinquency" 3½ per

cent; financial need, 3 per cent. Governor Daniel pointed out that the poll is stil open, and that radio and television stations are requesting listeners to send their views on youth problems.

"These opinions from the grass roots level will serve as a guide for the Committee members when they attend the White House Conference next March," the Gover-

Work is already in progress on Fort Worth show

Postings-

(Continued From Front Page) as promised, but three times a week along with the daily downtown pickup. As a result every-thing is a whole lot cleaner.

For your careful reading and study we urge you to turn to page 10 and carefully read the 2,968 word garbage and trash collec-tion ordinance. The ordinance goes into effect today-with its publica-tion in The Dispatch. It is a combination of two Snyder ordinances with local variations that are recognized as just about the best the ordinance has plenty of "teeth" in it for those who don't want a clean place and a clean more rainfall had come earlier. town. Once again we want to point out that the collection charges won't be billed for July but will start in August with the first notation on the Sept. 1 billing.

Postmaster Harold Voss also reports lots of good cooperation from townspeople on the big postal project to get ready for city mail delivery within the next 60 days or so. Harold told us he is surprised at the interest now being shown in residential delivery. Lots of folks are bringing in names and addresses for delivery. Don't forget that a mail box and house numbers are needed and if you re not sure of the house number just call the city hall with your lot and block description and they can tell you. This is a big job-conversion to mail delivery-and the postal boys deserve all the support we can give them.

What's more the dog problem is coming closer to solution now than ever before following the recent rabies scare. City Marshal Otis G Shepherd Jr., told us yesterday that strays are now being disposed of at an approximate 75-amonth rate, thanks to the cooperation of townspeople who call in for stray pickups. He told of one andy who called him out and want- gan Wednesday night at the Church ed strays in her neighborhood of the Nazarene. picked up. He told her to catch telephoned. Rainfall--

(Continued From Front Page) beginning to get fleahopper and boll worm infestations in the older cotton.

He said farmers need to watch this so that fields can be sprayed if conditions become too bad. Garza's stock water is in "good shape". Herron reported.

What's more, range conditions in the county are now termed of Post and E. C. Harris, W. E. "the best in years" — and that Huffhines, J. D. Stewart, Archie means extending back to before the recent drought.

"For some reason," Herron said, "weeds on pastureland now are actually less than last year despite the many recent rains and the weeds in the cotton."

The county agent said the only reason for this probably was benow in force in Texas. You'll find cause the first few months of 1959 were dry and the weeds didn't get the start they might have if

Petition--

(Continued From Front Page) from the top of the caprock to the Lynn County line, near Southland; for two farm-to-market roads in the precinct and for improvement of existing roads and streets with in the precinct. This work would include some of the city streets

Robinson said it was not definite at this time just what projects would be included if an election were to be called and the bond issue approved, but that details would be worked out at the July 31 hearing.

We urge every interested citizen to attend the hearing, which will last throughout the day, Robinson anid.

A legal notice on page 12 of today's Disptach gives official notice of the hearing on the petition and defines the boundaries of Commissioner a Precinct 1.

Rodeo officials are paying bills

Paying of bills this week was occupying the time of some of the Post Stampede Rodeo officials, with it still too early to know what the financial outcome was on the 19th annual rodeo which ended Saturday night.

Secretary Harold Voss said today that it'll be a few days yet before all the bills are in and a financial statement can be completed.

"Right now, it looks like it's nip and tuck," the secretary said. The crowd was estimated at

American Crude Oil Co, has staked a southeast offset, the No. 2 Koonsman to the Cain (Spraberry, Strawn) field discovery well.

The offset is projected to 5,250 feet with rotary tools to test the Spraberry and is nine miles southwest of Justiceburg. It will be dug 330 feet from north and west lines of section 677, block 97, H&TC Survey.

Also in the Garza oil news this week is Southern Minerals Corporation of Corpus Christi and No. 1 J. B. Slaughter Estate test.

The rotary is being moved off preparatory to installing a portable unit for tests of the Strawn through perforations at 7,820 to 7,826 feet. This test is an indicated threequarter mile northeast extension to Strawn production in the Red Loflin pool. It is located in section 6, block 2, T&NO Survey.

Oil was recovered on a drillstem test at 7,665 to 7,681 feet and oil flowed on a straddle test be-tween 7,796 and 7,846. Sierra Corporation of Dallas in

a deepening operation three quarters of a mile east of the OS Ranch Glorieta pool in Garza has completed its No. 1 George Beggs to pump 24 barrels of 38 gravity oil, plus 65 per cent water, daily from the Glorieta.

Production is through perfor-tions at 2,783 to 2,869 feet. The well originally was drilled by Smith & Breyer, Dallas, and abandoned. Sierra deepened it to 2,955

Bring Your Dream Home Down to Earth

TAKE ADVANTAGE OF FORREST'S FINANCE PLAN

We can, without delay, arrange a suitable loan for any kind of building project. We have a special loan to cover all purchases made from Forrest Lumber Company or affiliated stores. Its a loan plan to cover cost of all types of repairs, alterations or improvements to your existing residence. We also have the same type loan to cover multi-family dwellings, buildings and commercial structures, and farm structures.

IF YOU WANT TO BUILD A NEW HOME...

We can fix you up with a GI or FHA loan to include purchase of real estate and completely build the structure. Complete cost for a two-bedroom home will range from \$7,000 to \$10,000. Low monthly payments, including taxes and insurance, will retire the loan over a period of years.

Come in and talk it over with us.

IF YOU WANT TO IMPROVE YOUR PRESENT HOME

We have a loan designed to enable you to add an extra room or two, build a new garage or make any kind of extensive addition and improvement. You can borrow from \$2,000 to \$5,000 on payout periods of five to fifteen years.

OTHER LOANS IN FORREST'S FINANCE PLAN

We have a loan designed so you can finance any purchases made from this Forrest yard from \$65 up to \$5,000. You can re-pay this loan in from six to sixty months. Payments may be made on monthly, quarterly, semi-annually, or annual basis. This type loan will enable you to purchase new bath fixtures. floor coverings, home furnaces, paints, new fences, or any other materials. It's an ideal loan for a Do-It-Yourself home-

There's another loan, designed to enable a home-owner to repair, make alterations and improvements, to his existing home. It will cover all costs of labor and materials up to \$2. 500 and may be re-paid in from six to 36 months.

SMALL BUSINESS BUILDING LOANS—If you're interested in building a new business building we can arrange a small building loan of up to \$3,000, exclusive of financing charge. Repayment extends from six months to three years.

FARM BUILDINGS—This loan is designed to enable farmers and ranchers to build structures for agricultural purposes. exclusive of residential purposes. The maximum loan is \$3,000, repayable in six months to seven years.

Pampa is ready for big 'Top o' Texas Rodeo'

Jake Osborne, president of the Top 'o Texas Rodeo Association iced this week that final details of the big Top o' Texas Ro-deo, scheduled in Pampa for Aug. 3-8 are near completion.

Performances will be held nightly Aug. 4-8. All cowboys and cowgirls are reminded that this year's show will include five rodeo performances rather than four as in the past. Entires will close at 10 a. m. on Tuesday, Aug. 4.

Events will include calf roping, double mugging, bulldogging, sadriding, and bull riding. The purse ages of 6-17).

of some \$5,000 will be supplemented by one-half of all entry fees, with handsome silver buckle trophies going to the winner of each event,

The colorful cowgirl sponsor contest will use the standard clover leaf pattern for both go-rounds, with a beautiful handmade western saddle going to the cowgirl with the best average time in two rides.

Much interest is being shown in the American Quarter Horse Show, scheduled for Aug. 6 and 7 with Wiley Reynolds and Buddy Price directing activities.

The open cutting horse contest, under the direction of Guy Andis is always a very popular contest of the Pampa show

Up a steep mud-choked wash-Positraction pays off!

Through a mountain stream-deep in Avintaquin Canyon.

NO MOUNTAIN CAT, MISTER ...

That's a Chevy with Positraction!

That 3134 Fleetside has the surefooted ways of a big western bobcat. Roams through high brush country that would buck the life out of most trucks. Crosses streams without benefit of a bridge. Climbs talus grades where pinon won't even grow. But that's all routine for this Chevy, equipped with Positraction" rear It's hard at it every day for the Utah Fish and Game commission. Figure about 60,000 miles of mountaineering before this Chevy is traded. And yet the

district officer who drives it would bet his badge the tie rods won't even need replacing!

Out in that wild, climbing Utah country, Chevy's suspension and frame and brakes, its Positrac-tion rear axle and Thriftmaster 6 power are proving themselves under rougher conditions than most test engineers could dream up. They're proving that Chevrolet's advanced engineering and design ideas pay off-in spadeswhen the going gets especially mean and dirty.

Positraction, of course, is a big plus on this job, providing the sure grip needed to dig through mud, snow, loose sand, whatever comes along. Could be that a Positraction-equipped ½-ton pickup is the answer for your area of operation. Or maybe a 4-wheel drive Chevy. We've got trucks that specialize in getting in and out of any kind of country. Talk to your dealer about your needs. He'll show you what tough trucks are made of.

*Optional at extra cost

No job's too tough for a Chevrolet truck! Guernous

See your local authorized Chevrolet dealer!

It's the Law in Texas . . .

DIVISION OF ESTATES EXPLAINED

The death of an intestate person (one who has made no will) may give rise to many problems regarding distribution of his separate estate. In the preceding column we investigated the manner of dividing the community estate upon the death of a husband or wife. Now we shall see that, where separate property is involved, a completely different set of rules applies in determining heirship and apportioning the estate among the rightful claimants

It may be well to recall that the wife includes property owned by either before marriage, and that which is acquired after marriage by gift or inheritance. Any other property acquired after marriage is presumed by law to be community property until the contrary is clearly proved.

Now, here is a general idea as to how your separate property will be divided if you do not make a will with contrary provisions prior to your death.

If your husband or wife survives and if, in addition, there are surviving children or descendants of previously deceased children, the children and their descendants immediately obtain a full (fee) title in two-thirds of the real estate involved. The surviving spouse receives a life interest in the remaining one-third of the real property, which passes on to the children and their descendants upon the death of the spouse.

The rule for distributing persontwo week vacation touring the al property-cash, stocks, bonds, state and visiting friends and re- furniture, or any other items not latives. WASHINGTON AND "SMALL BUSINESS"

Inasmuch as Firestone is one practical monopoly in rubber and automotive tires, it could perhaps be said that their problems have no place in a small business column.

But recently Firestone was accorded treatment by one of the big TV networks which causes wonder whether or not the investiga-tions launched some time ago by Rep. Emanuel Celler into

try should not C, W. Harder be pushed further, with perhaps the Federal Communications Commission, which controls broadcasting, directed to abol-For 30 years Firestone, first in radio and then in TV, presented a weekly program of fine music known as the Voice of Firestone.

After many years it was uncere-monitously booted off the facilities of the National Broadcasting Company, refused by the Colum bia system, accepted by the American Broadcasting System, now booted off this network. Now in the broadcasting busi-

ness, they live by a rather silly shibboleth called ratings. In a medium size city, if 20 people were found to be listening to a program, that program gets a As the late Fred Allen once said "Broadcast rating systems are like counting grains of sand in the bottom of a birdcage to

find out how many grains of sand there are in the Sabara."

While the Firestone program of fine music never attained on an National Federation of Income Programs of Income Inc

this basis the highest ratings, even accepting the rating system at face value, it did have an

people who want something more

But according to the networks, the rating systems show that the majority of people prefer horse operas and warmed over jokes, thus those liking something else are out of luck.

Here is perhaps monopoly in ts most strenuous form. Not only are advertisers told what they must present on the net-works, but the public is also told what they must look at.

Actually there is little need for network TV. Most shows are filmed, but if independent stations want these films they are clubbed into joining the network, or affiliating, as the term goes, and forced during the prime evening hours to run these network

programs at just a fraction of their normal rates.

Thus, they have to scramble around to get local and regional advertisers to pay extremely high rates, for the 20 second spot announcements between these programs, to make up for the loss.

So, any local advertiser who pays the price for spots between programs by giants who are sponsoring the shows, are in actuality subsidizing these giants. Thus, obviously, without the networks monopolizing the TV in-dustry, both the interests of the public and of independent ad-vertisers would be better served. It would seem high time for a long look-see into this monopoly operating under auspices of a government bureau which is

'The Trap' is big-scale suspense action drama

Four exciting, topflight stars will be seen in Paramount's bigscale suspense action drama of the modern West when the Technicolor, VistaVision production, "The Trap," shows at the Tower Theater next Wednesday and Thursday. The talented and Widmark, Lee Louise and Earl Holliman.

"The Trap", which is set in the desert region of today's southwest, calls for hard-hitting action as well as strong dramatic performances. It concerns Widmark, as a young gangland lawyer, who attempts to get Cobb, a top public enemy, out of the country only to become involved with law officers who are members of his own fami-
