**POLIO FUND CHECK DEPOSITED**—Walter Crider (right) chairman of the Garza County chapter of the National Foundation for Infantile Paralysis, is shown turning over to O. L. Weakley for deposit the \$550 check sent here by the National Foundation to apply on the local chapter's expenses in caring for polio patients.—(Staff Photo).

## NFIP PROVIDES \$550 EMERGENCY AID

### Local Chapter Receives Check

Evidence of the gravity of the national polio situation has arrived in Garza County in the form of a check for \$550 from the National Foundation for Infantile Paralysis.

"This financial help is not enough to cover all the chapter's outstanding bills, but is a part of a National Foundation agreement to provide needy chapters with immediate emergency aid," according to Walter Crider, chairman of the local National Foundation chapter.

The money will be used to help pay for treatment already provided to polio patients here, he said.

Crider explained that even the record March of Dimes funds raised nationally last January is almost exhausted, with chapters in many parts of the country drawing heavily on fast-dwindling national resources. This unprecedented drain is in addition to the costs of polio prevention, the Foundation's newest program.

Polio prevention calls for greatly increasing the supply of gamma globulin and conducting the field study of a trial vaccine against polio. This program alone is costing approximately \$26,500,000.

"We have in Garza County," Crider said, "a good example of how the local chapter and national headquarters always have worked together. In the past, if we ran in the red, the National Foundation sent us whatever sum was needed to pull us out."

"However, in spite of the nationwide record March of Dimes

last January, we wound up \$20,000,000 short of our actual need. The nation did not raise enough money to do the double job of caring for this year's record polio load and supporting the nation's promising polio prevention program. This must be made up during the Emergency March of Dimes in August."

Crider said that patient care bills still outstanding will be paid out of the chapter's share of contributions to the emergency drive.

The local chapter at present is providing funds in whole or in part for the care of two patients stricken this year, in addition to three who contracted polio in previous years.

## Charles Shedd Killed In Oil Field Accident

Last rites for Charles Edward Shedd were conducted at 4 o'clock Sunday afternoon in the First Baptist Church, with the Rev. Shelby Bishop, Calvary Baptist pastor, and the Rev. Roy Shahan, pastor, officiating. Jim Hays directed the choir which sang "Rock of Ages," "In the Sweet By and By" and "The Old Rugged Cross," with organ accompaniment by Mrs. Ray N. Smith. Burial was in Terrace Cemetery under the direction of Mason Funeral Home.

Shedd, an employee of R. F. Allison Drilling Co., was killed when he was struck by the tongs on an oil drilling rig near Sterling, Colo., Friday night. A former employee of the Texas Highway Department in Lubbock, he had been working at Sterling for about two months.

He was born April 9, 1936, in Hockley County and moved with his parents to Post before he was a year old. He attended Post Schools. On Dec. 24, 1952, he was married to the former Miss Wanda Bratcher, daughter of Mr. and Mrs. F. M. Bratcher, in the Church of the Nazarene. While waiting for guests to assemble for a reception, the couple and their attendants were seriously injured.

## Jennings Installed Rotary Club Prexy

R. J. (Rube) Jennings, superintendent of Postex Cotton Mills, Inc., was installed as president of Post Rotary Club Tuesday, succeeding Chant D. Lee. The installation was held during the noonday luncheon in the banquet room of the city hall.

Loyd Wicks of Dallas, former district governor of the 183rd Rotary district, conducted the installation.

Other officers installed, besides Jennings, were Lee, who by club procedure automatically became vice president; and R. H. Tate, secretary. Tate replaced Powell Shytka.

The only new director taking office was E. R. Moreland.

Holdover directors are: Gerald Blackburn, Alfred Frahm, D. C. Arthur and L. E. Webb.

Rotarian Wicks based his talk on "Rotary Advancement."

Other visitors, besides Wicks, included T. L. Talbot and Howard Huffman of Slaton; Will Marx, Balls; L. J. Richardson, Jr.; Brownfield and Bonnie Boucher of Post.

## City's Water Consumption Reaches An All-Time High

Post hit a new all-time peak in consumption of water last week when mercury haunted the century mark and residents ran air conditioners day and night and poured water to sun parched yards.

The consumption peak occurred Tuesday of last week when 1,269,000 gallons were pumped through the mains. The following day fell short the record mark by only 27,000 gallons with usage of 1,242,000 gallons. A slight draw-down was noted Thursday when 1,222,000 gallons were pumped. Friday 1,155,000 gallons were used and Saturday consumption dropped to 1,135,000 gallons. Sunday the million gallon per day mark was broken when consumers used only 972,000 gallons.

Monday's total amounted to 1,217,000 gallons, while Tuesday's measurement reached slightly higher than the one and one-quarter million gallon mark with a reading of 1,251,000 gallons. No measurement had been made yesterday of the amount of water used.

Last year's water consumption peak occurred on June 9, when 1,034,000 gallons were pumped. The next high occurred on June 24, when the million gallon mark was topped by 11,000 gallons, with total consumption of 1,011,000 gallons.

During the 30-day period of last month, total consumption amounted to 27,061,000 gallons, making a daily average of 922,000 gallons.

## 1,600 Garza Residents Are Eligible To Vote In Saturday's Democratic Primary

Approximately 1,600 Garza County citizens are eligible to vote in Saturday's Democratic primary, for which precinct, county and state candidates are winding up their campaigns this week.

A total of 1,337 poll taxes were paid between last Oct. 1 and the Jan. 31 deadline, and exemptions—those voting for the first time and those over 60—will swell the total of eligible voters to around the 1,600 mark.

Although a fairly heavy vote is expected, election interest has been at a low ebb in this year's political campaigns. There are

contests in eight precinct and county races.

Interest in the state races centers around those for governor and for U. S. senator. In the gubernatorial race, Allan Shivers, the incumbent, is opposed by Ralph W. Yarborough of Austin, Cyclone Davis of Dallas, and J. J. Holmes of Austin.

In his race for re-election as U. S. senator, Lyndon B. Johnson is opposed by Dudley H. Dougherty of Beeville.

Garza County's nine voting places for Saturday's election and the presiding judge for each precinct are as follows:

North Post (district courtroom), Home McCrary.

Southland (schoolhouse), Sam Ellis.

Verbena (church), Julius Fungagalli.

Justiceburg (schoolhouse), Mrs. Pearl Nance.

Close City (schoolhouse), L. H. Peel.

Graham (schoolhouse), J. W. McMahon.

Pleasant Valley (Baptist church), Clark Barton.

South Post (schoolhouse), S. E. Camp.

Two Draw (Pat Walker residence), Hollis Drake.

Mrs. N. R. King is chairman of the special canvassing board for absentee votes.

Following is the order in which candidates' names will appear on the county ballot in Saturday's election:

Congressman, 19th District: George Mahon.

State Senator, 24th District: Harley Sadler.

State Representative, 90th District: C. F. Sentell, Robert R.

Patterson.

District Judge, 106th judicial District: Louis B. Reed.

District Attorney, 106th judicial District: Vernon A. Townes.

District and County Clerk: Carl Oederholm.

County Judge: Chalmers R. Fowler, Oscar Graham.

Sheriff, Tax Assessor-Collector: Carl Bains, A. O. (Jerry) Tannet, L. E. (Fay) Claborn, Jr.

County Treasurer: H. G. (Gordon) Flowers, Vera Gollehon.

County Superintendent: Dean A. Robinson.

County Attorney: Pat N. Walker.

County Commissioner, Precinct 1: E. F. (Kooner) Evans, T. H. (Talmage) Tipton.

County Commissioner, Precinct 2: E. E. (Ely) Peel, L. E. (Buck) Gossett, G. M. (Glenn) Davis.

County Commissioner, Precinct 3: Russell Wilks, Jr., E. W. (Wren) Cross, Ozell Williams.

County Commissioner, Precinct 4: Sid Cross, Spence Bevers.

Constable, Precinct 1: L. E. See PRIMARY ELECTION, Page 8

## ABSENTEE VOTING REACHES 113

### Record May Be Set

In spite of the fact that there are only a very few hotly contested races in the July 24 Democratic primary, absentee vot-

ing in Garza County totalled 113 late Tuesday afternoon when the deadline for casting absentee ballots was reached. A last-minute rush Tuesday indicated a record might be set when all mailed-out ballots are returned.

According to County Clerk Ray N. Smith, there are at least 14 ballots out which have not been returned to his office. If all of these ballots are cast and post-marked before midnight July 20, See ABSENTEE VOTING Page 8

## Election Results To Be Posted On Board

Election returns will be posted on a large bulletin board in front of Greenfield Hardware store Saturday night, reports T. R. Greenfield, County Democratic chairman.

Returns from each of the nine county boxes will be tabulated and posted on all county and precinct races and on the governor's contest, the chairman said. Besides these returns the group handling the election expects to be in contact from time to time with election officials in counties which comprise districts, of which Garza is a part, and will exchange results to be posted on the board.

Election workers, besides Greenfield, will be Eddie Warren who will assist in tabulating returns, Polly Duren and Bill Edwards who will post and compile the results on the board.

Returns should begin coming in about 7:30 p. m. and final tabulations should be made by 10 o'clock, Greenfield said.

## Aged Father Of Mrs. Jackson Dies Sunday

Thomas Zilho Rose, father of Mrs. Marie Jackson, and grandfather of Mrs. Clovis Huffman and Mrs. Marvin Huffman, all of Post, passed away Sunday at 2:30 p. m. at his home in Whitney. The aged man died one week short of having reached his 102nd birthday, date of which would have been Sunday, July 25.

His death came following several weeks of illness, the past three of which Mrs. Jackson was at his bedside. He had been a frequent visitor to Post and was known here by many people.

Mr. Rose received national publicity after celebrating his 80th wedding anniversary last year with his wife. Mrs. Rose died last year on June 9 after the couple was recognized as the longest married couple in the United States.

Mr. and Mrs. Clovis Huffman attended the funeral services Monday afternoon at Whitney.

## Final Warning Is Given Dog Owners

City Marshal F. M. Reep is giving Post dog owners a final warning that all dogs kept within the city must be vaccinated for rabies and licensed by the city before the week ends.

All stray dogs will be picked up and placed in a pound, and if not claimed within 24 hours will be disposed of, the marshal pointed out. In compliance with the city's dog ordinance, it is unlawful for dogs to stray from their home premises. Dogs that are allowed to roam the streets and are not wearing a license tag will be picked up.

Stray dogs have been men-

## Postal Receipts Show 11.2% Gain

Postal receipts at the local post office during the first six months of the year have shown a gain of 11.2 per cent over last year, according to Harold Voss, postmaster.

Receipts from January 1 through June 30 for 1954 total \$1,398,798. This is a gain of \$1,000,000 over receipts during the six months period of 1953, which totaled \$1,368,528.

The credits increased only slightly as partially accounting for the gain.

## Friday

Also comply with any other allotments and total acre- allotments established for farms.

The vote is "no" it will mean there will be no marketing and no marketing penalty "excess" wheat.

Price support under legislative provisions will be 50 per cent parity.

Any producer who fails to comply with their wheat or other allotment, or with a total acre allotment if one is established, will not be eligible for price or government loans.

## Cotton Crop Holding Up Well Under Heat Wave

Dryland cotton crops in Garza County have not yet been damaged by the worst heat wave to hit this area since 1936, Lewis Herron, county agent, said this week.

"The cotton is doing better than I've ever seen it do in years," Herron said. "I have never seen it grow faster than it has the past three weeks."

Good rains any time during the remainder of this month will keep the cotton crops progressing toward good fields, the agent pointed out.

Early feed in dryland farms is not doing so well, however, Herron declared. Although dryland crops, such as cotton, are doing under July July temperatures, it is altogether a different matter with early feed. The feed crops are withering, pitting, and showing adverse effects from temperatures that have soared to 79 degrees for three days this week.

"Unless rain comes within the next few days, and falls in sufficient quantity, most of the early feed crops will be destroyed," Herron said. "Besides it will take more than one good rain to pull the early feed through for profitable yields."

Late feed, although it is beginning to show effects of needing moisture, can stand considerable dry weather, he said. Good rains any time in July will put them to growing again.

With many farmers still complaining about jumbo grasshopper, Herron said that most of the areas infested have been covered with poison and that he feels that the threat is easing up. He explained that the hopper infestation has been "spot-

ty" and most of the areas affected have been those adjoining pasture land. Where grassland has parched under the zooming mercury the hoppers have moved over to the green, thriving cotton patches.

Little or no serious damage has been reported to the agent from flea hopper infestation.

He reports that some farmers have begun to irrigate their cotton which has started to bloom and points out that now is the proper time to irrigate. It is the stress period.

Herron believes that the irrigated cotton, having had and sufficient moisture, should produce a big yield.

Rain between now and the first of August will be the deciding factor on dryland cotton.

## Demo Conventions Slated Saturday

Qualified voters are urged to attend the precinct conventions of the Democratic party to be held at the polling places on election day.

A permanent chairman and secretary will be elected at these conventions and delegates will be chosen to the county Democratic convention which meets on Saturday, July 31.

T. R. Greenfield, county Democratic chairman, has announced that each voting precinct is entitled to one delegate to the county convention for each 25 votes, or major fraction thereof cast on the Democratic ticket for governor in the 1952 general election.

**Post Cowboys Have Been Winners In Past Years In Spur's Annual Rodeo**  
 All cowboys and cowgirls are cordially invited to attend the Spur Cowboy Jubilee on July 21, 22, 23 and 24, and those who want to can participate for some of the winners' money.  
 In years past, Post cowboys have money in the following events at the Spur Cowboy Jubilee: In 1947, Jimmy Bird in calf roping; in 1948, Howard Hopkins in cow milking; in 1949, Jimmy Bird in calf roping and double mugging; in 1950, Jimmy Bird in double mugging, and in 1953, Ned Myers in head-and-heeling, Jimmy Bird in calf roping and double mugging, and Jimmy Moore in bareback riding and steer riding.  
 There will be a \$250 saddle presented to the grand champion roper, along with the prize money, at this year's Jubilee.  
 Again this year one of the top attractions of the celebration will be the annual downtown parade preceding the opening performance on Wednesday. This parade will feature beautiful floats, novelty floats, chuck wagons, dignitaries, and a spectacular army of riding clubs, sheriffs posses, cowboys, cowgirls and "cowtots."  
 The regular rodeo events will include double mugging, calf

**Wheat Supports Hit New High**  
 The Agriculture Department has announced that price support rates for 1954 crop wheat will average \$2.24 a bushel nationally instead of a \$2.20 minimum average announced at planting time last fall.  
 The new rates will be the highest ever set by the department for the grain under its farm aid programs. Rates for last year's crop averaged \$2.21.  
 The increase in the 1954 rates was made because the parity price of the grain is higher now, at the start of the marketing season, than it was last fall.  
 The department is required by law to support wheat at not less than 90 per cent of parity at the start of the marketing season. The current parity price is \$2.49 compared with \$2.45 last fall.  
 Parity is a standard for measuring farm prices, declared by law to be fair to farmers in relation to costs of things they buy.

**Weakley District USO Chairman**  
 O. L. (Ollie) Weakley of the First National Bank here has been named as chairman of District No. 11 of the Texas United Defense Fund, the state-wide group which will sponsor USO's campaign for \$775,000 in Texas this year. District 11 includes Lynn, Dawson, Garza and Borden counties.  
 Weakley was appointed by J. M. Willson, Sr., of Floydada, who is regional chairman of the forthcoming fund appeal to carry on the familiar services of the USO to the young men and women of the nation's armed forces. A major portion of the Texas goal, as in 1953, will be included in Community Chest and United Fund campaigns throughout the state this fall.  
 Weakley said Wednesday that he had selected a Garza County chairman for the USO fund drive in the near future, but that he would have to withhold publication of the name until he had received an acceptance to the chairmanship.

Garza Voters Will Ballot On Eleven Changes To Constitution In November

Garza County voters, along with other Texans will vote in the general election in November on 11 more changes to the State's Constitution. Since 1876 the Constitution has been changed 110 times.
All 11 of the amendments will appear in next week's Post Dispatch. They will be published for four consecutive issues.

Rotary Hoeing Of Cotton Is Done Speedily

COLLEGE STATION (Sp.) — Speed is important in modern farming. It means covering large acreages in a hurry before weeds and grass have taken over a crop. For several years cotton farmers have been rotary hoeing at speeds up to six miles an hour, but this spring H. E. Rea, a Texas Agricultural Experiment Station agronomist has literally made a race track out of the cotton patch.

He has perfected a two-row trailer type hoe which has been successfully operated in the Brazos Valley Laboratory over the one weekend at 18 miles an hour. He says over 95 per cent of the cotton hoed with this machine suffered no damage from the operation.
Heavy rains, which hit the area in late April and early May just about stopped normal field operations. Weeds and grass followed the rains and drying conditions caused a thick soil crust. Speed thus became important and the use of the new rotary hoe increased the available working time during the rainy weather. It is now possible to cultivate or for the use of the rotary hoeing attachments with sweep cultivation. Cotton from one to five weeks of age was successfully hoed with the new machine at rates of 6 to 8 acres an hour.

Here is Rea's summary of what the new machine did this spring. From 65 to 70 per cent of the annual weeds and grass seedlings were controlled with one rotary hoeing with the new machine; two or more hoeing increased the control to 85 to 90 per cent and 95 to 98 per cent control was obtained when the rotary hoeing was preceded by the pre-emergence use of GIPC at 8, 10 and 12 pounds an acre respectively of Karmex L or Karmex DL at 1, 1 one-fourth and 1 one-half pounds an acre, respectively, on Miller clay soil. Lower rates of these chemicals must be applied on lighter soils, he says.

It all adds up, says Rea, to lower production costs and that means more profit at the end of the year.
Results of the trials and a description of the new machine are available upon request from the Agricultural Information Office, College Station, Texas. Ask for Progress Report 1691.

ENLIST IN AIR FORCE
Two Post youths, Pete Hays, 18, son of Mr. and Mrs. Jim Hays and Donald Moore, 18, son of Mr. and Mrs. R. A. Moore volunteered into the U. S. Army Air Force this week and went to Amarillo Monday for their physicals.
They were both transferred to San Antonio.

When Lewis and Clark took 31 men across the continent 150 years ago, there was only one death in the party and that was from disease and not from trouble with wild animals or Indians.

Card of Thanks

To those who expressed their sympathy in so many beautiful and practical ways during our recent bereavement, we extend our heartfelt thanks.
Mrs. Ernest Henderson and family.
J. V. McCasland and family. tlc.
The kindness and sympathy of neighbors and friends in our recent sorrow will always remain with us as a precious memory. Our sincere thanks and gratitude for all these comforting acts. We are especially appreciative of the fine services rendered by Dr. C. J. Lewis, Jr. and Dr. John B. Rountree, and of the Revs. Bishop and Shahan, Mrs. Charles Shedd, Mr. and Mrs. R. E. Shedd and family, Mr. and Mrs. C. E. Gray, A. T. Shedd, Sr. tlc.

Increased welfare spending heads the list. The amendment to boost the ceiling on state spending from 35 to 42 million dollars per year would mean generally bigger old age pensions and more money for the needy blind and needy children.
The order in which the 11 amendments will appear on the Nov. 2 ballot will be determined at a drawing in the office of Secretary of State C. E. Fulgham in Austin.

The other amendments line up as follows:
2. Allow transfer of prior service credits in the state employees' and teachers' retirement funds.
3. Allow certain city employees to qualify for social security benefits.

4. Allow use of money in the Confederate pension fund to build two new state office buildings in Austin, a memorial to Texas Confederate soldiers and grave markers for soldiers who fought in the Texas War of Independence. Only the surplus of 6 million dollars could be used.

5. Raise the pay of legislators to \$25 for the first 120 days of the session and drop it to nothing thereafter.

6. Prohibit pledging the state's credit to support toll roads.

7. Require jury service for women.

8. Allow 4-year terms for precinct, county and district elective officers who now have two-year terms.

9. Allow joint city-county hospital operations in Harris, Dallas, Bexar, Tarrant, Galveston, El Paso or Jefferson Counties.

10. Allow military personnel from Texas to vote if they had established residence in Texas a year before entering service.

11. Allow counties of 10,000 population or less to vote on whether they want a tax assessor-collector.

Driver's Duty To Know Shape His Auto's In

"Unsafe automobiles are a menace to the community," Col. E. B. Tilley of Houston, president of the Texas Safety Association, and services advisor for the Gulf Oil Corporation today issued this warning and invited Texas motorists to join the state-wide effort to put all automobiles in good mechanical condition.

"A motorist has no more right to drive a mechanically unsafe car than he has to walk down the street brandishing a loaded revolver," Col. Tilley said. "In fact," he continued, "the unsafe car could be the greater menace, since its lethal nature is less obvious."

He pointed out that the alibi, "I didn't know my brakes were in such bad shape," doesn't excuse a fatal automobile accident any more than the alibi, "I did not know the gun was loaded," excuses a fatal shooting.

"It's every driver's duty to know exactly what condition his automobile is in, and there's no excuse for ignorance on this point," Col. Tilley said.

According to Col. Tilley, a driver should keep checking his car constantly for the more obvious danger points. "This is easy and simple," he said. "A quick walk around the car can show if the lights are working. The windshield wiper, the horn and the mirror can be checked from the driver's seat. A brief examination of his tires will disclose excessive wear. Loss of brake efficiency shows up in ordinary driving.

"But no driver," he said, "should be satisfied with these surface checks. He should have his car checked regularly by a qualified mechanic. On these checks," Col. Tilley said, "the following points should be carefully checked: headlights, rear and stop lights, brakes, tires, steering mechanism, windshield wipers, muffler and exhaust system, window glass, horn and rear-view mirror."

### Harold Voss Goes To Lubbock Meet

Harold Voss was among postmasters and key post office personnel in 15 counties in the Lubbock area who attended a meeting in Lubbock yesterday to discuss operations under the Post Office Department's new decentralization program.

This was the last of a series of meetings with postmasters and supervisors in the Amarillo District. Previous sessions were held at Childress, Wichita Falls, Midland, and Amarillo.

Under the new set-up, the Amarillo District is one of six districts in the Texas-Louisiana region, headed by Earle C. Wilkes with regional offices in Dallas, Fort Worth, San Antonio, Houston, and New Orleans.

"Decentralization," explained Weathered, "was recommended in the Hoover Commission reports adopted in 1948 as a means of creating greater efficiency and economy in postal operations. Before decentralization every one of the nation's 40,000 postmasters reported directly to Washington. Now postmasters will take up their problems with nearby district managers."

ROTC Cadet From Post Is Training In Summer Camp At Fort Benning

FORT BENNING, Ga. (Spl.)— ROTC Cadet Don E. Brown, a student at Texas Tech in Lubbock and son of Mr. and Mrs. Eulas Brown of Post, has reached the halfway mark at the Fort Benning 1954 General Military Science Reserve Officers Training Corps Summer Camp.

During the past three weeks of intensified and rigorous training the more than 1,250 ROTC Cadets, representing 38 senior educational institutions in the Third and Fourth Army areas, have received individual instruction in preliminary rifle marksmanship.

Upon completion of which each cadet was allowed to fire the record course with the M-1 (Garand) rifle and given the opportunity to qualify as a marksman, sharpshooter, or expert.

In addition to the M-1, they have received training in the recoilless rifles, 60-81 and 4.2" mortars, sub-machine guns, carbines, and the bayonet. Other subjects covered during the three-week period included military map reading, chemical, biological, and radiological defense, mine warfare, rocket launcher and hand and rifle grenades.

Training schedules are based on a 48-hour, five and one-half day week, normally beginning at 7 a. m. and ending at 5 p. m.

So far each cadet has participated in one overnight bivouac problem and has received training in individual and small unit defensive and offensive tactics. In the last three weeks of camp, much of the training will center around platoon and company size unit tactics and training, with the climax coming in a 72-hour field problem which will be as close to an actual combat situation as safety factors will allow.

VA Questions And Answers

Q I am a disabled Korean veteran, and I am planning to take vocational training under Public Law 16. Will I have to finish my training by July 25, 1956?

A The 1956 deadline applies only to disabled World War II veterans in training under Public Law 16. The training program for veterans disabled since Korea comes to an end nine years after the termination of the present emergency.

Q I bought a house with a GI loan back when the top VA guarantee was \$4,000. I'd like to sell my house and buy a larger one. Would I have any additional GI loan entitlement coming to me?

A Yes, Your new GI loan could be guaranteed for \$3,500—the difference between the \$4,000 you already used and the current maximum of \$7,500 guarantee.

Q I'm getting a pension each month from VA. Is this money subject to Federal tax?

A No, VA benefit payments, such as pensions, are not subject to Federal taxation.

Q I'm planning to take on the job training under the Korean GI Bill. The firm where I want to train has applied to the State for GI approval. Could I start my training now, before approval comes through, and receive my GI allowances?

A No. The payments may not begin until after the firm has received its State approval to train veterans.

Emergency Dimes March Scheduled

NEW YORK (Spl.)—Americans contributed nearly \$55,000,000 to the March of Dimes last January—more than in any previous year—yet the sum fell short by \$20,000,000 of meeting the current year's needs.

As a result, he said, it will be necessary to seek the additional amount through an Emergency March of Dimes scheduled for Aug. 16 through 31. The decision to hold the emergency appeal for polio-fighting funds was made late last week at a meeting of the National Foundation's Board of Trustees, he disclosed.

"This year," O'Connor said, "confronts us with the greatest challenge of any in the history of the fight against polio, with commitments for a polio prevention program of staggering size and the necessity of providing aid to a record number of polio patients."

Among the traveling Texans who have enjoyed a vacation in Europe this summer are Mr. and Mrs. Joe Shirley and children, Stephen and Susan, of Lubbock. The Shirleys were recent guests of his mother, Mrs. George Shirley, and sister, Mrs. Tom Bouchier.

The Lubbock couple, who formerly lived in Post, sailed from New Orleans on the Waterman Steamship Line, in May. They took their car with them on the trip and drove home from New York.

Mrs. T. J. Odell, who has been visiting her aunt, Mrs. J. R. Davis, left Monday for her home in Cisco.

Mrs. Lee Boardwine left Sunday for Sayre, Okla., where she will visit her 98 year-old mother, Mrs. H. H. Simmons, for several days.

Let's Look At The Facts In The Governor's Race

GOVERNOR SHIVERS SAYS:

"Allan Shivers has supported, sponsored or signed every major piece of public school legislation during his tenure as State Senator, Lieutenant Governor and Governor."

THE FACTS ARE:

It is a matter of common knowledge that Governor Shivers opposed the school teacher's pay raise during the regular session of the Legislature in 1953. He did not really support the teacher's pay raise until he had decided to return for a THIRD term as Governor and decided that a special session and a pay raise that was only half enough would be a good way to secure the votes of the teachers.

GOVERNOR SHIVERS SAYS:

"Allan Shivers wants highway and farm-to-market construction and maintenance to keep pace with a growing Texas."

THE FACTS ARE:

During 1951 Governor Shivers supported the Graham Bill which would have done away with the farm-to-market program as it exists today and would have substituted in the farm-to-market program a system of super highways between the large cities.

GOVERNOR SHIVERS SAYS:

"Conditions in Texas Prisons have progressed from the nation's worst to among the best during Allan Shivers' Administration."

THE FACTS ARE:

The Texas Prison reforms were begun in 1947 by the bringing to Texas of O. B. Ellis, the present prison manager, and the money appropriated and reform began under the administration of the late Beauford Jester.

GOVERNOR SHIVERS SAYS:

"As far back as 1951, Allan Shivers recommended strengthening of insurance laws to protect the public. The weeding out of unsound companies has begun and will continue."

THE FACTS ARE:

The Texas Insurance Laws are recognized far and wide as the best in the nation but no law is any better than those people that are appointed to enforce it. Who appoints the insurance commissioners? The Governor. Who appointed the present insurance commissioners under whom the negligent abuses have been allowed to grow? The Governor. When did the so-called weeding out begin? After the abuses were made public by a courageous judge and after the Governor decided to run for a third term.

THE GOVERNOR SAYS:

"Allan Shivers has visited in nearly every section of the state and he maintains an 'open door' policy in his office because he likes people, enjoys talking to them. More important he listens to them."

THE FACTS ARE:

That Governor Shivers never before this campaign saw fit to stump the state and let the people see and hear him. He started this campaign the same way by coming to Lubbock about two months ago and calling in his local politicians and sending them back to their respective bailiwicks to tell the peasants how to vote. How many of you have seen Allan Shivers, heard him speak, spoken with him or been listened to by him prior to this campaign? Since he has been Governor longer than any other person one begins to wonder how this "open door" policy operates and for whom.

GOVERNOR SHIVERS SAYS:

"Allan Shivers refuses to compromise his principals."

THE FACTS ARE:

In the fall of 1952 when Governor Shivers was campaigning hard for the Republican Administration, he went up and down the state shouting for the federal government to let cattle and farm prices alone, let us work out our own problems we don't want or need the help of the Washington Bureaucrats.

In the spring of 1953, after his Republican friends had been elected, Governor Shivers met with a group of Governors in Amarillo, Texas, for the purpose of asking for and getting the very things that he had repudiated in the fall of 1952.

THE GOVERNOR SAYS:

"Upon being told that Ralph Yarborough had entered the race for Governor" "I expect the Pro-Communist and Pro-Parr people to try to defeat me for Governor."

THE FACTS ARE:

That Governor Shivers along with Judge Woodrow Laughlin, the judge that the Supreme Court removed from the bench, and Archie Parr are being supported by the Duval Group in Starr County. When this election is over, Governor Shivers is going to be mighty surprised at just how wrong he was about who was going to try to defeat him.

THE GOVERNOR SAYS:

"Allan Shivers saved the Texas Tidelands for the permanent school fund."

THE FACTS ARE:

The Federal congress passed a law granting to Texas all its tidelands out to the 10 1/2 mile limit and now Mr. Herbert Brownell, another of Mr. Shivers' Republican bedfellows, tells our Attorney General that they are not going to recognize Texas' Claim beyond the 3-mile limit and are filing suit to set aside the congressional act for which Mr. Shivers is so proud.

THE GOVERNOR SAYS:

"I am a lifelong Democrat, make no mistake about that."

THE FACTS ARE:

It seems passing odd that when Mr. Shivers finally saw that he had a race on his hands that he called in Mr. Benson, the good Republican Secretary of Agriculture who believes that farm prices should be supported at 75% of parity rather than the 90% of parity that they promised in 1952), to make a speech in his behalf. It seems odd still that the Republican committeeman for Texas, Mr. Jack Porter, should come out in support of Mr. Shivers.

THE GOVERNOR SAYS:

"I am a farmer and believe in a strong water and land program."

THE FACTS ARE:

Allan Shivers has opposed the construction of the Canadian River Dam by Federal funds and at the same time encouraged and fought for the Falcon Dam in the valley where he has vast land holdings. Perhaps we should buy the Governor a few acres in the Canadian River Area.

THE GOVERNOR SAYS:

"We need another term to carry on the program that we have started."

THE FACTS ARE:

That the only other governor to seek a third term was another Republican Governor, that honorable carpetbagger Governor that was appointed to administer Texas after the Civil War. He, like Governor Shivers, professed to the last that he was a Democrat while campaigning wildly for the Republicans. Since we managed to get along pretty well from the time

of the Civil War until now without having to elect the same man three times it is doubtful if things will completely go to pot when the Governor is turned out to pasture. Why is another term needed to complete a program when Mr. Shivers has already held the office longer than any other person?

THE GOVERNOR SAYS:

"All this talk about the land transaction in which I made \$450,000.00 is just politics and an attempt to smear Allan Shivers. I believe in the free enterprise system and the American way of doing business."

THE FACTS ARE:

In the fall of 1946, after Governor Shivers had been elected Lieutenant Governor, he paid \$25,000.00 for a thirty-day option to buy 13,000 acres of land. Of course no money passed hands. The governor just gave his personal note. One day after the option had expired, Governor Shivers sold the option back to the same people that he had bought it from for the sum of \$425,000.00 and the return of his note. During the thirty days the real estate company was going over the state selling the land that Governor Shivers had the option on by telling people that the then Lieutenant Governor, who presides over the state senate and has the power to make or a break a bill, was going to get an additional water district created out of the Rio Grande. Where did the real estate company get the \$450,000.00 that they gave Mr. Shivers for the option back? From those people who bought the land at \$500.00 per acre on the basis that a water authority was in the bag. There can be no question that the Governor believes in a system of sorts.

THE GOVERNOR SAYS:

"Allan Shivers has nothing to hide."

THE FACTS ARE:

Governor Shivers some three weeks ago challenged Judge Yarborough to make his income tax returns for the past ten years public. Judge Yarborough's tax returns were immediately forwarded to the firm of accountants designated by the Governor and have been audited. Governor Shivers' returns have not arrived for the auditing and are not now expected. It would seem that the man that issues the challenge would be able and willing to follow the challenge up unless he was bluffing and got caught at it.

THE GOVERNOR SAYS:

"Through one of his local campaign managers! Money wins elections in Texas, always has and always will, and we have got it. The people don't care who is in office."

THE FACTS ARE:

When the people inform themselves of the issues and sift the chaff from the wheat we get good government whether it is backed by big money or not.

Let's stop money buying our governor by going to the polls Saturday and electing a man in common touch with we people—let's elect Ralph Yarborough Governor and return the reins of government to the people.

Long before World War II even started to smoke, electronic engineers were toying with megacycle cooking. To see this wonderful, new electronic cooking in practice, one needs only to drop around to the kitchens of one of the Statler hotels, or the White Tower quick-lunch counters in the east. When you cook by radio frequency you simply plug in and your dinner is ready before you can holler for Junior or Jane to wash up. For instance here are some of the cooking times you can compare with your time charts of today:

Two years ago 95 absentee ballots were cast in the first primary election.

Most of the absentee voters have been persons going on vacations, but there has also been the usual number of invalid residents who are unable to get to the polls who have cast ballots in absentia.

The large volume of voting was attributed to interest in the gubernatorial campaign.

# Entry Blanks And Rules Sent To 300 Area Junior Rodeoers

Progress meeting, to determine the activities of the various committees working on the rodeo which is to be un-der the auspices of the county court house.

Selection of Mack Ter-ry as junior manager to work with Hinton Fluitt, senior man-ager, and a full crew of officers has been named. Other junior offi-cers who were elected several ago include: John Boren,

president; Billy Meeks, vice president; Maxine Baylis, secretary, and Jack Haire, arena director.

Plans for distribution of ad-vertising materials over a wide area of West Texas were dis-cussed. Some of the advertising literature has already been mailed to interested parties in nei-ghoring towns who will see to it that it is properly distributed and plans were made to orga-nize small booster groups to visit over the area to advertise the four-day show.

Lewis C. Herron, county agent and a senior director of the as-sociation, reported that entry blanks, and rules and regula-tions folders had been mailed to approximately 300 contestants who have participated in previ-ous shows here.

This season's rodeo, open to boys and girls 19 years old and under, is expected to attract a greater number of contestants than any of the six previous shows. Last year more than 250 youngsters participated in the

rodeo events.

The sixth annual Garza Coun-ty Quarter Horse Show is to be held on the final day of the ro-deo.

Junior directors of the rodeo association are: John Boren, Jim Boren, Jerry Epley, Mack Taylor, Jackie Haire, Royce Josey, James Dye, Noel White, Billy Meeks, Ned Myers, Loyce Josey and Maxine Baylis.

Senior directors are: Floy Rich-ardson, Victor Hudman, Walter Boren, Buck Gossett, George Samson, Hinton Fluitt, R. E. Josey, Lewis C. Herron, Jr., Alvin Davis, Bill Long, Jack Myers and Walter Josey.

Seven major events, calf rop- ing, calf penning, cutting horse contest, barrel race, bull riding, bareback riding and flag race, will make up this season's rodeo. A special event, kid's pony race, for youngsters 12 years old and under, has also been planned for the show.

Contestant's prizes and awards total approximately \$3,500.

## 'Treasure Dive' Is Held At Pool

Larry Welch, L. W. Evans and Joe Hernandez were winners of the first "treasure dive" Satur- day afternoon at the municipal swimming pool. Vernon Ray, manager, announced. Coins were thrown to all parts of the pool from the high diving board at 4 o'clock. Welch retrieved 70 cents; Evans, 50 cents, and Her- nandez, 36 cents.

Ray also reminds that from 6 p. m. to 8 p. m. on Fridays has been set aside for "adults only" (swimmers 21 years old and over) at the pool.

The pool is open from 1:30 p. m. to 8:30 p. m. weekdays and from 1:30 p. m. to 6 p. m. Sun- days.

## No Show Yielded At Swenson Test

A second drillstem test is re-ported to be in progress at the Continental Oil Co. No. 1-A Swenson, 8,200-foot wildcat ven- ture in the northwest part of this county.

A drillstem test in the Strawn last week yielded no shows of oil at 7,308-7,359 feet. The hole was left open for one hour and 30 minutes with recovery result- ing in 20 feet of drilling mud and 280 feet of salt water with no indications of oil or gas.

At last report total depth was 7,465 feet.

## Walter Crider Talks To Lions On Voting

"The Importance Of Voting In Saturday's Democratic Primary Election," was the topic chosen by Walter Crider when he spoke to members of the Post Lions club Tuesday evening during the regular weekly meeting.

Special guests of the club were Mrs. J. A. Stallings and a group of her young singers. The group was presented by Lion Ben Owens. Jess Rodgers presided over the business session and J. N. Power served as program chairman.

Visitors of the club were Rich-ard Dudley of Lubbock and Ralph Welch, a former member of the club and its past president.

The club favored a "get-out and vote" movement and each member pledged to participate by contacting friends.

## Medical Seminar Is Slated At Lubbock

AUSTIN, Tex. (Sp.)—A one-day medical seminar, designed to bring the latest advances in medical science to the Lubbock area family doctors, will be held in Lubbock, Thursday, July 22, 1954.

The site of the meeting will be the Caprock Hotel. Registration will begin promptly at 8:30 a. m.

This was announced today by Dr. Hugh Pennington, Lubbock physician.

Guest lecturers, all faculty members of Southwestern Medical School of the University of Texas, Dallas, will be Drs. Leon-ard L. Madison, Robert J. Rowe and Charles B. Shuey.

The postgraduate training course is one of a series spon- sored over the State by the Tex- as Academy of General Practice, state organization of family doc- tors. The courses are especially tailored to fit the needs of fam- ily doctors but are sufficiently broad to appeal to specialists as well.

All doctors of medicine in the Lubbock Area are invited to reg- ister for the course, whether members of the Academy or not. Dr. Pennington states.

In Connecticut, the Smiths out-number the Browns two to one.

## SPORTS FLASHES

### Leaders Winners?

If tradition means anything, the New York Giants and Cleve-land Indians should meet in the 1954 World's Series. There's a saying that the leaders on the Fourth of July will be the win- ners. Actually, says The Sport- ing News, American League teams that led on Independence Day have won 35 pennants in 53 years. In the National, 33 of the Fourth of July leaders have tak- en the flag.

### Attendance Stays Up

Although the Baltimore Orioles are a tail-end club, they've up- pered the top of the league in attendance. The Orioles on July Fourth had a total home attend- ance of 661,000. Only one club in the American League had done any better, the Cleveland Indians had played to 666,000. The New York Yankees were in third place, with 648,000.

### Gag Got Tiresome

A gag, no matter how good it was to begin with, can get tire- some. Umpire Bill McKinley of the American League is from the family of the assassinated Pres- ident McKinley. As reported in The Sporting News, he's tired of hearing, "They shot the wrong McKinley." It was on the funny side when Dizzy Dean first used it while broadcasting at Yankee Stadium.

### Nothing New For Him

Braves Pitcher Gene Conley hasn't been in baseball long, but winning honors is nothing new to him. When he was chosen as a member of the National League's All-Star Game pitching staff, it was his third major hon- or in a brief career. In his first year in baseball, 1951, when he was with Hartford of the Eastern League, he was named The Sporting News outstanding minor league player. Last year he repeated, getting The Sporting News accolade for winning 23 games at Toledo in the Ameri- can Association.

### Hex On Yankees

If there's one pitcher who has had a hex on the Yankees this season it's Willard Nixon of the Red Sox. When Nixon beat the Yankees, 6 to 1, on June 30, it was his third victory of the sea- son over the New Yorkers. No other right-hander had beaten the world's champions more than once up to July. While Nixon is rough on the Yanks, he's a pat- sy to the Indians and White Sox. He had started four times against Cleveland without last-

## Post Loses At Smyer, To Play Lamesa Here

Post Wood Bees lost to Smyer, 4 to 5, Sunday afternoon in a return game played there. The host team scored two runs in the bottom half of the first in- ning and three in the second to maintain a lead all the way.

Post's first tally came in the second inning when Buddy Hays scored on a single by Dink Tay- lor. The other three scores were marked up by Alton Taylor, Shorty Hester and Nolan Wil- liams during the fifth period of play.

The Wood Bees will meet a Lamesa team here Sunday af- ternoon at 2:30 o'clock.

## Cantaloupes Grow Together To Make One Huge Melon

They might be called Siame- se twins, identical twins, or just buddy-buddies . . . those two golden ripe cantaloupes that were left at the Dispatch office Monday morning by Mrs. John J. Veach.

It all began weeks back when the two blooms became entangled on the vine and grew together. The fruits de- veloped into better than average size cantaloupes, oblong in shape, measuring 34 inches in circumference, 42 inches the long way around, and 11 inches in diameter. They weighed six and half pounds.

Mrs. Veach grew the melons in her garden in West Post. Some cantaloupes . . . and good too!

## Long Boys Return To States From Far East

Charles R. Long, seaman, USN, son of Mr. and Mrs. Lee L. Long and Travis Long, seaman, USN, son of Mr. and Mrs. Floyd A. Long of Post, returned to the United States last week after seven and one-half months in the Far East aboard the attack aircraft carrier USS Essex.

The Essex docked at the Naval Air Station after steaming over 57,600 miles during her third Far Eastern cruise since being recommissioned in 1951.

## Hard On Cardinals

The St. Louis Cardinals are experiencing concussing bits of luck with Chicago pitchers this season. Paul Minner, the Cub southpaw, beat the Redbirds the first four times he faced them, while his right handed team- mate, Johnny Klippstein, lost his first three games. Those three setbacks, incidentally, were the only defeats suffered by the Cubs in their first 11 games with St. Louis.

## PARK FUND GIFT

Caprock Chevrolet, Inc., recent- ly donated \$15 to the park de- velopment fund, city officials have announced. The money was won by the firm in the decorated float contest in the Post Stamp- pede Rodeo parade.

Mrs. Preston Mathis returned home last Thursday after spend- ing a week's vacation with her husband at the Skyline Lodge in Platoro, Colo.

## 100 Strikeouts

Baltimore's Bob Turley was the first major league pitcher to reach the 100 mark in strike- outs, says The Sporting News. Turley fanned five Tigers while beating Detroit, 5 to 3, on July 3. That raised his strikeout total to 103.

**Wheat Growers Of County Are Urged To Vote In Wheat Quota Referendum**

On July 23, at the Garza County ASC Office, wheat growers of Garza County will vote for or against marketing quotas for the 1955 crop.

The referendum, according to Julius C. Fumagalli, chairman of the Garza County Agricultural Stabilization and Conservation committee, will determine whether or not the quota program now in effect will continue for next year's crop.

Two-thirds of those who vote must approve quotas before they can be put into operation. The current program, which was voted on a year ago, was approved by 87 per cent of the voters.

Julius C. Fumagalli, chairman ASC Committee, urges every eligible wheat grower in Garza County to vote. A producer is eligible to vote if he will have more than 15 acres of wheat on his farm for harvest in 1955. In other words, he can vote if he would be affected directly by quotas, which apply only to farms with more than 15 acres of wheat.

If quotas are approved, there will be marketing penalties on any "excess" wheat—produced outside the acreage allotment—and the full level of price support authorized for 1955 will be available for those who comply with their allotments. If quotas are not approved, there will be no quotas or marketing penalties, and price support for those who stay within their allotments will be at 50 per cent of parity.

Farm allotment notices, as well as an explanatory leaflet giving the essential facts of the 1955 program, were sent out on July 15, 1954, to Garza County wheat growers of record. The following voting place in the county will be open from 8:00 o'clock a. m. to 7:00 o'clock p. m. on Friday, July 23.

**To The Voters of Precinct No. 1**

Since it has been almost impossible for Mr. J. A. Johnson to see every voter in the precinct, in his campaign for the office of

**Constable of Precinct 1**

We his friends, take this means of asking for your vote for him on July 24.

Mr. Johnson is a deserving man and is thoroughly qualified for the office he seeks.

Too, we would like to offer our assistance in carrying disabled persons to the polls.

**Back BEN RAMSEY For LIEUTENANT GOVERNOR**

**SOUND INSURANCE FOR TEXAS FAMILIES**

BEN RAMSEY, as a man who has fought the battle of water and soil conservation, knows it is the state's foremost challenge. A statewide coordinated program, integrating flood control, soil conservation, power and recreation, Ramsey says, is necessary to the state's welfare and economy.
