Record vote seen in election here

With Garza County's list of eligible voters estimated at approximately 2,300, a record-breaking vote for the county is expected to be cast in next Tuesday's General Election. County Tax Assessor-Collector T. H. Tipton said a record number of 1,932 poll taxes were paid for 1960. With the "overs" and "unders"—those over the poll tax paying age and those getting a free first vote day's election. One, announced last week, is in Precinct 9—Two Draw—where voters will cast their ballots at the Shell Oil Company office on U. S. Highway 386 instead of at the Lincoln Elementary School. The other change is in Precinct 8 where voting will be in the library at the elementary school instead of at the library in the old high school building. Considering the number of voters registered, the percentage would not have to be unusually high for this year's number of ballot-casters to set a new record in Garza County. The previous high was in 1952 when a total of 1,566 votes were cast for President with Stevenson, the Democratic candidate, receiving 800, and Eisenhower, the Republican standard bearer, 768. Four years ago, in 1956, the total number of votes cast in the Presidential election was 1,415. Of this number, Stevenson received 786, Eisenhower 628, and the Constitution Party candidate one. Outside of the Presidential race, there is little interest on the part of voters to see a new record in (See RECORD VOTE, page 8)

Elections Returns

County Judge J. E. Parker said today that returns from next Tuesday's election will be posted at the courthouse Tuesday night as they come in. Judge Parker said present plans are to locate the board at a spot where the lights won't reflect on it, making reading the figures difficult, as was the case in the election two years ago.

On local option liquor elections

Abstract voting, which closes at midnight Friday, totaled 13 votes cast in person at the county clerk's office up to 4 p. m. yesterday and 40 requests for mail ballots. A "blanket-sized" ballot will be presented Garza County voters when they go to the polls Tuesday. Besides the Democratic and Republican party columns on the ballot, there are columns for the Constitution, Prohibition and Independent parties and a column for write-in votes. There are two changes in Garza County voting places for Tues-

Court's ruling favors 'wets'

The Texas Supreme Court ruled yesterday that it has no jurisdiction in disputes over whether one precinct of a county may be wet while the other precincts are dry.

The ruling came in the Castro County case, which had been appealed from the Court of Civil Appeals at Amarillo. The Castro County case was generally considered a test case for subsequent elections in Garza County and elsewhere over the state, in which similar suits had been filed. The suit filed by Garza County "drys" contesting the election here last April in which Commissioners' Precinct 3 voted wet was dismissed by District Judge Truett Smith last September, but was appealed to the Court of Civil Appeals. Post Attorney Pat N. Walker, one of the lawyers for the defense in the suit filed here, said yesterday that the Supreme Court ruling settled "forever" the constitutional question of whether or not a precinct or other subdivision of a county could legally vote on local option. "The only question left in the Garza County case," Walker said, "is the election irregularities alleged by the plaintiffs."

Open dry weather is aiding crop harvest

Open drying weather the past week has overcome saturation of the topsoil by heavy rains and Garza County's cotton harvest yesterday was proceeding "on schedule."

Ginning totals through Tuesday at the county's six gins were 3,944 bales, an increase of 1,624 bales over last week's ginnings. Night crews have been put on at most of the gins, with 24-hour working schedules generally reported. County Agent Lewis C. Herron said yesterday that while cotton grades are "down a little" from the heavy October rains, the depreciation is not as much as anticipated.

The agent said rangelands are "looking good" and stock water is plentiful following the October downpours. Some of the late-planted grain sorghum, he said, is "lodging", that is, falling off onto the ground. The October rains, which the agent said totaled 6.33 inches on the rain gauge at the courthouse, are second only to the July precipitation, which measured 6.43 inches here. In some sections of the county, however, the October rains were the year's heaviest. The October total brought the 1960 rainfall figure through the first 10 months to 22.23 inches, which is 1.90 inches above normal for the entire year. The rainfall by months has been as follows: January, 1.08; February, .59; March, 1.69; April, 1.34; May, 3.89; June, 1.18; July, 6.43; August, .22; September, .99; October, 6.33. The Graham Co-op Gin reported Tuesday that 800 bales had been ginned, with working hours continuing until 3 a. m. some nights. The Close City Co-op Gin had turned out 465 bales and is running around the clock. At the Storle Gin, west of Post, 419 bales had been ginned, with a 12-hour working schedule still being followed. The Basinger Gin at Southland had turned out 945 bales and was running 24 hours a day. The Pleasant Valley Gin, also running 24 hours a day, reported 774 bales ginned. The county agent said many of the farmers already are machine harvesting their cotton.

Homecoming, stated Friday, is to be big event

Post High School's annual homecoming, beginning with an open house at the new high school building and continuing through a get-together following the Post-Slaton football game, will be held Friday, Nov. 3. T. Smith, superintendent of Post schools, said today that schools will be dismissed at 11 o'clock Friday afternoon for the homecoming celebration, which is sponsored by the Post Students' Association. An open house at the new high school building will get under way at 4 p. m., with registration being held at the same time and at the same place. A banquet is scheduled for 7 o'clock in the old gymnasium, which exes and students will attend. Following the banquet is Slaton football game, with the halftime set for 7:30. Exes' homecoming queen will be crowned at the banquet and the high school's football queen will be crowned preceding the game. The traditional "Homecoming" parade and Slaton Tiger football game will be held at 8 p. m.

Postings

By JIM CORNISH

Garza County voters are going to be the best informed in Texas next Tuesday when they go to the polls in the general election—at least that is The Dispatch's intention.

You'll find an extra "Color page" in this edition of The Dispatch—page number 17, all by itself—on which The Dispatch as a public service and at its own expense—has printed a sample Garza County ballot similar to the ones voters will be asked to make their choices upon come Tuesday.

Upon it are listed all the candidates and the offices they seek and all the parties, exactly as the official ballot will present them Tuesday. At the bottom you will note the four constitutional amendments Texas voters will decide upon as well. We think the voting public should have the chance to look over the ballot and study it if the voters choose. Hence sample ballots today are going into over 90 per cent of all the homes in Garza County—via The Dispatch.

One ad made us particularly happy. It proves, at least to us, that Dispatch editorials are being read—and are, at least to some degree, thought provoking.

We believe people should stand for what they believe, that is what the American freedom of choice on election day is all about. So we are particularly proud that two young Post businessmen thought enough of the presidential campaign to spend some of their own money on advertising.

Lubbock salesman rewards finders 'Loaded' billfold returned to owner by 3 schoolgirls

It isn't often that a man loses a billfold containing \$785 in cash and checks and gets it returned to him without loss—but that's what happened right here in Post last weekend.

Three girls en route home from school—Linda Gayle and Anna Lucille Byrd, 13 and 10 year old daughters of Mr. and Mrs. S. G. Byrd of 491 North Avenue H, and Brenda Mason, 13, found the billfold under a small tree at the curb two blocks from the Byrd home Friday afternoon.

Inside they found \$241 in cash and \$344 in checks.

When the trio got to the Byrd home and told Mr. Byrd, a Post Cotton Mill employe, of their discovery, he telephoned Sheriff Carl Rains.

One of the Byrd girls told of finding the billfold a short while later at the Parrish Grocery & Market. Proprietor Arnold Parrish knew who the billfold's owner was. He was Johnny Souseley, a Lubbock salesman who regularly calls on Parrish with a wholesale grocery line. Souseley had lost the billfold Wednesday and didn't note its loss until he had left Post and arrived in Tahoka, from where he had telephoned Parrish about it.

Apparently the billfold with the money had been in the parking area where it was found for 48 hours.

Souseley, overjoyed with the report of the billfold's finding with the money intact, gave the three girls \$30 reward money to be divided among them.

How did Souseley lose the billfold in such an unlikely spot? He remembers driving down the street where the billfold was found that Wednesday afternoon. The door on the driver's side of the car was not closed tightly and he opened the door and slammed it without stopping the car.

Probably the billfold fell from his pocket when the door opened and bounced into the street and up into the parking area.

Post's Halloween Monday night went down as "the quietest in memory" as far as Sheriff Carl Rains was concerned, but it did produce two Halloween fires and one accident in which two young "trick or treaters" were only bruised.

One of the fires was the traditional "outhouse burning" as usual on West Main Street. It's an annual custom here among the younger set.

The other one wasn't quite as spectacular as its originators had anticipated.

An old tire was doused with gasoline and then set afire on North Avenue K near Main Street. According to Rains, the pranksters probably intended to have the flaming tire roll down the street, but it fell over and didn't roll blazing very far.

The sheriff had a suggestion for the annual Halloween fires and other small fires of such nature. He proposed that sheriff and city police cars be equipped with suitable fire extinguishers which would enable officers to extinguish small fires without the necessity of calling out the Post fire department.

The accident to the trick and treaters occurred about 8 p. m. in front of the home of Mr. and Mrs. Bob Poole, 508 South Avenue H.

Vickey Williams, 8, and Mark Osborn, 4, were bruised when hit by a car driven by Marvin Odom.

According to Sheriff Rains the two youngsters stepped out from behind a parked car into the path of Odom's vehicle. Odom applied his brakes and skidded for 45 feet, according to Poole's measurement, before the point of contact. Poole said he figured the car was almost stopped when the children were hit.

Odom was carefully watching another group of "trick or treaters" crossing the street near his car when the accident occurred. X-rays at the hospital revealed no broken bones.

Vickey is the daughter of Mr. and Mrs. Marvin Williams and Mark is the son of Mr. and Mrs. Don Osborn.

Two elections on liquor Saturday

Residents of Garza County and other area counties will be following with interest Saturday the result of local option elections at Slaton and Dickens.

Voters at both places will ballot on the legalization of the sale of alcoholic beverages for off-premises consumption.

Both places last year remained "dry" by voting down similar proposals, with the vote close in each instance.

The vote will be city-wide at both Slaton and Dickens.

'Trick or Treat' Nets \$200 for CROP

A total of \$200.05 was raised for CROP here Monday night by young people "trick or treating" on behalf of the Post Christian Youth Council.

Some 48 boys and girls and six adults participated in the "trick or treat" canvass and after the two-hour residential solicitation enjoyed a party and refreshments at the First Methodist Church.

CROP is the Christian Rural Overseas Program. The money will go to help fight the battle of hunger around the world. The local drive was a part of a nationwide campaign by church young people.

There was a little more besides the cash donated.

One woman said she didn't have any money and donated a can of green beans and a can of hominy.

Big Gifts' phase Chest fund drive kicked off here

The "big gifts" committee of Garza County Community Chest yesterday kicked off the drive with \$1,572 in 1961 funds today, ten days in advance of the general drive set for Nov. 13-19.

Under the chairmanship of Irby Slaton Jr., the committee met at the First National Bank yesterday afternoon to receive pledges for contacts of those giving more to the Chest.

Members of the committee include E. R. (Buster) Moreland, Minor, Powell Shytles, Dr. J. Matthews, Jim Cornish, J. Williams, S. E. Camp, J. Duckworth, J. B. Potts and W. E. Duncan.

M. Acker, general drive chairman, told the "big gifts" committee that with the goal up approximately 10 per cent from the goal of \$12,500, "extra effort" is needed on everyone's part.

Drive divisions, including Post, Mill employes, oil employes, downtown employes, school, rural, will kickoff Monday, Nov. 13.

Post boy takes drive of Ranch

Five-year-old Post boy accepted a drive of his ranch last week ago at Cal Farley's Ranch, near Amarillo, has "French leave," County J. E. Parker has been inducted by Boys Ranch officials.

Parker said he was told the boy was given leave to go to Amarillo Saturday afternoon and that he apparently kept going.

The boy was the leader of a trio of boys who broke into Greenlee hardware and into other places.

Other celebration plans later Chamber plans big July 4th barbecue

The Post Chamber of Commerce will sponsor a Fourth of July celebration here next year which will include a big barbecue for everyone.

Chamber directors at their November session yesterday afternoon in the Chamber office voted to sponsor the barbecue and celebration.

Chamber Manager Johnny Hopkins said other details, such as a fireworks display and other events, are yet to be worked out.

The directors' idea is to combine all the local barbecues into one big single event. They picked the Fourth of July because it has lacked any local observance for several years and comes at a good time seasonally for such an event.

In another important Chamber action, directors voted to return in 1961 to a Chamber-sponsored cash award for the first bale of Garza County cotton.

The Chamber will give a \$50 first bale prize with the Post Cotton Mills announcing it will then purchase the first bale and make it into sheets, as it is doing for the first time this year.

In a third action, directors voted Chamber-sponsored holidays for Monday, Dec. 26, for Christmas, and Monday, Jan. 2 for New Year's. Both Christmas and New Year's holidays this year will fall on a Sunday for the next day will be the day of holiday observance with local store closings.

POST SCOUT NOW AN EAGLE

Gary Simpson of Boy Scout Troop 16, shown here with his father, Paul Simpson (left), and Scoutmaster Bob West, received Scouting's highest award, the Eagle Scout badge, Sunday at the South Plains Council's Eagle Court of Honor in Lubbock. Scoutmaster West pinned on Gary's Eagle badge, and Simpson presented his son's certificates.

Post, Garza County directory scheduled

Enumeration is slated to get under way in Post next week on the compilation of a Post and Garza County directory being compiled by the Johnson Publishing Co., Lubbock.

R. B. (Dick) Goldreyer, representative of the publishing company, said here this week that the directory compilation will include a complete canvass of all homes and business places.

The new directory will be the first one for Post since 1955 when the Lions Club issued a city directory.

On Thursday last, as the mail rider on the Brenham and Richmond route, was coming up from San Felipe to Bellville, very early in the morning, he got down to take a nap, and left the horse with the mail bag on him to graze. On awakening, the horse and mail were gone. A German found them and hitched the horse to a tree. Another of our citizens afterwards found the mail rider, searching for his horse and mail, and told him where he could find them. It affords us pleasure to state that the mail was perfectly safe, and came through earlier than is usual.

VALLEY OF THE RIO GRANDE

The last Brownsville Flag contains a summary statement of the conditions of affairs on the Rio Grande, from which we extract the following:

Webb County has raised no corn this season. Laredo, its county seat, contains a population of 1400 souls. There are at present in the town about 70 vacant houses.

Encinal is situated off the Rio Grande adjoining Zapata. Webb. It raises no corn, plants nothing.

It has a population of 83 souls engaged in taking care of sheep and cattle, owned by parties on the Rio Grande, and catching mustangs.

Cameron: Brownsville, the county seat, has a population 3300, and is the heaviest importing city in the State. Its nearest seaport is Brazos Santiago, about 25 miles distant, but most of its trade is carried on by means of the Rio Grande. Fort Brown at this place is at present occupied by three companies of cavalry encamped about twelve miles from the city, on or near the celebrated battle ground of Palo Alto, under command of Captain Stoneman.

Acreage allotments on cotton receive boost

COLLEGE STATION — A national marketing quota of 15,562,000 bales and a national acreage allotment of 18,398,424 acres have been proclaimed by Secretary of Agriculture Ezra T. Benson for the 1961 crop of upland cotton. Both are increases over those for 1960.

The Secretary also set Dec. 13 as the date for the referendum on 1961 upland cotton marketing quotas. A two-thirds favorable vote will be required to keep marketing quotas in effect for another year.

Secretary Benson said, "It is significant that it is not only possible to increase cotton acreage for 1961, but that it is essential to do so in order to maintain a desirable supply situation. We are moving in the right direction when our farmers have more freedom to plant."

The United States is currently seeking to maintain and improve the position of cotton both at home and elsewhere in the face of rising competition from synthetic fibers and foreign-grown cotton. In order

to producers prior to the Dec. 13 referendum. The exact level will be determined at a later date.

If producers approve marketing quotas for the 1961 crop in the referendum, price support will be available to those who comply with their farm allotment at a level within the range of 70 to 90 per cent of parity, as provided by law.

What is good fortune?

Many years ago, a new magazine was about to be started and the owner held a contest for a name. The winner received \$20,000, a tremendous amount back in those days. The prize went to an unskilled laborer. His picture appeared in the papers along with an interview in which he told how much happiness this would mean to him and his family.

He gave up his job, moved from the tenement into an apartment house, bought a fine car, outfitted the family with stylish clothes—and, two years later, all the money was gone, he was in debt, without a job and he and his wife had broken up.

There is an atmosphere about Mineral Wells that is different from any place else in Texas. I feel relaxed as soon as I get there. It's certainly fine for soothing tired nerves and easing tension.

First time I ever visited Mineral Wells, I stepped up to the long "bar" in the original Crazy Hotel and asked for a chocolate ice cream soda. The dispenser, as gently as possible, told me that

the only beverages served there were Nos. 1, 2, 3 and 4 mineral water.

Sir James Barrie was the author of such novels as "The Little Minister" and such plays as "Peter Pan"—but when his first play was going to be produced, he was so nervous that he could not attend. He seated himself on a bench in a nearby park but, before the end of the first act, he went to a florist's shop, and bought a basket of red roses which he sent to the dressing-room of the leading lady with his card on which he had written, "Just do as well in the rest of the play as you did in the first act."

The fact of the matter was, the actress was young; this was her first leading role and she had been so nervous that she had not performed at all well.

But when she received this message from the play's author (whom she supposed had been in the audience), she was so encouraged that, in the second act, she was superb.

When the final curtain fell, the play was a hit and a new star of the stage had been born—all because a man expressed a few words of praise!

Enrollment in the Olney public schools at the end of the first six-weeks totaled 969.

KEEP THE VOICE OF TEXAS STRONG

Texas' dominant position in the Democratic Party has been a major factor in the amazing growth and prosperity of our State during the past 50 years.

Count our blessings that have come because TEXANS were in the RIGHT party at the RIGHT time.

Count the jobs... educational opportunities... military installations... defense projects... water and soil projects... rural electricity and telephone systems. Count our ultimate potentials for development.

Now the Democratic Party has selected a TEXAN for one of the two top offices our Nation has to offer. As Vice President, Lyndon B. Johnson will be in a position to render the greatest service any Texan has ever been able to give his State, his Party, his Nation.

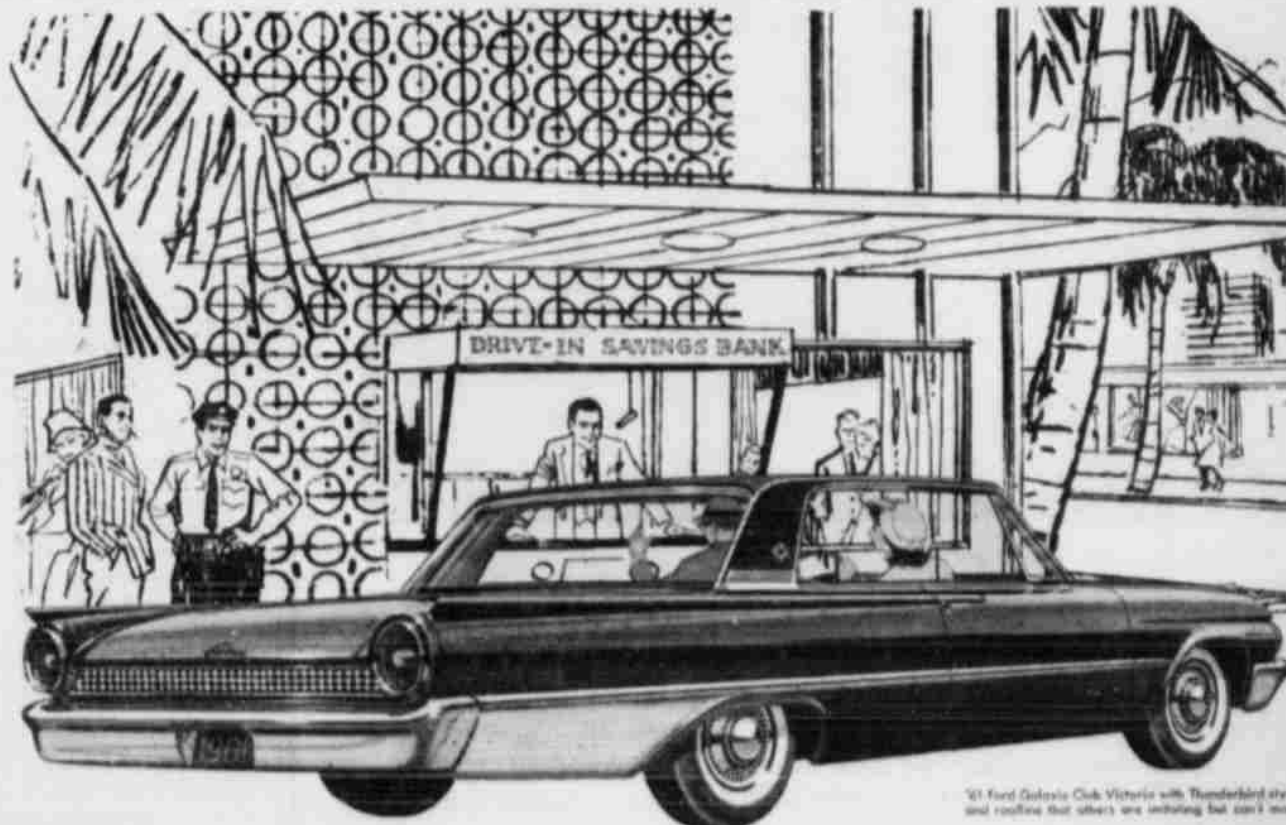

Our Nation needs the dynamic leadership of John F. Kennedy and Lyndon B. Johnson. And Texas needs to be counted in the Democratic column November 8 to keep its voice STRONG in the party that has honored its sons and nurtured its growth. The one '61 car built to back up a long-term warranty

Ford led the way with the one car beautifully built to take care of itself... and you.

On September 29, Ford Dealers set an industry trend—were first to extend their 1961 car warranty from the conventional 4,000 miles or 3 months to 12,000 miles or one full year, whichever comes first.

Why? Because Ford built the one car to support such confidence. Ford for 1961 is the one car beautifully built to take care of itself!

The '61 Ford was designed and built to the more exacting standards necessary to offer an extended warranty. Ask to see this warranty at your dealer.

It is significant that Ford has so many take-care-of-itself features not found in other cars, regardless of price. These new Ford features are a triumph of exhaustive research, fine engineering, and quality construction that give you the most reliable Ford ever built. Drive a '61 Ford now.

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF

Lubricates itself—You'll normally go 30,000 miles between chassis lubrications. Then a quick, inexpensive Ford Dealer lube job (which costs about \$1.00) will get you set for another 30,000 miles.

Cleans its own oil—You'll go 4,000 miles between oil changes with Ford's Full-Flow oil filter.

Adjusts its own brakes—New Truck Size brakes adjust themselves automatically the life of the lining.

Guards its own muffler—Ford mufflers are double-wrapped and aluminum—normally will last three times as long as ordinary mufflers.

Protects its own body—All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.

Takes care of its own finish—New Diamond Luster Finish never needs wax.

*Based on 18 months' service of today's national average labor costs.

About Your HEALTH
A monthly public service feature from the Texas State Department of Health. HENRY A. WELLS, D. C., Commissioner of Health.

Cleaner Air Week began Sunday. The observance will last through Oct. 29.
"Cleaner Air Week?" First we need to answer another question: "What is air pollution?" A confused admixture of contaminants from an infinite variety of sources combine to make up the complete pattern of polluted air. To understand the whole, we must first understand the separate parts.
And — for engineers and industrial hygienists — this is fairly easy. They recognize four basic atmospheric factors which cause conditions ranging from mild unpleasantness to actual physical danger to people, animals and crops.

The Nixon-Lodge team is dramatically suited to the major challenge of our times, in which Communism must be mastered if we are to continue to maintain and strengthen peace in the world, and a bountiful, expanding prosperity at home.

More than any other two men, Nixon and Lodge understand the nature of communism and what steps must be taken to control it and defeat it.

From Khrushchev to Vishinsky, the leaders of communism already have met more than their match in Nixon and Lodge. The Nixon-Lodge team will need no "on the job" training after election. There will be no period of danger when inexperienced hands could fumble into a costly mistake for the cause of freedom. The deep experience behind the Nixon-Lodge team guarantees to the American people that Richard M. Nixon and Henry Cabot Lodge, building on the magnificent record of the Eisenhower years since 1953, will provide peace without appeasement, strength without apology, prosperity without inflation.

Q. I have a total disability income rider on my GI insurance policy which would pay me \$5 a month for every \$1,000 of my coverage. I understand the amount which can be paid for total disability has now been increased. Please give me some details.

A. Recent legislation increased to \$10-a-month-per-\$1,000 of insurance the amounts which may be paid disabled veterans whose policies carry a total disability income rider. The added cost for this added protection is small. Any VA office will tell you how much the additional premium would be in your case.

Q. I'm going to need an operation for a nonservice-connected condition and expect to be admitted to a VA hospital soon. Meanwhile, there must be X-ray and other examinations before my operation. Can they be taken care of before I go into the hospital, in order to shorten my hospital stay?

A. They can now, by a law which has just been passed. Nonservice-connected cases formerly ineligible for this benefit may now be given necessary clinical examinations before they enter a VA hospital, as well as clinical care after it is no longer necessary for them to occupy a hospital bed.

Q. I was in training in June, 1960, taking vocational rehabilitation for World War Two service-connected disability, when the deadline for completing my training was extended, by law. I am very grateful for this and wonder if the new law affects other World War Two veterans who may never have started training.

A. Yes. The new law also gave World War Two veterans, whose service-connected disability was so severe as to keep them from rehabilitation within the time period previously available to them, the right to enter on or complete training any time up to July 25, 1965.

Q. Are guide dogs provided without charge by VA for eligible blind veterans?

A. Yes, they are. Blind veterans entitled to compensation for a service-connected disability can get a dog guide and all necessary training, through VA. VA also pays any necessary medical expense connected with the dog's care.

Mass grave holds massacre victims

LEANDER—The terrible story of the Webster Massacre is now written in stone above its victims, in a cemetery at Leander, in Williamson County, north of Austin.

In 1839 the Comanche Indians attacked John Webster and his party of about thirty settlers. They were trapped by the Indians in an open prairie after attempting to escape under darkness.

Mrs. Webster and her two children were imprisoned, but all the others were killed.

The victims were buried in one box, about the size of a wagon body. Their remains still are there.

We see only wires! But at this very moment a woman in San Francisco may be speaking to her husband in Tokyo . . . a boy at Princeton may be inviting a girl in Albuquerque to a football game . . . and Mrs. Green of R. D. No. 1 may be placing her order with Mr. Brown of the Crossroads Store.

Here — where sixty wires cling to the cross-arms of a weathered pole — the ends of the earth meet!

It's like that in our local churches on Communion Sunday. Whether fifty or five hundred receive the Holy Sacrament . . . the ends of the earth meet. For the Lord's Supper is not a rite of one church or one denomination. It is the common sacramental feast of millions of Christians all over the world.

Are you availing yourself of this blessed privilege, and are you attending your church regularly? As you receive this Sacrament in your church, your life is linked to the lives of Christians everywhere. And you and they are united in a common communion with God!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

By Vern Sanford

Many a deer may be found in the Texas hunting season this year. A hunter died first. There were 151 accidents in Texas attributed to deer in 1958. Last year the number increased to 198.

It is the month when deer are in earnest. Normal hunting will start blasting another, on deer contrive intricate methods such as climbing wire fences with their safety.

Deer are not the only animals pointing out many hunters slip and precipices, while gazing distance. Others never aware because they are warming drinks with a through the pre-dawn.

succeed Maurice Acers as employer representative on the Texas Employment Commission.

Acers' term expires Nov. 21, but he will remain in office, at the governor's request, until Jan. 9.

Pickle has had a significant background role in many of Texas' major political events in the past decade. He was director of the State Democratic Executive Committee for four years and has worked at one time or another in the political campaigns of Governor Daniel, former Gov. Allan Shivers and Sen. Lyndon Johnson.

Acers, an attorney and former FBI agent, was appointed to TEC by Governor Shivers. He served as Shivers' executive assistant in the Governor's office.

CLUB RULES DUE NOV. 21

After listening to a round of protests at a hearing on proposed new regulations of private clubs, the State Liquor Control Board plans to re-study the rules and possibly make some changes.

Administrator Coke R. Stevenson Jr. indicated, however, that the rules would probably be basically the same.

Primarily, says Stevenson, the rules are designed to give the Board a means of preventing the operation of open saloons under the guise of private clubs. They would provide for the licensing of clubs and forbid liquor dealers to deliver liquor to those that did not meet licensing standards.

Representatives of private clubs called some phases of the rules unreasonable, such as requiring a club to be in existence three years before receiving a liquor license permit. They declared they would welcome some workable guidelines for operation.

SHORT SNORTS

Austin Court of Civil Appeals ruled that state hospitals have the right to retain social security payments made for the benefit of patients.

State Securities Board announced that state permits for 56 firms to offer \$21,621,541 in securities were issued in September. This is an increase of more than \$3,000,000 over securities approved in August and nearly six times the \$3,835,490 in securities approved for September, 1959.

Court of Criminal Appeals reversed a decision in which the defendant was fined \$700 for sale of liquor in a dry area because in the trial of the case the state had neglected to prove that Morris County—scene of the event—was a dry county.

Deficit in the state's general revenue fund jumped \$6,500,000 in two weeks, making the latest in-the-red figure \$58,416,716, according to State Treasurer Jesse James.

State Highway Department will open sealed bids Nov. 9 and 10 on 143 miles of construction work on state roadways. Low bids are expected to total about \$12,300,000.

The newly-elected commander of the American Legion Post at Spur is Paul Dale Hagins.

Terry County's Community Chest fund campaign is under way with a goal of \$26,350.

CULLUM NAMED

George P. Cullum Sr. (above), Dallas businessman and civic leader, was elected president of the Texas Society for Crippled Children and Adults at its annual meeting in Austin. Cullum has served the Society as a member of the board of directors and as first vice president for the past two years.

Early surgeon's home site historic spot

WEST COLUMBIA—"Ortizimbo" was the name of the home of Dr. James Aeneas Phelps, hospital surgeon of the Texas Army at San Jacinto.

His home was used to imprison the Mexican General Santa Anna from July to November in 1836, following the defeat of the Mexican Army and the victory in the fight for Texas' independence.

You can see the site of "Ortizimbo" today. It is located about 12 miles north of West Columbia, in Brazoria County, southwest of Houston.

Turkeys, cranberries, typical Thanksgiving foods, are plentiful

COLLEGE STATION — Farmers have produced another record harvest, filling Texas food stores with a bounty of good things to eat.

Turkeys and cranberries will be particularly abundant, reports the Texas Agricultural Extension Service, College Station.

These festive items, traditional for Thanksgiving Day dinners, head the November list of plentiful foods, as determined by the U. S. Department of Agriculture.

Also available in heavy supply throughout the month will be onions, cabbage, dates, pork, beef, potatoes, sweetpotatoes and vegetable fats and oils.

These items have been given the "plentiful" tag by USDA's Agricultural Marketing Service because supplies of each are expected to exceed normal demand.

Food markets throughout the state will tie special promotion efforts to national programs intended to encourage consumption. Consumers will reap the benefits of these activities, as plentiful often are played up as weekend specials.

This year's turkey crop is estimated at \$2.3 million birds, a new record. Heavy-breed birds are especially abundant. Many of these come from Texas' \$15 million turkey industry. New-crop cranberries also are from a record-large harvest.

Both beef and pork are on the November list to provide meat variety for hearty meals. Total meat production has been running considerably higher than a year ago.

Famous battlefield is located near Temple

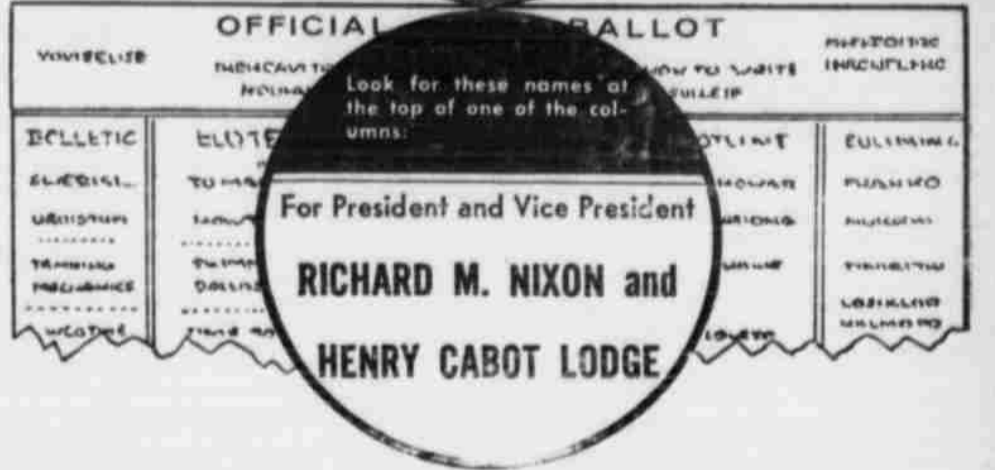

TEMPLE—Bird Creek Battlefield is located in central Texas, just north of Temple, in Bell County.

This is the spot where Capt. John Bird valiantly died in battle in 1839.

A highway marker erected at the site in memory of Captain Bird reads: "With only 34 Texas Rangers he met 240 Indians at this point, and routed them."

Post couple files suit for damages

A personal damages suit for \$53,300, growing out of the death of Robert Russell two years ago in a traffic accident between Southland and Post, was filed Friday in district court here against Thomas J. Ross.

The plaintiffs are Robert E. L. Russell and wife, Lena, parents of the accident victim. The suit was filed by their attorney, Pat N. Walker.

Russell, who was 34 years old, was killed when his automobile hit a truck and trailer parked on U. S. Highway 84 as he was driving from Southland to Post. The accident occurred the night of Oct. 31, 1958.

The plaintiffs' petition names Ross as owner of the truck-trailer and charges eight instances of negligence on the part of the defendant.

The suit asks \$25,000 for deprivation of support, maintenance and care, \$25,000 exemplary damages, and the rest in incidental damages.

Vegetable industry, often called gamble, is in reality quite stable

COLLEGE STATION — When the statement "growing vegetables is a gamble" is made could this be a case of the culprit blaming the victim? Is the business itself a gamble, or are the farmers actually the gamblers?

With few exceptions, most vegetables are staple food items of most American families. Per capita consumption of most vegetables is increasing each year along with rapid growth in our population.

Our next President must be at his best when the going gets toughest!

Richard Nixon stood in for a stricken President Eisenhower, and an uneasy nation was reassured.

Richard Nixon brilliantly rebutted a belligerent Khrushchev, and free men everywhere rejoiced.

Richard Nixon fearlessly faced Communist mobs in Caracas, and the world applauded his courage.

Richard Nixon skillfully settled a paralyzing steel strike, and both sides admired his fairness.

When a man is faced with a crisis, there's no substitute for experience. No other Vice President in our history has been entrusted with so many responsibilities as Richard Nixon. And during the past seven and one-half years he has shown his courage and leadership in any number of crises. His ability has won him the admiration of people everywhere. Richard Nixon has had first-hand experience in making the right decisions for America and the Free World. When the going gets toughest, when peace may depend on the right decision, there can be no denying that his experience will count.

Slaton commission hears complaint

Discrimination in arrests is alleged

SLATON — Alleged police discrimination against Latin-Americans and Negroes was discussed at a meeting of the Slaton city commission last week, with two Slaton businessmen expressing a belief that such discrimination existed.

The two businessmen told the

commission it was their belief that police discrimination against Latin-Americans and Negroes had caused many of them to leave Slaton, detour it on the highways and stay away from the town, thereby hurt- ing the income of all business in the community.

The two said they were not registering a complaint against the police chief, but against an in- experienced police force which they said arrested Latin - Americans and Negroes for things which whites would not be arrested for.

One point brought out was the city ordinance against drinking in public, which the two businessmen said was being enforced against the two minority groups but not against whites.

The discussion ended amicably with the commission agreeing that there should be no discrimination, and with the police chief contend- ing there would be none and had been none to his knowledge.

Former resident buried Saturday in Wichita Falls

Funeral services for Mrs. Brode M. Puckett, 43, a native of Post, who died early Friday morning in a Wichita Falls hospital after suffering a heart attack, were held at 3:30 p. m. Saturday in the First Baptist Church at Wichita Falls.

Mrs. Puckett was a daughter-in-law of Mr. and Mrs. F. M. Puckett and a sister-in-law of Mrs. Lorene Cash and Mrs. Lala Pennington, all of Post.

Mrs. Puckett, a staff member of Wichita Falls High School, was a 1942 graduate of Texas Tech. She was a health instructor in the Wichita Falls High School girls' physical education department.

She had been a member of the First Baptist Church in Wichita Falls since 1953, and had been a primary Sunday School teacher at the church for nine years and a Vacation Bible School supervisor the past six years.

For the past three or four years, Mrs. Puckett had represented the Wichita Falls area at the annual conference held on the Baylor University campus by the Texas Alcoholics and Narcotics Association, a statewide organization of physical education and health teachers.

Mrs. Puckett is survived by her husband, Brode M. Puckett of the home; one daughter, Judy Puckett, also of the home, and one sister, Mrs. J. A. Rollins of Lubbock.

Mrs. Lorene Cash attended the funeral from Post.

GOP MONKEY BUSINESS

Hear no evil, see no evil, speak no evil of GOP blunderings at home and abroad... says the GOP. It might give aid and comfort to our enemies.

Is there comfort at home in closing our eyes to world turmoil from Cuba to the Congo?

Is there comfort in closing our ears to jeers of insolent mobs in countries where our Vice President is stoned and our President denied entry?

Is there comfort in closing our mouths when 25 million American mouths are open in hunger — by Secretary Benson's own figures?

It's time for a change in leadership!
