...this week following  
...days lost because of heavy  
...up to an early hour  
...afternoon totaled 2,320  
...at the county's six gins.  
...2,320 - bale count is an in-  
...of 757 bales over the last  
...on Oct. 11 when ginnings  
...1,563 bales. That was be-  
...the big rains hit.  
...machine-pulling under way  
...sections of the county, the  
...shortage is easing, but  
...farmers still need hands.  
...Tuesday noon, the Gra-  
...Coop Gin had turned out 333  
...of cotton and was running  
...to ten hours a day. Ginnings  
...reported slow due to the pre-  
...week's wet weather.  
...Planters Gin in Post, run-  
...14 hours daily, had turned  
...60 bales.  
...working hours at the Close City  
...Gin have been from six to  
...hours following the rains, a  
...total of 251 bales ginned up

to noon Tuesday.  
Working hours at the Storle Gin, west of Post, where 277 bales were reported, are eight hours a day.  
Ginning since the rains is reported slow at the Basinger Gin, Southland, where 664 bales were processed up to noon Tuesday.  
The Pleasant Valley Gin reported 493 bales turned out.  
The ginners generally reported that there has been no report on the grade of cotton since the rains, but they all feel that the record-breaking wet October weather will affect production in the long run.

**GOING TO DENMARK**  
The Ronnie Parker family will sail from New York Nov. 9 on the Norwegian liner Oslo Fjord for Copenhagen, Denmark, where Parker will be engaged in evangelistic work for the Church of Christ. After his final sermon Sunday evening as minister of the Post Church of Christ, the Parkers will leave for a few days' visit in Abilene before flying from Dallas to New York. Besides Ronnie and his wife, June, members of the family are Dawn, 6; Cliff, 4, and Annita, 2.

# Farm laborer charged with murder of child

Joe Contreras, Mexican farm laborer, was charged with murder with malice here Tuesday in the death of three-year-old Lupe Marin, whose death was attributed to dehydration and malnutrition.  
Contreras, said by officers to be about 26 years old, was being held in the county jail yesterday pending grand jury action.  
The complaint filed in Justice of the Peace D. C. Roberts' court against Contreras charges that he killed the child by starvation.  
Contreras was arrested by Deputy Sheriff Red Floyd and City Marshal Junior Shepherd Saturday

night after the Marin child had been admitted to Garza Memorial Hospital.  
Earlier in the day, the officers had been called to the family's home on the Gus Porterfield farm in the Grassland community. Not finding Contreras at home on their first trip, the officers returned to learn that the child had been brought to the hospital here. They arrested Contreras at the hospital.  
After the child died Sunday morning, Contreras was released long enough to attend her funeral and then was put back in jail.  
County Atty. Carleton P. Webb said late yesterday afternoon that Contreras had not asked for an examining trial and, consequently, had not been given one.

Questioning of members of the family by the county attorney and law enforcement officers brought out that Contreras has been living with the Marin child's mother for some time. They came here a few weeks ago from the Dallas area to pull cotton and since that time have lived on the Porterfield place.  
Officers said Mrs. Marin has a child by Contreras in addition to her other eight children. The oldest is a boy of 16.  
The officers said their investigation indicated that Contreras has held members of the family in virtual bondage, forcing all the children who were old enough to pull cotton and taking their earnings. The officers said one of the children told them Contreras would

not let them attend school, but that they had attended when their father, now separated from the family, was with them.  
The arresting officers said the child who died Sunday morning a few hours after being admitted to the hospital was in a "horribly emaciated" condition. The complaint filed against Contreras alleges that she was starved over a period from Oct. 1 to Oct. 23.  
The officers also said there were bruises and marks on the child's body. They said when questioned about this, Contreras said the little girl had been injured in a fall from a trailer.  
Funeral services for the child were held Monday at Holy Cross Catholic Church here, with burial in Terrace Cemetery.

By JIM CORNISH  
Now that White River dam directors are getting into the "final plans" stage for the big water reservoir, the power of the sun has amazed them via engineering estimates of its big future "take" from the water supply lake about to be created.  
A representative of the Fort Worth engineering firm drawing up plans and specifications for the White River dam explained last Thursday night at the directors' monthly session that the lake once filled would provide 3,800,000 gallons of water daily—on a yearly average—for the four member cities, which is more than twice the cities contracted needs of 1,900,000 million gallons daily on a year-round average.  
Daily evaporation of water from the reservoir via the sun's rays is estimated to be—and hold onto your hat—some 3,000,000 gallons, or over twice the amount the cities will realize.  
This will give the reader a real insight into the water evaporation problem and why science is busy today trying to find methods to materially reduce this evaporation loss. Science is experimenting with a chemical film which would cover the lake water and reduce evaporation from alikes designed for water supplies. When such an answer is worked out on a practical basis from the cost standpoint, it appears possible that the White River dam reservoir would provide much greater water supply capacity to the cities than is now possible. So Post is going to have a real stake in the future of this scientific effort.  
This column's "headline of the week" award this week goes to the Ralls Banner for the header of its No. 1 weather story on page 1 last Thursday. It read "Weather large factor in harvest."  
Garza's first 1960 bale of cotton is now weaving on the looms at the Postex Cotton Mills, premium purchaser of the bale. Lee Ward, plant superintendent, estimates the bale will be completed into Postex sheets within about three more weeks. It is now approximately halfway through the manufacturing processes at the local mills in that

## Loan speed-up on dam site sought

By White River directors  
White River directors determined last Thursday night to try to secure an early commitment from the FHHA for securing loan funds for purchase of the estimated 5,300-acre site for the White River dam.  
Status of the dam project right now is that almost all future progress must await completion of final plans and specifications for the dam and the water pipelines.  
There are no new delays on this. W. Leary Eeds of Fort Worth, representative of the engineering firm of Freese, Nichols and Endress which is working on the plans, met with White River directors and told them that the final plans and specifications should be ready by Jan. 1.  
**MEET AT RALLS**  
Directors held their monthly meeting at Ralls.  
Marvin McLaughlin of Ralls, chairman of the White River's finance committee, was scheduled to go to Fort Worth Tuesday to confer with FHHA regional office authorities on the possibility of obtaining funds for land purchase as quickly as possible in advance of completion of plans for the dam.  
This would enable the White River district to begin negotiations with the three landholders involved in the necessary damsite purchase.  
Eeds recommended purchasing the site, possibly by purchase contract, as quickly as possible to save future time delays once the plans are ready.  
**WANT HIGHER DAM**  
In another action at the meeting, directors voted to have the engineers in their plans raise the height of the dam by three feet if feasible.  
Eeds made the suggestion after reporting that the engineers did not think it feasible to raise the height of the dam 40 feet as had been suggested a month ago as a way to secure a great deal of additional water storage in the reservoir.  
Eeds explained checks showed

## Deer bagged in Colorado hunts

Deer hunting was good in Colorado these last two weeks. At the latest count, 15 bucks and one fawn were shot by Post and Phoenix hunters.  
Those that went up the first weekend ran into a snow and rainstorm which kept them in camp most of the time.  
But last weekend was mighty pretty weather, according to Keith Kemp, who left with his son, Johnny, and Lonnie Gene Pool and Ronnie Morris for two days of hunting near Gunnison.  
Each bagged a buck. They returned Monday morning.  
Howard Kolb, Bill Criswell and Clarence Dunn killed two bucks and the fawn on a deer hunt near Cromwell, Colo. Criswell bagged the biggest buck from about 200 yards and Kolb the smaller

## Assault charges will be filed

County Atty. Carleton P. Webb said yesterday that a charge of aggravated assault will be filed against Eddie Gervanov on the shooting Oct. 18 of Pedro Rosales.  
Rosales was wounded in the face by a bullet from a .25-06 rifle in a shooting at Gervanov's home on the Homer Sobquet place in the Kalgary community.  
Rosales was taken to a Crosbyton hospital following the shooting.

# Queen voting changes made

Two departures from past procedures in the queen contest in this year's homecoming—Friday, Nov. 4, have been announced by Harold Voss, president of the Post Ex-Students' Association, which sponsors the event.  
Voting for the queen this year will be at the door as eyes go in

for the banquet at the old high school gym. Heretofore the queen has been elected by penny votes over a period of a few weeks prior to homecoming, but there will be no charge for voting this year, Voss said.  
Another change is that the winner of the queen contest will be presented at the banquet instead of on the football field at halftime.  
The queen candidates are Mmes. Joy Pruitt, Joy Huffaker, Iris Power, Sue Cornish and Doll Haire.  
The homecoming banquet is scheduled for 5:30 p. m., following the football game at 3 p. m. in the new high school building.  
Following the Post-Strawn football game at 7:30 there will be a coffee and music hour for students in the old high school gym.  
In future years it is noted, this will be all participants and teachers of Post High School.

## Fourth producer seen for Gordon Simpson

The fourth straw roof lime producer and a unification south-east extension is indicated for the Gordon Simpson multipay pool in southern Garza County, eight miles southwest of Justiceburg.  
This is General American Oil Company of Texas No. 2-64 Miller in section 64, block 6, H&GN Survey, southeast of the recently completed Ellenburger discovery (see page 13 for that story).  
A four hour drillstem test of the Strawn at 7,743 to 7,903 feet returned 5,760 feet of oil and 300 feet of heavily oil and gas-cut mud. Drilling continued below 7,895 in Strawn lime, topped at 7,745 feet.

## Post boy's nine winner at Fair

David Lee's Southland Deland Chira barrow won first place in the class last week at the Junior-Low-Street Show at the State Fair of Texas in Dallas.  
David, son of Mr. and Mrs. Chester D. Lee, is a vocational agriculture student at Post High School. He was the only vocational boy from here who exhibited animals at the fair.  
He showed three barrows. His Chester White winning fourth place and his Berkshire 18th place.  
David's first place barrow sold for auction of 29 cents a pound. He will also receive \$74 prize money on the three pigs.  
Linda Payton's Angus steer, which was the grand champion of the Garza County Fair, won a fourth place in its class at the State Fair.  
Linda, a student at Garza High School, was a 4-H Club exhibitor at the fair.  
Other Garza County 4-H members placing high with their steers at Dallas included Sammy Sims, Theresa Sims, Jackie Ashbire, Vickie Wilts, Will Bevers, Jerry Thuet, David Debs, Paul Walker, Lewis Harrow, Dennis McGhee, Ronald Thuet and Joey Basinger.

## Change is made in voting place

County Judge J. E. Parker this week announced a voting place change for the General Election on Nov. 8.  
Voters in Precinct 9—the Two Draw box—will vote at the Shell Oil Company office on U. S. Highway 380 instead of at Lincoln Heights Elementary School, which has been the voting place for the last few years.  
Personnel at the county clerk's office reported Wednesday that only one absentee vote had been cast at the office, but that 25 requests for mail ballots had been filed.  
Absentee voting opened Oct. 19 and will continue through Friday, Nov. 4.  
Eeds made the suggestion after reporting that the engineers did not think it feasible to raise the height of the dam 40 feet as had been suggested a month ago as a way to secure a great deal of additional water storage in the reservoir.

## Frankie Howell is band sweetheart

Miss Frankie Howell was crowned Post Antelope band sweetheart Friday night between halves of the Post-Denver City game.  
Miss Howell, daughter of Mr. and Mrs. Ben Howell, was elected sweetheart by members of the band, of which she is president.  
Runners-up in the voting for band sweetheart were Judy Clary and Ruthell Martin.  
The sweetheart was crowned by Benny Schlehuber, vice president of the band.

## VFW moves building purchased for hall

The building recently purchased for a new hall by the Veterans of Foreign Wars Post here was moved this week to VFW property at the east edge of town.  
The new VFW hall was purchased from Post Independent School District after having been used for two years as a temporary classroom building.  
The new hall has been moved to just in front of the old VFW hall, which burned a few months after being leased by the organization to a tavern operator. The VFW plans to demolish the old building.

## Loot is small in three burglaries

Loot was small in three burglaries reported to the sheriff's office here.  
There were two break-ins Monday night—at John Smith's Cafe in the Negro section and at Carlos' Little Mexico Cafe—and one Sunday night at Ducky's Drive-in east of the city limits on U. S. Highway 380.  
Meat was stolen and money taken from coin-operated machines at Carlos', and meat, cigars and cigarettes were stolen from the Smith cafe.  
At Ducky's Sunday night, an undetermined amount of money was taken from two coin machines.

## Final rites held for Mrs. Martin

Funeral services for Mrs. Fannie Adaline Martin, a resident of the Post vicinity since 1924, who died Monday, were conducted at 10 a. m. Tuesday at Mason Funeral Home chapel.  
Mrs. Martin, who was 80, died in Garza Memorial Hospital about 1:15 p. m. Monday. She had been admitted the previous Wednesday.  
Mrs. Martin had been seriously ill since falling and breaking her hip a few weeks ago while visiting her grandsons in Montana. Following the accident, she was brought back to Post, where she has made her home for the last six years with her granddaughter, Mrs. Glenn Wheatley of 610 West 14th Street.  
Mrs. Martin was born May 21, 1880, in East Texas. She had been a member of the Baptist Church for many years.  
Leonard Tittle, Church of Christ minister, officiated at the funeral services, with burial following in Tahoka Cemetery. Pallbearers were W. D. White, Henry Wheatley, Dillard Morris, Burney Francis, Thurman Francis and Julius Stelzer.  
Mrs. Martin is survived by three grandchildren, Mrs. Glenn Wheatley of Post, Howard Wells of Elliston, Mont., and Hubert Wells of East Helena, Mont.; nine great-grandchildren and three great-great-grandchildren.

## Post youth will get Eagle award

Gordon Simpson of Troop 16, Post, received Boy Scouting's highest award when he is presented with Eagle Scout award Sunday afternoon at the South Plains Area's semi-annual Eagle Retiree Court of Honor at the St. Presbyterian Church in Lubbock.  
The rehearsal for the Court of Honor will begin at 2 p. m., and the Court of Honor will be officiated at 3 p. m.  
The Post youth and 11 other Boy Scouts will be presented their Eagle awards by Carl Minor and Robert Arnold.  
Parents and friends of the boys receiving the Eagle Scout awards are invited guests and the general public is invited to attend.

## Permit issued for home improvements

The only building permit issued this week went to Mrs. Lillie McFarland for improvements at her home at 406 West 12th Street.  
The improvements will include painting the interior and minor remodeling, costing an estimated \$1,000.  
The permit brought the year's construction total to date to \$909,000.  
They'll be seeing them Monday night

# CROP 'trick or treaters' young people with purpose

Monday night is Halloween night and among the hundreds of trick-or-treaters who will be out knocking on front doors for "tricks or treats" will be a group of young people with a purpose.  
They will "trick or treat" for their own good instead of for their own fun.  
CROP is the Christian Rural Outreach Program.  
Organized in 1947, CROP accepts contributions of dollars and all kinds of food to feed the world's hungry.  
From August, 1947, to December last year, Americans con-  
tributed almost \$18,000,000 worth of food and cash to purchase food through CROP. Because some cash donations are used to facilitate distribution overseas of U. S. government surplus food supplies, the total weight of food made available through CROP in relief feeding programs in some 45 countries has reached 500 million pounds valued at \$54,000,000.  
Through Church World Service CROP helps to distribute large amounts of surplus food donated by the U. S. government. In this program of "Share Our Surplus" one dollar will distribute more than 300 pounds of food.  
Self-help supplies, such as seeds, fertilizer, tools, livestock or irrigation systems are provided to assist rehabilitation and resettlement. CROP food helps them stay alive until a new harvest makes such assistance unnecessary.  
Final plans have been made by the members of the Post Christian Youth Council for the "trick or treat for CROP" program here. It will be conducted from 7 to 9 p. m. Monday.  
A large group of young people representing all city churches have

## 'Fear' and 'the Texas issues'

Within two weeks America will decide what kind of leadership it wants to guide the nation for the next four years—a government pledged to do all things for all people at considerable cost to everyone (Jack Kennedy) or a government steering the same hands off and non-inflationary course of the Eisenhower administration (Dick Nixon).

Texas, who are going to toss an important bloc of electoral votes to one candidate or the other in what shapes up to be the tightest of races, not only have the above economic choice to make. They also have to consider "the Texas issues."

Let's look at "the Texas issues" first. The most important is the future of the oil depletion tax allowance, which was thoroughly explained in these editorial columns last week.

Texas literally runs on oil. The oil industry pays over half of all taxes in Texas for school districts, counties, and the state government at Austin. It employs more men and has the biggest payroll of any industry in the state. That is because Texas is by far the greatest oil producer in the nation and any "oil issue" in the national campaign therefore becomes a "Texas issue."

The oil industry needs the oil depletion allowance to help finance continuing oil exploration. Without depletion allowance, for example, all wildcatting in Garza County would shut down tomorrow.

It is to the benefit of us all to encourage our vital oil industry just as much as we can.

Now where do Kennedy and Nixon and their respective parties stand on this issue.

In one of the recent TV debates, asked his stand on the oil depletion tax allowance, Kennedy ducked. He said only he was in favor of re-examining all depletion allowances and if they were fair to allow them to continue. The oil industry immediately accepted this as a real threat. When asked to comment on Kennedy's position the next day, Senator Johnson sorrowfully shook his head.

On the other hand, Nixon declared in that same debate he favored the present 27½ per cent oil depletion tax allowance as a fair one to encourage future oil exploration.

Let's look at what the two party platforms say on the same oil depletion issue:

**Democratic Party Platform**—"We shall close the loopholes in the tax laws by which certain privileged groups legally escape their fair share of taxation. Among the more conspicuous loopholes are depletion allowances which are inequitable."

**Republican Party Platform**—"... continued support of federal assistance and incentives under our tax laws to encourage exploration for domestic sources of minerals and metals with reasonable depletion allowances."

The second "Texas issue" is the oil tidelands which Texas a few months ago won in a Supreme Court case.

The "issue" here is whether a new administration will attempt to enact into law some new federal control of these rich Texas oil tidelands.

Nixon said as far as he is concerned the Texas tidelands case is closed. The Supreme Court decision is final. Kennedy hasn't commented. He once voted in the senate in favor of

U. S. ownership of the tidelands. He may decide to try again.

Texas' oil tidelands appear to be a rich future source of revenue for the Texas state government—a government which already badly needs new revenues since oil production cuts have severely reduced oil taxes to Austin.

What are the economic issues of this presidential campaign?

Boiled down, Kennedy stands astride the most amazing "government should do it all" platform in the history of U. S. presidential campaigns looking and sounding like a new FDR and talking in generalities about another New Deal—but apparently a very synthetic one.

Kennedy has abandoned his "New Frontiers" program for all intents and purposes in an effort to sell America a "program of fear"—fear that it is "standing still" and only he can move America forward.

If you repeat anything often enough, a lot of people are going to believe it. This is Kennedy's psychology here—to sell America a program of fear, a fear that it is standing still—by repeating it so many times it works into the voter's subconscious mind.

Kennedy has talked very little of concrete proposals. His "program of fear" has been extended to his foreign policy declarations as well, but The Dispatch will editorially look at the foreign policy issues next week.

Nixon, on the other hand, contends America has been moving forward in rapid strides though in a way that he says Kennedy can't understand—by government letting the people move forward under their own power and not by "big government" trying to solve everything for them.

The choice here—"the domestic issues"—is simply whether the voter is to be stampeded by "fear of his own failures" into letting a paternalistic Uncle Sam expand government and the cost of government and handle all the decisions in Washington. Or whether the voters prefer the present quiet stable course of letting America's free enterprise system continue to operate as a free enterprise system.

The Dispatch doesn't believe in "big government." Jack Kennedy hasn't made us afraid of our shadow. We want to live our own lives and make our own decisions upon what we think is best for us.

Our national government already is "too big." The freshest wave of political hope spreading over America today is the new turn back to conservatism, away from "big government" and back toward free enterprise.

Free enterprise already has been almost swallowed up. If we don't turn back very soon, it will cease to exist. And don't forget free enterprise built America into the world's No. 1 power, not "big government."

The Dispatch for one doesn't want this to happen. We don't think most Texans, or Garza countians, want it to happen either.

This will be one of the voter's most important choices when we pick up our ballots Nov. 8.

And, since Jack Kennedy talks a lot about FDR in his campaign speeches, we would like to throw one of FDR's wisest and most famous sayings back in Jack Kennedy's face. Said FDR: "All we have to fear is fear itself."—J.C.

## THURSDAY to THURSDAY

By CHARLES DIDWAY

OCTOBER WILL go out in big style next Monday night, but all the hustle and bustle won't be a greeting for November. Anything unusual heard that night more than likely can be contributed to the fact that it is Halloween.

This is also the time of year when high schools and colleges throughout the land hold homecomings. The Post schools' annual "Welcome Back" event is set for Friday, Nov. 4. Under the guidance of the Post Ex-Students' Association, the homecoming here has grown into a major school year event. This year's, judging from early announcements, won't be any exception.

THE BIG EVENT, of course, will be the football game between traditional foes Post and Slaton. This will also be the first season in many years when the Post Antelopes wind up their 10-game schedule a week ahead of most of the other Class AA teams. Among other things, it will give the basketball team an extra week in which to get ready for the cage season under new coach Richard Souter.

The really big, big event in November, however, will be the General Election on Nov. 8. Already, Texas Governor Daniel has accepted a challenge from the governor of Hawaii to a contest to see which state will turn out the higher percentage of voters on Election Day.

"This is quite a challenge to the people of Texas, because in the first Hawaiian election as a state last year 92.9 per cent of the registered voters cast their ballots," Daniel said. "Truthfully," he continued, "Hawaiian voters have given all of us a lesson in responsible democracy. We should strive to do as well. If any state is going to match that record, it ought to be the State of Texas."

LET'S GO ALONG here in Garza County with the Governor on this, and if the other 253 Texas counties follow suit, then we'll be second to no state in the percentage of voters—not even to the newest state of Hawaii nor the biggest state of Alaska.

As a Democrat, I like the reasons given by U. S. Sen. Clair Engle of California for why he thinks the Democratic Party is going to win the election. In a speech Saturday night in Colorado City, Senator Engle declared the Democratic Party is going to win because: (1) It has the best candidates in Sen. John F. Kennedy and Sen. Lyndon Johnson; (2) because the Democratic Party has the best record; and (3) because the Democratic Party has the best platform and the best program.

THAT MAN UP the street says the public is not really concerned over atomic fallout, but brother just wait till it affects television reception.

Have you heard the termite song? "I'm Gonna Sit Right Down and Rot Myself a Ladder!"

WHAT'S NEW? Combination screwdriver and flashlight for working in dark corners. Auto ashtrays that will open onto the road as driver flicks button.

There might not be enough of them scattered around to be noticeable this week, but in an effort to improve its news columns, the news staff of The Dispatch is inaugurating a new kind of "filler" service this week. Newspaper fillers, you know, are those little items running anywhere from one to eight or nine lines that are used to plug holes at the bottom of columns and in other nooks and crannies.

UP TO THIS week, we've been using first one kind of filler and then another, but we've decided to keep 'em closer home and run little gems of information from surrounding towns and counties.

Small items that are not quite big enough to put a news head on, but will be of more interest in Post and Garza County than the fillers telling how many sheep there are in Belgium, how many fish a full-grown sea lion can eat, etc.

So, now when you run across one of these little fillers it is likely to be something of interest from some town you know about instead of something from Kuala Lumpur or Johannesburg, South Africa.

Portugal will sell a bond issue in Lisbon to help expand its fishing industry.

Pakistan expects a 1960 tea crop of 56.8 million pounds, well over 1958-59.

Flying time between Eire's Shannon Airport and London now is 1 hour 45 minutes.

Sweden now is using seed peas from California to produce frozen peas for export.

## Looking into absentee voting

The absentees are important in getting out as near a 100 per cent vote as possible in the General Election Nov. 8, which is what every voting precinct hopes for, but doesn't really expect.

Under the 1899 law, now in effect, absentee voters are in three categories. They are as follows:

1. Those in the county during the period of absentee voting, Oct. 19-Nov. 4, who expect to be absent on election day. Such a voter must present himself at the county clerk's office, where, after making sworn application, he will be furnished with a ballot; when he has marked the ballot, he leaves it in a sealed envelope with the clerk.

2. Those who, at the time they desire to vote, are outside the county and cannot be present on election day. Such a voter must make sworn application by mail, bearing an out-of-county postmark, to the county clerk for a ballot; on receipt of such application, the clerk will forward, by mail, a ballot, which the voters will mark, place in a sealed envelope, and return to the clerk by mail.

## Halloween — a time for caution

Monday, Oct. 31, is Halloween—traditionally the night for "goblins" to prowl, for trick-and-treaters to go about their innocent pastime, and for law-abiding citizens to hope that things do not get out of hand in the form of property destruction.

With Halloween this year falling on a Monday, most of the shenanigans more than likely will take place Saturday night.

The Dispatch herewith makes its annual appeal to the youngsters to have their fun without letting their enthusiasm carry them so far that the Halloween pranks they pull boil over into vandalism.

Parents are urged to warn their youngsters against destroying property — which they don't have to do to have fun on Halloween night. Since the trick-and-treaters usually include children barely able to toddle, it is also hoped that motorists will keep an eye peeled for these bands of children who, in their enthusiasm, might bolt right into the path of an automobile.

No way ever has been devised to keep children from observing Halloween in the typical manner, but count that Halloween blessed that passes without some child being hurt or something of value being destroyed.—CD.

## More chemicals being used for effective control of mesquite

COLLEGE STATION—More and more farmers and ranchmen in the "mesquite belt" are resorting to chemicals for control of mesquite. Diesel oil or mixtures of diesel oil and 2,4,5-T have proved effective for controlling mesquite. As a result of control, many landowners now have excellent pastures where mesquite was only sparse grass before, says G. O. Hoffman, extension specialist.

An example of the success achieved in chemical treatment comes from Gonzalez County Agent F. M. He reports that grass in areas sprayed has increased this year. One of the local ranchers said of the spraying, "The amount of grass coming where there hadn't been for six or eight years is almost too good to believe."

C. Mayfield, a Val Verde County rancher, is another strong supporter of spraying. He treated an area of his ranch 15 months

ago, and he says that the results already received made the application economical. "Once the leaves fell off the mesquite, the grass underneath jumped a foot," he explained.

Similar reports are coming in from all over the state, Hoffman continues. Some of these areas will need another application to kill regrowth, but the advantages realized from treatment will far outweigh the monetary outlay. The cost of spraying is usually less than \$5 per acre, and this is very economical when you consider that you get excellent weed control as well as brush control, the specialist points out.

Hoffman recommends that landowners interested in trying chemical brush control contact their local county agent. He can help with cost estimates and he can also supply valuable information on application methods.

## 'Five Branded Women' thrilling story of guerrilla fighters

Friday and Saturday, the Tower Theatre will present one of the great stories of women guerrilla fighters to come out of World War II, "Five Branded Women."

Starred in the title role are Silvana Mangano, Vera Miles, Barbara Bel Geddes, Jeanne Moreau and Carla Gravina. Also starred are Richard Basehart, Harry Guardino, Steve Forrest, Alex Nicol and Van Heflin.

"Five Branded Women" concerns the dramatic experiences of a group of beautiful Yugoslav girls who, having consorted with the enemy, are maltreated by the partisans and driven out of town. Their experiences as guerrilla fighters constitute the exciting action.

## Crosby County libraries open

CROSBYTON — County-sponsored libraries in Lorenzo, Ralls and Crosbyton opened their doors last week.

Each of the three libraries began operating with more than 300 volumes from the state loan library. The number of volumes will be greatly increased in the near future.

The county libraries were allocated \$2,500 by the Crosby County commissioners' court early this year.

The libraries at Lorenzo and Crosbyton are open four hours a day two days a week. The Ralls library, located in a downtown dress shop, is open during the shop's regular business hours.

## State convention Farm Bureau set

WACO—The 27th annual convention of the Texas Farm Bureau will be held Nov. 9-12 in Dallas, according to J. H. West of Bishop, president of the state farm organization.

State policies to guide the organization through 1961 will be adopted at the convention. Adopted resolutions on national issues will become recommendations to the American Farm Bureau Federation convention scheduled for Dec. 11-15 in Denver.

Some 650 voting delegates will represent 199 organized county Farm Bureaus in the voting. Total attendance is expected to reach about 1,700.

## State Capital NEWS

AUSTIN—For years a high chain link fence marked the back boundary of the Austin State Hospital grounds.

Sturdy and forbidding, with interlocking barbed wire at the top, it was a fence that suggested the plight of the people it confined. It was a depressing, prison-like, mile-long fence that paralleled Lamar, one of Austin's busiest boulevards.

Now, each spring, Austinites make a point of driving out Lamar to see the mass of climbing red roses covering the fence. Today this long stretch of roses is a symbol of the change that has come to state hospitals during the past 10 years as a result of volunteer services.

University engineering students donated and planted the rose bushes. Thousands of people over the state have landscaped the grounds, redecorated the dining halls and reception rooms, built swimming pools, given parties, conducted classes, wrapped gifts and in hundreds of other ways brought beauty and warmth to state hospitals and schools.

In its fall report, the State Hospital Volunteer Services Council shows that volunteers gave 163,904 hours of time to state institutions during the past year. Figured at only \$1 per hour and adding in contributions of food, clothing, prizes, furniture, etc., volunteers enriched life in state institutions by more than \$538,996 during the year. This does not count considerable sums collected for all-faith chapels at several schools and hospitals.

**VOLUNTEER WORKERS**  
Last year, 36,000 citizens went into 18 different state hospitals and schools to do volunteer work.

Impact of these volunteers is two-fold, says Miss Helen Colburn, coordinator of volunteer services for the State Hospital Board.

First, they help to create a pleasant environment which gives patients a better chance to respond to medical treatment.

Second, the volunteers learn the problems of the hospitals and schools and are an effective force in educating the community as to needs and goals.

"State money can't be spent for pictures or parties or swimming pools," said Miss Colburn. "It has to go for beds and food. But these other things are important. Patients respond to environment, and they respond to people. And they know the difference between people who are paid and people who come to help them out of sheer kindness."

Right now the volunteers are getting ready for their biggest undertaking of each year—Christmas. It means securing, wrapping and tagging about 26,000 gifts to keep up a three-year record of having a gift for each patient in the state system. It means decorations, trees, parties and caroling. In some cases it means setting up shops where patients can get gifts to send to their families—often more ardently desired by the patient than a gift for himself.

month the contracts are expected to total only about \$12,000,000, but by December the total should be increased again to about \$17,000,000 or \$18,000,000.

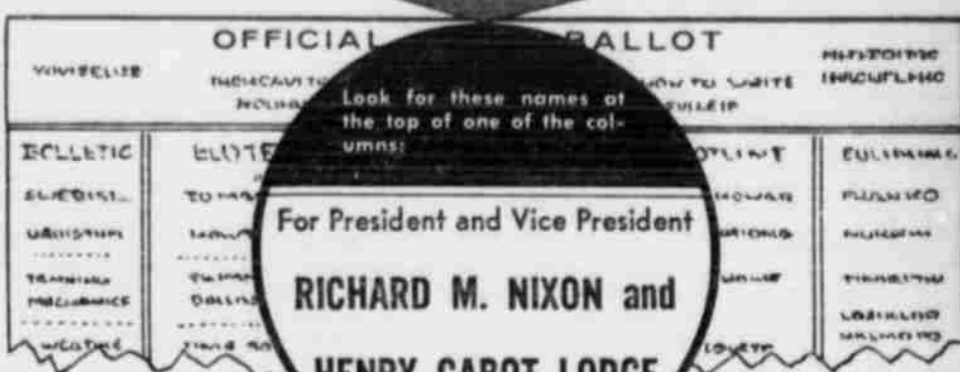

This will mean fewer workers laid off for the winter by contractors doing state highway work.

Texas Railroad Commission announced that the eight-day oil pro-

duction pattern will continue through November, making seven consecutive months of wells shut down 22-23 days a month. Daily allowable will be 2,667,508 barrels. Texas' cotton acreage allotment for 1961 will be 7,849,195 acres, the U. S. Dept. of Agriculture announced. This is a slight increase over this year's 7,377,191 acres.

The Dispatch is mighty proud of its School Pages this year. You'll find the two pages on pages 10 and 11 of this edition. The high school and junior high staff members are turning in school news at such a growing rate that the one School Page of last year has grown into two pages this year. Mrs. G. E. Fleming's Typing II class provides the high school staff this year with Jane Maxey as editor. Each class member turns in his or her own story and what's more the copy comes into The Dispatch office neatly typed. It's a highly successful class project under Mrs. Fleming's skilled direction. The junior high staff under Co-Editors Meredith Newby and Mary Ann Stone also is doing its full share to make the school pages a real success. In watching the school pages and keeping an eye on what other papers are doing for school coverage, we'd guess the present school staffs in high school and junior high are the only ones of their kind in Texas to-day—but sure to be copied in the months and years ahead. The Dispatch school pages provide school news not only for students themselves but for thousands of interested parents as well.

Are you a "4 Day Parent"? That's the question asked in the first of a series of religious advertisements published on page 15 this week by The Dispatch as a community service. This is one of the finest series of religious advertisements ever offered through the National Advertising Council and we wanted to call your attention to them. Particular emphasis is placed upon the religious education of our boys and girls. Watch for others in the weeks ahead.

"Trick or Treaters" will be out in force Monday night in the traditional local Halloween observance, but some of the youngsters who will knock on your door will not be seeking candy, gum, apples or cookies for themselves, but will be locally recruited "troops" to help win the world's war of hunger. They will be "tricking or treating for CROP" and your contributions will go to feed the world's hungry. A feature on this excellent youth program will be found elsewhere on today's front page. Be generous when they knock and help them fulfill their high purpose.

We "goofed" last week in failing to mention a new business couple on the local scene. Mr. and Mrs. Burnie Bingham have purchased the Rocket Motel from Mr. and Mrs. Earl Wrester and have moved into the motel's living quarters. The Wrestlers departed on a good vacation trip before announcing their future plans. We want to welcome the Bingham to Post's growing business community and wish them well. They "announced" their new acquisition and their invitation to local folks to use their fine new motel for "spare bedrooms" in last week's Dispatch.

The "body politics" was beginning to come to life here this week and making noises to indicate the Presidential Election is just 12 days away. A few car stickers for the candidates have begun to make their appearance on local cars and candidate buttons are beginning to show up on shirts and coats around town. No local political rallies are in the offing, but a group of conservatives have been busy organizing Garza Countians for Nixon-Lodge and inviting in all who want to help. Their first advertising effort will be found on page 13 of today's Dispatch entitled, "The Texas Issue". It's the very same issue we think is a very important one to all Texans in the present presidential campaign. N. C. Outlaw, county Demo chairman, has been busy of late, not only here but in the region, in behalf of Jack Kennedy and the Demo ticket. He is predicting a Texas win for Kennedy, pointing out that all the state officeholders are solidly in the Kennedy camp and working hard for him.

Next week The Dispatch plans to print a sample ballot as a community service in its news columns to give voters the opportunity to study the lists of candidates asking for your support and also to read over once again the constitutional amendments which they are being asked to approve or reject.

You'll note on the ballot that the new Constitutional Party is making a bid this year and is stronger in parts of West Texas and Texas generally than probably anywhere else. The Constitutionalists are about conservatives and the way we hear it they're out gunning to shoot down the national income tax.

While the campaign is now getting angrier among the leading candidates, it appears the "undecided vote" in this election is bigger than ever before. The "un-

Post roper top Abilene winner

R. E. Josey of Post came home with the largest amount of winnings from the calf roping events held Saturday at the Taylor County Riders grounds south of Abilene. Josey won \$158, placing first in the \$11 open jackpot averages and second in the \$17 event. He had a total time of 23.1 seconds on two calves in winning the \$11 event and a time of 25.3 in placing second in the \$17 event.

Josey's best time was an 11.4 in the first go-round for the \$11 jackpot.

There were 24 ropers in the \$17 event, 30 in the \$11 event and 17 in the \$6 event.

Criswell's buck had a 28-inch horn spread and was more than 10 feet long.

A third local party, composed of six, like Criswell's group, also hunted the first weekend and ran into the storm, but it cleared for one good day's hunting on last Wednesday and they bagged three deer that day.

Bailey Matsler got the biggest buck. The other two were credited to Everett Windham. Also on the hunt, north of Delores, Colo., were Max Gordon, Lester Nichols, Bobby Pierce, and Donald Windham.

The Jackson Brothers Food Locker had a deer this week from Wayne Pennington and another from E. R. (Buster) Moreland.

Five were bagged by Fluvanna hunters with Audrey Head getting one, and C. H. Wylie and H. L. Cavender, two each.

decided vote" has always been a real bugaboo to the pollsters and contributed immeasurably to the polls "Truman debacle" in 1948, when the polls had it wrong and no place to hide after election day. George Gallup, who suffered most in that one, told a big press association gathering in Chicago last week that the "undecided vote" this time two weeks in advance of election day was so big he simply wasn't going to predict the outcome. If it all goes one way or the other on election day it could give the winning candidate an electorate vote landslide, but right now it's a nip and tuck affair with last minute developments very likely to decide the outcome. That may make your vote this year more important than ever before. So make it count—at the polls.

Report heard here on liquor situation

There have been 247 arrests for drunkenness recorded in the Garza County sheriff's office since Precinct 3 went "wet," as compared with 37 arrests for drunkenness for the same period in 1959, the Rev. C. B. (Bill) Hogue, First Baptist pastor, said Tuesday night in a talk at the Lions Club meeting.

The periods checked by the minister were from May 1, 1959, to Sept. 30, 1959, and from May 1, 1960, to Sept. 30, 1960. The precinct voted wet last April.

Rev. Hogue also said the records showed that one driving while intoxicated case was filed in county court for the 1959 period as compared with 17 DWI cases filed in the 1960 period.

He said there were 33 arrests for illegal transportation or possession in 1959 and 35 arrests for the same offenses in 1960.

Roll call will be answered with "New Books" and Mrs. N. R. King will give the meditation.

A book review on "Dear and Glorious Physician" by Taylor Caldwell, will be given by Mrs. Russell Wilks Jr. for the program. Study club members are: Mrs. Malcolm Bull, Jack Burress, W. C. White River--

(Continued from page 1) that there was enough rainfall only about once every 15 years to fill the reservoir at the 40-foot higher dam level. That would make the cost prohibitive.

A three-foot boost in the height of the dam, he pointed out, could be made now at no great cost. In the terms of additional water storage, engineers estimate it would add about 5,000 acre feet of water to the reservoir bringing its capacity up from 33,000 acre feet as originally planned to about 38,000 acre feet.

WOULD UP CAPACITY

In terms of water available for use this would increase the capacity of the reservoir for usage by approximately 150,000 gallons of water a day.

It would raise the average daily maximum for use to 2,800,000 gallons of water.

The four cities are now committed to purchase only about 1,600,000 gallons of water daily, leaving well over 2,800,000 gallons daily for sale to other users or for municipal growth. This is average daily purchase and not peak summer requirements.

Directors were unanimous in the belief that the small additional cost of initial construction would be well worth the additional water.

In a discussion of core drilling costs, Eeds said that core drilling of the original dam site cost about \$10,000 before it was determined that it would be more economical to move the damsite three-quarters of a mile downstream.

He said core drilling at the final site would total this much.

Eeds told White River directors that preliminary core drilling did not disclose the two problem areas in the original damsite and that these did not turn up until this summer when final core drillings were taken for the final planning.

He said it is not unusual for this to happen, but that engineers "try

to avoid it."

BIG SAVING SEEN He added that the new damsite would save many times the cost of core drilling in its construction as it would have been so much more expensive than originally estimated to build the dam on the first damsite. He explained that at one problem area they found gravel and sand base unknown before in the bed of the river and high on the right side they found conglomerate 100 feet deep because of deposits made by the former river channel thousands of years ago.

Eeds said this would cause a leakage under the dam of over 50 per cent.

Whereas the dam on the first dam site would have to be 80 feet high and 700 feet long, the dam on the narrower new damsite down river would require a dam only 60 feet high and 500 feet in length.

The filtration plant site also will be moved, he told directors.

INTO FINAL PLANS

The district's engineer firm is "well into final plans for the dam", he reported, "and now are awaiting only the final core drilling report." He added that surveying for the pumping stations and water lines is almost complete.

In a discussion of land purchase for the dam, directors said they are not planning to purchase mineral rights with the land as that would make the land costs much higher.

The new damsite, Eeds explained, has a firm shale base which will prevent leakage under the dam.

Bob Thompson, another representative of the engineering firm, accompanied Eeds to the directors' session.

Attending from Post were Tom Bouchie and R. J. (Rube) Jennings, White River directors, and Publisher Jim Cornish.

Horace Wood has been elected president of the Methodist Men's Club at Spur.

Fines, costs paid for disturbance

Four men were assessed fines and costs by Justice of the Peace D. C. Roberts Monday after pleading guilty to disturbing the peace. Fines and costs totaling \$20.83 on the disturbance charges were paid by Benny Aumada, Leonard Archambeau and John Pena, while T. O. Pena's fine and costs amounted to \$29.65.

The complaints against the four men were signed by Benny Valdez.

BAPTIST MEETING SET

The Texas Baptist Convention will be held in Lubbock this year beginning Oct. 31 and continuing through Nov. 3. It will be held at the Lubbock Coliseum with many Post people planning to attend. More than 8,000 Baptists are expected to attend the business meetings and lectures which will be held throughout the convention.

DEPUTY BACK AT WORK

Deputy Sheriff Sam Price was able to resume his duties Monday after being ill for a week with influenza.

WHAT IS THE DIFFERENCE?

The Democrats and the Republicans both favor the things we are opposed to. But—the Democrats favor Texas and the South that they don't care what we think or want. They know what is best for us, and they are going to let us have it—and make us pay for it.

The Republicans tell us that they do plan to respect the rights of the States. They promise to respect our individual and collective constitutional rights.

If we let the liberal Democrats win this election in Texas, we become the dog which runs to the master at the snap of a finger, and fawns for favor or food.

# it's a Date. Bill!

And just who is Bill? A parent's mind stalls right in the middle of that intersection . . .

From what background has Bill come? In what moral direction is he heading? Where did Ruth meet him? Where will he take her?

Jolting the family's peace of mind, this sudden collision between confidence in our daughter and uncertainty about someone's son.

Another jolt: *If Bill's parents are the right sort of people, they're probably wondering about our Ruth!*

Many families have fewer such anxieties because they are active in the life of a church. Their boys and girls meet in an atmosphere that calls forth our best. Fun, friendship and inspiration are blended in worthwhile youth activities.

And if love blooms . . . no awkward compromise of conviction such as besets some . . . but a common faith in God to enrich a couple's affection and strengthen their marriage.

## THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

### Clark Gable, Sophia Loren star in Tower film, 'It Started In Naples'

All the ingredients that make for happy motion picture entertainment are contained in Paramount's new production, "It Started In Naples," showing at the Tower Theatre Sunday, Monday and Tuesday.  
It is a romantic comedy in Technicolor, filmed in picturesque Capri, Rome and Naples; it pairs Clark Gable and Sophia Loren—two prime symbols of cinematic sex appeal in what is called "chemical casting"; it adds for extra native dash and wit the charming Vittorio De Sica and a sensational young boy, Mariotto.  
Gable, who prefers making this type of film—romantic comedy—to any other, portrays an American lawyer with a conscience who goes to Italy to settle his late brother's estate.  
In Italy, he learns that his brother has left a young son who is being looked after, and not too well, by an "aunt"—a honky-tonk entertainer played by Sophia Loren.  
Gable decides to take the boy back to America with him, but has to contend with Sophia and the Italian way of life, which prove formidable obstacles. Before he realizes he's in love with both obstacles, there's a lot of fun for all.

### Selective Service points cleared up

On age, registration, etc.

Under the present draft regulations and policies, no one is drafted under age 22 in Texas except volunteers and delinquents, according to information in a news release received by the local Selective Service board from Col. Morris S. Schwartz of Austin, state director.

However, the law obligates men to register at the age of 18 unless he is on active duty in the Armed Forces. If this is so, he is obligated to register as soon as he is released from active duty.

The volunteers mentioned above pertains to men who apply for induction on a volunteer basis, and is not to be confused with the man who enlists at the recruiting office.

Since the present law was enacted in 1948, all males born since Aug. 30, 1922, have had and now have a legal obligation to register, except those not yet 18. Any man who fails to register, as required by law, is subject upon prosecution and conviction to a fine up to \$10,000 or five years in prison or both.

A delinquent is one who has failed in some way, or ways, to comply with his obligation to the law, and when such is found so, the board may, under the law, declare him delinquent and order him for induction.

Selective Service officials point out that it is up to the registrant to inform the board of his reasons when seeking deferment from the draft.

"Statement of reasons for asking for deferment is entirely up to the registrant—his responsibility," board officials declared.

### Pvt. Simpson at Fort Ord, Calif.

FORT ORD, Calif.—U. S. Army Pvt. Richard W. Simpson, 20, is presently undergoing basic Infantry training at this Monterey Peninsula Training Center.

The eight week training program consists of such vital military subjects as rifle marksmanship, Infantry tactics, first aid, military justice and the conservation and maximum utilization of military supplies. Upon completion of his basic training, the soldier will go on to either advanced Infantry training or to one of the many Army specialist schools.

Private Simpson, the son of Mr. and Mrs. Wallace Simpson, Route 1, Post, Texas, is a graduate of Post High School and attended New Mexico Military Institute, Roswell.

There were no rural highway accidents in Kent County during September, according to the Highway Patrol.

### I Give You Texas . . .

By BOYCE HOUSE

This is the mystery of the disappearing body.

When I began newspaper work, I was assigned to the police run. This was in Memphis many years ago.

The most remarkable member of the police department and one of the grandest men I ever knew was Capt. Mike Kehoe. A big, ruddy-complexioned man he was, with graying hair, kindly and considerate but firm as iron when a serious situation arose, and absolutely void of fear.

One night, a patrolman called in to report that he had seen a man going down an alley, with a sack on his back. At the officer's call to halt, the man began to run and the officer fired low. But the bullet must have ricocheted from the cobblestones for the man fell and when the policeman reached him, he was dead.

As the story was being related, we were walking up the alley and, still looking up, the officer stopped pointed down and said, "There's the body."

Our gaze followed the direction indicated by his finger—and there was no body there.

The policeman exclaimed, "It was here, I tell you!" Captain Kehoe looked at me and I looked at him, then we both looked at the patrolman who, we now strongly suspected, had been drinking and had imagined the occurrence.

Suddenly, I had a hunch and said, "Follow me," with the brashness of a cub reporter. They did. We walked around to the street and, guessing which was the building that was in line with the spot where the body was supposed to have been, I stopped. The front was in darkness. I pointed to the sign, "Undertaking parlor."

I pounded on the door and a light appeared, then the door opened.

"We're from headquarters and want to see that body that you took from the alley," I said.

"Certainly, come in," was the reply.

The patrolman mopped his brow in relief.

Elementary, my dear Watson.

Just behind the bus station in Corsicana, there is a pumping oil well.

A folksy expression: "I've heard tell of it." And another, which a writer sometimes hears when he meets someone for the first time, "I've read after you for years."

### Hypnotic film to be Halloween feature

"The Hypnotic Eye," an off-beat Allied Artists thriller, will show at the Tower Theatre Saturday night as the Halloween mid-night show.

The performance will begin at 11:30 p. m.

Merry Anders and Jacques Bergerac are co-starred in the picture, which introduces the psychological film technique called HypnoMagic.

Bergerac plays a stage hypnotist who, under the hypnotic power of his own assistant, a beautiful woman, causes other women to destroy their beauty by acts of violence while under the influence of post-hypnotic suggestion.

## IN TEXAS YOU PAY 90¢ TAX ON TEN GALLONS OF GASOLINE!

# How Do You Vote?

I Believe Gasoline Taxes Are Too High!

YES  NO

**HOW DID YOU VOTE?**  
No matter how you voted, these facts on gasoline taxes are important to you:

- Everywhere in Texas, car owners pay 90¢ tax on every 10 gallons of gasoline they buy!
- Gasoline taxes across the nation amount to a 50% sales tax—and that's five times as high as the tax rate on luxuries like diamonds and mink coats!
- Since World War II, there have been three increases in the Federal gasoline tax alone. This brought the Federal tax to 4 cents a gallon, in addition to the State tax of 5 cents a gallon!
- In the last ten years gasoline taxes have skyrocketed 51%—yet the price of gasoline itself has risen only 3.5% during the same period!
- Each year the average motor vehicle owner in this state pays \$78 for gasoline taxes alone. That's just a few dollars less than the average week's pay for most people!

**HIGHWAYS AND GASOLINE TAXES**  
Your gasoline retailer, naturally, favors construction of the roads that the motoring public needs. He believes in fair and reasonable taxation for this purpose but feels that taxes on gasoline have now reached unreasonably high levels. He also believes that all special taxes on the motorist should be used only for highway purposes. Yet last year, out of every automobile tax dollar collected by the Federal Government from highway users, more than 40 cents went for non-highway purposes. If these automotive tax revenues were dedicated for highway purposes, there would be no need for the latest increase in the federal gasoline tax.

**National Increase 1950-1959**  
Gasoline Tax 51%  
Living Costs 21%  
Gasoline Prices 3.5%

**GASOLINE TAXES UP 51% IN TEN YEARS**

### Vet's Forum

Q. A while ago there used to be a rule that VA benefits checks could not be forwarded, but I understand that's changed now. Can the Post Office forward my compensation check to me, at another address.

A. Yes. It is perfectly legal to forward VA benefits checks. Fill out a change-of-address form with your local Post Office. Also, tell VA that you are moving. Give your old address, and your new address.

Q. Is a veteran with a service-connected disability rated 30-percent entitled to extra money from the VA because of dependents?

A. No. The law does not authorize payments for dependents of veterans whose service-connected disabilities are found to be less than 50 percent in degree.

Q. Now that my right as a World War II veteran to obtain a GI loan has been extended to July 25, 1962 I intend to get one. What papers do I need to take to a lender?

A. You need only take your VA Certificate of Eligibility. This may be obtained at any VA regional office.

**1. REAR-ENGINE CORVAIR 95's—THE TRUCKS THAT BEGAN WITH 4 WHEELS AND A FRESH IDEA!**  
Here are high-capacity haulers that offer the most accessible load space you ever saw. Think of up to 1,900 pounds of whatever you haul riding on a highly maneuverable 95-inch wheelbase. This design's a beauty. Features 4-wheel independent suspension, integral body-frame build, thrifty air-cooled rear engine—all kinds of fresh new ideas about truck efficiency and economy.

**2. TORSION-SPRING CHEVROLETS—WORTH MORE BECAUSE THEY WORK MORE!**  
You actually feel the advantages of independent front suspension in the almost total absence of I-beam shimmy and wheel fight. The driver rides easy, the load's better protected, tires take less abuse, the whole truck is subjected to far less damaging road shock and vibration. Efficiency goes up. Profits follow. **GRAVITT GOES WILD**  
Every time the Mustang offense bogged down with Gravitt on the sidelines, the 188-pound fullback quarterback was sent back in, either to score himself or to spark a scoring thrust.

The Antelopes were so completely outclassed that they never were "in" the game after the Mustangs scored their first touchdown with 3:25 of the first quarter gone.

With Denver City out in front 29-0 seven minutes and six seconds deep into the second quarter, Antelope fans got their first cheering opportunity when quarterback Kenneth Williams ruffled a 25-yard pass to fullback Jimmy Minor on the Mustang 10 and the stocky fullback raced across untouched.

Despite the Mustangs' superiority in every department, there were bright spots in the Post team's performance.

The Mustangs tacked on another touchdown before the half ended for a 37-8 intermission lead.

Denver City ran its first quarter margin to 22-0 with 1:53 to go when Gravitt circled his right end for a TD and halfback Johnny Fulbright plunged for the extras.

The second quarter was less than two and a half minutes old when the Mustangs rang the bell again, this time on a bone-crushing 79-yard run by Gravitt.

Following the second half kickoff, the Antelopes temporarily halted the Mustangs when end Bob Beard covered a fumble on the Post 45. With Mason, Ray and Minor carrying, Post got down to the Denver City 25, but Jones intercepted a pass on the 17 to dim the Antelopes' hopes.

Again the Post defenses stiffened and tackle Bill Gravitt punted 59 yards out of bounds on the Antelope 12.

With 9:22 to go in the final period, Gravitt came off the bench for a fourth down try and responded with a 57-yard touchdown gallop.

The night's scoring parade ended with 4:06 remaining when Gravitt rounded right end behind perfect blocking for 33 yards, with Fulbright again coming through on the extra points try.

The Antelopes helped their meager yardage total on the final play of the game when quarterback Leslie Acker hit Minor with a 14-yard pass for a first down on the midfield stripe.

Looking good on defense were 8th grader Ronald Turner, who is a member of the freshman squad, Billy Shumard and Larry Guy.

The Post team penetrated deep into Spur territory on one drive in the second half, but lost possession on a fumble.

**Tech Picadors and Air Force to play**  
Lubbock—Texas Tech's freshmen make their only home appearance of the season in meeting the U. S. Air Academy frosh at 2 p. m. Saturday in Jones Stadium.

Coach Beattie Feathers' Picadors opened their schedule with a 34-27 victory over Arkansas' frosh in Little Rock.

**Spur's 'B' team beats Post, 14-0**  
The Spur Bulldog "B" team avenged an earlier loss last Thursday by defeating the Post Antelope "B" team 14-0 on the Spur gridiron.

The Antelope reserves had defeated the Spur eleven 8-0 in a game played here.

ing 79-yard run by Gravitt, Guard Marcel Dorethy booted the extra point.

After yielding the Antelopes their lone touchdown, the Mustangs got back on the track with 1:09 to go in the half when halfback Tommy Jones plowed two yards for a TD and Gravitt pranced over for the extra points.

### Saturday at Houston

## Strong Rice Owls next for Raiders

LUBBOCK — Getting past the halfway mark of their 1960 schedule didn't move Texas Tech's Red Raiders through their "murderers' row" of football opponents.

Still ahead of the Red Raiders are Rice in Houston this Saturday, Tulane, Wyoming, and Arkansas—the latter trio in Lubbock.

Rice, with a crushing 47-0 victory over Southern Methodist and a 7-0 triumph over Invered Texas, has become the team to contest Baylor for the Southwest Conference title—if Arkansas doesn't follow up its 24-23 win from Texas.

Tulane, with a better team than the one that downed Tech 17-7 last season, was barely edged 14-6 by Georgia Tech last week. The Green Wave, winner over California in its opener, held Bear Bryant's Alabama team to a 6-6 tie and Rice to a 10-7 decision.

Wyoming, loser of only one game this season, blanked the U. S. Air Academy 15-0 last week.

Bound to set a school attendance record in its first year of Southwest Conference play, Texas Tech still has reserved and general admission seats available for its three remaining home games—afternoon contests with Tulane Nov. 5, Wyoming Nov. 12, and Arkansas Nov. 19.

Thirty-two thousand saw the Red Raiders rally to notch their first Southwest Conference football victory, 28-7 over SMU last week.

Post divided a pair of junior high football games with Tahoka here Tuesday night, the local 7th graders winning 28 to 8 and the 8th graders dropping a 23-14 decision.

Coach Clark's 7th grade team led by one touchdown at halftime and widened the gap over the Tahoka team in the second half to ease to the win.

In the 8th grade game, Tahoka held a 14-0 lead at halftime after scoring on two runs. Post scored in the third quarter on a sweep by quarterback Butch Cross, but the try for points failed.

Tahoka then upped its lead to 20-6, with Post making it closer in the final period when Cross scored again and also carried over for the extra points.

The Post 7th and 8th grade teams are to play at Frenship next Tuesday.

Play-by-play accounts of four Southwest Conference football games will be broadcast Saturday by the Humble Company. Humble will also co-sponsor the live telecast of the LSU-Mississippi game, starting at 1:45 p. m. (CST).

The Rice-Texas Tech game will be broadcast from Houston at 1:45 p. m.; the TCU-Baylor game from Fort Worth at 1:45; the Texas-SMU game from Austin at 1:45; and the Texas A&M - Arkansas game from College Station at 7:15 p. m.

# 43 students on 2 honor rolls

By Elaine Mitchell  
Out of 261 students attending Post High School, six made the "A" Honor Roll and 37 made the "A" and "B" Honor Roll for the first six weeks at PHS. They are as follows:

**"A"**  
Seniors: Mike Cornell, Linda Kaykendoll, and Jimmy Minor.

## Showcases are filling up fast at high school

By Billie Lou Hill  
This month we have a number of things in our showcases. We are very proud of our showcases this year. We have two of them. They are on the sides of the entrance hall as you come into the north building.

This month we have three very nice knife holders made by David Nichols, Larry Guy and Kent Wheatley. These boys made the holders in Shop under the direction of Mr. Hopkins.

Mrs. Fleming thought that she had so many good letters this week, she put some in the showcase. The letters were typed by Martha Goode, Kay Gordon, Bonnie Duncan, Virginia Young, Jane Maxey and Anne Morris.

Shirley Bostic is a very good volcano builder. She made a volcano about six inches high. She used plaster and painted it a light pink and brown. She put some historic animals around it to make it look better.

Curtis Hudman has quite an arrowhead collection. There are some arrowheads on a blue cloth in a box.

We have quite a few boys around PHS with good talent with a ruler and pencil. They are Jerry Banks, Raymond Shaw, Carroll Pate, David McCampbell and Ronald Tallent.

Jimmy Minor is a very brilliant senior boy who made a Stroboscope. It is used in stopping motion.

Robert Johnson made a safety driving project in Driver's Training.

We want to thank you all for doing these fine things for our showcases.

**HERE FROM CANYON**  
Scottie Pierce, student at West Texas State College, Canyon, spent the weekend with his parents, Mr. and Mrs. Sidney Pierce, and family.

### MATHEMATICS PROVING TOUGH SUBJECT

## Little more effort might have brought more passing grades

By Martha Goode and Gloria Peoples  
Last week the report cards of the first six-weeks were distributed to the students at PHS. To many it was an honor to receive them, but to others—well, everyone knows that mathematics is a difficult subject, but not as difficult to some as to others.

## Sports spotlight's on Wendell Duncan

By Danny Jones and Jerry Ligon

Wendell Duncan, son of Mr. and Mrs. Floyd Duncan, is a senior at PHS. He plays halfback for the Antelopes and made some very outstanding plays in the Ballinger game.

Some of his favorites are: Sport, football; color, black; recording star, Brenda Lee; subject, physics and chemistry; record, "Devil or Angel".

Of Wendell's 17 years, he has lived in Post six. He was born June 18, 1943.

We are proud of Wendell and the entire Post Antelope team. We can all see the effort they put out in football.

Juniors: Tommy Bouchier, Sophomores: Chris Cornish and Marianne Jones.

**"A" and "B"**  
Seniors: Margie Casteel, Gayle Dillard, Ronnie Duncan, Wendell Duncan, Denise Eubank, Beth Kemp, Elaine Mitchell, Carolyn Moore, Anne Morris, Gary Simpson, and Kenneth Smith.

Juniors: Leslie Acker, Roger Camp, Wayne Gamblin, Bobby Hudman, Jean Johnston, Wayne Kiker, Judy McCullough, Sheila Morris, Donna Robison, Jerry Thuett, and Beverley Young.

Sophomores: Stanna Butler, Sammie Kay Caffey, Jamie Carradine, Jan Herring, Ann Pennington, and Janith Short.

Freshmen: Nancy Bingham, Wayne Brincefield, Jackey Fluitt, Lynda Kaye Harper, Curtis Hudman, Diane Maxey, Linda Pennington, Lynette Potts, and Susie Jo Schmidt.

## Both sexes are stunning in styles and fashions at Post High School

By Gayle Dillard and Bonnie Duncan

Jane Francis wore a sleek sheath of brown and black houndstooth print with large puffed sleeves.

Virginia Young looked smart in a dark plain dress with a small Peter Pan collar, ragland sleeves and a built-in cummerbund.

Kay Gordon wore an attractive green checked dress with a jumper look. The yoke was tucked and of a solid material.

Sammie Kay Caffey was the center of attention this week with a skirt and sweater of yellow and white.

Judy Stovall stole the spotlight in a dark lavender sweater with a star.

This year we have more sweater boys than girls. David Lee, Nuel Landreth, Royce Chance, Danny Jones, Wendell Duncan, Mike Cornell, Jerry Ligon, Lee Williams, and Ronnie Henderson all wore attractive sweaters this past week.

Anne Morris was especially stunning in a red print dress with a set in yoke of white, trimmed in black ric-rack.

Beth Kemp looked neat and trim in a gray plaid sheath jumper over a white blouse with roll-up sleeves.

Linda McMahon was a cute as ever in a navy houndstooth sheath over a tucked blouse with three-quarter length sleeves.

Sandra Stewart wore a blue skirt and sweater to match her eyes. Looked real stunning, Sandra!

Buddy Ussery has been working on a walnut gun case with glass doors.

David Nichols, Larry Guy and Kent Wheatley made a knife holder each. Darrell Haley made a wooden salad bowl and Glenn Polk finished a box to keep his biology specimens in.

Last Monday Mr. Hopkins gave a very interesting talk and demonstration on the circle saw.

## 121 students are on Junior High honor roll, 44 making all A's

**Drama Club program tremendous success**  
By Danny Jones and Janene Haynie

The P.T.A. program that the Drama Club presented last week was a tremendous success. The theme of this program was in the line of politics. To carry out this theme a straw vote was held with Kennedy receiving 22 votes, and Nixon 41 votes. Everyone enjoyed this program very much.

Janene Haynie, Chris Cornish, Patsy Thompson, Denise Eubank, and Glenda Hutto were in the political debate and Sharon Isaacs, Billie Lou Hill, Carolyn Martin, and Danny Jones were in the play, "Poll-Itis".

This same program will be presented to the Rotary Club Nov. 1.

## Registration begins for NMS tests here

All 1962 graduates of Post High School who wish to enter the 1961-62 National Merit Scholarship competition should register now at the school office. T. C. Clark, principal, announced today. The National Merit Scholarship Qualifying Test will be given at 9 a. m. Tuesday, March 7, 1961 (or Saturday, March 11, 1961).

To be eligible for the test, Post students must be second-semester juniors or first-semester seniors at the time of the examination. Students must pay a \$1 fee on the day of the test. Any interested student who is unable to pay the fee should consult Mr. Clark.

The tests are given each year by the National Merit Scholarship Corp. as part of the nation's largest independent scholarship program. Awards are granted on the basis of intellectual merit, but the size of individual stipends are renewable each year until further testing.

The NMS exam administered by the Science Research Associates of Chicago, also is valuable in helping students select their courses in high school and college. Mr. Clark said.

After the test, each participating student will receive an information folder that reports individual test results for comparison with other high school students across the country. Thus, Mr. Clark said, students may learn their educational strengths and weaknesses—whether or not they plan to attend college.

In addition to the NMS program established in 1955 by the Ford Foundation and the Carnegie Corporation of New York, about 15 industrial corporations, foundations and individuals give scholarships through NMS. A considerable number of other scholarship agencies utilize the services of NMS in awarding their scholarships.

**Choir begins to sing like choir**  
By Carolyn Moore  
After six weeks of hard work the choir is beginning to really sing. It always takes several weeks for the choir to learn to harmonize their voices properly so that the five sections sound as one.

For the first few weeks it seemed as if the mezzos were hardly singing, and the altos and basses drowned out the sopranos. But this week we have something to start bragging about. Now the sound you hear is a nice choir blend. And you can bet we're real proud of it.

**30 driver students pass written tests**  
Thirty driver training students have completed their required six weeks of classroom instruction and have passed their written tests at the courthouse.

They have started their driving in the dual-controlled Ford car, which was presented to the school by Tom Power Ford, Inc.

The remaining students who have not obtained their restricted licenses are studying to take their tests within the next two weeks.

## Lunchroom menus

Menus for the Post schools lunchroom for the week of Oct. 31 through Nov. 4 are as follows:

Monday: Barbecue wieners, creamed potatoes, pineapple, cabbage cole slaw, corn bread muffins, one-half pint milk, fruit.

Tuesday: Meat loaf, buttered English peas, tossed green salad, bread, one-half pint milk, iced graham crackers.

Wednesday: Cheese and macaroni, buttered corn, carrot strips, peanut butter and cracker sandwiches, hot rolls, butter, fruit jelly, one-half pint milk.

Thursday: Hot dog with chili, blackeye peas, buttered rice, cheese sticks, one-half pint milk, pudding.

Friday: Corn dogs, potato salad, cabbage-health salad, bread, cake squares.

## Credit requirements for library students

The library students who are working for a half-credit for their help have had their duties listed for them. They are library house-keeping, circulation, mechanical preparation of materials, mending library publications, caring for periodicals and newspapers, publicity work, clerical duties, and reference duties. Most of the jobs require special training from the head librarian.

This library work not only helps the librarian to earn a half credit, but gives a good background for work in public and college libraries, which could be useful in later life.

## MIDLAND VISITORS

Mr. and Mrs. Charles Chandler and daughter of Midland visited with relatives over the weekend. Mrs. Chandler returned to Midland Sunday, where she will resume work.

## Principal of Junior High School is 'Teacher Personality of Week'

Glenn Whittenberg, our Junior High principal, was born July 29 in Hill County, Texas. He only lived there about a year and since has lived in Olney, Decatur and Wichita County, where he started teaching.

Mr. Whittenberg majored in Industrial Education at North Texas State College.

He served 39 months in the U. S. Coast Guard during World War II. After nine years in Howard County as a teacher and principal, Mr. Whittenberg moved to Post in 1955.

He now lives at 1110 Osage Avenue with his wife, Elsie May, and their daughter, Glenda Sue, 18, when she is home from college.

Mr. Whittenberg's favorites are: Car, Oldsmobile; color, brown; actor, Gregory Peck; actress, Linda Darnell; food, steak; flower, rose; animal, dog; movie, "Ben Hur"; vacation spot, mountains.

When Mr. Whittenberg gets home from school after spending all day with his lovable kids, he likes best to take off his shoes, put on his slippers, light his pipe and relax.

## Good reasons given for staying healthy

No need being a mental giant—there's such a simple answer to this question. Because it's so much more fun than not being healthy. Good health is the basis of an enthusiastic outlook on life, for being alert and full of pep for school, and for fun with friends.

Far from being stuffy, this attitude toward your health just prepares you for a more successful future. Develop this sensible three-way combination of proper rest, exercise and sound eating habits.

## Junior High-Lites

**By Marcia Newby**

Beverly Avant while going from band to P. E. had a moment in the mud. She was in a hurry to get to P. E. and in her rush didn't watch where she was stepping. She bogged down in the mud knee deep. Carolyn Lacy came to her rescue. She gave a helping hand and saved Beverly from sinking clear up to her neck. Beverly lost one shoe in the mud but it was recovered. She didn't make it to P. E. but at least she's still with us. I know Beverly is really indebted to Carolyn Lacy.

A boy in music today griped about having to walk to school in the rain. When Mr. Wilson asked us how many had to walk to school more than half of us did. Anyway I think it's kinda fun to "swim" to school. I think you're all still with us. Better luck next time!

In P. E. we played a new game. It goes like this: There are two sides with the same number of girls on each side. There are two ways to win the game. You can either pull all the girls on the other side over the line and put them in jail or get the two balls in the center of their part of the court and in the center of your part of the court with your two balls. (Complicated eh? There is a line that divides the court in half. If you go across the line and get tagged, you have to go to jail. But if you go across the line and don't get tagged while trying to free one of your girls or trying to get one of their balls from jail you and the girl you freed get a free walk across the line. Altogether it's a big tug-of-war. When our time ran out today we were about even.

Well everyone sure was glad that tests were over. Now the report cards—ugh! Good luck, kids!

Everyone enjoyed Barbara Hahn's refreshments of Cokes and doughnuts at the meeting Friday. Those who attended the meeting were: Mrs. Baxter, Meredith and Marcia Newby, Ann Ussery, Carol Camp, Terry Power, Sharla Pierce, Susan Cornish and Linda Hays. They discussed their assignments.

In the beginners' band they have gained four new kids. Now there are two flutes, three clarinets, one oboe, two saxophones, one cornet, one drum, and one bass horn.

A new post office building, to cost an estimated \$150,000, has been authorized for Levelland under the Post Office Department's commercial leasing program.

## WTSC Homecoming scheduled Nov. 5; Buffs play Trinity

CANYON—Homecoming at West Texas State College Nov. 5 will follow the pattern last year, when a return was made to the highly successful features of past years, according to Dr. Jack Walker, chairman of the event's steering committee.

Top events of the past which have found a place on the Homecoming agenda, designed to welcome the college's thousands of ex-students, includes a parade, barbecue, football game, club reunions, a 25th anniversary class reunion, and a dance to climax the affair.

West Texas State students will again set the mood for homecoming with observance of Western Week, conducted on the two days prior to Nov. 5. WT's traditional Homecoming Assembly is scheduled Nov. 3 at 11 a. m.

A business meeting of ex-students has been planned following the football game between WT and Trinity University, at 4:30 p. m. in the cafeteria. Election of new Ex-Students Association officers will be the main business.

Regular Homecoming events start at 11 a. m. with the customary parade, in which area high school bands, riding clubs, and college and city floats, 20 bands, and half a dozen riding clubs.

## Two prices wrong in store ad last week

Two meat prices were incorrectly "switched" last week in Piggy Wiggly's Dispatch advertisement. The sausage, 12 ounce package, advertised for 59 cents should have been 39 cents, and the Hormel's Dairy Brand sliced bacon should have been 59 cents per pound instead of the 39 cents as it appeared in the ad.

## SLATON VISITORS

Mr. and Mrs. Walter Didway of Slaton spent the weekend in Post visiting their parents, Mr. and Mrs. W. C. Graves and Mr. and Mrs. Charles Didway.

## Lynda Redman scores high on national test

Lynda Kay Redman of Canyon, granddaughter of Mrs. Lula Floyd of Post, has been notified that she scored in the top 3 per cent on a National Merit Scholarship test taken last year. A letter of recommendation was presented to Miss Redman during an assembly at Canyon High School, where she is a senior student. She is to present the letter to officials of her chosen college when she applies for a scholarship.

Lynda Kay plans to enroll in West Texas State College next fall. She is the daughter of Mr. and Mrs. O. B. Redman.

**By VERN SANFORD**

When we look at some of the TV westerns we get the idea that most of our grandfathers were gun slingers.

However, today there are perhaps more gun slingers than there were in the Eighties. And the guns are faster.

Gunning is a fad now. Every town has one or more persons who stands for hours practicing the quick draw and twirling a revolver.

It has meant lots of business for the arms manufacturers, too. Colt, High Standard, Ruger, Western and some others, all have come out with frontier models especially adapted to the quick draw trade.

There are numerous quick draw clubs scattered over the country. San Antonio has a big one. It is composed primarily of business men who practice before an electric timer.

But that isn't the unusual thing. Their wives have formed a similar organization.

San Antonio now has a bunch of quick draw girls who can pull a single action from its holster and fan off a shot in about 130th of a second. That's fast work.

They shoot twice a month in the basement of the Tiner Sporting Goods Store, at a cutout known as Pistol Pete.

**WORKING GIRLS, TOO**

Some are working girls. Others are housewives and mothers. All of them are as serious about their shooting as the men, if not more so.

Sure, there have been accidents. Some of these fast draw people have been careless. Accidents are decreasing, however, because most of the fans are using more care.

Generally the practice shooting is done with .22 ammunition. Many of the guns now on the market are for .22 caliber. These include all the top brands.

There are many conversions. You can get inserts for the cylinder or a new cylinder for the .22 caliber to be used with the .38 special or the .45. These, however, are only good where you practice the quick draw and want to hear the reports. If you actually shoot at a mark, you need a barrel of the proper caliber.

Most of the quick draw work is done with the tied-down buscadero-type belt.

Philip Y. Hahn, president of the Crosman Arms Co. has produced a gas-operated single action revolver, especially for the quick-draw enthusiasts. This CO2 pistol is made exactly like the old .45 single action. In fact, it is so good it is being used on some of the TV westerns.

**THEY FOOL YOU**

If you are watching one of these pictures and you see a cowboy knock off 18 Indians in a row with a six gun, chances are it will be one of the Hahn BB guns. They fire 18 shots with BB pellets.

Hahn also did another piece of clever merchandising. He made a buscadero quick draw scabbard and belt to accompany the gun.

Now you can buy a fast draw combination at your favorite gun store without being in violation of the law. And it is a precision gun, plenty good for target practice.

If you've never tried BB or pellet gun shooting, you've missed something. In the first place it is a great deal more economical than shooting a firearm. The guns themselves are precision made.

You can get them in various types. Some are the pump-ups, others are lever action, and still others are gas powered.

They are wonderful for target practice and basement shooting. I like to shoot tin cans with them. Frequently I'll take a spree at saving small cans until I get a box full. I punch a hole in the end of these cans, then run a wire through the hole and suspend them from a tree limb—where there is a hill for a backstop. Then I back off 30 or 40 feet and start to work on the cans.

**TAKES PRACTICE**

It is more interesting if the wind is blowing. Then the cans begin to swing and they are harder to hit. With a little practice you can hit them almost every shot. The real fun is to start one swinging and then plink it with one of these BB guns.

Gas powered guns, like the Crosman, are real effective. Once in awhile they'll cut small limbs off the trees. When they hit a can at a side glance they sound like a .22 bullet on a flat surface.

Don't underestimate the power of these guns, however, and be careful where you shoot them. They are excellent to take on camping trips. The gas powered gun is ample for killing small game animals and birds. They also are excellent for popping snakes.

Keep in mind though, that you are not to shoot song birds or game birds out of season. This is rather costly. Game wardens frown on it. Judges assess fines. It's a lot better to stick to tin cans.

And it's real fun, too!

# The 'Texas Issue' Oil Depletion Tax Allowance

Oil depletion tax allowances are regarded as essential by the oil and gas industry because of the high risk involved in exploration. Of the 10,125 wildcat or exploratory wells drilled in the United States last year only 1,150 found oil and 275 found gas. The remaining 8,700 were dry.

Without oil depletion tax allowances exploration would be drastically cut, essential oil taxes would be materially reduced, and even the cost of gasoline to the car owner would probably rise.

RICHARD NIXON

# Nixon Favors Depletion Allowance For Oil At Present 27½% Rate

Vice President Nixon in this campaign has endorsed the full 27½ per cent allowance as fair to all and as an incentive to the oil industry for essential exploration. His party's platform pledges "continued support of federal assistance and incentives under our tax laws to encourage exploration for domestic resources of minerals and metals, with reasonable depletion allowances."

# Kennedy Has Ducked This Issue But His Evasive Words Are Real Threat

Kennedy, on the other hand, has called for an overall study of depletion tax allowances to determine if inequities exist. His party's platform is even more specific on the subject, declaring: "We shall close the loopholes in the tax laws by which certain privileged groups legally escape their fair share of taxation. Among the more conspicuous loopholes are depletion allowances which are inequitable..."

*Remember — 7:30 PM  
Kickoff*

Now we get down to the ball games that count—Tahoka and Slaton, the two neighboring rivals. The first one is at Tahoka tomorrow night against a Bulldog team smartly from last year's defeat here. It's a game Coach Alexander's club has been looking forward to as well, so it ought to be a slam-banger. Remember that kickoff time for district games has been advanced to 7:30 p. m., so leave early enough to be in your seat for the kickoff. Because every play in this one can produce some real excitement.

# Ehlenburger discovery made in south Garza

American Crude Oil completed the No. 1-64 Ehlenburger discovery well in the Gordon (Strawn) field of south Garza County, eight miles west of Justiceburg. The well is completed flowing for a potential of 212.02 barrels gravity oil and no water through a 12-44 inch choke. Production was through Ehlenburger from 8,157-70 barrels per day. The well is acidizing with 250 gallons of 15% hydrofluoric acid. The ratio was 975-1. Tubing was measured at 800 feet.

The well is a south offset to the discovery well and was completed earlier than the Strawn well. It has a potential of 212.02 barrels of 29.6 gravity oil through a 12-44 inch choke and per- centage of 975-1. Tubing was measured at 800

## Democratic no obligation in general election

— Voting in the Democratic primary does not obligate a voter morally to the Democratic presidential candidate in the general election, Price Daniel said today. He made the statement on the primary ballot only to nominees selected for the primary for state, district and local offices. Daniel said in an interview with a Dallas News correspondent. He was asked for his views on the matter after a statement by him was issued by the Democratic Executive Committee. The statement said that more than 1,500,000 Texans themselves with the Democratic party this year. It is the responsibility of all affiliates to carry their great weight into the general election of the party nominees. Daniel implied that participation in the Democratic primary does not obligate a voter for that presidential and vice presidential nominees in the general

## are you a 6-day parent?

That bright little face seems to appear about two inches from your own almost as soon as your head touches the pillow... It's the Sabbath, and it's time to get up... or it should be.

There's something to be done for your child on this special day of every week. Will you stir yourself to do it? Or put it off until next week?

Regular weekly worship, begun early and fostered with conviction and understanding, may be the most important single contribution you can make to your child's growing-up. As children grow, they will need every bit of strength they can find. Strength comes from Faith. Faith grows through worship. **WORSHIP TOGETHER THIS WEEK**
