

Record vote total seen for Saturday liquor elections

Thaxton, Duckworth, Lucas win council posts; 436 vote

City voters—436 of them—went to the polls here Tuesday to return two incumbents to the city council and also to elect a third councilman from a field of nine candidates.

W. S. (Walter) Duckworth and C. R. "Si" Thaxton were the incumbents returned to office. The newcomer on the council is Harold Lucas, who led the ticket with a 345-vote total.

Thaxton received 209 votes and

Duckworth 201.

Three women candidates, the first women ever to file for places on the city governing board here, were left far behind in the voting. Katharine Trammell received 83 votes, Mrs. Charles Didway 27 and Eleanor Webb 21.

Highest among the other three candidates was V. F. (Bing) Bingham, a former high school football coach here, with 186 votes. M. L.

(Lester) Nichols received 170 and Bob Poole 94.

Morris Chambliss, whose name appeared on the ballot, but who announced his withdrawal from the race two weeks ago, received seven votes.

Thaxton was re-elected for a third term. Duckworth was elected for his first elective term, having been appointed to the council last April after Councilman Powell

Shyities was elected mayor.

Lucas will replace Councilman L. A. Presson, who did not file for re-election.

The large turnout of voters—possibly a record here—was attributed to the interest generated in the race by the entry of the three women candidates, and by Amity Study Club voter's guides and a town hall meeting sponsored by the Post Ministerial Alliance.

Decision in hands of qualified voters in Precincts 3, 4

By JIM CORNISH

A record turnout of voters is expected to go to the polls Saturday in Precincts 3 and 4 to decide whether legalized liquor sales will come to Garza County for the first time in its history.

Local observers would rate a wet triumph in either precinct as a real upset.

The polls will open at 8 a. m. and close at 7 p. m. Saturday in both precincts. There will be two voting places in Precinct 3—at the Lincoln Elementary School and at the Verbena Community Center. All the voting in Precinct 4 will be at the Justiceburg school house.

REGISTERED VOTERS

There are 284 registered voters in Precinct 3 and 62 registered voters in Precinct 4 who have paid their poll taxes. The number of eligible voters in Precinct 3 isn't known, but the total eligible vote in Precinct 4 is said to be 85.

The general consensus of opinion is for a dry sweep—just as it has been in the past when the liquor issue came up for decision.

But regardless of the outcome of the Saturday elections — especially

Election Returns

The Dispatch office will be open from 8 to 9 p. m. Saturday to give out returns on the two precinct liquor elections.

A second phone line into The Dispatch was installed today—just in time for the callers Saturday night on liquor election results.

Phone either 111 or 802. Complete returns are not expected to be available until about 8 p. m.

ly in Precinct 3 which includes a portion of the city of Post and the entire "flats" area—both sides see it as only the start.

LEAGUE SETS GOAL

The Civic Improvement League, the organization formed two weeks ago to push the dry campaign, has promised to direct its efforts to "cleaning up" the flats if the precinct votes dry.

That means getting rid of the bootlegging and prostitution. "If we don't," one dry leader explained yesterday, "the wets will call another election and they will win."

The dries haven't said how they would propose to go about "drying up" the flats. Their strategy could take several forms. Right now they are concentrating upon the Saturday election.

SIMILAR THINKING

The wets appear to be thinking along the same lines. If they lose Saturday in Precinct 3, they probably will consider another election on a different legalized liquor proposition — possibly package (See LIQUOR ELECTIONS, page 8)

Saddles taken in burglary found

Sheriff Carl Rains said this morning that four of the five saddles stolen last January in a burglary of a barn on the K. Stoker ranch have been recovered near Childress.

The sheriff said the saddles were recovered in an old abandoned cellar near Childress. He said he is going after the saddles in the next day or two and that he has high hopes of locating the fifth saddle on the same trip.

Previously recovered were a trailer and some cottonseed cake taken in the same burglary. Still missing are bridles, blankets, bits and spurs.

Three men have been indicted in connection with the burglary. One is being held at Memphis, Tex., one at Childress and one has made bond at Snyder, the sheriff said.

Passenger auto license plate purchases show gain over last year's

Garza County passenger car owners had purchased 2,020 sets of 1960 license plates up to noon Tuesday, according to T. H. Tipton, county tax assessor-collector.

Tipton said this is about 100 more passenger car tags than had been issued at the same time last year.

Other 1960 tag purchases included 496 commercial, 356 farm truck, 27 truck-tractor, two farm truck-tractor and 94 trailer.

The deadline for having the new license plates on all vehicles operated on public streets and highways was midnight April 1. Enforcement already is in effect, officers said.

35-TON UNLOADING JOB FOR SWPS

A 5000 KVA transformer being unloaded here by a Southwestern Public Service crew will replace a 2500 KVA transformer installed in June, 1957. Approximate weight of the new transformer is 35 tons. Ted Hibbs, SWPS manager here, said the new 5000 transformer marks a sixth step in the growth of the local substation from a 300 KVA transformer installed in 1940. "Plenty of electric power will be available for any load," Hibbs said.—(Staff Photo.)

Commissioners promise aid if people want one

County says library up to the taxpayers

Garza County commissioners Tuesday promised members of two library sub-committees that the current library "provided the taxpayers library."

Members of the costs and petition sub-committees of the newly formed library study committee, along with the commissioners

Monday afternoon, were told that it will take a boost in tax valuations for the county to raise money to get a library started and to maintain it.

The petition sub-committee's proposal that a library petition be circulated was taken under study by the commissioners' court with the promise that "we will go into

it Monday at our regular April session."

LETTER PROPOSED

The commissioners suggested a few changes in a proposed letter to be sent taxpayers. The purpose of the letter would be to fully inform the people of the library project, its costs, etc.

Earlier, County Attorney Carleton P. Webb had informed the library group and the commissioners that the county's present tax rate is at the 95-cent maximum and that it can be raised only by special issues, such as bond elections.

County Judge J. E. Parker then explained that any funds for the library at this time would have to come out of the general fund, and that he just doesn't see how that can be done, considering that 13 cents of that fund already goes for county hospital expense.

It was pointed out that a raise in valuations would be the only means, other than a bond issue, of raising the money required for a library. The argument against court in an hour and a half session raised in valuations is that the State of Texas will get 42 per cent of the increase.

108 acres city property leased to oil operator

One-year oil lease on 108 acres of city property in the old field four miles west of Post is being sold for \$5,724 into the treasury.

The city council at its April 19 Monday night voted to lease property to Paul Ricker of Post for a bonus of \$50,000 plus a 1-1/2% override and a royalty \$1 per acre per year.

The council instructed City Attorney Carleton P. Webb to proceed with drawing up the lease and accepting the Ricker bid.

Other important actions, including approval for a

lease on water rights to 160 acres belonging to H. P. Wheatley and gave the Lubbock architectural firm of Cantrell and Burns the go-ahead to draw final plans for the remodeling and expansion of City Hall.

The new quarter-section on which water rights are being obtained is located on property adjacent to present water leases so no expensive pipe laying will be required.

Mayor Powell Shyities termed the lease "water insurance." He pointed out Post conceivably could run short of water this summer, especially if present sources do not produce the water in volume expected.

WATER LEASE TERMS

The water lease is for five years with a five year renewal option and calls for payment of \$150 monthly during the first two years if no wells are drilled and \$300 monthly when wells are drilled. A total of six producing wells are allowed by terms of the lease and it can be cancelled by the city at any time.

Terms are similar to other water leases in the area. Councilmen pointed out even if everything goes through on the (See CITY OIL LEASE, page 8)

New highway job is being started

Construction was scheduled to begin today on the rebuilding of the west lanes of highway US-84 from Post to the Scurry County line—a project which will bring some 75 construction workers and their families into Post when the work hits its peak.

A concrete crew of eight to ten men were moved here this week by Bryan and Hoffman, the Plainview construction firm which was recently awarded the 18.3 miles project by the Texas Highway De-

Post youngster going to Texas Lions camp

Charles Lynn Baker, 8-year-old son of Mr. and Mrs. Robert Baker, Route 3, will be sponsored by the Post Lions Club to the Texas Lions Camp for Crippled Children at Kerrville for a two weeks outing this summer.

Dr. John Carter, chairman of the Lions committee that announced the selection, said others can be sent if more applications are received. The Baker boy to date has been the only applicant.

'Hedge-hopping' blamed for scare

A "hedge-hopping" Air Force pilot was blamed today by the sheriff's department for reports of a jet plane crash in the rugged breaks country south of Post.

Following an extensive search Tuesday night and early Wednesday morning for a jet aircraft which had been reported flying low and trailing smoke, Sheriff Carl Rains said he was satisfied that no plane had crashed or been forced down in the area.

The sheriff said he did learn that a plane from Dyess Air Force Base at Abilene was in the vicinity at about the time the reports started coming in, but that the aircraft had safely reached its home base.

The search was kicked off after a woman in the Grassland community reported that a jet plane was flying low and trailing smoke. There was another report of a flash and short fire north of Fluvanna.

At least four jeeps were pressed into use in scouring the hills south of Post after the reports came in.

When General Telephone installation men went to work here at The Dispatch office yesterday, their timing was perfect as far as public use was concerned. They installed a second phone line into this newspaper office, as well as new dial phones with dial lights showing the lines in use. The second line will come in handy when folks start ringing our phones off the desks Saturday night to ask the outcome of the two liquor elections. Our new number is 802. Our original number was 111. Call either one between 8 and 9 p. m. Saturday night for the election results.

The second phone line has been ordered in because one phone simply wasn't enough to get all the calls in and out of the office. We hope those who have been getting the "busy signal" for the last few weeks too many times will not be further inconvenienced by such delays.

All of which reminds us of the fact that the new dial phone system building has been completed and it won't be long before the big job of installing dial phone equipment there will begin. Post is scheduled for a change-over to dials in November. Then everybody will get new phone numbers.

The Dispatch today might be called the "campaign edition." It is "really loaded" with advertising appeals by both dries and wets.

Just a note to say that all the paper work on Post's Public Housing project is having to be done over and resubmitted to qualify for a new available appropriation. Lee Ward, the secretary of the local housing authority, is the guy stuck with the "paper project."

Garza under way with

Nose count

Garza County's census-taking, which got under way last Friday, is expected to be almost half completed by tomorrow with six enumerators making the door to door calls across the county.

The problem the enumerators are having is the old one of "finding somebody at home." But those who are at home are cooperating "wonderfully."

Mrs. J. E. Parker in one block found only two persons at home and made seven trips back to complete the counting.

The other five enumerators in the county are Mrs. Ann Payne, Mrs. Esther Howell, Mrs. Lee Davis, Mrs. B. D. Litton and Mrs. Louelle Morris.

J. R. Porter of Post is the field reviewer for Garza and Lynn counties.

The schedule calls for completion of the county census taking in another week, but it probably will take longer to finish.

City-County Park gets 200 trees

Members of the City-County Park Board are—and have every right to be—enthusiastic about the way things are shaping up at the park.

Another big step toward making the park a community asset of which we can be proud was completed recently with the setting out of more than 200 trees, which within the next five years or so will make the park a recreation spot toward which we can point with pride.

The setting out of these trees followed the master plan of park development drawn up by E. J. Urbanovsky & Associates, landscape architects of Lubbock. The trees, planted symmetrically, include cottonwoods, Lombardy poplars, Serbian elms, pecans, Siberian poplars, honey locusts, flaming crabapples, purple leaf plums, mimosa and Texas honeysuckle.

The trees are being watered twice a week—not with water from the dwindling municipal supply, but with water from South Lake, which is in the center of the 31-acre park. The watering is also helping the grass green up, and, over-all, the park is far ahead of what it was a year ago. There's still considerable work to be done, as any park board member will tell you, but it's all included in the long-range park plan so wisely agreed upon some two years ago by the city and the county.

Another improvement at the park is the ca-

liche road leading from the northwest corner to the barbecue pit and tables. This road was laid by the county as per their agreement when the city-county park deal was set up.

The only "fly in the ointment" at this time, according to Park Board Chairman Shelley Camp is the noticeable slowing up of park development by vandalism. Water sprinkler heads have been damaged by using them as holders for fireworks, and the barbecue pit is being wrecked. Both ends of the brick and concrete pit have been seriously damaged, and rods have even been torn off and thrown in the lake.

As the park board chairman points out, there isn't much object to trying to have a park if such acts of vandalism continue. He has high hopes, however, that the perpetrators of the vandalism will see the light before it is too late, and realize that the park is being built for them as much as for anyone else in the community.

Understandably proud of the more than 200 trees that have just been set out, the park board members are especially anxious that nothing happens to them. "We're asking everyone to help see to it that the trees are taken care of," said the park board chairman.

Is that asking too much in return for something we've long needed—a park of which the city and county can be proud?—CD.

First Town Hall well received

Post's first Town Hall drew lots of favorable comments from those who turned out for it in the high wind and sand last Thursday night.

It wasn't an inquisition, as possibly some candidates had feared. The questions were submitted a week ahead of time for candidate study and the panel stuck to those questions.

We think those attending got a much better insight into the thinking of the candidates on the jobs they were seeking.

Even in a small city such as ours, the problem for most candidates is to make themselves known to the voters. Without active campaigning—as is the accepted way for city and school positions—that is doubly difficult.

The Town Hall was a way for the candidates to get themselves over.

Of course all the candidates weren't on hand. It would have been better of course if they had been. But it is natural for some to feel they didn't want to come.

The Town Hall idea is mighty new. Like everything else it will take time for general acceptance.

Those who attended, listened carefully, and came away with a much better understanding of the problems of local government and the fact that they are no so easy to solve.

Since a full candidate by candidate report would be only a post-mortem on a "dead" political campaign—as the voting and deciding is now over—the Dispatch is not printing a long detailed story on the Town Hall.

We would suggest that next year the meeting be scheduled far enough in advance of the elections that candidates' views can be reported in The Dispatch before election day—thus helping candidates to receive a wider audience.

But Rev. Eugene Matthews did an excellent job in organizing and directing the Town Hall.

Certainly it was worth the effort to enable candidates to express their views on the offices they seek. There are those of course who believe that a candidate's campaign promise to "do my best" is enough of a platform. We are only sorry that they didn't turn out last Thursday night for an honest look at what they had been criticizing.

If we made Gladiola Flour for Santa Claus, Ind...

the quality wouldn't be so important

...but we make it for you

Gladiola Flour is tailor-made for one special group of homemakers. They live in Texas (or right next door) and they bake the best biscuits, pies and cakes in the U.S.A.

These ladies are flour experts. They know what they want, and nothing else is good enough. So far (for 47 years) we've kept them satisfied. Today and every day, Gladiola Flour is outselling every other brand.

As for Santa Claus, Ind., women, they've never dreamed there's a flour like snow-white Gladiola. And they'll never know, as you know, that Gladiola quality is your best bargain in flour. Surprisingly, it costs the average family only about 1/4¢ a day more than the cheapest flour made.

THURSDAY to THURSDAY

By CHARLES DIDWAY

YOU'VE GOT TO hand it to this year's senior class at Post High School. They had the boom lowered on them a few months ago when the school board voted no more senior class trips—beginning this year. But instead of forgetting about the traditional class trip, the seniors decided to take it after they had received their diplomas and gone out into the cold and heartless world as high school graduates.

In the ensuing months following the school board's decision on no more senior trips, this year's graduating class has worked long and hard toward raising money for their trip. They had several hundred dollars to go on when the school board decision was made. If they hadn't already raised this money, they probably would have abided by the school board's decision and forgotten about a class trip. But we admire their determination in deciding to go ahead with plans for the trip—even though it won't be school-sanctioned—and we admire those parents who have stuck up for their kids and helped them on their fund-raising projects.

AT THE SAME time, we're not criticizing the school board on its decision to cut out the senior trips. Personally, we don't see much value in them nowadays when most kids see more places in a year than their grandparents used to see in a lifetime. We just think that when the school board was told by Supt. R. T. Smith that this year's senior class already had a good start financially toward its class trip, the board should have waited until next year to chop it off.

Incidentally, all this was brought on by news last week that the seniors have decided on Panama City, Fla., as the destination of their trip. Well, bon voyage, seniors; we hope by now you know we're for you!

Recently the editor of a paper in Indiana grew tired of being called a liar, so he lowered the boom on his community, announcing that he would tell all the truth in the columns of his paper thereafter. The next issue contained the following items:

John Bannin, the laziest merchant in town, made a trip to Belleville Monday. Everybody knows he will come back with a "liquidated" suit case and pretty well "liquidated" himself.

John Cople, our hardware merchant, is doing a poor business. His store is dirty and dusty; how can he expect to do anything?

The Rev. Sty preached Sunday night on "Charity." The sermon was punk, showed little, if any, preparation, and he was careful not to offend any of his paying members. Fortunately the few victims who attended were able to snore through it all.

Married — Miss Sylvia Brown and James Pollis last Saturday at the parsonage of Rev. Gordon. The bride is one of those spineless females who doesn't know any more about work than an oyster and never wiggled a dishrag more than three times in her sweet life. The Lord knows she's no beauty and has a gait like a duck. The groom is an up-to-date loafer; he has been living with the old folks at home all his life and is not worth gunpowder enough to blow him up. The entire community sympathizes with their lack of brains in pulling off the matrimonial stunt, but it's them for it—and the rest of us should worry. Parents should feel grateful that these two freaks were mutually attracted, for by this only one family is ruined. However, the prospects are that they will have a hard life.

Died — Abraham Cattram, age 56 years, six months and 13 days. Deceased was a mild-mannered pirate with a mouth full of tobacco. He came to this town in the night with another man's wife and joined the church. You could hear him pray for six blocks and see him spit for four. He owed several dollars on subscriptions for this paper before we cut him off, besides meat and grocery bills all over town. He died singing, "Jesus Paid It All," and we think he was right — he never paid for anything.

Mrs. Twitterbritches is back in town completely recovered from "grief" over the passing of her late husband. She has lost none of her technique in cornering anything with pants on from eight to 12.

William Lilye, an Oxford scholar of the 19th Century, first said, "A penny for your thoughts."

THESE ARE THE FACTS

The Sale of Liquor:

1. Will bring undesirable elements into our community.
2. Will tempt the individual, who presently does not drink, to start with moderation and ending as a possible alcoholic.
3. Will result in more **COSTS** than taxes and fees **RECEIVED**.
 - a. Licenses for package store — State- $\$125^{00}$, County- $\$62^{50}$, City- $\$62^{50}$
 - b. Licenses for on-premises beer sale — State- $\$25^{00}$, County- $\$12^{50}$, City- $\$12^{50}$

The only other receipt for our county or city is the tax on inventory. How can these small receipts pay the costs inevitably forced upon us, as experienced by other cities and counties that have legalized liquor?

4. Will make Post a supply point for other bootleggers.
5. Will **NOT** prohibit the sale to minors in our community by "control" any more than it does now.

In view of these facts, The Garza Civic League (representing citizens of all precincts) stands firmly against the sale of liquor — legal or illegal.

Card of Thanks

With deepest gratitude we extend this word of thanks for the many kind acts of sympathy, expressed by thoughtful friends. Your kindnesses have meant much to us. The family of R. J. (Pokey) Hundley.

I am very grateful for friends and loved ones for all they have done for me during my illness. I don't believe I could have gone through all my suffering without your prayers, visits, gifts and flowers. Thanks so much. I am happy to say I am home again. May the Lord bless each of you in my prayer. Mrs. J. G. Stewart.

I want to say thank you to everyone for the gifts and cards, to my Sunday School class for the pretty flowers and to my teachers who were so nice to send my assignments while I was in the Scottish Rite Hospital. Thank you again. G. T. Mason Jr.

We wish to express our thanks and appreciation to the nurses and especially to Dr. Matthews for the care shown our loved one during his illness. Also to the many friends and loved ones who were so thoughtful to send flowers, food and many words of comfort during the illness and death of our loved one. May God bless each of you. The Turbyfill family.

We wish to sincerely thank those who were so thoughtful of us at the passing of our mother. Each act of kindness was deeply appreciated. The Harden family.

Texas Longhorn Cavern comes of age as prime tourist attraction

BURNET—Texas Longhorn Cavern, third largest cave in the world, has come of age as one of the state's prime tourist attractions, H. H. (Hob) Galloway, manager of the cavern, declared this week.

Cavern visitors will total more than 500,000 long before the cave's 25th anniversary as a public showplace this Thanksgiving, Galloway predicted after studying attendance figures for past years.

When the cavern was first opened for public inspection by the State of Texas back on Thanksgiving Day in 1932, Thanksgiving services were held in the 183 ft long Main Room and attended by the Governor and other state dignitaries.

Other members of the county board are George Ramage, Precinct 2, and A. I. Cross, Precinct 3.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

"THE LORD SHALL OPEN UNTO THEE HIS GOOD TREASURE"...

The Lord has never broken any promise spoken . . . and he has promised us many treasures. He has blessed our lives with "plenteous goods" and the land has prospered. God has promised us many treasures in heaven, treasures that dust nor rust will not corrupt, and may not be stolen from us.

Lay up your treasures in heaven now . . . Attend church regularly and seek God's will in your life.

last Thursday night although a sandstorm blowing outside cut the turnout to some 75 interested voters.

A group of some 15 Negro voters were among those on hand to hear four school trustee and four city councilmen candidates answer a pre-studied list of questions asked them by a panel of three.

The Town Hall meeting was sponsored by the Post Ministerial Alliance. The Rev. Eugene Matthews was in charge of the event and was moderator for the Town Hall, introducing each of the candidates and leading the applause for their views when they had finished.

Other panel members were Mrs. Ralph Welch and Giles McCrary. All four the school trustee candidates for last Saturday's election —David Newby, Dr. John Carter, Bobby Pierce, and Malcolm Bull —were on hand.

The four of the nine city councilmen candidates on hand were Miss Katharine Trammell, V. F. (Bing) Bingham, Harold Lucas, and Lester Nichols.

The school trustee candidates generally were opposed to attempting a merit system pay plan for teachers here due to the difficulties involved in making merit ratings.

Among the four city candidates considerable interest was expressed in planning and zoning bodies, the city manager form of government along with a home rule charter.

All four were on record in support of a city police force.

In the matter of opening all meetings to press and public, most city and school district candidates said they favored freedom of the press and a newspaper reporter being on hand whenever actions were taken. But most of them said they thought "executive sessions" were all right to discuss controversial issues.

Sgt. Jones takes part in amphibious landing

FORMOSA — Marine Acting Gunnery Sgt. Randol D. Jones, son of Mr. and Mrs. Eger Z. Jones of 116 E. Fifth St., Post, Tex., took part in a huge amphibious landing exercise, March 22, on Formosa's southern coast with units of the Iwakuni, Japan-based First Marine Aircraft Wing.

The exercise, termed "Operation Blue-Star", called for the First Marine Aircraft Wing to assemble in the area on March 20 along with Marine units from Hawaii, Japan, Okinawa, and U. S.-Republic of China navy, marine and air force elements.

Purpose of the operation, which comprised over 18,000 Marines and 70 Navy ships, was to promote closer working relations between U. S. and Republic of China forces in practicing the conventional and vertical assault type amphibious landings.

First \$13,265 car for 1960 is delivered in Brownfield

BROWNFIELD—The Brownfield News last week had a picture and feature story on a \$13,265 automobile which was sold there.

It was America's first 1960 Eldorado Brougham Cadillac, a luxury car built in two different countries.

The body is custom made in Italy. All interior appointments were handcrafted to the buyer's specifications. Upholstery is of unborn calf hide and floor boards are covered with enough mouton to make three coats. Locks and door inlets are of chrome.

The car is equipped with every accessory known to the automobile industry. It doesn't have a TV set —but there is a compartment to

install one located behind the front seat. Twenty-seven electric motors and seven miles of wire provide the source of power to operate the gadgets.

When completed the body was sent from Italy to the factory for installation of the chassis and the 400 horsepower engine.

Only 22 of such cars were built in 1959.

Only hitch to the sale was that it wasn't a Brownfield resident who bought the car. Worse yet, it wasn't even a Texan.

The purchaser was Scharbauer Eidson of Lovington, a New Mexican rancher.

Don't You Think It's About Time?

For a good long time we've had bootleg sales of alcoholic beverages in this part of the country. Our folks have also bought beverages from neighboring counties where sales are legal. All of which simply means that some of us enjoy a cool bottle of beer or a refreshing highball and feel that they have a democratic right to that enjoyment. That privilege has been recognized and protected for us through a decision of the Supreme Court a few months ago. This decision permits the elections next Saturday, April 9, to legalize alcoholic beverages in two separate precincts under two different plans. And, it also allows the rest of the county to stay so-called "dry." This is a sensible approach to beverage sales. It is the proper solution and true local option.

Legal Sales are enjoyed by more Texans than ever before in the State's history. Population of the Legal Sales areas is nearly three-to-one GREATER than in the "dry" areas. This many people are bound to be RIGHT! You'll also find that taxes from Legal Sales are helping folks all over Texas every day. Here's what these taxes Have done (and are doing) since Repeal to March 1:

\$154,846,856.10	Public Schools & Teachers Salaries
23,365,508.96	Teacher Retirement
89,235,997.40	Old Age Pensions
1,932,295.42	Needy Blind
5,302,870.80	Dependent Children
13,943,542.28	Farm-to-Market Roads
88,101,141.79	Other State Services

Definitely it's time for a change in Garza County.

When you vote for Legal Sales Saturday you'll not only be doing a good deed for others, but you'll also be standing up for your own economic and personal rights. You do that by scratching the BOTTOM line on your ballot in both Precincts 3 and 4.

Minister returns from Washington conference

Ronnie Parker, who flew home Saturday after spending a week in Washington, D. C., attending the President's White House Conference on Children and Youth, says the conference's success will be determined by how well is the "follow through" to put many of the recommendations into action.

The Church of Christ minister was one of the 124 members of the Texas delegation who have recommended to Governor Daniel that a permanent committee be set up to work for the interests of children and youth in this state.

7,000 PARTICIPATE
Some 7,000 participated in the conference, Parker said, including 1,000 American young people and 500 foreign students.

The conference was held Friday through the next Friday with mornings devoted to general assemblies and panel discussions and afternoons to work groups of 30 discussing various problems and drawing up recommendations.

Parker is awaiting his final report on the conference which should be available next week, containing all the recommendations. The conference was addressed by

many national leaders, including President Eisenhower.

Sen. Lyndon Johnson gave a reception for the Texas delegation. Parker had a 30 minute visit with Cong. George Mahon on conference matters.

Such White House conferences on youth are held each ten years.

Parker told The Dispatch that many recommendations were made which could be put to use in this community. He will speak before Rotarians in three weeks on the conference.

HOME FROM MIDLAND

Miss Pat Ritter, who is employed in Midland, visited during the weekend with her parents and friends.

with, "axes to grind," will very shortly take over and eventually control City Government. It is difficult to see how pressure groups could become more numerous and more influential than they are at present, but it is entirely probable and possible they will make bigger demands in the future, unless the citizens of our town and community will rise up and put a stop to minority control, both local and out of town, as is the situation today.

"If the citizens of Post and Garza County were the only ones involved, it would be bad enough, but once established, especially on weekends, our good town would be full of drunks, hoodlums, lewd women, and cut-throats, and all types of riffraff from a radius of 50 miles or more, endangering the life of any decent citizen on the streets and highways.

"Post is a thriving and growing community, and well respected, but legalized liquor will definitely retard our growth and prosperity, because future industrial prospects would definitely pass us by. If this is what we want, we might as well begin now to give up any hope of future growth and satisfy ourselves to be content to live a life of hell on earth.

UP TO VOTERS
"If we think we have problems now on inadequate law enforcement, we are just plain fooling ourselves as compared to what we will have, if the sale of alcoholic beverages is legalized in Post. I feel sure that the majority of our people in the mill, and also the citizens of Post, want to continue to be looked up to and respected and not to be looked down upon and disgraced. The decision is in the hands of the voters, and my sincere hope and prayer, is that, especially our good and loyal employees of Postex Mill will vote 'No' in the coming election."

Both sides are reportedly working hard in both precincts.

Many local pastors spoke from their pulpits Sunday on the liquor issue.

In some churches, young people also spoke against legalized liquor during the worship services.

The committees of the Civic Improvement League are reportedly hard at work.

BOTH SIDES WORKING
So are the wets. Both sides are said to be making a voter by voter contact in both precincts.

The dries have planned a radio campaign over KUKO. A number of talks already have been taped for broadcast.

Some rumblings have been heard from the Justiceburg precinct from voters irked at what they term "outside" or "Post" interference from the dries. How important a factor this will be in a precinct where every vote usually counts isn't known.

The fact that Post would become a "supply point" for Lubbock liquor buyers if Precinct 3 went wet and Justiceburg would get the business if Precinct 4 went wet and Precinct 3 didn't has figured prominently in the campaign—as an economic factor for the wets and as a real danger as seen by the dries for the law enforcement which would be required.

The last two times Garza Counties went to the polls on liquor questions—Oct. 1, 1938, and Oct. 7, 1944, the dries won resounding victories in every precinct.

In Precinct 4, the legalized liquor question will be for liquor stores for sale for off premises consumption only. The question in Precinct 3 would also permit beer sales on premises if the issue carried.

Mrs. Marvin Williams and Danny returned Sunday afternoon from several days visit in Caddo Mills where Mrs. Williams was with her mother, Mrs. Andrew Wallace, who underwent major surgery last week.

GARLAND HUDDLESTON

Accepts job as mortician here

Garland Huddleston this week began his duties as a mortician at Hudman Funeral Home here.

Huddleston, son of Mr. and Mrs. W. J. Huddleston of Post, formerly of Grassland, is a graduate of Tahoka High School and of a mortician's school in Dallas. Before coming here, he was employed for 22 months by Crosier-Pearson Funeral Home in Cleburne.

Huddleston's family consists of his wife, Betty, and their son, Larry.

He is a brother of Wendell Huddleston, who was employed in The Post Dispatch news department for several months in 1952 and 1953.

Library choice--

(Continued from page 1)
Parker figured that it would require 10 cents on the \$100 valuation to set up the library and operate the first year and about 5 cents for each year thereafter.

"We want to be sure that every taxpayer has an opportunity to express his opinion on whether or not the county should raise taxes through a valuations increase to provide for a library," Judge Parker said.

Simms and Tom Gambin, chairman of the petition sub-committee, told the commissioners that heads of various clubs and other organizations have indicated that their groups would help in circulating the petitions among taxpayers in all sections of the county.

MAY 1 DEADLINE
The county has been given until May 1 by the Texas State Library Commission to reach a decision on whether or not it wishes to go in to a multiple county library plan.

That is so the project can be worked into the state library's budget and other plans for the next fiscal year.

Judge Parker said that made time short for the mailing of educational letters on the project and the circulation of petitions, but that he feels the state library group "will give us at least a ten-day extension."

The estimated first-year costs submitted by Simms calls for \$9,135. This includes \$4,300 for a building, \$2,260 for salaries, \$1,900 for books and periodicals, and \$675 for equipment and supplies.

COST WOULD DECREASE
Simms explained that the cost of operation after the first year would be about one-half the above amount. He also pointed out that the \$9,135 estimate for the first year might be pared through furnishings of library quarters by the city—which the city itself has indicated might be possible—or by acquiring one of the temporary classroom buildings at Post High School.

The Texas State Library has agreed to furnish books at no cost, the number of books to be based on the county's appropriation for the library.

Postings--

The First National Bank has kept a check on the number of customers using their new drive-in window and have been pleasantly surprised to find that the average use is approximately 40 drivers each day. Incidentally that's bullet-proof glass on the drive-in window, in case you wondered.

Mrs. Marvin Williams and Danny returned Sunday afternoon from several days visit in Caddo Mills where Mrs. Williams was with her mother, Mrs. Andrew Wallace, who underwent major surgery last week.

Crippled child clinic slated

A clinic for all crippled children of Garza County and surrounding counties will be conducted next Wednesday at the Lubbock Cerebral Palsy Treatment Center, 3502 Ave. N, Lubbock.

Dr. C. A. Pigford, director of the Lubbock City-County Health Unit, has announced that registration for the clinic will begin at 9 a. m. No charge will be made for examination.

The clinic will be open to all children, under 21 years of age, who are crippled or who have conditions which might lead to crippling.

Parents are requested to accompany the patient.

WEEKEND GUESTS

Weekend guests in the Jim Hays home were their daughter and grandchildren, Mrs. Roy Gilmore and daughters of Lubbock.

bility of his group acquiring one of the temporary classroom buildings at the high school for use as a library.

Simms was told by the trustees that since they do not yet know how remodeling will progress at the building this summer, it will be late August or early September before they will know whether or not the building will be needed for classrooms again next year.

NOVACK NOT PRESENT

Novack was unable to be present at Monday night's board meeting, but will attend next Monday night's regular meeting, at which time his proposal on the high school remodeling will be further discussed.

Bill Westbrook, construction superintendent on the new high school, and Harvey Shubert, also of the contracting company, met briefly with the board on the proposed remodeling, but the trustees decided to wait until they could talk with Novack before taking any action.

The remodeling at the high school will include re-wiring, re-lighting, new floors and ceiling, new rest rooms, plumbing improvements, repainting, etc.

SAFETY MEASURE

The board's decision to have speed governors installed on the school buses is being taken as a precautionary measure for the safety of the children and to save wear and tear on the vehicles.

The State Board of Control presented a choice of two bids for the new school bus to be purchased by the board. The one accepted calls for a 36-passenger bus on a 36-passenger frame, costing \$3,711.

The board accepted the bid of Everett Windham for a pick-up

After the concrete crew will come a grading crew of 25 with equipment and then others until the work force totals approximately 75.

About 12 of the workers will move here with their trailer homes. Some won't have their families here until after school is out in May.

CONFERENCE FRIDAY

Complete details of plans for the project were explained at a pre-construction conference held Friday morning in the office of the resident highway engineer, Julian F. Smith, here.

Texas Highway Patrol officers, representatives of the contractor, The Dispatch, and Texas highway inspectors for the project and other highway officials attended the 45 minute briefing.

No traffic - slowing detour will be necessary as two-way traffic will be shifted to the new double east lane of the highway for the construction period.

Smith said that some six miles of the 24 mile stretch from Post to the Scary County line will not be involved in the rebuilding.

Traffic signs on the project will be lighted 24 hours around the clock, McLaurin assured the group.

White River dam project, it will be three or four years probably to Post.

The new lease is the northern quarter section of 1300, P. H. 74.

CITY HALL PLANS
The council approved preliminary plans for the city hall remodeling which is expected to cost \$15,000 to \$18,000 and possibly \$20,000 more if the new front for the building is projected up to the second story.

Plans call for renovation of the newly purchased filling station property next door to the present city hall as well as remodeling the city offices and complete refrigerated air-conditioning.

The former filling station will be converted into the water department office and the driveway maintained for a drive-in pay window for water customers.

MODERN FRONTS

A new modern front for both the present city hall and the water station are planned.

The city council room in the hall of the city hall will be more than doubled in size. A low false ceiling will enable the offices to be cooled and heated at no more than present costs according to architectural estimates.

The council at its Monday session also authorized installation of 25 more street lights. Some go into the business district behind new bank building for example, some in "the flats" on the eastern highway approach to town, and more in the residential areas.

Post Antelopes to try for district track title Friday

in Texas Tech under track

Floydada and Tahoka are expected to fight it out right down to the final event for the team championship in the District 3-AA meet Friday on the field track.

The basis of past performances this season, the three are fairly evenly matched. They have shown more strength in the pole vault and broad jump. Floydada in the hurdles and the discus, and Tahoka in the shot, discus, and other field events.

Spur Bulldogs are expected to win the mile relay, but have little strength this season in the event. They have a good record in Freddie Walker.

ON NOT STRONG

Stanton Tigers aren't expected to make a showing, having failed to score a point in at least two events.

Harold Teal and John Blocker think the Antelopes can win the district championship if they are capable.

The question mark as far as the Antelopes are concerned is Didway's leg, which he injured a month ago in the Crosby relay a few days after pulling high point honors in the 100-yard dash at Floydada. He has been at full strength since the first in the 220 and third in the 100 at the Hale Center Relays Saturday.

BROAD JUMP

Injury to Didway's leg has the Antelopes most in the jump. Since winning that at Floydada with a record leap of 20-4, he has fallen place in two other meets.

Antelopes are also dependent on Ronnie Henderson for some in the 100-yard dash and road jump. He and Tommy Forrester have replaced Scottie Claborn and Forrest Claborn on the 40-yard relay team, with Claborn and Richard Ray as the two members.

John Blocker said today that if he can pick up at least a second in the 440 relay at Lubbock Saturday, he definitely will increase his chances of winning the title. He pointed out that under the new Inelastic League scoring system, first place in the relay counts 20 points, a second 16 points, etc. Scoring in individual events range from 10 for a first place to one for a sixth place.

PLACE SEEN

Washburn is being counted on for a first place in the pole vault, since he has consistently vaulted other District 3-AA vaulters this season. Jerry Ligon is expected to add some for Post in this event.

Although their performances at Hale Center Saturday were disappointing, Pierce and Didway are expected to win at least a second in the discus throw. It appears to be Tahoka's Elliott, but Pierce is capable of beating him, the Antelope coach said.

Floydada's Ogden looks like the favorite in the high jump, but should gain some points in the event on the performances of Rankin, Washburn and Pierce. Rankin is concentrating on the shot in this week's practice event in which Post is expected to place this season. Elliott, Tahoka and Don Vickers of Tahoka are considered the top performers.

Antelopes and their coaches have left Lubbock about 7:30 p.m. Friday morning. The practices are scheduled to get underway at 9 o'clock, with most of the meets set for Friday afternoon.

IF'S LISTED

Following is a complete list of entries in the meet, subject to changes:

100-yard high hurdles: Harold Mason.
440-yard dash: Curtis Didway, Ronnie Henderson, Forrest Claborn.
100-yard run: Clarence Ivie, Neal Ivie, Jerry Nutt.
200-yard low hurdles: Nuel Land, Claborn, Mason.
440-yard dash: Didway, Claborn, Richard Ray.
800-yard dash: Scottie Pierce,

SPORTS SECTION TWO The Post Dispatch Thursday, March 4, 1960 Page 9

By VERN SANFORD

Nearly everyone who fishes does a bit of jettty fishing at one time or another.

In fact, a looksee at the jetties along the Gulf Coast of Texas causes one to feel that jettty fishing is just about the most popular type. Thousands of persons—men, women and children—fish the many jetties along the Texas coast every day, month in and month out, summer and winter.

Bad weather seems to be the only deterrent.

It's a difficult kind of fishing because waves splash over the huge rocks to ice the tops in winter and to slick the mossy surface in the summertime.

It's invigorating fishing and a challenging sport for the fisherman who likes to eat drum, ling, whiting, gafftop, speckled trout, redfish, Spanish mackerel, jewfish and to battle with an occasional tarpon, shark, or other members of the salt-water species.

Thanks to more recent methods of jettty construction, these huge bulkheads now are being made with rocks laid flat. Some tops have been concreted for the convenience of the fishermen, as well as to strengthen the construction. This makes walking easier and lessens the danger of a crippling fall on the razor-sharp edge of these huge hunks of granite.

Once a jettty is built, it isn't long before marine life begins to attach itself to the big boulders. Moss, seaweed, and algae clinging to the rocks make good food for small fish, shrimp, mullet, eel, sand bugs and crab.

HIDING PLACES

At the same time the crevices between the rocks are excellent hiding places for these same salt water residents. But they have to venture forth occasionally—and that's when the larger fish move in for the kill.

So the bait used by the jettty fishermen is usually shrimp, cut bait, mullet, squid, crabs and, of course, artificial imitations of the smaller marine life. Oft-used are plugs and spoons with bucktails.

A sturdy surfcasting rod with a heavy line and a strong reel, is the usual equipment. You never know what size fish will take the bait.

A cast of 30 to 40 feet is customary. Either the fish are feeding in close, or they are not interested, or are not there at all.

A light rod that's not too flexible will, of course, provide more fun, as it gives the fish a fighting chance. You'll lose some nice fish too!

Spinning reels are ideal. Our preference is the Norseman closed-face spinning reel with its adjustable drag and 15 lb. test monofilament line, or the Mitchell 300 reel. Both reels invariably accompany us to the Gulf for our bay fishing expeditions anyway.

CHOICE OF MANY

However, a conventional reel equipped with star drag and 36-lb.-test braided line is the choice of many. Its greatest asset is the

Mile relay: Bouchier, Pierce, Rankin, Duncan.
440-yard relay: Didway, Ray, Henderson, Bouchier.

confidence it provides in the stronger line.

Most any reel that's not too heavy, yet strong enough to do the job, will serve your purpose. If it's your first trip, take along your heaviest fresh-water rig and try it. Then if you want to go in for heavier gear, you'll have a better idea of your needs.

In jettty fishing, as in surf fishing, if you can find the drop-offs, the places where the surf and the shallow water meet, you're in the most likely spot. It is in these areas, and where the currents come swirling around, that the big fish lie in wait for food to be washed to them.

But don't try to wait 'em out, move around until you find them—trying one spot after another until success comes.

Your bait should be the natural (See **OUTDOORS** on page 12)

Girls' doubles teams take second, third

Post High School's girls doubles tennis teams won a second and a third place Friday in district competition at Slaton.

Janie Carradine and Kay Murray teamed to win second in the junior doubles, while Pat Wheatley and Beth Stewart won third in the senior doubles.

Most of the doubles and singles championships in both boys and girls divisions were won by Floydada.

Voters at Close City pick Bartlett, Tipton

With a total of 44 votes being cast, D. H. Bartlett and Marshall Tipton were elected to the board of trustees in the Close City Independent School District in Saturday's election.

Bartlett received 39 votes and Tipton 27.

Twenty votes were cast for Troy Nelson and two for D. C. Morris.

3 Tech teams in action Saturday

LUBBOCK — Texas Tech teams in three different sports will be in action here Saturday.

In Southwest Conference competition, the defending champion golfers entertain Rice, and the tennis team is host to Texas Christian. Baseballers will be trying for their third straight over West Texas State, having beaten the Buffaloes 18-8 and 17-11.

Away, the track team will be competing in the North Texas Relays at Denton, and the freshman baseballers will be meeting Amarillo College.

Both golfers and netters will be hosts again Monday, to Texas A&M and Southern Methodist, respectively.

Tennis got off to a good start last week as the Red Raiders downed Baylor 4-2 in Waco.

Expansion of stadium at Tech progressing

LUBBOCK — Pouring of concrete for new seats and erection of new light poles are the features of construction under way now at Texas Tech's expanded Jones Stadium.

Texas Tech will have a seating capacity of 41,500 for next fall, its first season in Southwest Conference football competition.

Sixth in total points

Antelopes 'off' in Hale Center meet

Failing to come through in a number of events in which they had been expected to pick up points, the Post Antelopes scored 27 14-15 points Saturday for a sixth place team finish in the Hale Center Relays.

Curtis Didway scored the Antelopes' only first place when he came in ahead of the field in the 220-yard dash with a time of 23.4 seconds. He placed third in the 100-yard dash behind first place winner Dean Cheatham of Kress and second place winner Gary West of Sudan. Chestham's time of 19.2 seconds was considered good considering the slow track.

In the 220, Didway finished ahead of Gary West of Sudan, John Adams of Abernathy, Randeel Buchanan of Olton, Darrell Jones of Southland and Morgan of Ralls in that order. The Southland runner lost a chance to finish second when he fell near the finish line.

Glendon Washburn vaulted 9 feet

6 inches for a second place in the pole vault, which was won by Ray Moore of O'Donnell, who cleared 10-7. Jerry Ligon of Post finished in a seven-way tie for fifth place.

Washburn tied for fifth place with three other jumpers in the high jump.

Jimmy Minor leaped 17 feet 7 inches to win the Antelopes a sixth place in the broad jump.

Post's 440-yard relay team of Richard Ray, Scottie Pierce, Forrest Claborn and Didway finished sixth. The Plains team won the event.

Ronnie Henderson finished sixth in the 100-yard dash.

Neither Pierce nor Didway placed in the discus throw, although both have beat the 124-9 chalked up by Dean Elliott of Tahoka in winning the event.

Shutdown scored 63 points to win the team championship in the Hale Center meet. Lazbuddie, Tahoka,

Southland miler finishes ahead

Fred Melcher won the mile run for the Southland Eagles' only first place in the 8th annual Hale Center Relays Saturday.

Melcher turned in a creditable time of 5:02.9 in winning the event, finishing ahead of Bourland of Cotton Center, Charles Shipley of Sundown and Huddleston of Plains. Southland's only other points came on a fifth place won by Darrell Jones in the 220-yard dash. The Eagle sprinter would have made a better finish except for a fall, in which he also received a spike wound in the knee.

Lockney and Floydada finished ahead of Post in total points, Floydada by only three.

To the Folks in Precinct 3 and 4 ---

It's Your Vote

— Not Theirs

You're the ones who live in the two precincts. You're the ones who paid your poll taxes. Don't let everybody else tell you what to do.

The decision Saturday is yours — not theirs. All kinds of pressures are being brought against you to make you continue the sham we have today in Garza county.

The great majority of male voters in your precincts fought a war to preserve your right to vote as you please.

And NOBODY—would-be political bosses, employers, outsiders with an axe to grind, or others—can tell you how to vote, or will ever know how you voted.

The people who have down through the years confined the liquor traffic to precinct 3 don't have any right to be over in your precinct telling you how to vote.

Look in today's paper and see who is spending the big money to keep the situation as it is—the wets or the drys?

Ask yourself why so many of the outsiders find themselves too good to live in your precinct and your situation, but now consider it their right to ORDER you to vote the way they want it.

High school names entries in events

By Janene Haynie
This year several teachers have entered students in events for the Interscholastic League contests to be held this weekend.

Some of the teachers entering students in the various events are: Mrs. Scott: Senior declamation, Shirley Masters and Lois Hodges: girls' poetry reading, Pat Wheatley and Chris Cornish: boys' declamation, Charles Gordon and Kenny Poole: extemporaneous speaking, Sandra Martin and Janene Haynie: boys' poetry reading, Leslie Acker and Allen Johnson: debate, Dan Rankin and Judy McCullough.

WEEK'S PERSONALITY

Gerald Loyd is coach, teacher

By Barbara Hahn
Gerald Loyd was born in Elk City, Okla. He finished high school in Lubbock, after which he went into the Army for three years.

Mr. Loyd attended San Angelo Junior College for two years and Stephen F. Austin College another two years. He has nine hours of science and a course in first aid.

He and his lovely wife Davye have one son, Lenny, who is 18 months old.

Mr. Loyd is fulfilling his ambition to be a coach. He also teaches science and physical education.

His favorites are: Shows, westerns; car, Plymouth; state, Texas; actress, Susan Hayward; actor, Burt Lancaster.

Activities of Your C. of C.

We hope all Post seniors are planning on entering the Chamber of Commerce sponsored essay contest "What West Texas Can Do to Have More Industry—How My Town Can Help." Cash prizes will be awarded first and second place winners. The first place winner's essay will then be submitted for competition in the West Texas Chamber of Commerce for a \$250 scholarship.

New members welcomed into the Chamber of Commerce in 1960 are: The Cowboy Store, OK Grocery, Wallace Simpson, Dr. A. B. Carter, Newcomers' Greeting Service and Wylie Oil Company of Idalou. Old members continuing their membership under new management are: Levi's Cafe, K & K Food Mart and Dowe Mayfield Co., now Basinger Post Implement Company.

It was decided in the March 30 meeting of the Board of Directors that money would be allocated in future budgets to be spent in aiding local youngsters whose stock places in Garza County livestock shows. Awards of \$25 each were presented this year to three Post boys whose stock placed in the South Plains Junior Fat Stock Show. They were: Jerry Thuestt, Don Richardson and Jo Basinger.

Your Chamber of Commerce is currently checking on qualifications and details for entering the "Cleanest City in Texas" contest. Breckenridge was the 1959 winner in the 5,000 to 10,000 population bracket.

SPENDING LEAVE HERE

Anthony Box is spending a 30-day leave here with his parents, Mr. and Mrs. J. C. Putman, before leaving for Labrador, where he will serve with the U. S. Air Force. He has been stationed in Amarillo.

SATURDAY IN LUBBOCK

Mrs. M. R. Scott, Pam and Richard, Mrs. J. W. Putman, Mrs. Charles Williams Jr., and Miss Barbara Montgomery spent Saturday afternoon in Lubbock.

SNYDER OPEN HOUSE

Official open house was held at the new Snyder city hall Sunday afternoon. Mayor Harold Bennett closed out four years as mayor with the ribbon cutting and dedication ceremonies at 2 p. m.

GEORGIA VISITORS

Dr. and Mrs. A. V. Sanders of Atlanta, Ga., spent the weekend with his mother, Mrs. Ella West, and his aunt, Mrs. Eva Bailey.

RETURNS HOME SUNDAY

Mr. and Mrs. Ted Hibbs visited with their son, T. R. Hibbs Jr., and family in Andrews Sunday. They returned their granddaughter, Carolyn, to her home after a week's visit here.

Mr. Tittle: Slide rule, Wendell Duncan, Bob Cato, Kenith Smith, and Gary Masters.
Mr. Poilard: Number sense, Leslie Acker, Tommy Bouchier, David Lee and Ronnie Henderson.
We wish all these teachers and students the very best of luck. We're sure they'll be a good representation for Post.

Junior High-Lites

Mrs. Ryder's play, "Dick Whittington," was a lot of fun. We had a few visitors in the 6th period.

Students brought properties for the play.
Betsy Shytles brought a parade sword which belonged to her grandfather. It is elaborately decorated and created a lot of interest.

Some students wore costumes and make-up. Yvonne Moreland made a handsome king with a turkish towel for a turban, decorated with her mother's pin.

Paula Helms played the cruel cook with gusto and a pillow tucked under an old dress for a "heavvy" look.

Dee Ann, as Dick, nimbly dodged Paula's blows.

Since Mrs. Ryder's classes are divided, two sections of boys and two of girls, it was necessary for some students to take the parts of the opposite sex. Junior Brown was very effective as the cook in the first period class.

The second period boys imported five girls, Betty Sue Hutchins, Cheri Cummings, Pam Owen, Dickie Vardeman played Dick and gave an excellent performance.

All students did very well.

VISITS FAMILY

Mrs. Tom Gamblin was in Lubbock Sunday to visit with her father, Ernest Thaxton Sr., on his birthday. Mrs. Gamblin and her father share the same birthday date. She also visited with her grandmother, Mrs. Toaa Thaxton of Levelland, who is a patient in a Lubbock hospital.

SUNDAY VISITOR

Mr. and Mrs. J. L. Ballentine had as a Sunday guest Charles Wilson of Alexander City, Ala. Wilson is in the Air Force and was on his way to Phoenix, Ariz.

Fashions galore in Junior High

By Terry Power
Charles Blacklock looked handsome in his brown and white checked shirt. His gray khakis were becoming, too. He was wearing black socks and black shoes. He looked very "sporty."

Betty Watts looked slick in her red sweater and slacks to match. She was wearing white bobby socks and suede shoes.

Linda Hays looked "sweet" in her blouse and skirt with little blue flowers on them. Her suede loafers were very becoming.

Barbara Mason looked "progressive" in her blue, red, green, yellow and white dress. Her white belt matched it just right. Her yellow thin socks and black flats looked "sweet".

Judy Keel looked nice in her blue jumper with white rick-rack around the sleeves, collar, and hem. She was wearing a white blouse, a black belt, blue socks and black shoes.

Ronnie Wilson looked smart in his blue, red, yellow, gold, white, and black shirt. His blue-jeans looked nice with black tennis shoes.

Micha Cross looked smart in her purple and blue checked skirt and blouse. Her suede red shoes matched beautifully, too.

John Soto looked dashing in his blue, black, and white striped shirt. His black khakis just matched, too. His black shoes were very "sporty".

Sheri Perdue looked snazzy in her black and white popcorn bobby-sock and her brown leather loafers just went with the outfit. She looked very nice.

Nine Junior High boys journey to track meet

Butch Cross, Benny Owen, Ronald Turner, Ronald Simpson, Jackie Braddock, Danny Pierce, Filberto Collazo, Charlie Brown, and Billy Mitchell left school at noon Friday to go to a track meet.

Those in the finals were Butch and Benny. Ronald Turner placed third in the shot put.

Have You Heard??

Six weeks tests are over. We took them the first part of the week due to junior play and track meet Friday.

The juniors got their class jewelry in last week. The design is like the face of their rings will be. It's really pretty.

The seniors had a short meeting to decide a few things about trip transportation. They've decided to leave by train on Tuesday night following graduation on Monday night.

Couples seen around are: Ruthell Martin and Paul Wheatley, Sandra Stewart and Scottie Pierce, Pat Shearer and Richard Cook, Virginia Young and Glendon Washburn, Vicki Mills and Buddy Moreland, Judy Stovall and Wayne McFadin, Leona Hawkins and Darrell Jenkins, Beth Stewart and Jimmy

Leta Stone had the gang over to watch the academy awards Monday night. Those enjoying the entertainment were Mel, Rhea, Pat, Glenda, Sharon, and Leta.

The golf team is hard at work every day. They will play in the regional meet April 22-23. Good luck, boys.

The 8th grade volleyball team played in the district tournament at Floydada. They didn't place but sure did have lots of fun.

Kay Ballentine had a visit from Charles Wilson of Alabama. He's in the Air Force and is headed for Phoenix, Ariz.

Margie Casteel and Janene Haynie meet the oddest people in the oddest places, don't they, Danny Jones and Gary Simpson?

6th graders are studying hard

By Terry Power
In Math we've been reviewing all we've had.

In Spelling we've been studying hard.

In Language we've been studying all sorts of things.

In Reading we've been studying several stories.

In Geography we've been studying "The Great Plains."

In Science we've been studying animals.

We were all proud to hear that there were 11 one hundreds in spelling. Those making 100 were: Harold B., Charles B., Freddie D., Sherry G., Frank H., James H., Linda H., Judy K., Cheryl P., Teresa S., and Linda Z. Those making 100 the second time were Gary B., Lois G., Gregg J., Marcia N., Roger N., Filemon V., and Linford W.

Junior bandmen win honors in IL League meet

Junior High members of the band taking part in the regional interscholastic League ensemble and solo events at Levelland Saturday made good showings, receiving three first division ratings, 11 second division ratings, and four third division ratings.

Ratings received by the Post bandmen were as follows:
Division I: Brass quartet (Lewis Herron, Benny Owen, Ronald Simpson, Danny McFadin); Gary Hays, cornet; Jackie Beavers, cornet.

Division II: Brass sextet (James Neff, Jackie Beavers, Gary Hays, John Sutter, John Sepeda, Ernest Cole); Clarinet quartet (Sharon Meisch, Lana Haynie, Lynn Edwards, Betsy Shytles); John Sutter, trombone; Gary Hays, French horn; Lewis Herron, French horn; Betty Hutchins, clarinet; Pamela Owen, clarinet; John Villa, saxophone; Lewis Herron, cornet; Benny Owen, cornet.

Division III: Clarinet quartet (Bobbie Nell Compton, Janice White, Beverly Duncan, Becky Thompson); Bobbie Compton, clarinet; Pat Martin, saxophone; James Neff, cornet.

Physics class attends Lubbock Science Fair

By Sammie K. Caffey
Mr. Baxter took his physics class to the Science Fair last Friday afternoon. The fair was held at Texas Tech and sponsored by the South Plains Mathematics and Science Teachers Association.

Gary Masters, one of our local boys, entered a three-transistor radio. Gary built the radio by himself.

Those attending the Science Fair were: Mr. Baxter, Scottie Pierce, Tom Drake, Gary Masters and Allen Johnson.

Outdoors--

(Continued from page 9) I bait of the area—or artificial lures similar in appearance or action. Here again we urge you to seek the advice of local tackle and bait shops. They know what the fish are hitting at the moment, and you'll save time by following their advice. It's usually very sound.

If you use live bait, put on a 3-0 or 4-0 hook, with a 2-foot wire leader attached to a 3-way swivel. Add a small sinker just large enough to enable you to drag the bottom lightly, and heavy enough to keep the current from moving it about too fast. Keep a tight line at all times.

ARTIFICIAL BAIT HINTS

If you use artificial bait, try jigs and spoons with bucktails, or hardware that resembles mullet or squid, and finally artificial eels. Artificial lures such as Doug English makes in Corpus are good bait.

Old timers start fishing the minute they reach a jetty, going up one side and down the other, casting a few times from one spot, then moving to another and another. This way they figure they cover nearly every rock or crevice where fish may be feeding.

Also they carry along a long-handled gaff for use where the waves are heavy and are splashing high on the rocks. But first they let the fish run until exhausted—holding the rod high to keep him out of the rock crevices. A lot of people lose fish by attempting to drag them onto the rocks. So work your way to the water and carry a gaff or a big stick.

For safety's sake—be sure your shoes are rubber-soled and rubber-heeled.

Those who fish the jetties at night are not so numerous—but they land some whoppers.

If you go in for night fishing, get you one of those miner's hats with lamp attached—or one of the new battery powered electric "headlamps". The Empire Headlight Lantern, made by the Metal Ware Corp. of Two Rivers, Wis., is ideal. It frees your hands for other uses than carrying a lantern. Best of all, the deadlamp always shines where you're looking. And that's mighty important when you're feeling your way around moss-covered rocks.

If no luck—go try a little pier fishing. It's safer anyway, and lots easier.

Castro Liquor Keeps Officers On The Jump

The Castro Sheriff's Department had plenty of work cut out for them last week end, mostly because of liquor violations.

One Lubbock minor, 18, was fined \$44.50 for possession of beer.

L. C. Gann, 46, a Snyder roughneck, was fined \$127.13 and \$20.50 Monday for driving while intoxicated and driving without a license.

L. M. Stevens, 51, grain salvage man from Nazareth, was picked up at Lindsey Gin at Hart and charged with assault and carrying a pistol.

Oval Lewis, 28, Amarillo truck driver, was picked up but was not charged for drunkenness. He reportedly left town.

Elestean Mackey, 31, a Lubbock butcher, was fined \$127.15 for illegal transportation of liquor.

Four Ralls men were picked up and charged with transporting. They were fined various amounts. They were Ben Langston, 31; Elmer Rhynhart, 31 and John Dickerson and Curtis Bolton, both about 45.

J. R. Mathis, 46, was picked up for being drunk in public. A laborer, he is from Maude, and ironically was drinking canned heat alcohol despite the easy availability of legal whiskey.

Walter Sterling, 27, of Dimmitt was charged with aggravated assault after inflicting superficial knife wounds on his wife and baby Tuesday night.

I Give You Texas . . .

By BOYCE HOUSE

In the winter of 1908-09, I lived in Douglas, Arizona, and was in the seventh grade. I can remember a sandstorm with a wind so strong that, thin as I was, I had to walk across the street at an angle and with eyes almost closed.

My father rented a store building and installed two boxball alleys—a pastime similar to bowling but not as strenuous. Most of the time (except during school hours) I ran the place as my father was ill.

He sub-leased part of the space to a big Swede named Johnson who put in a shooting gallery. While the owner was out at lunch, I ran the shooting gallery, too. If I was going to stretch the truth, it would be set down here that I became a dead-shot but actually I didn't (although I did acquire skill in playing boxball). At cleaning the guns, reloading them and at whitewashing the targets, I became quite adept—and there was one (seemingly) difficult feat that I could perform and that was hitting a swinging target.

The pendulum, upon completing a swing, would pause before starting to swing back and the secret was to aim at the spot at the end of the swing and to be ready to

fire the single instant the pendulum halted.

Quite a few Latin Americans attended school and my chum was one of these. His name was Joe Aguirre. He had sparkling eyes and flashing white teeth and he was always smiling. He was very quick in all his movements in our contests on the campus. I recall that one day I playfully tapped him and then ran. Fleet as a deer, he raced in pursuit and, just as he overhauled me, out went a foot, tripping me and the ground rose up and I saw a shower of stars. My father died the next spring; we moved away and I have never been back to Douglas. I used often to think of my former playmate and wonder whatever happened to him.

YEARS WENT BY—as years do—and one day I read a brief news item from Mexico saying that a revolutionary leader had been killed in battle. He was Colonel Jose Aguirre. I never have known whether he was my former playmate.

SAN ANGELO—The missile race, taxes, Congress, and finances are some of the subjects for speeches here April 18 and 19 at the 42nd annual convention of the West Texas Chamber of Commerce.

Beginning at 2 p. m., April 18 in the Cactus Hotel and ending following lunch on April 19 in the Town House Hotel, the convocation will present the following principal speakers:

Alvin A. Burger of Austin, executive director of the Texas Research League, will discuss "The Texas Tax Picture: Where We Stand, Where We're Headed."

O. Clark Fisher of San Angelo member of Congress from the 21st District of Texas, will tell about "The Course of Congress."

At the dinner the first night, the editor and publisher of "Farm and Ranch Magazine," Tom Anderson of Nashville, Tenn., will present "Straight Talk."

"The Effect of Texas' Tax Problems on Continued Economic Growth" will be explained on April 19 by Ben H. Sloane, manager of the Point Comfort operations of Aluminum Company of America.

O. Dooley Dawson, vice-president of Houston's Bank of the Southwest, will tell of "West Texas' Greatest Opportunity for Basic Economic Development."

Concluding the convention will be a luncheon address by Lt. Gen. Bernard A. Schriever on "The Status of Our Missile Program." He is commanding general of the Air Force's Research and Development Command, Andrews Air Force Base, Maryland.

Bible Thoughts

"THE SALT OF THE EARTH"

By RONNIE PARKER

In Matthew 5:13 Jesus says, "Ye are the salt of the earth." Salt renders food pleasant and preserves it. Jesus was saying that Christians, by their lives and instructions, are to keep the world from entire moral corruption. By his followers influence and example, they would save the world from vice.

Have you not read how persistently Jesus was expecting those who follow him to be far better than those who did not. The saving salt of Christlike character is needed so badly in our day.

In December of 1933, Americans repealed the 18th Amendment. Why? Simply because there was not salt enough, character enough, to maintain it. God, science, and common sense cry out and challenge man to refrain from drinking. Christian character and liquor do not and can not go together.

Surely we have enough 'salt' in us to keep the legal open sale of alcohol out of our community.

Ushers will be Sharon Moore, Carolyn Moore, Gloria Peoples and Mary Lois Jones.

COUNTY AGENT'S COLUMN

by Lewis C. Herron

COUNTY AGRICULTURAL AGENT

INTEREST IN FERTILIZERS ON INCREASE HERE

Fertilizer use is a part of good soil management program. Soil tests are effective in determining fertilizer needs. The application of the proper fertilizer nutrients will insure high yields when other factors affecting crop yields are favorable.

When a soil sample is tested, the nutrient level is rated very low, low, medium or high. This does not refer to the ability of the soil to produce yields, but indicates whether crops are likely to respond to

fertilizer applications. The rates recommended as a result of the soil test will give the most profit per acre from fertilizer use. This will be less than the fertilizer required to produce maximum yields.

The soil reaction (pH) given on the report shows whether the soil is acid or alkaline. A pH of 7.0 indicates a neutral reaction, whereas, less than 7.0 is acid and greater than 7.0 is alkaline. Most field crops will yield satisfactorily in the range from 6.2 to 8.3.

The question of liquid versus dry fertilizer is not of great importance. A summary of 27 experiments in which both were used showed little difference. From the standpoint of increased crop yields, either liquid or solid type of plant food, if used in the correct amounts and properly applied, should give the same results.

Soil tests taken and analyzed in the county this year showed the following:

Victor Kuykendoll — pH of 7.9, fertilizer recommended 60-60-0.

Ted Ray — pH of 7.5, fertilizer recommended 10-20-10.

Carter White — pH of 7.8, fertilizer recommended 1st year 30-30-0; fertilizer recommended 2nd year 60-60-0.

W. D. White — pH of 8.3, fertilizer recommended 60-60-0.

Garza gets cotton acreage increase

Garza County has gained a 1,443-acre increase in the allotted cotton acreage available for planting this year through the "B" plan of the two-choice cotton program.

This was revealed after new cotton allotments for 1960 were figured for the 23-county area served by the Plains Cotton Growers, Inc. The Texas Agricultural Stabilization and Conservation office at College Station supplied the "B" acreages for each area county, and totals were compiled at the PCG office in Lubbock.

Growers had their choice of staying with their "regular" allotment and receiving price supports of 75 per cent of parity under plan "A", or of increasing their acreage by 40 per cent and receiving 60 per cent of parity support under plan "B".

Garza County's base allotment was 37,566 acres and the increase brought the new allotment total up to 39,009 acres.

Oiler is gauged in Garza County

The Arlene (San Andres and Glorieta) pool in central Garza County has gained a new Glorieta oiler.

The well, the fifth from that pay in the field, finished for a 24-hour pumping potential of 63.61 barrels of 36-gravity oil, plus 32 per cent water, through perforations from 3,067 to 3,072 feet, after a 3,000-gallon acid treatment.

Location is seven miles east of Post in Section 66, Block 5, GH&H Survey.

SANTA FE CARLOADINGS

Santa Fe carloadings for week ending April 2 were 26,022 compared with 24,180 for the same week a year ago. Cars received from connections totaled 11,982 compared with 11,828 for the same week a year ago. Total cars moved were 38,004 compared with 36,008 for the same week a year ago. Santa Fe handled a total of 37,596 cars in the preceding week this year.

BUILD YOUR SECURITY

Purchase of a new home is another way of saving money—of building your future security. Take a moment to digest these facts about home payments vs. rent payments.

- The value of your home increases faster than the value of your payments. Of course, rent monies have no value for you.
- Home payments remain constant. Rents may go up anytime.
- Home payments—including mortgage interest and real estate taxes—are deductible from federal income taxes. Rent payments are not.
- Home payments give you a sound financial reserve for emergencies. Rent payments are for the landlord's financial reserve.
- Buying a home beats inflation. Money borrowed at present value will be paid back at its reduced value in the future. However, rents rise with inflation.
- Your cash equity grows with each payment. Rent payments build you an equity in nothing.

EXAMPLE:

\$77.50 MONTHLY RENT PAYMENTS for 30 years result in rent receipts amounting to \$27,900.

\$77.50 MONTHLY HOME PAYMENTS for 30 years buys a three-bedroom home—all yours with insurance and taxes paid.

- Home improvements add to the value of your home. Improvements to rent property add to the landlord's value of the property.
- Your home will be your most valuable possession in the years ahead. Rent property is only valuable to the landlord.
- ASK YOUR BANKER FOR HIS ADVICE ON BUYING A HOME VS. RENTING.

Plainview rites held for former resident of Southland, Mrs. King

By MRS. JESSE WARD

Funeral services for Mrs. R. E. King, 78, a former resident of Southland, who died Thursday in a Plainview hospital, were held Saturday in Plainview, with burial in the Southland Cemetery.

Mrs. King first moved to Southland in 1899 where she and her husband farmed and ranched. She was a member of the Date Street Baptist Church in Plainview and a member of the Order of the Eastern Star, of which she was a past worthy matron.

She is survived by her husband; five sons, Roy E. of Farmington, Kan., Leslie and Lowell, both of Hale Center, J. W. of Aspermont and J. R. of Floydada; two brothers, Jim Bonine of Hagerman, N. M., and Joe Bonine of Hobbs, N. M.; one sister, Mrs. Rosie Rush of Aspermont; 13 grandchildren and 19 great-grandchildren.

ON SICK LIST

Among those on the sick list are Billy Lester, who was ill all last week and entered Mercy Hospital in Slaton, where he received medical treatment Saturday and Sunday; Joan Chilcoat, Connie Oats, Beverly Rackler and Earl Morris.

Mrs. George Bruster is in Garza Memorial Hospital after becoming ill of a heart ailment while at work in Post last Thursday.

Arthur Smallwood and Harley Martin were elected as new Southland school trustees in Saturday's election.

Mr. and Mrs. Dillard Dunn spent Sunday afternoon with her cousins, Mr. and Mrs. F. H. Sharp, at Meadow.

Jerry Pennell and Joe Neil Hargrove, who attend Texas Tech, spent the weekend with their parents, Mr. and Mrs. D. D. Pennell and Mr. and Mrs. Jack Hargrove.

VISIT IN LEVELLAND

Mr. and Mrs. W. P. Lester spent Friday with their son-in-law and daughter, Mr. and Mrs. I. J. Duff, and family in Levelland.

Mr. and Mrs. Frank Dunithin and children of Snyder spent Saturday afternoon with her mother, Mrs. Agnes Rinker, and her grandparents, Mr. and Mrs. T. L. Barnes.

Visitors in the home of Mr. and Mrs. Earl Morris over the weekend were their daughters and families, Mr. and Mrs. W. A. Lyman and son, Marc, of Dallas; Mr. and Mrs. C. A. Maeker and daughters, Marilyn and Pam, of Lubbock; also a grandson, James Morris, and his wife, Gayle, of Lubbock. Morris' brother-in-law and sister, Mr.

AN OPEN BOOK

When the medical profession approves a new remedy, it is made public so that everybody may benefit from it. Poliomyelitis vaccine is a good example. Should you read or hear about a "secret remedy" for the cure of some serious disease, be on guard. Shun it by all means, because its use could be disastrous. Consult your physician. Ask his views on "mystery remedies." He will give you a candid evaluation. There is nothing hush-hush about medical research and its discoveries. Medicine is an open book—for all the world to see.

THE OAK CLIFF STORY

OAK CLIFF VOTED "AGAINST" ALCOHOL

Twice within 12 months the citizens of Oak Cliff voted AGAINST the sale of alcoholic beverages. The Oak Cliff section of Dallas is a community of 225,000 inhabitants. Crime always follows the sale of liquor and the residential Oak Cliff section of Dallas was becoming a center for drunkenness and all manner of crime. There came some "shocking" cases of rapes and murders. It was found that all these followed the sale of beer to high school students. In one of these murders court testimony established the fact that 62 cans of beer was sold to juveniles. A little girl was raped and murdered by a youth who had bought beer in Oak Cliff. The district attorney stated that the three worst crimes committed in Dallas County had been committed after juveniles purchased beer in grocery stores.

Few people believed that Oak Cliff would go dry, but when the votes were counted it was found that the drys had won by a majority of over 1700.

WHEN SAFETY MINDED CITIZENS INTERESTED IN THE PHYSICAL, SPIRITUAL AND MORAL WELFARE OF OAK CLIFF VOTED "AGAINST" THE FOLLOWING TRUCE TOOK PLACE

CRIME DROPPED 40% IN THE FIRST THREE MONTHS

"Official police records show that the crime rate decreased 40% within the first three months after beer was voted out." This statement was made by one of the officials in Oak Cliff on August 1, 1957.

OAK CLIFF IS GROWING MORE RAPIDLY THAN ANY OTHER SECTION OF DALLAS

William Sewell said in a newspaper article, "Oak Cliff has a population of 225,000 and is growing at the rate of 2,500 a month." And this has happened after Oak Cliff voted AGAINST beer.

LEGITIMATE BUSINESS MEN TESTIFY THAT BUSINESS IS BETTER

People in Oak Cliff began to purchase goods from the legitimate business men when alcohol was voted out. Sales in dry-goods stores, grocery stores, furniture stores, etc. increased and business profits soared.

4. THE GENERAL APPEARANCE OF THE WHOLE COMMUNITY GREATLY IMPROVED

Property evaluations increased because the dance hall and beer joints which were eye sores and crime breeders ceased to exist.

5. OAK CLIFF NOW IS A CLEANER PLACE FOR THE YOUTH AND THE HOMES

When crime decreased and enticing liquor advertising disappeared Oak Cliff became a safer and better community for family life and the proper atmosphere for rearing children.

Do not be fooled by the wet propaganda and false claims. Here is proof that any community which votes AGAINST alcohol will become a safer, cleaner and better place in which to live.

SECOND ELECTION INCREASES DRY MAJORITY

The "wets" were determined to force alcohol sales on the citizens of Oak Cliff. Within six months Oak Cliff had another election. This time the majority dry votes grew from 1700 to more than 7300. To Oak Cliff people it was evident that their community was a cleaner, more law abiding place in which to live, business had improved, the police record revealed that crime was down 40%, the teachers and old people got raises in their support. Mothers, fathers, business men, and young people could easily see the benefits of voting AGAINST alcohol.

38% of Dallas county's population reside in dry Oak Cliff. And this dry area with 38% of the population requires less than 13% of the law enforcement officers! Since Oak Cliff voted alcohol out they are 7 times more law abiding than the balance of the city of Dallas. 2.75% of all the dives and joints have moved into other areas (maybe to Jefferson County).

FOR A SAFER AND BETTER COMMUNITY VOTE AGAINST ALCOHOL ON APRIL 9.
