FIRST STERILE FLIES

The first box of sterile screw-worm flies from the new production plant at Mission came off the assembly line Wednesday and were released over Southern Texas by Friday.

"This is a great day in the short history of the Southwest Screw-worm Eradication Program," Dr. G. D. Stallworth, supervising veterinarian for the Texas Animal Health Commission, said. "It is second in importance only to the day when we will turn out the last box of flies that will complete the eradication program."

Sexual sterility of screw-worm flies is accomplished by subjecting pupae to radiation from cobalt-60, which emits gamma rays. Pupae are then packaged in cartons, held until they emerge as flies, and then dropped by airplane. About 1 to 5 per cent of the total fly production is not sterilized and provides brood stock for continued production. The fly colony was established on Sunday, June 17, the day after formal dedication of the plant. All operations of the plant are timed to coincide with the normal life cycle of the screw-worm.

"We now have a plant to produce from 50 up to 75 million sterile flies per week, the volume needed for eradication of this costly livestock pest in the Southwest," Marvin J. Bridges, executive director of the Southwest Animal Health Research Foundation, commented.

"The increased supply of sterile flies from this plant will not only greatly strengthen the eradication effort, but also will provide flies for future tests on establishing and maintaining a barrier zone to be formed by continuously releasing sterile flies along portions of the U. S.-Mexican border," Dr. S. C. Gartman, assistant veterinarian in charge, Animal Disease Eradication Division, U. S. Department of Agriculture, added.

Program officials outlined these

Shriners Elect New Imperial Potentate At Toronto

TORONTO—Newly elected Imperial Potentate of 830,000 Shriners, George M. Klepper (left), being presented jewel of office by Marshall M. Porter, immediate Past Imperial Potentate, at the fraternal organization's 88th Imperial Council Session in Toronto. The new Shrine leader is a Memphis, Tennessee, lawyer. He will direct 1962-63 affairs of 166 Shrine temples and 17 hospitals for crippled children throughout the United States, Canada, Mexico and the Panama Canal Zone. Porter, a justice of the Supreme Court of Alberta, Canada, resides in Calgary.

plans for the months ahead. The temporary facilities at Kerrville will continue to produce about 23 million flies per week as production at the Mission plant is increased. The Kerrville unit will be gradually closed and personnel and equipment transferred to Mission.

Plans are for the Mission plant to build up to around 50 million flies per week within the next 2 to 3 months, the average production called for in the program budget. This will then be increased for a short period to the 75-million capacity.

This production will provide for release of sterile flies in those

areas where overwintering populations must be eliminated, where outlying outbreaks threaten to spill over into an area already free of screw-worms, and to maintain the artificial barrier. Flies will not be used in areas where cold weather can be expected to eliminate in a short time any threat to a screw-worm-free overwintering area.

Flies are now being released in Texas over a 60,000-square mile area below a line that runs from Del Rio northeast to Coleman, east to Comanche, and southeast to Port O'Connor, plus 7,000 square miles in southern New Mexico.

Diagnosis of cancer need not be considered a sentence of death

Ever since the first spark of life appeared on this earth, cancer has been one of the most fearsome, most enigmatic diseases mankind has had to contend with. But we know more about it than is generally realized. We know enough, in fact, that a diagnosis of cancer need not be considered a sentence of death.

We know that all types of cancer are different since they affect different tissues of the body. We know cancer has no respect whatever for age, although it does occur more frequently after 40. Conversely, we know it ranks high as a cause of death among children.

Cancer is not inherited, although a tendency towards cancer sometimes occurs in families.

We know that cancer is not contagious or communicable from one person to another. We know that certain agents or conditions will cause certain types of cancer or are factors in causing cancer. For example, exposure to sunlight over long periods of time (farmers, seamen) is known to cause skin cancer. Certain chemicals such as aniline dyes may cause cancer in experimental animals.

An injury or prolonged irritation of the mouth or lip area such as sometimes comes with habitual

pipe smoking is also a factor in causing cancer. Prolonged exposure to x-ray or radium may also cause cancer of the skin or other parts of the body.

Perhaps the most important thing we know about cancer is that many cases can be cured by early removal by surgery or by irradiation with cobalt, x-ray, or radium or a combination of these techniques. Rapid strides are now being made in treatment of certain types of cases with chemical compounds.

Since it can be cured, why do more than 10,000 people die in Tex-

as with cancer each year? Because by the time the disease is recognized it is too far advanced for effective treatment. Many of these persons could be saved by early diagnosis and treatment.

If this one cardinal fact could be drilled into the minds of people until it moved them to have periodic health check-ups, cancer deaths could be greatly reduced.

...my electric home freezer frees me!

"It seems I have so much more time since we got our electric home freezer—but then it isn't that I really have more time—it's just that I can make better use of my time. For example, when I'm baking pies I bake extra ones and then put them in the freezer. That way I don't get myself tied down baking a pie for guests—I just take one out of the freezer. Yes, my electric freezer frees me!"

# Southland Baptists to open revival Sunday

By MRS. JESSE A. WARD

The Southland Baptist Church will begin their revival, Sunday, July 22 and continue through Sunday, July 29. The Baptist pastor at Morton will do the preaching and Vernon Scott will be song leader.

Mr. and Mrs. Ed Denton returned home Saturday from Rock Creek. They plan to meet their daughters and families, Mr. and Mrs. E. W. Lichey of Durant, Okla., and the C. E. Carson family of MacDill Air Force Base in Florida, about Aug. 1. The Carson family is en route to Alaska.

Mr. and Mrs. Clark Cowdrey spent the weekend with their parents.

Mrs. Jesse Ward visited Monday with Mrs. Thelma Burkett at Pleasant Valley.

Mrs. Stanley Smith and Deborah returned home Monday to Canyon after spending two weeks with her parents, Mr. and Mrs. Jesse Ward. Mike Smith of Levelland spent the weekend in the Ward home.

Kelly Jo Myers spent the weekend with Mr. and Mrs. Ronnie Kagan at Afton.

MR. AND MRS. R. V. Hart and Dennis of Seagraves spent two days last week with the Jack Myers.

Dale Forbis of Crosbyton, Ross Bearden of Matador, Karen Myers of Girard, Don Forbis and Jerry Gage visited Kelly Jo Myers Sunday night.

Mrs. Hubert Taylor and Mrs. Jack Myers of the Southland WMLU helped serve supper Tuesday night at the Baptist camp near Floydada.

Mr. and Mrs. Weldon McGeehee and family and the Clark Cowdreys of Levelland spent the Fourth of July holidays at the lake on the Colorado river.

Mrs. S. D. Martin was a dinner visitor Saturday with the Ed Dentons.

Mrs. Clark Cowdrey visited Mrs. Stanley Smith Saturday afternoon.

Mrs. W. T. Sheppard and Mrs. G. E. White of Lubbock spent two days with their sister and brother-in-law, Mr. and Mrs. Earl Morris. Dahlma Winterrood broke her arm while visiting her grandmother, Mrs. Lightfoot in Fort Worth.

MR. AND MRS. Jack Myers

spent Sunday with the Kenneth Davies.

Kelly Jo Myers rode at the Crosbyton rodeo and won second place in girls barrel racing.

Sunday of last week, the Rev. Hugh Hunt of Lubbock preached at the Southland Methodist Church. That night Rev. Marvin Boyd of Lubbock preached and held quarterly conference.

Mrs. Jack Myers stayed four days last week with the K. D. Myers of Crosbyton.

The Martin Edmunds visited the Jesse Wards Sunday afternoon.

Terri Connor of Slaton visited her grandparents, the Hawton Haires, last week.

Mr. and Mrs. Wilson Dial, Mr. and Mrs. Burgin Dial of Lubbock and Mrs. Lewie Jordan of Petersburg were Sunday evening visitors of the Jesse Wards.

Mr. and Mrs. T. L. Barnes celebrated their 60th wedding anniversary in their home Sunday afternoon. Their daughter, Mrs. Grace Kane, of Amarillo spent the weekend.

The Jack Myers family attended the Old Settlers reunion at Stamford, July 4th.

Mr. and Mrs. Arden Maeker, Marilyn and Pam of San Diego, Calif., after spending several days with her parents, the Earl Morrises left last Tuesday for Albuquerque. They went by way of Albuquerque, N. M. to visit her sister and brother-in-law, The W. A. Lymans, Marc and Leslie of Dallas joined the Maekers here for a weekend visit in their parents home. Marc remained for a longer visit with his grandparents.

J. B. Potts, vice-president of the First National Bank, is attending the Southwestern graduate school of banking in Fort Worth which started Monday and will continue for two weeks.

### GO TO COLLEGE . . .

## Which Is Right Choice For High School Grad?

### ABOUT GOING TO COLLEGE

Question: Should I go to college?

Answer: Yes—if your high school grades were good enough; if you can pass an entrance examination; if you can afford it.

Question: Why should I go to college?

Answer: To continue your education and place yourself in a better position in your chosen field.

Question: Will a college degree guarantee me a job and a high income?

Answer: A college degree certifies that you have completed a specified course of education. You still have to get out and get yourself a job, just as a high school graduate does. And you have to "earn" your way to the top.

Question: Then, why shouldn't I go ahead and get a job right now?

Answer: You can get a job right now—but a job that requires no more than a high school education will not pay as much as a job which sets a college degree as a requirement. As we said earlier, a college degree puts you into a position to realize a higher salary for your services.

Question: If I start now, with some good company, isn't it possible I might receive several promotions in four years, and by then have a good start on a career?

Answer: It's possible. It's also possible that four years from now you will discover that a co-worker, with a similar salary and similar pay, is fresh out of college—and you must compete with him for future promotions.

Question: Is a college education really so important in getting a "good" job and is it such a factor in company promotions?

Answer: Simply stated, the best jobs go to college graduates because employers believe the college graduate is better qualified

to accept a position of responsibility. If a high school graduate has outstanding qualifications, he may do well in any field; but another individual, with equal qualifications, plus the added recommendation of a college diploma, is certain to do better. As to the matter of promotions in business, put yourself in an employer's position: If you had two men of equal ability and talents, except that one had a college education, which man would you promote?

Question: Should I go on to college even though I have not yet chosen a career?

Answer: Certainly. The college of your choice will appoint an advisor to chart a course of general study and lend counsel to guide you to the choice of a career for which you are suited.

### GETTING A JOB NOW

Question: I don't want to go to college. I want to get a job right away. How do I go about it?

Answer: Decide the type of job you would like to have . . . factory work, office work, selling, etc. Once you have chosen the type of work you wish to do, make a list of the companies in your community which might hire you. Visit the personnel office of each and fill out an application for employment.

Question: Is that all there is to it? I just go around and make an application?

Answer: That is the beginning. When you make application for employment, you let a prospective employer know that you are available. He may not need you today or tomorrow. Next week, however, an opening may arise and he will be looking through the job applications filed with the personnel office to see if a likely candidate for the job is available.

Question: Then, if I am suited for the job, they call me and tell me when to report to work?

### . . . Or Get A Job

Answer: Not exactly. The job application that you fill out at a company personnel office does not always tell an employer all that he would like to know about you. The job application provides general information. If you are considered for employment, you will be asked to come in for a job interview at which time more specific questions will be asked.

Question: What preparations should I make for a job interview?

Answer: You should be prepared to "sell" yourself—to convince your interviewer that you are "the man for the job."

Employers want neat, intelligent, and efficient employees.

The first impression you make is through appearance. Dress neatly, be well manicured and polished, but don't overdo it. If your clothes are flashy, you might be considered too flashy for the job.

An interviewer will judge intelligence not by how much you say but rather by what you say and how you say it. Don't be afraid to talk about yourself, your hobbies, your achievements, whatever they may be, but don't brag it out.

How can you display efficiency during a one-time interview? Simply by showing that you have given some advance thought to the interview. Bring with you a folder containing documents that will be of interest to your prospective employer—your birth certificate, high school credits, a certificate of health, and a brief resume, or personal history. You might even prepare a scrapbook, using information about yourself from your school yearbook, local newspaper, including two or three character recommendations from responsible adults. Your interviewer might give this only a casual glance, but he will be impressed—and he will know that you are sincerely trying to "sell" yourself and show that you are capable of handling the job which you seek.

Question: What if I can't find an opening in the field of my choice? What do I do then?

Answer: Get a job—doing whatever you like "second best," or doing something you don't like to do, if this becomes necessary. Look for a "second choice" job that will give you some free time to continue looking for the kind of a job that you really want. It's always easier to get a new job if you are working, rather than unemployed.

### ON VACATION TRIP

Mr. and Mrs. Victor Hudman and sons, Sonny, Curtis and Joe, left Saturday for an extended vacation trip through the Pacific Northwest and into Canada. They plan to be gone from three to four weeks and will return by way of Seattle, Wash., to visit the World's Fair in progress there.

shal, Bill Hays and one other fireman will attend from Post.

About 1,700 firemen are expected to register for the school, according to Chief Henry D. Smith of the firemen training program.

Chief Smith said that there will be three courses for this year's training school. They include the basic firefighting course which includes the burning and extinguishing of a five-room furnished house, training in sprinkler system operations, and training in all types of fire extinguishers; the advanced firefighting course, which emphasizes petroleum fires, and the industrial firefighting course.

The training school will be conducted by 260 experienced instructors made available by municipalities, industries, manufacturers, state and federal agencies, and armed services.

Thirteen separate 30-hour training courses will be offered. Completion of the course with a grade of 70 or better will result in a certificate for the department and the fireman.

Key rate insurance credit is given to Texas cities and towns for attendance and successful completion of the required course by respective firemen. Credits range from 3 to 5 per cent depending upon the number of firemen in attendance.

The 1,700 firemen will be housed in the cadet dormitories on the college campus. Feeding facilities will be provided by the Shisa Dining Hall.

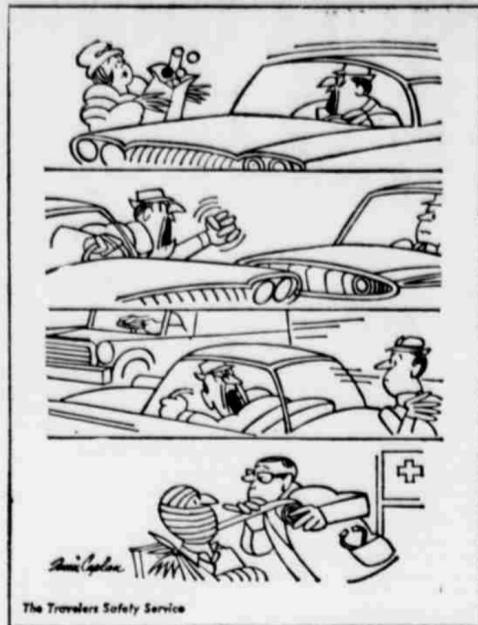

The training school, under the auspices of the State Firemen's and Fire Marshals' Association of Texas, is conducted by the Engineering Extension Service cooperating with the industrial education division of the Texas Education Agency.

### For November election

# Order of amendments on ballot determined

AUSTIN — Secretary of State Frank Lane has announced the order in which the proposed constitutional amendments will appear on the ballot in the November general election. Position of each amendment was determined by drawing.

The amendment to provide workmen's compensation insurance for government employees won the top spot on the ballot.

Others, in the order they will appear, are:

Raise the limit on the use of state funds to assist aged, blind and dependent children to \$52 million.

Permit creation of hospital districts in Ochiltree, Castro, Hansford and Hopkins counties.

Provide for state conservation storage facilities in reservoirs.

Authorize retirement, disability and death benefits for elected and

appointed officers who have served 12 years or more.

Insure continuity of state and local governmental operations in emergencies resulting from disasters.

Establish a ceiling of \$2.5 million per year on the amount that may be paid out of state funds for aid to the totally and permanently disabled.

Authorize the construction, equipping, maintenance and financing of a home for the aged in Titus County and permit the legislature to authorize the creation of two hospital districts in Brazoria County.

Permit state employees to serve as a consultant or on an advisory committee.

Authorize the resale of lands of the veterans land fund.

Delegate limited zoning powers to any county bordering on the Gulf.

Provide that taxes or bonds previously voted in any school district, the major portion of which is in Dallas County, shall not be abrogated, cancelled or invalidated by any change in boundaries.

Provide for trials on all appeals from administrative or executive agencies of government.

J. G. Stacy, nephew of Mr. and Mrs. Marshall Mason of Post, has been re-elected commander of Levelland's William E. Evans Post No. 417 of the American Legion. Stacy, who is manager of the Stacy-Mason Furniture Co. at Levelland, is a former resident of Garza County.

### WEEKEND GUESTS

Mr. and Mrs. Lewis Campbell, Brenda, Melinda, and Mrs. Campbell's mother, Mrs. Meeks of Tyler, spent the weekend with Rev. and Mrs. Bernard Ramsey.

## Post woman is campaign chairman in Garza for GOP candidate Jack Cox

Mrs. Earl Chapman of Post has accepted the campaign chairmanship for Jack Cox in Garza County, it is announced by Hal Sayles of Abilene, campaign chairman for the 24th Senatorial District.

Cox, a Breckenridge drilling contractor and native West Texan, won the Republican nomination for the governorship by landslide in the May primary. He faces Democrat John Connally in the November election.

Cox gained valuable experience in the working as state government through three terms in the Texas legislature, being elected in 1946, 1948 and 1950. He served on 12 different committees during his six years in office, including such important committees as Oil, Gas and Mining; Revenue and Taxation; and Appropriations, where he served as vice chairman.

In 1956, Cox and his partner established Pico Drilling Company, of which he is vice president.

He served a six-year term on the Texas Commission on Higher Education.

The Future Farmers of America awarded him the Lone Star Farmer degree in 1959. Since 1959, he has served as Texas Representative on the National Americanism Commission of the American Legion. In recognition of his devotion to the cause of freedom, Cox received the Freedom Foundation Award in 1958, 1959, and again in 1962.

In his first statewide bid for political office Cox polled more than 600,000 votes for governor in 1960. In 1961, Cox stated publicly that he felt his conservative principles were no longer welcome in the Democratic Party, and offered himself service to the people of Texas through the Republican Party.

**Rural accident toll decreases**

The Highway Patrol investigated rural accidents in Garza County during the month of June, according to Sgt. A. E. Roberts, patrol supervisor of this area. The two wrecks accounted for persons injured and an estimated property damage of \$2,899. The rural traffic accident summary for Garza County through the first six months of 1962 shows a total of 17 accidents. As a result of these wrecks, there was one person killed, six injured and property damage estimated at \$11,300. The above figures compare with the first six months of 1961's total of 21 accidents, killing three per-

**West Texas farmers may soon be growing sunflowers as cash crop**

Farmers throughout West Texas may be growing sunflowers as a cash crop in the near future, if scientists at the High Plains Research Foundation are successful in their attempt to breed improved varieties for commercial use. The sunflower plant, which was being used by the Indians when the earliest European explorers discovered North America, offers considerable promise as a potential cash crop for West Texas. Of particular importance is the fact that it is a drought tolerant plant well adapted to our soil and climatic conditions. It can be grown with

less water than most other crops such as corn, grain sorghum, soybeans, cotton, and castorbeans. Several hundred plant types from Russia, Canada, Chile, Columbia and South Africa are under study at the Foundation. Dr. Earl Collister, chief agronomist, and Barry Love, assistant agronomist and Paul Belcher, technician, are conducting the plant breeding program. Superior plants are being self-pollinated for use in developing high yielding varieties adapted to complete mechanization. The goal of the breeding program is to develop varieties that can be harvested with a regular grain combine. The sunflower seed could be marketed as an oilseed crop to oil mills, sold directly to feed mills, or consumed on the farm as feed for poultry and livestock. The whole seed is an excellent feed for poultry and livestock. It contains a higher percentage of total digestible nutrients, protein, and fat than many other feed crops, particularly corn, oats, and wheat. Sunflower seed contain approximately 30 per cent oil or fat, which is classified as a very high quality semi-drying oil, and approximately 22 per cent protein. The oil is used in the manufacture of drugs, shortenings, salad dressings, oleomargarine, and liniments. The meal or flour from the sunflower seed is an excellent source of protein, minerals, and vitamins. It contains above 50 per cent protein, is unusually rich in calcium, an excellent source of thiamine or vitamin B1, and particularly outstanding in its supply of niacin. From the standpoint of nutritional value, sunflower meal would be a very desirable ingredient in human food products. On commenting about the future of sunflowers as a crop for the future, Dr. Collister stated, "sunflowers could be an important cash crop for the farmers of West Texas, since it can be grown with less water than most crops." "With our declining water table throughout the High Plains of West Texas, crops of this type will be essential in our farming program in the future."

**Integration sought at Denver City**

DENVER CITY — A petition seeking a school integration election is being circulated this week by the Denver City school board. The petition follows the board's recent announcement that similar elections called at Seagraves and Brownfield have made it necessary for the local district to take action. Denver City has been sending its Negro students to elementary and junior high schools at Seagraves and to high school at Brownfield. If those schools are integrated, Denver City will have no place to send its Negro students, the board pointed out.

**Sidewalk Sale**

**Just for Example —**

One grocer sold 1,100 hot dogs — that's right, 1,100 hot dogs — although he ran out for 3 hours Friday and ran out again late Saturday morning.

One store sold an estimated 40 to 50 dozen shirts in 2 days. More could have been sold. The problem? The store ran out of shirts.

One merchant cooked a 19-pound turkey on the sidewalk Saturday afternoon — and gave away bites. He got only one himself.

**Dozens and Dozens of Shoppers told store owners and clerks they hadn't had so much fun in years. They were pleased. And they appreciated the bargain bonanza.**

**Those Poor Merchants and Clerks!**

They said afterwards they'd never been so tired — even during the Christmas rush. Bob Smith said he went to bed at 9 o'clock Friday night.

### Brucellosis tests all favorable at halfway mark

The brucellosis testing of Garza County's cattle reached the halfway mark this week with no reactors yet found. County Agent Syd Conner announced yesterday afternoon.

That means everything is favorable to date.

Conner said over 2,000 head of cattle, a representative sample of some 8,000 head of cattle in the county's larger herds, have been tested through yesterday.

Testing of Double U cattle has been completed the first three days of this week, he reported.

The county agent predicted that if the weather holds, the testing program will be finished by the last of July or during the first week in August.

"The testing to date has been of the larger herds which enabled us to cover more cattle quicker than we will experience when we begin testing the smaller sized herds," Conner explained.

Dr. Rice of Scurry County is in charge of the testing unit here, that includes a portable laboratory set up in the courthouse parking lot here.

Conner said the testing to date indicates the county has approximately 16,000 head of cattle, an increase over last year's enumeration.

### RECENT VISITORS

Recent visitors in the home of Mr. and Mrs. C. J. Brownlow were Mr. and Mrs. A. S. Bishop and three children of Elk Grove, Calif., Mr. and Mrs. Billy Joe White and four children of Amarillo, and Mr. and Mrs. Charles Wilburn and daughter of Celeste.

### Student loan—

(Continued From Page 1)  
This is one of Rotary's principal local projects.

Those who have received loans from the fund include the late William Bullard, killed in a plane crash. Ross Morrow, now studying for his doctor's degree, David Pennington, a college graduate now an engineer on the West Coast, Bobby Dunlap, who is studying for his doctor's degree, Gerald Bradley, a Tech graduate in Textile engineering now employed at Poser Mills here, David King, who has completed three years of college and is now in Germany in army uniform, Charles Cheshire, Auvy Lee McBride, Leon Davis, Jackie Payne, Dalton Copple, B. A. Ford, and the following four who are still in college, Bill Stephens, Gary Masters, David McCampbell and Kathy Stone.

Eligibility requirements for the loans, Acker explained, is based on high moral character, good scholastic rating, sincere desire for higher learning, and graduation from Post High School.

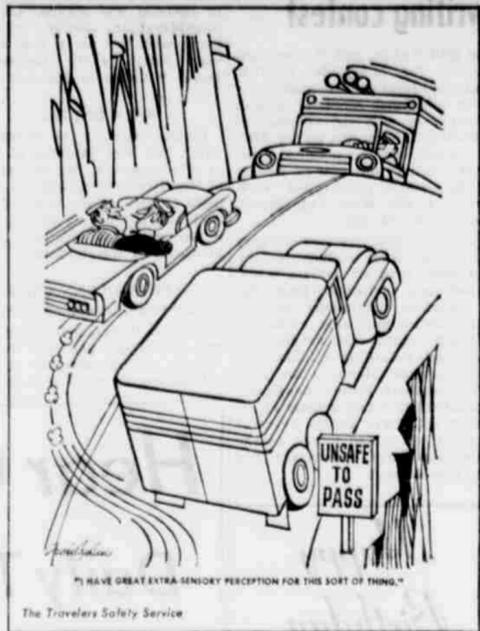

Maximum loans are \$2,000 for four years of study, which includes \$800 for the freshman year, and \$400 each for the remaining three years. Those receiving loans are required to have part-time jobs during their final three years, but this is not necessary for the first year of adjustment to college work, Acker explained.

Applications for loan continuation must be made each semester with the student receiving the loan making his or her grades available to the committee and discussing personal finances with it.

Students are expected to repay their loans so the fund can re-ceive. Those receiving loans sign notes for each semester, carrying four per cent interest, with the first note being due six months after graduation, Acker said. Each student receiving loan is required to provide a 10 year term life insurance policy to the amount of \$1,500 with assignment to the loan fund.

Directors of the Community Student Loan Fund, Acker said, include Irby Metcalf, Giles McCrary, Buster Moreland, R. T. Smith, Ollie Weakley, Glenn Whittenberg, Chant Lee, Mr. and Mrs. Willard Kirkpatrick, T. C. Clark, Acker, and Mrs. B. E. Young, treasurer.

Yesterday afternoon's showers, according to first reports here this morning, included showers of up to half an inch in the Pleasant Valley area, showers of good size west of Close City, and more rain in the Graham area, which received a good soaking Tuesday. Tate said yesterday the city reservoir west of town was within two feet of being filled Wednesday morning. It had been five feet below the "full mark" 24 hours earlier.

"We're all right for this week" was the way Tate put it.

### White River—

(Continued From Page 1)  
trict plans no appeal, directors decided at Crosbyton last Thursday after being informed of the commission's award and discussing it. The district will have the money "waiting at the courthouse"—some \$98,000—for Mrs. Walker and can take possession of the property immediately.

Approximately 2,200 acres will be sought for the damsite from the Jones estate.

IN THE condemnation hearing, conducted earlier last week, Lloyd Wicks of Rails, the White River district's attorney, called Charles A. Whitfield, an appraiser, to testify that he placed the value on Mrs. Walker's land at \$32.50 an acre. Whitfield recently retired after 29 years service as a federal land bank appraiser and is now a private appraiser.

The condemnation commission, composed of E. H. Flourney, federal land bank executive secretary, E. H. Williams, rancher, and Curtis Wheeler, farmer-rancher, heard Bill Armstrong, Lubbock attorney, argue in behalf of Mrs. Walker that the White River district had no legal authority to condemn the property sought.

Mrs. Walker's attorney offered no testimony as the value of the land.

JIM NICHOLS of the engineering firm of Freese, Nichols, and Endress of Fort Worth, the district's consulting engineers, told The Dispatch Tuesday afternoon from Fort Worth that confirmed low bidders on the six White River dam project contracts were:

Dan — Luce Construction Co. of Vernon, Tex., \$1,006,152.65.

Water filtration plant — Talon Construction Co. of Texarkana, \$467,900.

Pump stations and tank foundations — Talon Construction Co., \$78,445.

Bolted steel ground storage tanks — Black, Sivalis and Bryson of Midland, \$77,740.

Pipeline to four cities — Steed Construction Co. of Fort Worth, \$1,705,432, figuring a 16 inch pipeline to Post. Figuring an 18 inch line

the cost would be increased by \$75,000.

Pumps — Friese and Firstenberg of Fresno, Calif., low evaluation bid of \$36,909. The low evaluation bid means the best bid after considering the efficiency of the pumps, in other words the lowest cost over the long run.

Nichols said he will attend the meeting at Rails tonight and will give directors his firm's verbal recommendations for the awarding of contracts at that time.

He said the firm will recommend the 16 inch line to Post unless negotiations with oil companies in this area for purchase of surplus water would indicate enough additional revenue to build the 18 inch line.

Action may come tonight at the directors session on considering the fencing of the west side of the damsite and completion of the road into the actual damsite.

The six low bids for the project total \$3,372,578.25, almost exactly \$100,000 above engineers' estimates of \$3,276,000. The only real "miss" on the estimates was for the construction of the big dam itself. The low bid was \$163,952 above estimates.

### VACATION IN EAST

Mrs. Virgie Long returned home Saturday from a two week vacation trip. She visited one week with relatives in Louisiana and then went to Succasunna, N. J. to spend a week with her son and daughter-in-law, Mr. and Mrs. Loy Long. She visited Radio City Music Hall in New York City and visited in Washington, D. C.

had so much fun in years."

City-wide promotion of this type proves to the shoppers that the merchants are strictly "on the ball" and out to attract the customers. They also prove to the merchants that good cooperation and planning are really worth while in getting the folks down to Main Street.

Howdy Days are planned to be something different every month. In August, it will be a Back to School promotion with plenty of new and fresh ideas. In September it will be something else different.

Merchants at a luncheon yesterday reported it drew some customers they "hadn't seen in a long time" and, in fact, some who hadn't been trading in Post before, but who were attracted here by the promotion and enjoyed getting acquainted. That means if they like what they found they probably will be back, maybe to trade on a more regular basis.

So watch for next month's Howdy Days. It won't be a Sidewalk Sale—but merchants are hoping it will be a promotion everyone will like and will want to participate in.

Garza County officials' in administration of the welfare program.

She said, in answer to a question from a Dispatch reporter, there are "no employables" on the state welfare rolls.

In a discussion of the operation of the state welfare distribution program, Judge explained that employees who find jobs drawing free commodities are removed from the welfare rolls if it is reported to the office that they refused work. Those who were capable of performing main eligible for the surplus commodities which are given to state welfare.

Of the 132 now drawing commodities, 90 of them are aged persons on the state welfare aid rolls. Only 42 of the other three state welfare categories and employable, who are hard up but not for state welfare.

Mrs. Weaver pointed out that she helps the aged to draw the state commodities because state welfare aid checks month are not very large.

### HOME FROM WACO

Dejuana Kimbrell, daughter of Mrs. Juanella McCallan, returned home Saturday from Waco, spending a month visiting aunts, Mrs. Richard Schuler, Morris Ranny and Mrs. Glad Daniels, and their families and grandfather, John Kimbrell, Pauls Valley, Okla. # IS YOUR CHILD GETTING 15 MINUTES OF ORGANIZED ACTIVITY

# EVERY DAY AT SCHOOL?

You may think so. But you could be mistaken. The truth is that in many schools, vigorous physical education activities that develop strength, flexibility, agility and endurance are not scheduled as an integral part of the daily program.

And this is one reason why the physical fitness of our children has declined. In fact, recent pilot studies showed that almost half of the youngsters tested proved to be physically under par. Isn't this reason enough for more emphasis on an organized program of physical education?

Fortunately, a program has been developed that will get our children back in shape. It is a minimum program, and it can be carried out in any school—at very little cost and with a minimum of time.

All it takes is 15 minutes of vigorous activity every day during the physical education period. In schools that have adopted such a daily program, boys and girls have shown a remarkable improvement in their physical status.

Certainly, you want your child to develop his body as well as his mind. So, why not find out about the present physical education program in your child's school?

Take it up at your next PTA meeting. Insist that a full 15 minutes every day is spent in vigorous, body-building activities as part of a scheduled program.

# 2 Post All-Star teams in district tournaments today

## BR team at Levelland; Little Leaguers, Slaton

Two teams of Post All-Stars—the Babe Ruth League and Little League—begin district tournament this afternoon at Levelland, respectively.

The Babe Ruth All-Stars are scheduled to play either Frontier at Lamesa at 6 p. m. today at Levelland. At the same time, the Little League All-Stars will take the field at Slaton against O'Connell in a first-round game of the district tournament there.

Competition will be keen in both tournaments, since the top teams throughout the districts will be playing for the right to advance to the regional tournaments.

The Babe Ruth League All-Stars will have a first round bye at Levelland where the tournament got underway Monday with games between Brownfield and Canyon, Hale and Levelland, Frontier and Slaton, and Dumas and Plainview. The first-round byes along with first-round games were won by Fritch, Muleshoe and Slaton. The championship game is set for 8 p. m. Saturday.

The Post All-Stars "warmed up" the district tournament by winning the Garza County Teen-Age Baseball Tournament at Levelland.

Members of the Babe Ruth League All-Star squad are Robert Morceau, Benny Owen, Raymond Villa, Teddy Scott, Butch Cross, Danny Pierce, Chunky Johnson, Ruben Solis, Luis Ayala, J. C. Demming, Johnny Bilberry, Don Altman, Alvin Harper, Joe Hall and Charles Landroop.

Pat N. Walker, whose Dodger team won the Little League championship, is manager of the Little League All-Stars. Assistant manager is Auvy McBride, whose Cardinals finished second in the Little League standings.

Members of the Little League All-Star squad and the team for which they played during the regular season are as follows: Clyde C. Ash, Roy Sappington, Roger Kirby and Ronnie Petty, Dodgers; Joe Reno, Leroy Saldivar, Darrell Odom and John Cato, Cardinals; Dick Kennedy, Junior Little, Danny Cooper and Jimmy Jones, Red Sox; Norman Tanner, Floyd Moreau, Alton Steel and Billy Cates, Corvairs; Nick Pantaja and Donnie Cole, Yankees.

Many local fans are expected to accompany the all-star teams to the Levelland and Slaton tournaments.

Ben Owen is president of the local Babe Ruth League and Bud Avant is Little League president.

## Houston Colt .45s are in longest home stand

The Houston Colt .45s began their longest home stand of the season Sunday, July 15 with a doubleheader against the Chicago Cubs. The Colt .45s will play 14 games in 11 days with three games vs. Cubs, four vs. the Philadelphia Phillies, four vs. the St. Louis Cardinals and three vs. the San Francisco Giants.

Manager Mauch's Philadelphia Phillies have been the .45s' jinx this season, played a twin doubleheader on Tuesday, July 15 and Thursday, July 16. Wednesday was a "Sixshooter" night and Thursday will be a family night with all children under admitted free when accompanied by a parent. Thursday also will be "Meet the Colt Families Night" as all of the team players, wives, and children will be introduced to the fans presented gifts prior to the game.

Ken Boyer and Bill Mazouza will lead Johnny Keane's St. Louis Cardinals into Colt Stadium in a weekend series Friday night, July 20. Saturday, July 21 at 1:30 p. m. Saturday, July 22 at 2:30 p. m. Sunday, July 23 will be "Stan the Home" as the great Cardinals slugger will be honored prior to the game for all of his outstanding contributions to baseball.

Monday, July 24 will provide first separate admission doubleheader in Houston history with an afternoon game at 1:30 p. m. (separate admission), and a night game at 7:30 p. m. (separate admission). The afternoon game will be "Youth Day" as all organized baseball teams with players 12 years of age or younger will be admitted free, in uniform, as long as there is one adult chap-

## Butch Cross' double wins tournament for Post team

Shortstop Butch Cross' seventh inning double, scoring Robert Morceau from first base, gave the Post Babe Ruth League All-Stars a 2-1 victory over Jayton here Monday night in the championship game of the Garza County Teen-Age Baseball Tournament.

Cross' double, a hard drive to left center, broke up a brilliant pitching duel between winner Danny Pierce of the All-Stars and Donnie Rinker of Jayton.

The hefty Jayton hurler gave up only two hits, the first a leadoff double by Chunky Johnson in the sixth inning and the second Cross' game-winning two-bagger.

Pierce, who relieved starter Teddy Scott after two innings, also surrendered just two hits, with Scott having given up one in the two innings he pitched.

The All-Stars drew first blood in the bottom of the fifth when Cross walked with two out, went to third on an overthrow at second by the Jayton catcher and then stole home.

Jayton tied it up in the top of the sixth when Willie Smith singled, stole second and scored on catcher Gary Murrell's double to left.

Post threatened in the bottom of the sixth when Johnson led off with a two-base blow and Johnny Bilberry walked after Altman had bounced out to the pitcher. Charles Landroop also bounced out to the mound and Pierce went down swinging to end the inning.

Jayton got men on second and third with two out in the top of the

## Hopkins sixth at Plainview; Garner and Stelzer win

Charles Hopkins of Post tied for sixth place with a 143 Sunday afternoon in the finals of the annual Plainview Golf Tournament.

O. C. (Oscar) Garner won the third flight championship and J. C. Stelzer captured the seventh flight title.

Hopkins shared sixth place in the championship flight with Bill Holstead of Wichita Falls.

Jerry Holmes of Wichita Falls won the championship, successfully defending the crown he won last year in the same tournament.

Hopkins moved into the finals of the championship flight Saturday by beating Ronnie Craig of Lubbock, 2 and 1.

The Post golfer had the second best score of the day in first round play Friday. He finished with a four-under par 64 in winning over Bill Perkins of Petersburg, 7 and 6. Hopkins would have been five-under, but he bogeyed the final hole.

Garner won the third flight championship by defeating Roy Benefield, 1-up on 19, after defeating Ed Lewis, 1-up in the semifinals.

Stelzer annexed the seventh flight championship by beating John Barnhill of Matador, 3 and 2. The Post golfer had won over Bob McGrath, 8 and 7, in the semifinals.

## Teddy Scott is batting champ

Teddy Scott, pitcher and infielder for the champion White Sox, is this season's batting champion of Post's Babe Ruth League.

Teddy, who had a .400 batting average at the close of the season, was presented a Louisville Slugger Batting Champion certificate.

The presentation was made by Ben Owen, Babe Ruth League president, at the conclusion of Monday night's tournament game between the Post All-Stars and Jayton.

Teddy, who will be a sophomore in Post High School, played varsity football and basketball as a freshman. He is the son of Mr. and Mrs. Wesley Scott.

## New sermon series on love and marriage

The Rev. Bernard S. Ramsey will begin a new series of Sunday evening sermons Sunday at the First Christian Church entitled, "Love and Marriage."

Some of the subjects for the 7 p. m. service will be "Prelude to Happy Marriage", "Strains Upon the Wedding March", and "Until Death."

The sermon topic for the 11 a. m. Sunday service will be "When the Golden Sun is Sinking."

## Dodgers beat Cards, 3-2, for LL title

First National Bank's Dodgers defeated the Fire Department's Cardinals, 3 to 2, Saturday night to win the 1962 championship of Post's Little League.

Manager Pat Walker's Dodgers got off to a one-run first-inning lead, with second baseman Larry Holland scoring after leading off with a two-bagger.

The Cardinals went around the Dodgers in the top of the fourth when M. Johnson's hit scored Le-

## Post girl wins softball throw in Abilene meet

Janie Carradine, with a heave of 163 feet, won first place in the senior division softball throw Saturday at the Abilene City Recreation Department Track and Field Meet, held in ACC Stadium.

Members of the Post girls' track and field team scored a total of 44 points before the meet was called because of rain.

Carradine scored 22 of the 44 points. Besides winning the softball throw, she placed third in the 8-pound shot put and third in the 60-yard hurdles.

Other points scored by Post in the senior division came on Nita Wilson's third place in the 8-pound shot put.

Post picked up six points in the intermediate division on a third place by Cheryl Martin in the 50-yard hurdles and a fifth place by Shirley Isaacs in the running broad jump.

Cheryl Pennell scored 10 points for Post in the junior division with a third in the standing broad jump and a fourth in the running broad jump.

Four Post girls had qualified for the finals in three relay - out events. They were Cheryl Pennell and Sherry Woods in both the 50 and 75-yard dashes in the junior division, and Cheryl Martin and Shirley Isaacs in the 50-yard dash, intermediate division.

The Post girls, who have enjoyed unusual success in this, their first year in track, are coached by Van Kountz of the Post schools' coaching staff.

## Cash's tonsils giving trouble

Norman Cash, Detroit's first baseman, missed a doubleheader with Cleveland last week because of illness which physicians attributed to infected tonsils.

The tonsils won't come out until after the season closes. The Sporting News reported this week.

Cash also was hit in the left arm by a pitch in Saturday's televised game with the Chicago White Sox and had to leave the contest, but was back in the lineup the next day.

Cash, as of Tuesday afternoon, was the club's leading home run hitter with 23 despite a batting average down in the .240's.

With Al Kaline due to return to the Tiger lineup July 27 Detroit is hopeful of still getting going and making a race out of it with New York for the American League pennant.

**JURY DUTY**

Jury duty is an experience everybody ought to have.

In a criminal case twelve jurors have a duty to do justice as each one sees it, and yet be unanimous. In most trials both sides have much to say, and the evidence is conflicting. The twelve jurors vary in their ability, temperament, character, education, and their experience in the world, and in the question at stake.

Yet a jury made up of both sexes, with wide age and educational differences, jobs and origins must all come up with the same verdict. Upon their verdict much depends—the life or liberty of others, and the public good. So it may take them days of talking among themselves, all to agree.

Jury duty calls for insight, common sense, courage, tact, fairness, patience, (especially toward the jurors who disagree with you), good humor, tolerance, balance, willingness to hear others out and change one's mind, readiness to go over and over the facts to find something to bring agreement. In short, jury duty demands a "decent respect to the opinions" of others.

More and more women share civic duties, especially as jurors. Time was in Texas when women could not serve on juries. They still cannot in four states.

A jury finds facts. It hears and weighs evidence and then comes to a verdict. It does not make the law—the legislature does; and the judge "charges" or instructs the jury concerning the law applicable to the particular case it is considering.

The judge will tell you not to find the accused guilty until he is proved so under strict rules of evidence. If you have any "reasonable doubt,"—not imaginary or far-fetched—acquit the accused.

Civil cases do not demand a moral certainty, merely the "preponderance" of what you regard as reliable and believable evidence.

Q. Did veterans of the Revolutionary War draw pensions in old age, and if so, how much were they paid.

A. Yes. The Act of March 18, 1818, authorized payments to former officers and servicemen of the Army and Navy who were citizens of the United States and who became in need of financial support from their country because of reduced circumstances. The payments were for life and amounted to \$20 a month for commissioned officers, and \$8 a month for enlisted personnel. Requirements were service until the end of the war or for a period of at least nine months or longer during the war which was officially ended in April, 1783, when the Treaty of Peace was ratified by the States.

Q. Have memorial plots in national cemeteries been set aside to honor memories of "missing in action" veterans?

A. Yes. This also applies to deceased members of the Armed Forces whose bodies were not identified, or were lost or buried at sea or listed as unrecoverable. For further information, check any Veterans Administration office.

Q. Where can a veteran replace lost discharge papers?

A. To the Military Personnel Records Center, General Services Administration, 9700 Page Boulevard, St. Louis 32, Mo.

**Give Us This Day**

Harvest time makes a man think.

The bread God gives us has to be cut, threshed, shipped, baked, wrapped and delivered before it ever reaches our mouths. And long before, it had to be sowed in a ploughed field, cultivated, irrigated, and fretted over a thousand times.

Lots of work in it for man. No gift wrapping with a ribbon around it.

But don't think we could get along without God! Leave out His part and there would be no harvest — no point in all our work.

So wheat inspires worship! And every Sunday in Church reminds us that we never labor alone . . . that our labors gain fruitfulness from God.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support

the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

# OUTDOORS IN TEXAS

By VERN SANFORD  
This column is going to be about Micropterus Salmoides. It's better known as the black bass and is called the largemouth bass.

In other states he is known by such names as the bronzeback, the green trout, just plain ole trout, linesides, or bigmouth. He's a scrapper—peculiar, temperamental, greedy—but a prize on any fisherman's line. There's no mistaking what's got your bait when Old Micropterus latches on to and heads for the nearest cover.

Texas lakes, rivers, creeks and tanks harbor uncounted millions of black bass. Far too many of them are much too smart to be caught. Everybody wants to catch them but not everyone is successful. And no fisherman catches blacks every trip out.

Large or small, black bass put up a battle that tires a strong man's arms and breaks good tackle.

BLACK BASS are found nearly everywhere . . . in Canada, the Mississippi Valley, the plains of

North Carolina, the Swamps and glades of Florida, south of the Border down Mexico way, and in most all the lakes and rivers of the Lone Star State.

He gains enormous size in Florida. Even though the world's record black—22½ pounds—was caught in Georgia, Florida is known as the Black Bass State.

You'd never guess it, but the black bass is related to the sunfish family. However, he doesn't look very much like his pee-wee relatives.

The black bass is a pot-bellied rascal with a large mouth. His jaw extends back beyond his eyes. He has vertical bars and dark spots on his sides, and soft spinous dorsal fins that are almost separated.

When taken from clear-water lakes and streams, black bass are dark green on back and sides, shading to silver and a yellow-white belly. In clear water the broad black band on each side is very muddy, however, all colors are paler and the stripes rather indistinct.

Black bass usually spawn in Texas during the second year of life. Slow developing fish may hold off until the third year. They spawn in two to six feet of water.

LIKE MANY fish, the male takes charge of the family raising. For a nest he fans out an indentation in the sand or mud two or three feet wide and about six inches deep. Once the nest is completed the male defends it ferociously.

Only when the water reaches 65 or 70 degrees temperature does spawning begin. Two to seven thousand eggs are laid to each pound of female, with the large females producing the larger number in proportion to body weight.

Spawning is irregular, but when the nest is filled with eggs the male takes over during the eight to ten days of hatching time. He doesn't eat, but lies still, or gently swims back and forth across the nest, watching for any predators.

During the nesting period the black bass is especially susceptible to lures dragged across the nesting area. He will attack with unusual force and ferocity.

Ordinarily a nest produces about 5,000 young. Papa takes charge of the small fry until they are about an inch long, then turns them loose on their own. After that they are not only the lawful prey of other fish, turtles, garfish, and other predators, but also supply their own brothers and sisters with easy meals.

Black bass eat all sorts of things as a natural diet. These include insects, crawfish, small fish, frogs, mice, and sometimes little ducks and goslings. The small fry, however, eat insects almost exclusively.

MOST FISH grow rapidly, and black bass are no exception. On the average they grow to about five inches during the first year.

In an environment where there is lots to eat, a young bass may—in one year—reach up to eight inches, sometimes even more. After three years, most bass, unless in an overcrowded lake, will tip the scales at more than two pounds.

Black bass are perhaps the anglers most prized catch. Certainly so if you exclude such localized species of game fish as rainbow trout, pike, salmon, and a few others.

## Ladies Auxiliary of VFW announces annual high school writing contest

The Ladies Auxiliary to the Veterans of Foreign Wars announced today the opening of its 28th annual National High School Writing Contest. The topic will be "What I Can Do for My Country."

The writing contest, first started in 1935, is intended to put before the student some problem of patriotism, citizenship or similar topic about which he must study and learn in order to write the essay.

During the last school year some 40,000 students wrote on the contest topic, "America the Beautiful—How Long Without Clean Water?" The U. S. Department of Health, Education and Welfare supplied students with free kits of background readings on water and the importance of pollution control, and awarded to each state winner a special certificate. Dr. Albert E. Burke, Cheshire, Conn., an authority on conservation and world affairs, served as chairman of the national judges.

Students in all public, private and parochial high schools are eligible to enter the contest. National prizes are: First, \$1,000 cash; second, \$500; third, \$250; fourth, \$100.

Because the black bass is so widely distributed and is so well known by so many fishermen, live-alike, he is the first one thought of when game fish are mentioned.

Artificial lure anglers take black bass on just about every sort of tackle. Bait casting rods from five and one-half to six feet were once very popular. Now, however, the spinning rod has found wide acceptance. Then, of course, there is the fly rod.

Bait-casting rods should be equipped with fast-tip action, a light-weight reel and 10 to 20 lb. test nylon line.

SPINNING RODS of six and one-half to seven-foot lengths, with fast-tip action, and 6 to 10-lb. monofilament line are popular among bass fishers.

As for fly fishers—tubular glass fly rods from seven and one-half to nine feet in length with either ast-tip or power-plus action are popular.

Proper bait covers a wide range for this voracious fish. All the live baits previously mentioned, plus the following artificial lures and flies are sure-getters: wet and dry flies, bass bugs, sinking lures, diving, floating and surface lures. Also, spoons, spinners, bucktails, and pork rind. And let's not forget—the plastic worm—the most successful bait for many big bass fishermen.

Fish the deep holes under rock tributaries, especially where dead trees, stumps, lily pads and brush abound. From daylight to 8 or 9 a. m., and from 4 p. m. to dark, ordinarily, are the best hours to fish.

Learn to be a good black bass fisherman and you will be considered tops among your contemporaries. More prestige is attached to having black bass know-how than to any other form of Texas fresh-water fishing.

It takes lots of casting practice, many days of fishing, and a concentrated study of black bass habits to make you an expert black bass fisherman. So go out and start fishing for black bass now.

## Card of Thanks

We wish to express our sincere thanks to each and every one who was mindful of us during our stay in the hospital. We appreciate so much your visits, cards, flowers, and those of you who gave your time to sit with us. We also thank you for the food and those who brought tractors and helped in the field, and for the cash donations.

The H. A. Roberts family

We wish to express our deepest appreciation to all our friends and neighbors for their thoughtful kindness, flowers and cards during my stay in the hospital. My sincere thanks to the nurses and to Dr. Matthews.

Mr. and Mrs. J. T. Curb and children

I wish to thank all my friends who were so kind and thoughtful during my stay in the hospital and since I have returned home. I am especially grateful for the visits, cards, flowers, and other expressions of kindness.

## HAPPY APPLE SUNDAES

Sundaes are blissfully easy desserts, for you start with scoops of ice cream and simply add the toppings.

One jolly notion is to fill a large bowl with ice cream balls, set out a variety of toppings and let each one concoct his own Sundae. This is gleeful going. Here are some suggestions:

### HAPPY APPLE GINGERED TOPPING (piquant and spicy)

1/4 cup chopped candied ginger 2 cups canned apple sauce  
1 quart vanilla ice cream

Combine candied ginger and apple sauce; chill in refrigerator several hours or overnight. Place a serving of vanilla ice cream in individual dishes; top with the sauce. Makes 6 servings.

### HAPPY APPLE ORANGE SUGAR SAUCE (pungent and refreshing)

2 cups canned apple sauce 2 tablespoons orange juice  
1/2 cup light brown sugar 1 quart vanilla ice cream  
2 tablespoons grated orange rind

Combine apple sauce and sugar; heat until sugar melts. Cool; add orange rind and juice. Chill several hours. Place vanilla ice cream in individual serving dishes; top with the sauce. Makes 6 servings.

### HAPPY APPLE PEPPERMINT CRUNCH TOPPING (rosy as a posy)

1/2 cup crushed peppermint stick 2 cups canned apple sauce  
candy or after dinner mints 1 quart vanilla ice cream

Combine candy and apple sauce; chill in refrigerator several hours, or overnight. Place vanilla ice cream in individual serving dishes; top with the sauce. Makes 6 servings.

## Golden wedding anniversary for Lubbock couple

Mr. and Mrs. C. T. Potts of Route 4, Lubbock were honored on their Golden Wedding anniversary last Saturday at the Slide Road Clubhouse in Lubbock.

Hosts for the reception were their sons and daughter: Mrs. Bob Mason of Alameda, Calif., Charles T. Potts and James A. Potts, both of Amarillo and J. B. Potts of Post.

Sixty guests registered between the hours of 3 and 5 o'clock.

Mr. and Mrs. Potts were married in Haskell County and moved to Lubbock County in 1916 where they farmed until his retirement in 1960. They have 11 grandchildren.

Mr. and Mrs. J. B. Potts and daughters attended from Post.

## Mrs. John Lott entertains club

Mrs. John Lott of Lubbock entertained the Needlecraft Club in her home last Friday at 3214 44th Street. Mrs. Lillian Tizard, mother of Mrs. Lott, was hostess for the regular club meeting.

Mrs. Lott served individual picnic lunches in pink ruffled baskets. The baskets contained fruit salad, potato chips, stuffed eggs, boiled ham and rolls and coffee and Cokes. Baked Alaska was served in pink clay flower pots with a pink petunia extending through a straw to top the dessert.

After luncheon was served, each member told how they had spent the Fourth of July when they were 16 years of age.

Games were played with Mrs. R. A. Moore and Mrs. S. C. Storie winning.

Those attending were: Mmes. Nell McCrary, Storie, C. M. Voss, F. C. Barker, M. J. Malouf, Jack Kennedy, Tillman Jones, L. G. Thuet Sr., H. W. Schmidt, Will Wright, Carl Jones, Moore, F. A. Gilley, H. J. Dietrich, J. C. Caylor and the hostesses, Lott and Tizard.

At a recent meeting of the club, Mrs. Storie became president; Mrs. Caylor took over the secretarial duties and Mrs. Schmidt was named reporter. Officers in the club are rotated every six months on a seniority basis.

## Mrs. Nichols hostess to Mystic Sewing Club

The Mystic Sewing Club met recently in the home of Mrs. Estelita Nichols. An hour of visiting and sewing followed during which a refreshment plate of open-face sandwiches, cookies and punch were served.

The following members were present: Mmes. Lillie Short, Eva Bailey, Alene Runkles, Jimmie Hudman, Lucy King, Estella Moreland and Miss Henrietta Nichols.

The next meeting will be Friday, July 20, in the home of Miss Nichols at 3 p. m.

### VISITS MOTHER

Weekend visitor in the home of Mrs. Jewel Graham was her son, Moody Graham of Wichita Falls.

## Joan Jennings is wed to Mike Millsap in Lubbock

The Second Baptist Church in Lubbock was the scene of vows at 7 p. m. Tuesday for Miss Joan Carole Jennings and Roger Michael (Mike) Millsap. The Rev. Robert J. Hearn, pastor of the church, officiated at the double ring ceremony.

Parents of the couple are Mr. and Mrs. F. A. Jennings, 5116 46th St., and Mr. and Mrs. Boyd P. Millsap, 3403 38th St., both of Lubbock. F. A. (Al) Jennings is drilling superintendent for Gould Drilling Company in Post.

Given in marriage by her father, the bride wore a princess gown of antique ivory peau de soie styled with a portrait neckline and long sleeves. The dome skirt was enhanced by back panels which swept into a chapel train with a silk rose atop the bustle back. Her fingertip-length veil of illusion fell from a miniature pillbox of peau de soie. She carried a bouquet of white rosebuds, carnations and lilies-of-the-valley.

Matron of honor was Mrs. Waylon H. Bostick of Dallas. She wore a sheath dress of white satin and added a red floral hat with a matching veil. She carried red carnations.

Best man was R. J. O'Hair,

brother-in-law of the bridegroom. Ushers were Ken Parker and Ted Goldsby.

Elizabeth Ann West, niece of the bride was flower girl. Mrs. Doug Corley was accompanied in wedding solos by Dr. Judson Maynard.

A reception followed the ceremony at the home of the bridegroom's sister, Mr. and Mrs. R. J. O'Hair, 2313 58th St.

For a trip to New Mexico, the bride chose a navy blue silk suit with matching hat and white accessories.

The couple will make their home at 2334-A 9th St. The bride is a graduate of Monterey High School and attended North Texas State University and Texas Tech. She plans to attend Merriman's Business College.

The bridegroom is a graduate of Monterey and is a junior accounting major at Texas Tech. He is associated in business with his father, Boyd P. Millsap, Certified Public Accountant. He served three years in the Infantry.

VISITOR MAKES PURCHASE AT SIDEWALK SALE

## Sidewalk Days outstanding success

Post's first Sidewalk Days last weekend were an outstanding success for most merchants.

Everyone was pleased by the turnout of shoppers. They kept on the prowl for the whole two days, although things slackened off in the blistering heat of mid-afternoon.

There was plenty of foot traffic—and that was the promotion was designed to draw. Most merchants we talked to Friday and Saturday were well pleased. The clerks were exhausted after the first day.

Commented one: "I went to bed at 9 p. m." Sidewalk Days proved its point to both shoppers and merchants. A cooperative effort on the part of all merchants pulls a lot more folks onto Main Street in a bargain search than the "real buy" kind from just two or three at a time. Sidewalk Days convinced most merchants that such promotions are well worth the effort.

We think it also convinced the shoppers that

Post merchants are right up on their toes. It proved the point that Post bargains are just as good and often better than bargains 39 miles up the road.

It showed that the merchants are interested in trade area shoppers and are ready to do their best to attract them, and serve them.

Lots of shoppers told us at our "picture stand" out front they were "having a ball" prowling around and looking. They were pleased and enjoyed themselves despite the heat.

Next time Howdy Days will be something different. But it will be based on the same principle—a united effort on the part of local merchants to attract shoppers into the business district to really shop around.

The merchants already are at work on the August promotion. And all ideas will be welcome. —JC

## Let's plan a pretty lake shore

We well understand that the construction of the White River dam is just about to begin and that construction of the big water project will take two years or so.

But we want to get a thought planted early—so it can have time to sink roots firmly and grow.

It won't be too long now when we will all have a fine recreational lake over on the White River as well as a very essential water supply.

Soon plans will be begun to plan the recreational areas, lay out cabin sites for leasing, and all of that. When it is, we would like to see this thought kept in mind.

Let's have a pretty lake shore—not an ugly one.

Let's give some thought to beauty, to properly laid out public picnic and use areas.

So many Texas lakes are so ugly because nothing along this line was planned in advance. Let's take advantage of that mistake and not make it ourselves.

What we propose doesn't mean spending a lot of money. It simply calls for planning and care.

We've already spoken to George (Scotty) Samson about it. Scotty, who's been working for the White River dam and lake from the very beginning six years ago, is on the White River district committee which will handle the recreational planning.

George has an eye for beauty few of us possess. What's more he has the long years of practical experience in how to put beauty in West Texas.

Public sentiment for a pretty lake shore however is essential too. Public sentiment not only here in Post, but in the other member towns of Spur, Ralls and Crosbyton.

We hope the other newspaper in our other member towns join us in this endeavor to plan an excellent, beautiful lake shore.

This is the type of project many folks and many organizations can take a hand in if they want to help. And we think they will.

Let's make our White River lake a beauty spot for all of us to enjoy in our leisure hours. And the time to start is now.—JC

## 'Family safety at work and play'

Just as is the case everywhere else, most accidents on the farm involve some human failure—improper attitudes, carelessness, lack of attention to rules and regulations, and many others.

These causes of accidents and how to prevent them is something to think about during the 19th annual Farm Safety Week, which is July 22-28. Theme for the week is "Family Safety at Work and Play" and major emphasis is being placed upon highways and farm machinery safety.

According to the Texas Farm and Ranch Safety Council, motor vehicle accidents account for almost half the fatal, but only a fifth of the non-fatal, injuries to farm people in the United States each year. In 1960, 11,300 farm residents died from accidents and 950,000 suffered disabling injuries. Of the total fatalities, 5,100 resulted from

traffic, and 3,300 from work accidents. No purpose is served by accident losses—on the farm or anywhere else. And most can be prevented.

Safety is no accident and the accomplishments of rural leaders and cooperating farm families and organizations in their work to reduce accidents was cited by the Safety Council. During the past decade, an 11 per cent decrease in the farm resident death rate has resulted from this cooperative effort.

But, warns the Council, we still have a long way to go to give farming and ranching a safety record equal to other national industries. Until every rural resident makes safety his business, our cooperative efforts must be continued, they add.—CD

## Auto merit insurance plan ends

Going out the window less than two weeks from now—Aug. 1, to be exact—is that "safe driver insurance plan" with its penalty points for traffic law violations and accidents.

The State Board of Insurance bowed to legislators' demands that it be greatly modified. But Board members felt it would be better to scrap the whole thing, and try to work out some plan for later adoption.

Most Texans will find that the abandonment of the merit rating plan will cost them money. This despite the fact that insured Texas car owners taken as a whole will pay \$10,000,000 less for car insurance in the coming year than they did this year.

However, two-thirds of the car owners—those who have been getting 20 per cent discounts because they have had no accidents or reported traffic convictions—will pay the full rates in the year

ahead. The other one-third—those who have been paying out as much as 100 per cent extra because of bad driving records—will save substantially. They will pay the same rates as everyone else.

One factor in the decision to drop the plan was concern by members of the Board—and the insurance industry—over the increasing number of car owners who were just doing without insurance. Board members felt that to increase the penalties, which would have been necessary to maintain the 20 per cent discount for the "safe drivers" would have made the safe driving plan even more out of balance financially.

Because auto insurance rates are set up by counties, and by types of cars and the age groups of drivers, it is not possible to say just what effect the rates will have. Local insurance agents soon will have the information.—CD

## Just be quiet and it'll go away

We've waited a long time about asking this question: As a parent or grandparent, do you disapprove of the Twist?

If you dislike the Twist, you are respectfully requested to say what you thought of the following "crazes," some of which date back to 1900: Cake Walk, Camel Walk, Eagle Rock, Shimmy, Black Bottom, Charleston, Snake Hips, Lindy Hop, Shim Sham, Truckin', Susie Q, Shorty George, Peckin', Boogie Woogie, Big Apple, Shag, Sand, Apple Jack, Mambo, Cha cha cha.

The Twist craze hit Post and hundreds of other small towns throughout the land with the

same impact, comparatively speaking, as it hit the larger towns and cities. So did Rock 'n' Roll a few years ago. Those who disapproved of Rock 'n' Roll have gleefully watched it fade away, and it'll be the same way with the Twist. Of course, there'll be new song and dance crazes coming along for those who disapprove of such things—as well as for those who approve of them.

Such crazes get under the skins of some people, but, thank goodness, there's really nothing upsetting about them—nothing earth-shaking. They're nothing more than a part of the constantly changing American scene.—CD

## What our contemporaries are saying

A fellow in his cups finally did the job the other day. Officers found him standing in the yard with a shotgun when they answered a Dallas disturbance call. "I finally did it," he said. They dashed into the house and found the man had blasted a hole in the picture tube of his television set. "I got so tired of that man talking about soap suds that I just shot the heck out of him," the man said as he rode to jail.—Neal Estes in

The Stanton Reporter.

You never know how hard it is to drive a bargain until you drive a second-hand car.—Marvin Tomme in The Ralls Banner.

## THURSDAY to THURSDAY

By CHARLES DIDWAY

HOW WERE things with you last Friday the 13th? Except for the weather, they weren't so hot for me. After waking up Friday morning, looking at the calendar and yawning, "So what!" I came to work and ran into all sorts of trouble—before the morning was over, that is. During the noon break, things began looking up and by nightfall everything was rosy again.

My Friday the 13th troubles started when I sauntered out to begin making on-the-scene shots of the Sidewalk Sale. I made it down the south side of Main Street okay, but a black cat must have sneaked across my path as I crossed over to the north side.

WAGGING THREE full film holders, the Speed Graphic camera and a box of flash bulbs, I stopped to make a picture of the Hospital Auxiliary ladies selling candy, and laid my three full film holders on the front fender of an automobile parked at the curb. After I had made the picture and turned around to pick up the film holders, they were gone—along with the automobile on which I had placed them.

That was a sinking feeling to realize in the space of a split second that you'd lost three film holders containing six exposed negatives, which represent quite a bit of work for any photographer, to say nothing of the monetary loss, since the photographic supply houses don't exactly give those film holders away.

WITH THE HELP of the three pink-clad Hospital Auxiliary members at the candy stand—Mmes. J. E. Parker, Wallace Simpson and Garland Davies, I narrowed the possibilities of whose automobile I had placed the film holders on down to the cars of Mrs. C. A. R. Jones and Mrs. Marion Smith, both of whom had driven away at just about or right after the time I arrived on the scene.

Mmes. PARKER and Davies came to my assistance by telephoning Mmes. Jones and Smith, while Mrs. Simpson stayed at the candy stand and helped me moan my loss. Both Mmes. Jones and Smith were very helpful when contacted by telephone and drove back over their original homeward routes to see if they could locate the missing film holders. No luck. Growing more panicky by the moment, I tried to track down the missing holders by searching the length of Main Street, including peering under all the cars parked at the curbing on the north side.

After sheepishly reporting my loss at The Dispatch office, I telephoned a "lost notice" in to radio station KUKO and moped home to lunch—with no appetite. Some 30 minutes later, the telephone jangled and Mrs. C. at The Dispatch informed my No. 2 son that the film holders had been found and returned to the office.

IT DEVELOPED that I had placed the holders, on neither Mrs. Jones' nor Mrs. Smith's automobile, but on another car at the curb, and it was the owner of this car who returned them. I didn't learn his name, but I am very grateful to him—he kept last Friday the 13th from being a Black Cat Day for me from start to finish.

Incidentally, after all that exposure to the sunlight, the films in only one of the holders were "fogged." So, you two groups of sidewalk salesmen who remember seeing me "shoot" you with the Speed Graphic, but who don't find your pictures in today's Dispatch will understand that they're the ones that were "fogged."

THE MAN UP the street describes a citizen as a man who demands better roads, bigger schools, a new post office and lower taxes.

A member of the Women's National Press Club, portraying orville Freeman, Secretary of Agriculture, in a recent show spoofing big shots, sang to the tune of "Dixie":

Oh I wish I'd never heard of cotton.

Wish that Estes were forgotten

Go away, go away, go away Billie Sol!

Oh I wish my aides had been much wiser,

Wish there were no fertilizer,

Go away, go away, go away Billie Sol!

SHORT AND SWEET: If you're average size, you're covered with 17 square feet of skin which weighs just over six pounds. . . . The lock and key industry estimates that the American public carries 12½ million pounds of keys in its pockets and purses each day—and loses three tons of them per week. . . . ## Scouts schedule aquatic camp

The South Plains Council, Boy Scouts of America, will have 52 Scouts and Explorers to attend the Aquatic Camp at Camp Ed Murphy during the week of July 22-28.

Camp Ed Murphy is located on Lake Thomas, near Snyder. This will be primarily an aquatic camp, where these boys may qualify for merit badges in swimming, life saving, canoeing and rowing. Also, they may qualify for the Scout Life Guard award, which includes all of the above-mentioned merit badges. Ernest Terry of Lubbock will serve as the provisional scoutmaster for the boys attending the camp.

A competent waterfront staff of men and young men will direct the aquatic program and offer training and instruction to the boys on the various aquatic merit badges.

**AUSTIN**—That "safe driver insurance plan" with its penalty for traffic law violations and accidents goes out the window Aug. 1.

State Board of Insurance bowed to legislators' demands that it be modified. But board members felt it would be better to scrap the whole thing, and try to work some other plan for later adoption.

Most Texans will find that the amendment of the merit rating plan will cost them money. This is the fact that insured Texas drivers taken as a whole will pay \$10,000.00 less for car insurance the coming year than they did last year.

However—two-thirds of the car owners—those who have been getting 20 per cent discounts because they have had no accidents or received traffic convictions—will pay full rates in the year ahead. It's not so bad, providing you just drive in and honk your horn for food or a refreshing drink at a drive-in. Treat yourself. Drive down.

**Mac's Drive-Inn**  
615 S. BROADWAY  
DIAL 2704 TO ORDER

One factor in the decision to drop the plan was concern by members of the Board—and the insurance industry—over the increasing number of car owners who just were doing without insurance. Board members felt that to increase the penalties, which would have been necessary to maintain the 20 per cent discount for the 'safe drivers', would drive even more people into no-insurance. This would have made the safe driving insurance plan even more out of balance statistically.

Because auto insurance rates are set by counties, and by types of cars and the age groups of drivers, it is not possible to say just what effect the rates will have. Local insurance agents soon will have the information.

**SCHOOLS' ALLOTMENT CUT**—State Comptroller Robert S. Calvert advised the Texas Board of Education that the Available School Fund's income for the 1962-63 school year should be \$197,058,604. The revenue is reaped from ad valorem taxes, poll taxes, interest on securities the school fund owns, motor fuel taxes, omnibus taxes and other revenue.

Board deducted \$8,737,536 to finance cost of purchasing and handling textbooks, and decided the balance between Texas' 2,387,234 children of school age.

So, the public schools will get \$78.50 per child next year; \$2 less for each than they were allotted in 1961.

While the 21-member board was on the subject of money, it passed a \$459,877,843 education budget for 1963, and offered State Education Commissioner J. W. Edgar a \$4,000 annual raise through federal funds.

Edgar "declined the honor", saying he felt his three assistants are more entitled to supplements since they are directly concerned with administering federal programs.

So, raises from \$11,000 to \$13,500 were voted for L. R. Graham, assistant commissioner of administration; Lee J. Wilborn, assistant commissioner for instruction, and M. A. Browning, assistant commissioner for vocational education.

Then the board agreed to ask the 58th Legislature to raise Edgar's salary of \$18,500 a year to \$24,000.

**when it convenes in January.**

**CREAM OF THE CROP**—A preliminary glance at the Texas Education Agency's survey of 80,000 teachers revealed that the state's public schools system is getting the "cream of the crop" of high school graduates. Study chairman R. W. Byram of Austin said that new teachers came from the top 25 per cent of their graduating classes.

But the distribution of education specialists seems to be uneven: All teaching colleges in the state graduated a total of only 80 language teachers last year, and only 2 per cent of those who took mathematics education degrees plan to teach, so schools will suffer shortages in those areas.

On the other hand, there's an estimated surfeit of English and history teachers... almost all the college graduates who majored in those two subjects plan to teach.

**"EXPATRIOTS" ON WAY**—Spindletop V. Spindletop V and their children, Paysand and Gushie—a quartet of "geologist" prairie dogs—took a long trip to Bismarck, N. D., where they'll take up residence at the Dakota Zoo.

The prairie dogs were a gift of Acting Governor Culp Krueger, who decided "to uphold the honor of Texas prairie dogs" by sending four of the best he could find, after the zoo's president, Chris Dahl, asked for some.

Krueger assured the zoo that "these prize prairie dogs will feel at home and will dig right in and endeavor to be worthy of their Texas heritage," in a letter claiming the animals have built-in advanced seismographic training which should help in North Dakota oil-field explorations.

**JUNIOR COLLEGE COST**—Texas taxpayers are having to pay more and more to educate youngsters who attend the state's 32 public junior colleges, according to a report from State Auditor C. H. Cavness. In the year ending August, 1961, they spent \$223.67 apiece on 23,150 full-time student equivalents, but the per capita cost leaped \$42.91 to an average of \$266.58 for each of 26,075 student equivalents—a total of \$6,951,000.

Although 37,175 full and part-time students are actually enrolled in the state schools, the legislature bases its appropriations on the total number of semester hours taken, divided by 15 (a full-time course load).

Biggest share of the current appropriation of almost \$7,000,000 went to San Antonio Junior College, which got \$775,750 for its 3,323 student equivalents. Clarendon Junior College, which has 113 student equivalents, was 32nd on the list with .58 per cent share of \$40,000.

**"TAINT TRUE"**—Railroad Commission Chairman William J. Murray Jr. surprised Capitol newsmen this week by issuing a denial of rumors about the East Texas Oil Field scandal before he even was asked about them.

He introduced, and then denied, a rumor that the Railroad Commission has provided the major oil

### 'Back to school' will be next Howdy Days theme

The second in a series of month-long Howdy Days, promoted jointly by all local merchants under the auspices of the Chamber of Commerce retail committee, will be a "Back to School" promotion in August.

Maxine Durrett, who was chairman of the highly successful Sidewalk Sale, asked various merchants Wednesday to point out strong points and weak spots as they found them in the Sidewalk Sale promotion.

Details are to be worked out during the coming week for presentation to merchants at a luncheon being in Levi's Restaurant next Tuesday noon.

Part of the answer will be provided in enjoyable form Friday night, at 7:30 o'clock, when the Mu Alpha chapter of Beta Sigma Phi clash with the Post Lions Club in a benefit softball game at the Babe Ruth League Park.

It's a man's world—or is it? Part of the answer will be provided in enjoyable form Friday night, at 7:30 o'clock, when the Mu Alpha chapter of Beta Sigma Phi clash with the Post Lions Club in a benefit softball game at the Babe Ruth League Park.

It's going to look more like a woman's world at gametime with the Lions decked out in feminine attire and playing under "professional names".

### 175 from Garza county on state welfare rolls

Approximately 175 Garza Counties are on state welfare rolls here in the four approved categories of aid to old age, dependent children, blind and totally disabled, it was announced here yesterday as arrangements were made to change supervision of those on welfare rolls in this county from the Spur area to the Lubbock area.

Tom Power, chairman of the Chamber's retail committee which originated the monthly promotions, told merchants that a different merchant each month would chairmen that month's event to give each promotion a fresh approach.

Mr. Leo Healer of Lubbock is the new supervisor of the Garza program with Harlow Redding of Lubbock as his field worker here.

Healer said for the present Redding would be in the courthouse here at the same time as formerly each week—9 a. m. to noon each Thursday.

Mrs. Johnnie Weaver of Spur is the supervisor from whose district the county has been moved.

Mrs. Weaver pointed out to Judge J. E. Parker's office during a conference on the change that all of her field workers and herself have been well pleased with the "exceptional cooperation of

## White River board seeks increased loan from state

White River directors will meet at Ralls tonight to consider an amended application to the Texas Water Department Board for additional financing above the \$4,000,000 loan already received to build the White River dam, filter plant and water pipelines.

Robert Work of Crosbyton, White River district secretary, pointed out that securing of the oil royalties will mean the district can prevent drilling out in the lake and require that any future oil tests at the lake be slant-drilled from a shore site under the lake.

Between \$200,000 and \$300,000 additional probably will be needed, but the exact amount cannot be accurately determined until completion of the purchase of the damsite.

Whether Mrs. Walker will accept the condemnation commission's award or will appeal it through the courts is not known. The dis-

Contractor's low bids at Crosbyton last Thursday for the six project contracts were approximately \$100,000 over engineers' estimates and land purchases also will be considerably over the five-year-old estimates.

See WHITE RIVER, Page 8

THE STATE BOARD will hold its next meeting in Austin Friday, July 27, with its loan committee meeting to pass on such applications on Thursday afternoon, July 26.

See WHITE RIVER, Page 8

If the amended application's amount can be determined in time, action could be forthcoming on the additional financing at the July 27 meeting.

See WHITE RIVER, Page 8

THE CONDEMNATION hearing award on some 1,900 acres of Mrs. Lee Walker's ranch in Crosby County sought for the damsite was made last Thursday afternoon in Crosbyton.
